## Independent Auditor's Report

Wayne Johnson  
New Mexico State Auditor  
Mayor and Board of Trustees  
Town of Mesilla  
Mesilla, New Mexico

To the Mayor and Board of Trustees

### **Report of the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of the Town of Mesilla, New Mexico (Town), as of and for the year-ended June 30, 2018, and the related notes to the financial statements which collectively comprise the Town's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Schedule of proportionate share of the net pension liability and the schedule of contributions and notes to the Required Supplementary Information on pages 46-52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the Town's financial statements, and the combining and individual fund financial statements, and the budgetary comparisons. The schedules required by 2.2.2 NMAC are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules required by 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic

financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules required by 2.2.2 NMAC are fairly stated in all material respects in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2018, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town's internal control over financial reporting and compliance.

Governmental funds report capital outlays as expenditures. However in the statement of activities, the cost of those assets is allocated over their estimates useful lives and reported as depreciation expense.

Capital expenditures recorded as capital outlay or other expenses		129,942
---	--	---------

Depreciation expense on capital assets is reported in the government-wide statement of activities and changes in net position, but they do not require the use of current financial resources. Therefore depreciation expense is not reported as an expenditure in the governmental funds. (464,153)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Change in deferred inflows of resources related to property taxes receivable		(643)
--	--	-------

The issuance of long-term debt (e.g. bonds, notes, capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however has any effect on net position. Also, governmental funds report the effect of premiums and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Town was incorporated in 1959. The Town is a political subdivision of the State of New Mexico, operates under the Trustee-Clerk form of government. The Town provides the following authorized services; public safety, police and fire, highways and streets, water, sanitation, health and welfare, social services, culture and recreation, public improvements, planning and zoning and general administrative services.

The financial statements of the Town have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The Town's most significant accounting policies are described below.

*A. Reporting Entity*

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body, and either it is able to impose its will on that organization, or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens, or the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

In evaluating how to define the Town, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB-14. The first criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Based upon the application of these criteria, the Town has no component units and is not a component unit of another governmental agency.

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

*B. Basis of Accounting/Measurement Focus*

The accounts of the Town are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

*Government-Wide Financial Statements*

The Town's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of Governmental and Business-Type Activities for the Town accompanied by a total column. Fiduciary activities of the Town are not included in these statements.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the Town include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, those transactions between governmental and business-type activities have not been eliminated.

*Governmental Fund Financial Statements*

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide financial statements.

The Town reports the general fund as a major governmental fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

Revenues are provided through property and other taxes, federal sources, state sources, charges for services, licenses and fees, and other miscellaneous recoveries and revenue. Expenditures include all costs associated with the daily operation of the Town except for items included in other funds.

In addition, the Town reports the following other major funds:

Special Revenue Fund – The *Fire Protection* fund is used to account for the operation and acquisition of assets for the Fire Department. This fund is financed through state grants (NMSA 59A-53-1).

Capital Project Fund – The *Town Hall Capital Project Fund* accounts for the construction of a new municipal complex. Authority for the creation of this fund is by Town resolution.

Capital Project Fund – The *Public Safety Building Remodel* fund is used to account for the reconstruction and remodel of the Town’s Public Safety building. Authority for the creation of this fund is by Town resolution.

All governmental funds are accounted for on a spending or “current financial resources” measurement focus and the modified accrual basis of accounting. Accordingly, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources are included on the Balance Sheets. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the Town, are property tax, sales tax, intergovernmental revenues and other taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met and the susceptible to accrual criteria have been met.

Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

*Proprietary Fund Financial Statements*

Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position, and a Statement of Cash Flows for each major proprietary fund and for the non-major funds aggregated. The Town’s lone proprietary fund is the

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

Joint Utility Fund.

Proprietary funds are accounted for using the “economic resources” measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities (whether current or noncurrent), and deferred inflows of resources are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows.

Operating revenues, such as charges for services, in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues, such as subsidies/grants and investment earnings, are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

*Fiduciary Fund Financial Statements*

Fiduciary fund financial statements include a Statement of Net Position. The Town’s fiduciary funds are Agency Funds, which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Agency funds are accounted for on a spending or “economic resources” measurement focus and the accrual basis of accounting as are the proprietary funds explained above. The Town’s sole Agency Fund is the *Municipal Court Bond Fund* used to account for bonds posted for court appearances.

*C. Assets, Liabilities and Equity*

Cash Equivalents

The Town’s cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. The Town pools idle cash from all funds for the purpose of increasing income through investment activities. A "Pooled Cash" concept is used in maintaining the cash and investment accounts in the accounting records. Under this method, all cash is pooled for investment purposes and each fund has equity in the pooled amount. All amounts included in pooled cash and investments are considered to be cash equivalents for the purposes of the statement of cash flows, except for certificates of deposit or other investments that have original maturities of more than 90 days.

Investments

The Town's investments are regulated by state law as well as by guidelines and rules promulgated by the State Investment Council and the State Treasurer. All investments are generally highly liquid in nature and are integrated with cash on the financial statements with appropriate disclosure. Investments are stated at fair value, which is determined using selected bases. Certificates of deposit are reported at carrying amount, which reasonably estimates fair value. Investments in a

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

U.S. Treasury Fund and repurchase agreements are valued at the last reported sales price at current exchange rates. Additional cash, investment information, and fair values are presented in Notes 3 and 4.

The Town also participates in the State Treasurer Local Government Investment Pool. State law and regulations regulate this pool. Investment in the pool is reported at carrying amount, which reasonably estimates fair value.

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." In governmental fund financial statements, advances between funds are offset by an amount reported as nonspendable fund balance to indicate that they are not available for appropriation and are not expendable available financial resources.

All receivables are shown net of an allowance for uncollectible accounts. Trade accounts receivable in excess of 90 days comprise the trade accounts receivable allowance for uncollectible accounts.

Receivables from and payables to external parties are reported separately and are not offset in the proprietary fund financial statements and business-type activities of the government-wide financial statements, unless a right of offset exists.

Property taxes attach as an unsubordinated enforceable lien on property as of January 1 of the assessment year. Current year taxes are levied within five days of the rate setting order received from New Mexico Department of Finance and Administration (7-38-32 thru 7-38-36). Tax bills are mailed by November 1, unless the Doña Ana County Assessor obtains a formal extension of time from the New Mexico Property Tax Division. Taxpayers have the option to pay in two equal installments due by the close of business November 10<sup>th</sup> and April 10<sup>th</sup>. Penalty and interest will be accrued after the delinquency due dates of December 10<sup>th</sup> and May 10<sup>th</sup>. In the event of a formal extension, the respective dates are correspondingly extended.

Inventories and Prepaid Items

Inventories in governmental funds consist of expendable supplies held for consumption, and are valued at cost using a first-in, first-out (FIFO) method. Expendable supplies are accounted for using the consumption method. Proprietary fund inventories are recorded at the lower of cost or market on a first-in, first-out basis, and consist of operating supplies held for use in operations and are recorded as expenditures when consumed rather than when purchased. The Town current does not hold any items in inventory.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets, (retroactive to 1979) are included as part of the governmental capital assets reported in the government wide statements. Information technology equipment including software is being capitalized and included in machinery and equipment in accordance with NMAC 2.20.1.9 C (5). Donated capital assets are recorded at estimated fair market value at the date of donation. Capital assets that have been disposed of are recorded as deletions on the government-wide financial statements. Accumulated depreciation is adjusted for all deletions.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The total interest expense capitalized by the Town during the current fiscal year was \$0. No interest was included as part of the cost of capital assets under construction.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Type</u>	<u>Years</u>
Land	Perpetuity
Construction in progress	Perpetuity
Buildings	30 - 40
Other improvements	40
Utility system	25
Machinery and equipment	5 - 10

Analysis of Impairment

Management reviews long-lived assets and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In management's opinion, there is no impairment of such Town assets at June 30, 2018.

Deferred Outflows of Resources

In addition to assets, the balance sheet reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

use of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure) until that time. The Town has six types of items that qualify for reporting in this category. Accordingly, the items, employer contributions subsequent to measurement date, net difference between expected and actual earnings on pension plan investments, net difference between expected and actual experience, change in assumptions and change in proportion, and loss on debt refunding are reported on the Statement of Net Position. These amounts are deferred and recognized as an outflow of resources in the period the amounts become available. The Town has recorded \$104,566 related to contributions subsequent to the measurement date, \$117,130 related to the net difference between expected and actual earnings on pension plan investments, \$76,413 related to the net difference between expected and actual experience, \$81,312 related to changes in assumptions, \$68,055 related to changes in proportion, and \$7,534 for deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred Inflows of Resources

In addition to liabilities, the balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Revenue must be susceptible to accrual (measurable and available to finance expenditures of the current fiscal period) to be recognized.

If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding liability for deferred inflows of resources.

The Town has six types of items which qualify for reporting in this category. The items, unavailable revenue – property taxes and unavailable revenue - grants, are reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The Town has recorded \$2,009 related to property taxes and \$0- related to grants that are considered “unavailable”.

The items, net difference between expected and actual earnings on pension plan investments, change in assumptions, investment experience, and change in proportion, are reported on the Statement of Net Position. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The Town has recorded \$- related to the net difference between expected and actual earnings on pension plan investments, \$201,363 related to the net difference between expected and actual experience, \$24,841 related to changes in assumptions and \$338,290 related to changes in proportion.

Compensated Absences

Full-time permanent employees are granted vacation benefits in varying amounts to specified maximums depending on their tenure with the Town. Accumulated unused vacation may be carried from one calendar year to another but the amount of annual leave carryover cannot exceed 160

FOR THE YEAR ENDED JUNE 30, 2018**

hours. Accumulated unused vacation is payable upon retirement or termination from employment. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for compensated absences is not be reported in the governmental fund balance sheet unless it was actually due and payable at year end for payments due to retired or terminated employees.

The Town allows full-time employees to accumulate unused sick leave to a maximum of 90 days or 720 hours. Hours accumulated above these thresholds are forfeited. Accumulated unused sick leave is not paid upon termination from employment or retirement. Sick leave is only paid upon illness while in the employment of the Town. Accordingly, no provision for accumulated sick leave has been made in the accompanying financial statements.

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of fund net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Fund Balance

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy based primarily on the extent to which the organization is bound to honor constraints on the specific purpose for which amounts in the funds can be spent.

*Governmental Fund Financial Statements.* In accordance with GASBS No. 54, the Town classifies fund balances in the governmental funds as follows:

*Nonspendable Fund Balance* includes fund balance amounts that cannot be spent either because they are not in spendable form or because of legal/contractual requirements. Examples are Prepaid Expenses and Inventory.

*Spendable Fund Balance* includes Restricted, Committed, Assigned, and Unassigned designations:

*Restricted* includes fund balance amounts that are limited for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

*Committed* includes fund balance amounts that are obligated to a specific purpose which are internally imposed by the government through formal action (Ordinances and Resolutions) at the highest level of decision-making authority (Board of Trustees). These commitments can only be overturned by a like action.

*Assigned* includes spendable fund balance amounts that are intended to be used for specific purposes that are considered neither restricted nor committed. Undesignated excess Fund Balances may be assigned by the Board of Trustees, Mayor, or Town Clerk/Treasurer for specific purposes through the budget process or agenda items. The assigned designation may be reversed by the Board of Trustees at any public meeting.

*Unassigned* includes residual positive fund balances within the General Fund, which have not been classified within the other above-mentioned categories. Unassigned Fund Balances may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

See the Schedule of Fund Balances on page 66 for additional information about fund balances.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources (committed, assigned, and unassigned) as they are needed. When unrestricted resources (committed, assigned, and unassigned) are available for use in the General Fund, it is the Town's policy to use unassigned resources first, then assigned, and then committed as needed. When unrestricted resources (committed, assigned, and unassigned) are available for use in any other governmental fund, it is the Town's policy to use committed resources first, then assigned, and then unassigned as needed.

The Town does not have a formal minimum fund balance requirement.

Net Position

*Government-wide and Proprietary Fund Financial Statements.* The Town classifies net position in the government-wide and proprietary fund financial statements as follows:

*Net Investment in Capital Assets* includes the Town's capital assets (net of accumulated depreciation) reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

*Restricted Net Position* includes assets that have third-party (statutory, bond covenant, or granting agency) limitations on their use. The Town typically uses restricted assets first, as appropriate opportunities arise, but reserves the right to selectively defer the use until a future project.

*Unrestricted Net Position* typically includes unrestricted liquid assets. The Town Council has the authority to revisit or alter this designation.

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

*D. Pensions*

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Mexico Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*E. Inter-Fund Transactions*

Interfund activity is reported as loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

*F. Income Taxes*

As a local government entity, the Town is not subject to federal or state income taxes. The Town is generally no longer subject to examination by federal and state taxing authorities for years prior to 2015. For the year ended June 30, 2018, no interest or penalties were recorded or included in the financial statements.

*G. Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

The Town adopts budgets for each individual fund (governmental and proprietary).

In late winter or early spring, the Town prepares a budget calendar, thus starting the budgetary process for the upcoming June 1 fiscal year. Budget request forms are distributed to Town departments with a specified completion date. Legally mandated advance notices are formally published for grant

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

availability and other purposes once budget hearings have been scheduled. The budget hearings are then held with all Town department heads. Generally, in late May or early June, a budget meeting is held for tentative approval of the completed budget by the Board of Trustees. After tentative approval at the Town level, the budget is submitted to the New Mexico Department of Finance and Administration (DFA) for approval of a temporary operational budget beginning June 1.

Immediately after July 1, when ending cash balances for the preceding fiscal year have been accurately ascertained, a final hearing is convened for finalization of the budget, and it is resubmitted to DFA for formal approval. None of the above budgetary processes are legally required to occur at any specified time; however, DFA requires that the time frame be such that they (DFA) render their final budget approval no later than September 1 of the budget year in question.

During the course of the fiscal year, the Town prepares monthly budget reports. Under New Mexico State law, each year's budget appropriation legally lapses at year-end.

*Budgetary Compliance* – Budgetary control is required to be maintained at the individual fund level.

Actual fund revenues may be either over or under the budgeted amounts; however, the variance is required to be reasonable, particularly in the case of over-budgeted revenues. Major over-budgeted revenues require a budget amendment as soon as the extent of the shortage is reasonably ascertainable.

*Budget Amendments* – Budget increases and decreases can only be accomplished by Board of Trustee resolution, followed by DFA approval. Similarly, budget transfers must follow the same procedure.

*Budgetary Basis* – State law prescribes that the Town's budget be prepared on the basis of cash receipts and cash expenditures. Therefore, budgetary comparisons shown in exhibits are prepared on a cash basis to compare actual revenues and expenditures with a cash basis budget as amended.

The accompanying Statements of Revenue, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual present comparisons of the legally adopted budget with actual data on a budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) a reconciliation of resultant basis, perspective, equity and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2018 is presented. Reconciliations between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis by fund can be found on each individual budgetary statement.

**NOTE 3 – CASH AND CASH EQUIVALENTS**

The Town's cash balances consist of demand deposits, interest bearing savings accounts. The majority of Town's cash and investments are pooled. All interest income is accounted for in the related funds.

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

The Town does not have a deposit policy. The Town's cash and cash equivalents are listed on page 67 of this report.

The following is a summary of the Town's cash and cash equivalents balances by fund type as of June 30, 2018:

Fund Type	Amount
Cash and equivalents	
Governmental funds	\$ 814,555
Business-type activities	645,722
Fiduciary funds	14,000
Total cash and cash equivalents	\$ 1,474,277

*Custodial Credit Risk Deposits* - Custodial credit risk is the risk that in the event of a bank failure, the Town funds may not be returned. The Town does not have a deposit policy for custodial risk

State regulations require that uninsured demand deposits and deposit-type investments such as certificates of deposit be collateralized by the depository thrift or banking institution. At present, state statutes require that a minimum of fifty percent of uninsured balances on deposit with anyone institution must be collateralized, with higher requirements up to 102% for financially troubled institutions.

Based on the above, the Town is required to obtain from each bank that is a depository for public funds pledged collateral in an aggregate amount equal to 50% of the public money in each account. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency or political subdivision of the State of New Mexico. The Town's Schedule of Collateral is presented on page 68 of this report.

As of June 30, 2018, the Town's bank balances of \$1,376,475 were exposed to custodial credit risk as follows:

Insured through federal depository insurance	\$ 250,000
Uninsured, collateralized with securities held by pledging financial institution's trust department or agent in the Town's name.	1,055,498
Uninsured and uncollateralized	70,977
Total uninsured deposits	\$ 1,376,475

**NOTE 4 – INVESTMENTS**

The State Treasurer is authorized to invest in short-term investment funds, with the advice and consent of the State Board of Finance, in accordance with Sections 6-10-10 I through 6-10-10 P and Sections 6-10-10.1 A and E, NMSA 1978.

The pool does not have unit shares. Per Section 6-10-101F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the fund amounts were invested. Participation in the local government investment pool is voluntary.

The investments are valued at fair value based on quoted market prices as of the valuation date. Investments owned by the Town and the investment strategy is outlined on New MexiGROW LGIP website <http://www.stonm.org/NewMexiGROWLGIP/MonthlyInvestmentReports>.

NMFA – PP-3766 - Refunding Loan

On September 1, 2017, the Town entered into a loan agreement with the New Mexico Finance Authority to borrow \$514,928 to refund the outstanding Town Hall loan and pay issuance costs. The current refunding was done to reduce aggregate debt service payments by \$94,383 over the next fifteen years and obtain an economic gain (difference between the present values of the old and new debt service payments) of \$57,864. As a result of this refunding, the Town has recognized a deferred charge on refunding totaling 7,534 that will be amortized over the life of the refunding note.

The payments of principal and interest are paid from pledged governmental capital outlay gross receipts taxes. The revenues pledged totaled \$602,602 at June 30, 2018, and equal 44.9% of future gross receipts tax at their current rate. During the year ended June 30, 2018, the Town collected \$89,568 in pledged revenues, and retired \$26,783 in principal and interest on the aforementioned note. The Town has authorized the New Mexico Taxation and Revenue Department to intercept the required monthly payment from their gross receipts tax remittances. **NOTE 8 – SEGMENT INFORMATION**

The Town issues separate revenue bonds and notes payable to finance its water and wastewater departments. The two departments are accounted for in a single fund, but investors in those bonds and notes rely solely on the revenue generated by the individual activities for repayment. Summary financial information for each department is presented below. The Water Department operates the Town’s water supply system. The Wastewater Department operates the Town’s wastewater treatment plant, pumping stations, and collection systems.

**NOTE 10 – RISK MANAGEMENT**

The Town is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries and natural disasters.

Town of Mesilla has joined together with other local governments in the state and obtained insurance through the New Mexico Self-Insurers Fund, a public entity risk pool currently operating as a common risk management and insurance program for local governments. The Town pays an annual premium to New Mexico Self-Insured Fund for general insurance coverage and all risk of loss is transferred. The premium paid for the year ended June 30, 2018 was \$84,447.

**NOTE 11 – PERA PENSION PLAN**

**Plan description.** *Public Employees Retirement Fund* is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

**Benefits Provided – Tier I** – Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member’s final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors’ annuities are also available.

**TIER II** – The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member’s age and service credit equals at least 85 or at age 67 with 8 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more

FOR THE YEAR ENDED JUNE 30, 2018**

years of service credit. Under Tier II, police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II pension factors were reduced by .5%, employee Contribution increased 1.5 percent and effective July 1, 2014 employer contributions were raised .05 percent. The computation of final average salary increased as the average of salary for 60 consecutive months.

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:*** The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2017 using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date of June 30, 2017. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2017. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined.

**For PERA Fund Division Municipal General:** At June 30, 2018, the Town of Mesilla reported a liability of \$579,864 for its proportionate share of the net pension liability. At June 30, 2017, the Town of Mesilla's proportion was 0.0422%, which was a decrease of 0.0037% from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the Town recognized pension expense of (\$87,424). At June 30, 2018, the Town of Mesilla reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>

**Actuarial assumptions.** The total pension liability in the June 30, 2017 actuarial valuation was determined using the following significant actuarial assumptions, applied to all periods included in the measurement:

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

Actuarial valuation date	June 30, 2016
Actuarial cost method	Entry age normal
Amortization method	Level percentage of pay
Amortization period	Solved for based on statutory rates
Asset valuation method	4 Year smoothed Market Value
Actuarial assumptions:	
Investment rate of return	7.51% annual rate, net of investment expense
Projected benefit payment	100 years
Payroll growth	2.75% for first 9 years, then 3.25% annual rate
Projected salary increases	2.75% to 14.00% annual rate
Includes inflation at	2.25% annual rate first 9 years 2.75% rate all other years
Mortality Assumption	RP-2000 Mortality Tables (Combined table for healthy post-retirement, Employee table for active members, and Disable table for disabled retirees before retirement age) with projection to 2018 using Scale AA. July 1, 2008 to June 30, 2013 (demographic) and July 1, 2010 through June 20, 2016 (economic)
Experience Study Dates	2010 through June 20, 2016 (economic)

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2016. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2017. These assumptions were adopted by the Board use in the June 30, 2016 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>ALL FUNDS - Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Global Equity	43.50%	7.39%
Risk Reduciton & Mitigation	21.50%	1.79%
Credit Oriented Fixed Income	15.00%	5.77%
Real Assets to include Real Estate E	20.00%	7.35%
Total	<u>100.00%</u>	

**Discount rate.** A single discount rate of 7.51% was used to measure the total pension liability as of June 30, 2017. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.51%, compounded annually, net of expense. Based on the stated assumptions and the projection of cash flows, the plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-

term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

***Sensitivity of the Town's proportionate share of the net pension liability to changes in the discount rate.*** The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.51 percent, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.51 percent) or 1-percentage-point higher (8.51 percent) than the current rate:

***Pension plan fiduciary net position.*** Detailed information about the pension plan's fiduciary net position is available in separately issued PERA'S financial reports.

**NOTE 12 – POST EMPLOYMENT BENEFITS**

The Retiree Health Care Act, Chapter IV, Article 7C NMSA 1978 provides a comprehensive core group health insurance for persons who have retired from certain public service in New Mexico. The Town has elected not to participate in the post-employment health insurance plan.

**NOTE 13 – OPERATING LEASES**

The Town has entered into a number of operating leases, which contain cancellation provisions and are subject to annual appropriations. The rent expenditures for these leases were primarily from the General Fund. Future minimum lease payments are:

**NOTE 14 – FUND DEFICITS AND NON-COMPLIANCE**

Deficit Fund Balances

The following non-major funds incurred a deficit fund balance at June 30, 2018:

<u>Fund</u>	<u>Fund Type</u>	<u>Amount</u>
Emergency medical services fund	Special revenue fund	\$ (3,491)
Lodgers' tax fund	Special revenue fund	(650)
Recreation fund	Special revenue fund	(513)
Events fund	Special revenue fund	(192)
School resource officer fund	Special revenue fund	\$ (2,556)

The balances were caused due to end of year expense accruals and management intends to transfer sufficient funds from General Fund to cover any deficits.

Legal Compliance with Budget

The Town was in compliance with Section 6-6-6 of the New Mexico State Statues regarding legal compliance with approved budgets for the year ended June 30, 2018.

**NOTE 15 – CONTINGENCIES**

The Town participates in a number of federal, state, and county programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Town may be required to reimburse the grantor government.

As of June 30, 2018, significant amounts of grant expenditures have not been audited by the grantor agencies. Management believes that any disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds of the overall financial position of the Town.

**STATE OF NEW MEXICO  
TOWN OF MESILLA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2018**

The Town is party to various legal proceedings, which are the unavoidable results of governmental operations. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Town's legal counsel that resolution of these matters will not have a material effect on the financial condition of the Town.

**NOTE 16 – COMMITMENTS**

Future commitments for engineering and construction projects relating to construction or major repairs in progress aggregated approximately \$420,843 as of June 30, 2018. The total amounts spent as of June 30, 2018 on the projects was \$-0-. The percentage of completion of the existing projects varies based on the project. These projects will be paid in future periods as work is performed. Payment will be made with proceeds remaining from debt issuances, operating revenues, and future grants to be received.

**NOTE 17 – RESTATEMENT OF PRIOR YEAR ENDING FUND BALANCE/NET POSITION**

During the year ended June 30, 2018, beginning net position was restated for two items. There was an error noted in the prior year pooled cash balances that were not allocated to the general fund properly. As a result, it was determined that the prior year cash balance reported in the general fund were understated by \$23,336. As a result of this correction, cash and net position were increased by \$23,336.

Additionally, during the year capital assets related to construction in progress totaling \$105,644 were reclassified from governmental activities to the Joint Utility Fund once the project was completed. As a result, Joint Utility Fund net position was increased \$105,644 and the governmental activities net position was decreased by \$105,644.

The following chart summarized the cumulative restatements to net position:

<u>Fund</u>	<u>Purpose/Reason</u>	<u>Amount</u>

**REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**Independent Auditor's Report**

Wayne Johnson,  
New Mexico State Auditor  
The Board of Trustees  
Town of Mesilla, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons of the general fund and major special revenue fund of the Town of Mesilla, State of New Mexico, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements and the combining and individual funds, presented as supplementary information, and have issued our report thereon dated December 12, 2018.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
