INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq.
New Mexico State Auditor and
The Office of Management and Budget
To the City Commission
City of Alamogordo
Alamogordo, New Mexico

Carr, Riggs & Ingram, LLC 2424 Louisiana Boulevard NE Suite 300 Albuquerque, NM 87110

(505) 883-2727 (505) 884-6719 (fax) CRIcpa.com

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, the aggregate remaining fund information, and the budgetary comparison for the general fund of the City of Alamogordo (the "City"), as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the City's basic financial statements as listed in the table of contents. We also have audited the financial statements of the City's discretely presented component unit presented as supplementary information, as defined by the Government Accounting Standards Board, in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2019, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, the aggregate remaining fund information, and the budgetary comparison for the general fund of the City, as of June 30, 2019, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the discretely presented component unit of the City, as of June 30, 2019, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Restatement of Net Position

As described in note 17 to the financial statements, the prior year financial statements have been restated in the amount of \$1,000,344 and (\$555,057) in the business type activities relating to an accrual for unbilled utilities and capital assets that were incorrectly restated in the prior year. In addition, the amount of \$485,018 was restated in the component unit activities relating to construction in progress that was unidentified during the prior year. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Management has omitted the *Management's Discussion and Analysis* that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considered it be an essential part of the financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the GASB required pension schedules, OPEB schedules, and notes to the required supplementary information on pages 90 through 104 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, the combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and supporting schedules required by Section 2.2.2 NMAC, as identified in the table of contents, and other disclosures are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Financial Data Schedule is presented for purposes of additional analysis as required by the U.S Department of Housing and Urban Development and is not a required part of the financial statements.

The combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards and supporting schedules as identified in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards and supporting schedules as identified in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section and other disclosures have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2019, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Caux Rigge & Ingram, L.L.C.

City of Alamogordo, New Mexico Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2019

Amounts reported for governmental activities in the statement of net position are different because:

Fund balances - total governmental funds	\$ 42,088,858
Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported in the funds	78,983,199
Internal service funds are used by management to charge the costs of activities, such as insurance, to individual funds. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources are included in governmental activities in the statement of net position	1,381,235
Delinquent property taxes not collected within sixty days after year end are not considered "available" revenues and are considered to be unavailable revenue in the fund financial statements, but are considered revenue in the statement of activities	177,187
Deferred outflows of resources related to long term debt are applicable to future periods and therefore, are not reported in funds:	
Deferred outflows of resources related to the advanced extinguishment of debt	594,310
Deferred outflows and inflows of resources related to pensions and OPEB are applicable to future periods and, therefore, are not reported in funds:	
Deferred outflows - pension (Note 11)	6,554,650
Deferred inflows - pension (Note 11)	(1,823,451)
Deferred outflows - OPEB (Note 12)	674,816
Deferred inflows - OPEB (Note 12)	(2,746,242)
Liabilities, including bonds payable, and net pension liability are not due and	
payable in the current period and, therefore, are not reported in the funds:	
Accrued interest	(210,354)
Current portion of accrued compensated absences	(940,016)
Bond discounts	178,327
Bond premiums	(212,016)
Current portion of long term debt payable	(2,493,677)
Long-term debt payable	(30,071,462)
Net pension liability	(23,391,729)
Net OPEB Liability	 (10,690,353)
Net position of governmental activities	\$ 58,053,282

City of Alamogordo, New Mexico

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ (7,920,019)
Change in net position of the internal service funds, which are presented in the statement of activities as governmental activities but are not presented with the governmental fund financial statements	(235,847)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:	
Capital expenditures Loss on disposition of capital assets Depreciation expense Transfer of capital assets to business-type activities	12,687,240 (143,131) (5,719,402) (10,497,835)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds:	
Change in unavailable revenue related to property taxes receivable	(6,658)
Governmental funds report city pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as pension expense:	
City pension contribution Pension expense City OPEB contribution OPEB expense	1,189,552 (2,443,558) 211,850 (65,729)
The issuance of long-term debt (e.g. bonds, notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities:	
Increase in accrued interest Decrease in accrued compensated absences Principal payments on debt payable Amortization of bond discounts Amortization of deferred loss on extinguishment of debt Amortization of bond premiums	2,306 (55,705) 2,613,503 (8,732) (62,559) 3,160
Change in net position of governmental activities	\$ (10,451,564)

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Alamogordo (the "City") was incorporated in 1898. The City operates under a Commission-Manager form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, public utilities (water, wastewater, and solid waste), health and social services, culture-recreation, education, public improvements, planning and zoning, and general administrative services.

The City of Alamogordo is a body politic and corporate under the name and form of government selected by its qualified electors. The City may:

- 1. Sue or be sued;
- 2. Enter into contracts and leases;
- 3. Acquire and hold property, both real and personal;
- 4. Have common seal, which may be altered at pleasure;
- 5. Exercise such other privileges that are incident to corporations of like character or degree that are not inconsistent with the laws of New Mexico;
- 6. Protect generally the property of its municipality and its inhabitants;
- 7. Preserve peace and order within the municipality; and
- 8. Establish rates for services provided by municipal utilities and revenue-producing projects, including amounts which the governing body determines to be reasonable in the operation of similar facilities.

The City's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

This summary of significant accounting policies of the City is presented to assist in the understanding of City's financial statements. The financial statements and notes are the representation of City's management who is responsible for their integrity and objectivity. The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units.

During the year ended June 30, 2019, the City adopted GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, and GASB Statement No. 83, *Certain Capital Asset Retirement Obligations*. These statements are required to be implemented as of June 30, 2019, if applicable. These statements did not have a significant impact on the City.

A. Financial Reporting Entity

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Financial Report Entity (Continued)

In evaluating how to define the City, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statement No. 14, as amended by GASB Statement No. 39, GASB Statement No. 61, and GASB Statement No. 80. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity.

Based upon the application of these criteria, the City has one component unit, the Otero-Greentree Regional Landfill which will be shown as a discretely presented component unit. The discretely presented component unit does not have separately issued financial statements. The Otero-Greentree Regional Landfill has been determined to be a component unit as a result of a joint powers agreement entered into during the fiscal year 1994, which should be presented as a discretely presented component unit. The purpose of the joint venture was to establish, finance and operate the landfill. The governmental entities involved in the JPA are City of Alamogordo, Otero County, Village of Cloudcroft, Village of Tularosa, Village of Corona, Lincoln City, Town of Carrizozo, Village of Capitan, Village of Ruidoso and Village of Ruidoso Downs. Each of the governmental entity signers has pledged their respective environmental services gross receipts tax revenues as financial support for the purpose of funding the acquisition of capital assets necessary for the operation of the landfill. The Otero and Lincoln County authorities have also agreed to a 50-50 joint ownership and operation of this enterprise.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Financial Reporting Entity (Continued)

It was mutually agreed and covenanted between the entities that:

- 1. The facility shall be known as the Otero-Greentree Regional Landfill;
- Title to the facility shall be held in undivided-joint tenancy between the Otero and Lincoln Solid Waste Authorities;
- 3. The entities, through their respective Otero or Lincoln County Authorities, shall be joint owners of a co-equal undivided one-half interest in the assets and also shall be equally responsible for the debt;
- 4. The entities each agree to maintain an irrevocable, first, but not exclusive, pledge of 100% of their environmental gross receipts tax revenues for the life of the bond issue used for permanent financing;
- 5. The entities agree that tipping fees collected shall be used to pay principal and interest on the bonds and that the fee established shall be adequate to meet operations, maintenance and financing requirements;
- 6. The entities agree that the City of Alamogordo shall annually prepare a budget that shall be approved by the Otero and Lincoln County Solid Waste Authorities. Thereafter, the City will operate the Landfill in accordance with good business practice;
- 7. The governmental entities authorize the exercise of the following joint powers by the City acting as agent on their behalf:
 - a. In accordance with the approved budget, to acquire, cause to be acquired, and maintain the necessary property, equipment and personnel for the landfill;
 - b. To approve the issuance of revenue bonds;
 - c. To enter into agreements for the services of managers, attorneys, appraisers consultants and employees; and
 - d. To implement adopted policies regarding fees, rates and charges.
- 8. The landfill shall be a joint venture of the entities acting in a proprietary capacity.
- 9. Annually, the City of Alamogordo will provide a complete financial report on the operation to each participating entity.
- 10. The terms of this agreement are perpetual.
- 11. The agreement was originally signed on September 30, 1993, was amended on June 2, 1995.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements (Continued)

The statement of net position and the statement of activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Non-exchange Transactions.

In the government-wide statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, net of estimated refunds, are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, subject to the availability criterion. Sales and use taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place and the revenues are measurable and available. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met, subject to the availability criterion. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Program revenues included in the statement of activities are derived directly from the program itself or from parties outside the City's taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the City's general revenues.

Program revenues are categorized as (a) charges for services, which include revenues collected for fees and use of City facilities, etc., (b) program-specific operating grants, which includes revenues received from state and federal sources such as small cities assistance to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues from state sources to be used for capital projects. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

The City reports all direct expenses by function in the statement of activities. Direct expenses are those that are clearly identifiable with a function. The City does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the statement of activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenue of the City's major proprietary fund is charges for services for the City's utilities. Operating expenses for enterprise funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Under the requirements of GASB Statement No. 34, the City is required to present certain of its governmental funds as major based upon certain criteria. The major funds presented in the fund financial statements include the following:

The City reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. This fund includes state shared gross receipts tax income fund and state shared gas tax income fund. The general fund also includes revenues and costs associated with community services, community development, and building codes.

The *Economic Development Fund* is used to account for projects that are not funded from specific revenue dedications. This fund was authorized by the City Commission.

The 2004 Capital Outlay GRT Fund Capital Projects Fund Street Projects Improvement Loan Fund is a capital project fund that is used to account for 1/4 of 1% gross receipts tax dedication adopted in 2004 to be used for construction, reconstruction or improvement of municipal streets, alleys, roads or bridges, including acquisition of rights of way. This fund was authorized by the City Commission.

The City reports the following proprietary fund as a major fund:

The Water & Sewer Fund is to provide funds for the operations and maintenance of water and sewer services. This fund is authorized by the City Commission.

Additionally, the government reports the following agency fund:

Fiduciary funds are purely custodial (assets equal liabilities) and do not involve measurement of results of operations. The City's fiduciary funds are used to account for the collection, holding, and reimbursement of jail bonds and judicial revenues and expenditures.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported in the Statement of Activities.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity

Deposits and Investments: The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Investment Pool.

Investments for the City are reported at fair value. The State Treasurer's Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares. The composition of investments and fair values are presented in notes 3 and 4.

All cash and investments of the proprietary fund types are pooled with the City's pooled cash and investments.

Receivables and Payables: Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources in the event they are not received within 60 days of year end.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded when levied. Property taxes are considered to be 100% collectible.

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. Property taxes uncollected after November 10th and April 10th are considered delinquent and the City may assess penalties and interest. The taxes attach as an enforceable lien on property thirty (30) days thereafter, at which time they become delinquent. Property taxes are collected by Otero County and remitted monthly to the City.

Inventory: The City's method of accounting for inventory is the consumption method. Under the consumption approach, governments report inventories they purchase as an asset and defer recognition of the expenditures until the period in which the inventories actually are consumed. Inventory is valued at cost and consists of supplies and materials. The cost of purchased supplies and materials is recorded as expenditures at the time individual inventory items are consumed.

Prepaid Expenses: Prepaid expenses include insurance and contract payments to vendors which reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide financial statements and fund financial statements.

Restricted Assets: Restricted assets consist of those funds expendable for operating purposes but restricted by donors or other outside agencies as to the specific purpose for which they may be used and restricted for future debt service payments, capital projects, customer deposits and the City's landfill liability.

Capital Assets: Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, as a Phase 2 government, the historical cost of infrastructure assets, (retroactive to June 30, 1980) are included as part of the governmental capital assets reported in the government wide statements. Information Technology Equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). Donated capital assets are recorded at acquisition value at the date of donation.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. There was no interest expense capitalized by the City during the current fiscal year. No interest was included as part of the cost of capital assets under construction.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	20-50
Mechanized equipment	3-10
Unscheduled property	10-50
Infrastructure	20-65

Accrued Expenses: Accrued expenses are comprised of the payroll expenditures based on amounts earned by the employees through June 30, 2019, along with applicable FICA and Medicare liabilities.

Deferred Outflows of Resources: In addition to assets, the balance sheet reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a use of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure) until that time. The City has one type of item that appears in the governmental and business type activities, which is the loss on extinguishment of debt in the amount of \$815,575. The City has five other types of items presented on the statement of net position which arise due to the implementation of GASB Statement No. 68 and the related net pension liability. Accordingly, the items, changes in proportion \$1,144,569, changes of assumptions \$2,570,793, difference between expected and actual experience \$906,728, net difference between projected and actual investment earnings on pension plan investments \$1,865,543, and employer contributions subsequent to measurement date in the amount of \$1,462,038 are reported on the statement of net position. In addition, the City has two types of this item present on the statement of net position which arises due to the implementation of GASB Statement No. 75 and the related OPEB liability. Accordingly, the items, changes in proportion in the amount of \$579,783 and employer contributions subsequent to measurement date in the amount of \$252,470 are reported on the statement of net position. These amounts will be deferred and recognized as outflows of resources in the appropriate subsequent periods.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

Deferred Inflow of Resources: In addition to liabilities, the balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Revenue must be susceptible to accrual (measurable and available to finance expenditures of the current fiscal period) to be recognized. If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding liability for deferred inflows of resources. The City has one item which arises under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue - property taxes is reported only in the governmental funds balance sheet. The City has recorded \$177,187 related to property taxes considered "unavailable". For the business-type activities and the component unit, unavailable revenues are reported on the full accrual basis of accounting. These amounts, for both governmental and proprietary funds, as well as the component unit, are deferred and recognized as inflows of resources in the period that the amounts become available. In addition, the City has three types of items present on the statement of net position which arise due to the implementation of GASB Statement No. 68 and the related net pension liability. Accordingly, the items, changes in proportion \$560,607, differences between expected and actuarial experience \$1,478,489, and changes of assumption of \$154,364, are reported on the statement of net position. In addition, the City has three types of items present on the statement of net position which arise due to the implementation of GASB Statement No. 75 and the related OPEB liability. Accordingly, the items, differences between expected and actuarial experience \$754,229, change in assumption \$2,378,304, and net difference between projected and actual investment earnings \$158,978 are reported on the statement of net position. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (P.E.R.A) and additions to/deductions from P.E.R.A's fiduciary net position have been determined on the same basis as they are reported by P.E.R.A, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (continued)

Postemployment Benefits Other Than Pensions (OPEB). For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA's fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Unearned Revenues: Unearned revenues are comprised of payments made in advance by customers for various services (i.e. prepaid rent, golf pro shop gift cards, etc.) provided by the city as of June 30, 2019.

Compensated Absences: City employees are entitled to certain compensated absences based on their employment classification and length of employment.

Vacation Pay – Each employee of the City may accumulate a total of thirteen to twenty-six days of vacation per year. Employees may accumulate up to 240 hours of vacation and carry leave forward from calendar year to calendar year. Upon termination, employees will be paid up to 240 hours of accrued vacation pay leave. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability is reported in the governmental funds only if they have matured.

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental or proprietary fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net position.

Sick Leave – Each employee of the City may accumulate a total of thirteen days of sick leave per year. Sick leave can be carried forward from calendar year to calendar year. Upon separation of employment, an employee with five or more continuous years of service will be compensated for one third of the first 480 accrued sick leave hours for a total of 160 hours. Employees with less than five years of continuous service forfeit all accrued sick leave at separation of employment. Employees cannot donate sick leave at time of separation.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (continued)

Long-term Obligations: In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. For fund financial reporting, bond premiums and discounts, as well as issuance costs are recognized in the period the bonds are issued. Bond proceeds are reported as another financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Fund Balance Classification Policies and Procedures: For committed fund balance, the City's highest level of decision-making authority is the City Commission. The formal action that is required to be taken to establish a fund balance commitment is the City Commission.

For assigned fund balance, the City Commission or an official or body to which the City Commission delegates the authority is authorized to assign amounts to a specific purpose. The authorization policy is in governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

For the classification of fund balances, the City considers restricted or unrestricted amounts to have been spent when an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available. Also for the classification of fund balances, the City considers committed, assigned, or unassigned amounts to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Nonspendable Fund Balance: At June 30, 2019, the nonspendable fund balance of the City is comprised of prepaid expenses in the general fund in the amount of \$11,245 which is not in spendable form.

Restricted and Committed Fund Balance: At June 30, 2019, the restricted fund balance on the governmental funds balance sheet totals \$31,743,893. The details of these fund balance items are located on the governmental funds balance sheet as detailed on pages 18-19.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

Minimum Fund Balance Policy: The City's policy for maintaining a minimum amount of fund balance for operations is to minimize any sudden and unplanned discontinuity to programs and operations and for unforeseen contingencies. At a minimum, the budget shall ensure that the City holds cash reserves (as approved in the subsequent year's preliminary budget) of 1/12th of the General Fund budgetary basis expenditures of \$1,056,429 and the City's self-imposed reserve of \$211,286 for the year ended June 30, 2019. As these amounts are an accumulation of resources and not a true restriction or commitment of expenditures, they are reflected within the unassigned fund balance of the general fund.

Net Position: Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets: Consists of capital assets, net of net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. The City includes unspent debt proceeds in the amounts of \$2,352,519 in the calculation of net investment in capital assets in the governmental activities
- b. Restricted net position: Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation. Descriptions for the related restrictions for net position restricted for "special revenue, debt service, and capital projects" are described on pages 45 and 106-109.
- c. Unrestricted Net Position: All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates in the City's financial statements include the allowance for uncollectible accounts, expected useful lives of capital assets, current portion of accrued compensated absences, the estimate for landfill closure and postclosure costs, and actuarial estimates included in the calculation of the net pension liability and net OPEB liability.

Interfund Transactions: Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. The General Fund and Water and Sewer fund have been combined with funds that have identical activities for financial statement reporting.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

All other interfund transactions, except quasi-external transactions and reimbursements are reported as transfers. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

The City uses the following procedures in establishing the budgetary data reflected in the accompanying financial statements:

- 1. Prior to June 1, the City Manager submits to the City Commission a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Prior to July 20, the budget is legally enacted through passage of a resolution.
- 3. The State of New Mexico Department of Finance and Administration must approve the budget and any revision to the budget.
- 4. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, the City Commission and the Department of Finance and Administration must approve any revisions that alter the total expenditures of any fund.

Formal budgetary integration is employed as a management control device during the year for all funds. A separate budget is prepared, and adopted by the City Commission, for each fund. Line items within each budget may be over-expended; however, it is not legally permissible to over-expend any budget in total by fund.

The budgets for all funds are prepared on the Non-GAAP cash basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year.

NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

The budgetary information presented in these financial statements has been properly amended by City Commissioners in accordance with the above procedures. These amendments resulted in the following changes:

	Excess (deficiency) of revenues over expenditures					
	Ori	nal Budget				
Budgeted governmental funds:						
General Fund	\$	4,317,467	\$	2,970,989		
Economic Development		781,902		3,967,236		
2004 Capital Outlay GRT Fund Capital Projects Fund		1,646,924		6,458,502		
Other governmental funds		5,168,782		16,589,595		
Budgeted proprietary funds:						
Water & Sewer Fund		4,586,732		13,052,417		
Nonmajor proprietary funds		5,142,653		13,733,416		
Internal Service Fund		2,870,372		2,888,736		
Component unit:						
Otero - Greentree Regional Landfill		199,529		1,345,972		

The accompanying Statements of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual and Statements of Revenues, Expenses and Changes in Net Position – Budget (Non-GAAP Budgetary Basis) and Actual presents comparisons of the legally adopted budget with actual data on a budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP), a reconciliation of resultant basis, perspective, equity and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2019 is presented. Reconciliations between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis by fund can be found on each individual budgetary statement.

NOTE 3: DEPOSITS AND INVESTMENTS

State statutes authorize the investment of City funds in a wide variety of instruments including certificates of deposit and other similar obligations, the state investment pool, money market accounts, and United States Government obligations. All invested funds of the City properly followed State investment requirements as of June 30, 2019.

NOTE 3: DEPOSITS AND INVESTMENTS (Continued)

Deposits of funds may be made in interest bearing or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the City. Deposits may be made to the extent that they are insured by an agency of the United States or by collateralized as required by statute. The financial institution must provide pledged collateral for 50% of the deposit amount in excess of the deposit insurance for accounts held by the City and pledged collateral for 100% of the deposit amount in excess of the deposit insurance for accounts held in the name of the City's Housing Authority.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

The City's accounts at an insured depository institution, including all noninterest-bearing transaction accounts, will be insured by the FDIC up to the standard maximum deposit insurance amount of \$250,000 for demand deposit accounts and \$250,000 for time and savings accounts.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City does not have a deposit policy for custodial credit risk, other than following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). At June 30, 2019, \$11,249,017 of the City's bank balance of \$22,765,521 was subject to custodial credit risk. Of this amount, \$8,372,347 was uninsured and collateralized by collateral held by the pledging bank's trust department, not in the City's name and \$2,876,670 of the City's deposits was uninsured and uncollateralized at June 30, 2019.

The City utilizes pooled accounts for their funds. Cash and investments of the General, Special Revenue, Capital Projects, Proprietary Funds, and Agency funds are pooled and held in multiple accounts.

^{*}In addition to the regular FDIC coverage of \$250,000 per bank, the deposits at Moreton Capital Markets also include CDs (and related FDIC Insurance) of \$250,000 spread across thirty-six (36) separate financial institutions, all invested as part of the Moreton Capital Markets account, in order to not exceed FDIC insurance coverage per institution.

The collateral pledged is listed on pages 152-154 of this report. The types of collateral allowed are limited to direct obligations of the United States Government, all bonds issued by any agency, city or political subdivision of the State of New Mexico, or revenue bonds that are underwritten by a member of the financial industry regulatory authority, known as FINRA, and are rated BAA or above by a nationally recognized bond rating service.

Investments

The City's investments at June 30, 2019, include the following:

	Weighted Average			
Investment Type	Maturities		Fair Value	Rating**
New Mexi <i>GROW</i> LGIP	77 days	\$	5,508	AAAm
Federal Home Loan Bank Bond	1 to 10 years	3	32,107,423	A-1+
U.S. Treasury Money Market	0 to 5 years		2,860,562	AA+
Moreton Capital Money Market Mutual Funds*	<1 year		1,251,263	AA+
	_	\$ 3	36,224,756	

^{*} Moreton Capital Money Market Mutual Fund Account is composed of US Government Securities

^{**} These accounts require 100% collateralization of the amount over FDIC Coverage per depository agreements with the United States Department of Housing and Urban Development.

^{**} Based off Standard & Poor's rating

NOTE 3: DEPOSITS AND INVESTMENTS (Continued)

The City has presented certificates of deposit in the amount of \$15,713,156 as investments in the statement of net position; however, these are classified as deposits for disclosure purposes.

Interest Rate Risk – Investments. The City has multiple investments in which the maturity date is greater than one year. The fair value of the securities exposed to interest rate risk is \$36,224,754. These securities do not have call options. The City's policy related to interest rate risk with investments is to comply with the statute as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978).

Maturity rates consist of the following as of June 30, 2019:

	 Investment Maturities								
		N	ot subject to						
			Interest		Less than 1				
Investment Type	Fair Value		Rate Risk		Year		1-5 Years		5+ Years
New Mexi <i>GROW</i> LGIP	\$ 5,508	\$	-	\$	5,508	\$	-	\$	-
Federal Home Loan Bank Bond	32,107,423		-		8,642,728		23,464,695		-
Moreton Capital Money Market									
Mutual Fund	1,251,263		1,251,263		-		-		-
U.S. Treasury Money Market									
Mutual Fund	2,860,562				2,860,562				
Total investments	\$ 36,224,756	\$	1,251,263	\$	11,508,798	\$	23,464,695	\$	-

Concentration of Credit Risk – Investments. For an investment, concentration of credit risk is when any one issuer is 5% or more of the investment portfolio of the City. The investment in the Federal Home Loan Bank bonds represent 88.63% of the investment portfolio and the U.S. Treasury Money Market Mutual Funds represent 7.90%. The City's policy related to concentration credit risk is to comply with the state statute as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978).

NOTE 4: FAIR VALUE MEASUREMENTS

The fair value framework uses a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - o Inputs other than quoted prices that are observable for the asset or liability,
 - o Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. See above for discussion of valuation methodologies used to measure fair value of investments.

The City's investment of \$5,508 with the New MexiGROW LGIP is valued at amortized cost and is not subject to fair market valuation.

Federal Home Loan Bank Bonds, U.S. Treasury Money Market Mutual Funds, and Moreton Capital Money Market Mutual Funds are valued at the daily closing price as reported by the fund. These investments held by the City are open-end funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the City are deemed to be actively traded. The Federal Home Loan Bank Bonds held by the City are deemed to not be actively traded.

The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the City believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The City maintained a balance of \$36,219,246 in investments at June 30, 2019 which required fair value disclosure. The following table sets forth by level within the fair value hierarchy of the City's assets at fair value as of June 30, 2019:

	Level 1	Level 2	Level 3	Total
Federal Home Loan Bank Bond	\$ -	\$ 32,107,423	\$ -	\$ 32,107,423
U.S. Treasury Money Market				
Mutual Fund	2,860,562	-	-	2,860,562
Moreton Capital Money Market Mutual Funds	1,251,263	-	-	1,251,263
Total investments	\$ 4,111,825	\$ 32,107,423	\$ -	\$ 36,219,248

NOTE 5: RECEIVABLES

Receivables as of June 30, 2019, are as follows for the governmental activities:

2030-2034	1,479,173	91,403	1,570,576
2035	358,486	12,646	371,132
	\$ 11,288,120	\$ 1,696,206	\$ 12,984,326

Compensated Absences – Employees of the City are able to accrue a limited amount of vacation and other compensatory time during the year. During fiscal year June 30, 2019, compensated absences increased \$53,005 in business-type funds from the prior year. Compensated absences are liquidated by the respective funds in which they are accrued.

Component Unit Activities

During the year ended June 30, 2019, the following changes occurred in the liabilities reported in the government-wide statement of net position:

Balance					Balance				Due Within	
	Jur	ne 30, 2018		Additions		Deletions		June 30, 2019		One Year
Compensated absences	\$	19,728	\$	20,127	\$	27,654	\$	12,201	\$	12,201
Total long-term debt	\$	19,728	\$	20,127	\$	27,654	\$	12,201	\$	12,201

Compensated Absences – Employees of the City are able to accrue a limited amount of vacation and other compensatory time during the year. During fiscal year June 30, 2019, compensated absences decreased \$7,527 in the component unit from the prior year.

NOTE 9: RISK MANAGEMENT

The City's risk management activities are recorded in the Fleet Collision Self-Insurance Fund. The purpose of this fund is to administer general liability, auto liability, workers 'compensation, civil rights (errors and omissions/personal injury), emergency medical liability, law enforcement liability, foreign jurisdiction, underground storage tanks, and volunteers risk management function. The City covers its insurance needs through the New Mexico Self Insurers' Fund. The risk of loss transfers to the Self Insurer's Fund under this plan.

The City began providing self-insurance for the City-owned vehicles for property damage during the fiscal year ended June 30, 1996. The City accounts for this plan through its Fleet Collision Self-Insurance Fund.

All other insurance is provided by commercial insurance carriers in which the risk of loss is transferred to the Insurance Company.

The City has not filed any claims for which the settlement amount exceeded the insurance coverage during the past three years. However, should a claim be filed against the City which exceeds the insurance coverage, the City would be responsible for a loss in excess of the coverage amounts. As claims are filed, the New Mexico Self-Insurers' Fund assesses and estimates the potential for loss and handles all aspects of the claim. Insurance coverage's have not changed significantly from prior years and coverage's are expected to be continued.

At June 30, 2019, no unpaid claims have been filed which exceed the policy limits and to the best of management's knowledge and belief all known and unknown claims will be covered by insurance. No major lawsuits have been filed against the City of Alamogordo.

New Mexico Self-Insurers' Fund has not provided information on an entity by entity basis that would allow for a reconciliation of changes in the aggregate liabilities for claims for the current fiscal year and the prior fiscal year.

NOTE 10: OTHER REQUIRED INDIVIDUAL FUND DISCLOSURES

Generally accepted accounting principles require disclosures of certain information concerning individual funds including:

A. Deficit fund balance of individual funds.

Governmental Funds	
Nonmajor Funds	
Corrections Fund	\$ (23,619)
Court Administration Fund	(10,197)
Police Contengency Fund	(38,308)
Leisure Service Fund	(23,635)
Transportation Fund	(56,162)
Grant Capital Improvement	(23,566)
Total governmental funds	\$ (175,487)

There were no business type funds with a deficit fund balance as of June 30, 2019.

B. Actual expenditures in excess of amount budgeted at the budgetary authority level. Budgetary legal level of control is at the fund level. The following funds had expenditures in excess of budgetary authority for the year ended June 30, 2019.

Nonmajor funds

1984 Gross Receipts Tax	\$ 31
Municipal Infrastructure 0.0625	7
1994 Gross Receipts Tax	30
Total funds	\$ 68

C. Designated cash appropriations in excess of available balances. There were no funds that had designated cash appropriations in excess of available balances for the year ended June 30, 2019.

NOTE 11: PENSION PLAN- PUBLIC EMPLOYEES RETIREMENT ASSOCIATION

General Information about the Pension Plan

Plan description. The Public Employees Retirement Fund (PERA Fund) is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officer, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the PERA Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), and the provisions of Sections 29-4-1 through 29-4-11, NMSA 1978 governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the PERA Fund, unless specifically excluded.

Benefits provided. For a description of the benefits provided and recent changes to the benefits see Note 1 in the PERA audited financial statements for the fiscal year ended June 30, 2018 available at http://www.nmpera.org/financial-overview/comprehensive-annual-financial-report.

Contributions. The contribution requirements of defined benefit plan members and the City are established in state statute under Chapter 10, Article 11, NMSA 1978. The contribution requirements may be amended by acts of the legislature. For the employer and employee contribution rates in effect for FY19 for the various PERA coverage options, for both Tier I and Tier II, see the tables available in the note disclosures on page 40 of the PERA FY18 annual audit report at http://www.nmpera.org/financial-overview/comprehensive-annual-financial-report. The PERA coverage options that apply to the City are: Municipal General Division. Municipal Fire Division and Municipal Police Division. Statutorily required contributions to the pension plan from the City were \$1,462,038 for the year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2018 using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date of June 30, 2018. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2018. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined.

NOTE 11: PENSION PLAN - PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

For PERA Fund Municipal General Division, at June 30, 2019, City of Alamogordo reported a liability of \$16,122,270 for its proportionate share of the net pension liability. At June 30, 2018, Alamogordo's proportion was 1.01125 percent, which was increased from its proportion measured as of June 30, 2017, by 0.0920 percent.

For the year ended June 30, 2019, City of Alamogordo recognized PERA Fund Municipal General Division pension expense of \$1,990,460. At June 30, 2019, City of Alamogordo reported PERA Fund Municipal General Division deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual experience	\$ 465,966 \$	423,285
Net difference between projected and actual earnings on		
pension plan investments	1,195,709	-
Changes of assumption	1,461,712	92,697
Changes in proportion and differences between the City's		
contributions and proportionate share of contributions	848,416	155,894
The City's contributions subsequent to the measurement date	804,165	
Total	\$ 4,775,968 \$	671,876

\$804,165 reported as deferred outflows of resources related to pensions resulting from City of Alamogordo's contributions subsequent to the measurement date June 30, 2017 will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2018	\$ (1,858,129)
2019	(939,823)
2020	(439,823)
2021	(62,152)
Thereafter	_

NOTE 11: PENSION PLAN - PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

For PERA Fund Municipal Police Division, at June 30, 2019, City of Alamogordo reported a liability of \$7,680,700 for its proportionate share of the net pension liability. At June 30, 2018, City of Alamogordo's proportion was 1.1257 percent, which was decreased from its proportion measured as of June 30, 2017, by 0.0641 percent.

For the year ended June 30, 2019, City of Alamogordo recognized PERA Fund Municipal Police Division pension expense of \$520,640. At June 30, 2019, City of Alamogordo reported PERA Fund Municipal Police Division deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual experience	\$ 376,012	\$ 761,356
Net difference between projected and actual earnings on		
pension plan investments	528,541	-
Changes of assumption	876,378	46,955
Changes in proportion and differences between the City's		
contributions and proportionate share of contributions	20,285	400,492
The City's contributions subsequent to the measurement date	475,381	
Total	\$ 2,276,597	\$ 1,208,803

\$475,381 reported as deferred outflows of resources related to pensions resulting from City of Alamogordo's contributions subsequent to the measurement date June 30, 2018 will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2018	(424,274)
2019	(51,890)
2020	(89,511)
2021	(26,738)
Thereafter	-

NOTE 11: PENSION PLAN - PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

For PERA Fund Municipal Fire Division, at June 30, 2019, City of Alamogordo reported a liability of \$4,029,195 for its proportionate share of the net pension liability. At June 30, 2018, City of Alamogordo's proportion was 0.6295 percent, which increased from its proportion measured as of June 30, 2017, by 0.0601 percent.

For the year ended June 30, 2019, City of Alamogordo recognized PERA Fund Municipal Fire Division pension expense of \$491,204. At June 30, 2019, City of Alamogordo reported PERA Fund Municipal Fire Division deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual experience	\$ 64,750 \$	293,848
Net difference between projected and actual earnings on		
pension plan investments	141,293	-
Changes of assumptions	232,703	14,712
Changes in proportion and differences between the City's		
contributions and proportionate share of contributions	275,868	4,221
The City's contributions subsequent to the measurement date	182,492	
Total	\$ 897,106 \$	312,781

\$182,492 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date June 30, 2018 will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2018	\$ (211,451)
2019	(64,203)
2020	(118,193)
2021	(7,986)
Thereafter	-

NOTE 11: PENSION PLAN - PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

Actuarial assumptions. As described above, the PERA Fund member group pension liabilities and net pension liabilities are based on actuarial valuations performed as of June 30, 2017 for each of the membership groups. Then each PERA Fund member group pension liability was rolled forward from the valuation date to the Plan year ending June 30, 2019 using generally accepted actuarial principles. There were no significant events or changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2019. These actuarial methods and assumptions were adopted by the PERA's Board of Trustees for use in the June 30, 2017, actuarial valuation.

Actuarial valuation date	June 30, 2017
Actuarial cost method	Entry Age Normal
Amortization method	Level Percentage of Pay
Amortization period	Solved for based on statutory rates
Asset valuation method	4 Year smoothed Market Value
Actuarial assumptions:	
Investment rate of return	7.25% annual rate, net of investement expense
Projected benefit payment	100 years
Payroll growth	2.75% for the first 9 years, then 3.25% annual rate
Projected salary increases	3.25% to 13.50% annual rate
Includes inflation at	2.50% annual rate first 9 years, 2.75% all other years
Mortality assumption	RP-2000 Mortality Tables (Combined table for healthy
	post-retirement, Employee table for active members,
	and Disabled table for disabled retirees before
	retirement age) with projection to 2018 using Scale AA.
Experience study dates	July 1, 2008 to June 30, 2017 (demographic) and July 1,
	2010 through June 30, 2018 (economic)

The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected
ALL FUNDS - Asset Class	Target Allocation	Real Rate of Return
Global Equity	43.50%	7.39%
Risk Reduction & Mitigation	21.50	1.79
Credit Oriented Fixed Income	15.00	5.77
Real Assets	20.00	7.35
Total	100.00%	

NOTE 11: PENSION PLAN - PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

Discount rate: The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASBS 67. Therefore, the 7.25% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

The discount rate used to measure the total pension liability of 7.25 percent was changed from the prior valuation where the discount rate used was 7.51 percent.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate. The following tables show the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present the City's net pension liability in each PERA Fund Division that the City participates in, under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower (6.25%) or one percentage point higher (8.25%) than the single discount rate.

PERA Fund Municipal General Division				Current		
	1% Decrease		Discount Rate		1% Increase	
		(6.25%)		(7.25%)	(8.25%)	
City of Alamogordo's proportionate share					_	
of the net pension liability	\$	24,843,339	\$	16,122,270	\$ 8,912,913

NOTE 11: PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (Continued)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued FY18 PERA financial report. The report is available at http://www.pera.state.nm.us/publications.html.

Payables to the pension plan. At June 30, 2019 there were no contributions due and payable to PERA for the City.

NOTE 12: POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN

General Information about the OPEB

Plan description. Employees of the City are provided with OPEB through the Retiree Health Care Fund ("the Fund")—a cost-sharing multiple-employer defined benefit OPEB plan administered by the New Mexico Retiree Health Care Authority ("NMRHCA"). NMRHCA was formed February 13, 1990, under the New Mexico Retiree Health Care Act ("the Act") of New Mexico Statutes Annotated, as amended (NMSA 1978), to administer the Fund under Section 10-7C-1-19 NMSA 1978. The Fund was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents and surviving spouses) who have retired or will retire from public service in New Mexico.

NMRHCA is an independent agency of the State of New Mexico. The funds administered by NMRHCA are considered part of the State of New Mexico financial reporting entity and are OPEB trust funds of the State of New Mexico. NMRHCA's financial information is included with the financial presentation of the State of New Mexico.

Benefits provided. The Fund is a multiple employer cost sharing defined benefit healthcare plan that provides eligible retirees (including terminated employees who have accumulated benefits but are not yet receiving them), their spouses, dependents and surviving spouses and dependents with health insurance and prescription drug benefits consisting of a plan, or optional plans of benefits, that can be contributions to the Fund and by co-payments or out-of-pocket payments of eligible retirees.

NOTE 12: OTHER POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN (Continued)

Employees covered by benefit terms. At June 30, 2018, the Fund's measurement date, the following employees were covered by the benefit terms:

Plan Membership	
Current retirees and surviving spouses	51,205
Inactive and eligible for deferred benefit	11,471
Current active members	93,349
	156,025
Active membership	
State general	19,593
State police and corrections	1,886
Municipal general	17,004
Municipal police	3,820
Municipal FTRE	2,290
Educational Retirement Board	48,756
	93,349

Contributions – Employer and employee contributions to the Fund total 3% for non-enhanced retirement plans and 3.75% of enhanced retirement plans of each participating employee's salary as required by Section 10-7C-15 NMSA 1978. The contributions are established by statute and are not based on an actuarial calculation. All employer and employee contributions are non-refundable under any circumstance, including termination of the employer's participation in the Fund. Contributions to the Fund from the City were \$252,470 for the year ended June 30, 2019.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the City reported a liability of \$12,738,940 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017. The City's proportion of the net OPEB liability was based on actual contributions provided to the Fund for the year ending June 30, 2018. At June 30, 2019, the City's proportion was 0.29296 percent.

NOTE 12: OTHER POST-EMPLOYMENT BENEFITS - STATE RETIREE HEALTH CARE PLAN (Continued)

For the year ended June 30, 2019, the recognized OPEB expense of \$105.902. At June 30, 2019 the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Changes of assumptions	\$ - \$	2,378,304
Net difference between projected and actual earnings on		
pension plan investments	-	158,978
Changes in proportion and differences between		
contributions and proportionate share of contributions	579,783	-
District's contributions subsequent to the		
measurement date	252,470	-
Difference between expected and actual experience		754,229
Total	\$ 832,253 \$	3,291,511

Deferred outflows of resources totaling \$252,470 represent the City's contributions to the Fund made subsequent to the measurement date and will be recognized as a reduction of net OPEB liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

Year ended June 30:	
2019	\$ (713,466)
2020	(713,466)
2021	(713,446)
2022	(523,001)
2023	(48,349)
Total	\$ (2,711,728)

NOTE 12: OTHER POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN (Continued)

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation using the following actuarial assumptions:

Actuarial valuation date June 30, 2017

Actuarial cost method Entry age normal, level percent of pay,

calculated on individual employee basis

Asset valuation method Market value of assets

Actuarial assumptions:

Inflation 2.50% for ERB; 2.25% for PERA

Projected payroll increases 3.50% to 12.50% based on years of service,

including inflation

Investment rate of return 7.25%, net of OPEB plan investment expense

and margin for adverse deviation including

inflation

Health care cost trend rate 8% graded down to 4.5% over 14 years for

Non-Medicare medical plan costs and 7.5% graded down to 4.5% over 12 for Medicare

medical plan costs

Mortality ERB members: RP-2000 Combined Healthy

MortalityTable with White Collar Adjustment (males) andGRS Southwest Region Teacher Mortality Table (females)PERA members: RP-

2000 Combined Healthy Mortality

Rate of Return. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions.

NOTE 12: OTHER POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN (Continued)

The best estimates for the long-term expected rate of return is summarized as follows:

	Long-Term
Asset Class	Rate of Return
U.S. core fixed income	2.1%
U.S. equity - large cap	7.1
Non U.S emerging markets	10.2
Non U.S developed equities	7.8
Private equity	11.8
Credit and structured finance	5.3
Real estate	4.9
Absolute return	4.1
U.S. equity - small/mid cap	7.1

Discount Rate. The discount rate used to measure the Fund's total OPEB liability is 4.08% as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2029. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2029. Beyond 2029, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher (3.87%) was applied. Thus, 4.08% is the blended discount rate.

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates. The following presents the net OPEB liability of the City, as well as what the City's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.08 percent) or 1-percentage-point higher (5.08 percent) than the current discount rate:

			Current	
1% Decrease (3.08%)		Di	scount Rate (4.08%)	1% Increase (5.08%)
\$	10,768,871	\$	12,738,940	\$ 14,283,519

NOTE 12: OTHER POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN (Continued)

The following presents the net OPEB liability of the City, as well as what the City's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

Current Trend							
1% Decrease				1% Increase			
\$	10,768,871	\$	12,738,940	\$;	14,283,519	

OPEB plan fiduciary net position. Detailed information about the OPEB plan's fiduciary net position is available in NMRHCA's audited financial statements for the year ended June 30, 2019.

Payable Changes in the Net OPEB Liability. At June 30, 2019, the City did not have amounts payable to the NMRHCA.

NOTE 13: CONTINGENT LIABILITIES

The City is party to various claims and lawsuits arising in the normal course of business. The City is insured through the New Mexico Self Insurers Fund. The maximum exposure of the City is not estimable as of June 30, 2019 for any open claims and lawsuits.

NOTE 14: FEDERAL AND STATE GRANTS

In the normal course of operations, the City receives grant funds from various federal and state agencies. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

NOTE 15: OTERO – GREENTREE REGIONAL LANDFILL

State and Federal laws and regulations require the Regional Landfill to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the landfill site for a minimum of thirty years after closure. Although closure and post closure care costs will be paid only near or after the date the landfill stops accepting waste, the Regional Landfill is required to report a portion of these closure and post closure costs as an operating expense in each period based on landfill capacity used as of each balance sheet date.

NOTE 15: OTERO - GREENTREE REGIONAL LANDFILL (Continued)

The estimate of closure and post-closure costs was updated during the year ended June 30, 2019, and has increased by \$310,057, for a balance of \$1,508,632. The effect of this change in accounting estimate is that net position and the change in net position have increased by \$247,601, as of and for the year ended June 30, 2019.

The landfill current holds a 95-acre permit. The permit is defined as land that may be disturbed. To date 58% of the landfill capacity has been used: 30 acres have been disturbed for solid waste disposal and 15 acres for landfill facilities. The landfill is averaging six years of use for every ten acres of land. The remaining acres should give approximately 23.5 more years of life before re-permitting is requested.

The landfill is required to set aside a predetermined amount of funds to cover any closure and poste closure care. The City sets aside approximately \$20,000 to \$40,000 annually in investment. To date, the City has restricted \$911,581 in investments for this purpose.

The estimated closure and post closure care costs were originally determined in 1998 when the landfill applied for the operating permit. The closure and post closure care costs are re-calculated annually to include inflation, actual landfill usage percentage, and any new regulatory requirements.

The Environmental Protection Agency (EPA) required the landfill to obtain a permit under 20 NMAC 2.70 Title V. This permit requires the landfill to monitor and report emission and particulates that are disbursed into the atmosphere. As the landfill continues to grow and monitoring requirements change, additional costs for closure and post closure care costs will need to be estimated in order for the City to accumulate the proper reserves and restrict sufficient funds to pay for the costs. As specified by 20.9.10.9 B NMAC, the owner of each solid waste facility shall establish a financial assurance mechanism for closure of the facility in compliance with 20.9.10.13 – 20.9.10.23 NMAC. The owner shall provide continues coverage for closure until released from financial assurance requirements by written verification issued by the secretary. The owner of a solid waste facility shall develop a detailed written estimate, in current dollars, of the cost of hiring a third party to close the largest area of the facility requiring closure under 20.9.6 NMAC.

NOTE 16: CONCENTRATIONS

The City depends on financial resources flowing from, or associated with, both the Federal Government and the State of New Mexico. Because of this dependency, the City is subject to changes in the specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State appropriations.

NOTE 17: RESTATEMENT OF NET POSITION AND RECLASSIFICATION OF FUND BALANCE

The objective of a net position restatement is to accurately reflect prior period's net position and improve the relevancy and usefulness of financial information. The City restated net position in relation to capital outlay (see FS 2019-001) within the component unit and for capital asset balances and unbilled receivables within the proprietary type funds. The effect of those restatements is as follows:

Proprietary Activities

	Wa	ater & Sewer Fund	Low Rent Housing Fund	Component Init Activites
Net position - beginning as originally stated		63,822,621	4,829,457	\$ 5,907,996
Restatement for unbilled utility receivables		1,000,344	-	-
Restatement for public housing capital assets		-	(555,057)	-
Restatement for component unit capital assets		-	-	485,018
Net position - beginning, as restated	\$	63,822,621	\$ 4,274,400	\$ 6,393,014

In addition to the restatements above, the City had reclassifications of fund balance. This reclassification was due to the movement of two funds out from within the general fund. The leisure services, special revenue fund, containing a fund balance of \$47,612 and the community development special revenue fund, containing \$390 in fund balance were previously combined into the general fund. In the current year the City determined that it was appropriate to report these two funds as individual Nonmajor governmental funds.

NOTE 18: COMMITMENTS

The City's commitments as of June 30, 2019 are as follows:

Contract	Project	Year Ending	Amount
Flood Control	EN0226	2021	\$ 3,563,543

Total commitments			\$ 20,268,341

NOTE 19: SUBSEQUENT EVENTS

The date to which events occurring after June 30, 2019, the date of the most recent statement of net position, have been evaluated for possible adjustment to the financial statements or disclosure is December 16, 2019, which is the date on which the financial statements were issued.

NOTE 20: RESTRICTED NET POSITION

The government-wide statement of net position reports \$28,935,366 of restricted net position for governmental activities, all of which is restricted by enabling legislation. For descriptions of the related enabling legislation for special revenue, capital projects, and debt service funds, see pages 45, 51 and 106-109.

NOTE 21: TAX ABATEMENTS

The City of Alamogordo had no tax abatements during the year ended June 30, 2019. The City is not subject to any tax abatement agreements entered into by other governmental entities.

NOTE 22: SUBSEQUENT PRONOUNCEMENTS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq.
New Mexico State Auditor and
The Office of Management and Budget
To the City Commission
City of Alamogordo
Alamogordo, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, the aggregate remaining fund information and the budgetary comparison of the general fund of the City of Alamogordo, New Mexico (the "City") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and the City's discretely presented component unit presented as supplementary information, and have issued our report thereon dated December 16, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a

timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item FS 2019-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as item FS 2019-002 and FS 2019-003 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that are required to be reported per section 12-6-5 NMSA 1978 that we have described in the accompanying schedule of findings and questioned costs pursuant to Section 12-6-5 NMSA 1978 as items NM 2017-001, NM 2018-006, NM 2019-001, NM 2019-002, and NM 2019-003.

City's Responses to Findings

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR THE MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq.
New Mexico State Auditor and
The Office of Management and Budget
To the City Commission
City of Alamogordo
Alamogordo, New Mexico

Report on Compliance for the Major Federal Program

We have audited the City of Alamogordo's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended June 30, 2019. The City's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the City's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on the Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

City of Alamogordo, New Mexico Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2019

Notes to Schedule of Expenditures of Federal Awards

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal grant activity of the City of Alamogordo. (The City) and is presented on the full accrual basis of accounting, which is the same basis as was used to prepare the fund financial statements. The information in this Schedule is presented in accordance with the requirements of Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

2. Loans

The City did not expend federal awards related to loans or loan guarantees during the year.

3. 10% de minimus Indirect Cost Rate

The City did not elect to use the allowed 10% indirect cost rate.

4. Federally Funded Insurance

The District has no federally funded insurance.

Reconciliation of Schedule of Expenditures of Federal Awards to Financial Statements:

Total federal awards expended per schedule of expenditures of federal awards	\$ 5,566,430
Total expenditures funded by other sources	51,151,792
Total expenditures	\$ 56,718,222

No

SECTION I – SUMMARY OF AUDITORS' RESULTS

6. Auditee qualified as low-risk auditee?

Financ	ial Statements:	
1.	Type of auditors' report issued	Unmodified
2.	Internal control over financial reporting:	
	a. Material weaknesses identified?	Yes
	b. Significant deficiencies identified not considered to be material weaknesses?	Yes
	c. Noncompliance material to the financial statements?	None Noted
Federa	ıl Awards:	
1.	Type of auditors' report issued on compliance for major programs	Unmodified
2.	Internal control over major programs:	
	a. Material weaknesses identified?	None Noted
	b. Significant deficiencies identified not considered to be material weaknesses?	None noted
3.	Any audit findings disclosed that are required to be reported in accordance with 2 CFR section 200.516 (a)?	No
4.	Identification of major programs:	
	CFDA Number Federal Program 97.036 Disaster Grant – Public Assistance	
5.	Dollar threshold used to distinguish between type A and type B programs:	\$750,000

SECTION II – FINANCIAL STATEMENT FINDINGS

FS 2019-001 — Internal Controls over Recognition of Construction in Progress (Material Weakness)

Condition: The following adjustment were made to construction in progress:

- \$728,018 adjustment for construction in progress.
- \$428,275 restatement for prior year construction in progress.

Criteria: The COSO 2013 Internal Control Integrated Framework provides guidelines for designing and implementing a system of internal controls that incorporates five necessary components of internal controls. These five components consist of the control environment, risk assessment, control activities, information and communication, and monitoring. Good accounting practices require the City to implement and follow sound accounting and internal control policies and procedures. Proper internal controls include adequate segregation of duties and review by someone independent of the performance task. While the City does have an internal system of review in place, it has not resulted in the proper recognition of construction in progress and capital outlay balances.

Effect: Failure to record capital outlay and construction in progress resulted in an understatement of current year construction in progress and capital outlay.

Cause: The City utilizes the H.T.E accounting system to track their capital assets and related balances. This system will not recognize accrual balances. After year end, any accruals made must be reversed. When this occurs it does not track which period the construction in progress should have been recorded in. For reconciling purposes, the City determined that all other documentation for capital asset tracking (excel spreadsheets, ect.) should be prepared on the same basis to avoid reconciling issues. This resulted in construction in progress expenses incurred in fiscal year 2019 but not paid until fiscal year 2020 being presented as 2020 construction in progress. Thereby understating the current year balance.

Auditors' Recommendation: CRI recommends that the City maintain a spreadsheet that contains reconciling items relating to year end accruals that impact capital assets. This spreadsheet can then be provided as audit support at year end for construction in progress and other capital assets balances that were impacted by year end accruals. The City should also focus on identifying such accruals at year end to ensure that all items that should be accrued are identified. This information should then be reviewed by another individual.

Views of Responsible Officials and Planned Corrective Action: The City uses spreadsheets that balance to project reports which include what has been paid in the current year. The City will add a column to include reconciling items relating to year-end adjustments. This action is effective immediately and is the responsibility of the Accounting Specialist, Accounting Manager, and Finance Director.

SECTION II – FINANCIAL STATEMENT FINDINGS (Continued)

FS 2019-002 — Internal Controls over Utility Billings Cancelled Bills (Significant Deficiency)

Condition: It was noted that individuals have the ability to cancel utility bills without receiving approval from a second individual. In addition, no retrospective review is performed over cancelled bills over any given period.

Criteria: The COSO 2013 Internal Control Integrated Framework provides guidelines for designing and implementing a system of internal controls that incorporates five necessary components of internal controls. These five components consist of the control environment, risk assessment, control activities, information and communication, and monitoring. Good accounting practices require the City to implement and follow sound accounting and internal control policies and procedures. Proper internal controls include adequate segregation of duties and review by someone independent of the performance task. The City does not have a process in place requiring that a second approval of utility bills be processed or to ensure that all cancelled bills are identified.

Effect: Utility bills could be cancelled without legitimate reasons. These instances would not be identified, resulting in loss of revenue for the city.

Cause: The system used for utility billings does not prevent bills from being cancelled without secondary approval. The City has not implemented an alternative method of ensuring that cancelled bills are reviewed and approved by a second individual.

Auditors' Recommendation: CRI recommends that the City implement a formally documented process of internal control which prevents utility bills from being cancelled without proper approval or identifies cancelled bills so that a recurring retrospective review can take place.

Views of Responsible Officials and Planned Corrective Action: The internal controls over utility billing is currently under review. Access to the cancelled bill screen will be reviewed. Currently, there must be two person review and approval which is the customer service manager and utility billing manager. Once memo is signed and approved, the utility billing supervisor will cancel the bill. The Utility billing clerk/collections may also cancel in the absence of utility billing supervisor. The only exception is when an error was made by the city. These exceptions are incorrect dates, and activation of the wrong owner. In those situations, the utility billing supervisor has authority to cancel the bill, clearly noting the reason in the system. Will work with our Management of Information System department to determine if a report can be written to identify cancelled bills, who cancelled, and comments. Once the report is written, it will be reviewed monthly by Finance Director or Finance Director Designee. This action is effective immediately and is the responsibility of Customer Service manager and Finance Director.

SECTION II – FINANCIAL STATEMENT FINDINGS (Continued)

FS 2019-003 — Internal Controls over Reconciliation of the SEFA (Significant Deficiency)

Condition: It was noted that the City's process for reconciling the year end SEFA to the trial balance did not result in a SEFA that was clear, consistent, or complete. Application of cutoff in recognition of current year receivables and prior year receivables was not consistently applied.

Criteria: The COSO 2013 Internal Control Integrated Framework provides guidelines for designing and implementing a system of internal controls that incorporates five necessary components of internal controls. These five components consist of the control environment, risk assessment, control activities, information and communication, and monitoring. Good accounting practices require the City to implement and follow sound accounting and internal control policies and procedures. Proper internal controls include adequate segregation of duties and review by someone independent of the performance task. The City does have a process in place requiring that the SEFA be prepared and reconciled, however this process did not ensure that cutoff was applied properly or that the information was displayed in a clear or understandable manner.

Effect: The year-end SEFA required significant time to reconcile to the trial balance for the final presentation of the SEFA.

Cause: The City manages a large number of Federal awards that require significant time and attention. As each award must be monitored for activity to be shown on the SEFA, it can be difficult to properly identify the cutoff period for each one and record that information in a manageable way.

Auditors' Recommendation: CRI recommends that each program director receive training on how this information should be accounted for and how to best communicate that information to the Grant Manager. The SEFA should then be fully reconciled to the trial balance on a monthly or quarterly basis to ensure that the yearend reconciliation contains all necessary information.

Views of Responsible Officials and Planned Corrective Action: Each director and program manager will be sent a copy of the City of Alamogordo's grant policy reminding them of proper grant procedures. The grant coordinator will reconcile the SEFA to the trial balance on a monthly basis. The program managers will be asked to complete a grant report form indicating expenses and revenues to date on a quarterly basis. The grant coordinator will review each grant report to verify that it reconciles to the SEFA and trail balance and work with the program managers to resolve any discrepancies on a quarterly basis. If necessary a training will be held with the program managers. This action is effective immediately and is the responsibility of the Grant Coordinator and Finance Director.

SECTION III — NEW MEXICO STATE AUDIT RULE SECTION 12-6-5 NMSA 1978 FINDINGS

NM 2017-001 — Travel and Per Diem (Other noncompliance) – Repeated Modified

Condition: Within six travel reimbursements tested, one of them utilized an incorrect reimbursement rate of \$64 instead of \$61. In addition the travel authorization form was not approved until a month after the travel took place.

Status of Prior Year Fining: The City has made progress to clear this finding as the current year finding dollar value is less than in the prior year.

Criteria: Per the City's travel policy, City travel reimbursements are to follow the U.S. General Services Administration reimbursement rates by travel area.

Effect: Due to the incorrect travel rate being used, the employee was reimbursed \$2.25 more than the individual should have been. In addition the travel was not in compliance with the City's travel policy as the authorization form was not approved until after the travel took place.

Cause: The City's travel policy requiring that travel authorizations be approved prior to travel was not followed. As it was not approved prior to travel, it was not noted that an incorrect travel rate was used.

Auditors' Recommendation: CRI recommend that the City ensure that all travel authorizations be approved prior to travel and that a focus on monitoring for use of correct rates be increased.

Views of Responsible Officials and Planned Corrective Action: The City will monitor that travel authorizations be approved prior to travel and that the correct rate is used. This action is effective immediately and is the responsibility of the Finance Director.

SECTION III — NEW MEXICO STATE AUDIT RULE SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

NM 2018-006 — Internal Controls and Lien Policy on Delinquent Utility Accounts (Other Noncompliance) —Repeated —Modified.

Condition: Out of five accounts tested for compliance with the City's lien policy. Each of the five accounts was not in compliance with the policy as the liens were not filed within the prescribed period.

Status of Prior Year Fining: The City has not made progress to clear this finding. It was determined that doing so was not time or cost efficient. The City has determined that changing the policy is the appropriate response.

Criteria: The City's Code of ordinances (Chapter 28 – Water, Sewers, and Sewage Disposal: 28:03:060 – Billing Procedures items (a)-(e)) states that the lien on property must be filed within 5 days of receiving a letter of notice from the collections company.

Effect: The City has potential to lose revenue if utility billing procedures are not followed as directed in the code of ordinance. Failure to file the liens in a timely manner delays the process that could result in the receipt of the funds owed.

Cause: The Utility's department has been short staffed. This has made it difficult to have the necessary paper work done on time in order file within the prescribed time frame.

Auditors' Recommendation: CRI recommends that the City maintain a list of accounts coming close to the lien filing step in the process of collections. Doing so insure that the City is aware that that action will be needed in a timely manner and the paper work will be filed on time.

Views of Responsible Officials and Planned Corrective Action: Due to continued shortages on staff and reviewing the lien policy it has been determined that some liens should not be sent for processing due to the amount owed, cost associated with processing leans, and staff availability. It is not cost effective to do every lien. A new policy will be drafted extending the time period and determining a feasible dollar amount that should go through the lien process. This action is expected to be completed by June 30, 2020 and is the responsibility of Customer Service manager and Finance Director.

SECTION III — NEW MEXICO STATE AUDIT RULE SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

NM 2019-001 — Travel and Per Diem Policy (Other noncompliance)

Condition: A City employee received a mileage and hotel upgrade in place of a standard room and airfare which would have been less expensive for the City.

Criteria: 2.2.2.15(A) (2) NMAC defines "abuse" as "behavior that is deficient or improper when compared to behavior that a prudent person would consider reasonable and necessary operational practice given the facts and circumstances.

Effect: Higher reimbursements than necessary were made as a result of employees selecting more expensive modes of travel and lodging than were necessary or appropriate. The City may be paying for travel reimbursements that are indicative of waste and abuse.

Cause: The City's travel policy does not clearly state that travel authorizations should consider what costs are avoidable and a misuse of City funds.

Auditors' Recommendation: CRI recommend that the City's Travel and Per Diem policy be revised to include guidance that prevents waste and abuse.

Views of Responsible Officials and Planned Corrective Action: The City will review its current travel policy to include guidance that prevents waste and abuse and make any necessary changes to clarify, and define what constitutes waste. It will also be noted that the Finance Director has authority to reduce any reimbursement in the amount deemed to be considered waste or abuse. This action is effective immediately and is the responsibility of the Finance Director.

SECTION III — NEW MEXICO STATE AUDIT RULE SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

NM 2019-002 — Reconciliation of Quarterly reports. (Other noncompliance)

Condition: For the quarterly reports filed with the Department of Homeland Security the "expenditures to date" was not reconciled to the trial balance and the amount was overstated by \$66,678.

Criteria: Per 2 CFR 200.303 non-federal entities should have established an effective internal controls over compliance. The City should have controls in place to provide reasonable assurance that the quarterly reports being submitted are accurate and complete. CRI noted no noncompliance within the procedures performed however it was noted that the controls in place did not detect or correct the issue that the year to date expenditures were not reconciled to the year to date expenditures per the trial balance.

Effect: Quarterly reports submitted to the NM Department of Homeland Security had a year to date expenditure difference of \$66,678 from the trial balance.

Cause: The City should have controls in place to provide reasonable assurance that quarterly reports submitted to the NMDHS are complete and accurate. CRI noted that while the controls are in place, small errors over time had accumulated to the larger balance of \$66,678. The City was made aware of this during the prior year audit and they communicated to their contractor that an adjustment was needed, however monitoring was not carried out to ensure that the new years to date expenditure reconciled to the trial balance.

Auditors' Recommendation: The City should communicate this difference with the NM department of homeland security and take the necessary steps to correct it. Going forward the City should reconcile all quarterly reports to the trial balance.

Views of Responsible Officials and Planned Corrective Action: The project manager will submit a copy of the quarterly reports to the grant coordinator at the end of each quarter. The grant coordinator will reconcile the quarterly report to the trial balance. If it does not balance corrections will be made at that time. This action is effective as of December 31, 2019 and is the responsibility of Program Director, Grant Coordinator and the Finance Director.

SECTION III — NEW MEXICO STATE AUDIT RULE SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

NM 2019-003 — Exceeded Budgetary Authority. (Other noncompliance)

Condition: The City has over expended its budget in the following funds:

1984 Gross Receipts Tax	\$ 31
Municipal Infrastructure 0.0625	7
1994 Gross Receipts Tax	30
Total funds	\$ 68

Criteria: All City funds, with the exception of agency funds, are to be budgeted by the local governing body and those budgets must be submitted to the Department of Budget and Finance –Local Government Division for approval. Once adopted, any claims or warrants in excess of budget are a violation of New Mexico State Statute 6-6-6, 1978.

Effect: The internal controls established by adherence to budgets has been compromised and excess spending could result in and has resulted in noncompliance with state requirements.

Cause: The City did not submit budget adjustments to cover expenditures in the above funds in which actual expenses were greater than final budget at the end of the fiscal year.

Auditors' Recommendation: CRI recommends that the City monitor its budgets closely and prepare adjustments as necessary.

Views of Responsible Officials and Planned Corrective Action: The three funds listed are Gross Receipts Tax only funds, this fiscal year Department of Financed required separate reporting of the administrative fees as separate line item expenses. The expense lines can only be revised by the City Commission. The Budget Analyst will review all the lines at the beginning of June to project the final budget amount. A revision will be submitted on the final meeting of June to revise these administrative fee lines and any other lines as needed. This action is effectively immediately and is the responsibility of the Budget Analyst and the Finance Director.

SECTION IV - FEDERAL AWARD FINDINGS

None noted

SECTION V – SUMMARY OF PRIOR YEAR FINDINGS

FS 2018-003 Capital Assets – (Material Weakness) Resolved

FS 2018-003 Capital Assets – (Material Weakness) Resolved
