INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Lower Petroglyphs Public Improvement District
and Mr. Timothy Keller
New Mexico State Auditor
Santa Fe, New Mexico

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the budgetary comparison for the general fund of Lower Petroglyphs Public Improvement District (the "District") as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund of the District, as of June 30, 2017, and the respective changes in financial position and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-7, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 9, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

LOWER PETROGLYPHS PUBLIC IMPROVEMENT DISTRICT
Management's Discussion and Analysis
June 30, 2017

As management of the Lower Petroglyphs Public Improvement District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ending June 30, 2017. We encourage readers to consider the financial information presented here in conjunction with the financial statements and accompanying notes which follow this section.

The District is a political subdivision of State of New Mexico duly created and existing pursuant to Sections 5-11-1 through 5-11-27 NMSA 2001, as amended, City of Albuquerque (City) City Council Bill No. F/S R-13-186 and City Resolution Enactment No. R-2013-059 adopted on June 24, 2013 (the "Formation Resolution.")

In addition to forming the District, the Formation Resolution also authorized the imposition and collection of a Special Levy against real property in the District, all of which will benefit from the Special Levy, to be used for the purpose, among others, of paying the principal of and interest on such bonds, as more particularly described herein.

FINANCIAL HIGHLIGHTS

The financial statements, which follow the Management's Discussion and Analysis, provide those significant key financial highlights for fiscal year 2017 as follows:

- In the Statements of Net Position, the District's total net position amounted to a deficit of \$7,260,182.
- In the Statements of Activities, the special levy revenue and general government expenses amounted to \$950,555 and \$74,192, respectively.
- In the Statements of Activities, the District incurred \$615,205 in debt service payments.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of: 1) government wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the fiscal years reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

In the government-wide financial statements, the District's activities are presented in the following category:

Governmental activities – Governmental activities include the District's basic activities to reimburse the developer for the construction of certain public infrastructure improvements as provided in the Act and the governing documents of the District, including the Development Agreement among the District, the developer and the City.

LOWER PETROGLYPHS PUBLIC IMPROVEMENT DISTRICT
Management's Discussion and Analysis
June 30, 2017

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The reconciliations are on pages 11 and 13, respectively.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 15 of these financial statements.

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a district's financial position. As of June 30, 2017, the District's liabilities exceeded assets by \$7,260,182.

The District was formed, and may reimburse the developer, for administrative and formation costs, and the acquisition of certain public infrastructure improvements, which are anticipated to include Tierra Pintada Boulevard improvements along the Stormcloud Subdivision Units 4 and 5 and Watershed Residential Development; Traffic signals at the intersections of Tierra Pintada Boulevard and Arroyo Vista Boulevard and Ladera Drive and Arroyo Vista Boulevard; and On-site and off-site roads, sewer, water, and storm drain facilities on the Land; and associated grading, landscaping, and soft costs, which may include but are not limited to planning, design, engineering, construction, testing, construction management, inspection, fees, gross receipts taxes, contingencies, and incidental expenses for the foregoing improvements constructed and installed by the Developer.

The following table presents the District's condensed net position for the fiscal years ended June 30:

		<u>2017</u>	<u>2016</u>
Current assets	\$	523,575	228,445
Total assets		523,575	228,445
Current Liabilities		529,769	439,724
Long-term obligations outstanding		7,253,988	7,311,014
Total liabilities		7,783,757	7,750,738
Net position – unrestricted (deficit)		(7,260,182)	(7,522,293)
Total net position (deficit)	\$	<u>(7,260,182)</u>	<u>(7,522,293)</u>

LOWER PETROGLYPHS PUBLIC IMPROVEMENT DISTRICT
Management's Discussion and Analysis
June 30, 2017

The following are significant transactions that have had an impact on the Statements of Net Position for the year ended June 30, 2017:

- Administrative expenditures and interest expense amounted to \$74,192 and \$615,205, respectively.
- Assessment of Special levy of \$950,555.

Changes in net position. The following table presents a summary of the changes in net position (deficit) for fiscal years ended June 30:

	<u>2017</u>	<u>2016</u>
General revenues:		
Special levy	\$ 950,555	417,112
Interest	953	120
Total revenues	<u>951,508</u>	<u>417,232</u>
Expenses:		
Public works-construction	-	(4,075,250)
Interest	(615,205)	(447,130)
General government	(74,192)	(94,330)
Total Expenditures	<u>(689,397)</u>	<u>(4,616,710)</u>
Change in Net Position	<u>\$ 262,111</u>	<u>(4,199,478)</u>

Financial Analysis of the Government's Funds

The District's revenues in the governmental funds for the year ended June 30, 2017 amounted to \$951,508 while expenditures amounted to \$653,682. The District's main source of revenue is the special levy assessed to properties within the District. The major expenditures of the District are debt service payments and administrative expenses. The general fund has unassigned fund balance of \$485,743, representing 74% of the total expenditures during the fiscal year.

General Fund Budgetary Highlights

The District adopts an annual budget, which projects the expected expenditures (based on administrative expenses, debt service requirements and estimated delinquency) and the interest income from funds, to determine the special levy each year. There were no significant changes between original and final budgets for fiscal year ending 2017.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The District owns no significant capital assets. It is anticipated that the District will not, in the future, own any capital assets. The capital improvements that are to be financed by the District are all to be dedicated to the City. It is anticipated that all dedications will be done by the developer directly to the City, on behalf of the District.

Pursuant to Resolution No. 2014-01 adopted on May 22, 2014, the District issued its \$3,235,764 Series 2014 Subordinated Promissory Note on July 8, 2014 and its \$4,075,250 Series 2015 Subordinated Promissory Note on December 22, 2015. Under the Indenture dated July 1, 2014, the Notes are payable from revenues received by the District in each fiscal year from the payment of the Special Levy, authorized pursuant to the Act to be levied against parcels of land within the District in accordance with the Rate and Method of Apportionment of the Special Levy for the District approved by the City in the Formation Resolution.

The outstanding debt at June 30, 2017 is \$7,253,988.

LOWER PETROGLYPHS PUBLIC IMPROVEMENT DISTRICT

Notes to the Financial Statements

June 30, 2017

NOTE 1. REPORTING ENTITY

Lower Petroglyphs Public Improvement District (District) is a political subdivision of State of New Mexico duly created and existing pursuant to the Public Improvement District Act, NMSA 1978, §§ 5-11-1 to -27 (2001, as amended) and City of Albuquerque City Council Bill No. F/S R-13-186, Enactment No. R-2013-059, adopted on June 24, 2013 (the "Formation Resolution").

The purpose of the District, pursuant to the resolution of the City of Albuquerque (the "City") that formed the District, is to provide financing of the infrastructure improvements set forth in the Master Development Plan that was approved by the City and as required pursuant to the Act and the Master Development Agreement among the District, the City and the developer.

The District follows the standards promulgated by GASB Statement No. 14, *The Financial Reporting Entity*, and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, to define the reporting entity. The District is not a component of any other governmental entity and the District has no subordinate component units.

The District is governed by the District Board, consisting of four directors. The District Board has control over and management supervision of all affairs of the District. Directors serve six-year terms.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's policies are described below.

Basis of Presentation

Government-Wide Statements. The Statement of Net Position and Statement of Activities present financial information about reporting government as a whole. These statements include the financial activities of the overall District in its entirety. Eliminations have been made to minimize the double counting of internal transactions. District activities generally are financed through special levy taxes.

The Statement of Activities presents a comparison between direct expenses and direct revenues for each function of the District governmental activities. Direct expenses are those that are specifically associated with and clearly identifiable to a particular function. Direct revenues include special levy on property covered by the District and interest income.

Fund Financial Statements. Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures. An emphasis is placed on major funds. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category.
- b. Total assets, liabilities, revenues, or expenditures of the individual governmental fund are at least 5 percent of the corresponding total for all governmental funds combined.

LOWER PETROGLYPHS PUBLIC IMPROVEMENT DISTRICT
Notes to the Financial Statements
June 30, 2017

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation (Continued)

Governmental Funds. The District's General Fund is the only major fund for the fiscal year 2017. The General Fund is the District's primary operating fund. It accounts for all the financial resources of the general government except those required to be accounted for in another fund.

Measurement Focus and Basis of Accounting

The Government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recognized when earned and expenses are recognized at the time liabilities are incurred, regardless of when the related cash transaction takes place. On an accrual basis, revenue from special levy is recognized in the fiscal year during which the taxes are earned.

The governmental fund statements are reported using the current resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when they are both measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. Amount collected after the sixty-day period is recognized as deferred inflows of resources.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on the bond obligations, which are recognized as expenditures when paid. Proceeds from the issuance of bond obligations are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the District policy to use restricted first, then unrestricted as they are needed.

Cash Equivalents. The District considers all highly liquid debt instruments with original maturity of three months or less when purchased to be cash equivalents.

Receivables. All receivables are reported at their gross value, and where appropriate, are reduced by the estimated portion that is expected to be uncollectible. At June 30, 2017, an allowance for uncollectible accounts was not considered necessary as all accounts are considered collectible.

Capital Assets. As capital assets are constructed, the ownership will be transferred to the City. As a result, the District does not capitalize any capital assets on its financial statements.

Long-Term Obligations. In the Government-wide financial statements, long-term debts are reported as liabilities. Long-term obligations of the governmental funds payable from the general revenues of the District are reported in the District-wide financial statements. Payments of principal and interest are reported as expenditures in the fund financial statements.

Special Levy. The District imposes a Special Levy, which secures the payment of the debt service on the District's Revenue Note Obligation.

The Special Levy is to be billed and collected by Bernalillo County in the same manner and at the same time as general ad valorem property taxes. Assessments are made as of January 1 of each year, with one-half of the taxes on that assessment due the following November 10 and one-half due April 10 of the next calendar year. The Special Levy installment due November 10 becomes delinquent on December 11, while the April 10 installment becomes delinquent on May 11. The Special Levy shall be subject to foreclosure by the District at any time after six months following written notice of delinquency to the owner of the real property to which the delinquency applies. The lien shall include delinquencies, penalties and interest thereon at a rate not to exceed the maximum legal rate of interest per year and penalties otherwise applicable.

LOWER PETROGLYPHS PUBLIC IMPROVEMENT DISTRICT
Notes to the Financial Statements
June 30, 2017

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The New Mexico State Legislature, pursuant to Section 7-37-5.4, NMSA 1978, enacted a law providing an exemption from the imposition of special levies in Public Improvement Districts for the principal place of residence for a disabled veteran, as defined in the legislation. The law extends the exemption to surviving spouses provided (1) the spouse and the disabled veteran were married at the time of the disabled veteran's death, (2) the surviving spouse continues to occupy the property continuously after the disabled veteran's death as the spouse's principal place of residence and (3) the surviving spouse has remained unmarried since the time of the disabled veteran's death.

The District determined that a total of zero (0) lot was subject to this exemption for fiscal year 2017. The District has no definitive information on the number of residences in the District that could in the future become subject to such exemption.

Fund Balance. As of June 30, 2017, the fund balances of governmental funds are classified as follows:

Restricted – amounts to be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Unassigned – All other spendable amounts.

The District has no fund balances that are classified as non-spendable, committed or assigned.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Budgets. The budget is adopted on a modified accrual basis of accounting. The legal compliance for the budget is total expenditures.

NOTE 3. DEPOSITS

The District is authorized under the provision of Chapter 6, Article 10, paragraph 10, NMSA 1978, annotated, to deposit its money in banks, savings and loan associations and/or credit unions whose accounts are insured by an agency of the United States.

All money not immediately necessary for the public uses of the District may be invested in bonds or negotiable securities of the United States, the state or any county, municipality or town, securities that are issued by the United States government or by its agencies or instrumentalities or in contracts with banks, savings and loan associations or credit unions for the present purchase and resale at a specified time in the future of specific securities. If the District is unable to receive payment on public money at the rate of interest set forth by the State Board of Finance from financial institutions within the geographic boundaries of the governmental unit, the District may invest its money as provided under Section 6-10-10.1 NMSA 1978 with the New Mexico State Treasurer's investment pool for a period greater than 181 days. The State Treasurer's investment pool shall be invested as provided for State funds under Section 60-10-10 NMSA 1978. The District has not formally adopted a deposit and investment policy that limits the government's allowable deposits or investments and addresses the specific types of risk to which the government is exposed.

LOWER PETROGLYPHS PUBLIC IMPROVEMENT DISTRICT
Notes to the Financial Statements
June 30, 2017

NOTE 3. DEPOSITS (CONTINUED)

Cash held by the District include cash on deposit with a financial institution. Deposits are secured by Federal depository insurance and U.S. Treasuries. Under New Mexico law, all deposits with financial institutions must be collateralized in an amount not less than 50% (102% for overnight deposits) of the uninsured balance. Market values of all cash and deposits approximate the cost of those assets.

Cash equivalents represent investments in mutual funds, consisting of treasury bonds with maturities of less than 30 days.

Cash and cash equivalents (including restricted) at June 30, 2017 consist of the following:

	<u>2017</u>
Held in trust by Bank of Albuquerque in U.S. Treasury Fund	\$ <u>517,140</u>

NOTE 4. SUBORDINATED PROMISSORY NOTES – RELATED PARTY

On July 8, 2014 and December 22, 2015, the District issued promissory notes in the principal amounts of \$3,235,764 and \$4,075,250, respectively, to Western Albuquerque Land Holdings LLC, the developer. The notes are reimbursement obligations of the District in connection with the Infrastructure Development and Acquisition Agreement by and between the City of Albuquerque, New Mexico, the District and the developer in order to fund costs of formation of the District and the acquisition of certain infrastructure improvements benefitting the District.

The 2014 and 2015 revenue notes bear an annual interest of 8% with final maturities on April 1, 2022 and April 1, 2032, respectively. The notes are secured by the pledge of net revenues from District Special Levy.

Interest payment and principal payments of the revenue notes are serviced by revenues generated from the Special Levy.

Annual debt service requirements to maturity for the note are as follows:

<u>Year ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total Debt Service</u>
2018	\$ 543,485	333,958	877,443
2019	686,316	190,391	876,707
2020	738,260	133,833	872,093
2021	794,191	77,570	871,761
2022	416,487	458,530	875,017
2023-2027	514,240	3,854,889	4,369,129
2028-2032	3,561,009	793,123	4,354,132
	<u>\$ 7,253,988</u>	<u>5,842,294</u>	<u>13,096,282</u>

NOTE 5. DEFICIT NET POSITION

The total net position balance is in a deficit position of \$7,260,182 as of June 30, 2017. This is due to the fact that the capital assets acquired with note proceeds were transferred to another governmental agency. This resulted in the recognition of long-term debt with no related asset on the District's financial statement. The long term debt will be repaid with future special levy taxes.

Notes to the Financial Statements
June 30, 2017

NOTE 6. INSURANCE COVERAGE

The District is exposed to various risk of loss from torts; theft of, damage to, and destruction of assets; business interruption; and errors and omission and natural disasters. The District is not insured through private carriers for liability, casualty and director and office liability.

NOTE 7. SUBSEQUENT EVENT

On July 19, 2017, the District issued a subordinated promissory note in the principal amounts of \$2,656,867 to the developer. The note is reimbursement obligation of the District in connection with the Infrastructure Development and Acquisition Agreement by and between the City of Albuquerque, New Mexico, the District and the developer in order to fund the acquisition of certain infrastructure improvements benefitting the District. The note is subject to 8% interest per annum and matures on July 1, 2053.

OTHER INFORMATION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Lower Petroglyphs Public Improvement District
and Mr. Timothy Keller New Mexico State Auditor
Santa Fe, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the budgetary comparison of the general fund of Lower Petroglyphs Public Improvement District (the "District"), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses or significant deficiencies. However, material weaknesses or deficiencies may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
