State Auditor

Sanjay Bhakta, CPA, CGFM, CFE, CGMA
Deputy State Auditor

State of New Mexico
OFFICE OF THE STATE AUDITOR

VIA EMAIL AND U.S. MAIL

July 5, 2017

Dorothy E. Rodriguez
Cabinet Secretary
Department of Finance and Administration
407 Galisteo Street, Room 180
Santa Fe, NM 87501

Secretary Rodriguez:

The Office of the State Auditor (OSA) has released the State of New Mexico's Comprehensive Annual Financial Report (CAFR) for Fiscal Year 2016 (FY16). The report has a disclaimer of opinion on all opinion units, meaning that the auditors were unable to obtain sufficient appropriate audit evidence on which to base an opinion. It also means that the auditors concluded that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive. The specific reasons for the disclaimer of opinion are detailed in the Independent Auditor's Report, which identifies five key areas where more work needs to be done to achieve our shared goal of reliably presenting the State's financial information.

The report contains four findings. Three prior year findings were repeated in FY16, and there is one new finding related to separately issued department level financial statements of agencies included in the CAFR. Specifically, it was noted that the accounting policies applied in the separately issued department level financial statements of Land Grant Permanent Fund (LGPF) beneficiaries and other agencies contained in the CAFR, including New Mexico's higher educational institutions and special schools, lacked consistency with the accounting policies applied in the State's financial statements.

Under governmental accounting and auditing standards, the State Controller has the authority to set accounting policy for the State as a whole, and the separately issued department level financial statements for agencies contained in the CAFR, including higher educational institutions and special schools. In order to maintain its independence, OSA cannot make management decisions for the State in this regard. As referenced in OSA's April 13, 2017 letter to Governor Martinez, OSA identified several paths to resolving reporting inconsistencies totaling over \$765 million. Each path had advantages and disadvantages, including possible downgrades to bond ratings and negative budgetary impacts.

In response to this issue, in June of 2017, the State Controller determined that the method of achieving financial reporting consistency for the LGPF between the primary government (the State) and all of its departments will be to account for the LGPF, in its entirety, as an asset within

2540 Camino Edward Ortiz, Suite A, Santa Fe, New Mexico 87507
Phone (505) 476-3800 * Fax (505) 827-3512
www.osanm.org * 1-866-OSA-FRAUD

a governmental fund in the department level financial statements of the State Investment Council. Further, the State Controller directed all other agencies to cease reporting the LGPF as an asset in their financial statements. Policies affecting accounting for over \$14 billion in LGPF assets were promulgated by the State Controller by email on June 26, 2017. It is OSA's understanding that the policies will be available on DFA's website in the Model Accounting Practices Manual 2017 (<http://www.nmdfa.state.nm.us/Manuals.aspx>). Based on the policies, we expect the reporting inconsistencies to be resolved going forward, however, we note that these changes have the potential to impact the future financial reporting and the previously issued financial statements of some LGPF beneficiaries, including higher educational institutions and special schools. None of these accounting changes impact the Constitutional and other legal restrictions governing the use of the assets of the LGPF.

In response to the report's findings, we appreciate management's acknowledgement of the issues raised and continued cooperation in working toward resolution of many of these long standing issues. As we have emphasized in the past, a timely completion of a non-disclaimed CAFR report is important for providing New Mexicans with an accurate presentation of the State's financial information and in protecting New Mexico's bond rating. The CAFR was submitted to the OSA on June 12, 2017, 30 days earlier than the previous year, but considerably later than the February 15, 2017 due date. We look forward to continuing to work with DFA regarding ways to help expedite the report submission process, and we stand ready to assist as DFA works to improve the State's financial reporting processes.

Sincerely,

Timothy M. Keller
State Auditor

Ronald C. Spilman
State Controller

To the Citizens, Governor and Members of the Legislature of the State of New Mexico:

In accordance with Chapter 6-5-4.1 of the New Mexico Statutes Annotated 1978 (NMSA 1978), the Financial Control Division of the Department of Finance and Administration transmits the State of New Mexico's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2016.

The CAFR presents the financial position and operating results of the State using generally accepted accounting principles (GAAP) applicable to state and local governments, as established by the Governmental Accounting Standards Board (GASB). The objective of the GASB reporting model is to provide a single, unified, transparent picture of the State's fiscal health. The basic financial statements and required supplemental information include a required narrative introduction, referred to as Management's Discussion and Analysis (MD&A). This transmittal letter complements the MD&A, which is located immediately following the independent auditors' report, and should be read in conjunction with it.

CliftonLarsonAllen LLP, an independent accounting firm, has audited the basic financial statements contained in this report. Their audit was conducted in accordance with the generally accepted government auditing standards and their auditor's report precedes the basic financial statements. The goal of an independent audit is to provide reasonable assurance that the State of New Mexico's basic financial statements for the fiscal year ended June 30, 2016 are free of material misstatement. Independent audit procedures include examining, on a test basis, supporting amounts and disclosures, assessing the accounting principles used, review of any significant estimates made by management, and evaluating the overall basic financial statement presentation. An audit also includes consideration of internal controls over financial reporting as a basis for designing audit procedures that are appropriate under the circumstances, but not for expressing an opinion on the effectiveness of the State's internal controls over financial reporting. Accordingly, the independent auditor expressed no opinion with respect to internal controls over financial reporting.

Since the initial audit of the CAFR four years ago, numerous financial reporting issues have been identified and addressed, which has allowed subsequent audits to focus on new areas and identify new issues. The recasting of the Land Grant Permanent Fund from primarily a fiduciary fund to entirely a government fund during last year's cycle resulted in additional investigation and consultation with the Governmental Accounting Standards Board during the year. The review highlighted a weakness in the existing CAFR process, which aggregates agency level financial statements that may employ financial reporting conventions different from those used at the statewide level. Under statute (NMSA 12.6.3), each state agency must be audited annually, in the past, the CAFR consolidated these entities and made adjustments as necessary. While many of the accounting conventions used by agencies appear rational at a parochial level, they may not be aligned with the appropriate way of reporting the activity from a statewide perspective. Additionally, given reporting differences at the agency level, it was not possible, to ensure all required eliminations occurred. As a result, the audit firm was unable to obtain sufficient audit evidence to express an opinion on the financial statements.

Management is assessing options to address the matter, including a structured redesign of sub-entity financial reporting processes and transitioning from reliance upon aggregated agency audits to conducting a single comprehensive audit of the CAFR. The scope of the effort to remediate these issues is significant, as it will affect 160 individually audited entities. While the discovery of the problem is disappointing, it does not diminish the notable progress made in strengthening statewide controls, which includes the resolution of the cash reconciliation issue and progressive improvements in financial reporting that have occurred over the last four years.

PROFILE OF STATE OF NEW MEXICO

New Mexico entered the union on January 6, 1912, becoming the forty-seventh state of the United States of America. Its borders encompass 121,589 square miles of the Great Plains, Rocky Mountains, and the Rio Grande River with elevations ranging from 2,842 to 13,161 feet above sea level. The New Mexican landscape ranges from wide, rose-colored deserts to broken mesas to high, snow-capped peaks. The Sangre de Cristo Mountains, the southernmost part of the Rocky Mountains, run roughly north-south along the east side of the Rio Grande. New Mexico is divided into 33 counties. The State's major economic sectors include agriculture, energy production and mining, federal technology laboratories, tourism, and customer services. The State of New Mexico's estimated population was 2,081,015 as of July 2016.

Structure – The State Constitution divides the powers of government among three equal and independent branches: Legislative, Executive, and Judicial, shown in the organizational chart on page xiii. The powers and duties of each branch of government are outlined in the Constitution of the State of New Mexico, which can be amended only by a majority vote of the State's citizens. The State of New Mexico CAFR includes the primary government (i.e., legislative agencies, departments and agencies, commissions, the Governor and Cabinet, boards of the executive branch, various offices relating to the judicial branch, the education institutions created by the *Constitution of the State of New Mexico, Article XII, Section 11*), and discrete component units of the State of New Mexico.

Internal Controls – In accordance with the provisions of Chapter 6-5-2.C, NMSA 1978, the Financial Control Division of the Department of Finance and Administration is responsible for ensuring government agencies fulfill their responsibility for implementing and sustaining effective internal controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and reliability of financial records used for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from its use, and the evaluation of costs and benefits requires managerial estimates and judgments. All internal control evaluations occur within this framework. Consideration as to the adequacy of internal controls is paramount in developing and maintaining the State's accounting system, and the effectiveness and adequacy of internal controls are evaluated during internal reviews performed by the Department of Finance and Administration and annual external audits.

Types and levels of services provided – The State of New Mexico provides its citizens with the following governmental types of services: educational, environmental, health and human services, highway and transportation services, public safety, legislative, judicial, as well as cultural, recreational and natural resource services. The State of New Mexico also administers two cost-sharing multiple-employer public employee retirement systems and three single-employer public employee retirement systems.

Brief summary of budget process – The Governor is required to submit a balanced budget by agency, program, activity and category to the Legislature annually. The Legislature authorizes expenditures in the annual *General Appropriations Act* by source, which is then signed into law by the Governor. Unless otherwise indicated, annual appropriations lapse at fiscal year-end. In the event actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the Legislature to address any budget shortfalls. Adjustments to the budget may also be made throughout the year for changes in departmental or fund revenues so that departments and funds will not end the fiscal year in a deficit position. Expenditures are controlled at the program appropriation level. The budget is administered using the modified accrual basis of accounting; however, the budgetary basis is not consistent with GAAP.

PENSION OBLIGATIONS

The State implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions, in Fiscal Year 2015. The purpose of the new statement was to improve the accounting and financial reporting of public employee pensions by state and local governments and enhance the usefulness of pension information. This change was limited to financial reporting and does not require any changes to the way actual employer plan contributions are determined. Employer contributions to the pension plans continue to be calculated per the requirements of the governing State statutes. GASB Statement No. 68 requires participating employers to recognize their proportionate share of the collective net pension liability. The State's share of the net pension liability, based on a measurement date of June 30, 2015, which is required to be recorded on the financial statements, is \$4.5 billion for the primary government an increase of \$0.6 billion.

ECONOMIC CONDITIONS AND OUTLOOK

National economic growth has continued at the slow-to-moderate pace seen over the last few years, and the forecasts call for continued moderate growth. The recent presidential election has increased uncertainty over fiscal and healthcare policy, however unemployment rates continue to improve. The forecast predicts economic growth to continue throughout the forecast period; markets are poised for increased economic activity and rising interest rates.

Impacted by the sharp drop in energy prices, New Mexico's overall economic activity and employment declined in Fiscal Year 2016 and its real gross state product decreased 0.9 percent, after growing 4.0 percent in Fiscal Year 2015. General Fund revenues were 8.4 percent lower, after expanding 3.2 percent in the prior fiscal year.

As a result of lower energy prices, oil and natural gas related revenues declined by 30 percent in Fiscal Year 2016. In spite of lower prices, and rig counts that were 50 percent lower than one year prior, New Mexico natural gas production volumes remained steady and oil production surged 3.9 percent, to a level roughly double what the state produced just five years prior.

New Mexico's general sales tax revenue, which includes gross receipts tax and compensating tax, declined 7 percent in Fiscal Year 2016, comparable to the percentage decrease in taxable gross receipts, a broad-based measure of economic activity and the base for one-third of New Mexico's general Fund revenue. The revenue decline was largely attributable to the steep reduction in extraction activities, but was partially the result of a surge in claims for business tax credits and refunds.

Selective sales taxes, which include insurance premiums tax and motor vehicle excise tax, rose 9 percent due to the increase in insurance coverage and premiums under the Affordable Care Act and Medicaid expansion and an uptick in motor vehicle sales spurred on by low interest rates and gasoline prices. Income tax revenues fell 9.3 percent in Fiscal Year 2016, primarily the result of a 53 percent decline in corporate income tax receipts. Personal income tax revenues, a more significant and relatively stable revenue source for the state, comprising about one-fifth of General Fund revenue, were marginally lower than in Fiscal Year 2015.

Employment growth for the first half of Fiscal Year 2017 remained in positive territory as the employment losses in mining and energy-related sectors that began at the end of Fiscal Year 2015 stabilized, and employment gains in the health, leisure and hospitality, and other private sectors continued.

Taxable gross receipts have recovered somewhat in Fiscal Year 2017 due to a slight rebound in energy development with the recent improvement in prices and reduction in price volatility. Construction sector taxable gross receipts fell by 1.4 percent in the first half of Fiscal Year 2017, but have turned upwards towards the second half, averaging -0.4 percent through March. Residential construction and building permits continue to remain far below historic averages for New Mexico.

The consensus forecast calls for stronger General Fund revenue growth in Fiscal Year 2018 driven by a recovery in gross receipts tax revenue and higher permanent fund distributions. New Mexico employment is projected to show slight improvement in Fiscal Year 2018, while growth in state and national gross domestic product is expected to remain subdued.

LONG-TERM FINANCING PLANNING

The State of New Mexico's Constitution and laws authorize the State to issue general obligation bonds, severance tax bonds and revenue bonds to finance or refinance the cost of State capital projects. General obligation bonds are secured by the full faith and credit of the State and payable from legally restricted revenues (statewide property tax mill levy against all property in the state). Payment of severance tax bonds is provided through the collection of severance taxes levied on the mining and production of various natural resources. The State pledges income derived from the related acquired or constructed asset to pay debt service for revenue bonds. The State continues to maintain a strong creditworthiness rating from Moody's Investors Services and S&P Global.

ACKNOWLEDGMENTS

This report could not have been prepared without the cooperation of all State agencies, the Legislature, and the Judiciary. Executive Management of the Department of Finance and Administration would also like to express our gratitude to the dedicated professionals in the State Financial Reporting and Accountability Bureau, whose work made possible the preparation of this report. The coordinated and collaborative effort have produced a report that will provide a means for government, the financial community, decision makers, and concerned citizens to better understand and evaluate the State's financial condition.

Sincerely,

Dorothy E. Rodriguez
Cabinet Secretary

Ronald C. Spilman

STATE OF NEW MEXICO
COMPREHENSIVE ANNUAL FINANCIAL REPORT
FOR THE FISCAL YEAR ENDED JUNE 30, 2016

FINANCIAL SECTION

ALBUQUERQUE INTERNATIONAL BALLOON FIESTA, ALBUQUERQUE, NEW MEXICO
SOURCE - WWW.THEWORLDFFESTIVAL.NET/

INDEPENDENT AUDITORS' REPORT

The Honorable Susana Martinez, Governor of the State of New Mexico
Ms. Dorothy E. Rodriguez, Acting Secretary of the New Mexico Department of
Finance and Administration,
Mr. Ronald C. Spilman, State Controller of the New Mexico Department
of Finance and Administration, and
Mr. Timothy Keller, New Mexico State Auditor

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Mexico (State), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Because of the matters described in the "Bases for Disclaimer of Opinions on All Opinion Units" paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for audit opinions.

The Honorable Susana Martinez, Governor of the State of New Mexico
Ms. Dorothy E. Rodriguez, Acting Secretary of the New Mexico Department of
Finance and Administration,
Mr. Ronald C. Spilman, State Controller of the New Mexico Department
of Finance and Administration, and
Mr. Timothy Keller, New Mexico State Auditor

Bases for Disclaimer of Opinions

The following issues were encountered during our engagement to audit the financial statements of the State which detail the bases for disclaimer of opinions on all opinion units:

- D1.**The State was unable to adequately reconcile the governmental fund financial statements to the government-wide statements. The State is unable to substantiate all amounts included in the reconciliations between the statements. (see findings 2013-002 and 2013-005 in the schedule of findings and responses for additional details)
- D2.**The State was unable to substantiate some of the restatements included in the restatement note that discloses the restated balances. This resulted in various accounts and transactions not reported in accordance with generally accepted accounting principles (GAAP). The amount by which this departure would affect the assets, deferred outflows, liabilities, deferred inflows and equity of the financial statements has not been determined.
- D3.**The State is unable to provide sufficient appropriate audit evidence to support the accuracy, classification, completeness, existence and occurrence of all the State's interfund, internal, intra-entity activity and balances. In addition, the transfers as reported on the statement of activities should net to \$0 between governmental activities and business-type activities and currently report a \$253M net amount. This resulted in various accounts and transactions not reported in accordance with generally accepted accounting principles (GAAP). The amount by which this departure would affect the assets, deferred outflows, liabilities, deferred inflows and equity of the financial statements has not been determined. (see finding 2013-002 in the schedule of findings and responses for additional details)
- D4.**The financial statements of certain components have not been audited, and we were not engaged to audit these certain components as part of our audit of the State. Additionally, there were modified opinions on the audits of certain components of the State that impact the State's financial statements. Furthermore, the auditor's report within the agency audit of the New Mexico Public Education Department does not express an opinion on the aggregate discretely presented component units.
- D5.**The accounting policies applied in the separately issued department level financial statements for each component of the State lack consistency with the accounting

The Honorable Susana Martinez, Governor of the State of New Mexico
Ms. Dorothy E. Rodriguez, Acting Secretary of the New Mexico Department of
Finance and Administration,
Mr. Ronald C. Spilman, State Controller of the New Mexico Department
of Finance and Administration, and
Mr. Timothy Keller, New Mexico State Auditor

policies applied in the State's financial statements. (see finding 2016-001 in the
schedule of findings and responses for additional details)

As a result of these matters, we were unable to determine the extent of additional
adjustments and reclassifications, which would be necessary to the financial statements.

Disclaimer of Opinions on All Opinion Units

Because of the significance of the matters described in the “Bases for Disclaimer of
Opinions on All Opinion Units” paragraph we have not been able to obtain sufficient
appropriate audit evidence to provide a basis for audit opinions. Accordingly, we do not
express opinions on the financial statements referred to in the first paragraph.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the
Management’s Discussion and Analysis (pages 9-26), Budgetary Comparison Schedule

(pages 208-212), Schedules of Employer Contributions (pages 213-222), Schedules of
Investment Returns (pages 223-224), Schedule of Actuarial Methods and Assumptions –
All Retirement Systems (page 225), Schedule of Funding Progress – Retiree Health Care
Authority (page 226), Schedule of the State of New Mexico’s Proportionate Share of The
Net Pension Liability (pages 228-233), and Schedule of the State’s Contributions (pages
235-240), be presented to supplement the basic financial statements. Such information,
although not a part of the basic financial statements, is required by the Governmental
Accounting Standards Board who considers it to be an essential part of financial reporting
for placing the basic financial statements in an appropriate operational, economic, or
historical context. We were unable to apply certain limited procedures to the required
supplementary information in accordance with auditing standards generally accepted in
the United States of America, because of the matters described in the “Bases for
Disclaimer Opinions on All Opinion Units” paragraph. We do not express an opinion or
provide any assurance on the information.

The Honorable Susana Martinez, Governor of the State of New Mexico
Ms. Dorothy E. Rodriguez, Acting Secretary of the New Mexico Department of
Finance and Administration,
Mr. Ronald C. Spilman, State Controller of the New Mexico Department
of Finance and Administration, and
Mr. Timothy Keller, New Mexico State Auditor

Supplementary and Other Information

We were engaged for the purpose of forming opinions on the State's financial statements as a whole. The introductory, other supplementary and statistical sections are presented for purposes of additional analysis and are not a required part of the financial statements. Because of the significance of the matters discussed above, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 7, 2017 on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the State's internal control over financial reporting and compliance.

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

INTRODUCTION

The following Management's Discussion and Analysis (MD&A) is required supplementary information to the State of New Mexico's financial statements. It describes and analyzes the financial performance and position of the state, and also provides an overview of the State's activities for the fiscal year ended June 30, 2016. Please read it in conjunction with the transmittal letter in the Introductory Section of this report and with the State's financial statements that follow this section. The subsequent information is highly summarized, and in order to gain a comprehensive understanding of the State's financial condition it should be reviewed in its entirety. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

Government-wide

Net Position of the Primary Government

- ✦ The primary government ended fiscal year 2016 with a net position of \$25.9 billion, a decrease of \$1.0 billion, or 4 percent, from the previous year.
- ✦ The net position is comprised of \$7.6 billion in capital assets, net of related debt, \$20.3 billion in restricted, and a deficit \$2.0 billion in unrestricted, excluding component units.
- ✦ As a result of operating activities, the primary government's total net position decreased by \$1.0 billion, or 4 percent, in fiscal year 2016 when compared to the previous year's ending net position. The net position of governmental activities decreased 1.2 billion, or 5 percent, from previous year's ending net position. Program revenues were fractionally higher up less than 1 percent on a year to year basis. Expenses of \$19.4 billion, increased by \$1.0 billion, with the majority of the increase being in Health and Human Services and Education functions. The net position of the business-type activities increased by \$0.2 billion or 11 percent, from the previous year's ending net position. The business-type activities from the prior fiscal year saw a decrease in program revenue and an increase in expenses, however general revenue increased by \$97 million while transfers increased by \$34 million.

Long-term Debt

- ✦ The State's long-term bonded debt decreased a net of \$296 million for both governmental and business-type activities, the payment on the prior year bonds exceeded the issuance of new bonds. New bond issuance was \$541 million for governmental activities, \$501 million for severance tax bonds and \$40 million for revenue bonds. New bond issuance for business type activities was \$166 million in revenue bonds. See Note 8 for more detailed information on long-term liabilities. More detailed information regarding the government-wide, fund level, and long-term debt activities can be found in the capital asset and debt administration section of this management's discussion and analysis (MD&A).

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

Fund Level

Governmental Funds

- ✚ As of June 30, 2016, the State's governmental funds reported a combined ending fund balance of \$21.9 billion, a decrease of \$1.0 billion, or 4 percent, from fiscal year 2015 year's ending net position, (see the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances). Year to Year there was a decrease in revenue of \$0.5 billion, primarily the result of lower General and Selective Taxes, lower investment and rental and royalties income, this was somewhat mitigated by higher federal revenue. Year to Year, expenditures increased by \$1.3 billion with expenditure growth in the areas of Health and Human Services, Education and Highway and Transportation being the primary drivers. The unassigned fund balance as of the end of fiscal year 2016 was a deficit \$129.7 million.

Proprietary Funds

- ✚ The proprietary funds reported net position of \$2.0 billion as of June 30, 2016, an increase of \$0.2 billion, or 11 percent, from fiscal year 2015 ending net position. The majority of the increase is attributable to the non-major enterprise funds where Operating Revenues exceeded Operating Expenses.

OVERVIEW OF THE FINANCIAL STATEMENTS

The focus of this annual report is on reporting for the state as a whole and on the major individual funds. The report presents a more comprehensive view of the state's financial activities. The Financial Section of this Comprehensive Annual Financial Report (CAFR) presents the State's financial position and activities in four parts:

- ◆ Management's Discussion and Analysis (this part)
- ◆ Basic Financial Statements
 - Government-wide Financial Statements
 - Fund Financial Statements
 - Notes to the Financial Statements
- ◆ Required Supplementary Information other than MD&A
- ◆ Other Supplementary Information presenting combining statements and schedules

This report also includes statistical data.

Reporting on the State as a Whole

Government-wide Statements

The government-wide financial statements are designed to present an overall picture of the financial position of the state. These statements consist of the statement of net position and the statement of activities, which are prepared using the economic resources measurement focus and the accrual basis of accounting. This means that all revenues earned and expenses incurred during the year are included, regardless of when cash is received or paid, producing a view of financial position similar to that presented by most private sector companies.

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

The statement of net position combines and consolidates the government's current financial resources with capital assets and long-term obligations. This statement includes all of the government's assets, deferred outflows, liabilities, and deferred inflows. Net position represents one measure of the state's financial health. Other indicators of the state's financial health include the condition of its roads and highways (infrastructure) and economic trends affecting the state's future tax revenues.

The statement of activities focuses on both the gross and net cost of various activities (governmental, business-type and component units). These costs are paid by the state's tax revenues, charges for services and other revenues. This statement summarizes the cost of providing (or the subsidy provided by) specific government services and includes all current year revenues and expenses.

The government-wide statement of net position and the statement of activities divide the state's activities into the following three types:

Governmental Activities

The state's basic services are reported here, including general government, education, transportation, health and human services, public safety and corrections, judicial, natural resources and recreation, legislative, and regulatory services. Taxes, fees and federal grants finance most of these activities.

Business-type Activities

Activities for which the state charges a fee to customers to pay most or all of the costs of certain services it provides are reported as business-type activities. The state's institutions of higher education are included as business-type activities, as well as unemployment insurance, public schools insurance, medical centers, magazine publication, state fair, state infrastructure bank, environment department, corrections industries, and industries for the blind.

Component Units

Component units are legally separate organizations for which the state is either financially accountable or the nature and significance of their relationship with the state is such that exclusion would cause the state's financial statements to be misleading or incomplete. The state has approximately seventy-five (75) discretely presented component units. Financial information for these entities is presented separately in the supplemental statements and in the notes.

Reporting on the State's Most Significant Funds

Fund Financial Statements

Fund financial statements provide additional detail about the state's financial position and activities. Some information presented in the fund financial statements differs from the government-wide financial statements due to the perspective and basis of accounting used. Funds are presented in the fund-level statements based on criteria set by the Governmental Accounting Standards Board (GASB). A fund is a separate accounting entity with a self-balancing set of accounts. The state uses funds to keep track of sources of funding and spending related to specific activities. Some funds are required by law to exist, while others are established internally to maintain control over a particular activity.

All of the State's funds are divided into the following types, each of which uses a different accounting approach:

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

Governmental Funds

A majority of the state's activity is reported in the governmental funds. Reporting of these funds focuses on the flow of money into and out of the funds and amounts remaining at fiscal year-end for future spending. Governmental funds are accounted for using the modified accrual basis of accounting, which measures cash and other assets that can be readily converted to cash. The governmental fund financial statements provide a detailed short-term view of the state's general governmental operations and the basic services it provides. This information helps determine the level of resources available for the state's programs. The reconciliations following the fund financial statements explain the differences between the governmental activities column reported on the government-wide statement of net position and the government-wide statement of activities, and the governmental funds reported on the fund financial statements. The general fund, debt service fund, appropriated bond proceeds capital outlay fund, severance tax fund and land grant fund are reported as major governmental funds.

Proprietary Funds

When the state charges customers for services it provides, these activities are generally reported in proprietary funds. Services provided to outside (non-governmental) customers are reported in enterprise funds, a component of proprietary funds, and are accounted for using the economic resources measurement focus and the accrual basis of accounting. These are the same business-type activities reported in the government-wide financial statements, but are reported here to provide information at the fund level. Activities whose customers are primarily other state agencies (e.g., motor pool) are accounted for in internal service funds. The internal service fund activities are consolidated with the governmental activities in the government-wide statements because those services predominantly benefit governmental rather than business-type activities.

Fiduciary Funds

Fiduciary funds account for assets held in a trustee or agency capacity for others. All state fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. The activities are reported separately from other financial activities because the state cannot use the assets to finance its operations. The state's fiduciary responsibilities include ensuring that the assets reported in these funds are used for their intended purpose. Fiduciary funds are accounted for using the economic resources measurement focus and the accrual basis accounting.

Reconciliation between Government-wide and Fund Statements

The financial statements include schedules that reconcile and explain the differences between the amounts reported for governmental activities on the government-wide statements (accrual accounting, long-term focus) with amounts reported on the governmental fund statements (modified accrual accounting, short-term focus).

The following are some of the major differences between the two statements:

- ◆ Capital assets and long-term debt are included on the government-wide statements, but are not reported on the governmental fund statements.
- ◆ Capital outlay spending results in capital assets on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- ◆ Bond proceeds result in liabilities on the government-wide statements, but are other financing sources on the governmental fund statements.
- ◆ Certain tax revenues that are earned but not yet available are reported as revenue on the government-wide statements, but are deferred inflow or deferred outflow of resources on the governmental fund statements.

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

Notes to the Financial Statements

The notes provide additional schedules and information that are essential to a complete understanding of the financial statements. The notes apply to both the government-wide financial statements and the fund financial statements.

Required Supplementary Information (RSI)

Following the Basic Financial Statements are budgetary comparison schedules for major funds with legally adopted budgets. In addition, the RSI includes schedules on the funded status and employer contributions for the State's Defined Benefit Pension Plans and Other Postemployment Benefits Plan. RSI further supports the information in the basic financial statements.

Other Supplementary Information

Supplementary Information includes combining statements for the State's nonmajor proprietary and fiduciary funds. This section also includes schedules which compare budgeted expenditures to actual results at the legal level of control, which is generally the program level of the General Appropriation Acts.

ADJUSTMENTS TO BEGINNING NET POSITION AND FUND BALANCES

While adjustments were made to the opening balances of a number of entities that are part of the primary government none individually or collectively were significant to merit discussion.

FINANCIAL ANALYSIS OF THE STATE AS A WHOLE

Net Position

- ✦ Total assets of the State as of June 30, 2016, were \$36.5 billion, a decrease of \$1.2 billion or 3 percent from prior fiscal year. The majority of the decrease is due to lower investment and capital asset value.
 - For governmental activities, total assets were \$31.2 billion, a decrease of \$1.5 billion, or 5 percent.
 - For business-type activities, total assets were \$5.3 billion, an increase of \$0.3 billion or 6.6 percent.

- ✦ Total liabilities and Deferred Inflows as of June 30, 2016 were \$11.2 billion, unchanged from the prior year. An increase in the GASB 68 net pension liability was offset by a reduction in the related pension deferred inflows.
 - Total liabilities and deferred inflows for governmental activities were \$7.7 billion, down \$0.2 billion, or 3 percent.
 - For business-type activities, total liabilities and deferred inflows were \$3.5 billion, an increase of \$0.1 billion or 4 percent.

- ✦ The State's total net position of \$25.9 billion was \$1.0 billion or 4 percent lower in fiscal year 2016 compared to the prior year. Of the State's net position, \$7.6 billion was invested in capital assets, net of related debt, while \$20.3 billion was restricted by state statute or other legal requirements and was not available to finance day-to-day operations of the state. Unrestricted net position was a \$2.0 billion deficit.

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

Changes in Net Position

The State's net position as of June 30, 2016, was \$25.9 billion which was \$1.0 billion lower than the 2015 net position restated. The State earned program revenues of \$11.2 billion, collected tax revenue of \$5.5 billion, received \$1.8 billion of general revenues. Total revenues for 2016 were \$18.6 billion, a decrease of \$0.5 billion, or 2 percent, from fiscal year 2015. Reduced revenue was primarily attributable to the \$0.7 billion decrease in tax revenues, while lower general revenue account for the remainder. The expenses of the State were \$19.4 billion, an increase of \$1.1 billion from fiscal year 2015. Further analysis of results of changes in the State's financial condition follows in the analysis of the State's funds. Net program expenses exceeded net program revenues by \$6.9 billion, a \$.8 billion increase from 2015. The tax collections of the State provided additional funding, which when added to program revenues, supported payment for governmental services.

The following schedule and charts summarize the State's total revenues, expenses, and changes in net position for fiscal year 2016:

State of New Mexico Total Expenditures- FY 2016

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

Governmental Activities

Governmental activities program revenue was \$8.7 billion, consisting of operating grants and contributions of \$6.9 billion and \$1.8 billion in service charges. Program revenues increased \$0.1 billion from the prior fiscal year the result of a \$0.5 billion increase in operating grants and contributions offset by a \$0.4 billion reduction in charges for services. Governmental activities expenses increased by \$0.9 billion year to year bring the total to \$15.6 billion. All governmental activities in the government-wide statement of activities had expenses which exceeded program revenues. The health and human services function and education function account for three-quarters of governmental activities expenses and net cost. The operating grants and contributions increased due to additional federal funding for the health and human services and education functions.

The following table shows to what extent the State's governmental activities relied on taxes and other general revenues to cover all of their costs. For fiscal year 2016, state taxes and other general revenues covered 44.1 percent of expenses. The remaining \$8.7 billion, or 55.9 percent of the total expenses, was covered by charges for services and grants and contributions.

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

Business-type Activities

Business-type activities generated program revenues of \$2.5 billion, including charges for services of \$1.9 billion, and operating grants and contributions of \$0.6 billion. This was \$0.1 billion less than the prior year, attributable to the education function. The total expenses for business-type activities were \$3.8 billion, an increase of \$0.1 billion from the prior year. The largest change occurred in the education function, where expenses increase by \$85 million versus prior year, the remaining \$40M was primarily linked to public schools insurance. Net expenses exceeded program revenues from the government's business-type activities by \$.6 billion a decrease of \$0.4 billion from the prior year.

FINANCIAL ANALYSIS OF THE STATE'S GOVERNMENTAL FUNDS

Fund Balances

At June 30, 2016, the State's governmental funds reported combined ending fund balances of \$21.9 billion. The State reported \$21.7 billion, or 99 percent, as restricted, including \$14.7 billion related to the Land Grant Permanent Fund, \$4.6 billion associated with the Severance Tax Fund and \$1.3 billion attributable to the Capital Projects Fund all established by state laws. Note 1.G.14 contains more details about the fund balance classifications at June 30, 2016. Committed, assigned and unassigned totaled \$142.7 million, or 0.7 percent.

Governmental Funds

General Fund

General Fund balance at June 30, 2016 totaled \$1.1 billion. Net change in General Fund balance, was a decrease \$0.8 billion. The General Fund ended the fiscal year 2016 with unassigned fund balance of a deficit \$120 million.

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

Budgetary Highlights – General Fund

The initial fiscal year 2016 budget was adopted by the Legislature during the 2015 Regular Session. The General Fund original budgeted revenues for fiscal year 2016 were 4 percent higher than the fiscal year 2015 final budget basis revenues. During the year, federal revenue was \$346 million less than the final approved budget. After budget amendments, the actual expenditures in the General Fund were \$946 million below the final budgeted amounts. This was mainly the result of agency-mandated measures to reduce expenditures. Refer to the budgetary comparison schedule for the General Fund in the Other Required Supplementary Information section of the CAFR.

Severance Tax Fund

Fund balance at June 30, 2016, totaled \$4.6 billion, a decrease of \$0.2 billion, or 4 percent, related to transfers to beneficiaries.

Land Grant Fund

Fund balance at June 30, 2016, totaled \$14.7 billion, a decrease \$0.2 billion reflective of subdued investment earnings which were about a tenth of the income generated from the portfolio in the prior year.

FINANCIAL ANALYSIS OF THE STATE'S PROPRIETARY FUNDS

Exclusive of Internal Service Funds, the State's proprietary funds reported Net Position of \$2.0 billion, an increase of \$0.2 billion from the prior year fund balance.

Educational Institutions

Net Position at June 30, 2016, totaled \$1.2 billion. Current period activity increased the Net Position of the State's educational institutions by \$0.1 billion, or 7 percent. For the fiscal year 2016 the State transferred just over \$0.8 billion to the State's educational institutions, a 4 percent increase from fiscal year 2015.

DISCRETE COMPONENT UNITS

These are operations for which the State has financial accountability or the nature and significance of their relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete. For the most part, these entities operate similar to private-sector businesses and the business-type activities described above. All of the State's discrete component units are presented in the financial statements.

The State's discretely presented major component units are:

-  New Mexico Finance Authority
-  New Mexico Mortgage Finance Authority
-  New Mexico Lottery Authority
-  UNM-Sandoval Regional Medical Center
-  University of New Mexico Foundation, Inc.
-  University of New Mexico Medical Group
-  New Mexico State University Foundation, Inc.
-  Charter Schools and Charter School Foundations

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

Complete financial statements of the individual component units can be obtained from their respective administrative offices. Addresses and other additional information about the State's component units are presented in the notes to the financial statements.

CAPITAL ASSETS AND LONG-TERM DEBT ADMINISTRATION

Capital Asset Activity

As of June 30, 2016, the State's investment in capital assets, net of accumulated depreciation, for governmental activities totaled \$7.4 billion and \$2.4 billion for its business-type activities. The state's capital assets include land, buildings, improvements, machinery and equipment, mineral rights, roads, highways and bridges. The change in the State's investment in capital assets for the current fiscal year was a decrease of 3 percent for governmental activities and unchanged for business-type activities.

The State has elected to use the depreciation method to account for infrastructure assets (roads and bridges). Under this method, the State allocates the cost of infrastructure assets over their estimated useful lives as depreciation expense. Expenditures to refurbish infrastructure are capitalized and cost depreciated. Under the allowable methodology, termed the modified approach, infrastructure is capitalized and all expenditures except those adding to capacity are expensed. The state did not elect to use the modified approach for infrastructure assets.

Refer to Note 6 of the financial statements for additional information on capital assets.

Long-term Debt Activity

The State Constitution and Law authorizes the State to issue general obligation bonds, severance tax bonds, and revenue bonds to finance or refinance the cost of State capital outlay projects authorized by law. General obligation bonds are secured by the full faith and credit of the State and payable from legally restricted revenues. During the past year, the State continued to maintain a high bond rating from Moody's Investors Services (Moody's) and Standard & Poor's Corporation (S&P) on all State bonds.

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

The State had the following bond ratings at June 30, 2016:

Bonds	Moody's	Standard & Poor's
General Obligation Bonds	Aa1-	AA-
Severance Tax Bonds	Aa2-	AA
Supplemental Severance Tax Bonds	Aa3-	A+
State Transportation Revenue Bonds Senior Lien	Aa1/Aa2	AAA/AA+
State Transportation Revenue Bonds Subordinate Lien	Aa2/Aaa	AAA/AA/A+/AA-

Impacted by two 2015 series bonds issued early in fiscal year 2016, Severance Tax Bonds issuances during the year totaled \$501.0 million while \$40.1 million in Revenue Bonds were issued during the same period. No General Obligation Bonds were issued by the state in fiscal year 2016.

Refer to Note 8 to the financial statements for additional information on the State's long-term debt and other liabilities.

ECONOMIC CONDITIONS AND OUTLOOK

Fiscal Year 2016: Sharp Energy Sector Declines

Impacted by the sharp drop in energy prices, overall economic activity and employment declined in Fiscal 2016 as New Mexico's real gross state product decreased 0.9 percent, after growing 4.0 percent in Fiscal Year 2015. General Fund revenues were 8.4 percent lower, after expanding 3.0 percent in the prior fiscal year.

As a result of the lower energy prices, oil and natural gas related revenues declined by 30 percent in Fiscal Year 2016. In spite of lower prices, and rig counts that are 50% lower than the two years ago, New Mexico natural gas production volumes remained steady and oil production surged 3.9 percent, to a level roughly double what the state produced just five years prior.

New Mexico's general sales tax revenue, which includes gross receipts tax and compensating tax, declined 7 percent in Fiscal Year 2016, which was comparable to the drop in taxable gross receipts, a broad-based measure of economic activity and the base for one-third of New Mexico's general Fund revenue.

Selective sales taxes, which include insurance premiums tax and motor vehicle excise tax, rose 9 percent as the effects of the Affordable Care Act and Medicaid expansion increased health insurance coverage and annual premiums. Low interest rates and gasoline prices, and growing consumer confidence encouraged vehicle purchases which boosted motor vehicle excise tax revenues.

Income tax revenues fell 9.3 percent in Fiscal Year 2016, the result of a 53 percent decline in corporate income tax receipts. Personal income tax, a more significant and stable revenue source for the state, comprising about one-fifth of General Fund revenue were marginally lower.

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2016

First-half Fiscal Year 2017:

Employment growth remained positive during the beginning of Fiscal Year 2017 as employment losses in mining and energy related sectors that began at the end of Fiscal Year 2015 stabilize towards the end of Fiscal Year 2016 and growth employment gains in the health and leisure and hospitality sectors and other private sectors segments continued.

Although taxable gross receipts declined 4.2 percent in the first half of Fiscal Year 2017, as lower energy development activities more than offset continued moderate recovery in New Mexico's larger metro areas. Construction sector taxable gross receipts fell by 1.4% in the first half of Fiscal Year 2017. Residential construction and building permits continue to remain far below historic averages for New Mexico.

However, the most recent months of tax and fee related proceeds have been stronger and are trending above prior year activity suggesting an inflection point has been reached.

STATE OF NEW MEXICO

GOVERNMENTAL FUND FINANCIAL STATEMENTS

General Fund

This fund is the principal operating fund of the State. It accounts for financial resources of the general government except those required to be accounted for in another fund.

Debt Service Fund

This fund accumulates resources in order to pay the debt service on the State's long-term debt.

Capital Projects Fund

This fund accounts for all resources used to fund the capital improvement projects in the State.

Severance Tax Permanent Fund

This fund accounts for the annual portion of severance taxes generated from the production of minerals and other natural resources and distributes the monies to the State General Fund.

Land Grant Permanent Fund

This fund accounts for all of the resources of the Land Grant Permanent Fund.

STATE OF NEW MEXICO

RECONCILIATION OF THE BALANCE SHEET – GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

June 30, 2016

(In Thousands)

Total Fund Balances - Governmental Funds \$ 21,879,486

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds: (See Note 2.D.)

Land and Other Nondepreciable Assets	\$ 1,091,757	
Buildings, Equipment, Infrastructure and Other Depreciable Assets (not including \$ 40,609 in Internal Service Fund balances)	17,240,275	
Accumulated Depreciation	<u>(10,983,225)</u>	7,348,807

Assets (receivables) not available to provide current resources are offset with deferred inflows of resources in the fund statements. The reduction of the liability and recognition of revenue increases net position in the Statement of Net Position. 43,829

The deferred loss on bond refunding issues is not recognized in the governmental funds, but is recognized in the government-wide statements. 91,039

The net pension asset for the pension fund which has a positive net position is not reported in the funds statements 17,626

The pension-related deferred outflows of resources are not recognized in the government-wide statements, and neither are the deferred outflows of resources. 150,453

Internal service funds (ISF) are used by management to charge for certain activities, such as insurance, information technology, fleet operations, printing, and telecommunications. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position. (4,587)

Accrued interest payable is not recognized in the governmental funds statements (273)

Long-term liabilities, are not due and payable in the current period and therefore are not reported in the fund financial statements:

Net pension liability	\$ (2,299,659)	
Bonds payable, including bond premium and loans payable to component unit	(3,034,867)	
Capital leases, compensated absences, notes payable, contingent liabilities, and other liabilities	(499,456)	
Less: Amounts already included in Internal Service Funds balances	<u>222,865</u>	<u>(5,611,117)</u>

Total Net Position - Governmental Activities \$ 23,915,263

The accompanying notes are an integral part of the financial statements.

STATE OF NEW MEXICO

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2016

(In Thousands)

Net Change in Fund Balances - Total Governmental Funds \$ (828,807)

The change in Net Position reported for governmental activities in the Statement of Activities is different because:

Governmental funds report capital outlays as expenditures; however, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	\$ 429,108	
Depreciation expense	<u>(670,283)</u>	
Excess of capital outlay over depreciation expense		(241,175)

Loss on disposal of capital assets is not reported in the funds statements (8,561)

Net effect of revenues reported on the accrual basis in the Statement of Activities that do not provide current financial resources and thus are not reported as revenues in the funds until available. 96,964

Internal service funds are used by management to charge for certain activities, such as fleet operations, risk management, printing and records, communications services, and information processing. The net revenue (expense) of the internal service funds is reported with governmental activities. 30,965

Bond proceeds, notes, and capital leases provide current financial resources to governmental activities by issuing debt, which increases long-term liabilities in the Statement of Net Position. Repayments of the bond, notes, and capital lease principal are expenditures in the governmental funds, but reduce liabilities in the Statement of Net Position:

Payment of Bond, Note, and Capital Lease Principal	379,363	
Bond and Note Proceeds, Net	<u>(381,399)</u>	(2,036)

Governmental funds report the effect of bond premium and discount items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences. (21,370)

The deferred loss on refunding bond issues is capitalized and the amortization is reported in the Statement of Activities.

Pension expense of governmental funds is recognized in the Statement of Activities, but not in the funds statements. 175,597

Expenditures are recognized in the governmental funds when paid or due for items normally paid with available financial resources; however, the Statement of Activities is presented on the accrual basis and expenses and liabilities are reported when incurred, regardless of when financial resources are available or expenditures are paid or due. This adjustment combines the net change of the following balances:

Net Pension Liability	\$ (456,192)	
Compensated Absences Expense	(120)	
Pollution Remediation Obligation	4,720	
Accrued Interest on Bonds Payable	22,787	
Native American Water Rights Liability	17,061	
Contingent Liability	(12,424)	
Claims and Judgements	6,036	
Change in Ineffective Swaps - Derivatives	<u>(7,400)</u>	<u>(425,532)</u>

Change in Net Position of Governmental Activities \$ (1,223,955)

The accompanying notes are an integral part of the financial statements.

STATE OF NEW MEXICO

PROPRIETARY FUND FINANCIAL STATEMENTS

Educational Institutions Fund

This fund accounts for the resources used to operate the seven institutions of higher education and three other schools, which were created by the *Constitution of the State of New Mexico*. These institutions are the University of New Mexico, New Mexico State University, New Mexico Highlands University, New Mexico Institute of Mining and Technology, Western New Mexico University, Eastern New Mexico University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Visually Handicapped, and the New Mexico School for the Deaf.

Non-major Enterprise Funds

Non-major enterprise funds are presented in the Financial Section - Required and Supplemental Information.

Internal Service Fund

Non-major internal service funds are presented in the Financial Section - Required and Supplemental Information.

FIDUCIARY FUNDS FINANCIAL STATEMENTS

Pension and Other Employee Benefits Trust Funds

These funds account for the resources accumulated and held for the payment of retirement and other benefits under plans operated by the Public Employees Retirement Association, the Educational Retirement Board, and the Retiree Health Care Authority. Pension trust funds are presented in the Financial Section - Required and Supplemental Information.

External Investment Trust Funds

These funds account for assets held by the State in a trustee capacity. The funds are held in custody for participants in the New Mexico State Treasurer's Investment Trust Funds and the State Investment Council External Investment Trust Funds. External trust funds are presented in the Financial Section - Required and Supplemental Information.

Private Purpose Trust Funds

These funds account for resources held under trust arrangements and which benefit individuals, organizations, the State of New Mexico, and other governmental units. These funds include the Scholarship Fund, the Land Grant Permanent Fund, the Education Trust Fund, the Water Trust Fund, and the Bartlett Trust Fund. Private purpose trust funds are presented in the Financial Section - Required and Supplemental Information.

Agency Funds

These funds are used to report resources held by various State agencies in a purely custodial capacity for distribution to other parties. Agency funds are presented in the Financial Section - Required and Supplemental Information.

The accompanying notes are an integral part of the financial statements.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the State of New Mexico (the State) and its component units have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The State's significant accounting policies are described below. All dollar amounts are in thousands, except when stated.

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Primary government activities are distinguished between *governmental and business-type activities*. Governmental activities are generally financed through taxes, intergovernmental revenues, and other non-exchange revenues. The governmental activities column incorporates data from the internal service funds as well as the governmental funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

B. Reporting Entity

For financial reporting purposes, the State's financial reporting entity includes the primary government (i.e., legislative agencies, departments and agencies, commissions, the Governor and Cabinet, boards of the Executive Branch, various offices relating to the Judicial Branch, and the educational institutions created by the *Constitution of the State of New Mexico*, Article XII, Section 11). The annual financial report does not include the financial statements of the community colleges or public schools.

The GASB has set forth criteria to be considered in determining financial accountability as defined in GASB Statement No. 14, *The Financial Reporting Entity* (as amended by GASB No. 39 and No. 61). These criteria include appointing a voting majority of an organization's governing body and 1) the ability of the State to impose its will on that organization or 2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State. Where a State does not appoint a voting majority of an organization's governing body, GASB standards require inclusion in the reporting entity if an organization is fiscally dependent on the State, its resources are held for the direct benefit of the State or can be accessed by the State, or the relationship is such that it would be misleading to exclude it.

Blended Component Units

▪ University of New Mexico Retiree Welfare Benefit Trust

The University of New Mexico Retiree Welfare Benefit Trust is a voluntary employees' beneficiary association (VEBA) trust that is tax-exempt under Section 501(c)(9) of the IRC and is presented as a fiduciary fund in the financial statements. The trust was established to provide a funding vehicle to which participants and the University contribute to prefund, in part, the cost of other postemployment benefits (OPEB) for eligible retirees of the University.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

▪ **Arrowhead Center, Inc.**

The Arrowhead Center, Inc. provides a financial benefit to New Mexico State University (NMSU) and was established to foster economic development with the State through the development of research parks and university real property as well as to protect, license and market intellectual property developed by faculty, staff and students of NMSU, as well as members of the community.

▪ **New Mexico Institute of Mining & Technology Employee Benefit Trust**

This trust is a single-employer benefit plan organized as a legally formed trust that is tax exempt under section 501(c)(9) of the Internal Revenue Code. The trust was established to provide a funding vehicle to which participants and the Institute contribute to prefund, in part, the cost of other postemployment benefits for eligible retirees of the Institute.

Discrete Component Units

In the government-wide financial statements, discrete presentation entails reporting component unit financial data in a column separate from the financial data of the State. These component units are entities that are legally separate from the State, but are financially accountable to the State. Complete financial statements are available at the address given.

Major Component Units

▪ **New Mexico Finance Authority (NMFA)**

The Laws of 1992, Chapter 61, as amended, created the NMFA. The purpose of the New Mexico Authority Act is to create a governmental instrumentality to coordinate the planning and financing of state and local public projects, to provide for long-term planning and assessment of state and local capital needs and to improve cooperation among the executive and legislative branches of state government and local governments in financing public projects. The NMFA is considered a component unit of the State as the Governor appoints a majority of its Board. The NMFA is composed of eleven members, at which a majority of those members serve at the pleasure of the Governor. New Mexico Finance Authority, 207 Shelby Street, Santa Fe, NM 87501.

▪ **New Mexico Mortgage Finance Authority (NMMFA)**

The Laws of 1975, Chapter 303, as amended, created the NMMFA. The purpose of the NMMFA act is to create a separate public body apart from the State to facilitate programs to assist in the financing of housing for persons of low and moderate income within the State. The NMMFA is considered a component unit of the State because the Governor appoints a majority of its Board. The NMMFA is composed of seven members, at which a majority of those members serve at the pleasure of the Governor. NMMFA fiscal year-end is September 30. This year-end differs for all other state entities, which have a June 30 fiscal year-end. New Mexico Mortgage Finance Authority, 344 Fourth Street SW, Albuquerque, NM 87102.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

- **New Mexico Lottery Authority (Lottery Authority)**

The Laws of 1995, Chapter 155, as amended, created the Lottery Authority Act. The purpose of the Lottery Authority Act is to create a separate public body apart from the State, to conduct the New Mexico state lottery and provide revenues for public purposes designated by the Act. The State's higher education institutions receive financial benefit. The Lottery Authority is considered a component unit of the State because the Governor appoints members of its Board. The Board is composed of seven members, at which those members serve at the pleasure of the Governor. New Mexico Lottery Authority, 4511 Osuna Rd NE, Albuquerque, NM 87109.

The following component units are considered to be component units of the State Institutions of Higher Education, and are thus component units of the State. Each is financially accountable to the respective institution, and the Board of Regents (governing board) of each institution controls the finances and has appointment power over the unit's governing authority.

- **UNM - Sandoval Regional Medical Center (SRMC)**

In 2009, the UNM Regents approved formation of the Medical Center. The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). SRMC is a not-for-profit corporation that was organized under the Act. The creation of SRMC resulted from collaborations between the University of New Mexico Medical Group and University of New Mexico Hospital and hold representation on the SRMC board of directors. SRMC purpose is to serve as a community based academic healthcare facility. The administrative offices are located at 3001 Broadmoor Blvd. NE, Rio Rancho, NM 87144.

- **University of New Mexico Foundation, Inc. (UNM Foundation)**

UNM Foundation is a nonprofit corporation, organized in 1979 to solicit, receive, distribute, invest, and manage funds for the benefit of the University of New Mexico. The majority of the Foundation's investments are managed by the University. The University of New Mexico Foundation, Inc., Two Woodward Center, 700 Lomas NE, Bldg. 2-203, Albuquerque, NM 87102.

- **University of New Mexico Medical Group (UNMMG)**

The UNM Medical Group, Inc., was organized in 2007. The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). UNMMG is a nonprofit corporation that was organized under the Act. UNMMG's purpose is to promote, advance and support the clinical, educational, research and charitable purposes of the School of Medicine and the University of New Mexico Health Sciences Center. UNMMG is responsible for the delivery of patient clinical services, practice oversight, and management of the professional medical practice of UNM. The UNMMG operates 20 clinics in addition to attending at the 76 clinics of the UNM Hospital. University of New Mexico Medical Group, 933 Bradbury Street, Suite 2222, Albuquerque, NM 87106.

- **New Mexico State University Foundation, Inc. (NMS Foundation)**

NMS Foundation is a nonprofit corporation formed for the purpose of acquiring and managing charitable gifts, including endowed funds, to be used for the sole benefit of New Mexico State University. The Foundation reports on the FASB basis of accounting. New Mexico State University Foundation, Inc., P.O. Box 3590, Las Cruces, NM 88003-3590.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

▪ Charter Schools

The Laws of 1999, Chapter 281, as amended created the Charter School Act (Charter School). Charter Schools provide elementary and secondary educational services to encourage the use of different and innovative teaching methods. The Charter Schools are approved by the Public Education Department. The State is financially accountable for these schools. At June 30, 2016, there were 64 state chartered schools. The division of Charter Schools can be located at the New Mexico Public Education Department, Office of the Secretary, 300 Don Gaspar, Santa Fe, NM 87501.

Non-major Component Units

The State's non-major component units have been determined to be financially accountable to the State. Non-major component units are: University of New Mexico Alumni Association, University of New Mexico Lobo Club, University of New Mexico - Anderson Schools of Management Foundation, Inc., Science & Technology Corporation UNM (STC.UNM), Lobo Development Corporation, Lobo Energy, Inc., University of New Mexico - Innovate ABQ, Inc., The New Mexico Tech Research Foundation, The New Mexico Tech University Research Park Corporation, New Mexico Highlands University Foundation, Inc., New Mexico Highlands University – Highlands Stable Isotopes Corporation, Western New Mexico University Foundation, Inc., Eastern New Mexico University Foundation, Eastern New Mexico University Roswell Foundation, Eastern New Mexico University Ruidoso Foundation, Northern New Mexico College Foundation, New Mexico Military Institute (NMMI) Foundation, Inc., New Mexico School for the Blind and Visually Impaired, Cumbres & Toltec Scenic Railroad Commission, New Mexico Renewable Transmission Authority, and the New Mexico Small Business Investment Corporation.

C. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporates data from the State's Enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the State has eight discretely presented component units and nineteen non-major component units. Component units are shown in total in the government-wide financial statements with a combining statement to show the details. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the State's funds, including its fiduciary funds. Separate statements are presented for each fund category – governmental, proprietary, and fiduciary. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining enterprise funds are aggregated and reported as non-major funds. The internal service fund is reported in a separate column on the proprietary funds financial statements. The accounts of the State are organized based on funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net position, revenues, and expenditures.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

The State reports the following governmental funds:

Major funds:

- **General Fund** – This fund accounts for the financial resources of the State, except those required to be accounted for in another fund. This is the State’s primary operating fund.
- **Debt Service Fund** – Debt Service Fund accounts are used to account for the accumulation of resources for and the payment of principal and interest on general long-term obligations and other contractual obligations.
- **Capital Projects Fund** – The Capital Projects Fund accounts for funds appropriated by the State Legislature for capital outlay, including severance tax and general obligation bond proceeds and State General Appropriation capital outlay funds.
- **Severance Tax Fund** – The Severance Tax Fund is a special revenue fund that accounts for the proceeds of severance taxes, which are levied by the State on certain natural resources extracted from State lands. Severance tax revenues are first applied to pay the required debt service on Severance Tax Bonds issued by the State. Remaining severance tax revenues are then transferred to the Severance Tax Fund, administered by the State Investment Council. Distributions from this fund are stipulated by the State Constitution.
- **Land Grant Fund** – The Land Grant Fund is a permanent fund that receives royalties and income from trust lands distributed to various entities assigned by the Ferguson Act of 1898.

The State reports the following enterprise funds:

Major fund:

- **Educational Institutions Fund** – The Educational Institutions Fund is an enterprise fund that accounts for the activities of the State’s ten educational institutions created by the *Constitution of the State of New Mexico* in Article XII, Section 11: University of New Mexico, New Mexico State University, Eastern New Mexico University, New Mexico Institute of Mining and Technology, Western New Mexico University, New Mexico Highlands University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Blind and Visually Impaired, and the New Mexico School for the Deaf.

Non-major funds:

The State’s non-major enterprise funds include the following: Unemployment Insurance, Public Schools Insurance, Miners’ Colfax Medical Center, New Mexico Magazine, State Fair, Environment Department Clean Water, Corrections Industries, Industries for the Blind, State Infrastructure Bank and the Department of Cultural Affairs.

The State reports the following internal service fund:

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

- **Internal Service Fund** – The State reports the internal service fund type in the proprietary funds statements. The activities accounted for in the internal service fund include fleet operations, risk management, printing and records, communications services, and information processing. In the government-wide financial statements, the Internal Service Fund is included with governmental activities.

Additionally, the State reports the following fiduciary fund types:

- **Pension and Other Employee Benefits Trust Funds** – These funds are used to report resources that are required to be held in trust for the members and beneficiaries of pension plans and other employee benefit plans. These funds account for the activities of the Public Employees Retirement Association (PERA), Educational Retirement Board (ERB), the Retiree Health Care Authority (RHCA), and the Deferred Compensation Plan.
- **External Investment Trust Funds** – These funds account for assets held by the government in a trustee capacity. These funds are used to account for cash, securities, and other investments held in custody for participants in the New Mexico State Treasurer’s Investment Pools and the State Investment Council’s Investment Pools.
- **Private Purpose Trust Funds** – These funds are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments. These funds include the Scholarship Fund, the Water Trust Fund, and the Higher Education Savings Plan.
- **Agency Funds** – These funds are used to report resources held by the State in a purely custodial capacity. Agency funds account for receipt of various taxes, refundable deposits, and other monies collected or recovered to be held until the State has the right or obligation to distribute them to state operating funds or to various entities or individuals; and for deposit to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The State generally considers revenues available if they are collected within 60 days of the end of the current fiscal period. All other revenues are recognized when they are received if they are not

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

susceptible to accrual. Expenditures are generally recorded when a liability is incurred, as under accrual accounting; however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are used to account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature and do not involve measurement of results of operations.

Proprietary funds financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements described previously. Proprietary funds include both enterprise and internal service fund types. Enterprise funds report the activities for which fees are charged to external users for goods and services. Internal service funds account for goods and services provided primarily to other agencies or funds of the State, rather than to the general public. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are student tuition and fees, net of scholarship discounts and allowances, patient services, sales and services, interest on loans, and most federal, state, and local contracts and grants. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The component units' financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The information is presented in order to be consistent with the government-wide statements, and is less detailed than the presentation in each component unit's separately issued financial statements.

F. Budgetary Information

1. Budgetary Basis of Accounting

The budget is adopted on the modified accrual basis of accounting, per statute, in accordance with procedures prescribed by the Financial Control Division (FCD), Department of Finance and Administration. Per these procedures, accounts payable which are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, permission must be obtained from FCD to pay the obligation out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated. The General Fund presented herein includes the general funds of all state agencies. The largest of these general funds are the component appropriation accounts. These appropriation accounts are part of the Department of Finance and Administration. The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as non-appropriated (not budgeted) by the Legislature are the Severance Tax Permanent Fund, the Land Grant Permanent Fund, and the following Enterprise Funds: the Educational Institutions, State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds.

2. Budget to GAAP Reconciliation

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis, differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

3. Multiple Year Appropriation – Capital Projects Budgets and Special Appropriation Budgets

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These non-operating budgets primarily serve as a management control tool, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided.

4. Excess of Expenses/Expenditures Over Budget

For the fiscal year ended June 30, 2016, the State is reporting expenses/expenditures exceeding the approved budget in one P-code budgeted category. There are two separate P-code budget categories that report expenses/expenditures exceeding the approved budget due to rounding. More information can be found in the Budgetary Comparison Schedule in the Financial Section.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

1. Cash and Cash Equivalents

Cash and cash equivalents represent cash on hand, cash on deposit with banks, investment in the State General Fund Investment Pool, Local Government Investment Pool, and cash invested in short-term securities. Cash equivalents include investments in short-term, highly liquid securities having an initial maturity of three months or less. Cash balances not held by the New Mexico State Treasurer (State Treasurer) and controlled by various State officials are generally deposited in interest-bearing accounts or other legally stipulated investments.

2. Investments

Investments are under the control of the State Treasurer, the State Investment Council, and other administrative bodies as determined by law. In certain instances, investments are restricted by law or other legal instruments. Investments are valued at fair value. The fair value of investments is based on published prices and quotations from major investment brokers at current exchange rates as available. For investments where no readily ascertainable fair value exists, management in consultation with their investment advisors, have determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk. The change in fair value is recognized as a component of investment income in the current year.

The Education Trust Board calculates the net asset value of its units as of the close of The New York Stock Exchange (the Exchange), normally 4:00 P.M. Eastern time, on each day the Exchange is open for business. The net asset values of the investments are determined as of the close of the Exchange on each day the Exchange is open for trading. Short-term money market-type debt securities with remaining maturities of sixty days or less are valued at amortized cost (which approximates market value).

3. Investment Pools

State Treasurer - The State is required by statute to deposit any money received with the State Treasurer. Balances maintained at the end of the day are pooled and invested by the State Treasurer in overnight repurchase agreements. All repurchase agreements are collateralized by U.S Treasury Securities held by the State Treasurer's custodian bank. These pooled balances are collectively called the State General Fund Investment Pool (SGFIP), which also includes the deposits in the Tax-Exempt Bonds Proceeds Investment Pool and Taxable Bond Proceeds Investment Pool. The State General Fund is the State of New Mexico's main operating account. All State revenues are credited to the General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund also comprises numerous State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature. The Bond Proceeds Pools consist of pooled assets received through the issuance of taxable and tax-exempt bonds. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the SGFIP are reported as a cash equivalent.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

All interest revenue is allocated to the General Fund unless state statute or trust agreements require allocations of interest to other funds. Interest is allocated based on the average daily balance and average monthly interest rates.

In addition to the SGFIP pooled cash account, the State Treasurer maintains the Local Government Investment Pool (LGIP). The LGIP also includes the deposits in the Reserve Contingency Fund. Cities, counties, other non-state agencies, and state agencies invest monies with the State Treasurer in the LGIP. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the LGIP are reported as a cash equivalent.

The LGIP, an external investment pool, is not registered with the Security and Exchange Commission (SEC) as an investment company. The investments are recorded at fair value based on quoted market price; however, individual participant balances remain at their carrying cost. The LGIP does not have unit shares. Per Chapter 6-10-10.1F, New Mexico Statutes Annotated (NMSA) 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in the amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. At June 30, 2016, the LGIP carrying cost approximated the fair value. Participation in the LGIP is voluntary. The external portion of LGIP is reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the New Mexico State Treasurer's audited financial statements can be obtained by writing the New Mexico State Treasurer, P.O. Box 5135, Santa Fe, NM 87505 or online at http://www.saonm.org/audit_reports/detail/9836.

Public Employees Retirement Association - The Public Employees Retirement Association created a short-term investment pool (Pool) to maximize the benefits of the investment diversification and investment earnings. The Judicial, Magistrate, Volunteer Firefighters, and Public Employees Retirement Systems (Systems) participate in the Pool. The fair value of the investments in the Pool is the same as the value of the pool shares. All investments in the Pool are either SEC registered or are exempt from SEC registration under exemption 3(a)(3) or 4(2) of SEC regulations. Each System's equity percentage in the Pool is based on that System's investment in the pool and will only increase or decrease by additional deposits or withdrawals.

State Investment Council - The State Investment Council (Council) is responsible for the investment activities of certain state trust funds. The Council's investments are reported in the following categories: governmental activities, business-type activities, private-purpose trust funds, and external investment trust funds. Each of the fund types are participants in the Council's pools. Each pool is composed of units of participation of unlimited quantity. Each unit of participation represents an equal beneficial interest in the respective pool and no unit has priority over any other. Each purchase or sale of units requires written authorization as defined in the joint powers agreements executed between the Council and each participant. All units are purchased by cash payment. Each unit of participation is recorded in book entry form by the Council.

The external portion of the Council's investment pools are reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

A copy of the Council's report can be obtained by writing the New Mexico State Investment Council, 41 Plaza la Prensa, Santa Fe, NM 87507.

4. Inventories

The governmental funds use both the purchases method and the consumption method of accounting for inventories. Each state agency determines which method is more appropriate for its circumstances. Under the purchase method, inventories are recorded as expenditures when purchased. For the consumption method, costs are recorded as expenditures when consumed rather than when purchased.

Inventories of the proprietary funds are valued at cost using the average cost, retail inventory, and first-in-first-out (FIFO) methods.

5. Receivables and Loan Receivables

Receivables, net of allowance, in the governmental, business-type activities and fiduciary activities consist mainly of amounts due from the federal government, local governments, customers, patients and applicable insurance companies, taxpayers, students, and others.

Various reimbursement procedures are used for federal awards received by the State. Consequently, timing differences between expenditures and program reimbursements can exist at any time during the fiscal year. Receivable balances at fiscal year-end represent an excess of modified accrual basis expenditures over cash reimbursements received to date. Determining the amount of expenditures reimbursable by the federal government, in some cases, requires management to estimate allowable costs to be charged to the federal government. As a result of this and other issues, management provides an allowance for potential contractual allowances for federal revenue. Any changes in these estimates are recorded in the period that the estimate is changed.

Loans are stated at their principal amount. Interest on loans is accrued based on the daily principal balance outstanding, except when a loan has been past due for 90 days. Certain loans are to governmental entities and secured by certain pledged revenues. The loans are being repaid in accordance with their loan agreements.

6. Capital Assets

Capital assets, which include automobiles, buildings and improvements, furniture and fixtures, software, library books, infrastructure (e.g., roads, bridges, sidewalks, and similar items), machinery and equipment, and portable buildings are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The State defines capital assets as costing at least five thousand dollars or more when acquired and having an estimated useful life greater than one year.

Capital assets purchased by governmental funds are recorded as expenditures in the governmental fund financial statements. Interest expense for capital asset construction related to governmental activities is not capitalized. Interest expense incurred during construction of capital facilities related to business-type activities and component units is immaterial and is not capitalized in all cases. There is no depreciation recorded for land and infrastructure (right-of-

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

way land). Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

In accordance with the practices followed by many museums and libraries, museum and library collections are not reported as assets in the accompanying financial statements. Purchases of the items are reported as expenditures. Certain library books, however, are capitalized.

There is no depreciation recorded for land, construction in progress, infrastructure. Buildings, equipment, and other depreciable assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Years</u>
Infrastructure	10-40
Land Improvements	15-30
Furniture and Equipment	3-25
Vehicles	3-12
Buildings and Improvements	5-75

As provided by GASB standards, the State elected to use the depreciation method to account for infrastructure assets (roads and bridges). This method requires the State to allocate the cost of infrastructure assets over their estimated useful lives as depreciation expense.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

7. Deferred Outflows/Inflows of Resources

As explained later in Note 1, J, the use of the above terms has been expanded with the implementation of various statements of the *Governmental Accounting Standards Board (GASB)*. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

8. Accrued Liabilities

Accrued liabilities include accrued current payroll and fringe benefits payable at year end. These benefits consist of the employee and employer portions of taxes, insurance, retirement, and other compensation-related withholdings.

9. Compensated Absences

Qualified employees' vacation leave is accrued at a graduated schedule of 80 to 160 hours per year, depending upon the length of service and employees' hire date. Employees are paid for the accumulated annual leave upon retirement or other termination up to 240 hours. A maximum of thirty days of annual leave (240 hours) may be carried forward into the beginning of the calendar year, with any excess forfeited. Qualified employees sick leave accrued at the rate

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

of 3.7 hours per bi-weekly pay period. There is no limit to the amount of sick leave, which an employee may accumulate. Employees are paid for accumulated sick leave annually, or upon retirement or other termination, but only for accumulated sick leave in excess of 600 hours. Annually, employees may be paid 50.0 percent of the excess over 600 hours, up to a maximum of 120 hours. Upon retirement or other termination, employees are paid 50.0 percent of the excess over 600 hours, up to maximum of 400 hours. The total liability of the governmental activities for compensated absences is recorded in the government-wide Statement of Net Position as part of long-term liabilities. However, in accordance with GAAP, the liability is not recorded in the Governmental funds financial statements. See additional disclosure in the detailed notes.

10. Unearned Revenue

In the government-wide statements, proprietary fund statements, and fiduciary fund statements, unearned revenue is recorded when cash or other assets are received prior to being earned. In the governmental fund statements, unearned revenue is recorded when revenue is either unearned or unavailable. *GASB Statement No. 65* (see Note 1, J) requires resources received from another government under voluntary or government-mandated non-exchange transactions before time restrictions are met, but after all other eligibility requirements are met, should be classified as deferred inflows of resources.

11. Bonds Payable

Bond premiums and discounts and deferred amounts on refunding are deferred and amortized over the life of the bonds using the bonds outstanding method or straight-line method, which approximates the effective interest method. Bonds payable are reported at face amount, with the applicable bond premium or discount and deferred amount on refunding reported separately. In accordance with GASB Statement 65, bond issuance costs are expensed.

In the governmental fund financial statements, total bond premium or discount is recognized when the bonds are first issued. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

12. Insurance Losses and Loss Adjustment Expense

Public Schools Insurance Authority – The New Mexico Public Schools Insurance Authority (PSIA) insurance losses and related adjustment expenses are charged to operations as incurred. The reserves for losses and loss adjustment expenses are determined based upon case-basis evaluations and actuarial projections, and include a provision for claims incurred but not reported. The actuarial projections of ultimate losses on reported claims and the estimate of claims incurred but not reported are based on a composite of PSIA's experience and benefits, property, casualty, and workers' compensation insurance industry data, which supplements PSIA's historical experience and includes the effects of inflation and other factors. Losses are reported net of estimated amounts recoverable from excess insurance, salvage and subrogation, and the deductible portion of claims. Adjustments to the probable ultimate liability for losses and loss adjustment expenses are made continually, based on subsequent developments and experience, and are included in operations as made.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Retiree Health Care Authority - The amount shown for the Retiree Health Care Authority as reserve for losses and loss adjustment expenses is an actuarially calculated estimate of the ultimate costs of settling all incurred but not reported claims as of the fiscal year-end, while the amount shown on the accompanying fiduciary statement of changes in fiduciary Net Position as losses and loss adjustment expenses represents the change in this estimate during the fiscal year. These reserves represent, in management's opinion, the best estimate of the ultimate cost of settling all reported and unreported claims. There exists a range of variability around the best estimate of the ultimate cost of settling all unpaid claims. Accordingly, the amount reflected in the accompanying financial statements may not ultimately be the actual cost of settling all unpaid claims and the difference may be significant.

13. Interfund Transactions

Government-wide Financial Statements

Interfund Activity – In general, eliminations have been made to minimize the double counting of internal activity, including internal service fund type activity. However, interfund services, provided and used between different functional categories, have not been eliminated in order to avoid distorting the direct costs and program revenues of the applicable functions. Operating transfers between governmental and business-type activities are reported at the net amount.

Interfund Balances – Interfund receivables and payables have been eliminated from the government-wide Statement of Net Position, except for the residual amounts due between governmental and business-type activities.

Governmental Fund Financial Statements

Interfund Activity – Interfund transactions for goods sold or services rendered for a price approximating the external exchange value and employee benefit contributions are accounted for as revenues and expenditures/expenses in the funds involved.

Transfers are used to report flows of cash (or other assets) between funds without equivalent flows of assets in return or a requirement for repayment. The State's transfers are based on legislative appropriations or other legal authority.

14. Net Position and Fund Balance

Net Investment in Capital Assets consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of bonds, mortgages, notes, or other debt attributable to the acquisition, construction, or improvement of such assets. Significant unspent related debt proceeds are not included in the calculation of Net Investment in Capital Assets. The unspent portion of the debt is included in restricted for capital projects. The State issues General Obligation bonds and Severance Tax bonds to finance projects for the State and local governments. The Legislature appropriates the bond proceeds from each bond issue to projects throughout the State. Only bonds issued for projects appropriated to State agencies and recognized as a State asset are included in this calculation.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

The State reports Net Position as restricted when constraints placed on Net Position are a) externally imposed by creditors, grantors, contributors or laws, or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

Restricted Net Position is designated as either expendable or nonexpendable. Expendable Restricted Net Position includes those funds that may be expended either for a stated purpose or for a general purpose subject to externally imposed stipulations. Nonexpendable Restricted Net Position includes those funds that are required to be retained in perpetuity. Restricted Net Position includes the State's permanent endowment funds subject to externally imposed restrictions governing their use.

Unrestricted Net Position consists of net position that does not meet the definition of Net Investment in Capital Assets or Restricted Net Position.

When both restricted and unrestricted net position are available for use, it is the State's policy to use restricted resources first and then unrestricted resources, as they are needed.

In the governmental fund financial statements, fund balances are classified as non-spendable, restricted, committed, assigned, or unassigned. Restricted represents those portions of fund balance where constraints placed on the resources are either externally imposed by outside parties or internally imposed by law through constitutional provision or enabling legislation.

Committed fund balance represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Legislature, such as an appropriation or legislation. The State Legislature is the highest level of decision-making authority that can, by passage of legislation, commit fund balance that is not already restricted. Once adopted, the limitation remains in place until similar action takes place, usually in the form of a new budget bill or other legislation.

Assigned fund balance is constrained by the Legislature's intent to be used for specific purposes by directive of the Legislative Finance Committee of the Legislature or in some cases by legislation. Legislative directives dictate that all fund balances remaining at the end of the fiscal year shall be reverted back to the State General Fund unless the fund is stipulated as non-reverting by the Legislature or by laws or regulations imposed by grantors. If the fund is non-reverting, the agency governing board or department head has the authority to assign a fund balance for a specific use.

The State has not adopted a formal flow assumption policy and therefore uses the GASB recommendations; that is, it is the State's policy to use restricted fund balance before using components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is used first, followed by assigned fund balance, and lastly, unassigned fund balance.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

H. Revenues and Expenditures/Expenses

In the government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function for governmental activities (e.g. general control, education, health and human services, etc.).

Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods or services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes. Certain indirect costs are included in the program expenses reported for individual functions.

In the government-wide financial statements, revenues are reported by source and are further classified as either “general purpose” or “restricted.” General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by State law or by outside restriction (e.g. federal grants), available only for specific purposes. Unused restricted revenues at year-end are recorded as restrictions of fund balance. When both general purpose and restricted funds are available for use, it is the State’s policy to use restricted resources first.

In the governmental fund financial statements, expenditures are reported by character: Current, Capital Outlay, or Debt Service. Current expenditures are sub-classified by function and are for items such as salaries, grants, supplies, and services.

Revenues and expenses of proprietary funds are classified as operating or non-operating and are sub-classified by object (e.g. depreciation, benefits, claims and premiums, and game expense). Operating revenues consist of sales of goods or services, interfund services provided/used, grant revenues for specific activities that are considered operating activities of the grantor, receipts from other agencies for reimbursement of operating transactions, and other miscellaneous revenue that should be classified as operating. For certain loan and investment programs, revenue that would normally be classified as non-operating should be classified as operating. An example of this would include interest income on loans. All other revenues that do not meet the above criteria should be classified as non-operating.

Grants

Federal grants and assistance awards made based on entitlement periods are recorded as revenues when entitlement occurs. All federal reimbursement-type grants are recorded as revenues when the related allowable expenditures are incurred and all applicable eligibility requirements are met.

Investment Income

Net investment income (loss) includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, securities lending income, rental income, and investment expenses (which includes investment management and custodial fees, securities lending expense, and all other significant investment related costs). Negative investment income is reported where the decrease in fair value of investments due to market conditions exceeded the other components of investment income.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Endowments

Net appreciation on the Educational Institutions' investments of donor-restricted endowments are available for authorization for expenditure by the governing boards of the universities with endowments, which are reported in Net Position as restricted for purposes for which the endowments were established. Donor restricted endowment disbursements of the net appreciation of investments are permitted in accordance with the Uniform Management of Institutional Funds Act, Chapters 46-9-1 to 46-9-12, NMSA 1978, except where a donor has specified otherwise. Distributions shall not exceed 6.0 percent nor be less than 4.0 percent of the average market value of the endowment. The universities use the total-return policy for authorizing and spending investment income. The universities review the investment earnings designed to support distributions from the pool and to protect the purchasing power of the endowment principal.

Retirement and Employee Benefit Costs

Most state employees participate in a defined benefit pension plan administered by the New Mexico Public Employees' Retirement Association and the New Mexico Educational Employees' Retirement Board. Contributions collected for the pension plans and the retirement benefits paid are accounted for in the Pension and Other Employee Benefits Trust Funds. All costs for pension, health, and federal social security contributions are reported as expenditures in the appropriate function in governmental fund types or as expenses in applicable proprietary fund types. Pension and other benefits costs are recognized in the fiscal year in which the underlying payroll costs are incurred.

I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

J. New Accounting Standards

For the fiscal year ended June 30, 2016, the State implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB):

GASB Statement No. 72, Fair Value Measurement and Application

This statement addresses accounting and financial reporting issues related to fair value measurements, and provides guidance for determining fair value measurement for financial reporting purposes. New disclosures of fair value measurements of investments have been added to the Notes to the Financial Statements.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68

This statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68, as well as amending certain provisions of Statements No. 67 and No. 68. This statement has had very little impact on State financial reporting.

GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments

This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP, and is of interest mainly to those involved in the technical aspects of accounting and financial reporting for governments.

K. Future Accounting Standards

The following pronouncements of the Governmental Accounting Standards Board (GASB) are due to be implemented by the State in the year indicated. For all of these new standards, the State has not determined the effect on the financial statements that implementation of the standards will entail.

GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans

This statement provides new guidance on reporting for benefit plans other than pensions. The statement is due to be adopted by the State for the fiscal year ending June 30, 2017. This statement will have a major impact on government financial reporting similar to that of the recently adopted pension accounting standards.

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions

This statement establishes new standards for accounting and financial reporting for governments whose employees are provided with postemployment benefits other than pensions. Statements No. 74 and No. 75 will have a significant impact on the financial statements of most state and local governments, including the State of New Mexico. This statement is due to be adopted by the State for the fiscal year ending June 30, 2018.

GASB Statement No. 77, Tax Abatement Disclosures

This statement provides disclosure guidance for governments that enter into tax abatement agreements with individuals or businesses. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017. This statement will have a significant impact on state financial reporting.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

GASB Statement No. 78, Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans

This statement establishes accounting and reporting requirements for certain governments and pension plans that fit the definitions enumerated in the statement. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants

This statement applies to those external investment pools which make an election regarding the measurement of its investments at amortized cost for financial reporting purposes. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 80, Blending Requirements for Certain Component Units – An Amendment of GASB Statement No. 14

This statement applies to certain specific component units as defined in the statement. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 81, Irrevocable Split-Interest Agreements

This statement provides accounting guidance to those governments which receive resources pursuant to an irrevocable split-interest agreement (a donor agreement used to provide resources to two or more beneficiaries). This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 82, Pension Issues – An Amendment of GASB Statements No. 67, No. 68, and No. 73

This statement addresses certain specific financial reporting issues which have arisen due to the implementation of GASB Statements No. 67, No. 68, and No. 73. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 83, Certain Asset Retirement Obligations

This statement addresses the accounting and financial reporting for legally enforceable liabilities resulting from the retirement of certain tangible capital assets, mainly those which are large and/or not easily disposed, such as sewage plant facilities or nuclear reactors. The statement is due to be adopted by the State for the fiscal year ending June 30, 2019.

GASB Statement No. 84, Fiduciary Activities

This statement establishes criteria for identifying fiduciary activities of all state and local governments, and describes those fiduciary funds which should be reported, if applicable. The statement is due to be adopted by the State for the fiscal year ending June 30, 2020.

L. State Auditor Rule Disclosure

The Office of the State Auditor Rule requires that audit reports contain a schedule of Joint Powers Agreements (JPA) and Memoranda of Understanding (MOU) that are significant to the State as a whole. There are none that meet this criterion.

Disclosure of these schedules may be found in the stand-alone audit reports which have been issued by the individual State agencies. These are available from the Office of the State Auditor at www.saonm.org.

The remainder of this page has been left blank.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 2

NOTE 2. Cash

Primary Government

New Mexico State Treasurer

All monies, except with specific authority, must be deposited with the State Treasurer. These operating funds are commingled in the State Investment Pool, managed by the Treasurer. Every State agency reports their operating cash as “Investment in State General Fund Investment Pool”, and this pool is reported in Note 3, “Investments”. The issues concerning the reconciliation of the State General Fund Investment Pool and the resolution are reported in Note 17, “State General Fund Investment Pool.”

Cash on deposit represents the demand deposit account with the fiscal agent bank. Current year transactions reflect all banking activity for the fiscal year as well as the activity of investments purchased and disposed of during the fiscal year. The State Treasurer invests all public monies, with the exception of the New Mexico Lottery and the university funds. The university funds are entirely under the control of the universities. These funds are held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance (BOF). The State Treasurer invests excess cash balances on behalf of certain earmarked funds of state agencies identified by State statute and local governments. Interest earnings are distributed based on average outstanding cash balances for local governments and the state agencies where interest is allowed to be earned. All other interest earnings are transferred to the State General Fund Appropriations Account.

All State agencies, unless otherwise excepted, must have specific approval from the State Treasurer in order to maintain separate bank accounts. These accounts are mainly used for agency fund purposes, either as a collection fund until final distribution, or when the funds are being held by the agency in a fiduciary capacity and the funds do not belong to the State.

Custodial Credit Risk. The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The State Treasurer’s Office collateral manager reviews and tracks all state funds held in state depository institutions. Deposits and collateral are reviewed almost daily and a statutorily required risk assessment is performed quarterly. Balances are collateralized in compliance with NMAC 2.60.4.

The State Treasurer invests all public monies held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance. The Treasurer deposits public monies with New Mexico financial institutions in denominations which generally are in excess of the \$250 thousand in federal deposit insurance. Accordingly, the State Treasurer requires that depository financial institutions provide additional collateral for such investments. The collateral generally is in the form of marketable debt securities and is required in amounts ranging from 50.0 percent to 102.0 percent of the par value of the investment, dependent on the institution’s operating results and capital. Collateral for the fiscal agent account is required in amounts equal to 50.0 percent of the average investment balance.

STATE OF NEW MEXICO

As of June 30, 2016, the funds held by the State Treasurer in the fiscal agency account were exposed to custodial credit risk as follows:

Office of the State Treasurer	
Custodial Credit Risk	
<i>(Expressed in Thousands)</i>	
	Balance at
	June 30, 2016
Cash in Banks	\$ 535,365
Less: Deposit of Institutions Which are Fully Insured and Collateralized	<u>181,713</u>
Deposits of Institutions Not Fully Collateralized	353,652
Less: Total FDIC Insurance Coverage	2,250
Collateral Pledged:	
Surety Bond	5,100
Securities	<u>184,531</u>
Subject to Custodial Credit Risk	<u>\$ 161,771</u>

In the table above, FDIC insurance coverage and collateral pledged relate only to those institutions whose deposits are not fully insured and/or collateralized.

As of June 30, 2016, collateral pledged to public money deposits was as follows:

Office of the State Treasurer		
Statutory Collateral Compliance		
<i>(Expressed in Thousands)</i>		
	Fiscal Agent	Certificates
	Account	of Deposit
Cash in Bank *	\$ 39,069	\$ 65,950
Less: FDIC Insurance Coverage	-	(1,810)
Total Unsecured Public Funds	<u>\$ 39,069</u>	<u>\$ 64,140</u>
Collateral Requirement (50.0% - 102.0% of Uninsured Public Funds)	<u>\$ 19,534</u>	<u>\$ 48,485</u>
Collateral Pledged:		
U.S. Government Securities	\$ 64,318	\$ 48,965
Surety Bond	-	-
Collateral Pledged	<u>64,318</u>	<u>48,965</u>
Over Collateralized	<u>\$ 44,784</u>	<u>\$ 480</u>

* Fiscal agent bank is required to collateralize the monthly average balance.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 2 (CONTINUED)

The cash deposits of the State Investment Council, the Public Employees Retirement Association, the Educational Retirement Board, the Retiree Health Care Authority, and the Education Trust Board are monitored by their individual Boards in conjunction with contracted professional investment firms. The respective Boards of these agencies have instituted policies and procedures to safeguard the public assets under their control.

The remainder of this page has been left blank.

NOTE 3. Investments

The following schedule lists the total investments reported in the financial statements:

	<u>Balance at June 30, 2016</u>
Primary Government:	
Current:	
Investment in State General Fund Investment Pool	\$ 3,003,611
Investment in Local Government Investment Pool	81,859
Investments	448,036
Noncurrent:	
Investments	19,372,600
Fiduciary Funds:	
Investment in State General Fund Investment Pool	130,491
Investment in Local Government Investment Pool	4,723
Investments	29,905,560
Component Units:	
Investments	<u>1,495,618</u>
Subtotal	<u>54,442,499</u>
Less: Investments in Deferred Compensation Plan not Included in Reported Investments	<u>(492,580)</u>
Total Investments	<u>\$ 53,949,919</u>

Reconciliation to Investments presented

Total presented above	\$ 53,949,919
Less - Information presented separately:	
ETB Investments	(2,284,217)
Component Unit Investments	(1,495,731)
Securities Lending Collateral	(544,078)
Other	<u>(387,103)</u>
Total separately held investments	<u>\$ 49,238,790</u>

There are six different agencies or groups which report investments for the State, each of them with separate authority and different objectives. They are: a) the Office of the State Treasurer; b) the State Investment Council; c) the Public Employee and Educational Employee Retirement Plans; d) the State universities and colleges; e) Education Trust Board; and f) State agencies with separately-held investments. In addition, the component units also report separately-held investments.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

State Treasurer

The State Treasurer operates four separate investment pools. They are as follows:

General Fund Investment Pool

The General Fund is the State of New Mexico's main operating account. All State revenues are credited to the State General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund also comprises numerous State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature.

Consolidated Investment Pool (Tax-Exempt Bond Proceeds Investment Pool #1)

The Tax-Exempt Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of tax-exempt State of New Mexico general obligation, severance tax, and supplemental severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to the true interest cost of all State of New Mexico debt outstanding and in accordance with the Investment Policy of the Office of the State Treasurer.

Consolidated Investment Pool (Taxable Bond Proceeds Investment Pool #2)

The Taxable Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of State of New Mexico severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to a benchmark and in accordance with the State Treasurer's Investment Policy.

Local Government Investment Pool (LGIP; Short-term Investment Pool)

Cities, counties, and other agencies invest monies in the State Treasurer external investment pool (LGIP). In fiscal year 2016, LGIP implemented a portion of GASB No. 79, Certain External Investment Pools and Pool Participants, which permits external investment pools to elect to measure all of their investments at amortized cost. The LGIP investments are presented at fair value based on the valuation date in the financial statements. The individual participant balances remain at their amortized cost. As of June 30, 2016, LGIP amortized cost approximated fair value, difference is immaterial.

The LGIP is not SEC registered. Chapter 6-10-10.1, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies, and are either direct obligations of the United States or are backed by the full faith and credit of the United States government, or are agencies sponsored by the United States government. The LGIP investments are monitored by the same investment committee and adhere to the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the LGIP is voluntary. As of June 30, 2016, the WAM(R)

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

of the LGIP was 44 days, and the WAM(F) was 77 days. The fund was rated AAA by Standard & Poor's as of June 30, 2016.

Investment Guidelines and Limitations

The Investment Policy is a comprehensive guide governing the investment functions of the New Mexico State Treasurer with respect to all financial assets of the State of New Mexico invested by the State Treasurer in the exercise of their authority and for which the State Treasurer acts as the investing authority. These assets include, as examples only, the State General Fund, the LGIP, bond proceeds, bond debt service funds, and those pension and permanent Note 12 funds and other special funds with respect to which the State Treasurer is the investing authority.

The investment policy and the public finance investment decisions of the State Treasurer must serve and satisfy several fiduciary, fiscal, and financial obligations. In making these decisions and in resolving any conflict or competing considerations that may arise from time to time among these obligations, the State Treasurer will observe the following priority:

- Preservation of Principal – to ensure the performance of basic governmental functions, the first priority must be accorded to the preservation and protection of the principal of the funds to be invested;
- Maintenance of Liquidity – the second level of priority must be accorded to maintaining sufficient liquidity to satisfy the reasonable anticipated, continuing operational requirements of State Government, and
- Maximum Return – the third priority must be accorded to maximizing investment return, through budgetary and economic cycles, consistent with the higher priority accorded to the security and liquidity of principal.

State Investment Council

The State of New Mexico Investment Council (Council) is responsible for the investment activities of certain State trust funds. The Council is composed of eleven members, and currently manages the Land Grant, Severance Tax, and Tobacco Settlement Permanent Funds, the Water Trust Fund, and various investment pools for the benefit of state agencies and other political entities within the State of New Mexico.

In accordance with Chapter 6-8, NMSA 1978, the Council is authorized to invest in domestic and international stocks, debt obligations of the U.S. government, its agencies, or instrumentalities, debt obligations of any U.S. or foreign corporation, partnerships, or trusts with an investment-grade rating from a national rating service, real estate investments, national private equity investments, repurchase agreements secured by U.S. obligations or other securities backed by the U.S., and hedge funds.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Pension Benefits Funds

The two pension benefits agencies are the Public Employees Retirement Association of New Mexico (PERA) and the Educational Retirement Board (ERB). PERA operates four separate cost-sharing multiple-employer public employee retirement systems, and ERB operates one such system for the benefit of educational employees in the State. More information on each of these agencies can be found elsewhere in these Notes. Each is governed by a separate Board, and each has specific investment policies and guidelines to which they must adhere.

State Universities and Colleges

As mentioned in Note 1. B, the ten educational institutions created by the *Constitution of the State of New Mexico* are included in the State reporting entity. Eight of these institutions maintain separate investment portfolios, as permitted by statute, with some of the investments held and managed by State agencies and some managed by the institutions themselves. Each has investment policies and guidelines which are similar.

Education Trust Board

The Education Trust Board (ETB) is responsible for the management of the two higher education savings plans: Scholar's Edge, and The Education Plan (Plans). The Plans are savings vehicles for higher education expenses under Section 529 of the U.S. Internal Revenue Code. The funds are managed by a private company under contract agreement.

A. Fair Value

Fair Value Measurement – The State categorizes fair value measurements within the fair value hierarchy established by *GASB Statement No. 72, Fair Value Measurement and Application*. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

Level 1 inputs are quoted prices (unadjusted) for identical assets in active markets, accessible at the measurement date. Level 1 inputs include exchange markets, dealer markets, brokered markets, and principal-to-principal markets.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset, either directly or indirectly. Level 2 inputs include quoted prices for similar assets in active markets and quoted prices for identical or similar assets in markets that are not active.

Level 3 inputs are unobservable inputs for an asset.

Investments that do not have a readily determinable fair value are recorded using net asset value (NAV). NAV is generally provided by the investment managers but the State considers the reasonableness of the NAV, based on market information, to arrive at the fair value estimates for each investment.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

B. Custodial Credit Risk

Custodial credit risk is the risk that the State will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party if the counterparty fails. Investment securities are exposed to risk if the securities are uninsured, are not registered in the name of the State Treasurer, and are held by either the counterparty or the counterparty's trust department or agent but not in the State Treasurer's name.

The State Treasurer's investment policy for safekeeping and custody states that all investment securities purchased by the State, held as collateral on repurchase agreements or held as collateral on securities lending arrangements shall be held in third-party safekeeping at a fiduciary qualified to act in this capacity. All securities held for the State account will be held free and clear of any lien and all transactions will be conducted in compliance with Chapter 6-10-100, NMSA 1978, which requires contemporaneous transfer and same day settlement. On a monthly basis, the custodian will provide reports, which list all transactions that occurred during the month, and all securities held for the State at month-end, including the book and market value of holdings. The fiscal agent and representatives of the custodian responsible for, or in any manner involved with, the safekeeping, and custody process of the State shall be bonded in such a fashion as to protect from losses from malfeasance and misfeasance. All investment and collateral securities were held by the State Treasurer or its Custodian in the name of the State Treasurer.

All of the PERA's and ERB's securities are held by the third party custodian, independent of any counterparty; therefore, there is minimal risk that PERA and ERB will not be able to recover the value of its investments or collateral securities held by a counterparty.

PERA's investment policy specifically defines the custodian's duties as it pertains to holding of the assets, collection of income generated from the assets, and assisting PERA for the accounting of said assets.

ERB's investment policy limits holding of securities by counterparties to those involved with securities lending. In the event of the failure of the counterparty to deliver back the borrowed securities, ERB will sell the collateral securities and offset any gains or losses with the counterparty. All of the investments of the Retiree Health Care Authority were held by the State Investment Council.

C. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. U.S. obligations or investments guaranteed by the U.S. Government are excluded from this requirement. The quality rating of PERA's investment policy restricts investments to specific investment ratings issued by nationally recognized statistical rating organizations.

ERB requires that noncash, interest-paying securities in the high-yield bond portfolios may not exceed 5.0 percent of the market value of the portfolio and that investments in cash may represent no more than 5.0 percent of each individual fund. Credit risk is managed through diversification and by operating within defined parameters versus a benchmark index.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

D. Custodial Credit Risk

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the State, and are held by either the counterparty or the counterparty's trust department or agent but not in the State's name. All of the State's securities are held directly or by third party custodians, independent of any counterparty, in the name of the State.

E. Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may arise in the event of default by a single issuer. It is the policy of the State to diversify its investments portfolios. Assets shall be diversified to reduce the risk of loss resulting from an over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. At June 30, 2016, there were no holdings with a single issuer comprising five percent or more of total net investments. It should be noted that investments issued or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

F. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. Investment managers attempt to match investments with anticipated cash requirements so as to lessen this risk.

PERA's interest rate risk is controlled by the duration guidelines provided in the Investment Guidelines for each fixed income manager. Duration is loosely defined as the dollar weighted average time to recover all of principal and fixed-income investment. PERA's fixed-income managers are typically limited to duration of plus or minus one year or 20.0 percent of the duration of the applicable portfolio benchmark. ERB does not have a policy for interest rate risk management. However, interest rate risk is managed through duration by operating within defined risk parameters versus a benchmark index.

Maturities on investment at June 30, 2016, were as follows:

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Securities Collateral

The State's Investment Policy states that no repurchase agreement shall be entered into unless the contract is fully secured by deliverable obligations of the United States or other securities backed by the United States having a market value of at least 102.0 percent of the amount of the contract. The Office of the State Treasurer reports the credit ratings and maturities on collateral securities held by that office at June 30, 2016 as follows:

Collateral Securities Held (Expressed in Thousands)

<u>Issuer</u>	<u>Fair Value</u>
Investments Subject to Interest Rate Risk: U.S. Government Mortgage-backed Securities AA+	<u>\$ 828,514</u>

Maturities on Collateralized Securities

<u>1 - 5 Years</u>	<u>6 - 10 Years</u>	<u>11-20 Years</u>	<u>Greater Than 20 Years</u>	<u>Total</u>
<u>\$ 340,849</u>	<u>\$ 50,980</u>	<u>\$ 174,363</u>	<u>\$ 262,321</u>	<u>\$ 828,514</u>

Securities Lending

The State Public Employee Retirement Association (PERA) participates in a securities lending program as authorized by State statute and its Board policies. Both the State Investment Council and the Educational Retirement Board have terminated their lending programs.

The types of securities lent are U.S. Treasury Notes and Bonds, U.S. and international equity securities, and corporate bonds and notes. Under this program, securities are transferred to an independent broker-dealer or other lending agent in exchange for collateral in the form of cash, government securities, and/or irrevocable bank letters of credit, with a simultaneous agreement to return the collateral for the same securities in the future. The collateral must equal at least 102.0 percent of the market value of the securities.

Per Board policy, PERA may invest the cash collateral in eligible securities or other investments as defined in the governing securities lending agreement. The duration of investments so made does not generally match the maturities of securities loaned. Securities received as collateral may not be pledged or sold without borrower default.

Total securities on loan at June 30, 2016, had a carrying amount and fair value of \$580.7 million. Under the agreement, the lending agent is required to indemnify the entity if the borrower fails to return the securities, if collateral is inadequate to replace the securities lent, or if the counterparty fails to pay the entity for income distributions by the

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

securities' issuers while the securities are on loan. There were no such losses during the year ended June 30, 2016, due to borrower default.

The fair value of investments made with cash collateral is reported as an asset; the fair value of collateral received is recorded as a liability as PERA must return the cash collateral to the borrower upon the expiration of the loan. The fair value of the securities lending collateral investments was \$544.1 million and the securities lending obligations were \$543.9 million at June 30, 2016. Total cash and noncash collateral was \$600.3 million, 103.4% of the fair value of the securities on loan.

At June 30, 2016, there had been no losses resulting from borrower defaults and PERA had no credit risk exposure to borrowers because the amounts PERA owed to borrowers did not exceed the amounts the borrowers owed to PERA. Net earnings from the securities lending program totaled \$2,271,826 for the fiscal year.

Derivatives

Derivatives are generally defined as contracts whose value depends on, or derives from, the value of an underlying asset, reference rate, or index. The State's retirement funds' investment policies allow certain portfolio managers to trade in certain derivatives for hedging purposes.

The notional or contractual amounts of derivatives indicate the extent of the State's involvement in the various types and uses of derivative financial instruments and do not measure the State's exposure to credit or market risks, and they do not necessarily represent amounts exchanged by the parties. The amounts exchanged are determined by reference to the notional amounts and other terms of the derivatives.

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2016, classified by type, and the changes in fair value of such derivative instruments for the year then ended as reported in the financial statements are as follows:

Derivative Type	Derivative Financial Instruments (Expressed in Thousands)					
	Change in Fair Value		Fair Value		Notional Amount	Unit of Value

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Risk – There are certain risks inherent in investments in derivatives. Counterparties to financial instruments expose the State to credit risk in the event of nonperformance. The fund managers that are authorized to invest in derivatives are given specific parameters as to the types of derivatives invested in and ratings of the counterparties they are allowed to enter into contracts with to ensure transactions are entered into with only high quality institutions. The State is exposed to market risk; the risk that changes in market conditions may make an investment less valuable. Exposure to market risk is managed within risk limits set by management through buying and selling of specific instruments or by entering into offsetting positions. Foreign currency risk for investments is the risk that changes in exchange rates will adversely affect the investments. Managers of these assets are given discretion to hedge this risk.

Types of Derivatives Instruments

Foreign Currency Exchange Contracts. The State’s retirement funds may enter into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the State’s foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal as they are entered into with a limited number of highly rated counterparties.

Risks associated with such contracts include movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. Gains and losses on foreign currency may occur to the extent that the fair value of the contracts varies from the actual contract amount, and they are recorded as incurred in the financial statements.

The following table summarizes the foreign exchange contracts by currency by the agencies involved as of June 30, 2016:

Futures Contracts. The State's retirement funds enter into futures contracts in the normal course of its investing activities, including equity futures, fixed income futures, and commodities futures. They are utilized in order to manage market risk associated with the equity and fixed income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of Net Position available for benefits. The credit risk associated with these contracts is minimal as they are traded on organized exchanges.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

During 2016 and 2015, the retirement funds were a party to futures contracts held for trading purposes for U.S. Treasury bonds and 90-day Euro dollar fixed income futures. Upon entering into a futures contract, the Board is required to deposit either in cash or securities an amount (“initial margin”) equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by NMERB, depending on the daily fluctuation in the value of the underlying contracts. No U.S. Treasury securities owned and included within NMERB’s investments, were held by the Plan’s broker as performance security on futures contracts as of June 30, 2016. There were no outstanding futures contracts as of fiscal year ending June 30, 2016.

Options. An option is a contract in which the writer of the option grants the buyer of the option the right to purchase from (call option), or sell to (put option), the writer a designated instrument at a specified price within a specified period. Both written and purchased options were used by the State during the fiscal year. When the State purchases or writes an option, an amount equal to the premium paid or received by the State is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. Gain or loss is recognized when the option contract expires or is closed. As of June 30, 2016, there were no open written or purchased options.

Swap Contracts. Swap contracts are executed on a number of different bases. The two types employed by the State during the fiscal year were interest rate swap contracts and credit default swap contracts. An interest rate swap contract is an agreement between two parties to exchange periodic interest payments. One party agrees to make payments to the other based on a fixed rate of interest in exchange for payments based on a variable rate. The State employs interest rate swap contracts to adjust fixed income portfolio durations. A credit default swap contract is similar to an insurance policy; with the credit risk of an individual issuer or a basket of issuers (the “reference asset”) the insured factor. Under such a contract, two parties enter into an agreement whereby the first party pays the second party a fixed periodic payment for the specified life of the contract (analogous to an insurance premium). The other party makes no payment unless a credit event related to the reference asset occurs. If such an event takes place, the second party is obligated to make a payment to the first party. The size of the payment is linked to the decline in the reference asset’s market value following determination of the occurrence of a credit event.

Hedge Funds. The use of other derivatives is allowed under the Hedge Fund Investment Policy. These investments are under the management of the Hedge Fund managers who are employed in the “Hedge Fund”, “Emerging Market Debt,” and “Opportunistic Credit” classifications.

Asset-Backed Securities. The State invests in various forms of asset-backed securities, which fit the previous definition of derivative securities. These securities are held for investment purposes. The credit risk, interest rate risk, and foreign currency risk for these instruments have been disclosed elsewhere in these Notes.

Major Discretely-Presented Component Units

Credit Risk

The investments of the two largest discretely-presented component units were as follows:

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 4 (CONTINUED)

Accounts receivable balances are an aggregation of amounts due from the federal government, customers, and others. Receivables from customers include charges for services to local governments, fees and fines issued by the courts and corrections, employer contributions for unemployment benefits, amounts from investment brokers, interest earnings, general and selective income taxes, and receivables because of overpayments to individuals receiving state assistance.

Arizona Water Settlement

The State of New Mexico entered into the Arizona Water Settlement with the federal government. Under the terms of the agreement, the federal government will pay the State of New Mexico a total of \$66 million in 2004 dollars adjusted for inflation, in 10 annual installments. The inflation adjusted amount is estimated at \$90,400,000. The installment of \$9.04 million was received by the Agency during the fiscal year ended June 30, 2016, and the Agency recorded a receivable of \$37,904,015 to account for the remaining amount due. This receivable will be reduced as payments are received from the federal government according to the settlement agreement. In addition, the actual amounts received may require adjustment relative to the receivable recorded, due to indexing.

The amounts expected by year, as of June 30, 2016, assuming imputed interest of approximately 6.17%, are as follows:

<u>Year-End June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 6,701	\$ 2,339	\$ 9,040
2018	7,114	1,926	9,040
2019	7,553	1,487	9,040
2020	8,020	1,020	9,040
2021	8,516	524	9,040
Total	\$ 37,904	\$ 7,296	\$ 45,200

The amounts received under this settlement agreement are restricted to costs of a New Mexico Unit that would develop all or some of the water provided to New Mexico in the Arizona Water Settlement Act, for water utilization alternatives that meet a water supply demand, planning, environmental restoration, or mitigation.

Discrete Component Units

The following is an analysis of the allowance for loan losses as of June 30, 2016 for the two largest discretely-presented component units (in thousands):

NOTES TO THE FINANCIAL STATEMENTS – NOTE 5

NOTE 5. Interfund and Interagency Receivables, Payables, and Transfers

Interfund receivables and payables balances result from the time lags between the dates that: 1) interfund goods and services are provided or reimbursable expenditures occur; 2) transactions are recorded in the accounting system; and 3) payments between funds are made.

Transfers between funds occur when one fund collects revenue and transfers the assets to another fund for expenditure or when one fund provides working capital for another fund. All transfers must be legally authorized by the Legislature through statute or an Appropriation Act. Transfers during the year were made to finance the operations of the individual departments as authorized by the Legislature and to revert (transfers out) any unspent or unencumbered balance of the authorized appropriations. Transfers between the primary government and the fiduciary funds and component units are reclassified as expenditures in the government-wide financial statements.

The composition of interfund balances as of June 30, 2016, is as follows (in thousands):

	Due From	Due To	Transfers In	Transfers Out
Governmental Activities:				
General	\$ 663,393	\$ 626,674	\$ 6,711,704	\$ 6,935,743

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 7

NOTE 7. Deferred Outflows of Resources

A. Deferred Charge on Refunding

The State issued multiple series of refunding bonds in prior years to advance-refund certain older issues. Thus, the bonds which were advance-refunded are considered defeased in substance. The excess of the reacquisition price (funds required to refund the old debt) over the net carrying amount of the old debt resulted in a loss, which had been reported previously as an asset. When *GASB Statement No. 65* was implemented in 2012, this item's classification was changed to deferred outflow of resources. For fiscal year ending June 30, 2016, the deferred outflow of resources for governmental activities and business-type activities were as follows:

	Deferred Charge on Refunding	
	Governmental	Business-type
Beginning Balance	\$ 59,107	\$ 2,103
Additions	-	4,657
Amortization	(5,972)	(148)
Ending Balance	<u>\$ 53,135</u>	<u>\$ 6,612</u>

B. Interest Rate Swaps

In the course of bond refunding transactions, the State has entered into transactions termed interest rate swaps, which are classified as hedges. This has resulted in items classified as a deferred outflow of resources. For more information on these interest rate swaps, see Notes 8 E and 8 F.

The remainder of this page has been left blank.

Compensated Absences	\$ 728	\$ 885	\$ (157)	Restated by entity.
Total Net Change, Fiduciary Long-term Liabilities			<u>\$ (157)</u>	

B. General Obligation Bonds

The State issues general obligation bonds to provide funds for the acquisition, construction, and renovation of major capital facilities for local governments as authorized by the Legislature of the State of New Mexico. General obligation bonds are direct obligations and pledge the full faith and credit of the State. These bonds generally are issued as 10-year serial bonds with equal amounts of principal maturing each year. Funding for the payment of the debt service of the general obligation bonds is provided through the collection of property taxes levied by the local governments receiving the funding for capital spending. There were no general obligation bonds issued during the fiscal year ended June 30, 2016. General obligation bonds outstanding at year-end are as follows:

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

C. Severance Tax Bonds

Severance tax bonds are used to fund the capital needs of state agencies, local governments, and public and higher education as authorized by the Legislature of the State of New Mexico. In addition, severance tax bonds have been issued to refund severance tax bonds. Funding for the payment of the debt service of the severance tax bonds is provided through the collection of severance taxes levied on the mining and production of various natural resources, such as minerals, oil, and gas. The severance tax bonds are secured by the levied taxes. This is a permanent commitment of a portion of total severance tax revenues. As authorized by State statute, severance tax revenues are transferred to the Severance Tax Bonding Fund and first pay the required debt service on severance tax bonds and supplemental severance tax bonds issued by the State, with the remainder being transferred to the Severance Tax Permanent Fund. For the year ended June 30, 2016, total severance tax revenues transferred to the Severance Tax Bonding Fund were \$255.0 million. The total principal and interest requirements were \$19.1 million for long-term debt and \$136.0 million for short-term debt for all severance tax and supplemental severance tax bonds.

Only July 21, 2015, the State issued Series 2015A Severance Tax Bonds in the amount of \$129,195 (amounts in thousands) for the purpose of providing funds to finance capital improvements approved by the State Legislature. Also issued were Series 2015B Supplemental Severance Tax Bonds in the amount of \$69,745 to be used to finance projects certified by the State Public School Capital Outlay Council as authorized by the State Legislature. Both series carried a coupon rate of 5.00% and both had final maturities in 2025.

On May 17, 2016, the State issued Series 2016A and Series 2016C Severance Tax Bonds in the amounts of \$78,750 and \$41,925, respectively. Both series were issued to provide funds to finance capital improvements approved by the State Legislature. Series 2016A bonds carried a coupon rate of 5.00% and will mature in 2026. Series 2016C carried a coupon rate of 2.00% and will mature in 2021.

The State also issued Series 2016B Severance Tax Refunding Bonds for the advance refunding of the following Severance Tax Bonds previously issued by the State:

Series 2011A-1	July 1, 2018 through July 1, 2021 Maturities	\$	8,290
Series 2013A	July 1, 2019 through July 1, 2023 Maturities		87,975
Series 2014A	July 1, 2020 through July 1, 2014 Maturities		91,115
	Total bonds refunded:	\$	<u>187,380</u>

The refunding bonds have a coupon rate of 4.00% and will mature in 2024.

STATE OF NEW MEXICO

Total	\$ 955,045	\$ 184,438	\$ 1,139,483

D. Revenue Bonds

The State also issues bonds where the government pledges income derived from the related acquired or constructed assets to pay debt service.

Governmental Activities

There were two new issues of revenue bonds for fiscal year 2016, both of them to refund prior issues. The Department of Cultural Affairs, through the New Mexico Finance Authority (NMFA) and with the assistance of the General Services Department, issued Series 2016A State Building Revenue Bonds in the amount of \$2,789 in order to refund the previously issued Series 2003 State Museum Tax Revenue Bonds. This resulted in a gain of \$300. The purpose of the original bonds was to renovate structures and exhibits at state museums and monuments. The new bonds carry a coupon rate ranging from 0.46% to 1.42% and mature in 2023.

The State General Services Department also issued Series 2016B State Building Refunding Bonds though NMFA in order to refund previously issued Senior Lien Revenue Bonds series 2006D, resulting in a gain of \$5,300. The new bonds, in the amount of \$37,320, have a coupon rate of 1.90% to 4.90%. The purpose of the original bonds was to acquire and construct state facilities.

Business-type Activities

The University of New Mexico issued Series 2016A System Refunding Revenue Bonds for the purposes of refunding certain maturities of the University's Series 2007A Bonds and to acquire and erect other University facilities. This refunding resulted in an economic gain of \$21,100. The new bonds carry a coupon rate of 2.00% to 5.00% and mature in 2046.

The University also issued Series 2016B System Refunding Revenue Bonds for the purpose of refunding certain maturities of the University's Series 2007A Bonds, resulting in an economic gain of \$935.7 thousand. The new bonds have a coupon rate of 0.72% to 2.48% with a final maturity in 2024.

The University also refinanced two loans payable to the NMFA, previously used to finance parts of the University Health Sciences Center, with a new loan in the amount of \$26.2 million. This resulted in a gain of \$4.0 million. The new loan, payable in installments, carries a coupon rate of 1.90% to 4.90% and matures in 2025. This loan is secured by a pledge of cigarette excise tax revenue which is intercepted and sent directly to NMFA.

Of the total revenue bonds and loans in the business-type activities, \$113,188 are payable to the NMFA, reported as *Due to Component Unit*. The list of revenue bonds and loans payable for business-type activities is as follows:

E. Pledged Revenue

The following listing provides more details on the types of revenue pledged for the various revenue bonds outstanding:

Governmental Activities

<i>Agency:</i>	<i>State of New Mexico - Severance Tax Bonds</i>
Purpose of Bonds:	Construction and acquisition of capital projects statewide
Total Amount of Bonds Issued:	\$1.6 billion
Type of Revenues Pledged:	Severance tax revenues
Term of Commitment:	Through June 30, 2027
Total Debt Service Remaining:	\$1.1 billion
Revenue Stream for Current Year:	\$279.8 million
Debt Service for Current Year:	\$133.6 million
<i>Agency:</i>	<i>Energy, Minerals, and Natural Resources Department</i>
Purpose of Bonds:	Acquisition and development of state parks and recreation areas
Total Amount of Bonds Issued:	\$30.4 million
Type of Revenues Pledged:	Department's share of governmental gross receipts tax revenue
Term of Commitment:	Through June 30, 2023
Total Debt Service Remaining:	\$6.4 million
Revenue Stream for Current Year:	\$9.0 million
Debt Service for Current Year:	\$2.3 million
<i>Agency:</i>	<i>Department of Transportation</i>
Purpose of Bonds:	Construct and improve State highway and transportation system
Total Amount of Bonds Issued:	\$1.7 billion
Type of Revenues Pledged:	Gasoline excise taxes, motor vehicle registration and other fees deposited into State Road Fund, plus Federal Highway Fund revenues
Term of Commitment:	Through June 30, 2033
Total Debt Service Remaining:	\$1.7 billion
Revenue Stream for Current Year:	\$791 million
Debt Service for Current Year:	\$132 million
<i>Agency:</i>	<i>Department of Cultural Affairs</i>
Purpose of Bonds & Loan:	Renovate existing museum structures, develop permanent exhibits
Total Amount of Debt Issued:	\$5.8 million (loans)
Type of Revenues Pledged:	Department's share of governmental gross receipts tax revenue
Total Debt Service Remaining:	\$4.6 million
Term of Commitment:	Through June 30, 2026
Revenue Stream for Current Year:	\$821 thousand
Debt Service for Current Year:	\$676 thousand
<i>Agency:</i>	<i>Spaceport Authority</i>
Purpose of Bonds	Construction of the Spaceport America launch facility
Total Amount of Debt Issued:	\$61.7 million
Type of Revenues Pledged:	Authority's share of governmental gross receipts tax revenue
Total Debt Service Remaining:	\$81.0 million
Term of Commitment:	Through June 30, 2029
Revenue Stream for Current Year:	\$6.6 million
Debt Service for Current Year:	\$5.6 million

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Governmental Activities (Continued)

<i>Agency:</i>	<i>Administrative Office of the Courts</i>
Purpose of Bonds	Court equipment
Total Amount of Debt Issued:	\$30.7 million
Type of Revenues Pledged:	Court facilities fees
Total Debt Service Remaining:	\$35.4 million
Term of Commitment:	Through June 30, 2025
Revenue Stream for Current Year:	\$4.5 million
Debt Service for Current Year:	\$3.9 million

<i>Agency:</i>	<i>General Services Division</i>
Purpose of Bonds	State facilities
Total Amount of Debt Issued:	\$80.7 million
Type of Revenues Pledged:	Government gross receipts tax
Total Debt Service Remaining:	\$113.0 million
Term of Commitment:	Through June 30, 2039
Revenue Stream for Current Year:	\$3.1 million
Debt Service for Current Year:	\$2.9 million

Business-type Activities

<i>Agency:</i>	<i>Miners' Colfax Medical Center</i>
Purpose of Bonds:	Improvement and expansion of medical facilities
Total Amount of Bonds Issued:	\$14.6 million
Type of Revenues Pledged:	Center's share of distributions from the State Land Grant and the Charitable, Penal, and Reform Permanent Funds
Total Debt Service Remaining:	\$13.9 million
Term of Commitment:	Through June 30, 2027
Revenue Stream for Current Year:	\$5.9 million
Debt Service for Current Year:	\$1.3 million

<i>Agency:</i>	<i>Educational Institutions (UNM, NMSU, ENMU, WNMU, NMMI, NMHU, NM Tech)</i>
Purpose of Bonds:	Construction and improvement of various capital facilities
Total Amount of Bonds Issued:	\$1.1 billion
Type of Revenues Pledged:	Substantially all unrestricted revenues, including Permanent Fund distributions, student fees, and income from revenue-producing facilities but excluding state appropriations and income from clinical operations.
Total Debt Service Remaining:	\$1.0 billion
Term of Commitment:	Through June 30, 2046
Revenue Stream for Current Year:	\$650.3 million
Debt Service for Current Year:	\$66.5 million

<i>Agency:</i>	<i>University of New Mexico</i>
Purpose of Loans:	Health Sciences Center, Law Library, Green Water Project
Total Amount of Debt Issued:	\$28.6 million
Type of Revenues Pledged:	Cigarette excise tax
Total Debt Service Remaining:	\$32.6 million
Term of Commitment:	Through June 15, 2032
Revenue Stream for Current Year:	\$4.5 million
Debt Service for Current Year:	\$4.1 million

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Other Liabilities

▪ Compensated Absences

Compensated absences of governmental activities are liquidated in the General Fund. Claims liabilities of governmental activities are liquidated in the Internal Service Fund. Compensated absences of business-type activities are liquidated in the respective fund of obligation. The State has restated the beginning balances of compensated absences for governmental and business-type activities due to a prior year computational error.

▪ Pollution Remediation Obligation

The State is responsible for environmental management to reasonably protect human health and the environment in accordance with the Environmental Improvement Act, Chapter 74-1-1, NMSA 1978 (Act). Governmental Accounting Standards Board Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations* (GASB 49) provides guidance in estimating and reporting the potential costs of pollution remediation.

The following details the nature of the identified sites:

Leaking Petroleum Storage Tanks (LPST)

The State oversees cleanups of LPST sites and reimburses eligible parties from the PST corrective action fund, which has paid for the vast majority of LPST cleanups. However, for Priority 1 State Lead sites, in which there is an imminent danger to the public health or environment, the State has obligated itself to begin remediation clean-up activities as a result of an unwilling or unable property owner in the amount of \$676,455 as of June 30, 2016.

Superfund

The Superfund Oversight Section of the State assists the United States Environmental Protection Agency (EPA) in characterization of inactive hazardous waste sites; identifies sites which warrant remedial or removal action under Superfund (CERCLA); and oversees remedial activities and provides management assistance to EPA at Superfund sites listed on the National Priorities List (NPL). There are currently 16 listed Superfund sites and 4 deleted sites in New Mexico which are in various stages of investigation and remediation. As of June 30, 2016, the estimated pollution remediation liability for Superfund sites totals \$43,601,769.

The total pollution remediation liability for both the LPST and Superfund sites are as follows:

	Balance <u>June 30, 2015</u>	<u>Additions</u>	<u>Deletions</u>	Balance <u>June 30, 2016</u>
Amount Due Within One Year	\$ 563,164	\$ 165,050	\$ (185,682)	\$ 542,532
Amount Due in More than One Year	48,434,948	(4,699,265)	-	43,735,692
Total Pollution Remediation Liabilities	<u>\$ 48,998,112</u>	<u>\$ (4,534,215)</u>	<u>\$ (185,682)</u>	<u>\$ 44,278,224</u>

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

▪ Indian Water Rights Liability

New Mexico currently has three Indian water rights settlements pending implementation: the Navajo Nation Settlement in the San Juan River adjudication, the Settlement Agreement with the Pueblos of Nambe, Pojoaque, Tesuque, and San Ildefonso in the Aamodt adjudication, and the Taos Pueblo Settlement in the Rio Pueblo de Taos/Rio Hondo adjudication. For each of these three settlements, a settlement agreement was executed in 2005 or 2006 by the tribe or Pueblos and the State of New Mexico. The Aamodt and Taos Pueblo settlement agreements also were executed by other water right owning parties.

Each of the agreements involves a contribution from the State of New Mexico in the form of construction of infrastructure. The value of infrastructure and mutual benefits projects contemplated in the three settlements are estimated at more than \$1.6 billion as of June 30, 2016. The State will not own the infrastructure once completed; the infrastructure and projects will be owned by tribal and local governments. Total settlement costs anticipated to date by settlement agreement are as follows:

Aamodt	\$	205,630
Taos		144,000
Navajo		1,255,383
Total estimated costs	\$	<u>1,605,013</u>

The State of New Mexico will receive a credit towards its cost share of about \$28.8 million. A portion of the State's share includes \$10 million on non-mandatory expenditures for ditch rehabilitation under the Navajo Settlement.

As of the fiscal year ended June 30, 2016, the State expended \$41.8 million of the total of \$47.7 million in state funding received to-date restricted for the Indian Water Rights Settlement agreements, with \$5.9 million unexpended as of June 30, 2016. Detail of activity for this long-term liability for the year ended June 30, 2016 is as follows:

<u>2015</u>	<u>Additions</u>	<u>Deletions</u>	<u>Adjustments</u>	<u>2016</u>
\$ 79,161,052	-	(12,435,806)	(4,625,411)	\$ 62,099,835

Actual amounts recorded may require future adjustments that could increase or decrease the liability due to the on-going nature of the settlement negotiations and the credit provisions in the settlements. Due to the fact that negotiations related to the timing of the payments are still continuing among the affected parties, the State is unable to estimate the amount due for these settlements for future years. Likewise, interest expense related to these settlements cannot be imputed at this time.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

F. Short-term Debt

The State issues one to three-day sponge bonds in order to utilize available cash proceeds more effectively. The following were issued and paid during the year ended June 30, 2016:

	<u>Beginning Balance</u>	<u>Issued</u>	<u>Redeemed</u>	<u>Ending Balance</u>
Sponge Bonds	\$ -	\$ 135,903,896	\$ (135,903,896)	\$ -

G. New Mexico Department of Transportation – Refunding of Variable Rate Bonds

▪ Derivative Instruments

At the time of the 2004 bond issuance, NMFA, on behalf of the Department, entered into interest rate exchange agreements (“swaps”) with respect to both the adjustable rate bonds then issued and the adjustable rate bonds anticipated to be issued in 2006. All of the 2004 adjustable rate bonds were hedged at issuance with immediately starting swaps and approximately one-half of the anticipated total 2006 issuance was hedged with forward-starting swaps that became effective in 2006.

In all of the swaps, NMFA receives a variable-interest rate payment based on an index, and makes a fixed-rate interest payment. This arrangement has the effect of converting the variable rate bonds to “synthetic fixed-rate issues.”

NMFA has entered into the swaps as an agent for the Department and the State, and no amounts with respect to the swap transactions appear in NMFA’s financial statements. These swap agreements remained in effect following the 2008 refunding and reissuance of the 2004 and 2006 adjustable rate bonds as Variable Rate Demand Notes (the 2008 A through D series).

▪ Objectives of the Swaps

The objective in entering into the swap agreements was to obtain a lower interest cost for the 2004 bonds than could have been obtained at the time had they been issued as fixed-rate bonds. With respect to the planned 2006 issuance, NMFA believed in 2004 that it would be desirable to “lock in” a synthetic fixed rate of 5.0 percent or less for a portion of the bonds anticipated to be issued in 2006.

Significant terms of the swaps follow. No cash was paid or received at the initiation of any of the swaps.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

▪ Fair Value

The estimated fair value of the swaps at June 30, 2016, was as follows (in thousands):

	<u>Notional Value</u>	<u>Fair Value</u>
Goldman Sachs	\$ 50,000	\$ (11,615)
Deutsche	50,000	(11,615)
Royal Bank of Canada	100,000	(23,230)
JPMorgan Chase Bank	110,000	(36,277)
UBS AG	110,000	(36,277)
	<u>\$ 420,000</u>	<u>\$ (119,015)</u>

The updated fair value of the swaps and collateral posting as of November 22, 2016 was as follows:

	<u>Notional Value</u>	<u>Fair Value</u>
Goldman Sachs	\$ 50,000	\$ (9,927)
Deutsche	50,000	(9,927)
Royal Bank of Canada	100,000	(19,855)
JPMorgan Chase Bank	110,000	(30,475)
UBS AG	110,000	(30,475)
	<u>\$ 420,000</u>	<u>\$ (100,659)</u>

Effective Date	December 15, 2006	December 15, 2006
Termination Date	December 15, 2026	December 15, 2026

*The Fair Value is the estimated amount that would have been received by or paid if the agreements had been terminated at June 30, 2016, under the terms of the agreement. This value is the net present value of the receipts and payments anticipated to be made pursuant to the agreements. The net present values are calculated based on discount rates indicated by actual swap transactions that occurred on or around June 30, 2016. Negative amounts indicate payments that would have been made to the counterparties.

The SWAPs Fair Value are disclosed as a liability for the year ended June 30, 2016 in the amount of \$119.0 million. Management evaluated the effectiveness of the SWAP agreements and found Goldman Sachs, Deutsche and Royal Bank of Canada to be ineffective in the prior year. As a result, the change in Fair Value of the ineffective SWAPs are reported as an expense in the amount of \$7,399,432. The remaining effective SWAPs are deemed a hedge and reported as a deferred outflow of resources in the amount of \$72.6 million which consists of the JP Morgan Chase Bank and UBS AG SWAP agreements.

▪ **Associated Debt** (in thousands):

<u>Variable Rate Debt*</u>	<u>Original Issue</u>	<u>2016 Debt Service</u>		<u>Net Swap Payments Made (Rec'd.)</u>	<u>Total Net Interest Paid</u>	<u>Effective Interest Rate</u>

Series 2008 B	220,000	-	11,158	64	11,222	5.101%

*The interest and swap payments for these bonds include the payments for the Series 2004 and 2006 Bonds that the Series 2008 Bonds replaced.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

The interest includes amounts paid with the fiscal year without regard to the costs associated with the SWAP Collateral (Taxable) Line of Credit.

▪ Risks

Credit Risk

Credit risk is the possibility that a counterparty will not fulfill its obligations.

The credit ratings of the counterparties, at June 30, 2016, were:

<u>Counterparty</u>	<u>Moody's</u>	<u>S&P</u>	<u>Fitch</u>
Goldman Sachs	Aa2	AA-	N/A
Deutsche	A3	BBB+	A-
Royal Bank of Canada	Aa3	AA-	AA
JP Morgan Chase Bank	Aa3	A+	AA-
UBS AG	A2	A	A

Presently, the Department of Transportation has no exposure to loss with respect to the counterparties, as the termination values of the swaps are negative. That is, no amounts would be owed to the Department if any swaps were terminated at present. Each swap agreement contains provisions requiring the posting of collateral in the event that termination values exceed certain amounts. Termination values currently exceeded these limits, and, accordingly, collateral was posted for \$9.9 million at UBS, \$9.6 million at JPM, and \$4.9 million at RBC as of June 30, 2016. The swap agreements permit the netting of amounts owed between the Department and a counterparty, mitigating, to some extent, the level of credit risk. The Department believes it has an adequate degree of diversification with regard to counterparties.

Swap Collateral Requirement – Taxable Line of Credit

Negative balances at the end of the fiscal year were such that collateral needed to be posted. For that purpose, a short-term Taxable Line of Credit was established. There was \$14.0 million outstanding on the line of credit at the end of the fiscal year, with no beginning balance, \$16.0 million borrowed and \$2.0 million repaid during the year. In addition, during the year there was a line of credit that did not have a balance at the end of the fiscal year, a beginning balance of \$10.5 million, \$8.0 million borrowed and \$18.5 million repaid during the fiscal year.

Interest Rate Risk

The knockout option in the 2006 swaps leaves the State open to interest rate risk. If the Securities Industry and Financial Markets Association (SIFMA) municipal swap index averages above 7.0 percent for 180 consecutive days, then, as provided by the terms of the knockout option, swap agreements could be cancelled by the counterparties and the State would have outstanding unhedged variable rate debt in a 7.0 percent interest rate environment.

Basis Risk

Basis risk is the possibility that the variable rate paid on the bonds may not be adequately offset by the variable index payment received under the swap agreement. The Department has little or no such risk with respect to the 2006 bonds as the 2006 swaps pay a variable rate equal to the SIFMA Municipal Swap index which has very

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

closely approximated, historically, to the rates paid on variable rate municipal debt. The Department has basis risk, however, with respect to the 2004 swaps. The variable rate the Department receives with respect to the 2004 swaps is 68% of one-month LIBOR. While this rate has closely tracked the SIFMA Municipal Swap Index for a long period of time, there has recently been some divergence between the two indices. There is no guarantee that the two indices will remain as closely correlated in the future as they were in the past. There is a possibility, therefore, of a mismatch between actual variable rate bond debt service payments and the variable rate receipts under the 2004 swap agreements, resulting in a failure to achieve the synthetic fixed rate expected when the swaps initiated.

One event that would cause a divergence between the indices would be a significant change in U.S. income tax rates. This might result in 68% of LIBOR no longer approximating the tax-exempt rate set by the market for the Department's variable rate debt.

Termination Risk

The unplanned termination of one or more of the swaps exposes the Department to the possibility that the synthetic fixed rate expected to be obtained on the variable rate debt will not, in fact, be achieved. The swap agreements contain the standard ISDA provisions for termination, including events such as bankruptcy, ratings downgrades, and failure to post collateral when required. In addition, the Department, but not the counterparties, can terminate the swaps at any time with 30-day notice.

H. University of New Mexico

▪ **Standby Purchase Agreements**

Standby Purchase Agreements provide liquidity support on variable rate bonds that are remarketed weekly. The liquidity/commitment fees are based on a percentage of the outstanding bond balance, payable semiannually. The provider is US Bank. Liquidity fees for the year ended June 30, 2016, were \$239,731.

A schedule including maturities and fees is as follows (in thousands):

	US Bank			
Liquidity Expiration	Series 2001	Series 2002B	Series 2002C	Grand Total
12/29/2017	\$ 28,755	\$ 17,450	\$ 32,460	\$ 78,665
Liquidity Fees

▪ Interest Rate Swap Agreements

On June 30, 2016, UNM had the following derivative instruments outstanding (in thousands):

Item/ Counter-Party	Type	Objective	Current Notional Amount	Effective Date	Maturity Date	Terms	Fair Value
Hedging-type:							
A - JP Morgan	Pay-Fixed/Receive Variable Interest Rate Swap	Hedge against rising SIFMA rates related to the 2001 System Improvement Revenue Bonds (Underlying Swap)	\$ 7,188	10/30/2002	6/1/2026	Receive SIFMA USD - Pay 4.2% Fixed	\$ (1,339)
B - JP Morgan	Pay-Fixed/Receive Variable Interest Rate Swap	Hedge against rising SIFMA rates related to the 2002C Refunding Revenue Bonds (Underlying Swap)	32,460	10/30/2002	6/1/2030	Receive SIFMA USD - Pay 3.9% Fixed	(7,564)
C - JP Morgan	Pay-Fixed/Receive Variable Interest Rate Swap	Hedge against rising SIFMA rates related to the 2002B Refunding Revenue Bonds (Underlying Swap)	17,450	1/14/2003	6/1/2026	Receive SIFMA USD - Pay 3.8% Fixed	(3,098)
D - RBC Royal Bank	Pay-Fixed/Receive Variable Interest Rate Swap	Hedge against rising SIFMA rates related to the 2001 System Improvement	7,189	10/30/2002	6/1/2026	Receive SIFMA USD - Pay 4.2% Fixed	(1,349)
Investment-type:							
E - JP Morgan	Pay-Variable/Receive Variable Interest Rate Swap	Hedge against falling SIFMA rates related to the 2001 System Improvement Revenue Bonds (Overlay Swap)	14,378	8/15/2006	6/1/2026	Receive 63.6% of 5 year LIBOR swap rate + 0.3% - Pay SIFMA	384
F - JP Morgan	Pay-Variable/Receive Variable Interest Rate Swap	Hedge against falling SIFMA rates related to the 2002C Refunding Revenue Bonds (Overlay Swap)	32,460	8/15/2006	6/1/2030	Receive 63.9% of 5 year LIBOR swap rate + 0.3% - Pay SIFMA	1,208

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

▪ Risks

Credit Risk

Each of UNM's derivative instruments is held with the same counterparty except for Derivative Instrument D. Deterioration of credit ratings could indicate a potential inability of the counterparty to make the required periodic payments. The credit ratings for each of the counterparties are as follows:

<u>Entity</u>	<u>Moody's</u>		<u>S & P</u>		<u>Fitch</u>	
	<u>L/T Rating</u>	<u>S/T Rating</u>	<u>L/T Rating</u>	<u>S/T Rating</u>	<u>L/T Rating</u>	<u>S/T Rating</u>
JP Morgan	Aa3	P-1	A+	A1	AA-	F1+
PBC Royal Bank	Aa3	P-1	AA-	A1+	AA	F1+

Interest Rate Risk

UNM is exposed to interest rate risk on its receive-variable, pay-fixed underlying interest rate swaps. As the Securities Industry and Financial Markets Association (SIFMA) swap index decreases, the University's net payment on the underlying swaps increases. Alternatively, on its pay-variable (SIFMA), receive-variable (LIBOR) overlay interest rate swaps, as LIBOR and the SIFMA swap index increases, the University's net payment on the overlay swaps increases.

Basis Risk

The variable-rate debt hedged by UNM's derivative instruments are variable-rate demand obligation (VRDO) bonds that are remarketed every seven days. The University is exposed to basis risk on its pay-variable (SIFMA), receive-variable (LIBOR) overlay interest rate swaps, because the variable-rate payments received by the University on these derivative instruments are based on a rate (LIBOR) other than the index (SIFMA) the University pays on the VRDO bonds. At June 30, 2016, the interest rate on the University's variable-rate hedged debt (SIFMA) is 0.41%, while the 63.55% of five year LIBOR + 0.31% is 0.8325%.

Termination Risk

UNM or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. In addition, UNM is exposed to termination risk on Derivative Instruments B and C because the contract provides the counterparty with a knockout option to terminate the contract if the 180-day SIFMA is equal to or greater than 7.0 percent. The 180-day SIFMA is defined as the weighted average rate taken off the USD floating SIFMA Index Rates published within the previous 180-day period. If at the time of termination, a derivative instrument were in a liability position, UNM would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

Rollover Risk

UNM is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the debt. When these derivative instruments terminate, or in the case of a termination option, if the counterparty exercises its option, UNM will be re-exposed to the risks being hedged by the derivative instrument. Derivative Instruments B and C expose UNM to rollover risk because the counterparty has the option to terminate the contract by exercising a knockout option.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Foreign Currency Risk

UNM has no exposure to foreign currency risk from its derivative instruments.

▪ **Commitments**

All of UNM's derivative instruments include provisions that require UNM to post collateral in the event its credit rating falls below certain levels. UNM has entered into a two-way Credit Support Annex (CSA) with the swap counterparties, which is based on each party's long-term unsecured unsubordinated debt rating. The following matrix dictates the potential collateral postings if the swaps mark-to-market values are above the mandated thresholds (in thousands):

Rating	Swap MTM Threshold for Party's A & B	
AA/Aa2 and >	USD	\$ 25,000
AA-/Aa3	USD	\$ 20,000
A+/A1	USD	\$ 15,000
A/A2	USD	\$ 10,000
A-/A3	USD	\$ 5,000
BBB+/Baa1 and <	USD	\$ -

The collateral to be posted is to be in the form of U.S. Treasury securities in the amount of the fair value of derivative instruments in liability positions net of the effect of applicable netting arrangements. If UNM or the counterparty does not post collateral, the derivative instrument may be terminated. UNM's credit rating is AA/Aa2 at June 30, 2016; therefore, no collateral has been posted.

▪ **Derivative Instrument Payments and Hedged Debt**

As of June 30, 2016, aggregate debt service requirements of UNM's debt (fixed-rate and variable-rate) and net receipts/payments on associated hedging derivative instruments are presented below. These amounts assume that current interest rates on variable-rate bonds and current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the hedging derivative instruments will vary. The hedging derivative instruments column reflects only net receipts/payments on derivative instruments that qualify for hedge accounting (in thousands).

▪ Fiscal Year Changes in Swap Valuations

UNM has entered into interest rate swaps as shown in the prior schedule. The swaps were put in place starting in fiscal years 2002 and 2003. The University has recorded the swaps at their estimated fair values as of June 30, 2016. Swaps A through D are deemed cash flow hedges, and therefore, in addition to recording the liability at fair value, the University has recorded an offsetting deferred outflow of resources. Annually, the changes to the fair values are recorded as an increase or decrease to the liability and the offset to the deferred outflow of resources. The fair value change in fiscal year 2016 for the hedge instruments was a \$2,198,619 increase to the liability and an equal offsetting increase to the deferred outflow of resources. Swaps E and F are not cash flow hedges, but rather are considered investment swaps, and changes in their fair value are recorded as investment gain (loss). The fair value change for swaps E and F as of June 30, 2016 was recorded to unrealized losses in the amount of \$523,646.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2013

NOTES TO THE FINANCIAL STATEMENTS – NOTE 9

NOTE 9. Net Position and Fund Equity

A. Governmental Fund Balances

Fund balances of governmental funds are classified as:

- Non-spendable – amounts that cannot be spent because they are not in a spendable form (not expected to be converted to cash) or are legally required to be intact. Examples include inventories and permanent fund principal.
- Restricted – amounts where legally enforceable constraints are imposed by an external party such as a grantor, by the State Legislature, or by the constitution at the same time the revenue is created.
- Committed – amounts where constraints are imposed by formal action of the government’s highest level of decision-making authority, the State Legislature or the Governor, which cannot be used for any other purpose unless the constraint is changed by similar action. These constraints are imposed separately from the creation of the revenue.
- Assigned – amounts where constraints are imposed on the use of resources through the intent made by any level of decision-making authority in the government if the governing body has expressly delegated that authority to the official or to a committee.
- Unassigned – the residual amount after all classifications have been considered. The General Fund is the only fund that reports a positive unassigned fund balance.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 9 (CONTINUED)

B. Deficit Net Position/ Fund Equity

Governmental Activities

The net position of the Risk Management Internal Service Fund reported a deficit as a result of actuarially-recognized claims. This deficit put the entire Internal Service Fund into a deficit net position.

C. Net Position/Fund Balance Restatements -

1. Correction of Errors

During the fiscal year ended June 30, 2016, the State determined that several errors in accounting and reporting had been made in the prior fiscal year. The effect of the correction of those errors together with the adoption of the new accounting principle on beginning net position and governmental fund balances follows (in thousands):

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 10

NOTE 10. Leases

Operating Leases

The State leases building and office facilities and other equipment under operating leases. Although the lease terms vary, most leases are subject to annual appropriations from the State Legislature to continue the lease obligation. If an appropriation is reasonably assured, leases are considered non-cancellable for financial reporting purposes.

Operating leases contain various renewal options, as well as some purchase options; however, due to the nature of the leases, they do not qualify as capital leases and the related assets and liabilities are not recorded. Operating lease payments are recorded as expenditures or expenses when paid or incurred. Commitments under operating leases are as follows:

	<u>Governmental</u>	<u>Business-type</u>	<u>Fiduciary</u>
2017	\$ 57,362	\$ 9,556	\$ 131
2018	52,527	6,933	125
2019	35,044	6,200	123
2020	29,653	3,831	115
2021	25,592	1,826	28
2022 - 2026	35,777	10,114	-
2027 - 2031	10,820	4,724	-
2032 - 2036	1,238	4,071	-
2032 & Thereafter	62,655	161	-
	<u>\$ 310,668</u>	<u>\$ 47,416</u>	<u>\$ 522</u>

Operating lease expenditures/expenses for fiscal year 2016 for governmental activities, business-type activities, and fiduciary activities, respectively were \$71,662, \$10,927 and \$183.

Capital Leases

The State is obligated under lease purchase contracts. In the opinion of counsel for the State, these lease purchase contracts comply with the State Supreme Court *Montano vs. Gabaldon* decision, in that payments for these will be made from Special Revenue Funds and not from general tax revenue.

Leases, that in substance are purchases, are reported as capital lease obligations. In the government-wide financial statements and proprietary fund financial statements, assets and liabilities resulting from capital leases are recorded at the inception of the lease at either the lower of fair value or the present value of future minimum lease payments. The principal portion of lease payments reduces the liability, and the interest portion is expensed. On the governmental fund financial statements, both the principal and interest portions of capital lease payments are recorded as expenditures of the applicable governmental function.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 10 (CONTINUED)

The future minimum lease payments for the capital leases are as follows (in thousands):

	<u>Governmental</u>	<u>Business-type</u>
2017	\$ 4,047	\$ 613
2018	4,049	505
2019	4,047	234
2020	4,047	15
2021	4,051	5
2022-2026	20,244	-
2027-2031	20,250	-
2032-2036	20,243	-
2037-2041	8,094	-
Total Lease Payments	89,072	1,372
Less Amounts Representing Interest	(36,029)	(65)
Present Value of Future Minimum Lease Payments	<u>\$ 53,043</u>	<u>\$ 1,307</u>

As of June 30, 2016, the historical cost of the primary government's assets acquired through capital leases was \$53,045 for governmental activities, a building, and \$2,317 for business-type activities, consisting of equipment.

Lessor Revenue

The State is also the lessor of office space. Amounts to be received in future years are as follows:

	<u>Governmental</u>		<u>Business-type</u>
2017	\$ 1,164	2017	\$ 6,445
2018	2,281	2018	4,784
2019	3,375	2019	4,187
2020	3,364	2020	4,222
2021	3,351	2021	4,144
2022 & Thereafter	38,005	2022 - 2026	5,044
	<u>\$ 51,540</u>	2027 - 2031	4,791
		2032 - 2036	4,791
		2037 - 2041	4,791
		2042 & Thereafter	11,718
			<u>\$ 54,917</u>

The historical cost for the assets which are leased is \$129.7 million for governmental activities (mostly for use of hangar and runway facilities at the Spaceport) and \$145 million for business-type activities.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 11

NOTE 11. Risk Management

The State of New Mexico manages its risks internally and sets aside assets for claim settlement through its Internal Service Fund (ISF). Coverage is provided for the following:

- Workers' Compensation
- Civil Rights and Foreign Jurisdiction
- Aircraft
- Money and Securities
- Health/Life
- General Liability
- Automobile
- Property
- Employee Fidelity Bond
- Short-term & Long-term Disability

Coverage includes all entities of the State, including the educational institutions reported in the enterprise fund. The Internal Service Fund services all claims for risk of loss to which the State is exposed, including general liability, property and casualty, workers' compensation, employee health and accident, and unemployment compensation. ISF has reinsurance for liability and civil rights claims in the amounts of \$1,050,000 each. The ISF has a tort claim cap of \$1,050,000. Civil rights claims may exceed this amount and the ISF has reinsurance from \$5,000,000 to \$10,000,000. The ISF would then be liable for the amount remaining above \$10,000,000. All funds, agencies, and authorities of the State participate in ISF. ISF allocates the cost of providing claims servicing and claims payment by charging a premium to each fund, agency, or public authority based on claims history and exposure of each participant. The charge considers recent trends in actual claims experience of the State as a whole and makes provision for catastrophe losses.

ISF fund liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated annually to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Total insurance claims payable at June 30, 2016, were \$195,471,063. The amounts of the liabilities are determined by independent actuarial consultants to the ISF. The total liability is shown in the accompanying financial statements at the present value of the payments, computed at 2.0 percent annual rate, except for long-term disability liability, which is computed at 2.0 percent annual rate, between June 30, 2016 and the date the claims are ultimately expected to be paid.

Insurance claims payable presented are actuarial computed estimates of the costs of administering, defending, and settling claims for events that had occurred as of the year-end. Since these estimates are based on historical information and various statistical measures, actual amounts paid may vary significantly from the amount estimated by the fund

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 11 (CONTINUED)

actuaries and reported herein. The basis of estimating the liabilities for unpaid claims is found in the independent actuarial report.

The following shows the reconciliation of changes in the unpaid claims in the ISF, which are stated at present value (in thousands):

	Balance	Incurred (Net		Balance
	June 30, 2015	of Actuarial	Payments	June 30, 2016

Total	\$ 212,675	\$ 320,945	\$ (330,136)	\$ 203,484

It is possible that other claims against ISF may exist, but have not been asserted.

The remainder of this page has been left blank.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12

NOTE 12. Pension Plans

A. New Accounting Standard

The State adopted *GASB Statement No. 68, Financial Reporting for Pension Plans* effective July 1, 2014. This statement revises existing guidance for the financial reporting of pension plans. Among other things, the statement requires that pension plans report in the Notes to the Financial Statements the total pension liability, the plan's fiduciary net position, the net pension liability, and the percentage of fiduciary net position to total pension liability. Plans must disclose the significant assumptions used to measure the total pension liability, must use a more standardized discount rate, and must present the net pension liability using a discount rate one percentage point higher and lower than that used. These requirements, and others contained in the statement, should enable readers of the financial statements to better understand the costs and benefits of the retirement plans.

B. Plan Descriptions

The State maintains five public employees' retirement systems (Systems): Four separate systems are administered by the New Mexico Public Employees' Retirement Association (PERA) and one system is administered by the New Mexico Educational Employees' Retirement Board (ERB).

PERA is the administrator of the Public Employees Retirement System (PERS), the Judicial Retirement System (JRS), the Magistrate Retirement System (MRS), and the Volunteer Firefighter Retirement System (VFRS). ERB is the administrator of the Educational Employees Retirement System (EERS). Collectively, the Systems offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators. The laws governing the administration of the Systems are set forth in Chapter 10, NMSA 1978, and applicable Replacement Pamphlets.

PERA is directed by the Public Employees Retirement Board (Board), which consists of twelve members. Ten of the Board members are elected by PERA active and retired members under state and municipal coverage plans. Two Board members, the Secretary of State and the State Treasurer, are ex-officio members.

PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERA, 33 Plaza La Prensa, Santa Fe, NM 87507.

ERB is directed by the Educational Retirement Board, composed of seven members. Board members include:

- Secretary of Public Education, who is appointed by the Governor;
- State Treasurer;
- One member elected by the membership of the NM Association of Educational Retirees;
- One member elected by the membership of the National Education Association of New Mexico;
- One member elected by the membership of the American Association of University Professors;
- Two members appointed by the Governor

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

The ERB issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to ERB, PO Box 26129, Santa Fe, New Mexico 87502.

The number of participating government employers, and the number of members for each system for the year ended June 30, 2016, were (not in thousands):

Active Plan Members	49,294	127	60	8,136	60,057

* Note: PERA Retirement Fund includes the Legislative Fund

C. Funding and Benefit Policies

Public Employees Retirement System (PERS) – This plan is a cost sharing, multiple - employer defined benefit pension plan with six divisions of members: State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10-11-3, NMSA 1978.) Except as provided for in the Volunteer Firefighter Retirement Act (Chapters 10-11A-1 to 10-11A-7, NMSA 1978), the Judicial retirement Act (Chapters 10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (Chapters 10-12C-1 to 10-12C-18, NMSA 1978), the Educational Retirement Act (Chapter 22-11, NMSA 1978), and the provisions of Chapters 29-4-1 through 29-4-11, NMSA 1978, governing the State Police

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for Tier I members (as defined later in these notes). Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of normal retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2.0 percent to 3.5 percent of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60.0 percent to 90.0 percent of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

For Tier II, the retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (applicable to those hired after July 1, 2013 – Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credits equals at least 85, or at 67 with eight or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4, and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers, and municipal juvenile detention officers will remain in 25-year retirement plans; however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II, pension factors were reduced by 0.5 %, employee contributions increased 1.5%, and effective July 1, 2014, employer contributions were raised 0.05%. The computation of final average salary increased as the average of salary for 60 consecutive months.

Contribution rates for members vary depending on the plan under PERS. Employee contribution rates range from 4.78 % to 18.15% of annual salary, and employer rates range from 7.0% to 25.72%. Generally, Tier I regular state members contribute 7.42% to 8.92%, while employers contribute 16.59%.

State Legislative Fund – This plan is a defined benefit pension plan which is accounted for in PERS. State Legislators and lieutenant governors must elect to be a member no later than 180 days after first taking office to be covered under this plan. Member contributions are \$500 for each year of service credit prior to the 2012 legislative session and \$600 for each year beginning with the 2012 legislative session. The State is required to contribute sufficient amounts to finance the membership of members under state legislator coverage plan 2 on an actuarial reserve basis. The total actuarially determined amount for the State Legislative Fund for the fiscal year ended June 30, 2015 was \$0. Regarding the source of funding, Section 7 -1-6.43 of the Tax Administration Act states “A distribution pursuant to Section 7-1-6.1 NMSA 1978 shall be made to the legislative retirement fund in an amount equal to two hundred thousand dollars (\$200,000) a month or, if larger, one-twelfth of the amount necessary to pay out the retirement benefits due under state legislator member coverage plan 2 and Paragraph (2) of Subsection C of Section 10-11-42 NMSA 1978 for the calendar year.” During the State of New Mexico (52nd Legislature) Second Special Session in

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

2016, Senate Bill 6 was passed that reduced the State's distribution to the legislative retirement fund from \$200,000 a month to \$75,000 a month. As of October 19, 2016, \$900,000 will be the annual amount distributed by the State to the legislative fund.

Age and service requirements for retirement are age 65 or older with 5 or more years of service credit or any age with 10 or more years of service credit. Legislative members who meet retirement eligibility requirements receive annual pensions equal in any calendar year to 11% of the per diem rate in effect on the first day of the calendar year that the member retires multiplied by 60 and further multiplied by credited service. The per diem rate for January 1, 2014 was \$159. The per diem rate starting January 1, 2015 changed to \$165.

Judicial Retirement Fund – This plan is a single employer defined benefit pension plan. Eligibility for membership in the Judicial Retirement Fund is set forth in Chapter 10-12B-4, NMSA 1978. Every judge or justice becomes a member in the Judicial Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded.

For individuals that became a member prior to July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 60 to anyone having served at least 15 years. The annual pension amount for those members covered prior to July 1, 2005, is determined as 75.0 percent of the salary received during the last year in office prior to retirement multiplied by the number of years of service, not to exceed 10 years divided by 10. For individuals that become a member after July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 55 to anyone having served at least 16 years.

For those individuals who became members subsequent to July 1, 2005, the annual pension amount is determined as 75.0 percent of salary received during the last year in office prior to retirement multiplied by 5.0 percent of the number of years in service, not exceeding 15 years, plus five years or one-twelfth of the salary received during the last year in office prior to retirement multiplied by the product of 3.75 percent times the sum of the number of years of service; provided that a pension calculated shall not exceed 75.0 percent of one-twelfth of the salary received during the last year in office.

The retirement age and service credit requirements for normal retirement for judicial members who first take the bench on or after July 1, 2014 increased with the passage of House Bill 33 Substitute in the 2014 Legislative Session. Under the new requirements, judicial members are eligible to retire at age 65 with 8 or more years of service or at age 60 with 15 or more years of service credit.

Effective July 1, 2014, judicial membership is mandatory, all judicial pension factors were reduced, employee and employer contributions increased 3 percent and the computation of final average salary increased as the average of salary for the 60 consecutive months. In addition, cost-of-living increases were suspended for two consecutive fiscal years and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded.

Members contribute at a rate of 10.5 percent of their salaries and the member's court contributes at a rate of 15.0 percent of the member's salary. Additionally, the district court contributes \$38 for each civil case docket fee paid in the district court, \$25 from each civil docket fee paid in metropolitan court and \$10 (not in thousands) for each jury

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

fee paid in metropolitan court. Contribution rates are established by State statute. Various other changes took place under House Bill 33 which amended the Judicial Retirement Act.

Magistrate Retirement Fund – This plan is a single employer defined benefit pension plan. Eligibility for membership in the Magistrate Retirement Fund is set forth in Chapter 10-12C-4, NMSA 1978. Every magistrate becomes a member in the Magistrate Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. Benefits are available at age 64 or older to any member having served as a magistrate for a minimum of five years. Retirement is available at age 60 to any magistrate or former magistrate having served at least 15 years or at any age with 24 or more years of service credit. The annual pension amount is determined by multiplying 75.0% of the salary received during the last year in office prior to retirement by 5.0% of the number of years of service, not exceeding 15 years, plus five years.

Effective July 1, 2014, membership is mandatory, all magistrate pension factors were reduced, employee contributions increased 3 percent, and the computation of final average salary increased as the average of salary for the 60 consecutive months prior to retirement. Employer contributions increased by 4% effective July 1, 2016. In addition, cost-of-living increases were suspended for two consecutive fiscal years, and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded.

Member contributions are based on 10.5 percent of salaries and the State, through the administrative office of the courts, contributes at a rate of 11.0 percent of the member's salary. Additionally, the magistrate or metropolitan courts contribute \$25 for each civil case docket fee paid and \$10 for each civil jury fee paid in magistrate court. Contribution rates are established by State statute. Certain other changes took place under House Bill 216 and amended the Magistrate Retirement Act.

Volunteer Firefighters Retirement Fund – This plan is a single employer defined benefit pension plan with a special funding situation. Eligibility for membership in the Volunteer Firefighters Retirement Fund is set forth in Chapter 10-11A-2, NMSA 1978. Any volunteer non-salaried firefighter who is listed as an active member on the rolls of a fire department and who meets certain age and service credit requirements set forth in the statute is eligible for membership in the Volunteer Firefighters Retirement Fund. Benefits are available at age 55 or older to any member having served as a volunteer fire fighter for a minimum of 10 years. Benefits are \$125 per month, as of July 1, 2013, with at least 10 but less than 25 years of service or \$250 per month with 25 or more years of service. Benefits for post-retirement surviving spouse annuities are also available. Members of the Volunteer Firefighters Retirement Fund do not make individual contributions to the plan. State statutes require that the State Treasurer transfer \$750,000 during the fiscal year from the Fire Protection Fund to the Volunteer Firefighters Retirement Fund.

Educational Employees' Retirement System (EERS) - The New Mexico Educational Retirement Board (ERB) was created by the Educational Retirement Act, Chapters 22-11-1 to 22-11-52, NMSA 1978, as amended, to administer and have the responsibility for operating the Educational Employees' Retirement Plan. ERB is an agency of the State. The plan administrated by ERB is considered part of the State financial reporting entity and is a pension trust fund of the state.

This plan is a cost-sharing multiple employer pension plan established by statute and administered by ERB to provide retirement, disability, and death benefits for all certified teachers and other employees of the State's elementary,

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

secondary, and higher educational institutions, junior colleges, and technical-vocational institutions. Employees who are employed more than 25% of a full-time equivalency, are required to be members of the Plan, unless specifically excluded. The plan served a total of 218 educational employers in fiscal year 2016.

Plan members whose annual salary is \$20,000 or less are required by statute to contribute 7.9% of their gross salary. For plan members whose annual salary is over \$20,000, they are required to contribute 10.7% of their gross salary to the plan in fiscal year 2016 and thereafter. Employers are required to contribute 13.9% of gross covered salaries in fiscal year 2016 and thereafter. The statutory contribution requirements can be changed by the State Legislature.

For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs:

- The member's age and earned service credit add up to the sum of 75 or more,
- The member is at least sixty-five years of age and has five or more years of earned service credit, or
- The member has service credit totaling 25 years or more.

Chapter 288, Laws of 2009 changed the eligibility requirements for new members first employed on, or after, July 1, 2010 and before July 1, 2013. The eligibility for a member who either becomes a new member on or after July 1, 2010 and before July 1, 2013, or at any time prior to July 1, 2010 refunded all member contributions and then becomes re-employed after July 1, 2010 is as follows:

- The member's age and earned service credit add up to the sum of 80 or more,
- The member is at least 67 years of age and has five or more years of earned service credit, or
- The member has service credit totaling 30 years or more.

Section 2-11-23.2, NMSA 1978 added eligibility requirements for new members who were first employed on or after July 1, 2013, or who were employed before July 1, 2013 but terminated employment and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2013. These members must meet one of the following requirements:

- The member's minimum age is 55, and has earned 30 or more years of service credit. Those who retire earlier than age 55, but with 30 years of earned service credit will have a reduction in benefits to the actuarial equivalent of retiring at age 55.
- The member's minimum age and earned service credit add up to the sum of 80 or more. Those who retire under the age of 65, and who have fewer than 30 years of earned service credit will receive reduced retirement benefits
- The member's age is 67, and has earned 5 or more years of service credit.

Forms of Payment - The benefit is paid as a monthly life annuity with a guarantee that, if the payments made do not exceed the member's accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Benefit Options - There are three benefit options available:

Option A – Straight Life Benefit. The single life annuity option has no reductions to the monthly benefit, and there is no continuing benefit due to a beneficiary or estate, except the balance, if any, of member contributions plus interest less benefits paid prior to the member's death.

Option B – Joint 100% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 100% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the same benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

Option C – Joint 50% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 50% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the reduced 50% benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

Cost of Living Adjustment (COLA) – All retired members and beneficiaries receiving benefits receive an automatic adjustment in their benefit on July 1 following the later of 1) the year a member retires, or 2) the year a member reaches age 65 (Tier 1 and Tier 2) or age 67 (Tier 3):

- Tier 1 membership is comprised of employees who became members prior to July 1, 2010
- Tier 2 membership is comprised of employees who became members after July 1, 2010, but prior to July 1, 2013
- Tier 3 membership is comprised of employees who became members on or after July 1, 2013

As of July 1, 2013, for current and future retirees the COLA is immediately reduced until the Plan is 100% funded. The COLA reduction is based on the median retirement benefit of all retirees excluding disability retirements. Retirees with benefits at or below the median and with 25 or more years of service credit will have a 10% COLA reduction; their average COLA will be 1.8%. Once the funding is greater than 90%, the COLA reductions will decrease. The retirees with benefits at or below the median and with 25 or more years of service credit will have a 5% COLA reduction; their average COLA will be 1.9%.

Members on disability retirement are entitled to a COLA commencing on July 1 of the third full year following disability retirement. A member on regular retirement who can prove retirement because of a disability may qualify for a COLA beginning July 1 in the third full year of retirement.

Disability Benefit:

Eligibility - A member is eligible for a disability benefit provided (a) he or she has credit for at least 10 years of service, and (b) the disability is approved by the Board.

Monthly Benefit - The monthly benefit is equal to 2.0 percent of FAS times years of service, but not less than the smaller of (a) one-third of FAS or (b) 2.0 percent of FAS times years of service projected to age 60.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Form of Payment - The disability benefit commences immediately upon the member's retirement. Disability benefits are payable as a monthly life annuity, with a guarantee that, if the payments made do not exceed the member's accumulated contributions, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary. If the disabled member survives to age 60, the regular optional forms of payment are available.

Disability Retirement - A member with five or more years of earned service credit on deferred status may retire when eligible under the Rule of 75 or when the member attains age 65.

Refund of Contributions - Members may withdraw their contributions only when they terminate covered employment in the State and certification of termination has been provided by their former employers. Interest paid to members when they withdraw their contributions following termination of employment is at a rate set by the Board. Interest is not earned on contributions credited to accounts prior to July 1, 1971, or contributions held for less than one year.

Alternative Retirement Plan - Effective October, 1991, the New Mexico legislature established an Alternative Retirement Plan (ARP) through the enactment of ERA Sections 22-11-47 through 52 NMSA 1978 to provide eligible employees an election to establish an alternative retirement investment plan. In contrast to the defined benefit plan administered by NMERB, the ARP is a defined contribution plan. NMERB is the trustee of the ARP which is administered by two third party contractors for NMERB. The administrators approved to offer ARP plans to eligible participants are Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA-CREF), and Fidelity Investments.

These administrators have the authority to perform record keeping, enrollment education services, and other administrative duties for the ARP. The administrators are delegated any and all powers as may be necessary or advisable to discharge their duties under the ARP, and have certain discretionary authority to decide matters under the ARP. As the ARP trustee NMERB is responsible for selecting investment options that provide a prudent rate of return, and to ensure that all investments, amounts, property, and rights under the executed Plan-Trust are held for the exclusive benefit of Plan participants and their beneficiaries, as defined in the Plan Document.

D. Net Pension Liability

The total pension liability, net pension liability, and certain sensitivity information presented on the next page are based on an actuarial valuation performed as of June 30, 2015. The total pension liability was rolled forward from the valuation date to the plan year ending June 30, 2016. The net pension liability of each plan as of June 30, 2016, is as follows (in thousands):

The remainder of this page has been left blank.

PERA Asset Allocations – The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

STATE OF NEW MEXICO

Total	100%	100%

Rate of Return – Disclosure of the annual money-weighted return is a requirement of GASB 67. It incorporates both the size and timing of cash flows to determine an internal rate of return, and expresses investment performance adjusted for the changing amounts actually invested. The requirements of the calculation are listed below.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

- The rate is computed net of investment expenses, but not net of administrative expenses.
- External cash flows used as inputs should be determined on at least a monthly basis.
- Cash flows should be determined on an accrual basis of accounting.
- Cash-flow weighting should be representative of the Plan's actual external cash flow timing.

For the years ended June 30, 2016 and 2015, the annual money-weighted rates of return on the PERA pension plan investments net of investment expense were 0.70% and 1.90%, respectively. For the ERB pension plan, it was 2.68% and 4.06%, respectively.

E. Employer Reporting – Public Employees Retirement Association of New Mexico (PERA)

State – Funded Divisions of PERA

For the fiscal year ended June 30, 2016, the State Funded Divisions of PERA were composed of State General, State Police and Legislative.

Contributions – As stated earlier in this note, the contribution requirements of the plan members and the State are established in the state statute. Statutorily required contributions from the State to the State funded divisions of the pension plan were \$176,394 for the fiscal year ended June 30, 2016.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions –

The State-Funded Divisions of PERA reported net pension liabilities as follows:

<u>Division</u>	<u>Net Pension Liability</u>
State General	\$ 2,451,563
State Police	(197,222)
Legislative	(10,376)
Total	<u>\$ 2,243,965</u>

This pension liability is reported in the financial statements as follows:

Governmental Activities (including Internal Service Funds)	\$ 2,199,245
Business-type Activities (including Nonmajor enterprise funds and two educational institutions)	<u>44,720</u>
Total	<u>\$ 2,243,965</u>

At June 30, 2016, the State's total proportion was 52.67 percent. Total contributions were \$154,699, \$19,298, and \$2,400 for the three divisions respectively. Pension expense was \$180,254, (\$15,184), and (\$437), respectively.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The State reported liabilities of \$106,623 and \$43,480 for the net pension liabilities of the Judicial and Magistrate Retirement Funds, respectively, which were 100 percent of the proportionate share. For the year ended June 30, 2016, the State recognized (\$4,392) and (\$1,776) as pension expense for the Judicial and Magistrate Retirement Funds, respectively.

The Volunteer Firefighters Retirement Fund reported a plan net position of \$61,049 and a total pension liability of \$48,935 for a positive net position of \$12,114. Therefore, in accordance with accounting guidance, the positive net position is reported as a net pension asset in the financial statements.

At June 30, 2016, these plans reported deferred outflow of resources and deferred inflows of resources related to pensions from the following sources:

PERA - State-Funded and Single-Employer Funds (Judicial and Magistrates Funds)	Governmental		Business-type	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources

F. Employer Reporting – Educational Retirement Board (ERB)

Contributions – As stated earlier in this note, the contribution requirements of ERB plan members and the State are established in state statute. Statutorily required contributions for the fiscal year ended June 30, 2016, from the State to the ERB were \$1,190 for governmental activities and \$113,215 from the ten educational institutions reported as business-type activities.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The total ERB pension liability, net pension liability, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2015. The total ERB pension liability was rolled forward from the valuation date to the Plan year ending June 30, 2016, using generally accepted actuarial principals. Therefore, the employer’s portion was established as of the measurement date June 30, 2015. At June 30, 2016, the State reported a liability of \$22,015 for its proportionate share of the net pension liability covering state employees in governmental activities, and \$1,868,432 for the collective proportionate share of the ten educational institutions reported as business-type activities. The State’s proportion of the net pension liability is based on the employer contributing entity’s percentage of total employer contributions for the fiscal year ended June 30, 2015. The contribution amounts were defined by Section 22-11-21, NMSA 1978. At June 30, 2015, the proportion was 0.3399 percent for governmental activities and 28.85 percent for business-type activities.

For the year ended June 30, 2016, the State recognized pension expense of \$2,205 in governmental activities and \$187,102 in business-type activities. At June 30, 2016, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

G. Discount Rates and Sensitivity Analysis

Discount Rate –

PERA - The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefits payments of current plan members as determined in accordance with GASB 67. Therefore, the 7.75 percent assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The discount rate used to measure the total pension liability of the Magistrate fund was 5.61 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are not sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASB Statement No. 67. Therefore, a 5.61% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. This rate is a blend of the expected rate of return on assets of 7.75% and the 20-year tax-exempt municipal bond rate 3.82% as of the measurement date.

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table provides the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present the State's net pension liability as if it were calculated using a discount rate one percentage point lower or one percentage point higher than the single discount rate.

The remainder of this page has been left blank.

Single-Employer Funds:			
Judicial	\$ 61,188	\$ 48,050	\$ 36,746
Volunteer Firefighters	\$ (12,504)	\$ (17,626)	\$ (21,894)
	1% Decrease (4.61%)	Current Discount Rate (5.61%)	1% Increase (6.61%)
<u>Net Pension Liability</u>			
Magistrate	\$ 37,548	\$ 30,349	\$ 24,310

ERB - A single discount rate of 7.75% was used to measure the total ERB pension liability as of June 30, 2016 and June 30, 2015. This single discount rate was based on the expected rate of return on pension plan investments of 7.75%. Based on the stated assumptions and the projection of cash flows, the Plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current pension plan members. Therefore the long term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The projection of cash flows used this single rate assuming that Plan contributions will be made at the current statutory levels. Additionally, contributions received through NMERB's Alternative Retirement Plan (ARP) are included in the projection of cash flows. ARP contributions are assumed to remain at a level percentage of ERB plan payroll, where the percentage of payroll is based on the most recent five-year contribution history.

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table provides the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present the State's net pension liability as if it were calculated using a discount rate one percentage point lower or one percentage point higher than the single discount rate.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2013

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13

NOTE 13. Post - Employment Benefits Other Than Pensions

In addition to pension benefits as described in Note 11, the State provides other post-employment benefits (OPEB). The State of New Mexico adopted the provisions of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, for the year ended June 30, 2009.

A. Plan Description

The New Mexico Retiree Health Care Authority (RHCA) was formed February 13, 1990 under the New Mexico Retiree Health Care Act (Act), Chapters 10-7C-1 to 10-7C-19, NMSA 1978, to administer the retiree health care fund which was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents, and surviving spouses) who have retired or will retire from public service in New Mexico. The Retiree Health Care Act (Chapters 10-7C-1 to 10-7C-19, NMSA 1978) established a cost-sharing multi-employer defined benefit postemployment health care plan (Plan) that provides comprehensive core group health insurance for persons who have retired from certain public service in New Mexico. The Retiree Health Care Act created a governing board composed of 11 members (a twelfth member was added through an amendment). RHCA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to RHCA, 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

The legislation establishing RHCA specifically did not intend to create formal trust relationships among the participating employees, retirees, employers and RHCA administering the Act. However, the substantive plan created by the Act contains all requisite elements to be considered as the equivalent of a trust arrangement. These elements include irrevocable contributions to the Plan, plan assets are dedicated to providing benefits to retirees and their beneficiaries in accordance with the terms of the Plan, and plan assets are legally protected from creditors of employers or the Plan administrator. Additionally, there is no provision for a participating government entity to withdraw membership and all risks and costs including benefit costs are shared and are not attributed individually to employers, and a single contribution rate applies to employers. RHCA received a legal opinion that the manner of legal organization of RHCA is substantially equivalent to a trust. As such, RHCA was required to apply GASB Statement No. 43 (GASB 43), *Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans*, as a multi-employer cost-sharing plan. The Net Position of the RHCA is reported as restricted per GASB Statement No. 46 and Chapter 10-7-C-14, NMSA 1978.

B. Funding and Benefit Policies

Eligible employers are institutions of higher education, school districts, or other entities participating in the public school insurance authority, and state agencies, state courts, magistrate courts, municipalities, or counties, which are affiliated under or covered by the Educational Retirement Act, or the Magistrate Retirement Act, or the Public Employees Retirement Act.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

Plan Membership (Not in Thousands):

Current Retirees and Surviving Spouses	\$	49,550
Inactive and Eligible for Deferred Benefit		11,515
Current Active Members		<u>98,577</u>
Total	\$	<u>159,642</u>

Active Membership:

State General	\$	20,251
State Police and Corrections		1,842
Municipal General		20,806
Municipal Police		3,721
Municipal FTRE		2,231
ERB		<u>49,726</u>
Total	\$	<u>98,577</u>

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the Plan on the person's behalf, unless that person retires before the employer's effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years. Employees of RHCA are allowed to participate in the Plan.

The New Mexico Retiree Health Care Act (Chapter 10-7C-13, NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service-based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars (not in thousands) if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100.0 percent of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from NMRHCA or viewed on their website at www.nmrhca.state.nm.us.

Contributions - The New Mexico Retiree Health Care Act (Chapter 10-7C-15, NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The contributions are set by legislation and are not based on an actuarial calculation. The Legislature periodically reviews the contribution rates pursuant to Chapter 10-7C-15, NMSA 1978.

For the fiscal year ended June 30, 2016, for regular state employees, the statute required each participating employer to contribute 2.0 percent of each participating employee's annual salary; each participating employee was required to contribute 1.0 percent of their salary.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

For employees who were members of an enhanced retirement plan (state police, adult correctional officers, fire fighters and judges) during the fiscal year ended June 30, 2016, the statute required each participating employer to contribute 2.5 percent of each participating employee's annual salary, and each participating employee was required to contribute 1.25 percent of their salary.

Current retirees are required to make monthly contributions for individual basic medical coverage. Retiree premium contribution increases are no longer limited by the Act, which the RHCA's health care trend will be the basis for any rate increases for the New Mexico basic plan of benefits. The Board may designate other plans as "optional coverages." Optional and/or voluntary coverages are not subject to the 9.0 percent cap, which expired in fiscal year 2008 per Chapter 10-7C-13, NMSA 1978.

Contributions from participating employers and participating employees become the property of the Retiree Health Care Fund and are not refundable under any circumstances, including termination of employment or termination of the participating employer's operations or participation in the Plan. The employer, employee and retiree contributions are required to be remitted to RHCA on a monthly basis.

The required and actual contributions of employers in accordance with the funding policy and the percentage of current-year covered payroll for the three preceding fiscal years are as follows:

Schedule of Required Contributions (In Thousands)

Fiscal Year Ended June 30,	Annual Required Contribution	Actual Contributions - Employers	Percentage Contributed
2016	N/A	N/A	N/A
2015	\$ 292,657	N/A	-
2014	367,804	\$ 149,277	40.6 %
2013	353,658	135,388	38.3
2012	340,075	142,054	41.8
2011	326,995	120,873	37.0
2010	298,000	114,847	38.5
2009	286,538	96,817	33.8
2008	275,518	94,060	34.1

The above schedule presents trend information about the amounts contributed to the plan by employers in comparison to the Annual Required Contribution (ARC), an amount that is actuarially determined in accordance with the parameters of GASB Statement No. 43. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years using an open-ended amortization.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

There are requirements for frequency and timing of actuarial valuations, as well as actuarial methods and assumptions that are acceptable for financial reporting. The Authority obtains actuarial valuations at least biannually and a single actuarial valuation covers all plan members.

C. Funded Status

The funded status as of June 30, 2016, the most recent valuation date, was as follows (dollar amount in thousands):

Actuarial Valuation Date	Actuarial Value of Assets (AVA)	Actuarial Accrued Liability (AAL)	Unfunded Actuarial Accrued Liability (UAAL)	Funded Ratio	Annual Covered Payroll	UAAL as a Percentage of Covered Payroll
June 30, 2016	\$ 471,978	\$ 4,277,042	\$ 3,805,064	11.04 %	\$ 4,271,184	89 %
June 30, 2014	377,087	3,740,368	3,363,280	10.08	3,941,588	85
June 30, 2012	227,488	3,915,114	3,687,626	5.81	3,877,827	95
June 30, 2010	176,923	3,523,665	3,346,742	5.02	4,001,802	84
June 30, 2008	170,626	3,116,916	2,946,290	5.47	4,020,509	73
June 30, 2006	154,539	4,264,181	4,109,643	3.62	4,073,732	101

The actuarial methods and assumptions for the Plan at June 30, 2016, were as follows:

Valuation date:	June 30, 2016
Actuarial cost method:	Entry age normal, level percent of pay calculated on individual employee basis
Amortization method:	30-year open-ended amortization, level percent of payroll
Remaining amortization period:	30 years as of June 30, 2016
Asset valuation method:	Market value of assets
Actuarial assumptions:	
Discount rate:	5.00%
Projected payroll increases:	3.50%
Healthcare cost trend rate:	8% from July 1, 2009 to July 1, 2018, decreasing by 0.5% for each year until it reaches an unlimited rate of 5.0%

The remainder of this page has been left blank.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 14

NOTE 14. Deferred Compensation Plan

The State of New Mexico offers state, local government, and school district employees a deferred compensation plan (Deferred Plan) under Chapters 10-7A-1 to 10-7A-12, NMSA 1978, the “Deferred Compensation Act,” in accordance with Internal Revenue Code Section 457. The Deferred Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available until termination, retirement, death, or unforeseeable emergency.

PERA is the trustee of the Deferred Plan; however, the Deferred Plan uses a third party administrator, acting under contract with PERA. All costs of administration and funding are borne by the Deferred Plan participants. The Administrator has authority to control and manage the operation of the Deferred Plan. The Administrator is delegated any and all powers as may be necessary or advisable to discharge its duties under the Deferred Plan, and has certain discretionary authority to decide all matters under the Deferred Plan. As Deferred Plan trustee, PERA’s primary responsibility is to select investment options that are safe and provide a reasonable rate of return and to ensure that all investments, amounts, property, and rights under the executed Deferred Plan-Trust are held for the exclusive benefit of Deferred Plan participants and their beneficiaries, as defined in the Deferred Plan. The assets of the Deferred Plan are not assets of the State, but are held in trust for the exclusive benefit of Deferred Plan participants and their beneficiaries. The State has no liability for losses under the Deferred Plan but does have the duty of due care that would be required of a fiduciary agent.

The Deferred Plan issues a publically available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, 33 Plaza La Prensa, Santa Fe, NM 87507. This report is also available online at: <http://www.nmpera.org/deferred-compensation>.

The remainder of this page has been left blank.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 15

NOTE 15. Arbitrage on Tax-Exempt Bonds

Arbitrage is the excess interest earned by a state or local government on proceeds from the sale of its bonds over interest paid to bondholders. The Tax Reform Act of 1986 TRA required rebate of such arbitrage to the U.S. Treasury Department on governmental bonds issued after August 31, 1986, and on private activity bonds issued after December 31, 1984, when the proceeds were held for six months or longer. These rebates must be calculated annually and paid at the end of every fifth year until the bonds are retired.

The Revenue Reconciliation Act of 1989 amended the six-month rule. For bonds issued after December 19, 1989, the rebate requirement does not apply if, both, all of the gross proceeds of the issue, other than the reserve fund, are spent within the six-month period following the date of issue, and the rebate requirement is satisfied for the reserve fund after the six-month period. The term gross proceeds for purposes of the rule includes both the sale proceeds received from the bonds purchaser on the issue date and investment earnings on such proceeds during the six month period. Gross proceeds deposited in a reserve fund or bona fide debt service fund, however, are not subject to the expenditure requirement.

The following is a schedule of bond issues, along with the year-ends and arbitrage rebate due dates. The State Treasurer has completed the first arbitrage computation for the bonds as indicated:

	First Computation Date	First Payment Due to IRS	Computation of Arbitrage Completed	Next Payment Due to IRS
General Obligation Bonds Series 2007	3/1/2012	4/30/2012	X	3/1/2017
General Obligation Bonds Series 2009	5/28/2014	7/28/2014	X	3/1/2019
General Obligation Bonds Series 2011	5/26/2016	7/25/2016	X	3/1/2021
General Obligation Bonds Series 2013	4/23/2018	6/22/2018	X	3/1/2023

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 17

NOTE 17. State General Fund Investment Pool

The Financial Control Division (FCD), within the Department of Finance and Administration (DFA), in collaboration with the New Mexico State Treasurer's Office (STO), implemented a comprehensive reconciliation model that compared aggregated agency claims on the State General Fund Investment Pool (SGFIP) to the associated resources held by STO. This process has been in place for nearly two years and applied across three fiscal years with stable results. There have been many reviews of the process and each review has deemed it to be adequate and in compliance with established procedures. Successfully addressing this issue in fiscal year 2015 allowed the DFA to reinstate \$100 million that had been reserved as a loss contingency.

For fiscal year 2016, the following assertions are provided:

- 1) The calculated difference between resources maintained by the STO and the agency claims has remained stable and with a very narrow and acceptable range over the twelve months of fiscal year 2016.
- 2) Resources are equivalent to and can cover the face value of all agency claims against the pool.
- 3) All claims honored at face value.

For cash management and investment purposes, funds of various state agencies are deposited in the SGFIP, which is managed by STO. The SGFIP is reported as a fiduciary fund in the financial statements of STO. Claims on the SGFIP are reported as assets by the various agencies investing in the SGFIP. By statute, the DFA is responsible for reconciling the SGFIP balances. As of June 30, 2016, the Component Appropriations Funds report an aggregate investment of \$522,796,686 in the SGFIP.

The monthly reconciliations suggest a variable but reasonable difference between claims and resources. Management recorded \$991,000 as an increase to other investments, and STO is to record the reconciled difference in the claims to resources reconciliation.

The remainder of this page has been left blank.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 18

NOTE 18. Special Items

A. Public Employees Retirement Association of New Mexico (PERA)

On June 11, 2015, the Public Employees Retirement Association of New Mexico (PERA) was awarded \$50 million in two parts; \$40 million within 10 days of execution of agreement and \$10 million upon the occurrence of a subsequent event. A final distribution brought the total received in fiscal year 2016 to \$11.8 million.

B. Office of the State Engineer

The Arizona Water Settlement

As previously mentioned in Note 4. Receivables, the State of New Mexico entered into the Arizona Water Settlement with the federal government. This receivable will be reduced as payments are received from the federal government according to the settlement agreement. In addition, the actual amounts received may require adjustments relative to the receivable recorded, due to indexing.

Indian Water Rights Settlements

Also noted under Other Liabilities in Note 8, New Mexico currently has three Indian water rights settlements pending implementation: the Navajo Nation Settlement in the San Juan River adjudication, the Settlement Agreement with the Pueblos of Nambe, Pojoaque, Tesuque, and San Ildefonso in the Aamodt adjudication, and the Taos Pueblo Settlement in the Rio Pueblo de Taos/Rio Hondo adjudication.

As of the June 30, 2016, the Office of the State Engineer (OSE) expended \$41.8 million of the total of \$47.7 million in state funding received to date restricted and appropriated to the Indian Water Rights Settlement Fund and agreements, with \$5.9 million expended as of June 30, 2016.

The OSE has recorded, as a special item, the estimated settlement expense in the government-wide financial statements, of \$79.2 million, as of June 30, 2016. This includes adjustments reflecting revised estimates for the State's cost share under the Aamodt Settlement Agreement as well as a credit received for prior expenditures related to the settlement.

C. State Fair Commission

On January, 19, 2016, the State Fair Commission signed an Agreement and Release of Claims relating to the Lease Agreement for the property located at 145 Louisiana Boulevard in Albuquerque, NM. The State Fair Commission has recorded a special item in the amount \$865,779 in their fiscal year 2016 audit to account for this.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 19

NOTE 19. Commitments

A. Construction Commitments

The State has active construction projects as of June 30, 2016. The projects include highway construction, university infrastructure, and facilities construction and renovation. At year-end, the State's commitments for construction were \$129.7 million for governmental activities and \$134.1 million for business-type activities.

B. Loan Commitments

New Mexico Environment Department

The New Mexico Environment Department had loan commitments at June 30, 2016 of the following:

Wastewater Loan Construction Fund – the agency has executed binding commitments to disburse \$28,033,000 for future loans.

Rural Infrastructure Loan Fund – the agency has executed binding commitments to disburse \$6,075,005 for loans and grants.

C. Capital Commitments

State of New Mexico Investment Council

The State of New Mexico Investment Council has commitments for capital contributions to various private equity partnerships and real estate/real asset investments. As of June 30, 2016, unfunded commitments to private equity partnerships were approximately \$1.6 billion, and unfunded commitments to real estate and real asset investments were approximately \$1.7 billion.

The remainder of this page has been left blank.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 20

NOTE 20. Contingencies

A. Contingent Liabilities

Public Education Department

The State did not meet its required level of financial support for the Special Education Cluster of programs for fiscal years 2011 and 2012. As a result, the Department may have a one-time reduction of future federal funding. Management's estimate of the potential one-time reduction in federal funding ranges from \$0 to \$63,491,592.

The Maintenance of Effort (MOE) shortfall for fiscal year 2011 is under appeal and is currently still undergoing final determination of MOE by the U.S. Department of Education at June 30, 2016. Concerning the potential shortfall of MOE, the agency has booked \$16,118,548 for any potential liabilities.

Children, Youth and Families Department

A judgment in a legal matter was rendered against the Children, Youth, and Families Department in the amount of \$3.6 million. The Department is currently appealing the judgment. This amount would not be covered by Risk Management Division. A liability has been recorded.

Second Judicial District Attorney

During fiscal year 2013, the Second Judicial District Attorney's Office entered into phone services with a private vendor and discontinued using phone services provided by the Department of Information Technology (DoIT). However, the District Attorney was still charged for phone services from DoIT after services with the private vendor had begun. The District Attorney has been in continued dispute over these fees and there has been no resolution as of

June 30, 2016. A liability in the amount of \$93,709 has been recorded as a contingent liability on the government-wide financial statements to account for the amount claimed by DoIT.

New Mexico Environment Department

In January of 2012, the Office of the Inspector General (OIG) of the Environmental Protection Agency (EPA) performed an audit of the Department's Labor Charging Practices to federal programs and determined that the Air Quality Bureau (AQB) and Drinking Water Bureau (DWB) of the Department did not always charge labor and related costs according to two CFR requirements. These bureaus charged labor, fringe benefit and indirect costs to federal grants based on budget, rather than actual activities performed. This occurred at AQB from the inception of NMED's current accounting system, SHARE, in July 2006 to June 25, 2010, and DWB through April 14, 2012. The OIG's final report is issued a draft report in June 2013, with an estimated \$3,758,783 in unsupported charges identified. The recommendation by the OIG to the Regional Administrator is to disallow and recover these costs. The Department submitted further certifications and supporting documents to the EPA in FY15. The EPA reviewed the documentation in October 2016, determining the Department is responsible for \$161,115 of these costs.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 20 (CONTINUED)

Office of the State Engineer

A state district judge ruled that the Interstate Stream Commission violated the Open Meetings Act when approving two contracts involving a diversion project in southern part of the state. As a result of the ruling, the Office of the State Engineer is exposed to a liability of \$77,500 (previously reported as \$268,000 in the FY2015 audit report) as the plaintiff is seeking reimbursement of legal costs.

Northern New Mexico College

During the course of the June 30, 2016 routine audit, potential embezzlement and larceny of College funds was uncovered. As of March 27, 2017, the impact of this on the College's finances and compliance has not been determined. Management has recorded a \$250,000 loss contingency for this matter. The loss amount could be higher since the actual loss amount is unknown at this time. Restitution and amounts owed to the College are an unrecorded receivable to the College, as it would be fully offset by an allowance and the receivable is unknown.

New Mexico Mortgage Finance Authority

The New Mexico Mortgage Finance Authority (NMMFA) entered into a risk-sharing agreement with the U.S. Department of Housing and Urban Development (HUD) under Section 542(c) of the Housing and Community Development Act of 1992, whereby HUD and the NMMFA provide credit enhancements for third party multifamily housing project loans. HUD has assumed 90% of the risk and the NMMFA guarantees the remaining 10% risk of loss in the event of default on specific loans. As of September 30, 2016, the NMMFA's assumed risk is \$1.8 million.

The NMMFA also entered into a risk-sharing agreement with the U.S. Department of Agriculture under Section 538 Rural Rental Housing Guaranteed Loan Program. The Rural Housing Service (RHS), Department of Agriculture (USDA) provides credit enhancements to encourage private and public lenders to make new loans for affordable rental properties that meet program standards. The NMMFA assumes 10% of the risk of loss and as of September 30, 2016, is committed to assume a risk of \$116,000 on these loans.

On June 27, 2007, the Board of Directors approved the write-off of two HOME Loans: Mesa Grande Apartments, LTD., and Sunrise Homes Apartments, LTD. Management has determined that it is probable that the NMMFA has incurred a contingent liability of \$438,000 for the balance of the loans, which may be payable to HUD for non-compliance with the affordability requirement.

On September 30, 2014, management approved a reserve for contingent liability for Home for Women and Children for \$19,000. Management has determined that it is probable that the NMMFA has incurred a contingent liability under the 2012 Emergency Solutions Grant, which may be payable to HUD for unsupported expenditures.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 20 (CONTINUED)

B. Other Matters

Federal Funds

The State received funding from federal sources for specific purposes. The funds are subject to audit, which may result in expenses that are disallowed, or other noncompliance findings under the terms of the funding source's guidelines. The State believes that such disallowances or other noncompliance findings, if any, would not be material to the State's financial position.

Taxation and Revenue Department

There is pending or threatened litigation in the form of various protests and lawsuits by taxpayers or other parties claiming abatements, refunds and the recovery of unclaimed property arising from various tax programs administered by the Taxation and Revenue Department. The total dollar amount representing the claims in protest or pending in state courts is \$98,201,173.

New Mexico Department of Transportation

On November 11, 2016 a prior contractor claim against the New Mexico Department of Transportation (NMDOT) was fully resolved. The court ruled in favor of the contractor and the NMDOT is to pay the judgement in the amount of \$266,636.45 by May 24, 2017.

The remainder of this page has been left blank.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 21

NOTE 21. Subsequent Events

A. Bond Issues

On November 15, 2016, the State issued 2016D Severance Tax Bonds in the principal amount of \$45,815 and Series 2016E Taxable Severance Tax Bonds in the principal amount of \$19,090. The bonds were issued to provide funds for capital improvements as approved by the State Legislature. Series 2016D bonds have a coupon rate of 5.00% with a final maturity in 2027. Series 2016E bonds have a coupon rate ranging from 1.25% to 2.35% with a final maturity in 2021.

B. Other Events

On October 26, 2016, the Legislature passed Senate Bill 9 relating to state expenditures. The bill reduces legislative appropriations in Laws 2016, Chapter 1 for Fiscal Year 2017 by \$148.5 million. Under this legislation, the majority of state agency budgets are reduced by 5.5 percent, with judicial and legislative cuts of 3.0 percent. The Children, Youth and Families Department, Department of Public Safety and sexual assault services and prevention contracts and the Department of Health, were not subject to cuts.

Commissioner of Public Lands

On February 15, 2017, the District Court entered its Findings of Fact, Conclusions of Law, and Judgement ordering the Commissioner, pursuant to NMSA 1978, § 19-7-61, to refund to the Defendants \$3.3 million they have paid as royalties for production of carbon dioxide gas under State Land Office oil and gas leases. The Commissioner has appealed the judgement to the New Mexico Supreme Court.

Energy, Minerals, and Natural Resources Department– Advanced Redemption of Debt

On November 1, 2016, the state's Energy, Minerals and Natural Resources Department paid off the principal on two bond issues. These were Series 1998A and 1999B in the amount of \$735 thousand and Series 2001 in the amount of \$1,318 thousand. These bonds had scheduled final maturities of 2018 and 2020, respectively. The source of the funds for the early redemption was the mandatory reserve funds.

Energy, Minerals, and Natural Resources Department – Oil Conservation Division

The Oil Conservation Division (OCD) of the Energy, Minerals, and Natural Resources Department was informed by the Tax and Revenue Department (TRD) that it overpaid its Oil Reclamation Fund by \$2.2 million. This overpayment is a result of TRD not adjusting the amount monies paid into this fund when the price of crude oil is below \$70 per barrel. This overpayment must be repaid to TRD from the Oil Reclamation Fund, as the monies, if properly calculated by TRD, should go into the state's general fund. The OCD is working with TRD to determine whether the repayment will have to be repaid as a lump sum payment or if it can be done incrementally by reducing the agency's oil and gas distribution payment. The repayment will impact the overall health of the Oil Reclamation Fund.

STATE OF NEW MEXICO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2016

NOTES TO THE FINANCIAL STATEMENTS – NOTE 21 (CONTINUED)

New Mexico Department of Health

As of April 28, 2017, there is pending litigation from various cases previously filed against the New Mexico Department of Health due to the nature of services it provides. The outcome of any of these lawsuits is not fully foreseeable at this time. Any adverse ruling against the Department of Health could result in possible monetary damages, fees and litigation expenses that would have to be paid by the agency in the future.

On July 1, 2017, the Department of Health will transition the authority of the New Mexico State Veterans' Home in Truth or Consequences, New Mexico to the Department of Veterans' Services. This transition includes movement of a \$14.7 million operating budget and 212 FTE positions.

New Mexico Department of Transportation

As of May 11, 2017, the New Mexico Department of Transportation was named as defendant in several lawsuits or complaints. Neither the final outcome nor the amount of potential loss from these cases is presently determinable. However, management estimates that the potential loss to the department, if any, is not likely to be material to the financial statements.

New Mexico Department of Veterans' Services

Effective July 1, 2017, The New Mexico Department of Veterans' Services (DVS) will assume operation of the Veteran's Home located in Truth or Consequences from the New Mexico Department of Health. This assumption will increase the FTE count by 212 FTE positions and will increase the budget by \$14.7 million. In addition, DVS will assume operation of the Vietnam War Memorial in Angel Fire from the Energy, Minerals and Natural Resources Department and this will increase the FTE count by 1.5 positions. Funding for this will come from the New Mexico Legislature and State Personal Income Tax (PIT) donations. In FY18, construction of veteran's cemeteries is scheduled to begin in Gallup, Carlsbad and Angel Fire.

Budget Process

The State Legislature makes annual appropriations, which lapse at fiscal year-end. Legal compliance is monitored through the establishment of a budget (Modified Accrual Budgetary Basis) and a financial control system, which permits a budget to actual expenditures comparison. Expenditures may not legally exceed appropriations for each budget at the program appropriation unit level. Program appropriation unit is identified in the State's accounting records and in the budgetary schedules as P-Codes, such as "P523 Child Support Enforcement." Budgeted program appropriation unit amounts may be amended upon approval from the Budget Division of the State of New Mexico Department of Finance and Administration within the limitations as specified in the General Appropriations Act. The budget amounts shown in the financial statements represent the final authorized amounts. Administrative line item expenditures (personnel, contractual, and other) may legally exceed amounts budgeted; however, the total budget category expenditures may not legally exceed the approved budget for the program appropriation. Chapter 6-3, NMSA 1978, sets forth the process used to develop the budget for the State of New Mexico. The process is as follows:

1. No later than September 1, the appropriation request is submitted to the Legislative Finance Committee (LFC), and the Budget Division of the Department of Finance and Administration (DFA), for the fiscal year commencing the following July 1. The appropriation request includes proposed expenditures and the means of financing them.
2. Budget hearings are scheduled before the New Mexico House Appropriations and Senate Finance Committees. The final outcomes of those hearings are incorporated in the State's General Appropriations Act (Act).
3. The Act is signed into law by the Governor of the State of New Mexico within the legally prescribed time limit, at which time the approved budget becomes a legally binding document.
4. Not later than May 1, an annual operating budget is submitted to DFA by appropriation unit and object code based upon the appropriation authorized by the Legislature. DFA reviews and approves the operating budget, which becomes effective on July 1.
5. Formal budgetary integration is employed as a management control device during the fiscal year for the General and Special Revenue Funds.

Budgetary Basis of Accounting

The budget is adopted on the modified accrual basis of accounting, per statute; however; accounts payable which are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, they must be paid out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

For the Year Ended June 30, 2016

(In Thousands)

Multiple Year Appropriation – Capital Projects Budgets and Special Appropriation Budgets

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for, the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These nonoperating budgets primarily serve as a management control purpose, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided.

Budget to GAAP Reconciliation

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis, differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

In the accompanying budgetary schedules, budget and actual expenditures are reported only for appropriated activities for the operating budgets. Expenditures are classified in the financial control system based on whether the appropriation is from the operating or multiple year budgets (special or capital). Expenditures funded by the operating budget appropriations are reported as current expenditures classified by the function of the agency receiving the appropriation.

However, in the governmental operating statements, all governmental funds are included and expenditures are classified according to what was actually purchased. Capital outlays are fixed asset acquisitions such as land, buildings, and equipment. Debt service expenditures are principal and interest payments. Current expenditures are all other governmental fund expenditures classified based on the function of the agency making the expenditures. Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated.

The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as nonappropriated (not budgeted) by the Legislature are the Severance Tax Permanent Fund, the Land Grant Permanent Fund., and the following Enterprise Funds: State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds.

Excess of Expenses/Expenditures Over Budget

Expenses/expenditures in excess of budget were reported in the following P Codes:

General Control	P636	Criminal and Juvenile Justice
General Control	P720	Public Defender Department
Public Safety	P531	Inmate Management and Control
Public Safety	P534	Community Offender Management

Additional Information

The information presented in the above schedules was determined as part of the actuarial valuations at the dates indicated. Additional information as of the latest actuarial valuation is as follows:

Valuation date	June 30, 2016
Actuarial cost method	Entry Age Normal, Level Percent of Pay
Amortization method	30 Year Open-Ended Amortization, with the initial payment determined as if the future payments would theoretically increase each year on a level percent of pay basis
Amortization period	30 Years
Asset valuation method	Market Value
Actuarial assumptions:	
Discount rate	5.00%
Projected payroll increases	3.50%
Health care cost trend rate:	
Prescription Drug & Medical (Under Age 65, Age 65, and Over)	8.0% from July 1, 2009 to July 1, 2018, decreasing by 0.5% for each year until it reaches an ultimate rate of 5.0% This schedule of funding progress is based on healthcare laws and regulations existing at June 30, 2016.

Note: Certain amounts in the above schedule were corrected for rounding errors and certain prior-year amounts were restated.

STATE OF NEW MEXICO

OTHER SUPPLEMENTARY INFORMATION NONMAJOR PROPRIETARY FUNDS COMBINING FINANCIAL STATEMENTS

Enterprise Funds

Enterprise funds report the activities for which fees are charged to external users for goods and services. Enterprise Funds are presented beginning on page 209.

Internal Service Funds

Internal service funds account for goods and services provided primarily to other agencies or funds of the State, rather than to the general public. Internal Service Funds are presented beginning on page 221.

This Page Intentionally Left Blank

STATE OF NEW MEXICO

OTHER SUPPLEMENTARY INFORMATION NONMAJOR ENTERPRISE FUNDS COMBINING FINANCIAL STATEMENTS

Industries for the Blind – The New Mexico Commission for the Blind’s mission is to encourage and enable the State’s blind citizens to achieve vocational, economic, and social equality. This proprietary fund is used to provide career training and other assistance for New Mexico’s blind citizens and entails the operations of the Albuquerque Training Center.

Corrections Industries Revolving Fund – This fund is used to account for certain activities of the Corrections Industries Division of the Department of Corrections. These activities include the manufacture of furniture and textiles, production of agricultural crops, and data entry services.

Environment Department – This fund is used to account for revolving loans for wastewater and drinking water facilities.

New Mexico Magazine – New Mexico Magazine is a program of the Department of Tourism. The fund accounts for the publishing and distribution of the monthly New Mexico Magazine.

New Mexico Public Schools Insurance Authority (NMPSIA) – NMPSIA is a self-insurance pool that provides various benefits and risk coverage to participating public schools, school board members and public school employees, plus retired board members and employees. Coverage provided includes property, casualty, workers’ compensation, health, life, and disability.

State Infrastructure Bank – The State Infrastructure Bank is a proprietary fund administered by the Department of Transportation. The fund is used to account for loans made for road projects.

Miners’ Colfax Medical Center – Miners’ Colfax Medical Center is a State owned medical facility in Raton, New Mexico. The current organization is a result of a merger between the Miners’ Hospital and Northern Colfax County Hospital. Miners’ Colfax operates a 33-bed acute care hospital; a 49 bed extended care facility and various outpatient clinics in Raton, New Mexico. Miners’ Colfax has programs that serve both miners and non-miners. Information for the fiscal year ended June 30, 2016 was not available for this entity, so FY14 information has been provided.

Unemployment Insurance Fund – The Unemployment Insurance Fund accounts for funds used for unemployment compensation. This fund does not account for other than unemployment compensation (i.e., workers’ compensation, employment security labor market statistics, administration of the employment compensation program, etc.)

State Fair Commission – This fund administers the operations of the annual New Mexico State Fair and the use of the Fairgrounds facilities during the year

Department of Cultural Affairs – This fund administers the enterprise operations of the Department of Cultural Affairs.

OTHER SUPPLEMENTARY INFORMATION NONMAJOR INTERNAL SERVICE FUNDS COMBINING FINANCIAL STATEMENTS

Fleet Operations – This fund accounts for the operations of the Transportation Motor Pool and the State Aircraft Pool, which provide ground and air transportation services to all state agencies on a fee basis.

Risk Management – This fund provides insurance coverage for all state agencies. Areas covered include public liability, workers compensation, group health and life, unemployment compensation, surety bond, and property insurance. Agencies are charged a premium based on several factors, including history and number of employees.

Printing and Records – This fund accounts for the provision of printing services of all kinds to state agencies according to an approved fee schedule. The fund also includes services for the retention and storage of public records for all state agencies, which pay an assessment based on size and usage.

Communications Services – This fund provides voice and data telecommunications services to all state agencies, which are assessed an annual fee based on size and prior usage.

Information Processing – This fund provides automated data processing services for all state agencies, which are assessed an annual fee based on size and prior usage.

PENSION AND OTHER EMPLOYEE BENEFITS TRUST FUNDS FINANCIAL STATEMENTS

Public Employees Retirement Association - (PERA) – PERA is comprised of four separate systems which offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators.

Educational Employees' Retirement System (EERS) – EERS is a qualified, defined benefit, governmental retirement plan established and administered by the State of New Mexico to provide pension benefits for all state certified employees, teachers and other employees of the State educational institutions, junior colleges, and technical vocational institutes.

New Mexico Retiree Health Care Authority (RHCA) – RHCA is a cost-sharing, multiple-employer defined benefit postemployment healthcare plan that provides comprehensive core group health insurance for persons who have retired from public service with entities in the State of New Mexico.

Deferred Compensation Plan (IRC 457) – The State of New Mexico offers its employees a deferred compensation plan (Plan) under Chapters 10-7-A-1 to 10-7A-12, NMSA 1978, the “Deferred Compensation Act,” is in accordance with Internal Revenue Code Section 457. The Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The Public Employee’s Retiree Association is the trustee of the Plan; however, the Plan is administered by a third party administrator acting under contract with PERA.

STATE OF NEW MEXICO

OTHER SUPPLEMENTARY INFORMATION

FIDUCIARY FUNDS

EXTERNAL INVESTMENT TRUST FUNDS FINANCIAL STATEMENTS

State Investment Council – The State Investment Council (Council) is responsible for the investment activities of certain State of New Mexico Trust Funds. Pursuant to New Mexico law, the Council created the following investment pools: Large Capitalization Active, Large Capitalization Index, Core Bonds, Structured Credit, Mid\Small Capitalization, Non-U.S. Equity Securities, Non-U.S. Emerging Markets, and Absolute Bonds. The investment pools provide long-term investment opportunities for state agencies and designated institutions that have funds available for a long-term investment program that will extend for more than one year. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by State are presented in both the Governmental Funds and Proprietary Funds.

State Treasurer – The Office of the State Treasurer holds and invests monies for other state agencies and local governments through the Local Governmental Investment Pool. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by the State are presented in both the Governmental Funds and Proprietary Funds.

PRIVATE PURPOSE TRUST FUNDS FINANCIAL STATEMENTS

Scholarship Fund – This grouping includes scholarship trust funds administered by the Higher Education Department and the Public Education Department.

Land Grant – Under terms of the Fergusson Act of 1898 and the Enabling Act of 1910, certain lands held by the federal government were granted to the territory of New Mexico. The lands, totaling 13 million acres, are held in trust for the benefit of the public schools and other specific institutions. Only the portion of the fund that does not benefit the State is presented as a Private Purpose Trust Fund. Other portions of the fund that benefit the State are presented in both the Governmental Funds and Proprietary Funds. The fund is administered by the State Investment Council.

Education Trust Fund – The 529 Higher Education Savings Plan is a variable return college savings program that enables individuals to save and invest in order to fund future higher education expenses of a child or beneficiary. The program is designed to be a qualified tuition program under Section 529 of the Internal Revenue Code of 1986, as amended, and is maintained by the Education Trust Board.

Water Trust Fund – The Water Trust Fund accounts for monies appropriated, donated, or otherwise accrued in the fund for the water project fund, which is administered by the State Investment Council.

Bartlett Trust Fund – The Cultural Affairs Department is the administrator of a trust fund which was privately endowed for the benefit of the Museum of International Folk Art.

Children's Trust Fund - This fund accounts for a part of marriage license fees as well as private donations for the purpose of advocacy of children and prevention of child abuse and neglect.

Children's Trust Fund Next Generation – This fund accumulates resources for programs that provide positive child and youth development activities.

In fiscal year 2011, the New Mexico Lottery Authority was determined to be a discrete component unit. Prior to fiscal year 2011, the New Mexico Lottery Authority was considered to be a blended component unit and was presented as a nonmajor proprietary fund.

+In 2010, the President of the United States signed into law the American Recovery and Reinvestment Act (ARRA) of 2010. The State accounts for all ARRA revenue and expenditures under fund 89000, which is classified as a special revenue fund. Under ARRA, the State received federal unemployment monies that were accounted for in fund 89000. The Unemployment expenditures reported in the governmental activities represent funds from ARRA.

*In fiscal year 2006, the Unemployment fund was determined to be a nonmajor propriety fund.

Note: The *Constitution of the State of New Mexico*, Article IX, Section 8, limits the State's outstanding general debt to a maximum of one percent of the net taxable value of all property subject to taxation within the State. The legal debt margin is the remaining borrowing authority available and is calculated by subtracting the bonded debt outstanding from the legal debt limit as calculated per Constitutional requirements.

Source: Note information regarding general bonded debt outstanding can be located within the State of New Mexico's comprehensive annual financial report per fiscal year. Property value data was provided by the Department of Finance and Administration, Local Government Division, Financial and Property Tax Data by County and Municipality. Per capita information is based upon population data located in the Demographics and Economic Statistics schedule.

Note: The State of New Mexico passed the Accountability in Government Act, NMSA 6-3A, in 1999. Efforts have been made in identifying and determining performance measurements since that time. Agencies began tracking and calculating these performance measurements beginning in fiscal year 2004; therefore, we are only able to provide five fiscal years of operating indicators at this time. These operating indicators will continue to be tracked in the future in order to reach a ten year historical comparison.

N/A¹ Measure deleted in FY09 and replaced by different criteria.

OTHER REPORTS

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Honorable Susana Martinez, Governor of the State of New Mexico
Ms. Duffy Rodriguez, Acting Secretary of the New Mexico Department of
Finance and Administration,
Mr. Ronald C. Spilman, State Controller of the New Mexico Department
of Finance and Administration, and
Mr. Timothy Keller, New Mexico State Auditor

We were engaged to audit, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Mexico (State), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the State's basic financial statements and have issued our report thereon dated June 7, 2017. Our report disclaims opinions on such financial statements because of the matters described in the "Bases for Disclaimer of Opinions on All Opinion Units" paragraph in our report starting on page 2.

Internal Control Over Financial Reporting

In connection with our engagement to audit the financial statements of the State, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses.

The Honorable Susana Martinez, Governor of the State of New Mexico
Ms. Duffy Rodriguez, Acting Secretary of the New Mexico Department of
Finance and Administration,
Mr. Ronald C. Spilman, State Controller of the New Mexico Department
of Finance and Administration, and
Mr. Timothy Keller, New Mexico State Auditor

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses. 2016-001, 2013-002 and 2013-005.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as item 2015-001.

The State's Responses to Findings

The State's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The State's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings

2013-002 - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) - Repeated

Condition: During the FY13 audit of the State's financial statements, significant issues surrounding the reporting and recording of interfund/internal/intra-entity balances and transactions were identified. While improvement related to the reporting and recording of interfund/internal/intra-entity balances and transactions was observed during the FY14, FY15, and FY16 audits, accounting for interfund/internal/intra-entity balances and transactions remain problematic. The most significant issues regarding interfund/internal/intra-entity transactions and balances are summarized below:

- Interfund/Internal Activity and Balances
 - The State was unable to reconcile all interfund transfers among entities that report within SHARE with supporting documentation for the period in which the transfers were recorded. In addition, there is uncertainty as to the completeness of transfer activity among all components of the State.
 - Educational Institutions which are part of the primary government and are reported as within the State's Proprietary fund interact with other agencies of the State on a regular basis. Educational Institutions accounting activity is supported by ERP software other than SHARE. The State does not have an effective process to identify and eliminate payables/receivables between these proprietary funds and other funds of the State.
 - During the preparation of the State's financial statements, numerous components' funds are consolidated into single funds of the State. During the consolidation process numerous balances should be reclassified or eliminated to avoid the error of counting a transaction more than once which would affect assets and liabilities within the consolidated fund. Additionally, transfers should also be eliminated when they are among funds that are consolidated. The State doesn't have a reliable process to eliminate or reclassify all balances and activities of funds that are consolidated into a common fund on the State's financial statements. Furthermore, the State doesn't have a process to identify any federal/state funds that are passed through from one fund to another at the business unit level, yet consolidated at the State level, which may result in federal revenues and related expenses that are counted multiple times in the financial statements.
 - Although the State has implemented controls at the stand-alone Department level as it relates to recording inter-agency activity, it has been identified that year-end audit entries can be recorded into SHARE without a related fund/fund affiliate. This creates interagency payables and receivables that don't balance. This was identified by the State during the reconciliation process and required an adjustment.
 - The net transfers on the statement of activities between governmental activities and business-type activities should net to \$0, however, the net amount incorrectly reports \$253M.

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings (Continued)

2013-002 - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) – Repeated (Continued)

- Intra-Entity Activity and Balances
 - The State does not have a process to ensure the reporting of all receivables and payables between the primary government and component units are accurately reflected in the State's financials as required.

Management's Progress for Repeat Findings: The issues described in this finding can be traced to the historical independence and financial reporting latitude afforded state reporting units. In the past, accounting and financial reporting activities have concentrated on internal reporting and transaction recognition and have not considered related party impact. Additionally, agency audits have not tested interface impacts of these transactions. Addressing the highlighted concerns will require a review and understanding of the primary government's material internal transactions and interfaces and possibly necessitate a redesign of the accounting structure and points of revenue recognition. Agencies will need to take ownership for ensuring consistent accounting for related party transactions. Assuming the state continues to employ agency audits, there will also be a need to extend audit testing to the interface of this type of transaction to ensure consistent accounting. To address the concerns noted, a comprehensive and continuing training program will need to be developed and presented to heighten awareness of the interfund reporting requirements. All of these steps will require a significant commitment of resources both within DFA and at the agency level.

Criteria: Per Section 6-5-2 NMSA 1978, the (Financial Control) Division shall maintain a central system of state accounts and shall devise, formulate, approve, control and set standards for the accounting methods and procedures of all state agencies ("state agency" means any department, institution, board, bureau, commission, district or committee of the government of the state and means every office or officer of any of the above). The Division shall prescribe procedures, policies and processing documents for use by state agencies in connection with fiscal matters and may require reports from state agencies as may be necessary to carry out its duties and functions. In addition, Section 6-5-2.1 NMSA 1978 requires the Division to conduct all central accounting and fiscal reporting for the state as a whole and produce interim statewide financial reports and the state's comprehensive annual financial statements, which should be prepared in accordance with generally accepted accounting principles.

Per NCGAS 1 Governmental Accounting and Financial Reporting Principles

- Transfers should be recognized in the accounting period in which the interfund receivable and payable arise and requires that a government accrue a governmental fund liability and expenditure for most expenditures and transfers in the period in which the government incurs the liability. Furthermore, transfers of financial resources among funds should be recognized in all funds affected in the period in which the interfund receivable(s) and payable(s) arise.

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings (Continued)

2013-002 - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) – Repeated (Continued)

Per GASB 34 Para 112

- Nonreciprocal interfund activity is the internal counterpart to nonexchange transactions. It includes: (1) Interfund transfers—flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. This category includes payments in lieu of taxes that are not payments for, and are not reasonably equivalent in value to, services provided. In governmental funds, transfers should be reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers. In proprietary funds, transfers should be reported after non-operating revenues and expenses.

Per GASB 34 Para 58

- Amounts of receivables and payables between the primary government and fiduciary funds are reported as receivable from and payable to external parties.

Per GASB 34 Para 57

- Paragraph 57 States “In the process of aggregating data for the statement of net position and the statement of activities, some amounts reported as interfund activity and balances in the funds should be eliminated or reclassified.” This same approach should be applied at the fund financial statement level.

Per GASB 34 Para 61

- Resource flows (except those that affect the balance sheet only, such as loans and repayments) between a primary government and its discretely presented component units should be reported as if they were external transactions—that is, as revenues and expenses. However, amounts payable and receivable between the primary government and its discretely presented component units or between those components should be reported on a separate line.

Per GASB 34 Para 69

- Fiduciary fund reporting focuses on net assets and changes in net assets. Fiduciary funds should be used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. The fiduciary fund category includes pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds, and agency funds. The three types of trust funds should be used to report resources held and administered by the reporting government when it is acting in a fiduciary capacity for individuals, private organizations, or other governments. These funds are distinguished from agency funds generally by the existence of a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings (Continued)

2013-002 - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) – Repeated (Continued)

Per GASB 34 Para 128

- In addition to the financial statement information required by paragraph 126, the notes to the financial statements should disclose, for each major component unit, the nature and amount of significant transactions with the primary government and other component units.

Cause: Historically, financial reporting for the State has been de-centralized and each component of the State has established its own policies and procedures regarding the accounting treatment of interagency transactions, without regard for the State's financials as a whole. The State Financial Reporting and Accountability Bureau (SFRAB) within the Financial Control Division, as the oversight entity, initially began establishing and communicating policies and procedures with all components of the State to ensure transactions are recorded in a consistent manner and that the necessary information was transmitted to the SFRAB beginning in 2014. Additional policies and procedures continue to be developed.

Effect: The State is unable to properly prepare timely financial statements in accordance with generally accepted accounting principles. These issues led to the opinion modifications on the State's financial statements.

Auditors' Recommendation: We recommend the SFRAB continue to evaluate the nature of all significant transactions among the various components of the State that comprise the interfund/internal/intra-entity activity and balances within the State's financial statements and 1) determine the proper accounting treatment for the various types of transactions; 2) develop policies and procedures for all of these related transactions, which include proper recording in SHARE and year-end reporting packages from the non-SHARE entities; 3) communicate these procedures to all components of the State; and 4) establish procedures to monitor this activity monthly, which allow the SFRAB and the components to identify and address differences in these transactions among the components in a timely manner. In addition, the SFRAB shall establish procedures for properly consolidating and eliminating these transactions in the State's financial statements to properly report interfund/internal/intra-entity balances and activity for the State as a whole. This would include establishing procedures for identifying valid timing differences which may exist between components and which would be reconciling items between the State's financial statements and the component level financial statements.

Management's Response: Management agrees with the finding. While revisions to and improvements in business processes and accounting requirements have occurred over the last four years they have not addressed all the underlying factors that prevent production of fully auditable and compliant financial statements. The State remains too dependent upon inspection and post transaction reconciliation to validate data. It is recognized that proper transaction classification and subsequent eliminations can only be achieved if transactions are properly identified and consistently classified initially. The State's current

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings (Continued)

2013-002 - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) – Repeated (Continued)

financial construct of requiring the audit of agency or sub entity level financial statements has fostered an environment and perception of agency independence from the primary governments' statements which has obfuscated related party transactions. After many attempts to remediate the issue by modifying the underlying accounting requirements while retaining the existing conceptual framework, it has become evident that there is a need for a fundamental and comprehensive redesign of the State's financial accounting framework, reporting model and related processes. Such an effort would include simplifying organizational structure, standardizing business and reporting processes and possibly eliminating production of audited agency level financial statements for a majority of the agencies and modifying sub entity level audit requirements to be a compliance audit. Given the multitude of embedded processes, conventions, inter departmental activities and legacy supporting systems, development and implementation of a streamline model will be a significant effort.

The Statewide Financial Reporting and Accountability Bureau within the Financial Control Division will lead the effort; however, this five person unit will need the support of the impacted accounting and financial reporting organizations of all entities that make up the primary government. The breadth and depth of the effort will require the additional professional resources and services too. The envisioned redesign will impact the audit function, which will need to be modified to test accuracy of recorded transactions between related parties, and to address the timeliness issue there may be a need to move to a stand-alone CAFR audit. Closure of this finding will take a number of cycles and with fiscal year 2017 currently closing the earliest any relief could be expect would be in fiscal year 2018 with fiscal year 2019 being more likely.

2013-005 Internal Control over Financial Reporting (Material Weakness) - Repeated

Condition: During the audit we evaluated the State's internal controls over financial reporting, which revealed that the State's internal controls over financial reporting were not adequate to ensure preparation of financial statements for the State in accordance with generally accepted accounting principles. The following are some of the issues encountered during the audit, which illustrate the need for enhanced controls over financial reporting for the State in preparing financial statements in accordance with generally accepted accounting principles and the New Mexico State Audit Rule:

- The SFRAB is unable to properly prepare timely and accurate financial statements for the State in accordance with generally accepted accounting principles.
- The SFRAB lacks a comprehensive documented policies and procedures related to the processes used in preparing the State's financial statements.

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings (Continued)

2013-005 Internal Control over Financial Reporting (Material Weakness) – Repeated (Continued)

- State Financial Reporting has historically been de-centralized, in which the individual audited entities of the State have determined the accounting treatment, timing and recognition of transactions, and when implementation of new GASB statements would occur. The de-centralized approach fosters inconsistencies across agencies and complicates the State's financial statement consolidation process when transactions are consolidated into a single report for the State.
- We noted instances of activity and balances within SHARE but not in the financial statements of an audited entity.
- Inconsistent use among funds in the presentation of interests in the local government investment pool. In some funds this was separately classified, while other funds it was either included in cash/cash equivalents or investments.
- Excessive number of entity-level restatements and audit adjustments/reclassifications identified by the SFRAB and the auditors during the audit. In addition, there are amounts included in the restated balances related to the government-wide net position, general fund, and education institutions were not substantiated and could not be vouched to underlying documentation.
- During our review of the State's financial statements, various inconsistencies and/or misclassifications were identified and remain uncorrected.
- The State has not considered and prepared all necessary consolidating/eliminating journal entries required in the State's financial statements.
- Although the State identified an additional component unit, a component unit related to one of the Educational Institutions was not initially included. The component unit was subsequently included by the State.

Management's Progress for Repeat Findings: The issues described in this finding can be traced to the historical independence and financial reporting latitude afforded state reporting units. In the past, accounting and financial reporting activities have concentrated on internal reporting and transaction recognition and have not considered related party impact. Additionally, agency audits have not tested interface impacts of these transactions. Addressing the highlighted concerns will require a review and understanding of the primary government's material internal transactions and interfaces and possibly necessitate a redesign of the accounting structure and points of revenue recognition. Agencies will need to take ownership for ensuring consistent accounting for related party transactions. Assuming the state continues to employ agency audits, there will also be a need to extend audit testing to the interface of this type of transaction to ensure consistent accounting. To address the concerns noted, a comprehensive and continuing training program will need to be developed and presented to heighten awareness of the interfund reporting requirements. All of these steps will require a significant commitment of resources both within DFA and at the agency level.

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings (Continued)

2013-005 Internal Control over Financial Reporting (Material Weakness) – Repeated (Continued)

Criteria: Per Section 6-5-2 NMSA 1978, the Division shall maintain a central system of state accounts and shall devise, formulate, approve, control and set standards for the accounting methods and procedures of all state agencies ("state agency" means any department, institution, board, bureau, commission, district or committee of the government of the state and means every office or officer of any of the above). The Division shall prescribe procedures, policies and processing documents for use by state agencies in connection with fiscal matters and may require reports from state agencies as may be necessary to carry out its duties and functions. In addition, Section 6-5-2.1 NMSA 1978 requires the Division to conduct all central accounting and fiscal reporting for the state as a whole and produce interim statewide financial reports and the state's comprehensive annual financial statements, which should be prepared in accordance with generally accepted accounting principles.

Cause: As identified in the FY13 audit, a primary factor contributing to the issues identified with the State's financial statement preparation process, is the cumbersome process used to produce the State's financial statements, which was improved for FY15 and FY16 with the implementation of Hyperion. Although the SFRAB has been addressing the issues identified during the previous audits, the State's financial reporting is still very de-centralized among all components that are included in the State's financial statements. The process to standardize the various inconsistencies among the component financial information is a very time consuming component of the financial preparation process.

Effect: The State of New Mexico is unable to properly prepare financial statements in accordance with generally accepted accounting principles in a timely manner. Furthermore, these issues led to the opinion modifications on the State's financial statements.

Recommendation: Although the State faces many challenges in its effort to resolve the issues identified with the financial reporting process we did observe that improvement has been over the past several years. Furthermore, we recognize that the process to completely address the deficiencies in the reporting process will be gradual and evolutionary in nature consisting of constant refinements of the processes, procedures and system configuration over time. With the implementation of Hyperion for FY15/FY16, we recommend the SFRAB continue to improve on using the full functionality of the system to eliminate as many of the manual processes as possible. In addition, the SFRAB should attempt to prioritize the issues with the State's financial reporting process and establish appropriate controls and procedures to resolve each deficiency in the reporting process.

Management's Response: Management agrees with this finding. The State historically has employed a decentralized approach to the financial statement preparation process and relied on agency or sub entity level audited financial statements. In many cases these statements misclassified transaction with related internal parties as external activities which adversely impacted statewide financial reporting. In 2014, after the FY13 audit, the State began to modify and develop accounting policies and procedures to facilitate CAFR preparation.

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings (Continued)

2013-005 Internal Control over Financial Reporting (Material Weakness) – Repeated (Continued)

With a focus on enhancing data integrity and traceability, SHARE became the ultimate book of record for all State agencies in FY14, with all financial statements contained in the independent stand-alone audits matched the financial data in SHARE in FY15. The State also purchased, configured and implemented the Hyperion Financial Reporting software to assist with the preparation of the CAFR. This has facilitated the CAFR production and provided improved documentation. Additionally, there have been enhancements to systematic accounting transaction validation. All of this has improved the quality of the CAFR, however there are still too many misaligned transactions at the sub entity level to enable the expeditious and fully auditable production of the State CAFR. After numerous attempts to patch the existing accounting model it appears that to reach the level of performance necessary will require a fundamental redesign of the State's accounting, financial reporting and auditing model. Given the magnitude and number of entities this undertaking will require it will take a number of years to design, implement and reach a steady state, however there is a need for a fundamental and comprehensive review and subsequent redesign of the state's sub entity accounting processes to address the identified issues.

The Statewide Financial Reporting and Accountability Bureau within the Financial Control Division will lead the effort; however, this five person unit will need the support of the impacted accounting and financial reporting organizations of all entities that make up the primary government. The breadth and depth of the effort will require the additional professional resources and services too. The envisioned redesign will impact the audit function, which will need to be modified to test accuracy of recorded transactions between related parties, and to address the timeliness issue there may be a need to move to a stand-a-lone CAFR audit. Closure of this finding will take a number of cycles and with fiscal year 2017 currently closing the earliest any relief could be expect would be in fiscal year 2018 with fiscal year 2019 being more likely.

2016-001 Separately Issued Department Financial Statements (Material Weakness)

Condition: Fiscal year 2013 was the first year in which the State's CAFR was audited. During the 2013 audit and each subsequent audit, numerous issues have been reported. The following has been reported as an element in finding 2013-005 of the 2013, 2014, and 2015 audits:

“State Financial Reporting has historically been de-centralized, in which the individual audited entities of the State have determined the accounting treatment, timing and recognition of transactions, and when implementation of new GASB statements would occur. The de-centralized approach fosters inconsistencies across agencies and complicates the State's financial statement consolidation process when transactions are consolidated into a single report for the State. “

While this has been a known issue, the magnitude and significance of the impact on the State's CAFR and the related stand-alone department reports became more apparent during the 2016 audit.

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings (Continued)

2016-001 Separately Issued Department Financial Statements (Material Weakness) (Continued)

During the State's consolidation process and preparation of the State's CAFR, there are instances of balances and activity that are reported in multiple department financial statements. In addition, there are numerous instances of fund classifications in department financial statements that are not consistent with the final classification in the State's CAFR. In addition, the State has not established a process that adequately evaluates the balances and activities of all fiduciary funds reported in the department financial statements and whether the transactions in these funds actually represent assets of the State or assets held by the State in a fiduciary capacity for external parties.

The inconsistencies among the department financial statements and with the State's CAFR have been historically corrected with consolidation/elimination entries when preparing the State's CAFR, which would reflect the balances and activities of the entire reporting entity (the State).

During the 2016 audit, it was determined that the inconsistencies among department financial statements and the State's CAFR represent differences in accounting policies being applied to the various financial statements, as a result the department financial statements and State CAFR are in conflict. Without establishing and applying clear and consistent accounting policies across all components of the State, the State's auditors are unable to obtain sufficient audit evidence to express an opinion on the State's financial statements.

Criteria: The State's CAFR represents the reporting of an entire reporting entity, whereas any of the department financial statements of the State only report financial information for the individual components of the State or that is they report less than the entire legal reporting entity. The State CAFR is not a consolidation of the various department financial statements and the department financial statements should derive from and report the same information as the State's CAFR.

Cause: State Financial Reporting has historically been de-centralized, in which the individual audited entities of the State have determined the accounting treatment, timing and recognition of transactions, and when implementation of new GASB statements would occur. The de-centralized approach fosters inconsistencies across agencies and complicates the State's financial statement consolidation process when transactions are consolidated into a single report for the State.

Effect: Without established accounting policies or the application of consistent accounting policies, transactions and account balances may not be appropriately allocated among agencies and sufficient audit evidence can't be obtained in which to express an opinion on the State's CAFR.

Recommendation: The State should evaluate balances and activities being reported in each separately issued department financial statements and assess how those balances and activities will ultimately be reported in the State's CAFR. Based on this assessment the State should instruct agencies regarding the proper reporting of account balances and transactions and ensure the reporting in the department financial statements is consistent with the reporting and classification in the State's CAFR.

Management's Response: The scope of the effort required to address this issue is significant and will touch 160 individually audited entities. Historically, the focus of financial reporting has been at the agency and fund level. As a result, many of the accounting conventions used, while rational at a parochial level, were neither fully aligned with GAAP or proper from a state-wide perspective. To

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Financial Statement Findings (Continued)

2016-001 Separately Issued Department Financial Statements (Material Weakness) (Continued)

become compliant with the guidance received from the Governmental Accounting Standards Board, the state will need to undertake a comprehensive review of its business activities assessing the appropriate basis of financial reporting at the state-wide level. Then, acknowledging the State's desired to issue audited department level financial statements, there will be a need to determine how and which agency will report the same transactions within the departmental level statements using identical accounting treatment. This effort has the potential of causing significant revisions to the financial statements of many of the Department's currently producing audit financial reports and may require a number of financial restatements. Additionally, the level of accounting and financial reporting independence previously exercised by these departments will be eliminated, as this is the only viable way of producing consistent financial statements.

As noted earlier, there is also a need to assess the continued use of the group audit concept for CAFR production. Reliance on the group audit process, which depends upon the completion of multiple department level audits, delays initiation of the CAFR. In most years, the consolidation process cannot commence until after the start of the new calendar year, some 200 days after the close of the fiscal year. There are compelling reasons to investigate the feasibility of a single full scope CAFR audit beginning as early as 90 days after the close of the fiscal year accelerating process initiation by over 100 days. Adoption of this process would also aid in the ensuring an appropriate level of materiality is used in the production of the financial statements.

The Statewide Financial Reporting and Accountability Bureau within the Financial Control Division will lead the effort; however, this five person unit will need the support of the impacted accounting and financial reporting organizations of all entities that make up the primary government. The breadth and depth of the effort will require the additional professional resources and services too. The envisioned redesign will impact the audit function, which will need to be modified to test accuracy of recorded transactions between related parties, and to address the timeliness issue there may be a need to move to a stand-a-lone CAFR audit. Closure of this finding will take a number of cycles and with fiscal year 2017 currently closing the earliest any relief could be expect would be in fiscal year 2018 with fiscal year 2019 being more likely.

Compliance and Other Matters

2015-001 Late Submission of Audit Report (Compliance and Other Matters)

Condition: The audit report for the CAFR for the year ended June 30, 2016 was not submitted by the due date of February 15, 2017.

Criteria: Audit reports not received on or before the due date are considered to be in non-compliance with the requirements of Section 2.2.2.9.A of the State Audit Rule.

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Compliance and Other Matters (Continued)

2015-001 Late Submission of Audit Report (Compliance and Other Matters) (Continued)

Management's Progress for Repeat Findings: The issues described in this finding can be traced to the historical independence and financial reporting latitude afforded state reporting units. In the past, accounting and financial reporting activities have concentrated on internal reporting and transaction recognition and have not considered related party impact. Additionally, agency audits have not tested interface impacts of these transactions. Addressing the highlighted concerns will require a review and understanding of the primary government's material internal transactions and interfaces and possibly necessitate a redesign of the accounting structure and points of revenue recognition. Agencies will need to take ownership for ensuring consistent accounting for related party transactions. Assuming the state continues to employ agency audits, there will also be a need to extend audit testing to the interface of this type of transaction to ensure consistent accounting. To address the concerns noted, a comprehensive and continuing training program will need to be developed and presented to heighten awareness of the interfund reporting requirements. All of these steps will require a significant commitment of resources both within DFA and at the agency level.

Cause: While there were numerous reasons for the untimely submission of the State CAFR, the two primary causes for delinquent submission were the timing of the receipt of agency audited financial statements and the extensive amount of work performed by the SFRAB on numerous agency financial statements from the time of release of the reports from the State Auditor and continuing throughout the preparation of the State's financial statements.

Effect: Non-compliance with the State Audit Rule; and the users of the State's financial statements did not receive the financial information in a timely manner.

Recommendation: We recommend the State continue its efforts in improving the financial reporting process by working with State Financial Reporting Entities and the State Auditor to allow for timely submission in subsequent years. However, we also recognize the challenges with meeting the submission deadline with the current structure of financial reporting of the State and the process that includes waiting for the completion and release of each separately issued financial statements for each component of the State.

Management's Response: Management agrees that timely issuance of financial statements enhances reporting usefulness and is fundamental requirement. Historically the State's CAFR has been prepared by aggregating the financial statements of the more than 125 primary government agencies, 10 educational institutions designated under the constitution and numerous discrete component units of the State upon conclusion of their independent audits. The audit of the CAFR has applied the group audit concept and is dependent on the results and timeliness of the underlying audits of the each sub-level entity. As a result, the consolidation cannot commence in earnest until all the individual audits have been complete and all identified sub-level entity audit adjustments made. In many cases the identified adjustments are not material to the CAFR, however since materiality is based on the sub-level entity's financial statements

STATE OF NEW MEXICO

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2016

Compliance and Other Matters (Continued)

2015-001 Late Submission of Audit Report (Compliance and Other Matters) (Continued)

they must be processed to allow for constancy with and reliance on the independent auditors opinion. For the current fiscal year, the last agency adjustments occurred in March 2017, 30 days after this years' required submission date. While actions to automate the production of the CAFR and steps to expedite completion and release of the underlying agency audits, including advancing the submission date for audited sub entity financial statements by the Office of the State Auditor (OSA) have accelerated release of the CAFR by over a month, we were unable to meet the established February 15 due date. Additionally while further acceleration steps are planned in FY17, it has become obvious that use of the group audit concept, while cost effective, will not enable the State to meet the December 31, 2017 submission date implemented by the Office of the State Auditor for the FY17 CAFR.

It has become apparent that use of the group audit concept will not allow the State to meet the more aggressive timeline and the only feasible option to successfully meet the December 31 deadline is to have the State CAFR prepared and audited in its totality beginning in October. While impact on and coordination of the individual sublevel entity audits would need to be addressed, progressing a State entity level audit beginning five to six months earlier than the current process provides the greatest probability of meeting the deadline. Additionally this approach will be more costly than the current approach that uses the results of the sub entity audits, however some of incremental cost could be offset if agency audits transitioned from full financial statement audits to compliance and federal single audits.

The Statewide Financial Reporting and Accountability Bureau within the Financial Control Division will lead the effort; however, this five person unit will need the support of the impacted accounting and financial reporting organizations of all entities that make up the primary government. The breadth and depth of the effort will require the additional professional resources and services too. The envisioned redesign will impact the audit function, which will need to be modified to test accuracy of recorded transactions between related parties, and to address the timeliness issue there may be a need to move to a stand-a-lone CAFR audit. Closure of this finding will take a number of cycles and with fiscal year 2017 currently closing the earliest any relief could be expect would be in fiscal year 2018 with fiscal year 2019 being more likely.
