INDEPENDENT AUDITORS' REPORT

State of New Mexico
Commission for the Deaf and Hard of Hearing Persons
And
Mr. Hector H. Balderas
New Mexico State Auditor

We have audited the accompanying financial statements of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue fund of the Commission for the Deaf and Hard of Hearing Persons, as of and for the year ended June 30, 2012, which collectively comprise the Commission's basic financial statements as listed in the table of contents. We also have audited the budgetary comparisons for the major capital project fund presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2012, as listed in the table of contents. These financial statements are the responsibility of Commission for the Deaf and Hard of Hearing Persons' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the agency's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements of the Commission for the Deaf and Hard of Hearing Persons are intended to present the financial position and changes in financial position of only that portion of the governmental activities, each major fund, and the aggregate remaining fund information of the State of New Mexico that is attributable to the transactions of the Commission for the Deaf and Hard of Hearing Persons. They do not purport to, and do not, present fairly the financial position of the State of New Mexico as of June 30, 2012 or the changes in its financial position for the year ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Commission for the Deaf and Hard of Hearing Persons, as of June 30, 2012, and the respective changes in financial position thereof and the respective budgetary comparisons for the general fund and the special revenue fund for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to previously present fairly, in all material respects, as of June 30, 2012, the budgetary comparisons for the major capital project fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

(This page intentionally left blank.)

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2012 on our consideration of the Commission for the Deaf and Hard of Hearing Persons' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management has omitted *Management's Discussion and Analysis* that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Our audit was conducted for the purpose of forming opinions on the basic financial statements, the combining and individual fund financial statements and the budgetary comparisons. The additional schedules listed as "other supplemental information" in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Capital Outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which depreciation exceeds capital outlays for the period.

The issuance of long-term debt (e.g., bonds, notes, leases) provides current financial debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities:

STATE OF NEW MEXICO
COMMISSION FOR DEAF & HARD OF HEARING PERSONS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 1. History and Organization

The Commission for Deaf and Hard-of-Hearing Persons (Commission) was created by Laws of 1991, Chapter 72 (Section 28-11B-1 to 28-11B-4). The Commission consists of seven members, a majority of whom are deaf or hard-of-hearing persons, including three ex-officio members and four members appointed by the governor.

The ex-officio members are the president of the New Mexico Association for the deaf or his designee; the superintendent of the New Mexico school for the deaf or his designee; and, the director of the vocational rehabilitation division of the state department of public education or his designee who shall be knowledgeable in areas of deafness. Appointed members are a parent of a deaf or hard-of-hearing child; a professional person who is deaf or hard-of-hearing; a deaf or hard-of-hearing person who resides in southern New Mexico; and, a deaf or hard-of-hearing person who resides in northern New Mexico.

The Commission's primary purpose is to identify the needs of the deaf and hard-of-hearing population of New Mexico, educate state agencies about deafness, coordinate services with other state agencies for the deaf, advocate equal access and opportunities, provide continuing education for deaf adults, assist in the development of state-wide interpreter referral services and coordinate the certification and evaluation process for interpreters.

In addition, until June 30, 2005, the Commission, along with the General Services Department (GSD), also had administrative oversight of the State's Telecommunications Relay, including full administration of the Equipment Distribution Program under Laws of 1993, Chapter 54.

Effective July 1, 2005, Laws of 2004, Chapter 106, transferred the administration of the Telecommunications Access Act from the General Services Department to the Commission for Deaf and Hard-of-Hearing Persons and provided that the Telecommunications Access Fund is appropriated to the Commission for the purposes of carrying out the provisions of the Telecommunications Access Act. All records, equipment, supplies and other property of the General Services Department relating to the Department's duties pursuant to the Telecommunications Access Act were transferred to the Commission. All General Services Department contracts relating to the Department's duties pursuant to the Telecommunications Access Act are binding on the Commission. Sections 63-9F-5 and 63-9F-7 NMSA 1978 (being Laws 1993, Chapter 54, Sections 5 and 7, as amended) were repealed.

NOTE 2. Summary of Significant Accounting Policies

The financial statements for the Commission have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement #34 "Basic Financial Statements and Management Discussion and Analysis for State and Local Governments." This Statement provided for the most significant change in financial reporting in over twenty years.

The Commission implemented the provisions of GASB #34 effective July 1, 2001. As a part of this Statement, there is a new reporting requirement regarding the government's infrastructure (road, bridges, etc.) The Commission does not own any infrastructure assets and therefore is unaffected by this requirement. The Commission also implemented the provisions of the later related GASB statements #37 and #38 which affect GASB #34 and its implementation.

STATE OF NEW MEXICO
COMMISSION FOR DEAF & HARD OF HEARING PERSONS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 2. Summary of Significant Accounting Policies (continued)

A. Financial Reporting Entity

The Commission is a governmental entity in accordance with Governmental Accounting Standards Board (GASB) Statement No. 39, which amended GASB 14 effective for fiscal years beginning after June 30, 2003. The financial reporting entity as defined by GASB No. 39 consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. This definition of the reporting entity is based primarily on the notion of the financial accountability as the "cornerstone of all financial reporting in government."

A primary government is any state government or general-purpose local government, consisting of all the organizations that make up its legal entity. All funds, organizations, institutions, agencies, departments, and offices that are not legally separate are, for financial reporting purposes, part of the primary government. The Commission, therefore, is part of the primary government of the State of New Mexico, and its financial data should be included with the financial data of the State. However, New Mexico does not at present issue an audited Comprehensive Annual Financial Report inclusive of all agencies of the primary government.

The Audit Act, Sections 12-6-1 through 12-6-14, NMSA 1978, requires the financial affairs of every agency to be thoroughly examined and audited each year, and a complete written report to be made. Moreover, the New Mexico State Auditor requires that each agency shall prepare financial statements in accordance with accounting principles generally accepted in the United States of America. As a result, the Commission has prepared and issued its own audited, agency Annual Financial Report.

Included within the Commission for this purpose are the following: All of the programs that are administered and/or controlled by the Commission have been included.

No entities were noted that should be considered component units of the Commission. No entities were specifically excluded from the Commission because no entities were noted as meeting any of the criteria for potential inclusion.

The Commission does not have any fiduciary funds or any component units that are fiduciary in nature. If the Commission did have any such funds, they would not be included in the government-wide financial statements.

B. Basic Financial Statements - GASB Statement #34

The basic financial statements include both government-wide (based on the Commission as a whole) and fund financial statements. The new reporting model focus is on either the Commission as a whole or major individual funds (within the fund financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type activities. In the government-wide Statement of Net Assets, both the governmental and business-type activities columns are presented on a consolidated basis by column, and are reflected on a full accrual, economic resources basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. The Commission did not have any business-type activities during the year ended June 30, 2012, and the Commission has decided not to apply any FASB pronouncements issued after November 30, 1989.

The government-wide Statement of Activities reflects both the gross and net cost per functional category, which are otherwise being supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. The program revenues must be directly associated with the function or a business-type activity. The Commission had no program revenues during the year ended June 30, 2012. The Commission includes only one function (general government).

However, the Commission did receive telecommunications access relay taxes during the year ended June 30, 2012. Revenue is recognized when taxes are collected by the State of New Mexico Taxation and Revenue Department.

STATE OF NEW MEXICO
COMMISSION FOR DEAF & HARD OF HEARING PERSONS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 2. Summary of Significant Accounting Policies (continued)

The net cost (by function or business-type activity) is normally covered by general revenues (intergovernmental revenues or other revenue, etc.). Historically, the previous mode did not summarize or present net cost by function or activity. The Commission does not currently employ indirect cost allocation systems. The Commission's policy for when an expense is incurred for purposes for which both restricted and unrestricted assets are available is to utilize the restricted assets first.

This government-wide focus is more on the sustainability of the Commission as an entity and the change in aggregate financial position resulting from the activities of the current fiscal period.

The fund financial statements are similar to the financial statements presented in the previous accounting model. Emphasis here is on the major funds in either the governmental or business-type categories. Non-major funds (by category) or fund type are summarized into a single column. The General Fund is required to be a major program, and the Special Revenue Fund also is required to be a major fund. The Capital Project Fund is also considered a major fund, as determined by management. Therefore, there are no non-major funds. The Commission has no fiduciary funds, but if the Commission did, they would not be included in the government-wide financial statements.

The governmental fund statements are presented on current financial resources and modified accrual basis of accounting. This presentation is deemed appropriate to (a) demonstrate legal compliance, (b) demonstrate the source and use of liquid resources, and (c) demonstrate how the Commission's actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented on the page following each statement, which briefly explains the adjustments necessary to transform the fund based financial statements into the governmental activities column on the government-wide presentation. Interfund accounts which are on the fund financial statements have been eliminated in the government-wide financial statements.

C. Basis of Presentation

The financial transactions of the Commission are maintained on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, expenditures or expenses and other financing sources or uses. Government resources are allocated to, and accounted for, in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The various funds are summarized by type in the accompanying financial statements. The various funds are reported by generic classification within the financial statements.

The new reporting model, GASB Statement 34, sets forth minimum criteria for the determination of major funds based on a percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or governmental and enterprise combined. All these governmental funds have been classified as major funds by the Authority after considering the criteria for major funds. Only individual governmental or individual enterprise funds can be considered for major fund status.

1. Governmental Fund Types

The focus of Governmental Fund measurement (in the Fund Financial Statements) is based upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the Governmental Funds of the Commission.

The Commission reports the following major governmental funds.

General Fund – The General Fund (SHARE FUND # 04600- nonreverting as of July 1, 2005) is the general operating fund of the Commission for Deaf and Hard-of-Hearing Persons. It is used to account for all financial resources except those required to be accounted for in another fund. This fund is nonreverting per Laws of 2006, Chapter 109, Section 10 (c).

NOTE 2. Summary of Significant Accounting Policies (continued)

Special Revenue Fund – The Special Revenue Fund (SHARE FUND # 08000-nonreverting) is the Telecommunications Access Fund, established pursuant to 63-9F-12 and is funded through telecommunications relay service surcharges, related penalties and gifts, grants, fees or bequests. This fund is nonreverting per Laws of 2006, Chapter 109, Section 10 (c).

Capital Outlay Fund – The Capital Outlay Fund (SHARE FUND # 93100-reverting 6/30/2013) is the Deaf Cultural Center Fund, established pursuant to the 50th Legislature, 1st Session 2011. This funding is to be used for the construction of a Deaf Cultural Multipurpose Center. The Fund is funded primarily by an appropriation from the State General Fund and any unused funds at the end of the fiscal year revert back to the State General Fund.

2. Non-Current Governmental Assets/Liabilities

GASB Statement #34 eliminated the presentation of Account Groups, but provides for these records to be maintained and incorporates the information into the Governmental Activities column in the government-wide Statement of Net Assets.

D. *Basis of Accounting*

Basis of accounting refers to the point at which revenues or expenditure/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made, regardless of the measurement focus applied.

The Government-wide Financial Statements are presented on an accrual basis of accounting. The Governmental Funds in the Fund Financial Statements are presented on a modified accrual basis.

Modified Accrual - All governmental funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. “Available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period which is considered within sixty days of year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general long-term debt, if any, is recognized when due.

In applying the “susceptible to accrual” concept to intergovernmental revenues pursuant to GASB Statement #33, which was also adopted as of July 1, 2001 by the Commission, the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenues when the applicable eligibility requirements including time requirements, are met. Resources transmitted before the eligibility requirements are met, under most circumstances, should be reported as advances by the provider and deferred revenue by the recipient.

E. *Budgetary Accounting*

The Commission follows these procedures in establishing the budgetary data reflected in the financial statements:

1. No later than September 1st, the Commission prepares a budget appropriation request by category to be presented to the next Legislature.
2. The appropriation request is submitted to the New Mexico Department of Finance and Administration's Budget Division (DFA) and to the Legislative Finance Committee (LFC).
3. DFA makes recommendations and adjustments to the appropriation request which then becomes the Governor's proposal to the Legislature.
4. The LFC holds hearings on the appropriation request, also submitting recommendations and adjustments before presentation to the Legislature.

NOTE 2. Summary of Significant Accounting Policies (continued)

5. Both the DFA's and LFC's recommended appropriation proposals are presented to the Legislature for approval of the final budget plan.
6. Budget hearings are scheduled before the New Mexico House Appropriations and Senate Finance Committees. The final outcome of these hearings are incorporated into the General Appropriations Act.
7. The Act is signed into law by the Governor of the State of New Mexico within the legally prescribed time limit.
8. The Commission submits, no later than May 1, to DFA an annual operating budget by category and line item based upon the appropriations made by the Legislature. The DFA - Budget Division reviews and approves the operating budget which becomes effective on July 1.
9. All subsequent budget adjustments must be approved by the Commission and the Director of the DFA - Budget Division. The budget for the current year was properly amended.
10. Legal budget control for expenditures and encumbrances is by category of line item.
11. Formal budgetary integration is employed as a management control device during the fiscal year for the General Fund and the Special Revenue Fund.
12. The budget is adopted on a modified accrual basis of accounting that is consistent with accounting principles generally accepted in the United States of America. This change was implemented with the laws of 2004, Chapter 114, Section 3, paragraph N and paragraph O. It is effective for fiscal years beginning July 1, 2004. However, there is a statutory exception per the General Appropriation Act, Laws of 2006, Chapter 109, Section 3, Subsections N and O. The budget is adopted on the modified accrual basis of accounting except for accounts payable accrued at the end of the fiscal year that do not get paid by the statutory deadline per Section 6-10-4 NMSA 1978. Those accounts payable must be paid out of the next year's budget. There were \$2,304 of these accounts payable at June 30, 2012.
13. The Commission's General Fund and Special Revenue Fund are not reverting funds per the Laws of 2006, Chapter 109, Section 10 (c).

F. Assets, Liabilities and Net Assets or Equity

Receivables and Payables: All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Capital Assets: Property, plant and equipment including software, purchased or acquired is carried at historical cost or estimated historical cost. Contributed assets are recorded at the fair market values as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The State's capitalization policy, i.e., the dollar value above which asset acquisitions including software, are added to the capital accounts, is \$5,000 which is a change in policy effective July 1, 2005. However, all capital outlay purchases may not necessarily be capitalized. The Commission does not capitalize any interest in regards to its capital assets.

NOTE 2. Summary of Significant Accounting Policies (continued)

F.Assets, Liabilities and Net Assets or Equity (continued)

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives with no salvage value. The Commission utilizes Internal Revenue Service guidelines to estimate the useful lives on fixed assets as follows:

Machinery and Equipment	5 years
Computer equipment (including software)	3 to 8 years
Furniture and fixtures	10 years

GASB Statement #34 requires the recording and depreciation of infrastructure assets. Infrastructure assets include roads, bridges, traffic signals, etc. The Commission does not own any infrastructure assets.

Compensated Absences: Vacation and sick leave earned and not taken is cumulative; however, upon termination of employment, sick pay for such leave hours accumulated up to 600 hours is forfeited, and vacation pay is limited to payment for 240 hours. Vacation leave up to the maximum of 240 hours is payable upon separation from service at the employee’s current hourly rate. Sick leave is payable semiannually to qualified employees for hours accumulated above 600 hours at a rate equal to 50 percent of their hourly rate, not to exceed 120 hours each semiannual period. Upon retirement, payment for sick leave is limited to 400 hours accumulated in excess of 600 hours at the 50 percent hourly rate. The compensated absences payable is included in the government-wide financial statements.

Qualified classified employees, per the schedule approved by the Commission, accumulate annual leave to a maximum of 240 hours as follows:

<u>Years of Service</u>	<u>Hours Earned Per Pay Period</u>
Less than 3 years	3.08
Between 3 and 7 years	3.69
Between 7 and 11 years	4.61
Between 11 and 15 years	5.54
Over 15 years	6.15

Restrictions of Fund Balances: Restrictions of fund balances on the Governmental funds are created to either (1) satisfy legal covenants that require that a portion of the fund balance be segregated or (2) identify the portion of the fund balance that cannot be appropriated for future expenditures. The restrictions of fund balance accounts at June 30, 2012 were:

Restricted for Telecommunications Access Act – Represents funds held in accordance with the Telecommunications Access Act.

Restricted for Deaf Cultural Center – Represents funds held in accordance with the for use by the Deaf Cultural Center Capital Outlay Fund.

Net Assets: The government-wide financial statements utilize a net asset presentation. Net Assets are categorized as invested in capital assets, restricted and unrestricted.

Invested in capital assets, net of related debt – is intended to reflect the portion of net assets which are associated with non-liquid, capital assets less outstanding capital asset related debt. The net related debt is the debt less the outstanding liquid assets and any associated unamortized cost. The Commission did not have any related debt during the year ended June 30, 2012.

F.Assets, Liabilities and Net Assets or Equity (continued)

Restricted for Telecommunications Access Act – represent the net assets restricted due to the Telecommunications Access Act.

Restricted for Deaf Cultural Center – represent the net assets restricted for the Deaf Cultural Center Capital Outlay Fund.

Unrestricted Net Assets - represent the net assets of the Commission at June 30, 2012 that are not invested in capital assets and that are not restricted.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

G. Encumbrances Accounting

Encumbrances accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation and is employed as an extension of formal budgetary control in the General Fund and the Special Revenue Fund. Encumbrances not recorded as vouchers payable at year end lapse.

NOTE 3. Investment (Overdraft) Accounts and Investment Policy

Investment (Overdraft) Accounts with State Treasurer

The following is a summary of the investment (overdraft) accounts of the Authority with the New Mexico State Treasurer at June 30, 2012 which represents the Commission’s interest in the State of New Mexico General Fund Investment Pool as reported by the New Mexico Department of Finance and Administration (DFA):

	SHARE FUND Number	Financial Statement Balances
	<u> </u>	<u> </u>
General Fund	60400-04600	\$ (4,156,411)
Telecommunications Access Special Revenue Fund	60400-08000	5,786,255
Deaf Cultural Center Capital Outlay Fund	60400-93100	<u>100,000</u>
Total		<u><u>\$ 1,729,844</u></u>

The New Mexico State Treasurer monitors the collateral for deposits held by it for other state entities, which would include the investment accounts of the Commission which represent the Commission’s interest in the General Fund Investment Pool. The Office of the State Treasurer has its own separate annual independent audit in which the collateral pledged to secure these accounts is disclosed. That report may be obtained by writing to the State of New Mexico State Treasurer's Office, P.O. Box 608, Santa Fe, New Mexico 87504-0608. The Commission is not permitted to have any other investments, and the Commission did not have any other investments during the year ended June 30, 2012. There is no custodial risk in relations to the accounts at the Commission’s level. The custodial risk would belong to the New Mexico State Treasurer.

For additional GASB 40 disclosure information regarding cash held by the New Mexico State Treasurer, the reader should see the separate audit report for the New Mexico State Treasurer's Office for the fiscal year ended June 30, 2012.

NOTE 3. Investment (Overdraft) Accounts and Investment Policy (continued)

General Fund Investment Pool Not Reconciled

In June 2012 an independent expert diagnostic report revealed that the General Fund Investment Pool balances have not been reconciled at the business unit/fund level since the inception of the Statewide Human resources, Accounting, and Management Reporting system (SHARE) system in July of 2006. The Diagnostic report is available in the Resources section of the Cash Control page of the New Mexico Department of Finance & Administration's website at: http://www.nmdfa.state.nm.us/Cash_Control.aspx. The document title is Current State Diagnostic of Cash Control.

The General Fund Investment Pool is the State of New Mexico's main operating account. State revenues such as income taxes, sales taxes, rents and royalties, and other recurring revenues are credited to the General Fund Investment Pool. The fund also comprises numerous State agency accounts whose assets, by statute (Section 8-6-3 NMSA 1978), must be held at the State Treasury.

As of June 30, 2012, the General Fund Investment Pool has not been reconciled at the business unit/fund level. Essentially, independent, third-party verification/confirmation of the Commission for Deaf & Hard of Hearing Person's balances at the business unit/fund level is not possible.

Under the direction of the State Controller/Financial Control Division Director, the Financial Control Division of the New Mexico Department of Finance & Administration (DFA/FCD) is taking aggressive action to resolve this serious problem. DFA/FCD has commenced the Cash Management Remediation Project (Remediation Project) in partnership with the New Mexico State Treasurer's Office, the New Mexico Department of Information Technology, and a contracted third party PeopleSoft Treasury expert.

The purpose of the Remediation Project is to design and implement the changes necessary to reconcile the General Fund Investment Pool in a manner that is complete, accurate, and timely. The Remediation Project will make changes to the State's current SHARE system configuration, cash accounting policies and procedures, business practices, and banking structure. The scheduled implementation date for the changes associated with the Remediation Project is February 1, 2013. An approach and plan to address the population of historical reconciling items will be developed during the Remediation Project, but a separate initiative will be undertaken to resolve the historical reconciling items.

The initial phase of the Remediation Project, completed on October 11, 2012, focused on developing a project plan and documenting current statewide business processes. The work product of the initial phase of the Remediation Project is a document entitled Cash Management Plan and Business Processes. This document is available on the Cash Control page of the New Mexico Department of Finance & Administration's website at: http://www.nmdfa.state.nm.us/Cash_Control.aspx.

Section 6-5-2.1(J) NMSA 1978 requires DFA to complete, on a monthly basis, reconciliation with the balances and accounts kept by the state treasurer and adopt and promulgate rules regarding reconciliation for state agencies. The Commission adheres to the standards established in the Cash Management Function of the Manual of Model Accounting Practices which was issued by the New Mexico Department of Finance and Administration – Financial Control Division. The Commission has taken every reasonable measure within its control to ensure that its cash balances in SHARE are correct.

Interest in the General Fund Investment Pool

State law (Section 8-6-3 NMSA 1978) requires the Commission's cash be managed by the New Mexico State Treasurer's Office. Accordingly, the investments of the Commission consist of an interest in the General Fund Investment Pool managed by the New Mexico State Treasurer's Office.

Interest Rate Risk - The New Mexico State Treasurer's Office has an investment policy that limits investment maturities to five years or less on allowable investments. This policy is means of managing exposure to fair value

losses arising from increasing interest rates. This policy is reviewed and approved annually by the New Mexico State Board of Finance.

Credit risk - The New Mexico State Treasurer pools are not rated.

NOTE 4. Due From Other State Agency and Other Receivable

The Telecommunications Access Special Revenue Fund (Agency #60400, Fund #08000) was owed \$260,367 by the State of New Mexico, Taxation and Revenue Department (Agency #82600) at June 30, 2012 for taxes collected for this Fund but not yet remitted at June 30, 2012.

The General Fund (Agency #60400, Fund #04600) was owed a miscellaneous receivable in the amount of \$520.

NOTE 5. Capital Assets

A summary of changes in the capital assets for the year ended June 30, 2012 as follows:

Depreciation expense for the year ended June 30, 2012 was \$4,924. All of the depreciation expense of \$4,924 was allocated to the Commission's general government function.

NOTE 6. Compensated Absences

A summary of changes in the compensated absences payable for the year ended June 30, 2012 is as follows:

	Balance			Balance	Due
	June 30,	Increases	Decreases	June 30,	Within
	2011			2012	One Year
Compensated Absences Payable	\$ 44,205	\$ 20,978	\$ 24,931	\$ 40,252	\$ 40,252

\$44,252 has been classified as a current liability in the Statement of Net Assets. In prior years, the General Fund has been used to liquidate compensated absences. The General Fund is expected to continue to do so in the future.

NOTE 7. Retirement Plan

Plan Description. Substantially all of the full-time employees of the Commission participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement, disability benefits, survivor benefits, and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, New Mexico 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding Policy. Plan members are required to contribute 10.67% of their gross salary. The Commission is required to contribute 13.34% of the gross covered salary. The contribution requirements of plan members and the Commission are established under Chapter 10, Article 11 NMSA 1978. The requirements may be amended by acts of the Legislature. The Commission's contribution to PERA for the years ended June 30, 2012, 2011 and 2010 were \$90,563, \$90,966 and \$92,085, respectively, which was equal to the amount of the required contribution for each year.

NOTE 8. Post-Employment Benefits

Plan Description. The Commission contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit post-employment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. During the fiscal year ended June 30, 2012, the statute required each participating employer to contribute 1.834% of each participating employee's annual salary; each participating employee was required to contribute .917% of their salary. In the fiscal year ending June 30, 2013 the contribution rates for employees and employers will rise as follows:

Also, employers joining the program after 1/1/98 are also required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

NOTE 8. Post-Employment Benefits (continued)

The RHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

The Commission's contributions to the RHCA for the years ended June 30, 2012, 2011 and 2010 were \$9,878, \$9,988 and \$7,909 respectively, which equal the required contributions for each year.

NOTE 9. Insurance Coverage

The Commission obtains coverage through the Risk Management Division of the State of New Mexico General Services Department. This coverage includes liability and civil rights, property, vehicle, employer bond, workers' compensation, group insurance and state unemployment. These coverages are designed to satisfy the requirements of the State Tort Claims Act. All employees of the Commission are covered by blanket fidelity bond and money securities coverage by the State of New Mexico for the period July 1, 2011, through June 30, 2012.

NOTE 10. Operating Leases

During the fiscal year ended June 30, 2012, the Commission had operating leases for a copy machine and three office building spaces. Effective September 13, 2004 and January 1, 2005, the Commission leased office spaces in Santa Fe and Albuquerque, respectively. Effective May 1, 2008, the Commission leased office space in Las Cruces.

The Santa Fe Office space was renewed in for Fiscal year 2012 and has a yearly rent expense of \$3,600.

The ten-year Albuquerque lease terminates December 31, 2014 and has an annual rental cost of \$76,081. The lease includes an option to renew for two five-year renewals subject to the same terms and conditions.

The five-year Las Cruces lease terminates April 30, 2013 and its annual rental cost varies each year. The lease includes an option to renew for two five-year renewals subject to the same terms and conditions except for the amount of the rental cost which will vary.

The Commission also has operating leases for four vehicles with varying lengths and payments. The total lease payments for these vehicles for the year ending June 30, 2012 is \$7,368.

For the year ended June 30, 2012 operating lease expenses consisted of the following amounts:

<u>Xerox Copier</u>	<u>Santa Fe</u>	<u>Albuquerque</u>	<u>Las Cruces</u>	<u>Vehicles</u>	<u>Total</u>
\$ 5,384	\$ 3,600	\$ 76,081	\$ 29,062	\$ 7,368	\$ 121,495

NOTE 11. Transfers to Other State Agencies

The Commission receives and makes operating transfers for various reasons. Transfers in are done to receive from the State of New Mexico, Taxation Revenue Department taxes due to the Telecommunications Access Special Revenue Fund. Transfers out to DVR are done to provide a match for federal funds used to provide deaf and hard of hearing services. Other transfers out were made for purposes listed.

NOTE 12. Interfund Receivables and Payables

The Commission recorded a temporary interfund receivable and payable from the Special Revenue Fund (SHARE# 08000) to the General Fund (SHARE #04600) to cover operating costs. For fiscal year 2012, the amount of the interfund was \$3,162,472.

NOTE 13. Deficit in General Fund

The General Fund had a deficit fund balance of \$7,667,887 at June 30, 2012. This resulted because the investment overdraft accounts were high and the legislative budgeted transfer was not enough to cover the balance.

NOTE 14. Capital Outlay Appropriation

Pursuant to "Severance Tax Bonds, Laws of 2009, Chapter 125, Section 12", the Commission was appropriated \$100,000 to begin the planning stages of constructing a Deaf Cultural Center. The appropriation period is July 2011 through June 2013. During the year ended June 30, 2012, the Commission did not expend any money from this fund leaving an unexpended and unencumbered balance of \$100,000.

NOTE 15. Subsequent Accounting Standard Pronouncements

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34*, which is effective for financial statement periods beginning after June 15, 2012. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity.

NOTE 15. Subsequent Accounting Standard Pronouncements (continued)

The requirements of Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements. This Statement modifies certain requirements for inclusion of component units in the financial reporting entity and amends the criteria for reporting component units as if they were part of the primary government in certain circumstances.

In December of 2010, the GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which is effective for financial statements for periods beginning after December 15, 2011. The objective of this Statement is to incorporate into the GASB’s authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements:

1. Financial Accounting Standards Board (FASB) Statements and Interpretations
2. Accounting Principles Board Opinions
3. Accounting Research Bulletins of the American Institute of Certified Public Accountants’ (AICPA) Committee on Accounting Procedure.

The requirements in this Statement will improve financial reporting by contributing to the GASB’s efforts to codify all sources of generally accepted accounting principles for state and local governments so that they derive from a single source.

NOTE 16. Governmental Fund Balance

Fund Balance: In the fund financial statements, governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Some governments may not have policies or procedures that are comparable to those policies that underlie the classifications and therefore would not report amounts in all possible fund balance classifications.

In the governmental financial statements, fund balance is classified and is displayed in five components:

Nonspendable: Consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted: Consists of amounts that are restricted to specific purposes as a result of a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed: Consist of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action (for example, legislation, resolution, ordinance) it employed to previously commit those amounts.

Assigned: Consist of amounts that are constrained by the government's *intent* to be used for specific purposes, but are neither restricted nor committed. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

Unassigned: Represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

Detail relating to the fund balance classifications is displayed below:

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

State of New Mexico
Commission for the Deaf and Hard of Hearing Persons
And
Mr. Hector H. Balderas
New Mexico State Auditor

We have audited the financial statements of the governmental activities, each major fund, the aggregate remaining fund information, the budgetary comparisons of the general fund and major special revenue fund, and the major capital project fund of the Commission for the Deaf and Hard of Hearing Persons as of and for the year ended June 30, 2012, and have issued our report thereon dated December 12, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Commission is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Commission for the Deaf and Hard of Hearing Persons' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying Schedule of Findings and Responses that we consider to be significant deficiencies in internal control over financial reporting as items 2009-01. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission for the Deaf and Hard of Hearing Persons' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that are required to be reported under *Government Auditing Standards* paragraphs 5.14 and 5.16, and Section 12-6-5, NMSA 1978, which are described in the accompanying schedule of findings and responses as findings 2010-02 and 2010-05.

The Commission's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the agency's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the audit committee, management, others within the organization, the Office of the State Auditor, and the Department of Finance and Administration and the legislature and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS AND RESPONSES
JUNE 30, 2012

Section I – Summary of Audit Results

Financial Statements:

1. Type of auditors' report issued	Unqualified
2. Internal control over financial reporting:	
a. Material weakness identified?	No
b. Significant deficiency identified not considered to be a material weakness?	Yes
c. Noncompliance material to financial statements noted?	No

Section II – Financial Statement Findings

FS 2009-01 Deficit Fund Balance – Repeated – Significant Deficiency

Condition: The Commission had a deficit fund balance of \$7,667,887 in its general fund at June 30, 2012.

Criteria: Deficit fund balances are not permitted.

Effect: The Commission will have to eliminate the deficit.

Cause: The investment overdraft accounts which are the negative investment accounts cause the fund balance to be negative.

Auditors' Recommendation: The Commission should make plans to eliminate the deficit.

Responsible Officials' Views: The problem is that the two funds the agency has are not set up to automatically transfer from the revenue fund into the operating fund. The system is set up so that there is a constant outflow of cash in one account and the inflows in the other. That is always going to result in a negative cash (investment) balance. I have worked with TRD and changed the fund the revenue is being transferred into. I will work with CAFR Unit to resolve the issue.

FS 2010-02 – Disbursements – Repeated – Control Deficiency

Condition: It is sound accounting practice to obtain approved purchase orders before the purchase of goods or services are made and all purchase orders must be approved by authorized personnel. We observed the following:

- Cash Disbursements - three instances out of the twenty-five disbursements tested had the purchase order issued after the invoice date. The total of these items was \$3,116.70

Criteria: According to NMSA 1978 Section 6-6-3, the State Commission is expected to conform to the rules and regulations that they have adopted relating to internal controls.

Effect: The lack of enforcing the Commission's policies and procedures may result in the unauthorized purchase of goods and/or services.

Cause: Sound accounting practices for cash disbursement transactions are not always being enforced for purchases and/or services rendered.

Section II – Financial Statement Findings (Continued)

Auditor Recommendation: The Commission must adopt and enforce policies and procedures that are set in place for the purchase of goods and/or services.

Management Response: The Commission will enforce policies and procedures,

FS 2010-05 — Timeliness of Deposits & Lack of Supporting Documentation – Revised and Repeated – Control Deficiency

Condition: During our testwork of receipts, we noted the following:

- One instance out of thirteen in which a receipt was not deposited timely, totaling \$50.00.

Criteria: Effective internal controls over cash receipts should require the deposit of all cash receipts daily.

Effect: Non-adherence to strong internal controls may subject the Commission to a possible occurrence of fraud.

Cause: The staff of the Commission did not deposit the funds within 24 hours after receipt. Proper procedures relating to cash receipts were not followed.

Auditors' Recommendations: We recommend that the Commission emphasize the importance of timely deposits of receipts, and monitor receipts more closely.

Responsible Officials' Views: Currently there is only one employee that is able to put the deposit into SHARE., This will change once the Financial Coordinator position is filled. We plan to have that filled by December 31, 2012.
