INDEPENDENT AUDITOR'S REPORT

The Board of County Commissioners
State of New Mexico, Sandoval County and
Mr. Brian Colón, State Auditor
State of New Mexico, Office of the State Auditor

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and the major special revenue fund of Sandoval County (the County), as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2019, and the respective changes in financial position and where applicable, cash flows thereof and the respective budgetary comparisons for the general fund and major special revenue fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 18 to the financial statements, the 2019 financial statements have been restated due to a change in accounting principle in which a governmental fund changed to a proprietary fund and a fiduciary fund was consolidated into the General Fund. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Accounting principles generally accepted in the United States of America require that the Schedules related to PERA, Net Pension Liabilities, OPEB, and Net OPEB Liabilities, listed as "Required Supplementary Information" in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements, that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and the schedule of changes in the fiduciary assets and liabilities-agency funds, as listed in the table of contents, as supplementary information, are presented for purposes of additional analysis and are not required part of the basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and are not required part of the basic financial statements. The other schedules, as required by 2.2.2 NMAC, as listed as other supplementary information in the table of contents, are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The statements and schedules, listed as supplementary and other supplementary information in the table of contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information

has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statements and schedules were fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 6, 2019 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Amount reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental funds	\$	13,506,863
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.</p>		
Capital expenditures recorded in capital outlay		9,538,123
<p>Depreciation expense on capital assets, excluding internal service fleet fund, is reported in the government-wide statement of activities and changes in net position, but they do not require the use of current financial resources. Therefore depreciation expense is not reported as expenditure in governmental funds.</p>		
		(6,525,005)
Addition of capital asset from business-type fund		464,687
Capital asset accumulated depreciation adjustment		19,641
<p>The issuance of long-term debt (e.g. bonds, notes, capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities.</p>

**STATE OF NEW MEXICO
SANDOVAL COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Sandoval County (the County) is a political sub-division of the State of New Mexico established and regulated by the constitution of the State of New Mexico. The County operates under a commission-manager form of government and provides the following services as authorized by public law: public safety (sheriff, fire, emergency medical, etc.), roads, health and welfare (social services), culture and recreation, sanitation, planning and zoning, property assessment, tax collection and general administrative services.

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

The County's most significant accounting policies are described below.

A. Reporting Entity

In evaluating how to define the County, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB No. 14 and No. 61. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity. Based upon the application of these criteria, there were no component units identified as needing to be disclosed or presented as part of the reporting entity.

B. Basis of Presentation

Government-Wide Statements – The Statement of Net Position and the Statement of Activities display information about the government (the County). These statements include the financial activities of the overall government, except for fiduciary activities.

The statements also distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

**STATE OF NEW MEXICO
SANDOVAL COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019**

The Statement of Activities presents a comparison between direct expenses and program revenues for the different business type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements – The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category (governmental, proprietary, and fiduciary) are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The County reports the *General Fund* as a major governmental fund. This is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

In addition, the County reports the following other major funds:

Governmental funds

- *Detention Fund* (2090, 2350, 8140, & 8142) (Special Revenue Fund) is used to account for funds used for the operation and maintenance of the County's correction facilities. Funding is provided by prisoner care fees received from the State Administration Office of Courts, U.S. Bureau of Prisons and U.S. Marshall's Office. This fund was created under the authorization of 33-3-25 NMSA.
- *Debt Service Fund* (Debt Service Fund) accounts for the County's accumulation of resources for, and the payment of governmental fund debt principal and interest.

Proprietary funds

- *Solid Waste Fund* (2050 & 2060) (Enterprise Fund) accounts for the activities of the County's wastewater and landfill operations.
- *El Zocalo Fund* (6020) (Enterprise Fund) accounts for the operation and management or rentals at the El Zocalo building.

The County also reports the following fund types:

- *Fiduciary Funds* (Agency Funds) account for monies held by the County in a custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

C. Measurement Focus and Basis of Accounting

Government-Wide, Propriety, and Fiduciary Fund Financial Statements – The government-wide, propriety, and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide and propriety fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenues in the year for which they are billed net of estimated refunds and uncollectible amounts.

Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, gross receipts taxes, motor vehicle taxes, licenses, grants, entitlements, and donations associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Derived gross receipts tax revenue is recognized when the underlying exchange transaction takes place. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property taxes, sales taxes, franchise taxes, licenses, and interest are considered to be susceptible to accrual. Revenue from derived taxes (sales taxes, gas taxes, and motor vehicle taxes) is recognized when the underlying transaction takes place (when the retail sale is generated). Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. Cash Equivalents

The County pools idle cash from all funds for the purpose of increasing income through investment activities. A "Pooled Cash" concept is used in maintaining the cash and investment accounts in the accounting records. Under this method, all cash is pooled for investment purposes and each fund has equity in the pooled amount. All amounts included in pooled cash and investments are considered to be cash equivalents for the purposes of the statement of cash flows, except for certificates of deposit or other investments that have original maturities of more than 90 days.

E. Investments

The County's investments are regulated by state law as well as by guidelines and rules promulgated by the State Investment Council and the State Treasurer. All investments are generally highly liquid in nature and are integrated with cash on the financial statements with appropriate disclosure. Investments are stated at fair value, which is determined using selected bases. Certificates of deposit are reported at carrying amount, which reasonably estimates fair value. Investments in a U.S. Treasury Fund and repurchase agreements are valued at the last reported sales price at current exchange rates. Additional cash, investment information, and fair values are presented in Note 2.

F. Receivables and Payables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded when levied.

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. Property taxes uncollected after November 10th and April 10th are considered delinquent and the County may assess penalties and interest. The taxes attach as an enforceable lien on property thirty (30) days thereafter, at which time they become delinquent.

Certain Special Revenue Funds are administered on a reimbursement method of funding; other funds are operated on a cash advance method of funding. The funds incurred the cost and submitted the necessary request for reimbursement or advance, respectively.

G. Inventories and Prepaid Items

Inventories in governmental funds consist of expendable supplies held for consumption and are valued at cost using a first-in, first-out (FIFO) method. Expendable supplies are accounted for using the consumption method. Proprietary fund inventories are recorded at the lower of cost or market on a first-in, first-out basis, and consist of operating supplies held for use in operations and are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets, (retroactive to 1979) are included as part of the governmental capital assets reported in the government

wide statements. Information technology equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Asset Type	Years
Land	Perpetuity
Construction in Progress	Perpetuity
Infrastructure	30-50
Permanent Buildings	45
Portable Buildings	25
Land Improvements	20
Vehicles	6
Computer Equipment	5
Other Furniture and Equipment	5-20

I. Unearned Revenue

The County reports unearned revenue on its financial statements. When resources are received in advance of charges for services being earned are in advance of any eligibility requirement other than a time requirement being met for government-mandated or voluntary nonexchange transactions (i.e. for intergovernmental revenues), a liability is reported for the unearned revenue.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and/or the balance sheet for governmental funds will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position/fund balance that applies to a future period and so will not be recognized as an expense or expenditure until then.

The County has the following deferred outflows of resources during fiscal year 2019 on the fund financials:

Deferred Outflows of Resources - Fund Financials	
Pension deferrals	\$ 384,322
OPEB deferrals	126,068
Total deferred inflows of resources	\$ 510,390

The County has the following deferred outflows of resources during fiscal year 2019 on the government wide financials:

Deferred Outflows of Resources - GW	
Pension deferrals	\$ 10,756,983
OPEB deferrals	3,612,359
Total deferred outflows of resources	\$ 14,369,342

funds will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, Deferred Inflows of Resources, represents an acquisition of net position/fund balance that applied to a future period and so will not be recognized until then.

The County has the following deferred inflows of resources during fiscal year 2019 on the fund financials:

<u>Deferred Inflows of Resources - Fund Financials</u>	
Property tax revenue	\$ 1,785,051
Derived tax revenues	4,167,167
Pension deferrals	102,522
OPEB deferrals	198,632
Total deferred inflows of resources	\$ 6,054,740

The County has the following deferred inflows of resources during fiscal year 2019 on the government wide financials:

<u>Deferred Inflows of Resources - GW</u>	
Pension deferrals	\$ 4,098,252
OPEB deferrals	5,737,892
Total deferred inflows of resources	\$ 9,836,144

K. Compensated Absences

Accrued annual leave, sick leave, and compensatory time are the components of accrued compensated absences. Qualified employees are entitled to accumulate annual leave of 10 to 20 days per year according to a graduated leave schedule, depending on length of service. Employees may carry forward up to 80 hours (10 days) of annual leave from calendar year to calendar year. Upon termination, employees will be paid for up to 80 hours (10 days) of accrued annual leave.

The following table details the annual leave accrual rates:

<u>Years of Employment</u>	<u>Accrual Rate (per 80 hr pay period)</u>
1 to 5 years	3.08 hrs
5 to 10 years	4.62 hrs
10 or more years	6.15 hrs

Qualified employees are entitled to accumulate sick leave at a rate of 4 hours a pay period or 13 days per year. Sick leave can be carried over from year to year up to four hundred eighty hours (sixty days). Any sick leave accumulated in excess of 480 hours may be “sold back” to the County in June of every year at the rate of \$0.65 on the dollar.

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net position.

L. Long-term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities,

**STATE OF NEW MEXICO
SANDOVAL COUNTY

business-type activities, or proprietary fund type statement of net position. For bonds issued after GASB 34 was implemented, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. For fund financial reporting, bond premiums, discounts as well as issuance costs, are recognized in the period the bonds are issued. Bond proceeds are reported as another financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

M. Net Position

Equity is classified as net position and displayed in three components on the government-wide financial statements as well as the proprietary fund financial statements:

- *Net investment in capital assets* – Net position invested in capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- *Restricted Net Position* – Consist of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position* – All other net position that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

N. Fund Balance Reporting and Governmental Fund Type Definitions

Beginning with fiscal year 2011, the County implemented GASB Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions.” This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- *Nonspendable* – Amounts not in a spendable form, such as prepaid expenses, inventories, or long-term portion of receivables or property held for resale, if the use of the proceeds from the collection/sale of property held for resale is not otherwise constrained. Nonspendable amounts also include amounts legally or contractually required to remain intact, such as the principal of a permanent fund.
- *Restricted* – Amounts constrained to specific purposes that are externally imposed or imposed by law through constitutional provisions or enabling legislation (such as taxpayers, grantors, bondholders, and higher levels of government).
- *Committed* – Amounts constrained to specific purposes by the governmental entity’s highest level of decision-making authority (the County Commission). To be reported as committed, amounts cannot be used for any other purpose unless the County Commission takes the same highest-level action to remove or change the constraint.
- *Assigned* – Amounts constrained by the County intends to be used for a specific purpose. Intent can be expressed by the governing body (County Commission) or an official or body to which the governing body delegates authority.

**STATE OF NEW MEXICO
SANDOVAL COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019**

- *Unassigned* –Balances available for any purpose. Positive amounts are reported only in the general fund.

The New Mexico Department of Finance and Administration (DFA) requires that 3/12 of the FY2020 budgeted expenditures in the General Fund be restricted as subsequent-year expenditures to provide adequate cash reserves. Additionally, the DFA imposes a County Road Fund Reserve requirement for the County of 1/12 of the FY2020 total Road Fund budgeted expenditures. See the Schedule of Fund Balances, as listed in the table of contents. The County has additional minimum fund balance goals. The DFA required fund balance, along with the County unassigned fund balance (Revenue Stabilization and Operating Reserve), will provide an emergency reserve to address one-time emergencies, provide for unanticipated expenditure requirements, insulate against slower revenue growth than anticipated, and address other unforeseen events.

The County Commission establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). The County assigns 2019 fund balance for 2020 projected budgetary deficit per GASB 54, Par 16.

See the Schedule of Fund Balances, as listed in the table of contents, for additional information about fund balances.

When an expense is incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When an expense is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless County Commission or the finance department has provided otherwise in its commitment or assignment actions.

O. Budgets and Budgetary Accounting

Annual budgets of the County are prepared prior to June 1 and must be approved by resolution of the Board of County Commissioners and submitted to the Department of Finance and Administration for State approval. Once the budget has been formally approved, any amendments must also be approved by the County Commissioners and the State of New Mexico Department of Finance and Administration. A separate budget is prepared for each fund. Line items within each budget may be over-expended; however, it is not legally permissible to over-expend any budget in total.

These budgets are prepared on the cash basis of accounting (not GAAP), excluding encumbrances and appropriation of funds are secured for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year. The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds.

The County is required to balance its budgets each year. Accordingly, amounts that are excess or deficient are presented as changes in cash designated for expenditures, not as an excess or deficiency of revenues over expenditures. The County's legal level of control is at the fund level.

**STATE OF NEW MEXICO
SANDOVAL COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019**

The accompanying Statements of Revenue, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual, for the general fund and major special revenue fund, present comparisons of the legally adopted budget with actual data on a budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) a reconciliation of resultant basis, perspective, equity and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2019 is presented. Reconciliations between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis by fund can be found on each individual budgetary statement.

P. Income Taxes

As a local government entity, the County is not subject to federal or state income taxes.

Q. Interfund Activity

Interfund activity is reported as loans, services provided, reimbursements, or transfers.

Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

R. Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates affecting the County's financial statements include management's estimate of the useful lives of capital assets and the landfill closure and post-closure care costs.

S. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA's. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

T. Postemployment Benefits Other than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA's fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For

this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 – CASH AND INVESTMENTS

The County’s cash balances consist of demand deposits, interest bearing savings accounts, money market accounts and repurchase agreements. The repurchase agreements have varying interest rates and maturity dates. The majority of the County’s cash and investments are pooled. All interest income is accounted for in the related funds. The County’s investments consist of U.S. Government obligations, U.S. Government treasury notes and bond, municipal bonds, and money markets.

See the Schedule of cash, investments, and pledged collateral, as listed in the table of contents, for a list of cash and investments by financial institution.

The following is a summary of the County’s cash and investment balances by fund type as of June 30, 2019:

State regulations require that uninsured demand deposits and deposit-type investments such as certificates of deposit be collateralized by the depository thrift or banking institution. At present, state statutes require that a minimum of fifty percent of uninsured balances on deposit with anyone institution must be collateralized, with higher requirements up to 100% for financially troubled institutions. Investments in repurchase agreements must be collateralized at 102% of the contract. In addition, some

Custodial Credit Risk Deposits - Custodial credit risk is the risk that in the event of a bank failure, the County funds may not be returned. The County is required to obtain from each bank that is a deposit only for public funds pledged collateral in an aggregate amount equal to 50% of the public money in each account. The pledged securities must be in the name of the governmental entity and held by the entity or its agent.

As of June 30, 2019, the County's bank and investment balances of \$57,962,634 were exposed to custodial credit risk as follows:

Uninsured, collateralized with securities held by pledging financial institution's trust department or agent in the County's name.	\$ 55,631,863
Uninsured and uncollateralized	-
Total uninsured deposits	<u>\$ 55,631,863</u>

Custodial Credit Risk Investments - Custodial Credit Risk is the risk that, in the event of failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County's investments are not exposed to custodial credit risk. All are fully collateralized, and the collateral is held in the County's name.

**STATE OF NEW MEXICO
SANDOVAL COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019**

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the County's investment in a single issuer, of more than 5%. The County's investments are diversified to avoid including concentration of credit risk. With the exception of authorized pools, no more than 50% of the total investment portfolio is in one single security type or financial institution.

Credit Risk - The County's investments shall be in accordance with State Law 6-10-10 and 6-10-10.1 NMSA 1978, including but not limited to the following: Treasury Bills, Notes, Bonds, Strips, and US Government securities which are backed by the full faith and credit of the U.S. Government. Negotiable securities of the State of New Mexico or any county, municipality, or school district with the advice and consent of the Board of Finance per 6-10-44 NMSA 1978, 6-10-10 NMSA 1978, 6-10-10 NMSA 1978.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the County investments. The County's investment policy follows New Mexico State Statute Section 6-10-36E (NMSA, 1978 Comp) requiring the interest rate on time deposits shall not be less than the rated fixed by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States Treasury bills of the same maturity on the day of deposit.

Foreign Currency Risk - Deposits and Investments - The County is not exposed to the risk that exchange rates will adversely affect the fair value of an investment as none of the investments pools or certificates of deposit are dominated in a foreign currency.

State Treasurer Local Governmental Investment Pool

As of June 30, 2019, the County has the following invested in the State Treasurer Local Government Investment Pool:

Financial Institution	Fair Value	Risk Rating	Weighted Average Maturity
State of NM Local Government Investment Pool (LGIP) - Indigent (HCAP)	\$ 1,359,400	AAAm	[35] day WAM (R); [112] day WAM (F)
State of NM Local Government Investment Pool (LGIP) - Cash Management	2,495,028		
State of NM Local Government Investment Pool (LGIP) - Economic Development	2,982,845		
Incentive Account	<u>2,982,845</u>		
Total (LGIP)	<u>\$ 6,837,273</u>		

The State Treasurer is authorized to invest the LGIP, with the advice and consent of the State Board of Finance, in accordance with Sections 6-10-10 I through 6-10-10 P and Sections 6-10-10.1A and E, NMSA 1978. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the fund amounts were invested. Participation in the LGIP is voluntary. The LGIP is not SEC registered. This pool is subject to the standards set forth in the State Treasurer's Local Government Investment Policy document incorporated in and made a part of the State Treasurer's Investment Policy document. **STATE OF NEW MEXICO
SANDOVAL COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2019**

Per review of GASB Statement No. 72, the State Treasurer Local Government Investment Pool is exempt from GASB 72 and should continue to be measured and disclosed in accordance with existing literature.

Credit Risk LGIP – With respect to credit risk, the LGIP, is rated AAAM by Standard & Poor's. Therefore, the LGIP reports AAAM for credit risk. Public funds are not required to disclose custodial credit risk for external investment pools. Therefore, the LGIP is exempt from this requirement.

Concentration of Risk – GASB Statement No. 40 defines concentration of credit risk as investments of more than 5% in any one issuer. External investment pools, such as LGIP, are excluded from the requirement of disclosing concentration of credit risk. Therefore, the LGIP is exempt from this disclosure.

Foreign Currency Risk – GASB Statement No. 40 defines foreign currency risk as the potential that changes in the exchange rates may adversely affect the fair value of an investment or deposit. The LGIP does not have any foreign currency risk as all investments are denominated in US dollars.

Interest Rate Risk – GASB Statement No. 40 defines interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the County investments.

According to the Statement an acceptable method for reporting interest rate risk is weighted average of maturity (WAM). The State Treasurer's Office uses this method for reporting purposes for the LGIP. The WAM of the LGIP is identified on the monthly LGIP investment report found on the State Treasurer's Office website at www.nmsto.gov.

NOTE 3—FAIR VALUES MEASUREMENT (GASB 72)

The County holds investments that are measured at fair value on a recurring basis. Because investing is not a core part of the County's mission, the County determines that the disclosures related to these investments only need to be disaggregated by major type. The County chooses a table format for the fair value disclosures.

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. In determining this amount, three valuation techniques are available:

- Market approach: this uses prices generated for identical or similar assets or liabilities. The most common example is an investment in a public security traded in an active exchange such as the NYSE.
- Cost approach: this technique determines the amount required to replace the current asset. This approach may be ideal for valuing donations of capital assets or historical treasures.
- Income approach: this approach converts future amounts (such as cash flows) into a current discounted amount.

Each of these valuation techniques requires inputs to calculate a fair value. Valuation techniques should be applied consistently, though a change may be appropriate in certain circumstances. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

FOR THE YEAR ENDED JUNE 30, 2019**

GASB 72 establishes a hierarchy of inputs to the valuation techniques listed above. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy's three levels are as follows:

Level 1

Inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date. (Examples: equity securities traded on an open market, actively traded mutual funds, and US treasuries)

Level 2

Are significant other observable inputs

- a) Quoted prices for similar assets or liabilities in active markets.
- b) Quoted prices for identical or similar assets or liabilities in markets that are not active.
- c) Inputs other than quoted prices that are observable for the asset or liability, such as:
 1. Interest rates and yield curves observable at commonly quoted intervals,
 2. Implied volatilities, and
 3. Credit spreads.
- d) Market-corroborated inputs.

(Examples: a bond valued using market corroborated inputs such as yield curves, a bond valued using matrix pricing, and an interest rate swap valued using the LIBOR swap rate observed at commonly quoted intervals for the full term of the swap)

Level 3

Are significant unobservable inputs for an asset or liability (Examples: Commercial real estate valued using a forecast of cash flows based on a university's own data and an interest rate swap valued using data that is neither directly observable nor corroborated by observable market data)

See Note 2 for the County's recurring fair value measurements as of June 30, 2019.

NOTE 5 – PROPERTY TAXES

Property taxes attach as an unsubordinated enforceable lien on property as of January 1 of the assessment year. Current year taxes are levied within five days of the rate setting order received from New Mexico Department of Finance and Administration (7-38-32 thru 7-38-36). Tax bills are mailed by November 1, unless the Sandoval County Assessor obtains a formal extension of time from the New Mexico Property Tax Division. Taxpayers have the option to pay in two equal installments due by the close of business November 10th and April 10th. Penalty and interest will be accrued after the delinquency due dates of December 10th and May 10th. In the event of a formal extension, the respective dates are correspondingly extended.

The County bills and collects its own taxes, as well as taxes for the State of New Mexico, city governments, Water Systems, Flood Districts and other entities. In tax year 2019, the County charged the following mil rates:

<u>Tax District</u>	<u>Residential</u>	<u>Non- residential</u>	<u>Oil & Gas Production</u>	<u>Equipment</u>

94 (Rio Rancho-Out)	0.025087	0.029417		

The County’s share of the property taxes equal approximately 21.92% of the total property taxes levied and is used for general governmental services and retirement of long-term debt. The statutory maximum rate for servicing long-term debt with property tax revenue is unlimited, although the total amount of outstanding debt at any one time is restricted by other factors.

The County is required to report all real property delinquencies in excess of three years to the New Mexico Property Tax Division. The State, in turn administers all subsequent collection actions and proceedings.

NOTE 11 – PENSION PLAN AND POST EMPLOYMENT BENEFITS

General Information about the Pension Plan

Plan description. *Public Employees Retirement Fund* is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA

1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

Benefits provided. Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

TIER II. The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credit equals at least 85 or at age 67 with 8 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II pension factors were reduced by .5%, employee Contribution increased 1.5 percent and effective July 1, 2014 employer contributions were raised .05%. The computation of final average salary increased as the average of salary for 60 consecutive months.

Contributions. See PERA's publicly available financial report and comprehensive annual financial report obtained at <http://saonm.org/> using the Audit Report Search function for agency 366, for the employer and employee contribution rates in effect for fiscal year 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions; At June 30, 2019, the County reported a liability of \$61,321,818 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2018 using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date of June 30, 2018. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2018. The County's proportion of the net pension liability was based on a projection of the County long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2018, the County's proportion was 1.3410%, which was a decrease of 0.0654% from its proportion measured as of June 30, 2017.

Actuarial assumptions. The total pension liability in the June 30, 2018 actuarial valuation was determined using the following significant actuarial assumptions, applied to all periods included in the measurement:

Actuarial valuation date	June 30, 2017
Actuarial cost method	Entry Age Normal
Amortization method	Level Percent of Pay
Amortization period	Solved for based on statutory rates
Asset valuation method	
Actuarial assumptions	
Investment rate of return	7.25% annual rate, net of investment expense
Projected benefit payment	100 years
Payroll growth	3.00%
Projected salary increases	2.75% to 13.50% annual rate
Includes inflation at	2.50%
	2.75% all other years
Mortality assumption	The mortality assumptions are based on the RPH-2014 Blue Collar mortality table with female ages set forward one year. Future improvement in mortality rates is assumed using 60% of the MP-2017 projection scale generationally. For non-public safety groups, 25% of in-service deaths are assumed to be duty related and 35% are assumed to be duty-related for public safety groups.
Experience study dates	July 1, 2008 to June 30, 2017 (demographic) and July 1, 2010 through June 30, 2018 (economic)

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2018. These assumptions were adopted by the Board use in the June 30, 2017 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>All Funds - Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	43.50%	7.48%
Risk Reduction & Mitigation	21.50%	2.37%
Credit Oriented Fixed Income	15.00%	5.47%
Real Assets to include Real Estate Equity	20.00%	6.48%
Total	<u>100.00%</u>	

Discount rate. A single discount rate of 7.25% was used to measure the total pension liability as of June 30, 2018. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.25%, compounded annually, net of expense. Based on the stated assumptions and the

projection of cash flows, the plan’s fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

Sensitivity of the County’s proportionate share of the net pension liability to changes in the discount rate. The following presents the County’s proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the employer name’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

PERA Fund Division	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Municipal General Division	\$ 38,891,422	25,238,879	13,952,869
Municipal Police Division	\$ 13,002,595	8,456,480	4,750,318

NOTE 12—POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN

A—Plan Description

The County contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (NMRHCA). The NMRHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents.

The NMRHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

NOTE 13 — OPEB

General Information about the OPEB

Plan description. Employees of the County are provided with OPEB through the Retiree Health Care Fund (the Fund)—a cost-sharing multiple-employer defined benefit OPEB plan administered by the New Mexico Retiree Health Care Authority (NMRHCA). NMRHCA was formed February 13, 1990, under the New Mexico Retiree Health Care Act (the Act) of New Mexico Statutes Annotated, as amended (NMSA 1978), to administer the Fund under Section 10-7C-1-19 NMSA 1978. The Fund was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents and surviving spouses) who have retired or will retire from public service in New Mexico.

NMRHCA is an independent agency of the State of New Mexico. The funds administered by NMRHCA are considered part of the State of New Mexico financial reporting entity and are OPEB trust funds of the State of New Mexico. NMRHCA's financial information is included with the financial presentation of the State of New Mexico.

Benefits provided. The Fund is a multiple employer cost sharing defined benefit healthcare plan that provides eligible retirees (including terminated employees who have accumulated benefits but are not yet receiving them), their spouses, dependents and surviving spouses and dependents with health insurance and prescription drug benefits consisting of a plan, or optional plans of benefits, that can be contributions to the Fund and by co-payments or out-of-pocket payments of eligible retirees.

Employees covered by benefit terms – At June 30, 2018, the Fund's measurement date, the following employees were covered by the benefit terms:

Plan membership	
Current retirees and surviving spouses	51,205
Inactive and eligible for deferred benefit	11,471
Current active members	93,349
	156,025
 Active membership	
State general	19,593
State police and corrections	1,886
Municipal general	17,004
Municipal police	3,820
Municipal FTRE	2,290
Educational Retirement Board	48,756
	93,349

Contributions. Employer and employee contributions to the Fund total 3% for non-enhanced retirement plans and 3.75% of enhanced retirement plans of each participating employee's salary as required by Section 10-7C-15 NMSA 1978. The contributions are established by statute and are not based on an actuarial calculation. All employer and employee contributions are non-refundable under any circumstance, including termination of the employer's participation in the Fund. Contributions to the Fund from the County were \$376,970 for the year ended June 30, 2019.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the County reported a liability of \$22,207,048 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The County's proportion of the net OPEB liability was based on actual contributions provided to the Fund for the year ending June 30, 2018. At June 30, 2018, the County's proportion was 0.51070 percent.

For the year ended June 30, 2019, the County recognized OPEB expense of \$655,946. At June 30, 2019 the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	1,314,799
Net difference between actual and projected earnings on OPEB plan investments	-	277,136
Changes of assumptions	-	4,145,957
Changes in proportion	3,235,389	-
Contributions subsequent to the measurement date	<u>376,970</u>	<u>-</u>
Total	<u>\$ 3,612,359</u>	<u>5,737,892</u>

Deferred outflows of resources totaling \$376,970 represent County contributions to the Fund made subsequent to the measurement date and will be recognized as a reduction of net OPEB liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation using the following actuarial assumptions:

Valuation date	June 30, 2017
Actuarial cost method	Entry age normal, level percent of pay, calculated on individual employee basis
Asset valuation method	Market value of assets
Actuarial assumptions	
Inflation	2.50% for ERB members, 2.25% for PERA members
Projected salary increases	3.25% to 12.50%, based on years of service, including inflation
Investment rate of return	7.25%, net of OPEB plan investment expense and margin for adverse deviation including inflation
Health care cost trend rate	8% graded down to 4.5% over 14 years for Non-Medicare medical plan costs and 7.5% graded down to 4.5% over 12 for Medicare medical plan costs
Mortality	ERB members: RP-2000 Combined Healthy Mortality Table with White Collar Adjustment (males) and GRS Southwest Region Teacher Mortality Table (females). PERA members: RP-2000 Combined Healthy Mortality

Rate of Return. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions.

The best estimates for the long-term expected rate of return is summarized as follows:

<u>Asset Class</u>	<u>Long-Term Rate of Return</u>
U.S. core fixed income	2.10%
U.S. equity - large cap	7.10%
Non U.S. Emerging markets	10.20%
Non U.S. - developed equities	7.80%
Private Equity	11.80%
Credit and Structured finance	5.30%
Real Estate	4.90%
Absolute Return	4.10%
U.S. equity - small/mid cap	7.10%

Discount Rate. The discount rate used to measure the Fund's total OPEB liability is 4.08% as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund's

fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2029. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2029. Beyond 2029, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. Thus, 4.08% is the blended discount rate.

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates. The following presents the net OPEB liability of the County, as well as what the County's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.08 percent) or 1-percentage-point higher (5.08 percent) than the current discount rate:

1% Decrease (3.08%)	Current Discount (4.08%)	1% Increase (5.08%)

Payable Changes in the Net OPEB Liability. At June 30, 2019, the County reported a payable of \$14,304 for outstanding contributions due to NMRHCA for the year ended June 30, 2019.

NOTE 14 – CLOSURE AND POST-CLOSURE CARE COSTS

The County has an active landfill, located on County land, available for solid waste disposal. A portion of the total estimated current cost of the closure and post-closure care is to be recognized in each period the landfill accepts solid waste. The operations of the landfill are accounted for in a proprietary fund. The measurement and recognition of the liability for closure and post-closure care are based on total estimated current cost and landfill usage to date.

State and federal laws and regulations require that the County place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. In addition to operating expenses related to current activities on the landfill, an expense provision and related liability are being recognized based on the future closure and post-closure care costs that will be incurred near or after the date the landfill no longer accepts waste. The recognition of these landfill closure and post-closure care costs has a balance of \$4,177,465 as of June 30, 2019, which is based on 100% usage (filled) of the landfill. The estimated total current cost of the landfill closure and post-closure care (\$4,177,465) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor and maintain the landfill were acquired as of June 30, 2019. However, the actual cost of closure and post-closure care may be higher due to inflation, changes in technology or changes in landfill laws and regulations. The County is required by state and federal laws and regulations to make annual contributions to finance closure and post-closure care. The County is in compliance with these requirements, and at June 30, 2019, the County has set aside \$4,177,465 for these purposes. The

County expects that future inflation costs will be paid from the interest earnings on these annual contributions. However, if earnings are inadequate or additional post-closure care requirements are determined (due to changes in technology or applicable laws and regulation, for example), these costs may be covered from future tax revenues.

NOTE 15 – RISK MANAGEMENT

The County is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries and natural disasters. Sandoval County is a member and is insured through the New Mexico County Insurance Authority. The Authority was created to provide comprehensive core insurance programs by expanding the pool of subscribers to maximize cost containment opportunities for required insurance coverage. The Authority acts as the common carrier for the State of New Mexico counties. The County pays an annual premium to the Authority based on claim experience and the status of the pool. The Risk Management Program includes Workers Compensation, General and Automobile Liability, Automobile Physical Damage, and Property and Crime coverage. The County is not liable for more than the premiums paid.

The County is a party in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's legal counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

NOTE 16 – DEFERRED COMPENSATION PLAN

The County provides two optional deferred compensation 457 plans. These plans were created in accordance with IRC Section 457. The plans are available to any County employee. Nationwide Retirement Solutions, Inc. and International City/County Managers Association (ICMA) Retirement Corporation administer the individual plans. Employee contributions totaled \$72,538 for Nationwide and \$59,509 for ICMA for the year ended June 30, 2019.

**INDEPENDENT AUDITOR'S REPORT INDEPENDENT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Board of County Commissioners
State of New Mexico, Sandoval County and
Mr. Brian Colón, State Auditor
State of New Mexico, Office of the State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, the budgetary comparisons for the general fund and major special revenue fund of Sandoval County (County) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated November 6, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on

November 6, 2019

the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2019-001.

The County's Response to the Finding

The County's response to the finding identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE**

The Board of County Commissioners
State of New Mexico, Sandoval County and
Mr. Brian Colón, State Auditor
State of New Mexico, Office of the State Auditor

Report on Compliance for Each Major Federal Program

We have audited Sandoval County's (County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2019. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of *Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of

November 6, 2019

requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CURRENT YEAR FINDINGS

2019-001 – PUBLIC WORKS DEPARTMENT: INTERNAL CONTROLS OVER DEPOSITS

Type of Finding: C

Statement of Condition

During test of cash receipts, 3 deposits from the Public Works Department were selected. Review of supporting documentation showed a lack of indication of when the checks (cash receipts) were collected by the Public Works Department.

Additionally, during our internal control walkthrough with the Public Works Department, it was noted there is an absence of review by an additional employee of the deposit slip and supporting funds prior to the deposit being picked up by the courier.

Criteria

Internal controls have to be implemented and be adequate to mitigate the risks associated with the collection and deposit of cash. Improving internal controls reduces the opportunity for mistakes or errors to take place or to be identified and corrected in a timely manner or for reducing the opportunity for fraud to take place.

**STATE OF NEW MEXICO
SANDOVAL COUNTY
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
JUNE 30, 2019**

Cause

There was no check log. The Public Works Department did not have separate employee review the deposit slip prior to the deposit being picked up by the courier.

Effect

Untimely deposits may cause the County to be at risk of misappropriations of funds. Also, the lack of adequate internal controls over current cash deposit processes increases the risk that a loss or misappropriation of public funds may occur and not be detected in a timely manner.

Recommendation

We recommend the Public Works Department implement controls (check log) to confirm when monies are collected and they are deposited by the close of the next business day. Additionally, we recommend a person other than the preparer of the deposit slip review and sign off on the deposit prior to the deposit being picked up by the courier.

View of Responsible Officials and Corrective Action Plan

Public Works has implemented their own check handling and deposit procedures in order to ensure compliance with best practices. Moving forward, a check log will be implemented that will document all payments received via postal service. This log will be used as a form of reconciliation and deposit verification. Payments will be delivered by the Public Works Administrative Assistant to the PW Accounting Specialist; who will process the payments for their daily deposit. Once checks are ready, all deposits will be reconciled and verified with two signature approvals. All checks will continue to be deposited within the next business day as has always been their process.
