INDEPENDENT AUDITORS' REPORT

Ms. Olivia Padilla-Jackson, Cabinet Secretary
State of New Mexico Department of Finance and Administration
and Mr. Brian Colón, New Mexico State Auditor
Santa Fe, New Mexico

Report on the Financial Statements

We have audited the accompanying financial statements of the each of the statutorily and administratively created funds that comprise the Component Appropriation Funds of the State of New Mexico (the Component Appropriation Funds) as defined in the table of contents, as of and for the year ended June 30, 2019, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Ms. Olivia Padilla-Jackson, Cabinet Secretary
State of New Mexico Department of Finance and Administration
and Mr. Brian Colón, New Mexico State Auditor

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Component Appropriation Fund's, as defined in the table of contents, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1A, the accompanying financial statements present only the Component Appropriation Funds and do not purport to, and do not, present fairly the financial position of the State of New Mexico as of June 30, 2019, and the changes in its financial position, or where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

The Tobacco Settlement Permanent Fund is presented as an unaudited fund in the accompanying other supplemental information schedules of the Component Appropriation Funds. New Mexico state law requires the Tobacco Settlement Permanent Fund's investments to be managed by the New Mexico State Investment Council. For audited information on the Tobacco Settlement Permanent Fund refer to the New Mexico State Investment Council's audited financial statements. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements of the Component Appropriation Funds as defined in the table of contents.

The other supplementary information, as detailed in the table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Ms. Olivia Padilla-Jackson, Cabinet Secretary
State of New Mexico Department of Finance and Administration
and Mr. Brian Colón, New Mexico State Auditor

Other Reporting Required by *Governmental Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated November 13, 2019, on our consideration of the Component Appropriation Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to solely describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Component Appropriation Fund's internal control over financial reporting and compliance.

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis (Unaudited)
June 30, 2019

Overview of the Reporting Entity

The Component Appropriation Funds of the State of New Mexico (the "Funds") consist of nine funds, three created by statute and six administratively created:

Statutorily Created Funds

- Common School Current Fund
- Current School Fund
- State Support Reserve Fund

Administratively Created Funds

- Appropriation Account Fund
- Federal Mineral Leasing Fund
- Appropriation Contingency Reserve Fund
- General Operating Reserve Fund
- Tax Stabilization Reserve Fund (*Moved to SIC 7/1/2019*)
- Tax Payer Dividend Fund (*Repealed July 1, 2018*)

The Funds are part of the General Fund of the State of New Mexico, as reported in the State's Comprehensive Annual Financial Report.

This report has been prepared to meet the information needs of interested parties—the public, bond holders, bond rating agencies, the New Mexico State Legislature—and to comply with the State of New Mexico Audit Act. It presents the financial position and results of operations of each of the Funds. The Tobacco Settlement Permanent Fund, which is a reserve fund of the state is managed and reported by the State Investment Council, which is responsible for investment activities related to this and other similar funds. The Schedules presented in other supplementary information include the unaudited Tobacco Settlement Permanent Fund as well as "memorandum only" totals.

Financial Highlights

The Funds ended the year with aggregate reserves of 28.9% of recurring current year appropriations as compared to 19.5% in fiscal year 2018, which both include the Tobacco Settlement Permanent Fund in their calculation. See the other supplementary information for schedules that include the unaudited Tobacco Settlement Permanent Fund.

The Tobacco Settlement Permanent Fund, which contains the unspent corpus of the continuing settlement, is managed and reported by the New Mexico State Investment Council (SIC) under statute and reflective of stewardship assignment and investment reporting requirements related to the corpus.

In fiscal year 2019, excluding the Tobacco Settlement Permanent Fund, the aggregate fund balance of the Funds increased by \$579.4 million. The increase in fiscal year 2019 is mainly attributable to a 20.1% increase in revenues including general and selective taxes, income taxes, severance taxes and rents and royalties.

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis (Unaudited)
June 30, 2019

Fiscal year 2019 compares to fiscal year 2018 as follows (excluding the Tobacco Settlement Permanent Fund):

- General and selective taxes, which include GRT, are the largest revenue source, contributing \$3.29 billion or 46.1% of total revenues in fiscal year 2019. Those revenues increased by \$312.8 million or 10.5% in 2019. This increase is largely the result of an uptick in gross receipts tax proceeds related to the oil & gas industry.
- Income taxes are the second largest revenue source contributing \$1.69 billion or 23.8% of total revenues in fiscal year 2019. Those revenues increased by \$69.2 million or 4.3% in 2019. This increase is the result of an uptick in personal income taxes and net corporate income taxes.
- Rents and Royalties are the third largest revenue source contributing \$1.35 billion or 19% of total revenues in fiscal year 2019. Those revenues increased by \$613.5 million or 82.4% in 2019. This increase is the result of an uptick in federal mineral leasing receipts.
- Appropriations increased by 20.3% in 2019. This increase was a result of increased appropriations to agencies as well as capital outlay appropriations that were funded by the general fund.

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. The Component Appropriation Funds are categorized as governmental funds and therefore reported using the modified accrual basis of accounting. The basic financial statements of the Funds include Balance Sheets and Statements of Revenues, Expenditures and Changes in Fund Balances, which are reported on pages 14 through 17.

The Funds do not adopt annual appropriated budgets. However, the appropriations of the Funds by law must equal the individual amounts appropriated in the various Appropriation Acts, which are reported in the Schedule of Appropriations on pages 38-47.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the fund financial statements. The notes to the financial statements can be found on pages 19 through 30 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents, as other supplementary information, the unaudited Schedule of Balance Sheet and Schedule of Revenues, Expenditures and Fund Balances, which includes the Tobacco Settlement Permanent Fund. These schedules include the amount of investments held in the State Investment Council and the net increase/decrease in fair value for these investments. These numbers are not audited and are presented to show the amount of the investments held by the State Investment Council to help the reader of the statements understand the position of a fund that can be used as a reserve to the Component Appropriation Funds. The audited numbers for the Tobacco Settlement Permanent Fund can be found in the State of New Mexico's State Investment Council's 2019 Financial Statement report located at their website. In addition, other supplementary information includes the Schedule of Revenues by Source and the Schedule of Appropriations. These schedules provide detailed information on revenues and appropriations to demonstrate legal compliance with the statutes governing the collection of revenue and disbursements of appropriations by the Component Appropriation Funds.

Also presented as other supplementary information are the following:

- Schedule of Amounts Due from Other State Entities
- Schedule of Amounts Due from Taxpayers
- Schedule of Amounts Due To Local Governments
- Schedule of Amounts Due to Taxpayers
- Schedule of Transfers In/(Out)
- Schedule of Appropriations by Function of Government

Fund Financial Analysis

The focus of the financial statements of the Funds is on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the financing requirements.

As of the end of the current fiscal year, the Funds reported aggregate fund balance of \$1.6 billion, an increase of \$579.4 million from fiscal year 2018. Aggregate assets, liabilities, deferred inflows of resources, and fund balance as of June 30, are as follows:

Aggregate Assets, Liabilities,
Deferred Inflows of Resources, and Fund Balance
June 30, 2019
(in millions of dollars)

	2019	2018
Assets	\$ 1,787.5	\$ 1,148.7
Liabilities	(111.5)	(55.3)
Deferred inflow of resources	(70.7)	(67.5)
Fund balance	\$ 1,605.3	\$ 1,025.9

The assets held by the Funds are unappropriated and unassigned with the exception of the State Support Reserve Fund and the Tax Payer Dividend Fund, which are restricted. At year-end, 70.7 million of assets were classified as deferred inflows and will be recognized as revenue in the next accounting period. This amount is not considered available for appropriation in the year ended June 30, 2019.

Economic Factors Affecting New Mexico's Fiscal Year 2019 Budget

New Mexico utilizes a consensus revenue estimating group (CREG) comprised of legislative and executive economists to forecast General Fund revenue so that the Executive and Legislature work with the same revenue forecast in preparing their respective General Fund operating budget recommendations. The CREG bases its State General revenue forecast on forecasts of the U.S. economy from Moody's Analytics and IHS Global Insight in combination with forecasts of the New Mexico economy prepared by the University of New Mexico's Bureau of Business and Economic Research. Economic inputs also include data and information provided by state agencies, and other national data sources such as the Energy Information Administration, Bureau of Labor Statistics, Bureau of Economic Analysis, and the U.S. Census. Historical information on the New Mexico value and volume of crude oil and natural gas produced in the state is derived from the state's GenTax Database reporting system, and product price forecasts are derived from the national economic forecasting services and other sources. Additionally, New Mexico state revenues are highly sensitive to boom and bust cycles in the energy industry; the CREG conducts a Stress-Test on state revenues during the process. The establishment and use of Stress-Testing hedges against an economic downturn or an unforeseen downswing in the energy sector. Stress-Testing allows for targeting appropriate levels of general fund reserves while safeguarding the state's budget at the same time.

Trends in the U.S. Economy

The U.S. economy continued to grow in State fiscal year 2019. The national economy, as measured by real gross domestic, grew by 2.6 percent in fiscal year 2019. Total employment levels averaged 2.4 million, or 1.5 percent, above fiscal year 2018. U.S. average hourly wages grew by 3.2 percent, exceeding inflation of 2.1 percent.

U.S. economic growth is expected to continue at a moderate pace in fiscal year 2019, with projected GDP growth of 2.6 percent. In fiscal year 2019 the international trade war has created economic uncertainty and national analytics firms have warned of a potential recession on the horizon. The Federal Reserve is expected to lower short-term interest rates headed into fiscal year 2020, in an effort to bolster US economic strength. The Federal Reserve cites strong labor markets, a historic low unemployment rate, and strong household spending for a continued positive economic outlook.

New Mexico Economy

The New Mexico economy grew moderately in fiscal year 2019 and the energy sector continued to provide significant contributions. Reflective of New Mexico economic growth, state wages and salaries grew by 4.9 percent and total personal income in the state grew by 4.6 percent. During fiscal year 2019, New Mexico employment growth averaged 1.9 percent, adding 15,800 jobs. During fiscal year 2019 the Mining Sector has continued to grow setting new record levels for rig count, oil production, and taxable gross receipts. The Mining sector added 2,000 jobs during fiscal year 2019. Other sectors driving growth in fiscal year 2019 were the Construction Sector, the Professional and Business Services Sector, and the Leisure and Hospitality sector increasing employment by 3,100 jobs, 2,000 jobs, and 1,800 jobs respectively.

Oil prices in fiscal year 2019 remained lower than oil prices in fiscal year 2018. However, this has been offset by record levels of oil production in fiscal year 2019. Natural gas prices remained low in fiscal year 2019. Average New Mexico prices in fiscal year 2019 for crude oil and natural gas were \$51.80 per barrel and \$3.05

State of New Mexico
Component Appropriation Funds
Management's Discussion and Analysis (Unaudited)
June 30, 2019

per mcf, respectively. New Mexico continued to be the third largest producing state for oil and the ninth largest for natural gas.

General Fund Revenue and Reserve Outlook

According to the August 2019 consensus revenue estimate, fiscal year 2019 recurring revenue is expected to have grown by 16.2 percent to over \$7.9 billion, while year-end financial reserves are estimated to be 26.9 percent of recurring appropriations. The growth in the revenue estimate is due to the increased oil and natural gas production and the related revenues (both direct severance and direct gross receipts tax receipts from the industry) in fiscal year 2019 added to growth in personal and corporate income taxes and earnings on state balances. Additionally, there was a significant increase in the Federal Mineral Lease revenue associated with a one-time payment in the amount of \$497 million in November 2018.

Fiscal year 2020 recurring revenues are estimated to decline slightly by 1.8 percent when compared to fiscal year 2019. Total revenues for fiscal year 2020 are estimated to be around \$7.8 billion. The decline is due to the above average mineral rents and royalties payment received in fiscal year 2019 as noted above. Mineral rent and royalties revenues are expected to return to trend in fiscal year 2020.

Oil and natural gas- related revenues are projected to be even higher than fiscal year 2019 levels as oil volumes continue to grow in fiscal year 2020. New Mexico oil prices are projected to average \$52.50 per barrel in fiscal year 2020. Natural gas prices have remained low and flat during the time period considered. New Mexico has vast amounts of natural gas in proved reserves. Natural gas production has increased as the energy industry increases its oil production. New Mexico is currently experiencing an oversupply of natural gas production. Putting downward pressure on natural gas prices. New Mexico natural gas prices are expected to average \$2.00 per mcf in fiscal year 2020. Oil volumes are projected to increase by 19.6 percent and natural gas volumes are estimated to increase by 5.5 percent.

Oil and natural gas related growth, including severance, federal mineral leasing bonus and royalty payments and gross receipts tax revenue growth associated with oil exploration, is expected to be the largest driver of General Fund revenue growth in fiscal year 2020. Non-energy related growth in gross receipts tax is also expected as the Rio Grande corridor is expected to continue to see moderate growth, and food and medical hold harmless distributions to local governments continue to be phased out. Distributions from the Permanent Funds are also expected to contribute to growth, increasing general fund revenue by an estimated \$35 million in fiscal year 2020 due to a higher average 5-year market value driven by fund growth. Fiscal year 2020 ending reserves are projected to be \$2,269 million or 32 percent of recurring appropriations if no additional FY 2020 supplemental or special appropriations are made mid-year during the 2020 legislative session.

Requests for Information

This financial report is designed to provide a general overview of the Funds' finances for all those with an interest in its finances.

Notes to the Financial Statements

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

1) Summary of Significant Accounting Policies

A. Reporting Entity

The accompanying financial statements report nine statutorily and administratively created funds administered by the Department of Finance and Administration of the State of New Mexico. The funds are referred to as “Component Appropriation Funds” (the “Funds”). Together with many other statutorily and administratively created funds, they comprise the General Fund of the State of New Mexico, which is presented in the State of New Mexico’s Comprehensive Annual Financial Report.

The Funds do not constitute a primary government, component unit, or any other type of reporting entity as defined by generally accepted accounting principles.

Taken together, the Funds present the primary revenue and financing of the activities of the State of New Mexico. As such, the Legislature, state officials and the citizens of the State of New Mexico, as well as other groups such as bond issuers and rating services, have an interest in the operations of the Funds. The accompanying financial statements are presented to meet those needs. A tenth fund, the Tobacco Settlement Permanent Fund, which is managed and reported by the N.M. State Investment Council (SIC) is considered a reserve fund of the Component Appropriations Funds.

The following is a description of the nine statutorily and administratively created funds.

Statutorily Created Funds

1. *Common School Current Fund – SHARE Fund 71600*

The *Common School Current Fund* (also known as the *Common School Income Fund*) was created by Section 19-1-17, NMSA 1978. This statute requires that the fund be credited with its respective proportion of money from the *State Land Income Fund* and the *State Permanent Fund*. Section 22-8-32, NMSA 1978, requires that at the end of each month, the state treasurer transfer out the cash balance in this fund to the *Current School Fund*. In fiscal year 2019, revenues were reported in this fund before transferring the balance to the *Current School Fund* per 22-8-32, NMSA 1978.

2. *Current School Fund – SHARE Fund 71700*

The *Current School Fund* was created by Section 22-8-32, NMSA 1978. This statute requires the state treasurer to deposit into this fund: 1) all fines and forfeitures collected under general laws; 2) the net proceeds of property that may come to the state by escheat (however, Section 7-8A-13, NMSA 1978, requires all funds received under the Unclaimed Property Act to be deposited in the tax administration suspense fund for distribution to the *General Fund*); and 3) all other revenue required by law to be credited to the fund. In addition, as noted above, the statute requires that each month the cash balance in the *Common School Current Fund* be transferred into this fund.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

In addition to the above, Section 22-8-32 requires any unencumbered balance in this fund to be transferred out to the *Public School Fund*—a statutorily created fund administered by both the Public Education Department and the Component Appropriation Funds.

3. *State Support Reserve Fund – SHARE Fund 85700*

The *State Support Reserve Fund* was created by Section 22-8-31, NMSA 1978. This statute requires the following: The *State Support Reserve Fund* shall be used only to augment the appropriations for the state equalization guarantee distribution in order to ensure, to the extent of the amount undistributed in the fund, that the maximum figures for such distribution established by law shall not be reduced. The fund balance at June 30, 2019, was \$19,083,393 and is restricted based on the statute that created the fund.

Administratively Created Funds

1. *Appropriation Account Fund – SHARE Fund 85300*

The *Appropriation Account Fund* is an administratively created fund the *Component Appropriation Funds* uses to account for the financial activity of the statutorily created *General Fund* and for portions of the financial activity of the statutorily created *Public School Fund* of the State of New Mexico.

State statute, Section 6-4-2, NMSA 1978, creates the *General Fund* and requires the state treasurer to credit all revenues, not otherwise allocated, to the fund. In addition, the statute requires that expenditures from the fund be made only in accordance with appropriations authorized by the Legislature. Those appropriations result in allotments of cash from the *General Fund*. The allotments are presented as transfers in the accompanying financial statements.

Section 22-8-14, NMSA 1978, creates the *Public School Fund*. The *Component Appropriation Funds* administers three financial activities of that fund; all other activities of the fund are administered by the Public Education Department.

One of those activities administered by the *Component Appropriation Funds* is the transfer from the *Current School Fund* to the *Public School Fund* required by Section 22-8-32, NMSA 1978. The *Component Appropriation Funds* administers the other two activities through its *Federal Mineral Leasing Fund* (see item 2 below). Those activities include receiving receipts under the Federal Minerals Land Act, 30 USC 181 (the General Appropriation Act defines *General Fund* to include Federal Mineral Leasing Act receipts) and allotting cash, based on legislative appropriations, from the *Public School Fund* to the *Instructional Materials Fund* and to the Bureau of Mines and Mineral Resources of the New Mexico Institute of Mining and Technology.

The transfer described in the previous paragraph reduces (offsets) the appropriation and related cash allotments that have been made from the *General Fund* to the

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

portion of the *Public School Fund* administered by the Public Education Department. The General Appropriations Act requires that the appropriation from the *General Fund* to the portion of the *Public School Fund* administered by the Public Education Department be reduced by the amounts transferred to the *Public School Fund* from the *Current School Fund*. Expenditures will be presented as transfers in these financial statements.

2. *Federal Mineral Leasing Fund – SHARE Fund 85100*

As noted above, the *Component Appropriation Funds* administers two other activities of the *Public School Fund* through its administratively created *Federal Mineral Leasing Fund*. Those activities include receiving receipts under the Federal Minerals Land Act, 30 USC 181, and allotting cash—based on legislative appropriation—from the portion of the *Public School Fund* administered by the *Component Appropriation Funds* to the *Instructional Materials Fund* and to the Bureau of Mines and Mineral Resources of the New Mexico Institute of Mining and Technology.

Like the transfer in from the *Current School Fund*, the receipts from the Federal Minerals Land Act, 30 USC 181 reduce (offset) the appropriation and related cash allotments that have been made from the *General Fund* to fund a portion of the *Public School Fund* administered by the Public Education Department. As noted above, the General Appropriations Act requires that the appropriation from the *General Fund* to the portion of the *Public School Fund* administered by the Public Education Department be reduced by the amount of Federal Minerals Land Act receipts. Expenditures will be presented as transfers in these financial statements.

The General Appropriations Act is consistent with Section 22-8-34, NMSA 1978, in that Section 22-8-34 requires the state treasurer to deposit all money received under the Federal Mineral Lands Leasing Act to the *Public School Fund*, except for the following: 1) that portion appropriated to the *Instructional Materials Fund* and to the Bureau of Mines and Mineral Resources of the New Mexico Institute of Mining and Technology; and 2) the remainder of any prepayments after deducting the amount that the state would have received as its share of royalties during the fiscal year. (The statute requires that the remainder be distributed to the *Common School Permanent Fund*.)

3. *Appropriation Contingency Reserve Fund – SHARE Fund 85400*

Section 6-4-2.3, NMSA 1978, creates the appropriation contingency reserve within the *General Fund*. To account for the reserve, the Component Appropriation Funds has established the *Appropriation Contingency Reserve Fund*. Section 6-4-2.3 includes the following requirements: The appropriation contingency reserve may be expended only upon specific authorization by the legislature or as provided in Sections 6-7-1 through 6-7-3 NMSA 1978 in the event there is no surplus of unappropriated money in the *General Fund*. The fund balance at June 30, 2019, was \$11,659,992 and was reported as unassigned.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

4. *General Operating Reserve Fund – SHARE Fund 85200*

Section 6-4-2.1, NMSA 1978, creates the General Operating Reserve Fund within the *General Fund*. To account for the reserve, the *Component Appropriation Funds* has established the *General Operating Reserve Fund*. Section 6-4-4, NMSA 1978, requires that excess revenue over appropriations (expenditures/expenses) in the *General Fund* be transferred to the *General Operating Reserve Fund* provided that if the sum of the excess revenue plus the balance in the operating reserve prior to the transfer is greater than eight percent of the aggregate recurring appropriations from the *General Fund* for the previous fiscal year, then an amount equal to the smaller of either the amount of the excess revenue or the difference between the sum and eight percent of the aggregate recurring appropriation from the *General Fund* for the previous fiscal year shall be transferred to the *Tax Stabilization Fund*. Expenditures will be presented as transfers in these financial statements.

The *General Operating Reserve Fund* may be expended only upon specific authorization by the legislature and only in the event *General Fund* revenues and fund balances, including all other transfers to the *General Fund* authorized by law, are insufficient to meet the level of appropriations authorized. The fund balance at June 30, 2019, was \$486,304,000 and was reported as unassigned.

5. *Tax Stabilization Reserve Fund – SHARE Fund 84300*

Section 6-4-2.2, NMSA 1978, creates the tax stabilization reserve within the *General Fund*. To account for the reserve, the *Component Appropriation Funds* has established the *Tax Stabilization Reserve Fund*. The balance of the tax stabilization reserve consists of those funds directed to it by law (Section 6-4-4) and such other funds as the legislature may appropriate from time to time to the reserve. Except as otherwise provided in Subsection D of Section 6-4-2.2, NMSA 1978, any balance in the *Tax Stabilization Reserve Fund* may be appropriated only by a two-thirds majority vote of both houses of the legislature following receipt by the legislature of a declaration of the governor that such an appropriation is necessary for the public peace, health and safety. However, subsection D allows the legislature to appropriate balances in the fund without any restrictions, in the event that resources are not sufficient to meet authorized appropriations. The fund balance at June 30, 2019, was \$1,088,292,185 and was reported as unassigned.

Effective July 1, 2019, the *Tax Stabilization Fund* was moved to the State Investment Council. In subsequent years, the fund will be presented as part of other supplementary information similar to the Tobacco Permanent Fund for reserve calculation purposes but will not be shown on the face of the basic financial statements.

6. *Tax Payer Dividend Fund – SHARE Fund 20730*

Section 6-4-5, NMSA 1978, creates the *Tax Payer Dividend Fund* within the *General Fund*. The balance of the tax payer dividend fund shall be those funds directed to it by law and such other funds as the legislature may appropriate from time to time.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

Balances in the fund may be appropriated only for the purposes of refunding said balances to taxpayers. The ending fund balance at June 30, 2019, was \$0. This fund was repealed by the Legislature during the 2017 Special Session with an effective date of July 1, 2018. The fund will be removed from the financial statements in fiscal year 2020.

B. Basis of Accounting and Presentation

The financial statements of the Funds have been prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units and funds. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting.

Fund Financial Statements - Each of the Funds are reported as Governmental Funds. Accordingly, they are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. For derived tax revenues, related assets are recognized when the exchange transaction occurs or when the resources are received, whichever occurs first. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Funds consider tax revenues to be available if they are collected within 60 days after the end of the fiscal year. Unearned revenues are reported when assets, such as taxes are obtained prior to revenue being recognized.

Escheats are not considered susceptible to accrual and are therefore recognized when received. Reversions are recognized as transfers if collected within 90 days of the end of the current fiscal period and all other revenues are considered to be available if collected prior to completion of the Funds' financial statements, typically by November 15th following the end of the fiscal year. Appropriations generally are recorded when a liability is incurred.

C. Assets, Deferred Outflow of Resources, Liabilities, and Deferred Inflow of Resources

1. *Due from Other State Entities* — Section 6-4-2, NMSA 1978, requires all revenues not otherwise allocated by law to be credited to the Component Appropriation Funds. In addition, Section 6-5-10, NMSA 1978, requires all unassigned fund balances in reverting state agency funds to be reverted to the Component Appropriation Funds. Various state agencies collect revenues on behalf of the Component Appropriation Funds. In addition, most state agencies administer funds that revert balances to the Funds.

The amounts due from other state entities reported in the accompanying financial statements are amounts due to the Funds under the authority of the two statutes cited above. The amount due from taxpayers has been reduced by \$72.8 million, which represents the estimated amount of personal income tax refunds in excess of final personal income tax settlements, at June 30, 2019. The estimate is based on a ten-year average of final settlement payments and refunds. Fiscal year 2019 is the eighth year the estimate was based on a ten-year average. The estimate for fiscal year 2007 was

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

based on a three-year average, and the estimates for fiscal years 2008 and 2009 were based on the estimate for 2007.

2. *Due to Local Governments* — the amounts due to local governments reported in the accompanying financial statements are 1/12 of the annual appropriation amounts due to local governments. This is a timing difference and the amounts due to local governments are paid within 30 days of the fiscal year-end.
3. *Due from Taxpayers and Unearned Revenues* — GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65) states that when an asset is recorded in Governmental Fund financial statements but the revenue is not available, the government should report a deferred inflow of resources until such time as the revenue becomes available. Amounts due from taxpayers recorded as unearned revenues are earned during fiscal year 2019, but are not readily available until more than 60 days after the fiscal year-end, resulting in the reclassification to deferred outflow of resources (due to taxpayers) and unearned revenue (deferred inflow of resources).
4. *Use of Resources* — when both restricted and unrestricted resources are available for use, it is the Component Appropriation Funds’ policy to use restricted resources first and then unrestricted resources as they are needed.
5. *Interfund Activity* — the effect of interfund activity between these nine statutorily and administratively created funds has been eliminated from the memorandum totals in the accompanying financial statements. This interfund activity included the receivables and payables listed in the table below.

Due from Other Funds (receiving)		Due to Other Funds (providing)		
Name	SHARE System Fund Number	Name	SHARE System Fund Number	Amount
General Operating Reserve	85200	Appropriations Accounts Fund	85300	14,549,449
Tax Stabilization Fund	84300	Appropriations Accounts Fund	85300	378,697,728
Appropriations Accounts Fund	85300	Federal Mineral Leasing Fund	85100	135,168
				393,382,345

D. Revenues, Appropriations, Expenditures and Reversions

1. *Reversions* — once an appropriation lapses, the unspent cash balance is usually required by law to be returned to the fund from where the appropriation allotment originated (that is, from where the cash related to the appropriation originated). In the accompanying financial statements, the cash returned to the Funds is treated as other financing sources and presented as “reversions.”
2. *Revenues* — the Component Appropriation Funds account for the financial resources of the state except those required to be accounted for by a fund within another state entity. Proceeds are collected by various agencies of the state and held within an agency fund to be transferred to one of the Component Appropriation Funds for revenue recognition. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

3. *Expenditures/Transfers* — appropriations represent legislatively approved transfers of budgeted funds to state entities for the necessities of operations. In the accompanying financial statements, appropriations sent to external entities are treated as expenditures and all other appropriations sent to State entities and component units are treated as other financing uses and presented as “appropriations”.

E. Fund Balances

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, fund balance classifications are based upon the extent to which a government is bound to follow constraints on resources in governmental funds in the following categories: nonspendable, restricted, committed, assigned, and unassigned.

Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision-making authority.

Restricted fund balance represents those portions of fund balance where constraints are placed on resources, either externally or by law through constitutional provisions or enabling legislation. Unassigned fund balance is the residual amount after all classifications were considered.

The accompanying financial statements report restricted fund balance in the State Support Reserve Fund because the balance is legally restricted for specific purposes.

F. Budgets

Annually, the Governor is required to submit a balanced budget by Program Code (P-Code) to the Legislature. The Legislature authorizes expenditures in the annual Appropriations Act by source, which is signed into law by the Governor. Annual appropriations lapse at fiscal year-end. In the event actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the Legislature to address the budget issues. Adjustments to the budget may also be made throughout the year for changes in program revenues so that departments and funds will not end the fiscal year in a deficit position. Expenditures are controlled at the program appropriation unit level. The budget is adopted on a budgetary basis that is not consistent with GAAP. The appropriations of the Component Appropriation Funds by law must equal the individual amounts appropriated in the various Appropriation Acts.

G. Change in Accounting Policy and Presentation

1. *Common School Receipts* – in prior fiscal years, revenues received in the *Common School Fund* were recorded in a liability account and then transferred to the *Current School Fund* per 22-8-32 (B), *NMSA 1978*. It was determined by management these revenues should be reported in the *Common School Fund* and then transferred to the *Current School Fund*. The basic financial statements will show these revenues correctly with a corresponding transfer to the *Current School Fund*.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

2) Investment in State General Fund Investment Pool

State law (Section 8-6-3 NMSA 1978) requires investments of the Funds be managed by the New Mexico State Treasurer’s Office. The investments managed by the State Treasurer’s Office consist of an interest in the State General Fund Investment Pool managed by the New Mexico State Treasurer’s Office, which is accounted for as cash and cash equivalents. See the New Mexico State Treasurer’s Office audited financial statements via the NM Office of the State Auditor’s website for further information.

As of June 30, 2019, the Funds had the following investments:

Description	Maturities	Fair Value
New Mexico State Treasurer's Office General Fund Investment Pool	1 day to 5 years	<u>\$1,147,924,068</u>

Interest Rate Risk

The New Mexico State Treasurer’s Office has an investment policy that limits investment maturities to five years or less on allowable investments. This policy is a means of managing exposure to fair value losses arising from increasing interest rates. This policy is reviewed and approved annually by the New Mexico State Board of Finance.

Credit Risk

The New Mexico State Treasurer pools are not rated. For additional GASB Statement No. 40, *Deposit and Investment Risk Disclosures-An Amendment of GASB Statement No. 3*, disclosure information regarding cash held by the New Mexico State Treasurer, the reader should refer to the separate audit reports for the New Mexico State Treasurer’s Office for the fiscal year ended June 30, 2019. The Funds do not have an investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

3) Advance from the State General Fund Investment Pool

The Appropriation Account Fund disburses allotted appropriations to various entities based on New Mexico Legislative Appropriation Acts, in anticipation of the collection of tax revenues, fees and other sources. The State General Fund Investment Pool makes advances to the Appropriation Account Fund to the extent that such sources have not yet been collected. There were no advances to report as of June 30, 2019.

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

4) Due from Other State Entities

Various state agencies collect revenues on behalf of the Funds. Resulting aggregate amounts due from state entities are composed of the following at June 30, 2019, which also reflect amounts owed to 3rd parties:

Agency	Fund	Source	Amount
33300	27900	Corporate Income Tax	35,549,493
33300	64200	Personal Income Tax	(1,555,973) *
33300	82500	Weight Distance Tax	(128,091) *
33300	82800	Various Taxes & Fees	12,307,526
33300	83100	Worker's Compensation	(77,886) *
33300	83200	Taxes & Surcharges	353,368,747

5) Transfers

For fiscal year 2019, the First Session of the 54th Legislature, authorized the following:

- ◆ Laws of 2019, Chapter 271, Section 12, Item 2 – transferred 40,000,000 from the General Fund to the Department of Finance & Administration for disbursement to the tobacco settlement permanent fund at the state investment council.
- ◆ Laws of 2019, Chapter 271, Section 12, Item 4 – transferred 6,000,000 from the General Fund to the Department of Finance & Administration for disbursement to the water project fund at the New Mexico Finance Authority.
- ◆ Laws of 2019, Chapter 271, Section 12, Item 5 – transferred 4,000,000 from the General Fund to the Department of Finance & Administration for disbursement to the primary care fund at the New Mexico Finance Authority.
- ◆ Laws of 2019, Chapter 271, Section 12, Item 7 – transferred 20,000,000 from the General Fund to the Higher Education Department for the teacher loan repayment fund.

For detailed information, see the Schedule of Transfers In/(Out) in the other supplementary information section.

June 30, 2019

6) State General Fund Investment Pool Reconciliation

The state maintains a short-term investment “pool,” the State General Fund Investment Pool (SGFIP). The investment pool is managed by the New Mexico State Treasurer’s Office (STO).

For cash management and investment purposes, funds of various state agencies are deposited in the SGFIP, which is managed by STO. The SGFIP is not a part of the accompanying financial statements, but is reported as a fiduciary fund in the financial statements of STO. Claims on the SGFIP are reported as assets by the various agencies investing in the SGFIP. By statute, the DFA is responsible for reconciling the SGFIP balances. As of June 30, 2019, the Component Appropriations Funds report an aggregate investment of \$1,147,924,068 in the SGFIP (see Note 2).

The state controller indicated on September 17, 2019 that resources held in the pool were equivalent to the corresponding business unit claims on those resources and that all claims as recorded in SHARE shall be honored at face value.

7) Financial Reporting and Disclosure for Multiple-Employer Cost Sharing Pension Plans by Employees

Compliant with the requirements of Government Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*, the State of New Mexico implemented the standard for the fiscal year ending June 30, 2016.

The Component Appropriations Funds, as part of the primary government of the State of New Mexico, is a contributing employer to a cost-sharing multiple employer defined benefit pension plan administered by the Public Employees Retirement Association (PERA). Disclosure requirements for Governmental Funds apply to the primary government as a whole, and as such, this information will be presented in the Comprehensive Annual Finance Report (CAFR) of the State of New Mexico. As of June 30, 2019, the States Funded Divisions’ net pension liability is \$3.3 billion, and the total plan net pension liability is \$6.2 billion.

8) Postemployment Benefits - State Retiree Health Care Plan

Compliant with the requirements of Government Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the State of New Mexico has implemented this standard for the fiscal year ended June 30, 2019. The (Department, Agency, Commission, etc.), as part of the primary government of the State of New Mexico, is a contributing employer to a cost-sharing multiple-employer defined benefit postemployment health care plan that provides comprehensive group health insurance for persons who have retired from certain public service positions in New Mexico. The other postemployment benefits (OPEB) Plan is

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

administered by the Retiree Health Care Authority of the State of New Mexico. Overall, total OPEB liability exceeds OPEB Plan net position resulting in a net OPEB liability. The State has determined the State's share of the net OPEB liability to be a liability of the State as a whole, rather than any agency or department of the State and the liability will not be reported in the department or agency level financial statements of the State. All required disclosures will be presented in the Comprehensive Annual Financial Report (CAFR) of the State of New Mexico.

Information concerning the net liability, benefit expense, and benefit-related deferred inflows and deferred outflows of resources of the primary government will be contained in the State of New Mexico Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2019 and will be available, when issued, from the Office of the State Controller, Room 166, Bataan Memorial Building, 407 Galisteo Street, Santa Fe, New Mexico, 87501.

9) Contingencies

A. Pending or Threatened Litigation

There are various protests and lawsuits by taxpayers and other parties claiming abatements, refunds, and the recovery of unclaimed property in the State Taxation and Revenue Department's ("TRD") possession relating to various programs administered by TRD. The total dollar amount representing the claims either in protest with TRD, or pending state courts as of the end of fiscal year 2019, was an estimated \$269.1 million. Readers can refer to the published fiscal year 2019 TRD audit for additional information on outstanding claims or lawsuits. Liabilities arising from these lawsuits would be paid out of TRD's current tax collections, which would reduce the distribution sent to the State General Fund.

TRD is also subject to legal proceedings involving local public bodies related to Gross Receipts Tax distributions (GRT). The plaintiffs assert that distributions have been improperly reduced. TRD is currently reviewing the details and gathering additional information. At the time of financial statement issuance, the impact cannot be estimated. It is management's assessment that the likelihood of the plaintiffs prevailing is remote. Liabilities arising from these lawsuits would be paid out of TRD's current tax collections, which would reduce the distribution sent to the State General Fund.

B. New Mexico Film Production Tax Credit Act

Film Production Tax Credit. Pursuant to the New Mexico Film Production Tax Credit Act (Article 2F 7-2F-1 through 7-2F-12, NMSA 1978), the state provides film and

State of New Mexico
Component Appropriation Funds
Notes to the Financial Statements
June 30, 2019

television companies the opportunity to be reimbursed for a portion of in state production expenditures. In 2011, a cap on annual program disbursements was enacted and set at \$50.0 million/year. In 2019, authorization to pay approved film credits prior to July 1, 2019 was enacted and cannot exceed \$100.0 million. Thus, total amount authorized to pay approved film credits is \$150.0 million. As of June 30, 2019, the estimated unpaid film tax credit obligation is \$29.0 million. This obligation will be paid out of future tax collections, reducing the distribution sent to the State General Fund

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Ms. Olivia Padilla-Jackson, Cabinet Secretary
State of New Mexico Department of Finance and Administration
and Mr. Brian Colón, New Mexico State Auditor
Santa Fe, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial of the of the statutorily and administratively created funds that comprise the Component Appropriation Funds of the State of New Mexico (the Component Appropriation Funds), as defined in the table of contents, as of and for the year ended June 30, 2019, and the related notes to the financial statements, and have issued our report thereon dated November 13, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Component Appropriation Funds' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Component Appropriation Funds' internal control. Accordingly, we do not express an opinion on the effectiveness of Component Appropriation Funds' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Ms. Olivia Padilla-Jackson, Cabinet Secretary
State of New Mexico Department of Finance and Administration
and Mr. Brian Colón, New Mexico State Auditor

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Component Appropriation Funds' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Financial Statement Preparation

The State of New Mexico Component Appropriation Funds (Component Appropriation Funds) independent public accountants assisted in the preparation of the financial statements presented in this report; however, the Component Appropriation Funds' management is responsible for the financial statement and disclosure content. The Component Appropriation Funds' management has reviewed and approved the financial statements and related notes and they believe that their records adequately support the financial statements.
