INDEPENDENT ACCOUNTANTS' REPORT
ON APPLYING AGREED UPON PROCEDURES

Joddie Valdez, President
Agua Sana Mutual Domestic Water Users Association
and
Honorable Hector H. Balderas
New Mexico State Auditor

We have performed the procedures enumerated below for the Agua Sana Mutual Domestic Water Users Association (Association) for the year ended December 31, 2010. The Association was determined to be a Tier 4 entity under the Audit Act Section 12-6-3 (B) NMSA 1978 and Section 2.2.2.16 NMAC. The procedures were agreed to by the ASSOCIATION through the Office of the New Mexico State Auditor. The Agua Sana Mutual Domestic Water Users Association management is responsible for the organization's accounting records. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the America Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in the report. Consequently, we make no representations regarding the sufficiency of the procedures described below either for the purposes for which this report has been requested or for any other purpose. Our procedures and findings are as follows:

Our procedures and findings are as follows:

1. Cash

Procedures

- a) Determine whether bank reconciliations are being performed in a timely manner and whether all bank and investment statements for the fiscal year are complete and on-hand.
- b) Perform a random test of bank reconciliations for accuracy. Also, trace ending balances to the general ledger, supporting documentation and the financial reporting submitted to DFA-Local Government Division.

- c) Determine whether the local public body's financial institution have provided it with 50% of pledged collateral on all uninsured deposits as required by Section 6-10-17 NMSA1978, NM Public Money Act, if applicable.

Findings

- a) The Association has two checking accounts and utilizes (Easy Bill) software to post transactions to its billing system and does not maintain a system of its financial transaction to prepare financial statements to summary its revenue and expenses on a monthly basis. Bank statements were available for the two bank accounts. Association did not maintain supporting documentation of its accounts being reconciled on a monthly basis. (See finding 2010-5)
- b) We were unable to perform a random test of bank reconciliations and trace to the financial records. Due to the lack of a monthly cash reconciliation and detail financial records. Association does not maintain a detail general ledger. The Association did not prepare and submit a proposed budget for approval to DFA local government division. No other reports were filed with the DFA local government division. (See finding 2010-1 and 2010-5)
- c) The two accounts had FDIC coverage of \$250,000. Bank accounts never exceeded uninsured limits and, therefore, pledged collateral was not required on any of the bank accounts at any time during the year.

2. Capital Assets

Procedures

Verify that the local public body is performing a yearly inventory as required by Section 12-6-10 NMSA 1978.

Findings

The Association did not perform a yearly inventory as required by State Statute. The Association did not have a complete listing of its capital assets as of December 31, 2010. (See finding 2010-7)

3. Revenues

Procedures

Identify the nature and amount of revenue from sources by reviewing the budget, agreements, rate schedules and underlying documentation.

- a) Perform an analytical review, test actual revenue compared to budgeted revenue for the year for each type of revenue.

Select a sample of revenues based on auditor judgment and test using the following attributes:

- b) Amount recorded in the general ledger agrees to the supporting documentation and the bank statements.
- c) Proper recording of classification, amounts, and period per review of supporting documentation and the general ledger. Perform this revenue work on the same accounting basis that the local public body keeps its accounting records on, cash basis, modified accrual basis, or accrual basis.

Findings:

- a) We were provided an excel worksheet for the year ended December 31, 2010 showing only four revenue accounts which were water sales, memberships, interest and returned checks. The Association did not prepare a budget for the year than ended December 31, 2010. We were unable to perform an analytical review and test actual revenues compared to budgeted revenues for the year for the four types of revenues.
- b) The Association does not maintain a general ledger. The Association financial records for revenues are deposit slips and monthly bank statements. We traced deposit slip amounts to the bank statements. No exceptions noted.
- c) Amounts were recorded on a cash basis to the four revenue accounts on a monthly basis. We tested approximately six months of deposit slip amount by totaling the amounts per deposit slips to the total posted to the bank statements which exceeded 50% of the total revenues. No exceptions noted.

4. Expenditures

Procedures

Select a sample of cash disbursements and test at least 25 transactions and 50% of the total amount of the expenditures for the following attributes:

- a) Determine that amount recorded as disbursed agrees to adequate supporting documentation. Verify that amount, payee, date and description agree to the vendor's invoice, purchase order, contract and canceled check, as appropriate.

- b) Determine that disbursements were properly authorized and approved in compliance with the budget, legal requirements and established policies and procedures.
- c) Determine that the bid process (or request for proposal process if applicable, purchase order, contracts and agreements were processed in accordance with the New Mexico Procurement Code Section 13-1-28 through 13-1-199 NMSA 1978) and State Purchasing Regulations (1.4.1 NMAC) and Regulations Governing the Per Diem and Mileage Act (2.42.2 NMAC).

Findings

- a) The Association did not maintain supporting documentation as cancelled checks, vendor's invoices, purchase orders and contracts. The Association had only bank statements and a check stub register with the name of payee and purpose of payment. Association did not use purchase orders or contracts. Unable to determine compliance with the procurement code. (See finding 2010-8 and 2010-2)
- b) Association disbursements were disbursements necessary for the operations of the association based on reviewing the check stub register and bank statements for the entire fiscal year. (See findings 2010-1, 2010-4 and 2010-8)
- c) Association did not maintain documentation to demonstrate compliance with the bid process (request for proposal process, if applicable), purchase orders, contracts and agreements were processed in accordance with the New Mexico Procurement Code (section 13-1-28 through 13-1-99 NMSA 1978) and State purchase regulations.(See finding 2010-2)

5. Journal Entries

Procedures

If non-routine journal entries, such as adjustment or reclassification, are posted to the general ledger, test significant items for the following attribute:

- a) Journal entries appear reasonable and have supporting documentation.
- b) The local public body has procedures that require journal entries to be reviewed and there is evidence the reviews are being performed.

Findings

The Association did not maintain a complete set of financial records recording all its financial transactions. Therefore journal entries were not prepared for the year ended December 31, 2010.

6. Budget

Procedures

Obtain the original fiscal year budget and all budget amendments made throughout the fiscal year and perform the following:

- a) Verify, through a review of minutes and correspondence, that the original budget and subsequent budget adjustments were approved by the local public body's governing body and DFA-LGD.
- b) Determine if the total actual expenditures exceeded the final budget at the legal level of budgetary control; if so report a compliance finding.
- c) From the original and final approved budgets and general ledger, prepare a schedule of revenues and expenditures – budget and actual on the budgetary basis used by the local public body (cash, actual or modified accrual basis) for each individual fund.

Findings

- a) The Association did not prepare and submitted an approved budget by the Board for approval to DFA-LGD for the year ended December 31, 2010. (See finding 2010-1)
- b) Unable to determine that total actual expenditures did not exceed the final budget at the legal level of budgetary control since a budget was not prepared and submitted for approval.
- c) A schedule of revenues and expenses was prepared from the Association's records on a cash budgetary basis. This schedule is included herein as Exhibit A. The Association did not submit a budget report for approval and no quarterly reports for the year ended December 31, 2010 to DFA-LGD.

Other

Procedures

If information comes to the IPA's attention (regardless of materiality) indicating any fraud, illegal acts, noncompliance, or any internal control deficiencies, such instances must be disclosed in the report as required by Section 12-6-6 NMSA 1978. The finding must include the required contents per Section 2.2.2.1-(1) (3) (C) NMAC.

However, see the Schedule of Findings and Responses related to budget, procurement code compliance, segregation of duties, cash reconciliation, financial statements, physical inventory of capital assets, adequate supporting documentation, late agreed upon procedures report, and late submission of IPA recommendation form.
