MISSION AND VALUE STATEMENTS

Providing a Stable Lifetime Benefit to Members Through Leadership, Integrity and Quality Customer Service

Stewardship

- Making sound decisions to achieve the retirement fund's objectives.
- Demonstrating the ability to meet our long-term obligations.
- Meeting financial performance measures.

Leadership

- Focusing on employees' strengths and capabilities while maintaining accountability.
- Communicating and implementing the agency's strategic plan.

Integrity

- Earning the confidence of others by being dependable, honest and trustworthy.

Customer Service

- Anticipating and meeting the needs of our customers.
- Delivering quality services with a commitment to continuous improvement.
- Communicating effectively with our customers.

PERA BOARD CHAIR LETTER

November 20, 2017

Dear PERA Members:

On behalf of the PERA Board of Trustees, I am pleased to present the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017. This report provides information about the financial and actuarial status of PERA along with information regarding our membership.

Approximately 92 percent of PERA's benefit payments are made to members that reside in New Mexico after retirement thereby providing an important source of economic activity in our state and our local communities. In 2017, PERA paid \$1.10 billion in benefits to PERA retirees and beneficiaries.

As you will discover upon review of the information contained within the following pages, PERA's net position was \$15.6 billion for the year ended June 30, 2017, an increase of \$1.0 billion from the prior fiscal year. The PERA Board continues to monitor the results of the recent significant pension reforms for the Judicial and Magistrate plans, as well as pension reform for the major PERA plans. PERA's investments generated a return of 11.10 percent for the year ending June 30, 2017. This investment return is below PERA's expected return assumption of 7.25 percent.

The PERA Board takes its fiduciary responsibility very seriously and will continue to work to preserve and protect the Fund and the benefits provided to our members. The Board is committed to the long-term sustainability of all of our plans and to providing a secure retirement for public employees throughout New Mexico.

The Board appreciates your support while the results of the recent legislative reforms are analyzed to ensure that the Fund continues on a sustainable path to long term solvency.

We are honored to serve as your representatives and pledge our best efforts to continue to prudently manage the PERA Fund and provide retirement security for current and future generation of public employees in New Mexico.

Sincerely,

A handwritten signature in cursive script that reads "Daniel J. Mayfield".

EXECUTIVE DIRECTOR'S LETTER

November 22, 2017

To: Board of Trustees and Members of the New Mexico
Public Employees Retirement Association

The New Mexico Public Employees Retirement Association (PERA) is pleased to present this Comprehensive Annual Financial Report (CAFR) for the Fiscal Year ended June 30, 2017 (FY17).

At PERA our primary mission is to serve our members and provide a stable, secure retirement to current and future generations of public officials.

PERA staff worked together to compile this CAFR, and management is responsible for the accuracy of the data, the completeness and fairness of the report and the presentation contained in this report. To the best of our knowledge, the report is materially accurate and fairly presents the financial position and results of operations of PERA. The report includes all retirement plans administered by PERA, covering the following plan types: State, Municipal, Legislative, Judicial, Magistrate and Volunteer Firefighters. This report is intended to provide complete and reliable information as a basis for making management decisions and complying with all federal and state laws and ensuring fiscal responsibility of PERA's assets.

PERA was established by statute in 1947. For further detail of the background of PERA, see the Notes to Financial Statements.

CAFR Contents

The CAFR is presented in five sections: introduction, financial, investment, actuarial and statistical. The introduction includes this transmittal letter, a letter from the Board Chair, PERA's organizational chart, and Member Service Communications.

PERA's transactions are reported on the accrual basis of accounting. Sufficient internal accounting controls exist to provide reasonable assurance regarding the fair presentation of the financial statements and supporting schedules.

The financial section was prepared in accordance with generally accepted accounting principles (GAAP), the reporting requirements described by the Governmental Accounting Standards Board (GASB) as well as requirements of the New Mexico State Auditor. The financial section features a Management's Discussion and Analysis (MD&A). GASB requires that a narrative introduction, overview and analysis to accompany the basic financial statements in the form of an MD&A. This letter of transmittal is designed to complement, and not duplicate, the MD&A and should be read in conjunction with it. The MD&A can be found in the financial section immediately following the report from PERA's independent auditor.

The Investment section provides a report on investment activities, policies, asset allocation, performance results and other yearly comparative portfolio information.

EXECUTIVE DIRECTOR'S LETTER (CONTINUED)

The Actuarial section details the funding status and other actuarial information for all of the funds that PERA administers. The actuarial section does not include net pension liability information that is required to be presented in the financial section under GASB 67, rather the actuarial section continues to focus on information used for funding purposes.

The Statistical section includes comparative financial and demographic information along with the Deferred Compensation information; providing the users of the CAFR with annual information for comparative analysis.

Economic Outlook

During Fiscal Year 2017, PERA's investment team generated a return of 11.10%. This was due to the fact that the fiscal year experienced a risk-on market rally. Non-US equity markets appreciated significantly, with a 24% gain for MSCI Emerging Markets index and a 21% gain for MSCI EAFE index. US equity markets were not far behind, with the S&P 500 index gaining 18%. Similarly, the Bloomberg Barclays High Yield Bond Index rallied 13%. NM PERA participated in these gains through our strategic asset allocation, while also paring the risk associated with owning richly-priced asset classes.

Declining trends in global economic and business fundamentals that drive returns earned by equity and fixed-income investors imply a sustained period of lower investment earnings than those enjoyed in recent decades. The Fund enters the next fiscal year better positioned for the current economic environment with the implementation of a new strategic asset allocation that was adopted in April 2016.

Summary of Financial Information

The following schedule is a summary of the Fund's additions and deductions for the years ended June 30, 2017 and June 30, 2016 (excluding the Deferred Compensation (IRC 457) Fund).

	<u>June 30, 2017</u>	<u>June 30, 2016</u>
Additions	\$ 2,134,296,458	\$ 647,331,966
Deductions	(1,156,949,961)	(1,095,910,370)
Net Change	\$ 977,346,497	\$ (435,847,682)

Additions increased from FY16 to FY17 by \$1,475,179,628 primarily due to an increase in net investment income. Deductions increased by \$61,059,752 primarily due to an increase in benefit payments for the year.

Plan Financial Condition

PERA's funding objective is to meet long-term benefit payments through contributions that are statutorily fixed as a percent of member payroll, and achieving a 7.25% annual Assumed Actuarial Investment Return. PERA's funded ratio slightly increased in comparison to last fiscal year as we ended the fiscal year at 74.9%, a 0.4% decrease. Additional information regarding the financial condition of the funds administered by PERA can be found in the Actuarial Section of this report.

EXECUTIVE DIRECTOR'S LETTER (CONTINUED)

Investment Activity

During Fiscal Year 2017 PERA had a positive investment year. PERA's investment portfolio produced a total return, gross of expenses, of 11.10% for the year ended June 30, 2017, more than the assumed actuarial investment return of 7.25% (see actuarial analysis below for further detail of change to discount rate). This resulted in net investment income of \$1.5 billion for the PERA funds

PERA is a long-term investor and our portfolio is constructed to weather financial storms through diversification and constant attention to our process to make improvements as needed. Additional information regarding the investment results for the year is included in the Investment Section of this report.

Actuarial Analysis

PERA's funding objective is to meet long-term benefit payments through contributions that are statutorily fixed as a percent of member payroll, and achieving the annual assumed actuarial investment return. The PERA Board adopted a change in the discount rate that was implemented in the June 30, 2016 actuarial valuations. A select and ultimate rate of return assumption has been adopted for funding purposes. The rate is 7.25% for the first 10 years (select period) and 7.75% for all other years (ultimate). The equivalent blended rate is 7.48% and will be used as the discount rate used to measure the total pension liability. The actuarial reports are prepared by Cavanaugh Macdonald LLP based on data provided by PERA. They also serve as a technical advisor to staff on actuarial issues. More detailed information for all the plans can be found in the Actuarial Section of this report.

GASB 67 Financial Reporting for Pension Plans

PERA implemented GASB 67 in FY 14. The Net Pension Liability (NPL) for the PERA fund (multi-employer cost sharing fund) for FY 17 is \$5.3 billion, a \$0.9 billion decrease compared to FY 16 of approximately \$6.2 Billion. The NPL for that fund will be allocated to the cost sharing employer participants that participate in that fund. More detailed information regarding the NPL, by fund, can be found in the Financial Section of this report in Note 12 and in the Required Supplementary Information.

Management Responsibility for Financial Reporting

PERA maintains a system of internal controls designed to provide reasonable assurance that assets are properly safeguarded, transactions are properly executed, and financial statements are reliable. In addition, PERA's Internal Audit firm provides a continuous review of the internal controls and operations of PERA, and the Internal Audit Firm regularly reports to the PERA Board through its Audit and Budget Committee (Committee). The objective of internal control is to provide reasonable, not absolute, assurance that the financial statements are free of material misstatements; PERA maintains internal controls to provide reasonable assurance that control objectives are met. The Committee reviews the audit results and recommendations for improvements in internal control and operational efficiency and the actions of management to implement such recommendations.

The internal control system includes the organizational plan, segregation of duties, sound accounting practices in the performance of duties and, knowledgeable personnel. PERA believes the internal controls during FY17 were appropriate and provide reasonable assurance regarding the proper recording of financial transactions.

EXECUTIVE DIRECTOR'S LETTER (CONTINUED)

Recognition of Achievements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to PERA for its CAFR for the year ended June 30, 2016. This is the 15th consecutive year that PERA has achieved this award.

The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting. Whether directly or indirectly, every division of PERA contributed to the content of the CAFR report. The attainment of this Certificate of Achievement represents a significant accomplishment by PERA employees.

A Certificate of Achievement is valid for a period of one year only. We believe that this year's CAFR continues to meet this standard and will be submitting it to the GFOA to determine its eligibility for another certificate.

Independent Audit

An annual audit of PERA's Financial Statements has been performed this year by the independent accounting firm of CliftonLarsonAllen, LLP. The auditors' report on the financial statements is included in the Financial Section of this report. CliftonLarsonAllen incorporated the audit done by Eide Baily, LLP in regard to the Deferred Compensation (IRC 457b) Fund, which PERA also administers.

Conclusion

This report is a product of the combined efforts of the PERA staff functioning under the Board's direction. It is intended to provide complete and reliable information that will facilitate the management decision-making process, serve as a means for determining compliance with legal requirements, and allow for the evaluation of responsible stewardship of the PERA Fund.

Sincerely,

Wayne Propst

INDEPENDENT AUDITORS' REPORT

Members of the Retirement Board
Public Employees Retirement Association of New Mexico
and Mr. Timothy M. Keller
New Mexico State Auditor

Report on the Financial Statements

We have audited the financial statements of the Public Employees Retirement Fund, Judicial Retirement Fund, Magistrate Retirement Fund, Volunteer Firefighters Retirement Fund, and the Deferred Compensation (IRC 457) Fund (collectively, the Funds) administered by the Public Employees Retirement Association of New Mexico (PERA), which comprise the Statement of Fiduciary Net Position as of June 30, 2017, and the related Statement of Changes in Fiduciary Net Position for the year then ended, and the related Notes to the Financial Statements, as listed in the table of contents. We have also audited the Schedule of Revenues, Appropriation, and Expenses - Budget and Actual for the Public Employees Retirement Fund Only, presented as supplementary information, as defined by the Government Accounting Standards Board, in the accompanying financial statements for the year ended June 30, 2017, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the State of New Mexico Public Employees' Deferred Compensation Plan, which represents 100% of the total assets, net position held in trust for pension benefits, and increase in net position of the accompanying statement of fiduciary net position and statement of changes in fiduciary net position of the Deferred Compensation (IRC 457) Fund. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Deferred Compensation (IRC 457) Fund, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the

AUDITOR'S LETTER

Members of the Retirement Board
Public Employees Retirement Association of New Mexico
and Mr. Timothy M. Keller
New Mexico State Auditor

Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the net position of PERA as of June 30, 2017, and the respective changes in its net position for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, based on our audit and the report of other auditors, the individual financial statements of each Fund referred to above present fairly, in all material respects, the financial position of each of the individual Funds administered by PERA as of June 30, 2017 and the respective changes in financial position and the Schedule of Revenues, Appropriations and Expenses - Budget and Actual for the Public Employees Fund Only for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements of PERA are intended to present the fiduciary net position and changes in fiduciary net position of only that portion of the State of New Mexico which are attributable to the transactions of the Funds administered by PERA. They do not purport to, and do not present fairly the financial position of the State of New Mexico as of June 30, 2017, and the changes in its financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Correction of Error

As described in Note 16 to the financial statements of PERA, management has corrected errors related to contributions receivable and accounts payable not reversed during previous periods. Our opinion is not modified with respect to this matter.

AUDITOR'S LETTER

Members of the Retirement Board
Public Employees Retirement Association of New Mexico
and Mr. Timothy M. Keller
New Mexico State Auditor

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedules of Changes in Net Pension Liability – PERA Fund, Changes in Net Pension Liability – Judicial Fund, Changes in Net Pension Liability – Magistrate Fund, Changes in Net Pension Liability – VFF Fund, Net Pension Liability – All Funds, Employer Contributions – All Funds, and Investment Returns, and related Notes, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on PERA's financial statements. The accompanying schedule of administrative and investment expenses and exit conference (supplementary information) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

AUDITOR'S LETTER

Members of the Retirement Board
Public Employees Retirement Association of New Mexico
and Mr. Timothy M. Keller
New Mexico State Auditor

The Introductory, Investment, Actuarial, and Statistical Sections, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 22, 2017 on our consideration of PERA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of PERA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering PERA's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Albuquerque, New Mexico
November 22, 2017

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Fiscal Year ended June 30, 2017

This discussion and analysis of the Public Employees Retirement Fund, the Judicial Retirement Fund, the Magistrate Retirement Fund, the Volunteer Firefighters Retirement Fund, and the Deferred Compensation (IRC 457) Plan (collectively, the "Funds") of the Public Employees Retirement Association of New Mexico (PERA) for the years ended June 30, 2017 and 2016 provides a summary of the financial position of the Funds, including highlights and comparisons.

PERA administers 31 different types of retirement coverage for affiliated public employers in the State of New Mexico. PERA is governed by a Board of Trustees consisting of two ex-officio members and ten members elected by the Association's membership. The Board serves as the trustee for the funds controlled by PERA and is authorized to invest the funds on behalf of PERA. The Board appoints an Executive Director to oversee daily operations of the agency.

PERA administers a qualified governmental plan under Section 401(a) of the Internal Revenue Code (IRC), which provides retirement, disability and survivor benefits pursuant to the Public Employees Retirement Act. The Public Employees Retirement Act, NMSA 1978 §§10-11-1 to 10-11-142, provides most of PERA's statutory authority. Additional statutory authority is contained in NMSA 1978 § 10-11A-1 et seq, NMSA 1978 § 10-12B-1 et seq, NMSA 1978 § 10-12C-1 et seq, and NMSA 1978 § 10-13A-1 et seq. Deferred compensation is governed by NMSA 1978 §§ 10-7A-1 to 10-7A-12 and the U.S. Internal Revenue Code § 457.

DEFINED BENEFIT FUND

PERA is a defined benefit plan which provides a benefit based on a fixed pre-established benefit for employees at retirement. Overall the retirement plan needs to balance the money coming in through investments income, contributions with the benefit payments and operating expenses going out.

Basic Retirement Equation

Investment Income + Contribution = Benefits Paid + Expense

The results for the last five years for the Change in Fiduciary Net Position (Basic Retirement Equation)

Change in Fiduciary Net Position (Last 5 - fiscal years)		
I -	Investment Income	\$ 5,460,363,080
C -	Contributions	2,876,023,430
C -	Other Income	29,616,863
	Subtotal	<u>\$ 8,366,003,373</u>
B -	Benefits	5,124,750,687
E -	Expenses	51,752,458
	Subtotal	<u>\$ 5,176,503,145</u>
	Change in fiduciary net position	<u>\$ 3,189,500,228</u>

Comparative Summary Statements

The Public Employees Retirement Association is comprised of four funds: PERA Fund, Judicial Fund, Magistrate Fund and Volunteer Firefighter Fund. The following tables for the year ended June 30, 2017 show the Summary of the net change in fiduciary net position for the four funds. These tables show the net change in the contributions, investment income, benefit payments and administrative expense by fund.

PERA

Additions:	2017	2016	Dollar Change	Percentage Change

INVESTMENTS HIGHLIGHTS

The purpose of the investments is to provide for long-term growth, while also ensuring a reliable cash flow that meets the funding requirements of the current pension obligations. The investments are allocated to a variety of asset types and strategies in order to meet the current funding needs and future growth for their long-term return and growth characteristics, while fixed income and debt-related investments are included in the allocation

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

For the Fiscal Year ended June 30, 2017

TIME – WEIGHTED RETURNS VS BENCHMARKS

As of June 30, 2017, the investments in the PERA Fund (or the Fund) returned 11.10% and generated investment gains of approximately \$1.5 billion net of investment fees and expenses. The Fund balance at the close of the fiscal year was approximately \$15.0 billion. Over the one-year and three-year measurement periods, the Fund has underperformed its benchmark return. The vast majority of the underperformance in the three-year period reflects changes made to the policy benchmark at the end of April 2016 for an updated strategic asset allocation. While the policy benchmark changes instantly, the implementation associated with adjustments to the asset allocation is a methodical process undertaken over a longer period. In particular, commitments to less liquid investments require additional time to identify appropriate strategies. Despite the recent underperformance, the PERA Fund continues to exceed its policy benchmark over longer time horizons.

Time Period	PERA Return	Benchmark Return	Excess Return
One-year	11.10%	11.68%	-0.58%
Three-year	4.39%	5.22%	-0.83%
Five-year	8.53%	8.50%	0.03%

ASSET ALLOCATION

The PERA investment committee took action during fiscal year 2016 adopt a new strategic asset allocation. The updated strategic asset allocation focuses on the role of each major asset category through various market cycles and better diversifies capital and risks across these strategies. The new target mix apportions assets to capture diversified return streams while reducing the expected volatility of the Fund, as a whole. The charts below detail the asset allocation for PERA investment portfolio and shows PERA's investment return compared to its policy benchmark.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

For the Fiscal Year ended June 30, 2017

STATUTORY CONTRIBUTIONS

Contributions are one piece of the Retirement Equation. The member and employer contributions rates are set in statute. See notes to the financial statements for the Detail Schedule of the Contribution Rates. Member contributions for the fiscal year decreased from \$633,978,740 in 2016 to \$614,098,005 in 2017.

Total Contribution by Fund

	Public Employee Retirement Fund	Judicial Retirement Fund	Magistrate Retirement Fund	Volunteer Firefighters Retirement Fund	Total
Employer Contributions	\$ 332,473,332	\$ 4,524,201	\$ 1,282,356	-	\$ 338,279,888
Employee Contributions	264,939,116	1,635,643	603,362	-	267,178,121
Purchased Services	7,889,996	-	-	-	7,889,996
Other	-	-	-	750,000	750,000
Net Investment Income	\$ 605,302,444	\$ 6,159,844	\$ 1,885,718	\$ 750,000	\$ 614,098,005

BENEFITS AND EXPENSE

Benefits are also another component of the retirement equation. At the end of the fiscal year 2017, PERA was paying benefits to more than retired public employees and their benefices. Benefit and expenses for the fiscal year increased from \$1,131,174,263 in 2016 to \$1,156,949,955 in 2017.

Total Deductions to the Fund

	Public Employee Retirement Fund	Judicial Retirement Fund	Magistrate Retirement Fund	Volunteer Firefighters Retirement Fund	Total
Benefit Payments	\$ 1,084,818,274	\$ 10,096,092	\$ 3,966,316	\$ 2,030,782	\$ 1,100,911,464

Total Deductions	\$ 1,140,700,190	\$ 10,175,871	\$ 3,991,320	\$ 2,082,574	\$ 1,156,949,955

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

For the Fiscal Year ended June 30, 2017

ACTUARIAL VALUATIONS

In FY17 PERA reported an Unfunded Actuarial Accrued Liability (UAAL) of \$5.07 billion, approximately \$251 million higher than the previous year. The slight increase in the UAAL was the result actuarial loss due to the investment experience and the loss non-investment related items. The return on the actuarial value of assets was 6.97% compared to an expected return of 7.25%.

Recent Governmental Accounting Standards Board (GASB) accounting changes (GASB 67 and GASB 68) have changed how an unfunded liability is calculated for accounting purposes and how it is reported on the financial statements of PERA's participating entities.

The table in the MD&A includes the Net Pension Liability as required under GASB 67. For further detail, please see Note 12 and required supplementary information specific to GASB 67, by fund.

Net Pension Liability by Fund

	PERA Fund	Judicial Fund	Magistrate Fund	Volunteer Firefighters Fund
Total Pension liability	\$20,068,143,304	\$176,290,693	\$65,627,669	\$48,502,745
Plan Net Position	14,798,917,909	89,616,194	32,225,122	66,400,768
Net Pension Liability /Asset	\$5,269,225,395	\$86,674,499	\$33,402,547	\$(17,898,023)
Ratio of plan net position of total pension liability	73.74%	50.83%	49.10%	136.90%

Actuarial assumptions—The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2016. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2017. These assumptions were adopted by the Board for use in the June 30, 2017 actuarial valuation.

STATE OF NEW MEXICO LEGISLATIVE CHANGES

During the State of New Mexico (53rd Legislature) in 2017, HB-002 was passed that reduced the State's distribution to the legislative retirement fund from \$75,000 a month to \$0.00 a month.

REQUEST FOR INFORMATION

Any questions regarding the financial statements of PERA should be directed to the Executive Director, at (505) 476-9301; Chief Investment Officer at (505) 476-9338, ASD Director at (505) 476-9304 or Chief Financial Officer at (505) 476-9313. All can be reached by mail at 33 Plaza La Prensa, Santa Fe, NM 87504. Further contact information is also located on PERA's website at <http://www.nmpera.org/>

NOTES TO THE FINANCIAL STATEMENT

June 30, 2017

NOTE 1. GENERAL DESCRIPTION OF THE ASSOCIATION AND RETIREMENT FUNDS

A. General

The Public Employee Retirement Association (“PERA”) was created by legislation enacted in 1947. PERA is the administrator of four retirement funds, including the Public Employees Retirement Fund, the Judicial Retirement Fund, the Magistrate Retirement Fund, and the Volunteer Firefighters Retirement Fund, offering an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators. The laws governing the administration of these funds are set forth in Chapter 10 of the New Mexico Statutes Annotated 1978 (“NMSA 1978”) and applicable Replacement Pamphlets. PERA also has limited administrative responsibilities with respect to the State of New Mexico Deferred Compensation Fund, as more fully discussed in Note 1(C). Collectively, the four retirement funds and the Deferred Compensation Fund are known as “Funds”.

PERA is directed by the Public Employees Retirement Board (the “Board”) which consists of twelve members. Ten of the twelve Board members are elected by PERA active and retired members under state, municipal and county coverage plans. Two of the twelve Board members, the Secretary of State and the State Treasurer, are ex-officio members.

B. Reporting Entity

PERA is an agency of the State of New Mexico. The funds administered by PERA are considered part of the State of New Mexico financial reporting entity and are pension trust funds of the State of New Mexico. The State of New Mexico Deferred Compensation Fund is also presented in the financial statements. See further detail and information on the Deferred Compensation Fund and how to obtain separate financial statements of the Deferred Compensation Fund in Note 1.C.

PERA applied the criteria established by GAAP to determine whether other state agencies, boards or commissions which benefit the members of PERA should be included within its financial reporting entity. The criteria include, but are not limited to, whether PERA exercises oversight responsibility on financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters, scope of public service, and special financing relationships. Based on these criteria, management of PERA has determined that no other such entities should be included in its financial reporting entity. PERA does not have any component units.

The State of New Mexico, Department of Finance and Administration (DFA) codes for the PERA funds are as follows:

Public Employees Retirement Fund SHARE fund #60600
Judicial Retirement Fund SHARE fund #60300
Magistrate Retirement Fund SHARE fund #60400
Volunteer Firefighters Retirement Fund SHARE fund #60700
Deferred Compensation Fund SHARE fund #75500

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

PERA does not receive General Fund Appropriations from the State of New Mexico. PERA is self-funded through investment income and therefore is a non-reverting fund. PERA did receive a special appropriation for fiscal year 2017 to administrator the Social Security program for the state. Based on the special appropriation PERA has reverted \$20,162 back to the General Fund.

C. Description of the Funds

Public Employees Retirement Fund is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

TIER II

The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credit equals at least 85 or at age 67 with 8 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II pension factors were reduced by .5%, employee contributions

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

increased 1.5 percent and effective July 1, 2014 employer contributions were raised .05 percent. The computation of final average salary increased as the average of salary for 60 consecutive months.

State Legislative Fund is a defined benefit pension plan that is a division accounted for under the Public Employees Fund. Eligibility for membership in the State Legislative Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, Section 43 and 43.5, NMSA 1978). State Legislators and lieutenant governors must elect to be a member no later than 180 days after first taking office to be covered under the State Legislative Plan.

Member contributions are \$500 for each year of service credit prior to 2012 session, and \$600 for each year of service credit beginning with the 2012 legislative session. Legislative service credit is earned each calendar year during which the member fulfills the obligations of the position of legislator for more than six months of the calendar year, including the legislative session. Legislators are not required to make a member contribution until after the legislative session has ended and after PERA verifies service credit. PERA invoices legislative members to cover member contributions for each legislative session after the session ends, which is normally July or August.

State funding for the State Legislative Fund is defined in Sections 10-11-43 and 10-11-43.5, NMSA 1978. The state is required to contribute sufficient amounts to finance the membership of members under state legislator coverage plan 2 on an actuarial reserve basis. The total actuarial determined amount for the State Legislative Fund for the fiscal year ended June 30, 2016 was determined by the actuary to be \$0. Actual funding/contributions historically have exceeded actuarial determined contributions. Regarding the source of funding, Section 7-1-6.43 of the Tax Administration Act states “A distribution pursuant to Section 7-1-6.1 NMSA 1978 shall be made to the legislative retirement fund in an amount equal to two hundred thousand dollars (\$200,000) a month or, if larger, one-twelfth of the amount necessary to pay out the retirement benefits due under state legislator member coverage plan 2 and Paragraph (2) of Subsection C of Section 10-11-42 NMSA 1978 for the calendar year.” During the State of New Mexico (53rd Legislature) in 2017, HB-002 was passed that reduced the State’s distribution to the legislative retirement fund from \$75,000 a month to \$0.00 a month.

Age and service requirements for retirement are age 65 or older with 5 or more years of service credit or any age with 10 or more years of service credit. Legislative members who meet retirement eligibility requirements receive annual pensions equal in any calendar year to 11% of the per diem rate in effect, pursuant to Section 2-1-8, NMSA 1978, on the first day of the calendar year that the legislator or lieutenant governor retires multiplied by 60 and further multiplied by credited service as a legislator or lieutenant governor. The per diem rate starting January 1, 2015 is \$165.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

Judicial Retirement Fund is a single employer defined benefit pension plan. Eligibility for membership in the Judicial Retirement Fund is set forth in 10-12B-4 NMSA 1978. Every judge or justice becomes a member in the Judicial Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. All assets accumulated for the payment of benefits may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of the Judicial Retirement plan.

For individuals that became a member of this plan prior to July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 60 to anyone having served at least 15 years. The annual pension amount for those members covered prior to July 1, 2005, is determined as 75% of the salary received during the last year in office prior to retirement multiplied by the number of years of service, not to exceed 10 years divided by 10. For individuals that become a member after July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 55 to anyone having served at least 16 years.

For those individuals who became a member of this plan subsequent to July 1, 2005, the annual pension amount is determined as 75% of salary received during the last year in office prior to retirement multiplied by 5% of the number of years in service, not exceeding fifteen years, plus five years or one-twelfth of the salary received during the last year in office prior to retirement multiplied by the product of three and seventy-five hundredths percent times the sum of the number of years of service; provided that a pension calculated shall not exceed seventy-five percent of one-twelfth of the salary received during the last year in office.

The retirement age and service credit requirements for normal retirement for judicial members who first take the bench on or after July 1, 2014 increased with the passage of House Bill 33 Substitute in the 2014 Legislative Session. Under the new requirements, judicial members are eligible to retire at age 65 with eight or more years of service or at age 60 with 15 or more years of service credit.

Effective July 1, 2014, judicial membership is mandatory, all judicial pension factors were reduced, employee and employer contributions increased 3 percent and the computation of final average salary increased as the average of salary for the 60 consecutive months. In addition, cost-of-living increases were suspended for two consecutive fiscal years and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded.

Early retirement provisions apply to members retiring between ages 50 and 60. The plan also provides for survivors' allowances and disability benefits. Members contribute at a rate of 10.5% of their salaries and the member's court contributes at a rate of 15% of the member's salary. Additionally, the district court contributes \$38 for each civil case docket fee paid in the district court, \$25 from each civil docket fee paid in metropolitan court and \$10 for each jury fee paid in metropolitan court. Contribution rates are established by State statute.

Certain changes took place under House Bill 33 and amends the Judicial Retirement Act (JRA) as follows:

Mandatory Membership

- Eliminates the ability for judges to exempt themselves from membership as an elected official.
- Requires those judges who have previously retired from another state system or the educational retirement system ("working retiree") to make nonrefundable "working retiree contributions" during their terms of office

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

as judges; working retirees will not be eligible to accrue a retirement benefit under the JRA.

- Judges who have previously retired from another state system or the educational retirement system will have their COLA suspended effective July 1, 2014 for the duration of their terms as magistrate.

Cost-of-Living Adjustment (COLA)

Establishes an independent COLA for judges and justices under the JRA, as follows:

- Suspends the COLA for all retired judges and justices for two years (July 1, 2014 and July 1, 2015).
- Beginning no later than May 1, 2016, PERA shall certify the projected funded ratio for the next succeeding year (based on the JRA Fund's prior year actuarial valuation).
- Effective July 1, 2016, provides all eligible retirees with a 2% compounding COLA if the Judicial Fund (Fund) is at or greater than the 100% funded ratio threshold and projected to continue to be at or above 100% for the next successive year.
- Suspends the cost-of-living adjustment (COLA) for judges and magistrates if the Funds' funded ratios fall below 100%. COLA suspensions shall only be implemented for two consecutive fiscal years.

Increased Employee Contributions

- Effective July 1, 2014, increases employee contributions 3% (from 7.5% to 10.5%);
- Effective July 1, 2014, increases employer contributions 3% (from 12% to 15%);
- Requires "non-member" contributions during employment for judges and justices that have filed an exemption from membership; non-members will receive a refund of contributions, with interest, upon termination of employment.

New Benefit Structure

- Raises age and service for normal retirement for judges who initially became members:
 - Prior to July 1, 2005: 60 years with 15 years of service credit; or
65 years (from 64) with 5 years of service credit
(Early retirement and 18 years w/ actuarial discount)
 - July 1, 2005 through June 30, 2014: 55 years with 16 years of service credit; or
65 years (from 64) with 5 years of service credit
 - On or after July 1, 2014: 60 years with 15 years of service credit; or
65 years with 8 years of service credit
- Lowers the pension multiplier to 3.5% (from 3.75%) and prorates future service credit for active members for a "blended" pension benefit for active JRA members.
- Increases the pension maximum to 85%, (from 75%).
- Increases the vesting period for judges who first take office after July 1, 2014 to 8 years (from 5).
- Changes form of benefit payments for those judges retiring on or after July 1, 2014. Currently, a judge's surviving spouse or designated beneficiary receives 75% of the judge's retirement pension until death. HB 33

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

provides for Normal and Optional forms of payments, similar to all other PERA member coverage plans. The normal form of payment is for life (Option A). Optional contingent survivor beneficiary forms of payment (Options B, C and D) are available on an actuarial equivalent basis. Total pension payments can never be less than the judge's accumulated contributions.

Magistrate Retirement Fund is a single employer defined benefit pension plan as the State of New Mexico assume sole responsibility for the fund and discloses its liability annually in the Statewide CAFR. Eligibility for membership in the Magistrate Retirement Fund is set forth in 10-12C-4 NMSA 1978. All assets accumulated for the payment of benefits may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of the Magistrate Retirement plan.

Every magistrate becomes a member in the Magistrate Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. Benefits are available at age 64 or older to any member having served as a magistrate for a minimum of 5 years. Retirement is available at age 60 to any magistrate or former magistrate having served at least 15 years or at any age with 24 or more years of service credit. The annual pension amount is determined by multiplying 75% of the salary received during the last year in office prior to retirement by 5% of the number of years of service, not exceeding 15 years, plus 5 years.

The retirement age and service credit requirements for normal retirement for magistrate members who first take the bench on or after July 1, 2014 increased with the passage of House Bill 216 Substitute in the 2014 Legislative Session. Under the new requirements, magistrates are eligible to retire at age 65 with eight or more years of service, at age 60 with 15 or more years of service credit or at any age with 24 years of service credit.

Effective July 1, 2014, membership is mandatory, all magistrate pension factors were reduced, employee contributions increased 3 percent and the computation of final average salary increased as the average of salary for the 60 consecutive months. Employer contribution rates increased by 4 percent effective July 1, 2015. In addition, cost-of-living increases were suspended for two consecutive fiscal years and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded.

Member contributions are based on 10.5% of salaries and the State of New Mexico, through the administrative office of the courts, contributes at a rate of 11% of the member's salary. Beginning July 1, 2015, the employer contribution will increase to 15% of a member's salary. Additionally, the magistrate or metropolitan courts contribute \$25 for each civil case docket fee paid and \$10 for each civil jury fee paid in magistrate court. Contribution rates are established by State statute.

Certain changes took place under House Bill 216 and amends the Magistrate Retirement Act (MRA) as follows:

Cost-of-Living Adjustment (COLA)

Establishes an independent COLA for magistrates under the MRA, as follows:

- Suspends the COLA for all retired magistrates for two years (July 1, 2014 and July 1, 2015).
- Beginning no later than May 1, 2016, PERA shall certify the projected funded ratio for the next succeeding year (based on the MRA Fund's prior year actuarial valuation).

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

- Effective July 1, 2016, provides all eligible retirees with a 2% compounding COLA if the Magistrate Fund (Fund) is at or greater than the 80% funded ratio threshold and projected to continue to be at or above 80% for the next successive year.
- Suspends the cost-of-living adjustment (COLA) for magistrates if the Funds' funded ratios fall below 80%. COLA suspensions shall only be implemented for two consecutive fiscal years.

Increased Employee Contributions

- Effective July 1, 2014, increases employee contributions 3% (from 7.5% to 10.5%);
- Effective July 1, 2014, increases employer contributions 4% (from 11% to 15%);
- Requires “non-member” contributions during employment for magistrates that have filed an exemption from membership; non-members will receive a refund of contributions, with interest, upon termination of employment.

New Benefit Structure

- Raises age and service for normal retirement for magistrates who initially became members:
 - Before July 1, 2014:
 - Any age and 24 years of service credit;
 - 60 years with 15 years of service credit; or
 - 65 years (from 64) with 5 years of service credit
 - On or after July 1, 2014:
 - Any age and 24 years of service credit;
 - 60 years with 15 years of service credit; or
 - 65 years with 8 years of service credit
- Lowers the pension multiplier to 3.5% (from 5.0%) and prorates future service credit for active members for a “blended” pension benefit for active MRA members.
- Increases the pension maximum to 85%, (from 75%).
- Increases the vesting period for magistrates who first take office after July 1, 2014 to 8 years (from 5).
- Changes form of benefit payments for those magistrates retiring on or after July 1, 2014. Currently, a judge's surviving spouse or designated beneficiary receives 75% of the judge's retirement pension until death. HB 216 provides for Normal and Optional forms of payments, similar to all other PERA member coverage plans. The normal form of payment is for life (Option A). Optional contingent survivor beneficiary forms of payment (Options B, C and D) are available on an actuarial equivalent basis. Total pension payments can never be less than the judge's accumulated contributions.

Volunteer Firefighters Retirement Fund is a single employer defined benefit pension plan. Eligibility for membership in the Volunteer Firefighters Retirement Fund is set forth in NMSA 1978 10-11A-2. Any volunteer non-salaried firefighter who is listed as an active member on the rolls of a fire department and who meets certain

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

age and service credit requirements is eligible for membership in the Volunteer Firefighters Retirement Fund. Benefits are available at age 55 or older to any member having served as a volunteer fire fighter for a minimum of

10 years. Benefits are \$100 per month (\$125 per month as of July 1, 2013) with at least 10 but less than 25 years of service or \$200 per month (\$250 per month as of July 1, 2013) with 25 or more years of service. Benefits for post-retirement surviving spouse annuities are also available. Members of the Volunteer Firefighters Retirement Fund do not make contributions to the plan. State statute requires that the State Treasurer transfer \$750,000 during the 2017 fiscal year from the Fire Protection Fund to the Volunteer Firefighters Retirement Fund for purposes of contributing to the plan.

Deferred Compensation Plan - The State of New Mexico also offers employees a deferred compensation plan under NMSA 1978, Sections 10-7A-1 through 10-7A-12, the “Deferred Compensation Act,” in conformity with Internal Revenue Code Section 457. The plan provides eligible employees a voluntary, supplemental, tax-deferred retirement program as an additional method to save a portion of their income for future years.

PERA is the trustee of the Deferred Compensation Plan (the “Plan”); however, the Plan is administered by a third party administrator (the “Administrator”) acting under contract with PERA. The Administrator has authority to perform recordkeeping, enrollment education services and other administrative duties for the Plan. The Administrator is delegated any and all powers as may be necessary or advisable to discharge its duties under the Plan, and has certain discretionary authority to decide all matters under the Plan. As Plan trustee, PERA’s primary responsibility is to select investment options that provide a prudent rate of return and to ensure that all investments, amounts, property, and rights under the executed Plan-Trust are held for the exclusive benefit of Plan participants and their beneficiaries, as defined in the Plan Document.

The Plan was amended in October 2004 to allow participants to take loans from their account balances. The maximum term permitted on a loan is five years or 15 years if the loan is for the purchase of a principal residence. The minimum loan amount permitted is \$1,000 and the maximum amount of any loan under the Plan is the lesser of 50% of the participant’s vested account balance or \$50,000. The total balance of loans outstanding to participants was \$11,318,077 and \$10,086,535 at June 30, 2017 and 2016, respectively. Interest rates range between 4.25% and 9.25% for all loans outstanding. These rates are based on the rate approved by the Plan at the time of the loan.

Participants of this plan are required to take distributions at the age of 70½ years old if not already done so. Participants of this plan also may take distributions under certain circumstances such as the participant’s death, separation-from-service, retirement, severe financial emergency, or if a participant’s account balance does not exceed \$5,000 and no amount was deferred during a 2-year period and there was no prior distribution. Participants may select various payout options, including lump sum payments or periodic payments.

The Deferred Compensation Plan issues a publicly available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, 33 Plaza La Prensa, Santa Fe, New Mexico 87507, or calling (505) 476-9386.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

D. Senate Bill 27 - Summary of PERA Pension Plan Changes effective July 1, 2013

Effective July 1, 2013, this legislation establishes two tiers of benefits under each PERA coverage plan.

TIER 1

Individuals who are retired members or members (i.e. currently employed, contributing employees of an affiliated public employer or individuals who have been, but are not currently, employed by an affiliated public employer who have not retired and who have not received a refund of member contributions) on June 30, 2013 are in Tier 1.

State and Municipal General Members hired between July 1, 2010 and June 30, 2013 are grandfathered into Tier 1 coverage plans.

TIER 2

Individuals who are not retired members or members on June 30, 2013 (i.e., were first hired by a PERA employer on or after July 1, 2013) are in Tier 2.

CHANGES FOR TIER 1 MEMBERS

Pension Maximum

- Increased to 90% of final average salary for all plans.

Service Credit

- Establishes blended pensions for service credit earned after July 1, 2013. A blended pension benefit is equal to the sum of the pension attributable to the service credit the member has accrued under each coverage plan with different pension factors.

Cost-of-Living Adjustment (COLA)

- Eligible retired members will receive a 2% COLA.
- Graduated COLA eligibility period for those who retire:
 - ✓ before June 30, 2014: no change to current 2 full-calendar years after retirement to receive a COLA;
 - ✓ between July 1, 2014 and June 30, 2015: 3 full-calendar year eligibility period to receive a COLA;
 - ✓ between July 1, 2015 and June 30, 2016: 4 full-calendar year eligibility period to receive a COLA;
 - and
 - ✓ after July 1, 2016: 7 full-calendar year eligibility period to receive a COLA.
- No change in 1-year COLA eligibility for disability retirees or retirees age 65 or older.

Employee Contribution Rate

- Increases the statutory employee contribution rate by 1.5% for employees who earn \$20,000 or more in annual salary.
- Employee contribution increase of 1.5% accomplished for state members by removing the sunset of the contribution shift.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

CHANGES FOR TIER 2 MEMBERS

Pension Benefits

General Members (Non-Public Safety Employees)

- 0.5% reduction in the Annual Pension Factor
- 5-year Final Average Salary calculation
- Retirement eligibility: Rule of 85 or age 65 with 8 years of service
- 8-year Vesting Period
- 90% Pension Maximum
- 2% COLA
- 7 full-calendar year eligibility period to receive a COLA

Public Safety Plan Members (State Police, Adult Correctional Officers, Peace Officers, Juvenile Correctional Officers, Municipal Police, Fire, Detention Officers)

- 0.5% reduction in the Annual Pension Factor
- 5-year Final Average Salary calculation
- Retirement eligibility: 25 years of service credit/any age or age 60 with 6 years of service
- 6-year Vesting Period
- 90% Pension Maximum
- 2% COLA
- 7 full-calendar year eligibility period to receive a COLA

Blended pension is equal to the sum of the pension attributable to the service credit the member has earned under each coverage plan with different pension factors.

Employee Contribution Rate

- Increases the statutory employee contribution rate by 1.5 % for employees who earn \$20,000 or more in annual salary.
- Employee contribution increase of 1.5% accomplished for state members by removing the sunset of the contribution shift effective July 1, 2013.

CHANGES FOR RETIREES

Cost-of-Living Adjustment (COLA)

- Reduces the COLA from 3% to 2% except for:
- 2.5% COLA for members retired with 25 or more years of PERA service credit (not reciprocity) and disability retired members, whose annual pensions are less than \$20,000.

CHANGES FOR RE-EMPLOYED RETIREES

Cost-of-Living Adjustment (COLA)

- Suspends the COLA for grandfathered return-to-work retirees during reemployment with PERA-affiliated employers or retirees employed by entities covered by the Educational Retirement Act.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)
 June 30, 2017

CHANGES FOR EMPLOYERS

- Optional municipal employer “pickup” of future employee contribution increases.
- Increases the statutory employer contribution rate 0.4% for FY15.

CHANGES TO VOLUNTEER FIREFIGHTER RETIREMENT PLAN

The following monthly benefit increases are effective July 1, 2013:

- Age 55 years with 25 or more years of service credit: \$250 (from \$200)
- Age 55 years with 10 or more years of service credit: \$125 (from \$100)

E. Membership of the Plans

At June 30, 2017, the number of participating government employers were as follows:

Public Employees Retirement Fund

State Agencies	124
Cities	36
Towns	18
Villages	37
Counties	33
Housing Authorities	15
Other Local Public Bodies	74
Total PERA	337
Judicial Retirement Fund*	16
Magistrate Retirement Fund*	1
Volunteer Firefighters Retirement Fund*	402

*Plans have multiple employers for reporting purposes, but are defined as single employer plans.

At June 30, 2017, membership in the plans was as follows:

	PERA* Retirement Fund	Judicial Retirement Fund	Magistrate Retirement Fund	VFF Retirement Fund	Totals
Retirees and beneficiaries receiving benefits	37,388	160	100	1,113	38,761
Terminated plan members not yet receiving benefits	15,091	20	14	482	15,607
Active plan members	48,815	127	65	7,823	56,830

*Note PERA Retirement Fund includes the Legislative Fund
 Note counts are based on the 2016 Valuation Report since they support the 2017 GASB 67 amounts

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

F. Cost of Living Adjustment (COLA)

The Cost-of-Living Adjustments (COLA) are made to eligible retirees and beneficiaries. Retirees of the PERA, Legislative, Magistrate and Judicial fund receive a COLA yearly after retirement of two full-calendar years (January 1 through December 31), subject to certain conditions. The 2% Cost-of-Living Adjustment (COLA) will therefore be effective July 1 of the following year after the two full calendar years and will be compounded for each fiscal year thereafter. The COLA for disabled retired members making less than \$20,000 and members that make less than \$20,000 and have 25 years of service credit will be 2.5%. COLA recipients receive a notification letter each July advising them of the increase in their pension payments. The total annual COLA payments for FY17 were \$229,486,848, an average of \$19,123,904 per month.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting and Measurement Focus. The financial statements of the Funds presented herein have been prepared on the accrual basis of accounting under which expenses are recorded when the liability is incurred and revenues are recorded in the accounting period in which they are earned. Employee contributions are recognized in the period in which contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Contributions from employees and employers for service due through June 30 are accrued (based on pay period end date, which drives pay period reporting to PERA). These contributions are considered to be fully collectible and, accordingly, no allowance for uncollectible receivables is reflected in the financial statements. Benefits and refunds are recognized when due and payable in accordance with provisions set forth in NMSA 1978. The Funds are accounted for on the flow of economic resources measurement focus.

Cash and Short term investments. Cash and Short term investments include demand deposit accounts and all short-term instruments with maturities at purchase of 90 days or less. Cash and short-term investments are stated at fair value.

Receivables due to PERA. Per Article IV, Section 32 of the New Mexico Constitution, no obligation or liability will be exchanged, transferred, remitted, released, postponed or in any way diminished by the legislature, nor shall any such obligation or liability be extinguished except by the payment thereof into the proper treasury or by proper proceeding in court. Per 2.80.800.8 NMAC, the Board directs the Executive Director to make all reasonable efforts to collect any pension or refund overpayment made for any reason.

PERA's financial statement include a due from(s) as follows:

Business Unit	Fund Number	Description	Amount	Business Unit Number	Fund Number
21800	12200	Docket Fees Collected for month ending 6/30/16	\$33,930	36600	60400

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)
 June 30, 2017

Special Fund Appropriation

	606
Special Fd. Appropriation	\$ 77,300
Reversion	\$ (20,162)
TOTAL	\$ 57,138

Investments. The PERA Board of Trustees has the sole authority to make changes to PERA’s investment policies. The Board-approved strategic asset allocation (SAA) is as follows:

Strategic Asset Allocation

Asset Class	Target
Global Equity	43.50%
Risk Reduction & Mitigation	21.50%
Credit Oriented Fixed Income	15.00%
Real Assets to include Real Estate Equity	20.00%

Detail of the asset classes are below:

- Global Equity
 - o Public equity securities
 - o Private equity – buyouts and venture capital
 - o Hedged Equity and Event-Driven Equity strategies

- Risk Reduction & Mitigation
 - o Core and Global Core Fixed Income
 - o Long Duration Fixed Income
 - o Cash
 - o Market Neutral/Risk Premia strategies
 - o Tail Risk Hedging

- Credit Oriented Fixed Income
 - o High Yield/Bank Loans
 - o Emerging Market Debt – USD and Local Currency
 - o Distressed, Special Situation, and Event-Driven Debt
 - o Mezzanine Debt

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

- Real Assets
 - o Global public real estate securities
 - o Private real estate – core, value add, and opportunistic
 - o Inflation protected bonds
 - o Commodities/Timber/Farmland
 - o MLPs
 - o Real asset limited partnerships
 - o Infrastructure

The allocation of the subclasses are as follows:

1) Global Equity: Global Equity includes asset subclasses of Global Public Stock (65%), Global Low Volatility Equity (10%), Hedged Equity (5%) and Private Equity (20%). With the new allocation, a new subclass, Global Low Volatility Equity, has been added. Overall, the changes in metrics include an increase in expected return of 10 bps, a decrease in standard deviation of return by 42 bps, and an increase in Sharpe ratio (a measure of risk-adjusted return) from 0.34 to 0.36.

2) Risk Reduction & Mitigation: Risk Reduction & Mitigation includes asset subclasses of Core Fixed Income (86%), Global Core Fixed Income (12%), and Cash (2%). Cash is a new subclass included within this asset class as it is recognized that liquidity needs require cash on hand. Changes in metrics for this asset class include an increase in expected return of 1 bps, a decrease in standard deviation of return by 2 bps, and no change in Sharpe ratio, remaining at 0.43.

3) Credit Oriented Fixed Income: The Credit Oriented Fixed Income Asset Class replaces Fixed Income Plus and consists of subclasses Liquid Credit (20%), Emerging Market Debt (20%), Illiquid Credit (40%), and Credit Oriented Hedge Funds (20%). No new asset subclasses were added with the revised Strategic Asset Allocation (SAA). The metrics for this asset class reflect an increase in expected return of 4 bps, a decrease in standard deviation of return by 28 bps, and an increased Sharpe ratio from 0.56 to 0.58.

4) Real Assets: Real Assets now includes Liquid Real Estate (5%), Illiquid Real Estate (38%), Liquid Real Assets (10%), Illiquid Real Assets (42%), and Market Neutral Hedge Funds/Risk Premia (5%). The previously-separated Real Estate asset class is now a subclass of the Real Assets class. The changes in metrics for this asset class include a decreased expected return by 26 bps, a decrease in standard deviation of return by 62 bps, and an increased Sharpe ratio from 0.52 to 0.53.

All investment securities are reported at fair value. Fair value is defined as, according to the Governmental Accounting Standards Board (GASB) Statement No. 72, “the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.” Due to the nature of investments, it is reasonable that changes in the value of investments will occur in the near future and changes could materially affect the amounts reported. The determination of fair values includes, among other things, published market prices, prices obtained from pricing services, and prices quoted by independent brokers at current exchange rates.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

Stocks traded on national or international exchanges are reported at current quoted market values.

Bonds are primarily reported at fair values obtained from independent pricing services.

Fair value of real estate and real asset partnerships are reported at values provided by general partners based on the most recent financial information available. The valuation assumptions are based upon both market and property specific inputs which involve expert judgment.

Fair value of private equity partnerships and absolute return strategy investments are reported as determined by the general partners based on the most recent financial information available. The valuation assumptions are based on the nature of the investment and the underlying business. The valuation techniques vary based upon investment type and involve a certain degree of expert judgment.

Net investment income (loss) includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, securities lending income, rental income, and investment expenses, which include investment management and custodial fees, securities lending expense, and all other significant investment related costs.

In an effort to maximize the benefits of investment diversification and investment earnings, the Judicial, Magistrate, and Volunteer Firefighters Retirement Funds participate with the Public Employee Retirement Fund in an investment pool. Each fund's equity percentage, or allocation, in the pool is based on the Daily Balance Method, also known as daily weighted average. Using the Daily Balance Method, each participant account's percentage of ownership in the investment pool is calculated on a daily basis. A daily earnings figure is calculated by taking the total monthly earnings in the pool, divided by the number of days in the period. This daily earnings figure is then applied to each participant's ownership percentage, day-by-day. A participant's monthly earnings allocation is the summation of the daily calculation. With the Daily Balance Method, earnings are distributed by a unit distribution. Ownership percentages (rounded to the nearest hundredth of a percent) in the investment pool at June 30, 2017, are as follows:

Public Employees Retirement Fund	98.75%
Judicial Retirement Fund	0.59%
Magistrate Retirement Fund	0.22%
Volunteer Firefighters Retirement Fund	0.44%
Total	100.00%

Capital Assets. Capital assets costing \$5,000 or more (12-1-10 NMSA 1978) that are used in PERA's operations are capitalized. Intangible assets such as internally generated computer software used to maintain a membership data base also are capitalized. These are recorded at historical cost less accumulated depreciation or amortization. The building is depreciated over 50 years. All remaining capital assets are depreciated over five to ten years, depending on the nature of the asset, using the straight-line method of depreciation. See Note 6 for a more detailed summary of PERA's capital assets.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

Accrued Compensated Absences. Accumulated vacation, compensation time and sick leave balances that meet the criteria to be paid to employees upon termination are recorded as a liability and expense of the Public Employees Retirement Fund measured at June 30, 2017.

Interfund Receivables and Payables. During the course of operations, transactions occur between the Funds for goods provided and services rendered. These receivables and payables are expected to be repaid in the subsequent fiscal year and are not eliminated in the financial statements.

Deferred Compensation Plan. At June 30, 2017, PERA had \$54,554 in an operating account maintained for the sole purpose of paying administrative expenses associated with the Deferred Compensation Fund. This cash account is maintained by the State Treasurer. Accrued expenses and other liabilities associated with administrative operations are included in the financial statements of the Public Employees Retirement Fund.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from plan net position during the reported period.

Actual results could differ from those estimates. The Funds utilize various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of plan net position.

Federal Income Tax Status. The four retirement funds (PERA (inclusive of Legislative), Judicial Magistrate and Volunteer Fire Fighter) are qualified plans under Section 401(a) of the Internal Revenue Code and are exempt from federal income taxes under Section 501(a). The Deferred Compensation (IRC 457) Fund is an eligible deferred compensation plan as defined by Section 457 to the Internal Revenue Code. Accordingly, any compensation deferred under the Plan and any income attributable to the amounts so deferred shall be included in the gross income of the participant only for the taxable year in which such compensation or other income is paid or, otherwise, made available to the participant or their beneficiary.

NOTE 3. DEPOSIT AND INVESTMENT RISK

IRC 457 Fund. Securities held in the IRC 457 Fund are not included the investment disclosures below. Further detail of the investments are detailed in a publicly available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, P.O. Box 2123, Santa Fe, New Mexico 87504-2123, or calling (505) 476-9338.

Securities Lending Collateral. Securities held as a result of the reinvestment of cash collateral in the securities lending program are excluded from the investment disclosures below. Risk disclosures associated with the securities lending program can be found in NOTE 5a. SECURITIES LENDING.

Objective & Risk

The Primary Objective of the PERA Investment Policy states that “The Board will manage the Fund in a manner that reflects the Fund’s unique liabilities and funding resources, incorporates accepted investment theory, and targets growth and returns appropriate to prudent levels of risk based on reliable empirical evidence.”

The Primary Objective also states the following principles related to risk that the Board has adopted:

- Risk is an unavoidable component of investing and shall be taken into account in assessing investment policy and strategy. In evaluating specific investments, both the risks associated with that investment as well as the impact of the investment to the overall portfolio shall be considered.
- Diversification distributes a portfolio across asset categories to avoid excessive exposure to any one source of risk.

In evaluating risk, the PERA Investment Policy states, “In determining a prudent level of risk for the targeted returns, PERA shall consider the total Fund risk, expected volatility, liquidity, and general sensitivity of the overall asset allocation by monitoring the major assets classes utilized by the Fund.”

The following areas of risk are disclosed in accordance with GASB Statement 40 on Deposit and Investment Risk.

A. DEPOSITS

For cash management, the Board may utilize the services of the State Treasurer for overnight investment of short-term assets and/or a separate or commingled short-term investment fund (“STIF”) approved by the Board or administered by the Custody Bank, providing the STIF account only invests in those securities authorized by PERA’s investment policy and investment guidelines. Investment managers also invest all cash in PERA’s approved STIF funds.

The fair value of PERA’s investments in short-term investment pools is the same as the value of the pool shares. All investments in the short-term investment pool are either SEC registered or are exempt from SEC registration under exemption 3a3 or 4(2) of SEC regulations.

Investment balances reported in the Statements of Fiduciary Net Position include an interest in the State General Fund Investment Pool maintained by the State Treasurer’s Office. All deposit accounts maintained at the State Treasurer’s Office participate in an overnight repurchase agreement program administered by the State Treasurer.

The Plan’s interest in the State General Fund Investment Pool are pooled with other state funds on deposit in the State Treasurer’s name at commercial banking and other financial institutions. Information regarding the adequacy of collateralization of deposits is not known to individual agencies and is the responsibility of the State Treasurer. To obtain information about pledged collateral, investment risk, and insurance coverage information for the Department’s State Treasurer deposits, a copy of separately issued financial statements can be obtained from the State Treasurer’s Office.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

Investments in State Treasurer Investment Pool

PERA Trust Administration*	\$	21,675,640
Judicial Retirement Fund		1,159,264
Magistrate Retirement Fund		133,386
Volunteer Firefighters Retirement Fund		212,897
Total	\$	23,181,186

* Includes Deferred Compensation Plan Balance

In addition to the Plan's interest in the State General Fund Investment Pool, the Plan also invests in the Short-Term Investment Fund (STIF), held by the investment custodian, the Bank of New York Mellon (BNYM). STIF investments are reported as cash and short term investments in the Statement of Fiduciary Net Position. STIF investments are used to facilitate more efficient trade procedures with the Plan's external investment managers. STIF investments held by BNYM are invested in the Government Short Term Investment Fund (GSTIF) whose objective is to obtain a reasonable rate of return while investing principally or entirely in securities or other obligations issued by or guaranteed by the United States Government or its agencies and repurchase agreements collateralized by securities or other obligations issued by or guaranteed by the United States Government or its agencies. In addition, BNY Mellon has been instructed to make deposits to BNY Mellon Cash Reserve, which is a bank deposit product designed to accommodate investment of residual cash balances, when uninvested cash cannot be invested in the GSTIF, such as when cash balances occur after the GSTIF sweep deadline. The Plan's investment in STIF accounts totaled \$784,986,152 as of June 30, 2017.

B. INVESTMENT RISK

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, PERA will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Mutual funds, external investment pools, and securities underlying reverse repurchase agreements are not exposed to custodial credit risk.

PERA's securities are held by a third-party custodian, independent of any counterparty; therefore, management believes there is minimal risk that PERA will not be able to recover the value of its investments or collateral securities held by a counterparty.

The Custodian holds assets directly, through its agents, its sub-custodians, or designated clearing systems. The Custodian is accountable for registration of those designated assets in good delivery form, collection of income generated by those assets, and any corporate action notification. The Custodian is responsible for delivery and receipt of securities of the aforementioned transactions. The Custodian is responsible for the ongoing pricing and valuation of all assets; investment managers must reconcile their values to those of the Custodian. The Custodian is to cooperate with, and provide assistance to, PERA and its investment managers in the reconciliation process. The Custodian is required to provide online records and reports, performance reporting, accounting reports

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

and other services included in the agreement. The Board may opt to designate other duties to the Custodian as stipulated in the agreement.

A summary of PERA's investments at June 30, 2017, and its exposure to custodial credit risk are as follows:

Asset Type	Held in the Name of the Fund by the Fund's Custodian Bank	Custody Arrangements Contracted by Fund Manager	Total

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. PERA is required to disclose credit ratings of its investments in order to assess credit risk. Each fixed income manager is required to abide by investment guidelines detailed within their contract with PERA to include credit quality minimums.

A summary of PERA's investments at June 30, 2017, and its exposure to credit risk are as follows:

S & P Ratings	Market Value	% of Fixed Income Portfolio

Concentration of Credit Risk. Concentration Risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments in any one issuer that represent 5% or more of all total investments including components unit investments are considered to be exposed to concentrated credit risk and are required to be disclosed. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement. PERA's policy over concentration of credit risks are contained in each investment managers' Investment Guidelines.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

At June 30, 2017, PERA had no investments with a concentration of greater than 5% of total investments.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The price of a debt security typically moves in the opposite direction of the change in interest rates. PERA's interest rate risk is controlled by the duration guidelines provided in the Investment Guidelines for each fixed income manager which are attached to each investment manager's contract, or Professional Services Agreement (PSA), with PERA. Duration is loosely defined as the dollar weighted average time to recover all principal in a fixed-income investment. For example, a "duration" of four years suggests a 1% increase in corresponding interest rates could cause a 4% decline in the market value of the portfolio. PERA's fixed income managers are typically limited to a duration of plus or minus two years or 20% of the duration of the applicable portfolio benchmark. Such limitations are contained in the Plan's investment guidelines for fixed income managers.

A summary of PERA's investments and its respective maturities at June 30, 2017 and its exposure to interest rate risk are as follows:

Bond Category	Weighted Average Maturity in Years	Fair Value	Percent of Fixed Income Portfolio
U.S. Government Bonds	7.83	\$ 660,826,776	17.42%
Non-U.S. Government Bonds	7.68	258,086,745	6.80%

Total Investments Subject to Interest Rate Risk		\$ 4,503,204,630	

Note: Commingled fixed income products are not included in this report

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

Foreign Currency Risk. Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. PERA has risk exposure through direct investments in international equities, international fixed income and international private equity investments.

PERA's exposure to non-U.S. investments across the fund is less than 25%. Since the fund is broadly diversified among many countries, the effect of a decline in the market value of a single local (non-U.S.) currency or of several local currencies versus the U.S. dollar mitigates the impact of such decline on PERA's total assets.

The following table presents a summary of the PERA's investments exposed to foreign currency risk by currency and the respective values at June 30, 2017:

Market Value (included in investments)

Currency	Deposits	Equity	Fixed Income	Limited Partnership	Total

NOTE 4. DERIVATIVES

Derivatives are generally defined as contracts whose value depend on, or derive from, the value of an underlying asset, reference rate or financial index. The Board's investment policies allow for certain portfolio managers to utilize derivatives subject to a manager's investment management guidelines.

The notional or contractual amounts of derivatives indicate the extent of PERA's involvement in the various types and uses of derivative financial instruments, they do not measure PERA's exposure to credit or market risks and do not necessarily represent amounts exchanged by the parties. The amounts exchanged are determined by reference to the notional amounts and other terms of the derivative. Investments in limited partnerships and commingled funds include derivative instruments that are not reported in the following disclosure.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2017, classified by type, and the changes in fair value over the fiscal year of such derivative instruments are as follows:

IRC 457 Fund. Derivatives held in the IRC 457 Fund are not included the investment disclosures below. Further detail of the investments are detailed in a publicly available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, P.O. Box 2123, Santa Fe, New Mexico 87504-2123, or calling (505) 476-9338.

Interest Rate Swaps	5,487	-	-	-

NOTE 5. FAIR VALUE MEASUREMENT

PERA's investments measured and reported at fair value are classified according to the following hierarchy, in accordance with GASB Statement 72 – Fair Value Measurement and Application:

Level 1 – Investments reflect market value where prices are observable, unadjusted, and quoted in an active market.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

Level 2 – Investments reflect market value where prices are observable using inputs from other than quoted prices.

Level 3 – Investments reflect market value based upon unobservable inputs.

It is important for the user of these financial statements to understand the link between PERA's investments as of June 30, 2017 and the current investment policy's strategic asset allocation. See detail in Note 2 on page 47.

The Public Employees Retirement Association utilizes its custody bank, The Bank of New York Mellon (BNYM), to assist with leveling of its investment assets per GASB 72's fair value hierarchy. Currency futures and equity securities and debt securities classified as Level 1 of the fair value hierarchy are valued using prices quoted in active markets.

Swap collateral, reserve deposits, equity securities (preferred stock) and debt securities classified as Level 2 of the fair value hierarchy are valued using a matrix pricing technique. BNYM's fair value hierarchy level matrix is based on discussions with pricing vendors, broker dealers, investment managers, industry groups and independent accounting firms.

Term loans within Corporate Bonds are classified by BNYM as Level 3 of the fair value hierarchy due to the fact that the pricing coverage for bank loans is not 100% and therefore conservative approach is taken in leveling these assets.

IRC 457 Fund. Investments held in the IRC 457 Fund are not included the disclosures on the next page. Further detail of the investments are detailed in a publicly available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, P.O. Box 2123, Santa Fe, New Mexico 87504-2123, or calling (505) 476-9338.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

Investments measured at the net asset value (NAV) are those whose underlying positions are not evident and thus the market value of the investment is priced at a price per share in a fund or by another pricing methodology. Investments that are priced at NAV include commingled funds, hedge funds, and private partnerships. Investments measured at the NAV at June 30, 2017 are as follows:

Investments measured at the Net Asset Value (NAV)	
Commingled Cash Equivalent Funds	\$ 708,477,480
Commingled Domestic Equity	509,187,518
Portable Alpha Hedge Funds	43,290,569
Commingled International Equity	186,709,596
Commingled Emerging Market Debt Fund	524,259,917
Absolute Return (Hedge) Funds	812,090,584
Private Equity Partnerships	693,777,885
Private Debt Partnerships	749,444,950
Real Estate Equity Partnerships	294,485,503
Real Estate Debt Partnerships	109,082,810
Real Asset Partnerships	453,764,648
Total Investments Measured at the NAV	<u>\$ 5,084,571,460</u>
Total Investments	<u>\$ 15,717,282,560</u>

Total market value of investments reported as leveled or at the NAV does not include uninvested cash, accrued income, or broker receivables and payables. Reconciliation to the Statement of Fiduciary Net Position is as follows:

Cash and Short-term investments	\$784,986,151
Investments at fair value	14,956,080,097
Less uninvested cash	<u>(23,783,688)</u>
Total Investments reported at Fair Value Hierarchy	<u>\$15,717,282,560</u>

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

Total Investments Measured at the NAV	\$5,084,571,460	\$2,685,211,050		

(1) *Commingled Cash Equivalent Funds* Cash that is swept from the main cash account as well as from investment managers' accounts at the end of the day into the Collective US Government STIF commingled fund is composed of various US Government securities, US Government Agency securities and overnight repurchase agreements. The fund is not guaranteed by any bank, financial institution, the FDIC, or any other government agency. The fund is valued at the net asset value of units held at the end of the period based upon the fair value of the underlying investments.

(2) *Commingled Domestic Equity* - Consisting of a domestic equity limited partnership, this fund is valued based on the percentage of PERA's investment to total value of the fund applied to the total fair value of the underlying investments.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

(3) *Portable Alpha and Absolute Return Hedge Funds* - The Portable Alpha Hedge Funds span the strategies, overlap the funds within the Absolute Return category, and are in the process of being redeemed. Of the 14 funds included in Absolute Return, eight are separately invested in the Portable Alpha portfolio.

(a) *Credit Oriented* - Consisting of seven funds, hedged credit seeks to generate income comparable to the high yield bond market but with less volatility and less downside performance during periods of market stress. Of the seven funds, two are also invested within Portable Alpha. Five are limited partnerships that report fair value based on the fair value of the underlying investments whereas two report fair value based on NAV per share.

(b) *Equity Long-Short* - Consisting of three funds, this strategy invests both long and short in US and global equity securities with a goal of adding growth and minimizing market exposure.

As limited partnerships, these investments report fair value based on the fair value of the underlying investments.

(c) *Event-Driven* - The goal of the four funds making up this group is to gain an advantage from pricing inefficiencies that may occur in the onset or aftermath of a corporate action or related event. All four are limited partnerships, one of which is also invested separately in Portable Alpha. These investments are valued based on the fair value of the underlying investments.

(d) *Global Macro* - Consisting of two funds, this strategy invests, often long and short, in several different asset classes in markets around the globe to take advantage of structural macroeconomic imbalances and market trends. Both funds fall within the Absolute Return portfolio; all are included in the Portable Alpha portfolio. One fund is a limited partnership, reporting valuation based on the fair value of the underlying investments while the other fund is valued at NAV per share.

(e) *Market Neutral* - The single fund within this group executes an arbitrage strategy focused on relative value trades in fixed income and currency instruments of developed market countries. PERA is invested in this fund in both the Portable Alpha and Absolute Return portfolios. The fund is a limited partnership and is valued based on the fair value of the underlying investments of the partnership.

(f) *Multi-Strategy* - The five funds within this strategy opportunistically pursue multiple hedge fund investment strategies, looking to allocate capital to the most attractive strategies for a given market environment. Four of the five funds are invested separately in Portable Alpha. Four of the funds are limited partnerships and report fair value based on that of the underlying investments while the remaining fund is valued at NAV per share.

(4) *Commingled International Equity* - The two funds comprising this category are commingled funds, one is an emerging markets equity fund and the other fund is an international equity fund within a separately-managed global equity account. Both funds are valued at net asset value based on the fair value of the underlying investments.

(5) *Commingled Emerging Market Debt Fund* - The aim of the emerging markets debt fund is to invest in dollar-denominated and local currency-denominated sovereign and corporate debt. The goal of the strategy is to earn more yield relative to developed market debt while limiting country and currency risk. The fund is a commingled global fixed income limited partnership that is valued, based on the fair value of the underlying investments.

(6) *Private Equity Partnerships* - NM PERA's Private Equity portfolio consists of 43 partnerships, investing primarily in buyout funds, with some exposure to secondary and venture capital funds. Also included in this category are 19 private real estate equity partnerships, investing in the US and 30 private real asset partnerships, invested in energy, infrastructure and agriculture funds, primarily in the US. The fair values of these partnerships have been determined using net assets valued one quarter in arrears plus current quarter

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

cash flows. These funds are illiquid in nature and distributions are received as underlying investments within the funds are liquidated, either as cash or in-kind distributions of stock of the underlying investments, typically over a 5 – 10-year timeframe.

(7) Private Debt Partnerships – Private debt partnerships consist of 15 private debt funds, which are opportunistic in nature and are invested in the US, and 5 private real estate debt funds, one invested globally and the remaining funds invested in the US. The Fair values of these partnerships has been determined using net assets valued one quarter in arrears plus current quarter cash flows. These funds are illiquid in nature and cash distributions are received as underlying investments within the funds are liquidated, typically over a 5 – 10-year timeframe.

NOTE 5a. SECURITIES LENDING

PERA's Investment Policy Statement, Section VI (A) permits the use of the Fund's investment holdings to enter into securities lending transactions - that is, lending securities to broker-dealers and other entities (borrowers) in exchange for acceptable collateral generating incremental earnings via the creation of a spread or collection of a fee. PERA participates in a securities lending program managed by BNY Mellon (BNYM). The agreement between PERA and BNYM details approved borrowers, approved investments, fee charged by BNYM, and acceptable collateral. All loans can be terminated, which shall be effected according to the standard settlement time for trades in the particular loaned security, by either PERA, BNYM, or the borrower.

The securities lending agent is restricted to a maximum loan value of \$600,000,000 inclusive of all loaned securities. The types of securities loaned as of June 30, 2017 included U.S. and non-U.S. equities, U.S. and Non-U.S. corporate bonds, non-U.S. government bonds and U.S. government securities. At fiscal year-end, the fair value of securities on loan was \$576,485,926, 3.77% of PERA's total portfolio.

The fee is negotiated for each separate transaction and split 85%/15% between PERA and BNYM. The collateral requirement is an amount equal to 102% of the then-current market value if securities lent are and collateral are denominated in like currency and 105% if in unlike currency providing a margin for market fluctuations. Approved collateral accepted against loaned securities are held by PERA's custodial agent and marked to market daily. If the collateralization level falls below the above requirements, BNYM marks the borrower securing additional collateral. Cash, U.S. and non-U.S. equities, U.S. corporate bonds, non-U.S. fixed, and U.S. government securities are received as collateral for these loans. Cash collateral is invested or reinvested on behalf of PERA by BNYM in a cash collateral account consisting of one or more of the approved investments; a comprehensive investment guideline is set forth in the securities lending agreement to include approved instruments, credit quality, and concentration and maturity requirements. As of June 30, 2017, cash collateral was reinvested in repos, floating rate notes, commercial paper, certificates of deposit and time deposits. The interest rate sensitivity of the investments made with cash collateral generally track the maturities of their securities loans. The fair value of investments made with cash collateral is reported as an asset; the fair value of collateral received is recorded as a liability as PERA must return the cash collateral to the borrower upon the expiration of the loan. The fair value of the securities lending collateral investments was \$456,765,979 and securities lending obligations were \$456,665,884 at June 30, 2017 as reported on the Statement of Fiduciary Net Position. Total cash and noncash collateral was \$602,626,851 at June 30, 2017, 104.3% of the fair value of the securities on loan.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

In the event the borrower fails to return loaned securities or securities equivalent to the loaned securities, and the noncash collateral held in respect of the loaned securities (including the proceeds realized upon the sale of such noncash collateral) is insufficient to satisfy the obligation of the loan, the bank shall be responsible for, and shall contribute the amount of, such noncash collateral as necessary to satisfy the obligations.

At June 30, 2017, there had been no losses resulting from borrower defaults and PERA had no credit risk exposure to borrowers because the amounts PERA owed to borrowers did not exceed the amounts the borrowers owed to PERA. Net earnings from the securities lending program totaled \$3,394,425 for the fiscal year. An executive summary report of the securities lending activity for the fiscal year is available upon request from PERA's Records Department.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. A summary of the securities lending collateral assets at June 30, 2017, and its exposure to credit risk are as follows:

S & P Ratings	Fair Value	% of Collateral Investments
CERTIFICATE OF DEPOSIT	\$ 14,632,021	3.20%
A-	14,632,021	3.20%
COMMERCIAL PAPER	\$ 10,253,466	2.25%
A-	10,253,466	2.25%
FLOATING RATE NOTES	\$ 307,728,577	67.37%
AA	93,988,555	20.58%
A	189,192,538	41.42%
NR	24,547,484	5.37%
REPO	\$ 44,198,915	9.68%
NR	44,198,915	9.68%
TIME DEPOSITS	\$ 79,953,000	17.50%
A-	79,953,000	17.50%
FAIR VALUE OF SECURITIES LENDING COLLATERAL	\$ 456,765,979	100.00%

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. See further explanation of Interest Rate Risk in Note 3.

A summary of the securities lending collateral investments and respective maturities at June 30, 2016 and their exposure to interest rate risk are as follows:

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

NOTE 6. CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2017, is as follows:

	Balance June 30, 2016	Additions	Deletions	Balance June 30, 2017
Capital assets at cost:				
Land	\$1,548,990	\$-	\$-	\$1,548,990
Building	12,646,204	-	-	12,646,204
Property and equipment	36,016	-	-	36,016
Computer equipment and software	14,946,743	34,072	-	14,980,815
Automobile	80,107	-	(22,674)	57,433
	<u>\$29,258,060</u>	<u>\$34,072</u>	<u>\$(22,674)</u>	<u>\$29,269,458</u>
Accumulated depreciation:				
Building	\$(2,564,368)	\$(421,540)	\$-	\$(2,985,908)
Property and equipment	(34,572)	-	-	(34,572)
Computer equipment and software	(14,153,376)	(281,975)	-	(14,435,350)
Automobile	(80,107)	-	22,674	(57,433)
	<u>\$(16,832,422)</u>	<u>\$(703,515)</u>	<u>\$22,674</u>	<u>\$(17,513,263)</u>
Total	<u><u>\$12,425,638</u></u>	<u><u>\$(669,443)</u></u>	<u><u>\$-</u></u>	<u><u>\$11,756,195</u></u>

The following are included in the above schedule.

- Depreciation and amortization expense, reported as part of administrative expenses, for the year was \$703,515.
- PERA added \$34,072 in capital assets in FY17, consisting of computer software and equipment.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)
June 30, 2017

NOTE 7. CHANGES IN COMPENSATED ABSENCES

The changes in short-term liabilities for PERA are as follows:

During the year ended June 30, 2017, the following changes occurred in the compensated absences liabilities:

	Balance July 1, 2016	Increase	Decrease	Balance June 30, 2017
Compensated Absences	\$(259,983)	(26,759)	6,690	\$(280,052)

The portion of compensated absences due after one year is not material, and therefore not separately presented. Substantially, all of the compensated absences balances have been paid by the General Fund in prior years. The amount of compensated absences is calculated by multiplying the vested hours by the pay at year-end plus applicable taxes.

NOTE 8. CONTINGENCIES

PERA has been named as a defendant in various administrative appeals and lawsuits arising in the normal course of business primarily related to disability and retirement benefits. Management of PERA intends to vigorously defend the actions, and it is their opinion as well as the opinion of legal counsel that the resolution of these matters will not have a material effect on these financial statements.

PERA is exposed to various risks of loss for which PERA carries insurance (Auto; Employee Fidelity Bond; General Liability; Civil Rights and Foreign Jurisdiction; Money and Securities; Property; and Worker's Compensation) with the State of New Mexico Risk Insurance Program. The Plan's insurance coverages are designed to satisfy the requirements of the State tort claims. Also, any claims are processed through the Risk Management Division of the State of New Mexico.

NOTE 9. RETIREMENT PLANS – PERA EMPLOYEES

Plan Description. PERA's full-time employees participate in the public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978). PERA is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, 33 Plaza La Prensa, Santa Fe, NM 87507. The report is also available on PERA's website at www.nmpera.org

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

Funding Policy. For fiscal year 2017, plan members are required to contribute 7.42 (less than \$20,000 in salary) or 8.92% (greater than \$20,000 in salary) of their salary. For fiscal year 2017, PERA employers were required to contribute 16.99% of the gross covered salary. The contribution requirements of plan members and PERA are established in State statute under Chapter 10, Article 11 NMSA 1978. The requirements may be amended by acts of the legislature.

PERA's contributions to the PERA retirement plan for PERA employees were for the years ending June 30, 2017, 2016, and 2015 were \$799,547, \$729,251, and \$674,307, respectively, equal to the amount of the required contributions from the employer for each year. In addition, the employees contributed an additional \$419,774, \$382,869, and \$354,022, respectively, equal to the amount of the required contributions from employees for each year.

GASB 68 – Financial Reporting and Disclosure for Multiple-Employer Cost Sharing Pension Plans by Employers

According to the Department of Finance and Administration (DFA), compliant with the requirements of GASB No. 68, the State of New Mexico has implemented the standard for the fiscal year ending June 30, 2015. PERA, as part of the primary government (fiduciary fund) of the State of New Mexico, is a contributing employer to the cost-sharing multiple employer PERA fund. Disclosure requirements for governmental funds apply to the primary government as a whole, and as such, this information will be presented in the Component Appropriation Funds Annual Financial Report (General Fund) and the Comprehensive Annual Financial Report (CAFR) of the State of New Mexico. Information concerning the net pension liability, pension expense, and pension-related deferred inflows and outflows of resources of the primary government will be contained in the General Fund and the CAFR, and will be available, when issued, from the Office of the State Controller, Room 166, Bataan Memorial Building, 407 Galisteo Street, Santa Fe, New Mexico 87501.

NOTE 10. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN – PERA EMPLOYEES

Plan Description. PERA contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: (1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf, unless that person retires before the employer's RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employee's effective date, and the date of retirement; (2) retirees defined by the Act who retired prior to July 1, 1990; (3) former governing authority members who served at least four years.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13, NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or a former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The Retiree Health Care Act (Section 10-7C-15, NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The statute requires each participating employer as of July 1, 2012 to contribute 2.0% of each participating employee's annual salary; each participating employee is required to contribute 1.0% of their salary. Prior to July 1, 2012, the statute required each participating employer as of July 1, 2011 to June 30, 2012 to contribute 1.834% of each participating employee's annual salary; each participating employee is required to contribute 0.917% of their salary. From July 1, 2010 to June 30, 2011, the statute required each participating employer contribute 1.666% of each participating employee's annual salary; each participating employee is required to contribute 0.833% of their salary. Prior to July 1, 2010, employers contributed 1.3% and employees contributed 0.65%. Employers joining the program after 1/1/1998 are also required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

The RHCA plan is financed on pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

PERA's contributions to the RHCA for the years ending June 30, 2017, 2016, and 2015 were \$90,955, \$80,000, and \$81,773, for employer contributions and \$45,478, \$39,999, and \$47,021 in employee contributions, respectively, which equal the required contributions for each year.

NOTE 11. INVESTMENT PLACEMENT AGENTS

PERA fully complies with the statutory disclosure requirement of NMSA 1978, Section 10-11-133.1, which mandates the disclosure of the identity and fees paid, if any, to any third-party marketer or placement agent involved in PERA's investment in private funds. PERA has no direct relationships with third-party marketers or placements agents. PERA's investment consultants do not receive any form of compensation other than client advisory fees and do not accept compensation from investment management organizations or their marketers. The consultants only recommend an investment management firm to PERA once they have extensively performed due diligence with the firm's portfolio management professionals.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)
 June 30, 2017

NOTE 12. NET PENSION LIABILITY OF PLAN MEMBERSHIP

The components of the net pension liability of the plan’s membership at June 30, 2017, by fund, were as follows:

	Net Pension Liability by Fund			
	PERA Fund	Judicial Fund	Magistrate Fund	Volunteer FF Fund
Total Pension liability	\$ 20,068,143,304	\$ 176,290,693	\$ 65,627,669	\$ 48,502,745
Plan Net Position	14,798,917,909	89,616,194	32,225,122	66,400,768
Net Pension Liability/Asset	<u>\$ 5,269,225,395</u>	<u>\$ 86,674,499</u>	<u>\$ 33,402,547</u>	<u>\$ (17,898,023)</u>
 Ratio of plan net position of total pension liability	 <u>73.74%</u>	 <u>50.83%</u>	 <u>49.10%</u>	 <u>136.90%</u>

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2016. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2017. These assumptions were adopted by the Board for use in the June 30, 2016 actuarial valuation.

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

Summary of Actuarial Methods and Assumptions, by fund

	PERA	JUDICIAL	MAGISTRATE	VFF
Actuarial cost method	Entry Age Normal	Entry Age Normal	Entry Age Normal	Entry Age Normal
Amortization method	Level % of Pay	Level % of Pay, Open	Level % of Pay, Open	Level Dollar, Open
Amortization period	Solved for based on statutory rates	30 Years	30 Years	30 Years
Asset valuation method	4 Year Smoothed Market Value	4 Year Smoothed Market Value	4 Year Smoothed Market Value	4 Year Smoothed Market Value
Investment rate of return, net of investment expense	7.51% annual rate	7.51% annual rate	7.51% annual rate	7.51% annual rate
Projected Benefit Payment	100 years	89 years	86 years	100 years

Projected Salary Increases	2.75% - 14.00%	3.50% - 4.00%	3.00% - 3.50%	N/A
Includes Inflation At	2.25% - 2.75%	2.25% - 2.75%		N/A
Mortality Assumption	RP-2000 Mortality Tables	RP-2000 Mortality Tables	RP-2000 Mortality Tables	RP-2000 Mortality Tables

Annual Money-Weighted Rate of Return, Net of Investment Expense

The annual money-weighted rate of return, net of investment expense for FY 2017 was 10.6%.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)
June 30, 2017

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global Equity	43.50%	7.39%
Risk Reduction & Mitigation	21.50%	1.79%
Credit Oriented Fixed Income	15.00%	5.77%
Real Assets to include Real Estate Equity	20.00%	7.35%

Discount rate for the PERA and Volunteer Firefighter Funds. A select and ultimate rate of return assumption has been adopted for funding purposes for the PERA and Volunteer Firefighter Funds. The rate is 7.25% for the first 9 years (select period) and 7.75% for all other years (ultimate). The equivalent blended rate is 7.48% and will be used as the discount rate used to measure the total pension liability. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASB Statement No. 67. Therefore, the 7.51% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate:

The following presents the net pension liability of PERA and Volunteer Firefighter funds, calculated using the discount rate of 7.51 percent, as well as what PERA's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.51 percent) or 1-percentage-point higher (8.51 percent) than the current rate (\$ thousands):

PERA FUND

	1% Decrease 6.51%	Current Discount Rate 7.51%	1% Increase 8.51%
Net Pension Liability	7,714,032,339	5,269,225,395	3,242,456,288

VOLUNTEER FIREFIGHTER FUND

	1% Decrease 6.51%	Current Discount Rate 7.51%	1% Increase 8.51%
Net Pension Liability	(12,335,212)	(17,898,023)	(22,546,666)

Discount rate for Judicial and Magistrate Funds. A select and ultimate rate of return assumption has been adopted

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

funding purposes. The discount rate is 7.25% for the first 9 years (select period) and 7.75% for all other years (ultimate). The equivalent blended rate is 7.51% which is the assumed investment return assumption. The discount rate used to measure the total pension liability for the Judicial fund is 5.77 percent. The discount rate used to measure the total pension liability for the Magistrate fund is 5.48 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's (both Judicial and Magistrate) fiduciary net position together with the expected future contributions are not sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASB Statement No. 67. Therefore, for the Judicial fund, a 5.77% and for the Magistrate fund, a 5.48% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. This rate is a blend of the 7.51% and the 20-year tax-exempt municipal bond rate of 3.56% as of the measurement date. The source of the 20-year tax exempt municipal bond is the St. Louis Federal Reserve Bank State and Local Bonds – Bond Buyer Go 20-Bond Municipal Bond Index.

The following presents the net pension liability of the Judicial and Magistrate Funds, calculated using the discount rate of 5.77 percent and 5.48 percent, as well as what the Fund's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

JUDICIAL FUND

	1% Decrease 4.77%	Current Discount Rate 5.77%	1% Increase 6.77%
Net Pension Liability	105,794,082	86,674,499	70,470,984

MAGISTRATE FUND

	1% Decrease 4.48%	Current Discount Rate 5.48%	1% Increase 6.48%
Net Pension Liability	40,859,138	33,402,547	27,152,372

June 30, 2016 is the actuarial valuation date upon which the TPL is based (paragraph 31(c)). Standard update procedures were used to roll forward the liabilities to the June 30, 2017 Measurement Data.

NOTE 13. CASH RECONCILIATION

General Fund Investment Pool Not Reconciled. For cash management and investment purposes, funds of various state agencies are required to be deposited in the State General Fund Investment Pool (the Pool), which is managed by the Office of the New Mexico State Treasurer. Claims on the Pool are reported as assets by the various agencies investing in the Pool.

By state statute, the New Mexico Department of Finance and Administration (DFA) is responsible for the

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

performance of monthly reconciliations with the balances and accounts kept by the State Treasurer. In past years, according to past and current management at DFA, Pool balances have not been reconciled at a “business unit by fund” level since the inception of the Statewide Human Resources, Accounting, and Management Reporting System (SHARE) system in July 2006, and differences between Pool bank balances and the corresponding general ledger balances and the effect of reconciling items were unknown.

In a communication by DFA via a memo, dated August 11, 2017, issued by the State’s Controller, Ronald Spilman, the following was stated “The comprehensive cash reconciliation model, which compares aggregated agency claims on the State General Fund Investment Pool to the associated resources held by the State Treasurer’s Office, is now in its third year. The process has been reviewed multiple times by the IPAs during the audits of the General Fund, the Department of Finance and Administration and the State of New Mexico’s Comprehensive Annual Financial Report. The reviews have deemed the process to be sound and the Department fully compliant with the requirement of the monthly process.”

For FY 2017 the following assertions are provided,

1. As of June 30, 2017, resources held in the pool were equivalent to the corresponding business unit claims on those resources.
2. All claims as recorded in SHARE shall be honored at face value.

NOTE 14. FUND RESERVES

Reserves. New Mexico Statutes Annotated 1978, Subsections 10-11-123, 10-12B-3, and 10-12C-3 set forth required reserves to be maintained for benefits for the Public Employees Retirement Fund, The Judicial Retirement Fund, and the Magistrate Retirement Fund, respectively. State statutes do not specifically require separate accounting for the Volunteer Firefighters Retirement Fund. The reserves to be maintained are as follows:

Retirement Reserve Fund represents the accumulated balance available to pay pension benefits to retired members and eligible survivors of deceased members of retirees and to pay residual refunds due to eligible beneficiaries and survivors as provided for in the statute.

Members Contribution Reserve represents the accumulated contributions deducted from members’ compensation, less refunds and transfers of contributions as provided for in the statute. Annually on June 30, the members’ accounts are credited with interest on member contributions and previously earned interest at a rate determined by the Board. The rate for 2016 fiscal year was 2.00%.

Employers Accumulation Reserve represents the accumulated contributions made by affiliated public employers. Each year following receipt of the report of the annual actuarial valuation, the excess, if any, of the reported actuarial present value of benefits to be paid over the balance in the Retirement Reserve Fund is transferred to the Retirement Reserve Fund from the Employers Accumulation Fund.

Income Reserve represents the accumulation of interest, dividends, rents, and other income of PERA, less

NOTES TO THE FINANCIAL STATEMENT (CONTINUED)

June 30, 2017

administrative expense paid out of this fund. At least annually, the balance in this fund is transferred to the Retirement Reserve Fund in a manner determined by the Board. The distribution rate of interest as determined by the Board for fiscal year 2017 was 2.00% of member account balances to the Member Contribution Fund. The remaining balance of the Income Fund was distributed to the Retirement Reserve Fund.

Net Position balance as of June 30, 2017 are as follows:

	PERA FUND	Judicial Fund	Magistrate Fund	VFF Fund	Total
Members Contribution Reserve	\$ 2,518,865,030	\$ 12,589,634	\$ 4,156,428	\$ -	\$ 2,535,611,092
Employers Accumulation Reserve	4,220,357,942	65,368,865	25,920,531	4,500,000	4,316,147,338
Retirement Reserve Fund	8,059,694,939	11,657,698	2,148,161	61,900,769	8,135,401,567

NOTE 15. NEW ACCOUNTING STANDARDS

In June 2015, GASB Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, was issued. Effective Date: The provisions of this Statement are effective for fiscal years beginning after June 15 2017. The standard will be implemented during the fiscal year ended June 30, 2018. This pronouncement will not affect PERA's financial statements.

In November 2016, GASB Statement No. 83 Certain Asset Retirement Obligations was issued. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged. PERA is still evaluating how this pronouncement will affect the financial statements.

NOTE 16. PRIOR PERIOD ADJUSTMENTS

Though immaterial, the prior period adjustments were made during FY 2017 in order to more accurately reflect financial activity from prior years. Below is a table of the adjustments that were made, by fund:

DESCRIPTION	JUDICIAL	MAGISTRATE	PERA	VFF	TOTAL
To reverse A/R contributions recorded in FY12 and FY13 that were never reversed.	314,678.31	-	-	-	314,678.31
To clear A/R Contributions recorded in FY13 that remain on the TB.	(2,645.75)	-	-	-	(2,645.75)
To clear prior year expenditures that were over-accrued in FY15.	-	-	(4,986,448.00)	-	(4,986,448.00)
To clear prior year A/P accruals that were never reversed.	-	-	(1,460,955.51)	-	(1,460,955.51)
	312,032.56	-	(6,447,403.51)	-	(6,135,370.95)

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Members of the Retirement Board
Public Employees Retirement Association of New Mexico
and Mr. Timothy M. Keller
New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Public Employees Retirement Fund, Judicial Retirement Fund, Magistrate Retirement Fund, Volunteer Firefighters Retirement Fund, and the Deferred Compensation (IRC 457) Fund (collectively, the Funds) administered by the Public Employees Retirement Association of New Mexico (PERA), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise PERA's basic financial statements, and have issued our report thereon dated November 22, 2017. Our report includes a reference to other auditors who audited the financial statements of the Deferred Compensation (IRC 457) Fund, as described in our report on PERA's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered PERA's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of PERA's internal control. Accordingly, we do not express an opinion on the effectiveness of PERA's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Members of the Retirement Board
Public Employees Retirement Association of New Mexico
and Mr. Timothy M. Keller
New Mexico State Auditor

Compliance and Other Matters

As part of obtaining reasonable assurance about whether PERA's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INVESTMENT SECTION

COMPREHENSIVE ANNUAL FINANCIAL REPORT
FISCAL YEAR ENDED JUNE 30, 2017

CHIEF INVESTMENT OFFICER'S LETTER

Dear PERA Members:

It is an honor and a privilege to highlight the Investment Section of the Comprehensive Annual Financial Report for the year ending June 30, 2017, for the Public Employees Retirement Association of New Mexico (PERA). The following provides an overview of the economic environment, the investment portfolio, and accomplishments that occurred during the fiscal year.

PERA FUND PERFORMANCE

As of June 30, 2017, the investments in the PERA Fund (or the Fund) returned 11.1% and generated investment gains of approximately \$1.5 billion net of investment fees and expenses. The Fund balance at the close of the fiscal year was approximately \$15.1 billion. Over the one-year and three-year measurement periods, the Fund has underperformed its benchmark return. As explained below, the vast majority of the underperformance in the one-year period reflects changes made to the policy benchmark at the end of April 2016 for an updated strategic asset allocation. While the policy benchmark changes instantly, the implementation associated with adjustments to the asset allocation is a methodical process undertaken over a longer period, approximately 18 to 24 months. In particular, commitments to less liquid investments require additional time to identify appropriate strategies. Despite the recent underperformance, the PERA Fund continues to exceed its policy benchmark over longer time horizons.

Time Period	PERA Return	Benchmark Return	Excess Return
One-year	11.10%	11.68%	-0.58%
Three-year	4.39%	5.22%	-0.83%
Five-year	8.53%	8.50%	0.03%

Broadly speaking, the fiscal year experienced a risk-on market rally. Non-US equity markets appreciated significantly, with a 24% gain for MSCI Emerging Markets index and a 21% gain for MSCI EAFE index. US equity markets were not far behind, with the S&P 500 index gaining 18%. Similarly, the Bloomberg Barclays High Yield Bond Index rallied 13%. PERA participated in these gains through our strategic asset allocation, while also paring the risk associated with owning richly-priced asset classes. As such, PERA's performance, similar to many U.S. defined benefit plans, was above the actuarial return hurdle target of 7.25%. The portfolio did experience a positive return, and many asset classes within the PERA portfolio exceeded their respective benchmarks. The Fund benefited from its global equity investments in global public stocks and private equity, for example, with respective gains of 19.51% and 16.55%.

Declining trends in global economic and business fundamentals that drive returns earned by equity and fixed-income investors imply a sustained period of lower investment earnings than those enjoyed in recent decades. The Fund enters the next fiscal year better positioned for the current economic environment with the implementation of a new strategic asset allocation that was adopted in April 2016.

The new strategic asset allocation apportions assets to capture diversified return streams while reducing the expected volatility of the Fund, as a whole.

CHIEF INVESTMENT OFFICER'S LETTER (CONTINUED)

In the context of a dynamic capital market environment, the PERA Board seeks to position the Plan for long-term capital appreciation through prudent asset allocation, diversification within asset categories and risk management techniques to closely monitor market forces. The Board strives to generate consistent long-term investment gains recognizing that capital markets may not move in a steady and uniform direction and that losses may occur.

ECONOMIC OVERVIEW

First Fiscal Quarter

Real GDP growth during the first half of the year equaled 1.1% at an annualized rate. Robust job growth and a slow but upward trend in hourly earnings provided a boost as consumer spending contributed 2% to overall real growth. Private investment, despite accounting for less than 20% of GDP, detracted -1%. Investments are down from a year ago while inventories shrank during the second quarter for the first time in five years.

The U.S. stock market was up for the quarter by 4.3%. Most of the pricing activity occurred during roughly the first dozen trading days of the quarter. The post-Brexit rebound resulted in a 3.7% gain for U.S. equities, with a modest net gain after that. Strong equity returns have coincided with a drop in corporate earnings, driven by an Energy sector which was particularly weak.

Large capitalization stocks underperformed smaller shares while growth stocks led value. Sector performance was varied during the quarter. The best performing sector was Information Technology with a 12.6% gain while the leading laggard was Utilities with -5.7% loss.

Equity markets outside of the U.S. were in positive territory during the quarter, mainly in emerging countries. The European Central Bank maintained their accommodative policies while the Bank of England cut their bank rate to 0.25% and extended their existing quantitative easing. In Japan where the overnight rate is negative, the central bank announced a plan to target the 10-year bond yield near 0%. Emerging market equities have benefitted from strong economic growth, asset inflows and economic resilience in China.

U.S. Treasury yields were on a slow and steady rise for most of the first fiscal quarter. The bellwether 10-year Treasury yield reached a historic low of 1.37% in early July before reversing course and climbing to end the quarter at 1.60%. The Federal Open Market Committee decided to leave the overnight rate unchanged at their September meeting, the sixth consecutive meeting with no interest rate increase. Credit spreads tightened during the quarter in both investment grade and high-yield bonds. Sovereign bond yields fell across much of Europe but ticked higher in Japan.

Second Fiscal Quarter

The U.S. stock market was up for the second fiscal (fourth calendar) quarter by 4.5% and by 13.4% for all of 2016. This marks the fifth straight quarterly gain and, more remarkably, the eighth straight annual gain for the broad U.S. market. A portion of that “winning streak” is due to a rebound from the global financial crisis sell-off. However, the market has continued to produce strong returns after the recovery period, with a 14% annualized gain for the past four years. After a couple of volatile months to begin 2016, U.S. equities trended upward during the rest of the year.

CHIEF INVESTMENT OFFICER'S LETTER (CONTINUED)

Large capitalization stocks underperformed smaller shares while growth stocks trailed value. Sector performance was varied during the quarter. The best performing sector was Financials with a 21.2% gain while the main laggard was Health Care with a -3.6% loss.

The 10-Year Treasury yield continued a move higher during the fourth quarter, as did the breakeven inflation rate. Both shifts this year occurred mostly after November 8th. Whether it was the election or the removal of an unknown that spurred the change is uncertain, but the timing is unmistakable. The Federal Reserve increased the Fed-funds rate in December to a range of 0.5% - 0.75%, just the second increase since year-end 2008.

Equity markets outside of the U.S. were in mostly positive territory for both the fourth quarter and year-to-date in local currency terms. However, a strong U.S. dollar pared gains for U.S. investors. The European Central Bank announced that they would be buying less per month than previously scheduled as part of their current quantitative easing but extended the buying period to December 2017. Despite a strong 2016, emerging market equities suffered during the fourth quarter following the U.S. election as investors feared weakening prospects for global trade and exports from emerging market countries.

After falling for much of the first half of 2016, U.S. Treasury yields reversed course and moved higher for the remainder of the year. The bellwether 10-year Treasury yield reached a historic low of 1.37% in early July before climbing to end the year at 2.45%, accelerating its rise after the election. The Fed increased their overnight rate by 0.25% at their December meeting while credit spreads tightened during the quarter in both investment grade and high-yield bonds. The move was dramatic enough within high yield to result in a net quarterly gain.

Third Fiscal Quarter

The U.S. stock market was up 5.61% for the first quarter of 2017. The market has been trending upward, generally, for more than a year now, including six straight quarterly gains. Economic releases during the quarter were strong, and markets took comfort in both the Federal Reserve's 0.25% increase in the overnight rate and its accompanying statement. Despite price increases that have been accelerating, the Fed's forecast for the Fed-funds rate at year-end 2017 was little changed from their December meeting.

Large capitalization stocks outperformed smaller shares while growth stocks led value. Sector performance was varied during the quarter. The best performing sector was Information Technology with a 11.9% gain while the leading laggard was Energy with a -6.9% loss.

Some signals point to strength in the employment market, beyond an unemployment rate below 5%. Job openings are far higher than they have been in more than a decade and "quits" (employees leaving jobs voluntarily) are back to the level that existed before the credit crisis. Finally, labor force participation, which has been on the decline since 2001, has moderated near 63% during the past couple of years.

Equity markets outside of the U.S. produced solid returns during the first quarter of 2017, in both developed and emerging markets. Economic releases out of Europe suggest an improving economy, including in the manufacturing industry and with consumer sentiment. Despite major events in the global political arena, emerging market equities had their best quarter since early 2012 to begin the new year. Corporate earnings in these countries have been improving, generally, and are expected to move higher going forward.

CHIEF INVESTMENT OFFICER'S LETTER (CONTINUED)

The U.S. Treasury yield curve did not shift much during the quarter but did flatten with the six-month yield up 29 basis points and the ten-year down five basis points. The Federal Open Market Committee decided to increase their overnight rate by 0.25% at their March meeting, their third increase since 2008. Credit spreads continued lower during the quarter in both investment grade and high-yield bonds. High yield spreads, which have averaged 6% during the past decade, fell below 4% during the quarter for the first time since mid-2014.

Fourth Fiscal Quarter

The U.S. stock market was up 3.0% for the second quarter of 2017. Economic releases during the second quarter were solid with growth in both the economy and labor market. Corporate earnings reports during the quarter were stronger than many expected with Financials leading the way but weakness in the Energy sector. The Federal Open Market Committee raised the Fed Funds rate in June by 0.25%, the second such increase this year. Equity markets outside of the U.S. produced very strong returns during the second quarter, in both developed and emerging markets. While economic releases out of Europe continue to improve, Britain has shown signs of struggling with impacts from the Brexit vote. Emerging markets are outpacing developed markets in 2017. Returns have been broad-based with 21 of the 24 countries in the index (representing more than 95% of the market value) producing positive gains. The U.S. Treasury yield curve continued to flatten during the quarter with the one-year yield up 21 basis points and the thirty-year down 18 basis points. The bellwether 10-year Treasury yield ended the quarter at 2.31%, down slightly. Credit spreads continued lower during the quarter in both investment grade and high-yield bonds.

The U.S. equity market has produced an outstanding 14.6% annualized return during the past five years by producing very few (one) negative quarters. The five-year risk (standard deviation) of 7.8% as of June 30 is approaching a historic low.

INVESTMENT PORTFOLIO STRUCTURE AND PERFORMANCE

In the context of the dynamic capital market environment, PERA seeks to position the Fund for long-term capital appreciation principally through prudent asset allocation. According to widely accepted academic studies, the policy mix between major asset categories explains more than 90% of the variance in the return of an investment portfolio. A second pillar of prudent asset allocation is diversification to avoid excessive exposure to any one risk factor. Based on this foundation, the Fund divides investible assets between global equities, risk reduction and mitigation strategies, credit-oriented fixed income, and real assets. This division balances exposures and positions the PERA Fund for the uncertainties associated with global economic growth and the global inflationary environment. In addition to optimizing the risk-adjusted return prospects for the Fund, the strategic asset allocation maintains the PERA Fund's focus on liquidity. As the Fund disburses more than \$1.0 billion per year in retiree benefits, the ability to convert PERA's investment assets into cash at fair value is of paramount importance. Specifically, approximately two-thirds of the Fund's assets have ample liquidity.

PERA also seeks prudent diversification within each asset category. This mitigates adverse consequences associated with the overreliance on any individual security or security type. Be it at the total Fund level or the asset category level, PERA uses risk management techniques to closely monitor market forces and best position the Fund for its near-term and long-term goals. Through the process of apportioning the Fund across various asset categories

CHIEF INVESTMENT OFFICER'S LETTER (CONTINUED)

as each resulting investment strategy is implemented, PERA strives to generate consistent long-term investment gains recognizing that capital markets may not move in a steady and uniform direction and that losses may occur.

The PERA Fund's updated asset allocation targets as of June 30, 2017, are:

Strategic Asset Allocation

<u>Asset Class</u>	<u>Target</u>
Credit Oriented Fixed Income	43.50%
Risk Reduction & Mitigation	21.50%
Credit Oriented Fixed Income	15.00%
Real Assets to include Real Estate Equity	20.00%

Global Equity

Global equity is PERA's largest asset category with approximately \$7.1 billion in liquid and illiquid securities. The global equity composite is comprised of U.S. and non-U.S. public equities; private equity, consisting of venture capital and buyouts; and hedged equity, including long/short and event-driven absolute return strategies. The Fund's global equity portfolio returned 19.51% leading its benchmark by 1.78%. PERA's global public equity portfolio gained 20.65% for the fiscal year. By dollar amount, these assets were the primary contributor to the volatility of the PERA Fund during the fiscal year. For the broadly positive year, the global public equity portfolio performed better than its benchmark by 1.64% and with slightly less volatility than the overall market. Hedged equity also posted gains during the fiscal year, driven primarily by concentrated event-driven hedged strategies, returning 8.85% but underperforming the benchmark by 1.90%. Private equity performed well with a return of 16.55% but lagged the benchmark by 4.52%. The impact of these losses was small, however, given the relative sizing of the private and hedged equity allocations. All components of the portfolio were positive for the fiscal year.

Risk Reduction & Mitigation

With a return of 0.19%, the \$3.6 billion risk reduction and mitigation composite stayed positive in the broadly negative fixed income space. This asset category includes domestic and global core investment grade fixed income and cash equitization. The equitization program replicates the Fund's asset allocation with its cash holdings to balance short-term liquidity needs with the premise that capital markets appreciate over time. The risk reduction and mitigation portfolio outperformed its benchmark by 0.50% during the fiscal year. Equally, if not more important, it fulfilled its strategic role of providing the PERA Fund with steady income, liquidity, downside protection and diversification from equity risk. Domestic core fixed income finished the fiscal year with a -0.15% return outperforming its benchmark by 0.16%. Global core fixed income had a contribution to returns on the Fund at 0.73% and led the benchmark by 1.14%. All components of the portfolio outperformed their respective benchmarks for the fiscal year.

CHIEF INVESTMENT OFFICER'S LETTER (CONTINUED)

Credit-Oriented Fixed Income

Liquid and illiquid credit and emerging markets debt make-up the Fund's credit-oriented fixed income composite. The investments in this \$2.1 billion portfolio target total return with an emphasis on the preservation of capital relative to equity-oriented strategies. Credit-oriented fixed income strategies may be more volatile than core fixed income holdings in the risk reduction and mitigation composite. As a whole, this asset category returned 8.13%, trailing its benchmark by 3.17%. The liquid credit strategies, such as high yield and bank loans, generated returns of 8.56% but lagged their benchmark return by 3.33%. Emerging market debt recorded their first full year of performance and added a positive return of 5.51% for the fiscal year. The illiquid credit composite which includes hedged credit, distressed and private debt returned 8.85%. The Fund's credit investments maintained a more conservative risk profile during these periods of elevated uncertainty and tight spreads.

Real Assets

The \$2.1 billion real assets composite includes liquid and illiquid real estate, liquid and illiquid real assets, and market neutral/risk premia hedged strategies. Overall, the real assets portfolio gained 7.30% for the fiscal year, underperforming its benchmark by 5.18%. Liquid or publicly traded real estate strategies returned 1.04% for the fiscal year, outperforming its benchmark by 1.97%. Illiquid opportunistic and value-add private real estate partnerships returned 4.70%, 4.63% behind its benchmark. Liquid real assets were positive for the fiscal year as domestic master limited partnerships climbed 3.00% as compared to a benchmark return of 0.40%. Illiquid real assets, such as energy, infrastructure, and agriculture private partnerships, surged 14.88% but trailed the benchmark which climbed 21.24%. Market neutral/risk premia strategies, consisting of global macro, market neutral and multi-strategy hedge funds, gained 0.91% for the fiscal year and underperformed its absolute benchmark return by 2.07%.

ACCOMPLISHMENTS

Asset Allocation Implementation

The most significant action taken by PERA during the fiscal year was the continued measured process of shifting the investment portfolio to the new allocation targets approved in April of 2016. The global equity portfolio completed a planned transition towards its target weight as well as investment strategies that focus on appropriate risk compensation. Towards this end, global low volatility equity was introduced as a mandate during the fiscal year. Low volatility equity seeks to provide downside protection and reduce the global equity portfolio's sensitivity to broad equity market movements while capturing stable returns. The credit-oriented fixed income portfolio also went through an implementation process as the mandate size has increased for its parts. The implementation included a process to be more concentrated in higher conviction investment ideas while remaining diversified across strategies within credit. The combination of true diversification at the asset category level and increased conviction at the investment strategy level is taking root across the entirety of the Fund. The real assets portfolio also completed a planned implementation process that for the interim moves the asset category towards its target weight by using more liquid assets. In the future, these liquid assets will be the primary source of funding for illiquid assets. This allows the real assets portfolio to move into investment strategies that focus on appropriate risk compensation over time. For example, PERA made larger commitments to fewer managers during the fiscal year

CHIEF INVESTMENT OFFICER'S LETTER (CONTINUED)

in illiquid areas of private equity, private real estate and private real assets. The Fund balanced these concentrated positions with a new initiative designed to identify smaller and niche-focused illiquid managers with geographic and/or sector expertise.

In addition to improving the risk-adjusted return prospects for the Fund, the new strategic asset allocation maintains the Fund's focus on liquidity. Specifically, the asset allocation analysis utilized liquidity stress tests as a decision factor. PERA also updated the benchmarks it uses to measure the performance of the new policy mix. Better benchmarks will help PERA make decisions necessary to deliver superior risk-adjusted returns for its members.

Investment Division & Transparency

PERA is committed to protecting the interests of its members and the Fund by ensuring accountability through full and meaningful disclosure of information related to investment policies, portfolio composition, performance, and expenses. For the fiscal year, 2017 PERA continued its ongoing efforts to promote transparency and accountability for the Fund and its business partners. These efforts also strengthen risk management, improve governance, reduce costs, and maximize value and efficiency for the members of PERA.

PERA continued to enhance performance and accountability by expanding the use of technological solutions and refining its suite of tools and reports. A key accomplishment was the ongoing development of an in-house risk management capability during the fiscal year, with a consistent approach to identifying, evaluating, managing, monitoring and reporting risks across the portfolio. Position-level risk and performance analytics enable PERA to analyze better and control the portfolio and more effectively articulate the appetite, attitude, and tolerances to risk in pursuit of the return objective. These risk reports are included in the standard monthly reporting package for the PERA Board.

PERA SMART SAVE DEFERRED COMPENSATION PLAN

PERA's SmartSave Deferred Compensation Plan ended the fiscal year with a fund balance of \$566.8 million and a record 20,466 participants. During the fiscal year, efforts were focused on the fund and administrative enhancements to ensure current, and future participants are enrolled in a high-quality, supplemental 457b retirement plan.

In the fiscal year 2017, the PERA Board approved the replacement of specific funds within the Plan's LifeCycle Portfolios with comparable funds that offer lower investment management fees. This allows participants to continue to gain exposure to the same asset class with funds that are less volatile and less expensive.

The PERA Board also approved various recommendations for administrative enhancements to the SmartSave Plan starting with the adoption of a new administrative fee structure that is more equitable across the plan for all participants. The new administrative fee is a hybrid structure of a lower flat rate plus a variable asset rate, with a cap for those with higher account balances. The new structure lowers the annual administrative fee for two-thirds of plan participants and remains less expensive for those participants with high account balances.

CHIEF INVESTMENT OFFICER'S LETTER (CONTINUED)

The PERA Board also adopted Provision 845 of the Pension Protection Act for the SmartSave Plan. Provision 845 allows public safety retirees to utilize up to \$3000 in deferred compensation distributions towards retiree health care premiums and exclude this amount in their annual federal tax returns.

Moreover, from a legislative perspective, PERA participated in the 2017 NM Legislative Session in efforts to amend the NM Deferred Compensation Act to allow for online enrollments, a feat that had never been pursued. The pertinent bill was successfully passed by the House and Senate and signed into law by Governor Martinez at the end of the 60-day session. Implementation of online enrollment, a relatively large project, is slated for the fiscal year 2018.

SUMMARY

During the fiscal year, PERA continued to implement the updated strategic asset allocation which increases the PERA Fund's return prospects while reducing its risk expectations. The process of incorporating these changes began at the end of the fiscal year 2016, through 2017 and will continue to be a key focus for the upcoming year. In addition to implementing the updated strategic asset allocation, PERA continued to improve the risk management program with the addition of a new position focused on risk and compliance. PERA also continued its efforts to increase transparency and cost efficiencies within its portfolio. These initiatives, too, will continue into the future. PERA remains committed to delivering exceptional risk-adjusted returns over the long-term to meet the manifold needs of its members.

Lastly, I wish to thank the PERA Board for their continued dedication to the Fund. Their efforts represent the interests of all members as the Fund strikes a critical balance between short-term liquidity and long-term capital appreciation. I would also like to thank the investment division for their hard work and mission-driven focus for all PERA stakeholders. Our combined efforts are the key to PERA's success and bright future.

Sincerely,

Jude Pérez
Interim-Chief Investment Officer

INVESTMENT OBJECTIVES AND POLICIES

INTRODUCTION

The PERA Board is charged with the responsibility of administering and investing the PERA Fund for the sole and exclusive benefit of the members, retirees and other beneficiaries of PERA. In accordance with the Uniform Prudent Investor Act (UPIA), NMSA 1978, §§ 45-7-601 to 45-7-612, the Board is required to exercise the reasonable care, skill, and caution of a prudent investor when it invests and manages assets in its capacity as trustee of the Fund. This standard of care encourages diversifying investments across various asset classes to minimize the risk of large losses.

The Board approves the Investment Policy which governs the investment of assets for PERA and establishes parameters to ensure prudence and care in the execution of the investment program. The Investment Policy serves as the touchstone for prudent management of the Fund and describes the Board's investment objectives and tolerance for investment risk. The Investment Policy outlines objectives, benchmarks, restrictions and responsibilities necessary for members of the Board, staff, investment managers, consultants, and PERA stakeholders to clearly understand the policies, goals and objectives, and risks connected with the PERA investment program.

The Chief Investment Officer, with the assistance of PERA staff, has the responsibility and authority to assist the Board in establishing investment and administrative policy, and to implement the policies and programs established by the Board. The Chief Investment Officer has primary responsibility for the implementation of the investment decisions approved by the Board.

Approved policies are posted on the PERA website at www.nmpera.org where they can be viewed in their entirety.

GENERAL OBJECTIVES

PERA's primary objective is to prudently invest assets in order to meet its statutory obligations to its members. The Board will manage the Fund in a manner that reflects the Fund's unique liabilities and funding resources, incorporates accepted investment theory, and targets growth and returns appropriate to prudent levels of risk based on reliable empirical evidence. Accordingly, the Board has adopted the following principles:

- Strategic asset allocation is the most significant factor influencing the Fund's ability to meet its stated investment objectives.
- Risk is an unavoidable component of investing and shall be taken into account in assessing investment policy and strategy. In evaluating specific investments, both the risks associated with that investment as well as the impact of the investment to the overall portfolio shall be considered.
- Diversification distributes a portfolio across asset categories to avoid excessive exposure to any one source of risk.
- The Fund's liabilities are long-term and the investment strategy must incorporate the appropriate balance between short- and long-term considerations.
- Sufficient liquidity will be maintained to meet the anticipated cash flow requirements of the Fund.

INVESTMENT OBJECTIVES AND POLICIES (CONTINUED)

THIRD PARTY SERVICE PROVIDERS

- **Investment Consultants:** To accomplish its mission, PERA relies on third-party investment management consultants to properly administer the Fund and implement the investment strategies it adopts. PERA currently utilizes the services of three investment management consultants: a general investment consultant and two specialist consultants for illiquid investments in private equity, real estate, real assets and hedge funds. The investment consultants provide performance review, asset allocation studies, manager screening, and topical studies. The comments and recommendations of the consultants are considered by PERA in conjunction with other available information for the purpose of making informed and prudent decisions.
- **Investment Managers:** PERA believes that external management of Fund assets optimizes the potential to maximize risk-adjusted returns and minimize the associated expenses. Professional investment managers are retained by PERA to assist in managing PERA's assets. Investments are sufficiently diversified, both by asset class and investment manager, to minimize concentration and market risks. Each investment manager functions under a formal contract that delineates the manager's responsibilities and appropriate performance expectations, including a formal set of investment guidelines and administrative requirements for the management of each portfolio. PERA's external managers are subject to compliance with PERA's Investment Policy and all applicable State and federal laws.
- **Custodian Bank:** The custodian bank serves as the book of record for the assets comprising the Fund and is responsible for maintaining the official book of record under the supervision of staff, calculating investment performance, and serving as the primary layer of risk control in the safekeeping of Fund assets. The custodian bank is responsible for the ongoing pricing and valuation of all assets, collection of income generated by those assets, and any corporate action notification. The custodian bank cooperates with and provides assistance to staff and investment managers in the reconciliation process.

PROHIBITIONS

In accordance with UPIA guidelines, the PERA Board, staff, investment consultants, and investment managers are expected to perform their fiduciary duties as a prudent investor would and to conform to all applicable federal and state statutes governing the investment of retirement funds for a qualified government plan. Accordingly, the following investments are prohibited:

- Investments precluded by law or regulation.
- Transactions that involve a broker acting as a "principal" where such broker is also the investment manager who is making the transaction are prohibited unless otherwise approved in each manager's respective professional services agreement.
- Any other investments as specified in each investment manager's respective contract.
- An investment that violates the placement agent limitations set forth in the PERA Act.

INVESTMENT OBJECTIVES AND POLICIES (CONTINUED)

ASSET ALLOCATION

Asset allocation is the single largest contributor to the PERA Fund’s return and risk. Based on the factors identified in the Investment Policy, PERA has established strategic asset allocation targets and ranges for global equity, risk reduction and mitigation, credit oriented fixed income, and real assets on a fair value basis. Ranges for each asset class are included in the asset allocation investment policy to provide the Fund with the flexibility to take advantage of market opportunities.

The Board approves allocation of assets among various asset classes. Generally, in determining the asset allocation, PERA considers: (1) the historical performance of capital markets adjusted for the perception of the future short and long-term market performance; (2) the correlation of returns among the relevant asset classes; (3) the projected liability stream of benefits and the costs of funding to both covered employees and employers; and, (4) the relationship between the current and projected assets and the projected actuarial liability stream.

The Investment Policy describes the target allocation for investable asset types and the allowable ranges. An appropriate asset allocation facilitates diversification of assets necessary to maximize the investment return to PERA consistent with prudent market and economic risk. PERA assets are fully invested at all times with only small balances in cash equivalents to cover benefits and operational expenses.

REBALANCING

PERA’s rebalancing procedure is governed by allocation ranges rather than time periods. Upper and lower allocation limits have been established for each asset class. The ranges are a function of the volatility of each asset class and the proportion of the total fund allocated to the asset class. PERA rebalances the portfolio in accordance with policy guidelines and established procedures on an ongoing basis. The goal in implementing the rebalancing procedure is to minimize transaction costs, market impact, and opportunity costs.

When the allocation to all asset classes remains within established limits, cash flows are used to maintain the overall allocation as closely as possible to the target. In the event that a liquid strategy within an asset class

INVESTMENT OBJECTIVES AND POLICIES (CONTINUED)

breaches an upper or lower limit, the asset class is rebalanced to return to its strategic asset allocation target range within ninety (90) days. Within this ninety-day period, it may be impractical or costly to reallocate capital towards less liquid investment strategies within each major asset category. Rebalancing shall consider liquidity so that investments can be converted into cash in a short time, with little or no loss in value, as necessary to facilitate the objectives of the Fund. The marketability of an asset will be considered when rebalancing within each asset category. The rebalancing strategy may be implemented through the use of the cash overlay program.

PERFORMANCE

PERA relies on the following long-term objectives to measure investment performance:

- The actuarial assumed target rate of return is the key actuarial assumption affecting future funding rates and payment of pension obligations. Investment performance that exceeds or underperforms the target rate may materially impact future funding rates. PERA seeks to have long-term investment performance that will meet or exceed its actuarial assumed rate of return while managing risk.
- The policy benchmark is calculated by applying the investment performance of the asset class benchmarks to the Fund's asset allocation targets. The policy benchmark permits the Board to compare the Fund's actual performance to a total fund benchmark and to measure the contribution of active investment management and policy adherence.

The performance of each asset class is measured against a benchmark that describes, in general terms, the opportunity set and return characteristics associated with the asset class. For certain illiquid asset classes the benchmark serves as a proxy for expected returns rather than an approximation of the actual investments that will characterize that component of the portfolio. These benchmarks are referred to as the "Policy Index." PERA may use the Policy Index to compare the Fund's actual performance to its Total Fund Benchmark, and to measure the contributions of active investment management and policy adherence.

Mandate-level benchmarks relevant to an investment shall be used as standards to measure the performance of investment managers. Acceptable benchmarks include but are not limited to:

- The appropriate market indices on a nominal and risk-adjusted basis;
- The performance of peers within their style group;
- Adherence of the investment manager to the stated investment philosophy and style; and
- Adherence to the Investment Policy and the guidelines established in the investment contract.

Appropriateness of benchmarks is reviewed on a regular basis.

2017 Equity Performance

For the Fiscal Year ending June 30, 2017

The investment performance information contained in this section of the Comprehensive Annual Financial Report was obtained from the General Investment Consultant and was calculated using time-weighted monthly returns.

Board of Trustees
Public Employees Retirement Association
of New Mexico
33 Plaza La Prensa
Santa Fe, New Mexico 87507

Attention: Mr. Wayne Propst, Executive Director

Re: Certification and Statement Regarding the Actuarial Valuations as of June 30, 2017

Dear Members of the Board:

The basic funding objective of the Public Employees Retirement Association of New Mexico (PERA) is to establish and receive contributions which, when expressed as a percentage of active member payroll, will remain approximately level over time and, together with present assets and future investment return, will be sufficient to meet the future obligations of PERA.

In order to measure progress toward this objective, PERA has an actuarial valuation performed each year. The valuation measures the present financial position and determines the sufficiency of the current statutory contribution rates to meet the Board's established objective to fund the current normal cost plus an amount necessary to amortize the unfunded actuarial accrued liability over a period not to exceed 30 years. The current statutory combined employer and employee contribution rates are:

State General Division	25.91%
State Police/Corrections Division	34.31
Municipal General Division	23.14
Municipal Police Division	35.88
Municipal Fire Division	39.15

If it is determined that the current employer contribution rate is not sufficient to amortize the unfunded actuarial accrued liability within 30 years, the valuation determines the additional contribution rate necessary to satisfy this objective.

Board of Trustees
November 1, 2017
Page 2

In preparing the valuations, we, as the actuary, relied on data provided by PERA. As part of our work, we performed a limited review of the data for consistency and reasonableness. The economic assumptions (rates of price inflation, wage inflation, payroll growth and investment return) were adopted by the Board pursuant to an economic experience study adopted July 28, 2016. The demographic assumptions were adopted by the Board of Trustees pursuant to an experience study for the five-year period ending June 30, 2013. The demographic assumptions for the Judicial, Magistrate, and Volunteer Firefighter plans were adopted by the Board pursuant to demographic experience studies for the four-year period (five-year period for Volunteer Firefighters) ending June 30, 2015. Assets are valued according to a method that fully recognizes expected investment return and averages unanticipated market return over a four-year period. The assumptions and methods utilized in this valuation, in our opinion, are reasonable both individually as well as in aggregate.

We have performed the necessary calculations in accordance with the guidance provided in Statement No. 67 which is the basis for the disclosure information contained in the actuarial section of the CAFR. Historical information provided in this section for periods beginning June 30, 2010 and after were performed by our firm.

We are qualified actuaries with Cavanaugh Macdonald Consulting, LLC and are experienced with performing actuarial valuations of public sector benefit plans. We are Members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein. On the basis of the foregoing, we certify that, to the best of our knowledge, the valuation reports are complete and accurate and have been prepared in accordance with New Mexico's statutes and generally recognized and accepted actuarial principles.

We further certify that our reports are prepared using practices which are consistent with the principles prescribed by the Actuarial Standards Board (ASB) and the Code of Professional Conduct and Qualification Standards for Public Statements of Actuarial Opinion of the American Academy of Actuaries.

Respectfully submitted,

John J. Garrett, ASA, FCA, MAAA
Principal and Consulting Actuary

Jonathan T. Craven, ASA, FCA, MAAA, EA
Consulting Actuary

SUMMARY OF ASSUMPTIONS AND METHODS

The method used for the PERA, Judicial, and Magistrate valuations is called the individual entry-age actuarial cost method and has the following characteristics:

- The annual normal costs for each individual active member are sufficient to accumulate the value of the member's pension at time of retirement.
- Each annual normal cost is a constant percentage of the member's year by year projected pensionable compensation.

The method used for the Volunteer Firefighters and Legislative valuations is called the entry age normal level dollar cost method and has the following characteristics:

- The total present value of projected benefits of each individual is allocated on a level basis over service from entry age to retirement age. The portion of this present value allocated to the valuation is the normal cost.
- The actuarial accrued liability is accumulation of past normal costs on the valuation date.

The individual entry-age actuarial cost method allocates the actuarial present value of each member's projected benefits on a level basis over the member's pensionable compensation between the entry age of the member and the pattern of projected exit ages.

The portion of the actuarial present value allocated to the valuation year is called the normal cost. The portion of the actuarial present value not provided for by the actuarial present value of future normal costs is called the actuarial accrued liability. Deducting accrued assets from the actuarial accrued liability determines the unfunded actuarial accrued liability (UAAL).

PERA: The period of time needed to finance the unfunded actuarial accrued liability with current statutory contribution rates is determined using a level percent of payroll amortization technique.

Judicial: Unfunded actuarial accrued liability was amortized as a level percent of payroll over 30 years to determine the computed contribution for fiscal integrity. This period is consistent with the policy established by the Retirement Board as of October 1996.

Magistrate: Unfunded actuarial accrued liability was amortized as a level percent of payroll over 30 years to determine the computed contribution for fiscal integrity. This period is consistent with the policy established by the Retirement Board as of October 1996.

Volunteer Firefighters: Unfunded actuarial accrued liability is amortized over a 30 year period. As of June 30, 2016 the funding value of assets exceeded accrued liabilities. The excess was amortized over 30 years and applied as a credit to the computed normal cost.

Legislative: Unfunded actuarial accrued liability is amortized over a 30 year period. As of June 30, 2016 the funding value of assets exceeded accrued liabilities. The excess was amortized over 30 years and applied as a credit to the computed normal cost.

SUMMARY OF ASSUMPTIONS AND METHODS (CONTINUED)

The valuation assets used for funding purposes is derived as follows: prior year actuarial value of assets are increased by contributions and expected investment income and reduced by refunds, benefit payments and expenses. To this amount 25% of the difference between expected and actual investment income (net of investment expenses) for each of the previous four years is added. The funding value of assets for each division is allocated in proportion to the total fund balances.

Demographic assumptions used by the professional actuaries in valuing PERA's actuarial position were adopted by the PERA Board based on recommendations from the actuary for actuarial valuations effective beginning June 30, 2014. Demographic assumptions used for the Judicial, Magistrate, and Volunteer Firefighter plans were adopted by the PERA Board for actuarial valuations beginning June 30, 2017. Plan assets are valued on a market related basis for purposes of the actuarial valuation. Mortality uses the RP-2000 Mortality Table (combined table for healthy post-retirement lives, employee table for active members, and the disabled table for disabled retirees before reaching retirement age) with projection to 2019 using Scale AA. In addition, the following assumptions were used in calculating the actuarial liability (effective beginning with the June 30, 2017 valuation):

- Active member payroll
 - PERA — payroll was projected to increase 2.25% per year for 10 years and 2.75% for remaining years due to inflation. Other projected salary increases of up to 11.25% per year are attributed to seniority and merit.
 - Judicial — payroll was projected to increase 3.50% per year for 10 years and 4.00% for remaining years.
 - Magistrate — payroll was projected to increase 3.00% per year for 10 years and 3.50% for remaining years.
- Benefit payments are increased by cost of living adjustments of 2% per year for retirees (2.5% for certain retirees) with varying lengths of deferral depending on retirement date (from 2 to 7 years).
- Rate of return on the investment of present and future assets of 7.25% for 10 years and 7.75% for remaining years (net of investment expenses) per year compounded annually is made up of an assumed inflation rate of 2.25% for 10 years and 2.75% for remaining years and a 5.00% assumed real rate of return.
- Administrative expenses are assumed to be 0.45% of payroll for PERA, Judges, and Magistrates; \$45,000 for Volunteer Firefighters; and \$6,000 for the Legislative Division.
- Other assumptions are in the following tables and schedules (see following pages):
 - Rates of Retirement
 - Rate of Separation of Active Membership
 - Rates of Disability
 - Member and Employer Contribution Rates

RATES OF RETIREMENT AT FIRST ELIGIBILITY

These rates are used to measure the probability of members retiring in the first year eligible for retirement at the indicated ages.

Percents Retiring at Indicated Ages (by Coverage Plan)

Retirement Age	State General		State Police	State Corrections	Municipal General		Municipal Police	Municipal Fire

RATES OF SEPARATION FROM ACTIVE MEMBERSHIP

These rates are used to measure probabilities of active members terminating that status for a reason other than disability or death.

The rates do not apply to members who are within the retirement rate range.

Separation rates are service and age related for the State General and Municipal General divisions.

Percent of Active Members Terminating During Year

SUMMARY OF PERA PLAN PROVISIONS

Membership Eligibility

The Public Employees Retirement Association of New Mexico includes employees of the State of New Mexico and employees of affiliated public employers. Effective July 1, 2013, legislation established two benefit tiers under each PERA coverage plan. A member is in Tier 1 if they were hired for the first time on or before June 30, 2013; had member contributions on account as of June 30, 2013 or was retired as of June 30, 2013. A member is in Tier 2 if they were hired for the first time on or after July 1, 2013; or refunded their employee contributions on or before June 30, 2013, and returned to work for a PERA affiliate on or after July 1, 2013. Employees excluded from PERA membership include: seasonal employees; student employees; part-time employees who work less than 20 hours per week; independent contractors; and retirees of the Educational (ERA), Judicial (JRA) or Magistrate (MRA) Retirement Systems. Elected officials become members unless they submit a written application for exemption from membership.

Vesting

Retirement benefits become vested upon member's completion of the following years of qualifying service with accumulated member contributions remaining on deposit with the Association: five years for Tier 1 members, eight years for Tier 2 general members (non-public safety employees), and six years for Tier 2 public safety members.

Retirement Eligibility - Tier 1 Members

Age	Years of Credited Service
Any	25 or more
60+	20 or more
61+	17 or more
62+	14 or more
63+	11 or more
64+	8 or more
65+	5 or more

Retirement Eligibility - Tier 2 Members

- Rule of 85 – members must have eight or more years of service credit and age at time of retirement and years of service credit must equal 85
- Age 65 with 8 or more years of service credit.

The municipal police and fire coverage plans 3, 4, and 5 require any age with 20 or more years of credited service for Tier 1 members and any age with 25 or more years of credited service for Tier 2 members.

The service credit for Tier 1 members of State Police and Adult Correctional Officer Member Coverage Plan 1 shall be increased by twenty percent for service credit earned while under the plan. To qualify for retirement under the plan, adult correctional officers were required to contribute 18 months under the plan beginning July 1, 2004 and ending December 31, 2005 for those first eligible.

The service credit for Tier 1 members of Municipal Detention Officer Member Coverage Plan 1 shall be increased by twenty percent for service credit earned while under the plan. To qualify for retirement under the plan,

SUMMARY OF PERA PLAN PROVISIONS (CONTINUED)

municipal detention officers are required to contribute a minimum of 18 months under the plan. Members employed by municipalities which adopted the plan effective July 1, 2004 were first eligible after December 31, 2005.

Service Benefit Formula

For Tier 1 members, the final average salary is calculated with highest 36 consecutive month's salary, multiplied by years of service, multiplied by the applicable plan pension factor, up to the maximum allowable pension. For Tier 2 members the final average salary is calculated with the highest 60 consecutive month's salary, multiplied by years of service, multiplied by the applicable plan pension factor, up to the maximum allowable pension.

Cost of Living Adjustment

Effective July 1, 2013, PERA provides a COLA as follows:

- Retirees under normal retirement will receive a 2 percent annual compounding COLA.
- Retirees with 25 or more years of PERA serviced credit (not including reciprocity) with an annual pension of \$20,000 or less will receive a 2.5 percent annual compounding COLA.
- Retirees under disability retirement with an annual pension of \$20,000 or less will receive a 2.5 percent annual compounding COLA.

There is a graduated COLA eligibility period for members who retire under normal retirement:

- Retirement dates through June 1, 2014; two full calendar year eligibility period to receive a COLA;
- Retirement dates of July 1, 2014 through June 1, 2015: three full calendar year eligibility period to receive a COLA.
- Retirement dates of July 1, 2015 through June 1, 2016: four full calendar year eligibility period to receive a COLA: and
- Retirement dates on or after July 1, 2016: seven full calendar year eligibility period to receive a COLA.

Death Benefits

PERA death benefits depend on whether or not the death occurred in the line of duty.

Death in the Line-of-Duty – A survivor pension is paid to the eligible spouse and children if the member has not designated a different survivor beneficiary under the “Elective Survivor Pension Beneficiary” provision. The amount of pension payable for life to an eligible spouse is the greater of 1) 50% of final average salary, or 2) the accrued normal retirement pension reduced for option B election. The amount of pension payable to each eligible child is an equal share of 25% of final average salary. If there is not an eligible spouse or the eligible spouse dies, and if there are 2 or more eligible children, the amount of pension payable to each eligible child is an equal share of 50% of final average salary.

Death NOT in the Line-of-Duty – Member must be vested for eligibility. A survivor pension is paid to the eligible spouse or children if the member has not designated a different survivor beneficiary under the “Elective Survivor Pension Beneficiary” provision. The amount of pension payable for life of an eligible spouse is the greater of 1) 30% of final average salary, or 2) accrued normal retirement pension reduced for option B election. An eligible child pension is paid if there is not an eligible spouse or following the death of an eligible spouse. The amount of

SUMMARY OF PERA PLAN PROVISIONS (CONTINUED)

pension payable to each eligible child is an equal share of 25% of final average salary or if greater, 50% of accrued normal retirement pension.

Disability Retirement

Applicable to vested members and vested former members. The vesting requirement is waived if the disability is incurred in the line of duty. The amount of disability pension is the accrued normal retirement pension at time of disability retirement. If the disability is in the line of duty, the credited service used is the amount that would have been acquired when first eligible for normal retirement.

Refunds

A terminated member is eligible for a 100% refund of member contributions plus interest after being unemployed by an affiliated public employer for 30 days or more. There is a 30 to 45 day refund processing period after the completed application is received by PERA.

Purchase of Service Credit

A PERA member or current contributing member of ERA, JRA, or MRA may purchase previously refunded service credit by paying a lump sum amount plus interest.

Contribution Rates

Applicable member and employer contribution rates are dependent on the plan adopted by the affiliated public employer.

SUMMARY OF JUDICIAL PLAN PROVISIONS

Membership Eligibility

The Judicial Retirement Plan of New Mexico includes all justices of the Supreme Court and judges of district courts, metropolitan courts and the Court of Appeals.

Retirement Eligibility

A judge or justice may retire at: 1) Age 64 with five or more years of service, or 2) Age 60 with fifteen or more years of service. For judges or justices hired after July 1, 2005: 1) Age 64 with five or more years of service, or 2) Age 55 with sixteen or more years of service.

Service Benefit Formula

Final average salary (calculated using the last 12 months of salary received in office prior to retirement) multiplied by a minimum of 37.5% up to a maximum of 75%, depending on years of service.

Early Retirement Pension

Applicable to judges or justices between the ages of 50 and 60, with 18 or more years of service. The pension is 70% of final average salary (received during the last year in office prior to retirement) plus 0.5% of final average salary multiplied by the number of complete years the age at retirement exceeds age 50. Members hired after July 1, 2005 are not eligible for early retirement.

SUMMARY OF PERA PLAN PROVISIONS (CONTINUED)

Cost of Living Adjustment

Pensions are increased each July 1 by 2% if the retirement has been in effect for at least two full calendar years. If retired because of disability or if at least age 65, the two calendar year waiting period is reduced to one full calendar year.

Death Benefits

The surviving beneficiary of an active or retired member would receive 75% of the member's vested pension until death. The pension is payable to the deceased member's minor and dependent children if there is no eligible surviving spouse or designated survivor beneficiary.

Refunds

A terminated member is eligible for a 100% refund of member contributions plus interest. There is a 30 to 45 day refund processing period after the completed application is received by PERA.

Purchase of Service Credit

A JRA member or current contributing member of PERA, ERA, or MRA may purchase previously refunded service credit by paying a lump sum amount plus interest.

Other Service

PERA, MRS and ERA service may be combined with Judicial service for purposes of satisfying age and service requirements once a member has attained one month of Judicial service. When combining service, members may retire under the JRA after satisfying either the JRA or PERA age and service requirements for immediate benefits.

Contribution Rates

The contribution rate for judges and justices from July 1, 2005 is 7.5% of salary. For fiscal years 2010 and 2011, the member contribution rate is 9.0%. For fiscal years 2012 and 2013, the member contribution rate is 10.75%. From July 1, 2005, the employer contributes 12% plus \$38 from each civil case docket fee paid in district court, \$25 from each civil case docket fee paid in metropolitan court and \$10 from each jury fee paid in metropolitan court. For fiscal years 2010 and 2011, the employer contribution was 10.5% and thereafter the rate is 12% with the docket fees charges remaining the same.

MAGISTRATE PLAN

Membership Eligibility

The Magistrate Retirement Plan of New Mexico includes all magistrate court judges.

Retirement Eligibility

A judge may retire at: 1) Age 64 with five or more years of service, or 2) Age 60 with fifteen or more years of service, or 3) Any age with twenty-four or more years of service. Magistrates with one or more years of service in PERA, ERA or JRA may combine service credits to satisfy these voluntary retirement conditions.

SUMMARY OF PERA PLAN PROVISIONS (CONTINUED)

Service Benefit Formula

Final average salary (calculated using the last 12 months of salary received in office prior to retirement) multiplied by a minimum of 37.5% up to a maximum of 75%, depending on years of service.

Cost of Living Adjustment

Pensions are increased each July 1, 2% if the retirement has been in effect for at least two full calendar years. If retired because of disability or if at least age 65, the two calendar year waiting period is reduced to one full calendar year.

Death Benefits

The surviving beneficiary of an active or retired member would receive 75% of the member's vested pension until death. The pension is payable to the deceased member's minor and dependent children if there is no eligible surviving spouse or designated survivor beneficiary.

Disability Retirement

Applicable if magistrate has five or more years of magistrate service and becomes incapacitated to perform duties of office. Magistrate would receive vested pension. Five year service requirement is waived if the disability is duty-related.

Refunds

A terminated member is eligible for a 100% refund of member contributions plus interest. There is a 30 to 45 day refund processing period after the completed application is received by PERA.

Purchase of Service Credit

A MRA member or current contributing member of PERA, ERA, or JRA may purchase previously refunded service credit if employed by an affiliated public employer at the time of purchase by paying a lump sum amount plus interest.

Contribution Rates

The contribution rate for judges and justices from July 1, 2005 is 7.5% of salary. For fiscal years 2010 and 2011, the member contribution rate is 9.0%. For fiscal years 2012 and 2013, the member contribution rate is 10.75%. From July 1, 2005, the employer contributes 11% plus \$25 from each civil case docket fee paid and \$10 from each jury fee paid in magistrate or metropolitan court. For fiscal years 2010 and 2011, the employer contribution was 9.5% and thereafter the rate is 11% with the docket fees charges remaining the same.

VOLUNTEER FIREFIGHTER PLAN

Membership Eligibility

The Volunteer Firefighter Retirement Plan of New Mexico includes any active volunteer non-salaried firefighter whose first year of service credit was earned during or after the year turning age 16.

SUMMARY OF PERA PLAN PROVISIONS (CONTINUED)

Retirement Eligibility

A member may retire at: 1) a full retirement annuity at age 55 with 25 or more years of service, or 2) with a reduced retirement annuity at age 55 with at least 10 but less than 25 years of service credit.

Service Credit

A year of service credit may be granted upon required certification for each year the member: 1) attended 50% of all scheduled fire drills; 2) attended 50% of all scheduled business meetings; and 3) participated in at least 50% of all emergency response calls which the fire department held him/her responsible to attend.

Service Benefit Formula

The full retirement annuity is \$250 per month. The reduced retirement annuity is \$150 per month.

Vested Retirement Annuity

Any member with at least 10 years of service credit who ceases to be a volunteer non-salaried firefighter is eligible for a deferred retirement annuity commencing at age 55. The monthly amount is \$250 if the member has at least 25 years of service credit and \$125 if the member has between 10 and 25 years of service credit.

Cost of Living Adjustment

Retired volunteer firefighters are not eligible for a Cost of Living Adjustment.

Death Benefits

- 1) The surviving spouse of a deceased annuitant receives a pension equal to two-thirds of the retirement annuity being paid at the time of death. The annuity ceases upon the surviving spouse's marriage or death.
- 2) If there is no surviving spouse, then a surviving depended child will receive an annuity equal to two-thirds of the retirement annuity being paid at the time of the member's death. The annuity will cease upon the earlier of the dependent child's 18th birthday or death.

Contribution Rates

Funding from the New Mexico State's Fire Protection Fund is transferred annually to the Volunteer Firefighter Retirement Fund. The amount transferred in FY2014 was \$750,000.

SUMMARY OF PERA PLAN PROVISIONS (CONTINUED)

LEGISLATIVE PLAN

Membership Eligibility

The New Mexico Legislative Retirement Plan includes any state legislators and lieutenant governors.

State Legislator Member Coverage Plan 1 and Plan 1 Enhanced

Age	Years of Credited Service
Any	14 or more
60+	12 or more
63+	11 or more
64+	8 or more
65+	5 or more

State Legislator Member Coverage Plan 2

- Any age with 10 or more years of service credit; or
- Age 65 with 5 or more years of service credit.

Service Benefit Formula

The annual pension for State Legislator Member Coverage Plan 1 is \$250 multiplied by the years of credited service.

The annual pension for State Legislator Member Coverage Plan 1 Enhanced is \$500 multiplied by the years of credited service.

The annual pension for State Legislator Member Coverage Plan 2 is 11% of the per diem rate in effect multiplied by 60 and further multiplied by the member's service credit.

Cost of Living Adjustment

Pensions are increased each July 1 by 2% if the retirement has been in effect for at least two full calendar years. If retired because of disability or if at least age 65, the two calendar year waiting period is reduced to one full calendar year.

Death Benefits

Legislative death benefits depend on whether or not the death occurred in the line of duty.

Death in the Line-of-Duty – A survivor pension is paid to the eligible spouse and children if the member has not designated a different survivor beneficiary under the “Designated Survivor Pension Beneficiary” provision. The pension payable for life to an eligible beneficiary is 80% of the accrued normal retirement pension.

Death NOT in the Line-of-Duty – Requires five years of credited service for eligibility. A survivor pension is paid to the eligible spouse or children if the member has not designated a different survivor beneficiary under the

SUMMARY OF PERA PLAN PROVISIONS (CONTINUED)

“Designated Survivor Pension Beneficiary” provision. The pension payable for life to an eligible spouse is 80% of accrued normal retirement pension. An eligible child pension is paid if there is not an eligible spouse or following the death of an eligible spouse. The amount of pension payable to each eligible child is an equal share, with each other child, of 50% of accrued normal retirement pension. An eligible child is an unmarried natural or adopted child who is under age 18 years. A child’s pension terminates upon death, marriage or reaching age 18. The pension of any remaining eligible children is recalculated whenever a child’s pension is terminated.

Disability Retirement

Applicable to members and vested former members with five or more years of credited service. The five year credited service requirement is waived if the disability is incurred in the line of duty. The amount of disability pension is the accrued normal retirement pension at time of disability retirement. If the disability is in the line of duty, the credited service used is the amount that would have been acquired when first eligible for normal retirement.

Contribution Rates

Members contribute \$100 for each year of credited service under State Legislator Member Coverage Plan 1, \$200 for each year of credited service under State Legislator Member Coverage Plan 1 Enhanced and \$500 for each year of credited service prior to 2012 and \$600 for each year of service beginning with the 2012 legislative session for the State Legislator Member Coverage Plan 2. An additional annual appropriation to the Legislative Retirement Fund is determined by the actuarial valuation.
