INDEPENDENT AUDITORS' REPORT

Mayor and Village Council
State of New Mexico Village of Bosque Farms
Bosque Farms, New Mexico
and
Mr. Wayne A. Johnson, New Mexico State Auditor

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of the Village of Bosque Farms, New Mexico (Village), as of and for the year ended June 30, 2018, and the related notes to the financial statements which collectively comprise the Village's basic financial statements as listed in the table of contents. We have also audited the financial statements of the Village's fiduciary funds as of and for the year ended June 30, 2018, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and budgetary comparisons for the general fund and major special revenue funds of the Village, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements offered to above present fairly, in all material respects, the respective position of the fiduciary funds of the Village as of June 30, 2018, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 11 to the financial statements, in 2018, the Village adopted new accounting guidance, GASB No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the Schedule of Proportionate Share of the Net Pension Liability, the Schedule of Contributions, and the Notes to the Required Supplementary Information on pages 45-47 and the Schedule of Employer's Proportionate Share of the Net Other Postemployment Benefits (OPEB) Liability on page 48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The introductory section, combining and individual non-major fund financial statements, the budgetary comparisons, and the other schedules required by 2.2.2 NMAC are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, and the schedules required by 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, and the other schedules required by 2.2.2 NMAC are fairly stated in all material respects in relation to the basic financial statements as a whole.

The other supplemental information, as listed in the table of contents, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2018, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Village's internal control over financial reporting and compliance.

Notes to Financial Statements
June 30, 2018

1. Summary of Significant Accounting Policies

Nature of Entity. The State of New Mexico Village of Bosque Farms (Village) was incorporated in 1974 under the laws of the State of New Mexico. The Village operates under a Mayor-Council form of government and provides the following services as authorized by its charter: public safety (police and fire), streets, sanitation, health and social services, culture and recreation, education, public improvements, and general administrative services. The financial statements of the Village have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental entities.

A. Financial Reporting Entity

As required by GAAP, financial statements are presented for the Village and its component units. A legally separate organization that does not qualify as a primary government is a potential component unit. The normal criterion for deciding whether a potential component unit is, in fact, a component unit is financial accountability. Financial accountability is determined by analyzing fiscal dependency, board appointments, financial benefit or burden relationships, or the ability of the primary government to impose its will on the potential component unit. Based on these criteria, the Village has no component units.

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Village. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and enterprise funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

VILLAGE OF BOSQUE FARMS

1. Summary of Significant Accounting Policies (continued)

A. Financial Reporting Entity (continued)

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, those transactions between governmental and business-type activities have not been eliminated.

Enterprise funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with proprietary fund's principle ongoing operations.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are recorded.

Governmental financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is made.

The Village follows the following revenue recognition principles applied to nonexchange transactions which are in accordance with GASB *Statement 33, Accounting and Reporting for Nonexchange Transactions*:

Derived tax revenues are recognized as revenue in the period when the underlying exchange transaction has occurred and the resources are available. Derived tax revenues include gross receipts tax, gasoline taxes, and cigarette taxes.

Imposed nonexchange revenues – property taxes are levied and collected by the Valencia County treasurer on behalf of the Village. The taxes are levied in November and payable in two installments, November 10th and May 10th. The County remits to the Village a percentage of the collections made during the month. Taxes are considered delinquent and subject to lien, penalty, and interest 30 days after the date on which they are due.

VILLAGE OF BOSQUE FARMS

1. Summary of Significant Accounting Policies (continued)

A. Financial Reporting Entity (continued)

Imposed nonexchange revenue other than property taxes are recognized in the period when an enforceable legal claim has arisen and the resources are available.

Government-mandated nonexchange transactions and voluntary nonexchange transactions are recognized when all applicable eligibility requirements have been met and the resources are available. These include grant revenues, state shared taxes and intergovernmental revenue. Grant revenues are recognized as revenues when the related costs are incurred.

Other revenues susceptible to accrual are investment income and charges for services. All other revenues are recognized when they are received and are not susceptible to accrual because they are usually not measurable until payment is actually received.

The Village reports unavailable revenue on its combined balance sheet. Unavailable revenues arise when a potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Unavailable revenues also arise when resources are received by the Village before it has legal claim to the resources, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

The Village reports the following major governmental funds:

General Fund. The general fund is the Village’s primary operating fund. It accounts for all the financial resources of the general government, except those required to be accounted for in another fund.

Streets. To account for funds used to maintain roads for which the Village is responsible. Funding is provided by the gas tax. Expenditures are restricted to the construction and maintenance of Village roads.

Fire Protection. To account for the operations and maintenance of the fire department. The operations are financed by an allotment from the annual fire grant from the State of New Mexico. Authority is NMSA 59-A-53-1.

Proprietary funds are accounted for on the flow of economic resources measurement focus (all assets and all liabilities associated with the operation of these funds are included on the balance sheet) and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The Village applies all applicable GASB pronouncements in accounting and reporting for its proprietary operations.

STATE OF NEW MEXICO
VILLAGE OF BOSQUE FARMS
Notes to Financial Statements

1. Summary of Significant Accounting Policies (continued)

A. Financial Reporting Entity (continued)

Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

Operating revenues, such as charges for services, in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues, such as subsidies/grants and investment earnings, are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

The Village reports the following major proprietary funds:

Waste Water. To account for the provision of waste water services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance billing, and collection.

Water. To account for the provisions of water services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund. Financing is provided through charges to customers for service.

B. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits, money market funds, and certificates of deposit. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

All investments are stated at fair value that is determined by using selected bases. Interest income, realized gains and losses on investment transactions, and amortization of premiums/discounts on investment purchases are included for financial statement purposes as investment income and are allocated to participating funds based on the specific identification of the source of funds for a given investment.

The Village does not have an investment policy. Village funds are invested in accordance with New Mexico State Statute 6-10-36, which provides for the following investments:

1. United States Treasury Securities (Bills, Notes and Bonds) and other securities issued by the United States government or its agencies or instrumentalities that are either direct obligations of the United States of America, the Federal Home Loan Mortgage Corp., the Federal National Mortgage Association, the Federal Farm Credit Bank, or the Student Loan Marketing Association, or are backed by the full faith and credit of the United States government.

B. Cash and Cash Equivalents (continued)

2. Insured and/or collateralized (with U.S. Government Securities and/or New Mexico Bonds) certificates of deposit of banks, savings and loan associations.
3. Credit unions, pursuant to State Board of Finance Collateral Policies.
4. Money market funds whose portfolios consist entirely of United States Government Securities or agencies sponsored by the United States government.
5. Investments in the New Mexico State Treasurer external investment pool (Local Government investment Pool).

Reserve Requirements

The New Mexico Department of Finance and Administration (DFA) requires New Mexico municipalities to maintain a cash balance in the General Fund of at least 1/12th (8.33%) of the General Fund's budgeted expenditures in order to maintain adequate cash flow until the next significant property tax collection. The Village met and exceeded the State's cash reserve requirements. The General Fund's cash reserve at June 30, 2018 was \$1,128,216 or 39.2% of the General Fund's final budget, exceeding the 1/12th reserve requirement.

C. Capital Assets

Capital assets, which include software, library books, property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Governmental Accounting Standards Board (GASB) 34 *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* allows phase III governments an exemption from the retroactive application of the capitalization requirements to major general infrastructure assets. The Village has elected to not retroactively record infrastructure assets.

Assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

1. Summary of Significant Accounting Policies (continued)

C. Capital Assets (continued)

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Improvements other than buildings	10 - 50 years
Buildings and structures	30 years
Machinery and equipment	5 - 50 years
Furniture and fixtures	5 - 30 years
Infrastructure	5 - 50 years

Capital Assets in proprietary funds are depreciated using the straight-line method over the estimated useful lives of the assets as follows:

Buildings and other improvements	25 - 33 years
Water and sewer system	20 - 50 years
Machinery and equipment	5 - 10 years

The Audit Act, 12-6-10, NMSA 1978, requires all assets which cost more than \$5,000 and have a life greater than one year to be added to the General Fixed Asset Account Group and a yearly inventory of those assets must be taken.

D. Intangible Assets

Under Statement of ASC 350, *Intangibles - Goodwill and Other*, intangible assets with indefinite lives are no longer amortized. Indefinite lived intangible assets, such as water rights, are tested for impairment on an annual basis. There were no intangible assets at year-end.

E. Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The Village has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

F. Pensions – Deferred Inflows and Deferred Outflows of Resources

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Mexico Public Employees Retirement Association (PERA) and additions to/deductions from PERA’s fiduciary net position have been determined on the same basis as they are reported by PERA, which is the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized in accordance with the benefit terms. Investments are reported at fair value.

G. Postemployment Benefits Other Than Pensions (OPEB) – Deferred Inflows and Deferred Outflows of Resources

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA’s fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

H. Accrued Employee Benefits

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the general long-term debt account group. No expenditure is reported for these amounts. Vested or accumulated vacation leave for proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees.

I. Fund Balances

The Village follows GASB Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions.” This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance—amounts that are in nonspendable form (such as inventory) or are required to be maintained intact.

1. Summary of Significant Accounting Policies (continued)

I. Fund Balances (continued)

- Restricted fund balance—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance—amounts constrained to specific purposes by the Village itself, using its highest level of decision-making authority (i.e., Village Council). To be reported as committed, amounts cannot be used for any other purpose unless the Village takes the same highest level action to remove or change the constraint.
- Assigned fund balance—amounts the Village intends to use for a specific purpose. Intent can be expressed by the Village Council or by an official or body to which the Village Council delegates the authority.
- Unassigned fund balance—amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The Village Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Village Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

When an expenditure is incurred for purposes for which both restricted and nonrestricted fund balance is available, the Village considers restricted funds to have been spent first.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Village considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Village Council have provided otherwise in its commitment or assignment actions.

Major Funds

General Fund: The Village's general fund had committed balances at June 30, 2018 in the amount of \$241,207, for subsequent years expenditures. See footnote O.

Streets Fund: The Village's streets fund had an Assigned Fund Balance designated for the maintenance of Village roads at June 30, 2018 in the amount of \$71,931.

Fire Protection Fund: Annual fire allotment of \$12,037 restricted by state statute for the operations and maintenance of the fire department.

Other Funds

The following non-major funds have a Restricted Fund Balance designated for specific purposes:

Capital Projects Fund: Grant money of \$0 restricted by the grant document.

Corrections Fund: Motor vehicle violation fee revenue of \$10,185 restricted by state statute for the costs of corrections.

Environmental Gross Receipts Tax Fund: Gross receipts tax revenue of \$42,899 restricted by Joint Powers Agreement for the acquisition, construction, operation, and maintenance of wastewater and water facilities, sewer systems and related facilities.

Emergency Medical Services Fund: Grant money of \$32 restricted by the grant document.

Assigned funds consist of \$10,436 in the Recreation Fund designated for Village recreational facilities and programs, \$68,104 in the EMS Tax Fund designated for emergency equipment and supplies, and \$12,498 in the Traffic Safety Fund designated for the purchase and maintenance of traffic safety equipment.

J. Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net investment in capital assets excludes unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Village or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

K. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

L. Cash Flows

For purposes of the Statement of Cash Flows, the various enterprise funds considers checking accounts, money market accounts, certificates of deposit, and highly liquid assets with a maturity of three months or less when purchased to be cash equivalents.

M. Budgetary Information

Actual amounts on the budgetary basis are prepared on the cash basis of accounting which recognizes revenues when received and expenditures when paid. Annual budgets are adopted for the general, special revenue, capital projects, and enterprise funds. The Village follows the following procedures for establishing the budgetary data reflected in the financial statements:

1. Prior to June 1, the Village Administrator submits to the Village Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them based on previous year's history. Public hearings are conducted at the Village Hall to obtain taxpayer comments. Prior to July 1, the budget is legally enacted through passage of an ordinance.
2. The Village Administrator is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any funds must be approved by the Village Council and New Mexico State Department of Finance, Division of Local Governments.
3. Formal budgetary integration is employed as a management control device during the year for the general fund, special revenue funds, capital projects fund and enterprise funds.
4. The level of classification detail in which expenditures of expenses may not legally exceed appropriations for each budget is in fund total. Appropriations lapse at year-end.
5. The Village does not budget for depreciation.

N. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

1. Summary of Significant Accounting Policies (continued)

O. Fund Balance for Subsequent Years Expenditures

According to New Mexico State Statute and the New Mexico Department of Finance and Administration (DFA), the Village of Bosque Farms is required to reserve 1/12th of the General Fund's budgeted expenditures (\$241,207) for subsequent year expenditures to maintain an adequate cash flow. The Village has incorporated this reserve requirement within its financial policies approved by the Village Council. These balances are reported as assigned to subsequent years expenditures in the General Fund. The Village is in compliance with these DFA requirements.

2. Cash and Cash Equivalents

The Village's cash balances consist of demand deposits, CDs, and a money market account. The majority of the Village's cash and investments in the governmental funds are pooled. All interest income is accounted for in the related funds. The Village does not have a deposit policy. The Village's cash and cash equivalents are listed in the accompanying Schedule of Depositories.

The following is a summary of the Village's cash and cash equivalents balances by fund type as of June 30, 2018:

Type	Amount
Cash and cash equivalents	
Governmental funds	\$ 1,355,370
Business-Type activities	1,655,641
Fiduciary funds	<u>10,719</u>
Total cash and cash equivalents	<u>\$ 3,021,730</u>

Custodial Credit Risk. Custodial credit risk is, in the event of the failure of a depository financial institution, the Village will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Village does not have a deposit policy for custodial credit risk. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and are (1) uncollateralized, (2) collateralized with securities held by the pledging financial institution, or (3) collateralized with securities held by the pledging financial institution's trust department or agent but not in the Village's name. As of June 30, 2018, the Village's bank balance total of \$3,071,394 was exposed to credit risk as follows:

Insured through federal depository insurance	\$ 500,000
Uninsured, collateralized with securities held by pledging financial institution's trust department or agent in the Village's name	2,704,912
Uninsured and uncollateralized	<u>(133,518)</u>
Total deposits	<u>\$ 3,071,394</u>

2. Cash and Cash Equivalents (continued)

In accordance with Section 6-10-17, NMSA, 1978 Compilation, the Village is required to collateralize an amount equal to one-half of the public money in excess of federally insured balances at each financial institution.

The total balance in any single financial institution may at times exceed the FDIC coverage available to deposits. The Village is required to obtain from each bank that is a depository for public funds pledged collateral in an aggregate amount equal to one half of the public money in each account.

3. Receivable – Proprietary Funds

Accounts receivable represents billings for water and waste water fees. It is management’s policy to cut off water and waste water services for non-payment. A lien is placed on the properties which have outstanding water bills.

	Waste Water Fund	Water Fund	Total Receivables
Accounts receivable	\$ 72,114	68,199	140,313
Less: Allowance for uncollectible	(13,040)	(14,056)	(27,096)
Net receivables	\$ 59,074	54,143	113,217

The Village maintains an allowance for uncollectible receivable balance in the Waste Water Fund and the Water Fund that consist of balances that are not expected to be collected within one year and which are deemed uncollectible, and have a lien placed on the account. These balances became legally uncollectible when "any debt that is not enforceable in a judicial proceeding because the applicable statute of limitations has run out" NMAC 12.2.12.7(I). The Village may remove legally uncollectible debt that is four years old, and that is contractually six years old as permitted by NMSA 1978 3-37-7.

Notes Payable. During the year ended June 30, 2015, the Village entered into a construction loan and subsidy agreement in the amount of \$748,000. The subsidy is 25% of the loan and will be forgiven as loan funds are spent up to a maximum of \$188,870. The remaining amount is a loan in the amount of \$566,610. The proceeds were used for water infrastructure improvements.

The loan is to be paid in twenty yearly principal and interest payments of \$34,652 beginning in 2016. Interest accrues on the outstanding principal at 2.0%.

On May 1, 2016, the loan was converted to term loan in the amount of \$344,948. The term loan is to be paid in twenty yearly principal payments and semi-monthly interest payments of \$22,002 beginning May 1, 2017. Interest accrues on the outstanding principal at 2% and are payable solely from pledged net revenues of the water system. The revenues pledged totaled \$374,025 and equal 3.73% of future estimated net revenues at their current rate. During the year ended June 30, 2018, the Village collected \$590,313 in pledged revenues, and retired \$22,001 in principal and interest in the aforementioned note.

10. Public Employees Retirement Act Pension Plan

Plan description. The Public Employees Retirement Fund (PERA Fund) is a cost sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officer, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the PERA Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), and the provisions of Sections 29-4-1 through 29-4-11, NMSA 1978 governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the PERA Fund.

PERA issues a publicly available financial report and a comprehensive annual financial report that can be obtained at www.nmpera.org or <http://www.saonm.org/> using the Audit Report Search function for agency 366 or writing: PERA, P.O. Box 2123, Santa Fe, NM 87504-2123.

Contributions. The contribution requirements of defined benefit plan members and the Village are established in state statute under Chapter 10, Article 11, NMSA 1978. The contribution requirements may be amended by acts of the legislature. For the employer and employee contribution rates in effect for FY17 for the various PERA coverage options, for both Tier I and Tier II, see the tables available in the note disclosures on pages 40 through 43 of the PERA FY17 annual audit report at:

http://www.saonm.org/media/audits/366_Public_Employees_Retirement_Association_FY2017.pdf

The PERA coverage option that applies to Village is the Municipal General Division and the Municipal Police Division. Statutorily required contributions to the pension plan from the Village were \$55,463 for the year ended June 30, 2018 for the Municipal Division and \$107,683 for the Police Division year ended June 30, 2018.

At June 30, 2018, the Village reported a liability of \$2,379,997 for its proportionate share of the net pension liability. The Village's proportion of the net pension liability was based on a projection of the Village's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined.

10. Public Employees Retirement Act Pension Plan (continued)

The assets of the PERA fund are held in one trust, but there are six distinct membership groups (municipal general members, municipal police members, municipal fire members, state general members, state police members and legislative members) for whom separate contribution rates are determined each year pursuant to chapter 10, Article 11 NMSA 1978. Therefore, the calculations of the net pension liability, pension expense and deferred inflows and outflows were performed separately for each of the membership groups: municipal general members; municipal police members; municipal fire members; state general members; state police members and legislative members. The Village's proportion of the net pension liability for each membership group that the employer participates in is based on the employer contributing entity's percentage of that membership group's total employer contributions for the fiscal year ended June 30, 2017. Only employer contributions for the pay period end dates that fell within the period of July 1, 2016 to June 30, 2017, were included in the total contributions for a specific employer. Regular and any adjustment contributions that applied to FY 2017 are included in the total contribution amounts. In the event that an employer is behind in reporting to PERA its required contributions, an estimate (receivable) was used to project the unremitted employer contributions. This allowed for fair and consistent measurement of the contributions with the total population. This methodology was used to maintain consistent measurement each year in determining the percentages to be allocated among all the participating employers.

PERA Municipal General Division

For the PERA Municipal General Division, at June 30, 2018, the Village reported a liability of \$879,414 for its proportionate share of the net pension liability. At June 30, 2018, the Village's proportion was 0.0640%, which changed from its proportion of 0.072% measured as of June 30, 2017.

For the year ended June 30, 2018, the Village recognized PERA Municipal General Division pension expense of \$41,409. At June 30, 2018, the Village reported PERA Municipal General Division deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

10. Public Employees Retirement Act Pension Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. The PERA pension liability, net pension liability amounts, and sensitivity information were based on an actuarial valuation performed as of June 30, 2016. The total pension liability for each division were rolled forward from the valuation date to the Plan year ending June 30, 2017, using generally accepted actuarial principles. Therefore, the employer’s portion was established as of the measurement dated June 30, 2017.

The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real times of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Rate of Return
Global Equity	43.50%	7.39%
Risk Reduction & Mitigation	21.50	1.79
Credit Oriented Fixed Income	15.00	5.77
Real Assets	<u>20.00</u>	7.35
Total	100.00%	

Discount Rate. The single discount rate is 7.51% and was used to measure the total pension liability. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefit payments of current plan members. Therefore, long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following tables present the Village’s net pension liability in the PERA fund divisions the Village participates in using a discount rate of 7.51% as well, as if calculated using the discount rate of 7.51% as well as what the Village’s proportionate liability would be if it were calculated using a discount rate one percentage point lower (6.51%) or one percentage point higher (8.51%) than the single discount rate.

11. Other Post-Employment Benefit Plan (OPEB)

Plan Description. Employees of the Village are provided with OPEB through the Retiree Health Care Fund (Fund); a cost-sharing multiple-employer defined benefit OPEB plan administered by the New Mexico Retiree Health Care Authority (NMRHCA). NMRHCA was formed February 13, 1990, under the New Mexico Retiree Health Care Act (Act) of New Mexico Statutes Annotated, as amended (NMSA 1978), to administer the Fund under Section 10-7C-1-19 NMSA 1978. The Fund was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents and surviving spouses) who have retired or will retire from public service in New Mexico.

NMRHCA is an independent agency of the State of New Mexico. The funds administered by NMRHCA are considered part of the State of New Mexico financial reporting entity and are OPEB trust funds of the State of New Mexico. NMRHCA’s financial information is included with the financial presentation of the State of New Mexico.

Benefits provided. The Fund is a multiple employer cost sharing defined benefit healthcare plan that provides eligible retirees (including terminated employees who have accumulated benefits but are not yet receiving them), their spouses, dependents and surviving spouses an dependents with health insurance and prescription drug benefits consisting of a plan, or optional plans of benefits, that can be contributions to the Fund and by co-payments or out-of-pocket payments of eligible retirees.

Employees covered by benefit terms. At June 30, 2017, the Fund’s measurement date, the following employees were covered by the benefit terms:

Contributions. Employer and employee contributions to the Fund total 3% for non-enhanced retirement plans and 3.75% of enhanced retirement plans of each participating employee’s salary as required by Section 10-7C-15 NMSA 1978. The contributions are established by statute and are not based on an actuarial calculation. All employer and employee contributions are non-refundable under any circumstance, including termination of the employer’s participation in the Fund. Contributions to the Fund from the Village were \$25,764 for the year ended June 30, 2018.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. At June 30, 2018, the Village reported a liability of \$1,320,983 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Village’s proportion of the net OPEB liability was based on actual contributions provided to the Fund for the year ending June 30, 2017. At June 30, 2017, the Village’s proportion was 0.02915%.

For the year ended June 30, 2018, the Village recognized OPEB expense of \$52,518. At June 30, 2018 the Village reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Asset valuation method	Market value of assets
Actuarial assumptions:

Rate of return. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions.

The best estimates for the long-term expected rate of return is summarized as follows:

Asset Class	Long-term Expected Rate of Return
U.S. core fixed income	4.10%
U.S. equity - large cap	9.10%
Non U.S. - emerging markets	12.20%
Non U.S. - developed equities	9.80%
Private equity	13.80%
Credit and structured finance	7.30%
Real estate	6.90%
Absolute return	6.10%
U.S. equity - small/mid cap	9.10%

Discount rate. The discount rate used to measure the Fund’s total OPEB liability is 3.81% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund’s fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2028. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2029. Beyond 2029, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. Thus, 3.81% is the blended discount rate.

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates. The following presents the net OPEB liability of the Village, as well as what the Village’s net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.81%) or 1 percentage point higher (4.81%) than the current discount rate:

12. Risk Management

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions and natural disasters for which the government carries commercial insurance. The Village participates in the State of New Mexico Self-Insurers Fund for workers’ compensation claims and employers’ liability insurance including general, auto, uninsured motorist, law enforcement, and public official’s errors and omissions liabilities.

The policy limits for workers’ compensation is unlimited and \$1,050,000 per occurrence for employer’s liability. There is no deductible. Liability policy limits range from \$100,000 to \$750,000 per occurrence, with a \$4,000,000 annual aggregate per policy. Deductibles range from \$500 to \$5,000.

In addition, the Village has obtained insurance through a commercial carrier operating as a common risk management and insurance program for buildings, personal property, employee dishonesty, theft, burglar, fraud, terrorism, fine arts, and equipment breakdown. Limits range from \$10,000 to \$6,881,617, and deductibles range from \$2,500 to \$10,000.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. The liability for claims and judgments is reported in the General Long-Term Debt Account Group because it is not expected to be liquidated with expendable available financial resources.

Generally accepted accounting principles require disclosures of certain information concerning individual funds including:

A. Deficient Fund Balance

No funds had deficit fund balances.

B. Expenditures Exceeded Appropriations

No expenditures exceeded appropriations by fund.

14. Subsequent Events

The Village has evaluated subsequent events through December 17, 2018, the date the financial statements were available to be issued. The Village had no material subsequent events from June 30, 2018 to December 17, 2018.

15. Adjustments to Net Position

Restatement

The Streets Fund was reported as a non-major fund in the prior year, but has been reported as a major fund in the current year. The beginning fund balance for the major fund has been increased by \$140,793 and, non-major funds have decreased by the same amount.

The Fire Protection Fund was reported as a non-major fund in the prior year, but has been reported as a major fund in the current year. The beginning fund balance for the major fund has been increased by \$251,986, and non-major funds have decreased by the same amount.

Prior period adjustment to net position

OPEB costs of \$1,569,117 from the prior year were expenses and recorded as a prior period adjustment as required by Governmental Accounting Standards Board (GASB) Statement No. 75.

employers who provide OPEB plans to their employees and basically parallels GASB Statement 68 and replaces GASB Statement 45. The scope of this Statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. GASB 75 is effective for fiscal years beginning after June 15, 2018 (FY19). See footnote 11 for the impact of GASB 75 to the financial statements.

GASB 84

GASB Statement No. 84, *Fiduciary Activities*, has been issued and is effective for fiscal years ending on or after December 31, 2019, but is not yet effective at June 30, 2018.

GASB 85

GASB Statement No. 85 Omnibus 2018 address practice issues identified during implementation and application of certain GASB statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurements and application, and post-employment benefits (OPEB). GASB 85 is effective for fiscal years beginning after June 15, 2018 (FY19).

GASB 87

GASB Statement No. 8, *Leases*, has been issued and is effective for reporting periods beginning after December 15, 2019, but is not yet effective at June 30, 2018.

The Village will implement the new GASB pronouncements in the fiscal year no later than the required effective date. The Village believes that the above-listed new GASB pronouncements will not have a significant financial impact to the Village or in issuing its financial statements.

17. GASB 77 Disclosures (Tax Abatements)

In accordance with 2.2.2.10(BB) NMAC, the Village is required to make certain disclosures surrounding GASB 77, as applicable. Management of the Village is not aware of any tax abatement agreements that existed and require disclosure as of June 30, 2018.

COMPLIANCE SECTION

INDEPENDENT AUDITORS' REPORT ON INTERNAL
CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Mayor and Village Council
Village of Bosque Farms
Bosque Farms, New Mexico
and
Mr. Wayne A. Johnson, New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons of the general fund and major special revenue funds of the Village of Bosque Farms, State of New Mexico (Village), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements and the combining and individual funds of the Village, presented as supplemental information, and have issued our report thereon dated December 17, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Village's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
