INDEPENDENT AUDITOR'S REPORT

To the City Commission
and Mr. Timothy Keller, New Mexico State Auditor
City of Aztec

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and the major special revenue fund of the City of Aztec ("the City"), as of and for the year ended June 30, 2016, and the related notes to the financial statements which collectively comprise the City's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the City's nonmajor governmental, the fiduciary fund and budgetary comparisons for the major enterprise funds and all of the nonmajor funds presented as supplementary information, as defined by the Government Accounting Standards Board, in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2016, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2016, and the respective changes in financial position and where applicable, cash flows thereof and the respective budgetary comparisons for the general fund and the major special revenue fund for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental, and the fiduciary fund of the City as of June 30, 2016, and the respective changes in financial position and the respective budgetary comparisons for all nonmajor funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6-18, Schedule of City's Proportionate Share of the Net Pension Liability, and Schedule of City Contributions on pages 59 and 60 to 62, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the City's financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The Schedule of Expenditures of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, and the other schedules required by Section 2.2.2.NMAC are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of federal awards and other schedules required by Section 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying

accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures and other schedules required by Section 2.2.2 NMAC are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Additional Other Supplementary Schedules section of the table of contents have not been subjected to auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 9, 2016 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

CITY OF AZTEC
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

Management's Discussion and Analysis

As management of the City of Aztec, we offer readers of the City of Aztec's financial statements this narrative overview and analysis of the financial activities of the City of Aztec for the fiscal year ended June 30, 2016.

Financial Highlights

The assets and deferred outflows of resources of the City of Aztec exceeded its liabilities at the close of June 30, 2016 by \$60,063,193 (*net position*). Of this amount, \$12,461,563 (*unrestricted net position*) may be used to meet the City's ongoing obligations to its citizens and creditors.

The City's total Net Position increased by \$2,402,311 (4%).

The Statement of Net Position reflects the recording of \$5.4 million in net pension liability, \$433,216 in deferred outflows, and \$271,190 in deferred inflows to comply with the requirements of GASG Statement No. 68 (GASB 68).

As of the June 30, 2016, the City's governmental funds reported combined ending fund balances of \$5,518,561, a decrease of \$280,765 in comparison with the prior year. Approximately 43.23% of this total fund balance amount (\$2,385,755) is available for spending at the City's discretion (*unassigned fund balance*).

At the end of the current fiscal year, unrestricted fund balance (the total of the *committed, assigned, and unassigned* components of fund balance) for the general fund was \$2,385,755, or approximately 40.8% of total general fund expenditures.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Aztec's basic financial statements. The City of Aztec's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. *The government-wide financial statements* (statement of net position and statement of activities) are designed to provide readers with a broad overview of the City of Aztec's financial condition, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Aztec's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Aztec is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for

**STATE OF NEW MEXICO
CITY OF AZTEC
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

Overview of Financial Statements (Continued)

some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Aztec that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Aztec include general government, public safety, public works, culture and recreation, and health and welfare. The business-type activities of the City of Aztec include a joint utility fund comprised of electric, water, and wastewater utilities, solid waste operations, irrigation operations and golf course operations.

The government-wide financial statements can be found on pages 19-20 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Aztec, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Aztec can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Aztec maintains twelve individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund which is considered to be a major fund. Data from the other twelve governmental funds are combined into a single, aggregated presentation. Individual fund data for these nonmajor governmental funds is provided in the form of combining statements following the notes to the financial statements (pages 66-71).

**STATE OF NEW MEXICO
CITY OF AZTEC
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

Overview of Financial Statements (Continued)

The City of Aztec adopts an annual appropriated budget for all of its governmental funds. Budgetary comparison statements have been provided for the governmental funds to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 21 and 23 of this report.

Proprietary funds. The City of Aztec maintains one type of proprietary fund. *Enterprise Funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Aztec uses four enterprise funds to account for its electric, water, wastewater, solid waste, irrigation and golf course operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the joint utility fund (electric, water, and wastewater operations), solid waste, irrigation and golf course operations.

The basic proprietary fund financial statements can be found on pages 27-29 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reported in the government-wide financial statement because the resources of those funds are *not* available to support the City of Aztec's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund statements can be found on page 30 and 86 of this report.

Notes to the financial statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 31-58 of this report.

Government-wide Overall Financial Analysis

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. In the case of the City of Aztec, assets and deferred outflows of resources exceeded liabilities by \$60,063,193 at the close of the most recent fiscal year.

The largest portion of the City of Aztec's net position (\$45,194,454 or 75.2%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City of Aztec uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the City of Aztec's investment in its capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**STATE OF NEW MEXICO
CITY OF AZTEC
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

Government-wide Overall Financial Analysis (Continued)

Another portion of the City of Aztec's net position (\$2,407,176 or 4.9%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$12,461,563 (20.7%) is unrestricted and may be used to meet government's ongoing obligations to its citizens and creditors.

At the end of the current fiscal year, the City of Aztec is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate government and business-type activities. The same situation held true for the prior fiscal year.

The City of Aztec's net position increased \$2,402,311 from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

Effective July 1, 2014, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 68 which is an accounting change that requires the recording of a net pension liability to be reported in the financial statements of state and local government employers. For the fiscal year ending June 30, 2016, the

**STATE OF NEW MEXICO
CITY OF AZTEC
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

Government-wide Overall Financial Analysis (Continued)

impact of GASB 68 on the City's financial statements was a total of \$5,443,637 being recorded as a net pension liability.

Governmental activities. During the current fiscal year, net position for governmental activities increased by \$2,458,987 from the prior fiscal year for an ending balance of \$22,300,341. The decrease is the result of a combination of factors:

- Combined tax revenue (property, gross receipts, and other) decreased by \$735,911 or 12.1% from the prior fiscal year.
- Operating and capital grants and contributions increased \$2,528,948 or 494.7% from the prior fiscal year.
- Miscellaneous revenues increase \$380,011 or 179.6% from the prior fiscal year
- Expenditures decreased \$796,371 or 9.8% from the prior fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

Governmental funds. The focus of the City of Aztec's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City of Aztec's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City of Aztec itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City of Aztec's Commission.

As of the June 30, 2016, the City of Aztec's governmental funds reported combined fund balances of \$5,518,561, a decrease of \$280,765 in comparison with the prior year. Approximately 43% of this total amount or \$2,385,755 constitutes *unassigned fund balance* which is available for spending at the government's discretion. The remainder of the fund balance is either *nonspendable*, *restricted*, *committed*, or *assigned* to indicate that it is 1) not in spendable form (\$15,281), 2) restricted for particular purposes (\$2,997,396) or 3) committed for a particular purpose (\$120,129).

**Other Governmental Funds
Components of Fund Balance
June 30, 2015 and 2016**

General Fund. The general fund is the chief operating fund of the City of Aztec. At the end of the current fiscal year, unassigned fund balance of the general fund was \$2,385,755, while total fund balance increased to \$3,030,237. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 40.8% of total fund expenditures, while total fund balance represents 51.8% of the same amount.

The fund balance of the City of Aztec's general fund increased \$108,714 or 3.7% during the current fiscal year. General Fund revenue decreased by \$172,591 or 2.75%. Revenue categories contributing to the decrease in general fund revenue include property tax, franchise tax, and intergovernmental revenues.

Tax revenues decreased \$609,181 (12%). Gross receipts tax decreased \$633,751 (16.4%) the result of the downturn in the oil and gas industry and its impact to multiple sectors of the regional economy. Property tax increased \$29,068 (4.7%). Franchise taxes decreased \$4,498 (0.7%), a combination of increased revenues in cable TV, natural gas and city operated utilities.

**STATE OF NEW MEXICO
CITY OF AZTEC
MANAGEMENT’S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

Intergovernmental revenues increased \$28,454 (10%). Operating and capital grants increased by \$28,454 (10%) primarily the result of small cities assistance through the state the result of reduced gross receipt taxes.

Fine revenue decreased \$24,932 (6.4%)

Investment earnings increased \$1,889, the result of a slight increase in interest rates and increased cash reserves.

General Fund expenditures for FY2016 decreased \$692,700 (10.6%), compared to FY15. Changes in expenditures contributing to the decrease:

Personnel increased by \$77,779: Cost of living adjustment (1.6%), merit increases (maximum 2.4%), Supplies, materials, and services expenditures decreased by \$652,822 .

Capital expenditures decreased by \$117,657.

Proprietary funds. The City of Aztec’s proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the joint utility fund at the end of the year amounted to \$11,952,681, for solid waste \$94,641, for irrigation \$95,766, and golf course \$(239,032). The total decrease in net position for the joint utility fund was \$32,903. The net position for solid waste fund decreased \$48,868, a combination of management’s decision to absorb rate increases in contractual solid waste services rather than increasing utility rates to its citizens and pension liability. The irrigation fund increased by \$7,017. The golf course fund deficit is the result of the net pension liability and debt incurred for equipment purchases. Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Aztec’s business-type activities.

General Fund Budgetary Highlights

Original budget compared to final budget. During the fiscal year, the City Commission approved one adjustment to the City’s general fund budget for operating transfers to other funds. Increases were approved to the Airport Fund and the Golf Course Fund and a decrease to the Municipal Road Fund which resulted in no change to the General Fund final budget.

Final budget compared to actual results. The most significant differences between estimated revenues and actual revenues were as follows:

Revenue Source	Estimated revenues	Actual revenues	Difference
Taxes	\$4,403,300	4,457,286	53,986
Charges for Services	264,200	322,542	58,342
Miscellaneous	76,000	560,977	484,977

**STATE OF NEW MEXICO
CITY OF AZTEC
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

Investment earnings exceeded the revenue estimate by \$1,731 (34.6%), due to increased cash reserves and slightly higher interest rates.

A review of actual expenditures compared to the appropriations in the final budget yields a positive variance of \$1,768,957, the result of managements continuing efforts in monitoring daily governmental operations.

Capital Asset and Debt Administration

Capital assets. The City of Aztec's investment in capital assets for its governmental and business type activities as of June 30, 2016, amounts to \$52,144,829 (net of accumulated depreciation).

This investment in capital assets includes land, buildings and system improvements, utility systems, machinery and equipment, park facilities, roads, highways, and bridges. The total increase in capital assets for the current fiscal year was approximately 3.6%.

CITY OF AZTEC
MANAGEMENT’S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

Major capital asset events during this fiscal year include the following:

- East Aztec Arterial Phase 1B (new road) - in progress
- East Aztec Arterial Phase 1B wastewater line (new) – in progress
- Simmonds Road Reconstruction
- N Main Corridor, Phase 0 (new road subgrade)
- S Church, 300 Block, Sidewalk Replacement
- Florence Park Playground
- Aviation Fuel Facility – in progress
- Animas River Headgate Replacement
- Public Works Sign Shop
- Public Works Water Meter Shop
- Lovers Lane Concrete Box Culvert
- Williams Arroyo Stabilization
- Municipal Building Roof Replacement (Police, Courts, Utility/MVD Buildings)

Scheduled replacement of vehicles and equipment

Additional information on the City of Aztec’s capital assets can be found in note 5 on pages 44-46 of this report.

Long-term debt. At the end of the current fiscal year, the City of Aztec had no bonded debt outstanding.

City of Aztec Outstanding Debt

Additional information on the City of Aztec’s long-term debt can be found in note 7 on pages 48-49 of this report.

Debt limitation. Article IX, Section 13 of the State Constitution limits the powers of the City to incur general obligation debt in an aggregate amount, including existing indebtedness, not to exceed four percent of the value of the taxable property in the City as shown by the last preceding general assessments. The City may,

**STATE OF NEW MEXICO
CITY OF AZTEC
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

however, contract debt in excess of such limitation for the construction or purchase of a system for supplying water or a sewer system for the City. Based on the 2016 assessed valuation of \$124,488,615, the City's general obligation debt limit is \$4,979,544. The City presently has no general obligation bonds outstanding.

The City of Aztec has been approved for a Clean Water State Revolving Fund loan administered through New Mexico Environment Department. The loan will be secured with Joint Utility Fund net system revenues. The amount of the loan is \$5,050,000, 3% for 20 years, proceeds are for the replacement and enlargement of the wastewater interceptor line. It is anticipated construction will be completed in the late spring of 2017 with the first debt service payment due one year after completion of the project.

Economic Factors and Next Year's Budgets and Rates

The following economic factors currently affect the City of Aztec and were considered in developing the 2016-2017 fiscal year budget.

- Continued low activity in the oil & gas sector in the region impacting gross receipts tax and property tax revenues in multiple sectors. This will continue to result in conservative tax revenue estimates government wide.
- Interest rates are expected to remain at low levels throughout fiscal year 2016-2017.
- On the expenditure side, personnel costs do not include COLA or merit increases.
- Construction interest, debt and repair and replacement reserves on the CWSRF loan for the wastewater interceptor line included in budget.

During the current fiscal year, the unassigned fund balance in the general fund was \$2,385,755. The City of Aztec has appropriated \$1,591,978 of this amount for spending in the 2016-2017 fiscal year budget. This action was taken as an additional measure to mitigate the impact of the recession on the 2016-2017 fiscal year budget.

Requests for Information

This financial report is designed to provide a general overview of the City of Aztec's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, 201 W Chaco, Aztec, NM 87410.

AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
June 30, 2016**

**Net Change in Fund Balances - Total Governmental Funds
(Statement of Revenue, Expenditures, and Changes
in Fund Balances)**

\$ (280,765)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Expenditures for capital assets	3,329,685
Loss on disposition of capital assets	(13,602)
Depreciation expense	<u>(1,482,927)</u>
	1,833,156

Revenues in the governmental funds that provide current financial resources are not included in the Statement of Activities because they were recognized in a prior period.

Property taxes	3,004
----------------	-------

The issuance of long-term debt (e.g. bonds, loans, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction; however, has any effect on net position.

The following table represents the changes in long-term debt for the fiscal year:

Change in bonds, notes, and loans payable	173,708
Change in compensated absences	(116,730)
Change in accrued interest on long-term debt	(188)
Change in net pension liability	<u>846,803</u>
	903,593

Change in net position in governmental activities

\$ 2,458,988

See Notes to Financial Statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The City of Aztec, (City), New Mexico, which was incorporated in 1890, operates under a Commission / Manager form of government. Five commissioners are elected at large and one of the commissioners serves as Mayor. This reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the City's financial statements to be misleading or incomplete.

The City had no blended or discrete component units during the current fiscal year.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect costs are not allocated to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements and the fiduciary fund – agency financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**C. Measurement focus, basis of accounting and financial statement presentation
(Continued)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Derived tax revenues (gross receipts taxes, cigarette taxes and gas taxes) are recognized when the underlying transaction takes place. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The government reports the following major governmental funds:

The **general** fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **municipal road** fund was established to account for gasoline tax monies received pursuant to Section 7-1-6.9 NMSA 1978.

The government reports the following major proprietary funds:

The **joint utility** fund accounts for the activities of the City's utility.

The **solid waste** fund accounts for the activities of the City's solid waste services.

The **irrigation assessment** fund accounts for the activities of the City's irrigation assessment activities.

The **golf course** fund accounts for the activities of the Aztec Municipal Golf Course at Hidden Valley.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement focus, basis of accounting and financial statement presentation (Continued)

Additionally, the City reports the following agency fund type:

The ***employee association trust*** fund is an agency fund that accounts for employee contributions to a fund used for special occasions such as sending flowers, etc.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's utility and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided 2) operating grants and contributions and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. The utilities also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is City policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Position

Deposits and Investments. The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury, repurchase agreements, Certificates of Deposits, and the State Treasurer's Investment Pool. Investments for the City are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

regulations and is not SEC registered. The reported value of the pool is the same as the fair value of the pool shares. Generally, investment income earned as a result of pooling is distributed to the appropriate funds utilizing a formula based on the average daily balance of cash and investments of each fund. All investment in such pool is voluntary.

Receivables and Payables. Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds”. Any residual balances outstanding between the governmental activities and business- type activities are reported in the government-wide financial statements as “internal balances.”

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

The joint utility enterprise fund is responsible for billing and collecting electric, water, and wastewater charges using a cycle billing system. No billing cycles are billed in advance of services. Metered accounts are billed in arrears and have been accrued. The only unearned revenue is customer payments for prepaid electric distribution construction. Customers are required to pay 100% of the estimate prepared by the electric director. When the job is complete the actual costs of the job are prepared and the customer is either refunded the overpayment or billed for the shortage. These payments for construction are then reported as increases in net assets at the end of the fiscal year. All trade receivables are shown net of an allowance for uncollectible accounts. The City is required to provide service and grant credit to a diverse customer base within its service territory. The City may require security deposits prior to providing service to customers depending upon an assessment of credit worthiness.

The City reviews customer accounts receivable on a regular basis and has an accounts receivable collection policy.

The City has reviewed its customer base for concentrations of credit risk and has determined that no individual customer or group of customers engaged in similar activities represent a material concentration of credit risk to the City.

Property taxes are levied and collected by San Juan County. The County remits to the City amounts collected for the applicable portion of the property taxes in the month following the date of receipt. The

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

City recognizes property taxes as revenue on the modified accrual basis. Oil and gas taxes received from the County are recognized as revenue when received by the City.

Property taxes are levied as of January 1st on property values assessed on the same date. The tax levy is payable in two installments, November 10th and May 10th. The property taxes are considered delinquent and subject to lien, penalty, and interest, 30 days after the date on which they are due.

Inventories and Prepaid Items. Inventories are only held by the joint utility fund and are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are considered immaterial and recorded as expenditures when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets. Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are, reported in the applicable governmental or business- type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Such assets, including infrastructure, have higher limits that must be met before they are capitalized. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Computer software costs, whether externally purchased or developed in-house, shall be capitalized if the total cost of the software equals or exceeds \$5,000 and has a life of at least two years. Library books are not capitalized.

Property, plant, and equipment of the primary government have the following threshold levels to be capitalized and are depreciated using the straight line method over the following estimated useful lives:

	Estimated Useful Life
Buildings and structures	10-45 years
Improvements other than buildings	10-50 years
Infrastructure	5-50 years
Machinery and equipment	5-30 years
Furniture and fixtures	5-30 years

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

Compensated Absences. It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amounts when employees separate from service with the City. All vacation pay is accrued when incurred in the government-wide and proprietary financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. A compensated absence is expensed in the related fund of the employee that earned the compensated absences.

Deferred Outflows/Inflows of Resources. In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Also, in addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. At June 30, 2016, the City reported deferred outflows that are pension related. Deferred inflows are reported in the governmental funds regarding property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Long-Term Obligations. In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs related to insurance, are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs other than related insurance are expensed in the year incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs related to insurance, during the current period. The face amount of debt issued is reported as other financing sources. Bond premium and discounts are reported as other financing uses. Issuance costs, even if withheld from actual net proceeds received, are reported as debt service expenditures.

Net Position Flow Assumptions. In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. None of the City's net position is restricted as a result of enabling legislation adopted by the City. Net investment in capital assets represents the City's

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

investment in the book value of capital assets, less any outstanding debt that was issued to construct or acquire the capital asset. Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources.

In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted net position to have been depleted before unrestricted net position.

Fund Equity Flow Assumptions. In the fund financial statements, governmental funds report restricted and unassigned fund balances. Restricted fund balances represent amounts that are constrained externally by creditors (such as debt covenants), grantors, contributors, or laws of other governments. Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balances. In the fund financial statements, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of the City Commission. City Commission is the highest level of decision-making authority for the City. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the City Commission.

Assigned – amounts that are constrained by the City's intent to use them for a specific purpose, but are neither restricted nor committed. The City has not established a policy regarding the assignment of funds,

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Liabilities and Net Position (Continued)

so this category of fund balance represents the residual amounts not otherwise reported as unspendable, restricted, or committed in governmental funds outside of the general fund.

Unassigned – all other spendable amounts.

Net Position. In the government-wide financial statements, restricted net position is legally restricted by outside parties (such as creditors, grantors, contributors, laws and regulations of other governments) for a specific purpose. Net investment in capital assets represents the City's investment in the book value of capital assets, less any outstanding debt that was issued to construct or acquire the capital asset. The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expenses, information about the Fiduciary Net Position of the New Mexico Public Employee's Retirement Board (PERA) and additions to/deductions from PERA's Fiduciary Net Position have been determined on the same basis as they are reported for PERA, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

Annual budgets are adopted for all funds. All budgets are consistent with generally accepted accounting principles (GAAP). All annual appropriations lapse at fiscal year-end. Carryover funds must be appropriated in the budget of the subsequent fiscal year. Because the budget process in the State of New Mexico requires that the beginning cash balance be appropriated in the budget of the subsequent fiscal year, such appropriated balance is legally restricted and is therefore presented as a reserved portion of fund balance.

Actual expenditures may not exceed the budget on a fund basis. Budgets may be amended by City Commission resolution with approval by the State Department of Finance and Administration. City department heads may make transfers of appropriations within a fund. The legal level of budgetary control

STATE OF NEW MEXICO
 CITY OF AZTEC
 NOTES TO FINANCIAL STATEMENTS
 June 30, 2016

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

Budgetary Information (Continued)

is the fund level. Increases or decreases of appropriations between funds require the approval of the governing Commission.

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to June, the City Manager submits to the City Commission a proposed operating budget for preliminary approval for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. The budget is prepared by fund, department, and function.
2. In late July, after there has been an opportunity for public comment, the City Commission adopts the budget as finalized.
3. Prior to September 1, the budget is legally enacted through passage of a resolution and the Local Government Division of the State Department of Finance and Administration approves the final budget.
4. After the budget is adopted any supplemental appropriations must be approved by the City Commission.

The budgetary basis and GAAP basis are the same for all governmental fund types. Budgets for proprietary enterprise funds are adopted on a non-GAAP basis, using the spending measurement focus as in governmental fund types.

Encumbrance accounting is employed by the City. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are carried forward to the new fiscal year and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year. The fund balances are reserved for outstanding encumbrances because the resources are not available for new spending. The City had the following encumbrances, outstanding at June 30, 2016:

General Fund	\$ 121,604
Other Governmental Funds	3,425,118
Business-Type Funds	<u>4,638,427</u>
Total Encumbrances by Fund:	<u>\$ 8,185,149</u>

STATE OF NEW MEXICO
 CITY OF AZTEC
 NOTES TO FINANCIAL STATEMENTS
 June 30, 2016

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

B. Excess of Expenditures over Appropriations

As of June 30, 2016, there were no funds reported with excess expenditures over appropriations.

C. Deficit Fund Balance or Net Position

As of June 30, 2016, there were no governmental funds reported with a deficit fund balance; however, the Golf Course enterprise fund reported a deficit net position of \$120,027. Management is addressing the negative net position and is planning on taking the appropriate actions to eliminate the negative balance.

NOTE 3. DEPOSITS AND INVESTMENTS

As of June 30, 2016, the City had the following deposits and investments:

Demand deposits	\$	2,857,283
Certificates of deposit		5,825,522
State Treasurer’s LGIP		8,376,867
Cash with fiscal Agent		514,200
Cash on hand		<u>2,500</u>
Total	\$	<u>17,576,372</u>
Governmental funds	\$	3,682,132
Proprietary funds		13,885,991
Agency funds		<u>8,249</u>
Total	\$	<u>17,576,372</u>

The City has investments in the State Treasurer external investment pool (the Local Government Investment Pool). The investments are valued at fair value based on quoted market prices as of June 30, 2016. The State Treasurer Local Government Investment Pool (LGIP) is not SEC registered. Section 6-10-10 I, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies and are either direct obligations of the United States or are backed by the full faith and credit of the United States government or are agencies sponsored by the United States government. The Local Government Investment Pool investments are monitored by the same investment committee and the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the local government investment pool is voluntary. The LGIP has been rated by Standard & Poor’s and has received an AAAM rating.

NOTE 3. DEPOSITS AND INVESTMENTS (CONTINUED)

Interest Rate Risk. The risk that interest rate variations may adversely affect the fair value of an investment. An acceptable method for reporting interest rate risk is weighted average maturity (WAM). The State Treasurer's Office uses this method for reporting purposes for the Local Government Investment Pool. As of June 30, 2016 the LGIP WAM (R) was 44 days and WAM (F) was 77 days.

As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits no more than 40% of City funds invested for a period greater than two years and no funds shall be invested for a period greater than three years. The City's policy is to invest in securities with an average maturity of less than 182 days (0.5 yearly average term).

Credit Risk. As directed by State Statute 6-10-36, E. and F., excess funds may be invested in securities backed by the full faith and credit of the United States Government, such as treasury notes, bills and bonds; in securities of Agencies that are guaranteed by the United States Government; bonds or negotiable securities of the State of New Mexico or of any county, municipality or school district in the State of New Mexico which has a taxable valuation of real property for the last preceding year of at least one million dollars (\$1,000,000) and has not defaulted in the payment of any interest or sinking fund obligation or failed to meet any bonds at maturity at any time within five years last preceding. The LGIP is exempt from this reporting requirement.

Custodial Credit Risk (Deposits). Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statute requires that the bank deposits be 50% collateralized and repurchase agreements be 102% collateralized. The City's carrying amount of deposits as of June 30, 2016 was \$8,682,805 and the bank balance was \$8,841,852. Of the bank balance, \$750,539 was covered by federal depository insurance, \$6,617,019 was collateralized with securities held by the pledging financial institution's trust department or agent in the City's name, and \$1,474,294 was uncollateralized, and subject to custodial credit risk.

Custodial Credit Risk (Investments). In the case of investments, this is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The LGIP is exempt from this reporting requirement.

Collateral. Only securities backed by the full faith and credit of the United States Government will be accepted as collateral. The City may make an exception and accept as collateral securities from a governmental entity within the State of New Mexico as described by State Statute 6-10-16-A. All securities pledged as collateral shall be held by a third-party financial institution. Any change in the institution holding the collateral must have prior approval of management.

Transfers are used to 1) move revenues from the fund with collection authorization to the debt service fund as debt service principal and interest payments become due, 2) move restricted amounts from borrowings to the debt service fund to establish mandatory reserve accounts, 3) move unrestricted general fund revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs.

NOTE 7. LONG-TERM DEBT

General Obligation Bonds. The City has the capacity to issue general obligation bonds to provide funds for the acquisition and/or construction of major capital projects, but as of June 30, 2016 no general obligation bonds had been issued.

Revenue Bonds. The City has the capacity to issue bonds where the City pledges gross receipts tax revenue and revenues derived from the acquired or constructed assets to pay debt service, but as of June 30, 2016 no revenue bonds had been issued.

Contracts and Loans Payable - Governmental Activities

The City has entered into a long-term loan agreement with the State of New Mexico Finance Authority to construct, purchase, furnish and equip a public library totaling \$1,679,942 dated September 2004 and collateralized by New Mexico gross receipts tax. The loan is payable in semi-annual payments averaging \$118,789 per year, including interest at 3.966%, through May 2020. The General Governmental Fund on the government-wide statement of net assets reports the outstanding principal due as of June 30, 2016 of \$527,346, with a current portion of \$118,789.

The City has entered into a long-term loan agreement with the State of New Mexico Finance Authority for capital improvements (including a raw water reservoir) totaling \$3,367,380 dated October 24, 2008 and collateralized by New Mexico gross receipts tax. The loan is payable in variable annual principal payments, and semi-annual interest payments with interest rate ranging from 2.03% to 4.89%, through May 2031. The General Governmental Fund on the government-wide statement of net assets reports the outstanding principal due as of June 30, 2016 of \$2,952,883, with a current portion of \$54,731.

NOTE 7. LONG-TERM DEBT (CONTNUED)

Contracts and Loans Payable - Business-Type Activities

The City has entered into a long-term loan agreement with the New Mexico Environmental Department (CWRF 2009) in the original amount of \$5,000,000 dated February 3, 2010. The loan is payable in annual payments of \$305,784, including interest at 2%, through June 30, 2029. The Joint Utilities Enterprise Fund reports the outstanding principal as of June 30, 2016 of \$3,470,146, with a current portion of \$236,381. The loan is collateralized by net utilities revenues.

In March 2015, the City of Aztec entered into a capital lease bearing a 4.60% interest rate with Yamaha for equipment in which the related equipment will become the property of the City when all terms of the lease agreement are met. The original principal balance of the lease was \$104,650.

In April 2015, the City of Aztec entered into a capital lease bearing a 4.60% interest rate with Yamaha for equipment in which the related equipment will become the property of the City when all terms of the lease agreement are met. The original principal balance of the lease was \$56,350.

The following is a schedule of the future minimum lease payments under these capital leases, and value of the net minimum lease payments at June 30, 2016:

Fiscal Year Ending June 30,	Interest	Principal
2017	\$ 5,923	17,117
2018	5,139	17,901
2019	4,320	18,720
2020	2,503	86,060
Total	\$ 17,885	139,798

Long-term debt service requirements to maturity are as follows:

Governmental Activities

	Principal	Interest
2017	\$ 179,555	160,190
2018	185,948	152,833
2019	192,720	145,046
2020	199,900	136,789
2021	185,099	128,021
2022 – 2026	1,091,902	505,514
2027 – 2031	1,445,105	217,520

STATE OF NEW MEXICO
CITY OF AZTEC
NOTES TO FINANCIAL STATEMENTS
June 30, 2016

NOTE 8. RESTRICTED FUND BALANCES

Fund balances were restricted for the following purposes:

Subsequent Years Expenditures. The New Mexico Department of Finance and Administration (DFA) requires that 1/12th of the general fund budgeted expenditures be restricted as subsequent year expenditures to maintain an adequate cash flow until the next significant property tax collection.

NOTE 9. COMMITMENTS AND CONTINGENCIES

Risk Management. The City is also exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omission; and natural disasters. In addition, the City is party to numerous pending or threatened lawsuits, under which it may be required to pay certain amounts upon final disposition of these matters. The City has historically retained these risks, except where it has determined that commercial insurance is more cost beneficial or legally required. The City has covered all claim settlements and judgments out of its General Fund resources, except where specifically identifiable to an enterprise fund. The City currently reports substantially all of its risk management activities, except worker's compensation, in its General Fund. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Current liabilities are reported when the liability has matured. These losses include an estimate of claims that have been incurred but not reported.

Contingent Liabilities. Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

NOTE 10. JOINTLY GOVERNED ORGANIZATIONS

Joint Powers Agreement for Consolidated Communications Authority. The City is a participant with San Juan County, the City of Farmington and the City of Bloomfield in a joint powers agreement to build, maintain, and operate a centralized communications system for dispatch and emergency response. The City was obligated to contribute \$7,500 per year until the Capital Equipment Fund reached a balance of \$250,000. Thereafter, the City is obligated to contribute 6% of an amount necessary to maintain that balance. During the year ended June 30, 2016, the City contributed \$0 to the Authority. Complete financial statements for the Consolidated Communications Authority can be obtained from San Juan County, New Mexico.

NOTE 10. JOINTLY GOVERNED ORGANIZATIONS (CONTINUED)

Joint Powers Agreement for the San Juan Water Commission. The City is a participant with the cities of Farmington and Bloomfield, the County of San Juan, and the San Juan Rural Waters Users Association in a joint powers agreement to create a countywide entity responsible for water planning and use. Much of the impetus to form the Commission came from the Animas La Plata water project and the subsequent need to develop methods to equitably share the related costs and benefits. In addition to this specific project the Commission is also authorized to acquire additional water rights and provide for the equitable distribution of such water. The Commission is financed by a San Juan County mill levy on real and personal property of approximately 3 mills. During the year ended June 30, 2016 the City did not make any financial contribution to the Commission. Complete financial statements may be obtained by contacting the San Juan Water Commission.

NOTE 11. PENSION PLAN- PUBLIC EMPLOYEES RETIREMENT ASSOCIATION

Plan description: The Public Employees Retirement Fund (PERA Fund) is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officer, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the PERA Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C- 1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), and the provisions of Sections 29-4-1 through 29-4-11, NMSA 1978 governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the PERA Fund.

PERA issues a publicly available financial report and a comprehensive annual financial report that can be obtained at <http://saonm.org/> using the Audit Report Search function for agency 366.

Benefits provided: For a description of the benefits provided and recent changes to the benefits see Note 1 in the PERA audited financial statements for the fiscal year ended June 30, 2015 available at <http://www.nmpera.org/assets/uploads/downloads/comprehensive-annual-financial-reports/CAFR-2015.pdf>.

Contributions: The contribution requirements of defined benefit plan members and the City are established in state statute under Chapter 10, Article 11, NMSA 1978. The contribution requirements may be amended by acts of the legislature. For the employer and employee contribution rates in effect for FY15 for the various PERA coverage options, for both Tier I and Tier II, see the tables available in the note disclosures on pages 29 through 31 of the PERA FY15 annual audit report at http://www.saonm.org/media/audits/366_Public_Employees_Retirement_Association_FY2015.pdf.

NOTE 11. PENSION PLAN- PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (CONTINUED)

PERA coverage options that apply to City are Municipal Plan 2, and Municipal Police Plan 5. Statutorily required contributions to the pension plan from the City were \$439,149.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: The PERA pension liability amounts, net pension liability amounts, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2014. The PERA pension liability amounts for each division were rolled forward from the valuation date to the Plan year ending June 30, 2015, using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date June 30, 2015.

The assets of the PERA fund are held in one trust, but there are six distinct membership groups (municipal general members, municipal police members, municipal fire members, state general members, state police members and legislative members) for whom separate contribution rates are determined each year pursuant to chapter 10, Article 11 NMSA 1978. Therefore, the calculations of the net pension liability, pension expense and deferred Inflows and Outflows were performed separately for each of the membership groups: municipal general members; municipal police members; municipal fire members; state general members; state police members and legislative members. The City's proportion of the net pension liability for each membership group that the employer participates in is based on the employer contributing entity's percentage of that membership group's total employer contributions for the fiscal year ended June 30, 2015.

Only employer contributions for the pay period end dates that fell within the period of July 1, 2014 to June 30, 2015 were included in the total contributions for a specific employer. Regular and any adjustment contributions that applied to FY 2015 are included in the total contribution amounts. In the event that an employer is behind in reporting to PERA its required contributions, an estimate (receivable) was used to project the unremitted employer contributions. This allowed for fair and consistent measurement of the contributions with the total population. This methodology was used to maintain consistent measurement each year in determining the percentages to be allocated among all the participating employers.

For PERA Fund Division Municipal Plan 2, at June 30, 2016, the City reported a liability of \$3,657,257 for its proportionate share of the net pension liability. At June 30, 2015, the City's proportion was 0.3587% percent, a 0.0008% increase from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the City recognized PERA Fund Division Municipal Plan 2 pension expense of \$116,454. At June 30, 2016, the City reported PERA Fund Division Municipal Plan 2 deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

STATE OF NEW MEXICO
 CITY OF AZTEC
 NOTES TO FINANCIAL STATEMENTS

Total	<u>\$ 208,195</u>	<u>94,004</u>

\$203,429 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date June 30, 2015 will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2017	\$ 96,866
2018	96,866
2019	96,866
2020	(196,594)
2021	-
Thereafter	-

For PERA Fund Division Municipal Police Plan 5, at June 30, 2016, the City reported a liability of \$1,786,380 for its proportionate share of the net pension liability. At June 30, 2015, the City's proportion was 0.3715% percent, a 0.0395% decrease from its proportion measured as of June 30, 2014, due to the insignificance of the difference.

For the year ended June 30, 2016, the City recognized PERA Fund Division Municipal Police Plan 5 pension expense of \$56,881. At June 30, 2016, the City reported PERA Fund Division Municipal Police Plan 5 deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

STATE OF NEW MEXICO
 CITY OF AZTEC

Changes in proportion and differences between City's contributions and proportionate share of contributions	-	98,325
City's contributions subsequent to the measurement date	<u>100,196</u>	<u>-</u>
Total	<u>\$ 225,021</u>	<u>177,186</u>

\$100,196 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date June 30, 2015 will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2017	\$ 15,211
2018	15,211
2019	15,211
2020	(91,597)
2021	-
Thereafter	-

Actuarial assumptions: As described above, the PERA Fund member group pension liabilities and net pension liabilities are based on actuarial valuations performed as of June 30, 2014 for each of the membership groups. Then each PERA Fund member group pension liability was rolled forward from the valuation date to the Plan year ending June 30, 2015 using generally accepted actuarial principles. There were no significant events or changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2015. These actuarial methods and assumptions were adopted by the Board for use in the June 30, 2015 actuarial valuation.

STATE OF NEW MEXICO
CITY OF AZTEC
NOTES TO FINANCIAL STATEMENTS
June 30, 2016

NOTE 11. PENSION PLAN- PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (CONTINUED)

Actuarial valuation date	June 30, 2014
Actuarial cost method	Entry age normal
Amortization method	Level of percentage of pay, open
Amortization period	Solved for based on statutory rates
Asset valuation method	Fair value
Actuarial assumptions	
Investment rate of return	7.75% annual rate, net of investment expense
Projected benefit payment	100 years
Payroll growth	3.50% annual rate
Projected salary increases	3.50% to 14.25% annual rate
Includes inflation at	3.00% annual rate
Mortality assumption	RP-2000 Mortality Tables (Combined table for health post-retirements, Employee table for active members, and Disabled table for disabled retirees before retirement age) with projection to 2018 using Scale AA
Experience study dates	July 1, 2008 to June 30, 2013

The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
US Equity	21.1%	5.00%
International Equity	24.8%	5.20%
Private Equity	7.0%	8.20%
Core and Global Fixed Income	26.1%	1.85%
Fixed Income Plus Sectors	5.0%	4.80%
Real Estate	5.0%	5.30%
Real Assets	7.0%	5.70%
Absolute Return	4.0%	4.15%
Total	<u>100.0%</u>	

Discount rate: The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASBS 67. Therefore, the 7.75% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 11. PENSION PLAN- PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (CONTINUED)

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate:

The following tables show the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present the City's net pension liability in each PERA Fund Division that the City participates in, under the current single rate assumption, as if it were calculated using a discount rate one percentage lower (6.75%) or one percentage point higher (8.75%) than the single discount rate.

PERA Fund Division Municipal Plan 2

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City's proportionate share of the net pension liability	\$ 6,226,858	3,657,257	1,520,809

PERA Fund Division Municipal Police Plan 5

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City's proportionate share of the net pension liability	\$ 2,950,099	1,786,380	831,737

Payables to the pension plan: The City accrued \$0 in PERA benefits at June 30, 2016.

NOTE 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN

Plan Description. The City contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

**NOTE 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN
(CONTINUED)**

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the employer and employee contributions can be changed by the New Mexico State Legislature. Employers that choose to become participating employers after January 1, 1998, are required to make contributions to the RHCA fund in the amount determined to be appropriate by the board.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. For employees that were members of an enhanced retirement plan (state police and adult correctional officer member coverage plan 1; municipal police member coverage plans 3, 4 or 5; municipal fire member coverage Plan 2, 4 or 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act) during the fiscal year ended June 30, 2016, the statutes required each participating employer to contribute 2.5% of each participating employee's annual salary; and each participating employee was required to contribute 1.25% of their salary. For employees that were not members of an enhanced retirement plan during the fiscal year ended June 30, 2016, the statute required each participating employer to contribute 2.0% of each participating employee's annual salary; each participating employee was required to contribute 1.0% of their salary. In addition, pursuant to Section 10-7C-15(G) NMSA 1978, at the first session of the Legislature following July 1, 2013, the legislature shall review and adjust the distributions pursuant to Section 7-1-6.1 NMSA 1978 and the employer and employee contributions to the authority in order to ensure the actuarial soundness of the benefits provided under the Retiree Health Care Act.

**STATE OF NEW MEXICO
CITY OF AZTEC
NOTES TO FINANCIAL STATEMENTS
June 30, 2016**

**NOTE 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN
(CONTINUED)**

The City's contributions to the RHCA for the years ended June 30, 2016, 2015, and 2014, were \$83,926, \$80,100, and \$80,038, respectively, which equal the required contributions for each year.

NOTE 13. RECENT ACCOUNTING PRONOUNCEMENTS

In February 2015, the GASB issued statement No. 72, *Fair Value Measurement and Application*. This Statement provides guidance for determining the fair value and applying the fair value to certain investments and note disclosures. GASB Statement No. 72 was effective for periods ending after June 15, 2016. The adoption of GASB Statement No. 72 did not have any effect on the City's Financial Statements.

In June 2015, the GASB issued statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements No. 67 and 68*. This Statement establishes requirements for defined benefit pension plans and other pension plans not addressed under GASB Statement No. 68. This Statement also amends some requirements of GASB Statement No. 67 and GASB Statement No. 68. GASB Statement No. 73 clarifies requirements of GASB Statements No. 67 and 68 regarding the information that must be presented as notes to the required supplemental 10 year schedules, accounting and financial reporting for certain liabilities for individual employers and non-employer contributing entities, and the revenue recognition for non-employer contributing entities that are not in a special funding situation. This statement requires that all pensions under GASB Statement No. 68 that are not administered through trusts and meet the requirements of GASB Statement No. 68 not be classified as pension plan assets. The implementation of GASB No. 73 did not have an impact on the City's Financial Statements.

In June 2015, the GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. Statement No. 76, which supersedes Statement No. 55, aims to identify, in the context of the current governmental financial reporting environment, the hierarchy of U.S. GAAP, which consists of the sources of accounting principles used to prepare the financial statements of state and local governments entities in conformity with U.S. GAAP, as well as the framework for selecting those principles. The City adopted GASB Statement No. 76 during fiscal year 2016, with no significant impact to the City's financial statements.

In December 2015, the GASB issued Statement No. 79, *Certain External Investment Pools and Pool Participants*. This Statement establishes criteria that must be met for an external investment pool to be permitted to measure its investments at the amortized cost for financial reporting purposes. This Statement also requires that the pool participants of external investment pools that meet the criteria also report their investments at the amortized cost for financial reporting purposes. External Investment Pools that not meet the requirement are required to follow paragraph 16 of GASB Statement No. 31. GASB Statement No. 79 requires additional note disclosures to be made in qualifying external investment pools financial statements. The additional note disclosures are also required to be made in the pool participants financial statements. The adoption of GASB Statement No. 79 did not have a significant impact on the City's financial statements.

CITY OF AZTEC
NOTES TO FINANCIAL STATEMENTS
June 30, 2016**

NOTE 14. NEW ACCOUNTING PRONOUNCEMENTS

The following GASB pronouncements have been issued, but are not yet effective at June 30, 2016.

GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*

GASB Statement No. 77, *Tax Abatement Disclosures*

GASB Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*

GASB Statement No. 80, *Blending Requirements for Certain Units – an amendment to GASB Statement No. 14*

GASB Statement No. 81, *Irrevocable Split-Interest Agreements*

GASB Statement No. 82, *Pension Issues (an Amendment of GASB Statements No. 67, No. 68, and No. 73)*

The County will implement the new GASB pronouncements in the fiscal year no later than the required effective date. The County believes that the above listed new GASB pronouncements will not have a significant financial impact to the County or in issuing its financial statements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2016**

Changes of Benefit Terms. The PERA and COLA and retirement eligibility benefits changes in recent years are described in Note 1 (pages 48-50). This report is available at:

<http://www.nmpera.org/assets/uploads/downloads/comprehensive-annual-financial-reports/CAFR-2015.pdf>

Assumptions. The Public Employees Retirement Association (PERA) of New Mexico Annual Actuarial Valuation as of June 30, 2015 report is available at:

<http://www.nmpera.org/assets/uploads/downloads/retirement-fund-valuation-reports/6-30-2015-PERA-Valuation-Report-FINAL.pdf>

The assumptions can be found in Appendix B on page 53 of the report.

Other. The pension schedules in the required supplementary information are intended to show information for ten years. Additional information will be presented as it becomes available.

SUPPLEMENTARY INFORMATION

**STATE OF NEW MEXICO
CITY OF AZTEC
NON-MAJOR FUNDS
June 30, 2016**

Special Revenue Funds

Law Enforcement Protection Fund

This fund was established by City management to account for law enforcement protection monies received from the State to be disbursed for law enforcement related expenditures pursuant to NMSA 29-13-7.

Local Government Correction Fund

City management established this fund to account for correction fees assessed to City trustees sentenced to serve time in the County detention center and subsequently paid to the County, pursuant to NMSA 33-3-25.

Economic Development Fund

This fund was established pursuant to NMSA 1978 Sec 5-10-1, as adopted by City Ordinance 99-235, to allow public support of economic development to foster, promote, and enhance local economic development efforts while continuing to protect against the unauthorized use of public money and other public resources. The statute also allows the City to enter into joint power agreements to plan and support regional economic development projects.

Development Fees Fund This fund was established by the City management to account for impact fees collected as provided by NMSA 5-8-1 through 5-8-42 and City Ordinance 2004-310. Impact fees may be used for a variety of expenditures except maintenance or operation costs.

Lodgers Tax Fund

This fund was established pursuant to NMSA 3-38-15 to account for the City's occupancy tax imposed on lodging establishments and restricted to tourism and promotion uses.

State Fire Fund

City management established this fund to account for state grants restricted for the purchase of firefighting equipment and other approved fire department needs pursuant to NMSA 59A-53-8.

Recreation Fund

NMSA 7-12-15.B authorizes the establishment of the fund to account for the City's share of a state cigarette tax legally restricted for the operation of recreation facilities.

Airport Fund

City management established this fund to account for the activities of the City's airport operations and account for operating and capital grants.

**STATE OF NEW MEXICO
CITY OF AZTEC
NON-MAJOR FUNDS
June 30, 2016**

Capital Projects Funds

Community Development Block Grant Fund

City management established this fund to account for federal grant monies received for water, sewer, and street capital expenditures.

Capital Projects Fund

The capital projects fund accounts for the acquisition and construction of major capital facilities other than those projects financed by proprietary funds.

Source: State of New Mexico Department of Taxation & Revenue monthly distribution reports

(a) Data has been suppressed for purposes of taxpayer confidentiality. Information is suppressed when too few taxpayers are included in a category.

(b) Although the figures in the table have been derived from "NM_FR003-500 Local Gov't Distribution Summary" issued monthly by the State, the State suppresses revenue information in certain categories, if release of the information would compromise the confidentiality of an individual taxpayer. Accordingly, the "Taxable Gross Receipts Tax" totals in this table will differ from those in other tables.

(c) Effective January 2005, state legislation removed the state and local options gross receipts tax (GRT) from the sales of food and most health care services, by allowing retail food outlets and medical service providers to deduct qualifying food and health services from gross receipts reported to the NM Taxation and Revenue Department. However, municipalities and counties are "held harmless" and are reimbursed the local option GRT on these nontaxable items from the State of New Mexico. The financing of this reimbursement is provided by an increase State GRT of .5%.

OTHER DISCLOSURES

INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the City Commission
and Mr. Timothy Keller, New Mexico State Auditor
City of Aztec

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, the budgetary comparisons of the general fund and major special revenue funds, of the City of Aztec (“the City”) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements, and the combining and individual funds and related budgetary comparisons of the City, presented as supplemental information, and have issued our report thereon dated December 9, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instance on noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as item 2016-001.

The City's Responses to Findings

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

COMPLIANCE SECTION

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE**

To the City Commission
and Mr. Timothy Keller, New Mexico State Auditor
City of Aztec

Report on Compliance for Each Major Federal Program

We have audited the City of Aztec ("the City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have direct and material effect on the City's major federal program for the year ended June 30, 2016. The City's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance of the City's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each of the Major Federal Programs

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Total Federal Expenditures			<u>\$ -</u>	<u>1,759,916</u>

**STATE OF NEW MEXICO
CITY OF AZTEC
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2016**

NOTE 1 - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes federal grant activity of the City of Aztec ("City") under programs of the federal government for the year ended June 30, 2016. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the City.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principals contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The City has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 - NON-CASH ASSISTANCE

The City did not receive any federal non-cash assistance during the year ended June 30, 2016.

NOTE 4 - SUBRECIPIENTS

Of the federal expenditures presented in the Schedule, the City did not provide federal awards to sub-recipients.

NOTE 5 - RECONCILIATION TO FINANCIAL STATEMENTS

Federal Revenues and Contracts - Governmental Funds:	\$	1,759,916
Total Federal Revenues:		<u>1,759,916</u>
Expenditures per SEFA Schedule:		<u>1,759,916</u>
Difference:	\$	<u><u>-</u></u>

Year Ended June 30, 2016**

B. FINANCIAL STATEMENT FINDINGS

No financial statement findings were identified.

C. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

No federal award findings were identified.

**D. COMMENTS INCLUDED IN ACCORDANCE WITH NEW MEXICO STATE AUDITOR
RULE**

2016-001 Unallowable Use of Utility Revenue (Noncompliance and Other Matters)

CONDITION: During our testing of transfers it was noted we noted that a transfer totaling \$35,000 was made from the Joint Utility Fund to the Golf Course Fund. All transfers from municipal utility funds are required to be made to the General Fund.

CRITERIA: Section 3-23-4 NMSA 1978, *Municipal Utility Use of Revenue*, authorizes revenues derived from municipally owned and operated public utilities to be transferred to the city's general fund when all the conditions included this section have been met.

EFFECT: Transfers to the Joint Utility fund were inappropriately performed.

CAUSE: The City Commission requested a transfer from the Joint Utility Fund as a means to address the Golf Course deficit fund balance. In the prior year, the City reported a deficit net position of \$19,747 in the Golf Course enterprise fund. The City attempted to address the deficit and believed the transfer was the appropriate solution. The City was unaware that transfers from the Joint Utility Fund have to be made to the General Fund.

MANAGEMENT'S RESPONSE: In January 2017, the Finance Director will record a journal entry to establish a Due to Joint Utility Fund in the Golf Course Fund in the amount of \$35,000 and a corresponding Due from Golf Course Fund in the Joint Utility Fund.

In April 2017, the Finance Director will present a Special Budget Resolution to the City Commission to transfer \$35,000 from the General Fund to the Golf Course Fund which will provide sufficient funds for the Golf Course Fund to repay the Joint Utility Fund.
