To the Board of County Commissioners, the County  
Manager and the citizens of Santa Fe County

New Mexico state law, Section 12-6-3 NMSA 1978, requires that an annual audit of a governmental unit’s accounting records and Comprehensive Annual Financial Report be performed by independent public accountants. We are pleased to submit to you the Comprehensive Annual Financial Report for Santa Fe County for the fiscal year ended June 30, 2014.

This report consists of management’s representations concerning the finances of Santa Fe County. County management assumes full responsibility for the completeness and reliability of the information presented in this report based on a comprehensive framework of internal controls that were established for this purpose. Santa Fe County has established a comprehensive internal control framework that is intended to provide reasonable assurance that assets are safeguarded against loss or unauthorized use, and that financial records can be relied upon to produce financial statements according to generally accepted accounting principles. “Reasonable assurance” is intended to recognize that the cost of maintaining the system of internal accounting controls should not exceed the benefits derived. The County’s comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. The County’s management team asserts that, to the best of our knowledge, this financial report is complete and reliable on all material respects.

This report consists of an Introductory Section, the Financial Section which includes the opinion of the County’s independent auditor Axiom Certified Public Accountants and Business Advisors LLC (Axiom), a Management’s Discussion and Analysis, a Statistical Section with ten years of summary data, and the Other Information Section. The introductory section includes this transmittal letter, the County’s organization chart and a list of County Officials and administrative staff. Readers should refer to the Management’s Discussion and Analysis beginning on page 16 of this report for a more detailed overview of how to use this report, and introduction to the County’s basic financial statements and an analytical overview of the County’s financial activities.

Axiom has audited the County's financial statements for the fiscal year ended June 30, 2014. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for fiscal year ended June 30, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; thus, resulting in an assessment of the overall financial statements. Axiom concluded that there was a reasonable basis for rendering an unmodified (or clean) opinion that Santa Fe County's financial statements for the fiscal year ended June 30, 2014, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The report may be found on pages 13-15 of this report.

### ***The Reporting Entity and Its Services***

Santa Fe County was established by the laws of the Territory of New Mexico of 1852, under provisions of the act now referred to as Section 4-26-1 of the New Mexico Statutes Annotated, 1978 Compilation. Santa Fe County is located in north-central New Mexico. The City of Santa Fe is the capital of the State of New Mexico and is in the center of the County approximately 60 miles northeast of Albuquerque. Santa Fe County has a total area of 1,911 square miles, 1,909 square miles of land and 2 square miles of water. The 2010 decennial census revealed a population of 144,170, which includes 67,947 individuals located in the City of Santa Fe. This reflects a countywide population percentage *increase* since the 2000 decennial census of 11.5%, which is a lower percentage increase than the State as a whole which saw a 13.2% increase during that same period. Santa Fe County has the 6<sup>th</sup> highest population growth rate in the State (behind Sandoval, Dona Ana, Lea, Valencia, San Juan and Bernalillo) and is the 3<sup>rd</sup> most populous County (behind Bernalillo and Dona Ana). The County's 2013 population and average unemployment rate were 147,423 and 5.9%, respectively.

The County operates under the commission-manager form of government. All legislative power within the County is vested in a five-member Board of Commissioners (BCC). The executive function is divided and shared by the Board and five elected county officials - the Assessor, Clerk, Probate Judge, Sheriff and Treasurer. The County provides the following services: public safety (sheriff, fire, emergency communications and corrections), highways and streets, sanitation, health and social services, low rent housing assistance, affordable housing, culture and recreation, senior services, public projects' improvements, planning and zoning, economic development, jail function, and general administration services. A regional planning authority created by the City and County of Santa Fe, as well as County housing services, utility and home sales enterprises are included within the business activity of the County's financial statements.

The County currently has several component units that are part of the operations. The County has the Housing Authority and the Regional Emergency Communications Center (RECC). Both of which are included in the County's financial statements. The County has accepted all responsibility for both the Housing Authority and the RECC.

Santa Fe County maintains extensive budgetary controls; the budget serves as the foundation for Santa Fe County's financial planning and control. Fiscal year 2014 marks the second transitional year where the budget was developed using a results-accountable, priority-driven budget methodology (referred to generically as performance-based budgeting). Staff was instructed to build their budget requests in such a manner as to fund each function adequately to achieve the

function's desired outcome even if it resulted in an increase to their budget. The FY 2014 budget contemplates modest increases to some revenue sources, changes to benefits and increases to staff compensation, significant one-time expenditures for large maintenance and repair items and significant asset renewal and replacement expenditures and provides Departments with the resources that they need to achieve the desired outcomes of their functions.

Public safety, road maintenance, improvement and construction, and expanding the utility into a self-sustaining enterprise as well as investing in employees are all priorities in FY 2014. The most significant priority change was a new focus on maintaining existing county assets. Other new priorities, smaller budgeted amounts but yet very important, include development of a long-term emergency operations preparedness plan for which one new FTE was approved, increasing the size of the operating contingency from \$750K to \$1.5 million, revising out-of-date ordinances and resolutions where necessary and improving transparency through additional public service announcements and radio exposure.

### ***Economic Condition and Outlook***

Major industries in the Santa Fe County area center on tourism and recreation. These include all associated industries such as food, lodging, arts and entertainment. Education and health care also contribute a large portion of the jobs in the area. Professional scientific and management industries also add significantly to the employment base of Santa Fe County. Government employees comprise 43% of the workforce with 32,894 employees and the local hospital employs a total of 2,000 employees. The County is the 7th largest employer with 846 employees based on 2013 figures.

Economic development emerged as a key citizen priority of the quality of life for citizens of Santa Fe County. As a result, this service area received more focus and more resources during the FY 2015 budget process. Film and media, arts, culture and cultural tourism, and alternative and renewable energy initiatives received targeted funding.

Santa Fe County is fortunate to have a large property tax base with a current assessed valuation of \$6.7 billion. In FY 2013 the County Assessor completed a County-wide reappraisal. This reappraisal is intended to ensure that all properties have been captured on the tax rolls as well as to ensure "true and correct" valuations of all properties in the County and is statutorily required on a periodic basis. The taxable valuation comparison of tax year 2013 to tax year 2014 witnessed a decrease of \$311 million or 4.8%. Given that the values are true and correct, the result is a more fair distribution of the tax burden across all property owners. Property tax collections continued to be strong in FY2014 with a slight increase up to 95.25 percent.

In FY 2014 Santa Fe County increased the budget for countywide gross receipts taxes by a very conservative one percent. This increase represents the first time that gross receipt tax budgets have been increased since FY 2009. Santa Fe County budgeted for the unincorporated GRTs down just two percent in FY 2014 estimating that the GRTs had bottomed out.

A principal issue for Santa Fe County is the funding of a large regional water system which will serve the Northern part of the County, which has historically obtained its drinking water from wells. The Aamodt Settlement of water rights requires that a regional water system be designed

and constructed. The cost of building this regional system will be borne by the Federal government, the State of New Mexico and Santa Fe County. The current understanding is that Santa Fe County' funding commitment will be approximately \$24 million.

The County continues to strive to incorporate financial planning in its long-range vision to remain solvent in the current economy. The County maintains the State mandated cash reserve requirements as well as an additional one month's operational reserve for all other county funds that support operations. Additionally, the County continues to maintain a \$5.0 million contingency reserve to assist if necessary in this recessed economy. Thus far the County has not had to make use of the contingency reserve.

In this recovering economy, the County has both conscientiously and strategically maintained sufficient reserves and continued to be conservative with revenue projections. This strategy has enabled the County to not impact employees either by reduced salaries or furloughs. Actually this strategy has enabled the County to increase contributions to health insurance for employees continue cost of living increases.

### ***Financial Policies***

The County's accounting records for general government operations are maintained on a modified accrual basis, with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for the County's utilities and other enterprise activities are maintained on an accrual basis.

In developing and maintaining the County's accounting system, consideration is given to the adequacy of the internal control structure. We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The State of New Mexico requires a balanced budget for each fund. The budget is reviewed by the Governing Body and is formally adopted by the passage of a budget resolution. Santa Fe County imposes this balanced budget standard in conjunction with the standard that recurring expense in each fund be sourced with recurring revenue. A monthly report of major revenue sources, costs category and fund expenses and major fund cash positions is produced and reported to the Board of County Commissioners. Lastly, quarterly budget updates are approved by the Governing body and submitted to the State Department of Finance and Administration Local Government Division, pursuant to state law.

### ***Awards***

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Santa Fe County for its comprehensive annual financial report for the fiscal year ended June 30, 2013. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. This is the third

year that the County has received this GFOA award. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Santa Fe County also received the Government Finance Officers Association Distinguished Budget Presentation award for the fiscal year 2013 Final Program Budget. The County has received this award multiple times in prior fiscal years as well as for the past three consecutive fiscal years. We believe our current budget continues to conform to program requirements.

*Acknowledgments*

The preparation of this report could not have been accomplished without the dedicated services of the staff within the Finance Division. A special thanks to Samuel Montoya, accounting supervisor. Mr. Montoya took on the lead role for the audit and financial statement preparation given the finance division's current reduced staffing level due to vacancies.

We wish to express our sincere appreciation to all staff members whose dedication and professionalism made the preparation of the report possible. We would also like to thank the staff from other County departments who assisted and contributed to its preparation. Finally, without the leadership and support of the County Manager and the members of the Board of County Commissioners, preparation of this report would not have been possible.

## INDEPENDENT AUDITOR'S REPORT

To the County Commission  
Santa Fe County  
and Mr. Hector H. Balderas  
New Mexico State Auditor

### Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of Santa Fe County, New Mexico ("County") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the County's nonmajor governmental funds, and the budgetary comparison for the major capital projects fund and all nonmajor funds presented as supplementary information, as defined by the Government Accounting Standards Board, in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2014, as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental fund of the County as of June 30, 2014, and the respective changes in financial position thereof and the respective budgetary comparisons for the major capital projects fund and all nonmajor funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion on pages 16 and 26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the County's financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The Schedule of Expenditures of federal awards as required by Office of Management and Budget *Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*, introductory and statistical sections, and the other schedules as required by Section 2.2.2 NMAC are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of federal awards and other schedules required by Section 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been

subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of federal awards and other schedules required by Section 2.2.2 NMAC are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

*Change in Accounting Principle*

As discussed in Note 18 to the financial statements, in 2014 the County adopted new accounting guidance, *GASB Statement No. 65, Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2014 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

STATE OF NEW MEXICO  
SANTA FE COUNTY  
MANAGEMENT'S DISCUSSION AND ANALYSIS (MDA)  
YEAR ENDED JUNE 30, 2014

As management of Santa Fe County (County), New Mexico, we offer the reader's of the County's financial statements this narrative overview and analysis of the financial activities of the County for the current fiscal year.

***FINANCIAL HIGHLIGHTS***

The financial statements, which follow the Management's Discussion and Analysis, provide the significant key financial highlights for fiscal year 2014 as follows.

- In the Statement of Net Position the County's total net position of governmental activities increased \$28.6 million and business-type activities increased by \$3.3 million. In total, the net change of \$31.9 million represents an increase of 8 percent from the prior year. The County continues to have a strong financial position, operating reserves and assets available to provide services to the citizens.
- In the Statement of Activities, the total governmental activities revenues amounted to \$134.2 million, of which general revenues from governmental activities accounted for \$113 million or 84.2 percent of all revenues from governmental activities. Program specific revenues in the form of charges for services and grants and contributions accounted for \$21.2 million or 15.8 percent of total governmental activities.
- In the Statement of Activities, the total business-type activities revenues amounted to \$9.6 million, of which general revenues from business-type activities accounted for \$43,092 or .4 percent of all revenues from business-type activities. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$9.6 million or 99.6 percent of business-type activities.
- In the Statement of Activities the County had \$110.3 million in expenses related to governmental activities, of which \$21.2 million were offset by program specific charges for services or grants and contributions. General revenues of \$113 million were adequate to provide for the remaining costs of these programs. The County had \$6.1 million in expenses related to business-type activities. These expenses were offset by program specific revenues in the form of charges for services and operating grants and contributions of \$9.6 million.
- The General Fund had \$64.2 million in revenues, which primarily consisted of taxes, charges for services and interest earnings. The total expenditures of the General Fund were \$30.8 million. The General Fund's fund balance increased \$3.5 million, partially due to an increase in property tax collections and decreased expenditures witnessed for public safety, culture and recreation, health and welfare, and capital improvements. Additionally, the transfers to other funds decreased by \$1.8 million.

***OVERVIEW OF THE FINANCIAL STATEMENTS***

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

***OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)***

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the county is improving or deteriorating.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal period (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements of the County's activities are presented in the following categories:

- **Governmental activities** – Most of the County's basic services are included here, such as general government, public safety, public works, economic development and culture and recreation. Gross receipt taxes, property taxes, and intergovernmental revenues finance most of these activities.
- **Business-type activities** – The services provided by the County included here are home sales, regional planning, utilities and housing services. These services are primarily financed through charges for services.

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

***OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)***

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the General Fund, Fire Operations Fund, Capital Outlay GRT Fund, Developer Fees Fund, Corrections Operations Fund, all of which are considered to be the County's major governmental funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining schedules.

**Proprietary funds.** The County maintains four proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its home sales program, regional planning authority, utilities, and housing authority.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the county. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the financial statements.** The notes (pages 46-81) provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. Under New Mexico Administrative code Section 2.2.2, governments in New Mexico must include the budgetary comparison statement for the General Fund and major special revenue fund data as a component of the fund financial statements within the basic financial statements.

***GOVERNMENT-WIDE FINANCIAL ANALYSIS***

Net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$399.7 million at the current fiscal year end.

A significant portion of the County's net position reflects its investment in capital assets (e.g. land, construction in progress, infrastructure, buildings and improvements, and vehicles, furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, an amount of \$72.8 million of the County's resources are restricted for the specified purposes of debt service repayment and capital outlay investment.

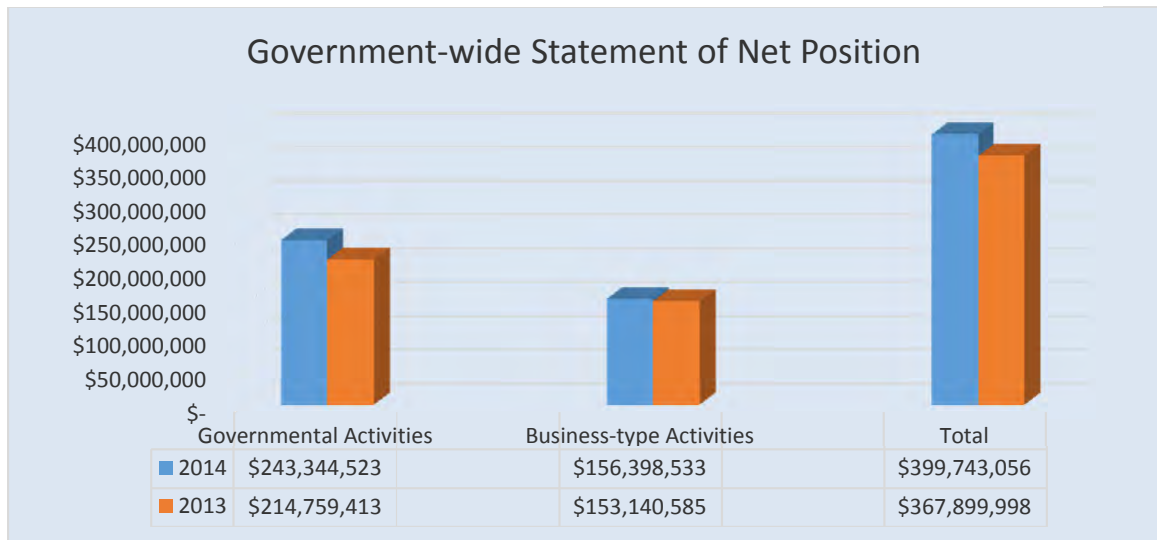

The County's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. At fiscal year end, the County reported positive balances in all categories of net assets. The same situation held true for the prior fiscal year. The

***GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)***

- The cost of all governmental activities this year was \$110.3 million; the decrease of \$3.6 million from the prior year was primarily due to a decrease in expenses for general government, culture and recreation, public works, highways and streets, and housing which were also offset by increases relative to public safety, and health and welfare. The increase witnessed in public safety can be attributed to an increase in staffing for the Sheriff's Office for both field operations and the opening of the new Judicial Center.
- The cost of all business-type activities this year was \$6.1 million, a decrease of \$1.2 million from the prior year. The decrease was witnessed in home sales and in utilities.
- Charges for services and contributions subsidized certain governmental programs and business-type programs with revenues of \$30.8 million, an increase of \$2.6 million from the prior year. The increase may be attributed to the receipt of \$5.4 million specific to the Aamodt settlement, which the County will use to fund a regional water system in the northern part of Santa Fe County. The overall increase was offset by decreases to general government, public safety and health and welfare. The revenues reflected within operating grants and contributions witnessed a decrease of \$816,657 due to decreases in general government, public works and health and welfare.
- Net cost of governmental activities of \$89.1 million was financed by general revenues, which are made up primarily of property taxes and gross receipts taxes of \$96.4 million. The majority of costs can be attributed to general government, public safety and highways and streets.

***FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS***

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

**Governmental funds.** The focus of the County's governmental funds is on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the County's financing requirement. In particular, unreserved fund balances may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

The financial performance of the County as a whole is reflected in its governmental funds. As the County completed the year, its governmental funds reported a combined fund balance of \$197.1 million, an increase of \$4.5 million.

The General Fund is the principal operating fund of the County. The General Fund's fund balance increased \$3.5 million to \$72.9 million at year end. The increase can be attributed to increased collections of taxes and reduced expenditures in public safety, culture and recreation, and health and welfare. The increase also resulted from reduced transfers to other funds.

The Developer Fees Fund is major fund and reflects a decrease in fund balance of \$202,734, which can be attributed to decreased collections of charges for services and was offset by a slight increase in interest earnings. Also, the Corrections Operations Fund saw an increase of \$903,580 in fund balance. The increase is minimal due to increased interest earnings, federal grants and intergovernmental revenues that were offset by decreased charges for services and transfers from other funds.

***FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS (Continued)***

The Fire Operations Fund was reflected as a major fund this fiscal year and witnessed an increase of \$594,558 in fund balance. The increase is due to increased gross receipt tax collections and decreased expenditures.

**Proprietary funds.** Net position of the Enterprise Funds increased by \$3.5 million to \$156.4 million at year end. The increase can be attributed to a slight increase in the utilities customer base due to the annexation agreement with the City of Santa Fe as well as the receipt of \$5.4 million for the Aamodt settlement reflected in charges for services.

***BUDGETARY HIGHLIGHTS***

The fiscal year 2014 budget was developed using a results-accountable, performance-based budgeting methodology and marked the second transitional year to this form of budgeting. Staff was instructed to build their budget requests in such a manner as to fund each function adequately to achieve the function's desired outcome even if it resulted in an increase to the budget.

The fiscal year 2014 budget totaled \$236.0 million of which \$54.4 million represented interfund transfers. Excluding these transfers the total fiscal year 2014 budget was \$182.6 million. This represents a \$3.3 million decrease from the fiscal year 2013 budget.

The vast majority of the County's budget was within its special revenue funds totaling \$95.8 million. A distant second majority was the General Fund totaling \$76.6 million. The remainder of the budget was comprised of capital improvement funds (\$39.4 million), debt service funds (\$18.6 million) and enterprise funds (\$5.5 million).

Many of the funding priorities remained from fiscal year 2013 to fiscal year 2014. Public safety, road maintenance, improvement and construction, and expanding the utility into a self-sustaining enterprise as well as investing in employees were all priorities that carried over from FY 13 to FY 14. The Public Safety Department (including the Sheriff's Office) continued to have the largest operating budget of any department in the County. The General Fund heavily supported these operations by transferring funds. Road maintenance, improvement and construction of new roads are a perpetual priority for the citizens and the Commission. In FY 14 the road maintenance budget was increased and as a result, General Fund support also increased from \$4.5 million in FY 13 to \$5.5 million in FY 14. Expanding the Water and Wastewater Utility to become a self-sustaining enterprise is underway. In FY 14 there will be a large increase to the Utility's customer base due to service phasing agreements made with the City of Santa Fe as part of an annexation settlement agreement. The level of investment in employees increased in FY 14 and totaled more than \$4.0 million across all funds. Funding was approved for cost of living increases, retention incentive payments, creation of a merit pool, restructuring of the County contribution to health insurance for employees making under \$50,000/year, additional education benefits, improvement to the physical work environment and capital funding to provide better equipment with which employees do their work.

***CAPITAL ASSETS AND DEBT ADMINISTRATION***

**Capital Assets.** At year end, the County had invested \$14.5 million in capital assets, including buildings, water systems, facilities, vehicles, computers, equipment, and infrastructure assets. This amount represents a net increase prior to depreciation of \$12.2 million. Total depreciation

The following table presents a summary of the County's outstanding long-term debt for the fiscal year ended June 30, 2014, and June 30, 2013. Additional information on the County's debt can be found in Note 9 Bonds Payable, pages 66 through 68.

State statutes currently limit the amount of general obligation debt a County may issue for general purposes to 4 percent of its total assessed property valuation. The current debt limitation for general purposes for the County is \$270 million. State statute currently does not limit the amount of general obligation debt a County may issue for Water and Wastewater systems. Debt service per capita in fiscal year 2014 totals \$127.60; \$76.15 for general obligation debt service and \$51.45 for revenue bond and other debt service.

**Credit Ratings.** The financial condition of the County is strong as reflected by the County's bond rating of AA+ from Standard & Poor for the General Obligation Series 2013. Such a rating was assigned given that the County's restricted revenues provide satisfactory debt service coverage, the County has a large and diverse tax base and the County maintains solid financial operations with strong reserves.

***ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES***

In fiscal year 2015 Santa Fe County continued with its transition to a performance-based budget. With the up-to-date priorities revealed by the citizen survey conducted during FY2014, input from various advisory boards, and direct input from citizens to their Commissioners, the County's budget was developed. Priorities included public safety, roads, expansion of the utility into a self-sustaining enterprise as well as investing in employees. The most significant priority change was in the area of economic development and the funding of contractual services for three of the County's open space properties to complete management plans that will address safety issues and ensure a balance between the preservation and public use of properties.

The fiscal year 2015 established budget totaled \$235.2 million, or \$182 million excluding inter-fund transfers. This budget was actually \$815,825 less than the prior year budget of \$235.9 million. In fiscal year 2015 revenue projections supported a slight increase in property tax based on trend analysis of collections from the past three years and a small increase 3 percent increase for countywide gross receipts taxes.

***ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES (Continued)***

Changes from the fiscal year 2014 budget resulted in a decrease across all funds from fiscal year 2014 to fiscal year 2015.

- Major changes in the General Fund (101) are:
  - Increased the Asset Renewal and Replacement package (formerly known as the capital package) and set asides (\$2.0M).
  - Decreased General Fund support of the Road Fund (\$0.6 M).
  - Increased General Fund support of the Law Enforcement Operations Fund (\$0.4 M).
  - Increased General Fund support of the Corrections Operations Fund (\$0.1 M).
  - Addition of Renewable Energy program funding (\$0.5M).
- In FY 15 all capital improvement funds totaled \$31.1 million versus FY 14 with total capital improvement funding of \$39.4 million.
- The Capital Outlay GRT Fund was reclassified from a special revenue fund (213) to a capital improvement fund (313). In FY 2014 the Capital Outlay GRT Fund budget was \$14.2 M but was increased slightly by \$0.2 M in FY 2015.
- The Fire Operations Fund (244) budget increased by \$0.5 M.
- The Regional Emergency Communications Center (RECC) Operations Fund (245) remained flat at approximately \$3.5 M. Since this fund has no significant funding of its own, it is reliant upon transfers from other funds. In FY 2015 the Fire Operations fund will transfer \$3.4 M to the RECC.
- Bond proceeds from the 2011 Series GOB were budgeted at \$7.3 M across all project categories. This is a decrease of \$1.5 M from the FY 2014 budget.
- Bond proceeds from the 2013 Series GOB were budgeted at \$6.3 M, which is a decrease of \$2.1 M from FY 2014.
- The County's debt service schedule saw an increase of \$346K from FY 14 (\$18.6 M) to FY 15 (\$19.0 M).

We believe this written analysis and the accompanying financial reports will indicate to the reader that Santa Fe County is in good financial health. Factors such as bond ratings, fund balances, cash on hand and budget management, will reflect a positive financial direction and management.

SANTA FE COUNTY  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
YEAR ENDED JUNE 30, 2014**

**Net changes in fund balances - total governmental funds** **\$ 4,457,329**

Amounts reported for *governmental activities* in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Expenditures for capital assets	19,692,692	
Less current year depreciation	<u>(10,808,052)</u>	8,884,640

Revenues in the governmental funds that provide current financial resources are not included in the Statement of Activities because they were recognized in a prior period.

Property taxes	(1,088,018)	
Mortgages and down payment assistance	1,166,649	
Other receivables	<u>(868,521)</u>	(789,890)

The issuance of long-term debt (e.g. bonds, loans, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.

The following table represents the changes in long-term debt for the fiscal year:

Change in revenue bonds payable	3,140,000	
Change in general obligation bonds payable	6,445,000	
Change in loans payable	53,554	
Change in compensated absences payable	216,963	
Accrued interest on long-term debt	427,866	
GASB 65 write off of previously capitalized bond issuance items	1,135,318	
Landfill closure and post-closure	<u>16,016</u>	<u>11,434,717</u>

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2014**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Santa Fe County (County) was established by the laws of the Territory of New Mexico of 1852, under provisions of the act now referred to as Section 4-26-1 of the New Mexico Statutes Annotated, 1978 Compilation. The County operates under the commission-manager form of government and provides the following services as authorized in the grant of powers: public safety (police, fire), highways and streets, sanitation, health and social services, low rent housing assistance, culture-recreation, public improvements, planning and zoning, and general administration services.

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The County's significant accounting policies are described below.

**Reporting Entity**

The County's major operations include public safety - sheriff and fire protection, emergency communication operations, adult and juvenile detention operations; public works – roads, solid waste, projects and facilities management, utilities (water and wastewater operations); certain health, social and community services, general administration services, planning and zoning, low income housing assistance, and the collection of and distribution of property taxes.

The financial reporting entity consists of a primary government and its component units. The County is a primary government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, component units combined with the County for financial statement presentation purposes, and the County, are not included in any other governmental reporting entity. Consequently, the County's financial statements include only the financial activity of those organizational entities for which its elected governing body is financially accountable.

During July 1996, the Housing Authority's Board resigned and day to day operations became a County responsibility. The Authority's operations are included in the financial statements as County enterprise and special revenue funds. The Santa Fe County Housing Authority Enterprise Fund is now known as Housing Services Enterprise Fund (Housing Services).

**A. Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the County as a whole. The reported information includes all of the non-fiduciary activities of the County. For the most part, the effect of internal activity has been removed from these statements. These statements distinguish

**SANTA FE COUNTY**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

between governmental and business-type activities of the County. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, investment income and other items not included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and the fiduciary funds, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

**Government-wide Financial Statements** – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. In addition, the fiduciary fund financial statements are reported on the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule the effect of internal activity has been eliminated from the government-wide financial statements, however the effect of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their exchange value. The County does not allocate indirect expenses to functions in the statement of activities.

**Fund Financial Statements** – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. In addition, derived tax revenues, such as gross receipts and gasoline taxes, are recognized as

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

revenues when the underlying exchange transaction has occurred. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, gross receipts taxes, state shared taxes, charges for services, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Miscellaneous revenue is not susceptible to accrual because generally they are not measurable until received.

Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Deferred inflows of resources also arise when resources are received by the County before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Property taxes recognized are net of estimated refunds and uncollectible amounts. Delinquent property taxes have been recorded as deferred revenue. Receivables that will not be collected within the available period have also been reported as deferred revenue on the governmental fund financial statements.

Customer contributions owed to the Utilities Division for the extension of the water system to their property are recorded as revenue when the customer begins to receive water service. Customer contributions owed to the Utilities Division are recorded as notes receivable and deferred revenue if water service has not yet been extended to the customer. Mortgage receivables owed to the Housing Services Fund when the homeowner purchased the property under the Home Sales program is not owed unless the homeowner sells or refinances the property. These mortgages represent the deferred profit from the sale of the property. Ten percent of the mortgage balance is reduced each year the homeowner owns the property. Deferred revenue is recorded until the homeowner sells the property or the mortgage receivable is paid off.

The County reports the following major governmental funds.

General Fund – This fund accounts for all financial activities except those required to be accounted for in other funds. It is funded primarily through property, gross receipts and other miscellaneous taxes.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Developer Fees Fund – This fund accounts for funds contributed by Las Campanas Limited Partnership and others for affordable housing programs and other projects. The fund was created by the Board of County Commissioners. In prior years this fund had received approximately \$2.0 million in payments from the private Las Campanas housing development project and the Affordable Housing program, which assists low income persons in the purchase of homes. Current revenue is from interest on the cash balance of this fund and developer funds to assist the affordable housing program. Mortgages funded by developers as part of an affordable housing program are recorded to this fund.

Fire Operations Fund – This fund accounts for the funding and expenses of the County’s career fire and emergency medical services. It is funded primarily through gross receipts taxes, charges for ambulance services, and revenue from various grants.

Corrections Operations Fund – This fund accounts for the funding and expense of the County Adult and Juvenile Detention Facilities, through charges for care of prisoners from outside jurisdictions, property taxes, along with gross receipts taxes. This fund also accounts for expenditures associated with the care of Santa Fe County adult and juvenile inmates. This fund was identified as the Jail Facility Fund in prior years.

Capital Outlay GRT Fund – This fund accounts for a 1/4 cent gross receipt tax to be used for various capital projects.

The County has elected to report all of its enterprise funds as major funds. The following are major proprietary (enterprise) funds:

Home Sales Fund – This enterprise fund is used to account for the construction and sales of housing to eligible buyers of affordable housing.

Regional Planning Authority Fund – This enterprise fund is used to account for the funding and expense of the Regional Planning Authority, created by agreement between the City of Santa Fe and Santa Fe County.

Utilities Fund – This enterprise fund is used to account for the funding and expense of the Water and Wastewater utilities of Santa Fe County.

Housing Services Fund – This enterprise fund is used to account for the funding and expense of the County's Public Housing Authority. Revenue for this fund is derived from housing rentals and Housing and Urban Development (HUD) grants and subsidies.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The principal operating revenues of the County's enterprise funds are charges to customers for sales and services. Operating expenses for this fund include sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Additionally, the County reports the following fund type:

Fiduciary Funds – The Fiduciary Funds are agency funds which account for resources held by the County on behalf of others including inmates, bail money posted, seized and/or forfeited amounts, court ordered writs of execution, and funds utilized by the multi-jurisdictional narcotic task force. In addition, the County Treasurer Fund accounts for collections and payments to the County and other recipient entities of property taxes, interest and penalties, billed and collected by the County on their behalf.

**C. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County does not have any items that qualify for reporting in this category.

Also, in addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The County has three types of items, which arise only under modified accrual basis of accounting, that qualify for reporting in this category. Accordingly, the items under the deferred inflows category (*property taxes, mortgages and down payment assistance, and unavailable revenue*) are reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

**D. Cash and Investments**

For purposes of the Statement of Cash Flows, the County considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at year end were cash in bank and investments held by the County.

New Mexico Statutes Annotated (NMSA) authorizes the County to invest public monies in the State Treasurer's Local Government Investment Pool, interest-bearing savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; bonds or other obligations of the U.S. government that are guaranteed as to principal and interest by the U.S.

government; and bonds of the State of New Mexico, counties, cities, school districts, and special districts as specified by statute.

The State of New Mexico Local Government Investment Pool is a pool that is not registered with the United States Securities Exchange Commission. Section 6-10-101, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money for short-term investment in securities that are issued by the United States government or by its departments or agencies and are either direct obligations of the United States or are backed by the full faith and credit of the United States government or are agencies sponsored by the United States government. The Local Government Investment Pool investments are monitored by the same investment committee and the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the fund amounts were invested. Participation in the Local Government Investment Pool is voluntary. The investment in the State of New Mexico Local Government Investment Pool approximates the value of the participant's pool share.

A significant portion of the cash and investment of funds of the County is pooled for investment purposes. Equity in pooled cash and investments includes amounts in demand deposit accounts, money market accounts, certificates of deposit, U.S. Treasury securities, and repurchase agreements secured by collateral with a market value greater than 102% of the value of the agreement. The securities are held by a third party in the County's name. Repurchase agreements are recorded at fair market value. Interest earned is allocated to the applicable County funds based on the County's policy of allocating interest to those funds which is required by law or by debt covenants. The remaining interest income is recorded in the General Fund.

Nonparticipating interest-earning investment contracts are stated at cost. Money market investments and participating interest investment contracts with a remaining maturity of one year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value.

Certain resources set aside for the repayment of debt, State of NM and County required contingency are classified as cash and investments – restricted on the statement of net position/balance sheet, because their use is limited by applicable bond covenants or statutory and other contractual requirements. Trust accounts, recorded in the Debt Service Funds, are used to segregate resources accumulated for future debt service payments.

**E. Investment Income**

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments.

**F. Receivables and Payables**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” All receivables are shown net of allowance for uncollectible.

The County is responsible for assessing, collecting and distributing property taxes for its own operational and debt service purposes and for certain outside entities. Unpaid property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable in two installments no later than December 10 and May 10. Collections and remittance of property taxes are accounted for in the County Treasurer's Agency Fund. Amounts are recognized as revenue in the applicable governmental fund types under accounting principles generally accepted in the United States. The property taxes receivable for the General Fund and for the Debt Service Fund in the governmental fund financial statements are net of an allowance for uncollectible. Refunds related to the settlement of property tax protests are only recorded when the case is completed.

**G. Inventory**

Inventories on hand at year end were immaterial and therefore not included on the fund or government-wide financial statements.

**H. Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

**I. Capital Assets**

Capital assets, which include land and improvements; buildings and improvements; plant; vehicles, furniture, and equipment; construction in progress; computer software; and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of \$3,000 or more and an estimated useful life of more than one year. Effective July 1, 2006, State law requires capitalization of assets greater than \$5,000. The County has elected to use the more conservative threshold of \$3,000 for internal tracking purposes. Such assets are recorded at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend

asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Such assets, including infrastructure, have higher limits that must be met before they are capitalized. Governmental capital assets of the County are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and structures	40
Improvements other than buildings	25-40
Infrastructure	25-30
Machinery and equipment	3-10
Furniture, vehicles and other assets	3-5

All additions to the infrastructure have been capitalized. The Utilities Fund consists of engineering costs and other expenses to plan and build a water system. Depreciation expense is recorded by the Utilities Fund over the estimated 50 year life of the water system. Proprietary capital assets of the County are depreciated using the straight-line method over the following estimated useful lives:

Assets	Utilities	Housing Services
Water system	50 years	
Buildings	40 years	40 years
Machinery and equipment	10 years	10 years
Furniture, vehicles, other assets	3-5 years	3-5 years

**J. Compensated Absences**

The County’s employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. Accumulated sick leave benefits in excess of 240 hours are eligible to be “sold back” to the County upon an employee’s retirement at a rate of 50% of the excess leave. Sick leave that is eligible to be sold back and vested or accumulated vacation leave is expected to be liquidated with available financial resources and is recorded as an expenditure and fund liability of those funds that will pay it. No liability is recorded for sick leave benefits that are estimated or will be taken prior to retirement. In the entity-wide statements vested or accumulated vacation and sick leave eligible to be sold back to the County are recorded as an expense and liability as the benefits accrue to employees. The General Fund has been used in prior years to liquidate the liability for compensated absences.

**K. Long-term Obligations**

In the government-wide financial statements and proprietary fund types, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts and the difference between the reacquisition price and net carrying

amount of the old debt are deferred and amortized over the life of the bonds using the straight line method, which approximates the effective interest method, over the term of the related debt. Bond issuance costs are recognized as an expenditure in both the governmental fund types and entity-wide financial statements when bonds are issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, and similar items when bonds are issued. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

**L. Interfund Activity**

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund statements are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds.

**M. Budgets**

Budgets are adopted on a basis inconsistent with generally accepted accounting principles (GAAP). Appropriations of funds unused or underspent during the fiscal year may be carried over into the next fiscal year by budgeting those amounts in the subsequent year's budget. For the current fiscal year actual to budget comparisons, the actual amounts are reported on the budgetary basis, which differs from the modified accrual basis for governmental fund types and accrual basis for the enterprise funds.

Differences between the budgetary basis and GAAP include the following:

1. The budget includes encumbrances (unperformed contracts for goods or services). GAAP does not include encumbrances.
  
2. The budget does not include certain liabilities, receivables, and depreciation expense for Enterprise funds. The GAAP basis financial statements do include these transactions.

Annual appropriated budgets are adopted for the general, special revenue, debt service, capital projects, and the enterprise funds.

Department heads and elected officials are required to complete budget request forms for each organizational unit. The County Manger's Office prepares a management budget

**STATE OF NEW MEXICO

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

recommendation based upon budget requests as well as Board of County Commissioner and community priorities. The Commissions reviews the management budget recommendations and makes changes as needed. The amended budget is then adopted and approved by resolution. The Finance Division prepares the adopted budget for submission to the Local Government Division (LGD) of the Department of Finance and Administration (DFA) by June 1, for interim approval.

Before July 1, DFA grants interim approval of the budget. The County's final annual budget document, which incorporates any changes recommended by DFA/LGD is prepared and submitted to DFA/LGD by July 31. During August, the County's final annual budget is reviewed and certified by DFA/LGD.

After the annual budget is adopted, the following types of adjustments must be approved by the governing body through a resolution and submitted to DFA for review and approval: 1) budget increases, 2) transfers of budget or cash between funds, and 3) budget decreases.

Additionally, it is County policy to prepare an internal budget adjustment request form for the following:

- Transfers within organizational units (between expenditure categories)
- Transfers between organizational units (same department and same fund)

Organizational unit budgets are monitored by the Finance Division to ensure that DFA and County policy are being followed. Additionally, a mid-year budget review is conducted which may include a hearing with the County Manager, Finance Division staff, and department heads and elected officials. During the hearing, department goals and objectives and budget status are reviewed. This review may result in budget adjustments.

The legal level of budgetary control is the fund level. Expenditures may not legally exceed budgeted appropriations at the fund level except for the following funds, whose legal level of budgetary authority is at the program or district level:

Emergency Medical Services  
Fire Districts

The following funds were not budgeted in fiscal year 2014:

Recreation Special Revenue Fund  
Equipment Loan Debt Service Fund

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**N. Encumbrances**

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting is used for purchase orders, contracts, and other commitments for the expenditures of monies to reserve that portion of the applicable appropriation, as an extension of formal budgetary integration. In governmental fund types, encumbrances outstanding at year-end do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year. Significant encumbrances, those greater than \$200,000, are disclosed in the Commitments and Contingencies Note 13.

**O. Net Position**

In the government-wide financial statements, net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. Unrestricted net position represents assets of the County not restricted for any other project or purpose.

**P. Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**NOTE 2 – CLASSIFICATION OF NET POSITION AND FUND BALANCES**

*Fund Balance Classifications:*

Nonspendable – Represents amounts that are not in a spendable form, cannot be spent, or required by legal or other contractual reasons to be maintained intact. This classification includes permanent fund principal, inventory, assets held for sale, prepaids, and long-term receivables net of deferred revenue. At June 30, 2014, the County had \$735,512 in nonspendable fund balance made up of prepaid insurance on boiler and machinery equipment and prepaid insurance on law enforcement.

Restricted – Represents amounts that have been constrained by specific purposes stipulated by external providers, creditors, grantors and other governments, constitutionally, or through enabling legislation. At June 30, 2014, the County had \$146,090,170 in restricted fund balance. Restrictions included bond covenants restricted for capital projects, debt service restrictions, grantor agency restrictions, and other contractual amounts statutorily restricted by State or Federal law.

**STATE OF NEW MEXICO**  
**SANTA FE COUNTY**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2014**

**NOTE 2 – CLASSIFICATION OF NET POSITION AND FUND BALANCES (Continued)**

Committed – Includes amounts that have been committed by formal action by the highest level of authority for specific purposes (via Board of County Commissioners [BCC] action, resolution or adopted ordinance-both equally binding) and can only be changed or lifted by the same formal action. At June 30, 2014, the County had \$1,212,627 in committed fund balance in the Emergency Communications Operations Fund, which represents \$250,000 in capital contingency and the remaining fund balance in excess of statutory restrictions formally committed by the Board of County Commissioners during the budget adoption for the operation of the Regional Emergency Communication Center (RECC). Other committed amounts include a 1/12<sup>th</sup> (one month) fund expense reserve in those funds that directly support County operations and personnel totaling \$2.2M in non major governmental funds, and \$2.8M in major funds. This was adopted by BCC Resolution No. 2008-47, establishing a budget policy, and continues to be formally committed via resolution formally adopting the FY14 budget. In the General Fund, there is an economic contingency reserve of \$7.5M set aside via prior years' BCC actions, to help offset future budget shortfalls relative to unfavorable economic conditions. There is also \$6.3M in committed fund balance set aside for a loan guarantee with Santa Fe Film and Media Studios for the construction of a film and multi-media production studio. Additionally, there is \$12M in fixed asset replacement set aside to replace obsolete, old, and disposed fixed assets.

Assigned – Amounts that are intended to be used for specific purposes by the County, but do not meet the definition of other fund balance classifications. Aside from the General Fund, this category represents the residual fund balance classification for all governmental funds that contain a positive fund balance in excess of nonspendable, restricted, and committed amounts. The County does not have Assigned Fund Balance balances as of June 30, 2014.

The authority to assign fund balance can be that of the Board of County Commissioners, or by an official (usually the County Manager or County Finance Director) that has been delegated that authority. The County had no assigned fund balance in the governmental funds at June 30, 2014, as all fund balance amounts had been classified in their respective category.

Unassigned – This is the fund balance that is the residual classification for the General Fund not contained in other classifications. Only the General Fund can report a positive unassigned fund balance. Other governmental funds may have a negative unassigned fund balance after all restrictions or commitments have been accounted for via other classifications. In the General Fund, the unassigned fund balance at June 30, 2014, was \$6.3M and represents residual fund balance undesignated by other classifications.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**NOTE 3 – CASH AND INVESTMENTS**

At year end, the carrying amount of the County's deposits was \$62,409,170 and the bank balance was \$66,155,241. The difference represents outstanding checks, deposits, and other reconciling items.

**Custodial Credit Risk - Deposits** - Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned. The County has a deposit policy for custodial credit risk; which follows New Mexico law. All deposits with financial institutions must be collateralized in an amount not less than 50% of the uninsured balance.

**NOTE 3 – CASH AND INVESTMENTS (Continued)**

**Credit Quality Risk** - The County has an investment policy that would further limit its investment choices. Risk classifications are limited to primary capital asset ratio of 6.1 percent for “Class A”, 5 percent for “Class B”, less than 5 percent for “Class C”, and less than 2.5 percent for “Class D”. All of the County’s investments in U.S. Agencies in the preceding table were rated Aaa by Moody’s Investors Service and AAA by Standard & Poor’s. The *New MexiGROW* Local Government Investment Pool (LGIP), a government investment pool is rated AAAM by Standard & Poor’s and is authorized by the New Mexico State statute.

**Custodial Credit Risk – Investments** - To control custody risk, State law and the County adopted Investment Policy requires all securities and all collateral for time and demand deposits, as well as repurchase agreement collateral, be transferred delivery versus payment and held by an independent party required to provide original safekeeping receipts. Repurchase agreements must be collateralized to 102%.

The County’s investment in the New Mexico State Treasurer’s Investment Pool represents a proportionate interest in the Pool’s portfolio. The County’s portion is not identified with specific investments and is not subject to custodial risk; however, separately issued financial statements of the Office of the State Treasurer disclose the collateral pledged to secure the State Treasurer’s cash and investments. The most recent report may be obtained by contacting the Office of the State Treasurer, PO Box 608, Santa Fe, NM 87504-0608.

**Concentration of Credit Risk** – Investments in securities of any issues, other than U.S. Treasury Securities, mutual funds, local government investment pool, that represent 5% or more of the total investments at year end are as follows:

	Amount	% of Investments

**NOTE 5 – CAPITAL ASSETS (Continued)**

**Construction Commitments** – At year end, the County had contractual commitments related to capital projects for the construction of County road 98 and Caja Del Rio and other various projects. At year end the County had spent \$14M on the projects and had estimated remaining contractual commitments of \$6.6M. These projects are being funded primarily with bond proceeds and capital outlay gross receipts taxes.

**NOTE 6 – OPERATING LEASES**

The County leases equipment and office space under the provisions of long-term lease agreements classified as operating leases for accounting purposes. Expenditures under the terms of the operating leases totaled \$362,719 for the current fiscal year. The operating leases are subject to future appropriation and, as such, cancelable by the County at the end of a fiscal year. The future minimum rental payments required under the operating leases at year end, were as follows:

Year Ending June 30:		
2015	\$	103,910

**NOTE 7 – LANDFILL CLOSURE AND POST-CLOSURE COSTS**

State and federal laws and regulations require the County to place a final cover on the County-operated landfill when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post-closure care costs will be incurred after the date the landfill stops accepting waste, the County reports these closure and post-closure care costs as a liability as of each balance sheet date. The County closed the landfill during fiscal year 1997. The \$1,899,848 reported as landfill closure and post-closure care liability at year end represents management's estimate based on an expert hired to estimate the costs for standard monitoring and compliance to 2027.

**STATE OF NEW MEXICO  
SANTA FE COUNTY  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**NOTE 7 – LANDFILL CLOSURE AND POST-CLOSURE COSTS (Continued)**

Annual ground water monitoring has demonstrated the County is in compliance with ground water contamination. The County is required to perform monitoring of the ground water every five years. The County estimates it will not expend any significant monies for post-closure costs in the next fiscal year. Current year expenditures of \$16,016 were paid by the General Fund. These amounts are based on what it would cost to perform all closure and post-closure care in fiscal 2014. Actual costs may be higher due to inflation, changes in technology, or changes in regulations; therefore, an amount due within one year is not recorded.

**NOTE 8 – CONDUIT DEBT OBLIGATIONS**

The County has issued Project Revenue Bonds to provide assistance for the El Castillo Retirement Residences Project. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. At year end, there were two series of Project Revenue Bonds outstanding, with an aggregate principal amount payable of \$10,920,000.

The County issued \$3,000,000 multi-family Housing Revenue Bonds in August 1998 to provide assistance for the construction of the Villa Grande Apartments. The bonds are secured by the revenues and mortgage of the property. At year end, the amounts of bonds outstanding were \$2,820,000.

The County issued \$7,400,000 of tax-exempt variable rate and \$2,650,000 of taxable fixed rate Education Facility Revenue Bonds in April 2008 to provide assistance for building an elementary school for the Archdiocese of Santa Fe. The bonds are secured by Education Facility Revenues. At year end, the amounts of bonds outstanding were \$8,535,000.

Total conduit debt outstanding at June 30, 2014, was \$22,275,000. The County is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

**NOTE 9 – BONDS PAYABLE**

Bonds payable at year end consisted of the following outstanding general obligation and revenue bonds. The bonds are both callable and non-callable with interest payable semiannually. Property taxes or gross receipts taxes as applicable from the respective debt service funds are used to pay bonded debt.

Total	<u>\$ 214,470,000</u>	<u>\$ 78,609,813</u>

In prior years, the County defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. At year end, \$10,365,000 of defeased bonds was still outstanding.

**Pledged revenues – governmental activities.** The County has pledged future gross receipts tax revenues to repay outstanding revenue bonds of \$87.5M as of June 30, 2014. Proceeds from the original bond issuances provided financing for the acquisition and construction of major capital facilities and water systems. The bonds are paid solely from the County's gross receipts tax and are payable through 2033. Total annual principal and interest payments for all gross receipts tax revenue bonds are expected to require less than 18% of gross receipts tax revenues. Total principal and interest to be paid on the bonds is \$129.7M. The current total gross receipts tax revenues were \$47.9M and the total principal and interest paid on the bonds was \$7.5M, or 15.6% of gross receipts tax revenues.

<b>Total Significant Encumbrances</b>	<b>\$ 2,833,979</b>	<b>\$ 2,989,643</b>	<b>\$ 5,823,622</b>

**Compliance** – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

**Lawsuits** – The County is a defendant in a number of lawsuits as of June 30, 2014. It is the opinion of management and County counsel that the amount of losses resulting from these litigations at June 30, 2014, would not be material to the financial position of the County.

**NOTE 14 – JOINT POWERS AGREEMENTS AND MEMORANDUM OF UNDERSTANDING**

Significant JPAs and MOUs are as follows:

**Santa Fe Solid Waste Management Agency** - Under authorization of the New Mexico State Statute 11-1-1, Santa Fe County joined the City of Santa Fe to undertake their powers to dispose of solid waste as mandated by state and federal regulations and provide a more efficient and cost-effective method of solid waste disposal to the County and City citizens.

The County and the City established the Santa Fe Solid Waste Management Agency (Agency) through a Joint Powers Agreement in February 1995, as a public entity separate from the County or the City. The agreement delegated to the Agency the power to plan for, operate, construct, maintain, repair, replace, or expand the facility. The County Commission and the City Council approve the annual budget. The Agency has the authority to adopt revenue bond ordinances so long as such an ordinance is duly ratified by the governing bodies of the County and the City. A five member staff advisory committee was established by the agreement and is comprised of the finance directors from the County and the City, the County public works department director, the City utilities department director and the Agency director. A five member citizens' advisory committee was also established. The Agency is charged to comply with all laws, rules and regulations for operations under the permit issued from the New Mexico Environment Department. The Board of Directors for the Agency consists of four members who are appointed by the Board of County Commissioners and four members who are appointed by the City Mayor with the approval of the City Council. The Board meets at least quarterly.

The start-up costs, design, land acquisition and construction were funded by equal contributions from the County and City. The contributions and commitments from each entity to date is approximately \$6.0 million. The County did not contribute any funds to the Agency in the 2014 fiscal year. A final reconciliation has been done to ensure costs have been split equally between the County and City. The facility opened in May of 1997.

The facility is to be self supporting for operations, equipment, future construction, debt service, accumulation of a reserve fund and all other costs through fees charged to the County, the City, and other private users. The land for the facility was purchased by the County and transferred to the Agency. The facility itself belongs to the Agency. The Agency has adopted its rate ordinance for use of the facility. If, for any reason, revenues are insufficient to pay costs of operations, the Agency Board must notify the County and City in order to negotiate steps that are reasonable and prudent in light of existing circumstances to ensure that any deficits accumulated or incurred by the Agency are not allowed to impair the operation, integrity or credit worthiness of the Agency. A bond issue was authorized in December 1996, by the Agency in the amount of \$6,260,000 to provide funds for the equipment required for the facility and the construction of the second landfill cell.

**NOTE 14 – JOINT POWERS AGREEMENTS AND MEMORANDUM OF UNDERSTANDING (Continued)**

The Agency has its own financial statements as a separate entity, audited on an annual basis. Complete financial statements for the Agency may be obtained at the Santa Fe Solid Waste Management Agency, 165 Caja Del Rio Road, Santa Fe, New Mexico 87502-6189.

Closure of the facility must be approved by the governing bodies of the County and City. Upon closure and sale of the facility, any proceeds remaining after settling all obligations will be split equally between the County and City.

**Buckman Direct Diversion (BDD) Water Project** – The City of Santa Fe and the County established a joint powers agreement for the Buckman Direct Diversion (BDD) water project. The BDD project was the largest, single capital project for which the two local governments address meeting the current and future needs of an adequate water supply within the area. Total construction costs for the project were \$224.2M. The Buckman Direct Diversion allows for full access to the San Juan/Chama water rights and/or other native Rio Grande water rights held by the City and County. The system routes Rio Grande surface water directly from the river through a conveyance system to a new water treatment facility where water is conveyed to the various users. Costs incurred have been recorded to the Utilities Department enterprise fund as additions to water rights and the water system.

**La Luz Holdings, LLC, and Santa Fe Film and Media Studios Inc. (Studios)** – The County and La Luz Holdings, LLC, a New Mexico limited liability company, and Santa Fe Film and Media Studios Inc., a New Mexico corporation, entered into a Memorandum of Understanding (MOU) on January 14, 2009, to participate in an economic development project pursuant to the Local Economic Development Act, NMSA 1978 Sections 5-10-1 through 5-10-13 (1993) (as amended). Prior to the MOU, the County enacted Santa Fe County Ordinance No. 1996-07, which provides for economic development projects within the County, and Ordinance No. 2008-07 approving an economic development project with the Studios. Under the terms of Ordinance No. 2008-07 and a Project Participation and Land Transfer Agreement dated October 26, 2010, the County contributed to the economic development project of the film and multi-media production studio by providing water, sewer, broadband and road infrastructure improvements, and an annual water allotment sufficient to develop and operate the project without cost to the Studios. The County entered into a grant agreement with the NM Department of Finance and Administration and the NM Economic Development Department to plan, design, construct, equip and furnish the Studios in the amount of \$10M. There were no current fiscal year costs capitalized.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2014**

**NOTE 15 – RISK MANAGEMENT**

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God. The County belongs to the New Mexico County Insurance Authority (NMCIA) a division of New Mexico Association of Counties (NMAC), a public entity risk pool currently operating as a common risk management and insurance program for its member counties. The County pays an annual premium to NMCIA for its general and law enforcement liability, automobile, property and workers' compensation insurance coverage. The agreement for formation of the NMCIA provides that NMCIA will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of amounts that range from \$150,000 for property to \$300,000 for other liability claims. The County carries commercial insurance for employee health and accident insurance.

**NOTE 16 – PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT ASSOCIATION**

*Plan Description.* Substantially all of the County's full-time employees participate in a public employee retirement system authorized under the Public Employees' Retirement Act (Chapter 10, Article II, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit public employee retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost of living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERA, PO Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at [www.pera.state.nm.us](http://www.pera.state.nm.us).

*Funding Policy.* Plan members (other than police and fire) are required to contribute 14.65% of their gross salary; police are required to contribute 17.80% and fire is required to contribute 17.70% of their gross salary. The County is required to contribute 18.50% for police, 21.25% for all fire and 9.15% for all other plan members. The County elects to contribute 10.99% regular, 10.15% police, and 13.27% fire, of the employee required share of contributions. The contribution requirements of the plan members and the County are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The County's contributions to PERA for the years ended 2014, 2013, and 2012 were \$8.3M, \$7.5M and \$7.2M, respectively, which were equal to the amount of the required contributions for each year.

**NOTE 17 – POSTEMPLOYMENT BENEFITS – STATE RETIREE HEALTHCARE PLAN**

*Plan Description.* The County contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

*Funding Policy.* The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at [www.nmrhca.state.nm.us](http://www.nmrhca.state.nm.us).

The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the employer and employee contributions can be changed by the New Mexico State Legislature. Employers that choose to become participating employers after January 1, 1998, are required to make contributions to the RHCA fund in the amount determined to be appropriate by the board.

**STATE OF NEW MEXICO  
SANTA FE COUNTY  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2014**

**NOTE 17 – POSTEMPLOYMENT BENEFITS – STATE RETIREE HEALTHCARE PLAN (Continued)**

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. For employees that were members of an enhanced retirement plan (police and fire) during the fiscal year ended June 30, 2014, the statute required each participating employer to contribute 2.5% of each participating employee's annual salary; and each participating employee was required to contribute 1.25% of their salary. For employees that were not members of an enhanced retirement plan during the fiscal year ended June 30, 2014, the statute required each participating employer to contribute 2.0% of each participating employee's annual salary; each participating employee was required to contribute 1.0% of their salary. In addition, pursuant to Section 10-7C-15(G) NMSA 1978, at the first session of the Legislature following July 1, 2013, the legislature shall review and adjust the distributions pursuant to Section 7-1-6.1 NMSA 1978 and the employer and employee contributions to the authority in order to ensure the actuarial soundness of the benefits provided under the Retiree Health Care Act.

The County's contributions to the RHCA for the years ended June 30, 2014, 2013 and 2012 were \$780,883, \$733,493 and \$707,098, respectively, which equal the required contributions for each year.

**NOTE 18 – RECENT AND NEW ACCOUNTING PRONOUNCEMENTS**

*Recent Accounting Pronouncements:*

In March 2012, the Governmental Accounting Standards Board (GASB) issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This statement, which is effective for financial statements for periods beginning after December 15, 2012, establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The requirements of this Statement will improve financial reporting by clarifying the appropriate use of the financial statement elements deferred outflows of resources and deferred inflows of resources to ensure consistency in financial reporting. The County adopted GASB Statement No. 65 during fiscal year 2014. The County currently has no deferred outflows. Deferred inflows are reported regarding property taxes, mortgages and down payment assistance and unavailable revenue. During fiscal year 2014, the County included \$1,135,318 of previously unamortized bond issuance items in interest expense. The amount is not significant to users of the financial statements and is included in current year expenses.

In March 2012, the GASB issued Statement No. 66, *Technical Corrections – 2012 - an amendment of GASB Statements No. 10 and No. 62*. This statement, which is effective for financial statements for periods beginning after December 15, 2012, amends Statement No. 10,

**STATE OF NEW MEXICO**

**NOTE 18 – RECENT AND NEW ACCOUNTING PRONOUNCEMENTS (Continued)**

Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, by removing the provision that limits fund-based reporting of an entity's risk financing activities to the general fund and the internal service fund type. This Statement also amends Statement 62 by modifying the specific guidance on accounting for (1) operating lease payments that vary from a straight-line basis, (2) the difference between the initial investment (purchase price) and the principal amount of a purchased loan or group of loans, and (3) servicing fees related to mortgage loans that are sold when the stated service fee rate differs significantly from a current (normal) servicing fee rate. The requirements of this Statement resolve conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting and thereby enhance the usefulness of the financial reports. The adoption of GASB Statement No. 66 had no effect on the County's financial statements.

In June 2012, the GASB issued Statement No. 67, *Financial Reporting for Pension Plans—an amendment of GASB Statement No. 25*. This statement, which is effective for financial statements for periods beginning after June 15, 2013, replaces the requirements of Statements No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, and No. 50, Pension Disclosures, as they relate to pension plans that are administered through trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of this Statement will improve financial reporting primarily through enhanced note disclosures and schedules of required supplementary information that will be presented by the pension plans that are within its scope. The County is a participant in the State of New Mexico's Public Employee Retirement Association (PERA). PERA as the plan's administrator, implemented this new pronouncement during fiscal year 2014.

In April 2013, the GASB issued Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*. This statement, which is effective for financial statements for periods beginning after June 15, 2013, requires a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. This Statement requires a government that has issued an obligation guaranteed in a nonexchange transaction to recognize revenue to the extent of the reduction in its guaranteed liabilities. The requirements of this Statement will enhance comparability of financial statements among governments by requiring consistent reporting by those governments that extend nonexchange financial guarantees and by those governments that receive nonexchange financial guarantees. The adoption of this pronouncement required the County to evaluate its guarantee with the Santa Fe Film and Media Studios for the construction of a film and multi-production studio in the amount of \$6.3M. The County concluded that there were no qualitative factors or historical data that required the County to record the guarantee as a liability on its Statement of Net Position.

**NOTE 18 – RECENT AND NEW ACCOUNTING PRONOUNCEMENTS (Continued)**

*New Accounting Pronouncements:*

The following GASB pronouncements have been issued, but are not yet effective at June 30, 2014.

- GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. Upon adoption of this statement for the year ended June 30, 2015, the Statement of Net Position will include a material liability for pension participation in fiscal year 2015.
- GASB Statement No. 69, *Government Combinations and Disposals of Government Operations*
- GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*

The County will implement the new GASB pronouncements in the fiscal year no later than the required effective date. The County believes that the GASB 69 and 71 pronouncements will not have a significant financial impact to the County or in issuing its financial statements.

**NOTE 19 – DEFICIT FUND BALANCE**

Generally accepted accounting principles require disclosure of deficit fund balance of individual funds. The Housing Capital Improvement fund had a deficit fund balance in the amount of \$8,460 as of June 30, 2014.

**NOTE 20 – RESTATEMENT**

Governmental activities net position at June 30, 2013 was restated in the net amount of \$4.6 million as a result of the following:

- \$18.9 million in infrastructure pertaining to roads had been internally tracked by the County; however, the balance was not capitalized into infrastructure for the fiscal years 2004 through 2013.
- Approximately \$8 million of accumulated depreciation on \$31 million in infrastructure that was capitalized as a result of the GASBS 34 implementation was not reflected within the Statement of Net Position.
- An individual capital assets re-calculation of accumulated depreciation identified a variance in the aggregate reported balances requiring restatement by approximately \$6.3 million.

## NON-MAJOR SPECIAL REVENUE FUNDS

The following non-major special revenue funds are maintained by the County.

**Regional Transit** – To account for a 1/8% gross receipts tax imposed on 7/1/09 in support of the North Central Regional Transit District. Funds are remitted in their entirety to the District and 50% is dedicated to the Rail Runner, 14% of the remaining 50% is used for administrative costs of the District and the balance is used for Santa Fe County mass transit projects.

**Corrections** – To account for corrections fees levied by the Magistrate courts (e.g. a \$10 fee associated with a speeding or seat belt violation) are distributed to the County. This revenue is utilized in the local corrections system. These funds are to be used for the operation of the County jail and other costs related to housing County prisoners. See Section 33-3c25, NMSA 1978 Compilation.

**Property Valuation** – To establish and account for a one-percent administrative charge assessed against the property tax collections of all taxing entities in the County. This revenue is utilized by the Assessor in property valuations. See NMSA Compilation Section 7, Article 38-38-1.

**Road Maintenance** – To establish and account for revenues consisting of half of the vehicle registration fees in the County (the other half goes to municipalities), and a 21 cent per gallon gasoline tax, both collected and distributed to the County by the State of New Mexico. Also, the federal government collects a logging fee of which 25% is distributed to school districts and the County Road Fund. However, Road Fund expenses are also funded by transfers from the General Fund. State law mandates that the Road Fund expenses are funded by transfers from the General Fund. State law mandates that the Road Fund be utilized for "the construction, reconstruction, improvement and maintenance of County roads ..." See Section 67-4-1, NMSA, 1978 Compilation

**Emergency Medical Services** – To establish and account for the Emergency Medical Services Fund Act (NMSA 1978 Chapter 24, Articles 10A&B) which makes funds available from the State general fund "to incorporated municipalities, counties, or fire districts for use in establishment of emergency medical services, in order to reduce injury and loss of life." See Section 24-10A-1, NMSA 1978 Compilation.

**Farm and Range** – To establish and account for the Farm and Range Improvement Act which directs the County commissioners to expend funds that are derived from the state's share of the 1934 Taylor Grazing Act public lands grazing district fees paid to the Bureau of Land Management. The funds may be used for the purposes of soil and water conservation, control of rodents and predatory animals, extermination of poisonous noxious weeds, and construction and maintenance of secondary roads within the County. See Section 6-11 -6, NMSA, 1978 Compilation.

**Fire Protection** – To establish and account for revenues of the Fire Protection Fund revenues are derived from County-levied Fire Protection fees, and fees on property and motor vehicle insurance businesses, which are collected by the State. Fire Protection Fund distributions to the County must be used for maintenance of fire departments, the purchase, construction, maintenance, repair and operation of fire stations and substations, fire apparatus, and equipment, and the payment of insurance premiums on fire stations, substations, and fire fighters. See Section 59A-53-5, NMSA, 1978 Compilation.

**Law Enforcement Protection** – To account for revenues derived from 10% of fees, licenses, penalties, and taxes from life, general casualty, and title insurance business pursuant to the New Mexico Insurance Code (Chapter 59A, NMSA, 1978). A distribution of this revenue is made to the County on the basis of population and the number of full-time certified County police officers. Proceeds from this fund may be spent on law enforcement equipment, advanced law enforcement training, and as a match to federal law enforcement grants.

## **NON-MAJOR SPECIAL REVENUE FUNDS (Continued)**

**Environmental GRT** – To establish and account for the pledged 1/8<sup>th</sup> cent gross receipts tax enacted in 1999 that was used to pay off principal and interest related to the County's Environmental Revenue Bonds, and is also used for the purpose of acquiring, construction, operation and maintenance of solid waste, water & wastewater facilities.

**Lodgers Tax** – To establish and account for a four percent (4%) Hotel/Motel occupancy tax as the source of revenue to the two Lodgers Tax funds. Fifty percent (50%) of the proceeds from the first three percent (3%) and 100% of the next one percent (1%) of the occupancy tax is used for advertising tourist attractions in Santa Fe County. Fifty percent (50%) of the proceeds from the first three percent (3%) of the occupancy tax is designated to equip, furnish, and improve tourist facilities and to administer the tax. Established pursuant to Santa Fe County Lodgers' Occupancy Tax Ordinance No. 1999-10.

**Fire Impact Fees** – To establish and account for fees charged for new development, review, inspection, and permit required applications pursuant to Santa Fe County Fire Code, ordinance 1998-11. The proceeds are primarily used for capital improvements and facility expansion.

**Recreation** – To account for one cent of a 21 cent per pack state cigarette tax designated for "County and municipal recreation funds." The fund is designated for "operating recreational facilities, including salaries of instructors and other employees." See Section 7-12-15, NMSA, 1978 Compilation.

**Clerk Recording** – To account for the fee for recording deeds, mortgages, contracts, liens, bills of sale, power of attorney, mining location, transcript of judgment, etc. is \$9 for the first page and \$2 for each subsequent page. Of this fee, \$4 of the \$9 for the first page is designated as an equipment recording fee and is received into this fund. New Mexico law stipulates that this fund is designated "for the purchase of equipment associated with recording, filing, maintaining or reproducing documents." See Section 14-8-12.2, NMSA, 1978 Compilation.

**Correctional GRT** – To account for a 1/8<sup>th</sup> cent County-wide gross receipts tax approved by the voters in 2004. This fund handles the receipt of the corrections gross receipts tax. Proceeds from this fund are transferred to the Corrections Operations fund for the operation of the Adult Detention Facility.

**Indigent Hospital** – To establish and account for a 1/8 cent Gross Receipts Tax levied in the entire County and received into this fund is dedicated to providing payment for the Sole Community Provider Program.

**Indigent Services** – To account for hospital care, ambulance services or other health care services to indigent people living in the County. In addition, the fund provides revenues to match federal funds to the State Medicaid program. See Section 7-20-2, NMSA, 1978 Compilation.

**Economic Development** - To establish and account for services in support of economic diversification, transition, and development programs within Santa Fe County. As per the Department of Energy's Economic Development Community Assistance Program pursuant to Section 3161 of the 1993 Defense Appropriations Act.

**Federal Forfeiture** – To establish and account for money from federal seizures associated with anti-drug law enforcement activities received in this fund and spent by the Sheriff's Office on these activities. Revenue in this fund is not anticipated in the initial budget, but receipts occur during the fiscal year. Established by the County to account for federal forfeiture monies required by federal statute.

## NON-MAJOR SPECIAL REVENUE FUNDS (Continued)

**Linkages** – To account for a rental assistance program specific to families with identified disabilities funded by the New Mexico Mortgage Finance Authority.

**Housing Choice Voucher Sect. 8** – To account for rent subsidies received from HUD for "vouchers" to low-income persons renting housing in the private sector. This fund was created in accordance with the HUD contract.

**EMS Health Care** – To account for the containment of health service payments received through a 3<sup>rd</sup> Party and other receipts to benefit the County's health programs and could fund the Regional Emergency Communications Center and Fire Operations.

**Wildlife/Mountains/Trails** – To account for County Resolution No. 2000-57 that requires, "in all future property acquisition negotiations for Wildlife, Mountains, Trails and Historic Places Program, that participating landowners donate at least 5% of the fair market value of properties, as determined by an appraisal, in lieu of a real estate commission ..." to fund capital improvements and maintenance of properties acquired for the Program." This is paid through the title company to the County as part of the closing of the purchase of the property.

**EMS Health Hospital** – To account for a fund created to contain the 1/8 cent Gross Receipts tax dedicated to emergency services.

**Alcohol Programs** – To account for state grants for DWI and alcohol education grants and programs.

**Detox Programs** – To account for federal and state grants for the construction and operation of Detox Facilities in the County.

**Emergency Communication Operations** – To account for the operation and management of the Regional Emergency Communication Center, which is the dispatch center for all emergency calls taken in the City and County of Santa Fe.

**Law Enforcement Operations** – This fund accounts for the operations of the County Sheriff, including grants pertaining thereto. Non-grant funding comes through a transfer of property taxes from the General Fund. This fund was established in fiscal year 2010 to isolate the operations of the Sheriff's Office in its own fund, especially due to the volume of grants that needed to be segregated from the General Fund. Prior to fiscal year 2010 the revenues and expenditures were recorded in the General Fund.

**Housing Capital Improvement** – To account for the Capital Fund Program (CFP) funded by the U.S. Department of Housing and Urban Development (HUD). These monies are used to make comprehensive repairs to the existing public housing of Santa Fe County, and are applied for and granted on an annual basis. This fund was created in accordance with the grant agreement.

## NON-MAJOR DEBT SERVICE FUNDS

The following non-major debt service funds are maintained by the County.

**GOB Debt Service** – To establish and account for the pledged property taxes and payment of principal and interest related to the County’s General Obligation Bonds.

**Equipment Loan Debt Service** – To establish a budget and account for the pledged revenues and payments of principal, interest, and other costs related to the borrowings through the NMFA. This fund was formerly called NMFA Debt Service.

**Jail Revenue Bond Debt Service** – To account for pledged property taxes and the payment of principal and interest related to the County’s Jail Facility Bonds.

**GRT Revenue Bond Debt Service** – To account for funds and the interest earned on those funds that have been set aside from the County’s Sheriff Facility Bond, Capital Outlay GRT Bond Series 2008 (Judicial), Series 2009 (Water Rights), and Series 2010A & 2010B (BDD) proceeds as a reserve fund. These funds will be used to repay principal and interest relating to the bonds if inadequate pledged gross receipts taxes are collected.

**WTB Loan/Grant Debt Service** – To establish and account for loan revenue and payments of principal, interest and other debt service costs for the Water Trust Board Loan.

## NON-MAJOR CAPITAL PROJECTS FUNDS

The following non-major capital projects funds are maintained by the County.

**Community Development Block Grants (CDBG)** – To establish and account for CDBG Grants funded by the U.S. Department of Housing and Urban Development (HUD) passed through and administered by the State of New Mexico Department of Finance and Administration and other projects funded by outside donations.

**Capital Projects-Federal** – To account for the ARRA funds received for environmental remediation and prevention issues at the site of the District Courthouse construction project.

**Road Projects** – To account for the revenue and expense for road projects conducted by the County. Only those road projects with present agreements for funding are included in the fiscal year budget. Established by the County to account for funding from the New Mexico Department of Transportation and other sources for road improvements. The fund was created by the Board of County Commissioners.

**Special Appropriations & Other Projects** – To account for revenue and expense for state granted facility construction projects. The fund contains only those projects which have signed grant agreements. As other project agreements are made during the fiscal year they will be added to the budget.

**General Obligation Bond (GOB) Series 2005 - Roads/Water** – To account for the issuance of a Public Works bond in the amount of \$20.0 million to be used for various public works projects including certain road projects within the scope of the bond. This capital project fund contains the proceeds of this bond, and the debt on this bond is paid with property taxes through the General Obligation Bond Debt Service Fund.

**General Obligation Bond (GOB) Series 2007A - Judicial** – To account for the issuance of a bond in the amount of \$25.0 million to be used for the District Courthouse project. This capital project fund contains the proceeds of this bond. The debt on this bond is paid with property taxes through the General Obligation Bond Debt Service Fund.

**General Obligation Bond (GOB) Series 2007B - Roads/Water** – To establish and account for the issuance of a bond in the amount of \$20.0 million to be used for water and road infrastructure. This capital project fund contains the proceeds of this bond. The debt on this bond is paid with property taxes through the General Obligation Bond Debt Service Fund.

**Capital Outlay GRT Series 2008 - Judicial** - This fund accounts for the issuance of a bond in the amount of \$30,000,000 to be used for the construction of the Judicial Complex. This capital project fund bond is paid with gross receipts taxes.

**General Obligation Bond (GOB) Series 2008 - BDD** – To account for a \$32.5 million bond issued for the purpose of acquisition of real property for, and construction, design, equipping, rehabilitation and improvement of water improvements within the County.

**General Obligation Bond (GOB) Series 2009 - R,W,OS,SW,F** – To account for a \$17 million bond issue for the purpose of improving open spaces; trails and parks, County roads; fire safety facilities, water projects and solid waste transfer stations. The debt on this bond is paid with property taxes through the General Obligation Bond Debt Service Fund.

## NON-MAJOR CAPITAL PROJECTS FUNDS (Continued)

**Capital Outlay GRT Series 2009 - Water Rights**– To account for the issuance of a bond in the amount of \$12,090,000 for the purpose of purchasing water rights for use in connection with County water projects and paying all costs pertaining to the issuance of the bonds.

**Capital GRT Bond Series 2010B - BDD** – To account for the issuance of a bond in the amount of \$10,195,000 for the purpose of defraying a portion of the cost of constructing the Buckman Direct Diversion Project and paying all costs pertaining to the issuance of the bonds.

**General Obligation Bond (GOB) Series 2011 - R,W,OS,SW,F Imp. & Refunding Fund** - To account for a \$17.5 million bond issue for the purpose of refunding GOB 2001A and improving open spaces; trails and parks; County roads; fire safety facilities; water projects and waste transfer. The debt on this bond is paid with property taxes through the General Obligation Bond Debt Service Fund.

**Equipment Loan Proceeds** – To account for low-interest loans from the NMFA to purchase capital equipment. Payments on equipment loans are made through the Equipment Loan Debt Service Fund (403).

**General Obligation Bond (GOB) Series 2013** - To account for a \$19 million bond issue for the purpose of improving open spaces; trails and parks, County roads, water projects and solid waste transfer stations. The debt on this bond is paid with property taxes through the General Obligation Bond Debt Service Fund.

**General Obligation (GO) Bond Series 2001 - Roads/Fire** – To account for an \$8.5 million bond issue of which \$4.5 million is for the purpose of buying land, construction, remodeling, and making additions to County buildings used for public safety purposes and for fire equipment and facilities. \$4.0 million of the bond is for buying land and constructing buildings for public works (road maintenance, solid waste). The debt on this bond is paid through property taxes through the General Obligation Bond Debt Service Fund.

**Facility Bond 1997 - Public Safety** – To establish and account for revenue from the \$6.0 million Gross Receipts Tax subordinate 1997-A bond, designated for the construction of the new Sheriff and Fire Facility. This facility is essentially complete and the current fiscal year budget expends the remainder of bond proceeds from construction and building fixtures. Debt is retired on this bond in the GRT Debt Service Fund.

**Fire Tax Revenue Bond Proceeds**– To establish and account for revenue from the \$2.2 million Fire Protection Bond, designated for construction of fire facilities and the purchase of firefighting equipment. Debt retirement of this bond is through payments from the 1/4 cent Fire Excise Tax on Gross Receipts in the Fire Tax Debt Service Fund.

**General Obligation (GO) Bonds Series 2001 - Open Space**– To account for the proceeds from the 1999 Open Space Bonds and 2001 Open Space Bonds. Retirement of the debt is financed through property taxes. The debt on this bond is paid through property taxes through the General Obligation Bond Debt Service Fund.

Notes:  
(a) Total Tax Levy is subject to change between years due to omitted bills and corrected bills.

The Year is the tax year based on the date the bill is sent out (i.e. Tax Year 2011 is the billing sent out November 1, 2011)  
The Collections are based on the Fiscal Year that ends on June 30 after the tax year  
(i.e. Collections within tax year 2011 are through FY 2012 which ended June 30, 2012)

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission  
Santa Fe County  
and Mr. Hector H. Balderas  
New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information, the budgetary comparisons of the general fund and major special revenue funds of Santa Fe County, New Mexico ("County"), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and the combining and individual funds and related budgetary comparisons of the County, presented as supplemental information, and have issued our report thereon dated November 14, 2014.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be a material weakness.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs to be a material weakness. 2013-001.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with

governance. During our audit we did not identify any deficiencies in internal control that we consider to be a significant deficiency.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2013-002 and 2014-002.

### **County's Response to Findings**

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM  
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

To the County Commission  
Santa Fe County

and Mr. Hector H. Balderas  
New Mexico State Auditor

**Report on Compliance for Each Major Federal Program**

We have audited Santa Fe County, New Mexico's ("County") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2014. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

## Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

## Other Matters

The results of our auditing procedures disclosed one instance of noncompliance, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 2014-001. Our opinion on each major federal program is not modified with respect to this matter.

The County's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

## Report on Internal Control over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
Year Ended June 30, 2014**

**B. FINANCIAL STATEMENT FINDINGS**

**2013-001 [13-01] Prior Period Adjustment (Material Weakness) - revised and repeated**

*CONDITION*

During our testing of the current year capital asset balances for governmental activities, it was identified that road projects, which aggregated to approximately \$18.9 million, that occurred during the period July 1, 2003, to June 30, 2013, were not capitalized as a depreciable asset on the Statement of Net Position. It was further identified that accumulated depreciation on government and enterprise capital assets was understated by approximately \$14.3 million. Correction of these identified items required a \$4.6 million prior period adjustment to restate the July 1, 2013, beginning net position as reported in the June 30, 2014, financial statements.

*CRITERIA*

GASB Codification Section 1400, *Reporting Capital Assets*, paragraph 131 requires that assets be capitalized when outlays for the asset have been made and when activities that are necessary to get the asset ready for its intended use are in progress. Furthermore, paragraph 104 of the same codification requires that capital assets including infrastructure be depreciated over their estimated useful lives. Finally, sound accounting policies require that a complete, balanced general ledger be maintained to record transactions and report financial information.

*EFFECT*

The absence of true and accurately reported assets can mislead the users of the financial statements and/or bonding agencies as they solely rely on the financial statements and do not have access to separately tracked schedules of infrastructure.

*CAUSE*

The County has been tracking capital projects related to roads separately from the subsidiary ledger in their AS400 accounting system. Furthermore, there was confusion on the implementation of GASBS 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as to whether the assets should have been capitalized. As such the FY2004 assets were not capitalized and the absence of capitalization continued through FY2013 (However, were separately tracked during that period of time). Accumulated depreciation was identified in subsequent audits to be functioning correctly in calculating the balance for the current fiscal years depreciation (utilization of the module was not until 2010); however, there was question in prior fiscal years as to whether the fixed assets module should be used. As a result the related depreciation was not tracked within the system for a period of time which caused accumulated depreciation to not reflect the accurate balance.

*RECOMMENDATION*

It is recommended that the County establish a reconciliation process which tracks road projects which are subject to capitalization and reflected within the Statement of Net Position and those that are not subject

to capitalization, due to County Commission setting a \$250,000 threshold as a capitalization floor, but which are reported to the County Commission as having been structurally maintained by the public works department. The mileage generated from these two schedules should subsequently be reconciled, on an annual basis, to the road mileage certification that is presented and certified by the County Commission. It is further recommended that the County consider capitalizing all roads into their AS400 system to assist with tracking of the assets as to avoid risk for loss of the related data.

*MANAGEMENT RESPONSE*

The certification presented by the public works road division is a physical inventory of all of the roads owned and structurally maintained by Santa Fe County. The County finance division will work with the public works road division to reconcile disbursements related to the roads listed on the annual public works certification to determine a beginning point for a reconciliation process. The capital asset detail for all capitalized road acquisitions, for all fiscal years, does exist and will be used as a point of comparison to the road certification.

The County will continue to update existing accounting policies and procedures to ensure that all capital costs, whether they are tracked within the capital assets software or outside of the capital assets software, are accounted for in the Statement of Net Position.

**2013-002 [13-02] Payroll Disbursements Transaction Cycle (Other Matters) - revised and repeated**

*CONDITION*

Through the course of the current year audit pertaining to the payroll disbursements transaction control cycle we noted that in a sample of 40 tested, two employees gross pay did not calculate correctly. As a result of the gross pay not calculating, one employee was found to be underpaid by \$1.77 and the other by \$21.90.

*CRITERIA*

6-5-2C NMSA 1978 states that an entity shall implement internal accounting controls designed to prevent accounting errors and violations of state and federal law and rules related to financial matters.

*EFFECT*

Inaccurate processing of payroll transactions and inadequately kept payroll records increases risk for unauthorized or erroneous payroll transactions to occur during the fiscal year.

*CAUSE*

The cause of the gross pay calculation error was identified to be an error in the payroll system Code 16 used to calculate shift differentials for certain classifications of employees.

*RECOMMENDATION*

It is recommended that the County evaluate the extent of the Code 16 error, discuss with their system support whether there is a fix to the issue or remove the Code from being an available code from which to process payroll.

*MANAGEMENT RESPONSE*

The payroll Code 16 was corrected in the payroll system to no longer allow for the blending of rates for shift differentials. The system changes made to code 16 were verified by staff and manual calculations were completed to ensure that the system would process an employees pay to their base rate rather than "blending rates". As an additional precautionary measure, staff has eliminated the use of the premium hours (PH) classification to ensure that the blending of rates will not occur.

**C. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

**2014-001 Special Tests (noncompliance - other matters)**

*Federal program information:*

Funding agency:	U.S. Department of Housing and Urban Development
Title:	Public and Indian Housing
CFDA Number:	14.850
Award year:	2013

*CONDITION*

During our testing of the tenant participation funds it was noted that the County did not have a current agreement in effect with the related residence councils for the fiscal year; therefore, we were unable to test that the funding provided for tenant participation had been allocated to the residence councils in accordance with the written agreement.

*CRITERIA*

24 CFR section 964.150 identifies that funding provided by a public housing authority to a duly elected resident council may be made only under a written agreement between the public housing authority and the resident council that includes a resident council budget.

*QUESTIONED COSTS*

None

*EFFECT*

The absence of an agreement can cause inaccurate allocation of tenant participation funds to the related residence councils. As a result of the inaccurate allocation, the residence council may not be able to function as intended to improve the quality of life and resident satisfaction and may not be able to participate in self-help initiatives to enable its residents to create a positive living environment.

*CAUSE*

The prior fiscal year agreement was not renewed into the current fiscal year.

*RECOMMENDATION*

We recommend that the County implement a mechanism to track all agreements entered into and to implement a procedure for flagging the responsible department when certain action is required under that agreement.

**2014-001 Special Tests (noncompliance - other matters) - Continued**

*MANAGEMENT RESPONSE*

Current agreements have been established. The Housing staff has established a procedure to ensure that the agreements are renewed timely. Annually, the Housing Manager/Director will ensure that an updated agreement is in place before June 30<sup>th</sup>.

**D. COMMENTS INCLUDED IN ACCORDANCE WITH NEW MEXICO STATE AUDITOR  
RULE**

**2014-002 Procurement (noncompliance - other matters)**

*CONDITION*

Through our procurement testing of a sample of 10 procurements, we identified four procurements in which the County's procurement was not in compliance with New Mexico statute as referenced in the criteria section below.

*CRITERIA*

Section 13-1-154 NMSA 1978, *Multiple Source Award; determination required*, states that the office (Procurement Department) shall make an official determination setting out the reasons for a multiple source award (not completed in the procurements tested). Section 13-1-154C(1) further states that the advertisement and request for proposals shall state that multiple contracts may or will be awarded, the number of contracts that may or will be awarded and the description of the services or construction to be performed under each contract. Evaluation of the advertisement and request for proposal did not identify this required language.

*EFFECT*

Submitting a request for proposal without identifying to the potential vendors that the contract will be awarded to multiple vendors could have caused potential vendors not to bid or cause potential vendors who bid on the project to have to reject due to the multi-sourced nature of the request for proposal. Furthermore, the absence for justification of executing a multi-sourced award may cause future question as to the original intent of the request for proposal and whether it is appropriate given the circumstances at the time of the proposal process.

*CAUSE*

The procurement department was unaware of the statutes requiring that the multi-source award be justified or of the requirement that the request for proposal required disclosure of the above referenced criteria under 13-1-154C(1) NMSA 1978.

**D. COMMENTS INCLUDED IN ACCORDANCE WITH NEW MEXICO STATE AUDITOR  
RULE (CONTINUED)**

**2014-002 Procurement (noncompliance - other matters) - Continued**

*RECOMMENDATION*

It is recommended that the County procurement department review the referenced statute related to multi-sourced awards and incorporate the criteria in future procurements.

*MANAGEMENT RESPONSE*

The Purchasing staff will update the policies to require that memos are maintained in the procurement files to document the choice of a multiple source award for adequate delivery or service, if it is in the best interest of the County. The memo will include information relative to the number of contracts that may be awarded, and the description of services or construction to be performed under the contracts.
