Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the budgetary comparison for the General Fund of Regional Emergency Dispatch Authority (the "Authority"), a component unit of Eddy County, New Mexico, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Authority, a component unit of Eddy County, as of June 30, 2018, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change of Accounting Principle

As discussed in Note 9 to the financial statements, in 2018 the County adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Emphasis of Matter

Reporting Entity

As discussed in Note 1, the financial statements of the Authority are intended to present the financial position and the changes in financial position of only Regional Emergency Dispatch Authority. They do not purport to, and do not, present fairly the financial position of Eddy County, as of June 30, 2018, the changes in its financial position for the year then ended in conformity in accordance with accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Management has omitted the *Management Discussion and Analysis* that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the GASB required pension schedules, the GASB required other post-employment benefits schedules, and the notes to the required supplementary information on pages 48 through 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and

comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The introductory section and schedules required by 2.2.2 NMAC are presented for the purpose of additional analysis and are not a required part of the basic financial statements of the Authority.

The schedules required by 2.2.2 NMAC are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules required by 2.2.2 NMAC are fairly stated, in all material respects, in relation to the financial statements taken as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2018, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Regional Emergency Dispatch Authority
(A Component Unit of Eddy County, New Mexico)
Notes to Financial Statements
June 30, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Regional Emergency Dispatch Authority (the "Authority"), a component unit of Eddy County, New Mexico, was established in 2006 under the name Eddy County Central Communications Authority in accordance with Enhanced 911 statutes of the State of New Mexico, Section 63-9D-1 NMSA 1978. On September 1, 2007, all the Communications employees of the Eddy County Sheriff's Department and the Artesia Police Department were consolidated under the Central Communication Authority. In 2010 Eddy County Central Communications Authority reorganized under the name Regional Emergency Dispatch Authority. The Authority was created to provide an effective and efficient single point of contact for emergency communications for Eddy County and the City of Artesia.

The Authority consists of seven board members who govern the Regional Emergency Dispatch Authority. The Board members are selected by the Mayor and City Council of Artesia and the Eddy County Commission. Eddy County is the fiscal agent for the Authority.

This summary of significant accounting policies of the Authority is presented to assist in the understanding of the Authority's financial statements. The financial statements and notes are the representation of the Authority's management that is responsible for the financial statements. The financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units.

During the year ended June 30, 2018, the County adopted GASB Statement No. 75 *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*, GASB Statement No. 81 *Irrevocable Split-Interest Agreements*, GASB Statement No. 85 *Omnibus*, and GASB Statement No. 86 *Certain Debt Extinguishment Issues*. These four Statements are required to be implemented as of June 30, 2018, if applicable.

GASB Statement No. 75 is intended to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. The provisions of this Statement are effective for fiscal years beginning after June 15, 2017 and have a material effect on the financial statements of the Authority.

(A Component Unit of Eddy County, New Mexico)
Notes to Financial Statements

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Financial Reporting Entity

The Authority is a component unit of Eddy County. Eddy County issues separately issued financial statements. Additional information regarding Eddy County may be obtained directly from their administrative office as follows: Eddy County Administration Complex Suite 222, 101 W. Greene St., Carlsbad, NM 88220.

These financial statements include those activities and functions related to the Regional Emergency Dispatch Authority which are controlled by or dependent upon its Executive Board. The accompanying financial statements do not present the financial position and results of operations of the County, taken as a whole in accordance with generally accepted accounting principles (GAAP).

In evaluating how to define the Authority for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statements No. 14, as amended by GASB Statement No. 39, GASB Statement No. 61 and GASB Statement No. 80. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity.

Based upon the application of these criteria, the Authority has no component units required to be included in these financial statements.

Notes to Financial Statements
June 30, 2018**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The Authority has no business-type activities.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Non-exchange Transactions*.

In the government-wide Statement of Net Position, the governmental activities column (a) is presented on a consolidated basis by column, (b) and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt obligations. The Authority's net position are reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**Regional Emergency Dispatch Authority
(A Component Unit of Eddy County, New Mexico)
Notes to Financial Statements
June 30, 2018**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met, subject to the availability criterion. All other revenue items are considered to be measurable and available only when cash is received by the government.

Program revenues included in the Statement of Activities are derived directly from the program itself or from parties outside the Authority's taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the Authority's general revenues. Program revenues are categorized as (a) charges for services, which include revenues collected for fees and use of Authority facilities, etc., (b) program-specific operating grants, which includes revenues received from state and federal sources to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues from state sources to be used for capital projects. Internally dedicated resources are reported as *general revenues* rather than as program revenues.

The Authority reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. The Authority does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and is included in the direct expense of each function.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

Under the requirements of GASB Statement No. 34, the Authority is required to present certain governmental funds as major based upon certain criteria. The Authority reports the following major governmental fund:

The *General Fund* is the Authority's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. *Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance*

Deposits and Investments: The Authority's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Authority to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Local Government Investment Pool (LGIP).

Receivables and Payables: All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Payables are comprised of unpaid vendor and supplier invoices and are recognized when incurred.

Prepaid Expenses: Prepaid expenses include insurance and contract payments to vendors and reflect costs applicable to future accounting periods that are recorded as prepaid items in both the government-wide financial statements and fund financial statements.

Capital Assets: Capital assets, which include furniture, fixtures, and equipment assets, are reported in the government-wide financial statements. Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Information Technology Equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5).

The Authority does not capitalize interest related to any of its capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets of the Authority are depreciated or amortized, as applicable, using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Furniture, equipment and vehicles	5-15

Accrued Expenses: Accrued expenses are comprised of the payroll expenditures based on amounts earned by the employees through June 30, 2018, along with the applicable PERA and Retiree Health Care expenditures.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance (Continued)

Compensated Absences: The Authority permits employees to accumulate a limited amount of earned but unused vacation, which will be paid if not used, upon termination from the Authority. Accumulated sick leave benefits vest with each employee in accordance with Authority policy. All vacation leave is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignation and retirements. No liability is reported for unpaid accumulated sick leave, as no payment is required upon termination of service by employees.

Deferred Outflows of Resources: In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element represents a use of net position that applies to future periods and so will not be recognized as an outflow of resources (expenditure) until that time. The Authority has five types of items that qualify for reporting in this category related to reporting under GASB 68 and one that arises as a result of the implementation of GASB 75, which total \$568,499 and \$16,410, respectively, in the Statement of Net Position. The amounts are further detailed in Note 8 and Note 9. These amounts are deferred and recognized as outflows of resources in future periods and will reduce the net pension liability and other post-employment benefit liability, respectively, in future periods.

Deferred Inflows of Resources: In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and so will not be recognized as inflows of resources (revenue) until that time. Revenue must be susceptible to accrual (measurable and available to finance expenditures of the current fiscal period) to be recognized. If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding liability for deferred inflows of resources. The Authority has two types of items present on the Statement of Net Position that qualify for reporting in this category related to reporting under GASB 68 and three due to the implementation of GASB 75. The deferred inflows of resources total \$80,770 and \$200,607, respectively, in the Statement of Net Position, and are further detailed in Note 8 and Note 9. These amounts are deferred and recognized as inflows of resources in the period that the amounts become available.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance (Continued)

Long-term Obligations: In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position.

Fund Balance Classification Policies and Procedures: The Authority has implemented GASB No. 54 and has defined the various categories reported in fund balance. For restricted fund balances, the Authority includes amounts that can be spent only for the specific purposes stipulated by statute, ordinance, resolution, or enabling legislation. Fund balances in this category represent the remaining amount that is restricted for future use in the specific fund.

For committed fund balance, the Authority's highest level of decision-making authority is the Executive Board. The formal action that is required to be taken to establish a fund balance commitment is the Executive Board.

For assigned fund balance, the Executive Board or an official or body to which the Executive Board delegates the authority is authorized to assign amounts to a specific purpose. The authorization policy is in the governmental funds, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

For the classification of fund balances, the Authority considers restricted or unrestricted amounts to have been spent when an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available. Also for the classification of fund balances, the Authority considers committed, assigned, or unassigned amounts to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Nonspendable Fund Balance: At June 30, 2018, the Authority had \$16,792 classified as nonspendable fund balance related to prepaid expenses.

Restricted, Committed and Assigned Fund Balance: At June 30, 2018, the Authority had no amounts classified as restricted, committed, or assigned fund balance.

Minimum Fund Balance Policy: The Authority has not developed a policy for maintaining a minimum amount of fund balance for operations to minimize any sudden and unplanned discontinuity to programs and operations and for unforeseen contingencies.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance (Continued)

Net Position: Equity is classified as net position and displayed in three components:

- a. **Net Investment in Capital Assets:** Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. **Restricted Net Position:** Net position is reported as restricted when constraints are placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. **Unrestricted Net Position:** Net position that does not meet the definition of “restricted” or “net investment in capital assets.”

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates for the Authority are management’s estimate of depreciation on assets over their estimated useful lives, the net pension liability and related amounts, the OPEB liability and related amounts, and current portion of accrued compensated absences.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA’s fiduciary net position have been determined on the same basis as they are reported by PERA, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB): For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA’s fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

Annual budgets of the Authority are prepared prior to June 1 and must be approved by resolution of the Executive Board and submitted to Eddy County and the City of Artesia for inclusion in their budgets for submission to the Department of Finance and Administration (DFA) for State approval. Once the budget has been formally approved, any amendments are approved by the Executive Board and changes which result in budget increases must also be approved by Eddy County, the City of Artesia and DFA. Line items within each budget may be over-expended, however, it is not legally permissible to over-expend any budget in total by fund. The Authority does not use encumbrances.

The budget is prepared on the cash basis, which differs from GAAP. The budgetary comparison presented in these financial statements are on this Non-GAAP cash budgetary basis.

The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

The appropriated budget for the year ended June 30, 2018 was properly amended by the Authority's Executive Board throughout the year. These amendments resulted in the following changes:

	Excess (deficiency) of revenues over expenditures	
	Original Budget	Final Budget
Budgeted Funds:		
General Fund	\$ 7,500	\$ 7,500

The Authority is required to balance its budgets each year. Accordingly, amounts that are excess or deficient are presented as changes in cash designated for expenditures, not as an excess or deficiency of revenues over expenditures.

The reconciliation between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis for each governmental fund is included in each individual budgetary comparison.

NOTE 3: DEPOSITS AND INVESTMENTS

State statutes authorize the investment of Authority funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government obligations. The Authority is not aware of any invested funds that did not meet the State investment requirements as of June 30, 2018.

NOTE 3: DEPOSITS AND INVESTMENTS (Continued)

Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the Authority. Deposits may be made to the extent that they are insured by an agency of the United States or collateralized as required by statute. The financial institution must provide pledged collateral for 50% of the deposit amount in excess of the deposit insurance.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

All of the Authority's accounts at an insured depository institution, including all noninterest-bearing transaction accounts, are insured by the FDIC up to the standard maximum deposit insurance amount of \$250,000.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority does not have a deposit policy for custodial credit risk, other than following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). At June 30, 2018, none of the Authority's bank balance of \$229,250 was subject to custodial credit risk. No amount was uninsured and uncollateralized at June 30, 2018.

Total	\$ 350,166	\$ 36,915	\$ 35,995	\$ 351,086	\$ 36,086

The Authority's working capital loans were entered into on April 18, 2006 with Eddy County and the City of Artesia. See note 15 for further detail on the terms of these loans.

Compensated Absences – During fiscal year June 30, 2018, compensated absences increased \$920 from the prior year accrual. In prior years, the general fund was typically used to liquidate such long-term liabilities. See Note 1 for more details.

NOTE 7: RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; error omissions; and natural disasters.

The Authority is a member of and is insured through the New Mexico Self Insurers' Fund. New Mexico Municipal League organized and administers the Fund, which offers Workers' Compensation, general liability, law enforcement, civil rights, errors and omissions, auto liability, auto physical damage, and property and volunteer coverage to its members. The Authority pays insurance premiums to the Fund based on claim experience and the status of the pool. The Authority is not liable for more than the premiums paid.

NOTE 8: PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT ASSOCIATION

General Information about the Pension Plan

Plan description. The Public Employees Retirement Fund (PERA Fund) is a **cost-sharing, multiple employer defined benefit pension plan**. This fund has six divisions of members, including State General, State Police/Adult Correction Officer, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the PERA Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), and the provisions of Sections 29-4-1 through 29-4-11, NMSA 1978 governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the PERA Fund.

PERA issues a publicly available financial report and a comprehensive annual financial report that can be obtained at <http://saonm.org> using the Audit Report Search function for agency 366.

Benefits provided. For a description of the benefits provided and recent changes to the benefits see Note 1 in the PERA audited financial statements for the fiscal year ended June 30, 2017 available at http://www.nmpera.org/assets/uploads/downloads/comprehensive-annual-financial-reports/2016-CAFR_12.22.2016_FINAL-with-corrections.pdf.

Contributions. The contribution requirements of defined benefit plan members and the Regional Emergency Dispatch Authority are established in state statute under Chapter 10, Article 11, NMSA 1978. The contribution requirements may be amended by acts of the legislature. For the employer and employee contribution rates in effect for FY17 for the various PERA coverage options, for both Tier I and Tier II, see the tables available in the note disclosures on page 43 of the PERA FY17 annual audit report at <http://www.nmpera.org/assets/uploads/downloads/comprehensive-annual-financial-reports/CAFR-2017-Final.pdf>. The PERA coverage options that apply to the County are: Municipal General Division, Municipal Police. The PERA coverage option that applies to the Authority is: Municipal General Division. Statutorily required contributions to the pension plan from the Authority were \$78,183 and \$80,120 in employer paid member benefits were “picked up” by the employer for the year ended June 30, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: The PERA pension liability amounts, net pension liability amounts, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2016. The PERA pension liability amounts for each division were rolled forward from the valuation date to the Plan year ending June 30, 2017, using generally accepted actuarial principles. Therefore, the employer’s portion was established as of the measurement date June 30, 2017. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2017.

**Regional Emergency Dispatch Authority
(A Component Unit of Eddy County, New Mexico)
Notes to Financial Statements
June 30, 2018**

NOTE 8: PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

The assets of the PERA fund are held in one trust, but there are six distinct membership groups (municipal general members, municipal police members, municipal fire members, state general members, state police members and legislative members) for whom separate contribution rates are determined each year pursuant to chapter 10, Article 11 NMSA 1978. Therefore, the calculations of the net pension liability, pension expense and deferred inflows and outflows were performed separately for each of the membership groups: municipal general members; municipal police members; municipal fire members; state general members; state police members and legislative members. The Authority's proportion of the net pension liability for each membership group that the employer participates in is based on the employer contributing entity's percentage of that membership group's total employer contributions for the fiscal year ended June 30, 2017. Only employer contributions for the pay period end dates that fell within the period of July 1, 2016 to June 30, 2017 were included in the total contributions for a specific employer. Regular and any adjustment contributions that applied to FY 2017 are included in the total contribution amounts. In the event that an employer is behind in reporting to PERA its required contributions, an estimate (receivable) was used to project the unremitted employer contributions. This allowed for fair and consistent measurement of the contributions with the total population. This methodology was used to maintain consistent measurement each year in determining the percentages to be allocated among all the participating employers.

For PERA Fund Municipal General Division, at June 30, 2018, the Authority reported a liability of \$1,312,251 for its proportionate share of the net pension liability. At June 30, 2017, the Authority's proportion was 0.0955 percent, which changed from its proportion measured as of June 30, 2016 of .0165 percent.

For the year ended June 30, 2018, the Authority recognized PERA Fund Municipal General Division pension expense of \$278,185. At June 30, 2018, the Authority reported PERA Fund Municipal General Division deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Change of assumptions	\$ 60,514	\$ 13,560
Changes in proportion	270,577	-
Difference between expected and actual experience	51,563	67,210
Net difference between projected and actual earnings on pension plan investments	107,662	-

NOTE 8: PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

\$78,183 reported as deferred outflows of resources related to pensions resulting from the Authority's contributions subsequent to the measurement date June 30, 2017 will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2018	\$ (156,598)
2019	(219,706)
2020	(64,706)
2021	31,464
Thereafter	-

Actuarial assumptions. As described above, the PERA Fund member group pension liabilities and net pension liabilities are based on actuarial valuations performed as of June 30, 2016 for each of the membership groups. Then each PERA Fund member group pension liability was rolled forward from the valuation date to the Plan year ending June 30, 2017 using generally accepted actuarial principles. There were no significant events or changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2016. These actuarial methods and assumptions were adopted by the Board for use in the June 30, 2016 actuarial valuation.

NOTE 8: PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

The long term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

ALL FUNDS - Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	43.50%	7.39%
Risk Reduction & Mitigation	21.50	1.79
Credit Oriented Fixed Income	15.00	5.77
Real Assets	20.00	7.35
Total	100.00%	

Discount Rate. The discount rate used to measure the total pension liability was 7.51 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASBS 67. Therefore, the 7.51% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate. The following table shows the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present the Authority's net pension liability in the PERA Fund Division that the Authority participates in, under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower (6.51%) or one percentage point higher (8.51%) than the single discount rate.

PERA Fund Municipal General Division	1% Decrease (6.51%)	Current Discount Rate (7.51%)	1% Increase (8.51%)

NOTE 9: POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN

General Information about the OPEB

Plan description. Employees of the Authority are provided with OPEB through the Retiree Health Care Fund (the Fund)—a cost-sharing multiple-employer defined benefit OPEB plan administered by the New Mexico Retiree Health Care Authority (NMRHCA). NMRHCA was formed February 13, 1990, under the New Mexico Retiree Health Care Act (the Act) of New Mexico Statutes Annotated, as amended (NMSA 1978), to administer the Fund under Section 10-7C-1-19 NMSA 1978. The Fund was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents and surviving spouses) who have retired or will retire from public service in New Mexico.

NMRHCA is an independent agency of the State of New Mexico. The funds administered by NMRHCA are considered part of the State of New Mexico financial reporting entity and are OPEB trust funds of the State of New Mexico. NMRHCA’s financial information is included with the financial presentation of the State of New Mexico.

Benefits provided. The Fund is a multiple employer cost sharing defined benefit healthcare plan that provides eligible retirees (including terminated employees who have accumulated benefits but are not yet receiving them), their spouses, dependents and surviving spouses and dependents with health insurance and prescription drug benefits consisting of a plan, or optional plans of benefits, that can be contributions to the Fund and by co-payments or out-of-pocket payments of eligible retirees.

Municipal general	21,004
Municipal police	3,820
Municipal FTRE	2,290
Educational Retirement Board	48,756
	97,349

Contributions – Employer and employee contributions to the Fund total 3% for non-enhanced retirement plans and 3.75% of enhanced retirement plans of each participating employee’s salary as required by Section 10-7C-15 NMSA 1978. The contributions are established by statute and are not based on an actuarial calculation. All employer and employee contributions are non-refundable under any circumstance, including termination of the employer’s participation in the Fund. Contributions to the Fund from the Authority were \$16,410 for the year ended June 30, 2018.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the Authority reported a liability of \$881,410 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Authority’s proportion of the net OPEB liability was based on actual contributions provided to the Fund for the year ending June 30, 2017. At June 30, 2017, the Authority’s proportion was 0.01945 percent.

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation using the following actuarial assumptions:

Actuarial valuation date	June 30, 2017
Actuarial cost method	Entry age normal, level percent of pay, calculated on individual employee basis
Asset valuation method	Market value of assets
Actuarial assumptions:	
Inflation	2.50% for ERB; 2.25% for PERA
Projected payroll increases	3.50%
Investment rate of return	7.25%, net of OPEB plan investment expense and margin for adverse deviation including inflation
Health care cost trend rate	8% graded down to 4.5% over 14 years for Non-Medicare medical plan costs and 7.5% graded down to 4.5% over 12 for Medicare medical plan costs

NOTE 9: POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN (Continued)

Rate of Return. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions.

The best estimates for the long-term expected rate of return is summarized as follows:

Asset Class	Long-Term Rate of Return
U.S. core fixed income	4.1%
U.S. equity - large cap	9.1
Non U.S. - emerging markets	12.2
Non U.S. - developed equities	9.8
Private equity	13.8
Credit and structured finance	7.3
Real estate	6.9
Absolute return	6.1
U.S. equity - small/mid cap	9.1

Discount Rate. The discount rate used to measure the Fund's total OPEB liability is 3.81% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2028. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2029. Beyond 2029, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. Thus, 3.81% is the blended discount rate.

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates. The following presents the net OPEB liability of the Authority, as well as what the Authority’s net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.81 percent) or 1-percentage-point higher (4.81 percent) than the current discount rate:

1% Decrease (2.81%)	Current Discount Rate (3.81%)	1% Increase (4.81%)
\$ 1,069,137	\$ 881,410	\$ 734,122

The following presents the net OPEB liability of the Authority, as well as what the Authority’s net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

1% Decrease	Current Trend Rates	1% Increase
\$ 749,700	\$ 881,410	\$ 984,112

OPEB plan fiduciary net position. Detailed information about the OPEB plan’s fiduciary net position is available in NMRHCA’s audited financial statements for the year ended June 30, 2017.

Payable Changes in the Net OPEB Liability. At June 30, 2018, the Authority reported has no payable for outstanding contributions due to NMRHCA for the year ended June 30, 2018.

NOTE 10: CONTINGENT LIABILITIES

The Authority is involved in various claims and lawsuits arising in the normal course of business. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Authority’s legal counsel that resolution of these matters will not have a material adverse effect on the financial condition of the Authority.

NOTE 11: OTHER REQUIRED INDIVIDUAL FUND DISCLOSURES

Generally accepted accounting principles require disclosures of certain information concerning individual funds including:

- A. Deficit fund balances. The General Fund did not maintain a deficit fund balance at June 30, 2018.
- B. Excess of expenditures over appropriations. For the year ended June 30, 2018, the General Fund had no expenditures over appropriations.
- C. Designated cash appropriations in excess of available balance. The General Fund did not display designated cash balances in excess of available balances for the year ended June 30, 2018.

NOTE 12: COMMITMENTS

The Authority is not aware of any commitments as of the year ended June 30, 2018.

NOTE 13: CONCENTRATIONS

The Authority depends on financial resources flowing from, or associated with, both the City of Artesia and Eddy County. Because of this dependency, the Authority is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State Appropriations.

NOTE 14: NET POSITION RESTATEMENT

The Authority has a prior period adjustment of (\$1,046,976), which was required for implementation of GASB Statement No. 75. The adjustment reflects a beginning other post-employment benefit liability of (\$1,063,675), a beginning deferred outflow of resources – employer contributions subsequent to the measurement date of \$16,699.

NOTE 15: JOINT POWERS AGREEMENT

The Authority is party to a joint powers agreement with Eddy County, New Mexico and the City of Artesia, New Mexico, which is material in nature. The original amount provided to the Authority was a total of \$250,000, which consisted of a 60% contribution from Eddy County for \$150,000 and the remaining 40% for \$100,000 from the City of Artesia. During the year ended June 30, 2016, the County contributed an additional \$65,000, bringing the total contribution to \$315,000. The Authority entered into the agreement April 18, 2006 with no termination date existing as of the year ended June 30, 2018.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITORS' REPORT

Wayne Johnson
New Mexico State Auditor
Executive Board and
Operations Committee Board
Regional Emergency Dispatch Authority
Artesia, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the budgetary comparison for the General Fund of the Regional Emergency Dispatch Authority (the "Authority"), a component unit of Eddy County, New Mexico, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated November 30, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider material weaknesses. However, weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that is required to be reported under *Government Auditing Standards*

We noted a certain matter that is required to be reported per Section 12-6-5 NMSA 1978 that we have described in the accompanying schedule of findings and responses as item NM 2018-001.

The Authority's Response to the Finding

The Authority's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The Authority's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SECTION III – SECTION 12-6-5 NMSA 1978 FINDINGS

NM 2018-001 — Improper Year End Accruals (Finding That Does Not Rise to the Level of Significant Deficiency)

Condition: The Authority did not accrue intergovernmental receivables and revenues from Eddy County in the amount of \$3,605 for the year ended June 30, 2018.

Criteria: The Codification of Statements on Auditing Standards AU-C 315 states that is the responsibility of management in order to establish and maintain internal control on an ongoing basis to ensure financial reporting objectives are achieved.

Effect: An entry was proposed to correct revenues and accounts receivable balances. Not properly identifying cutoff related to revenues and receivable balances will cause revenues to be recorded in the improper period and misstate revenue amounts.

Cause: The Authority prepared the accounts receivable listing at year-end and excluded a portion from the accrual.

Auditors' Recommendations: The Authority should confirm accounts receivable balances with the Finance Department at Eddy County to ensure all revenues earned and are captured in the correct accounting period.

Views of Responsible Officials and Planned Corrective Action: REDA will from now, going forward send the DFA requests to our Accountant when we send it to DFA and to Eddy County. This will allow our Accountant to place each item we are requesting reimbursement for to be placed into Quickbooks as a receivable.

This process will be completed by either HR/Finance or Executive Director and will start from this moment forward. These requests are in-frequent in nature and do not exactly have set times to be done, other than before DFA closes out their fiscal year, so they will be sent as they occur.

So far, the current fiscal year we have not request any reimbursement, so there should not be anything to be changed.
