Hector H. Balderas, State Auditor
and
Mayor and City Councilors
City of Carlsbad
Carlsbad, New Mexico

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison for the general fund of the city of Carlsbad, New Mexico as of and for the year ended June 30, 2012, which collectively comprise the city's basic financial statements as listed in the table of contents. We have also audited the financial statements of each of the city's nonmajor governmental, nonmajor enterprise, internal service funds, and the budgetary comparisons for the major capital project fund, major enterprise funds, all nonmajor funds and internal service funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2012, as listed in the table of contents. These financial statements are the responsibility of the city of Carlsbad's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the city of Carlsbad as of June 30, 2012, and the respective changes in financial position and, cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of each nonmajor governmental, nonmajor enterprise and internal service funds of the city of Carlsbad, as of June 30, 2012, and changes in financial position and, cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America. Additionally, in our opinion, the general fund, GRT capital outlay fund, major enterprise funds, all nonmajor funds, and internal service funds referred to previously present fairly, in all material respects, the budgetary comparison for each fund of the city of Carlsbad for the year ended June 30, 2012, in conformity with the budgetary basis of accounting more fully described in Note 1D, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 5, 2013, on our consideration of the city of Carlsbad's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control or on financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The city of Carlsbad has omitted the management's discussion that is required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Our audit was conducted for the purpose of forming opinions on the basic financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. The additional schedules listed as *other supplemental financial information* in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2012

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances total governmental funds (page eight)	\$ 8,214,175
Net change in net assets of internal service funds (page twelve)	1,920,577
Governmental funds report capital outlay as expenditures in the amount of \$7,186,331; however, in the statement of activities, the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense in the amount of \$3,394,269; therefore, the net adjustment is \$3,792,062.	3,792,062
Within the statement of activities, the basis of capital assets disposed of are netted with the gross proceeds to produce a gain or loss. The disposal of capital assets does not use current financial resources and, therefore, are not reported as expenditures in the governmental funds.	(13,024)
Some of the city's property taxes, along with other revenues, will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore, are reported as deferred revenue in the funds.	27,158
Accrued interest expense not due within thirty days after year-end is not considered in the current period and is not reported in the governmental funds. The decrease of the accrued interest liability from the previous year decreases the interest expense within the statement of activities.	3,716
The repayment of principal of long-term debt consumes the current financial resources of the governmental funds; however, is not recorded as an expense within the statement of activities.	1,036,708
During the current year, the city recorded amortization expense concerning the bond issuance costs. The expense is reflected within the statement of activities and the expense does not use a current financial resource, and is not recorded within the governmental funds.	(10,194)
Increase in the compensated absences liability is reflected as an expense within the statement of activities and the expense does not require the use of current financial resources and are not recorded within the governmental fund statements.	<u>(148,757)</u>
Net change in net assets - government-wide financial statements (page five)	<u>\$ 14,822,421</u>

NOTES TO THE FINANCIAL STATEMENTS

STATE OF NEW MEXICO
CITY OF CARLSBAD
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the city of Carlsbad (city) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the city has the option to apply GASB pronouncements issued after that date to its business-type activities and proprietary funds, the city has not chosen to do so.

A. Reporting Entity

The city of Carlsbad, established on March 25, 1918, is a political subdivision of the state of New Mexico, operates under the mayor-council form of government. The city provides the following authorized services: public safety (police and fire), public works, water, sanitation, health and welfare, social services, culture and recreation, public improvements, planning and zoning, and general administrative services. The city's basic financial statements include all activities and accounts of the city's *financial reporting entity*.

The financial reporting entity consists of the primary government, and any other organization for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body, and either it is able to impose its will on that organization, or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens, on the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, activities, or level of services performed or provided by the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or (c) is obligated in some manner for the debt of the organization. Based on this criterion, there are no component units of the city.

B. Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the city as a whole) and fund financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Government-Wide and Fund Financial Statements (continued)

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the government. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from the business-type activities, which rely on a significant extent on fees and charges for support. The Statement of Net Assets and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange-like transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Non-Exchange Transactions*.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a function category (general government, public safety, etc.) or activity are offset by program revenues. Direct expenses are those that are clearly identifiable with specific function or activity. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity, 2) grants and contributions that are restricted to meeting the operational requirements of a particular function or activity, and 3) grants and contributions that are restricted to meeting the capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The net cost (by function of governmental-type activity) is normally covered by general revenues (property, sales, franchise, public service taxes, interest income, etc.) The city does not allocate indirect costs. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term is considered an indirect expense and is reported separately on the Statement of Activities.

Separate fund based financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. GASB Statement No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category for the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements. The nonmajor funds are detailed in the combining section of the statements. For the current fiscal year, the city does not have any fiduciary funds.

The government-wide focus is more on the sustainability of the city as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on the major individual funds of the governmental and business-type categories. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

C. Measurement Focus, Basis of Accounting, and Financial Statement Preparation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the city gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year to which the taxes are levied. Revenue from grants, entitlements, and donations is recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund level financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balance of financial resources) rather than upon net income. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period. For this purpose, the city considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Generally, intergovernmental revenues and grants are recognized when all eligibility requirements are met and the revenues are available. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as, expenditures related to compensated absences and claims and judgments, are recorded only when payment is made.

Property, franchise, sales, and public service tax revenues associated with the current fiscal period are recognized under the susceptible to accrual concept. Licenses and permits, charges for services, fine and forfeitures, contributions, and miscellaneous revenues are recorded as revenues when received in cash, as the resulting receivable is immaterial. Investment earnings are recorded as earned since they are measurable and available. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance.

There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the city; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

Business-type activities, and all proprietary funds, are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund-type operating statements present increases and decreases (e.g., revenues and expenses) in net total assets.

Measurement Focus, Basis of Accounting,
C. and Financial Statement Preparation (continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the city's enterprise funds are charges to customers for sales and services. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The city reports the following proprietary fund types:

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity is financed with debt that is solely secured by a pledge of the net revenues. The activities reported in these funds are reported as business-type activities in the government-wide financial statements.

Internal service funds are used to account for the financing of goods or services provided by an activity to other departments of the city on a cost-reimbursement basis. Because the principal users of the internal services are the city's governmental activities, the financial statement of the internal service fund is consolidated into the governmental column when presented in the government-wide financial statements.

The city reports the following major governmental funds:

The *general fund* is the city's primary operating fund. It accounts for all the financial resources of the general government, except those required to be accounted for in another fund. Revenues are provided through property, sales and other taxes, federal sources, state sources, charges for services, licenses and fees, and other miscellaneous recoveries and revenues. Expenditures include all costs associated with the daily operation of the city, except for items included in other funds.

The *GRT capital outlay fund* accounts for receipts and disbursements from the 2009 bond proceeds for capital outlay projects, as required by the bond covenant. The fund is authorized by city council.

The city maintains twenty-two other individual governmental funds that are considered nonmajor funds; thirteen are classified as special revenue funds; five are classified as capital project funds; and four are classified as debt service funds. A description of each nonmajor governmental fund is as follows:

Special Revenue Funds

The *e-911 fund* accounts for funds distributed to telephone companies receiving funds for the 911 system on behalf of the city. The fund is authorized by Enhanced 911 Section 63-9D-8, NMSA 1978.

Special Revenue Funds (continued)

The *fire protection fund* accounts for proceeds of the state fire allotment, and the expenditures for public safety there from. New Mexico state law requires these funds be used to help maintain the fire department. The fund was established by local ordinance and in accordance with Section 59A-53-1, of the New Mexico State Insurance Code. Section 59A-53-8 of the code restricts the use of the funds for only the maintenance of the city's fire department.

The *recreation fund* accounts for receipts, which is restricted use in recreational areas only. Originally, the funding source of revenues was from one-third of the cigarette tax. Currently, the majority of revenues are from changes for services from concession sales and rentals. The fund was established by local ordinance. The cigarette tax was imposed and collected as authorized by Section 7-12-1 through 7-12-17, NMSA 1978.

The *lodgers' tax fund* accounts for funds received from a special local lodgers' tax that is to be used for promotion of the city. The fund was established by local ordinance authorized by Section 3-38-13 through 3-38-24, NMSA 1978. Section 3-38-15(E), NMSA 1978, restricts the use of the tax for advertising, publicizing and promoting, establishing and operating tourist-related attractions, facilities and events.

The *airport fund* accounts for the operating and maintenance of the airport. Financing is provided by federal, state, and county grants. The fund is authorized by city council and is required by federal grants for segregating interest earned and for auditing purposes.

The *emergency medical services fund* accounts for the state emergency medical services grant, to be used for specific medical services provided through fire department activities. This state grant comes through the New Mexico Department of Health per EMS regulation DOH 94-11. The fund was created by local ordinance. Section 24-10A-1 to 24-10A-10, NMSA 1978 provides funds to municipalities for use in the establishment and enhancement of local emergency medical services. Section 24-10A-7, NMSA 1978 restricts expenditures from the fund for only emergency medical services.

The *local government corrections fund* accounts for the fees collected by the municipal judge, which are legally restricted to expenditure for jail related costs. The fund was established by local ordinance in order to comply with Section 35-14-11, NMSA 1978.

The *special police program fund* accounts for grant proceeds for special police related programs (teen court, juvenile community service programs, and special DWI grants). The fund is authorized by city council.

The *law enforcement protection fund* accounts for the state grant to be used for the repair and/or replacement of law enforcement equipment, according to state law, Section 29-13.1 through 29-13.9, NMSA 1978. The fund was established by local ordinance to comply with state statutes. Section 29-13-17A, NMSA 1978 limits distributions from the fund for law enforcement related expenditures, including, but not limited to, the purchase of equipment, expenses associated with advanced law enforcement planning and training.

The *RSVP fund* accounts, maintains, and reports to the state of New Mexico hours performed by retired volunteers in the area. It is financed by grants from the federal government and the state of New Mexico. The fund is authorized by city council.

The *sports complex fund* accounts for the operation of the city's sports complex. Financing is provided from infrastructure gross receipts tax revenues. The fund is authorized by city council.

The *community development fund* accounts for funds received for community development and improvements funded under the New Mexico Community Development Block Grants pursuant to the U.S. Department of Housing and Urban Development Title I grant. The fund is authorized by city council.

The *WIPP acceleration impact special revenue fund* accounts for funds from the U.S. Department of Energy used exclusively for infrastructure improvements, educational support, and economic development in the city, due to the accelerations of the WIPP Project. The fund is authorized by PL 95-91.

Capital Project Funds

The *park improvement fund* accounts for the receipts and disbursements to build and improve parks within the city. Financing is provided from state grants. The fund is authorized by city council.

The *street systems improvement fund* accounts for receipts and disbursements for city street improvements. Financing is provided from motor vehicle fees and state and county grants. The fund is authorized by city ordinance 389.

The *state legislative fund* was established to record revenues and expenditures for state grant funds received for projects approved by the state legislature. The fund is authorized by city council.

The *CIEP fund* accounts for the financing and acquisition of capital improvements and equipment purchases for the city. Financing is provided from the general fund. The fund is authorized by city council.

The fund is authorized by city council and required by federal grantors for segregating interest earned and for auditing purposes.

The *performing arts center fund* accounts for the operations of promotional activities of the city. Financing is provided primarily by transfers from the Lodgers' Tax Fund. The fund is authorized by Section 3-38-13 through 3-38-24, NMSA 1978.

The *cemetery fund* accounts for the operation and maintenance of the city cemetery. Financing is provided through lot sales and fees for services. The funding is authorized by Section 3-40-1 through 3-40-9, NMSA 1978.

The city maintains four individual internal service funds. A description of each fund is as follows:

The *computer lease equipment fund* accounts for the costs of providing computer equipment to the various departments of the city. Operating transfers are made from various departments to cover the cost of the leasing the equipment.

The *general insurance fund* accounts for the cost of providing insurance and worker's compensation coverage and liability claims against the city. Such costs are billed to the other departments at actual cost.

The *group health insurance fund* accounts for the cost of providing group health benefits to city employees. The costs are billed to employees and various departments based on a minimum premium plan for eligible participants.

The *disaster preparedness fund* accounts for unforeseen disasters such as natural disasters, emergency evacuations of citizens, and other disaster situations where the city would be required to spend funds immediately without the guarantee of future reimbursement.

D. Budgets

Budgets for all funds are prepared by management and approved by the city council and the New Mexico Department of Finance and Administration. The city administrator is responsible for preparing the budget from requests submitted by department heads. The appropriated budget is prepared by line item within object class, program, department and fund; revenues expected to be available are estimated to provide for balanced budgeting. The comprehensive budget package is brought before the city council for approval by resolution.

D. Budgets (continued)

The proposed budget is then submitted by June 1st to the New Mexico Department of Finance and Administration Local Government Division (DFA) for approval. DFA certifies a pending budget by July 1st with final certification of the budget by the first Monday of September. The expenditure section of the budget, once adopted, is legally binding. Based on the final certified budget submitted, DFA certifies the allowable tax rates for property taxes in September.

These budgets are prepared on the non-GAAP cash basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds are reappropriated in the budget of the subsequent fiscal year. The budget process in the state of New Mexico requires that the beginning cash balance be utilized to fund deficit budgets appropriated in the budget of the subsequent fiscal year. Such appropriated balance is presented as a committed portion of fund balance.

Actual expenditures may not exceed the budget on a fund basis. Budgets may be amended in two ways. If a budget transfer is necessary within a fund, this may be accomplished with only local council approval. If a transfer between “funds” or a budget increase is required, approval must be obtained from the Department of Finance and Administration. The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

E. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

Investments in the city’s cash and certificates of deposit are stated at cost, which approximates fair value. All other investments are carried at fair market value using quoted market prices. Interest income, realized gains and losses on investment transactions, and amortization of premiums/discounts on investment purchases are included for financial statement purposes as investment income and are allocated to participating funds based on the specific identification of the source of funds for a given investment.

2. Interfund Receivables and Payables

Activity between funds, that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year, is referred to as interfund balance. Long-term advances between funds, as reported in the fund financial statements, as nonspendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Inventory

Proprietary fund inventories are recorded at the lower of cost or market on a first-in, first-out basis, and consist of operating supplies held for use in operations and are recorded as an expense when consumed rather than when purchased.

4. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

5. Restricted Assets

Certain long-term assets are classified as restricted assets on the balance sheet because their use is limited to payments for debt service or other purposes such as *deposits held in trust for others*.

6. Interfund Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund balance as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related costs as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

7. Capital Assets

Property, plant, and equipment purchased or acquired is carried at historical cost or estimated cost. Contributed fixed assets are recorded at estimated fair market value at the time received. Purchased computer software is recorded at historical cost. The city defines capital assets as assets with an initial, individual cost or donated value of more than \$5,000 and an estimated useful life in excess of one year.

Infrastructure fixed assets consisting of roads, curbs and gutters, streets and sidewalks, drainage systems and lighting systems have been recorded at estimated historical cost. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Net revenue bond interest cost incurred during construction is capitalized when material.

<u>Assets</u>	<u>Years</u>
Buildings and other improvements	10 - 50
Utility system	40
Public domain infrastructure	25
Machinery and equipment, including vehicles	5 - 10

8. Compensated Absences

City employees are entitled to certain compensated absences based on their employment classification and length of employment.

Vacation Pay – Each employee of the city may accumulate a total of ten to thirty days of vacation per year. A maximum of seventy-five days of vacation may be accumulated for executive officers. Appointed officers may accrue thirty-one and a half days of paid time off per year with no maximum accumulation. Hourly workers may accumulate up to thirty days of vacation. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability is reported in the governmental funds only if they have matured.

Sick Leave – Each employee of the city may accumulate a total of twelve days of sick leave per year; however, unless the employee has qualified to retire under the state retirement program, employees are not paid for the accumulated sick leave upon retirement or other termination. If the employee has qualified to retire under the state retirement program, the city will pay the employee for one-third of the accumulated sick leave on the last day of service to the city. Accordingly, the one-third portion of the sick leave earned for certain employees is accrued on the government-wide and proprietary fund financial statements.

9. Deferred Revenues

Within the government-wide financial statements, deferred revenues represent unearned revenues advanced to the city. Such advances are reported as deferred revenue until the earnings process is complete. Deferred revenues may include grant awards reflected as a receivable but not recognized as revenues since all criteria have not been met.

Within the governmental funds, revenues must be available in order to be recognized. Revenues such as real estate taxes that are not available are recorded as deferred revenues and reflected as a liability within the balance sheet.

10. Short-Term Obligations

No short-term debt occurred during the current fiscal year.

11. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activities within the statement of net assets. Bond premiums and discounts, as well as, issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as, bond issuance costs, during the period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service requirements.

12. Net Assets

The government-wide financial statements utilize a net assets presentation. Net assets are categorized as follows:

Investment in capital assets, net of related debt – This category reflects the portion of net assets that are associated with capital assets less outstanding capital asset related debt.

Restricted net assets – This category reflects the portion of net assets that have third party limitations on their use.

Unrestricted net assets – This category reflects net assets of the city, not restricted for any project or other purpose.

13. Fund Equity Reservation and Designations

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

13. Fund Equity Reservation and Designations (continued)

Restricted fund balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the city council – the government’s highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the city council removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have specifically committed for use in satisfying those contractual requirements.

Assigned fund balance – This classification reflects the amounts constrained by the city’s “intent” to be used for specific purposes, but are neither restricted nor committed. The city council has the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance – This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the city’s policy to use externally restricted resources first, then unrestricted resources – committed, assigned, and unassigned – in order as needed.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. CASH AND DEPOSITS WITH FINANCIAL INSTITUTIONS

Cash

New Mexico state statutes provide authoritative guidance regarding the deposit of cash and idle cash. Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more bank or savings and loan associations within the geographical boundaries of the city. Deposits may be made to the extent that they are insured by an agency of the United States of America or by collateral deposited as security or by bond given by the financial institution. The rate of interest in non-demand interest-bearing accounts shall be set by the state Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Idle cash may be invested in a wide variety of instruments, including money market accounts, certificates of deposit, the New Mexico State Treasurer's investment pool, or in securities which are issued by the state or by the United States government, or by their departments or agencies, and which are either direct obligations of the state or the United States, or are backed by the full faith and credit of those governments.

Cash Deposited with Financial Institutions

The city maintains cash in four financial institutions within Carlsbad, New Mexico. The city's deposits are carried at cost.

As of June 30, 2012, the amount of cash reported on the financial statements differs from the amount on deposit with the various institutions because of transactions in transit and outstanding checks. The locations and amounts deposited are as follows:

3. RESTRICTED INVESTMENTS (continued)

The program receipts are funds available for utilization by the city, and are restricted for purposes described within each loan agreement. All amounts borrowed are for the purchase or construction of capital assets. As of June 30, 2012, the restricted investments are composed of the following:

Program receipts	\$ 12
Debt reserve	<u>361,985</u>
	<u><u>\$ 361,997</u></u>

Bank of Albuquerque, N.A.

The city has cash, in the amount of \$12, invested at the Bank of Albuquerque, N.A., Trust Department, Albuquerque, New Mexico. The cash is invested as part of note agreements and covenants the city has with the New Mexico Finance Authority. The cash is invested in an Invesco premier U.S. Government Money Portfolio fund. The fund is composed of 64.4% government agency debt; 34.9% other repurchase agreements; .6% Treasury debt; and .1% variable rate demand notes. The market value at June 30, 2012, reflected by the trust department is \$12. The investments are valued at fair market value based on quoted market prices, as of the valuation date. The fund is rated AAA_m by Standard and Poor's.

Interest Rate Risk – Interest rate risk is the risk that interest rate variations may adversely affect an investment's fair value. The prices of securities fluctuate with market interest rates and the securities held in a portfolio will decline if market interest rates rise. The portfolio's weighted average maturity (WAM) is a key determinant of the tolerance of a fund's investments to rising interest rates. In general, the longer the WAM, the more susceptible the fund is to rising interest rates. The Invesco Premier U.S. Government Money Portfolio fund weighted average maturity is 42.83-day WAM.

Bank of New York Mellon Trust Company

The city has entered into several loan agreements with the New Mexico Finance Authority (authority). As part of the agreements, the Authority has placed debt reserves at the Bank of New York Mellon Trust Company.

The city's reserve funds, in the amount of \$361,985, are invested at the trust company in a fund that is composed of eighty percent of U.S. Treasury notes and twenty percent in Federated Government Obligations Fund Number 5.

The investments are valued at fair value based on quoted market prices as of the valuation date. The Federated Government Obligations Fund No. 5 is rated AAA_m by Standard and Poor's.

Interest Rate Risk – Interest rate risk is the risk that interest rate variations may adversely affect an investment’s fair value. The prices of securities fluctuate with market interest rates and the securities held in a portfolio will decline if market interest rates rise. The portfolio’s weighted average maturity (WAM) is a key determinant of the tolerance of a fund’s investments to rising interest rates. In general, the longer the WAM, the more susceptible the fund is to rising interest rates. The Federated Government Obligations Fund No. 5’s weighted average maturity is 49-day WAM.

The city does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

Other Investments

As part of a city ordinance, the city has idle cash invested, in the amount of \$6,372,923 at Wells Fargo Bank, N.A., Roswell, New Mexico. The current fair value is \$6,474,219. The fund is composed of U.S. Treasury Notes. The fund is not subject to categorization.

During the fiscal year ended June 30, 2012, the city realized a net loss of \$32,979 from the sale of investments. The calculation of realized gains is independent of the calculation of the net increase in the fair value of investments. Realized gains and losses that had been held more than one fiscal year and sold in the current year may have been recognized as an increase or decrease in the fair value of investments reported in the prior year. The net decrease in the fair value of investments during the current fiscal year was \$21,347. This amount takes into account all changes in fair value (including purchases and sales) that occurred during the year. The unrealized gain on investments *held* at year-end was \$11,632.

5. PROPERTY TAX

Property taxes attach as an enforceable lien on property as of January 1st. Property tax rates for the year are set no later than September 1st each year by the New Mexico Secretary of Finance and Administration. The rates of tax are then used by the Eddy County Assessor to develop the property tax schedule by October 1st. The Eddy County Treasurer sends tax notices to property owners by November 1st of each year. Taxes are payable in equal semiannual installments by November 10th and April 10th of the subsequent year. Thirty days later the bill becomes delinquent and the county treasurer assesses penalties and interest. Taxes are collected on behalf of the city by the county treasurer, and are remitted to the city in the month following collection. The county treasurer is statutorily required to collect taxes as an intermediary agency for all forms of government. Distribution of taxes collected is made through the county treasurer's office.

The city is permitted to levy taxes for general operating purposes up to an amount determined by a formula based upon each \$1,000 of taxable value for both residential and nonresidential property, taxable value being defined as one third of the fully assessed value. In addition, the city is allowed to levy taxes for payments of bonds principal and interest in amounts approved by voters of the city. The city's total tax rate to finance general government services for the year 2011, was \$6.225 per \$1,000 for non-residential and \$5.891 for residential property. In the year 2011, there was no tax rate established for payment of bonds principal and interest.

Compensated Absences

A liability for unused vacation for all full-time employees is calculated and reported in the government-wide statements. For financial reporting, the following criteria must be met to be considered as compensated absences:

- leave or compensation is attributable to services already rendered.
- leave or compensation is not contingent on a specific event (such as illness).

Per GASB Interpretation No. 6, liabilities for compensated absences are recognized in the fund statements to the extent the liabilities have matured (i.e., are due for payment). Compensated absences are accrued in the government-wide statements. The compensated absences liability attributable to the governmental activities will be liquidated primarily by the general fund.

Note Payable – Wastewater Utility System Improvements

On April 29, 2010, the city entered into a clean water state revolving loan agreement with the New Mexico Environment Department, with a total maximum amount of \$18,000,000. The note is for twenty years, and accrues interest at 2.00% per annum. The proceeds of the loan agreement will be used for improvements to the city's wastewater utility system. The payments of principal and interest will be paid with net revenues from the city's water and wastewater utility system activities.

As per the agreement, the city has three years from the date of the agreement to complete all work on the wastewater utility system. The city received a one year extension for construction in April 2013. As of June 30, 2012, the city has requested loan proceeds, totaling \$12,359,329. As per the agreement, the first loan payment is not required until one year after the completion of the project. The city recorded the proceeds as long-term debt with no portion allocated for an amount due within one year.

Note Payable – Double Eagle Waterline Improvements

On June 18, 2010, the city entered into a water project loan and subsidy agreement with the New Mexico Water Trust Board, financed by the New Mexico Finance Authority, with a total amount of \$1,500,000, of which the loan portion of the agreement is a maximum of \$300,000. The note matures on June 1, 2030, and does not accrue interest. The note accrues an administrative fee of .25% per annum. The proceeds of the loan and subsidy agreement will be used for water line improvements to the Double Eagle system. The payments of principal and interest will be paid from net revenues from the city's water and wastewater utility system activities.

2009 Advance Refunding Bonds

On March 12, 2009, the city issued bonds in the amount of \$21,440,000, which the city advance refunded \$13,705,000 of the outstanding series 1998 water and sewer revenue bonds with interest rates ranging between 4.00% and 4.75%. The city used the net proceeds, along with other resources, to purchase U.S. government securities. These securities were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the 1998 water and sewer bonds.

As a result, that portion of the 1998 water and sewer bonds is considered defeased, and the city has removed the liability from its accounts. The advance refunding increased total debt service payments over the next fifteen years by \$208,770. This results in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$426,168. The remaining portion of the bonds issued is for the purposes of the extension, enlargement, betterment, repair, and other improvements to the joint water and sewer system. The bond bears interest at rates between 3.00% through 5.00% per annum and matures on June 1, 2029. The payment of principal, premium, and interest thereon, whether at maturity or on a redemption date, are paid with income derived from the operation of the joint water and sewer system.

The annual requirement to amortize the bonds outstanding as of June 30, 2012, including interest payments, is as follows:

Landfill Closure and Post-Closure Costs

The city and Eddy County jointly own and operate a landfill. State and federal laws and regulations require that upon closing, the city and the county of Eddy place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure of the landfill site. In addition to operating expenses related to current activities of the landfill, an expense provision and related liability are being recognized based on the future closure and post-closure care costs that will be incurred near or after the date the landfill no longer accepts waste.

Based on a joint powers agreement between the city and county of Eddy, the closure and post-closure care costs will be shared at 50% for each government. The recognition of these landfill closure and post-closure care costs is based on the amount of the landfill used during each year.

The estimated total current cost of the landfill closure and post-closure care of \$3,676,200 is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of June 30, 2012. However, the actual cost of post-closure care may be higher due to inflation, changes in technology, or changes in state and federal landfill laws and regulations.

The city is required by the state of New Mexico Environmental Regulation Board to demonstrate financial assurance for the post-closure costs.

The following calculation details the current amount recognized for landfill closure and post-closure care as of June 30, 2012:

11. BAD DEBT EXPENSE

Governmental Activities - During the current fiscal year, the city recorded bad debt expense by reducing gross ambulance fees of \$1,195,813 by \$405,673. Ambulance fees are reflected as public safety charges for services in the government-wide statement of activities and charges for services within the general fund.

Business-Type Activities - During the current fiscal year, the city recorded bad debt expense of \$26,691 by reducing solid waste sales by \$9,557; water sales by \$7,436; wastewater sales by \$8,284 and municipal transit fees by \$1,414.

12. PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT ASSOCIATION

Plan Description

Substantially, all of the city's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost sharing, multiple-employer defined benefit plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding Policy

Plan members are required to contribute from 13.15% to 16.30% (ranges from 3.83% to 16.65% depending upon the plan – i.e., state general, state hazardous duty, state police and adult correctional officers, municipal general, municipal police, municipal fire, municipal detention officer) of their gross salary. The city is required to contribute from 9.15% to 21.25% (ranges from 7.0% to 25.72% depending upon the plan) of the gross covered salary. The contribution requirements of plan members and the city are established in state statute under Chapter 10, Article 11 NMSA 1978. The requirements may be amended by legislative acts. The city's contributions to PERA for the fiscal years ending June 30, 2012, 2011, and 2010 were \$2,246,587, \$2,089,764 and \$1,981,633, respectively, equal to the amount of the required contributions for each year.

13. POST-EMPLOYMENT – STATE RETIREE HEALTH CARE PLAN

Plan Description

The city contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit post-employment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents.

13. POST-EMPLOYMENT – STATE RETIREE HEALTH CARE PLAN (continued)

Plan Description (continued)

The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the post-employment health care plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, New Mexico 87107.

Funding Policy

The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits.

Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. During the fiscal year ended **June 30, 2012**, the statute required each participating employer to contribute **1.834%** of each participating employee's annual salary; each participating employee is required to contribute **0.917%** of their salary. In the fiscal year ending **June 30, 2013**, the contribution rates for employees and employers will rise as follows:

For employees who are not members of an enhanced retirement plan for contribution rates will be:

For employees who are members of an enhanced retirement plan (state police and adult correctional officer coverage plan 1; municipal police member coverage plans 3, 4, and 5; municipal fire member coverage plan 3, 4, and 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act [10-12B-1]), during the fiscal year ended **June 30, 2012**, the statute required each participating employer to contribute **2.292%** of each participating employee's annual salary, and each participating employee was required to contribute **1.146%** of their salary. In the fiscal year ending **June 30, 2013**, the contribution rates for both employees and employers will rise as follows:

<u>Fiscal Year</u>	<u>Employer Contribution Rate</u>	<u>Employee Contribution Rate</u>
2013	2.500%	1.250%

Also, employers joining the program after January 1, 1998, are required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

The RHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

The city's contributions to the RHCA for the years ended June 30, 2012, 2011 and 2010 were \$348,609, \$295,640 and \$201,002, respectively, which equal the required contributions for each year.

14. CONSTRUCTION COMMITMENTS

Governmental Activities – As of June 30, 2012, the city has construction contracts in progress with total costs of \$5,921,916. The projects are funded through federal and state grants and local resources. The remaining construction commitments are \$3,158,550.

Business-Type Activities – As of June 30, 2012, the city has construction contracts in progress with total costs of \$15,417,370. The projects are funded through federal and state grants and local resources. The remaining construction commitments are \$3,545,499.

15. RISK MANAGEMENT

The city is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The city has joined together with other local governments in the state and obtained insurance through the New Mexico Self-Insured Fund, a public entity risk pool currently operates as a common risk management and insurance program for local governments. The city pays an annual premium to New Mexico Self-Insured Fund for its general insurance coverage, and all risk of loss is transferred.

The city maintains a self-insurance program for workers' compensation and employee health benefits. These programs are accounted for in the Internal Service Funds. Funding is provided by charging the other funds as costs are incurred for workers' compensation benefits and charging an estimated premium based on a minimum plan for employees' health benefits. Management does not have the information available to make a reasonable estimate of the amount of incurred but unreported claims and other outstanding liabilities of the plans; accordingly, no liability has been recorded.

16. CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the city expects such amounts, if any, to be immaterial.

The city is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the city's legal counsel that resolution of these matters will not have a material adverse effect on the financial condition of the city.

Report on Internal Control over Financial Reporting
and on Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance
With *Government Auditing Standards*

Hector H. Balderas, State Auditor
and
Mayor and City Councilors
City of Carlsbad
Carlsbad, New Mexico

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, the budgetary comparison of the general fund, and the combining and individual funds and related budgetary comparisons presented as supplemental information of the city of Carlsbad, New Mexico as of and for the year ended June 30, 2012, and have issued our report thereon dated June 5, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of the city of Carlsbad is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the city's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the city's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the city's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses, and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs to be a material weakness in internal control over financial reporting as item 2008-06.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the city's financial statements are free of material misstatement, we performed tests of their compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts.

However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance, or other matters that is required to be reported under *Government Auditing Standards* and that is described in the accompanying schedule of findings and questioned costs as items 2012-01 and 2012-02.

We also noted certain other matters that are required to be reported pursuant to *Government Auditing Standards* paragraphs 5.14 and 5.16, and pursuant to Section 12-6-5, NMSA 1978, which are described in the accompanying schedule of findings and questioned costs as items 2012-03 and 2012-04.

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the city's response and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the city council, management, others within the city, the New Mexico State Auditor, the New Mexico State Legislature, New Mexico Department of Finance and Administration Local Government Division, and applicable federal grantors and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements
Applicable to Each Major Program and Internal Control
Over Compliance in Accordance With OMB Circular A-133

Hector H. Balderas, State Auditor
and
Mayor and City Councilors
City of Carlsbad
Carlsbad, New Mexico

Compliance

We have audited the compliance of city of Carlsbad, New Mexico with the types of compliance requirements described in OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the city of Carlsbad's major federal programs for the year ended June 30, 2012. City of Carlsbad's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of city of Carlsbad's management. Our responsibility is to express an opinion on city of Carlsbad's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about city of Carlsbad's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on city of Carlsbad's compliance with those requirements.

In our opinion, city of Carlsbad complied, in all material respects, with the requirements referred to above that are applicable each of its major federal programs for the year ended June 30, 2012. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 2012-05.

Internal Control over Compliance

Management of the city of Carlsbad is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the city of Carlsbad's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the city of Carlsbad's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2012-05 to be a material weakness.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses have been identified. However, as discussed below, we identified a certain deficiency in internal control over compliance that we consider to be a material weakness.

The city's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the city's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of the city council, management, others within the City, the New Mexico State Auditor, New Mexico State Legislature, New Mexico Department of Finance and Administration Local Government Division, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2012

SECTION II – FINDINGS – FINANCIAL STATEMENTS

Item 2008-06 – Material Weakness – Submission of Audit Report

Statement of Condition – The audit report for the fiscal year ended June 30, 2012, was due to the New Mexico State Auditor’s office by December 1, 2012. The audit report was delivered on July 3, 2013 to the New Mexico State Auditor’s office.

Criteria – New Mexico State Statutes Section 12-6-12 requires the state auditor to promulgate reasonable regulations necessary to carry out the duties of the office. New Mexico Administrative Code Title 2, Chapter 2, Part 2, *Audits of Governmental Entities Requirements for Contracting and Conducting Audits of Agencies* issued by the State auditor’s office requires that the City submit its audit report by December 1st following the end of each fiscal year at June 30th.

Effect – Delays in submission of the audit report affect the city's ability to report timely financial information to other state agencies and local governments. Untimely financial reporting could hinder the city's ability to receive funding for various projects.

Cause – Throughout the fiscal year, the city maintains its accounting records on the cash basis of accounting. After the close of the fiscal year, the cash basis records are converted to meet the requirements of generally accepted accounting principles. All such conversions and accounting calculations are performed by the city treasurer and the accounting department. Given their normal accounting duties, the current staffing of the accounting department the city has been unable to complete the conversions within ninety days which would provide sufficient time to allow the auditors to complete their testing and preparation of the audit report by December 1st. The city informed the auditors they could commence the audit in late February 2013. The city provided the auditor the final information needed to complete the audit in late May 2013.

Recommendation – We recommend the city explore avenues that would assist in completing the conversion and preparation of the financial statements within ninety days to ensure timely submission of the audit report to the State Auditor by December 1st.

Views of Responsible Officials and Planned Corrective Actions – The city staff continues to focus on preparing the financial statements internally to prevent the SAS 115 finding, Preparation of the Financial Statements and Disclosures. To reach this goal, the city hired an internal auditor to assist in making all adjustments necessary to convert budgetary basis financial statements to accrual basis financial statements. In addition, the Finance Department plans to reorganize certain administrative functions to allow more time for the city treasurer and Internal Auditor to complete the conversion within the ninety day period. The city treasurer and Internal Auditor will create an audit plan with specific milestones to complete the conversion within the ninety day period.

CITY OF CARLSBAD
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2012

SECTION II – FINDINGS – FINANCIAL STATEMENTS (continued)

Item 2012-01 – Other – Battered Families Shelter – Building Repair Expenditures

Statement of Condition – The city and the Battered Families Shelter (Shelter), a nonprofit organization, entered into a rental agreement where the Shelter rents property from the city and the shelter provides domestic violence services to city residents. In early 2011, the city experienced a freeze which damaged water pipes at the shelter. The total cost to repair the damaged water pipes was \$26,000. The city filed an insurance claim with the New Mexico Self Insurer's Fund. The New Mexico Self Insurer's Fund issued a check to the city for \$16,000. The city reimbursed the shelter the insurance proceeds of \$16,000 as required by the rental agreement, thus fulfilling its legal obligations.

During our review of the city's August 2011 board minutes, we discovered the city council approved the request from the shelter for the remaining portion of the repair costs totaling \$10,000. The city had no legal obligation to remit \$10,000 for the cost of repairs and the reimbursement is considered a violation of the New Mexico Constitution, Article IX, Section 14.

Criteria – Article IV, Section 10 of the agreement between the city and the shelter states, "*The shelter agrees that it shall keep, repair, maintain, improve and operate the Premises and all fixtures, appliances, improvements, installations on, and improvements to it at its own expense.*"

Article IV, Section 10 (xiii) of the agreement between the city and the shelter states, "*The Shelter's responsibilities shall include, but are not limited to the inspection, maintenance and repair of the plumbing system including but not limited to plumbing lines, fixtures and restroom accessories.*"

Article V, Section 3 of the agreement between the city and the shelter states, "*During the term of this Agreement, the City shall obtain and continuously maintain at its expense property loss insurance as required by law. To the extent the City receives insurance proceeds for any covered casualty loss; the City shall expend such received insurance proceeds solely for the repair or replacement of the items for which the insurance proceeds were paid. The City shall not be obligated to expend any funds except for such insurance proceeds.*"

New Mexico Constitution Article IX, Section 14 states, "*Neither the state, nor any county, school district, or municipality, except as otherwise provided in this constitution, shall directly or indirectly lend or pledge its credit, or make any donation to or in aid of any person, association or public or private corporation. A donation within the meaning of this provision is a "gift", an allocation or appropriation of something of value, without consideration.*"

Effect – Non-compliance with the agreement and the state constitution places the city council and staff in jeopardy of punishment defined by state statutes.

Cause – Even though the city council was advised by management during the June 14, 2011 meeting, they failed to take into consideration the limitation provided by Article IX, Section 14 of the State Constitution when they authorized the disbursement of \$10,000 for repairs during the August 15, 2011 meeting.

STATE OF NEW MEXICO
CITY OF CARLSBAD
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2012

SECTION II – FINDINGS – FINANCIAL STATEMENTS (continued)

Item 2012-01 – Other – Battered Families Shelter – Building Repair Expenditures (continued)

Recommendation – We recommend the city staff to create review procedures for signed agreements with such agencies prior to going to the city council. Also, there should be procedures established by city staff to alert the city council that approval of such requests do not comply with Article IX, Section 14 of the State Constitution.

Views of Responsible Officials and Planned Corrective Actions – Management has and will continue to alert the City Council of anti-donation violation issues.

Item 2012-02 – Other – State Constitution and Attendance Bonus

Statement of Condition – The city has entered into agreements with four employee unions. The unions are Carlsbad Police Officers' Association (CPOA), International Association of Fire Fighters (IAFF), International Brotherhood of Electrical Workers (IBEW) and United Steel Workers Association (USWA). In each of the agreements between the city and the unions, union employees are allowed to receive an attendance bonus in December of any given year. The attendance bonus is based on years of continuous employment of the city and work attendance from the previous year (December 1st through November 30th).

All non-union employees of the city also receive an attendance bonus. Section 1208 of the city's Personnel Policy Manual states, *"All full-time employees shall be eligible to receive a cash bonus which will be awarded prior to the Christmas holiday. The bonus will be based upon the number of years of continuous employment with the city of Carlsbad and work attendance during the prior 12-month period beginning December 1st and ending on November 30th."*

During the fiscal year ended June 30, 2012, CPOA employees received \$6,582 for their attendance bonus; IAFF employees received \$20,153 for their attendance bonus; IBEW employees received \$2,290 for their attendance bonus; USWA employees received \$22,281 for their attendance bonus and non-union employees received \$23,402 for their attendance bonus. These bonuses, totaling \$74,708, were paid to employees for services they have already been compensated for by the city and, as such, are considered violations of the New Mexico Constitution, Article IV, Section 27 and Article IX, Section 14.

Criteria – New Mexico Constitution Article IV, Section 27 states, *"No law shall be enacted giving any extra compensation to any public officer, servant, agent or contractor after services are rendered or contract made; nor shall the compensation of any officer be increased or diminished during his term of office, except as otherwise provided in this constitution."*

Further New Mexico Constitution Article IX, Section 14 states, *"Neither the state, nor any county, school district, or municipality, except as otherwise provided in this constitution, shall directly or indirectly lend or pledge its credit, or make any donation to or in aid of any person, association or public or private corporation. A donation within the meaning of this provision is a "gift", an allocation or appropriation of something of value, without consideration."*

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2012

SECTION II – FINDINGS – FINANCIAL STATEMENTS (continued)

Item 2012-02 – Other – State Constitution and Attendance Bonus (continued)

Effect – Non-compliance with the state constitution places the city council and staff in jeopardy of punishment defined by state statutes.

Cause – When the previous city administrator negotiated the agreements with the unions, the attendance bonus remained in the agreements at the request of the unions. Furthermore, for all non-union employees, the city's Personnel Director originally did not believe the attendance bonus was in violation of the State Constitution.

Recommendation – We recommend the attendance bonus section in any and all future union agreements be removed and not subject to negotiation. Furthermore, we recommend the City Council remove Section 1208 from the city's Personnel Policy Manual concerning the attendance bonus.

Views of Responsible Officials and Planned Corrective Actions – Attendance bonus provisions were removed from the CPOA, IAFF, and IBEW union contracts negotiated in March 2012. Resolution 2012-37 was approved and adopted by the city council on July 24, 2012, which eliminated the attendance bonus for non-union personnel. Section 1208 of the Personnel Policy Manual was removed with the revision to the Personnel Policy Manual at the council meeting of February 26, 2013. A memorandum of understanding between the USWA and the city dated March 31, 2013, eliminated the attendance bonus from the collective bargaining agreement. No attendance bonuses have been paid since December 2011.

Item 2012-03 – Other – Travel and Per Diem Reimbursements

Statement of Condition – During the course of the audit, we performed tests of travel and per diem expenditures. Our sample size was forty-three transactions, which were selected throughout the fiscal year, and contained the following discrepancies:

- There were nine instances where an employee was not paid for partial day per diem on their final day of travel. In total, the employees were underpaid by \$160.00.
- There was one instance where an employee was underpaid for meals totaling \$8.11.
- There was one instance where a city councilor was reimbursed for internet access, without prior authorization, totaling \$13.86.
- There was one instance where the Mayor traveled to Washington, DC and was reimbursed for lodging greater than the amount allowed, totaling \$165.69. The travel forms completed for this trip failed to indicate that the nightly lodging cost was greater than \$215, thus the city administrator was unaware prior to signing the travel order and expense request form.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2012

SECTION II – FINDINGS – FINANCIAL STATEMENTS (continued)

Item 2012-03 – Other – Travel and Per Diem Reimbursements (continued)

Statement of Condition (continued) –

- There were three instances where the mayor was reimbursed for meals greater than the amount allowed, totaling \$627.04.
- There was an instance where two dispatch employees were advanced 80% of estimated per diem travel expenses in May 2011 for a two day training seminar. Upon arrival, the employees were informed they were not registered for the course. The police department's administrative staff failed to register the employees for the course. The employees returned within twenty-four hours of their departure. Upon return from the trip, the employees failed to submit their travel expense report within five days, as per city policy. On October 1, 2011, the police chief sent a memo to the finance director requesting the employees be reimbursed for actual expenses of the trip as the employees used an online travel site to book their hotel rooms and could not cancel the hotel rooms for the second night. The police chief completed and signed a new travel order and expense request form and the travel expense report on behalf of the two employees. The employees and the city administrator did not initially sign any of these new forms. The employees completed the city's *Affidavit for Lost Receipts* as they didn't have the meal receipts for the trip. The affidavit was signed, by the employees, on September 30, 2011.
- On December 13, 2011, the employees signed their travel expense reports for the trip. Contrary to the initial travel order and expense request form completed and signed by the department head or the supervisor requesting the travel, finance director and the city administrator, the employees were paid a total of \$163.02 based on lodging for two nights and one day of per diem meals. Per diem, as originally requested, for such travel would have been \$85.

Criteria – The New Mexico Department of Finance and Administration (DFA) has issued regulations in the form of Title 2, Chapter 42, Part 2, *Travel and Per Diem Regulations Governing the Per Diem and Mileage Act* of the New Mexico Administrative Code. The rule was issued in accordance with Section 10-8-1 to 10-8-8 NMSA 1978.

Sections 2.42.2.8 B (3) and 2.42.2.9 C of the Travel and Per Diem regulations states, “*On the last day of travel when overnight lodging is no longer required, partial day reimbursement shall be made. To calculate the number of hours in a partial day, begin with the time the traveler initially departed. Divide the number of hours traveled by 24. The hours remaining constitute the partial day which shall be reimbursed as: less than two hours, none; for two but less than six hours, \$12.00; for six but less than twelve hours, \$20.00 and for twelve hours or more, \$30.00.*”

Section 2.42.2.9 B (1) of the Travel and Per Diem regulations states, “*A public officer or an employee may elect to be reimbursed actual expenses for lodging not exceeding the single occupancy room charge (including tax) in lieu of the per diem rate set forth in this Section.*”

SECTION II – FINDINGS – FINANCIAL STATEMENTS (continued)

Item 2012-03 – Other – Travel and Per Diem Reimbursements (continued)

Criteria (continued) – *Whenever possible, public officers and employees should stay in hotels which offer government rates. Agencies, public officers or employees who incur lodging expenses in excess of \$215.00 per night must obtain the signature of the agency head or chairperson of the governing board on the travel voucher prior to requesting reimbursement and on the encumbering document at the time of encumbering the expenditure.*

Section 2.42.2.9 B (2) of the Travel and Per Diem regulations states, “Actual expenses for meals are limited by Section 10-8-4(K)(2) NMSA 1978 to a maximum of \$30.00 for in-state travel and \$45.00 for out-of-state travel for a 24-hour period.”

Section 2.42.2.8 A states, “Per diem rates shall be paid to public officers and employees only in accordance with the provisions of this section. Per diem rates shall be paid without regard to whether expenses are actually incurred.” Furthermore, Section 2.42.2.9 A states, “Upon written request of a public officer or an employee, agency head may grant written approved for a public officer or employees of that agency or local public body to be reimbursed actual expense in lieu of the per diem rate where overnight travel is required.” There is nothing in the Act that states an employee is allowed to change from per diem rates to actual expenses during or upon completion of the travel.

The city requires all employees to complete their travel expense report within five working days after completion of travel. All employees are aware of this requirement as it is stated at the top of the expense report.

Effect – Improper payments made by the city are waste and abuse of public money. Non-compliance with the state of New Mexico Travel and Per Diem Act places the city council and staff in jeopardy of punishment defined by state statutes.

Cause – City staff didn’t fully understand the partial per diem rates in respect to when actual expenses were being occurred. Further, there is a lack of understanding limits for actual expenses in respect to meals and lodging.

Recommendation – We recommend the city review the Travel and Per Diem Act. We recommend the finance office to send a memorandum to all departments emphasizing various aspects of the Per Diem and Mileage Act. In addition, city management should review its procedures to ensure a thorough review of all travel expense reports prior to final payment. We recommend the city consult with the appropriate state agencies concerning reimbursement of unallowable travel and per diem expenses.

Furthermore, we recommend the finance director meet with the mayor and city council to review all aspects of the Act. Finally, after city elections, the finance director shall meet with any newly elected officials to discuss travel and per diem expenses, in particular compliance with all aspects of the Per Diem and Mileage Act.

Views of Responsible Officials and Planned Corrective Actions – City staff has reviewed the Travel and Per Diem Act.

SECTION II – FINDINGS – FINANCIAL STATEMENTS (continued)

Item 2012-03 – Other – Travel and Per Diem Reimbursements (continued)

Views of Responsible Officials and Planned Corrective Actions (continued) – The city will update its Mileage and Per Diem Resolution and its travel voucher to help resolve the above issues. Finance department staff will offer travel and per diem training to employees and elected officials.

Item 2012-04 – Other – Deficit Ending Cash Balances for Budget

Statement of Condition – The city budgeted a deficit ending cash balance of \$135 in the Fire Protection Special Revenue Fund and \$31,607 in the CIEP Capital Projects Fund.

Criteria – Sections 6-6-6 through 6-6-11 NMSA 1978 prohibit local governments from making expenditures in excess of the approved budget and make public officials liable for such expenditures. City officials and governing authorities have the obligation to follow applicable state statutes.

Effect – Noncompliance with New Mexico State Statutes could subject officials and employees to penalties and fines required by state statutes.

Cause – The city failed to monitor the budgeted ending cash balances within these funds throughout the fiscal year.

Recommendation – We recommend the city finance department officials review the ending cash balances within the funds once a budget adjustment resolution is approved by the city Council. Furthermore, we recommend, if several funds are combined for financial reporting purposes, city staff should combine the funds to ensure there isn't deficit ending cash balances.

Views of Responsible Officials and Planned Corrective Actions – The city included \$135 of restricted investments in the beginning cash balance when preparing the cash basis budget for the Department of Finance and Administration. When the fund was budgeted to a zero cash balance, the \$135 held in a cash account by the New Mexico Finance Authority was included due to the knowledge that NMFA would apply that amount to the next debt service payment due. In the future, city staff will not include any restricted investments in the cash basis budget submitted to the Department of Finance and Administration to avoid this situation. In addition, the city has legislative funds that contain reimbursable grants. The expenditures must be spent, and then a reimbursement must be requested. Each year, a few grants are not reimbursed prior to the end of the fiscal year, causing a deficit cash balance in the Legislative Fund. This is not permitted by Governmental Accounting Standards, so the legislative funds in effect borrow money from another fund; the CIEP fund, in this instance. The city failed to budget the transfer in to the CIEP fund to show the repayment of the borrowed cash. In the future, the city will budget Legislative grants related to enterprise funds in the Enterprise Funds themselves instead of separately. The city will also budget the transfers out to clear the cash deficit as well as the transfers in the next year for the repayment of the cash borrowed.

SECTION III – FEDERAL AWARDS AND QUESTIONED COSTS

Item 2012-05 – Material Weakness – Submission of the Reporting Package to the Federal Government

Federal Program Information –

Funding agency:	Environmental Protection Agency
Pass through agency:	New Mexico Environment Department
Title:	Clean Water State Revolving Funds Clean Drinking Water State Revolving Funds
CFDA number:	66.458 and 66.468
Award year and number:	2012, CWSRF010, 141-WTB

Statement of Condition – The audit report along with the data collection form is due to the federal government within nine months after the end of the fiscal year. The audit report was not completed until June 2013 and as such was not submitted to the federal government on a timely basis.

Criteria – Circular A-133, *Audits of States, Local Governments and Non-profit Organizations* issued by the U.S. Office of Management and Budget requires that the audit report along with the data collection form be submitted by nine months after the fiscal year end. In the case of the city audit for the fiscal year ended June 30, 2012 that due date was March 31, 2013.

Questioned Costs – Unknown.

Effect – Non-compliance with federal requirements such as the submission of the single audit report and the data collection form could jeopardize future city funding from the federal government.

Cause – The city failed to prepare the necessary financial information to submit the reporting package to the federal government in a timely manner.

Recommendation – We recommend the city explore avenues that would assist in completing the preparation of the financial statements within ninety days after the close of the fiscal year. This should enable the city to ensure timely submission of the data collection form to the federal government by March 31st.

Views of Responsible Officials and Planned Corrective Actions – City staff continues to focus on preparing the financial statements internally to prevent the SAS 115 finding, Preparation of the Financial Statements and Disclosures. To reach this goal, the city hired an internal auditor to assist in making all adjustments necessary to convert budgetary basis financial statements to accrual basis financial statements. In addition, the finance department plans to reorganize certain administrative functions to allow more time for the city treasurer and internal auditor to complete the conversion within the ninety day period. The city treasurer and internal auditor will create an audit plan with specific milestones to complete the conversion within the ninety day period. This will allow for the timely submission of the data collection form to the federal government.

SECTION IV – PRIOR YEARS’ AUDIT FINDINGS (continued)

Item 2008-06 – Submission of Audit Report – In the previous year’s audit report, it was noted the audit report was not submitted timely to the New Mexico State Auditor’s office. During the fiscal year, the audit report was not submitted timely to the New Mexico State Auditor’s office. The finding has not been resolved and is updated and repeated.

Item 2011-01 – State Constitution and Lodgers’ Tax Expenditures – In the previous year’s audit report, it was noted the city council waived rental fees and approved reimbursement of expenditures in violation of the Anti-Donation Clause and the state statutes concerning the Lodgers’ Tax. During the fiscal year, the city did not waive any rental fees and any lodgers’ tax reimbursements were made in compliance with state statutes. The finding has been resolved.

Item 2011-02 – Agency Credit Cards – In the previous year’s audit report, it was noted several instances where the credit card receipt was not submitted the finance department. During the fiscal year, the city modified their reconciliation process of the credit card statements to ensure all receipts were submitted. The finding has been resolved.
