## INDEPENDENT AUDITORS' REPORT

State of New Mexico Energy, Minerals, and Natural Resources Department and Mr. Hector H. Balderas New Mexico State Auditor

We have audited the accompanying financial statements of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of the State of New Mexico Energy, Minerals, and Natural Resources Department (the Department), as of and for the year ended June 30, 2010, which collectively comprise the Department's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the Department's nonmajor governmental funds, fiduciary funds, and the budgetary comparisons for the major capital projects fund, debt service fund, and all nonmajor funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2010, as listed in the table of contents. These financial statements are the responsibility of Department's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, the financial statements of the Department are intended to present the financial position and results of operations of only that portion of the financial reporting entity of the State that is attributable to the transactions of the

State of New Mexico Energy, Minerals, and Natural Resources Department and Mr. Hector H. Balderas New Mexico State Auditor

Department. They do not purport to, and do not, present fairly the financial position of the entire State of New Mexico as of June 30, 2010, and the respective changes in the financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the general and special revenue funds for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Department, as of June 30, 2010, and the respective changes in financial position thereof and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each non-major governmental fund and fiduciary funds of the Department as of June 30, 2010, and the respective changes in financial position thereof, and the respective budget comparisons for the major capital projects fund, debt service fund, and all non-major governmental funds for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated November 30, 2010, on our consideration of the Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 5 through 19 is not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

State of New Mexico Energy, Minerals, and Natural Resources Department and Mr. Hector H. Balderas New Mexico State Auditor

Our audit was conducted for the purpose of forming opinions on the basic financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements. The additional schedules listed as "other supplementary information and supplemental schedule" in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statement and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as whole.

November 30, 2010

Meynes + Company, Le

## Management's Discussion and Analysis

The State of New Mexico Energy, Minerals, and Natural Resources Department's (the Department) discussion and analysis is designed to assist the reader in focusing on significant financial issues, provide an overview of the Department's financial activity, identify changes in the Department's financial position (ability to address future year challenges), identify any material deviations from the financial plan, and identify any fund issues of concern.

The Management's Discussion and Analysis (MD&A) is designed to focus on the past year's activities, resulting changes and currently known facts; please read it in conjunction with the Department's financial statements and notes which follow this section.

## Financial Highlights

- The Department's governmental net assets decreased by \$856,421 in fiscal year 2010.
- The Department's total revenues increased by \$2,320,319 for fiscal year 2010.
- The total cost of all Department programs was \$69,639,374, a decrease of \$6,417,668 for fiscal year 2010.

#### Mission

The mission of the Department is to position New Mexico as a leader in energy and natural resource management. To meet this mandate, the Department uses a flexible, team-based management system that is proactive, demands accountability and concentrates on customer service. The system allows the Department to provide leadership in the protection, management, conservation and responsible use of the state's natural resources.

The Department is charged with protecting the environment and ensuring the reclamation of land and resources affected by mining activities, growing and sustaining healthy forests; leading the development of reliable energy supplies and improving the state's parks system while sustaining cultural and natural resources.

#### **Program Highlights**

## Youth Conservation Corps

The Youth Conservation Corps (YCC) Commission continues to improve relationships with educational institutions, non-profit organizations, local governments, federal and state agencies and our Project Sponsors. By developing strong partnerships, the YCC Commission is confident that YCC is expanding its services and opportunities to the Corps members. This support is important to the success of each project because of the opportunity to leverage funds and, by leveraging funds, expand the projects.

Management's Discussion and Analysis - continued

## Program Highlights - continued

## Renewable Energy and Energy Efficiency

The Energy Conservation and Management Division (ECMD) continued to aggressively implement clean energy-related policies and statutes established by the Governor and Legislature over the last seven years. Priorities include: (1) stimulating clean energy (renewable energy, energy efficiency and clean fuels) projects and facilities; (2) providing training, outreach and technical assistance to the general public, local and tribal governments, public schools, universities and targeted industries to foster deployment of clean energy technologies and strategies; and (3) coordinating with the General Services Department and other state agencies to ensure that New Mexico state government is leading by example in all aspects of its daily operations, new building construction, and vehicle procurement and utilization. Selected accomplishments include: (1) facilitating the development of over 500 megawatts of new wind power on New Mexico's eastern plains; (2) administering over 90 clean energy projects, totaling over \$11,000,000; (3) providing input for implementing the Efficient Use of Energy Act, resulting in the commitment of over \$20,000,000 per year in utility-provided energy efficiency incentives to the residential and commercial sectors; (4) leveraging private investments of \$2,500,000, federal tax credits of \$580,000 and solar market development tax credits for Department-certified solar systems for \$1,406,000; and (5) implementing the sustainable building tax credit passed by the 2007 New Mexico Legislature for building energy efficient and green buildings in the residential and commercial sectors – the first tax credit in the nation of this breadth and depth. Through these tax incentives, the bar is being raised for energy efficiency in statewide building codes.

Prospectively, ECMD plans to build on the clean energy policy and program foundation now firmly in place by: (1) pursuing additional market-based incentives and other cost-effective measures in statute to continue to stimulate clean energy projects and clean energy-related manufacturing enterprises throughout the state; (2) expanding its "lead by example" outreach to school districts, universities and local governments; (3) moving toward Zero-Energy Home Program focused on ensuring that new homes incorporate cost-effective state-of-the-art energy efficiency measures, with particular attention to the low-income home buyer; and (4) in coordination with the Economic Development Department, facilitating the demonstration and deployment of promising economic development potential throughout the state.

#### **Healthy Forests Program**

The Forestry Division's role is to protect New Mexico's forests and watershed health. This mission is largely driven on two fronts: advocate for forest restoration and watershed health and the prevention and suppression of wild land fires. Forest and watershed health efforts require strong partnerships and collaborations between and among local, state, tribal, federal and private entities. The Forestry Division provides the leadership that drives those partnerships and collaborations. The division's newly established Forest and Watershed Health Office, as well as the seven field offices, follow the division's Forest and Watershed Health Plan for establishing and maintaining a collaborative, landscape-scale framework for these efforts.

Management's Discussion and Analysis - continued

## **Program Highlights** - continued

#### **Healthy Forests Program**

The 2010 Fire Season was average in terms of number of acres burned and number of fires. This year, the Division had 681 fires that burned approximately 100,371 acres. The Division believes the pre-positioning of additional fire suppression forces helped to keep many fires small and less expensive.

The FY 2011 fire season's predicted weather pattern is below normal significant fire potential across New Mexico during August. However, La Niña conditions continue to develop over the Pacific and will likely intensify into the fall. The onset of La Niña favors increasingly drier and warmer than usual conditions for the transition to fall, with increased potential for the monsoon to end abruptly. Overall temperatures and precipitation will likely be near normal in September, and then shift to warmer and drier than normal conditions for October and November. The potential exists for periods of above normal fire potential to develop throughout the fall. This is most likely to occur in the northwest half of New Mexico for a week or two during October and November.

## Mine Reclamation Program

The Mine Reclamation Program continued to make strides in assuring the reclamation and safeguarding of New Mexico's mines. The program is overseeing several large hard rock and coal mine reclamation projects, including the major reclamation of mine tailings at the Phelps Dodge Tyrone Mine. Under a federal grant, the program safeguarded over 160 abandoned mine openings in the past two years. The program has also received awards for its innovative and high quality reclamation work, including most recently the National Award from the Office of Surface Mining for outstanding performance and exemplary abandoned mine land reclamation for the Real de Dolores Mine Safeguard Project south of Santa Fe.

The program is seeing an increase in uranium exploration projects and is taking steps to prepare for a possible return of uranium mining in northwest New Mexico. Specialized uranium mine reclamation training and coordination with tribal, federal and state agencies, along with citizen groups, have been implemented to educate program staff and to increase public trust. The program has initiated efforts to address the legacy of past uranium mining in New Mexico through conducting field investigations, determining remediation steps, and leveraging funding for clean-up with other agencies and tribal governments.

The Mine Reclamation Program has experienced an increased workload due to recent renewed interest in uranium exploration and mining in New Mexico. In January 2006, the Mining and Minerals Division received the first uranium exploration application since 1998. Thirty-seven new uranium mining or exploration applications have been submitted between 2006 and 2010.

The renewed interest in mining has created a push from the public to clean up the legacy of past uranium mining practices. The Mine Reclamation Program is currently collaborating with state, federal and tribal agencies to survey, prioritize and clean up the abandoned uranium sites.

Management's Discussion and Analysis - continued

## **Program Highlights - continued**

#### State Parks

Formed in 1933 as the New Mexico State Parks Commission, the New Mexico State Parks Division has grown into a 35-park system that includes 19 lakes and nearly 183,000 acres of land. State parks are currently located in 25 of New Mexico's 33 counties and generate over \$400 million annually for New Mexico's economy. The State Park System's newest park – Cerrillos Hills/Galisteo Basin in Santa Fe County – opened in late 2009. The Legislature authorized the establishment of a 36th state park – Pecos Canyon State Park – during the 2009 session. State parks are part of the Executive's plan for sustainable economic development in New Mexico, especially in rural areas.

Over 4.7 million people visited state parks in FY10, which maintained the visitation growth achieved in FY09, during which visitation rose 5 percent. After eight straight years of visitation declines, State Parks has maintained or increased visitation every year from FY05 to FY10. State park visitation definitely was affected by national and state economic conditions, as the public sought out more low-cost, high-value, close-to-home recreation and leisure options. This trend of increased visitation and use of state parks will probably continue into FY11; visitation during calendar year 2010 through the first nine months of the year was already running higher than the same period in calendar year 2009. Self-generated revenues also increased in FY10, and have increased every year from FY05 through FY10. Revenue had been decreasing for the five fiscal years prior to FY05.

Highlights of the State Parks Program during FY10 included: (1) meeting or exceeding all key performance measures; (2) completion of major park improvement projects, including installation of several renewable energy projects and the opening of impressive new visitor centers at Mesilla Valley and Eagle Nest Lake; (3) improvements to the capital equipment maintenance programs and launch of expanded recycling programs; (4) continued progress of the Outdoor Classroom Program, which has now served over 65,000 school children in 54 of New Mexico's 89 school districts in just three years; (5) selection of a New Mexico state park marine enforcement officer as the Western "boating officer of the year."

The strategic direction for State Parks includes efforts to: (1) improve park facilities; (2) increase visitation and self-generated revenue; (3) protect sites important to New Mexico's natural and cultural heritage; (4) improve recreational and trail opportunities statewide, including the construction of the Rio Grande Trail; (5) expand boater education to make boating in New Mexico safer; (6) expand the Outdoor Classroom Program for children; (7) grow the role of State Parks in statewide health and wellness efforts. In addition, the New Mexico State Park System will be on a national stage during FY11, as the Division will host the National Association of State Park Directors annual conference in FY11 (September 7-10, 2010).

Management's Discussion and Analysis - continued

## **Program Highlights - continued**

#### Oil and Gas Conservation Program

The Oil Conservation Division continues to concentrate on the enforcement of its rules to prevent environmental contamination from oil and gas operations and to enhance those rules in order to ensure that it provides clear guidance on practices to protect human health and the environment.

In FY09 the division successfully reorganized its rules so that all information related to an activity is in one section. The division also worked on carbon sequestration initiatives, continuing efforts to divert water produced in oil and gas operations from disposal and continued coordination of activities related to requests to drill in the Galisteo Basin and in other areas of the state. There have been several recent instances where the division's enforcement actions have been upheld in court. In September, 2008, the Supreme Court of New Mexico denied a petition which effectively affirmed the division's Surface Waste Management Rule. Also in September, a request to keep an OCD compliance case against a well operator from proceeding was denied by the First Judicial District Court. The division continues to refine its rules and consistently enforce them.

## **Program Support**

The Leadership and Support Program continues to concentrate on improving efficiency and cost effectiveness of agency systems and projects through standardized processes for acquisition, development, maintenance and support of information technology resources.

The Leadership and Support Program is also working with the Divisions to expand the geospatial services offered within the agency. In particular, we are making greater use of mobile mapping technologies such as GIS maps combined with GPS positioning for data collection and field verification, as well as moving towards a more services-oriented structure for applications such as web maps used for staff and public use. In addition, we are collectively working to improve and expand the information available via the Internet by providing enhanced web based services at a lower cost while accelerating shared business processes, and facilitating information-sharing for better business insight.

#### **Using This Annual Report**

The focus of this report is on both the Department (government-wide) and the major individual funds. Both perspectives (government-wide and major funds) allow the user to address relevant questions, broaden a basis for comparison and enhance accountability. Although the Department is one of several agencies within the State of New Mexico Government, the primary Government focus in this financial report is the Department and not the State of New Mexico as a whole.

Management's Discussion and Analysis - continued

## Management's Discussion and Analysis

MD&A should provide an objective and easily readable analysis of the Department's financial activities based on currently known facts, decisions or conditions. It should provide an analysis of the Department's overall financial position and results of operations to assist users in assessing whether the financial position has improved as a result of the year's activities. Additionally, it should provide an analysis of significant changes that occur in funds and significant budget variances.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Department's basic financial statements. The Department's basic financial statements comprise four components: 1) government-wide financial statements, 2) fund financial statements, 3) budgetary comparisons, and 4) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements consist of a statement of net assets and a statement of activities. These statements should report all of the assets, liabilities, revenues, expenses, and gains and losses of the government. Fiduciary activities whose resources are not available to finance the government's programs are excluded from the government-wide statements. Most of the Department's basic services are included in the governmental activities. State appropriations and federal grants finance most of these activities. The funds included in Governmental Activities for the Department are the General Operating Fund, Special Revenue Funds, Debt Service Fund and Capital Project Funds.

GASB #34 requires that infrastructure assets (roads, bridges, traffic signals, etc.) be valued and reported within the Governmental column of the Government-wide Statements. Additionally, the government must elect to either depreciate these assets over their estimated useful life or develop a system of asset management designed to maintain the service delivery potential. The Department does not own a material interest in any infrastructure assets and, therefore, is not required to implement this portion of GASB #34.

Fund Financial Statements. Fund financial statements consist of a series of statements that focus on information about the major governmental and enterprise funds. Fund financial statements also report information about a government's fiduciary funds. Governmental fund financial statements are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. Fiduciary fund financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. The Department has two types of funds: governmental funds and agency funds.

#### Governmental Funds

Most of the Department's services are included in governmental funds which focus on: (1) how cash and other financial assets that can be readily converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. The governmental fund statements provide a detailed short-term view and help the

Management's Discussion and Analysis - continued

#### Overview of the Financial Statements - continued

#### Governmental Funds

user determine whether there are more or fewer financial resources that can be spent in the near future to finance the Department's programs. Since this information does not include the additional long-term focus of the government-wide statements, reconciliation between the government-wide statements and the fund financial statements is provided for governmental-type activities.

## Agency Funds

The agency funds are used to report assets held in trustee or agency capacity for others and therefore are not available to support Department programs. The reporting focus is upon net assets and changes in net assets and employs accounting principles similar to proprietary funds. With the implementation of GASB #34, agency funds are not included with the governmental-type funds since these funds are not available to support the Department's programs. The Department's agency funds are the Parks and Recreation Division Boat Fund, Gross Receipts Tax Suspense Fund, Oil Disposition Holding Fund and Renewable Energy Transmission Authority Fund.

#### **Budgetary Comparisons**

In addition to the MD&A, GASB #34 requires budgetary comparison schedules for the general fund and for each major special revenue fund that has a legally adopted annual budget to be presented as Required Supplementary Information (RSI). The budgetary comparison schedules should present both the original and the final appropriated budgets for the reporting period, as well as the actual inflows, outflow and balances, stated on the government's budgetary basis.

As required by the Office of the State Auditor under 2 NMAC 2.2, the Statements of Revenues and Expenditures – Budget and Actual are also presented. This information is provided at the approved budget level to demonstrate compliance with legal requirements.

The budget to actual statement reflected a significant difference between budgeted federal revenues and actual revenues, as well as budgeted expenditures and actual expenditures. The primary cause for both of these differences is related to multi-year federal grants and the related contractual obligations against these grants. The budgeted federal revenues and expenditures (both in the Contractual and Other Costs categories) are higher based on encumbering the entire amount of these multi-year federal contracts. Because the full amounts of these multi-year contracts are encumbered, there is a related increase in the budgeted revenues and budgeted expenditures. The actual federal revenues and expenditures only include expended funds for this fiscal year and are therefore significantly lower than budgeted amounts. This difference does not indicate a significant shortfall in budgeted revenues or expenditures, but is instead related to the process of fully encumbering multi-year federal grant commitments.

Management's Discussion and Analysis - continued

#### Notes to the Financial Statements

The notes to the financial statements consist of notes that provide information that is essential to a user's understanding of the basic financial statements.

### Required Supplementary Information (Other than MD&A)

In addition to the basic statements and accompanying notes, this report also presents certain required supplementary information.

#### Financial Analysis of the Department as a Whole

#### **Net Assets**

Table A-1 summarizes the Department's net assets for the fiscal year ended June 30, 2010. Total Department net assets for fiscal year 2010 were \$79,147,797. Unrestricted net assets in Governmental Activities were \$16,754,788 at the end of the fiscal year. Restricted net assets including capital projects, debt service and special appropriations were \$7,742,371. The balance of \$54,650,638 in net assets represent those invested in capital assets, net of related debt (buildings, equipment, etc.). It should also be noted for comparison purposes the amounts for fiscal year 2009 were restated to include revenue not properly recognized.

Management's Discussion and Analysis - continued

## Financial Analysis of the Department as a Whole - continued

#### Net Assets - continued

Table A-1
The Department's Net Assets

	FY 2010	FY 2009 (Restated)	<u>Variance</u>
Assets: Current and Other Assets	\$ 39,562,132	46,278,259	(6,716,127)
Capital and Non-Current Assets Total Assets	72,402,607 111,964,739	71,468,653 117,746,912	933,954 (5,782,173)
Liabilities: Current Liabilities Long Term Obligations Total Liabilities	15,797,854 <u>17,019,088</u> 32,816,942	20,064,758 17,677,936 37,742,694	(4,266,904) <u>(658,848)</u> (4,925,752)
Net Assets: Invested in Capital Assets, net of Related Debt Restricted Unrestricted	54,650,638 7,742,371 16,754,788	53,045,255 9,290,853 _17,668,110	1,605,383 (1,548,482) (913,322)
Total Net Assets	\$ 79,147,797	80,004,218	(856,421)

The Department's net assets decreased \$856,421 over the course of this fiscal year's operations. The following financial information is a comparison of net assets for 2010 and 2009.

The total assets consist of cash and cash equivalents, investment in the State Treasurer's General Fund Investment Pool, receivables from the federal government for grants, receivables from other state agencies, amount due from fiduciary fund, other receivables and capital assets (net of accumulated depreciation). Total liabilities consist of accrued interest payable, accounts payable, amounts due to fiduciary funds, accrued salaries and employee benefits payable, amounts due to the state's general fund and other agencies and the current amount of other obligations and compensated absences payable. Net assets are comprised of investment in capital assets, restricted and unrestricted amounts. In 2010, the amount that was restricted was used to illustrate reserved amounts in the fund financial statements as stated above.

Management's Discussion and Analysis - continued

## Financial Analysis of the Department as a Whole - continued

#### Net Assets - continued

The variances consist of:

- Total assets The variance of current and other assets is due to the fact that cash, cash equivalents and investment in the State Treasurer's General Fund Investment Pool decreased by \$9,537,939 from fiscal year 2009. This is due in part to a decrease of deferred revenue of \$2.3 million. Also there was an increase in net receivables of \$2,504,341 from fiscal year 2009. Net capital assets increased from the fiscal year 2009 stated amount by \$933,954 partly due to including projects in process.
- Total liabilities In current liabilities, a major factor contributing to the variance was a decrease in the amount of Due to State General Fund and Deferred Revenue, which decreased by approximately \$2.3 million dollars and \$2.3 million dollars, respectively. Other liabilities, such as accounts payable, increased from FY09.
- Total net assets The net assets for the Department decreased from 2009 by \$856,421. The Department's total revenue increased by approximately 3% from \$66,462,634 to \$68,782,953. The Department's total expenses decreased by approximately 8% from \$76,057,042 to \$69,639,374. Total net assets decreased by approximately 1% from \$80 million to \$79 million.

## Changes in Net Assets

The Department's change in net assets for fiscal year 2010 was a decrease of \$856,421 (Table A-2). A significant portion, forty-three percent (43%), of the Department's revenue comes from State General Fund Appropriations. Thirty-four percent (34%) comes from federal grant funds, eleven percent (11%) comes from gross receipts tax and seven percent (7%) comes from charges for services.

<u>Total Revenues:</u> Revenue received is comprised mostly of appropriations from the state's general fund, but also includes federal grant funds, gross receipts tax, bond proceeds, severance tax, interest, gasoline tax and other miscellaneous revenue. Also included in revenue are charges for services of \$5,112,552, which include park admissions, overnight camping, concessionaire income, license and permit sales, and land and shelter rentals.

Management's Discussion and Analysis - continued

## Financial Analysis Of The Department As A Whole - continued

## Changes in Net Assets - continued

<u>Total Expenses</u>: The expenses consist of Personal Services and Benefits. Due to the nature of the Department's activities in the areas of mining, oil production, etc., the Department is staffed with a high volume of technical positions and engineers. In addition, expenditures also include the cost of salaries, overtime and other costs associated with fire suppression activities.

Another area of expenditures within the Department is the category of Contractual Services, which includes costs associated with fire suppression activities. In addition, this category is used to flow federal grant funds through to local communities within the state.

Significant expenditures within the Department were in the category of Other Costs. This category pays for operational expenses of the Department including utilities, postage and rent of equipment, which are a major portion of the Department costs with 35 field offices statewide. The majority of expenditures within this category are the costs associated with forest protection and safeguarding activities, abandoned mine reclamation, and oil and gas well reclamation projects, as well as Joint Powers Agreements for construction of outdoor recreational trails projects and conservation projects under the YCC program.

#### Governmental Activities by Program

The Department has multiple and varied programs that our resources fund. The divisions within our Department include the energy conservation and management division, the forestry division, the mine reclamation division, the oil and gas conservation division, the state parks division, youth conservation corps, multiple capital projects and the program support division. The table below shows the expenses by division/program and the percentage of all expenses which was taken from the fund financial statements. The difference in this amount and the amount shown in the statement of activities is approximately \$6.3 million, which is mainly comprised of adjustments made for depreciation, capital outlay, compensated absences and debt service.

-		
	\$ <u>63,381,405</u>	<u>100.00%</u>

#### **Fund Balance**

As the Department completed the year, its governmental funds reported a combined fund balance of \$26,446,279, which is \$2,739,639 lower than last year. There was a significant deficiency of revenues under expenditures, but this deficiency decreased from FY09 by approximately \$13.2 million dollars.

The ending fund balance of \$26.4 million is comprised of amounts reserved and unreserved. The reserved fund balance is broken down by \$2.8 million reserved for capital projects, \$4.5 million reserved for debt service and \$499,000 reserved for special monies. Of the unreserved fund balance, \$18.6 million is categorized in the special revenue funds.

The general fund is the chief operating fund for the Department. It accounts for revenue and expenses not designated for specific purposes in all the program areas except Parks. The Parks fund is non-reverting, while the General fund reverts all unreserved fund balance.

The total fund balance of the Department's general fund decreased by \$97,300 during the current fiscal year.

Besides the general fund, the other major funds were the Emergency Fire Disaster fund, Abandoned Mine Reclamation, State Parks, ARRA, Debt Service and the EMNRD Capital Projects GGRT Fund. Changes in these fund balances from FY09 are as follows:

- The Emergency Fire Disaster fund increased by \$3,278,999.
- The Abandoned Mine fund increased by \$6,650.
- The State Parks fund decreased by \$721,025.
- The ARRA fund had no change.

## Management's Discussion and Analysis - continued

#### Fund Balance - continued

- The Debt Service fund increased by \$1,152,738.
- The Capital Projects GGRT fund decreased by \$183,352.

#### General Fund Budgetary Highlights

The New Mexico State Legislature makes annual appropriations to the Department. Amendments to the appropriated budget require approval by the Budget Division of the Department of Finance and Administration with review by the Legislative Finance Committee.

Over the course of the year, the Department adjusts its budget as authorized in the Appropriations Act. The budget adjustments fall into four categories:

- > Supplemental and special appropriations that are reflected in the actual beginning account balances (correcting the estimated amounts in the budget adopted for the fiscal year).
- Capital Improvement Project appropriations that are budgeted during the year based on legislative appropriations.
- > Budget adjustment requests made during the fiscal year to allow the Department to utilize funds where needed.
- > Budget adjustment requests that increase or decrease other state funds based on actual revenues.

The Department expended \$30,000 of the special appropriations carried over from prior years in FY 2010.

The Department received several capital project appropriations for FY 2010.

The Governor issued seven executive orders for FY 2010 for emergency fire suppression activities in the amount of \$8,250,000.

## **Capital Assets and Debt Administration**

At the end of fiscal year 2010, the Department has invested a total of \$137,035,324 in governmental-type activities in a variety of capital assets (fixed assets). This amount represents a net increase (including additions and deductions, excluding depreciations) of \$5,794,489, which is approximately 4% over last fiscal year. The major increases in capital assets during the fiscal year were in the areas of machinery and equipment, projects in process and data processing equipment. The State Parks Division funds numerous capital projects annually to include various boat ramp extensions, visitor center remodeling, statewide water and wastewater improvements, statewide shelter/picnic table replacements, campground facilities construction and enhancement, and repairs to historic administration buildings and walkways. This is due in part to a concerted effort by the State Parks Division to maintain facilities in a manner that will attract both in-state and out-of-state visitors.

## Management's Discussion and Analysis - continued

#### Capital Assets and Debt Administration - continued

Table A-3
Department's Capital Assets
(Dollars in Millions)

	(Bonars in Minions)				
			Amount	Total %	
	<b>FY 2010</b>	FY 2009	<u>Change</u>	<b>Change</b>	
Land	11.9	11.9	-	0%	
Land Improvements	25.0	24.1	.9	3.56%

Projects in process	<b>3.6</b>	2.6	<u>1</u>	3.59%	
	<u>137.0</u>	<u>131.2</u>	<u>5.8</u>	<u>4.42%</u>	

The Department has many capital projects in process, several which are tentatively scheduled for completion next fiscal year. More detailed information about the Department's capital assets is presented in Note 4 to the financial statements. Accumulated depreciation for these capital assets is calculated at \$64,632,717.

GASB #34 requires the recording and depreciation of infrastructure assets such as roads, bridges, traffic signals, etc. The Department does not own a material interest in any infrastructure assets.

#### Long Term Debt

The Department's long-term debt includes nine outstanding bond issues and a federal loan entered into by the State Parks Department. At the end of FY 2010, the amount outstanding on these obligations was \$17.8 million. Detailed information about the Department's long-term debt is presented in Note 6 to the financial statements.

#### Contacting The Department's Financial Management

This financial report is designed to provide citizens, taxpayers, customers, legislators and investors and creditors with a general overview of the Department's finances and to demonstrate the Department's accountability for the money it receives. Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds to the Statement of Activities

TEAR ENDED JUNE 30, 2010	
Net Changes in Fund Balances - Total Governmental Funds	

VEAR ENTRED HINTE 20, 2010

\$ (2,739,639)

Amounts reported for governmental activities in the Statement of Activities are different because:

(Statement of Revenues, Expenditures, and Changes in Fund Balances)

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid). The decrease in the liabilities for the fiscal year was:

248,403

Repayment of bond and note principal is an expenditure in the Governmental Funds, but it reduces long-term liabilities in the Statement of Net Assets and does not affect the Statement of Activities. Bond and note payments during the current fiscal year were:

1,514,076

Interest on long-term debt in the Statement of Activities differs from the amount reported in the Governmental Funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrued, regardless of when it is due. The additional interest reported in the Statement of Activities is the net result of two factors: accrued interest on bonds and notes payable. The decrease in the liability for the fiscal year was:

29,432

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Total additions (Note 4) Reclassification of projects in process 7,290,966 (640,901)

Capital outlay
Depreciation expense

6,650,065 (5,690,789)

Excess of capital outlay over depreciation expense

959,276

The Statement of Activities reports the gain on the sale of equipment, while the Statement of Revenues, Expenditures and Changes in Fund Balance reports the proceeds. The reconciling amount is the difference:

(25,322)

The issuance of long-term debt provides and uses current financial resources in the governmental funds, but the issuance increases long-term liabilities and the related deferred items in the Statement of Net Assets.

Issuance of notes

(842,647)

Change in net assets of governmental activities (Statement of Activities)

(856,421)

Notes to Financial Statements

#### NATURE OF ORGANIZATION

#### Reporting Entity

On July 1, 1987, the Energy, Minerals, and Natural Resources Department (the Department) was formed by NMSA Section 95A-1 through 95A-7, 1978 Compilation. The basic function of the Department is to maintain responsibility for the protection, preservation and proper utilization of extractive and renewable resources residing within the state. These include, but are not limited to, petroleum, natural gas, coal, uranium, potash, timber, soils and wildlife. The Department administers programs directed toward the promotion of energy conservation, outdoor recreation and natural resources planning. The Department does not have any component units.

The chief executive of the Department is the Secretary, who is appointed by the Governor of New Mexico and is a member of the Governor's cabinet. The Department is a component unit of the executive branch and these financial statements include all funds, account groups and activities over which the Department Secretary has oversight responsibility.

The Department is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards. Even though the Department Secretary is appointed by the Governor, that person has decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements for the Department have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. Pronouncements of the Financial Accounting Standards Board (FASB) issued after November 30, 1989, are not applied in the preparation of the financial statements of the proprietary fund type in accordance with GASB No. 20. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards, which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below.

In June 1999, the GASB unanimously approved GASB No. 34, Basic Financial Statements and Management Discussion and Analysis for State and Local Governments. This statement provides for the most significant change in financial reporting in over 20 years and consisted of a phased implementation based on size of government. The Department has implemented the provisions of GASB No. 34. As a part of this statement, there is a reporting requirement regarding the local government's infrastructure (road, bridges, etc.) The Department does not own any infrastructure assets and, therefore, is unaffected by this requirement.

Notes to Financial Statements - continued

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

## • Financial Reporting Entity - GASB Statement #34

The basic financial statements include both government-wide (based on the Department as a whole) and fund financial statements. The new reporting model focus is on either the Department as a whole or major individual fund (within the fund financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as governmental activities. In the government-wide Statement of Net Assets, the governmental activities column is presented on a consolidated basis by column, and is reflected on a full accrual, economic resources basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The government-wide Statement of Activities reflects both the gross and net cost per functional category, which are otherwise being supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. The program revenues must be directly associated with the function. Inter-fund balances have been eliminated in the government-wide financial statements.

The net cost (by function) is normally covered by general revenues (intergovernmental revenues, interest income, etc). Historically, the previous model did not summarize or present net cost by function or activity.

This government-wide focus is more on the sustainability of the Department as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

The fund financial statements are similar to the financial statements presented in the previous accounting model. Emphasis here is on the major fund in the governmental category.

The governmental fund statements are presented on a current financial resource and modified accrual basis of accounting. This presentation is deemed appropriate to (1) demonstrate legal compliance, (2) demonstrate the source and use of liquid resources, and (3) demonstrate how the Department's actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented on the page following each statement, which briefly explains the adjustment necessary to transform the fund based financial statements into the governmental column on the government-wide presentation.

The Department's fiduciary funds (agency funds) are presented in the fund financial statements. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated in the government-wide statements.

Notes to Financial Statements - continued

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### • Financial Reporting Entity - GASB Statement #34 - continued

The Department is a "department" of the State of New Mexico and will be included in any statewide Comprehensive Annual Financial Report. In accordance with the criteria set forth in GASB 14 and 39 for determining component units, the Department does not have any component units.

When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, the Department first uses restricted resources, then unrestricted resources.

#### • Basis of Presentation - Fund Accounting

The accounts of the Department are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures. The various funds are summarized by type in the accompanying financial statements. The following fund types and account groups are used by the Department:

Governmental Funds - All governmental fund types are accounted for on a spending or financial flow measurement focus. Only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of available spendable resources. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of available spendable resources during a period.

Due to their spending measurement focus, expenditure recognition for governmental fund types is limited to exclude amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities. However, they are reported as liabilities in the general long-term debt account group.

The major governmental funds presented in these financial statements include the General Fund, the Emergency Fire Disaster Fund, the Abandoned Mine Reclamation Fund, the State Parks Fund, the American Recovery and Reinvestment Act Fund, the Debt Service Fund and the Capital Projects GGRT Fund.

General Fund-Fund No. 19900 - The General Fund is the operating fund of the Department. It is used to account for all operating activities of the Department, except those requiring other governmental fund types. It is funded primarily through the State of New Mexico Appropriations Act. This is a major fund. Included in the General Fund are:

**Special Revenue Funds** - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

#### Energy Conservation and Management Division

Petroleum Violation Escrow Funds - 31000, 31400, 31500, 31600, 31700, 31800.

Petroleum Violation Escrow Funds (non-reverting) were established to account for the State of New Mexico's proportionate share of the Petroleum Violation Escrow Funds (oil overcharge monies) pursuant to the 1983 Further Continuing Appropriations Act, Public Law No. 970-377, enacted on December 20, 1982. Funds received are to be utilized for the purpose of funding energy conservation projects in public and nonpublic schools and hospitals in New Mexico, for promoting the introduction of solar energy measures to residential buildings through reduction of interest rates charged by banks, and for demonstrating and promoting energy conservation technology to residences and small businesses. The Department has special revenue funds for the following petroleum violation escrow accounts: Exxon, Diamond Shamrock, Stripper Well, Warner, Second Stage and Chevron.

#### Energy Efficiency Assessment Revolving Fund – 20150.

The Energy Efficiency Assessment Revolving Fund (non-reverting) was established in accordance with Section 6, Chapter 171, Laws of 2007. The fund consists of appropriations, gifts, grants, donations and bequests made to the fund and reimbursements of costs incurred by the Department in performing energy efficiency assessments pursuant to the Energy Efficiency and Renewable Energy Bond Act. Income from the fund is credited to the fund and money in the fund at year end is not revertible and nontransferable to any other fund.

Notes to Financial Statements - continued

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Basis of Presentation - Fund Accounting - continued

Special Revenue Funds - continued

## Oil Conservation Division

Oil Reclamation Fund - 31100. The Oil Reclamation Fund (non-reverting), established in accordance with Section 70-2-37, NMSA, 1978 Compilation, provides funds for the plugging of dry and abandoned oil wells. The fund was originally allocated a percentage of the oil conservation tax. The tax revenues are used to award performance contracts to independent contractors.

#### Forestry Division

Emergency Fire Disaster Fund - 21300. The Emergency Fire Disaster Fund (reverting) was established in accordance with Section 68-2-18, NMSA, 1978 Compilation, to account for the operations of the State Forestry and Resources Division in the execution of emergency fire suppression. This is funded from the Governor's contingency fund. This is a major fund of the Department.

<u>Forest Land Protection Fund - 32200</u>. The Forest Land Protection Fund (non-reverting) was established in accordance with Section 68-2-28, NMSA, 1978 Compilation.

Conservation Planting Revolving Fund - 32100. The Conservation Planting Revolving Fund (non-reverting) was established in accordance with Section 68-2-21, NMSA, 1978 Compilation, to account for the collection and payment to the State's general fund of the proceeds from the sale of tree seedlings to New Mexican landowners for conservation plantings.

<u>Inmate Work Camp Fund - 95600</u>. The Inmate Work Camp Fund (non-reverting) was established in accordance with Section 33-13-1 to 33-13-8, NMSA, 1978 Compilation, to provide inmate labor for natural resource work planned by the forestry division.

#### **State Parks Division**

<u>State Parks Fund – 20010</u>. The Parks Fund (non-reverting) was established to account for monies derived from the operation of state park and recreation areas or from governmental gross receipts tax distributions pursuant to Section 70106.38 NMSA 1978 appropriated to the Department. This is a major fund of the Department.

Notes to Financial Statements - continued

Special Revenue Funds - continued

#### State Parks Division - continued

Motor Boat Fuel Tax Fund - 30900. The Motor Boat Fuel Tax Fund (non-reverting) was established in accordance with Section 16-2-19.1, NMSA, 1978 Compilation, to account for ongoing financing, construction and maintenance for motor boat facilities throughout the State. Financing is provided through distribution of gasoline taxes.

Natural Lands Protection Fund - 20000. The Natural Lands Protection Fund (non-reverting) was established to provide funds for the purpose of acquiring land representing the State's commitment to the proposed Petroglyph National Monument located in Bernalillo Department. This appropriation is contingent upon the following provisions: (1) the federal government designating the proposed petroglyph site a national monument; (2) the City of Albuquerque providing funds equal to this appropriation; and (3) the Department entering into a joint powers agreement with the City of Albuquerque in order for the City of Albuquerque to acquire lands necessary for the State's portion of the proposed Petroglyph National Monument.

#### Mining and Minerals Division

Abandoned Mine Reclamation Fund - 65600. The Abandoned Mine Reclamation Fund (non-reverting) was established in accordance with Section 69-25B-4, NMSA, 1978 Compilation, to retain a portion of the reclamation fees collected in an interest-bearing account to be used after August 3, 1992, for abandoned mine and land reclamation projects. This is a major fund of the Department.

Surface Mining Penalty Fund - 32000. The Surface Mining Penalty Fund (non-reverting) was established in accordance with Section 69-25A-22, NMSA, 1978 Compilation, as an escrow account for penalties assessed under the Surface Mining Act, which are contested by persons charged with violations of the Act. Proposed penalty amounts are deposited to this fund until the penalty case is adjudicated, at which time such amounts are transferred to the Surface Mining Permit Fees Fund or returned to the depositor.

<u>Surface Mining Permit Fees Fund - 31900</u>. The Surface Mining Permit Fees Fund (non-reverting) was established in accordance with Section 69-25A-10, NMSA, 1978 Compilation, to account for fees accompanying applications for surface coal mining

### Mining and Minerals Division - continued

<u>Surface Mining Permit Fees Fund – 31900 - continued.</u> and reclamation permits pursuant to the Surface Mining Act. Fees collected are appropriated for expenditures in the General Fund for administration of the Surface Mining Act.

New Mexico Mining Act Fund - 56600. The New Mexico Mining Act Fund (non-reverting) was established in accordance with Section 69-36-1, NMSA, 1978 Compilation, to promote responsible utilization and reclamation of lands affected by exploration, mining or the extraction of minerals that are vital to the welfare of New Mexico.

New Mexico Mining Act Penalty Fund - 73100. The New Mexico Mining Act Penalty Fund (non-reverting) was established in accordance with Section 69-36-19, NMSA, 1993, to establish a fund in order to properly deposit fines and penalties collected per the act.

#### **Multiple Divisions**

ARRA Fund - 89000. The American Recovery and Reinvestment Act (ARRA) Fund is a special revenue fund that was administratively created by the Department of Finance and Administration for New Mexico state agencies to capture all financial activity related to the ARRA of 2009. This fund is non-reverting. This is a major fund of the Department.

#### Office of the Secretary

Youth Conservation Corps - 01400. The Youth Conservation Corps (YCC) fund (non-reverting) was established in accordance with Section 9-SB-1, NMSA, 1978 Compilation, to provide a process to employ young persons in projects to conserve New Mexico's natural resources and provide community benefits of lasting value. The monies are received according to the Laws of 1994, Chapter 145, which states that, "A distribution pursuant to Section 7-1-6.1 NMSA 1978 shall be made to the Energy, Minerals, and Natural Resources Department in an amount equal to 25% of the net receipts attributable to the governmental gross receipts tax. 40% of the distribution is appropriated to the Department to implement the provisions of the New Mexico Youth Conservation Corps Act, and 60% of the distribution is appropriated to the Department

for state park and recreation area capital improvements, including the costs of planning, engineering, design, construction, renovation, repair, equipment and furnishings."

**Capital Projects Funds -** Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

#### Park and Recreation Division

EMNRD Capital Projects - 64600. The EMNRD Capital Projects - GGRT Fund (non-reverting) was established by law to account for financing resources to be used for improving roads; purchasing equipment; and developing, improving and acquiring capital facilities. This fund is financed by governmental gross receipts taxes and federal funds. This is a major fund of the Department.

EMNRD Capital Projects GF/STB - 50900. The EMNRD Capital Projects Fund (non-reverting) was established to account for financing resources to be used for the acquisition of capital assets as outlined by state law. The fund was created pursuant to Laws of 1995 and is funded primarily by state general fund appropriations and debt issuances of severance tax bonds.

**Debt Service Fund - 30000 -** The Debt Service Fund is used to account for financial resources set aside to meet current and future debt service requirements as required by the 1995A and 1995B Series bond issuances, 1996A and 1996B Series bond issuances, 1997A and 1997B Series bond issuances, 1998A and 1998B Series bond issuances and 2001 Series bond issuances. This is a major fund of the Department.

**Fiduciary Funds** - Fiduciary Funds include trust and agency funds, which are used to account for assets held by the Department in the capacity of trustee or agent for individuals, private organizations, other governmental entities and/or other funds. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

<u>Boat Suspense Fund - 77300-521</u>. The Boat Suspense Fund (non-reverting) was established by Statute 66-12-6.1H NMSA 1978, Annotated. An excise tax is imposed upon the sale of every boat required to be registered in the state. All taxes collected

#### Fiduciary Funds - continued

Boat Suspense Fund - 77300-521 - continued.

under the provision of this section shall be paid to the State Treasurer for credit to the "boat suspense fund" hereby created. At the end of each month, the State Treasurer shall transfer 50% of the excise tax collections in the boat suspense fund to the Department, and the balance to the state general fund. The amounts transferred to the Department are appropriated for use by the Department for improvements and maintenance of lakes and boating facilities owned by the state and for administration and enforcement of the Boat Act.

Governmental Gross Receipts Tax Suspense Fund - 77400. The Governmental Gross Receipts Tax Suspense Fund (non-reverting) was established by Chapter 08, Laws of 1991. The Governmental Gross Receipts Tax Act, effective July 1, 1991, Section 7-9-4.1 NMSA 1978, states in pertinent part that "For the privilege of engaging in certain activities by governments, there is imposed on the State of New Mexico and any agency, institution, instrumentality or political subdivision... an excise tax of 5% of governmental gross receipts."

To account for the governmental gross receipts tax the agency must pay, the agency established the GGRT fund. Transferred to the fund from the operating fund, state parks fund and conservation planting revolving fund are monies that represent 5% of the collections for seedling sales and for admissions and campsite rentals at the various state parks. Payments of the governmental gross receipts tax to the TRD are effected through state warrants.

Oil Disposition Holding Fund - 89100. The Oil Disposition Holding Fund (non-reverting) was established by the Oil and Gas Proceeds Payment Act contained in sections 70-10-1 to 70-10-6 to hold funds until parties who have claim to these monies have been determined.

<u>RETA Fund - 10290</u>. The Renewable Energy Transmission Fund was established by Statute 62-16A-6. This fund was set up for the sole purpose of transferring the money appropriated to the Department to the Renewable Energy Transmission Authority (RETA). The Department is a pass-through entity for funds appropriated to RETA. This fund is non-reverting.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### Basis of Accounting

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Department gives (or receives) value without directly receiving (or giving) equal value in exchange, include gross receipts taxes, grants and appropriations. On an accrual basis, revenue from gross receipts taxes is recognized in the fiscal year for which the taxes are collected. Revenue from grants and appropriations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

Governmental fund types follow the modified accrual basis of accounting for financial statement purposes. Under the modified accrual basis of accounting, revenues and other governmental fund financial resource increments are recognized in the accounting period in which they become susceptible to accrual - that is, when they become both measurable and available to finance expenditures of the fiscal period (available meaning collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, typically 60 days, and 9 months for Federal Revenue).

Revenues from grants that are restricted for specific uses are recognized as revenues and as receivables when the related costs are incurred. Interest earned is accrued currently by the appropriate funds. Contributions, gross receipts tax and other monies held by other state and local agencies are recorded as a receivable at the time the money is made available to the specific fund. All other revenues are recognized when they are received and are not susceptible to accrual.

Expenditures, other than vacation, compensatory and sick pay, are recorded when they are incurred. Expenditures charged to federal programs are recorded utilizing the cost principles prescribed or permitted by the various funding sources. Interest expense is recognized when paid. Total interest expense incurred during the year ended June 30, 2010 was \$819,850.

Notes to Financial Statements - continued

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### • Federal Grants Receivable (Deferred Revenue)

Various reimbursement procedures are used for federal awards received by the Department. Consequently, timing differences between expenditures and program reimbursements can exist at any time during the fiscal year. Receivable balances at fiscal year end represent an excess of modified accrual basis expenditures over cash reimbursements received to date. Conversely, deferred revenue balances represent an overdraw of cash (advances) in excess of modified accrual basis expenditures. Generally, receivable or deferred balances caused by differences in the timing of cash reimbursements and expenditures will be reversed in the remaining grant period.

#### Reservations and Designations

The accounting for actual revenue and expenditures for budgetary purposes beginning July 1, 2004, were changed to the modified accrual method of accounting from the budgetary non-accrual basis of accounting. In conjunction with this change in the basis of accounting, encumbrances are no longer reflected in the expenditures of the Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual, beginning July 1, 2004.

Reservations of fund balance are created to either (1) satisfy legal covenants that require that a portion of the fund balance be segregated, or (2) identify the portion of the fund balance that is appropriated for future expenditures. Under the guidance provided by the Office of the State Auditor - Audit Rule - 2.2.2.12 A (5) (a), (b) NMAC 2005, encumbrances are to be reflected as a reservation of fund balance but are not to be reflected as restricted fund balance in the governmental-wide financial statements. Specific reservations of fund balance accounts are summarized below:

**Reserved for Special Monies** - These reserves were created to restrict the use of all resources contributed to or earned by these funds through laws created by the State legislature.

Reserved for Debt Service – Represents legally segregated amounts related to annual debt service payments over the remaining period of the outstanding bond issue.

**Reserved for Encumbrances** – Consists of executed and outstanding contracts and purchase orders for which delivery is anticipated in the next fiscal year, special appropriations.

Reserved for Capital Projects – Represents legally segregated amounts related to the implementation and service of capital projects.

Invested in Capital Assets – This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation.

Notes to Financial Statements - continued

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

### • Budgets and Budgetary Accounting

The state Legislature makes annual appropriations to the Department. Annual appropriations lapse at fiscal year end unless otherwise specified in the legislation. Legal compliance is monitored through the establishment of a budget (modified accrual) and a financial control system that permits a budget to actual expenditure comparison. Expenditures may not legally exceed appropriations for each budget at the category level. Budgeted category amounts may be amended upon approval from the Budget Division of the State of New Mexico Department of Finance and Administration (DFA) within the limitations as specified in the General Appropriations Act.

The budgetary legal authorization to incur obligations is on a basis that differs from the basis of accounting required by accounting principles generally accepted in the United States of America (GAAP). Significant differences between the budgetary basis and GAAP include the following:

The budget is adopted on a modified accrual basis of accounting that is consistent with GAAP. This change was implemented with the Laws of 2004, Chapter 114, Section 3, paragraph N and paragraph O. This change is effective for fiscal years beginning July 1, 2004. In prior years, the budgetary basis of accounting was not considered a GAAP basis of accounting. There remains a difference, however, between the budgetary basis and the GAAP presentation which is a result of receipts in prior years and payments made in the current year on outstanding prior year encumbrances. Budgetary comparisons presented in the financial statements are now presented on a basis which is consistent with GAAP.

#### • Interfund and Interagency Transactions

During the year, the Department makes various transfers of monies to fund debt service payments, capital projects and to reimburse the General Fund for costs incurred on behalf of other funds. Transfers which, because of budgetary or legal restrictions, must be expended by funds other than the fund initially receiving the revenue, are recorded as operating transfers in (out) under the other financing sources (uses) category.

#### Modified Accrual

In applying the "susceptible to accrual" concept to intergovernmental revenues pursuant to Governmental Accounting Standards Board Statement No. 33 (GASB 33), Accounting and Financial Reporting for Nonexchange Transactions, the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenues when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met, under most circumstances, should be reported as advances by the provider and deferred revenue by the recipient.

Notes to Financial Statements - continued

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### Capital Assets

Capital assets are recorded at historical cost and depreciated over their estimated useful lives (with no salvage value). Donated capital assets are recorded at their estimated fair value at the date of donation. Additions, improvements and other capital outlays exceeding \$5,000 that significantly extend the useful life of an asset are capitalized per Section 12-6-10 NMSA 1978. Other costs incurred for repairs and maintenance are expensed as incurred.

Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Straight-line depreciation is used based on the following estimated useful lives in years:

Land improvements	20
Buildings and building improvements	25
Furniture and equipment	5 - 10
Vehicles	5

The Department capitalizes computer software, whether purchased or developed internally, in accordance with guidelines provided by the GSD Rule NMAC Chapter 20, Part 1, Sections 2.20.1.9C(5) and 2.20.1.10C, and FASB 86 accounting principles. Museum acquisitions are considered inexhaustible assets and therefore are not depreciated.

#### • Reserve for Subsequent Years' Expenditure

Reserve for subsequent years' expenditure represents the portions of the fund balance that are legally segregated for specific future uses.

#### Compensated Absences

The Department accounts for the accumulated vacation leave on the accrual basis in accordance with GASB 16. Accrued vacation up to 240 hours is recorded in the Statement of Net Assets at 100% of the employee's hourly wage. In addition, accrued sick leave over 600 and up to 720 hours less the amount classified as current is recorded in the Statement of Net Assets at 50% of the employee's hourly wage. Compensatory time is accrued at a rate of one and one-half hours for each hour of employment for which overtime compensation is required for those employees covered by the Fair Labor Standards Act (FLSA). Employees exempt from coverage by FLSA earn one hour of compensatory time for each overtime hour. The accrual for compensated absences is calculated at pay rates in effect at June 30, 2010, and includes direct and incremental salary related payments, such as the employees' share of social security taxes.

Notes to Financial Statements - continued

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### • Short-Term Debt

The Department did not have any short-term debt activity during the year.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### • Risk Management

The Department, as a "State Agency" defined in the New Mexico Tort Claims Act, is insured through the Risk Management Division of the State of New Mexico. The Department pays annual premiums to the Risk Management Division for coverage provided in the following areas:

- Liability and civil rights protection for claims made by others against the State of New Mexico.
- Coverage to protect the State of New Mexico's property and assets.
- Fringe benefit coverage for State of New Mexico employees.

At June 30, 2010, the Department had no claims that the Risk Management Division has returned as not covered that would become the responsibility of the Department.

#### 2. PVE FUND GRANT EXPENDITURES

Various grant programs allocate expenditures to the Petroleum Violation Escrow (PVE) accounts included as cost centers in the General Fund and as Special Revenue Funds. These expenditures are included in the General Fund and within the Combined Special Revenue Funds. However, these expenditures have not been included within the accompanying Supplemental Schedule of Expenditures of Federal Awards because of the unique nature of these funds. Revenues included in the PVE Funds are derived from interest earned on deposits with the State Treasurer recorded as Other State Funds and federal draw downs from the U.S. Department of Energy. During the current fiscal year, the PVE accounts did not incur any expenditures.

Notes to Financial Statements - continued

#### 3. CASH DEPOSIT ACCOUNTS AND INVESTMENTS

Cash, other than petty cash, is deposited by the Department into its accounts with the State Treasurer and is pooled and invested by the State Treasurer. The Department is required by statute to deposit any money received into the State Treasury. The State Treasurer issues separate financial statements, which disclose the collateral pledged to secure these deposits, the categories of risk involved, and the market value of purchased investments, which may differ from the cash deposited by the Department.

Other bank accounts are used by the Department to deposit revenue from its various locations in order to transfer the funds into its accounts with the State Treasurer. The Department's investments are held by agents of the Department in the Department's name. All funds deposited at financial institutions were fully insured by the Federal Deposit Insurance Corporation up to \$250,000 at June 30, 2010.

#### 3. CASH DEPOSIT ACCOUNTS AND INVESTMENTS - continued

The Bank of New York Mellon (previously Bank of Albuquerque) repurchase agreements are held in trust for the 1995, 1996, 1997, 1998, 2001 and 2003 Series bonds received from the New Mexico Finance Authority. State law requires that repurchase agreements be secured by collateral with a market value greater than 102% of the value of the agreement.

Cash balances at June 30, 2010 consisted of cash invested with the State Treasurer. In general, state statutes require that all deposits held by the State Treasurer be collateralized at a minimum level of 50%. The State Treasurer is in compliance with this requirement. The State Treasurer issues separate financial statements, which disclose the collateral pledged to secure these deposits, categories of risk involved and the market value of purchased investments, which may differ from the cash deposited by the Department (refer to Schedule 3 – Pledged Collateral and Schedule 2 – Schedules of Cash Accounts.) All pledged securities for the Department are held in the name of the New Mexico State Treasurer by the Federal Home Loan Bank of Dallas Texas, an independent custodian. Custodial credit risk is the risk that, in the event of failure of the counterparty, the Department will not be able to recover the value of its cash that is in the possession of an outside party. The Department's cash balances are exposed to custodial credit risk of \$11,092,944.

#### 4. CAPITAL ASSETS – continued

Depreciation expense was charged to governmental function as follows:

Natural Resources and Recreation

\$ 5,690,789

#### 5. REVERSION OF FUNDS

In accordance with statute Section 6-5-10(A) NMSA 1978, unreserved, undesignated fund balances in reverting funds and accounts as reflected in the central accounting system as of June 30 shall revert. A total of \$2,379,430 was paid to the State General Fund during the year. \$1,473,709 is payable at June 30, 2010 and due by September 30, 210. This payable may be adjusted within 45 days of the release of this audit by the New Mexico Office of the State Auditor.

		Fiscal Year of
	Reversion	Appropriation
	<b>Amount</b>	or Collection
State Parks Appropriation	\$ 634,260	2010
Capital Projects Severance Tax Bonds	\$ 1,653,356	2010
		Executive Order
General Fund Appropriation	\$ 828,372	2009-044
Special Revenue Fund – Emergency Fire Disaster	\$ 755,151	2010

Of these reversion amounts due to the State General Fund for the year ending June 30, 2010, \$1,473,709 was paid in August and September 2010. The current year reversions due to the State General Fund as of June 30, 2010 were as follows:

General Fund	\$ 827,921
State Parks Fund	634,260
Capital Projects GF/STB	11,528
	\$ 1,473,709

#### 6. LONG-TERM DEBT

The changes to long-term debt are as follows:

	Balance June 30, 2009	<u>Increase</u>	(Decrease)	Balance June 30, 2010	Amounts Due Within One Year
Compensated absences	\$ 2,045,189	1,373,986	(1,622,389)	1,796,786	850,775
Federal loan proceeds	1,050,647	-	(9,181)	1,041,466	10,093
Bonds issued, 1995A and 1995B	120,937	-	(18,697)	102,240	19,258
Bonds issued, 1996A and 1996B	163,321		(21,314)	142,007	21,954
Bonds issued, 1997A and 1997B	2,442,549	-	(255,027)	2,187,522	265,778
Bonds issued, 1998A and 1998B	2,818,419	- ,	(255,929)	2,562,490	271,707
Bonds issued, 2001	3,129,290	-	(227,320)	2,901,970	236,709
Bonds issued, 1995A and 1996A	3,007,000	-	(405,000)	2,602,000	422,000
Bonds issued, 2003	5,691,235	-	(321,608)	5,369,627	330,893
Bonds issued, 2010 equipment		842,647	<del>_</del>	842,647	_100,500
	\$ 20,468,587	<u>2,216,633</u>	(3,136,465)	19,548,755	<u>2,529,667</u>

Typically, the General Fund has been used to liquidate other long-term liabilities.

There is a long-term obligation of \$1,041,466 resulting from federal loan proceeds received to fund construction of recreational facilities at Brantley Reservoir, which was completed during 1992. The funding was provided by the Bureau of Reclamation and created through Federal Contract No. 7-07-57-X0888. A base amount of \$914,500 plus 50% of federal funds received by the state in excess of \$914,500 will be repaid to the federal government. The other 50% in excess of this amount has been recognized as federal revenue. Repayment is scheduled over a fifty-year period with annual payments of \$69,473 or the state's annual revenues from entrance and user fees, whichever is less.

The terms of repayment as of June 30, 2010, are as follows:

Principal Balance	Interest Rate
\$ 914,500 126,966	5.116% 9.92%
\$ 1,041,466	

The annual payments will be applied first to the obligation in excess of \$914,500 and then to the \$914,500 base amount. Interest expense for the current fiscal year was \$60,291.

#### 6. LONG-TERM DEBT - continued

Maturities of the debt for the following five years and thereafter are as follows:

Year Ended June 30,	<b>Principal</b>	Interest	<b>Total</b>
2011	\$ 10,093	59,381	69,474
2012	11,093	58,380	69,473
2013	12,194	57,279	69,473
2014	13,404	56,070	69,474

During the 1996 fiscal year, Parks and Recreation Division issued series 1995A and 1995B Series bonds. These bonds were issued in accordance with 16-2-21 NMSA 1978, "State Park and Recreation Bond Act". These bonds were issued to provide for the acquiring, developing, operating and maintaining of state parks and recreation areas. Series 1995A was issued for \$3,330,000 and Series B for \$333,000, with a total issuance cost of \$77,348. The 1995A bond series were paid off in the prior year with the 1995/1996 Series A bond issue. These bonds are pledged to be repaid by Parks and Recreation Division's share of governmental gross receipts tax. Interest rates on the series vary from 3 to 6%. The issuances require a reserve of \$285,365 to be maintained in a debt service fund. Interest expense for the current fiscal year was \$3,326. The current portion of long-term debt is \$19,258.

#### 10. SPECIAL APPROPRIATIONS AND GOVERNOR'S EXECUTIVE ORDERS

The Governor issued executive orders during the 2010 fiscal year to fund the Emergency Fire Disaster Program (21300). Any unexpended or unencumbered amounts revert in the subsequent fiscal year. The Department requested and received \$8,250,000 during the 2010 fiscal year.

#### 11. PENSION PLAN - PUBLIC EMPLOYEES RETIREMENT ASSOCIATION

#### Plan Description

Substantially all of the Department's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

#### Funding Policy

Plan members are required to contribute 8.92% of their gross salary. The Department is required to contribute 15.09% of the gross covered salary. The contribution requirements of plan members and the Department are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The Department's contributions to PERA for the fiscal years ending June 30, 2010, 2009 and 2008 were \$2,934,685, \$3,481,618 and \$3,213,778, respectively, which equal the amount of the required contributions for each fiscal year.

#### 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN

#### Plan Description

The Department contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and

Notes to Financial Statements - continued

## 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN - continued

#### Plan Description - continued

amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

#### Funding Policy

The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at <a href="https://www.nmrhca.state.nm.us">www.nmrhca.state.nm.us</a>.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. During the fiscal year ended June 30, 2010, the statute required each participating employer to contribute 1.3% of each participating employee's annual salary; each participating employee was required to contribute .65% of their salary. In the fiscal years ending June 30, 2011 through June 30, 2013, the contribution rates for employees and employers will rise as follows:

## 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN - continued

#### Funding Policy - continued

For employees who are not members of an enhanced retirement plan, the contribution rates will be:

Fiscal Year	Employer Contribution	Employee Contribution
	Rate	Rate
FY11	1.666%	.833%
FY12	1.834%	.917%
FY13	2.000%	1.000%

For employees who are members of an enhanced retirement plan (state police and adult correctional officer coverage plan 1; municipal police member coverage plans 3, 4 and 5; municipal fire member coverage plan 3,4 and 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act [10-12B-1 NMSA 1978]), the contribution rates will be:

Fiscal Year	Employer Contribution	Employee Contribution
	Rate	Rate
FY11	2.084%	1.042%
FY12	2.292%	1.146%
FY13	2.500%	1.250%

Also, employers joining the program after January 1, 1998 are required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

The RHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

The Department's contributions to the RHCA for the years ended June 30, 2010, 2009 and 2008 were \$259,715, \$262,715 and \$247,291, respectively, which equal the required contributions for each year.

#### 13. OPERATING LEASE COMMITMENT

The Department leases certain equipment and premises under numerous operating leases. Leases are subject to future appropriation and as such are cancelable by the Department at the end of a fiscal year. Rental expense for the year ended June 30, 2010 was \$339,286.

The following is a schedule by years of future minimum lease payments required under operating leases that have initial or remaining non-cancelable terms in excess of one year as of June 30, 2010.

#### Notes to Financial Statements - continued

#### 13. OPERATING LEASE COMMITMENT - continued

Years ending June 30:	Lease Amount	<u>s</u>
2011	\$ 78,103	
2012	68,483	
2013	13,507	
2014	7,379	
2015	1,252	
	\$ 168.724	

#### 14. CONTINGENT LIABILITIES (CLAIMS AND JUDGMENTS)

The Department, as a State Agency defined in the New Mexico Tort Claims Act, is insured through the Risk Management Division of the General Services Department of the State of New Mexico. The Office of Risk Management Division pays annual premiums for coverage provided in the following areas:

- Liability and civil rights protection for claims made by others against the State of New Mexico;
- Coverage to protect the State of New Mexico's property and assets; and
- Fringe benefit coverage for State of New Mexico employees.

In the case of civil actions or claims against the Department for financial damages, the Department's certificate of insurance with Risk Management does not cover claims for back wages but does cover civil rights claims for other compensatory damages.

#### 15. RISK MANAGEMENT

The Department is exposed to various risks of loss for which the Department carries insurance with the State of New Mexico Risk Management Division (i.e., auto, employee fidelity bond, general liability, civil rights and foreign jurisdiction, money and securities, property and workers' compensation).

Notes to Financial Statements - continued

#### 16. FUND BALANCE AND NET ASSET RESTATEMENTS

The restatements are disclosed in order to display the flow of financial activity that cannot be stated elsewhere.

Fund balance – Fund 20010: In prior years, special appropriations recognized in the State Parks fund were overstated. The revenue was generated in the Capital Projects fund; balances were corrected in fiscal year 2010.

As a result of the restatement, the June 30, 2009 fund balance in the State Parks fund was decreased by \$384,852.

Fund balance – Fund 50900: In prior years, special appropriations in the Capital Projects fund were understated. The revenue was recognized in the State Parks fund; balances were corrected in fiscal year 2010.

As a result of the restatement, the June 30, 2009 fund balance in the Capital Projects fund was increased by \$384,852.

	State Parks Fund-20100	Capital Projects <u>Fund-50900</u>
Fund balance as originally reported, June 30, 2009 Restatement	\$ 5,583,301 (384,852)	4,665,670 384,852
Fund balance, June 30, 2009, restated	\$ 5,198,449	5,050,522

Net assets: Due to these restatements, the net effect on net assets was \$0.

#### Notes to Financial Statements - continued

#### 17. SPECIAL APPROPRIATIONS

The following is a summary of special appropriations received by the Department as of June 30, 2010.

	Prior Year Appropriation	Expenditures Inception to June 30, 2010		brance e as of 0, 2010	Reversion Amount	Balance as of June 30, 2010

#### 18. NEW PRONOUNCEMENTS

Effective for fiscal years beginning after June 15, 2010, GASB 54, Fund Balance Reporting and Governmental Fund Type Definitions, will provide modifications to, and additional types of, fund balance classifications. This statement will enhance the usefulness of fund balance information to provide more consistency among the classifications and will establish reporting standards for all governments that report governmental funds.

Effective for fiscal years beginning after June 15, 2010, GASB 59, Financial Instruments Omnibus, will update and improve existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice. This statement provides for the following amendments:

O National Council on Governmental Accounting Statement 4, Accounting and Financial Reporting Principles for Claims and Judgments and Compensated Absences, is updated to be consistent with the amendments to GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, regarding certain financial guarantees.

Notes to Financial Statements - continued

#### 19. NEW PRONOUNCEMENTS - continued

- O Statements No. 25, Financial Reporting for Defined Benefit Pensions Plans and Note Disclosures for Defined Contribution Plans, and No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, are amended to remove the fair value exemption for unallocated insurance contracts. The effect of this amendment is that investments in unallocated insurance contracts should be reported as interest-earning investment contracts according to the provisions of paragraph 8 of Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools.
- O Statement 31 is clarified to indicate that a 2a7-like pool, as described in Statement 31, is an external investment pool that operates in conformity with the Securities and Exchange Commission's (SEC) Rule 2a7 as promulgated under the Investment Company Act of 1940, as amended.
- O Statement No. 40, Deposit and Investment Risk Disclosures, is amended to indicate that interest rate risk information should be disclosed only for debt investment pools such as bond mutual funds and external bond investment pools that do not meet the requirements to be reported as a 2a7-like pool.

#### Statement 53 is amended to:

- O Clarify that the net settlement characteristic of Statement 53 that defines a derivative instrument is not met by a contract provision for a penalty payment for nonperformance.
- O Provide that financial guarantee contracts included in the scope of Statement 53 are limited to financial guarantee contracts that are considered to be *investment* derivative instruments entered into primarily for the purpose of obtaining income or profit.
- Clarify that certain contracts based on specific volumes of sales or service revenues are excluded from the scope of Statement 53.
- O Provide that one of the "leveraged yield" criteria of Statement 53 is met if the initial rate of return on the companion instrument has the potential for at least a doubled yield.

Although early implementation is encouraged, the State of New Mexico has decided to implement this new pronouncement for fiscal year ending June 30, 2011. The impact on the Department's financial statements has not yet been determined.

- (A) This amount is held at the Office of the State Treasurer and is detailed in the report of the Office of the State Treasurer, whose audit is covered by a separate report. Detail specific for the collateral is commingled by the Office of the State Treasurer, and they monitor the adequacy of the funds pledged for collateral to ensure they are fully covered as required by the Laws of the State of New Mexico and related statutes.
- (B) Repurchase agreements are collateralized with securities backed by the full faith and credit of the U.S. Government at 102% of maturity value. The repurchase agreement is held in an American Performance Institutional U.S. Treasury Fund. The CUSIP number is 028846848. This fund is cumulative of all New Mexico State agency funds collateralized by the Bank of New York Mellon.

#### Schedule 3

Supplemental Schedule of Special (Emergency) Appropriations

Special emergency funds were appropriated due to the wildfires resulting from the dry conditions throughout the state in fiscal year 2010 (Note 10).

Executive Order:	Amount
2010-023 2010-015 2010-017/018 2010-020/021 2009-026-027 2009-015/016	\$ 750,000 1,500,000 2,250,000 1,500,000 1,500,000 
	\$ _8,250,000

No encumbrances were outstanding at the end of the fiscal year.

#### YEAR ENDED JUNE 30, 2010

### Notes to the Schedule of Expenditures of Federal Awards

### **GENERAL**

The accompanying Supplemental Schedule of Expenditures of Federal Awards presents the activities of all federal awards of the Department.

### **BASIS OF ACCOUNTING**

The accompanying Supplemental Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting, which is described in Note 1 to the Department's general purpose financial statements.

### **NON-CASH ASSISTANCE**

The Department did not receive any federal non-cash assistance during the year ended June 30, 2010.

### **SUBRECIPIENTS**

The Department records disbursements to subrecipients on the cash basis of accounting for the purpose of requesting reimbursement from the federal grantor agencies:

Type:	<b>Amount</b>
State Energy Program-ARRA: 81.041	\$ 4,579,703
Due to Other State Agency (Department of Cultural Affairs)	(190,848)
Due to Other State Agency (Department of Transportation)	(29,922)
Due to Other State Agency (RLD-ARRA)	(39,105)
Due to Other State Agency (GSD-ARRA)	(318,568)
Actual Cash Disbursed During the Fiscal Year	4,001,260
Waste Water Isolation Pilot Project: 81.106	1,210,354
Due to Other State Agency ( Department of Health)	(80,892)
Due to Other State Agency (Environment Department)	(54,854)
Due to Other State Agency (Department of Public Safety)	(172,125)
Due to Other State Agency (DHSEM)	(58,483)
Due to Other State Agency (Public Regulation Commission)	<u>(171,581)</u>
Actual Cash Disbursed During the Fiscal Year	672,419
Abandoned Mine Land: 15.252	2,453,921
Due to Other State Agency (Department of Cultural Affairs)	(31,373)
Actual Cash Disbursed During the Fiscal Year	<u>2,422,548</u>

REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT
AUDITING STANDARDS

State of New Mexico Energy, Minerals, and Natural Resources Department and Mr. Hector H. Balderas New Mexico State Auditor

We have audited the financial statements of the governmental activities, each major fund, the aggregate remaining fund information, the budgetary comparisons of the general fund and major special revenue funds, the combining and individual funds, fiduciary funds, and related budgetary comparison presented as supplemental information of the State of New Mexico Energy, Minerals and Natural Resources Department (the Department) as of and for the year ended June 30, 2010, and have issued our report thereon dated November 30, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

## **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Department's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in State of New Mexico

Energy, Minerals, and Natural Resources Department and Mr. Hector H. Balderas New Mexico State Auditor

internal control over financial reporting that we consider to be material weaknesses, as defined above.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Department's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We also noted certain other matters that are required to be reported pursuant to *Government Auditing Standards* paragraphs 5.14 and 5.16, and pursuant to Section 12-6-5, NMSA 1978, which is described in the accompanying schedule of findings and questioned costs as finding 10-01.

The Department's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the Department's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management of the Department, the New Mexico Office of the State Auditor, the New Mexico Legislature, the New Mexico Department of Finance and Administration, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

State of New Mexico Energy, Minerals, and Natural Resources Department and Mr. Hector H. Balderas New Mexico State Auditor

### Compliance

We have audited the State of New Mexico Energy, Minerals, and Natural Resources Department's (the Department) compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the Department's major federal programs for the year ended June 30, 2010. The Department's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Department's management. Our responsibility is to express an opinion on the Department's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Department's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Department's compliance with those requirements.

In our opinion, the Department complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

State of New Mexico Energy, Minerals, and Natural Resources Department and Mr. Hector H. Balderas New Mexico State Auditor

### **Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Department's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The Department's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the Department's responses and, accordingly, we express no opinion on the responses.

State of New Mexico Energy, Minerals, and Natural Resources Department and Mr. Hector H. Balderas New Mexico State Auditor

This report is intended solely for the information and use of the management of the Department, the New Mexico Office of the State Auditor, the New Mexico Legislature, the New Mexico Department of Finance and Administration, and federal award agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

November 30, 2010

### Schedule of Findings and Questioned Costs

### YEAR ENDED JUNE 30, 2010

#### SUMMARY OF AUDIT RESULTS A.

- The auditors' report expresses an unqualified opinion on the basic financial statements of the 1. New Mexico Energy, Minerals, and Natural Resources Department (Department).
- 2. There were no instances of noncompliance material to the financial statements disclosed during the audit of the Department.
- 3. There was one deficiency in internal control identified, which was not considered to be a significant deficiency or material weakness to the financial statements of the Department.
- There were no deficiencies in internal control over major programs identified that were material 4. weaknesses.
- 5. There were no audit findings that the auditor is required to report under 510(a) of Circular A-133.
- 6. The auditors' report on compliance for the major federal award programs for the Department expresses an unqualified opinion.
- 7. The programs tested as the major programs included:

### **U.S. Department of Agriculture:**

ARRA: Wildland Fire Management	10.688
U.S. Environmental the Interior:	
ARRA – Environmental Quality and Protection Resource Management	15.236
Regulation of Surface Coal Mining and Surface Effects	15.25
Abandoned Mine Land Reclamation Program	15.252
U.S. Department of Energy:	
ARRA – State Energy Program	81.041
Waste Isolation Pilot Project	81.106
ARRA – Energy Efficient Appliance Rebate Program	81.127
ARRA - Energy Efficiency and Conservation Block Grant Program	81.128

- 8. The threshold for distinguishing Types A and B programs was \$695,658.
- 9. The Department was determined to be a low-risk auditee.

### Schedule of Findings and Questioned Costs - continued

### B. FINDINGS - FINANCIAL STATEMENT AUDIT

### 10-01 GASOLINE CREDIT CARD DISBURSEMENTS

**Condition:** During our testwork over disbursements made with the Department's gas cards, we identified instances where mileage supporting documentation did not adequately support the disbursement for the purchase of gasoline.

**Criteria**: Section 2.2.2.8 J of the New Mexico State Audit Rule requires good accounting practices be followed, which includes maintaining adequate financial records to support disbursements made with Department resources.

Cause: Lack of adequate review of gas card expenditures and supporting documentation.

Effect: There is increased potential for overpayment of gas expenditures or misuse of the Department's gas card.

**Recommendation**: We recommend the Department implement a policy and educate employees on proper treatment of gas card expenses. This can be accomplished by providing a memorandum to all employees for review and modification of the Department's personnel policies.

### Management's Response:

This audit finding relates to the odometer reading having been entered incorrectly in the Oil Conservation Division.

When an employee uses a Wright Express gas card for gas, he is asked to enter the last six digits of his Social Security number and the odometer reading.

### Reasons for invalid entry of odometer readings:

- The screens can be very hard to see in strong sunlight and extra or incorrect digits were sometimes entered.
- In one instance the employee used a state vehicle less than once per year and did not remember to check the odometer before exiting the vehicle. It was 5AM, the employee had already been driving for one hour and had four hours to go before a scheduled meeting, so the employee quickly entered an estimate.

### Oil Conservation Division's Wright Express invoice verification process:

An incorrect odometer entry is recognizable if the monthly Wright Express invoice is printed in date sequence by gas card (vehicle). Since the Wright Express invoices are subject to late fees, in FY10 it was the division's practice to pull copies of the invoices from the web rather than waiting for the hard copy invoices that went to the division's three remote offices; the web invoices were in date order but not by date order per vehicle. The Santa Fe office performed its validation from the web copies. This validation included:

### Schedule of Findings and Questioned Costs - continued

### B. FINDINGS - FINANCIAL STATEMENT AUDIT - continued

### 10-01 GASOLINE CREDIT CARD DISBURSEMENTS - continued

### Management's Response – continued:

- Verification that any non-gasoline charge was supported by a receipt and was for a business purpose, such as an oil change, windshield wipers or ice for soil samples.
- Verification that the purchase was made in the location the employee was assigned to or on an authorized business trip. If a purchase was made out of state, verification was made that the employee was covered by an out-of-state waiver.
- Verification that the purchase was made during or near business hours.
- Verification that the employee had a current defensive driving certificate.

The hard copy invoices were attached to the web copies later as they arrived from the districts; the auditors reviewed the hard copy invoices on which an incorrect odometer reading was more recognizable since the charges appeared by vehicle by date.

#### Remediation:

In May, 2010, the division learned that an employee used a state gas card for his personal vehicle. After the investigation, the Division Director published a policy on July 7, 2010 regarding use of the Wright Express cards. This policy includes the following and is being actively enforced:

- A daily trip book for each vehicle documenting the license plate, employee, date, beginning mileage,
  destination, ending mileage, the vehicle's condition, type of fuel purchased, number of gallons, total cost,
  oil change cost, service description and cost, and other purchase descriptions and costs. The employee
  must fill out this form at the beginning of the day, when using the Wright Express card, and at the end
  of the day.
- The mileage on the day of the gas purchase must match the mileage on the trip book. The field manager inspects the odometer and matches it to the trip book on an unannounced basis at least once per month. The field manager also validates the condition of the vehicle as documented in the trip book.
- The card must remain in the vehicle.
- The trip book page for the month and all receipts for non-fuel purchases must be turned in once a month. They are compared to the Wright Express invoice and approved by the field supervisor.
- The accounts payable specialist in Santa Fe thoroughly reviews each invoice making sure that the mileage on the Wright Express invoice matches the odometer readings for each day items were purchased, and that every column on the trip book has been filled in as required.
- We no longer pay from the web version of the invoice, so incorrect keying of mileage is easy to identify.
   Any discrepancies are brought to the attention of the employee and documented.

Schedule of Findings and Questioned Costs - continued

C. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD PROGRAMS AUDIT

None.

## **Summary Schedule of Prior Year Audit Findings**

09-01 Revenue Recognition - Resolved

09-02 Per Diem Payments - Resolved

**Exit Conference** 

An exit conference was held with the Department on December 6, 2010. The conference was held at the Department's offices in Santa Fe, New Mexico. In attendance were:

### ENERGY, MINERALS, AND NATURAL RESOURCES DEPARTMENT

Jim Noel, Cabinet Secretary Karen Garcia, Deputy Cabinet Secretary Kim Keahbone, CPA, Chief Financial Officer

### MEYNERS + COMPANY, LLC

Janet Pacheco-Morton, CPA, CGFM, Director Laura Beltran Schmitz, CPA, CFE, Supervising-Senior

### PREPARATION OF FINANCIAL STATEMENTS

The financial statements presented in this report have been prepared by the independent auditor. However, they are the responsibility of management, as addressed in the Independent Auditors' Report.
