#### INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq., New Mexico State Auditor The U.S. Office of Management and Budget and The Socorro County Commissioners Socorro County Socorro, New Mexico

### **Report on Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of Socorro County, New Mexico (the "County"), as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the County's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

#### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of El Camino Real Housing Authority or Socorro Village, which represent 6%, 4%, and 20% respectively of the assets, net position, and revenues of Socorro County. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for El Camino Real Housing Authority and Socorro Village, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2019, and the respective changes in financial position thereof and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

### Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Accounting principles generally accepted in the United States of America required that the Public Employee Retirement Association (PERA) Pension Plan Schedules on pages 70-78 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedure to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during out audit of the basic financial statements. We do not express an opinion or provide any assurance on the information

because the limited procedures do not provide us with sufficient evidence to express an opinion or proved any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, the combining nonmajor fund financial statements, the schedule of expenditures of federal awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), the Supporting Schedules required by 2.2.2 NMAC as listed in the table of contents, and other disclosures are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements, the schedule of expenditures of federal awards, and the Supporting Schedules required by 2.2.2 NMAC listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the schedule of expenditures of federal awards, and the Supporting Schedules required by 2.2.2 NMAC as listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section and other disclosures have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 2, 2020, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

### Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2019

Amounts reported for governmental activities in the Statement of Activities are different because:

| Activities are different because:   |  |

| Net change in fund balances - total governmental funds  | \$<br>591,159                                  |
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:   |  |
| Capital expenditures Depreciation expense Donated capital assets Loss on disposal of capital assets   | 2,025,064<br>(2,047,791)<br>23,400<br>(20,592) |
| Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenue in the funds:   |  |

| Governmental funds report county pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense:  |  |
| County pension contributions Pension expense  | 384,398<br>(990,352)                           |
| The issuance of long-term debt (e.g. bonds, notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt and reduction of landfill liability consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. The refunding of loan principal is recognized only in net position and does not affect governmental fund balances: |  |

#### **NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Socorro County (the "County") is a political subdivision of the State of New Mexico established under the provision of Section 14-14-1 of NMSA, 1978 Compilation and regulated by the Constitution of the State of New Mexico. The County operates under a Board of County Commissioners-manager form of government and provides the following services as authorized by public law: public safety (sheriff, fire, emergency medical, etc.), roads, health and social services, recreation, sanitation, planning and zoning, property assessment, tax collection and general administrative services.

Socorro County is a body politic and corporate under the name and form of government selected by its qualified electors. The County may:

- 1. Sue or be sued;
- 2. Enter into contracts and leases;
- 3. Acquire and hold property, both real and personal;
- 4. Have a common seal, which may be altered at pleasure;
- 5. Exercise such other privileges that are incident to corporations of like character or degree that are not inconsistent with the laws of New Mexico.
- 6. Protect generally the property of its county and its inhabitants;
- 7. Preserve peace and order within the county; and
- 8. Establish rates for services provided by the County utilities and revenue-producing projects, including amounts which the governing body determines to be reasonable in the operation of similar facilities.

This summary of significant accounting policies of Socorro County is presented to assist in the understanding of Socorro County's financial statements. The financial statements and notes are the representation of Socorro County's management who is responsible for their integrity and objectivity. The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental entities.

During the year ended June 30, 2019, the County adopted GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements* and GASB Statement No. 83, *Certain Capital Asset Retirement Obligations*. These statements are required to be implemented as of June 30, 2019, if applicable. These statements did not have a significant impact on the County.

### A. Financial Reporting Entity

In evaluating how to define the County, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statement No. 14, as amended by GASB Statement Nos. 39, 61 and 80. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity.

### **Discretely Presented Component Units**

El Camino Real Housing Authority (formerly Socorro County Housing Authority) (the "Authority") has been determined to be a component unit of the County that should be discretely presented in the County's financial statements pursuant to the criteria described above. Socorro Village is a component unit of the Authority that should be discretely presented in the Authority's financial statements pursuant to the criteria described above. The Authority and the Village were audited by another auditor and have separately issued financial statements and all exhibits, schedules, and footnotes are included in their financial statements. The component unit's activities and additional information regarding the Housing Authority and Socorro Village's separate audit report for the period ended June 30, 2019 may be obtained from their administrative office as follows: Housing Authority of Socorro County, PO Box 00, Socorro, NM 87801.

### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The County does not have any *business-type activities*.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Non-exchange Transactions.

In the government-wide Statement of Net Position, the governmental column (a) is presented on a consolidated basis by column, (b) and is reported on a full accrual, economic resource basis, which recognize all long-term assets and receivables as well as long-term debt obligations. The County's net position are reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements of time, reimbursement and contingencies imposed by the provider are met.

### **NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, subject to the availability criterion. Sales and use taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place and the revenues are measurable and are subject to the availability criterion. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All other revenue items are considered to be measurable and available only when cash is received by the government. The County had no tax abatements requiring separate disclosure under GASB Statement No. 77.

Program revenues included in the Statement of Activities are derived directly from the program itself or from parties outside the County's taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the County's general revenues. Program revenues are categorized as (a) charges for services, which include revenues collected for fees and use of County facilities, etc., (b) program-specific operating grants, which include revenues received from state and federal sources such as small cities assistance to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues from state and federal sources to be used for capital projects. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

The County reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. The County does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred, all other grant requirements have been met and the availability criterion have been met.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Under the requirements of GASB Statement No. 34, the County is required to present certain of its governmental funds as major based upon certain criteria. The major funds presented in the fund financial statements include the following:

The *General Fund (401)* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Road Special Revenue Fund (402) is used to account for revenues and expenditures for control of road maintenance. Funding is from state shared revenue. This fund was created by authority of state statutes (see Section 67-4-1, NMSA 1978 Compilation).

The Jail Detention Fund Special Revenue Fund (415) is used to account for proceeds that must be used for operating, maintaining, constructing, purchasing, furnishing, equipping, rehabilitating, expanding or improving a judicial-correctional or county correctional facility or the grounds of a judicial-correctional or county correctional facility, including acquiring and improving parking lots, landscaping, transporting or extraditing prisoners or for the payment of principal and interest on revenue bonds. The authority to create this fund was given by 7-20F-1 through 7-20F-12, NMSA 1978 Compilation.

Additionally, the government reports the following fiduciary fund:

Agency funds are purely custodial (assets equal liabilities) and do not involve measurement of results of operations. The County's fiduciary fund is used to account for the collection and payment of property taxes and special fees to other governmental agencies.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Net Position or Fund Equity

**Deposits and Investments:** The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the County to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Local Government Investment Pool (LGIP).

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Net Position or Fund Equity (Continued)

**Fair Value Measurements:** The fair value framework uses a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). As of June 30, 2019, there is one investment that is required to be valued using valuation techniques. See Note 3 for details.

**Receivables and Payables:** Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting funds and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, property taxes are recorded as revenue when levied net of estimated refunds and uncollectable amounts.

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10<sup>th</sup> and April 10<sup>th</sup>. Property taxes uncollected after May 10<sup>th</sup> are considered delinquent. The taxes attach as an enforceable lien on property as of January 1<sup>st</sup>.

**Prepaid Expenses:** Prepaid expenses include insurance and contract payments to vendors and reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide financial statements and fund financial statements.

**Restricted Assets:** Restricted assets consist of those funds expendable for operating purposes but restricted by debt service and capital outlay projects as to the specific purpose for which they may be expended.

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Net Position or Fund Equity (Continued)

**Capital Assets:** Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year.

Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Socorro County was a phase III government for purposes of implementing GASB 34. Therefore, the County was not required to report its major general infrastructure assets retroactively to June 30, 1980. However, the County did elect to include infrastructure assets retroactively to June 30, 1980 as part of their asset balance, in order to implement GASB 34. Information Technology Equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). Donated capital assets are recorded at acquisition value at the date of donation. Donated assets for the year ended June 30, 2019 were \$23,400.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. No interest was included as part of the cost of capital assets under construction.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

| Assets                             | Years |
|------------------------------------|-------|
| Buildings and improvements         | 20-40 |
| Infrastructure                     | 50    |
| Furniture, fixtures, and equipment | 5-20  |

**Accrued Expenses:** Accrued expenses are comprised of the payroll expenditures based on amounts earned by the employees through June 30, 2019, along with applicable Social Security and Medicare payable.

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Net Position or Fund Equity (Continued)

Deferred Inflows of Resources: In addition to liabilities, the balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Revenue must be susceptible to accrual (measurable and available to finance expenditures of the current fiscal period) to be recognized. If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding liability for deferred inflows of resources. The County has two types of item which arise under the modified accrual basis of accounting that qualify for reporting in this category. Accordingly, the items, unavailable revenue - property taxes and unavailable revenue - lease purchase, are reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The County has recorded \$915,655 as a deferred inflow related to property taxes considered "unavailable" and \$1,314,189 as a deferred inflow related to a lease purchase considered "unavailable". In addition, the County has three types of items present on the Statement of Net Position which arise due to the implementation of GASB 68 and the related net pension liability. Accordingly, these items, changes in proportion in the amount of \$11,869, changes of assumption in the amount of \$42,867, and the difference between expected and actuarial experience in the amount of \$303,512, are reported on the Statement of Net Position. These amounts are deferred and recognized as inflows of resources in the period that the amounts become available.

**Deferred Outflows of Resources**: In addition to assets, the balance sheet reports a separate section for deferred outflows of resources. This separate financial statement represents a use of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure) until that time. The County has five types of items that qualify for reporting in this category. Accordingly, these items, employer contributions subsequent to the measurement date in the amount of \$384,398, changes in proportion in the amount of \$323,378, the difference between expected and actual experience in the amount of \$243,064, changes in assumptions of \$702,748, and the net difference between projected and actual investment earnings of \$537,750, are reported in the Statement of Net Position. These amounts are deferred and will be recognized as pension expense in future periods.

**Compensated Absences:** Qualified employees are entitled to accumulate annual leave of 16.25 to 26 days per year according to a graduated leave schedule. The number of days accumulated depends on length of service. Employees may accumulate up to two hundred eighty hours (35 days) of annual leave and carry that leave forward from calendar year to calendar year. Upon termination, employees will be paid for up to two hundred eighty hours of accrued annual leave.

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Net Position or Fund Equity (Continued)

Qualified employees are entitled to accumulate sick leave at a rate of ten days per year. Employees may accumulate up to six hundred hours (75 days) of sick leave and carry that sick leave forward from calendar year to calendar year. Upon separation or retirement of an employee who has served five or more years, the county shall pay the employee a sum equal to twenty-five percent of the value of the accumulated and unused sick leave, based on the average rate of pay for the preceding twelve months.

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net position.

**Long-term Obligations:** In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts will be deferred and amortized over the life of the bonds using the effective interest method or straight-line if the difference is inconsequential for bonds issued after the County implemented GASB Statement No. 34. For fund financial reporting, bond premiums and discounts, as well as issuance costs, are recognized in the period the bonds are issued. Bond proceeds are reported as an other financing source, net of the applicable premium or discount.

**Fund Balance Classification Policies and Procedures:** The County has implemented GASB No. 54 and has defined the various categories reported in fund balance. For committed fund balance, the County's highest level of decision-making authority is the County Commission. The formal action that is required to be taken to establish a fund balance commitment is the County Commission.

For assigned fund balance, the County Commission or an official or body to which the County Commission delegates the authority is authorized to assign amounts to a specific purpose. The authorization policy is in governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

For the classification of fund balances, the County considers restricted or unrestricted amounts to have been spent when an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available. Also for the classification of fund balances, the County considers committed, assigned, or unassigned amounts to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Net Position or Fund Equity (Continued)

**Nonspendable Fund Balance:** At June 30, 2019, the County had nonspendable fund balance categorized in the governmental funds balance sheet in the amount of \$228,956 as detailed on pages 20-21.

**Restricted and Committed Fund Balance:** At June 30, 2019, the County has presented restricted fund balance on the governmental funds balance sheet in the amount of \$4,578,520 for various County operations as restricted by enabling legislation. The County has no committed fund balance on the governmental funds balance sheet at June 30, 2019. The details of these fund balance items are located on the governmental funds balance sheet as detailed on pages 20-21.

**Minimum Fund Balance Policy:** The County's policy for maintaining a minimum amount of fund balance for operations is to minimize any sudden and unplanned discontinuity to programs and operations and for unforeseen contingencies. At a minimum, the budget shall ensure that the County holds cash reserves of 3/12th the General Fund expenditures and cash reserves of 1/12th the Road Special Revenue Fund.

**Net Position:** Equity is classified as net position and displayed in three components:

- a. <u>Net investment in capital assets</u>: Net position invested in capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. For the fiscal year ending June 30, 2019, the County had no unspent bond proceeds, and had \$320,269 of capital-related accounts payable.
- 2. Restricted net position: Consist of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation. Descriptions for the related restrictions for net position restricted for "special revenue, debt service, and capital projects" are described on pages 37 and 82-87.
- c. <u>Unrestricted net position</u>: All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

**Interfund Transactions:** Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Net Position or Fund Equity (Continued)

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

**Estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates for the County are management's estimate of depreciation on assets over their estimated useful lives, remaining landfill closure and post-closure costs, allowance for uncollectibles, net pension liability and related deferred inflows and outflows of resources and the current portion of accrued compensated absences.

**Pensions:** For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Mexico Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **Budgetary Information**

Annual budgets of the County are prepared prior to June 1 and must be approved by resolution of the County Commissioners, and submitted to the Department of Finance and Administration for State approval. Once the budget has been formally approved, any amendments must also be approved by the County Commissioners and the Department of Finance and Administration. A separate budget is prepared for each fund. Line items within each budget may be over-expended; however, it is not legally permissible to over-expend any budget in total by fund.

These budgets are prepared on the Non-GAAP budgetary basis. Budgetary basis expenditures exclude encumbrances. The budget secures appropriations of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year.

The accompanying Statements of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual present comparisons of the legally adopted budget with actual data on a budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP), a reconciliation of resultant basis, perspective, equity and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2019 is presented. Reconciliations between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis by fund can be found on each individual budgetary statement.

#### **NOTE 3: DEPOSITS AND INVESTMENTS**

State statutes authorize the investment of County funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government obligations. All invested funds of the County properly followed State investment requirements as of June 30, 2019.

Deposits of funds may be made in interest bearing or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the County. Deposits may be made to the extent that they are insured by an agency of the United States or collateralized as required by statute. The financial institution must provide pledged collateral for 50% of the deposit amount in excess of the deposit insurance.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

The County's accounts are located at an insured depository institution. All noninterest-bearing transaction accounts will be insured by the FDIC up to the standard maximum deposit insurance amount of \$250,000.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk, other than following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). As of June 30, 2019, \$5,647,174 of the County's bank balance of \$6,397,174 was exposed to custodial credit risk; \$5,647,174 was uninsured but collateralized by collateral held by the pledging bank's trust department, but not in the County's name. None of the County's deposits were uninsured and uncollateralized at June 30, 2019.

The investments are listed on Schedule of Deposit and Investment Accounts of this report.

*Interest Rate Risk – Investments.* The County does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

Concentration Credit Risk – Investments. For an investment, concentration credit risk is when any one issuer is 5% or more of the investment portfolio of the County. The investments in the U.S Agency Notes consisting of notes held in Fannie Mae and Freddie Mac and the U.S. Treasury Notes represent 100% of the investment portfolio. Since the County only purchases investments with high grade credit ratings, the additional concentration is not viewed to be an additional risk by the County. The County's policy related to concentration credit risk is to comply with the state statute as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978).

#### Fair Value Measurement

The fair value framework uses a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the County has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets.
  - Quoted prices for identical or similar assets or liabilities in inactive markets.
  - Inputs other than quoted prices that are observable for the asset or liability.
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the County believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

#### **Investments (Continued)**

The County maintained a balance of \$462,272 in money market mutual funds at year end which required fair value disclosure.

<u>Current Refunding of Debt</u> – During the year ended June 30, 2019, the County refunded, in a current refunding through NMFA, a note payable totaling \$435,576. There was no economic gain or loss resulting from this transaction and the cash flows required to service the old debt and the new debt are substantially the same.

<u>Landfills</u> – The County monitors the closures of three landfills as required by State and Federal laws. During fiscal year June 30, 2019, landfill liabilities decreased \$13,365 as a result of current year expenditures.

<u>Compensated Absences</u> – Employees of the County are able to accrue a limited amount of vacation and other compensatory time during the year. During fiscal year June 30, 2019, compensated absences increased \$30,454 over the prior year accrual. The liability is typically liquidated by the General Fund.

<u>Operating Leases</u> – The County leases equipment under operating leases expiring during the next five years. Although renewal and purchase options are available on these leases, the County considers these to be operating leases as they contain a non-appropriation termination clause.

#### **NOTE 7: LONG-TERM DEBT (Continued)**

Socorro County is a member of and is insured through the New Mexico County Insurance Authority. The Authority was created to provide comprehensive core insurance programs by expanding the pool of subscribers to maximize cost containment opportunities for required insurance coverage. #### **NOTE 9: OTHER REQUIRED INDIVIDUAL FUND DISCLOSURES**

Generally accepted accounting principles require disclosures of certain information concerning individual funds including:

A. Deficit fund balance of individual funds. The following funds reflected deficit fund balances as of June 30, 2019:

| Fund                                     |                 |
|--|-----------------|

| Fund 415 Jail Detention                  | (33,624)        |
| Fund 420 Technology                      | (663)           |

| Total                                    | \$<br>(234,665) |

The County incurred more expenditures than revenues received in these funds in the current year. The County anticipates that this fund balance will not be in a deficit state in subsequent years as revenues are received or permanent cash transfers made.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2018 using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date of June 30, 2018. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2018. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined.

**For PERA Fund Municipal General Division**, at June 30, 2019, Socorro County reported a liability of \$5,846,555 for its proportionate share of the net pension liability. \$89,716 reported as deferred outflows of resources related to pensions resulting from Socorro County's contributions subsequent to the measurement date June 30, 2018 will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Actuarial assumptions.** The total pension liability in the June 30, 2018 actuarial valuation was determined using the following significant actuarial assumptions, applied to all periods included in the measurement date:

Actuarial valuation date June 30, 2017
Actuarial cost method Entry age normal

Amortization method Level percentage of pay

Amortization period Solved for based on statutory rates
Asset valuation method Four Year smooth Market Value

Actuarial assumptions:

Investment rate of return 7.25% annual rate, net of investment

experience

Projected benefit payment 100 years Payroll growth 3.00%

Projected salary increases 3.25% to 13.50% annual rate

Includes inflation at 2.50% annual rate first 9 years, 2.75% all

other years

Mortality assumption The mortality assumptions are based on the

RPH-2014 Blue Collar mortality table with female ages set forward one year. Future improvement in mortality rates is assumed using 60% of the MP-2017 projection scale generationally. For non-public safety groups, 25% of in-service deaths are assumed to be duty related and 35% are assumed to be

duty-related for public safety groups.

Experience study dates July 1, 2008 to June 30, 2017 (demographic)

and July 1, 2010 through June 30, 2018

(economic)

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2018. These assumptions were adopted by the Board use in the June 30, 2017 actuarial valuation.

The long term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

|                              |            | Long-Term                 |

**Discount rate:** A single discount rate of 7.25% was used to measure the total pension liability as of June 30, 2018. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.25%, compounded annually, net of expense. Based on the stated assumptions and the projection of cash flows, the plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability. The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate. The following tables show the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present Socorro County's net pension liability in each PERA Fund Division that Socorro County participates in, under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower (6.25%) or one percentage point higher (8.25%) than the single discount rate.

**Pension plan fiduciary net position.** Detailed information about the pension plan's fiduciary net position is available in the separately issued FY18 PERA financial report. The report is available at <a href="http://www.pera.state.nm.us/publications.html">http://www.pera.state.nm.us/publications.html</a>.

Payables to the pension plan. The County had no amount due and payable to PERA as of June 30, 2019.

#### NOTE 11: POST-EMPLOYMENT BENEFIT - STATE RETIREE HEALTH CARE PLAN

Socorro County did not participate in the Retiree Health Care Plan provided under the Retiree Health Care Act (10-7c-1 to 10-7c-17, NMSA 1978) during the year ended June 30, 2019.

#### NOTE 12: LANDFILL CLOSURE AND POST-CLOSURE CARE COSTS

State and federal laws and regulations require that Socorro County place a final cover on its landfills and perform certain maintenance and monitoring functions at the landfill sites for thirty years after closure. The landfills were closed in 1995 and 1996. The recognition of post-closure care costs for these landfills are based on the Closure and Post-Closure Plan prepared by Engineers, Inc., Socorro, NM prior to the closing of each of the landfills. An expense provision and related liability have been recognized based on the estimated post-closure care costs. The original estimated post-closure cost was \$165,000. The post-closure period was estimated at thirty years beginning in 1996. Because of 1) changes in regulations, 2) the necessary maintenance and monitoring functions, and 3) the assumption upon which the post closure costs are estimated, the actual liability and costs may differ from the estimated liability and costs. The liability for the post-closure costs as reflected in the government-wide financial statements is \$86,873 which is an estimate of the remaining liability through June 30, 2019 for post-closure costs based on a re-evaluation prepared by Dennis Engineering Company, Edgewood, NM in January 2016.

#### **NOTE 13: CONTINGENT LIABILITIES**

The County is party to various claims and lawsuits arising in the normal course of business. The County is insured through the New Mexico County Insurance Authority. In the opinion of management, the outcome of these matters will not have a material effect on the financial position of the County.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq., New Mexico State Auditor The U.S. Office of Management and Budget and The Socorro County Commissioners Socorro County Socorro, New Mexico

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component units, each major fund, the aggregate remaining fund information, and the budgetary comparisons of the general fund and major special revenue funds of Socorro County, New Mexico (the "County") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated March 2, 2020. Our report includes a reference to other auditors who audited the financial statements of El Camino Real Housing Authority and Socorro Village, as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or

detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items FS 2019-001 and FS 2019-002 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompany schedule of findings and questioned costs as item FS 2017-001 to be a significant deficiency.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that is required to be reported under *Government Auditing Standards*.

We noted certain matters that are required to be reported per section 12-6-5 NMSA 1978 that we have described in the accompanying schedule of Section 12-6-5 NMSA 1978 Findings as items NM 2018-001, NM 2018-003, NM 2019-005, NM 2019-006, NM 2019-007, and NM 2019-008.

#### **County's Response to Findings**

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

#### **INDEPENDENT AUDITORS' REPORT**

Brian S. Colón, Esq., New Mexico State Auditor The U.S. Office of Management and Budget and Socorro County Commissioners Socorro County Socorro, New Mexico

#### **Report on Compliance for the Major Federal Programs**

We have audited Socorro County, New Mexico's (the "County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the County's major federal programs for the year ended June 30, 2019. The County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the major federal programs occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal programs. However, our audit does not provide a legal determination of the County's compliance.

#### **Opinion on the Major Federal Programs**

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended June 30, 2019.

#### **Report on Internal Control Over Compliance**

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items FA 2019-003 and FA 2019-004 that we consider to be significant deficiencies.

The County's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### **SECTION II – FINANCIAL STATEMENT FINDINGS**

#### FS 2017-001 – Incorrect Accounts Receivable Balance – Significant Deficiency (Repeated and modified)

*Condition:* The following errors were noted related to recording of accounts receivables and revenues at June 30, 2019.

- The County incorrectly omitted a receivable related to gross receipts tax (GRT) in the prior fiscal year, resulting in a restatement in the amount of \$95,934.
- The County did not accrue for a grant reimbursement related to activity in the 2019 fiscal year, received after year-end, in the total amount of \$52,940.

*Progress on resolution of prior year finding:* No progress was made during the fiscal year with regards to this finding.

*Criteria:* The COSO 2013 Internal Control Integrated Framework provides guidelines for designing and implementing a system of internal controls that incorporates five necessary components of internal controls. These five components consist of the control environment, risk assessment, control activities, information and communication, and monitoring. Good accounting practices require the County to implement and follow sound accounting and internal control policies and procedures. The lack of records available for management review, audit and reporting results in an inability to determine where and how County funds are utilized.

Effect: As provided by the County, grant receivables and revenues were understated; tax revenues were overstated.

Cause: Management did not correctly identify items as accounts receivable at year-end.

Auditors' Recommendation: The County should review all receipts received after the balance sheet date to prepare an accurate and complete listing of accounts receivable.

Views of Responsible Officials and Planned Corrective Actions: Socorro County will work diligently with the Treasurer's Office to correctly account for and report Accounts Receivable. Socorro County Finance Department will provide training to Treasurer on what is expected when reporting A/R.

Responsible Party: Treasurer's Office

Anticipated Date of Completion: July 1, 2020

#### SECTION II – FINANCIAL STATEMENT FINDINGS (Continued)

#### FS 2019-001 – Capital Assets – Material Weakness

Condition: The following errors were noted in the capital asset listing at yearend:

- The beginning balances for depreciation expense on the capital asset listing did not agree to the ending balances of the prior year audit by \$757,836, which was due to some assets being over-depreciated.
- The construction in progress expenditures recorded in accounts payable were not included in the capital asset listing as construction in progress. This totaled \$320,269.
- The County did not properly include in construction in progress as an addition and deletion the current year activity for certain assets, totaling \$745,752. This included the Veguita Health Clinic, software, and Senior Center improvements.

*Criteria*: 2.20.1 NMAC requires agencies to properly account for capital assets; including implementing a capital asset accounting system and proper internal controls over the capital assets to ensure that additions are recorded at their acquisition/in service date.

Effect: The County's capital assets could be misstated at yearend. Construction in progress did not account for all projects during the fiscal year.

Cause: Formula errors within the County's capital asset subledger led to errors where capital assets were being over-depreciated, construction in progress assets did not include all adjustments related to accounts payable, and current year construction in progress did not include all additions and deletions.

Auditors' Recommendation: The County should ensure that its process for updating the capital asset listing at yearend is timely and allows for adequate time to ensure all activity is accounted for and properly reviewed before being provided to the auditors for preparation of the financial statements.

*Views of Responsible Officials and Planned Corrective Actions:* Socorro County had a Tyler Fixed Asset Module implemented in FY20. Once the module is checked for accurateness, it will be used in the future to report fixed assets and avoid errors that manual entry encounters

Responsible Party: Finance Department Anticipated Date of Completion: July 1, 2020

#### SECTION II – FINANCIAL STATEMENT FINDINGS (Continued)

#### FS 2019-002 - Recording of NMFA Account Activity - Material Weakness

Condition: The following errors were noted in analysis of NMFA account statements:

- Proceeds and retirement of debt in refunding of NMFA loan by issuance of new NMFA loan not accounted for in the County's books. Out of the total proceeds of \$699,400, only the portion received in cash (\$258,500) was accounted for in the County's books.
- A check totaling \$53,891 was issued from the NMFA Midway Fire Debt Service Fund and deposited to the Midway Fire Special Revenue Fund to cover project costs. The check cleared the NMFA on June 24, 2019. The check was receipted into the general bank account after year-end. The check was not included as an outstanding item on the bank reconciliation, requiring adjustment.
- Loan payments on the Flood Prevention Water Trust Board NMFA loan was not made during the year ended June 30, 2019. The payments due consisted of principal of \$38,605 and admin fees of \$1,352. A hardship waiver had been obtained in the prior year, excusing payment; no such waiver was obtained in the current year.

*Criteria:* 6-10-2 NMSA 1978 requires all agencies that receive or disburse public money to record daily all items of receipts and disbursements of public money. The loan agreement between Socorro County, the New Mexico Water Trust Board, and NMFA required payments of the loan semi-annually.

Effect: The County's books did not account for the loan proceeds or retirement of debt in the amount of \$440,900. Cash and interfund transfers were misstated by \$53,891. The County was not in compliance with the terms of the debt agreement for the Flood Prevention NMFA loan.

*Cause:* Turnover in the Finance Department and County Manager's office led to some requirements being overlooked. The statements for the Flood Prevention NMFA loan were sent to previous employees.

Auditors' Recommendation: The County should ensure that all NMFA activity is recorded promptly, and that all NMFA statements and other loan communications are sent to current management.

Views of Responsible Officials and Planned Corrective Actions: Socorro County will transfer responsibility from the County Manager to the Finance Department. Finance Department will complete draw request for remainder of \$699,400 loan from NMFA. Socorro County contacted NMFA regarding hardship waiver on Flood Prevention Loan and after discovering the deadlines, will request waiver from NMFA for FY20. Responsible Party: Finance Department

Anticipated Date of Completion: April 1, 2020

#### **SECTION III – FEDERAL AWARD FINDINGS**

#### FA 2019-003 - Internal Controls over Compliance with Wage Rate Requirements - Significant Deficiency

CFDA Number: 14.228

Program Title: Community Development Block Grant/States' Program

Federal Award Number: N/A Federal Award Year: 2015

Passthrough Entity: New Mexico Department of Finance and Administration

Passthrough Entity Number: 15-C-RS-I-03-G-17

*Criteria*: 2 CFR 200.303 requires non-Federal entities to establish and maintain effective internal controls over the terms and conditions of Federal awards. 29 CFR 5.5 requires that contractors engaged in construction covered by the Davis Bacon Act submit certified payrolls documenting compliance with the Davis Bacon Act to the owner of the property under construction.

Condition: The internal controls established by the County over the submittal and review of the certified payrolls did not include a formal, documented review of the certified payrolls by personnel employed by the County. The certified payrolls were reviewed by personnel employed by the South Central Council of Governments; but not by County personnel, which is where the ultimate responsibility for ensuring compliance rests.

*Cause:* The County contracted with the South Central Council of Governments for grant administration related to the CDBG grant and relied on the contracted personnel to perform the review of the certified payrolls submitted.

Effect: The County could fail to detect noncompliance with certified payroll requirements.

Questioned Costs: None.

*Perspective:* The controls over this requirement did not include review by County personnel, but did include review by knowledgeable grant administrator not employed directly by the County.

Auditors' Recommendation: For any contracts subject to Davis Bacon, the County should establish procedures to include review and approval of all certified payrolls by County personnel.

*Views of Responsible Officials and Planned Corrective Actions:* Socorro County, in future Federal Award projects, will require Socorro County signature to be on all reported documents. While Socorro County does work with other agencies to maintain grant compliance, we understand that our entity has overall responsibility.

**Responsible Party: Grants** 

Anticipated Date of Completion: 02/26/2020

#### **SECTION III – FEDERAL AWARD FINDINGS (Continued)**

#### <u>FA 2019-004 – Internal Controls over Compliance with Title III Firewise Reporting and Public Comment</u> Period Requirements – Significant Deficiency

CFDA Number: 10.665

Program Title: Schools and Roads – Grants to States

Federal Award Number: CIBOLA PNF (0328)

Federal Award Year: 2019
Passthrough Entity: N/A
Passthrough Entity Number: N/A

*Criteria*: 2 CFR 200.303 requires non-Federal entities to establish and maintain effective internal controls over the terms and conditions of Federal awards. The Secure Rural Schools Act, in 16 USC Chapter 90, section 7143, requires that Counties submit a certification of Title III funds expended by February 1 after the year that the funds were expended. Section 7142 of the Secure Rural Schools Act requires a 45-day public comment period prior to expending any Title III Firewise funds, by publishing a proposal for use of the funds in publications of local record.

*Condition*: The County could not provide documentation for either of these requirements being met during the year ended June 30, 2019. No internal controls over compliance with these requirements were evident.

*Cause:* Turnover in County management. Requirements were overlooked due to infrequency of occurrence, and no internal control structure was in place to ensure compliance.

Effect: The County is not in compliance with the Secure Rural Schools Act as it relates to Title III Firewise funds.

Questioned Costs: None.

*Perspective:* Internal controls not in place. The reporting requirement is an annual requirement, and the public comment period would apply when Title III Firewise funds are awarded, likely also annually.

Auditors' Recommendation: County should establish controls over these requirements and immediately file required certifications and publish information to satisfy the public comment requirement.

Views of Responsible Officials and Planned Corrective Actions: Socorro County Emergency Manager is aware of the reporting requirements for Federal Title III Firewise monies and has completed this requirement for FY20.

Responsible Party: Emergency Management Anticipated Date of Completion: 02/01/2020

#### SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS

#### NM 2018-001 – Volunteer Firefighter Service Credits – Other Noncompliance (repeated and modified)

Condition: 1 of 5 firefighters tested did not meet the NMAC 10-11A-6 Volunteer Firefighters Retirement Act requirements and Veguita Fire Department failed to maintain records on 1 of 5 volunteer firefighters related to earning PERA service credits.

*Progress on resolution of prior year finding:* No progress was made during the fiscal year with regards to this finding.

*Criteria:* Per NMAC 10-11A-6 Volunteer Firefighters Retirement Act: A. A member may claim one year of service credit for each year in which a fire department certifies that the member:

- 1. attended fifty percent of all scheduled fire drills for which the fire department held the member responsible to attend;

- 3. participated in at least fifty percent of all emergency response calls for which the fire department held the member responsible to attend.
- B. The chief of each fire department shall submit to the association by March 31 of each year documentation of the qualifications of each member for the preceding calendar year; provided that the chief shall:
  - 1. submit the documentation on forms provided by the association;
  - 2. acknowledge the truth of the records under oath before a notary public; and
  - 3. have the notarized forms signed by the mayor, if distributions from the fire protection fund for the fire department are made to an incorporated municipality, or the chair of the county commission, if distributions from the fire protection fund for the fire department are made to a county fire district.

*Effect:* Veguita Fire Department volunteer firefighters are in jeopardy of losing PERA service credit earned due to inadequate records.

*Cause:* Veguita Fire Department did not maintain records of the requirements needed to earn volunteer firefighter service credits.

Auditors' Recommendation: We recommend the County maintain records, such as which volunteer firefighters are required to attend fire drills, business meeting, and emergency response calls for each year of service credits earned.

Views of Responsible Officials and Planned Corrective Actions: Socorro County Fire Marshal as well as Socorro County Finance Department will work with the next elected Chief to understand and report on NMAC 10-11A-6. Fire Marshall will develop a process to confirm persons reported are meeting all criteria. Responsible Party: Socorro Fire Marshal

SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

NM 2018-003 – Procurement Code – Other Noncompliance - (repeated and modified)

Condition: The County did not solicit bids for goods purchased from 1 out of 5 vendors tested in the amount of \$124,135.

*Progress on resolution of prior year finding:* No progress was made with respect to this particular vendor in the current fiscal year.

*Criteria:* Per NMAC 6.20.2.17 PURCHASING: A. Each County shall establish and implement written policies and procedures for purchasing which shall be in compliance with the Procurement Code, Section 13-1-21 et seq., NMSA 1978. Purchasing policies and procedures for grant funding shall comply with requirements established within the grant and NMSA 13-1-125 (A) and (B). An internal control structure over purchasing shall be established and maintained to assure compliance with school district policy, and state and federal regulations.

Effect: The County failed to solicit bids for goods purchased from a vendor that exceeded \$60,000 in purchases of the same goods.

Cause: The County was purchasing medicine for the jail on a purchase order that was for less than \$60,000 and did not notice that the purchases had exceeded the \$60,000 threshold.

Auditors' Recommendation: We recommend the County go out for bid/solicit proposals as required by the State procurement code for every purchase.

*Views of Responsible Officials and Planned Corrective Actions:* Socorro County will issue an ITB to procure inmate medications.

#### SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

#### NM 2019-005 – Compliance with Title III Firewise Requirements – Other Noncompliance

*Criteria*: The Secure Rural Schools Act, in 16 USC Chapter 90, section 7143, requires that Counties submit a certification of Title III funds expended by February 1 after the year that the funds were expended. Section 7142 of the Secure Rural Schools Act requires a 45-day public comment period prior to expending any Title III Firewise funds, by publishing a proposal for use of the funds in publications of local record.

*Condition*: The County could not provide documentation for either of these requirements being met during the year ended June 30, 2019.

*Cause:* Turnover in County management. Requirements were overlooked due to infrequency of occurrence, and no internal control structure was in place to ensure compliance.

Effect: The County is not in compliance with the Secure Rural Schools Act as it relates to Title III Firewise funds.

Questioned Costs: None.

*Perspective:* Internal controls not in place. The reporting requirement is an annual requirement, and the public comment period would apply when Title III Firewise funds are awarded, likely also annually.

Auditors' Recommendation: County should establish controls over these requirements and immediately file required certifications and publish information to satisfy the public comment requirement.

Views of Responsible Officials and Planned Corrective Actions: Socorro County Emergency Manager is aware of the reporting requirements for Federal Title III Firewise monies and has completed this requirement for FY20.

Responsible Party: Emergency Management Anticipated Date of Completion: 02/01/2020

Effect: The County did not comply with New Mexico State Statute 6-6-6, 1978 Compilation.

Cause: Budget adjustments to true up at the end of the fiscal year did not account for adjustments made to return to cash basis for the funds noted above.

Auditors' Recommendation: The County should review total actual expenditures at the end of the fiscal year to the approved budget and submit budget adjustments when appropriate.

*Views of Responsible Officials and Planned Corrective Actions:* Socorro County Finance Department will check liability accounts to make sure that funds sitting in there are not overlooked when final adjustments are made.

#### SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

#### NM 2019-007 - Cash Appropriations in Excess of Available Cash Balances - Other Noncompliance

*Criteria:* All County funds, with the exception of agency funds, are to be budgeted by the local governing body and those budgets must be submitted to the Department of budget and Finance – Local Government Division for approval. Cash balances rebudgeted to make up for the deficit budgeted revenues that do not cover the budgeted expenditures, cannot exceed the actual cash balance available at the end of the prior year per Section 2.2.2.10(R)(1)(b) NMAC.

*Condition*: During our review of the budgetary statements, we noted that the funds below had cash appropriations in excess of available cash balances.

| Fund                                     | ex<br>ove | excess of pendiutes er revenues oudgeted) | year cash    | De | esignated<br>Cash |

Effect: The effect of a budget with inadequate designated cash available to cover the excess of budgeted expenditures over budgeted revenue could result in the County incurring debt to pay for current year budgeted expenditures.

Cause: Inadequate monitoring of budget transfers in order to update the budget in accordance with available cash.

Auditors' Recommendation: Greater attention should be given throughout the year to the cash balances actually available and budget adjustments in order to cover budgeted expenditures in excess of budgeted revenues, which include proper monitoring of year end cash balances and any necessary budget transfers throughout the year.

*Views of Responsible Officials and Planned Corrective Actions:* Socorro County has transferred responsibility of drawing down loans to the Finance Department. Finance will reconcile the loans quarterly to avoid negative loan cash balances.

#### NM 2019-008 – Late Audit Report Submittal – Other Noncompliance

*Criteria:* Per Section 2.2.2.9 A(1)(f) NMAC, the audited financial statements of the County for the year ended June 30, 2019 were due to the New Mexico State Auditor's Office by December 1, 2019.

*Condition*: The audited financial statements of the County were submitted to the New Mexico State Auditor's Office on March 2, 2020.

Effect: The County is not in compliance with the Report Due Dates prescribed in the New Mexico Administrative Code.

*Cause:* Turnover within the County's Finance Department and County Manager's Office resulted in delays in the ability to access information needed to complete the audit in a timely manner.

Auditors' Recommendation: The County should work with its auditors to ensure that fieldwork is completed and all information submitted with sufficient time to complete the audit and submit the financial statements prior to the due date.

Views of Responsible Officials and Planned Corrective Actions: Current Socorro County Employees now have knowledge and access for all requested reportable avenues of data. With that, Socorro County will be able to promptly respond to data and information requests.

#### CORRECTIVE ACTION PLAN

June 30, 2019

Socorro County respectfully submits the following corrective action plan for the year ended June 30, 2019.

Name and address of independent public accounting firm: Carr, Riggs & Ingram, LLC 2424 Louisiana Blvd NE Albuquerque, NM 87110

Audit period:

Year ended June 30, 2019

The findings from the June 30, 2019 schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule.

## <u>FS 2017-001 – Incorrect Accounts Receivable Balance – Significant Deficiency - (Repeated and modified)</u>

*Condition:* The following errors were noted related to recording of accounts receivables and revenues at June 30, 2019.

- The County incorrectly recorded a receivable related to gross receipts tax (GRT) in the prior fiscal year, resulting in a restatement in the amount of \$95.934.
- The County did not accrue for a grant reimbursement related to activity in the 2019 fiscal year, received after year-end, in the total amount of \$52,940.

Criteria: The COSO 2013 Internal Control Integrated Framework provides guidelines for designing and implementing a system of internal controls that incorporates five necessary components of internal controls. These five components consist of the control environment, risk assessment, control activities, information and communication, and monitoring. Good accounting practices require the County to implement and follow sound accounting and internal control policies and procedures. The lack of records available for management review, audit and reporting results in an inability to determine where and how County funds are utilized.

Corrective Action Plan: Socorro County will work diligently with the Treasurer's Office to correctly account for and report Accounts Receivable. Socorro County Finance Department will provide training to Treasurer on what is expected when reporting A/R. Responsible Party: Treasurer's Office

#### FS 2019-001 - Capital Assets - Material Weakness

Condition: The following errors were noted in the capital asset listing at yearend:

- The beginning balances for depreciation expense on the capital asset listing did not agree to the ending balances of the prior year audit by \$757,836, which was due to some assets being over-depreciated.
- The construction in progress expenditures recorded in accounts payable were not included in the capital asset listing as construction in progress. This totaled \$320,269.
- The County did not properly include in construction in progress as an addition and deletion the current year activity for certain assets, totaling \$745,752. This included the Veguita Health Clinic, software, and Senior Center improvements.

*Criteria*: 2.20.1 NMAC requires agencies to properly account for capital assets; including implementing a capital asset accounting system and proper internal controls over the capital assets to ensure that additions are recorded at their acquisition/in service date.

Corrective Action Plan: Socorro County had a Tyler Fixed Asset Module implemented in FY20. Once the module is checked for accurateness, it will be used in the future to report fixed assets and avoid errors that manual entry encounters

Responsible Party: Finance Department Anticipated Date of Completion: July 1, 2020.

#### FS 2019-002 - Recording of NMFA Account Activity - Material Weakness

Condition: The following errors were noted in analysis of NMFA account statements:

- 1. Proceeds and retirement of debt in refunding of NMFA loan by issuance of new NMFA loan not accounted for in the County's books. Out of the total proceeds of \$699,400, only the portion received in cash (\$258,500) was accounted for in the County's books.
- 2. Cash of \$53,891 was transferred out of NMFA Midway Fire Debt Service Fund and in to the Midway Fire Special Revenue Fund to cover project costs. The cash transfer out of the NMFA account occurred and cleared on June 24, 2019. The cash was receipted into the general bank account after year-end. The cash was not included as an outstanding item on the bank reconciliation, requiring adjustment.
- 3. Loan payments on the Flood Prevention Water Trust Board NMFA loan was not made during the year ended June 30, 2019. The payments due consisted of principal of \$38,605 and admin fees of \$1,352. A hardship waiver had been obtained in the prior year, excusing payment; no such waiver was obtained in the current year.

*Criteria:* 6-10-2 NMSA 1978 requires all agencies that receive or disburse public money to record daily all items of receipts and disbursements of public money. The loan agreement between Socorro County, the New Mexico Water Trust Board, and NMFA required payments of the loan semi-annually.

Corrective Action Plan: Socorro County will transfer responsibility from the County Manager to the Finance Department. Finance Department will complete draw request for remainder of \$699,400 loan from NMFA. Socorro County contacted NMFA regarding hardship waiver on Flood Prevention Loan and after discovering the deadlines, will request waiver from NMFA for FY20. Finance Department will perform a review of accounts two weeks prior to year end and two weeks after year end to spot receivables in transit that may need to be listed as outstanding items from a loan account to general fund.

Effect: The effect of a budget with inadequate designated cash available to cover the excess of budgeted expenditures over budgeted revenue could result in the County incurring debt to pay for current year budgeted expenditures.

Cause: Inadequate monitoring of budget transfers in order to update the budget in accordance with available cash.

Auditors' Recommendation: Greater attention should be given throughout the year to the cash balances actually available and budget adjustments in order to cover budgeted expenditures in excess of budgeted revenues, which include proper monitoring of year end cash balances and any necessary budget transfers throughout the year.

Corrective Action Plan: Socorro County has transferred responsibility of drawing down loans to the Finance Department. Finance will reconcile the loans quarterly to avoid negative loan cash balances.
