INTRODUCTORY SECTION

December 1, 2008

To the Honorable Mayor, City Council Members, and Citizens of the City of Farmington, New Mexico:

State law requires that all general-purpose local governments publish, within five months of the close of each fiscal year, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Farmington for the fiscal year ended June 30, 2008.

This report consists of management's representations concerning the finances of the City of Farmington. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Farmington has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the City of Farmington's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Farmington's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

David Berry CPA, PC has audited the City of Farmington's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Farmington, for the fiscal year ended June 30, 2008, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Farmington's financial statements, for the fiscal year ended June 30, 2008, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Farmington was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. This information is presented in the Single Audit section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Farmington's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Farmington is located in the northwest corner of the State of New Mexico in what is commonly called the Four Corners Area (see map on page xi). The City was originally incorporated in 1901 and has a current land area of 32.1 square miles and serves a population of 42,425. The government is empowered to levy a property tax on both real and personal property located within its boundaries. However, the majority of City revenue is generated by a local option and state shared Gross Receipts Tax (GRT) collected by the New Mexico Taxation and Revenue Department on most business services and sales of tangible personal property. A portion of the State's share of this tax (1.225%) plus local municipal option components are then distributed back to the municipality by the Department on a monthly basis.

The current total in-city GRT rate is 7.0% and includes the City's local option taxes in the amount of 1.1875%. Together with the 1.225% State share, the City's tax rate amounts to 2.4125%. Another 1.125% in local option tax authority is available to the City, but to date has not been imposed.

The City of Farmington has operated under the council/manager form of government since 1965. Policy-making and legislative authority are vested in a governing council consisting of the mayor and four council members. The City Council is responsible, among other things, for adopting ordinances, adopting the budget, appointing committees, and appointing the City Manager, City Clerk, and the City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, overseeing the day-to-day operations of the City, and appointing directors of the various departments. The Council is elected on a non-partisan basis. Council members serve four-year staggered terms, with two Council members elected every two years. The Mayor is elected to serve a four-year term. The four Council members are elected by district and the Mayor is elected at large.

The City of Farmington provides a full range of services including police and fire protection; the construction, operation, and maintenance of multi-utility systems; the construction and maintenance of highways, streets, parks, and other infrastructure; and recreational activities, libraries, museums and cultural events.

The annual budget serves as the foundation for the City of Farmington's financial planning and control. All departments of the City of Farmington are required to submit requests for appropriation to the City Manager on or before the last day in March each year. The City Manager evaluates department requests and subsequently develops a proposed budget. The City Manager presents the proposed budget to the Council for review prior to May 10. The City Council is required to hold public hearings on the proposed budget and to adopt a preliminary budget by June 1 and a final budget no later than July 31 of each year. The City of Farmington's fiscal year begins July 1 of each year and ends on June 30. The appropriated budget is prepared according to fund, function (e.g. public safety), and department (e.g. police). Department directors may make transfers of appropriations within a fund and between their divisions. Transfers of appropriations between funds, however, require the special approval of the City Council. Budget-to-actual comparisons are provided in this report for each individual

governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on page 20 as part of the basic financial statements for the governmental funds. Budget to actual comparisons for all other funds are presented in the non-major governmental funds, internal service fund, and enterprise funds sections of this report.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when considered from the broader perspective of the specific environment within which the City of Farmington operates.

Local economy. The local economy has historically been based on the natural resource extractive industry, two large coal-fired electric generating stations, and Farmington's geographical position as a regional retail center catering to a regional population base of more than 225,000. Historically, the local economy has fluctuated in cycles that correspond to the price of oil and natural gas. In the last five years however, energy prices have dramatically increased and retail/services/tourism have continued to develop as major sources of revenue. During the past year, GRT revenue increased 3.6% and Lodgers Tax revenue was up 10.6% from the prior fiscal year. Electric utility operating revenue increased 11.4% over the prior year. Strong energy markets, continued construction activity, and an improving service sector are indicators that the local economy has improved over last year. GRT projections for the next fiscal year have been projected at a 4.8% growth factor which is a more modest growth level than the 9% historical average. Growth in retail sales are expected to continue as Wal-mart, the world's largest retailer, opened a second store in Farmington in May, 2006.

During FY 2004, the U.S. Office of Management and Budget designated Farmington as the central city of the Farmington-San Juan County Metropolitan Statistical Area. This designation qualifies Farmington for various federal entitlement programs and, more importantly, increases the visibility of Farmington in various national economic databases that should highlight the desirability of Farmington as a potential business location.

Although just recently designated a Metropolitan Statistical Area, Farmington has participated in a national urban cost of living survey for many years. As a participant in this survey, Farmington is compared with about 400 other cities in the American Chamber of Commerce Researchers Association's Cost of Living Index. This index measures six different cost of living components such as housing, transportation, and utilities and then rates each city in terms of the national average. In a recent survey, Farmington's cost of living index was 100% of the national average.

As our locality and facilities continue to gain recognition, Farmington will host more national and regional events in baseball, softball, soccer, swimming, mountain biking, and off-road rock climbing, as well as numerous conventions. In January 2004, the City, San Juan County, and other local agencies were successful in their bid to repeat as host to the NHSFR rodeo. Two sites from Washington State were beat out by the City and County for the right to host the event in 2008 and 2009. This event is billed as the "World's Largest Rodeo". When the NHSFR was held in San Juan County in July 2002 and 2003, more than 1,500 contestants participated and an average of 7,100 spectators attended each performance. As a result, more than \$11 million was brought into the New Mexico economy. This event provided a boost to the local economy in 2008 and will continue to do so in 2009.

The City of Farmington annually hosts the Connie Mack World Series which continues to be a popular and beneficial event for the local community. This national tournament for amateur baseball's best 17 and 18 year-olds brings in 10 teams from across the country. The teams hail from regions throughout the contiguous United States as well as Puerto Rico and Canada. It is one of the largest spectator attended events in the State of New Mexico and provides a significant economic boost to the entire region. The World Series began in Farmington in 1965.

San Juan Regional Medical Center (SJRMC) of Farmington completed a \$70 million expansion and renovation project in FY 2007. The East Tower expansion project of SJRMC added 72 private patient rooms, 8 new operating suites, a recovery room, and several day surgery rooms. A new entrance, lobby, and public square are also a part of the new addition. A financing partnership between the hospital and the community is paying for the project, which includes renovation of the existing five-story facility following completion of the East Tower expansion. San Juan County voters approved a \$25-million, one-eighth cent gross receipts tax in 2003 to help pay for the medical center expansion and renovation. SJRMC is funding the remainder of the project. This expansion project is another example of the growth that the community of Farmington is experiencing.

The region (which includes the City of Farmington and surrounding rural areas within the same county) has an employed labor force of approximately 56,289, a decrease of 1.2% over last year mostly attributable to a leveling off of oil and gas production. Major employers include a regional medical center, four public school districts, a community college, a coal mining operation, two electrical power generation plants, and two Wal-Mart superstores. Meanwhile, there continues to be a discernible trend toward steady residential growth of about 2% per year.

Long-term financial planning. The construction of a new library was completed during FY 2003. This \$9.7 million project was financed with \$7.6 million of gross receipts tax revenue bonds issued in November, 2001 and the remaining balance from the General Fund's existing cash reserves. A major project completed in FY 2004 was the wastewater treatment plant expansion, which was financed with a 3% \$14.2 million loan from the New Mexico Environment Department (NMED). The first loan payment of \$952,997 was made on July 1, 2007 and the final loan payment will be July, 2026. The treatment plant's capacity has increased by 15% to meet a projected 6.67 mgd flow rate. In addition, reliability and flexibility have improved through the rehabilitation of the primary clarifiers and sludge drying beds as well as the capacity expansion of the disinfection process.

The wastewater treatment plant's next expansion phase, that will more efficiently treat three million gallons of waste per day, is scheduled for FY 2010. Design work for the project began in the fall of FY 2006. Construction for this expansion project will be budgeted in FY 2010 at an estimated cost of \$11 million. It is anticipated the City will be working with the NMED on an additional low interest loan through the State Clean Water Revolving Fund Program.

As part of the plan to ensure a secure, reliable, and economical power source for utility customers, the electric utility completed an evaluation of various options for new generation, and, after the successful completion of several bond defeasances, has significantly reduced outstanding debt. In FY 2004, the electric utility initiated construction of a new \$59 million, 60 megawatt, gas-fired electric power plant with construction funded from existing cash reserves. The new plant went into operation in May, 2005.

In FY 2005, the City issued \$5,725,000 of Series 2005 Sales Tax Revenue Bonds to construct, furnish, equip and improve fire-fighting facilities, and acquire and rehabilitate fire-fighting equipment. Fire Station 6, completed in July 2006, provides much-needed response and emergency service coverage to the west side of the city. In addition to the new state-of-the-art fire station, the bond proceeds purchased two new 95 foot platform ladder trucks and three 75 foot aerial ladder trucks.

Other long-term financial planning is incorporated into the City of Farmington's Comprehensive Plan approved by the City Council in October, 2002. This plan was developed in a multi-stage process and provides the vision, goals, objectives, and actions necessary to direct the City's progress over the next twenty years. It is an official public document that will serve as the guide for policy decisions relating to the physical, social, and economic growth of the community. In addition to providing goals and objectives, the plan assesses the opportunities and challenges facing the City and sets priorities for an implementation program that outlines specific actions and practical results. This document will serve as a planning guide for future financial capital investments. It is also currently serving as the springboard for development of a Metropolitan Redevelopment Area (MRA) covering all three downtown neighborhoods.

Cash management policies and practices. Cash temporarily idle during the year was invested in certificates of deposits, obligations of the U.S. Treasury, overnight deposits, money market accounts, Federal agency securities, and the State Treasurer's investment pool. The City earned interest revenue of \$962,448 on all governmental investments including capital projects and internal service funds and \$2,800,336 on all proprietary funds for the year ended June 30, 2008. The maturities of the investments range from overnight to 3 years. The City's investment policy seeks to minimize credit and market risks while maintaining a competitive yield on its portfolio. Accordingly, all investments were protected by federal depository insurance, adequate collateral, or the full faith and credit of the United States Government. The City's investment policy was reviewed, updated and approved by the City Council in January, 2008.

Risk management. The City continues to maintain a partially self-insured program for group health, workers' compensation, property, boiler and machinery, pollution, crime, and excess liability insurance. The workers compensation and general liability programs continued to be financially sound throughout FY 2008, while the health fund's cash balance increased to \$53,846 at June 30, 2008. Management will review the fiscal stability of the health insurance fund in FY 2009 and make appropriate modifications to the plan. Beginning January 1, 2008, the retirees participating in the City of Farmington's health plan were transferred to the New Mexico Retiree Health Care Authority. This has reduced the amount of claims and has increased the health fund's net asset balance by \$182,249. The risk management and workers compensation funds were transferred to the general fund as separate divisions in the legal and human resources departments in FY 2004.

Pension and other post-employment benefits. The City's full time employees participate in a 401 (a) defined benefit contributory retirement plan through the Public Employees' Retirement Association (PERA) of the State of New Mexico. The plan is authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978). PERA is the administrator of the plan, which is a cost-sharing, multiple-employer public employee retirement plan. Actual pension data for the State of New Mexico, as employer, is provided at the statewide level in a separately issued financial report of the PERA.

Awards and Acknowledgements.

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Farmington for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2007. This was the fourteenth consecutive year that the City of Farmington received this prestigious award. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the City of Farmington also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for FY 2008. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance Division. We would like to express our appreciation to all members of the Division who assisted and contributed to the preparation of this report. Credit must also be given to the Mayor and City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Farmington's finances.

Respectfully submitted,

Robert Mayes

Independent Auditor's Report

City of Farmington
Farmington, New Mexico
Honorable Mayor and City Council
and
Mr. Hector H. Balderas
New Mexico State Auditor

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Farmington, New Mexico (City), as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the City's nonmajor governmental, enterprise, and internal service funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2008, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and with standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental, enterprise, and internal service fund of the City, as of June 30, 2008, and the respective changes in the financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the major debt service fund, nonmajor governmental funds and business-type funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 11, 2008, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Audit Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis on pages 3 through 14 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the basic financial statements, the combining and individual fund financial statements, and budgetary comparisons. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audit of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. The additional schedules listed as "other information" in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The information included in the accompanying introductory section and statistical section is presented for the purposes of additional analysis and is not a required part of the basic financial statements. This information has not been subject to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we express no opinion on it.

Farmington, New Mexico

Management Discussion and Analysis

**Management
Discussion and
Analysis**

Management's Discussion and Analysis

As management of the City of Farmington, we offer readers of the City of Farmington's financial statements this narrative overview and analysis of the financial activities of the City of Farmington for the fiscal year ended June 30, 2008. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which starts on page i of this report.

Financial Highlights

- The assets of the City of Farmington exceeded its liabilities at the close of FY 2008 by \$425,325,342 (net assets). Of this amount, \$77,309,002 (unrestricted net assets) may be used to meet the City's ongoing obligations.
- As of June 30, 2008, the City of Farmington's governmental funds reported combined ending fund balances of \$27,837,599, an increase of \$37,924, or 0.13% in comparison with the prior year. A total of \$23,069,273 (unreserved fund balance) is available for spending at the City's discretion.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$8,187,413, or 15.7 % of the total general fund expenditures.
- The City's total net debt decreased by \$6,858,481, or 12% during the current fiscal year.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Farmington's basic financial statements. The City of Farmington's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. *The government-wide financial statements* are designed to provide readers with a broad overview of the City of Farmington's financial condition, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the City of Farmington's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Farmington is improving or deteriorating.

The *statement of activities* presents information showing how the City of Farmington's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses

are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave, etc).

Both government-wide financial statements distinguish functions of the City of Farmington that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Farmington include general government, police, fire, parks, recreation, cultural affairs, community development, highways, and streets. The business-type activities of the City of Farmington include electric, water, wastewater, sanitation, golf, and airport operations. The government-wide financial statements can be found on pages 15-16 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Farmington, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Farmington can be divided into two categories: (1) governmental funds and (2) proprietary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Farmington maintains seventeen (17) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and debt service fund, both of which are considered to be major funds. Data from the other fifteen (15) governmental funds are combined into a single, aggregated presentation. Individual fund data for these nonmajor governmental funds is provided in the form of *combining statements* (pages 53-60).

The City of Farmington adopts an annual appropriated budget for each of its funds. Budgetary comparative statements have been provided for these funds to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 17-20 of this report.

Proprietary funds. The City of Farmington maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Farmington uses enterprise funds to account for its electric, water, wastewater, sanitation, golf, and airport operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City of Farmington's various functions. The City of Farmington uses an internal service fund to account for its self-funded health insurance operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the electric, water, wastewater, sanitation, golf, and airport operations and are found on pages 81-86 of this report. Fund data for the internal service fund is provided on page 79 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-49 of this report.

Government-wide Financial Analysis

As noted earlier, over time net assets may serve as a useful indicator of a government's financial position. In the case of the City of Farmington, assets exceeded liabilities by \$425,325,342 at the close of FY 2008.

The largest portion of the City of Farmington's net assets (80%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City of Farmington uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Farmington's investment in its capital assets is reported net of related debt, it should be noted that the resources required to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Farmington's Net Assets						
	Governmental Activities		Business-type Activities		Total	
	FY 2008	FY 2007	FY 2008	FY 2007	FY 2008	FY 2007
				Restated		Restated
Current and other assets	\$ 33,952,594	\$ 34,225,116	\$ 86,936,461	\$ 76,404,785	\$ 120,889,055	\$ 110,629,901

Total net assets	\$ 104,121,753	\$ 102,366,428	\$ 321,203,589	\$ 289,045,357	\$ 425,325,342	\$ 391,411,785

Another portion of the City of Farmington's net assets (1.8%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* (\$77,309,002) may be used to meet the City's ongoing obligations.

At the end of the current fiscal year, the City of Farmington has achieved positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

The City of Farmington's net assets increased \$33,913,557 during the current fiscal year. Almost all of this increase represents the degree to which increases in ongoing revenues have exceeded similar increases in ongoing expenses, most attributable to the utility systems.

Governmental activities. Governmental activities increased the City of Farmington's net assets by \$1,755,325. Key elements of the change in net assets are as follows:

City of Farmington's Changes in Net Assets						
	Governmental		Business-type		Total	
	Activities		Activities			
	FY 2008	FY 2007	FY 2008	FY 2007	FY 2008	FY 2007

Increase in net assets	1,755,325	(751,720)	32,158,232	28,513,983	33,913,557	27,762,263
Net assets - 7/01/07 - restated	102,366,428	103,118,148	289,045,357	260,531,374	391,411,785	363,649,522
Net assets - 6/30/08	\$ 104,121,753	\$ 102,366,428	\$ 321,203,589	\$ 289,045,357	\$ 425,325,342	\$ 391,411,785

Gross receipts tax (GRT) increased by \$2,582,748 or 5%. This was due to increased receipts from the retail trade and manufacturing sectors.

Operating grants and contributions increased \$1,022,813 or 39% during the year. This is due to increases in the CDBG grant, a new traffic grant, and increased transfers from the streets special revenue fund.

Expenses for police and fire increased \$1,582,792 or 7% during the year. This is mainly due to a planned increase in police officers and additional staffing for a new fire station.

Business-type activities. Business-type activities increased the City of Farmington's net assets by \$32,158,232, accounting for 94.8% of the total growth in the government's net assets. Key financial elements of the past fiscal year are as follows:

- Operating expenses are 77.3% of operating revenues, resulting in \$28,408,764 in operating income.
- Total electric revenue increased \$10.9 million or 11.6%. Electric sales were up \$10.4 million, and investment earnings increased 21.5% or \$412,590. Surplus energy sales increased \$1.8 million, commercial electric sales increased \$883,249, and the power cost adjustment increased \$8.1 million. Industrial sales decreased \$1.2 million and wholesale revenues decreased \$287,223.
- Total water revenue increased \$2.7 million or 30.2% due mainly to an increase in water rates, increases in renewal and replacement fees for water infrastructure improvements and a grant received from the State of New Mexico.
- Total wastewater revenue increased by \$712,834 or 12.3% during the year due to increases in wastewater rates and increases in renewal and replacement fees for wastewater infrastructure improvements.
- Total sanitation revenue increased \$183,957 or 4.5% mainly due to higher demand for sanitation services.
- Investment earnings for business-type activities were \$2,800,336, an 18.8% increase over FY 2007 due to increased interest rates and increasing cash reserves.

Financial Analysis of the Government's Funds

As noted earlier, the City of Farmington uses fund accounting to ensure and demonstrate compliance with finance-related legal and contractual requirements.

Governmental funds. The focus of the City of Farmington's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City of Farmington's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2008, the City of Farmington's governmental funds reported combined ending fund balances of \$27,837,599, an increase of \$37,924 in comparison with the prior year. Approximately 82.9% of this total amount or \$23,069,273 constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed for debt service (\$328,475), prepaid items (\$168,486), and statutory reserves (\$4,271,365).

The general fund is the chief operating fund of the City of Farmington. At the end of the current fiscal year, unreserved fund balance of the general fund was \$8,187,413, while total fund balance was \$12,627,264. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 15.7% of total general fund expenditures, while total fund balance represents 24.2% of that same amount. The fund balance of the City of Farmington's general fund decreased \$4,567,615 or 26% during the current fiscal year. The total increase in general fund revenue was \$1,837,324 due mostly to a 5% increase in gross receipts tax. Total general fund expenditures increased \$1,781,112 or 3.5% over the prior year. Key elements of this increase were increased costs for jail fees (\$581,392), expansion and additional staffing for the animal shelter/clinic (\$237,353), additional staffing increases for wages/benefits for police (\$1,097,623) and fire (\$740,555). Offsetting these increases was a decrease in general government expenses (\$561,873) or 3% mainly due to FY 2007 expenses being inflated by a one-time buy-in into the New Mexico Retiree Health Authority (\$1,274,744).

Other key governmental-type funds include the streets fund and parks & public works fund. Both of these funds are funded primarily with gross receipt tax revenue earmarked specifically for streets, parks, and public works activities. The streets fund is generally budgeted for full expenditure each fiscal year, but expenditures decreased by \$1,130,446 or 18.2% in FY 2008 due to a decrease in streets projects. The parks & public works fund also is generally budgeted for full expenditure each fiscal year. However, the fund balance increased by \$730,949 or 17.2% due to funds for budgeted construction projects not being expended during the fiscal year.

Proprietary funds. The City of Farmington's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets at the end of the year amounted to \$42,553,481 in the electric utility system, \$3,975,964 in the water utility system, \$6,913,122 in the wastewater utility system, and \$732,125 in combined net assets for the other propriety funds (sanitation, golf course, and airport). The total growth in net assets was \$24,413,916 in the electric fund, \$4,083,696 in the water fund, \$1,053,406 in the wastewater fund, and \$2,607,214 in the other funds combined. The increase in the other proprietary funds was due primarily to a large airport grant that was received in FY 2008. Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Farmington's business-type activities.

Budgetary Highlights

FY 2008 was a favorable year for revenues as Gross Receipts Tax (GRT) proceeds increased by \$2,002,373 or 5% from the prior year on a GAAP basis. This level reflects a continued flattening of the growth curve from FY 2007, when GRT increased 6.3% over the prior year. While still favorable, this level is below the twenty-five year average growth trend of 9%. In the general fund, which received approximately 84% of revenue from GRT, FY 2008 GRT revenue was \$41,808,719 or 5% over FY 2007 actual revenue of \$39,806,346.

On the expenditure side, the original general fund budget of \$52,259,426 was increased by \$1.4 million to \$53,620,004 during FY 2008. As the positive revenue trend continued in FY 2008, selected expenditures postponed in prior years were approved. This resulted in a 3.5% increase in actual FY 2008 expenditures over the prior year. The difference between the increase in revenue and the increase in expenditures was funded by cash reserves which decreased by \$4,430,067 from the prior year. Most of this decrease resulted from the transfer of \$3.5 million to the 408-General Government Capital Projects Fund for the construction of the Sycamore Park Community Center. This decrease in cash reserves will be carefully monitored to insure that only one-time expenditures are funded from cash balance and that projected revenue will be sufficient to cover normal operating expenditures.

During the year, five separate revisions were made to the original FY 2008 budget. These adjustments totaled \$1,360,578 and equaled 2.6% of the original total budget. Budget revisions in the general fund between the original and final budget for revenue and expenditures amounted to an increase of 0.7% and an increase of 2.6% respectively. In the governmental funds, the largest percentage increase in expenditures was in the General Government Capital Projects Fund. This was a result of the start of construction of the Sycamore Park Community Center. The Electric Enterprise Fund had a significant increase from original to final budget. This increase was necessary to facilitate a large increase in purchases of fuel and purchased power.

In FY 2008, several General Fund budget issues were addressed. The first issue involved the planning for the hiring of personnel to staff the Sycamore Park Community Center. The second issue was the necessity of hiring additional staff in various departments. The last issue was to create a balanced budget. The last issue was addressed first by adjusting the expenditures to the projected level of revenue. Relative to staffing, \$250,000 was earmarked for additional positions provided that adequate revenue would be received. If revenue levels were not sufficient, then no additional positions would be created. To do this, all general fund capital projects were budgeted to be transferred to the governmental capital projects fund when the project was ready to be started. Consequently, expenditures could be controlled by not initiating capital projects unless revenue was received at, or above, projected levels and operating expenditures were under budget. In fact, this strategy worked well as revenues were above projections, expenditures came in below projections, and design work on the Sycamore Park Community Center took longer than

expected. As a result of these situations, the projected ending cash balance budget of \$6,395,459 was exceeded by \$1,020,499 and the actual ending cash balance totaled \$7,415,958.

Due to growth in the northeast sector of the City, an additional fire station will be needed in the next few years. Another community project, the Sycamore Park Community Center, will be completed in the Fall of FY 2009. For FY 2009, both of these projects have funding allocated in the governmental capital projects fund and general fund. However, additional funds will be required for the completion of Fire Station #7 and the source for operating funds to staff the new station are as yet undetermined. Other capital projects in the planning stages are a regional animal shelter and a bridge over the Animas River which will connect north and south on the eastside of the city.

The budget for FY 2008 was also affected by the implementation of new water and wastewater rates. Red Oak Consulting recommended the need to develop a revenue rate structure that would provide for the renewal and replacement of water and wastewater infrastructure. The rate adjustment was implemented and plans were made to start replacing the oldest and most deteriorated lines. This effort will continue in future years as the city upgrades it's aging infrastructure and expands the system to new customers. A list of priority projects will be developed in FY 2009.

The most favorable budget highlight for the year was the budget to actual comparison for the general fund at the end of the year. Actual revenue for the year was just short of the budget amount by \$207,354 or .4% and actual expenditures were under budget by \$1,433,613 or 2.7%. These results left the cash balance in the general fund at \$7,415,958 which is equal to 13.8% of the FY 2009 beginning budget. This balance provides additional flexibility in the FY 2009 budget and creates a significant "cushion" that allows for potential additional spending without creating negative financial consequences.

Capital Asset and Debt Administration

Capital Assets. The City of Farmington's investment in capital assets for governmental and business type activities as of June 30, 2008 was \$392,195,373 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system improvements, utility systems, machinery and equipment, park facilities, roads, highways, and bridges. The business-type capital assets accounted for \$305,186,410 or 77.8% of the total City of Farmington capital assets. The total increase in the business-type investment in capital assets for the current fiscal year was \$17,493,747 or 6.1%. The governmental activities investment in capital assets accounted for \$87,008,963 or 22.2% of all capital assets owned by the City. The total increase in governmental activities investment in capital assets for the current year was \$342,948 or 0.4%.

City of Farmington's Capital Assets (net of depreciation)						
	Governmental Activities		Business-type Activities		Total	
	FY 2008	FY 2007	FY 2008	(restated) FY 2007	FY 2008	(restated) FY 2007
	Land	\$ 25,780,126	\$ 25,780,126	\$ 4,884,635	\$ 5,958,417	\$ 30,664,761

Total	4,345,687	6,565,378	44,744,239	37,415,602	49,089,926	43,980,980
	\$ 87,008,963	\$ 86,666,015	\$ 305,186,410	\$ 287,692,663	\$ 392,195,373	\$ 374,358,678

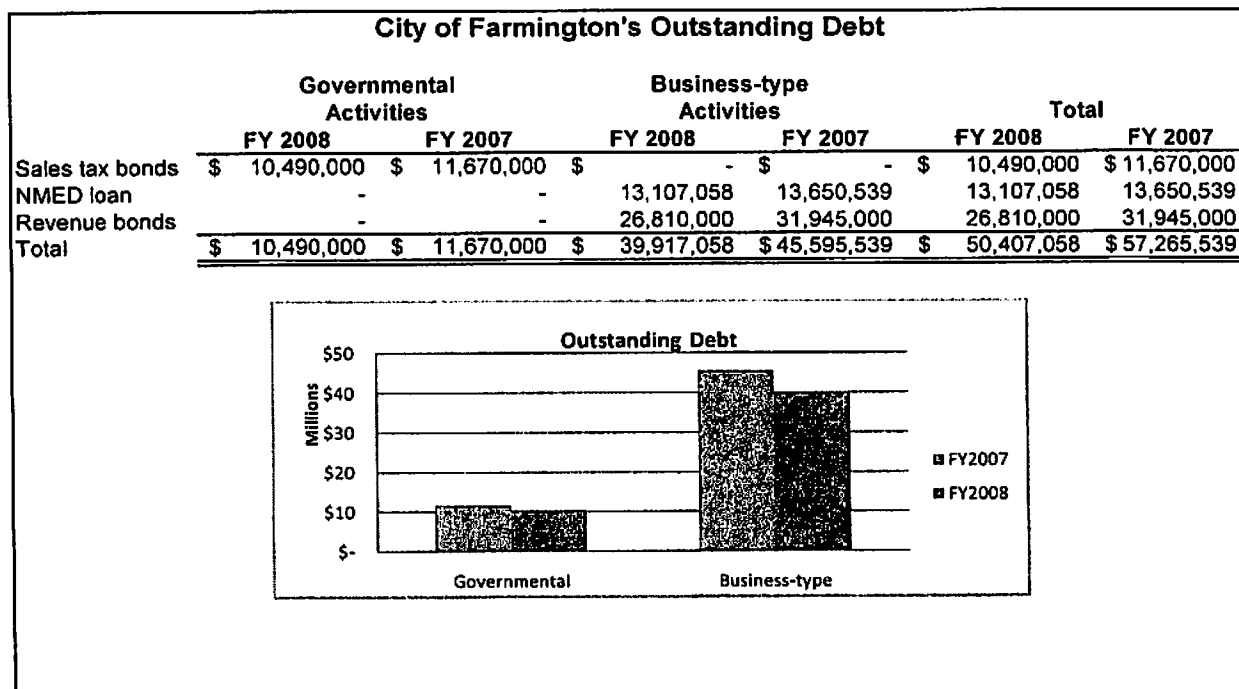

Capital expenditures for the electric utility system will average approximately \$34,471,700 per year over the next five fiscal years. Some large projects included in the FY 2009 capital budget are the Bluffview substation (\$1,750,000), the Hogback substation (\$3,380,000), a waterline for the Bluffview plant (\$2,800,000), and miscellaneous customer projects (\$4,200,000). The City expects to fund these projects from electric customer-generated revenues.

Capital expenditures for the water utility system scheduled in the current five-year capital improvements plan principally include upgrades and replacements of existing facilities to maintain the existing system and meet future demand requirements. Capital expenditures average \$6,097,313 per year, totaling \$30,486,566 for fiscal years 2009 through 2013. During FY 2008, the City of Farmington implemented the 2nd of five planned annual rate increases including a renewal and replacement fee, plus a water rights acquisition fee to generate revenues for capital projects and ensure adequate water sources for the future.

Pursuant to the Wastewater System Master Plan, in FY 2004 the City placed in service a new wastewater treatment plant. Funding came from a \$14,178,191 loan obtained from the New Mexico Environment Department (NMED). An additional expansion of the wastewater treatment plant estimated to begin construction in FY 2010 is estimated to cost \$11 million. During FY 2008, the wastewater fund implemented the 2nd of five planned annual rate increases including a renewal and replacement fee to generate additional revenues for capital projects. Additional information on the City of Farmington's capital assets can be found in Note C on pages 38-39 of this report.

Long-term debt. At the end of the current fiscal year, the City of Farmington had total bonded debt outstanding of \$37,300,000. Of this amount, \$10,490,000 constitutes special, limited obligations of the City government, payable solely from the City's existing 1.225% State-shared gross receipts tax. This tax is collected by

the State and distributed monthly to the City. Per the bond ordinance, interest may be earned on cash balances held by the City until debt payments are made. The bonds are not an indebtedness of the City within any constitutional or statutory provision or limitation and are not general obligations of the City. Consequently, the registered owners cannot look to the general fund or other fund for any payment that becomes due on the bonds other than the special funds that are specifically pledged for their payment under the terms of the bond ordinance. The remainder of the City's debt is secured solely by specified revenue sources. The City of Farmington's total net debt decreased \$6,858,481 or 12% during FY 2008.

Credit ratings. Standard & Poor's Rating Group and Moody's Investors Service have assigned the most recent bond issuance the insured ratings of AAA and Aaa, respectively. The underlying ratings, however, are AA- and A1, respectively. These ratings have not changed significantly in comparison to prior ratings.

Debt limitation. Article IX, Section 13 of the State Constitution limits the powers of the City to incur general obligation debt in an aggregate amount, including existing indebtedness, not to exceed four (4) percent of the value of the taxable property in the City as shown by the last preceding general assessments. The City may, however, contract debt in excess of such limitation for the construction or purchase of a system for supplying water or a sewer system for the City. Based on the 2007 assessed valuation of \$931,176,071, the City's general obligation debt limit is \$37,247,043. The City presently has no general obligation bonds outstanding. For more detailed information on the City's debt, see pages 42-45 in the Notes to the Financial Statements.

Requests for Information

This financial report is designed to provide a general overview of the City of Farmington's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Administrative Services Director, 800 Municipal Drive, Farmington, NM 87401.

CITY OF FARMINGTON, NEW MEXICO
Reconciliation of the Statement of Revenues
Expenditures, and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2008

Amounts reported for governmental activities in the statement of activities (page 16) are different because:

Net change in fund balances-total governmental funds (page 18)	\$	37,924
 Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		 342,948
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		242,848
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This is the net effect of these differences in the treatment of long-term debt and related items.		949,356
The net revenue/expense of certain activities of internal service funds is reported with governmental activities.		<u>182,249</u>
 Change in net assets of governmental activities (page 16)	 \$	 <u>1,755,325</u>

The notes to the financial statements are an integral part of this statement.

Notes to the Financial Statements

CITY OF FARMINGTON, NEW MEXICO

NOTES TO FINANCIAL STATEMENTS

June 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Farmington, (City), New Mexico, which was incorporated in 1901, has a population of 42,425 living within an area of 32 square miles. The City operates under a Council/Manager form of government. Four councilors are elected from designated districts with the Mayor serving at large. This reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the City's financial statements to be misleading or incomplete.

The City had no blended or discrete component units during the fiscal year ended June 30, 2008.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Indirect costs are not allocated to functions in the statement of activities. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Derived tax revenues (gross receipts taxes, cigarette taxes and gas taxes) are recognized when the underlying transaction takes place. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *debt service* fund accounts for the servicing of general long term debt not being financed by proprietary funds.

The government reports the following major proprietary funds:

The *electric fund* accounts for the activities of the City's electric utility.

The *water fund* accounts for the activities of the City's water utility.

The *wastewater fund* accounts for the activities of the City's wastewater utility.

The *sanitation fund* accounts for the activities of the City's sanitation utility.

The *golf fund* accounts for the activities of the City's two golf courses.

The *airport fund* accounts for the activities of the City's airport operations.

Additionally, the government reports the following fund type:

The *internal service fund* accounts for health insurance services provided to City employees on a cost reimbursement basis.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's electric, water, wastewater, and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided 2) operating grants and contributions and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. The utilities also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is City policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, liabilities and net assets or equity

1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the government to invest in obligations of the U.S. Treasury, U.S. Securities, repurchase agreements, Certificates of Deposits, and the State Treasurer's Investment Pool.

Investments for the government are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of an allowance for uncollectibles. Trade accounts in excess of 180 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied and collected by San Juan County. The County remits to the City amounts collected for the applicable portion of the property taxes in the month following the date of receipt. The City recognizes property taxes as revenue on the modified accrual basis. Oil and gas taxes received from the County are recognized as revenue when received by the City.

Property taxes are levied as of January 1st on property values assessed on the same date. The tax levy is payable in two installments, November 10th and May 10th. The property taxes are considered delinquent and subject to lien, penalty, and interest, 30 days after the date on which they are due.

3. Inventories and prepaid items

All inventories are valued at cost using the weighted-average method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Regulatory Asset

The City's electric utility enterprise fund has regulatory activities whose rates are determined based on cost of service (power cost adjustment - PCA). Revenues are recognized based on the PCA when the costs are incurred but will be billed and collected in the future to recover such costs, and a regulatory asset is recorded. The asset (regulatory asset) is recorded on the statement of net assets (\$5,900,410 as of June 30, 2008) and the related revenue is recorded on the statement of activities (\$4,688,219 for the year ended June 30, 2008).

5. Restricted assets

Certain proceeds of enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. The "revenue bond current debt service" account is used to segregate resources accumulated for debt service payments over the next twelve months. The "revenue bond renewal, replacement, and contingency" account is used to report resources set aside to meet unexpected contingencies or to fund asset renewals and replacements. Customer deposits, as well as customer overpayments, are also classified as restricted assets. The deposits and overpayments remain the property of the customers, and the restricted account reports these assets separately from current assets available for operations to demonstrate the fiduciary relationship with the customers.

6. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Such assets, including infrastructure,

have higher limits that must be met before they are capitalized. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Computer software costs, whether externally purchased or developed in-house, shall be capitalized if the total cost of the software equals or exceeds \$5,000 and has a life of at least two years. Library books are not capitalized.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives and capitalization thresholds:

	<u>Threshold</u>	<u>Estimated Useful Life</u>
Buildings and structures	\$ 10,000	7 - 45 years
Improvements other than buildings	\$ 10,000	5 - 75 years
Infrastructure	\$ 50,000	3 - 50 years
Personal property	\$ 5,000	5 - 45 years

7. *Compensated absences*

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Accrued sick leave over 520 hours (728 hours for fire shift personnel) may be converted to vacation time at the conversion ratio of three sick days to one vacation day at any time. A liability for accrued convertible sick leave is reported in the proprietary funds. A liability for these amounts is reported in the governmental funds only if they have matured (i.e., unused reimbursable leave still outstanding following an employee's resignation or retirement). Payments of accrued compensated absences are made upon employee termination and usually are paid from either the general or electric fund.

8. *Long-term obligations*

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources.

9. *Fund equity*

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation, or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

10. *Net Assets*

In the government-wide financial statements, restricted net assets are legally restricted by outside parties for a specific purpose. None of the City's net assets are restricted as a result of enabling legislation adopted by the City. Invested in capital assets, net of related debt, represents the City's investment in the book value of capital assets, less any outstanding debt that was issued to construct or acquire the capital asset. The City applies restricted resources when an expense is

incurred for purposes for which both restricted and unrestricted net assets are available.

11. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

E. Reserved fund balances

The New Mexico Department of Finance and Administration (DFA) requires that 1/12th of the general fund budgeted expenditures (\$4,271,365) be reserved for subsequent year expenditures to maintain an adequate cash flow until the next significant property tax collection.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between *fund balance-total governmental funds* and *net assets-governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$11,978,897 difference are as follows:

Bonds payable	\$	10,490,000
Bond premium (to be amortized over the life of the debt)		131,361
Issuance costs (to be amortized over the life of the debt)		(135,577)
Accrued interest payable		17,736
Compensated absences payable		<u>1,475,377</u>
Net adjustment to reduce <i>fund balance-total governmental funds</i> to arrive at <i>net assets-governmental activities</i>	\$	<u>11,978,897</u>

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balance-total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” Details of this \$342,948 are as follows:

Capital outlay	\$	7,787,659
Depreciation		(7,107,261)
Loss on disposals and other		<u>(337,450)</u>
Net adjustment to increase <i>net changes in fund balances – total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	\$	<u>342,948</u>

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities". Details of this \$949,356 are as follows:

Principal repayments	\$ 1,180,000
Amortization of bond premium	21,893
Amortization of issuance costs	(22,597)
Accrued interest	1,857
Compensated absences	<u>(231,797)</u>
Net adjustment to increase <i>net changes in fund balances – total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	\$ <u>949,356</u>

Another element of that reconciliation states that: "the net revenue/expense of certain activities of internal service funds is reported with governmental funds." The details of this \$182,249 difference are as follows:

Internal service charges for services	\$ 5,370,842
Internal service operating expenses	<u>(5,188,593)</u>
Net adjustment to decrease net changes in fund balances – total governmental funds to arrive at changes in net assets of governmental activities	\$ <u>182,249</u>

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary information

Annual budgets are adopted for all funds. All budgets are prepared on a basis other than generally accepted accounting principles (Non-GAAP basis), excluding encumbrances. All annual appropriations lapse at fiscal year end. Carryover funds must be appropriated in the budget of the subsequent fiscal year. Because the budget process in the State of New Mexico requires that the beginning cash balance be appropriated in the budget of the subsequent fiscal year, such appropriated balance is legally restricted and is therefore presented as a reserved portion of fund balance.

Actual expenditures may not exceed the budget on a fund basis. Budgets may be amended by City Council ordinance with approval by the State Department of Finance and Administration. City department heads may make transfers of appropriations within a fund. The legal level of budgetary control is the fund level. Increases or decreases of appropriations between funds require the approval of the governing council.

Because the Non-GAAP basis of accounting is not generally accepted accounting method for governmental and propriety funds, differences result from budgeting for various items. Reconciliations between the budget basis (Non-GAAP) and GAAP basis are provided in the budgetary schedules.

The City follows the following procedures in establishing the budgetary data reflected in the financial statements:

1. In April or May the City Manager submits to the Council a proposed preliminary operating budget for the fiscal year commencing the following July 1st. The budget includes proposed expenditures and the means of financing them. The budget is prepared by fund, department, and function.
2. In late June, after there has been an opportunity for public comment, the City Council adopts the budget as finalized.
3. By the end of July, the Local Government Division of the State Department of Finance and Administration approves the final budget.
4. After the budget is adopted, any supplemental appropriations must be approved by the City Council.

Encumbrance accounting is employed by the City. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are carried forward to the new fiscal year and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year.

The City had the following encumbrances outstanding at June 30, 2008:

General Fund	\$ 136,928
Gross Receipts Tax Streets Fund	296,117
Gross Receipts Tax Parks & Public Works Fund	248,619
Library Gifts and Grant Fund	19
Parks Gifts and Grants Fund	128,778
Lodgers Tax Fund	627
Region II Narcotics Fund	8,909
State Fire Fund	41,566
Gross Receipts Tax Bond Proceeds Projects Fund	34,824
Governmental Capital Projects Fund	1,283,872
Electric Utility Fund	1,838,779
Water Utility Fund	277,641
Wastewater Utility Fund	283,705
Golf Course Fund	890
Airport Fund	642,064
Health Fund	192,824
Total Encumbrances	\$ <u>5,416,162</u>

B. Excess of expenditures over appropriations

For the year ended June 30, 2008, the airport fund shows a negative budget variance in expenses of \$236,905. The revenue budget was increased during the year for the Airport Enterprise Fund to cover cash deficits from project expenditures. However, corresponding increases in budgeted expenses were not sufficient to cover the actual project costs.

C. Deficit Fund Equity

As of June 30, 2008, the health insurance internal service fund had a deficit net asset balance of \$(455,529). This deficit is equal to accrued payables of \$509,375 less cash totaling \$53,846. The net asset balance increased by \$182,249 over FY 2007. During FY 2008, the retirees participating in the City of Farmington's health plan were transferred to the New Mexico Retiree Health Care Authority. This reduced the amount of claims during FY 2008 and will have a positive effect on the health insurance fund's net asset balance in the future. The health insurance fund also repaid an interfund loan of \$209,929 to the general fund during FY2008.

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and investments

As of June 30, 2008, the City had the following investments:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (Years)</u>
Repurchase Agreements	\$ 3,325,367	0.08
Certificates of Deposit	44,100,000	0.93
State Treasurer's Pool	35,498,591	0.08
Federal agency securities	4,012,350	2.83
Total Fair Value	\$ 85,923,958	
Portfolio weighted average maturity		0.64

Interest rate risk. In accordance with its investment policy, the City manages its exposure to interest rate risk by limiting the duration of investments to three years.

Credit risk. As directed by State Statute 6-10-36, E. and F., excess funds may be invested in securities backed by the full faith and credit of the United States Government, such as treasury notes, bills and bonds; in securities of Agencies that are guaranteed by the United States Government; bonds or negotiable securities of the State of New Mexico or of any county, municipality or school district in the State of New Mexico which has a taxable valuation of real property for the last preceding year of at least one million dollars (\$1,000,000) and has not defaulted in the payment of any interest or sinking fund obligation or failed to meet any bonds at maturity at any time within five years last preceding.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statute requires that the bank deposits be 50% collateralized and repurchase agreements be 102% collateralized. As of June 30, 2008, the City was in compliance with state statute. The City's carrying amount of deposits as of June 30, 2008 was \$41,142,008 and the bank balance was \$48,655,827. Of the bank balance, \$500,000 was covered by federal depository insurance, \$34,277,369 was collateralized with securities held by the pledging financial institution's trust department or agent in the City's name, and \$13,878,458 was uncollateralized, and subject to custodial credit risk.

Custodial credit risk – investments. In the case of investments, this is the risk that in the event of a failure of the counter-party, the City will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. The City does not have any investments at June 30, 2008 that are exposed to custodial credit risk.

Collateral. The following guidelines are used to determine the level of collateral required from each financial institution. These ratios are in agreement with those set by the State Board of Finance for the State of New Mexico. The City Council authorizes the City Manager or his/her designee to set a higher level of collateral required based on criteria other than the ratios below. In no case shall the requirements be less than 50%.

Banking Institutions			
Percentage Level of Collateralization Required			
Ratios	50%	75%	100%
<u>Primary Capital</u> Assets	Above 6%	5% - 6%	Less than 5%
<u>Net Operating Income</u> Total Average Assets	Above .60%	.051% - .60%	Less than .51%
<u>Non-Performing Loans</u> Primary Capital	Under 35%	35% - 49.9%	Above 49.9%
Savings and Loan Institutions			
Percentage Level of Collateralization Required			
Ratios	50%	75%	100%
<u>Net Worth</u> Average Assets	Above 3%	2% - 3%	Less than 2%
4 Qtrs Avg Net <u>Income Before Tax</u> 4 Qtrs Avg Assets	Above .3%	.2% - .3%	Less than .2%
2 Consecutive Quarters of After Tax Losses		Yes	
3 Consecutive Quarters of After Tax Losses			Yes

Only securities backed by the full faith and credit of the United States Government will be accepted as collateral. The City may make an exception and accept as collateral securities from a governmental entity within the State of New Mexico as described by State Statute 6-10-16, B. All securities pledged as collateral shall be held by a third-party financial institution approved by the City Manager or his/her designee. Any change in the institution holding the collateral must have prior approval of the City Manager or his/her designee.

The City has investments in the State Treasurer external investment pool (the Local Government Investment Pool). The investments are valued at fair value based on quoted market prices as of June 30, 2008. The State Treasurer Local Government Investment Pool (LGIP) is not SEC registered. Section 6-10-10 I, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies and are either direct obligations of the United States or are backed by the full faith and credit of the United States government or are agencies sponsored by the United States government. The Local Government Investment Pool investments are monitored by the same investment committee and the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is

distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the local government investment pool is voluntary. The LGIP has been rated by Standard & Poor's and has received an AAAM rating.

B. Receivables

Receivables as of June 30, 2008 are as follows:

	<u>General</u>	<u>Special Revenue</u>	<u>Debt Service</u>	<u>Enterprise</u>	<u>Total</u>
Receivables:					
Accounts Receivable	\$ 31,003	\$ -	\$ 254,582	\$ 6,428,665	\$ 6,714,250
Unbilled Revenue	-	-	-	6,115,611	6,115,611
Special Assessments	14,475	-	-	-	14,475
Intergovernmental	9,737,819	2,646,954	-	546,563	12,931,336
Gross Receivables	<u>9,783,297</u>	<u>2,646,954</u>	<u>254,582</u>	<u>13,090,839</u>	<u>25,775,672</u>
Less: Allowance for Uncollectibles	-	-	-	(493,722)	(493,722)
Net Total Receivables:	<u>\$ 9,783,297</u>	<u>\$ 2,646,954</u>	<u>\$ 254,582</u>	<u>\$ 12,597,117</u>	<u>\$ 25,281,950</u>

Intergovernmental receivables are made up of the following amounts in the general and special revenue funds: gross receipts taxes \$9,762,089, property taxes \$1,539,226, federal and state grants \$ 485,327, franchise taxes \$181,955, lodger's taxes \$283,409 and other taxes \$132,767.

Revenues of the utilities are reported net of uncollectible amounts.

Total uncollectible amounts related to revenues of the current period are as follows:

Uncollectibles related to electric sales	\$ 83,290
Uncollectibles related to water sales	10,109
Uncollectibles related to wastewater charges	5,978
Uncollectibles related to sanitation charges	4,555
Total uncollectibles of the current fiscal year	<u>\$ 103,932</u>

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. The City reported no unearned revenue during the year. At the end of the current fiscal year, *deferred revenue* reported in the governmental funds was as follows:

	<u>Unavailable</u>
Taxes	<u>\$ 1,709,617</u>

C. Capital assets

Capital asset activity for the year ended June 30, 2008 was as follows:

Governmental activities	Balance July 1, 2007	Transfers	Additions	Deletions	Balance June 30, 2008
Non-Depreciable Assets:					
Land	\$ 25,780,126	\$ -	\$ -	\$ -	\$ 25,780,126
Construction in progress	6,565,378	-	4,578,149	(6,797,840)	4,345,687
Total Non-Depreciable Assets	32,345,504	-	4,578,149	(6,797,840)	30,125,813
Depreciable Assets:					
Buildings	49,439,083	-	1,415,201	(59,302)	50,794,982
Improvements other than buildings	11,247,960	-	737,541	(3,594)	11,981,907
Equipment	26,788,706	(12,000)	2,812,712	(1,631,596)	27,957,822
Infrastructure	56,112,352	-	4,793,897	-	60,906,249
Total Depreciable Assets	143,588,101	(12,000)	9,759,351	(1,694,492)	151,640,960
Total Governmental Assets	175,933,605	(12,000)	14,337,500	(8,492,332)	181,766,773
Accumulated Depreciation:					
Buildings	(23,839,337)	-	(1,780,732)	43,728	(25,576,341)
Improvements other than buildings	(4,416,926)	-	(872,618)	3,594	(5,285,950)
Equipment	(15,752,617)	12,000	(2,544,213)	1,557,719	(16,727,111)
Infrastructure	(45,258,710)	-	(1,909,698)	-	(47,168,408)
Total Accumulated Depreciation	(89,267,590)	12,000	(7,107,261)	1,605,041	(94,757,810)
Net Governmental Assets	\$ 86,666,015	\$ -	\$ 7,230,239	\$ (6,887,291)	\$ 87,008,963

Business-type activities	Balance July 1, 2007	Transfers	Additions	Deletions	Balance June 30, 2008
Non-Depreciable Assets:	Restated				
Land	\$ 4,881,987	\$ -	\$ 2,648	\$ -	\$ 4,884,635
Construction in progress	37,415,602	-	23,311,900	(15,983,263)	44,744,239
Total Non-Depreciable Assets	42,297,589	-	23,314,548	(15,983,263)	49,628,874
Depreciable Assets:					
Land Rights	1,761,891	-	-	-	1,761,891
Buildings	94,645,272	-	2,174,903	-	96,820,175

In 1988, the City entered into a lease agreement to lease land for the Pinon Hills Golf Course from San Juan College for \$10. The lease expires in the year 2087, at which time the land, including improvements, will be returned to San Juan College.

Depreciation expense was charged to functions / programs of the government as follows:

Governmental activities:	
General government	\$ 593,684
Police	637,256
Fire	770,957
Parks, recreation, cultural affairs	2,856,817
Community development	524,260
Highways and streets	<u>1,724,287</u>
Total depreciation expense - governmental activities	\$ <u>7,107,261</u>
Business-type activities:	
Electric	\$ 10,177,825
Water	1,480,885
Wastewater	1,159,988
Sanitation	4,869
Golf	189,410
Airport	<u>662,997</u>
Total depreciation expense - business-type activities	\$ <u>13,675,974</u>

Construction commitments

The City has an active construction project as of June 30, 2008. The project is the building of the new Sycamore Park. At year end, the City's commitment with contractors was as follows:

<u>Project</u>	<u>To Date</u>	<u>Commitment</u>
Southside Community Center	\$ <u>1,436,264</u>	\$ <u>2,248,823</u>

D. Interfund receivables, payables and transfers

The composition of accrued claims and other accrued liabilities as of June 30, 2008 is as follows:

<u>Accrued Claims Payable</u>	<u>Governmental Funds</u>	<u>Health Fund</u>	<u>Total</u>
Health/WorkComp/Liability Claims	\$ 1,784,247	\$ 509,375	\$ 2,293,622

			<u>\$ 1,420,720</u>

E. Leases

Capital Leases

The City has entered into two lease agreements for golf carts and turf equipment for the golf courses. The golf carts are valued at \$198,305 and the turf equipment is valued at \$ 381,092. Both of these agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the inception date.

The assets acquired through this capital lease are as follows:

Asset	Business Activities
Machinery and equipment	\$ <u>579,397</u>
Less: accumulated depreciation	<u>(405,578)</u>
Total	\$ <u><u>173,819</u></u>

The future minimum lease obligation and the net present value of those minimum lease payments as of June 30, 2008 were as follows:

Year Ending	Golf Course Turf	
	Golf Carts	Equipment
June 30, 2009	\$ 114,980	\$ 146,625
Total minimum lease payments	114,980	146,625
Less: amount representing interest payments	(5,906)	(5,430)
	\$ 109,074	\$ 141,195

F. Long-term debt

General Obligation bonds

The City has the capacity to issue general obligation bonds to provide funds for the acquisition and/or construction of major capital projects, but as of June 30, 2008 no general obligation bonds had been issued.

Revenue bonds

The City also has the capacity and has issued Sales Tax Revenue Bonds whereby the City has pledged income derived from the Gross Receipts Tax to pay the required debt service on the bonds.

During FY 2002, the City redeemed the outstanding balance on the 1993 Sales Tax Revenue Bond issue in the amount of \$395,000. With the issuance of the 2001 Sales Tax Revenue Improvement and Refunding Bonds the City provided for the refunding of the previously issued 1994 Sales Tax Revenue Bonds and issued an additional \$11 million dollars for the purpose of completing construction of a new library and several major street projects.

In FY 2005, the City issued \$5,725,000 of Series 2005 Sales Tax Revenue Bonds to provide funds to construct, furnish, equip and improve fire-fighting facilities and acquire and rehabilitate fire-fighting equipment.

On December 17, 2002 the City issued \$44,390,000 of 2002A utility revenue bonds and \$2,280,000 of 2002B utility revenue bonds to refund \$47,150,000 of 1992 utility revenue bonds. The estimated present value benefit of refunding the 1992 bonds is \$6,342,865. The transaction resulted in an accounting loss of \$2,959,014.

Revenue bonds outstanding as of June 30, 2008 are as follows:

	Interest Rates	Interest				Total
		General Govt	Electric	Water	Wastewater	
Governmental Activities						
Sales Tax Bonds 2001	4.00 - 5.00%	\$ 5,740,000	\$ -	\$ -	\$ -	\$ 5,740,000
Sales Tax Bonds 2005	3.25 - 4.00%	4,750,000	-	-	-	4,750,000
Business Activities						
Serial Bonds 2002	3.50 - 5.00%	-	21,425,815	4,623,409	760,776	26,810,000
Total		\$10,490,000	\$21,425,815	\$ 4,623,409	\$ 760,776	\$37,300,000

Annual debt service requirements to maturity for revenue bonds are as follows:

Year Ending June 30	General Govt.		Electric		Water		Wastewater	
	Principal	Interest	Principal	Interest	Principal	Interest	Principal	Interest
	2009	\$ 1,225,000	\$ 425,643	\$ 4,267,581	\$ 971,718	\$ 920,888	\$ 209,684	\$ 151,531
2010	1,270,000	379,342	4,415,428	822,352	952,791	177,453	156,781	29,200
2011	1,315,000	330,393	4,639,197	601,581	1,001,077	129,813	164,726	21,361
2012	1,370,000	279,692	4,870,957	369,621	1,051,088	79,759	172,955	13,124
2013	1,420,000	225,680	3,232,652	126,073	697,565	27,205	114,783	4,477
2014	1,485,000	158,780	-	-	-	-	-	-
2015	445,000	96,200	-	-	-	-	-	-
2016	460,000	78,400	-	-	-	-	-	-
2017	480,000	60,000	-	-	-	-	-	-
2018	500,000	40,800	-	-	-	-	-	-
2019	520,000	20,800	-	-	-	-	-	-
Total	\$ 10,490,000	\$ 2,095,730	\$ 21,425,815	\$ 2,891,345	\$ 4,623,409	\$ 623,914	\$ 760,776	\$102,665

For governmental fund types, bond premiums and discounts, as well as issuance costs, are recognized in the current period. Bond proceeds are reported as other financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

For proprietary fund types, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount, whereas issuance costs are reported as deferred charges. Deferred amounts on refunding (the difference between the reacquisition price and the net carrying amount of the old debt) are amortized as a component of interest expense. The unamortized portion of the deferred amount is reported as a deduction from revenue bonds payable.

The 2002A Utility Revenue bonds are secured by and are payable solely from the net revenues derived by the City from the utility system (electric, water and wastewater utility funds), after payment of operating and maintenance expenses. Payment is also secured by an insurance policy issued by Financial Guaranty Insurance Company. The Policy is non-cancelable, and the premium was paid at the time of delivery of the bonds. There are a number of limitations and restrictions contained in the bond indenture. As of June 30, 2008, the City was in compliance with all significant limitations and restrictions.

New Mexico Environment Department Loan. In August 2000, the City entered into a loan agreement with the New Mexico Environment Department for a \$9.8 million, 3% loan for expansion of the wastewater treatment plant. On September 9, 2002 the loan amount was increased to \$13 million. As of June 30, 2008, the City has received \$12,830,162 in draw down payments and accrued \$1,348,029 in construction interest. Repayment of the loan, which includes payments plus construction interest, began on June 30, 2007, one year after completion of the expansion.

The NMED loan repayment schedule is as follows:

Year Ending June 30	Principal	Interest
2009	\$ 559,785	\$ 393,212
2010	576,579	376,418
2011	593,876	359,121
2012	611,693	341,305
2013	630,043	322,954
2014-2018	3,445,335	1,319,650
2019-2023	3,994,089	770,897
2024-2026	2,695,658	163,333
Total	\$ 13,107,058	\$ 4,046,890

Defeasance of Prior Debt. In prior years, the City defeased certain outstanding revenue bonds by placing the proceeds of new bonds and additional funds from their respective funds in an irrevocable trust to provide for all future debt service payments on the old bonds. All debt service payments made for the year ended June 30, 2008 were made as scheduled from the trust funds. The trust accounts and the defeased bonds are not included in the City's financial statements. As of June 30, 2008, the following outstanding bonds are considered defeased (amounts in thousands):

	Series 1983 B	Series 1992
Original issue amount	\$ 37,950	\$ 49,205
Retired prior to fiscal year	(35,970)	(16,195)
Retired during the year ended 2008	(1,980)	(6,130)
Balance of principal remaining	\$ -	\$ 26,880
Interest payments made during year ended June 30, 2008	\$ 195	\$ 1,898

Changes in Long-term Liabilities

During the year ended June 30, 2008, the following changes occurred in long-term liabilities:

	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year
Governmental activities:					
Bonds payable:					
2001 Sales tax revenue	\$ 6,570,000	\$ -	\$ (830,000)	\$ 5,740,000	\$ 865,000
2005 Sales tax revenue	5,100,000	-	(350,000)	4,750,000	360,000
Premium on bonds	153,254	-	(21,893)	131,361	-
Total bonds payable	11,823,254	-	(1,201,893)	10,621,361	1,225,000

G. Restricted Assets

The following is a summary of restricted assets as of June 30, 2008:

Enterprise Funds

	Electric	Water	Wastewater	Total
Revenue bond current debt service	\$ 468,296	\$ 101,052	\$ 16,628	\$ 585,976
NMED loan debt service reserves	-	-	553,969	553,969
Revenue bond renewal, replacement and contingency account	1,598,345	344,902	56,753	2,000,000
Customer deposits/overpayments	20,308,878	202,778	-	20,511,656
Total restricted assets	\$ 22,375,519	\$ 648,732	\$ 627,350	\$ 23,651,601

V. OTHER INFORMATION

A. Risk Management

The government is exposed to various risks of loss related to torts, theft, property damage, errors and omissions, and natural disasters for which the government has designed a self insurance program in conjunction with commercial insurance coverage. The amount of settlement has not exceeded insurance coverage for the past three fiscal years. Effective November 11, 2002, the self insured retention for excess liability coverage was increased from \$250,000 to \$500,000.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payments, and other economic and social factors. Changes in the balances of claims liabilities during the past three years are as follows:

	June 30, 2006		June 30, 2007		June 30, 2008	
	Health	Risk Mgmt	Health	Risk Mgmt	Health	Risk Mgmt
Unpaid claims, beginning of fiscal year	\$ 718,182	\$1,508,352	\$ 502,427	\$1,075,404	\$ 492,511	\$ 1,486,607
Incurred claims and changes in estimate	2,974,866	398,126	4,206,951	822,406	3,770,657	595,287
Claim payments	(3,190,621)	(831,074)	(4,216,867)	(411,203)	(3,753,793)	(297,647)
Unpaid claims, end of fiscal year	\$ 502,427	\$1,075,404	\$ 492,511	\$1,486,607	\$ 509,375	\$ 1,784,247

B. Contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial. The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of City counsel that resolution of these matters will not have a material adverse effect on the financial condition of the government.

C. Jointly governed organizations

Joint Powers Agreement for Consolidated Communications Authority. The City is a participant with San Juan County, the City of Aztec and the City of Bloomfield in a joint powers agreement to build, maintain, and operate a centralized communications system for dispatch and emergency response. The City was obligated to contribute \$55,000 per year until the Capital Equipment Fund reached a balance of \$250,000. Thereafter, the City is obligated to contribute 44% of an amount necessary to maintain that balance. During FY 2008, no contribution from the City was made to the Authority. Complete financial statements for the Consolidated Communications Authority can be obtained from San Juan County, New Mexico.

Joint Powers Agreement for the San Juan Water Commission. The City is a participant with the cities of Aztec and Bloomfield, the County of San Juan, and the San Juan Rural Waters Users Association in a joint powers agreement to create a countywide entity responsible for water planning and use. Much of the impetus to form the Commission came from the Animas La Plata water project and the subsequent need to develop methods to equitably share the related costs and benefits. In addition to this specific project the Commission is also authorized to acquire additional water rights and provide for the equitable distribution of such water. The Commission is financed by a San Juan County mill levy on real and personal property of approximately 3 mills. During FY 2008 the City did not make any financial contribution to the Commission. Complete financial statements may be obtained by contacting the San Juan Water Commission.

D. Employee Retirement Systems and Plans

Pension Plan – Public Employees Retirement Association

Plan Description. Substantially all of the City of Farmington's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding Policy. Plan members are required to contribute from 9.15% to 16.30%, depending upon the plan (i.e., state general, state hazardous duty, state police and adult correctional officers, municipal general, municipal police, municipal fire, municipal detention officer) of their gross salary. The City of Farmington is required to contribute from 9.15% to 21.25% (depending upon the plan) of the gross covered salary. The contribution requirements of plan members and the City of Farmington are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The City of Farmington's contributions to PERA for the fiscal years ending June 30, 2008, 2007, and 2006 were \$8,556,921, \$7,805,193, and \$7,278,096, respectively, which equal the amount of the required contributions for each fiscal year.

E. Post-Employment Benefits – State Retiree Health Care Plan

Plan Description. The City of Farmington, at the beginning of FY 2008, began contributions to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (NMRHCA). The NMRHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The NMRHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the NMRHCA plan on the person's behalf unless that person retires before the employer's NMRHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The NMRHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the NMRHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's NMRHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the NMRHCA or viewed on their website at www.nmrhca.state.nm.us.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The statute requires each participating employer to contribute 1.3% of each participating employee's annual salary; each participating employee is required to contribute .65% of their salary. Employers joining the program after 1/1/98 are also required to make a surplus-amount contribution to the NMRHCA based on one of two formulas at agreed-upon intervals. In June of 2007, the City remitted \$1,638,662 in employer surplus contributions. The NMRHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the NMRHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature. The City of Farmington's contributions to the NMRHCA for the year ended June 30, 2008 were \$446,992 which equals the required contributions for the year.

F. Undivided Interest in San Juan Unit No. 4.

On November 17, 1981, the City acquired an 8.475% undivided interest in Unit No. 4 of the San Juan Electric Generating Station located in San Juan County, New Mexico. Unit No. 4 is owned 8.475% by the City and 91.525% by the Public Service Company of New Mexico ("PNM") and others. The unit became operational April 27, 1982.

Unit No. 4 provides electricity to the co-owners and to other unrelated parties. The City's pro rata portions of the operations are reported in the accompanying statement of revenues and expenses of the electric utility fund. The operating agreement between the City and PNM provides that PNM and other owners are entitled to receive energy from the Unit on a pro rata basis. Maintenance and operating costs, other than fuel costs, are also shared on a pro rata basis. Fuel costs are paid by PNM and the other owners, including the City, in proportion to their share of monthly energy scheduled and produced from the Unit.

PNM has an option to purchase up to 50% of the City's capacity entitlement and associated energy in Unit No. 4. PNM must give eight years notice of its intent to purchase (no notice has been given). The investment is reported at the amount of the City's equity in the underlying net assets of the unit and is included in the electric utility capital assets.

G. Contracted Water and Wastewater Services.

In January, 2008, the City entered into an agreement with CH2M Hill-OMI to provide water and wastewater services to the City of Farmington. The company operates and maintains the water and wastewater facilities. The contract expires in December, 2015. The company is responsible for operating expenditures, as well as repairs and replacements up to \$2,000. The City paid approximately \$4.6 million for contracted services for the year ended June 30, 2008.

H. Conduit Debt

Conduit debt has been defined by GAAP as "certain limited-obligation revenue bonds or similar debt instruments issued by a local governmental entity for the express purpose of providing capital financing for a specific third party that is not a part of the issuer's financial reporting entity." The City has not reported any conduit debt or the related asset on the financial statements. The aggregate amount of all conduit debt obligations as of June 30, 2008 was \$1,383,025,000. This debt will never constitute an indebtedness of the City of Farmington within the meaning of any constitutional or statutory provision of the state of New Mexico and will never constitute or give rise to a pecuniary liability of the City of Farmington or a charge against its general or taxing powers.

I. Prior Period Adjustment

In FY 2007, the City over-reported capital outlay by \$150,889 in the Airport fund. In the work order system, outside services were recorded twice causing an overstatement of construction in progress. This error was discovered in FY 2008 resulting in a prior period adjustment. Information provided below restates the applicable portion of the Notes to the Financial Statements. Since the misstatement affected construction in progress only, there was no effect on accumulated depreciation or depreciation expense.

	June 30, 2007 (As Reported)	Correction	June 30, 2007 (As Restated)
<u>Business-type activities</u>

Nonmajor Governmental Funds

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes, or to facilitate the management of financial resources internally "designated" for specific purposes. Special revenue funds are authorized by the City Council.

Gross Receipts Tax Streets Fund - City Ordinance 606 established this fund to account for the City's share of gross receipts tax that is legally restricted to the maintenance of streets and storm drainage.

Gross Receipts Tax Parks and Public Works Fund - City Ordinance 81-702 established this fund to account for the City's 1/4% share of gross receipts tax that is legally restricted to the maintenance of streets and parks.

Parks Development Fees Fund - City Council Resolutions 887, dedication of recreation space, and 910, land subdivision regulations - recreation space, established this fund to account for fees collected from developers for the purchase of land and development of parks.

Recreation Fund - City management established this fund to account for the City's share of a state cigarette tax legally restricted for parks and recreation expenditures (approved by City Council Resolution # 2001-1013).

Library Gifts and Grants Fund - City management established this fund to account for state and county gifts and grants restricted for the purchase of library books and other educational library needs.

Parks/Recreation Gifts and Grants Fund - City management established this fund to account for state grants restricted to expenditures for local beautification purposes and expenditures for leisure activities of senior citizens.

Museum Gifts and Grants Fund - City management established this fund to account for state grants restricted to expenditures for museum purposes.

Lodgers Tax Fund - State statute 3-38-15N.M.S.A. and City Ordinance 480 established this fund to account for the City-imposed tax restricted for tourism and promotion. One-fourth of the revenues are restricted to tourism and promotion and three-fourths of the revenues are restricted for promotional facilities.

State Police Protection Fund - City management established this fund to account for state grants restricted for the purchase of police equipment and other approved police needs.

Region II Narcotics Grant Fund - City management established this fund to account for federal grants restricted to expenditures for approved police needs.

Law Enforcement Block Grant Fund - City management established this fund to account for federal grants restricted to expenditures for approved police needs (City Council Resolution # 2001-1013).

State Fire Grant Fund - City management established this fund to account for state grants restricted for the purchase of fire fighting equipment and other approved fire department needs.

Penalty Assessment Fund - City management established this fund to account for traffic fine revenues and disbursements according to City Code 19-84.

Capital Projects Funds

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

Community Development Grant Projects Fund - This fund is used to account for community improvements throughout the City.

Governmental Capital Projects Fund – This fund is used to account for capital projects that are funded with transfers from the general fund.

Debt Service Fund

The debt service fund is used to account for the accumulation of resources and payment of revenue bond principal and interest from gross receipts tax sources.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the City of Farmington's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<i>Financial Trends</i>	<u>Page</u>
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	92
<i>Revenue Capacity</i>	
These schedules contain information to help the reader assess the City's most significant revenue sources - gross receipts tax and electricity sales. Also included are property tax schedules.	97
<i>Debt Capacity</i>	
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	108
<i>Demographic and Economic Information</i>	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	112
<i>Operating Information</i>	
The schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	114

Source: State of New Mexico Department of Taxation & Revenue monthly distribution reports

(a) Data has been suppressed for purposes of taxpayer confidentiality. Information is suppressed when too few taxpayers are included in a category.

(b) Although the figures in the table have been derived from "NM_FR003-500 Local Gov't Distribution Summary" issued monthly by the State, the State suppresses revenue information in certain categories, if release of the information would compromise the confidentiality of an individual taxpayer. Accordingly, the "Taxable Gross Receipts Tax" totals in this table will differ from those in other tables.

(c) Beginning with FY 2001, the Gross Receipts Tax information is derived from the NM_FR003-500 Local Gov't Distribution Summary. Prior year history stems from the previously used Report 080-Analysis of Gross Receipts.

(d) Beginning with the 1st Quarter of FY 2004, the State changed the gross receipts tax classification system in the report NM_FR003-500 Local Gov't Distribution Summary, from the Standard Industrial Classification format to the North American Industrial Classification format.

(e) Effective January 2005, state legislation removed the state and local options gross receipts tax (GRT) from the sales of food and most health care services, by allowing retail food outlets and medical service providers to deduct qualifying food and health services from gross receipts reported to the NM Taxation and Revenue Department. However, municipalities and counties are "held harmless" and are reimbursed the local option GRT on these nontaxable items from the State of New Mexico. The financing of this reimbursement is provided by an increase State GRT of .5%. Although the "taxable gross receipts" column does not include food sales and health care services, the amounts reported as GRT collected by the City does include these items.

Source: State of New Mexico Department of Taxation & Revenue monthly/quarterly distribution reports

Notes: Due to confidentiality issues, the names of the ten largest revenue payers are not available. The categories presented are intended to provide alternative information regarding the sources of the city's revenue.

Beginning with FY2001, the Gross Receipts Tax information is derived from the NM_FR003-500 Local Gov't Distribution Summary. Prior year history stems from the previously used NM Report 080-Analysis of Gross Receipts.

(a) Data has been suppressed for purposes of taxpayer confidentiality. Information is suppressed when too few taxpayers are included in a category.

(b) Although the figures in the table have been derived from "NM_FR003-500 Local Gov't Distribution Summary" issued monthly by the state, the state suppresses revenue information in certain categories if the release of information would compromise the confidentiality of an individual taxpayer. Accordingly, the "Taxable Gross Receipts Tax" totals in this table will differ from those in other tables.

(c) Beginning with the 1st Quarter of FY 2004, the State changed the gross receipts tax classification system in the report NM_FR003-500 Local Gov't Distribution Summary from the Standard Industrial Classification format to the North American Industrial Classification format.

(d) Effective January 2005, state legislation removed state gross receipts tax from groceries and healthcare, and held municipal gross receipts tax "harmless".

Source: San Juan County Treasurer

Notes: Taxes are levied and collected by the County Treasurer and distributed to all taxing jurisdictions. The tax rate is requested by the City Council and set by the New Mexico Department of Finance and Administration. The State allows the rate to be set at 5% in excess of the requirements to allow for delinquencies.

CITY OF FARMINGTON
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Year Ended June 30, 2008

NOTE 1 - SCOPE OF AUDIT PURSUANT TO OMB CIRCULAR A-133

All federal grant operations of the City of Farmington (the "City") are included in the scope of the Office of Management and Budget ("OMB") Circular A-133 audit (the "Single Audit"). The Single Audit was performed in accordance with the provisions of the OMB Circular Compliance Supplement. Compliance testing of all requirements as described in the Compliance Supplement was performed for the grant programs noted below. These programs represent all federal award programs and other grants with fiscal 2008 cash and non-cash expenditures to ensure coverage of at least 25 percent (low risk auditee) of federally granted funds. Actual coverage is 58% of total cash and non-cash federal award program expenditures.

	<u>Fiscal Year 2008</u> <u>Expenditure</u>
Major Federal Award Program Description	
20.106 – Airport Improvement Program – All Projects	\$2,658,838

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying Schedule of Expenditures of Federal Awards includes all federal grants to the City that had activity during the fiscal year ended June 30, 2008. This schedule has been prepared on the accrual basis of accounting. Grant revenues are recorded for financial reporting purposes when the City has met the qualifications for the respective grants.

Accrued and deferred reimbursements

Various reimbursement procedures are used for Federal awards received by the City. Consequently, timing differences between expenditures and program reimbursements can exist at the beginning and end of the year. Accrued balances at year-end represent an excess of reimbursable expenditures over receipts to date. Generally, accrued or deferred balances covered by differences in the timing of cash receipts and expenditures will be reversed in the remaining grant period.

**Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit
of Financial Statements Performed in Accordance With
*Government Auditing Standards***

City of Farmington
Farmington, New Mexico
Honorable Mayor and City Council and
Hector H. Balderas
New Mexico State Auditor

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information, and the combining and individual funds and all the budgetary comparisons presented as supplemental information of the City of Farmington, New Mexico (City) as of and for the year ended June 30, 2008, and have issued our report thereon dated November 11, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City's financial statements that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we considered to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We noted instances of noncompliance that are required to be reported under Section 12-6-5, NMSA 1978, which are described in the accompanying schedule of findings and responses as findings 2007-3, 2008-1 and 2008-2.

This report is intended solely for the information and use of the City Council, City management, the Office of the State Auditor, the New Mexico Legislature, the New Mexico Department of Finance and Administration, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink that reads "David Bruy, CPA, PC". The signature is written in a cursive style with a large, sweeping initial "D".

Farmington, New Mexico
November 11, 2008

**Report on Compliance
With Requirements Applicable to Each
Major Program and Internal Control Over
Compliance in Accordance With
OMB Circular A-133**

City of Farmington
Farmington, New Mexico
Honorable Mayor and City Council
and
Hector H. Balderas
New Mexico State Auditor

Compliance

We have audited the compliance of the City of Farmington, New Mexico (City) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the City Council, City management, the Office of the State Auditor, the New Mexico Legislature, the New Mexico Department of Finance and Administration, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

**CITY OF FARMINGTON
SCHEDULE OF FINDINGS AND
QUESTIONED COSTS
Year Ended June 30, 2008**

A. SUMMARY OF AUDIT RESULTS

1. The auditors' report expresses an unqualified opinion on the basic financial statements of the City of Farmington.
2. No significant deficiencies relating to the audit of the financial statements are reported in the Independent Auditor's Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*.
3. No instances of noncompliance material to the financial statements of the City were disclosed during the audit.
4. No significant deficiencies relating to the audit of the major federal award programs are reported in the Independent Auditors' Report on Compliance With Requirements Applicable to Each Major Program and Internal Control Over Compliance in Accordance With OMB Circular A-133.
5. The auditor's report on compliance for the major federal award programs for the City expresses an unqualified opinion.
6. No audit findings relative to the major federal award programs for the City are reported in Part C. of this Schedule.
7. The program tested as major programs included:

	<u>Fiscal Year 2008</u> <u>Expenditure</u>
Major Federal Award Program Description	
20.106 – Airport Improvement Program – All Projects	\$2,658,838

8. The threshold for distinguishing Types A and B programs was \$300,000.
9. The City was determined to be a low-risk auditee.

**CITY OF FARMINGTON
SCHEDULE OF FINDINGS AND
QUESTIONED COSTS
Year Ended June 30, 2008**

B. FINDINGS – FINANCIAL STATEMENTS AUDIT

Prior Year Findings		Status
2007-1	Budgetary Basis of Accounting	Cleared
2007-2	Inventory Adjustments	Cleared
2007-3	Purchase Card Violation	Not cleared and repeated

Current Year Findings

2007-3 Purchase Card Violation

Condition

During our test of disbursements we noted an invoice from Turner Electric Corporation in the amount of \$6,314.88 was split into smaller amounts (\$4,000.00 and \$2,314.88) so that the Purchase Card could be used without going over the Purchase Card limit.

Criteria

The Purchase Card can be used for purchases of less than \$5,000.

Cause

The Purchase Card was used for a purchase that exceeded the \$5,000 amount.

Effect

The City's procurement process was avoided by splitting the invoice into smaller amounts so that the Purchase Card could be used for the purchase.

Recommendation

The City should establish policies and procedures to determine that the employees are not avoiding the intent of the City's procurement process.

Management Response

An electric employee requested to have a temporary increase on their card for this specific transaction but the liaison for this employee's card did not request a sufficient increase to cover the purchase. The liaison will strive to ensure that P-card increase requests are followed up on more carefully. The City Manager has reinforced the P-card policy to all employees.

2008-1 Actual Expenses Exceeded Final Budget

Condition

The City's actual expenses exceeded final budget by \$236,905 in the Airport Enterprise Fund.

Criteria

The City is not in compliance with State Statue 6-6-6 NMSA 1978 regarding expenses not exceeding budgeted authority. The State requires that actual expenses do not exceed final budgeted expenses.

Cause

The City did not sufficiently increase budgeted expenses at year end to cover actual expenses for the year ended June 30, 2008.

Effect

The City is not in compliance with the State Statue regarding expenses not exceeding budgeted authority.

Recommendation

The City should adopt a final budget so that actual expenses will not exceed budgeted expenditures.

Management Response

The revenue budget was increased during the year for the Airport Enterprise Fund to cover cash deficits from project expenditures. However, corresponding increases in budgeted expenses were not sufficient to cover the actual project costs. Staff will work to ensure that future budget adjustments will be sufficient to cover expenditures.

2008-2 Professional Service Contracts

Condition

The City contracted with Moss Adams LLP in April 2007 to provide professional services without the prior written approval of the State Auditor, as prohibited by Section 2.2.2.8.H(3) NMAC 2008.

Criteria

The State Auditor Office Rule 2.2.2.8.H(3) NMAC 2008 requires prior written approval of the State Auditor for professional services contracts.

Cause

City personnel involved were not aware that information systems fall under the guidelines of the State Auditor Rule governing financial audits.

Effect

The City is not in compliance with State Auditor Office Rule 2.2.2.8.H(3) NMAC 2008.

Recommendation

The City should ensure that all employees involved in contracting with audit firms are aware of the State Auditor Rule requirements.

Management Response

The City has conveyed the State Audit Rule requirements on contracting audit assignments to all pertinent employees and will include this requirement in the training of all new employees involved in contracting services for the City.

**REPORT AND OTHER INFORMATION
REQUIRED BY THE PASSENGER FACILITY
CHARGE AUDIT GUIDE FOR PUBLIC AGENCIES**

**Report on Compliance Applicable to the Passenger Facility Charge
Program and on Internal Control Over Compliance in Accordance with the
Passenger Facility Charge Audit Guide for Public Agencies and on the
Schedule of Passenger Facility Charges Revenues and Disbursements**

City of Farmington
Farmington, New Mexico
Honorable Mayor and City Council
and
Hector H. Balderas
New Mexico State Auditor

Compliance

We have audited the compliance of the City of Farmington, New Mexico (City) with the compliance requirements described in the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration (Guide), for its passenger facility charge program for the year ended June 30, 2008. Compliance with the requirements of laws and regulations applicable to its passenger facility charge program is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration. Those standards and the Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the passenger facility charge program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City complied, in all material respects, with the requirements referred to above that are applicable to each of its passenger facility program for the year ended June 30, 2008.

Internal Controls over Compliance

The management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws and regulations applicable to its passenger facility charge program. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on its passenger facility charge program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance in accordance with the Guide.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws and regulations caused by error or fraud that would be material in relation to the passenger facility charge program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Passenger Facility Charges

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information, and the combining and individual funds presented as supplemental information of the City of Farmington, New Mexico (City) as of and for the year ended June 30, 2008, and have issued our report thereon dated November 11, 2008. Our audit was conducted for the purpose of forming opinions on the basic financial statements, and the combining and individual fund financial statements. The accompanying schedule of passenger facility charges and disbursements as required by the Federal Aviation Administration's *Passenger Facility Charge Audit Guide for Public Agencies*, is presented for purposes of additional analysis and is not a required part of the financial statements of the City. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the City Council, City management, the Office of the State Auditor, the New Mexico Legislature, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink that reads "David Berry, CPA, PC". The signature is written in a cursive style with a large, sweeping initial "D".
