#### INDEPENDENT AUDITOR'S REPORT

State of New Mexico Commission for the Deaf and Hard - of - Hearing Persons Santa Fe, New Mexico

and

Mr. Hector H. Balderas New Mexico State Auditor Santa Fe, New Mexico

I have audited the accompanying financial statements of the governmental activities, each major fund, and the respective budgetary comparisons of the General Fund and the Telecommunications Access Special Revenue Fund of the State of New Mexico, Commission for the Deaf and Hard-of-Hearing Persons (Commission) as of and for the year ended June 30, 2008, which collectively comprise the Commission's basic financial statements, as listed in the Table of Contents. These financial statements are the responsibility of the Commission's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the basic financial statements and the individual fund financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

As discussed in Note 1A, the financial statements of the Commission, are intended to present the financial position and changes of financial position of only that portion of the governmental activities and each major fund and respective budgetary comparisons of the State of New Mexico that are attributable to the transactions of the Commission. They do not purport to, and do not, present fairly the financial position of the entire State of New Mexico as of June 30, 2008 and the changes in its financial position thereof and respective budgetary comparisons for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Commission at June 30, 2008, and the respective changes in financial position, thereof and the respective budgetary comparisons of the General Fund and the Telecommunications Access Special Revenue Fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, I have also issued my report dated June 11, 2009, on my consideration of the Commission's internal control over financial reporting and on my tests of its compliance with certain provisions of laws and regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of my audit.

The Commission has not presented its Management's Discussion and Analysis for the year ended June 30, 2008. The Management's Discussion and Analysis is not a required part of the basic financial statements, but is supplementary information required by the Governmental Accounting Standards Board.

My audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the Commission's basic financial statements and the budgetary comparisons. The accompanying financial information listed as Additional Information - Supporting Schedule in the Table of Contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects, in relation to the basic financial statements.

June 11, 2009

Chester W. Mattale, CPA

#### STATEMENT OF NET ASSETS AS OF JUNE 30, 2008

	Governmental Activities
<u>ASSETS</u>	
Current assets:	
Investment account with New Mexico State Treasurer	\$ 19,479,860
Due from other state agency	294,598
Total current assets	19,774,458
Capital assets:

# NOTES TO FINANCIAL STATEMENTS AS OF JUNE 30, 2008

#### 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Commission for Deaf and Hard-of-Hearing Persons (Commission) was created by Laws of 1991, Chapter 72 (Section 28-11B-1 to 28-11B-4). The Commission consists of seven members, a majority of whom are deaf or hard-of-hearing persons, including three ex-officio members and four members appointed by the governor.

The ex-officio members are the president of the New Mexico Association for the deaf or his designee; the superintendent of the New Mexico school for the deaf or his designee; and, the director of the vocational rehabilitation division of the state department of public education or his designee who shall be knowledgeable in areas of deafness. Appointed members are a parent of a deaf or hard-of-hearing child; a professional person who is deaf of hard-of-hearing; a deaf or hard-of-hearing person who resides in southern New Mexico; and, a deaf or hard-of-hearing person who resides in northern New Mexico.

The Commission's primary purpose is to identify the needs of the deaf and hard-of-hearing population of New Mexico, educate state agencies about deafness, coordinate services with other state agencies for the deaf, advocate equal access and opportunities, provide continuing education for deaf adults, assist in the development of state-wide interpreter referral services and coordinate the certification and evaluation process for interpreters.

In addition, until June 30, 2005, the Commission, along with the General Services Department (GSD), also had administrative oversight of the State's Telecommunications Relay, including full administration of the Equipment Distribution Program under Laws of 1993, Chapter 54.

Effective July 1, 2005, Laws of 2004, Chapter 106, transferred the administration of the Telecommunications Access Act from the General Services Department to the Commission for Deaf and Hard-of-Hearing Persons and provided that the Telecommunications Access Fund is appropriated to the Commission for the purposes of carrying out the provisions of the Telecommunications Access Act. All records, equipment, supplies and other property of the General Services Department relating to the Department's duties pursuant to the Telecommunications Access Act were transferred to the Commission. All General Services Department contracts relating to the Department's duties pursuant to the Telecommunications Access Act are binding on the Commission. Sections 63-9F-5 and 63-9F-7 NMSA 1978 (being Laws 1993, Chapter 54, Sections 5 and 7, as amended) were repealed.

The financial statements for the Commission have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement #34 "Basic Financial Statements and Management Discussion and Analysis for State

and Local Governments." This Statement provided for the most significant change in financial reporting in over twenty years.

The Commission implemented the provisions of GASB #34 effective July 1, 2001. As a part of this Statement, there is a new reporting requirement regarding the government's infrastructure (road, bridges, etc.) The Commission does not own any infrastructure assets and therefore is unaffected by this requirement. The Commission also implemented the provisions of the later related GASB statements #37 and #38 which affect GASB #34 and its implementation.

#### A. Financial Reporting Entity

Governmental Accounting Standards Board Statement (GASBS) 14, "The Financial Reporting Entity," effective for periods beginning after December 15, 1992, establishes standards for defining and reporting on the financial reporting entity. GASBS 14 supersedes previous standards issued by the National Council on Governmental Accounting. The requirements of GASBS 14 apply at all levels to all state and local governments.

GASB 14 defines the financial reporting entity as consisting of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. This definition of the reporting entity is based primarily on the notion of financial accountability as the "cornerstone of all financial reporting in government."

A primary government is any state government or general-purpose local government, consisting of all the organizations that make up its legal entity. All funds, organizations, institutions, agencies, departments, and offices that are not legally separate are, for financial reporting purposes, part of the primary government. The Commission, therefore, is part of the primary government of the State of New Mexico, and its financial data should be included with the financial data of the State. However, New Mexico does not at present issue an audited Comprehensive Annual Financial Report inclusive of all agencies of the primary government.

The Audit Act, Sections 12-6-1 through 12-6-14, NMSA 1978, requires the financial affairs of every agency to be thoroughly examined and audited each year, and a complete written report to be made. Moreover, the New Mexico State Auditor requires that each agency shall prepare financial statements in accordance with accounting principles generally accepted in the United States of America. As a result, the Commission has prepared and issued its own audited, agency Annual Financial Report.

Included within the Commission for this purpose are the following: All of the programs that are administered and/or controlled by the Commission have been included.

No entities were noted that should be considered component units of the Commission. No entities were specifically excluded from the Commission because no entities were noted as meeting any of the criteria for potential inclusion.

The Commission does not have any fiduciary funds or any component units that are fiduciary in nature. If the Commission did have any such funds, they would not be included in the government-wide financial statements.

#### B. Basic Financial Statements - GASB Statement #34

The basic financial statements include both government-wide (based on the Commission as a whole) and fund financial statements. The new reporting model focus is on either the Commission as a whole or major individual funds (within the fund financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type activities. In the government-wide Statement of Net Assets, both the governmental and business-type activities columns are presented on a consolidated basis by column, and are reflected on a full accrual, economic resources basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. The Commission did not have any business-type activities during the year ended June 30, 2008, and the Commission has decided not to apply any FASB pronouncements issued after November 30, 1989.

The government-wide Statement of Activities reflects both the gross and net cost per functional category, which are otherwise being supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. The program revenues must be directly associated with the function or a business-type activity. The Commission had no program revenues during the year ended June 30, 2008. The Commission includes only one function (general government).

However, the Commission did receive telecommunications access relay taxes during the year ended June 30, 2008. Revenue is recognized when taxes are collected by the State of New Mexico Taxation and Revenue Department.

The net cost (by function or business-type activity) is normally covered by general revenues (intergovernmental revenues or other revenue, etc.). Historically, the previous mode did not summarize or present net cost by function or activity. The Commission does not currently employ indirect cost allocation systems. The Commission's policy for when an expense is incurred for purposes for which both restricted and unrestricted assets are available is to utilize the restricted assets first.

This government-wide focus is more on the sustainability of the Commission as an entity and the change in aggregate financial position resulting from the activities of the current fiscal period.

The fund financial statements are similar to the financial statements presented in the previous accounting model. Emphasis here is on the major funds in either the governmental or business-type categories. Non-major funds (by category) or fund type are summarized into a single column. The General Fund is required to be a major program, and the Special Revenue Fund also is required to be a major fund. Therefore, there are no nonmajor funds. The Commission has no fiduciary funds, but if the Commission did, they would not be included in the government-wide financial statements.

The governmental fund statements are presented on a current financial resources and modified accrual basis of accounting. This presentation is deemed appropriate to (a) demonstrate legal compliance, (b) demonstrate the source and use of liquid resources, and (c) demonstrate how the Commission's actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented on the page following each statement, which briefly explains the adjustments necessary to transform the fund based financial statements into the governmental activities column on the governmental-wide presentation.

Interfund accounts which are on the fund financial statements have been eliminated in the government-wide financial statements. They consisted of \$4,133,300 and \$3,811,200 owed to the General Fund by the Telecommunications Access Special Revenue Fund for the operating transfers related to the budgets for the fiscal years ended June 30, 2008 and 2007, respectively, which had not been made as of June 30, 2008. They also include \$5,107,775 to correct an operating transfer made incorrectly during the year ended June 30, 2008. The total due from/ due to at June 30, 2008 was \$13,052,275.

#### C. Basis of Presentation

The financial transactions of the Commission are maintained on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, expenditures or expenses and other financing sources or uses. Government resources are allocated to, and accounted for, in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The various funds are summarized by type in the accompanying financial statements. The various funds are reported by generic classification within the financial statements.

The new reporting model, GASB Statement 34, sets forth minimum criteria for the determination of major funds based on a percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or governmental and enterprise combined. All these governmental funds have been classified as major funds by the Authority after considering the criteria for major funds. Only individual governmental or individual enterprise funds can be considered for major fund status.

#### 1. Governmental Fund Types

The focus of Governmental Fund measurement (in the Fund Financial Statements) is based upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the Governmental Funds of the Commission.

The Commission reports the following major governmental funds.

General Fund — The General Fund (SHARE FUND # 04600- nonreverting as of July 1, 2005) is the general operating fund of the Commission for Deaf and Hard-of-Hearing Persons. It is used to account for all financial resources except those required to be accounted for in another fund. This fund is nonreverting per Laws of 2006, Chapter 109, Section 10 (c).

Special Revenue Fund- The Special Revenue Fund (SHARE FUND # 08000-nonreverting) is the Telecommunications Access Fund, established pursuant to 63-9F-12 and is funded through telecommunications relay service surcharges, related penalties and gifts, grants, fees or bequests. This fund is nonreverting per Laws of 2006, Chapter 109, Section 10 (c).

#### 2. Non-Current Governmental Assets/Liabilities

GASB Statement #34 eliminated the presentation of Account Groups, but provides for these records to be maintained and incorporates the information into the Governmental Activities column in the government-wide Statement of Net Assets.

#### D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditure/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made, regardless of the measurement focus applied.

The Government-wide Financial Statements are presented on an accrual basis of accounting. The Governmental Funds in the Fund Financial Statements are presented on a modified accrual basis.

Modified Accrual - All governmental funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period which is considered within sixty days of year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general long-term debt, if any, is recognized when due.

In applying the "susceptible to accrual" concept to intergovernmental revenues pursuant to GASB Statement #33, which was also adopted as of July 1, 2001 by the Commission, the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenues when the applicable eligibility requirements including time requirements, are met. Resources transmitted before the eligibility requirements are met, under most circumstances, should be reported as advances by the provider and deferred revenue by the recipient.

#### E. Budgetary Accounting

The Commission follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. No later than September 1<sup>st</sup>, the Commission prepares a budget appropriation request by category to be presented to the next Legislature.
- 2. The appropriation request is submitted to the New Mexico Department of Finance and Administration's Budget Division (DFA) and to the Legislative Finance Committee (LFC).
- DFA makes recommendations and adjustments to the appropriation request which then becomes the Governor's proposal to the Legislature.
- 4. The LFC holds hearings on the appropriation request, also submitting recommendations and adjustments before presentation to the Legislature.
- 5. Both the DFA's and LFC's recommended appropriation proposals are presented to the Legislature for approval of the final budget plan.

- 6. Budget hearings are scheduled before the New Mexico House Appropriations and Senate Finance Committees. The final outcome of these hearings are incorporated into the General Appropriations Act.
- 7. The Act is signed into law by the Governor of the State of New Mexico within the legally prescribed time limit.
- 8. The Commission submits, no later than May 1, to DFA an annual operating budget by category and line item based upon the appropriations made by the Legislature. The DFA Budget Division reviews and approves the operating budget which becomes effective on July 1.
- 9. All subsequent budget adjustments must be approved by the Commission and the Director of the DFA Budget Division. The budget for the current year was properly amended.
- Legal budget control for expenditures and encumbrances is by category of line item. The Commission did overspend its other costs category by \$188,284 but did not overspend its budget in total.
- 11. Formal budgetary integration is employed as a management control device during the fiscal year for the General Fund and the Special Revenue Fund.
- 12. The budget is adopted on a modified accrual basis of accounting that is consistent with accounting principles generally accepted in the United States of America. This change was implemented with the laws of 2004, Chapter 114, Section 3, paragraph N and paragraph O. It is effective for fiscal years beginning July 1, 2004. However, there is a statutory exception per the General Appropriation Act, Laws of 2006, Chapter 109, Section 3, Subsections N and O. The budget is adopted on the modified accrual basis of accounting except for accounts payable accrued at the end of the fiscal year that do not get paid by the statutory deadline per Section 6-10-4 NMSA 1978. Those accounts payable must be paid out of the next year's budget. There were \$137,280 of these accounts payable at June 30, 2008. There were also \$355,000 in transfers to other state agencies included in payables for 2008 which were not paid until a later budget year.
- 13. The Commission's General Fund and Special Revenue Fund are not reverting funds per the Laws of 2006, Chapter 109, Section 10 (c).

#### F. Capital Assets

Property, plant and equipment including software, purchased or acquired is carried at historical cost or estimated historical cost. Contributed assets are recorded at the fair market values as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The State's capitalization policy, i.e., the dollar value above which asset acquisitions including software, are added to the capital accounts, is \$5,000 which is a change in policy effective July 1, 2005. However, all capital outlay purchases may not necessarily be capitalized. The Commission does not capitalize any interest in regards to its capital assets.

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives with no salvage value. The Commission utilizes Internal Revenue Service guidelines to estimate the useful lives on fixed assets as follows:

Machinery and Equipment	5 years
Computer equipment (including software)	4 to 8 years
Furniture and fixtures	10 years

GASB Statement #34 requires the recording and depreciation of infrastructure assets. Infrastructure assets include roads, bridges, traffic signals, etc. The Commission does not own any infrastructure assets.

#### G. Encumbrances Accounting

Encumbrances accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation and is employed as an extension of formal budgetary control in the General Fund and the Special Revenue Fund. Encumbrances not recorded as vouchers payable at year end lapse.

#### H. Compensated Absences Payable

Vacation and sick leave earned and not taken is cumulative; however, upon termination of employment, sick pay for such leave hours accumulated up to 600 hours is forfeited, and vacation pay is limited to payment for 240 hours. Vacation leave up to the maximum of 240 hours is payable upon separation from service at the employee's current hourly rate. Sick leave is payable semiannually to qualified employees for hours accumulated above 600 hours at a rate equal to 50 percent of their hourly rate, not to exceed 120 hours each semiannual period. Upon retirement, payment for sick leave is limited to 400 hours accumulated in excess of 600 hours at the 50 percent hourly rate. The compensated absences payable is included in the government-wide financial statements.

Qualified classified employees, per the schedule approved by the Commission, accumulate annual leave to a maximum of 240 hours as follows:

Years of Service	Hours Earned Per Pay Period
Less than 3 years	3.08
Between 3 and 7 years	3.69
Between 7 and 11 years	4.61
Between 11 and 15 years	5.54
Over 15 years	6.15

#### I. Due to State of New Mexico General Fund (Reversions)

The Commission does not have any reverting funds.

#### J. Reservations of Fund Balances

Reservations of fund balances on the Governmental funds are created to either (1) satisfy legal covenants that require that a portion of the fund balance be segregated or (2) identify the portion of the fund balance that cannot be appropriated for future expenditures. The only reservation of fund balance accounts at June 30, 2008 was:

Reserved for Telecommunications Access Act—Represents funds held in accordance with the Telecommunications Access Act.

#### K. Revenues, Expenditures and Expenses

Substantially all governmental fund revenues are accrued. No allowance for doubtful accounts for the Due from other state agencies was necessary because this amount was due from bond proceeds held by another state agency, and it is considered fully collectible by management.

Expenditures are recognized when the related fund liability is incurred.

#### L. Net Assets

The government-wide financial statements utilize a net asset presentation. Net Assets are categorized as invested in fixed assets, restricted and unrestricted.

Invested in Capital Assets - is intended to reflect the portion of net assets which are associated with non-liquid, capital assets less outstanding capital asset related debt. The net related debt is the debt less the outstanding liquid assets and any associated unamortized cost. The Commission did not have any related debt during the year ended June 30, 2008.

Unrestricted Net Assets - represent the net assets of the Commission at June 30, 2008 that are not invested in capital assets and that are not restricted.

Restricted for Telecommunications Access Act - represent the net assets reserved due to the Telecommunications Access Act.

#### M. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

#### 2. INVESTMENT (OVERDRAFT) ACCOUNTS AND INVESTMENT POLICY

Investment (Overdraft) Accounts With State Treasurer

The following is a summary of the investment (overdraft) accounts of the Authority with the New Mexico State Treasurer which represent the Authority's interest in the State of New Mexico General Fund Investment Pool as reported by the New Mexico Department of Finance and Administration (DFA):

	SHARE FUND Number	Financial Statement Balances
General Fund	60400-04600	\$ (9,759,723)
Telecommunications Access Special Revenue Fund Total	60400-08000	\$ 19,497,860 9,738,137

The New Mexico State Treasurer monitors the collateral for deposits held by it for other state entities, which would include the investment accounts of the Commission which represent the Commission's interest in the General Fund Investment Pool. The Office of the State Treasurer has its own separate annual independent audit in which the collateral pledged to secure these accounts is disclosed. That report may be obtained by writing to the State of New Mexico State Treasurer's Office, P.O. Box 608, Santa Fe, New Mexico 87504-0608. The Commission is not permitted to have any other investments, and the Commission did not have any other investments during the year ended June 30, 2008. There is no custodial risk in relations to the accounts at the Commission's level. The custodial risk would belong to the New Mexico State Treasurer.

#### 3. DUE FROM OTHER STATE AGENCY

The Telecommunications Access Special Revenue Fund (Fund) (Agency #60400, Fund #08000) was owed \$294,598 by the State of New Mexico, Taxation and Revenue Department (Agency #82600) at June 30, 2008 for taxes collected for this Fund but not yet remitted at June 30, 2008.

#### 4. CAPITAL ASSETS

A summary of changes in the capital assets for the year ended June 30, 2008 as follows:

Capital Assets		Balance at 6/30/2007	Additions	Deletions	<u>s_</u>	Balance at 6/30/2008
Machinery and equipment	\$	18,594	\$ -0	- \$ -	0- \$	18,594
Computer equipment		63,394	-0		0-	63,394
Furniture and fixtures		2,900	-0	- <b>-</b> (	0-	2,900
Total		84,888	-0		0-	84,888
Accumulated Depreciation						
Machinery and equipment		(14,805)	(1,64	1) -	0-	(16,446)
Computer equipment		(58,951)	(96	3) -	0-	(59,919)
Furniture and fixtures		(2,900)	-0	<u> </u>	0	(2,900)
Total accumulated depreciation	_	(76,656)	(2,609	9)	0-	(79,265)
Total Capital Assets,						
Net of Accumulated						
Depreciation	\$	8,232	\$ (2,60)	9)\$ -	<u>0- \$</u>	5,623

Depreciation expense for the year ended June 30, 2008 was \$2,609. All of the depreciation expense of \$2,609 was allocated to the Commission's general government function. All capitalized assets were depreciated during the year ended June 30, 2008.

#### 5. COMPENSATED ABSENCES PAYABLE

A summary of changes in the compensated absences payable for the year ended June 30, 2008 is as follows:

	Balance June 30, 		Increases		Decreases		Balance June 30, 2008		Due Within One Year	
Compensated Absences Payable	\$	12,950	\$	44,827	\$	(13,864)	\$	43,913	\$	43,913

\$43,913 has been classified as a current liability in the Statement of Net Assets. In prior years, the General Fund has been used to liquidate compensated absences. The General Fund is expected to continue to do so in the future.

#### 6. RETIREMENT PLAN

Plan Description. Substantially all of the full-time employees of the Commission participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement, disability benefits, survivor benefits, and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, New Mexico 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding Policy. Plan members are required to contribute 7.42% of their gross salary. The Commission is required to contribute 16.59% of the gross covered salary. The contribution requirements of plan members and the Commission are established under Chapter 10, Article 11 NMSA 1978. The requirements may be amended by acts of the Legislature. The Commission's contribution to PERA for the years ended June 30, 2008, 2007 and 2006 was \$103,943, \$73,075 and \$66,411, respectively, which was equal to the amount of the required contribution for each year.

#### 7. POST-EMPLOYMENT BENEFITS

Plan Description. The Commission contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit post-employment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate

schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at <a href="https://www.nmrhca.state.nm.us">www.nmrhca.state.nm.us</a>.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The statute requires each participating employer to contribute 1.3% of each participating employee's annual salary; each participating employee is required to contribute .65% of their salary. Employers joining the program after 1/1/98 are also required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

The RHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

The Commission's contributions to the RHCA for the years ended June 30, 2008, 2007 and 2006 were \$7,594, \$5,726 and \$5,204 respectively, which equal the required contributions for each year.

#### 8. INSURANCE COVERAGE

The Commission obtains coverage through the Risk Management Division of the State of New Mexico General Services Department. This coverage includes liability and civil rights, property, vehicle, employer bond, workers' compensation, group insurance and state unemployment. These coverages are designed to satisfy the requirements of the State Tort Claims Act. All employees of the Commission are covered by blanket fidelity bond and money securities coverage by the State of New Mexico for the period July 1, 2007, through June 30, 2008.

#### 9. COMMITMENTS - OPERATING LEASES

During the fiscal year ended June 30, 2008, the Commission had operating leases for a telephone system, a postage machine and two office building spaces. Effective September 13, 2004 and January 1, 2005, the Commission leased office spaces in Santa Fe and Albuquerque, respectively. Effective May 1, 2008, the Commission leased office space in Las Cruces. The five-year Santa Fe lease terminates September 12, 2009 and has an annual rental cost of \$22,856. The lease includes an option to renew for an additional five years subject to the same terms and conditions.

The ten-year Albuquerque lease terminates December 31, 2014 and has an annual rental cost of \$49,188. The lease includes an option to renew for two five-year renewals subject to the same terms and conditions.

The five-year Las Cruces lease terminates April 30, 2013 and its annual rental cost varies each year. The lease includes an option to renew for two five-year renewals subject to the same terms and conditions except for the amount of the rental cost which will vary.

Future rental expenditures for the initial term only under this leases are as follows:

	Payments						
Year Ending June 30		Santa Fe		Albuquerque		Las Cruces	Total
2009	\$	22,586	\$	49,188	\$	27,341	\$ 99,115
2010		11,430		49,188		27,790	88,408
2011		-0-		49,188		28,257	77,445
2012		-0-		49,188		28,735	77,923
2013		-0-		49,188		24,286	73,474
Thereafter		-0-		73,782		-0-	73,782
Total	\$	34,016	\$	319,722	\$	136,409	\$ 490,147

Effective with the Albuquerque office building lease mentioned above, the Commission leased a telephone system for sixty (60) months at \$365 per month. The lease terminates in December 2009, with an option to renew for an additional three years. The Commission also rents a postage meter, beginning December 29, 2004 at \$62 per month for 48 months.

Future minimum lease payments on the telephone system and postage meter are as follows:

Year Ending June 30,	Aı	nounts
2009	\$	2,006
Total	\$	2,006

Total lease expenditures for the fiscal year ended June 30, 2008 were \$101,085.

#### 10. TRANSFERS TO OTHER STATE AGENCIES

The Commission receives and makes operating transfers for various reasons. Transfers in are done to receive from the State of New Mexico, Taxation and Revenue Department taxes due to the Telecommunications Access Special Revenue Fund. Transfers out to DVR are done to provide a match for federal funds used to provide deaf and hard-of-hearing services. Other transfers out were made for purposes as listed.

	From	 To
State of New Mexico, Taxation and Revenue Department (Agency #82600)  Commission's Telecommunication Access Special Revenue Fund (Agency #60400, Fund #08000)  To transfer tax funds	\$ 3,147,937	\$ 3,147,937
Commission's General Fund (Agency #60400, Fund #04600) State of New Mexico, Division of Vocational Rehabilitation (DVR) (Agency #50000) To transfer funds to match federal funds used to provide deaf and hard-of-hearing services.	275,000	275,000

	From	To
Commission's General Fund (Agency #60400, Fund #04600) State of New Mexico Developmental Disabilities Planning Council (Agency #64700, Fund# 07900) To return unused grant funds	\$ 20,000	\$ 20,000
Commission's General Fund (Agency #60400, Fund #04600) State of New Mexico Human Services Department (Agency#63000, Fund #90100) To transfer funds per JPA for establishing a single web based portal for New Mexico for accessing various health programs.	50,000	50,000
Commission's General Fund (Agency #60400, Fund #04600) State of New Mexico Commission for the Blind (Agency #60600, Fund #04700) To transfer funds per JPA to fund NFB- Newsline service	80,000	80,000
Commission's General Fund (Agency #60400, Fund #04600) State of New Mexico Regulation and Licensing Department Signed Language Interpreting Practices Fund (Agency #42000, Fund #02011) To transfer funds as required by state statute.	180,000 t	180,000

#### 11. OPERATING TRANSFERS WITHIN THE AGENCY

Each year the Commission transfers funds from the Special Revenue Fund (SHARE# 08000) to the General Fund (SHARE#04600) to cover operating costs. The transfer is based on the legislatively approved budget. For fiscal year 2008, the amount of the transfer was \$4,133,300. It was not made before June 30, 2008 so interfund accounts have been utilized. The Commission also made an operating transfer during the year ended June 30, 2008 of \$5,107,775 from the General Fund (SHARE#04600) to the Special Revenue Fund (SHARE#08000). This transfer was incorrect, and its reversal has been included in the interfund accounts as of June 30, 2008.

#### 12. DUE TO OTHER STATE AGENCIES

At June 30, 2008, the Commission's General Fund (Agency # 060400, Fund #04600) owed other state agencies as follows:

	General <u>Fund</u>			
State of New Mexico, Division of Vocational Rehabilitation				
(Agency #50000)	\$	275,000		
State of New Mexico Regulation and Licensing Department Signed Language Interpreting Practices Fund (Agency #42000, Fund #02011)		180,000		
Language interpreting Fractices Fund (Agency #42000, Fund #02011)		180,000		
Total	<b>\$</b> .	455,000		

These amounts were owed for the transfers described in Note 10 to the financial statements.

#### 13. RECONCILIATION OF GAAP STATEMENT TO BUDGET STATEMENT

There is no need for a reconciliation for the Telecommunication Access Special Revenue Fund or for revenues of the General Fund. However, a reconciliation is needed for expenditures and other financing sources (uses) of the General Fund:

	General Fund
Expenditures per budget statement	\$ 3,195,826
Accounts payable- expenditures charged to 2008 budget but which were GAAP accounts payable at 6/30/07 Accounts payable- expenditures charged to 2009 budget but which	(244,528)
were GAAP accounts payable at 6/30/08	137,280
Expenditures per GAAP Statement	\$ 3,088,578
	 General Fund
Other financing sources (uses) per budget statement	\$ 3,923,300
Transfer to other state agency (DVR) the part which will be charged to 2009 budget but included in payables at June 30, 2008 for GAAP Transfer to other state agency State of New Mexico Regulation and	(175,000)
Licensing Department charged to later year budget but included in payables at June 30, 2008 for GAAP	(180,000)
Other financing sources (uses) per GAAP budget statement	\$ 3,568,300

ADDITIONAL INFORMATION
-SUPPORTING SCHEDULE

#### SCHEDULE OF MEMORADUM OF UNDERSTANDING AND JOINT POWERS AGREEMENTS

#### FOR THE YEAR ENDED JUNE 30, 2008

#### Memorandum of Understanding

#### **Participants**

State of New Mexico Commission for Deaf and Hard-of-Hearing Persons (Commission) and the State of New Mexico Public Education Department/Division of Vocational Rehabilitation (DVR).

#### Responsible Party for Operations

Commission for Deaf and Hard-of-Hearing Persons and Division for Vocational Rehabilitation.

#### Description

The Commission will pay \$567 per month to the DVR for the use of space of DVR in Las Cruces, New Mexico.

The agreement shall terminate on June 30, 2008, unless earlier terminated by mutual agreement of the parties. The agreement may be terminated by either of the parties for any reason whatsoever upon written notice delivered to the other party at least ten (10) days prior to the intended date of termination. By such termination none of the parties may nullify obligation already incurred for performance or failure to perform prior to the date of termination. The MOU may be amended in writing by mutual consent of both parties.

#### **Beginning and Ending Dates of Agreement**

July 1, 2007 to June 30, 2008

#### Total Estimated Amount of Project and Portion Applicable to the Commission

\$6,804 and \$6,804

#### **Amount Commission Contributed in FY 2008**

\$6,804

#### Audit Responsibility and Name of Government Agency where revenues and expenditures are reported

The Commission for Deaf and Hard-of-Hearing Persons for expenditures and DVR for revenue.

Commission for the Blind. Commission contributed \$80,000.

**OTHER REPORT** 

P.O. Box 25941 Albuquerque, New Mexico 87125 (505) 299-5233

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

State of New Mexico Commission for the Deaf and Hard-of-Hearing Persons Santa Fe, New Mexico

and

Mr. Hector H. Balderas New Mexico State Auditor Santa Fe, New Mexico

I have audited the financial statements of the governmental activities, each major fund and the respective budgetary comparisons of the General Fund and the Telecommunications Access Special Revenue Fund of the State of New Mexico, Commission for the Deaf and Hard-of-Hearing Persons (Commission) as of and for the year ended June 30, 2008 which collectively comprise the Commission's basic financial statements, and have issued my report thereon dated June 11, 2009. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Commission's internal control over financial reporting as a basis for designing my audit procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Commission's internal control over financial reporting.

My consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, I identified certain deficiencies in internal control over financial reporting that I consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency or combination of control deficiencies, that adversely affects the Commission's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Commission's financial statements that is more than inconsequential will not be prevented or detected by the Commission's internal control. I consider the following deficiencies described in the accompanying Schedule of Findings and Responses to be significant deficiencies in internal control over financial reporting: Items 2007-1, 2007-3, 2007-4, 2007-5, 2007-6, 2007-7, 2008-2, 2008-4, 2008-5, and 2008-6.

A material weakness is a significant deficiency, or combination of significant deficiencies, that result in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Commission's internal control.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, I consider items 2007-5, 2007-6, 2008-2, 2008-4 and 2008-5 to be material weaknesses.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under <u>Government Auditing Standards</u>.

However, I noted instances of noncompliance that are required to be reported under <u>Government Auditing Standards</u> paragraphs 5.14 and 5.16 and Section 12-6-5, NMSA, 1978, and which are described in the accompanying Schedule of Findings and Responses as items 2007-1, 2007-2, 2008-1, 2008-3, 2008-7 and 2008-8.

The Commission's response to the findings identified in my audit is described in the accompanying Schedule of State Compliance Findings and Responses. I did not audit the Commission's response and, accordingly, I express no opinion on it.

This report is intended for the information and use of the Commission, the management of the Commission, the State of New Mexico, Public School Capital Outlay Council, the State of New Mexico Department of Finance and Administration, the State of New Mexico Office of the State Auditor, the State of New Mexico Legislative Finance Committee, and the State of New Mexico Legislature and is not intended to be and should not be used by anyone other than these specified parties.

June 11, 2009

Puter W. Mottolo, CPA

# SCHEDULE OF STATE COMPLIANCE FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2008

#### 2007-1- LATE AUDIT REPORT

Statement of condition: The Commission's audit report was submitted late on June 25, 2009.

Criteria: The State Auditor's Rule, SAO Rule 2.2.2.9 A(3), requires the audits of State Agencies to be submitted by December 15, 2008.

Effect: The audit report was not available for management, regulations and legislators to utilize.

Cause: There were problems with the 2007 audit with the originally selected auditor as the contract was lost. Then there were problems contacting this auditor who subsequently left the audit field. The delay of the 2007 audit caused the 2008 audit to be late.

Recommendation: The Commission should establish procedures to ensure a timely audit report.

Management's Response: The Commission formed two committees assuming the responsibility in assuring that procedures are established. The Finance and Auditing Committees will oversee the function and work closely with the Executive Director.

#### 2007-2- FORM I-9

**Statement of condition:** Two Forms I-9, effective for the fiscal year ended June 30, 2008, were not signed by the employer but only by the employee.

**Criteria:** The Immigration Reform and Control Act of 1986 (IRCA) requires that a properly completed Form I-9 be on file for any employees hired after November 6, 1986.

Effect: The Commission was not in compliance with IRCA regulations regarding the Form I-9. An employer who fails to maintain properly completed Form I-9s can be fined \$100 per missing item for each form, up to \$1,000 per form, even if the employee is legally authorized to work in the United States.

Cause: Forms were apparently not reviewed after completion.

**Recommendation:** All of the Form I-9s should be properly completed.

Management's Response: Commission Finance staff will review the current procedures and make sure all I-9s are completed properly and in a timely manner as required.

#### 2007-3- POTENTIAL OVERPAYMENTS TO VENDORS

**Statement of finding:** During the audit for the fiscal ended June 30, 2007, out of a sample of seventy-six vouchers, three vouchers were noted as having potential overpayments:

# SCHEDULE OF STATE COMPLIANCE FINDINGS AND RESPONSES (Continued) FOR THE YEAR ENDED JUNE 30, 2008

- 1. Voucher No. 49- Potential overpayment of \$75. Voucher notes 3 hours times \$25 or \$75 but invoice is for \$150
- 2. Voucher No. 542- Potential overpayment of \$214.64. Voucher is for \$787.23, but \$214.64 is unsupported.
- 3. Voucher No. 603- Potential overpayment is \$170.10. Voucher is for \$3,111.68, but \$170.10 is unsupported.

During the fiscal year ended June 30, 2008, out of a sample of sixty vouchers, two vouchers were noted as having potential overpayments:

- Voucher No. 1314- Potential overpayment of \$38.02. Voucher is for \$1,088.05, but \$38.02 is unsupported.
- 2. Voucher No. 1808- Potential overpayment of \$19.84. Voucher is for \$1,017.22, but \$19.84 is unsupported.

**Criteria:** Supporting documentation should completely support the entire disbursement on a payment voucher.

Effect: Potential overpayments of a total of \$459.74 in 2007were noted on three payment vouchers, and potential overpayments of \$57.86 were noted on two payment vouchers in 2008.

Cause: Apparently, errors were made in comparing the payment vouchers to the supporting documentation.

**Recommendation:** Payment voucher review procedures should be reviewed to determine their effectiveness. The Commission should review all of payment vouchers and then request refunds or additional supporting documentation.

Management's Response: The Audit Committee will work closely with the Executive Director in reviewing the procedures and improve internal controls for this function.

#### 2007-4- NEGATIVE INVESTMENT ACCOUNT AND BUDGETED TRANSFER

**Statement of condition:** One of the Commission's investment (formerly cash) accounts was negative at June 30, 2008 and at June 30, 2007. The Commission also made an incorrect transfer between its funds of \$5,107,775 during the year ended June 30, 2008.

Criteria: Negative accounts should not be maintained without written approval from DFA in advance, per CFRAS Chapter 6, 3.2, D-2, as authorized by Section 6-5-2, NMSA 1978.

Effect: Cash management does not appear to be effective as possible.

## SCHEDULE OF STATE COMPLIANCE FINDINGS AND RESPONSES (Continued) FOR THE YEAR ENDED JUNE 30, 2008

Cause: The budgeted transfer between the two funds of the Commission was not made timely during either of the fiscal years ended June 30, 2008 and 2007. The incorrect transfer between the funds of the Commission caused one fund to become even more negative.

**Recommendation:** Funds should be transferred only when appropriate. Negative investment accounts should not be allowed to occur.

Management's Response: Commission Finance staff will provide the Executive Director a report at the end of each month monitoring the investment accounts as well as others to make sure negative balances do not occur.

#### 2007-5- USE OF CONTRACTS

Statement of condition: Many professional services and other services for amounts under \$20,000 were not supported by formal contracts during the fiscal years ended June 30, 2008 and 2007. Invoices for these services were usually approved by the Executive Director on an individual basis.

Criteria: All professional services and other services should be supported by formal contracts to the extent possible. These contracts should contain the rate to be paid, length and period of contract, listing of deliverables, and the total amount which may be paid.

Effect: Compliance with the State Procurement Code cannot be verified. Also, sufficiency of deliverables cannot be verified.

Cause: A prior administration thought that this was effective apparently.

**Recommendation:** All professional services and other services should be documented by a formal contract containing the elements described under criteria.

Management's Response: The Executive Director will work closely with administrative personnel to make sure that procedures are in place for a more effective system.

#### 2007-6- PERSONNEL FILES

**Statement of condition:** The Commission did not have complete personnel files available for inspection for the fiscal year ended June 30, 2008 and 2007 for all personnel. They did have files with timesheets and with paystubs. They also had a file with Form I-9s. They did not have any files supporting payroll deductions such as PERA applications and other items such as W-4s for all personnel.

Criteria: The Commission should have the proper documentation to support all deductions in their files.

Effect: Payroll deductions could not be verified.

Cause: Turnover of personnel appears to be the major cause.

# SCHEDULE OF STATE COMPLIANCE FINDINGS AND RESPONSES (Continued) FOR THE YEAR ENDED JUNE 30, 2008

**Recommendation:** Complete personnel files should be maintained.

**Management's Response:** The new Executive Director has been working on this case. The Human Resources manager will ensure that all files are up to date and a more efficient system in place.

#### 2007-7- PAYMENT OF CURRENT YEAR ACCOUNTS PAYABLE IN NEXT BUDGET YEAR

Statement of finding: The Commission paid \$137,280 and \$244,528 in expenditures related to fiscal years ended June 30, 2008, and 2007, respectively, in the next fiscal year. These expenditures of \$137,280 were charged to the 2009 budget year and were 4.3% of GAAP expenditures for the fiscal year ended June 30, 2008. These expenditures of \$244,528 were changed to the 2008 budget year and were 8.7% of GAAP expenditures for the fiscal year ended June 30, 2007.

Criteria: Expenditures should be charged to the proper budget year.

Effect: Budgeted expenditures were incorrect in each fiscal year. Vendors are apparently not being paid timely.

Cause: Turnover of significant personnel and the implementation of a new computer system were major causes.

**Recommendation:** The Commission should implement procedures to ensure that all significant accounts payable have been recorded for each year-end.

Management's Response: Commission Finance staff will develop a finance operation manual to be used for all finance staff to make sure all functional procedures are in place. The manual will be reviewed by the finance committee.

#### 2008-1- OVEREXPENDITURE OF BUDGET

Statement of finding: The Commission had expenditures in excess of budget by \$188,284 in the other costs budgetary category level of the General Fund.

Criteria: The budget, as approved and amended, is a legal document, and overexpenditure is not permitted per state statue. The level of control for state agencies is at the budgetary category level. The specific citations are Sections 6-6-6 and 6-3-8 NMSA 1978.

Effect: The Commission was in violation of state statute. The budgetary monitoring process was apparently not adequate.

Cause: There were unforeseen costs, and a BAR was not submitted timely.

**Recommendation:** Budget reports should be monitored, and BARs should be submitted timely to DFA's Budget Division.

# SCHEDULE OF STATE COMPLIANCE FINDINGS AND RESPONSES (Continued) FOR THE YEAR ENDED JUNE 30, 2008

Management's Response: The Finance Committee will work with the Finance section in developing a monthly forecast. This will allow the Executive Director and Chief Financial Officer monitor the budget closely.

#### 2008-2- RECEIVING REPORTS

**Statement of finding:** The Commission did not have receiving reports for most of its applicable payment vouchers. There was no acknowledgement as to whether goods or services had been received.

Criteria: If goods or services have been ordered and reviewed, personnel should sign a receiving report or the invoice certifying that the goods have been received or the services performed satisfactorily.

Effect: Payments could have been made for goods not received or services not performed.

Cause: Personnel did not perform the certifications as had been done in the prior year.

**Recommendation:** Receiving reports should be used where applicable. Receipt of goods and performance of services should always be performed by personnel of the Commission.

Management's Response: Upon receiving goods or services, personnel will sign the document and record the information in a daily log. The executive director will review the log on a weekly basis and initial after personnel reviews the log and documents with her.

#### 2008-3- JOINT POWERS AGREEMENT- BUDGETING

**Statement of finding:** The Commission entered into joint powers agreements in which they transferred \$50,000 to the State of New Mexico Human Services Department and \$80,000 to the State of New Mexico Commission for the Blind. Operating transfers were budgeted for \$455,000 by the Legislature, but the legislation specified two operating transfers as budgeted and did not include the \$50,000 or the \$80,000.

**Criteria:** The Commission should have prepared budget adjustment requests for the two joint powers agreements' operating transfers rather than make operating transfers not specified in the legislation.

Effect: If all operating transfers had occurred, the Commission would have been overbudget in that category.

Cause: Budget adjustment requests were not made because personnel of the Commission thought that they had sufficient budget.

Recommendation: A budget adjustment request should be prepared when this situation occurs.

# SCHEDULE OF STATE COMPLIANCE FINDINGS AND RESPONSES (Continued) FOR THE YEAR ENDED JUNE 30, 2008

Management's Response: The Executive Director will assign a staff member to be responsible for monitoring legislation and reviewing senate and house bills to ensure that action required by the legislation is followed. In addition, a financial report listing the required transfers will be monitored and incorporated into the forecast.

#### 2008-4- JOINT POWERS AGREEMENTS- APPROVAL

**Statement of finding:** The Commission had two joint powers agreements during the year ended June 30, 2008. There was a question as to the effective ending date for one agreement. Neither final agreement was approved by the Commission.

Criteria: Joint powers agreements should be approved by the Commission before becoming effective.

Effect: Significant payments may be made without the Commission's approval.

Cause: Management at that time apparently did not present them to the Commission.

**Recommendation:** All joint powers agreements should be approved by the Commission before becoming effective. All such agreements should have specific ending dates.

Management's Response: The Executive Director will submit a Joint Powers Agreement report to the Commission Finance Committee. Upon approval, the report will be reviewed by the Chair of the Finance Committee with the Commission for its approval.

#### 2008-5- BIDDING OF CONTRACTS

**Statement of finding:** The two largest contracts of the Commission expired on June 30, 2008. The contractors continued to perform services after the expiration date without a contract. The bidding process for these services was not started in a timely manner.

Criteria: Per the State Procurement Code, services should not be performed without a contract.

Effect: The Commission had to pay \$10,000 for an agreed-upon procedures engagement so that the contractors could be paid. The payments were delayed until such an engagement could be performed, and services could have been disrupted.

Cause: Management at that time failed to get the bidding process done timely.

**Recommendation:** Bidding processes should be done timely so that the contracts are in place before old contracts expire.

Management's Response: Commission staff received training in the bidding process and are on top of what is required to ensure that they are following the state procurement code.

## SCHEDULE OF STATE COMPLIANCE FINDINGS AND RESPONSES (Continued) FOR THE YEAR ENDED JUNE 30, 2008

#### **2008-6- COMP TIME**

**Statement of finding:** Two situations were noted where comp time had apparently been improperly given. There does not appear to have been a clear policy as to when comp time should be awarded.

Criteria: Comp time may be awarded for time worked without pay if properly approved.

Effect: Apparently, it was possible for persons to get comp time for other reasons.

Cause: Prior management did not apparently follow usual standards for awarding comp time.

**Recommendation:** The Commission should establish a standard policy for comp time. Management should monitor comp time to ensure compliance with the policy. The two situations should be completely researched, and then appropriate action should be taken.

Management's Response: The Policies and Procedures Committee will work with the Executive Director in the drafting of comp time as well as other needed policies and procedures.

#### 2008-7- MEMBERSHIP DUES

**Statement of finding:** The Commission had purchased numerous individual memberships for its staff in various organizations during the year ended June 30, 2008. It would be more effective if the Commission purchased agency rather than individual memberships in these organizations.

Criteria: An agency membership is more appropriate as it continues no matter which staff leave.

Effect: Costs of individual memberships may have exceeded the cost of an agency membership.

Cause: Prior management apparently preferred individual memberships.

Recommendation: Agency memberships should be utilized whenever cost effective.

Management's Response: Individual memberships have been eliminated. Only agency memberships will be allowed. The Policy and Procedures Committee will work with the Executive Director in drafting a policy as a guideline to help determine which organizations will qualify for agency membership.

#### 2008-8- ENROLLMENT IN RETIREE HEALTH CARE

**Statement of finding:** One employee tested out of fifteen was found not to be paying for retiree health care for the tested pay period and for the pay period before and after the tested pay period.

# SCHEDULE OF STATE COMPLIANCE FINDINGS AND RESPONSES (Continued) FOR THE YEAR ENDED JUNE 30, 2008

Criteria: Per the terms of the Retiree Health Care Act, she should have been paying for retiree health care.

Effect: Required withholding was not performed for all pay periods. She was paying retiree health care by the end of the fiscal year.

Cause: Apparently, she was not properly enrolled.

**Recommendation:** The Commission should review its procedures to ensure everyone who is required is promptly enrolled.

Management's Response: The Policy and Procedures Committee will review the procedures to ensure that not only the health care benefit is being covered but other benefits as well.

#### SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2008

2007-1-LATE AUDIT REPORT- Repeated.

2007-2-FORM I-9- Repeated.

2007-3-POTENTIAL OVERPAYMENTS TO VENDORS- Repeated.

2007-4-NEGATIVE INVESTMENT ACCOUNT AND BUDGETED TRANSFER- Repeated.

2007-5-USE OF CONTRACTS Repeated.

2007-6-PERSONNEL FILES Repeated.

2007-7-PAYMENT OF CURRENT YEAR ACCOUNTS PAYABLE IN NEXT BUDGET YEAR Repeated.

#### EXIT CONFERENCE FOR THE YEAR ENDED JUNE 30, 2008

An exit conference was held on June 23, 2009. Attending were the following:

#### State of New Mexico, Commission for the Deaf and Hard-of-Hearing Persons

Mr. Mark Apodaca, President of the Commission

Ms. Barbara J. Wood, Executive Director

Ms. Deborah Romero, Management Analyst

Ms. Joyce R. Croker, Business Operations Specialist

#### Independent Auditor

Mr. Chester W. Mattocks, CPA

Note: The financial statements presented in this report were substantially prepared by the independent auditor, Chester W. Mattocks, CPA.
