Independent Auditor's Report

Mr. Timothy Keller, New Mexico State Auditor and
the Board of Directors
Eastern Sandoval County Arroyo Flood Control Authority
Bernalillo, New Mexico

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the budgetary comparison for the general fund of Eastern Sandoval County Arroyo Flood Control Authority (Authority), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents. We also have audited the budgetary comparisons for the major capital projects and debt service funds presented as supplementary information, as defined by the Government Accounting Standards Board, as of and for the year ended June 30, 2015, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Mr. Timothy Keller, New Mexico State Auditor and
the Board of Directors
Eastern Sandoval County Arroyo Flood Control Authority
Bernalillo, New Mexico

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Eastern Sandoval County Arroyo Flood Control Authority, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended June 30, 2015, in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, as of June 30, 2015, the respective budgetary comparisons for the major capital projects and debt service funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions the Authority's financial statements and the budgetary comparisons. The schedules required by Section 2.2.2 NMAC, as listed in the Supplementary Information – Supporting Schedules section of the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Mr. Timothy Keller, New Mexico State Auditor and
the Board of Directors
Eastern Sandoval County Arroyo Flood Control Authority
Bernalillo, New Mexico

The schedules required by 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the schedules required by 2.2.2 NMAC are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Vendor Information for Purchases Exceeding \$60,000 as listed in the Supplementary Information – Other Schedules section of the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government auditing standards*, we have also issued our report dated December 9, 2015 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

MANAGEMENT’S DISCUSSION AND ANALYSIS (UNAUDITED)
June 30, 2015**

This *Management’s Discussion & Analysis (MD&A)* is provided pursuant to the requirements of Statement 34 of the *Governmental Accounting Standards Board (GASB 34)*. The MD&A introduces the basic financial statements and provides an analytical overview of the organization’s financial activities.

CURRENT YEAR ACTIVITIES

Fiscal Year (FY) 2015 was the seventh year of ESCAFCA’s operation. The Authority continued efforts “to acquire, equip, maintain and operate a flood control system for the benefit of the authority and the inhabitants thereof...” (NMSA 1978, Article 72-20-19 (2007)). Those efforts primarily involved acquiring land for projects, completing plans and designs, and dealing with the red tape of governmental regulations and approvals.

The Board maintained its policy and practice of austerity, keeping the Operations mill levy at 0.66, and the Debt Service mill levy under one mill, as bond debt was paid down. Of note is that the Operations expenditures for the Fiscal Year were 59% of the budgeted amount.

In August, the State Department of Finance and Administration approved the FY 2015 budgets without change. Contracts for accounting services and administrative officer were also renewed.

In July, NMFA notified ESCAFCA that the remaining balance (about \$1.7 million) of the 2011 NMFA “loan” needed to be spent by October 2014, per IRS arbitrage rules. It was apparent that this deadline could not be met, because of the many delays in bringing projects to fruition. This 3-year requirement is particularly hard for a new organization, because it is extremely difficult to take a project through planning, design, property acquisition, permitting and clearances, and bidding in only three years. A two-year extension was available, pending adequate justification. An appeal was prepared, explaining the many delays which had occurred, but showing that the upcoming project schedule would exhaust the funds before the October 2016 final deadline. After review by Bond Counsel and NMFA staff, an extension was granted in January 2015, contingent on meeting some interim milestones.

ESCAFCA was named by EPA as a party to the Regional Watershed – Based Storm Water Permit, along with twelve other governmental agencies. All parties agreed to cooperate, resulting in intergovernmental agreements for public education and outreach and technical cooperation. More agreements will be required as the permit moves into sampling, analysis, and enforcement phases. As a new and very small entity, ESCAFCA’s role and responsibilities should be minimal; however, there will be significant administrative, operational, and reporting requirements associated with the EPA permit. EPA Region 6 issued the Regional Permit on December 22, 2014, starting the clock on the permitting process. The first milestone was the issuance of a Notice of Intent by each agency by June 22, 2015. ESCAFCA (and all other participants) published a public notice with a 30-day open comment period. ESCAFCA received only one comment from the State Historic Preservation Office, which was resolved, and ESCAFCA submitted the NOI to EPA on June 19, 2015.

**EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
June 30, 2015**

The 2014 year was an election year for ESCAFCA. The District Three (Algodones and northern Bernalillo) position was won by the incumbent, Sal Reyes, who had no opposition. Also, voters passed a \$2.2 million bond issue by a two-to one margin, perhaps an indication of two successful ESCAFCA projects.

ESCAFCA continued to urge the MRGCD to take over the Rio Grande levee project, as the local sponsor with the Army Corps of Engineers. MRGCD continued to delay sponsorship, pending location of a tieback levee on Santa Ana Pueblo land. However, MRGCD did budget funds for taking over sponsorship, so ESCAFCA made its final contribution of \$70,000 to the Corps.

Projects continued to progress through the several phases and bureaucratic hurdles.

- Canon del Agua East: Town of Bernalillo annexed the Fisher Sand and Gravel property, with restrictions on mining, but the action led to Fisher donating 11.5 acres to ESCAFCA for a dam. [A \$2 million dam was let for bid in September 2015].
- Canon del Agua West: An appraisal was done, and the owners were offered \$295,000 for 7.5 acres. They rejected the offer. ESCAFCA has put the project on hold, pending a review of project priorities.
- Extension of Athena Pond Storm Drain System: On hold because other projects may alleviate the need.
- Mid Bernalillo Conveyance: Study of the Bernalillo Acequia was completed to identify current capacity and possible enlargement options. Project priority remains high, but very complicated because of numerous agencies will have to cooperate/participate.
- South Hill Road Drainage: \$60,000 has been obligated to the Town of Bernalillo for its South Hill Road drainage improvements.
- Algodones Dam: Landowner agreed to discuss purchase of land for a dam, and a preliminary design was commissioned. Project priority remains high, as negotiations continue.
- South Hill Pond Modifications: Design was completed.
- Athena Connection to South Hill Road Project: Design was completed, and will be let for construction concurrent with the Town project.

ESCAFCA will continue to press on to design and build projects, while complying with the ever- increasing bureaucratic obstacles and unfunded mandates.

**EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
June 30, 2015**

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Authority's finances in a manner similar to a private-sector business. The statement of net position presents information on all of the Authority's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving. The statement of activities presents information showing how the Authority's net position changed during the current fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Authority has one general fund, the capital projects fund, and the debt service fund. Budgetary comparison statements have been provided to demonstrate compliance with the budgets.

Notes to the Financial Statements

The notes provide additional information that is essential to fully understand the data provided in the government-wide and fund financial statements.

Net position, end of year	<u>\$ 3,148,654</u>	<u>2,897,891</u>

During the 2015 fiscal year, proceeds from the two bonds issued in prior years were used for various project evaluations and determinations, and other studies for drainage, etc. as stated above. Property taxes were collected by the Sandoval County Treasurer, and distributed to the Authority. The Sandoval County Treasurer assesses a 1% distribution fee to the Authority for collection and payment costs. Taxes are distributed to the Operating fund for the operating budget, while the other portion is distributed to the Debt Service Fund for bond interest and principal payments. These amounts are calculated to cover the budgets for both funds during the year. Revenues in excess of expenditures remain in the fund to be carried over to the next year. The Capital Projects fund expenditures will either be expensed, if not related directly to a project, or capitalized as construction-in-progress until the work is completed.

**EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
June 30, 2015**

Expenditures for the General (Operating) fund were comprised mainly of office expenses, governmental affairs, and professional contractors. The Authority has established a physical presence, located in a small office in the Town of Bernalillo City Hall, to conduct official business and to house permanent records as required by law. Public office hours are posted and kept. A Consultant Executive Engineer and Accountant conduct daily operations for ESCAFCA. In a continued effort to operate as cost effectively and efficiently as possible, the public relations function has been discontinued and no permanent employees have been hired to avoid payroll and payroll related costs.

The Board meets monthly in the Town of Bernalillo Council Chambers or other public venues as necessary. There were no capital assets acquired and most expenditures were repetitive in nature.

FUND LEVEL ACTIVITY

Revenues for the General fund consisted of property tax deposits, and small interest generated by the cash deposits into the bank account.

Expenditures for the Projects fund included contract engineering costs for planning and coordination of future projects to mitigate flooding, and design and other activities leading to construction of two projects in the Town of Bernalillo. Revenues consisted of interest generated by the cash in bank from the prior year bond proceeds.

Revenues in the Debt Service fund were realized from the tax deposits generated by the property taxes assessed against land owners. Debt Service revenue will be reduced as debt is reduced. The legislation passed in HB306 requires all Debt Service to continue to be paid by residents of the original ESCAFCA area.

The annual interest payments were made in July 2014 in the amount of \$51,494, and in January 2015 in the amount of \$46,914. The annual principal payment was made in July of 2014 in the amount of \$280,000. Tax distribution fees amounted to \$3,680, and the Fiscal Agent Fee was \$300 for the year.

The Authority deposits all monies into the U.S. Bank in Bernalillo, New Mexico. Collateralization requirements have been followed by U. S. Bank.

BUDGETARY PERFORMANCE

Operationally, ESCAFCA made a significant reduction in its costs. The FY 2015 expenditure budget for the general fund had been set at \$133,510. The end-of-year actual was \$77,128, or 58%, reflecting the tight control over operational costs by the Board of Directors.

The capital project fund had budgeted \$2,250,000, but only spent \$327,820.

**EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
June 30, 2015**

PLANS FOR FUTURE ACTIVITIES

The near completion of two projects in averting flooding encouraged ESCAFCA to continue its quest to build more facilities to protect from flooding. Possibilities for further flood control projects in Bernalillo and Algodones are being constantly explored.

GAAP change in fund balance			<u>\$ 20,623</u>	

The accompanying notes are an integral part of these financial statements.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Entity. The Eastern Sandoval County Arroyo Flood Control Authority (ESCAFCA) was created by the Eastern Sandoval County Arroyo Flood Control Act of 2007 (Act) and is governed by such New Mexico law created there under designated as 72-20-1 to 72-20-103 NMSA 1978. The purpose of the Act is to provide a flood control system for the benefit of property within the boundaries of the Authority with Eastern Sandoval County, New Mexico. The Act provides for the organization of the governing body and officers; provides for flood control facilities; specifies provisions relating to powers, duties, privileges, liabilities, loans, securities, taxes, revenues and finances; and prescribes relations with other government bodies and agencies. The Authority is a political subdivision of the State of New Mexico and a body corporate and politic, as well as a quasi-municipal corporation.

The financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental entities.

A. Financial Reporting Entity

As required by GAAP, financial statements are presented for the Authority and its component units. A legally separate organization that does not qualify as a primary government is a potential component unit. The normal criterion for deciding whether a potential component unit is, in fact, a component unit is financial accountability. Financial accountability is determined by analyzing fiscal dependency, board appointments, financial benefit or burden relationships, or the ability of the primary government to impose its will on the potential component unit. Based on these criteria, the Authority has no component units.

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Authority. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Major individual governmental funds are reported as separate columns in the fund financial statements.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

A. Financial Reporting Entity (Continued)

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are recorded.

Governmental financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period. For this purpose, the Authority considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is made.

The Authority follows the following revenue recognition principles applied to nonexchange transactions which are in accordance with GASB *Statement 33, Accounting and Reporting for Nonexchange Transactions*:

Derived tax revenues are recognized as revenue in the period when the underlying exchange transaction has occurred and the resources are available. Derived tax revenues include gross receipts tax, gasoline taxes, and cigarette taxes.

Imposed nonexchange revenues – property taxes are levied and collected by the Bernalillo County treasurer on behalf of the Authority. The taxes are levied in November and payable in two installments, November 10th and May 10th. The County remits to the Authority a percentage of the collections made during the month. Taxes are considered delinquent and subject to lien, penalty, and interest 30 days after the date on which they are due.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

A. Financial Reporting Entity (Continued)

Imposed nonexchange revenue other than property taxes are recognized in the period when an enforceable legal claim has arisen and the resources are available.

Government-mandated nonexchange transactions and voluntary nonexchange transactions are recognized when all applicable eligibility requirements have been met and the resources are available. These include grant revenues, state shared taxes and intergovernmental revenue. Grant revenues are recognized as revenues when the related costs are incurred.

Other revenues susceptible to accrual are investment income and charges for services. All other revenues are recognized when they are received and are not susceptible to accrual because they are usually not measurable until payment is actually received.

The Authority reports the following major governmental funds:

General Fund. The General Fund is the Authority's primary operating fund. It accounts for all of the financial resources of the general government except those required to be accounted for in another fund.

Capital Projects Fund. The Capital Projects fund is used to account for the financial resources used for the acquisition and construction of major flood control system projects and related costs.

Debt Service Fund. The Debt Service Fund is used to account for the receipts and disbursements of funds related to bond and loans.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

B. Cash and Investments

Cash includes amounts in demand deposits and certificates of deposit. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

All investments are stated at fair value that is determined by using selected bases. Interest income, realized gains and losses on investment transactions, and amortization of premiums/discounts on investment purchases are included for financial statement purposes as investment income and are allocated to participating funds based on the specific identification of the source of funds for a given investment.

The Authority does not have an investment policy. Authority funds are invested in accordance with New Mexico State Statute 6-10-36 which provides for the following investments:

1. United States Treasury Securities (Bills, Notes and Bonds) and other securities issued by the United States government or its agencies or instrumentalities that are either direct obligations of the United States of America, the Federal Home Loan Mortgage Corp., the Federal National Mortgage Association, the Federal Farm Credit Bank, or the Student Loan Marketing Association, or are backed by the full faith and credit of the United States government.
2. Insured and/or collateralized (with U.S. Government Securities and/or New Mexico Bonds) certificates of deposit of banks, savings and loan associations, and credit unions, pursuant to State Board of Finance Collateral Policies.
3. Money market funds whose portfolios consist entirely of United States Government Securities or agencies sponsored by the United States government.
4. Investments in the New Mexico State Treasurer external investment pool (Local Government investment Pool).

C. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the year-end are recorded as prepaid items.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

D. Intangible Assets

Under ASC 350, *Intangibles - Goodwill and Other*, intangible assets with indefinite lives are no longer amortized. Indefinite lived intangible assets, such as water rights, are tested for impairment on an annual basis. There were no intangible assets at year-end.

E. Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future periods and so will not be recognized as an inflow of resources (revenue) until that time. The Authority has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from ad valorem taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

F. Fund Balances

The Authority follows GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement defines fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance — amounts that are not in nonspendable form (such as inventory) or are required to be maintained intact.
- Restricted fund balance — amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance — amounts constrained to specific purposes by the Authority itself, using its highest level of decision-making authority (i.e., Board of Directors). To be reported as committed, amounts cannot be used for any other purpose unless the Authority takes the same highest level action to remove or change the constraint.
- Assigned fund balance — amounts the Authority intends to use for a specific purpose. Intent can be expressed by the Board of Directors or by an official or body to which the Board of Directors delegates the authority.
- Unassigned fund balance — amounts that are available for any purpose. Positive amounts are reported only in the general fund.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

F. Fund Balances (Continued)

The Authority does not currently have a policy regarding whether committed, assigned, or unassigned amounts are considered to have been spent when an expenditure is incurred for purposes for which amounts in any of those classifications could be used.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Authority considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Authority considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Authority Directors have provided otherwise in its commitment or assignment actions.

Major Funds

The fund balance for the General fund is restricted to operations of the Authority. The restriction was created by the legislation that created the authority.

The fund balances for the Capital Project fund and Debt Service fund are restricted to the completion of capital projects and the payment of debt, respectively. The restriction was created by the bond documents for the Authority's bonds.

G. Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net investment in capital assets excludes unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The government-wide statement of net position reports the following balances in the respective classifications of net position:

Restricted for Capital Projects – represents net position which is restricted to use for capital projects, which amounted to \$2,543,335 at year end.

Restricted for Debt Service – represents net position which is restricted to use for debt service, which amounted to \$475,727 at year end.

Unrestricted – represents net position which has no legal or other restrictions, which amounted to \$191,998 at year end.

**EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015**

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

H. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

I. Budgetary Information

Actual amounts on the budgetary basis are prepared on the cash basis of accounting which recognizes revenues when received and expenditures when paid. Annual budgets are adopted for the general, special revenue, capital projects, and debt service funds.

The Authority follows defined procedures in establishing the budgetary data reflected in the financial statements. Each year the Authority determines amounts required for construction, maintenance, operations and debt service expenditures. Budget amounts are as originally adopted and as amended by the Board of Directors and approved by the Local Government Division of the State of New Mexico Department of Finance and Administration (DFA) and are prepared on a cash basis. The Authority submits a proposed budget to DFA for the fiscal year commencing the following July 1. DFA must approve the budget prior to its legal enactment.

To meet legal compliance actual expenditures cannot exceed the total budgeted expenditures for the fund on a cash basis. Adjustments to the budget must be submitted to and approved by DFA in the form of a "budget adjustment request". The Authority does not use encumbrances.

The budget is prepared on the cash basis, which differs from GAAP. Budgetary comparisons presented in these financial statements are on this Non-GAAP budgetary basis. The legal level of budgetary control is at the fund level; the Authority had expenditures in excess of budget for its debt service fund.

In accordance with the requirements of Section 2.2.2.10.A (2) (b) of 2.2.2 NMAC Requirements for Contracting and Conducting Audits of Agencies and the allowance made by GASB 34, footnote 53, the budgetary comparison statements for the general fund has been included as part of the basic financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

J. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

K. Implementation of New Accounting Standards

During the year ended June 30, 2015, the Authority adopted the following Government Accounting Standards Board Statements (GASB):

GASB No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27. The objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. The statement will not have a material impact of the Authority's financial statements.

GASB No. 69 – Government Combinations and Disposals of Government Operations. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. The statement will not have a material impact on the Authority's financial statements.

GASB No. 70 – Accounting and Financial Reporting for Nonexchange Financial Guarantees. This Statement requires a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. The statement will not have a material impact on the Authority's financial statements.

GASB No. 71 – Pension Transition for Contributions made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The statement will not have a material impact on the Authority's financial statements.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 2. CASH

Custodial Credit Risk - Deposits. Custodial credit risk is, in the event of the failure of a depository financial institution, the Authority will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Authority does not have a deposit policy for custodial credit risk. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and are (1) uncollateralized, (2) collateralized with securities held by the pledging financial institution, or (3) collateralized with securities held by the pledging financial institution's trust department or agent but not in the Authority's name. As of June 30, 2015, the Authority's bank balance total of \$1,601,188 was exposed to credit risk in the amount of \$1,351,188 as follows:

Uninsured and collateral held by pledging bank's trust department not in the Authority's name	<u>\$ 1,351,188</u>
---	---------------------

In accordance with Section 6-10-17, NMSA, 1978 Compilation, the Authority is required to collateralize an amount equal to one-half of the public money in excess of \$250,000 at each financial institution.

The total balance in any single financial institution may at times exceed the \$250,000 in FDIC coverage available to individual depositors. The Authority is required to obtain from each bank that is a depository for public funds pledged collateral in an aggregate amount equal to one half of the public money in each account.

Credit Risk. The Authority has no formal policy on managing credit risk. State law limits investments to United States Government obligations, commercial paper with A-1 or better ratings, corporate bonds with a BBB+ or better rating, asset backed obligations with an AAA or better rating, or repurchase agreements.

NOTE 3. CONSTRUCTION IN PROCESS

Construction in Progress represents capitalized project costs in the amount of \$2,601,320 for infrastructure projects that were not placed in service at June 30, 2015.

NOTE 4. ASSETS HELD IN TRUST

During the year ending June 30, 2012, the Authority issued its second series of general obligation bonds. Subsequent to issuance, the bonds were purchased by the New Mexico Finance Authority (NMFA) from RBC Capital, the original bond holder. The proceeds of the bonds were transferred to the Bank of New York in NMFA's name on behalf of the Authority, and are to be drawn down incrementally by the Authority via drawdown requests to the NMFA. As the funds are in the name of the NMFA, a third party trustee, they are considered to be assets held in trust and amounted to \$1,616,352 at June 30, 2015.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 5. AD VALOREM ASSESSMENTS

Ad valorem assessments are levied each calendar year in November, based on taxable property valuations within the Authority’s boundaries as determined by the New Mexico Sandoval County Assessor. The ad valorem assessments are due in two equal installments November 10, and April 10, following the levy, payable to the Sandoval County Treasurer. The ad valorem assessments are collected by the county treasurer and remitted to the Authority on a monthly basis.

Under the modified accrual basis of accounting, all ad valorem assessments collected by the County and remitted to the Authority within thirty days of year end are recorded as a receivable and revenue, with all ad valorem assessments not collected within thirty days following year end being reported as unavailable revenue – ad valorem taxes within the governmental funds. Under the full accrual basis of accounting, ad valorem assessments are recorded as a receivable and revenue when billed to taxpayers by the New Mexico Sandoval County Treasurer.

For the year ended June 30, 2015, the ad valorem assessments levied by the Authority were \$.66 and \$.89 per \$1,000 of taxable value for operating purposes and debt service requirements, respectively. Section 7-37-7.1 NMSA 1978 limits the allowable increase in property taxes from the preceding year. Lien rights are available to the Authority on all delinquent ad valorem assessments. Liens are placed on delinquent properties on July 15th, three years after the original assessment.

NOTE 6. LONG-TERM OBLIGATIONS

During the year ended June 30, 2015, the following changes occurred:

	Beginning Balance	Additions	Payments	Ending Balance	Due Within One Year
General obligation bonds	\$ 2,970,000	-	(280,000)	2,690,000	280,000

The Authority has the following two series of general obligation bonds outstanding:

Series 2009 General Obligation Bonds: The Authority issued \$3,000,000 in general obligation bonds in June of 2009 with variable interest from 3.04% to 5.38% paid semi-annually in February and August. Principal payments are due annually commencing August 1, 2010, and maturing August 1, 2019. The balance of the bonds at June 30, 2015 is \$920,000.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 6. LONG-TERM OBLIGATIONS (CONTINUED)

Series 2011 General Obligation Bonds: The Authority issued \$3,000,000 in general obligation bonds in October of 2011 with variable interest from 0.72% to 3.11% paid semi-annually in February and August. Principal payments are due annually commencing August 1, 2012, and maturing August 1, 2023. The balance of the bonds at June 30, 2015 is \$1,770,000.

Interest and fee expense on the above bonds was \$103,012 and \$6,771 as of June 30, 2015, respectively. The Authority has pledged ad valorem assessment revenues for repayment of the above bonds.

The following is a schedule of the debt service requirements to maturity for the general obligation bonds:

Year Ending June 30	Principal	Interest	Total
2016	\$ 280,000	88,808	368,808
2017	330,000	78,037	408,037
2018	330,000	66,155	396,155
2019	330,000	53,515	383,515
2020	350,000	39,649	389,649
2021 to 2024	1,070,000	68,244	1,138,244
	<u>\$ 2,690,000</u>	<u>394,408</u>	<u>3,084,408</u>

NOTE 7. INTERFUND OPERATING TRANSFERS AND DUE TO DUE FROMS

A transfer from the Capital Project fund to the General fund was made to reimburse indirect costs in the amount of \$21,737. The amount was outstanding in the due to and due from accounts at year-end.

NOTE 8. OFFICE SPACE

The Authority uses office space that was donated by the Town of Bernalillo. The Authority does not record inkind rent revenue or expense for this donation.

EASTERN SANDOVAL COUNTY ARROYO FLOOD CONTROL AUTHORITY
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

NOTE 9. RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions and natural disasters for which the government carries commercial insurance. The Authority did not have an insurance policy in place during the year to address these types of risks as it had no employees or capital assets. Management will evaluate the need for a commercial insurance policy on an ongoing basis.

NOTE 10. RELATED PARTY TRANSACTIONS

During the year ended June 30, 2015, the Authority paid members of the Board of Directors per diem totaling \$2,945 and had \$3,800 payable to board members at June 30, 2015.

NOTE 11. SUBSEQUENT EVENTS

The Authority has evaluated subsequent events through December 9, 2015, the date the financial statements were available to be issued. Subsequent to June 30, 2015, the following material subsequent events occurred:

- In August 2015 the Authority received \$220,000 in donated land.
- The Authority awarded approximately \$1,800,000 in flood control infrastructure development contracts.
- Voters approved an additional \$2,200,000 in bond capacity for the Authority.

Eastern Sandoval County Arroyo Flood Control Authority
Bernalillo, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the budgetary comparison of the general fund of the Eastern Sandoval County Arroyo Flood Control Authority (Authority) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and related budgetary comparisons of the Authority, presented as supplemental information, and have issued our report thereon dated December 9, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Mr. Timothy Keller, New Mexico State Auditor and
the Board of Directors
Eastern Sandoval County Arroyo Flood Control Authority
Bernalillo, New Mexico

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
