Re: FY2015 General Fund Audit and Reconciliation Process

Dear Secretary Clifford:

On December 30, 2015, the Office of the State Auditor (OSA) released the Fiscal Year (FY) 2015 financial audits for the Department of Finance and Administration (DFA) and the Component Appropriation Funds (State General Fund). We are pleased that the reports reflect significant progress toward mitigating the longstanding uncertainties regarding unreconciled cash balances.

In FY14, because of the unreconciled statewide cash balances in the general ledger accounts with the State General Fund Investment Pool, DFA recommended that the state should maintain a \$100 million contingency for potential losses. This recommendation was included in the 2015 General Appropriation Act by the Legislature and signed into law by the Governor. The state's inability to reconcile cash balances since the implementation of SHARE in July 2007 also resulted in a "disclaimer" of opinion with respect to the FY14 State General Fund audit.

Since that time, the Legislature has continued to provide recommendations and oversight regarding the matter; the OSA has pressed for transparency, accountability and a reliable reconciliation process; and DFA has begun to address the issue by performing the necessary reconciliations, which has substantially narrowed the uncertainties.

REDW LLC, the independent accounting firm that conducted the FY15 audit, issued an "unmodified" opinion, indicating that the State General Fund's financial statements are now fairly presented in all material respects. Moreover, for the period ending June 30, 2015, the reconciliations that DFA performed indicate that the financial asset balance exceeds claims recorded in the general ledger by \$4.1 million. It is our understanding that DFA is in the process of verifying transactions to further reduce this gap.

The DFA and State General Fund audits for FY15 continue to present some challenges and this office will continue to monitor and push for resolution. The transactional activity that occurred during the period beginning July 2007 through January 2013 has not been reconciled, and

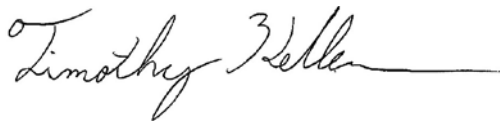

2540 Camino Edward Ortiz, Suite A, Santa Fe, New Mexico 87507
Phone (505) 476-3800 * Fax (505) 827-3512
www.osanm.org * 1-866-OSA-FRAUD

reconciliation may not be possible, due to incomplete data. In addition, the DFA and State General Fund audits include unresolved findings that still need to be addressed.

While we appreciate the progress that has been made, all responsible parties should continue to take steps in earnest to tangibly improve the reconciliation process. Ultimately, the reconciliation process of “balancing the checkbook” at an agency and fund level should include an independent verification of balances at such levels.

We appreciate DFA’s hard work and attention to this issue. Please let my staff or me know if we can be of assistance in any way.

Sincerely,

A handwritten signature in cursive script that reads "Timothy M. Keller". The signature is written in black ink and includes a long horizontal flourish extending to the right.

Timothy M. Keller
State Auditor

Independent Auditor's Report

Mr. Thomas E. Clifford, Ph.D., Cabinet Secretary
State of New Mexico
Department of Finance and Administration
and
Mr. Timothy Keller
New Mexico State Auditor

Report on the Financial Statements

We have audited the accompanying financial statements of each of the statutorily and administratively created funds that comprise the Component Appropriation Funds of the State of New Mexico (the "Component Appropriation Funds") as of and for the year ended June 30, 2015, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the accompanying financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial

statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Component Appropriation Fund's as of June 30, 2015, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1A, the accompanying financial statements present only the Component Appropriation Funds and do not purport to, and do not, present fairly the financial position of the State of New Mexico as of June 30, 2015, and the changes in its financial position, or where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements of the Component Appropriation Fund's. The supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Governmental Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2015, on our consideration of the Component Appropriation Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Component Appropriation Fund's internal control over financial reporting and compliance.

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis
June 30, 2015

Overview of the Reporting Entity

The Component Appropriation Funds (the “Funds”) consist of nine funds of the State of New Mexico, four of which are created by statute and five created by administration, as follows:

Statutorily Created Funds

- Common School Current Fund
- Current School Fund
- State Support Reserve Fund
- Tobacco Settlement Permanent Fund

Administratively Created Funds

- Appropriation Account Fund
- Federal Mineral Leasing Fund
- Appropriation Contingency Reserve Fund
- General Operating Reserve Fund
- Tax Stabilization Reserve Funds

The Funds are part of the General Fund of the State of New Mexico, as reported in the State’s Comprehensive Annual Financial Report.

This report has been prepared to meet the information needs of interested parties—the public, bond holders, bond rating agencies, the New Mexico State Legislature—and to comply with the State of New Mexico Audit Rule. It presents the financial position and results of operations of each the Funds, with summary “memorandum only” totals.

Financial Highlights

The Funds ended the year with aggregate reserves of 10.0% of recurring current year appropriations as compared to 7.3% in fiscal year 2014.

As of June 30, 2014, the General Fund Operating Reserve Fund reported a contingent liability of \$100 million related to the State General Fund Investment Pool (the “Pool”) maintained by the New Mexico State Treasurer’s Office. In February 2013, the Department of Finance and Administration’s Cash Control Unit began performing monthly reconciliations with the balances and accounts kept by the State Treasurer pursuant to Section 6-5-2.1.J. NMSA 1978. As a result of the reconciliation procedures performed, as more fully described in Note 6 to the financial statements, management estimates that no contingent liability exists as of June 30, 2015. The change in this contingent liability is reported as a “special item” in the statement of revenues, expenditures, and changes in fund balance of the General Operating Reserve Fund.

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis
June 30, 2015

In fiscal year 2015 the aggregate fund balance of the Component Appropriation Funds increased by \$75.1 million. Fund balance of the Component Appropriation Funds increased by \$2.6 million in fiscal year 2014. The increase in fiscal year 2015 is attributable to the decrease in the contingent liability of \$100 million. This is offset by the fact that revenues only increased by 3.1%, while appropriations increased by 5.3% compared with the previous year.

Fiscal year 2015 compares to fiscal year 2014 as follows:

- General and selective taxes are the largest revenue source, contributing 42.9% of total revenues in fiscal year 2015. Those revenues increased by \$181.2 million or 7.2%. From the general and selective taxes category, both gross receipts and insurance taxes had significant increases of \$103.1 million or 5.2% and \$74.9 million or 65.1%, respectively. Income taxes are the second largest revenue source contributing 25.4% of the total revenues. Those revenues increased by \$142.5 million or 9.8%. From the income taxes, withholding tax increased by \$85.2 million or 6.8% and corporate income tax increased by \$57.7 million or 29.3%.
- Severance taxes decreased by \$129.6 million or 23.3%. From the severance taxes category, oil and gas emergency school tax decreased by \$125.2 million or 25% due to falling gas prices.
- Appropriations increased by \$318.6 million or 5.3% from June 30, 2014. Public school support increased by \$109.7 million or 4.4%, other education increased by \$42.7 million or 56.3%, while higher education increased by \$61.3 million or by 7.6%.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Component Appropriation Funds use fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Component Appropriation Funds are categorized as governmental funds and therefore report using the modified accrual basis of accounting. The basic financial statements of the Funds include balance sheets and statements of revenues, expenditures and changes in fund balances, which are reported on pages 13 and 14, respectively.

The Component Appropriation Funds do not adopt annual appropriated budgets. However, the appropriations of the Component Appropriation Funds by law must equal the individual amounts appropriated in the various Appropriation Acts, which are reported in the Schedule of Appropriations on pages 32-36.

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis
June 30, 2015

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the fund financial statements. The notes to the financial statements can be found on pages 15 through 29 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents, as supplementary information, the Schedule of Revenues by Source and the Schedule of Appropriations. These schedules provide detail information on revenues and appropriations to demonstrate legal compliance with the statutes governing the collection of revenue and disbursements of appropriations by the Component Appropriation Funds.

Also presented as supplementary information are the following:

- Schedule of Amounts Due from Other State Entities
- Schedule of Amounts Due from Taxpayers
- Schedule of Amounts Due To Local Governments
- Schedule of Amounts Due to Taxpayers

Fund Financial Analysis

The focus of the financial statements of the Funds is on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the financing requirements. In particular, unassigned fund balance may serve as a useful measure of financial position and net resources available for spending.

As of the end of the current fiscal year, the Funds reported aggregate fund balance of \$749.1 million, an increase of \$75.1 million. Aggregate assets, liabilities, deferred inflows of resources, and fund balance as of June 30, are as follows:

Aggregate Assets, Liabilities, Deferred Inflows of Resources, and Fund Balance
June 30,
(in millions of dollars)

| | 2015 | 2014 |
|------------------------------|------------|------------|
| Assets | \$ 1,711.3 | \$ 1,779.2 |
| Liabilities | (921.4) | (1,032.0) |
| Deferred inflow of resources | (40.8) | (73.3) |
| Fund balance | \$ 749.1 | \$ 673.9 |

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis
June 30, 2015

The assets held by the Component Appropriation Funds are unappropriated and are committed with the exception of the Tobacco Settlement Permanent Fund and the State Support Reserve Fund, which are restricted, and the partially restricted General Operating Reserve Fund. It has been the policy of the State of New Mexico to not consider the deferred inflows of resources, \$40.8 million, as available for appropriation.

Management's Discussion and Analysis
June 30, 2015

Economic Factors Affecting New Mexico's Fiscal Year 2015 Budget

New Mexico utilizes a consensus of legislative and executive analysts to forecast General Fund revenue so that the Executive and Legislature work with the same revenue forecast in preparing their General Fund operating budget recommendations. This "consensus group" bases their revenue forecast on forecasts of the U.S. economy from IHS Global Insight and Moody's Analytics in combination with forecasts of the New Mexico economy by the University of New Mexico's Bureau of Business and Economic Research and Moody's Analytics. These data are supplemented with information provided by state agencies, the Congressional Budget Office, and other national data sources. Historical information on the value and volume of crude oil and natural gas produced in the state is derived from the State's ONGARD reporting system, and product price forecasts are based on the national economic forecasting services and other sources.

Trends in the U.S. Economy

The national economy as measured by Real Gross Domestic Product grew by 2.7 percent in state fiscal year (SFY) 2015. Total U.S. employment grew by 2.7 million, reaching a new high 2.5 percent above the pre-recession peak. U.S. average hourly wages grew by 2.2 percent, exceeding low inflation of 0.7 percent to increase the purchasing power of paychecks.

New Mexico Economy

Despite a sharp drop in oil and natural gas prices, which affected drilling activity and employment in the state's important oil and gas producing sector, the New Mexico economy grew at the fastest pace in SFY15 since before the Great Recession. By the end of SFY15 New Mexico employment grew by 1.3 percent, or 10,400 jobs, from SFY14. Industry sectors making the greatest contribution to growth included the Education and Health Sector with 6,600 new jobs, the Leisure and Hospitality sector with 2,700 new jobs, and the Professional and Business Services sector with 2,400 new jobs.

Dependence on government spending has been a headwind for the state's economy because of constrained federal budget growth. Although direct federal government employment has begun to stabilize in New Mexico, it is now down to its lowest level in almost 30 years. New Mexico has also faced strong headwinds from falling energy prices. Between the beginning and end of SFY15 the prices for both crude oil and natural gas fell by about 40 percent. Notwithstanding the price drop, New Mexico oil production reached 137 million barrels in SFY15 – setting a new record level for the state and doubling the volume produced in SFY11. In SFY15, New Mexico was the fifth highest producing state for oil and eighth highest for natural gas accounting for about 4 percent of total US production for each commodity.

2015 General Fund Revenue

Despite the challenging environment for oil- and gas-related revenues, in SFY15, General Fund recurring revenue was \$80 million higher than projected during the 2015 legislative session.

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis
June 30, 2015

General Fund recurring revenues excluding oil and gas related revenues grew by a strong 6.5 percent. Total recurring revenue including oil and gas related revenues grew at 2.6 percent in SFY15, surpassing the previous peak level reached in SFY08 and achieving a new all-time high for New Mexico of \$6.24 billion. With strong growth across the retail, construction, wholesale, and service sectors, the state's broad-based general sales tax, the Gross Receipts Tax (GRT), grew by 5.2 percent. The GRT is imposed on most business receipts, and is the State's single largest revenue source, contributing roughly one-third of General Fund revenue as well as a substantial portion of local government revenues. Distributions from the State's two Permanent Funds continued to benefit from a larger fund corpus and strong stock market returns, and reached a total of \$685 million or 11 percent of total General Fund revenues. Income tax revenues also grew robustly in SFY15 with 6.8 percent growth for personal income tax and 29.3 percent growth for corporate income tax.

General Fund Revenue Outlook

Another sharp decline of oil and gas related revenue is expected to offset growth in other state revenues leaving total revenue virtually flat in SFY16. The Consensus group expects oil and gas prices to improve gradually from recent low levels as the effects of lower prices result in increased demand and reduced supplies for both commodities. Permanent Fund distributions will grow again in SFY16 due to the cumulative impact on the funds' corpus of rapid oil production growth in recent years. Income tax growth is expected to moderate, but general sales tax revenue is expected to grow above trend rates, in part due to retail sales growth from consumers spending their savings at the gasoline pump. Insurance premiums tax revenue is forecast to increase significantly due to the expansion of Medicaid and reduced credits for uninsured care following implementation of the Affordable Care Act (ACA). Total SFY17 revenue is expected to grow by 4.4 percent with growth across almost all major sources.

National forecasters expect increased household formation, very low debt burdens, and improved credit conditions, along with growth in the stock market and housing values all to contribute to a rebound in consumer driven growth. Despite increased concerns around slowing Chinese growth and uncertainty over the timing and impacts of normalizing U.S. monetary policy, the overall prospects of the national economy for the next several years are good.

General Fund Reserves

Stronger than anticipated General Fund revenues combined with prudent spending growth have bolstered General Fund reserves, bringing the SFY15 year-end balance to 10.0 percent of recurring appropriations, which is the target advocated for by the Martinez Administration to insure against oil and gas revenue volatility and other unforeseen contingencies. In SFY16 reserve levels are expected to remain near target levels at 9.5 percent of recurring appropriations.

Notes to the Financial Statements

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

1) Summary of Significant Accounting Policies

A. Reporting Entity

The accompanying financial statements report nine statutorily and administratively created funds administered by the Department of Finance and Administration of the State of New Mexico. The funds are referred to as “Component Appropriation Funds” (the “Funds”). Together with many other statutorily and administratively created funds, they comprise the General Fund of the State of New Mexico, which is presented in the State of New Mexico’s Comprehensive Annual Financial Report.

The Funds do not constitute a primary government, component unit, or any other type of reporting entity as defined by generally accepted accounting principles.

Taken together, the Funds present the primary revenue and financing of the activities of the State of New Mexico. As such, the Legislature, state officials and the citizens of the State of New Mexico, as well as other groups such as bond issuers and rating services, have an interest in the operations of the Funds. The accompanying financial statements are presented to meet those needs.

The following is a description of the nine statutorily and administratively created funds.

Statutorily Created Funds

1. Common School Current Fund – SHARE Fund 71600

The *Common School Current Fund* (also known as the *Common School Income Fund*) was created by Section 19-1-17, NMSA 1978. This statute requires that the fund be credited with its respective proportion of money from the *State Land Income Fund* and the *State Permanent Fund*. Section 22-8-32, NMSA 1978, requires that at the end of each month, the State Treasurer transfer out the cash balance in this fund to the *Current School Fund*. Transfers will be presented as expenditures in these financial statements.

2. Current School Fund – SHARE Fund 71700

The *Current School Fund* was created by Section 22-8-32, NMSA 1978. This statute requires the State Treasurer to deposit into this fund: 1) all fines and forfeitures collected under general laws; 2) the net proceeds of property that may come to the State by escheat (however, Section 7-8A-13, NMSA 1978, requires all funds received under the Unclaimed Property Act to be deposited in the tax administration suspense fund for distribution to the *General Fund*); and 3) all other revenue required by law to be credited to the fund. In addition, as noted above, the statute requires that each

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

month the cash balance in the *Common School Current Fund* be transferred into this fund. Transfers will be presented as expenditures in these financial statements.

In addition to the above, Section 22-8-32 requires any unencumbered balance in this fund to be transferred out to the *Public School Fund*—a statutorily created fund administered by both the Public Education Department and the Component Appropriation Funds.

3. *State Support Reserve Fund – SHARE Fund 85700*

The *State Support Reserve Fund* was created by Section 22-8-31, NMSA 1978. This statute requires the following: The *State Support Reserve Fund* shall be used only to augment the appropriations for the state equalization guarantee distribution in order to ensure, to the extent of the amount undistributed in the fund, that the maximum figures for such distribution established by law shall not be reduced.

4. *Tobacco Settlement Permanent Fund – SHARE Fund 95200*

The *Tobacco Settlement Permanent Fund* was created by Section 6-4-9, NMSA 1978. Originally, the fund was created as a permanent fund as defined by generally accepted accounting principles. In 2003, legislation was enacted (Laws of 2003, Chapter 312) that made the fund a reserve within the *Component Appropriation Funds*. The amendment is not written clearly; however, the intent of the legislation was to make the fund a reserve within the *Component Appropriation Funds*.

The statute allows balances in the fund to be appropriated by the Legislature if balances in the *Component Appropriation Funds*, including its *General Operating Reserve Fund*, *Appropriation Contingency Reserve Fund*, and *Tax Stabilization Reserve Fund*, do not meet the level of appropriations authorized from the Component Appropriation Funds for a fiscal year. By statute, balances in the fund are to be invested by the state investment officer, which is accounted for in a private-purpose trust fund at the State Investment Council.

Section 6-4-9(B), NMSA 1978, requires that all money received by the State Treasurer in fiscal years 2003 through 2006 be distributed from the *Tobacco Settlement Permanent Fund* to the *Component Appropriation Funds*. Subsection C of that section requires that, in fiscal year 2007 and beyond, an annual distribution be made from the *Tobacco Settlement Permanent Fund* to the *Tobacco Settlement Program Fund* of an amount equal to fifty percent of the total amount distributed to the *Tobacco Settlement Permanent Fund* in that fiscal year until the amount is less than an amount equal to four and seven-tenths percent of the average of the year-end market values of the *Tobacco Settlement Permanent Fund* for the immediately

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

preceding five years. If the amount distributed to the *Tobacco Settlement Program Fund* is insufficient to meet appropriations, the secretary of the NM Department of Finance and Administration shall reduce each appropriation proportionately. In fiscal year 2009 through 2013, the remaining fifty percent of money distributed to the *Tobacco Settlement Permanent Fund* shall be distributed to the *Tobacco Settlement Program Fund*. Transfers will be presented as expenditures in these financial statements.

Administratively Created Funds

1. Appropriation Account Fund – SHARE Fund 85300

The *Appropriation Account Fund* is an administratively created fund the *Component Appropriation Funds* uses to account for the financial activity of the statutorily created *General Fund* and for portions of the financial activity of the statutorily created *Public School Fund* of the State of New Mexico.

State statute, Section 6-4-2, NMSA 1978, creates the *General Fund* and requires the State Treasurer to credit all revenues, not otherwise allocated, to the fund. In addition, the statute requires that expenditures from the fund be made only in accordance with appropriations authorized by the Legislature. Those appropriations result in allotments of cash from the *General Fund*. The allotments are presented as expenditures in the accompanying financial statements.

Section 22-8-14, NMSA 1978, creates the *Public School Fund*. The *Component Appropriation Funds* administers three financial activities of that fund; all other activities of the fund are administered by the Public Education Department.

One of those activities administered by the *Component Appropriation Funds* is the transfer from the *Current School Fund* to the *Public School Fund* required by Section 22-8-32, NMSA 1978. The *Component Appropriation Funds* administers the other two activities through its *Federal Mineral Leasing Fund* (see item 2 below). Those activities include receiving receipts under the Federal Minerals Land Act, 30 USC 181 (the General Appropriation Act defines *General Fund* to include Federal Mineral Leasing Act receipts) and allotting cash, based on legislative appropriations, from the *Public School Fund* to the *Instructional Materials Fund* and to the Bureau of Mines and Mineral Resources of the New Mexico Institute of Mining and Technology.

The transfer described in the previous paragraph reduces (offsets) the appropriation and related cash allotments that have been made from the *General Fund* to the portion of the *Public School Fund* administered by the Public Education Department.

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

The General Appropriations Act requires that the appropriation from the *General Fund* to the portion of the *Public School Fund* administered by the Public Education Department be reduced by the amounts transferred to the *Public School Fund* from the *Current School Fund*. Transfers will be presented as expenditures in these financial statements.

2. *Federal Mineral Leasing Fund – SHARE Fund 85100*

As noted above, the Component Appropriation Funds administers two other activities of the *Public School Fund* through its administratively created *Federal Mineral Leasing Fund*. Those activities include receiving receipts under the Federal Minerals Land Act, 30 USC 181, and allotting cash—based on legislative appropriation—from the portion of the *Public School Fund* administered by the Component Appropriation Funds to the *Instructional Materials Fund* and to the Bureau of Mines and Mineral Resources of the New Mexico Institute of Mining and Technology.

Like the transfer in from the *Current School Fund*, the receipts from the Federal Minerals Land Act, 30 USC 181 reduce (offset) the appropriation and related cash allotments that have been made from the *General Fund* to portion of the *Public School Fund* administered by the Public Education Department. As noted above, the General Appropriations Act requires that the appropriation from the *General Fund* to the portion of the *Public School Fund* administered by the Public Education Department be reduced by the amount of Federal Minerals Land Act receipts. Transfers will be presented as expenditures in these financial statements.

The General Appropriations Act is consistent with Section 22-8-34, NMSA 1978, in that Section 22-8-34 requires the State Treasurer to deposit all money received under the Federal Mineral Lands Leasing Act to the *Public School Fund*, except for the following: 1) that portion appropriated to the *Instructional Materials Fund* and to the Bureau of Mines and Mineral Resources of the New Mexico Institute of Mining and Technology; and 2) the remainder of any prepayments after deducting the amount that the State would have received as its share of royalties during the fiscal year. (The statute requires that the remainder be distributed to the *Common School Permanent Fund*.)

3. *Appropriation Contingency Reserve Fund – SHARE Fund 85400*

Section 6-4-2.3, NMSA 1978, creates the appropriation contingency reserve within the *General Fund*. To account for the reserve, the Component Appropriation Funds has established the *Appropriation Contingency Reserve Fund*. Section 6-4-2.3 includes the following requirements: The appropriation contingency reserve may be expended only upon specific authorization by the legislature or as provided in

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

Sections 6-7-1 through 6-7-3 NMSA 1978 in the event there is no surplus of unappropriated money in the *General Fund*.

4. *General Operating Reserve Fund – SHARE Fund 85200*

Section 6-4-2.1, NMSA 1978, creates the General Operating Reserve Fund within the *General Fund*. To account for the reserve, the *Component Appropriation Funds* has established the *General Operating Reserve Fund*. Section 6-4-4, NMSA 1978, requires that excess revenue over appropriations (expenditures/expenses) in the *General Fund* be transferred to the *General Operating Reserve Fund* provided that 1) if the sum of the excess revenue plus the balance in the operating reserve prior to the transfer is greater than eight percent of the aggregate recurring appropriations from the *General Fund* for the previous fiscal year, then an amount equal to the smaller of either the amount of the excess revenue or the difference between the sum and eight percent of the aggregate recurring appropriation from the *General Fund* for the previous fiscal year; and 2) that if the total of the amount transferred to the *Tax Stabilization Reserve Fund* plus the balance in that reserve prior to the transfer is greater than six percent of the aggregate recurring appropriations from the *General Fund* for the previous fiscal year, then an amount equal to the smaller of either the amount transferred or the difference between the total and six percent of the aggregate recurring appropriation from the *General Fund* for the previous fiscal year is appropriated to the *Taxpayer Dividend Fund*. Transfers will be presented as expenditures in these financial statements.

The *General Operating Reserve Fund* may be expended only upon specific authorization by the legislature and only in the event *General Fund* revenues and fund balances, including all other transfers to the *General Fund* authorized by law, are insufficient to meet the level of appropriations authorized.

5. *Tax Stabilization Reserve Fund – SHARE Fund 84300*

Section 6-4-2.2, NMSA 1978, creates the tax stabilization reserve within the *General Fund*. To account for the reserve, the *Component Appropriation Funds* has established the *Tax Stabilization Reserve Fund*. The balance of the tax stabilization reserve consists of those funds directed to it by law (Section 6-4-4) and such other funds as the legislature may appropriate from time to time to the reserve. Except as otherwise provided in Subsection D of Section 6-4-2.2, NMSA 1978, any balance in the *Tax Stabilization Reserve Fund* may be appropriated only by a two-thirds majority vote of both houses of the legislature following receipt by the legislature of a declaration of the governor that such an appropriation is necessary for the public peace, health and safety. However, subsection D allows the legislature to

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

appropriate balances in the fund without any restrictions, in the event that resources are not sufficient to meet authorized appropriations.

B. Basis of Accounting and Presentation

The financial statements of the Component Appropriation Funds have been prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units and funds. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting.

Fund Financial Statements—Each of the Funds are reported as Governmental Funds. Accordingly, they are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. For derived tax revenues, related assets are recognized when the exchange transaction occurs or when the resources are received, whichever occurs first. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Funds consider tax revenues to be available if they are collected within 60 days after the end of the fiscal year. Unearned revenues are reported when assets, such as taxes receivable, are recognized before the revenues.

Escheats are not considered susceptible to accrual and are therefore recognized when received. Reversions are recognized if collected within 90 days of the end of the current fiscal period and all other revenues are considered to be available if collected prior to completion of the Funds' financial statements, typically by December 1st following the end of the fiscal year. Appropriations generally are recorded when a liability is incurred. Debt service expenditures are recorded only when payment is due.

C. Assets, Deferred Outflow of Resources, Liabilities, and Deferred Inflow of Resources

1. *Due from Other State Entities*—Section 6-4-2, NMSA 1978, requires all revenues—not otherwise allocated by law—to be credited to the Component Appropriation Funds. In addition, Section 6-5-10, NMSA 1978, requires all unassigned fund balances in reverting state agency funds to be reverted to the Component Appropriation Funds. Various state agencies collect revenues on behalf of the Component Appropriation Funds. In addition, most state agencies administer funds that revert balances to the Funds.

The amounts due from other state entities reported in the accompanying financial statements are amounts due to the Funds under the authority of the two statutes cited above. The amount due from other state entities has been reduced by \$72.4 million, which represents the estimated amount of personal income tax refunds in excess of final personal income tax settlements, at June 30, 2015. The estimate is based on a ten

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

year average of final settlement payments and refunds. Fiscal year 2015 is the fifth year the estimate was based on a ten year average. The estimate for fiscal year 2007 was based on a three year average, and the estimates for fiscal years 2008 and 2009 were based on the estimate for 2007.

2. *Due to Local Governments*—The amounts due to local governments reported in the accompanying financial statements are 1/12 of the annual appropriation amounts due to local governments. This is a timing difference and the amounts due to local governments are paid within 30 days of the fiscal year-end.
3. *Due from Taxpayers and Unearned Revenues*—GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65) states that when an asset is recorded in Governmental Fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available. Amounts due from taxpayers recorded as unearned revenues are earned during fiscal year 2015, but are not readily available until more than 60 days after the fiscal year-end, resulting in the reclassification to deferred outflow of resources (due to taxpayers) and unearned revenue (deferred inflow of resources).
4. *Use of Resources*—When both restricted and unrestricted resources are available for use, it is the Component Appropriation Funds’ policy to use restricted resources first and then unrestricted resources as they are needed.
5. *Interfund Activity*—The effect of interfund activity between these nine statutorily and administratively created funds has been eliminated from the memorandum totals in the accompanying financial statements. This interfund activity included the receivables and payables listed in the table below.

| Due from Other Funds | | Due to Other Funds | | |
|------------------------------|--------------------------------|---------------------------|--------------------------------|-----------------------|
| Name | SHARE System Fund Number | Name | SHARE System Fund Number | Amount |
| Appropriations Accounts Fund | 85300 | General Operating Reserve | 85200 | \$ 39,359,006 |
| Appropriations Accounts Fund | 85300 | Current School | 71700 | 41,964,988 |
| Current School Fund | 71700 | Common School Fund | 71600 | 41,964,988 |
| | | | | <u>\$ 123,288,982</u> |

D. Revenues, Appropriations and Expenditures

1. *Reversions*—Once an appropriation lapses, the related cash balance is usually required by law to be returned to the fund from where the appropriation allotment originated (that is, from where the cash related to the appropriation originated). In

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

the accompanying financial statements, the cash returned to the Funds is treated as general revenue and presented as “reversions.”

2. *Revenues*—The Component Appropriation Funds account for all financial resources of the State except those required to be accounted for by a fund within another state entity. Sources of revenues are collected by various agencies of the State and held within an agency fund to be transferred to one of the Component Appropriation Funds for revenue recognition. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.
3. *Expenditures*—Appropriations represent legislatively approved transfers of budgeted funds to state entities for the necessities of operations.

E. Fund Balances

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, fund balance classifications are based primarily upon the extent to which a government is bound to follow constraints on resources in governmental funds in the following categories: nonspendable, restricted, committed, assigned, and unassigned.

Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision-making authority.

Restricted fund balance represents those portions of fund balance where constraints are placed on resources, either externally or by law through constitutional provisions or enabling legislation. Unassigned fund balance is the residual amount after all classifications were considered.

The accompanying financial statements report restricted fund balance in the Tobacco Settlement Permanent Fund and the General Operating Reserve Fund because the balance is legally restricted for specific purposes.

The General Operating Reserve Fund reports \$36 million of restricted fund balance to address potential Maintenance of Effort (MOE) shortfalls in FY 13 and FY 14 by the New Mexico Public Education Department (PED). As enacted, the *Laws of 2013 chapter 191, 51st legislature first session* includes appropriations and language that commit the General Operating Reserve Fund to cover such shortfalls. The U.S. Department of Education and PED are in dispute over the calculations of the amount needed for maintenance of effort. An estimated \$36 million transfer will be made upon PED appearing at a future Board of Finance meeting to confirm the exact amount of the

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

transfer needed to meet maintenance of effort requirements. Based on this information, restricted fund balance in the amount of \$36 million is reported in the General Operating Reserve Fund.

F. Budgets

Annually, the Governor is required to submit a balanced budget by fund, function and activity to the Legislature. The Legislature authorizes expenditures in the annual Appropriations Act by source which is signed into law by the Governor. Annual appropriations lapse at fiscal year-end. In the event actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the Legislature to address the budget issues. Adjustments to the budget may also be made throughout the year for changes in departmental or fund revenues so that departments and funds will not end the fiscal year in a deficit position. Expenditures are controlled at the program appropriation unit level. The budget is adopted on a budgetary basis that is not consistent with GAAP. The appropriations of the Component Appropriation Funds by law must equal the individual amounts appropriated in the various Appropriation Acts.

G. Recently Issued Accounting Standards

In June 2012, GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68). The objective of this Statement is to improve the information provided in government financial reports about pension related financial support provided by certain nonemployer entities that make contributions to pension plans that are used to provide benefits to the employees of other entities. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2014. Adopting GASB 68 did not impact the Component Appropriation Funds' financial statements.

In November 2013, GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68* (GASB 71). The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2014. Adopting GASB 71 did not impact the Component Appropriation Funds' financial statements.

In February 2015, GASB issued Statement No. 72, *Fair Value Measurement and Application* (GASB 72). The objective is to establish general principles for measuring fair value and standards of accounting and financial reporting for assets and liabilities measured at fair value. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2015. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 72 on its financial statements.

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

In June 2015, GASB issued Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68* (GASB 73). The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2016. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 73 on its financial statements.

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* (GASB 74). The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2016. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 74 on its financial statements.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75). The objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2017. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 75 on its financial statements.

In June 2015, GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* (GASB 76). The objective of this Statement is to identify—in the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2015. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 76 on its financial statements.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures* (GASB 77). The objective is to improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2015. The Component Appropriation Funds have not completed the process of evaluating the impact of GASB 77 on its financial statements.

2) Investments

As of June 30, 2015, the Funds had the following investments:

| Description | Maturities | Fair Value |
|--|------------------|-----------------------|
| New Mexico State Treasurer's Office General Fund Investment Pool | 1 day to 5 years | \$ <u>572,057,713</u> |
| New Mexico State Investment Council | | |
| Equities | Not Applicable | |
| Large Cap Index Pool | | \$ 115,818,293 |
| Small/Mid Cap Active Pool | | 1,335,182 |
| Small/Mid Cap Index Pool | | 307,875 |
| Non-U.S. Developed Markets Pool | | 11,475,890 |
| Non-U.S. Emerging Markets Pool | | 6,793,956 |
| Core Bonds | | |
| U.S. Core Bonds Pool | 1 to 10 years | 41,863,021 |
| Hedge Fund Pool | Not Applicable | 19,156,091 |
| Cash/Cash Equivalents/Accruals | Not Applicable | <u>19,611,309</u> |
| | | <u>\$ 216,361,617</u> |

State law (Section 8-6-3 NMSA 1978) requires investments of the Funds be managed by the New Mexico State Treasurer's Office, with the exception of those belonging to the Tobacco Settlement Fund. State law requires that Tobacco Settlement Fund investments be managed by the New Mexico State Investment Council. Accordingly, the investments of the Funds' consist of an interest in the State General Fund Investment Pool managed by the New Mexico State Treasurer's Office.

Interest Rate Risk

The New Mexico State Treasurer's Office has an investment policy that limits investment maturities to five years or less on allowable investments. This policy is a means of managing exposure to fair value losses arising from increasing interest rates. This policy is reviewed and approved annually by the New Mexico State Board of Finance.

Credit Risk

The New Mexico State Treasurer and New Mexico State Investment Council pools are not rated. For additional GASB Statement No. 40, *Deposit and Investment Risk Disclosures-An Amendment of GASB Statement No. 3*, disclosure information regarding cash held by the New Mexico State Treasurer, the reader should refer to the separate audit reports for the New Mexico State Treasurer's Office and the New Mexico State Investment Council for the fiscal year ended June 30, 2015.

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

The Funds do not have an investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

3) Advance from the State General Fund Investment Pool

The Appropriation Account Fund disburses allotted appropriations to various entities based on New Mexico Legislative Appropriation Acts, in anticipation of the collection of tax revenues, fees and other sources. The State General Fund Investment Pool makes advances to the Appropriation Account Fund to the extent that such sources have not yet been collected. Advances from the State General Fund Investment Pool totaling \$848,080,685 at June 30, 2015, will be repaid as amounts due from other state entities are collected.

4) Due from Other State Entities

Various state agencies, mainly New Mexico Taxation and Revenue Department, collect revenues on behalf of the Funds. In addition, state agencies are required to revert unspent balances to the Funds at the close of each fiscal year. Resulting aggregate amounts due from state entities are composed of the following at June 30, 2015:

| SHARE System Fund Number | Source | Amount |
|--------------------------------|--|-----------------------|
| 83200 | Gross Receipt Tax | \$ 339,913,505 |
| 83200 | Withholding Taxes | 172,239,904 |
| 83300 | Severance School Taxes | 84,005,155 |
| 11820 | Insurance Suspense Taxes | 50,485,817 |
| 60100 | Land Grant Permanent Fund | 41,964,988 |
| 27900 | Corporate Income Taxes | 26,533,204 |
| 64200 | Regular Income Tax - PIT | 21,220,871 |
| 2000 | Tribal Revenue Sharing (Indian Gaming) | 16,795,745 |
| 60200 | Severance Tax Permanent Fund Income | 15,226,915 |
| 57800 | Fire Protection Fund - Insurance Fees | 15,156,471 |
| 85800 | Public Education Department | 14,259,323 |
| 82800 | Luxury Tax | 13,272,518 |
| 82800 | Gaming Tax | 12,297,605 |
| 82500 | Motor Vehicle Excise Tax | 9,591,917 |
| Various | Other | 49,089,580 |
| | | <u>\$ 882,053,518</u> |

5) Transfers

For fiscal year 2015, the laws of 2014, Chapter 63 from the 51st legislature, second session, section 13(B) provides the Funds with authority to transfer \$60 million from the General Operating Reserve Fund to the Appropriation Contingency Reserve Fund to meet fiscal year 2015 obligations. In addition, for fiscal year 2015, the laws of 2015, Chapter 101 from the 52nd legislature, 1st Session, section 12(A) provides the Funds with authority to transfer \$140 million from the General Operating Reserve Fund to the Appropriation Account Fund to meet fiscal year 2015 obligations. For fiscal year 2015, appropriations exceeded revenues by \$39.4 million.

6) General Operating Reserve Fund Contingency

For cash management and investment purposes, funds of various state agencies are deposited in the State General Fund Investment Pool (SGFIP) which is managed by the Office of the State Treasurer. The SGFIP is not a part of the accompanying financial statements, but is reported as a fiduciary fund in the financial statements of the State Treasurer's Office. Claims on the SGFIP are reported as assets by the various agencies investing in the SGFIP. By statute, the Department of Finance and Administration (DFA) is responsible for reconciling the SGFIP balances. As of June 30, 2015, the Component Appropriations Funds report an aggregate investment of \$572,057,713 in the SGFIP (see Note 2).

As noted in prior years, the statewide cash balances in the SHARE general ledger accounts were not reconciled to the SGFIP during the period beginning with the implementation of SHARE in July 2006 through January 2013. Changes in statewide business processes, bank account structure and SHARE System configuration, which occurred in 2013, enabled reconciliation of activity reported by the State's fiscal agent bank to the SHARE general ledger on a point-forward basis beginning February 1, 2013.

Since 2013, the reconciliation process has evolved and matured to a point where the uncertainties associated with this long outstanding issue can now be quantified and monitored. The current reconciliation process has produced a difference between statewide agency claims against the SGFIP and the fiduciary resources held at the State Treasurer's Office to fulfill those claims. The difference has remained within a relatively narrow range over the period in which the process has been used. Recognizing that the comprehensive effort to reconcile the historical transactions which occurred during the period of July 2006 through January 2013 was unsuccessful due to incomplete data sets, and that future efforts would probably be equally inconclusive, there will always be some uncertainty related to this period. However,

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

based on the on-going process it now seems unlikely that either a significant loss or gain occurred during this timeframe.

For the past nine months, management has compared reconciled aggregated agency claims on the SGFIP to the related resources held by the State Treasurer's Office in its fiduciary role. The monthly reconciliations suggest a variable but reasonable difference between claims and resources. A contingency occurs because circumstances exist that create uncertainty as to possible gain or loss that will ultimately be resolved when the difference between claims and resources is eliminated. Management has determined that the likelihood of a loss is remote, and the potential magnitude of such a loss could be absorbed by the Component Appropriations Funds' General Operating Reserve Fund without the need for a contingency. In accordance with GASB 62, because the likelihood that a loss has occurred is not probable, management does not believe a loss contingency is necessary in the current period.

7) Financial Reporting and Disclosure for Multiple-Employer Cost Sharing Pension Plans by Employees

Compliant with the requirements of Government Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*, the State of New Mexico has implemented the standard for the fiscal year ending June 30, 2015.

The Component Appropriations Funds, as part of the primary government of the State of New Mexico, is a contributing employer to a cost-sharing multiple employer defined benefit pension plan administered by the Public Employees Retirement Association (PERA). Disclosure requirements for Governmental Funds apply to the primary government as a whole, and as such, this information will be presented in the Comprehensive Annual Finance Report (CAFR) of the State of New Mexico. As of June 30, 2015, the States Funded Divisions' net pension liability is \$1.8 billion, and the States' total net pension liability is \$3.3 billion.

8) State General Fund Investment Pool

Compliant with statute 6-10-3 (NMSA 1978), and to optimize state cash management and investment practices, funds of various state agencies are deposited in the State General Fund Investment Pool (SGFIP). This pool is managed by the New Mexico State Treasurer's Office (STO). Claims on the SGFIP are reported as financial assets by the various agencies investing in the SGFIP.

State of New Mexico
Component Appropriation Funds
Notes to Financial Statements
June 30, 2015

Agency claims against the SGFIP and fiduciary resources held at STO to fulfill those claims were not reconciled from the inception of SHARE (the State's centralized accounting system), in July 2006, through January 2013, which caused uncertainty as to the validity of the claims and the ability of fiduciary resources to fulfill those claims. As a result of business process and systems configuration changes made during the Cash Management Remediation Project Phase I the Department of Finance and Administration's Financial Control division began reconciling transactional activity reported by the State's fiscal agent bank to the SHARE general ledger on a point-forward basis beginning February 1, 2013. In March 2015, the Financial Control Division implemented a reconciliation process that compares statewide agency claims against the resources held in the SGFIP at STO. This process is known as the claims to resources reconciliation. The claims to resources reconciliation process has been successfully applied to fiscal year-end 2014 and the months from January 2015 through June 2015. While work remains, the results are encouraging and the following assertions can be made:

- 1) The difference between statewide agency claims against the SGFIP and fiduciary resources held at STO to fulfill those claims has remained within a relatively narrow range over the periods in which the reconciliation process has been used;
- 2) Agency claims on the SGFIP will be honored in their entirety. Any adjustment necessary to the claims balance will be applied against the General Operating Reserve Fund. No portion of the adjustment shall be allocated to any specific agency that participates in the SGFIP.

Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards*

Mr. Thomas E. Clifford, Ph.D., Cabinet Secretary
State of New Mexico
Department of Finance and Administration
and
Mr. Timothy Keller
New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the statutorily and administratively created funds that comprise the Component Appropriation Funds of the State of New Mexico (the "Component Appropriation Funds"), as of and for the year ended June 30, 2015, and the related notes to the financial statements, and have issued our report thereon dated November 30, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Component Appropriation Funds' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Component Appropriation Funds' internal control. Accordingly, we do not express an opinion on the effectiveness of the Component Appropriation Funds' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses as item 2013-001, that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Component Appropriation Funds' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Component Appropriation Funds' Response to the Finding

The Component Appropriations Funds' response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The Component Appropriation Funds' response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Component Appropriation Funds' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

State of New Mexico
Component Appropriation Funds
Schedule of Finding and Response
For the Year Ended June 30, 2015

Section I — Financial Statement Findings

2013-001 – Timely Resolution of Uncertainties (Significant Deficiency) (Repeated)

Condition: As of June 30, 2014, the General Operating Reserve Fund reported a \$100 million allowance for potential loss related to the reconciliation of the New Mexico State General Fund Investment Pool (the “Pool”). For the current year (FY15) audit and reflective of reconciliation procedures performed during the year this allowance was reduced as of June 30, 2015. Based on the reconciliation for the period ending June 30, 2015, the Pool’s financial asset balance exceeds claims recorded in the general ledger by \$4 million, 0.1% of the Pool value. While procedures have been implemented to reconcile current Pool activity and compare cumulative claims to existing resources, transactional activity that occurred during the period beginning July 2007 through January 2013 has not been reconciled.

Criteria: Procedures should be in place to enable timely resolution of uncertainties impacting the financial statements including those related to historical Pool activity.

Cause and Effect: The final components of a comprehensive remediation process were implemented in the last quarter of the fiscal year and a minor unreconciled difference remains. A late 2014 effort to reconcile transactions which occurred during the period of July 2006 through January 2013 was unsuccessful in part due to incomplete data sets.

Auditor’s Recommendations: Continue to perform monthly reconciliation of Pool resources to claims and take steps to align bank balance with that shown in the general ledger.

Management’s Response: The reconciliation process has evolved and matured to a point where the uncertainties associated with this long outstanding issue can be addressed. Our current reconciliation process has produced a difference between statewide agency claims against the Pool and the fiduciary resources held at the State Treasurer’s Office to fulfill those claims that has remained within a relatively narrow range over the period in which the reconciliation process has been used. Recognizing that the effort to reconcile transactions which occurred during the period of July 2007 through January 2013 was unsuccessful and that future efforts due to the lack of data and less than optimal business processes in place at that time would yield equally inconclusive results, there will always be some uncertainty related to this period. However, based on the on-going process it now seems remote that a significant loss or gain occurred during this period. We are currently reviewing a previous unrecorded claim on cash that reverts back to the General Fund. After proper review and assuming the claim is deemed valid this action alone will address 75% the unreconciled difference. Additionally, an annual process will be developed to evaluate the significance of difference identified during the reconciliation process and assess the need to process an accounting adjustment to recognize the variance.

Financial Statement Preparation

The State of New Mexico Component Appropriation Funds (Funds) independent public accountants assisted in the preparation of the financial statements presented in this report; however, the Funds' management is responsible for the financial statement and disclosure content. The Funds' management has reviewed and approved the financial statements and related notes and they believe that their records adequately support the financial statements.
