INDEPENDENT AUDITORS' REPORT

Hector Balderas, New Mexico State Auditor The Office of Management and Budget The Board of Sandoval County Commissioners Sandoval County Bernalillo, New Mexico

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, the budgetary comparisons for the general fund and major special revenue fund, and the statement of assets and liabilities – fiduciary funds of Sandoval County, New Mexico (the County), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents. We have also audited the financial statements of each for the County's nonmajor governmental funds, the budgetary comparisons for the major debt service funds, and all nonmajor funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2013, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2013, and the respective changes in financial position thereof and the respective budgetary comparisons for the general fund and major special revenue fund for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each of the nonmajor governmental funds of the County as of June 30, 2013, and the respective changes in financial position, thereof and the respective budgetary comparisons for the major debt service funds, fiduciary fund, and all nonmajor funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the County's financial statements, and the combining and individual fund financial statements and budgetary comparisons. The Schedule of Expenditures of federal awards as required by the Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the other schedules required by 2.2.2 NMAC are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of federal awards and other schedules required by 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures and other schedules required by 2.2.2 NMAC are fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 27, 2014 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Governmental Auditing Standards in considering the County's internal control over financial reporting and compliance.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2013

(Page 2 of 2)

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds

\$ (779,570)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

Capital expenditures 5,795,401 Depreciation expense (23,560,485)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the fund financial statements:

Change in deferred revenue related to property taxes receivable

2,480,678

The issuance of long-term debt (e.g., bonds, notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position:

Capital lease principal payments	289,450
Change in accrued compensated absences	(155,188)
Change in accrued interest	(1,214,041)
Bond proceeds	(13,713,708)
Principal payments on bonds and notes payable	16,810,261
Changes in net position - governmental activities	\$ (14.047.202)

STATE OF NEW MEXICO SANDOVAL COUNTY NOTES TO FINANCIAL STATEMENTS JUNE 30, 2013

NOTE 1. Summary of Significant Accounting Policies

Sandoval County is a political sub-division of the State of New Mexico established and regulated by the constitution of the State of New Mexico. The County operates under a commission-manager form of government and provides the following services as authorized by public law: public safety (sheriff, fire, emergency medical, etc.), roads, health and welfare (social services), culture and recreation, sanitation, planning and zoning, property assessment, tax collection and general administrative services.

The financial statements of Sandoval County (the "County") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of the County's accounting policies are described below.

A. Financial Reporting Entity

GASB Statement No. 14, *The Financial Reporting Entity*, established criteria for determining the government reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the County is considered a *primary government*, since it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. As used in GASB Statement No. 14, fiscally independent means that the County may, without the approval or consent of another government entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. The County also has no *component units*, as defined by GASB Statement No. 14 and/or GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, as there are no other legally separate organizations for which the elected County Commissioners are financial accountable. There are no other primary governments with which the County has a significant relationship.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities and changes in net position) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

GASB No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, and GASB No. 65, Items Previously Reported as Assets and Liabilities, amend GASB No. 34, Basic Financial Statements – and Management's Discussion and Analysis for State and Local Governments, to incorporate deferred outflows of resources and deferred inflows of resources in the financial reporting model: Assets plus deferred outflows of resources, less liabilities, less deferred inflows of resources, equals net position.

Deferred outflows of resources – a consumption of net position by the government that is applicable to a future reporting period. It has a positive effect on net position, similar to assets.

Deferred inflows of resources – an acquisition of net position by the government that is applicable to a future reporting period. It has a negative effect on net position, similar to liabilities.

Net position – the residual of the net effects of assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The County's net position is reported in three parts – net investment in capital assets, restricted, and unrestricted.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Ad valorem taxes (property taxes), franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Sales and use taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place and the revenues are measurable and available. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met and the susceptible to accrual criteria have been met.

Agency funds are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. These funds are used to account for assets that the District holds for others in an agency capacity.

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Governmental funds are used to account for the County's general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets and the servicing of general long-term debt. Governmental funds include:

The General Fund is the primary operating fund of the County, and accounts for all financial resources, except those required to be accounted for in other funds.

Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Debt Service Funds account for the services of general long-term debt not being financed by proprietary or nonexpendable trust funds.

Capital Projects Funds account for the acquisition of fixed assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds.

Under the requirements of GASB No. 34, the County is required to present certain of its governmental funds as major based upon certain criteria. The major funds presented in the fund financial statements include the following (in addition to the General Fund), which includes funds that were not required to be presented as major but were at the discretion of management:

Detention Special Revenue Fund is used to account for funds used for the operation and maintenance of the County's correction facilities. Funding is provided by prisoner care fees received from the State Administration Office of Courts, U.S. Bureau of Prisons and U.S. Marshall's Office. This fund was created under the authorization of 33-3-25 NMSA.

Debt Service Fund accounts for the services of general long-term debt of the County.

General Obligation (G.O.) Bond Debt Service Fund accounts for the services of general long-term debt associated with debt whose pledged revenue source is supported by property taxes.

The County reports the following major proprietary funds:

Solid Waste Enterprise Fund accounts for the activities of the County's wastewater and landfill operations.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. Operating revenues, such as charges for services, result from exchange transactions associated with the principal activities of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and non-operating expenses. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Additionally, the government reports the following fund types:

The *fiduciary funds* are purely custodial (assets equal liabilities) and do not involve measurement of results of operations. The County's fiduciary funds are used to account for the collection and payment of property taxes and special fees to other governmental agencies.

Private-sector standards of accounting and financial reporting issued prior to November 30, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes, because elimination of these charges would distort the direct costs and program revenues reported in the Statement of Activities.

Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the County's taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the County's general revenues. Program revenues are categorized as (a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, (b) program-specific operating grants, which includes revenues received from federal and state sources to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues to be used for capital projects. Internally dedicated resources are reported as *general revenues* rather than as program revenues. General revenues include all taxes and other items not properly included among program revenues.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

The County reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. The County does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and is included in the direct expense of each function, except for that portion of depreciation that is identified as unallocated on the Statement of Activities. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Assets, Liabilities and Net Position or Equity

Cash and Temporary Investments: The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. State statutes authorize the County to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Investment Pool.

Investments for the County are reported at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties. The State Treasurer's Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

SANDOVAL COUNTY NOTES TO FINANCIAL STATEMENTS JUNE 30, 2013

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (continued)

Receivables and Payables: Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "internal balances". Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded when levied.

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. Property taxes uncollected after November 10th and April 10th are considered delinquent and the County may assess penalties and interest. The taxes attach as an enforceable lien on property thirty (30) days thereafter, at which time they become delinquent.

Certain Special Revenue Funds are administered on a reimbursement method of funding; other funds are operated on a cash advance method of funding. The funds incurred the cost and submitted the necessary request for reimbursement or advance, respectively.

Prepaid Items: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and proprietary financial statements.

Capital Assets: Capital assets, which include property, plant, and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets, (retroactive to 1979) are to be included as part of the governmental capital assets reported in the government wide statements. Information technology equipment, including software, is being capitalized and included in furniture and equipment as the County did not maintain internally developed software. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects as they are constructed. No interest was included as part of the cost of capital assets under construction during the year ended June 30, 2013.

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	Years
Infrastructure	30-50
Permanent Buildings	45
Portable Buildings	25
Land Improvements	20
Vehicles	6
Computer equipment	5
Other furniture and equipment	5-20

JUNE 30, 2013

NOTE 1. **Summary of Significant Accounting Policies (continued)**

D. Assets, Liabilities and Net Position or Equity (continued)

> **Deferred Revenues:** The County recognizes grant revenue at the time the eligibility restrictions have been met. Such restrictions include 1) the agency should have the characteristics specified by the provider, 2) the time requirements specified by the enabling legislation or provider have been met, 3) if applicable, the provider offers the resources on a reimbursement basis and the recipient has incurred allowable costs under the program and 4) the provider's contingencies have been met. Amounts received and not meeting such restrictions in the Special Revenue Funds are shown as deferred revenues.

> Amounts receivable from the property taxes levied for the current year that are not considered to be "available" under the current financial resources measurement focus are reported as deferred revenues in the governmental fund financial statements.

> **Compensated Absences:** Oualified employees are entitled to accumulate annual leave of ten to twenty days per year according to a graduated leave schedule, depending on length of service. Employees may accumulate up to eighty hours (ten days) of annual leave and carry that leave forward from calendar year to calendar year. Upon termination, employees will be paid for up to eighty hours (ten days) of accrued annual leave.

> Qualified employees are entitled to accumulate sick leave at a rate of thirteen days per year. Sick leave can be carried over from year to year up to four hundred eighty hours (sixty days). Any sick leave accumulated in excess of four hundred eighty hours may be "sold back" to the County in June of every year at the rate of \$0.65 on the dollar.

> Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net position.

> Long-term Obligations: In the government-wide fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method.

> For fund financial reporting, bond premiums, discounts as well as issuance costs, are recognized in the period the bonds are issued. Bond proceeds are reported as another financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

> Fund Equity: Governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The detail of the County's fund balances is presented in Note 18.

> In the government-wide financial statements, fund equity is classified as net position and is displayed in three components:

Net Investment in Capital Assets: Consists of capital assets including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (continued)

Restricted: Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation. Descriptions for the related restrictions for net position are restricted for "debt service or capital projects."

Unrestricted: All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

The Government-wide Statement of Net Position reports \$31,910,046 of restricted net assets of which \$14,265,750 is restricted by enabling legislation. The County's policy is to apply restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available

Interfund Transactions: Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates affecting the County's financial statements include management's estimate of the useful lives of capital assets and the landfill closure and post-closure care costs.

NOTE 2. Stewardship, Compliance and Accountability

Budgetary Information

Annual budgets of the County are prepared prior to June 1 and must be approved by resolution of the Board of County Commissioners, and submitted to the Department of Finance and Administration for State approval. Once the budget has been formally approved, any amendments must also be approved by the County Commissioners and the State of New Mexico Department of Finance and Administration. A separate budget is prepared for each fund. Line items within each budget may be over-expended; however, it is not legally permissible to over-expend any budget in total.

These budgets are prepared on the cash basis of accounting (not GAAP), excluding encumbrances and appropriation of funds are secured for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year. The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds.

JUNE 30, 2013

NOTE 2. Stewardship, Compliance and Accountability (continued)

Budgetary Information (continued)

For the year ended June 30, 2013, budgets relating to Capital Projects Funds were not submitted for approval to the State of New Mexico Department of Finance with the General Fund, Special Revenue Funds and Debt Service Funds. Presentation of budget information relating to these funds has therefore been excluded from these financial statements.

The County is required to balance its budgets each year. Accordingly, amounts that are excess or deficient are presented as changes in cash designated for expenditures, not as an excess or deficiency of revenues over expenditures. The County's legal level of control is at the expenditure function level.

The accompanying Statements of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual presents comparisons of the legally adopted budgets with actual data on a budgetary basis (i.e., cash basis).

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis, perspective, equity and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2013 is presented.

NOTE 3. Cash and Temporary Investments

State statutes authorize the investment of County funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pools, money market accounts, and United States Government obligations. According to 6-6-19 D (2) NMSA 1978, the County's permanent funds may be invested in fixed-income securities or debt instruments that are listed in a nationally recognized, broad-market, fixed-income-securities market index. All invested funds of the County properly followed State investment requirements as of June 30, 2013.

Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the County. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

The collateral pledged is listed on Schedule III of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency, district or political subdivision of the State of New Mexico.

According to the Federal Deposit Insurance Corporation, public unit deposits are funds owned by the public unit. Time deposits, savings deposits and interest bearing NOW accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution.

Deposits

NM State Statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the County for a least one half of the amount on deposit with the institution. The schedule listed below will meet the State of New Mexico, Office of the State Auditor's requirements in reporting the insured portion of the deposits.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk, other than following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). At June 30, 2013, \$1,088,220 of the County's bank balance of \$2,335,281 was exposed to custodial credit risk because it was uninsured uncollateralized at year end.

Investments

As of June 30, 2013, the County had the following investments and maturities:

NOTE 3. Cash and Temporary Investments - (Continued)

Interest rate risk - Investments. As a means of limiting its exposure to fair value losses arising from increasing interest rates, the County's investment policy limits the maturity of securities purchased for an account to eight years, except in certain circumstances.

Credit quality risk - Investments. The County's Investment Policy limits investments to those securities authorized by the laws of the State of New Mexico. As of June 30, 2013, the County's investments in Federal National Mortgage Association and Federal Home Loan Mortgage Corp were rated AAA by Moody's Investors Service and S&P. The County's investments in Mutual funds at June 30, 2013 are unrated.

Concentration of Credit risk - Investments. The County places no limit on the amount the County may invest in any one issuer. More than five percent of the County's investments are in Federal National Mortgage Association (5.33%).

Statutes require collateral pledged for repurchase agreements in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the County for at least one hundred and two percent of the amount on deposit with the institution. The schedule listed below discloses requirements on reporting the insured portion of the County's repurchase agreements.

Custodial credit risk - Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the County's \$46,885,892 investment in repurchase agreements, none is exposed to custodial credit risk as the underlying securities are held by the investment's counterparty in the name of the County. The County's policy related to investments is to comply with the state statute as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978).

<u>Compensated Absences</u> – Employees of the County are able to accrue a limited amount of vacation and other compensatory time during the year. During fiscal year June 30, 2013, compensated absences increased \$155,188 over the prior year. Additional information on compensated absences can be found in Note 1.

NOTE 8. Deferred Revenue

In accordance with the terms of the various grant agreements within the Special Revenue Funds, revenues received in excess of expenditures carry over to subsequent years, unless such excess revenues are requested to be returned to the grantor. At year-end, the County did not have any unused grant awards.

The deferred revenue balance in the General Fund and G.O. Debt Service Fund totaling \$1,459,804 and \$737,776, respectively, consisted of fiscal year 2013 Payments in Lieu of Taxes received from the Bureau of Land Management before June 30, 2013.

NOTE 9. Risk Management

The County is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries and natural disasters. Sandoval County is a member and is insured through the New Mexico County Insurance Authority. The Authority was created to provide comprehensive core insurance programs by expanding the pool of subscribers to maximize cost containment opportunities for required insurance coverage. The Authority acts as the common carrier for the State of New Mexico counties. The County pays an annual premium to the Authority based on claim experience and the status of the pool. The Risk Management Program includes Workers Compensation, General and Automobile Liability, Automobile Physical Damage, and Property and Crime coverage. The County is not liable for more than the premiums paid.

NOTE 11. PERA Pension Plan

Plan Description. Substantially all of the County's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding Policy. As of June 30, 2013, plan members are required to contribute 9.15% for municipal employees, 16.20% for fire protection employees and 16.30% of gross salaries for law enforcement employees. The County is required to contribute 9.15% for municipal plan members, 21.25% for fire protection plan members and 18.50% for law enforcement employees. The contribution requirements of plan members and Sandoval County are established under Chapter 10, Article 11 NMSA 1978. The requirements may be amended by acts of the legislature. The County's contributions to PERA for the years ended June 30, 2013, 2012 and 2011 were \$2,383,332, \$2,042,098, and \$1,943,686 respectively.

NOTE 12. Post-Employment Benefits – State Retiree Health Care Plan

Plan Description. Sandoval County contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the employer and employee contributions can be changed by the New Mexico State Legislature. Employers that choose to become participating employers after January 1, 1998, are required to make contributions to the RHCA fund in the amount determined to be appropriate by the board.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. For employees that were members of an enhanced retirement plan (state police and adult correctional officer member coverage plan 1; municipal police member coverage plans 3, 4 or 5; municipal fire member coverage plan 3, 4 or 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act) during the fiscal year ended June 30, 2013, the statute required each participating employer to contribute 2.5% of each participating employee's annual salary; and each participating employee was required to contribute 1.25% of their salary. For employees that were not members of an enhanced retirement plan during the fiscal year ended June 30, 2013, the statute required each participating employer to contribute 2.0% of each participating employee's annual salary; each participating employee was required to contribute 1.0% of their salary. In addition, pursuant to Section 10-7C-15(G) NMSA 1978, at the first session of the Legislature following July 1, 2013, the legislature shall review and adjust the distributions pursuant to Section 7-1-6.1 NMSA 1978 and the employer and employee contributions to the authority in order to ensure the actuarial soundness of the benefits provided under the Retiree Health Care Act.

The County's contributions to the RHCA for the years ended June 30, 2013, 2012, and 2011 were \$339,140, \$337,725, and \$284,149, respectively, which equal the required contributions for each year.

STATE OF NEW MEXICO SANDOVAL COUNTY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2013

NOTE 13. Closure and Postclosure Care Costs

The County has an active landfill, located on County land, available for solid waste disposal. A portion of the total estimated current cost of the closure and postclosure care is to be recognized in each period the landfill accepts solid waste. The operations of the landfill are accounted for in a proprietary fund. The measurement and recognition of the liability for closure and postclosure care are based on total estimated current cost and landfill usage to date.

State and federal laws and regulations require that the County place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. In addition to operating expenses related to current activities on the landfill, an expense provision and related liability are being recognized based on the future closure and postclosure care costs that will be incurred near or after the date the landfill no longer accepts waste. The recognition of these landfill closure and postclosure care costs has a balance of \$4,014,000 as of June 30, 2013, which is based on 100% usage (filled) of the landfill. The estimated total current cost of the landfill closure and postclosure care (\$4,014,000) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor and maintain the landfill were acquired as of June 30, 2013. However, the actual cost of closure and postclosure care may be higher due to inflation, changes in technology or changes in landfill laws and regulations.

The County is required by state and federal laws and regulations to make annual contributions to finance closure and postclosure care. The County is in compliance with these requirements, and at June 30, 2013, the County has set aside \$4,014,000 for these purposes. The County expects that future inflation costs will be paid from the interest earnings on these annual contributions. However, if earnings are inadequate or additional postclosure care requirements are determined (due to changes in technology or applicable laws and regulation, for example), these costs may be covered from future tax revenues.

NOTE 14. Reserved Fund Balance

The County has created a reserve for debt service to segregate a portion of the fund balance for both principal and interest payments of debt service. The reservation satisfies restrictions imposed by the County's various bond agreements.

NOTE 15. Joint Powers Agreement

The Village of San Ysidro and Sandoval County are in agreement to provide certain services, including fire suppression, rescue services and emergency medical services to the Village by the County. The responsible party is the County. The agreement effective date was May 23, 2001 and is in effect until terminated either by the Village or the County. The total fees to the Village are contingent on the amount of services provided during the year.

The County of Sandoval and Bernalillo County are in agreement to provide for the operations of the Juvenile jail. The effective date of the agreement is July 1, 2009 with a termination upon notice by either party. The total estimated amount of the project and portion applicable to the County is contingent upon the level of use of the facility. The Counties of Bernalillo and Sandoval share the cost of the facility.

The City of Rio Rancho, Village of Corrales and Sandoval County are in agreement to establish a Sandoval County Regional Emergency Communications Center (SCRECC) in order to improve emergency communications among public safety agencies. The responsible party is the City of Rio Rancho. The agreement was effective as of July 1, 2003 and will remain in effect indefinitely until terminated. The City acts as the Fiscal Agent and collects revenues, makes disbursements and is responsible for financial reports. The total paid in fiscal year 2013 was \$1,064,618.

NOTE 16. Contingent Liabilities

The County is party to various claims and lawsuits arising in the normal course of business. The County is insured through the New Mexico County Insurance Authority. In the opinion of management, the outcome of these matters will not have a material effect on the financial position of the County.

STATE OF NEW MEXICO SANDOVAL COUNTY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2013

NOTE 17. Federal and State Grants

In the normal course of operations, the County receives grant funds from various federal and state agencies. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

NOTE 18. Basis of Presentation of Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Sandoval County and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the governmental fund financial statements.

NOTE 19. Subsequent Accounting Standard Pronouncements

In June 2011, the GASB issued Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, which is effective for financial statement for periods beginning after December 15, 2011. The objective of this Statement is to provide guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. While these elements were introduced and defined by Concepts Statement No. 4, Elements of Financial Statements, as a consumption and acquisition of net position by the government that is applicable to a future reporting period, respectively, these elements have not been included in previous reporting guidance.

In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which is effective for financial statement for periods beginning after December 15, 2012. The Commission has decided to implement this Statement early. The objective of this Statement is to either (a) properly classify certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or (b) recognize certain items that were previously reported as assets and liabilities as assets and liabilities as outflows of resources (expenses or expenditures) or inflows of resources (revenues). These determinations are based on the definitions of those elements in Concepts Statement No. 4, *Elements of Financial Statements*.

NOTE 20. Governmental Fund Balances

Fund Balances: In the fund financial statements, governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Some governments may not have policies or procedures that are comparable to those policies that underlie the classifications and therefore would not report amounts in all possible fund balance classifications.

In the governmental financial statements, fund balance is classified and is displayed in five components:

Nonspendable: Consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted: Consists of amounts that are restricted to specific purposes as a result of a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed: Consist of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action (for example, legislation, resolution, ordinance) it employed to previously commit those amounts.

SANDOVAL COUNTY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2013

NOTE 20. Governmental Fund Balances (continued)

Assigned: Consist of amounts that are constrained by the government's *intent* to be used for specific purposes, but are neither restricted nor committed. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

Unassigned: Represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

Detail relating to the fund balance classifications is displayed below:

NOTE 21. Prior Period Adjustment

A prior period adjustment in the amount of \$58,833 was made to the Statement of Activities to implement GASB Statement No. 63 (see Note 19), a change in accounting principle. In prior years, costs associated with the issuance of debt were amortized over the life of the bonds. However, GASB No. 63 changed the way these costs were reported. Under this new standard, these types of costs will be expensed in the year the debt is issued. In order to implement this standard, the County had to remove unamortized bond issue costs, net, in the amount of \$887,758 (costs of \$1,582,455 and accumulated amortization of \$694,697), unamortized bond premiums, net, in the amount of \$1,255,429 (premiums of \$3,521,803 and accumulated amortization of \$2,266,374), and unamortized bond discounts of \$309,238 (discounts of \$633,285 and accumulated amortization of \$324,047), which pertain to long-term debt issued in prior years. In addition, long-term debt was also adjusted by \$229,120 because a bond had been reported twice in the prior year.

The County completed a software conversion and noted that capital assets needed to be adjusted by \$27,243,593 in order to balance to inventory records. This is a change in estimate. For further details, see Note 6.

CAPITAL PROJECT FUNDS

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The County has separate funds classified as Capital Projects Funds as follows:

<u>1999 Refund Bond</u> – To account for resources used for the purposes of purchasing land or improving grounds and for constructing, remodeling, making additions to, and furnishing and equipping buildings. Financing is provided primarily from the sale of bonds.

<u>1999 Infrastructure Bond</u> – To account for resources used for the purposes of reconstructing, resurfacing, maintaining, repairing or otherwise improve existing alleys, streets, roads or bridges, or lay off, open, construct, or otherwise acquire new alleys, streets, roads or bridges or any combination of the foregoing within the County. Financing is provided primarily from the sale of bonds.

2000 Placitas Acquisition Bond – To account for resources used for the purposes of improvement of roads within the Placitas Homesteads Subdivision Improvement District. Financing is provided primarily from the sale of bonds.

<u>2003 Detention Bond Fund</u> - To account for resources used for the purchase, construction and acquisition of a Detention Center for the County. Financing is provided primarily from the sale of a bond.

2002 Landfill Revenue Bond – To account for resources used for the purposes of refunding certain County bonds as well as constructing, purchasing, equipping and furnishing and otherwise improving public buildings, parking lots and related facilities and infrastructure within the County. Financing is provided primarily from the sale of bonds.

2003 Landfill Refunding Bond – To account for resources used for the purposes of refunding certain County bonds as well as constructing, purchasing, equipping and furnishing and otherwise improving public buildings, parking lots and related facilities and infrastructure within the County. Financing is provided primarily from the sale of bonds.

2004 Incentive Revenue Bonds – To account for resources used for the purchase, construction, maintenance and acquisition of public buildings, county fair facilities, public school facilities, alleys, streets, roads, bridges, public parks, public recreational and entertainment buildings, environmental projects, communication systems, storm and sanitary sewers, sewage treatment plants, water or wastewater facilities, public transit systems, etc.

2005 Incentive Revenue Bond – To account for bond proceeds and interest earned from issuance of the 2005 Incentive Revenue Bond.

2007 PILT Revenue Bond – To account for proceeds received from the PILT Revenue Bond, Series 2007. The project fund has been established for land acquisition, construction, and improvement of public buildings and other public works. Projects include, but are not limited to, buildings, grounds, streets, roads, bridges, rights of way, public parks, recreational facilities, storm and drainage systems, sewage treatment facilities, public transit, and communication systems.

2008 Infrastructure Bond – Refunding and Improvement Revenue Bonds, Series 2008, which were used to refund the County's outstanding Infrastructure Gross Receipts Tax Revenue Bonds 1999 for the purpose of reconstructing, resurfacing, maintaining, repairing or otherwise improving existing alleys, streets, roads or bridges.

2010 GRT Refunding & Equipment Bond – To account for the resources used for purpose of refunding the prior year bond and the acquisition of capital equipment.

2010 AMI-Kids Project Bond - To account for the bond proceeds used in the construction of the AMI-Kids complex in Cuba.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

Hector Balderas, New Mexico State Auditor The Office of Management and Budget The Board of Sandoval County Commissioners Sandoval County Bernalillo, New Mexico

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons of the general fund and major special revenue funds, of Sandoval County, New Mexico (the County) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and the combining and individual funds and related budgetary comparisons of the County, presented as supplementary information, and have issued our report thereon dated January 27, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs, which we consider to be significant deficiencies as items FS 06-01, FS 12-01, and FS 13-01.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items FS 06-01, FS 12-01, and FS 13-01.

The County's Responses to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB CIRCULAR A-133

INDEPENDENT AUDITOR'S REPORT

Hector H. Balderas, New Mexico State Auditor The Office of Management and Budget To the Board of Sandoval County Commissioners Sandoval County Bernalillo, New Mexico

Report on Compliance for Each Major Federal Program

We have audited Sandoval County, New Mexico (the County), compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2013. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, is-sued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control over Compliance

Management of Sandoval County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

SANDOVAL COUNTY

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2013

Section II - FINANCIAL STATEMENT FINDINGS

<u>FS 06-01 — Pledged Collateral – Cash Equivalents and Deposits - Significant Deficiency – Other Matter-Repeated</u>

Condition: During the year ended June 30, 2013, the County maintained and utilized deposits with financial institutions which were not covered by 50% of pledged collateral as required by State of New Mexico Statutes.

Criteria: Cash equivalents and deposits must be covered by 50% of pledged collateral in accordance with NMSA 1978 Section 6-10-8.

Cause: The County maintains money market funds with LPL Financial Services, the County's money manager. The funds are covered by SIPC, however, the County has not maintained the 50% pledged collateral requirement relating to these funds as they represent cash held within the County's investment portfolio.

Effect: The County has money market funds that are not covered by FDIC. Lack of proper collateralization may result in non-compliance with state statutes and increase potential liability and exposure to the loss of the County's public funds in the event of bank closure.

Auditors' Recommendations: The County should ensure all cash balances are collateralized as required by State Statutes.

Management's Response: The County contends that these funds are insured through the broker's SIPC Insurance for up \$100,000 in cash, and up to \$500,000 per customer. Furthermore, the County's broker provides excess SIPC Insurance with firm coverage limits of \$50 million in the aggregate and \$99.5 million per customer. As of June 30, 2012, the SIPC coverage remained well in excess of the County's entire cash balance with LPL Financial Services.

The County's investment fund may hold cash from time to time as a result of normal business activity. Particularly during quarterly distributions, these cash balances include funds in transit, residual amounts from investment maturities, and principal amounts in cycle for reinvestment. To the extent possible, the county will continue to keep these cash balances to a minimum.

FS 12-01 – Disbursements – Significant Deficiency- Other Matter - Repeated

Condition: It is the County's policy and procedure to obtain approved purchase requisitions and purchase orders before the purchase of goods or services are made and all purchase orders and requisitions must be approved by authorized personnel. We observed the following:

• One (invoices totaling \$552.96) out of twenty-five randomly selected disbursements tested had the purchase order issued after the invoice date.

Criteria: According to NMSA 1978 Section 6-6-3, the County is expected to conform to the rules and regulations that they have adopted relating to internal controls.

Effect: The lack of enforcing the County's policies and procedures may result in the unauthorized purchase of goods and/or services.

Cause: Policies and Procedures that the County has adopted for cash disbursement transactions are not always being enforced for purchases and/or services rendered.

Auditor Recommendation: The County must enforce policies and procedures that are set in place for the purchase of goods and/or services.

SANDOVAL COUNTY

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2013

Section II – FINANCIAL STATEMENT FINDINGS (Continued)

Management's Response: Sandoval County has updated its procurement policy, and has now included a procurement violations section. An audit of every invoice is now being conducted through the Finance Department prior to any processing of payments. Departments have been trained and informed of the consequences that will occur if any invoice is submitted with a Purchase Order dated after the purchase date or no purchase order at all.

FS 13-01 Late Audit Report - Significant Deficiency - Other Matter

Criteria: Local public body audits, which includes Counties, are to be submitted to the State Auditor by November 15th as required by NMAC 2.2.2.9(1)(e).

Condition: The audit report was submitted to the State Auditor after the required deadline of November 15, 2013.

Effect: The users of the financial statements such as legislators, creditors, bondholders, state and federal grantors, etc., do not have timely audit reports and financial statements for their review. Late audit reports could have an effect on state and federal funding.

Cause: The County did not provide the auditors with property tax information including the ten year schedule until November 13, 2013. The County did not provide all items needed for capital assets until January 27, 2014. Time was needed to process the information and prepare the financial statements.

Auditor's Recommendation: The County should ensure that accounts and properly reconciled and ready for audit so that the audit can be completed and filed on a timely basis.

Management Response: Unfortunately the issues that arose were not brought to Managements attention until November 14, 2013. Sandoval County accepts the responsibility and moving forward will insure that the upcoming audits will include required deliverables with a mandatory bi-weekly progress report submitted to the County Manager. By implementing the above, we hope to establish an open line of communication that will negate another late audit.
