To Management  
Llano Quemado Mutual Domestic Water Consumers Association, Inc.  
Llano Quemado, New Mexico  
and  
To Mr. Timothy Keller, State Auditor

We have performed the procedures enumerated below, which were agreed to by the Llano Quemado Mutual Domestic Water Consumers Association, Inc. (Association) and the New Mexico State Auditor's Office, solely to assist in determining if the Association is in compliance with New Mexico State Audit Rule, Tier 4, as of December 31, 2011. The Association is the responsible party and the subject matter is the responsibility of the Association. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures we performed and the associated findings are included in a supplemental attachment.

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the Tier 4 agreed-upon procedures. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of management and others within the Association, the State Auditor, the Department of Finance and Administration – Local Government Division, and the New Mexico State Legislature and is not intended to be and should not be used by anyone other than these specified parties.

AGREED UPON PROCEDURES  
December 31, 2011**

**PROCEDURES PERFORMED AND RELATED RESULTS**

**1. Cash**

- a) Determine whether bank reconciliations are being performed in a timely manner and whether all bank and investment statements for the fiscal year are complete and on hand.

We observed all bank statements for the year and noted that bank reconciliations are completed manually by the Treasurer. We determined that all bank reconciliations are performed on a timely basis and all were complete and on-hand for the fiscal year and submitted to the Board for review in the monthly Treasurer's Report.

- b) Perform a random test of bank reconciliations for accuracy. Also, trace ending balances to the general ledger, supporting documentation and the financial reports submitted to DFA - Local Government Division.

We tested reconciliations for August and October 2011. Reconciliations are accurate and tie to supporting detail and Treasurer's Report. The Association did not submit reports to DFA – Local Government Division. This is a repeat finding from the prior year. See related finding 2010-001 in the Schedule of Findings and Responses.

- c) Determine whether the local public body's financial institutions have provided it with the 50% of pledged collateral on all uninsured deposits as required by Section 6-10-17 NMSA 1978, NM Public Money Act, if applicable.

We determined upon review of the monthly bank statements and bank reconciliations that the Association maintained a cumulative account balance below the \$250,000 Federal Deposit Insurance Corporation coverage limit; therefore, additional procedures were not performed.

**2. Capital Assets**

Verify that the local public body is performing a yearly inventory as required by Section 12-6-10 NMSA 1978.

The Association did not perform a yearly inventory as required by Section 12-6-10 NMSA 1978, because they do not have any movable equipment or chattels that cost over \$5,000.

**3. Revenues**

Identify the nature and amount of revenue from sources by reviewing the budget, agreements, rate schedules, and underlying documentation.

- a) Perform an analytical review; test actual revenue compared to budgeted revenue for the year for each type of revenue.

It was noted that the Association did not submit a formal budget to DFA as required but uses prior year amounts as a guideline for its current year budget. We performed an analytical review of the change in current year revenue from prior year and compared current year actual revenues with amounts from prior year. We noted no unusual or unexplained variances.

Select a sample of revenues for based on auditor judgement and test using following attributes:

- b) Amount recorded in the general ledger agrees to the supporting documentation and the bank statement.
- c) Proper recording of classification, amount, and period per review of supporting documentation and the general ledger. Perform this revenue work on the same accounting basis that the local public body keeps its accounting records on - cash basis, modified accrual basis, or accrual basis.

The billing reports for February, May, June, July September and November were compared to the operating report and general ledger for year ended 12/31/2011. The classifications of income including water sales, rent and interest appeared to be properly recorded.

**4. Expenditures**

Select a sample of cash disbursements based on auditor judgement and test using the following attributes:

- a) Determine that amount recorded as disbursed agrees to adequate supporting documentation. Verify that amount, payee, date and description agree to the vendor's invoice, purchase order, contract and canceled check, as appropriate.
- b) Determine that disbursements were properly authorized and approved in compliance with the budget, legal requirements, and established policies and procedures.

A sample of 26 disbursements totaling \$45,633.54, 53.35% of total expenditures were tested. Disbursement amount, payee, date and description agree to vendor's invoice, purchase order, contract and canceled check, as appropriate, were verified without

exception. Disbursements were properly authorized and approved with policies and procedures in place by the Association.

- c) Determine that the bid process (or request for proposal process if applicable), purchase orders, contracts and agreements were processed in accordance with the New Mexico Procurement Code (Section 13-1-28 through 13-1-199 NMSA 1978) and State Purchasing Regulations (1.4.1 NMAC) and Regulations Governing the Per Diem and Mileage Act (2.42.2 NMAC)

There were no expenses noted that were covered by the above requirements.

**5. Journal Entries**

If non-routine journal entries, such as adjustments or reclassifications, are posted to the general ledger, test significant items for the following attributes:

- a) Journal entries appear reasonable and have supporting documentation.
- b) The local public body has procedures that require journal entries to be reviewed and there is evidence the reviews are being performed.

The Association does not have a formal general ledger accounting system. The Association utilizes Excel and Lotus 1-2-3 spreadsheets and account registers to record transactions on a cash basis. Journal entries prepared and posted to the spreadsheets appeared reasonable.

**6. Budget**

Obtain the original fiscal year budget and all budget amendments made throughout the fiscal year and perform the following:

- a) Verify, through a review of the minutes and correspondence, that the original budget and subsequent budget adjustments were approved by the local public body's governing body and DFA-LGD.

As noted above, The Association does not prepare an annual budget, instead using prior year amounts as a guideline, and did not submit any budget information to DFA-LGD. See related finding 2010-003 in the Schedule of Findings and Responses.

- b) Determine if the total actual expenditures exceeded the final budget at the legal level of budgetary control; if so, report a compliance finding.

**December 31, 2011**

**PROCEDURES PERFORMED AND RELATED RESULTS (CONTINUED)**

It was noted that the Association had net expenditures in excess of the approved budget during the year ended December 31, 2011 for payroll, utilities, office supplies and depreciation. See Finding 2010-02.

- c) From the original and final approved budgets and general ledger, prepare a schedule of revenues and expenditures – budget and actual on the budgetary basis used by the local public body (cash, accrual or modified accrual basis) for each individual fund.

As noted above, The Association does not prepare an annual budget, instead using prior year amounts as a guideline, and did not submit any budget information to DFA-LGD. See related finding 2010-003 in the Schedule of Findings and Responses.

See attached Schedule of Revenues and Expenditures - Budget and Actual - General Fund (page 8) which is prepared on the cash basis of accounting.
