Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue fund of the State of New Mexico, Legislative Council Service (Council), as of and for the year ended June 30, 2014, and the related notes to the financial statements which collectively comprise the State of New Mexico, Legislative Council Service's basic financial statements as listed in the table of contents. We also have audited the financial statements of the State of New Mexico, Legislative Council Service's general fund, and the budgetary comparisons for the general fund presented as supplementary information, as defined by the Government Accounting Standards Board, in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2014, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in **Government Auditing Standards**, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above, present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the State of New Mexico, Legislative Council Service, as of June 30, 2014, and the respective changes in financial position and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the major governmental fund (General Fund [Legislative Council Service and Legislative Building Service SHARE general fund accounts]) of the State of New Mexico, Legislative Council Service as of June 30, 2014, and the respective changes in financial position and, the respective budgetary comparisons for the major fund (General Fund [Legislative Council Service and Legislative Building Service SHARE general fund accounts]) for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages ix through xvi be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential

part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with **Government Auditing Standards**, we have also issued our report dated October 17, 2014, on our consideration of the State of New Mexico, Legislative Council Service's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with **Government Auditing Standards** in considering the State of New Mexico, Legislative Council Service's internal control over financial reporting and compliance.

Management's Discussion and Analysis
(Required Supplementary Information)
June 30, 2014**

OVERVIEW

Our discussion and analysis of the State of New Mexico, Legislative Council Service financial performance provides an overview of its financial activities for the fiscal year ended June 30, 2014. It should be read in conjunction with the financial statements, which follow this discussion and analysis. This document will assist the reader in the following:

- Highlight significant financial issues;
- Provide an overview of the Council Service's financial activity;
- Identify changes in the Council Service's financial position;
- Identify any material deviation from the approved budget; and
- Identify issues and concerns.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the State of New Mexico, Legislative Council Service as a whole and present a longer-term view of its finances. Fund financial statements, for governmental activities, tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the State of New Mexico, Legislative Council Service's operations in more detail than the government-wide statements by providing information about the most significant funds. Financial data presented in these financial statements is for the activities of the State of New Mexico, Legislative Council Service as a single agency. It does not purport to represent the State of New Mexico as a whole.

In compliance with requirements of accounting principles generally accepted in the United States of America (GAAP) for governmental entities, the Council Service's basic financial statements include the:

- (1) Government-wide financial statements;
- (2) Fund financial statements;
- (3) Notes to financial statements

Reporting on the Council Service as a Whole

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Council Service finances which is similar to the accounting used by most private-sector companies. The government-wide financial statements report all assets and liabilities with the difference between the two reported as net position, using the accrual basis of accounting in the Statement of Net Position (Exhibit A).

Reporting on the Council Service as a Whole (Cont'd)

Government-Wide Financial Statements

The *Statement of Activities* (Exhibit B) presents information on how the Council Service's net position changed during the most recent fiscal year. Changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are included in this statement for some items that will result in cash flows in future fiscal periods (e.g. earned but unused vacation leave and uncollected accounts receivable).

The government-wide financial statements include all activities of the State of New Mexico, Legislative Council Service. Capital assets are included in these financial statements. State general fund appropriations finance most of these activities.

In the Statement of Net Position and the Statement of Activities, the Council Service reports governmental activities since there are no business-type activities or component units.

Reporting on the Council Service Most Significant Funds

Governmental Activities - Fund Financial Statements

Governmental Funds - All of the Council Service basic services are reported in governmental funds, which focus on the establishment of an appropriation by the state legislature and the expenditures of this money in accordance with a budget. Funds not expended at the year-end revert to the State General Fund. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The difference between governmental activities and governmental funds are reconciled.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Council Service uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows and spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Fund Financial Statements (Cont'd)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented by governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Council Service's near-term financing decisions. Both of the governmental funds **Balance Sheet** (Exhibit C) and the governmental funds **Statements of Revenue, Expenditures and Changes in Fund Balances** (Exhibit D) provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Council Service maintains its fund structure in the Statewide Human Resources, Accounting and Management Reporting (SHARE) system. The Council Service maintains one general fund that is comprised of two accounts, the Council Service Account (Fund #12900) and the Building Services Account (Fund #13200), and one special revenue fund, Capitol Buildings Repair Special Revenue Fund (Fund #07500).

The Council Service adopts an annual appropriated budget for its general fund and special revenue fund. A budgetary comparison statement has been provided for the funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on Exhibits C through F of this report.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to gain a full understanding of the data provided in the government-wide financial statements. The notes to the financial statements can be found on pages 7 through 23 of this report.

Budgetary Comparisons

The budget comparison information required by GASB #34 for the major governmental funds and non-major governmental funds that have legally adopted annual budgets are presented on Exhibits E and F, and Statements 3 through 9. The budgetary comparisons present both the original and final budgets for the reporting period as well as the actual inflows, and balances, stated on a budgetary basis.

THE LEGISLATIVE COUNCIL SERVICE AS A WHOLE

The purpose of the Legislative Council Service program is to provide nonpartisan, confidential assistance to the legislature and its committees. This program includes information, bill drafting, and administrative services as well as organizational, research, clerical and support services for

THE LEGISLATIVE COUNCIL SERVICE AS A WHOLE (Cont'd)

Net position may over time serve as a useful indicator of a government's financial position. In the case of the Council Service, a net asset balance is reported at the close of the most recent fiscal year.

The Council Service reports balances in the following three categories of net position; (1) investment in capital assets; and (2) restricted, and (3) unrestricted. The investment in capital assets balance is positive and the unrestricted balance is in a deficit. The Council Service has restricted net position of \$4,928,569 restricted for subsequent years' expenditures.

The Council Service uses capital assets to provide its services; consequently, these assets are not available for future spending.

This decrease in net position of \$1,322,487 was the result of the \$1,581,972 of a decrease in net capital assets, an increase of \$338,717 in funds restricted for subsequent years' expenditures, and an increase of \$79,232 in compensated absences payable.

The Council Service governmental activities general revenue increased by \$797,164, from a year ago. The significant change was the result of an increase in net state general fund appropriations of \$229,273; an increase in donated capital assets of \$178,272; and an increase in transfers from the Capital Buildings Repair Fund of \$388,619.

The cost of governmental activities was \$10,700,131 compared to \$10,106,554 last year, or an increase of \$593,577 (5.87%).

THE COUNCIL SERVICE'S FUNDS

As the Council Service completed the year, the governmental funds (as presented in the Balance Sheet, Exhibit C, page 3) reported a combined fund balance of \$4,928,719, which is above last year's combined fund balance of \$4,590,002, an increase of \$338,717 (7.38%). The fund balance of the Council Services' general fund increased insignificantly by \$84. The fund balance of the Capitol Buildings Repair Special Revenue Fund increased significantly by \$338,633 as a result of transfers in of \$326,481 from the GSD-Capitol Buildings Repair Fund, and \$12,152 from the Capitol Kitchen Fund. The combined fund balance of \$4,928,719 remaining at year end includes \$4,928,569 restricted for expenditure in the subsequent fiscal year.

General Fund Budgetary Highlights

The General Fund is comprised of the Council Service Fund account and the Building Services Fund account. Funding is from the State General Fund. The annual operating budget is monitored by the Department of Finance and Administration. There was no change from the total of the original approved budget of \$14,106,700 to the final revised budget of \$14,106,700.

Total	<u>\$ 14,106,700</u>	<u>\$ -</u>	<u>\$ 14,106,700</u>	<u>\$ 8,742,885</u>

The budget is projected for the appropriation process during the legislative session. Actual amounts will vary from the projection. Any unexpended appropriations revert to the state general fund.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2014, the Council Service had \$75,614,744 of capital assets, accumulated depreciation of (\$34,767,269), resulting in net capital assets of \$40,847,475. The majority of the Council Service's capital assets are invested in land (\$1,277,372), and buildings and building improvements of \$72,467,183.

There were current year additions of capital assets totaling \$307,921.

Debt - Compensated Absences Payable

At the end of the current fiscal year, the Council Service had total debt outstanding of \$777,149, comprising accumulated balances for terminal and sick leave eligible for payment to employees upon termination of their employment from the Council Service. Employees can receive compensation for accumulated unpaid annual leave as of the date of termination, generally up to a maximum of 240 hours upon severance. More information about the Council Service's changes in compensated absences is presented in Note 4 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The appropriations made for FY 2015 from the General Fund in Laws 2014, Chapter 1, Section 3 (A) and for Building Services, Laws 2014, Chapter 63, Section 4.A.(1) were increased due to additional professional services, anticipated travel and an average three percent salary increase for legislative employees in Laws 2014, Chapter 63, Sec. 8.A.(1). Budgets in the contractual services, other cost and personal services and employee benefits categories were increased.

**STATE OF NEW MEXICO
LEGISLATIVE COUNCIL SERVICE
Notes to the Financial Statements
June 30, 2014**

1. Summary of Organization and Significant Accounting Policies

The financial statements of the State of New Mexico, Legislative Council Service (Council Service) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The financial statements for the year ended June 30, 2014, represent fiscal year 2014 of the Council Service. The more significant accounting policies of the Council Service are described below:

A. Financial Reporting Entity

The Council Service was created by Laws of 1951, Chapter 182, Section 2, (New Mexico Statutes Annotated, 1978 Compilation).

The Council Service functions for the use of the members of the legislature, the governor and the various departments, institutions and agencies of the state which may desire to avail themselves of its services and also provides information services to the public. The Council Service conducts itself with strict regard to the division of powers among the legislative, executive and judicial branches of the government of the state.

The Council Service is a department of the State of New Mexico. These financial statements present the financial position and results of operations of only those Statewide Human Resources, Accounting and Management Reporting System (SHARE) funds over which the Council Service has oversight responsibility. The Council Service does not have any component units.

B. Basic Financial Statements - Government-Wide Statements

The Council Services basic financial statements include both government-wide (reporting the Council Service as a whole, excluding fiduciary activities) and fund financial statements (reporting the Council Service's major funds). Both the government-wide and fund financial statements categorize primary activities as governmental. The Council Service General Fund and the Legis.-Capitol Buildings Repair Special Revenue Fund are included as governmental activities.

In the government-wide Statement of Net Position, the governmental column is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Council Service net position are reported in three parts: invested in capital assets; restricted for capital projects; and unrestricted net position. Interfund activity (between or within funds) due to/due from other funds are eliminated in the government-wide financial statements.

The government-wide Statement of Activities reports the gross cost of the Council Service function. The function is supported by general government revenues (intergovernmental

revenues). This government-wide focus is more on the sustainability of the Council Service as an entity, and the change in the Council Service net position resulting from the current year's activities. When an expense is incurred for purposes for which both unrestricted and restricted net position are available, restricted net position are used first, then unrestricted.

C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the Council Service are reported in the individual fund financial statements. The accounts of the Council Service are maintained on the basis of funds as established by state statutes, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund balance, revenues, and expenditures/expenses. Government resources are allocated to and accounted for in individual funds based on the appropriate state statutes and the purposes for which they are to be spent and the means by which spending activities are controlled. The following funds are utilized by the Council Service:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Council Service:

General Fund - The General Fund is the general operating fund of the Council Service. The General Fund is comprised of two accounts, the Council Service Fund account (Fund 12900), and the Building Services Fund account (Fund 13200). The General Fund is a major fund of the Council Service. They are used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund - The Legis.-Capitol Buildings Repair Fund (Fund 07500) is a special revenue fund of the Council Service. It is used to account for repairs, remodeling and equipment additions to capitol buildings and adjacent lands; to repair or replace building machinery and buildings located in capitol buildings and to contract for options to purchase real estate, such real estate, if purchased, to be put to state use. Expenditures from the fund must be authorized by the State Board of Finance. The Legis.-Capitol Buildings Repair Fund is a major fund of the Council Service and was created by Section 15-3B-17, NMSA 1978 as the "State Capitol Maintenance Fund". However, the fund is referred to by the Council Service as the "Legis.-Capitol Buildings Repair Fund". Revenue sources are derived into the fund from the GSD-Capitol Buildings Repair Fund and from the Capitol Kitchen Fund from the sale of food, food services and related concessions by the house of representatives.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. The governmental funds of the Legislative Council Service follow GASB statements and interpretations.

Accrual - Governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual - The governmental funds financial statements are presented on a current financial resources measurement focus using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred.

GASB 63 amended previous guidance on deferred revenue in the government-wide financial statements to include deferred outflow of resources, which is the consumption of net assets by the government that is applicable to a future reporting period and deferred inflow of resources, which is acquisition of net assets by the government that is applicable to a future reporting period.

During fiscal year 2014, the Legislative Council Service adopted the following GASB statements:

- GASB 66, *Technical Corrections: an amendment to GASB Statements No. 10 and No. 62*, resolves conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting and thereby enhance the usefulness of the financial reports. This Statement is effective for the year ended June 30, 2014.
- GASB 67, *Financial Reporting for Pension Plans — an amendment of GASB Statement No. 25*, establishes accounting and financial reporting requirements related to pensions for governments whose employees are provided with pensions through pension plans that are covered by the scope of this Statement, as well as for nonemployer governments that have a legal obligation to contribute to those plans. This Statement is effective for the year ended June 30, 2014.

D. Basis of Accounting (Cont'd)

- GASB 70, *Accounting and Financial Reporting for Nonexchange Financial*, the requirements of this Statement will enhance comparability of financial statements among governments by requiring consistent reporting by those governments that extend nonexchange financial guarantees and by those governments that receive nonexchange financial guarantees. This Statement is effective for the year ended June 30, 2014.

E. Investment in the State Treasurer General Fund Investment Pool

Cash is on deposit as an investment in the State Treasurer General Fund Investment Pool. The State Treasurer's scope of authority for the types of investments which may be made with state funds is statutorily defined and governed by the State Treasurer's Investment Policy approved by the State Board of Finance.

F. Net Position/Fund Equity/Fund Balances

Net position represents the difference between assets and liabilities. In the government-wide financial statements, net position consist of three components: invested in capital assets, net of related debt; restricted; and unrestricted.

The Council Service follows Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definition.

Governmental fund balances are divided into five classifications based on the extent to which government is bound to honor constraints on the specific purposes for which amounts in that fund can be spent.

Non-spendable is the most limited amounts and are legally or contractually required to stay intact.

The spendable fund categories can be depicted as follows:

Restricted are amounts that are so due to enabling legislation, constitutional provisions, externally imposed by grantors, contributors, laws or regulations of other governments, or by creditors, such as through debt covenants.

Committed are amounts that are subject to a purpose constraint imposed by a formal action of the government's highest level of decision-making authority before the end of the fiscal year, and removal of the constraint would require a formal action by the same authority.

F. Net Position/Fund Equity/Fund Balances (Cont'd)

Assigned consists of amounts that are intended to be used for a specific purpose established by the government's highest level of decision-making authority, or their designated body or official. The purpose of the assignment must be narrower than the general fund, assigned fund balance represents the residual amount in the fund balance.

Unassigned represents the residual amount after all classifications have been considered for the government's general fund, and could report a surplus or a deficit.

G. Capital Assets

Capital assets are recorded as expenditures in the governmental funds and capitalized at cost in the Statement of Activities. The valuation basis for capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement. Contributed assets are reported at fair market value as of the date received.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 40 years; building improvements, 40 years; furniture and fixtures, 5-12 years; computer equipment and software, 4 years; and maintenance equipment, various years.

During the 2005 Regular Legislative Session, HB1074 amended Section 12-6-10, NMSA 1978, changing the capitalization threshold for movable chattel and equipment from items costing more than \$1,000 to items costing more than \$5,000 effective June 17, 2005.

Legislative Council Service has a collection of art work and books presented for public exhibition and education that is being preserved for future generations. The collection is capitalized, but not depreciated as part of capital assets.

H. Deferred Inflows/Outflows of Resources

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, became effective for financial statements for period beginning after December 15, 2012. The objective of this statement is to provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. Concepts Statement No. 4 also identifies net position as the residual of all other elements presented in a statement

of financial position. This statement amends the net assets reporting requirements in Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure of net position, rather than net assets. The Legislative Council Service has made the change.

I. Compensated Absences Payable

Accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as long-term liabilities. The expenditure is reported for these amounts in the Statement of Activities. In accordance with the provisions of Statement of Financial Accounting Standards No. 43, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that employees may convert to cash.

J. Budgetary Procedures and Accounting

The Council Service follows these procedures in establishing the budgetary data reflected in the financial statements:

The State Legislature makes annual appropriations for the Council Service's Funds. Legal compliance is monitored through the establishment of a budget and a financial control system which permits budget-to-actual comparison. Expenditures by fund may not legally exceed appropriations. Budgeted line-item classifications may be amended upon submission of a budget adjustment request to the State Budget Division to process.

The basis of accounting for the budget, as appropriated by the State Legislature and processed by the State Budget Division, differs from the basis of accounting required by GAAP. The budget for the Council's various funds is adopted on a modified accrual basis of accounting. However, there is statutory exception. The budget is adopted on the modified accrual basis of accounting except for accounts payable accrued at the end of the fiscal year that do not get paid by the statutory deadline per Section 6-10-4 NMSA 1978. Those accounts payable require approval to pay prior year bills out of the FY 2015 budget. At June 30, 2014, there were none. Reconciling items between the budget basis to the GAAP basis of accounting are reflected in the various Statements of Revenue and Expenditures - Budget and Actual.

J. Budgetary Procedures and Accounting (Cont'd)

All of the unexpended and uncommitted appropriations made to the Council Service revert to the State General Fund, unless specifically excluded in the appropriation language, along with any unappropriated miscellaneous revenue.

2. Investment in the State Treasurer General Fund Investment Pool

State law (Section 8-6-3 NMSA 1978) requires the Legislative Council Service's cash be managed by the New Mexico State Treasurer's Office. Accordingly, the investments of the Legislative Council Service consist of an interest in the General Fund Investment Pool managed by the New Mexico State Treasurer's Office.

Pooled cash and investments of \$5,917,198 are on deposit with the State of New Mexico, Office of the State Treasurer investment pool. In general, state statutes require that all deposits held by the State Treasurer be collateralized at a minimum level of 50 percent.

The June 30, 2014 State Treasurer's investment pool audited financial statements were not available as of October 17, 2014. Based on the State Treasurer's unaudited information, the management of the Council Service has presented pooled cash and investments at a value which approximates fair value as required by GASB No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

Interest Rate Risk - The New Mexico State Treasurer's Office has an investment policy that limits investment maturities to five years or less on allowable investments. This policy is means of managing exposure to fair value losses arising from increasing interest rates. This policy is reviewed and approved annually by the New Mexico State Board of Finance.

Credit Risk - The New Mexico State Treasurer pools are not rated.

For additional GASB 40 disclosure information regarding cash held by the New Mexico State Treasurer, the reader should see the separate audit report for the New Mexico State Treasurer's Office for the fiscal year ended June 30, 2014.

State General Fund Investment Pool

For cash management and investment purposes, funds of various state agencies are deposited in the State General Fund Investment Pool (the Pool), which is managed by the Office of the New Mexico State Treasurer. Claims on the Pool are reported as assets by the various agencies investing in the Pool.

In June 2012, an independent diagnostic report revealed that Pool balances had not been reconciled at a "business unit by fund" level since the inception of the Statewide Human Resources, Accounting, and Management Reporting System (SHARE) system in July 2006. This report, entitled "Current State Diagnostic of Cash Control," also described a difference between Pool bank balances and the corresponding general ledger balances and indicated that the effect of reconciling items were unknown. The report, dated June 20, 2012, is available on the website of the New Mexico Department of Finance & Administration at: http://www.nmdfa.state.nm.us/Cash_Control.aspx.

By state statute, the New Mexico Department of Finance and Administration (DFA) is responsible for the performance of monthly reconciliations with the balances and accounts kept by the State Treasurer. Therefore, under the direction of the State Controller / Financial Control Division Director, the Financial Control Division (FCD) of the New Mexico Department of Finance & Administration undertook action to address the situation. DFA/FCD initiated the Cash Management Remediation Project (Remediation Project) in partnership with the Office of the New Mexico State Treasurer, the New Mexico Department of Information Technology, and a contracted third party with expertise in the Enterprise System Software used by the State.

The Remediation Project objective was to design and implement changes necessary to ensure ongoing completion of timely, accurate and comprehensive reconciliation of the Pool. DFA has or is in the process of implementing all the recommendations resulting for the Remediation Project and has made changes to the State's SHARE system configuration, cash accounting policies and procedures, business practices, and banking structure. This has enabled DFA to complete timely and accurate reconciliation of bank to book balances at the State and Business Unit level on a post-implementation basis, however it did not resolve historical reconciling items. Additional changes recommended by the Project continue to be cascaded through DFA and state agencies to support the Business Unit by Fund accounting requirements.

**STATE OF NEW MEXICO
LEGISLATIVE COUNCIL SERVICE
Notes to the Financial Statements

2. Investment in the State General Fund Investment Pool (Cont'd)

A plan to address historical reconciling items is being assessed and a separate initiative will need to be undertaken to resolve the historical reconciling items. Management considers it unlikely that this separate initiative will be successful in allocating all historical reconciling items to the State entities invested in the Pool. As a result, any remaining differences post specific allocation to Pool participants will be reported in the State General Fund.

Management in FY 2012 recorded a loss contingency of \$101.7 million in the State General Fund based on its estimate of the effect of issues related to the reconciliation of the Pool, that estimate is still current. Because no specific loss amount is determinable, consistent with generally accepted accounting principles, the amount accrued is the minimum amount that management considers to be probable. Ultimately, the loss could exceed the amount accrued, perhaps by a substantial amount.

The Legislative Council Service has cash reconciliation policies and procedures in place which are performed on a monthly basis to ensure that the agency's cash balances in the pool, in SHARE are correct and to mitigate the risk that the agency's cash balances in the pool, would not be misstated as of June 30, 2014.

3. Due from Other State Agencies - (Legis.-Capitol Buildings Repair Fund #07500)

An amount of \$109,429 is due from the GSD-Capitol Buildings Repair Fund (Agency 35000, Fund 86305) to the Legis.-Capitol Buildings Repair Fund (Agency 11100, Fund 07500) at June 30, 2014. The funds represent the annual 2% distribution from the income in the GSD-Capitol Buildings Repair Fund for FY 2014, to the Legis.-Capitol Buildings Repair Fund (State Capitol Maintenance Fund) as authorized by Section 15-3B-17, NMSA 1978.

5. Long-Term Liabilities

Qualified employees are entitled to accumulate annual leave as follows: Unlimited accumulated annual leave may be carried forward into the beginning of the calendar year. When employees terminate, they are compensated for accumulated unpaid annual leave as of the date of termination, generally up to a maximum of 240 hours. However, it has been the accepted practice in coordination with and approval of leadership that, under extenuating circumstances, compensation for accumulated unpaid leave may exceed 240 hours for reasons including timing and circumstances of the termination (e.g., session or changes in chief clerk or leadership), availability of funding from one fiscal year to the next and the needs of the legislative office from which the employee is terminating.

Qualified employees are entitled to accumulate sick leave at the rate of 3.69 hours per pay period. Employees who have accumulated 600 hours of unused sick leave are entitled to be paid for unused sick leave in excess of 600 hours at a rate equal to fifty percent (50%) of their hourly rate of pay for up to 120 hours of sick leave. Payment for unused sick leave may be made only once per fiscal year on either the payday immediately following the first full pay period in January or the first full pay period in July. The Council Service Fund and the Building Services Fund are used to liquidate payment for compensated absences.

Immediately prior to retirement from service, employees who have accumulated 600 hours of unused sick leave are entitled to be paid for unused sick leave in excess of 600 hours at a rate equal to fifty percent (50%) of their hourly rate for up to 400 hours of sick leave.

The following is a summary of changes in long-term liabilities for the year ended June 30, 2014:

8. Pension Plan - Public Employees Retirement Association

Plan Description. Substantially all of the Legislative Council Service's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at <http://www.pera.state.nm.us>.

8. Pension Plan - Public Employees Retirement Association (Cont'd)

Funding Policy. Plan members are required to contribute 8.92% (ranges from 6.28% to 18.15% depending upon the plan - i.e., state general, state police and adult correctional officers, State Plan 3 - Peace Officer, Juvenile Correctional Officer Plan 2, municipal general, municipal police, municipal fire, municipal detention officer) of their gross salary. The Legislative Council Service is required to contribute 16.99% (ranges from 7.0% to 25.72% depending upon the plan) of the gross covered salary. The contribution requirements of plan members and the Legislative Council Service are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The Legislative Council Service's contributions to PERA for the fiscal years ending June 30, 2014, 2013 and 2012 were \$714,856, 640,082, and \$578,946, respectively, equal which the amount of the required contributions for each fiscal year.

9. Post Employment Benefits - State Retiree Health Care Plan

Plan Description. The Legislative Council Service contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

9. Post Employment Benefits - State Retiree Health Care Plan (Cont'd)

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the employer and employee contributions can be changed by the New Mexico State Legislature. Employers that choose to become participating employers after January 1, 1998, are required to make contributions to the RHCA fund in the amount determined to be appropriate by the board.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. For employees that were members of an enhanced retirement plan (state police and adult correctional officer member coverage plan 1; municipal police member coverage plans 3, 4 or 5; municipal fire member coverage plan 3, 4 or 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act) during the fiscal year ended June 30, 2014, the statutes required each participating employer to contribute 2.5% of each participating employee's annual salary; and each participating employee was required to contribute 1.25% of their salary. For employees that were not members of an enhanced retirement plan during the fiscal year ended June 30, 2014, the statute required each participating employer to contribute 2.0% of each participating employee's annual salary; each participating employee was required to contribute 1.0% of their salary. In addition, pursuant to Section 10-7C-15(G) NMSA 1978, at the first session of the Legislature following July 1, 2013, the legislature shall review and adjust the distributions pursuant to Section 7-1-6.1 NMSA 1978 and the employer and employee contributions to the authority in order to ensure the actuarial soundness of the benefits provided under the Retiree Health Care Act.

The Legislative Council Service's contributions to the RHCA for the years ended June 30, 2014, 2013 and 2012 were \$86,325, \$84,889 and \$79,194, respectively, which equal the required contributions for each year.

10. Commitments and Contingencies

The Council Service is committed under several leases for various office equipment. The lease commitments are contingent upon legislative appropriation. Therefore, no long-term lease commitments exist which require disclosure. Total lease expenditures for rent of equipment for the year ended June 30, 2014, amounted to \$115,150.

11. Risk Management and Litigation

The Legislative Council Service is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the agency carries insurance (Workers Compensation, Unemployment Compensation, Employee Liability, and Transportation Property) with the State of New Mexico Risk Management Division (RMD) of the General Services Department. Section 15-7-2, NMSA requires the RMD to be responsible for the acquisition and administration of all insurance purchased in the state. The RMD has effectively managed risk through various employee education and prevention programs. Risk management expenditures for the Council Service are accounted for in the general fund. All claims are processed through the RMD. There are no known or threatened legal proceedings involving material matters to which the Council Service is a party.

12. Special Appropriations

The Legislative Council Service received the following special appropriations during the current and previous years which are still available to expend in subsequent years.

<u>Agency/Fund</u>	<u>Amount</u>	<u>Unexpended Balance</u>	<u>Appropriation Lapses</u>	<u>Purpose</u>
11900/13200	\$ 4,500,000	\$ 3,319,645	06/30/2016	Capitol Building Renovations appropriations Laws 2007, Ch. 192, Sec. 1 (Extended by Laws 2014, Ch. 64, Sec. 46)

13. Net Position Deficit

GASB #34 requires capitalized assets, net of accumulated depreciation, and the inclusion of long-term debt resulting in an unrestricted net asset deficit of (\$776,999). This deficit is created by compensated absence liabilities which will be paid from subsequent years State General Fund Appropriations.

14. Subsequent Events Review

A review of subsequent events through October 17, 2014, which is the date the financial statements were available for issuance, revealed no significant subsequent events which require disclosure.

15. Subsequent Accounting Standard Pronouncements

Statement No. 68, Accounting and Financial Reporting for Pensions. The statement replaces the requirements of GASBS 27, Accounting for Pensions by State and Local Governmental Employers, and the requirements of GASBS 50 Pension Disclosures, as they related to pensions that are provided through pension plans administered as trusts. The requirements of Statements 27 and 50 remain applicable for pensions that are covered by GASBS 68. This statement is effective for financial statements for fiscal years beginning after June 15, 2014. This will require the Council Service to recognize a liability for the proportionate share of the unfunded net pension liability for PERA.

Statement No. 69, Government Combinations and Disposals of Government Operations. This statement establishes accounting and financial reporting standards related to government mergers, acquisitions, and transfers of operations. The requirements of this Statement are effective for government combinations and disposals of government operations occurring in financial reporting periods beginning after December 15, 2013 (year ended June 30, 2015) and should be applied on a prospective basis.

Statement No. 70, Accounting and Financial Reporting for Non-exchange Financial Guarantees. This statement establishes accounting and financial reporting standards for financial guarantees that are non-exchange transactions extended or received by a state or local government. A non-exchange financial guarantee is a guarantee of an obligation of a legally separate entity or individual, including a blended or discretely presented component unit, which requires the guarantor to indemnify a third-party obligation holder under specified conditions. This statement is effective for financial statements for reporting periods beginning after June 15, 2013. The Council Service has reviewed the statement and has determined that this does not apply to the Council Service.

GASB 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date (Amendment to GASB 68)*, improve accounting and financial reporting by addressing an issue in Statement No. 68, *Accounting and Financial Reporting for Pensions*, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities. This Statement will be effective at the implementation of GASB 68.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

INDEPENDENT AUDITOR'S REPORT

Senator Mary Kay Papen, President Pro-Tem of the Senate
and
Representative W. Ken Martinez, Speaker of the House
of Representatives
State of New Mexico
Legislative Council Service
Santa Fe, New Mexico
and
Mr. Hector H. Balderas
New Mexico State Auditor
Santa Fe, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in ***Government Auditing Standards*** issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, the aggregate remaining fund information, the budgetary comparisons for the general fund and major special revenue fund of the State of New Mexico, Legislative Council Service, as of and for the year ended June 30, 2014, and the related notes to the financial statements which collectively comprise the State of New Mexico, Legislative Council Service's basic financial statements, and the combining and individual funds and related budgetary comparisons of the State of New Mexico, Legislative Council Service presented as supplemental information, and have issued our report thereon dated October 17, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State of New Mexico, Legislative Council Service's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of New Mexico, Legislative Council Service's internal control. Accordingly, we do not express an opinion on the effectiveness of the State of New Mexico, Legislative Council Service's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of New Mexico, Legislative Council Service's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under ***Government Auditing Standards***.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with ***Government Auditing Standards*** in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
