INDEPENDENT AUDITORS' REPORT

Mr. Hector H. Balderas
New Mexico State Auditor, and
Village Trustees
Village of Magdalena
Magdalena, New Mexico

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue and capital project funds, of the Village of Magdalena (the Village), as of and for the year ended June 30, 2009, which collectively comprise the Village's basic financial statements as listed in the table of contents. We have also audited the financial statements and budgetary comparison statements of each of the Village's non major governmental funds and the budgetary comparisons for each proprietary fund, presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2009, as listed in the table of contents. These financial statements are the responsibility of the Village's management. Our responsibility is to express opinions on these financial statements based on our audit.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the standards applicable to financial statement audits contained in the New Mexico State Audit Rule 2.2.2 NMAC. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

INDEPENDENT AUDITORS' REPORT

The Village of Magdalena, over the years has not maintained adequate detailed records of the Capital Assets. Accounting principles generally accepted in the United States of America require that adequate detailed records of the Capital Assets be maintained to provide for the verification and valuation of individual capital assets and to determine the adequacy of the related depreciation. The valuation of the Capital Assets and the related depreciation would affect the determination of the assets, net assets and expenses of the Village. The amount by which this would affect the assets, net assets and expenses is not reasonably determinable.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to audit the Capital Assets and related depreciation as described in the third paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial positions of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Magdalena, as of June 30, 2009, and the respective changes in financial position and cash flows thereof, and the respective budgetary comparison for the General Fund and major governmental funds for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to audit the Capital Assets and related depreciation as described in the third paragraph, the financial statements referred to above presented fairly, in all material respects, the respective financial position of the combining and each non-major governmental fund and combining proprietary funds of the Village of Magdalena, as of June 30, 2009, and the respective changes in financial position and cash flow thereof and the respective budgetary comparisons for each non-major governmental fund and proprietary funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2013 on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the result of our audit.

INDEPENDENT AUDITORS' REPORT

For the year ended June 30, 2009, the Village of Magdalena has omitted the *Management's Discussion and Analysis (MD&A)* which is required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Magdalena's basic financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The accompanying Supporting Schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to audit the Capital Assets and related depreciation as described in the third paragraph, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

State of New Mexico
Village of Magdalena
Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund
Balances of the Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2009

Net changes in fund balances- total governmental funds		\$ 58,594
<p>Amounts reported for governmental activities in the Statement of Activities are different because:</p> <p>Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets are allocated over their estimated useful lives as depreciation expenses.</p>		
Expenditures for capital assets		660,290
Less current year depreciation		<u>(38,698)</u>
		621,592
<p>Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.</p>		
Compensated absences		<u>(7,127)</u>
		(7,127)
<p>The proceeds of debt issuances provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of long-term debt principal are expenditures in the governmental funds but the payment reduces long-term liabilities in the Statement of Net Assets.</p>		
Notes payable retirement		<u>12,219</u>
		12,219
Change in net assets of governmental activities		<u><u>\$ 685,278</u></u>

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 1. Summary of Significant Accounting Policies

The Village of Magdalena (Village) was incorporated in 1918, under provisions of Chapter 3, Article 2, NMSA, 1978 as amended. The Village operates under a Mayor - Trustee form of government and provides the following services as authorized by its charter: public safety (police and fire); streets; water and sewer services; refuse collection; health and social services; culture-recreation; public improvements; and general administrative services.

The Village of Magdalena is a body politic and corporate under the name and form of government selected by its qualified electors. The Village may:

1. Sue or be sued;
2. Enter into contracts and leases;
3. Acquire and hold property, both real and personal;
4. Have common seal, which may be altered at pleasure;
5. Exercise such other privileges that are incident to corporations of like character or degree that are not inconsistent with the laws of New Mexico;
6. Protect generally the property of its municipality and its inhabitants;
7. Preserve peace and order within the municipality; and
8. Establish rates for services provided by municipal utilities and revenue-producing projects, including amounts which the governing body determines to be reasonable in the operation of similar facilities.

The financial statements of the Village have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The financial statements have incorporated all applicable GASB pronouncements as well as Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins of the Committee on accounting procedures issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements. The more significant of the Village's accounting policies are described below.

A. Financial Reporting Entity

In evaluating how to define the Village, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB statements No. 14. The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 1. Summary of Significant Accounting Policies (continued)

A. Financial Reporting Entity (continued)

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Based upon the application of these criteria, the Village has no component units, and is not a component unit of another governmental agency.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities and changes in net assets) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Assets and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Non-exchange Transactions.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Specifically, program revenue includes ambulance fees and license fees. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The Village does not have any fiduciary funds.

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Sales and use taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place and the revenues are measurable and available. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met and the susceptible to accrual criteria have been met.

Governmental funds are used to account for the Village's general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets and the servicing of general long-term debt. Governmental funds include:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Revenues are provided through property and other taxes, federal sources, state sources, charges for services, licenses and fees, and other miscellaneous recoveries and revenue. Expenditures include all costs associated with the daily operation of the Village except for items included in other funds.

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

The *Special Revenue Funds* account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

The *Debt Service Funds* account for the services of general long-term debt not being financed by proprietary or nonexpendable trust funds. Currently the Village does not have any Debt Service Funds.

The *Capital Projects Funds* account for the acquisition of fixed assets or construction of major capital projects not being financed by the proprietary or nonexpendable trust funds.

Under the requirements of GASB No. 34, the Village is required to present certain of its governmental funds as major based upon certain criteria. The major funds presented in the fund financial statements include only the General Fund, Fire Protection Fund, and Joint Utility Fund. No other funds were required to be presented as major at the discretion of management.

The *General Fund* accounts for all financial resources of the general government, except those required to be accounted for in another fund. Revenues are provided through property and other taxes, federal sources, state sources, charges for services, licenses and fees, and other miscellaneous recoveries and revenue. Expenditures include all costs associated with the daily operation of the Village except for items included in other funds.

The *Fire Protection Fund* (Special Revenue Fund) accounts for the financial resources from a state grant and charges for services rendered. Expenditures include costs for the operations and maintenance of the fire department. Financing is provided by an allotment from the State of New Mexico Fire Marshal's Office. State Statute Section 59A-53-2, NMSA, 1978 compilation, requires the allotment be used only to operate fire departments.

The *Municipal Complex* (Capital Project Fund) accounts for the financial resources from state grants and local matching funds for the construction of a municipal administration office building. Expenditures include all costs associated with the construction project.

The *Fire Complex* (Capital Project Fund) accounts for the financial resources from state grants and local matching funds for the improvements to the fire station building. Expenditures include all costs associated with the construction improvement project.

The *Joint Utility Fund* (Enterprise Fund) accounts for charges from the delivery of water, sewer and solid waste services to the Village and the corresponding costs of delivering those services. The government reports its proprietary fund as a major fund.

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict the guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Village has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of inter fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes, because elimination of these charges would distort the direct costs and program revenues reported in the Statement of Activities.

Program revenues reduce the costs of the function to be financed from the Village's general revenues. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. In particular, the Village receives various licenses and fees and collects ambulance fees.

The Village reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. The Village does not currently employ indirect cost allocation systems. Depreciation expense is unallocated because depreciation records do not specifically identify the function. Interest on general and long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing service in connection with the fund's principal ongoing operations. The principal operating revenue of the Village's enterprise fund is charges for services for the Village utilities. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use the restricted resources first, then unrestricted resources as they are needed.

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities, and Net Assets or Equity

Deposits and Investments: The Village's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. State statutes authorize the Village to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Investment Pool.

Investments for the Village are reported at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties. The State Treasurer's Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

Receivables and Payables: Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds or internal balances" (i.e., the current portion of inter-fund loans) or "advances to/from other funds or internal balances" (i.e., the non-current portion of inter-fund loans).

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded when levied.

The Village receives mill levy and ad-valorem tax revenues. Property taxes are assessed on January 1 of each year and are based on the assessed value of property and are due in two equal payments by November 10th of the year in which the tax bill is prepared and April 10th of the following year. Property taxes uncollected thirty days after November 10th and April 10th are considered delinquent and may incur assessed penalties and interest. The taxes attach as an enforceable lien on the property. The Village recognizes tax revenues in the period in which they are levied in the government-wide financial statements. The Village records only the portion of taxes considered "measurable" and "available" in the governmental fund financial statements. Descriptions of the individual debt service and capital outlay funds contained in these financial statements include information regarding the authority for the collection and use of these taxes. Socorro County bills, collects, and remits to the Village its share of property taxes.

Prepaid Items: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and proprietary financial statements.

State of New Mexico
 Village of Magdalena
 Notes to Financial Statements
 June 30, 2009

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities, and Net Assets or Equity (continued)

Capital Assets: Capital assets, which include property, plant, and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, the historical costs of infrastructure assets (retroactive to 1979) are to be included as part of the governmental capital assets reported in the government wide statements. Donated capital assets are recorded at estimated fair market value at the date of donation. Information Technology Equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C(5). The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Library books are expensed as purchased.

Major outlays for capital assets and improvements are capitalized as projects are constructed. No interest was included as part of the cost of capital assets under construction.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Infrastructure	50
Buildings and Improvements	40
Equipment	3-10
Vehicles	5-7
Software	5

Deferred Revenues: Accounting principles generally accepted in the United States of America require that grant revenue be recognized at the time the related expense is made if the expenditure of funds is the prime factor for determining eligibility for reimbursement; therefore, amounts received and not expended in the Special Revenue Funds are shown as deferred revenues. In addition, property taxes receivable but uncollected within sixty (60) days of year-end are classified as deferred revenue.

Compensated Absences: Qualified employees are entitled to accumulate annual leave, according to a graduated leave schedule, based on length of service. Employees may accumulate up to twenty four days of annual leave and carry that leave forward from fiscal year to fiscal year. Upon termination, employees will be paid for all days of accrued annual leave.

Qualified employees are entitled to accumulate sick leave up to forty days, at a rate of twelve days per year. Sick leave can be carried over from year to year. Upon termination employees forfeit all unused sick leave.

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities, and Net Assets or Equity (continued)

All vacation leave is accrued when incurred in the government-wide financial statements. A liability for those amounts is reported in the governmental funds only if they have matured, for example, as a result of an employee retirements or terminations.

Long-term Obligations: In the government-wide fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Net Asset or Fund Equity:

Committed fund balance represents amounts that are usable only for specified purposes by formal action of the government's highest level of decision-making authority.

Assigned fund balance represents amounts that are intended to be used for specific purpose, but are neither restricted nor committed. Intent is expressed by the governing body or a subordinate high level body or official whom the governing body has delegated.

Restricted fund balance represents amounts with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unassigned fund balance is the residual classification for the general fund and represents the amount that have not been assigned to other funds, and that have not been restricted, committed or assigned to specific purposes.

Invested in capital assets, net of related debt consists of net assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of these assets.

Inter-fund Transactions: Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other inter-fund transactions, except quasi-external transactions and reimbursements are reported as transfers. Nonrecurring or non routine permanent transfers of equity are reported as residual equity transfers. All other inter-fund transfers are reported as operating transfers.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities, and Net Assets or Equity (continued)

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2. Stewardship, Compliance, and Accountability

Budgetary Information:

Annual budgets of the Village are prepared prior to June 1 and must be approved by resolution of the Village Trustees, and submitted to the Department of Finance and Administration for State approval. Once the budget has been formally approved, any amendments must also be approved by the Village Trustees and the Department of Finance and Administration. A separate budget is prepared for each fund. Line items within each budget may be over-expended; however, it is not legally permissible to over-expend any fund budget in total.

These budgets are prepared on the Non-GAAP cash basis, excluding receivables, payables, other accruals and encumbrances, and secure appropriation of the funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year. The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, and Capital Projects Funds.

The Village is required to balance its budgets each year. Accordingly, amounts that are in excess or deficient are presented as changes in cash designated for expenditures, not as an excess or deficiency of revenues over expenditures.

The accompanying Statements of Revenues and Expenditures - Budget (Non-GAAP Budgetary Basis) and Actual presents comparisons of the legally adopted budget with actual data on the budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with Generally Accepted Accounting Principles, reconciliations for the fiscal year are presented.

The reconciliation between the Non-GAAP budgetary basis amounts and the financial statements on the Fund basis is recorded on each budgetary statement.

NOTE 3. Deposits and investments

State statutes authorize the investment of Village funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States government obligations. All invested funds of the Village must properly follow State investment requirements.

Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the Village. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

According to the Federal Deposit Insurance Corporation, public unit deposits are funds owned by the public unit. Time deposits, savings deposits, and interest bearing NOW accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution. The Dodd-Frank Act of 2010 required that all public funds in a non-interest bearing bank account be fully insured by the FDIC through December 31, 2012.

NM State Statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the Village for at least one half the amount in excess of FDIC coverage on deposit with the institution.

The following schedule discloses the State of New Mexico, Office of the State Auditor's requirements on reporting the insured portion of the Village's deposits.

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 3. Deposits and investments (continued)

Total of deposits in the bank	\$ 716,406
Less FDIC coverage	<u>716,406</u>
Total uninsured public funds	<u>-</u>
Collateral requirement at 50%	<u>-</u>
Pledge collateral held by the pledging Bank's trust department but not in the Village's name	<u>341,277</u>
Over (Under) Collateral Requirement	<u>341,277</u>
Uninsured and uncollateralized	<u>-</u>
Custodial Credit Risk-Deposit	<u>\$ -</u>

Carrying amounts of deposits and investments per financial statement at June 30, 2009 is:

Governmental Wide-Statement of Net Assets:	
Cash and cash equivalents	\$ 650,631
Cash and cash equivalents Restricted	64,785
Subtract funds held by NMFA	(819)
Subtract cash on hand	(100)
Subtract deposits in transit	(1,862)
Add outstanding checks and other items	<u>3,771</u>
Balance per bank	<u>\$ 716,406</u>

The Village utilizes pooled accounts for their funds. The General, Special Revenue, Capital Projects, and Proprietary Funds are all in multiple accounts. A Schedule of Bank Accounts is listed on Schedule I of this report.

Custodial credit risk - cash is the risk that in the event of a bank failure, the Villages' deposits may not be returned to it. The Village does not have a deposit policy for custodial credit risk. As of June 30, 2009, none of the Village's bank balances were exposed to custodial credit risk.

The collateral pledged is listed on Schedule II of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by an agency, district or political subdivision of the State of New Mexico.

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 3. Deposits and investments (continued)

Custodial Credit Risk – Investments For an investment, custodial credit risk is the risk that in the event of counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Village does not have an investment policy for custodial credit risk. The Village’s investments are in certificates of deposits and the custodial credit risk for the certificates of deposits is contemplated in *custodial credit risk – cash*.

NM State Statutes require collateral pledged for repurchase agreements in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the Village for at least 102% of the amount on deposit with the institution. There are no repurchase agreements for the fiscal year.

NOTE 4. Accounts Receivable

	General Fund	Other Major Funds	Other Non-Major Funds	Total
Taxes receivables	\$ 13,416	\$ -	\$ 3,550	\$ 16,966

NOTE 7. Long-term Debt

Governmental Activities:

During the year ended June 30, 2009, the following changes occurred in the liabilities reported in the government-wide statement of net assets for the Governmental Funds:

	Balance 6/30/2008	Additions	Retirements	Balance 6/30/2009	Due Within One Year
NMFA Loan A	12,469	-	6,227	6,242	6,242
NMFA loan B	36,180	-	5,992	30,188	6,007
Subtotal NMFA	48,649	-	12,219	36,430	12,249
Accrued Compensated Absence	24,838	10,871	3,744	31,965	31,965
Total	\$ 73,487	\$ 10,871	\$ 15,963	\$ 68,395	\$ 44,214

The annual requirements to amortize the above long-term debt as of June 30, 2009, including interest payments are as follows:

Fiscal Year End	Principal	Interest	Total
6/30/2010	\$ 12,249	\$ 87	\$ 12,336
6/30/2011	6,022	60	6,082
6/30/2012	6,038	45	6,083
6/30/2013	6,053	30	6,083
6/30/2014	6,068	15	6,083
TOTAL	\$ 36,430	\$ 237	\$ 36,667

Both NMFA loans will be paid through an intercept of the Village's annual fire allotment from the State Fire Marshall.

NOTE 7. Long-term Debt (continued)

Governmental Activities:

A. New Mexico Finance Authority

Original Amount - \$61,540
Interim Loan Closing Date – May 4, 1999
First Coupon Date – November 11, 2000
Final Maturity – November 11, 2010
Interest Rate – 0.0%

The Village of Magdalena purchased a Fire Brush Truck in 1999, for \$90,899 in order to provide fire protection services within the Village. A \$60,000 loan was obtained from the New Mexico Finance Authority, which was combined with \$30,899 from the Village’s Fire Protection Fund, to fund the purchase. The loan is secured with a pledge of the Fire Department’s annual distribution of Fire Protection Fund Revenues. The cost of issuance of this loan was \$1,540, and an administration fee of 0.25% will be charges. The Village has entered into an intercept agreement with the New Mexico Finance Authority from the annual distribution of Fire Protection Fund Revenues for the annual debt service payment. The New Mexico Finance Authority maintains an interest bearing account in the name of the Village to receive and disburse those amounts. There are no reserve requirements.

1999	2,244	9,840	12,084
Total	\$ 3,494	\$ 19,840	\$ 23,334

The reserve for repair and replacement for the 1974 series bond is fully funded at \$10,000. The reserve for repair and replacement for the 1999 series bond will continue to be funded at \$80 per month until it becomes fully funded at \$10,000.

Note 8. Risk Management

The Village is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries and natural disasters. The Village participates in the New Mexico Self-Insurer's Fund risk pool.

The Village has not filed any claims for which the settlement amount exceeded the insurance coverage during the past three years. However, should a claim be filed against the Village which exceeds the insurance coverage, the Village would be responsible for a loss in excess of the coverage amounts. As claims are filed, the New Mexico Self-Insurers' Fund assesses and estimates the potential for loss and handles all aspects of the claim. Insurance coverage's have not changed significantly from prior years and coverage's are expected to be continued.

New Mexico Self-Insurers' Fund has not provided information or an entity by entity basis that would allow for a reconciliation of changes in the aggregate liabilities for claims for the current fiscal year and the prior fiscal year.

State of New Mexico
Village of Magdalena
Notes to Financial Statements
June 30, 2009

NOTE 9. PERA Pension Plans

Plan Description. Substantially all of the Village's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978.) The Public Employee Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing, multiple-employer defined benefit retirement plan. The plan provides for retirement, disability benefits, survivor benefits, and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, New Mexico 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding policy. Plan members are required to contribute 7% to 8% (ranges from 4.0% to 16.65% depending upon the plan – i.e., state general, state hazardous duty, state police and adult correctional officers, municipal general, municipal police, municipal fire, municipal detention officers) of their gross salary. The Village is required to contribute 7% to 11% (ranges from 7.0% to 25.72% depending upon the plan) of gross covered salary. The contribution requirements of plan members and the Village are established in state statute under Chapter 10, Article 11, NMSA 1978. The requirement may be amended by the Legislature. The Village of Magdalena's contributions to PERA for the fiscal years ending June 30, 2009, 2008, and 2007 were \$21,252, \$19,852, and \$15,828, respectively, which equal the required contributions for each year.

NOTE 10. Post-Employment Benefits

The Retiree Health Care Act (the "Act") (Chapter 10, Article 7C, NMSA, 1978) provides comprehensive core group health insurance for persons who have retired from certain public service in New Mexico. As authorized under Section 9D of Chapter 6, Laws of 1990, the Village has elected not to participate in the program by adoption of an ordinance.

NOTE 11. Contingent Liabilities

The Village is party to various claims and lawsuits arising in the normal course of business. Management and the Village's attorney are unaware of any material pending or threatened litigation, claims or assessments against the Village which are not covered by the Village's insurance.

Solid Waste Landfill: The Village operates a transfer station where solid waste is collected and transferred to the landfill facility at the City of Socorro. The Village has also established a construction and demolition landfill. The landfill closure and post-closure care requirements are regulated by the State of New Mexico Solid Waste Management regulations. The recognition of the liability for closure and post-closure care cost are based on management's estimates of cost to close this landfill once it reaches capacity. The landfill has projected use for twenty years with the cost for closure and post-closure care cost estimated to be \$25,000. The costs are management's estimates and are subject to change due to

State of New Mexico
Village of Magdalena
Notes to Financial Statements

NOTE 11. Contingent Liabilities (continued)

inflation or deflation, technology, or applicable laws or regulations. The Village has established a reserve to be funded with an annual amount of \$1,250. The reserve balance at June 30, 2009, was \$12,500.

NOTE 12. Federal and State Grants

In the normal course of operations, the Village receives grant funds from various federal and state agencies. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

NOTE 13. Subsequent Review

The Village has evaluated subsequent events through January 25, 2013, which is the date the financial statements were dated.

NOTE 14. Commitments

The Village has construction commitments totaling \$1,258,763 for four construction projects. The projects are scheduled for completion during the upcoming fiscal years.

The Municipal Complex building construction project is expected to cost \$579,417. The costs through June 2009 were \$422,476. The project is funded with state grants of \$520,000 and local matching funds.

The Fire Complex building improvement project is expected to cost \$149,978. The costs through June 2009 were \$127,030. The project is funded with state grants of \$143,396 and local matching funds.

The Airport Master Plan improvement project is expected to cost \$99,382. The costs through June 2009 were \$69,431. The project is funded with state grants of \$94,413 and local matching funds.

The Lagoon phase III project is expected to cost \$429,986. The costs through June 30, 2009 were \$279,156. The project is funded with a CDBG grant of \$400,000 and local matching funds.

SUPPLEMENTAL INFORMATION

State of New Mexico
Village of Magdalena
Non-Major Governmental Funds
June 30, 2009

Special Revenue Funds

Correctional Fee Fund – To account for correctional fees collectable from persons convicted by the municipal judge for violating any motor vehicle ordinance. State Statute Section 35-14-11, NMSA, 1978 compilation restricts the expenditures to the purpose of paying for the care of municipal prisoners.

Environmental Fund - To account for the operations and maintenance of the solid waste facility. Financing is provided from the environmental services gross receipts tax. Authority – NMSA 7-19D-10.

Emergency Medical Services Fund – To account for the State grants received for the purchase, repair and maintenance of rescue units, ambulance vehicles and emergency equipment and communication system. State Statute Section 24-10A-7, NMSA, 1978 compilation restricts the expenditures to be used for that purpose.

Juvenile Recreation Fund – To account for the operations and maintenance of recreational activities in the Village. Financing is provided by program revenue and by a 1 cent tax on cigarette sales which is collected and distributed by the State of New Mexico. State statute Section 7-12-15, NMSA, 1978 compilation requires this tax be used in the above manner.

Municipal Street Fund – To account for the receipts and expenditures of special gasoline tax, is restricted for use in repairing and maintaining roads and streets within the Village. The fund was created by state statute, NMSA 7-1-6.9 and 7-13-1 to 18.

Law Enforcement Fund – To account for funds received from the state for law enforcement purpose. The fund was created by the authority of state grant provisions, NMSA 29-13-3.

Library Fund – To account for the operation and maintenance of the library. Financing is provided by state grants, transfers from General Fund, and library fines. Authority – NMSA 3-18-14.

Lodger's Tax Fund – To account for a lodger's tax which is used for cultural and recreational purposes. Authority NMSA 3-38-13 to 24.

Capital Projects Funds

Airport Master Plan Improvement Fund – To account for the planning and design of improvements to the Village's airport. Financing is provided by state grants and local funding.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Mr. Hector H. Balderas
New Mexico State Auditor, and
Village Trustees
Village of Magdalena
Magdalena, New Mexico

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, the budgetary comparison of the general fund and major special revenue and capital project funds, and the combining and individual funds and related budgetary comparisons presented as supplemental information of the Village of Magdalena (Village) as of and for the year ended June 30, 2009, which collectively comprise the Village's financial statements, and have issued our report thereon dated January 25, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Village is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Village's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weakness have been identified. However, as described in the accompany schedule of findings and responses, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Village's financial statement will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses; item 2004-01.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village's financial statements are free of material misstatements, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items 2004-02 and 2009-1.

The Village's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the Village's responses, and accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, the Board of Trustees, the New Mexico State Auditor, the New Mexico Department of Finance and Administration, the New Mexico Legislature, and applicable state and federal awarding agencies, and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS AND RESPONSES
FOR THE FISCAL YEAR ENDED JUNE 30, 2009

SUMMARY OF FINDINGS:

PRIOR YEAR FINDINGS:

Status

2004-01 Capital Asset Inventory	Repeated
2004-02 Untimely Submission of Audit Report	Repeated

CURRENT YEAR FINDINGS:

2004-01 Capital Asset Inventory

2004-02 Untimely Submission of Audit Report

2009-01 Expenditures in Excess of Budget

State of New Mexico
Village of Magdalena
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE FISCAL YEAR ENDED JUNE 30, 2009

2004-01 Capital Assets Inventory

Statement of Condition:

Detailed records of capital assets of the Village have not been maintained in prior years. A property inventory control listing for the last few years' additions has been prepared by the Village. The inventory listing, however, does not include all the land and building and the older equipment and therefore has not been reconciled with the accounting records to assure that the listing includes all property of the Village, valued at historical costs, and that property no longer held by the Village has been excluded from the accounting records.

Criteria:

An effective system on internal control provides for the proper safeguarding of the entity's assets. Such control is established through the inventory listing and the reconciliation with control accounts along with an annual physical inventory inspection.

Cause:

Accounting records for the capital assets of the Village over the past years has reflected additions acquired and only some deletions. There previously had been no inventory of the capital assets to establish control after acquisitions. Accordingly, the financial records include the cumulative cost of capital assets acquired, with only some of the disposition removed. The balance of the capital asset accounts does not necessarily reflect the appropriate cost of the Village's capital asset inventory. Therefore, the depreciation calculations based on the asset control amounts may not reflect the appropriate accumulated and current depreciation of the Village's capital assets.

Effect:

Historical records for the capital assets were not maintained, and procedures and policies for appropriate accounting of capital assets had not been in operation for many prior years.

Recommendation:

The detailed capital asset inventory listing should be completed and verified, then reconciled to the control accounts in the financial records. The detailed capital asset inventory should continue to be adjusted periodically to reflect the additions of new equipment, deletions of equipment and other changes. The land, buildings and older equipment not currently on the detail property inventory should be identified and included at their historical cost.

Management's Response:

The Village of Magdalena agrees with the auditor's comment and will continue to update the detail capital asset inventory control listing for current additions and deletions. However, the Village does not have the historical information needed to include the land, buildings and older equipment in the inventory.

State of New Mexico
Village of Magdalena
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE FISCAL YEAR ENDED JUNE 30, 2009

2004-02 Untimely Submission of Audit Report

Statement of Condition - The audit report of The Village of Magdalena for the fiscal year ended June 30, 2009 was not delivered to the State Auditor by the due date of December 1, 2009.

Criteria – The State Auditor Rule NMAC Subsection 2.2.2.9.A requires the audit reports be submitted by the due date.

Cause - The audit for the fiscal year ended June 30, 2008 was not completed until August 1, 2012, therefore the subsequent audits were delayed.

Effect - Noncompliance with State Auditor Rule NMAC Subsection 2.2.2.9.A. Timely audit reports were needed by management, the State of New Mexico, and others to properly monitor and evaluate the performance of the Village.

Recommendation - The prior year audits need to be caught up to date to insure that the current audit report can be submitted in a timely manner.

Management's Response - The Village concurs with the recommendation above.

2009-01 Expenditures in Excess of Budget

Statement of Condition – Actual expenditures of the Correction Fund exceeded the approved budget by \$464.

Criteria – All NM governmental entities are required to comply with laws and regulations established in NMSA 1978 Section 6-6-6 relating to budgets. To meet legal compliance, actual expenditures cannot exceed the approved budget for that fund.

Cause - The village anticipated additional expenditures and prepared a budget resolution to amend the budget, however, the actual expenditures were still over the amended budget by \$464.

Effect - Noncompliance with State budgeting requirements. Effective controls over expenditures are maintained by monitoring budget compliance.

Recommendation – We recommend that budgetary authority is verified before any expenditures are approved and budget adjustments be approved when necessary.

Management's Response - The Village concurs with the recommendation above.
