Independent Accountant's Report on Applying Agreed-Upon Procedures

Harold Trujillo, President, Acequia de La Isla
and
Timothy Keller, New Mexico State Auditor

I have performed the procedures enumerated below for the Acequia de La Isla (Acequia) for the year ended December 31, 2016, solely to assist in determining compliance with the provisions of the Audit Act for a Tier 3 entity per Section 12-6-3 B (4) NMSA 1978, Section 2.2.2.16 NMAC and Section 6-6-2 (A) NMSA 1978. The procedures were agreed to by the Acequia through the New Mexico Office of the State Auditor. The Acequia's management is responsible for its accounting records and the subject matter. This agreed upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. Our procedures and findings are as follows

1. Verify the local public body's revenue calculation and tier determination documented on the form provided at www.osanm.org under "Tiered System Reporting Main Page."

Based on a review of the Acequia's general ledger, total revenues for the fiscal year ending December 31, 2016 were \$9,255 (excluding the capital outlay grants) and the Association received or expended three capital outlay grants from the NM Interstate Stream Commission (NMISC). Based on this information, the Association was properly determined to be a Tier 3 entity for FY16 since their total revenues were less than \$10,000 and they expended the remaining balance of a capital outlay grant during 2016.

2. Test all state-funded capital outlay expenditures:
 - a. Determine that the amount recorded as disbursed agrees to adequate supporting documentation. Verify that amount, payee, date and description agree to the purchase order, contract, vendor's invoice and canceled check, as appropriate.

All of the cash disbursements for the capital award project were tested. The amounts disbursed agreed with the supporting documentation. The amount, payee, date and description of the purchase agreed with the vendor's invoice, contract and canceled check. The Acequia does not use purchase order forms.

- b. Determine that cash disbursements were properly authorized and approved in accordance with the budget, legal requirements and established policies and procedures.

The cash disbursements tested were properly authorized and approved in accordance with the project budget, legal requirements and the Acequia's procurement policies and procedures.

- c. Determine that the bid process (or request for proposal process if applicable), purchase orders, contracts and agreements were processed in accordance with the New Mexico Procurement Code and State Purchasing Regulations (Section 13-1-28 through 13-1-199 NMSA 1978 and 1.4.1 NMAC).

The Acequia advertised, obtained bids and awarded the engineering services contract to URS Corporation in accordance with its procurement policies and applicable state laws and regulations.

- d. Determine the physical existence (by observation) of the capital asset based on expenditures to date.

As of December 31, 2016, no capital assets were built; therefore, there was nothing to observe at Morphy Dam. The payments made to two contractors were for engineering and appraisal services only. The engineering plans and the appraisal reports completed by the contractors were observed on February 10, 2017.

- e. Verify that status reports were submitted to the state agency per terms of agreement and amounts in the status report agree with the general ledger and other supporting documentation.

The Acequia submitted the required Request for Payment forms and Project Status Reports to the New Mexico Office of the State Engineer (NMOSE). The amounts requested in the payment forms and status reports agreed with the Acequia's general ledger and supporting documentation.

- 3. If the project was funded in advance, determine if the award balance (and cash balance) appropriately reflects the percentage of completion based on the project schedule and expenditures to date.

The project was not funded in advance. The Acequia was required to submit request for payment forms to the NMOSE along with the contractor's invoices and other supporting documentation.

- 4. If the project is complete, determine if there is an unexpended balance and whether it was reverted per statute and agreement with the grantor.

The professional engineering services and the appraisals have been completed including the final design of the Morphy Dam modifications. As of December 31, 2016, the unexpended balances of three capital outlay grants were \$0, \$112,566.69 and \$30,276.18. See the Schedule of Capital Outlay Awards on p. 7 of this report.

5. Determine whether cash received for the award was accounted for in a separate fund or separate bank account that is non-interest bearing if so required by the capital outlay award agreement.

The Acequia de La Isla and the Acequia de La San Jose opened a non-interest bearing joint checking account at the State Employees Credit Union in Santa Fe, NM to account for the cash receipts and disbursements for this project.

6. Determine whether reimbursement requests were properly supported by costs incurred by the recipient. Determine whether the costs were paid by the local public body prior to the request for reimbursement.

In 2016, the Acequia submitted four Request for Payment forms totaling \$91,643.19 to the NMOSE. The requests for payment were supported by invoices from the contractors for engineering and appraisal services received by the Acequia during the fiscal year. The amounts requested in the Request for Payment forms agreed with the contractor's invoices and supporting documentation. The invoices were not paid by the Acequia prior to the request for payment forms because the Acequia did not have the necessary funds. The Acequia paid for the invoices after the grant checks were received from the NMOSE.

7. The agreed-upon procedures report shall include the capital outlay amount awarded, amount received, amount expended, the remaining balance, and the actual legislation and effective dates for each capital outlay appropriation that meets the Tier 3 criteria.

See the Schedule of Capital Outlay Awards on p. 7 of this report.

8. If information comes to the IPA's attention (regardless of materiality) indicating any fraud, illegal acts, noncompliance, or any internal control deficiencies, such instances must be disclosed in the report as required by Section 12-6-6 NMSA 1978. The findings must include the required content per Section 2.2.2.10 (I)(3)(C) NMAC.

No findings were noted during the agreed-upon procedures.

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the Tier 3 agreed upon procedures. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of management and others with the Acequia, the New Mexico State Auditor, Department of Finance and Administration – Local Government Division, Office of the State Engineer and the State Legislature and is not intended to be and should not be used by anyone other than these specified parties.
