INDEPENDENT AUDITOR'S REPORT

Hector Balderas
New Mexico State Auditor
Office of Management and Budget and
Board of Directors
El Prado Water & Sanitation District
El Prado, New Mexico

We have audited the accompanying financial statements of the business-type activities and the budgetary comparisons of the State of New Mexico, El Prado Water & Sanitation District (District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of District's management. Our responsibility is to express opinions on these financial statements based on our audit.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

The District was unable to provide a capital asset listing with depreciation expense for the year ended June 30, 2011. We were not able to apply other auditing procedures to provide evidence to verify the fairness of presentation of the capital assets and depreciation expense.

In our opinion, except for the effect of such adjustments, if any, as might have been determined to be necessary had we been able to examine evidence regarding capital assets, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the El Prado Water & Sanitation District as of June 30, 2012, and the respective change in financial position, thereof and the cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the budgetary comparisons of the District for the year ended June 30, 2012.

In accordance with *Governmental Auditing Standards*, we have also issued our report dated September 5, 2013, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be considered in assessing the results of our audit.

(This page intentionally left blank.)

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 11 through 16 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide sufficient evidence to express an opinion or provide any assurance.

Our audit was performed for the purpose of forming opinions on the basic financial statements and budgetary comparisons. The accompanying schedule of cash accounts and pledged collateral, listed as "Other Supplemental Information" in the table of contents are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United states of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

A handwritten signature in cursive script that reads "Precision Accounting, LLC".

El Prado Water & Sanitation District Management's Discussion and Analysis

As management of El Prado Water & Sanitation District ("District") we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with the financial statements of the District and additional information provided.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$3,618,781 (*net assets*). This entire amount is to be used to meet the District's ongoing obligations to citizens and creditors and construct the water and wastewater systems.
- The District's total net assets increased by \$131,365 during the fiscal year. The majority of this is due to a decrease in intergovernmental grants and consequently capital outlay.
- The District's total debt decreased by \$81,201 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise two components: 1) government-wide financial statements (entire fund) and 2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *balance sheet* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statements of revenues, expenses and changes in net assets* presents information showing how the District's net assets changed during the most recent fiscal year.

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues from other functions that are intended to recover all or a significant portion of their costs.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, maintains only one enterprise fund for its operations.

**El Prado Water & Sanitation District
Management's Discussion and Analysis**

Proprietary funds. Proprietary funds are generally used to account for sewer or water services for which the District charges its customers. All activity was accounted for in one fund. The District maintains one type of proprietary fund.

Enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses enterprise funds to account for the operations of the water and sanitation operations of the District. The enterprise fund is considered to be the only major fund of the District.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-43 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Analysis of Net Assets

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of El Prado Water & Sanitation District, assets exceeded liabilities by \$3,618,781 at the close of the current fiscal year.

	2012 Business-type	2011 Business-type
Assets		
Current and other assets	\$ 249,635	\$ 198,229
Capital assets, net of accumulated depreciation	4,564,804	4,564,804
Total Assets	4,814,439	4,763,033
Liabilities		
Long-term liabilities outstanding	1,074,048	1,158,012
Other liabilities	121,610	117,605
Total Liabilities	1,195,658	1,275,617
Net Assets		
Invested in capital assets, net of related debt	3,222,598	3,322,598
Unrestricted	396,183	264,818
	\$ 3,618,781	\$ 3,487,416

All of the District's net assets represent resources that are subject to restrictions. The restrictions are reserved to construct the water and sanitation system.

**El Prado Water & Sanitation District
Management's Discussion and Analysis**

As of June 30, 2012, El Prado had current and other assets of \$249,635, a increase of \$51,406 over the prior year balance of \$249,635.

Increase (Decrease) in net assets	131,365	(65,279)
Net assets, beginning of year	\$3,487,416	3,552,695
Ending net assets	\$3,618,781	\$3,487,416

El Prado Water & Sanitation District Management's Discussion and Analysis

Long term liabilities decreased by \$83,964. Other liabilities increased by \$4,005, with an ending balance of \$121,610. At June 30, 2012, the net assets of El Prado Water and Sanitation District totaled \$3,618,781 which was a increase of \$131,365 over prior year net assets of \$3,487,416.

Revenues for the year ending June 30, 2012 were less than the prior year by \$1,172,487. The main area of decrease was intergovernmental revenues, which decreased by \$1,194,791. Total expenditures decreased by \$1,369,126.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUND

As noted earlier, El Prado Water & Sanitation District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Proprietary Funds. The District's proprietary fund provides the same type of information found in the governmental-wide financial statements, but in more detail.

Budgetary Highlights

The State of New Mexico budget process is defined under state law and regulation. To enhance the process of developing a budget at the District level, El Prado Water and Sanitation District utilizes goals and objectives defined by the Board of Directors, community input meetings, long term plans for water and wastewater system development and input from professional and non-professional staff to develop the District budget. District priorities are well defined through this process.

GASB Statement No. 34 does not require a statement presenting the overall result of the budget for each year; however, all major budgetary funds are required to be reported as a separate statement.

The District's final budget budget did not change.

Capital Asset and Debt Administration

Capital assets. El Prado Water & Sanitation District's capital assets for its governmental and business-type activities as of June 30, 2012 amount to \$4,564,804 (net of accumulated depreciation). Capital assets include furniture, fixture & equipment and utility plant in service.

**El Prado Water & Sanitation District
Management's Discussion and Analysis**

Capital Assets, Net of Depreciation
June 30, 2012 and 2011

	2012 Business-type		2011 Business-type

	\$ 1,160,015		\$ 1,241,216

See note 7 on pages 37-40 in the accompanying Notes to the Financial Statements for further information regarding El Prado Water & Sanitation District's long-term debt.

**El Prado Water & Sanitation District
Management's Discussion and Analysis**

FUTURE TRENDS

The District has fully expended all grants from the State of New Mexico by the end of FY 2011-2012.

The El Prado Water and Sanitation District Board of Directors and its staff continue to dedicate themselves to the citizens of the El Prado Community by honestly representing an accurate and fairly stated set of financial records. We recognize and strive to keep water and sewer fees as low as possible and hopes that the mil levy will eventually be something of the past.

In addition we pledge to continually have the community's best interest at heart while expanding our water and sewer services at the lowest cost for our customers.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of El Prado Water & Sanitation District's finances for all of those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to El Prado Water & Sanitation District, P.O. Box 1110, El Prado, NM 87529.

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Notes to Financial Statements
June 30, 2012

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

El Prado Water & Sanitation District (the District) is a political sub-division of the State of New Mexico that was authorized by the District Court for Taos County on August 12, 1981.

The District is engaged in the development of a water and sanitation district for the El Prado area in Northern New Mexico. The District serves approximately 370 units, providing drinking water and sewer services to the local people in the rural, non-Indian communities of Taos County.

The Board consists of five members elected by the qualified voters for six year terms. The Board appoints qualified personnel to guide and direct the operations of the District. The Board also approves all major contracts, capital outlay, and other decisions involving the District.

The financial statements of El Prado Water & Sanitation District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The operations of the District are accounted for in one fund.

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

A. Reporting Entity

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB-14.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organization if its officials appoint a voting majority of an organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government:

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Notes to Financial Statements
June 30, 2012

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

1. Is entitled to the organization's resources;
2. Is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to the organization; or
3. Is obligated in some manner for the debt of the organization.

A. Reporting Entity

Some organizations are included as component units because of their fiscal dependency on the primary government. An organization is fiscally dependent on the primary government if it is unable to adopt its budget, levy taxes or set rates or charges, or issue bonded debt without approval by the primary government.

The El Prado Water & Sanitation District did not have any component units during the fiscal year ended June 30, 2012.

B. Business-Type Activities

The government-wide financial statements (i.e. the Statement of Net Assets and the Statement of Activities and Changes in Net Assets) report information on all of the non-fiduciary activities of the primary government. Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The Statement of Net Assets and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Non-exchange Transactions*.

The Statement of Activities demonstrates the degree to which the direct expense of a given function or segments is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and 2) grants and contributions that are restricted to meeting the operational or capital requirement of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. Property taxes are recognized as revenues in the year for which they are levied.

The proprietary fund is accounted for using the accrual basis of accounting. The revenues are recognized when they are earned, and the expenses are recognized when they are incurred. Billed water and sanitation services receivable are recorded at year-end once operations begin.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Sales and use taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place and the revenues are measurable and available. Grants and similar items are recognized as revenue items and are considered to be measurable and available only when cash is received by the government.

Amounts reported as program revenues are charges to customers who purchase or use or directly benefit from the goods or services provided by the District.

The proprietary fund is accounted for on a cost of services of “capital maintenance” measurement focus. This means that all assets and all liabilities (whether current or non-current) associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and net assets components. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent standards subject to this same limitation. The District has elected not to follow subsequent private-sector guidance.

The District reports its proprietary fund as a major governmental fund.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed.

Proprietary fund distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund’s principal

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Notes to Financial Statements
June 30, 2012

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation, continued

ongoing operations. The principal operating revenue of the District's enterprise fund is charged for water and wastewater services. Operating expenses for enterprise funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Assets, Liabilities and Net Assets or Equity

Cash and Temporary Investments: The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the District to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Investment Pool.

Investments for the District are reported at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties. The State Treasurer's Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

Encumbrances: Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures in order to reserve that portion of the applicable appropriation, is not employed.

Accounts Receivable: All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. The receivables due at June 30, 2009 consist of customer water and sewer fees, and property taxes collected by Taos County and other receivables. All receivables are considered current and collectible. Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. The taxes are an enforceable lien on the property.

Prepaid Items: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and proprietary financial statements.

Capital Assets: Capital assets, which include property, plant, computer software, and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Notes to Financial Statements
June 30, 2012

D. Assets, Liabilities and Net Assets or Equity, continued

Major outlays for capital assets and improvements are capitalized as projects are constructed. No interest was included as part of the cost of capital assets under construction.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Permanent Buildings	40
Land Improvements	40
Furniture & Equipment	7
Utility Plant in Service	40

Compensated Absences: Full time employees of the District are entitled to accumulate vacation and sick leave. Leave is granted according to a graduated leave schedule, depending on length of service, the employee’s hire date and the employee’s employment status. Upon termination, employees will be paid for accrued annual leave, but not for sick leave.

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated vacation and sick leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net assets.

Long-term Obligations: In the government-wide fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statements of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Net Assets: In the fund financial statements, governmental funds report reservations of net assets that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of net assets represent tentative management plans that are subject to change.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates affecting the District’s financial statements include management’s estimate of the useful lives of capital assets.

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Notes to Financial Statements
June 30, 2012

E. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District pays an annual premium for all of the above risks. There have been no claims for the past five years.

F. Advertising

Advertising costs are expenses as incurred. Advertising costs for the year ended June 30, 2012 were \$578.

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets and Budgetary Accounting

The budget for the Enterprise Fund is prepared by management and is approved by the Board of Directors.

These budgets are prepared on the Non-GAAP cash basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year.

Actual expenditure may not exceed the budget on a per fund basis, i.e., total budgeted expenditure must be within total budgeted amounts. Budgets may be amended in one way. If a budget transfer is necessary within a major category called a “resolution,” this may be accomplished with only Board of Directors approval.

The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. On or before July 1 of each year, the Board of Directors, approves and certifies to the estimated operating budgets for use by the local board pending final approval from the State of New Mexico.
2. The State of New Mexico approves the budget for the District to utilize during the year.
3. Budget adjustments may be made during the year. The Board of Directors approves budget resolutions to increase or decrease revenue and/or expenditure line items during the year.

Federal Projects – Federal categorical grants are budgeted on the grant’s project year rather than the District’s fiscal year and, therefore, may not reflect cash basis budgeting. Unexpended portions of prior year’s programs are re-budgeted into the subsequent year’s program budget. Since the programs are incomplete at June 30, the schedules of budgeted and actual revenue and expenditures present unrealized revenue and expended budget, rather than budget saving.

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Notes to Financial Statements
June 30, 2012

NOTE 3. DEPOSITS AND INVESTMENTS

State statutes authorize the investment of District funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government obligations. All invested funds of the District properly followed state investment requirements as of June 30, 2012.

Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the District. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

The collateral pledged is listed on Schedule I of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by an agency, District or political subdivision of the State of New Mexico.

According to the Federal Deposit Insurance Corporation, public unit deposits are funds owned by the public unit. Time deposits, savings deposits and interest bearing NOW accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution. The Dodd Frank Act of 2010 requires that all funds in a non-interest bearing bank account be fully insured by the F.D.I.C. through December 31, 2012. El Prado Water and Sanitation District's deposits are in interest bearing accounts and therefore, are not subject to the Dodd Frank Act.

All of the investments of El Prado Water & Sanitation District at June 30, 2012, were in short-term investments with a maturity date within a year of the date acquired by the District or in the State Treasurer's pooled investments. The investments are stated at cost, which also approximates market value.

The District's practice is to limit deposits and investments to insured and collateralized time accounts and certificates of deposit with a maturity of less than one year.

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Notes to Financial Statements
June 30, 2012

NOTE 3. DEPOSITS AND INVESTMENTS, continued

Deposits

New Mexico state statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipts be issued, to the District for a least one half of the uninsured amount on deposit with the institution. The schedule listed below will meet the State of New Mexico, Office of the State Auditor's requirements in reporting the insured portion of the deposits.

	<u>Centinel Bank</u>	<u>1st State Bank</u>
Total amounts of deposits	\$ 95,225	\$ 43,299
FDIC coverage	(95,225)	(43,299)
Total uninsured public funds	<u>\$ -</u>	<u>-</u>
Collateral requirement (50% of uninsured public funds)	\$ -	\$ -
Pledged Collateral held by pledging bank's trust department or agent but not in the agency's name	<u>-</u>	<u>-</u>
Total under (over) collateralized	<u>\$ -</u>	<u>\$ -</u>
Custodial credit risk-Uninsured deposits	<u>\$ -</u>	<u>\$ -</u>

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk, other than following states statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). At June 30, 2012, none of the District's bank balance of \$173,175 was exposed to custodial credit risk because none was uninsured due to the Dodd-Frank Act of 2012 as reflected on page 49. At June 30, 2012, the carrying amount of these deposits was \$172,975 as shown on the next page.

Investments

As of June 30, 2012, the District had the following investments and maturities:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities</u>
		<u>Less than 1 Year</u>
Certificate of Deposit	\$ 34,452	\$ 34,452

NOTE 8. RISK MANAGEMENT

The District is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; and natural disasters. The District is insured through a commercial insurance agency for all insurable risks and employee benefits. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past four years.

NOTE 9. LITIGATION

The District is a party to legal actions arising in the normal course of business. In the opinion of management, based in part on discussions with legal counsel, resolution of such matters will not have a material adverse effect on the financial position and operating results of the District.

NOTE 10. SURETY BOND

District Officials and employees of the District are covered by a surety bond as required by Section 12-6-7, NMSA, 1978 Compilation.

NOTE 11. PENSION PLAN- PUBLIC EMPLOYEES RETIREMENT ASSOCIATION

Plan Description. Substantially all of El Prado Water and Sanitation District's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978). The Public Employee Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing, multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits, and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. The report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, New Mexico 87504-2123. The report is available on PERA's website at www.pera.state.nm.us.

Funding Policy. Plan members are required to contribute 9.15% of gross salary. El Prado Water and Sanitation District is required to contribute 9.15% of the gross covered salary. The contribution requirements of plan members and the El Prado Water and Sanitation District are established in state statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The District's contributions to PERA for the year ended June 30, 2012, 2011 and 2010 were \$10,970, \$19,687, and \$19,448 respectively.

NOTE 12. RETIREE HEALTH CARE

The District had full-time employees during the year; however the District does not participate in the Retiree Health Care Act program.

June 30, 2012

NOTE 13. JOINT POWERS AGREEMENT

Town of Taos

Purpose

For the Town to provide treatment for the District's wastewater and for the District to purchase such wastewater services from the Town.

Participants

El Prado Water & Sanitation District and the Town of Taos

Responsibility Party for Operation and Audit

None

Beginning and Ending Date of Agreement

Operating month to month until new operating agreement reached.

Total Estimated Amount of Project and Actual Amount Contributed

Unknown

NOTE 14. FEDERAL AND STATE GRANTS

In the normal course of operations, the District receives grant funds from various federal and state agencies. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

NOTE 15. SUBSEQUENT ACCOUNTING STANDARDS PRONOUNCEMENTS

The GASB issued Statement No. 65, *Financial reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and net Position* which is effective for financial statements for periods beginning after December 15, 2012. Earlier application is encouraged. The objective of this statement is to provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. Concepts Statement 4 also identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The District is reviewing the effects of the implementation of this statement.

NOTE 15. SUBSEQUENT ACCOUNTING STANDARDS PRONOUNCEMENTS, continued

The GASB issued Statement No. 65, *Financial reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and net Position* which is effective for financial statements for periods beginning after December 15, 2012. Earlier application is encouraged. The objective of this statement is to provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. Concepts Statement 4 also identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The District is reviewing the effects of the implementation of this statement.

The GASB issued Statement No. 66, which is effective for financial statements for periods beginning after December 15, 2012. Earlier application is encouraged. The objective of this statement is to amend Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, by removing the provision that limits fund-based reporting of a state and local government’s risk financing activities to the general fund and the internal service fund type. As a result, government would base their decisions about governmental fund type usage for risk financing activities on the definitions in State 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement also amends Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, by modifying the specific guidance on accounting for (1) operating lease payments that vary from a straight-line basis, (2) the difference between the initial investment (purchase price) and that principal amount of a purchased loan or group of loans, and (3) servicing fees related to mortgage loans that are sold when the stated service fee rate differs significantly from a current (normal) servicing fee. These changes would eliminate any uncertainty regarding the application of Statement No. 13, *Accounting for Operating Leases with Schedule Rent Increases*, and result in guidance that is consistent with the requirements in Statement No. 48, *Sales of Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, respectively. The District is reviewing the effects of the implementation of this statement.

NOTE 16. SUBSEQUENT EVENTS

Since June 30, 2012, the District has continued to purchase water rights as funding became available.

As a part of the Abeyta settlement reached in 2010, the State and Federal governments will contribute funding towards new infrastructure for the parties involved. All parties involved in the lawsuit will receive an allocated portion, not to exceed their specific project cost. The maximum amount for El Prado Water and Sanitation District is determined to be approximately \$15 million. The funding will not be available until 2017.

In 2011, a contractor to the District has filed its intent to sue the District for \$680,000 for alleged misappropriation of assets in the construction of a water line. The District believes that this claim is unfounded. A review of the supporting documents did not indicate a misappropriation of assets.

In September 2012, the District, in an attempt to settle with the contractor, offered an amount that has not been accepted.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENT PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Directors
Hector Balderas
New Mexico State Auditor and

We have audited the accompanying financial statements of the business-type activities and the budgetary comparisons of the State of New Mexico, El Prado Water & Sanitation District (District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents and have issued our qualified report thereon dated September 5, 2013. We also have audited the financial statements of each of the District's budgetary comparisons presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2012 as listed in the table of contents. Except as noted in our report, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of El Prado Water & Sanitation District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency or combination of control deficiencies such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies describe in the accompanying schedule of findings and responses as FS 2006-03, FS 2006-04 and FS 2011-01 to be material weaknesses.

(This page intentionally left blank.)

A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings as FS 2007-03 to be significant deficiencies in internal control over financial reporting.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed seven instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. We consider the deficiencies described in the accompanying schedule of findings at FS 2006-03, and FS 2007-03 to be compliance matters.

El Prado Water and Sanitation District's responses to the findings are identified in our audit and are described in the accompanying schedule of findings and responses. We did not audit the District's responses and accordingly, we do not express an opinion on them.

This report is intended solely for the information and use of the audit committee, management, others within the organization, the Office of the State Auditor, New Mexico Legislature, New Mexico Department of Finance and Administration, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Schedule of Findings and Responses
For the Year Ended June 30, 2012

Schedule IV

Section I – Prior year findings:

FS-06-03 Audit Report- Repeated and Revised

FS-06-04 Reconciliation of Capital Asset Inventory-Repeated and Revised

FS-07-02 Overtime Compliance with FLSA-Resolved

FS-07-03 Travel and Per Diem Act-Repeated and Revised

FS 2011-01 General Ledger Disbursements- Repeated and Revised

FS 2006-03 Late Audit Report (repeated and revised) (Material Weakness)

CONDITION: The annual financial and compliance audit for the year ending June 30, 2012 was not conducted or submitted on or before December 1, 2012.

CRITERIA: NMAC 2.2.2.9 requires that the financial and compliance audit of a water and sanitation district be completed and submitted to the New Mexico State Auditor on or before December 1 of the same year.

CAUSE OF CONDITION: The District did not have the funding for an audit of its books.

EFFECT OF CONDITION: The District is in violation of NMAC 2.2.2.9 having failed to submit their annual audit by the required date which could jeopardize the District's eligibility for funding from the State Legislature and Federal agencies.

RECOMMENDATION: We recommend that the District comply with the regulatory requirements regarding the completion of the financial and compliance.

CLIENT RESPONSE: The District recognizes the need for timely completion of annual audits and has, as of September 2013 completed the audits for Fiscal years ending June 30, 2011, 2012, and 2013. The District will make it a top priority to comply.

AUDITOR RESPONSE: The District will have the 2012 audit submitted by the end of September 2013.

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Schedule of Findings and Responses
For the Year Ended June 30, 2012

Schedule IV

FS 2006-04 Capital Assets (repeated and revised) (Material Weakness)

CONDITION: The District does not maintain a depreciation schedule detailing all of the capital assets of the District.

CRITERIA: A depreciation schedule with corresponding depreciation expense accrual is required by Generally Accepted Accounting Principles. In addition, control over the District's capital assets is exercised thru the maintenance of a detail capital asset schedule.

CAUSE OF CONDITION: The District personnel were short staffed resulting in the lack of maintenance of a capital asset schedule with depreciation.

EFFECT OF CONDITION: The financial statements of the District do not reflect the annual depreciation expense and the balance sheet does not reflect an accurate capital asset costs and related accumulated depreciation amounts.

RECOMMENDATION: We recommend that the District implement procedures to maintain the schedules as the District moves forward.

CLIENT RESPONSE: The General Manager and staff of the El Prado Water and Sanitation District will begin immediately to gather all information since the District's inception, detailing all of the District's Capital Assets in order to comply with an up-to-date Depreciation Schedule.

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Schedule of Findings and Responses
For the Year Ended June 30, 2012

Schedule IV

FS-2007-03 Travel and Per Diem Act (repeated and revised) (Significant Deficiency)

CONDITION: While reviewing travel and mileage reimbursements it was noted that the District was not complying with the State Travel and Per Diem Act with respect to six instances of mileage rates, one instance of actual expense maximums and five instances of lack of required supporting documentation. These instances of non-compliance were estimated to be approximately \$510.

CRITERIA: 2-42-2 NMAC Chapter 42 Regulations over Travel and Per Diem 2.42.2.11.B (1) – Mileage-Private Conveyance, reimbursement rate for privately owned automobiles, 32 cents, 2.42.2.11.D (2) mileage is reimbursed pursuant to actual mileage if the beginning and ending odometer reading is certified as true and correct by the traveler, 2.42.2.11. G Additional mileage provision: Mileage accrued while on official business shall be reimbursed for travel on official business. An agency head may authorize by memorandum reimbursement for mileage from a point of origin farther from the destination than the designated post of duty in appropriate circumstances. The memorandum must accompany the payment voucher. If official business is transacted while commuting from home to post of duty or from post of duty to home, mileage shall not be paid for the number of miles between post of duty and home. Odometer readings showing additional miles accrued for official business must be provided to the agency for payments. 2.42.2.9 Reimbursement of Actual Expenses in lieu of per diem rates: (A) Upon written request of a public officer or an employee, agency heads may grant written approval for a public office of that agency or local public body to reimburse actual expenses in lieu of the per diem where overnight travel is required. (2) Actual reimbursement for meals: Actual expenses for meals are limited by Section 10-8-4(KX2) NMSA 1978 to a maximum of \$30.00 for in-state travel for a 24 hour period. 2.42.2.8 B. Per Diem rates shall be paid to public officers and employees only in accordance with the provisions of this section. Partial Per Diem rate computations: 2.42.2.8.B (1) depending on the number of hours extending over the regular work day.

CAUSE OF CONDITION: All mileage reimbursements were reimbursed at the IRS rate of 44.5 or 48.5 cents per mile when state maximum was 32 cents per mile. All mileage reimbursements used a distance greater than map mileage without beginning and ending odometer readings. There was no memorandum attached to the voucher approving additional mileage. There were reimbursements for meals without receipts or business purposes being noted that exceeded the \$30 per day maximum. There were not any beginning and ending date and time for travel noted so partial day per diem could be calculated. Actual meals were reimbursed without an accompanying overnight stay. There were no travel vouchers attached to any of the 10 payment vouchers.

EFFECT OF CONDITION: The District has over-reimbursed their board or employees in 2010-2011. Meals were reimbursed without attached receipts and without accompanying overnight stay.

RECOMMENDATION: The District must comply with the State Travel and Per Diem Act and all of its various requirements. The District needs to develop a travel policy that would select either actual or per diem reimbursements and a travel voucher that would meet all the requirements of the Travel and Per Diem act such as beginning and ending travel dates and times and beginning and ending odometer readings. The District must train the Board and the employees on the Travel and Per Diem Act requirements.

CLIENT RESPONSE: The Board of the El Prado Water and Sanitation District at its next special meeting will amend and adopt a Travel Policy to comply with the State Travel and Per Diem Act requirements to become effective immediately.

AUDITOR RESPONSE: After the 2007 audit conducted in October 2011, the District came into compliance with the Travel and Per Diem Act.

STATE OF NEW MEXICO
EL PRADO WATER & SANITATION DISTRICT
Schedule of Findings and Responses
For the Year Ended June 30, 2012

Schedule IV

FS-2011-01 General Ledger (Material Weakness)

CONDITION: During our test work of cash disbursements we noted that the organization was not following internal procedures regarding posting to the proper line item to checks and out of forty (40) disbursements tested, there were two (2) instances where the check were coded to the wrong line item and one (1) instance where the amount paid was greater than the amount of the invoice by 0.08 and one (1) item posted in the wrong year that was subsequently corrected.

3 exceptions out of 40 tested

If projected to the population, it may result in a misstatement of approximately \$175.

CRITERIA: Section 13-1 to 199, NMSA 1978 states that expenditures should be properly authorized, processed and recorded and should have adequate supporting documentation for the disbursement

CAUSE: The general ledger is maintained on an excel spreadsheet and the items were input into the wrong line item.

EFFECT: The organization appears to have recorded the payments to the incorrect accounts which could result in excess expenditures by line item code and thus could potentially make a payment without authorization.

RECOMMENDATION: We recommend that management take more care when inputting the data into the general ledger.

CLIENT RESPONSE: Management will be more careful when entering data into the manual general ledger. We are in the process of going to a software program for accounting, but do not have it fully implemented.
