#### **INDEPENDENT AUDITOR'S REPORT**

The Board of County Commissioners State of New Mexico, Doña Ana County and Mr. Brian Colón, State Auditor State of New Mexico, Office of the State Auditor

#### **Report on Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of Doña Ana County (the County), as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2019, and the respective changes in financial position and where applicable, cash flows thereof and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As discussed in Note 20 to the financial statements, the 2019 beginning balance of net position has been restated to record the pollution remediation liability. Our opinion is not modified with respect to these matters.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, and the schedules related to Net Pension Liabilities and Net OPEB Liabilities, listed as "Required Supplemental Information" in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements, that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and the schedule of changes in the fiduciary assets and liabilities-agency funds, as listed in the table of contents, as supplementary information, are presented for purposes of additional analysis and are not required part of the basic financial statements.

The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not required part of the basic financial statements. The other schedules, as required by 2.2.2 NMAC, as listed as other supplementary information in the table of contents, are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The statements and schedules, listed as supplementary and other supplementary information in the table of contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statements and schedules were fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2019 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Doña Ana County's management discussion and analysis presents an overview of the County's financial activities for the fiscal year ended June 30, 2019. Please read it in conjunction with Doña Ana County's financial statements, as identified in the table of contents.

#### FINANCIAL HIGHLIGHTS

- The County completed fiscal year 2019 with \$326,812,903 in total assets; this is roughly a 5% increase in assets when compared to the \$310,213,986 in fiscal year 2018. Total liabilities for net position increased by roughly 21% or \$24,069,095 to \$141,239,289; while total net position increased slightly by roughly 0.3% or \$637,683 to complete the fiscal year at \$201,403,646.
- Net Position for Governmental Activities increased 0.8% or \$1,310,340 to end the fiscal year at \$166,604,620; while Business-Type Activities decreased by 1.9% or \$672,655 for a fiscal year net position balance of \$34,799,028. Overall revenues slightly increased by 5.8% to \$148,551,511 and expenditures increased by roughly 2% to \$140,553,968.
- The County's financial analysis of County Governmental Funds indicates an increase in total assets of \$39,814,152 or 42% to \$134,231,528; total liabilities increased by \$14,783,274 or 104%, while total fund balance increased by \$25,030,878.
- Total bonded debt at June 30, 2019 for the County was \$15,823,000.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

#### **Government-Wide Financial Statements**

The *government-wide financial statements* consist of two statements and are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The *Statement of Position* presents information on all the County's assets and liabilities, with the difference between the two reported as net position.

The *Statement of Activities* presents information showing how the County's net position changed during fiscal year 2019. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned and unused vacation leave).

Both of these financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include General Government, Public Safety, Public Works, Health and Welfare, and Community Development. The business-type activities of the County include Water, Wastewater, and Fleet Funds.

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

#### **Governmental Funds**

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County adopts an annual appropriated budget for its general, special revenue, debt service and capital projects funds. A budgetary comparison statement has been provided for these funds to demonstrate budgetary compliance.

The basic governmental fund financial statements are identified in the table of contents of this report.

#### **Proprietary Fund**

The County maintains two types of proprietary funds. *Enterprise funds* are used to report the same function presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the fiscal activities relating to various Water and Wastewater Utilities, as well as operations. An internal service fund is utilized to charge costs of fleet maintenance to individual funds.

The basic proprietary fund financial statements are identified in the table of contents of this report.

#### **Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the County's own programs.

The basic fiduciary fund financial statements are identified in the table of contents of this report.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are identified in the table of contents of this report.

#### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. Required supplementary information can be found in this report, as identified in the table of contents.

The combining statements referred to earlier in connection with Nonmajor funds and Nonmajor proprietary funds are presented in the supplementary information section of this report. Combining schedules are identified in the table of contents of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (Broad Overview of Finances)**

The County implemented the new financial reporting model required by Accounting Standards Board Statement No. 34 in fiscal year ended June 30, 2003. Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net position may be observed and used to discuss the changing financial position of the County, as a whole.

The largest portion of the County's net assets reflects its investment in capital assets (i.e., land, land improvements, buildings, equipment, and utility infrastructure); less any related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although, the County's investment in its capital assets is reported net of related debt, it should be noted that their debt needed to be repaid must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

#### **Governmental Activities**

Governmental activities increased the County's net position by \$1,310,340 to \$166,604,620.

#### **Business-Type Activities**

Net position of business-type activities decreased by \$672,655 to \$34,799,028 at June 30, 2019. There were no significant changes to the types of services provided by the County's enterprise funds during fiscal year 2019.

### **Proprietary Funds**

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Proprietary funds are business-type funds, which include Water and Wastewater Systems. The County's Internal Service Fund is also included as a proprietary fund; however, it is considered part of governmental activities for the government-wide financial statements.

Total net position of proprietary funds at the end of the year amounted to \$34,799,028.

Other factors concerning the finances of these funds have been addressed in the discussion of the County's business-type activities and capital assets.

#### **Economic Outlook**

Doña Ana County's unemployment rate increased to 6.3%. Compared to last year unemployment was 6.0%. The statewide unemployment rate has similarly shown little change from a year ago. Compared to the Nation and the State of New Mexico, Las Cruces has experienced a strong economic growth over the past years. There was a decrease in business registrations compared to prior year. The housing market continues to grow in Doña Ana County. Median listing home prices has increased compared to prior year, which indicates an increase in property tax revenue.

According to the Las Cruces Economic Development there has been an increase of 400 jobs. This created a positive impact to the local economy.

In 2009, the County adopted the Local Economic Development Act (LEDA), which is to provide "public support for economic development to foster, promote and enhance local economic development efforts..." The adoption of LEDA established the Doña Ana County Economic Development Plan that promotes economic development within the County. During the year the County entered into an intergovernmental agreement for \$1,800,000 with the New Mexico Economic Development Department to act as fiscal agent for appropriations supporting the Economic Development Project. The project is expected to create approximately 200 new jobs by June 30, 2020.

## RECONCILIATION OF THE STATEMENT OF REVENUES,

## EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2019

Amount reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental funds	\$ 15,128,301
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Capital expenditures recorded in capital outlay Capital expenditures recorded in other expense lines	15,724,293 344,548
In the Statement of Activities, a (loss)/gain is recorded for assets that are removed from service that are not fully depreciated. Thus, the change in net position differs from the change in fund balance by the amount of (loss)/gain recorded for deleted capital assets.	
Depreciation expense on capital assets, excluding internal service fleet fund, is reported in the government-wide statement of activities and changes in net position, but they do not require the use of current financial resources. Therefore depreciation expense is not reported as expenditure in governmental funds.	9
Internal service funds are used by management to charge the costs of certain activities, such as insurance and fleet management to individual funds. The net change of the internal service funds resulting from transactions not recorded with governmental funds.	
The issuance of long-term debt (e.g. bonds, notes, capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities.	t , l
Amortization of bond premiums	27,762
Change in accrued interest	11,436
Change in noncurrent and current compensated absences Principal payments on long-term debt payable from CRRUA	40,866 50,884
Principal payments on long-term debt payable  Principal payments on long-term debt payable	1,390,302
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Pension expense OPEB expense	(4,891,649) (1,322,529)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenue in the funds:	t
Change in deferred inflows related to property taxes	123,301
Change in deferred inflows related to derived tax revenue	868,897
Change in contingent liability	276,827
Rounding	2
Change in net position of governmental activities	\$ 8,670,198

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

The function of Doña Ana County is briefly addressed in the grant of powers provided to all New Mexico counties pursuant to state statute 4-37-1 NMSA 1978. The function is "...to provide for the safety, preserve the health, promote the prosperity, and improve the morals, order, comfort, and convenience of the county or its inhabitants..." The County operates under a Commission form of government rule, which oversees:

- the assessment, collection, and distribution of ad valorem taxes by an elected assessor and treasurer;
- law enforcement by an elected sheriff;
- recording and filing by an elected county clerk and elected probate judge;
- fire protection by volunteer fire departments;
- road maintenance by an appointed road superintendent;
- purchasing by an appointed purchasing agent;
- indigent hospital care by an appointed indigent coordinator;
- · administrative services by an appointed county manager, and
- planning, health, welfare, recreation, and cultural affairs by appointed citizen advisory boards.

The financial statements of the County have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The County's most significant accounting policies are described below.

#### A. Reporting Entity

The financial statements of the County encompass the activities of the County Commission, County Clerk, Tax Assessor, County Treasurer, Sheriff; and Probate Judge. The commission activity includes the function of the County Manager's office, the County Road Superintendent, the County Purchasing Agent, the Indigent Claims Coordinator, and the volunteer fire districts throughout the county.

In evaluating how to define the County, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB No. 14 and No. 61. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities.

Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity. Based upon the application of these criteria, there were no component units identified as needing to be disclosed or presented as part of the reporting entity.

#### **B.** Basis of Presentation

Government-Wide Statements – The Statement of Net Position and the Statement of Activities display information about the government (the County). These statements include the financial activities of the overall government, except for fiduciary activities. The statements also distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for the different business type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements – The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category (governmental, proprietary, and fiduciary) are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The County reports the *general fund* as a major governmental fund. This is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

In addition, the County reports the following other major funds:

#### Governmental funds

- <u>Special Revenue Fund</u> *Fire Districts* accounts for the operation and maintenance of the sixteen volunteer fire districts throughout the County of Doña Ana, in accordance with NMSA 7-20E-I 5. Funding is provided from the State Fire Fund.
- <u>Special Revenue Fund</u> *State Appropriations (23111)* accounts for various appropriations from the State Legislature for various projects.
- <u>Debt Service Fund</u> *Debt Service Fund* accounts for the County's accumulation of resources for, and the payment of governmental fund debt principal and interest.

#### Proprietary funds

- <u>Enterprise Fund</u> *Chaparral Wastewater System (50070)* accounts for the service activities of the wastewater system.
- <u>Enterprise Fund</u> *South Central Wastewater* (50044) accounts for the activities of the wastewater utility, which provides service to the residents in Vado/Del Cerro, Chamberino, Berino and south-central areas of the County.

The County also reports the following fund types:

- *Internal Service Fund* accounts for fleet maintenance services provided to other departments of the government. Services are provided on a cost reimbursement basis.
- *Fiduciary Funds* account for monies held by the County in a custodial capacity. As a result, they do not report operations.

#### C. Measurement Focus and Basis of Accounting

Government-Wide, Propriety, and Fiduciary Fund Financial Statements – The government-wide, propriety, and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide and propriety fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenues in the year for which they are billed net of estimated refunds and uncollectible amounts.

Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and Donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after

year-end. Property taxes, sales taxes, franchise taxes, licenses, and interest are considered to be susceptible to accrual. Revenue from derived taxes (sales taxes, gas taxes, and motor vehicle taxes) is recognized when the underlying transaction takes place (when the retail sale is generated). Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

#### D. Cash Equivalents

The County pools idle cash from all funds for the purpose of increasing income through investment activities. A "Pooled Cash" concept is used in maintaining the cash and investment accounts in the accounting records. Under this method, all cash is pooled for investment purposes and each fund has equity in the pooled amount. All amounts included in pooled cash and investments are considered to be cash equivalents for the purposes of the statement of cash flows, except for certificates of deposit or other investments that have original maturities of more than 90 days.

#### E. Investments

The County's investments are regulated by state law as well as by guidelines and rules promulgated by the State Investment Council and the State Treasurer. All investments are generally highly liquid in nature and are integrated with cash on the financial statements with appropriate disclosure. Investments are stated at fair value, which is determined using selected bases. Certificates of deposit are reported at carrying amount, which reasonably estimates fair value. Investments in a U.S. Treasury Fund and repurchase agreements are valued at the last reported sales price at current exchange rates. Additional cash, investment information, and fair values are presented in Note 2.

The County also participates in the State Treasurer Local Government Investment Pool. State law and regulations regulate this pool. Investment in the pool is reported at carrying amount, which reasonably estimates fair value.

#### F. Receivables and Payables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded as revenue when levied, net of estimated refunds and uncollectable amounts.

#### **G.** Inventories and Prepaid Items

Inventories in governmental funds consist of expendable supplies held for consumption and are valued at cost using a first-in, first-out (FIFO) method. Expendable supplies are accounted for using the consumption method. Proprietary fund inventories are recorded at the lower of cost or market on a first-in, first-out basis, and consist of operating supplies held for use in operations and are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

### H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets, (retroactive to 1979) are included as part of the governmental capital assets reported in the government wide statements. Information technology equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Asset Type	Years
Land	Perpetuity
Construction in progress	Perpetuity
Land Improvements	10
<b>Buildings and Improvements</b>	10 - 40
Furniture, fixtures, and equipment	3-15
Vehicles	5 - 15
Infrastructure	5-50

#### I. Unearned Revenue

The County reports unearned revenue on its financial statements. When resources are received in advance of charges for services being earned are in advance of any eligibility requirement other than a time requirement being met for government-mandated or voluntary nonexchange transactions (i.e. for intergovernmental revenues), a liability is reported for the unearned revenue.

#### J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and/or the balance sheet for governmental funds will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position/fund balance that applies to a future period and so will not be recognized as an expense or expenditure until then.

The County has the following deferred outflows of resources during fiscal year 2019 on the government wide financials:

Deferred Outflows of Resources - GW	
Pension deferrals	\$ 21,473,577
OPEB deferrals	2,380,091
Total deferred outflows of resources	\$ 23,853,668

In addition to liabilities, the statement of net position and/or the balance sheet for the governmental funds will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position/fund balance that applied to a future period and so will not be recognized until then. The County has the following deferred inflows of resources during fiscal year 2019 on the fund financials:

Deferred Inflows of Resources - Fund	Financi	ials
Property tax revenue	\$	3,415,733
Derived tax revenues		4,546,549
Total deferred inflows of resources	\$	7,962,282

The County has the following deferred inflows of resources during fiscal year 2019 on the government wide financials:

Deferred Inflows of Resources - GW						
Pension deferrals	\$	5,663,751				
OPEB deferrals		2,359,883				
Total deferred inflows of resources	\$	8,023,634				

#### K. Compensated Absences

Accrued annual leave, sick leave, and compensatory time are the components of accrued compensated absences. An employee may not carry over more than 240 hours of vacation leave into a new calendar year, nor receive payment for more than 288 hours upon separation. Under a human resources policy adopted November 27, 1999, employees retiring under PERA, with a minimum of 15 years of County service, shall be paid for accrued sick leave hours, limited to a maximum of 600 hours, subject to a maximum cash payment of \$15,000. In addition, such employees shall be compensated for any unused sick leave hours accrued as of November 27, 1999, at the employee's pay rate in effect on that date. Compensatory time is accrued in full for non-exempt employees under the Fair Labor Standards Act.

## L. Long-term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. For bonds issued after GASB 34 was implemented, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. For fund financial reporting, bond premiums, discounts as well as issuance costs, are recognized in the period the bonds are issued. Bond proceeds are reported as another financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

#### M. Net Position

Equity is classified as net position and displayed in three components on the government-wide financial statements as well as the proprietary fund financial statements:

- Net investment in capital assets Net position invested in capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted Net Position Consist of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position* All other net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

## N. GASB Statement 54

Beginning with fiscal year 2011, the County implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable Amounts not in a spendable form, such as prepaid expenses, inventories, or long-term portion of receivables or property held for resale, if the use of the proceeds from the collection/sale of property held for resale is not otherwise constrained. Nonspendable amounts also include amounts legally or contractually required to remain intact, such as the principal of a permanent fund.
- *Restricted* Amounts constrained to specific purposes that are externally imposed or imposed by law through constitutional provisions or enabling legislation (such as taxpayers, grantors, bondholders, and higher levels of government).
- Committed Amounts constrained to specific purposes by the governmental entity's highest level of decision-making authority (the County Commission). To be reported as committed, amounts cannot be used for any other purpose unless the County Commission takes the same highest-level action to remove or change the constraint.
- *Assigned* Amounts constrained by the County intends to be used for a specific purpose. Intent can be expressed by the governing body (County Commission) or an official or body to which the governing body delegates authority.
- *Unassigned* –Balances available for any purpose. Positive amounts are reported only in the general fund.

The New Mexico Department of Finance and Administration (DFA) requires that 3/12 of the FY2020 budgeted expenditures in the General Fund be restricted as subsequent-year expenditures to provide adequate cash reserves. Additionally, the DFA imposes a County Road Fund Reserve requirement for the County of 1/12 of the FY2020 total Road Fund budgeted expenditures. The General Fund includes

the Road Fund, which has been reserved at 3/12. See the Schedule of Fund Balances, as listed in the table of contents.

The County Commission establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). The County assigns 2019 fund balance for FY2020 projected budgetary deficit per GASB 54, Par 16. FY2019 and FY2020 budget (estimated revenues and expenditures) have no effect on GASB 54 net fund balance.

See the Schedule of Fund Balances as listed in the table of contents for additional information about fund balances.

When an expense is incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When an expense is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless County Commission or the finance department has provided otherwise in its commitment or assignment actions.

### O. Budgets and Budgetary Accounting

The County adopts budgets for each individual fund (governmental and proprietary). In late winter or early spring, the County prepares a budget calendar, thus starting the budgetary process for the upcoming July 1 fiscal year. Budget request forms are distributed to County departments and local service agencies with a specified completion date. Legally mandated advance notices are formally published for grant availability and other purposes once budget hearings have been scheduled. The budget hearings are then held with all County department heads and local service agency representatives. Generally, in late May or early June, a budget meeting is held for tentative approval of the completed budget. After tentative approval at the County level, the budget is submitted to the New Mexico Department of Finance and Administration (DFA) for approval of a temporary operational budget beginning July 1.

Immediately after July 1, when ending cash balances for the preceding fiscal year have been accurately ascertained, a final hearing is convened for finalization of the budget, and it is resubmitted to DFA for formal approval. None of the above budgetary processes are legally required to occur at any specified time; however, DFA requires that the time frame be such that they (DFA) render their final budget approval no later than September 1 of the budget year in question.

During the course of the fiscal year, the County prepares monthly budget reports. Under New Mexico State law, each year's budget appropriation legally lapses at year-end.

Budgetary Compliance – Budgetary control is required to be maintained at the individual fund level.

Actual fund revenues may be either over or under the budgeted amounts; however, the variance is required to be reasonable, particularly in the case of over-budgeted revenues. Major over-budgeted revenues require a budget amendment as soon as the extent of the shortage is reasonably ascertainable.

Budget Amendments – Budget increases and decreases can only be accomplished by Commission resolution, followed by DFA approval. Similarly, budget transfers must follow the same procedure.

Budgetary Basis – State law prescribes that the County's budget be prepared on the basis of cash receipts and cash expenditures. Therefore, budgetary comparisons shown in exhibits are prepared on a cash basis to compare actual revenues and expenditures with a cash basis budget as amended.

The accompanying Statements of Revenue, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual, for the general fund and major special revenue funds, present comparisons of the legally adopted budget with actual data on a budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) a reconciliation of resultant basis, perspective, equity and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2019 is presented. Reconciliations between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis by fund can be found on each individual budgetary statement.

#### P. Income Taxes

As a local government entity, the County is not subject to federal or state income taxes.

### Q. Interfund Activity

Interfund activity is reported as loans, services provided, reimbursements, or transfers.

Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

#### R. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA's. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## NOTE 2 - CASH AND INVESTMENTS

The County's cash balances consist of demand deposits, interest bearing savings accounts, money market accounts and repurchase agreements. The repurchase agreements have varying interest rates and maturity dates. The majority of County's cash and investments are pooled. All interest income is accounted for in the related funds. The County's cash and cash equivalents and investments are listed in this report as listed in the table of contents.

The following is a summary of the County's cash and investment balances as of June 30, 2019:

State regulations require that uninsured demand deposits and deposit-type investments such as certificates of deposit be collateralized by the depository thrift or banking institution. At present, state statutes require that a minimum of fifty percent of uninsured balances on deposit with anyone institution must be collateralized, with higher requirements up to 100% for financially troubled institutions. Investments in repurchase agreements must be collateralized at 102% of the contract. In addition, some bond covenants require debt service reserve amounts to be collateralized at 105%. The County's Schedule of Collateral is presented in this report, as stated in the table of contents.

The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency, County, or political subdivision of the State of New Mexico.

A summary of the County's investments as of June 30, 2019 is as follows:

Custodial Credit Risk Deposits - Custodial credit risk is the risk that in the event of a bank failure, the County funds may not be returned. The County does not have a deposit policy for custodial credit risk, other than following state statutes as set forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978).

As of June 30, 2019, the County's bank and investment balances of \$32,778,403 were exposed to custodial credit risk as follows:

Uninsured, collateralized with securities held by pledging financial institution's trust department or agent in the County's name. \$ 14,865,937 Uninsured and uncollateralized - Total uninsured deposits \$ 14,865,937

Custodial Credit Risk Investments - Custodial Credit Risk is the risk that, in the event of failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County's investments are not exposed to custodial credit risk. All are fully collateralized, and the collateral is held in the County's name.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the County's investment in a single issuer, of more than 5%. The County's investments are diversified to avoid including concentration of credit risk. With the exception of authorized pools, no more than 50% of the total investment portfolio is in one single security type or financial institution.

<sup>\*\*\*</sup>See Note 3. Fair Value Measurements Using: Quoted prices in active markets for identical assets

<sup>\*\*\*\*</sup>Certificate of Deposit, Money Market, Savings, FDIC insured and/or collateralized

*Credit Risk* - The County's investments shall be in accordance with State Law 6-10-10 and 6-10-10.1 NMSA 1978, including but not limited to the following: Treasury Bills, Notes, Bonds, Strips, and US Government securities which are backed by the full faith and credit of the U.S. Government. Negotiable securities of the State of New Mexico or any county, municipality, or school district with the advice and consent of the Board of Finance per 6-10-44 NMSA 1978, 6-10-10 NMSA 1978, 6-10-10 NMSA 1978.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the County investments. The County's investment policy follows New Mexico State Statute Section 6-10-36E (NMSA, 1978 Comp) requiring the interest rate on time deposits shall not be less than the rated fixed by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States Treasury bills of the same maturity on the day of deposit.

Foreign Currency Risk - Deposits and Investments - The County is not exposed to the risk that exchange rates will adversely affect the fair value of an investment as none of the investments pools or certificates of deposit are dominated in a foreign currency.

### **NOTE 3 – FAIR VALUE MEASUREMENT**

The County holds investments that are measured at fair value on a recurring basis. Because investing is not a core part of the County's mission, the County determines that the disclosures related to these investments only need to be disaggregated by major type. The County chooses a table format for the fair value disclosures.

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. In determining this amount, three valuation techniques are available:

- Market approach: this uses prices generated for identical or similar assets or liabilities. The most common example is an investment in a public security traded in an active exchange such as the NYSE.
- Cost approach: this technique determines the amount required to replace the current asset. This approach may be ideal for valuing donations of capital assets or historical treasures.
- Income approach: this approach converts future amounts (such as cash flows) into a current discounted amount.

Each of these valuation techniques requires inputs to calculate a fair value. Valuation techniques should be applied consistently, though a change may be appropriate in certain circumstances. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

GASB 72 establishes a hierarchy of inputs to the valuation techniques listed above.

The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy's three levels are as follows:

#### Level 1

Inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date. (Examples: equity securities traded on an open market, actively traded mutual funds, and US treasuries)

## Level 2

Are significant other observable inputs

- a) Quoted prices for similar assets or liabilities in active markets.
- b) Quoted prices for identical or similar assets or liabilities in markets that are not active.
- c) Inputs other than quoted prices that are observable for the asset or liability, such as:
  - 1. Interest rates and yield curves observable at commonly quoted intervals,
  - 2. Implied volatilities, and
  - 3. Credit spreads.
- d) Market-corroborated inputs.

(Examples: a bond valued using market corroborated inputs such as yield curves, a bond valued using matrix pricing, and an interest rate swap valued using the LIBOR swap rate observed at commonly quoted intervals for the full term of the swap)

## Level 3

Are significant unobservable inputs for an asset or liability (Examples: Commercial real estate valued using a forecast of cash flows based on a university's own data and an interest rate swap valued using data that is neither directly observable nor corroborated by observable market data)

See Note 2 for the County's recurring fair value measurements as of June 30, 2019.

## **NOTE 5 - PROPERTY TAXES**

Property taxes attach as an unsubordinated enforceable lien on property as of January 1 of the assessment year. Current year taxes are levied within five days of the rate setting order received from New Mexico Department of Finance and Administration (7-38-32 thru 7-38-36). Tax bills are mailed by November 1, unless the Doña Ana County Assessor obtains a formal extension of time from the New Mexico Property Tax Division. Taxpayers have the option to pay in two equal installments due by the close of business November 10<sup>th</sup> and April 10<sup>th</sup>. Penalty and interest will be accrued after the delinquency due dates of December 10<sup>th</sup> and May 10<sup>th</sup>. In the event of a formal extension, the respective dates are correspondingly extended.

The County bills and collects its own taxes, as well as taxes for the State of New Mexico, city governments (Las Cruces, Hatch, Mesilla and Sunland Park), Doña Ana Branch Community College, Public School Districts (Las Cruces, Hatch and Gadsden) and Flood Districts (Lower Rio Grande and Hueco). In tax year 2019, the County charged the following mil rates:

Tax District	Residential	Non-residential
02 (Las Cruces-In)	0.031508	0.03454
o3 (Las Cruces-Out)	0.023921	0.026674

11 (Hatch-In)	0.032152	0.034935
12 (Hatch-Out)	0.026702	0.029435
16 (Sunland Park-In)	0.037015	0.040973
17 Unincorporated (Anthony/Chaparral)	0.030544	0.033323
18 Incorporated (Anthony)	0.033094	0.035873

The County's share of the property taxes equal approximately 35.81% of the total property taxes levied and is used for general governmental services and retirement of long-term debt. The statutory maximum rate for servicing long-term debt with property tax revenue is unlimited, although the total amount of outstanding debt at any one time is restricted by other factors.

The County is required to report all real property delinquencies in excess of three years to the New Mexico Property Tax Division. The State, in turn administers all subsequent collection actions and proceedings.

## 2012 Gross Receipts Tax Refunding and Improvement Bonds

On November 11, 2012, the County issued \$5,235,837 of Gross Receipts Tax Refunding Revenue Bonds, Series 2012, with an average interest rate of 2.656%. The amount represents \$4,870,000 of principal and a premium of \$365,837 which will be amortized over the 16-year life of the bonds. The bonds consist of serial bonds bearing various fixed rates ranging from 2.00% to 4.00% with annual maturities from May 2013 through May 2028. The net proceeds of \$5,084,626 (after processing fees of \$151,211) were used to advance refund bonds with a total principal amount of \$4,970,000 and an average interest rate of 4.560%. The purchaser of the bonds, Southwest Securities, Inc., transferred \$5,080,943 representing the amount payable at closing less debt service reserve of \$3,683 to the Bank of Albuquerque, N.A. for Doña Ana County. The Bank transferred the net proceeds to the County to pay off the refunded bonds. As a result, the refundable bonds are considered to be defeased, and the related liability for the banks has been removed from the County's liabilities.

The advance refunding was done in order to reduce debt payments. Costs for the issuance of the new debt were \$113,000. The advance refunding transaction resulted in an economic gain (difference between the present value of the debt service on the old and the new bonds) of approximately \$757,190.

This debt is secured with legally pledged revenues. There are no finance-related default consequences, termination event consequences, or subjective acceleration clauses specified in the debt agreement.

Pledged Revenues – Bonds are payable solely from pledged revenues consisting of the first oneeighth of one percent increment of the County gross receipts tax transferred to the County pursuant to Section 7-1-6.13 NMSA 1978. County gross receipts taxes are imposed on all persons engaging in business in the County. Pledged revenues for the fiscal year ended June 30, 2019 totaled \$410,775.

#### Subordinate Lien Gross Receipts Tax Refunding Bonds Series 2014

On December 1, 2014, the County issued \$9,077,303 of Subordinate Lien Gross Receipts Tax Refunding Bonds Series 2014, with an average interest rate of 3.0%. The amount represents \$8,870,000 of principal plus a net original issue premium of \$262,114 which will be amortized over the 14-year life of the bonds, less an underwriting discount of \$54,811. The bonds consist of serial bonds bearing various fixed rates ranging from 2.00% to 4.00% with annual maturities from May 2013 through May 2028. The net proceeds of \$10,017,074 (which includes Series 2004A Reserve Fund of \$1,113,717 less processing fees of \$178,757) were used to advance refund bonds with a total principal amount of \$9,760,000 with an average interest rate of 4.560% and paying all costs incidental to the foregoing and incidental to the issuance of the bonds. The purchaser of

the bonds Piper Jaffray & Co. transferred \$8,905,670 representing the amount payable at closing less debt service reserve of \$2,313 was transferred to the Bank of Albuquerque, N.A. for Dona Ana County. The Bank transferred the net proceeds that included an amount in the Series 2004A Reserve Fund to the Dona Ana County to pay off the refunded bonds. As a result, the refundable bonds are considered to be defeased, and the related liability for the banks has been removed from the County's liabilities.

The advance refunding was done in order to reduce debt payments. Costs for the issuance of the new debt was \$171,633. The advance refunding transaction resulted in an economic gain (difference between the present value of the debt service on the old and the new bonds) of approximately \$1,050,051.

This debt is secured with legally pledged revenues. There are no finance-related default consequences, termination event consequences, or subjective acceleration clauses specified in the debt agreement.

Pledged Revenues – Bonds are payable solely from pledged revenues consisting of the first oneeighth of one percent increment of the County gross receipts tax transferred to the County pursuant to Section 7-1-6.13 NMSA 1978. 		\$ _	3,302,224	1,671,983	

## NMED – Consolidated Liquid Waste Treatment and Disposal System

Prior to fiscal year 2000, the County had drawn \$676,528 against proceeds available from a \$799,266 loan granted by the State of New Mexico Environment Department for the purpose of developing a consolidated liquid waste treatment and disposal system. On September 10, 1999, the loan agreement was amended. Accrued construction interest of \$147,663 was rolled into the total disbursements to become part of the principal. The terms of the loan were amended March 12, 2001 providing for annual payments of \$51,091 including interest calculated at a rate of 2% per annum, with the final payment due June 17, 2019.

This debt is secured with legally pledged revenues. There are no finance-related default consequences, termination event consequences, or subjective acceleration clauses specified in the debt agreement.

Pledged Revenues – Net revenues from the operation of the septic disposal facilities and environmental services gross receipts tax revenues are pledged as security. Pledged revenues for the fiscal year ended June 30, 2019 totaled \$51,091.

## NMFA 1947-DW – Cleanup of Griggs Walnut Superfund Site

In January 2008, the County and the City of Las Cruces were approved under New Mexico Finance Authority Project No. 1947-DW for the clean-up of the Griggs Walnut superfund site. The County's debt principal totaled \$1,478,798. The initial terms of the loan called for the funds to be fully drawn down by January 2011 with regular principal payments due beginning in May 2013. An extension was received in 2011 to allow for drawdown of the funds through June 2012. The terms of the note call for annual principal payments on May 1, for 20 years with semi-annual interest payments of 2% per annum.

The County began drawing funds on the note in October 2010 and expects to withdraw the full amount by the June 2012 closing date. This debt is secured with legally pledged revenues.

Pledged Revenues – The note principal, interest, and administrative fees will be paid for with pledged revenues consisting of the first one-eighth of one percent increment of the County environmental services gross receipts tax transferred to the County pursuant to Section 7-20E-17 NMSA 1978. Pledged revenues for the fiscal year ended June 30, 2019 totaled \$92,645.

#### NMFA – Arsenic Treatment Facility

In July 2011, the County entered into a loan/grant agreement with the NM Finance Authority for the planning, design and construction of an arsenic treatment facility with a treatment capacity of approximately 3.4 million gallons of water per day in and around the Santa Teresa area. The terms of the agreement call for a grant from the NMFA for \$4,096,640 along with a loan totaling \$1,024,160. The interest/administrative fee on the note is 0.25% with a maturity date of June 1, 2031. Repayments to be provided by the Camino Real Regional Utility Authority (CRRUA). The County has an agreement with CRRUA, stating that CRRUA will begin make payments on the debt incurred on 9/12/14, for the formation of the arsenic treatment facility, but the debt will remain on the County's financials. This debt is secured with legally pledged revenues.

Pledged Revenues – The note principal, interest, and administrative fees will be paid for with pledged revenues from the net utility revenues of the Santa Teresa water and wastewater utility system. Pledged revenues for the fiscal year ended June 30, 2019 totaled \$52,563.

The following details the default consequences, termination event consequences, or subjective acceleration clauses specified in all NMFA debt agreements.

Whenever any Event of Default has occurred and is continuing and subject to section Remedies on Default hereof, the Lender/Grantor may take any or all of the following actions as may appear necessary or desirable to collect the payments then due and to become due or to enforce performance of any obligations of the Borrower/Grantee in this Agreement:

- a) File a mandamus proceeding or other action or proceeding or suit at law or in equity to compel the Borrower/Grantee to perform or carry out its duties under the law and the agreements and covenants required to be performed by it contained herein;
- b) Terminate this Agreement;
- c) Cease disbursing any further amounts from the Project Account;
- d) Demand that the Borrower/Grantee immediately repay the Loan/Grant Amount or any

portion thereof if such funds were not utilized in accordance with this Agreement;

- e) File a suit in equity to enjoin any acts or things which are unlawful or violate the rights of the Lender/Granter;
- f) Intervene in judicial proceedings that affect this Agreement or the Pledged Revenues; or
- g) Cause the Borrower/Grantee to account as if it were the trustee of an express trust for all of the Pledged Revenues;
- h) Take whatever other action at law or in equity may appear necessary or desirable to collect amounts then due and thereafter to become due under this Agreement or to enforce any other of its rights hereunder; or
- i) Apply any amounts in the Project Account toward satisfaction of any and all fees and costs incurred in enforcing the terms of this Agreement.

#### NMED – Sanitary Sewer System

On June 30, 2003, the County entered into a loan agreement in the amount of \$4,740,014 with the New Mexico Environment Department. The loan proceeds are to be used to improve or construct a Sanitary Sewer System by constructing, extending, enlarging, repairing, and otherwise improving the County's wastewater collection system, conveyance, and treatment facilities. The loan calls for 20 annual payments of \$289,884 and interest is calculated at a rate of 2.0% per annum. The first payment was due February 5, 2010 and the maturity date on the note is February 5, 2029. This debt is secured with legally pledged revenues.

*Pledged Revenues* – The note is payable and collectible solely from the net revenues derived from the operation of the County's Chaparral Wastewater System. Pledged revenues for the fiscal year ended June 30, 2019 totaled \$289,894.

#### NMFA – Montana Vista Wastewater System Improvements

On April 18, 2014, the County entered into a loan/grant agreement with the New Mexico Finance Authority for planning and design of the Montana Vista wastewater system improvements. The terms of the agreement call for a grant from the New Mexico Finance Authority of \$1,260,000 along with a loan of \$140,000 with no interest rate. The maturity date on the note is June 1, 2034. This debt is secured with legally pledged revenues.

*Pledged Revenues* – The note is payable from the revenues derived from net utility revenues. Pledged revenues for the fiscal year ended June 30, 2019 totaled \$7,000.

#### NMFA – Chaparral Wastewater System Improvements

On May 2, 2014, the County entered into a loan/grant agreement with the New Mexico Finance Authority for the planning and design of the Chaparral Wastewater System improvements. The terms of the agreement call for a grant from the New Mexico Finance Authority \$315,000 along with a loan totaling \$35,000 with no interest rate. The maturity date on the note is June 1, 2034. This debt is secured with legally pledged revenues.

*Pledged Revenues* – The note is payable and collectible solely from the revenues derived from net utility revenues. Pledged revenues for the fiscal year ended June 30, 2019 totaled \$1,750.

#### NMFA – Colonias Infrastructure Improvements 3348-CIF

In March 2016, the County entered into a loan/grant agreement with the NM Finance Authority for the Colonias Infrastructure Project. The terms of the agreement call for a grant from the NMFA for \$900,000 along with a loan totaling \$89,050. The interest/administrative fee on the note is 0% with a maturity date of June 1, 2034. This debt is secured with legally pledged revenues.

*Pledged Revenues* – The note is payable from the net revenues derived from net utility revenues. Pledged revenues for the fiscal year ended June 30, 2019 totaled \$4,687.

### NMFA - Colonias Infrastructure Improvements 4642-CIF

In November 2018, the County entered into a loan/grant agreement with the NM Finance Authority for the Colonias Infrastructure Project. The terms of the agreement call for a grant from the NMFA for \$868,917 along with a loan totaling \$89,050. The interest/administrative fee on the note is 0% with a maturity date of June 1, 2040. The County drew down \$23,580 of principal in 2019. This debt is secured with legally pledged revenues.

*Pledged Revenues* – The note is payable from revenues of the one-eighth of one percent (0.125%) increment of County Gross Receipts Tax imposed pursuant to Section 7-20E-9, NMSA 1978, as amended, and Ordinance No. 35-85 adopted February 6, 1985, effective July 1, 1985. derived from net utility revenues. Pledged revenues for the fiscal year ended June 30, 2019 totaled \$0, as no payments were due in 2019.

The future payments required for the business-type notes payable are as follows:

	Principal	Interest	Total

#### **NOTE 8 – POLLUTION REMEDIATION OBLIGATION**

Certain property owned by the County has been declared a Superfund Site by the Environmental Protection Agency (EPA). The EPA has determined that the County is a responsible party along with the City of Las Cruces, which also owns part of the contaminated property. On April 20, 2005, the County and City of Las Cruces established a memorandum of understanding for a Joint Superfund Project (JSP) to work collaboratively with the EPA to complete the Remedial Investigation and Feasibility Study (RIFS) within the Superfund process. In December 2004, the JSP submitted a good-faith offer to the EPA for a Funding Agreement to achieve this objective. In April 2005, a negotiated funding agreement in the amount of \$800,000, payable to the EPA to complete the RIFS, was signed. In October 2005, the EPA and its contractor began the remaining fieldwork, which was completed in fiscal year 2007.

The County and City each received a \$3.5 million construction drawdown loan from the New Mexico Finance Authority (NMFA) to cover some of the costs of the pollution remediation project. County project costs of \$1,478,798 were funded using loan proceeds. The County is currently repaying the loan using Environmental Gross Receipt Tax funds.

The County and City also received \$243,000 for design and engineering in grant funds from the New Mexico Environment Department. As of June 30, 2019, all \$243,000 was applied to design and engineering costs. Construction on the project completed and remediation operations began August 2012.

The pollution remediation obligation is reported in long-term liabilities in the statement of net position (see Note 7). The pollution remediation obligation is an estimate and is subject to revision because of the price increases or reductions, changes in technology or changes in applicable laws or regulations. The County relies on the City's consultants to evaluate the site and potential liability.

On January 4, 2018, the County and City received a Unilateral Administrative Order from the EPA. The County and City are still in litigation regarding the liability. The County and the City currently share a 50/50 split on the potential liability. As of June 30, 2019, the County's outstanding pollution remediation obligation with this Order was estimated at \$7,359,858. The County received information on the pollution remediation obligation in the fiscal year 2019 and determined that it met the criteria to record the liability in its financial statements. As a result of the Unilateral Administrative Order date, January 4, 2018, the County has recorded the amount as a restatement. See Note 20.

#### NOTE 9 - INTERFUND BALANCES AND TRANSFERS

The County recorded interfund transfers to reflect activity occurring between funds. Transfers and payments within the County are substantially for the purpose of subsidizing operating functions and funding various projects within the County. All transfers made during the year were considered routine and were consistent with the general characteristics of the County's transfer policy.

The composition of interfund transfers during the year ended June 30, 2019 was as follows:

Transfers totaling \$195,741 were made from the County's agency funds to the General and Debt Service Fund. These transfers were reclassified as incoming revenue for the General and Debt Service Fund in the accompanying financial statements.

The County recorded interfund receivables/payables to reflect temporary loans between funds. The purpose of the loans was to cover cash shortages until grant reimbursements or other funding measures could be obtained. All interfund receivables/payables are expected to be repaid within one year.

Interfund balances as of June 30, 2019 are as follows:

#### NOTE 10 - DEFINED BENEFIT PENSION PLAN

Plan Description – Substantially all of the Doña Ana County's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at http://www.pera.state.nm.us.

Funding Policy – Plan members, other than law enforcement personnel and fire fighters, are required to contribute 14.65% of their gross salary. The County is required to contribute 9.55% of general participant's gross salary. The contribution rate is 17.80% of gross salaries for law enforcement participants (excluding detention employees). The County's portion of law enforcement participants is 18.90% of gross salaries. Detention employees are considered general participants. The contribution rate for fire fighter members is 17.70%, and the County is required to contribute 21.65% of their gross salaries. The contribution requirements of plan members and the County are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. Additionally, the County has elected to pick-up a portion of the employee's contribution.

The following table details the actual contribution rates:

	_	2019	2018	2017

#### NOTE 11 - PENSION PLAN AND POST EMPLOYMENT BENEFITS

#### General Information about the Pension Plan

Plan description. Public Employees Retirement Fund is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

Benefits provided. Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

TIER II. The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credit equals at least 85 or at age 67 with 8 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II pension factors were reduced by .5%, employee Contribution

increased 1.5 percent and effective July 1, 2014 employer contributions were raised .05%. The computation of final average salary increased as the average of salary for 60 consecutive months.

**Contributions.** See PERA's publicly available financial report and comprehensive annual financial report obtained at http://saonm.org/ using the Audit Report Search function for agency 366, for the employer and employee contribution rates in effect for fiscal year 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions; At June 30, 2019, the County reported a liability of \$72,130,030 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2018 using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date of June 30, 2018. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2018. The County's proportion of the net pension liability was based on a projection of the County long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2018, the County's proportion was 2.4730%, which was an increase of 0.0690% from its proportion measured as of June 30, 2017.

**For PERA Fund Division; Municipal General Division**, at June 30, 2019, the County reported a liability of \$43,834,017 for its proportionate share of the net pension liability. At June 30, 2018, the County's proportion was 2.7493%, which was a decrease of 0.1316% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2019, the County recognized PERA Fund Division; Municipal General Division pension expense of \$4,905,765.

At June 30, 2019, the County reported PERA Fund Division; Municipal General Division deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

#### REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

**Actuarial assumptions.** The total pension liability in the June 30, 2018 actuarial valuation was determined using the following significant actuarial assumptions, applied to all periods included in the measurement:

Actuarial valuation date	June 30, 2017		
Actuarial cost method	Entry Age Normal		
Amortization method	Lev el Percent of Pay		
Amortization period	Solved for based on statutory rates		
Asset valuation method			
Actuarial assumptions			
Investment rate of return	7.25% annual rate, net of investment expense		
Projected benefit payment	100 y ears		
Payroll growth	3.00%		
Projected salary increases	2.75% to 13.50% annual rate		
Includes inflation at	2.50%		
	2.75% all other years		
Mortality assumption	The mortality assumptions are based on the RPH-2014 Blue Collar mortality table with female ages set forward one year. Future improvement in mortality rates is assumed using 60% of the MP-2017 projection scale generationally. For non-public safety groups, 25% of inservice deaths are assumed to be duty related and 35% are assumed to be duty-related for public safety groups.		
Experience study dates	July 1, 2008 to June 30, 2017 (demographic) and July 1, 2010 through June 30, 2018 (economic)		

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2018. These assumptions were adopted by the Board use in the June 30, 2017 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Target	Long-Term Expected
All Funds - Asset Class	Allocation	<b>Real Rate of Return</b>
Global Equity	43.50%	7.48%
Risk Reduction & Mitigation	21.50%	2.37%
Credit Oriented Fixed Income	15.00%	5.47%
Real Assets to include Real Estate Equity	20.00%	6.48%
Total	100.00%	

**Discount rate.** A single discount rate of 7.25% was used to measure the total pension liability as of June 30, 2018. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.25%, compounded annually, net of expense. Based on the stated assumptions and the projection of cash flows, the plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability. The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

Sensitivity of the County's proportionate share of the net pension liability to changes in the discount rate. The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the employer name's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	<b>1% Decrease</b>	Discount Rate	1% Increase
PERA Fund Division	(6.25%)	(7.25%)	(8.25%)
Municipal General Division \$	67,545,284	43,834,017	24,232,863
Municipal Police Division \$	37,248,437	24,225,214	13,608,201
Municipal Fire Division \$	5,434,207	4,070,799	2,953,884

**Pension plan fiduciary net position** – Detailed information about the pension plan's fiduciary net position is available in the separately issued PERA financial reports, available at <a href="http://www.nmpera.org/">http://www.nmpera.org/</a>.

**Payable Changes in the Net Pension Liability**. At June 30, 2019, the County did not report any outstanding contributions due to PERA.

#### NOTE 12 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

#### General Information about the OPEB Plan

**Plan description** – The County's defined benefit OPEB plan, County Health Care Plan (CHCP), provides OPEB for all employees who satisfy the retirement eligibility requirements of the Public Employees Retirement Association of New Mexico (PERA). CHCP is a single employer defined benefit OPEB plan administered by the County. The County established a policy of contributing towards retirees' health care costs through adoption of Resolution 1999-36. Resolution 2002-89 increased the County contributions for retirees under the CHCP. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

**Benefits provided** – The County makes contributions toward the CHCP for retirees with a minimum of 10 years PERA service credit from employment with the County, based on a formula. Participants receive a contribution from the County for Medical/Rx/dental/vision and life insurance benefits at an increasing rate based on years of service, with a cap of \$350 per month. Retirees who qualify for PERA retirement with 20 years of service or more as a commissioned law enforcement officer or firefighter with a minimum of 10 years of PERA service with the County will receive a County contribution of 65% (cap still applies).

*Employees covered by benefit terms* – At June 30, 2018 (the experience study date and latest information available), the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving	
benefit payments	143
Active employees	807
	950

## **Total OPEB Liability**

The County's total OPEB liability of \$22,742,813 was measured as of June 30, 2019, and was determined by an actuarial valuation as of that measurement date.

**Actuarial assumptions and other inputs** – The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Valuation date	June 30, 2019
Experience study date	August 24, 2017
Discount rate	3.87% per annum (BOY)
	3.50% per annum (EOY)

## NOTE 13 - DEFERRED COMPENSATION PLAN

Doña Ana County offers its employees two deferred compensation plans created in accordance with Internal Revenue Code Section 457. The plans, available to all permanent County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the National Association of Counties (NAC) (without being restricted to the provisions of benefits under the plan) or Nationwide Retirement Solutions, Inc., subject only to the claims of the NAC or Nationwide Retirement Solutions, Inc. general creditors.

Participant's rights under the plans are equal to those of general creditors of the NAC or Nationwide Retirement Solutions, Inc. in an amount equal to the fair market value of the deferred account for each participant. All amounts of deferred compensation have been remitted to the NAC or Nationwide Retirement Solutions, Inc., which administers the plans. Employee contributions totaled \$47,295 for NAC and \$559,936 for Nationwide for the year ended June 30, 2019.

## NOTE 14 - OPERATING LEASES

The reporting entity has entered into a number of operating leases, which contain cancellation provisions and are subject to annual appropriations. The rent expenditures for these leases were primarily from the General Fund. Future minimum lease payments are:

Rental and lease payments charged to current operations for the year ended June 30, 2019 totaled \$831,769.

#### NOTE 15 - COMMITMENTS AND CONTINGENCIES

The County receives significant financial assistance from federal and state grants and entitlements. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The County believes that any liabilities resulting from disallowed amounts will not have a material effect on the County's financial statements.

The County remains non-compliant with its state issued permits for the liquid waste facility at Mesquite, New Mexico. The New Mexico Environment Department is aware of this issue; however, as the County is aggressively trying to remedy the situation, it is not anticipated that any fines will be assessed. The County is currently completing the design phase of a construction project to remedy the situation. The County is seeking possible funding solutions for the construction phase.

Commitments for construction projects in progress as of June 30, 2019 include:

## **Contingencies**

In 2019, the County has recorded contingent liabilities on the County's Government-Wide Statement of Financial Position for \$1,050,000. There are multiple legal options open to the County to appeal the ruling. If the County does not appeal, it is likely these amounts would be paid within a year, however, if an appeal takes place these amounts would unlikely be paid within a year, and therefore was classified as a long-term liability on the Government-Wide Statement of Net Position.

#### **NOTE 16 – HOSPITAL LEASE**

#### **Medical Center-Providence Hospital (Telshor Facility)**

In 1966, the County and the City adopted a joint resolution to create a joint county-municipal hospital to provide medical services to all of the citizens of Doña Ana County. The hospital was constructed and operated by the City and County through a Board of Trustees until 1998, when it was leased to Memorial Medical Center, Inc. (MMCI), a New Mexico not-for-profit corporation.

On June 1, 2004, the City, the County and MMCI, jointly terminated the lease. On that date, the City and County executed a 40-year lease agreement for the hospital facilities and equipment with PHC-Las Cruces, Inc. (PHC), a New Mexico corporation and a wholly-owned subsidiary of Province Healthcare Corporation, a Delaware corporation. In accordance with the lease agreement, PHC has deposited certain amounts into escrow accounts to cover certain contingencies of the hospital and paid certain hospital liabilities, including outstanding bonds. The lease transaction was recorded during fiscal year 2004.

The proceeds of the PHC lease were reported in a sub-fund of the General Fund and the resulting equity has been reserved for health-related programs and health related capital projects.

Pursuant to the Termination Agreement, MMCI began distributing its cash and investments equally between the County and the City in July 2004. MMCI retained cash to pay certain liabilities; any cash remaining at the end of the liquidation process will be distributed equally between the County and the City.

In addition, PHC made a one-time grant of \$5 million to Doña Ana County to be distributed in the sole discretion of the County and City to improve the integration of services provided by the clinics in the County operated by the federally qualified health center organizations, the hospital, and the existing family residency program and to expand the service hours of the same clinics. The grant is accounted for as deferred inflows of resources in the General Fund. The unexpended portion of the grant at June 30, 2019 is \$638,884.

#### **NOTE 17 – RISK MANAGEMENT**

#### **Multi-line Risk Pool**

The County participates in the New Mexico Association of Counties insurance programs. The County's premium is re-determined every year and is based on the County's loss experience over the previous three years.

Limits of coverage through the risk pool are as follows:

Coverage	Insurance
\$1,000,000,000	Property
\$5,000,000	Earthquake and flood
\$2,000,000	Employee dishonesty and crime
\$2,000,000	Crime
\$3,000,000	Public officials E & O – Tort claim limit
\$5,000,000	Foreign jurisdiction liability
\$2,000,000	Pollution
\$40,000/\$100,000	Land use planning def.
\$100,000	Sheriff's volunteers accident
\$5,000,000	Law enforcement liability – Tort claim limit
\$50,000,000	Boiler and machinery
\$1,000,000	Expanded land use civil rights
\$10,000	Injunctive relief
\$3,000,000	Cyber liability
\$5,000,000	Class A county - Excess liability

Contributions paid to the pool for the 2018/2019 fiscal year were \$3,792,488.

#### **Commercial Insurance**

Commercial liability insurance covers the County's airport operations up to \$10,000,000 per occurrence. There is no deductible. Premiums paid for 2018/2019 were \$4,634. In addition, the County maintains commercial liability policies for Accidental Death and Dismemberment of the County's Independent Fire Districts with coverage of \$255,000 (premium paid of \$65,412) and Pollution and Remediation Legal Liability with coverage of \$3,000,000 (premium paid of \$67,870 for a two-year policy).

#### NOTE 18 - DEFICIT FUND BALANCE

The following fund incurred a deficit fund balance at June 30, 2019:

Fund	Amount
Health Services Grant (25143)	\$ (5,817)

Management intends to transfer sufficient funds from General Fund to cover any deficits.

#### **NOTE 19 -LABOR UNIONS**

The County has five labor unions:

- 1. American Federation of State, County and Municipal Employees, New Mexico Council 18, Blue Collar, (AFSCME BC) Local 2709; the collective bargaining agreement went into effect on August 28, 2017.

## NOTE 21 -RELATED PARTIES

An attorney in the County's legal department serves as a contract attorney for the County's insurance provider. From time to time, the attorney may be called on to perform legal work for the insurance provider on cases typically involving the County. During these instances, the attorney is not considered an employee of the County and does not receive compensation for time spent working on cases for the insurer. Any costs incurred using County staff and materials are reimbursed to the County.

The County is currently acting as Camino Real Regional Utility Authority's (CRRUA) fiscal agent. They are contracted to provide multiple fiscal services, enterprise information systems management services, risk management services, and human resources management services. The contract term is for a period of 10 years from February 1, 2012 and can be renewed for an additional 5 years. CRRUA paid the County \$148,311 for fiscal year 2019.

Due to the relationship the County has with CRRUA there are related parties between the two entities. The related parties are as follows:

• 2 County Commissioners also serve as members on the Board of Directors at CRRUA

#### NOTE 22 -TAX ABATEMENT DISCLOSURES

The County negotiates property tax abatement agreements and has multiple tax abatement agreements as of June 30, 2019. The County's entire disclosure as an abating agency is presented on the following pages.

Additionally, the County is subject to multiple tax abatement agreements entered into by other governmental entities with affects the County, as of June 30, 2019. The County's entire disclosure as the affected agency is presented on the following pages.

# INDEPENDENT AUDITOR'S REPORT INDEPENDENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of County Commissioners State of New Mexico, Doña Ana County and Mr. Brian Colón, State Auditor State of New Mexico, Office of the State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, the budgetary comparisons for the general fund and major special revenue funds of Doña Ana County (County) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated December 2, 2019.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County's internal control. Accordingly, we do not express an opinion on the effectiveness of County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

**DECEMBER 2, 2019** 

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2019-001.

## The County's Response to Finding

inkle & Zandeus, P.C.

The County's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Board of County Commissioners State of New Mexico, Doña Ana County and Mr. Brian Colón, State Auditor State of New Mexico, Office of the State Auditor

## Report on Compliance for Each Major Federal Program

We have audited Doña Ana County's (County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2019. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

## **Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

## **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of *Federal Regulations Part 200*, *Uniform Administrative Requirements*, *Cost Principles*, and *Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, the County, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

## **Report on Internal Control Over Compliance**

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our

Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

## **CURRENT YEAR**

## <u>2019-001 - NON-COMPLIANCE WITH NEW MEXICO STATE STATUTES OVER ADDITIONAL APPRAISER CERTIFICATION COMPENSATION</u>

## Type of Finding: C, G

## **Statement of Condition**

During our audit, we identified that a previous County Assessor had been paid the incorrect incentive rate for "Appraiser" certifications beginning July 1, 2015 through November 2018. In 2015 New Mexico legislation amended 4-39-5 "Additional Compensation to Appraisers" to increase incentive pay, for qualifying appraisers employed in the office of the assessor, to a cumulative total of \$7,500 if the appraiser held all 4 "Appraiser" certificates. However, this increase did not apply to the County Assessor, who receives additional compensation per 4-39-4 "Additional Compensation to Assessors". NM Statute 4-39-4 was not amended and the most the County Assessor could be compensated remained at \$3,500 for an Assessor who held all 4 "Appraiser" certificates, which the Doña Ana County Assessor held. As a result of the misinterpretation, the County Assessor began collecting \$7,500 per year beginning on July 1, 2015 and therefore, the County Assessor was overpaid \$13,661.88 during his term.

The County sent the previous County Assessor a formal Memorandum on December 10, 2018 informing the County Assessor of the calculated \$13,661.88 overpayment, notifying him of the garnishments on his subsequent 2 paychecks, and stating an agreement would need to be made for the remaining balance after his term ended, which was December 31, 2018. In December 2018, garnishments of the County Assessor's paycheck were applied to his final two paychecks (\$750 each for a total of \$1,500). However, once the County Assessor's term ended in December 31, 2018, there were no additional repayments to the County for the remaining \$12,161.88 balance.

# STATE OF NEW MEXICO DOÑA ANA COUNTY SCHEDULE OF FINDINGS AND QUESTIONED COSTS JUNE 30, 2019

Due to the overpayment the County Assessor received salaries that exceeded the New Mexico legislation 4-44-4 Class A Counties Salaries allowed amounts. In calendar years 2015, 2016, and 2017 the cap on the County Assessors compensation was \$65,501 and a maximum of \$3,500 additional compensation of "Appraiser" certificate incentive compensation, for a total of \$78,827 per calendar year. The County Assessor's total salaries for calendar years 2015, 2016, and 2017 were \$80,148, \$86,010, and \$82,824, respectively, which exceeded that allowed salaries.

Due to the County's determination that the statutes are open to interpretation, they have reached out to the New Mexico Attorney General's Office in July of 2019 for clarification on statutes 4-39-4 and 4-39-5. They have yet to receive a response. In May 2019, the County hired the previous County Assessor as the Facilities Manager with the understanding that once a determination is made the County will either repay the previous County Assessor's garnished wages or will collect the remaining balance of \$12,161.88.

## Criteria

**New Mexico Statute 4-39-4. Additional compensation to assessors.** "In addition to the salaries provided for county assessors in Sections 4-44-4 through 4-44-12 NMSA 1978, county assessors may receive:

- A. an additional five hundred dollars (\$500) a year for holding an "Appraiser 1" certificate;
- B. an additional one thousand dollars (\$1,000) a year for holding an "Appraiser 2" certificate;
- C. an additional one thousand dollars (\$1,000) a year for holding an "Appraiser 3" certificate; and
- D. an additional one thousand dollars (\$1,000) a year for holding an "Appraiser 4" certificate."

**New Mexico Statute 4-39-5. Additional compensation to appraisers.** "A board of county commissioners may provide additional cumulative increments to the salary of any qualifying appraiser employed in the office of the assessor as an incentive for obtaining greater qualification levels up to the following amounts:

- A. an additional five hundred dollars (\$500) a year for holding an "Appraiser 1" certificate;
- B. an additional one thousand five hundred dollars (\$1,500) a year for holding an "Appraiser 2" certificate;
- C. an additional two thousand five hundred dollars (\$2,500) a year for holding an "Appraiser 3" certificate; and
- D. an additional three thousand dollars (\$3,000) a year for holding an "Appraiser 4" certificate."

New Mexico Statute 4-44-4 (January 1, 2014 through May 15, 2018). Class A counties; salaries. "The annual salaries of elected officers of class A counties shall not exceed:

- A. county commissioners, thirty-nine thousand one hundred six dollars (\$39,106) each;
- B. treasurer, eighty-six thousand six hundred twenty-six dollars (\$86,626);
- C. assessor, eighty-six thousand six hundred twenty-six dollars (\$86,626);
- D. sheriff, ninety thousand three hundred thirty-eight dollars (\$90,338);
- E. county clerk, eighty-six thousand six hundred twenty-six dollars (\$86,626); and
- F. probate judge, thirty-eight thousand one hundred fourteen dollars (\$38,114)."

## Cause

When processing increases in pay for appraisers pursuant to HB 348 (amending §4-39-5 NMSA 1978), the County Human Resources Department relied on the County Commission's approval of increases in incentive pay for employees of the office of the assessor, including the County Assessor.

# STATE OF NEW MEXICO DOÑA ANA COUNTY SCHEDULE OF FINDINGS AND QUESTIONED COSTS JUNE 30, 2019

## **Effect**

It appears the County was not in compliance with New Mexico statutes 4-39-4 and 4-44-4 during calendar years 2015, 2016, 2017, and 2018. The County paid the County Assessor more than was allowed by New Mexico State statute.

## Recommendation

We recommend the County formally document the arrangement with the previous County Assessor outlining the actions that will be taken by both the County and the previous County Assessor once clarification is received the Attorney General regarding the statutes.

We also recommend the County follow-up with the New Mexico Attorney General's office on the status of their requested opinion of the statutes.

## View of Responsible Officials and Corrective Action Plan

The County concurs with the recommendation and will provide the requested documentation upon receipt of the Attorney General opinion.

Garnishments of the previous County Assessor's paycheck were applied to his final two paychecks. The previous County Assessor disputed whether the County was properly withholding, alleging he was entitled to the higher stipend and used the Assessor Affiliate as support. There are a number of other assessors and counties that have allowed it. Because this is a statewide issue, and not just at Doña Ana County, a request for a formal opinion in this matter has been submitted to the New Mexico Attorney General.

The County prefers to wait for the opinion before taking further action. When the legal opinion is received, the County will act in accordance with the opinion. If the opinion concludes that the previous County Assessor owes the County a balance, the County will take appropriate action to obtain payment from the previous County Assessor for the remaining balance of overpayment. The County is in a position to garnish his paychecks if needed. While waiting for the determination of the Attorney General, the County will begin deducting \$116.94 per pay period until the balance is recovered. If the Attorney General determines the payment to the former Assessor was appropriate, that amount deducted will be refunded to the prior Assessor.

<u>Finding resolution timeline</u>: The County will seek a status update from the Attorney General at least monthly until the AG issues a formal opinion or otherwise responds. The County will act in a manner consistent with the AG's opinion within 30 days of the receipt thereof.

<u>Designation of employee position responsible for meeting this deadline</u>: The County Attorney will coordinate with Attorney General's office to obtain the legal opinion. The County Manager, along with support staff, will attempt to reach appropriate settlement with former Assessor upon receipt of opinion from Attorney General and take all necessary steps to achieve a final resolution.
