INDEPENDENT AUDITORS' REPORT

State of New Mexico,
Legislative Council Service,
Capitol Kitchen Fund #81100
Hector H. Balderas, State Auditor

We have audited the accompanying financial statements of the State of New Mexico, Legislative Council Service, Capitol Kitchen Fund #81100, as of and for the year ended June 30, 2008, as listed in the table of contents. These financial statements are the responsibility of the State of New Mexico, Legislative Council Service, Capitol Kitchen Fund #81100's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note A, the financial statements of State of New Mexico, Legislative Council Service, Capitol Kitchen Fund #81100, are intended to present the financial position, and the changes in financial position of the State of New Mexico, Legislative Council Service, Capitol Kitchen Fund #81100. They do not purport to, and do not, present fairly the financial position of the State of New Mexico, Legislative Council Service, as of June 30, 2008, and the changes in its financial position, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the State of New Mexico, Legislative Council Service, Capitol Kitchen Fund #81100 as of June 30, 2008, and the respective changes in financial position thereof, and the budgetary comparisons for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2008, on our consideration of the State of New Mexico, Legislative Council Service, Capitol Kitchen Fund #81100's, internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The State of New Mexico, Legislative Council Service, Capitol Kitchen Fund #81100 has not presented a management's discussion and analysis that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Kandas, Abeyta & Wemmer, P.C.

NOTE A - SUMMARY OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the State of New Mexico, Legislative Council Service, Capitol Kitchen Fund #81100 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The financial statements for the period ended June 30, 2008, represent activity of Fund #81100 from July 1, 2007 to June 30, 2008. The more significant accounting policies of the Fund are described below:

1. Basic Financial Statements - Government-Wide Statements

Fund #81100's basic financial statements include both government-wide (reporting the Fund as a whole, excluding fiduciary activities) and fund financial statements. Both the government-wide and fund financial statements categorize primary activities as governmental. Fund #81100 is classified as a governmental activity.

In the government-wide Statement of Net Assets, the governmental column is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Fund #81100's net assets are reported as restricted net assets.

The government-wide Statement of Activities reports the gross cost of Fund #81100's function. The function is supported by general government revenues (intergovernmental revenues). This government-wide focus is on the change in the Fund's net assets resulting from activities for the period July 1, 2007 to June 30, 2008.

2. Basic Financial Statements - Fund Financial Statements

The financial transactions of the Capitol Kitchen Fund #81100 are reported in the individual fund financial statement. The operations of the Fund #81100 are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures. Government resources are allocated to and accounted for in individual funds based on the appropriate state statutes and the purposes for which they are to be spent and the means by which spending activities are controlled. The following fund types are utilized by Fund #81100:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental fund:

**NOTE A - SUMMARY OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES
(Continued)**

Special Revenue Fund - Capitol Kitchen Fund #81100 is used to administer and account for the sale of food, food services and related concessions by the House of Representatives. Money in the fund may be expended by the Legislative Council Service for start-up costs, supplies and other costs necessary for the House of Representatives to operate the concessions, and, with the approval of the New Mexico Legislative Council, for incidental expenses of the Legislature, including those of interim committees.

3. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. The governmental funds of Fund #81100 follow FASB statements and interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

Accrual

Governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred.

4. Investment in the State General Fund Investment Pool

The State of New Mexico, Office of the State Treasurer's scope of authority for the types of investments which may be made with state funds is statutorily defined and governed by the State Treasurer's Investment Policy approved by the State Board of Finance.

**NOTE A - SUMMARY OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES
(Continued)**

5. Nature and Purpose of Reservations and Designations of Fund Balances

The governmental fund financial statements report a reserved fund amount legally restricted for specified purposes. The special revenue fund reserve for restricted purposes includes fund balance/net assets exclusively restricted for operation of the concessions by the House of Representatives.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the agency's policy is to first apply the expense towards restricted, and then toward unrestricted resources.

6. Budgetary Procedures and Accounting

The Capitol Kitchen Fund #81100 is a not budgeted.

NOTE B - INVESTMENT IN THE STATE GENERAL FUND INVESTMENT POOL

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Information on the State Treasurer General Fund Investment Pool may be obtained by reading a copy of the State Treasurer audited financial statements for the year ended June 30, 2008.

SHARE Fund # 81100, Capitol Kitchen Fund	<u>\$ 6,965</u>
--	-----------------

NOTE C - OTHER FINANCING SOURCES (USES)

No later than sixty days after final adjournment of each session, the balance of the Capitol Kitchen Fund #81100, in excess of \$7,500, shall be transferred to the State Capitol Maintenance Fund. Uses of funds classified as "transfers out" are as follows:

Transfer from Agency 11100, Fund 81100 to Agency 11100, Fund 07500	<u>\$ 14,293</u>
--	------------------

NOTE D - RISK MANAGEMENT

The Legislative Council Service is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the agency carries insurance (Workers Compensation, Unemployment Compensation, Employee Liability, and Transportation Property) with the State of New Mexico Risk Management Division (RMD) of the General Services Department.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

State of New Mexico,
Legislative Council Service,
Capitol Kitchen Fund #81100
Hector H. Balderas, State Auditor

We have audited the financial statements of the State of New Mexico, Legislative Council Service, Capitol Kitchen Fund #81100, as of and for the year ended June 30, 2008, and have issued our report thereon dated December 11, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the agency's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the agency's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the agency's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initialize, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the agency's internal control. We consider the deficiency described in the accompanying schedule of findings and responses to be a significant deficiency in internal control over financial reporting. See 05-1 and 08-1.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the agency's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, we consider items 05-1 and 08-1 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The agency's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the agency's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the House of Representatives, management of the State of New Mexico, Legislative Council Service and the State of New Mexico, Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties.

Kardas, Abayta & Werner, P.C.

Santa Fe, New Mexico
December 11, 2007

Section I - Summary of Auditors' Results

Financial Statements

Type of auditors' report issued: Unqualified

Internal control over financial reporting:

Material weakness(es) identified? Yes
 Finding 05-1
 Finding 08-1

Significant Deficiencies identified that are not considered to be material weakness(es)? No

Section II - Financial Statement Findings (Prior Year)

05-1	Internal Control Over Cash Receipts	Repeated and updated
07-1	Cash Receipts Reconciliation	Repeated and updated and included as part of finding 05-01
07-2	Record Retention	Resolved
07-3	Late Audit Report	Resolved

Section II - Financial Statement Findings (Current Year)

05-1) Internal Control Over Cash Receipts

Condition:

During our cash receipts test work, we noted several conditions that represent material weaknesses in internal control over cash and inventory.

We selected House Food Service daily cash receipts summary for 25 days and agreed amounts to source documents and noted the following:

Total cash register over ring amounts for the sample of 25 days selected appear excessive in relation to total sales.

Daily cash over/short amounts for the sample of 25 days selected netted to a total shortage of \$297.77.

On four different days, the cash register over ring amount per the House Food Service daily cash receipts summary did not agree to the cash register over ring slips which were stapled to daily cash register tapes.

Other internal control issues noted:

Customers may not be issued guest checks.

Guest checks are not compared to the cash register tapes for consistency

Lack of segregation of duties for cash

Criteria:

Sound internal control practices require that adequate internal controls be in place to safeguard cash.

Cause:

Employees do not follow procedures presented in training sessions, including issuing guest checks for all sales, and attaching cash register tapes to guest checks and comparing for consistency.

05-1) Internal Control Over Cash receipts (Continued)

Effect:

The above conditions leave the kitchen vulnerable to material misappropriation of cash.

Recommendation:

We recommend that employees follow cash register and purchasing procedures presented in training sessions; including guest checks for all sales, and attaching cash register tapes to guest checks and comparing for consistency.

Agency Response:

Kitchen management will continue to train to make this possible.

08-1) Internal Control Over Cash Disbursements

Condition:

During our testwork of 40 vouchers, we noted the following:

There were eight instances in which the Kitchen manager did not initial the approval of invoices attached to vouchers.

The kitchen manager orders inventory, receives inventory and approves invoices for payment.

Criteria:

The fund's internal control purchasing policy requires the Kitchen manager to initial the approval of all invoices.

Sound internal control practices require segregation of duties among inventory purchasing, inventory receiving, and invoice approval.

Cause:

Even though established approval procedures exist, the kitchen manager did not initial the approval of all invoices.

Due to small number of staff, there is a lack of segregation of duties.

Effect:

The Kitchen may have paid for items not received or overpaid items actually received.

Recommendations:

The Kitchen manager should follow the established purchasing procedures and initialize the approval of all invoices.

Also, management should determine if additional segregation of duties may be implemented, given limited resources.

Agency Response:

The Kitchen manager will ensure that all invoices are initialed to evidence approval of invoices attached to voucher. Management will determine if additional segregation of duties is possible given limited resources.

Disclosure required by 2.2.2.8 J (4) NMAC - Financial Statement Presentation

In accordance with 2.2.2.8 J (4) NMAC, the State of New Mexico, Office of the State Auditor requires that the Legislative Council Service disclose that these financial statements were prepared by its auditors, Kardas, Abeyta & Weiner, PC, with the assistance of the Council Service staff.

Section IV - Exit Conference

An exit conference was held on December 10, 2008 with the following in attendance:

Representative Ben Lujan, Speaker of the House

Stephen Arias, House Chief Clerk

Kathy Pacheco-Dofflemeyer, Assistant Director for Administration, Legislative Council Service

Sean Weiner, Kardas, Abeyta & Weiner, P.C.

Scott Peck, Kardas, Abeyta & Weiner, P.C.
