INDEPENDENT AUDITOR'S REPORT

Timothy Keller
New Mexico State Auditor
The Office of Management and Budget and
The Governing Board
City of Moriarty
Moriarty, New Mexico

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information, and the budgetary comparisons of the general fund of City of Moriarty (the "City") as of and for the year ended June 30, 2016, and the related notes to the financial statements which collectively comprise City of Moriarty' basic financial statements as listed in the table of contents. We also have audited the financial statements of each of City of Moriarty's nonmajor governmental funds and the budgetary comparisons for the major capital project funds, debt service funds, and all nonmajor funds presented as supplementary information, as defined by the Government Accounting Standards Board, in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2016, as listed in the table of contents. We did not audit the 2015 Schedule of Employer Allocations and Pension Amounts of the State of New Mexico Public Employee Retirement Association (PERA), the administrator of the cost sharing pension plan for the City. The schedules and statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the City, is based solely on the report of the other auditors.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to City of Moriarty's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of City of Moriarty's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(This page intentionally left blank.)

Opinions

In our opinion, based on our report and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Moriarty, as of June 30, 2016, and the respective changes in financial position where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental fund of City of Moriarty as of June 30, 2016, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the major capital project funds, debt service funds and all nonmajor funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis* on pages 15-22, the *Schedule of the Proportionate Share of the Net Pension Liability* on pages 105-107, the *Schedule of Contributions* on pages 108-110, and the notes to the required supplementary information page 111 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with the auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on City of Moriarty's financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The other schedules as required by 2.2.2 NMAC are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The other schedules required by 2.2.2 NMAC are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other schedules as required by 2.2.2 NMAC are fairly stated in all material respects in relation to the basic financial statements as a whole.

The Schedule of Vendor Information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 25, 2016 on our consideration of the City of Moriarty's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Moriarty's internal control over financial reporting and compliance.

STATE OF NEW MEXICO
City of Moriarty
Management's Discussion and Analysis
for the Year Ended June 30, 2016
Unaudited

As management of the City of Moriarty, we offer readers of the City of Moriarty financial statements this narrative overview and analysis of the financial activities of the City of Moriarty for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with the financial statements of the City of Moriarty and additional information provided.

FINANCIAL HIGHLIGHTS

- The assets of the City of Moriarty exceeded its liabilities at the close of the most recent fiscal year by \$24,300,677 (*net position*). Of this amount, \$(684,387) (*unrestricted*) is obligated to citizens and creditors.
- The government's total net position increased by \$407,342 during the fiscal year. The majority of this increase is due to an increase in revenue from State funding for capital projects contributed to the proprietary funds in the form of completed projects.
- As of June 30, 2016, the City's governmental funds reported combined ending fund balances of \$1,472,743. Of this total, \$90,657 is restricted for capital projects and \$177,667 is restricted for special revenue funds.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Moriarty's basic financial statements. The City of Moriarty's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Moriarty's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Moriarty's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Moriarty is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Moriarty that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Moriarty include general government, public safety, public works, culture and recreation, and health and welfare. The business-type activities of the City include Sewer/AWWT, Solid Waste, Water, Heritage Arena, Airport, and Cemetery.

The government-wide financial statements can be found at Exhibits A-1 and A-2 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Moriarty, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Moriarty can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in determining what financial resources are available in the near future to finance the City's programs.

STATE OF NEW MEXICO
City of Moriarty
Management's Discussion and Analysis
for the Year Ended June 30, 2016
Unaudited

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Moriarty maintains fourteen individual governmental funds organized according to their type (special revenue, debt service and capital projects). Information is presented separately in the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances for the General Fund and Airport Improvement Capital Project Fund, all of which are considered to be major funds. Data from the other twelve governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City of Moriarty adopts an annual appropriated budget for its general fund and all other funds. A budgetary comparison statement has been provided for the General Fund and Airport Improvement Capital Project Fund to demonstrate compliance with this budget. In addition, the individual financial statements of the non-major governmental fund types include budgetary comparison data.

The basic governmental fund financial statements can be found at exhibits B-1 through D-3 of this report.

Proprietary funds. Proprietary funds are generally used to account for services for which the City charges customers either outside customers or internal units or departments of the City. Proprietary funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The City maintains six types of proprietary funds.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City of Moriarty's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 39-62 of this report.

Combining statements. The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the notes to the financial statements. Combining and individual fund statements and schedules can be found on pages 70-99 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The City has presented its financial statements under the new reporting model required by the Governmental Accounting Standards Board Statement No. 34 (GASB #34), *Basic Financial Statements –and Management's Discussion and Analysis (MD&A) -for State and Local Governments*.

Analysis of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Moriarty, assets exceeded liabilities by \$24,300,677 at the close of the current fiscal year.

The largest portion of the City of Moriarty's net position represents the City's investment of \$24,004,620 in capital assets (e.g., land improvements, buildings, infrastructure and machinery & equipment); less any related outstanding debt used to acquire those assets. The City of Moriarty uses these capital assets to provide services to citizens;

STATE OF NEW MEXICO
City of Moriarty
Management's Discussion and Analysis
for the Year Ended June 30, 2016
Unaudited

consequently, these assets are *not* available for future spending. Although the City of Moriarty's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Statement of Net Position
For the Year Ended June 30, 2016 and June 30, 2015

	June 30, 2016			June 30, 2015		
	Governmental	Business Type	Total	Governmental	Business Type	Total

A portion of the City of Moriarty's net position represents resources that are subject to restrictions. The restrictions relate to capital projects and debt service.

At the end of the current fiscal year, the City of Moriarty is able to report positive balances in all of the categories of net position, for the government as a whole as well as for the business-type activities.

The City of Moriarty's net position increased by \$407,342 during the current fiscal year. This increase is explained in the government and business-type activities discussion below and is primarily a result of an increase in taxes and in state grants and the related expenditures and capital assets.

(Decrease) Increase in Assets before transfer			
Transfers	(923,104)	923,104	-
(Decrease) Increase in Net Position	1,666	405,676	407,342
Net Position, Beginning of year	9,426,479	14,466,856	23,893,335
Restatement for Net Pension Liability	-	-	-
Net Position, Beginning – restated	9,640,622	14,466,856	23,893,335
Ending Net Position	9,360,960	14,872,532	24,300,677

Governmental activities: Governmental activities increased the City of Moriarty's net position by \$1,666. The key element of this increase was revenue exceeded expenses due to an increase in taxes and in state grants and a reduction in capital outlay and the effect of the net pension liability requirements.

Business-type activities: Business-type activities increased the City's net position by \$405,676. The key element of this increase was the due to the transfers.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City of Moriarty uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Moriarty's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City of Moriarty's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of Governmental funds reported by the City include the General Fund, Special Revenue Funds, Debt Service Funds and Capital Project Funds.

STATE OF NEW MEXICO
City of Moriarty
Management's Discussion and Analysis
for the Year Ended June 30, 2016
Unaudited

As of the end of the current fiscal year, the City of Moriarty's governmental funds reported combined ending fund balances of \$1,472,743, a decrease of \$(180,088) in comparison with the prior year. \$737,635 constitutes *unreserved fund balance*, which is available for spending at the government's discretion.

Revenues for governmental activities overall totaled \$3,784,348 in the fiscal year ended June 30, 2016, which represents a decrease of \$1,054,526 from the fiscal year ended June 30, 2015. Expenditures for governmental activities, totaling \$3,360,416, decreased by \$93,258 from the fiscal year ended June 30, 2015. In the fiscal year ended June 30, 2016, revenues exceeded expenditures by \$423,932.

The General Fund is the chief operating fund of the City of Moriarty. At the end of the current fiscal year, *unreserved* fund balance of the general fund was \$737,635, which is the total fund balance.

The fund balance of the City of Moriarty's general fund increased by \$49,346 during the current fiscal year due to revenues in excess of expenditures. Overall, the general fund's performance in the fiscal year ended June 30, 2016 is due to the increase in tax revenues of \$382,413 and an increase in expenses of \$129,587.

Proprietary Funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of the fiscal year, the unrestricted net position for Sewer/AWWT, Solid Waste, Water, Airport, Ambulance and Cemetery funds were \$127,289, \$60,280, \$241,026, \$44,056, \$30,998 and \$23,434, respectively. The total change in net position for the proprietary funds was \$408,366. Factors concerning the finances of this fund have been addressed previously in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The City budgets reflect the same pattern as seen in the revenue and expenditures of the City. The State of New Mexico budget process is defined under state law and regulation. To enhance the process of developing a budget at the City level, the City of Moriarty utilizes goals and objectives defined by the City Councilors, community input meetings, long-term plans and input from various staff groups to develop the City budget. The City priorities are well defined through this process.

GASB Statement No. 34 does not require a statement presenting the overall result of the budget for each year; however, all major budgetary funds are required to be reported as a separate statement.

General Fund Expenditure Budget Performance

Final Budget	Actual non-GAAP Cash Basis	Favorable (Unfavorable) Variance
\$2,378,378	\$2,251,729	\$126,649

The City's final budget differs from the original budget due to budget increases and decreases that were made during the fiscal year.

The Capital Project Funds (non-major) are not included in the original budget which is submitted to the Department of Finance and Administration (DFA). These funds are spent on a project-by-project basis so the budgets are constantly changing. Instead, the budgets for these funds are created during the year through budget adjustment requests (BARs).

Capital Asset and Debt Administration

Capital assets. The City of Moriarty's capital assets for its governmental and business-type activities as of June 30, 2016 amount to \$27,503,466 (net of accumulated depreciation). Capital assets include land, infrastructure, buildings, and machinery & equipment. The total increase in the City's capital assets (excluding accumulated depreciation) for the current fiscal year was \$365,442 for governmental activities due primarily to land improvements. There was an increase (excluding accumulated depreciation) in business-type capital assets in the amount of \$977,798 during the current fiscal year due to additions to plant and distributing/infrastructure.

Capital Assets, Net of Depreciation
June 30, 2016

	Governmental Activities	Business Type Activities	Total
Land	\$ 324,307	\$ 945,808	\$ 1,270,115
Construction in Progress	264,450	228,629	493,079
Land Improvements	3,860,246	9,516,291	13,376,537
Buildings & Improvements	4,604,260	221,136	4,825,396
Equipment and Machinery	2,469,984	447,351	2,917,335
Water Rights	-	147,201	147,201
Plant & distributing system	-	14,277,472	14,277,472
Infrastructure	6,657,198	-	6,657,198
Total capital assets	18,180,445	25,783,889	43,964,333
Accumulated depreciation	(7,753,939)	(8,760,929)	(16,514,868)
Capital assets, net of accumulated depreciation	<u>\$ 10,426,506</u>	<u>\$ 17,076,960</u>	<u>\$ 27,503,466</u>

For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Fund financial statements record capital asset purchases as expenditures. See Note 7 in the accompanying Notes to the Financial Statements for further information regarding capital assets.

Debt Administration. At the end of the current fiscal year, the City of Moriarty had total long-term obligations outstanding of \$3,498,846.

Outstanding Debt

STATE OF NEW MEXICO
City of Moriarty
Management's Discussion and Analysis
for the Year Ended June 30, 2016
Unaudited

Long-term debt additions and retirements related to revenue bonds and loans for governmental activities for the current year were \$119,052 and \$138,354 respectively. Accrued compensated absences additions and retirements were \$51,966 and \$47,977, respectively, for governmental activities. Long-term debt retirements related to revenue bonds and loans for the business-type activities for the current year were \$65,226. Business type activities accrued compensated absences additions and retirements were \$- and \$4,408, respectively.

See Note 8 in the accompanying Notes to the Financial Statements for further information regarding the City of Moriarty's long-term debt.

Economic Factors and Next Year's Budgets and Rates

Inflationary trends in the region compare favorably to national indices. The City of Moriarty has plans for economic development that will require substantial infrastructure improvements that should result in future revenue growth.

The above factors were considered in preparing the City of Moriarty's budget for the 2016 fiscal year. There are no currently known facts, decisions, or conditions that are expected to have a significant effect or impact on the City's financial position or results of operations.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Moriarty's finances for all of those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: City of Moriarty Administration, City of Moriarty, P.O. Box 130, Moriarty, New Mexico, 87035.

RECONCILIATION OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Year Ending June 30, 2016

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	(180,088)
--	----	-----------

Governmental funds report capital outlays as expenditures. However in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

Capital expenditures		365,442
Depreciation expense		(545,954)

The issuance of long-term debt (e.g. bonds, notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position but are as follows:

Increase in accrued compensated absences		(1,617)
Increase in accrued interest		(14,238)
Change in proportion of Net Pension Liability		121,694
Loan Proceeds		(119,052)
Principal payments on notes payable		<u>375,479</u>

Change in net position of governmental activities	\$	<u><u>1,666</u></u>

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

NOTE 1. Summary of Significant Accounting Policies

The City of Moriarty (“City”) was incorporated under the provisions of the Municipal Code of the state of New Mexico (Sec. 14-2-1 et-Seq. 1953 Comp.). The City operates under a mayor council form of government. There are four council members plus the mayor, all of whom are elected at large. The basic criterion for including a component unit within the reporting entity of the City is the exercise of oversight responsibility by the City Council.

This summary of significant accounting policies of the City is presented to assist in the understanding of the City’s financial statements. The financial statements and notes are the representation of the City’s management who is responsible for their integrity and objectivity. The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City’s accounting policies are described below.

A. Financial Reporting Entity

In evaluating how to define the City, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB statements No. 61. Blended component units, although legally separate entities, are in substance part of the government’s operations. Each discreetly presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body’s ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity. Based upon the application of these criteria, the City has no component units, and is not a component unit of another governmental agency.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities and changes in net position) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement no. 33, *Accounting and Financial Reporting for Non-exchange Transactions*.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

B. Government-wide and fund financial statements (continued)

operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Sales and use taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place and the revenues are measurable and available. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met and the susceptible to accrual criteria have been met.

Governmental funds are used to account for the City's general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets and the servicing of general long-term debt. Governmental funds include:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Revenues are provided through property and other taxes, federal sources, state sources, charges for services, licenses and fees, and other miscellaneous recoveries and revenue. Expenditures include all costs associated with the daily operation of the City except for items included in other funds.

The *Special Revenue Funds* account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

The *Debt Service Funds* account for the services of general long-term debt not being financed by proprietary or nonexpendable trust funds.

The *Capital Projects Funds* account for the acquisition of fixed assets or construction of major capital projects not being financed by the proprietary or nonexpendable trust funds. The *Capital Projects Funds* account for the acquisition of fixed assets or construction of major capital projects not being financed by the proprietary or nonexpendable trust funds.

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Under the requirements of GASB No. 34, the City is required to present certain of its governmental funds as major based upon certain criteria. The major funds presented in the fund financial statements include only the General Fund and the Capital Project Airport Improvement Fund. No other funds were required to be presented as major at the discretion of management.

General Fund – the City’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Revenues are provided primarily through property, gross receipts and other miscellaneous taxes.

Major Capital Project Funds:

Water Improvement Capital Project Fund – It accounts for all revenue and expenditures associated with the Water Improvements approved by the State of New Mexico and funded by federal and state grants.

Economic Development Capital Project Fund – It accounts for all revenue and expenditures associated with the Economic Developments approved by the State of New Mexico and funded by federal and state grants.

The City reports its proprietary funds as a major business-type fund.

Major Enterprise Funds:

Sewer/AWWT Fund – to account for the provision of sewer services to the residents of the City.

Solid Waste Disposal Fund – to account for the provision of solid waste services to the residents of the City.

Water Fund – to account for the provision of water services to the residents of the City.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes, because elimination of these charges would distort the direct costs and program revenues reported in the Statement of Activities.

Program revenues reduce the cost of the function to be financed from the City’s general revenues. Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. When both restricted and unrestricted resources are available for use, it is the government’s policy to use restricted resources first, then unrestricted resources as they are needed.

When both restricted and unrestricted resources are available for use, it is the government’s policy to use restricted resources first, then unrestricted resources as they are needed.

The City reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. The City does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified function and is included in the direct expense of each function. Interest on general and long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing service in connection with the fund’s principal ongoing operations. The principal operating revenue of the City’s enterprise fund is charges for services for the City’s various utilities. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

D. Assets, Liabilities, and Net Position or Equity

Deposits and Investments: The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Investment Pool. Investments for the City are reported at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties. The State Treasurer's Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

Receivables and Payables: Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds or internal balances" (i.e., the current portion of interfund loans) or "advances to/from other funds or internal balances" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded when levied.

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. Property taxes uncollected after November 10th and April 10th are considered delinquent and the County may assess penalties and interest. The taxes attach as an enforceable lien on property thirty (30) days thereafter, at which time they become delinquent.

Prepaid Items: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and proprietary financial statements.

Capital Assets: Capital assets, which include property, plant, and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Information Technology Equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). Library books are expensed as purchased. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. No interest was included as part of the cost of capital assets under construction.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Computer Equipment & Software	3
Vehicles	5-7
Equipment & Machinery	5-20
Buildings & Building Improvements	40
Plant & Distributing System	40

Inventory: Inventory is reflected at historical cost.

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

D. Assets, Liabilities, and Net Position or Equity (continued)

Unearned Revenues: Accounting principles generally accepted in the United States of America require that grant revenue be recognized at the time the related expense is made if the expenditure of funds is the prime factor for determining eligibility for reimbursement; therefore, amounts received and not expended in the Special Revenue Funds are shown as unearned revenues. In addition, property taxes receivable but uncollected within sixty (60) days of year-end are classified as unearned revenue.

Deferred Inflow/Outflows of Resources: GASB 63 amended previous guidance on Unearned Revenues in the Government-Wide Financial Statements to include deferred outflow of resources, which is the consumption of net assets by the government that is applicable to a future reporting period and deferred inflow of resources, which is acquisition of net assets by the government that is applicable to a future reporting period.

Compensated Absences: Qualified employees are entitled to accumulate compensated absences earned. Upon termination, employees will be paid for all days of current year accrued annual leave not yet taken. Qualified employees are entitled to accumulate sick leave. Sick leave can be carried over from year to year. Upon termination employees receive no pay for sick time accumulated.

All vacation pay and applicable accumulated sick leave is accrued when incurred in the governmental-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements

Long-term Obligations: In the government-wide fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Net Position or Fund Equity:

Committed fund balance represents amounts that are useable only for specified purposes by formal action of the governments' highest level of decision-making authority.

Assigned fund balance represents amounts that are intended to be used for specific purpose, but are neither restricted nor committed. Intent is expressed by the governing body or a subordinate high level body or official whom the governing body has delegated.

Restricted fund balance represents amounts with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation.

Unassigned fund balance is the residual classification for the general fund and represents the amount that have not been assigned to other funds, and that have not been restricted, committed or assigned to specific purposes.

Net Investment in capital assets, net of related debt consists of net position including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of these assets.

Interfund Transactions: Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements are reported as transfers. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

D. Assets, Liabilities, and Net Position or Equity (continued)

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Tax Revenues: The City receives mill levy and ad-valorem tax revenues. Property taxes are assessed on January 1st of each year and are payable in two equal installments, on November 10th of the year in which the tax bill is prepared and April 10th of the following year with the levies becoming delinquent 30 days (one month) thereafter. The City recognizes tax revenues in the period for which they are levied in the government-wide financial statements. The City records only the portion of the taxes considered ‘measureable’ and ‘available’ in the governmental fund financial statements. Descriptions of the individual debt service and capital outlay funds contained in these financial statements include information regarding the authority for the collection and use of these taxes.

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Mexico Public Employees Retirement Association (PERA) and additions to/deductions from PERA’s fiduciary net position have been determined on the same basis as they are reported by PERA, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2. Stewardship, Compliance, and Accountability

Budgetary Information

Annual budgets of the City are prepared prior to June 1 and must be approved by resolution of the City Councilors, and submitted to the Department of Finance and Administration for State approval. Once the budget has been formally approved, any amendments must also be approved by the City Councilors and the Department of Finance and Administration. The legal level of budgetary control is at the fund level. A separate budget is prepared for each fund. Line items within each budget may be over-expended; however, it is not legally permissible to over-expend any budget in total.

These budgets are prepared on the Non-GAAP cash basis, excluding encumbrances, and secure appropriation of the funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year.

The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds, and Proprietary Funds, where applicable.

The City is required to balance its budgets each year. Accordingly, amounts that are in excess or deficient are presented as changes in cash designated for expenditures, not as an excess or deficiency of revenues over expenditures.

The City Council may approve amendments to the appropriated budget, which are required when a change is made affecting budgeted ending fund balance.

The accompanying Statements of Revenues, Expenditures, and Changes in Fund Balance – Budget (non-GAAP Budgetary Basis) and Actual presents comparisons of the legally adopted budget with actual data on a budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with Generally Accepted Accounting Principles, a reconciliation of resultant basis, perspective, equity, and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2016 is presented.

The reconciliations between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis by fund are shown on each budgetary statement.

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

NOTE 3. Deposits and Investments

State statutes authorize the investment of City funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States government obligations. All invested funds of the City properly followed State investment requirements as of June 30, 2016.

Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the City. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

According to the Federal Deposit Insurance Corporation, public unit deposits are funds owned by the public unit. Time deposits, savings deposits, and interest bearing NOW accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution.

NM State Statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the City for at least one half the amount in excess of FDIC coverage on deposit with the institution.

The schedule listed below discloses the State of New Mexico, Office of the State Auditor's requirements on reporting the insured portion of the City's deposits.

	Wells Fargo Bank Checking	US Bank Checking	NMFA Reserves
Operating	\$ 1,667,619	\$ 680,475	\$ -

Collateral:	
Collateral held by the pledging bank, not in the City's name	1,331,702
Uninsured and uncollateralized	315,014
Total Deposits	\$ 2,624,452

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

Note 3. Deposits and Investments (continued)

The collateral pledged is listed on Schedule I of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by an agency, district or political subdivision of the State of New Mexico.

Reconciliation of Cash and Temporary Investments

Carrying amounts by fund per financial statement at June 30, 2016 is:

Governmental Funds- Balance Sheet	
Cash and cash equivalents per Exhibit A-1	\$ 2,373,333
Less Petty Cash	(250)
Reconciling items	251,369
Reconciling items	\$ 2,624,452

Custodial Credit Risk – Investments

For an investment, custodial credit risk is the risk that in the event of counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have an investment policy for custodial credit risk. New Mexico State Statutes require collateral pledged for bank accounts in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the City for at least 50% of the amount on deposit with the institution.

The New MexiGrow Local Governmental Investment Pool’s (LGIP) investments are valued at fair value based on quoted market prices as of the valuation date. The LGIP is not SEC registered. The New Mexico State Treasurer is authorized to invest the short-term investment funds, with the advice and consent of the State Board of Finance. In accordance with Sections 6-10-10 I through 6-10-10-P and Section 6-10-10.1 A and E, NMSA 1978. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 19078, as the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the fund amounts were invested. Participation in the LGIP is voluntary.

As of June 30, 2016, the City’s investment balances were exposed to custodial credit risk as follows:

Investment in the State Treasurer Local Government Investment Pool	\$ 91,660
NMFA reserves	\$ 184,698

Interest Rate Risk and Credit Rating

The City does not have a formal policy limiting investment maturities to manage its exposure to fair value losses from increasing interest rates. The City’s investments at June 30, 2016 include the following:

State Treasurer LGIP, AAAM, 44-day WAM(R)	\$ 91,660
NMFA reserves	\$ 184,698

STATE OF NEW MEXICO
CITY OF MORIARTY

2019	15,937	1,826	17,763
2020	16,198	1,604	17,802
2021	16,473	1,372	17,845
2022-2026	68,913	2,894	71,807
Total	<u>\$ 148,660</u>	<u>\$ 11,962</u>	<u>\$ 160,622</u>

Short-term Debt: The City had no short-term debt activity during the year.

NOTE 9. Risk Management

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries and natural disasters. The City of Moriarty participates in the New Mexico Self-Insurer's Fund risk pool. The City pays an annual premium to the pool based on claim experience and the status of the pool. The City is not liable for more than the premium paid.

The City has not filed any claims for which the settlement amount exceeded the insurance coverage during the past three years. However, should a claim be filed against the City which exceeds the insurance coverage, the City would be responsible for a loss in excess of the coverage amounts. As claims are filed, the New Mexico Self-Insurers' Fund assesses and estimates the potential for loss and handles all aspects of the claim. Insurance coverage's have not changed significantly from prior years and coverage's are expected to be continued.

At June 30, 2016, no unpaid claims have been filed which exceed the policy limits and to the best of management's knowledge and belief all known and unknown claims will be covered by insurance. No major lawsuits have been filed against the City of Moriarty.

New Mexico Self-Insurers' Fund has not provided information or an entity by entity basis that would allow for a reconciliation of changes in the aggregate liabilities for claims for the current fiscal year and the prior fiscal year.

NOTE 10. Other Required Individual Fund Disclosures

Generally accepted accounting principles require disclosures as part of the Combining Statements - Overview of certain information concerning individual funds including:

A. The following funds had a deficit fund balance:

Water Improvements Capital Projects Fund	\$ 120
Roads Improvement Capital Projects Fund	\$33,479
CDBG Capital Projects Fund	\$ 3,984

Fund deficits will be funded by general fund transfers or by grant revenues.

B. No expenditures exceeded budget appropriations by fund.

STATE OF NEW MEXICO

NOTE 11. PERA Pension Plans

Plan description. The Public Employees Retirement Fund (PERA Fund) is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officer, Municipal General, Municipal Police/Detention Officers, Municipal fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the PERA Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C- 1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), and the provisions of Sections 29-4-1 through 29-4-11, NMSA 1978 governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the PERA Fund.

PERA issues a publicly available financial report and a comprehensive annual financial report that can be obtained at <http://saonm.org/> using the Audit Report Search function for agency 366.

Benefits provided. For a description of the benefits provided and recent changes to the benefits see Note 1 in the PERA audited financial statements for the fiscal year ended June 30, 2015 available at http://www.pera.state.nm.us/pdf/AuditFinancialStatements/366_Public_Employees_Retirement_Association_2015.pdf.

Contributions. The contribution requirements of defined benefit plan members and the City are established in state statute under Chapter 10, Article 11, NMSA 1978. The contribution requirements may be amended by acts of the legislature. For the employer and employee contribution rates in effect for FY14 for the various PERA coverage options, for both Tier I and Tier II, see the tables available in the note disclosures on pages 29 through 31 of the PERA FY14 annual audit report at http://osanm.org/media/audits/366_Public_Employees_Retirement_Association_2015.pdf. The PERA coverage options that apply to City are: General Division, Fire Division and Police Division. Statutorily required contributions to the pension plan from the City were \$131,581 and employer paid member benefits that were “picked up” by the employer were \$0 for the year ended June 30, 2016.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: The PERA pension liability amounts, net pension liability amounts, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2013. The PERA pension liability amounts for each division were rolled forward from the valuation date to the Plan year ending June 30, 2015, using generally accepted actuarial principles. Therefore, the employer’s portion was established as of the measurement date June 30, 2015.

The assets of the PERA fund are held in one trust, but there are six distinct membership groups (municipal general members, municipal police members, municipal fire members, state general members, state police members and legislative members) for whom separate contribution rates are determined each year pursuant to chapter 10, Article 11 NMSA 1978. Therefore, the calculations of the net pension liability, pension expense and deferred Inflows and Outflows were performed separately for each of the membership groups: municipal general members; municipal police members; municipal fire members; state general members; state police members and legislative members. The City’s proportion of the net pension liability for each membership group that the employer participates in is based on the employer contributing entity’s percentage of that membership group’s total employer contributions for the fiscal year ended June 30, 2015. Only employer contributions for the pay period end dates that fell within the period of July 1, 2014 to June 30, 2015 were included in the total contributions for a specific employer. Regular and any adjustment contributions that applied to FY 2015 are included in the total contribution amounts. In the event that an employer is behind in reporting to PERA its required contributions, an estimate (receivable) was used to project the unremitted employer contributions. This allowed for fair and consistent measurement of the contributions with the total population. This methodology was used to maintain consistent measurement each year in determining the percentages to be allocated among all the participating employers.

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

NOTE 11. PERA Pension Plans (continued)

For PERA Fund Division – the City’s General Division, at June 30, 2016, the City reported a liability of \$765,710 for its proportionate share of the net pension liability. At June 30, 2015, the City’s proportion was 0.0751 percent 0.0712 percent, which was an increase of .0039 percent from its proportion measured as of June 30, 2014.

For the year ended June 30, 2015, the City recognized PERA Fund – General, pension expense of \$36,494. At June 30, 2016, the City reported PERA Fund Division – General deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$ -	\$ 16,961	
Changes of assumptions	-	298	
Net difference between projected and actual earnings on pension plan investments	-	2,422	
Changes in proportion and differences between the City contributions and proportionate share of contributions	23,232	-	
City contributions subsequent to the measurement date	61,604	-	
Total	\$ 84,836	\$ 19,681	

\$61,604 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date June 30, 2015 will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:		
2017	\$	(20,281)
2018		(20,281)
2019		(20,281)
2020		8,564
2021		-
Thereafter	\$	-

NOTE 11. PERA Pension Plans (continued)

For PERA Fund Division - the City's Fire Division, at June 30, 2016, the City reported a liability of \$199,934 for its proportionate share of the net pension liability. At June 30, 2015, the City's proportion was 0.0479 percent, which was an increase of zero from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the City recognized PERA Fund Division – Fire pension expense of \$26,361. At June 30, 2016, the City reported PERA Fund Division – Fire deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 10,102	\$ -
Changes of assumptions	5,410	-
Net difference between projected and actual earnings on pension plan investments	-	309
Changes in proportion and differences between the City contributions and proportionate share of contributions	5,737	-
City contributions subsequent to the measurement date	<u>13,582</u>	<u>-</u>
Total	\$ 34,831	\$ 309

\$13,582 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date June 30, 2015 will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:		
2017	\$	3,046
2018		3,046
2019		3,046
2020		1,152
2021		-
Thereafter	\$	-

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

NOTE 11. PERA Pension Plans (continued)

For PERA Fund Division - the City's Police Division, at June 30, 2016, the City reported a liability of \$776,102 for its proportionate share of the net pension liability. At June 30, 2015, the City's proportion was .1614 percent which is a decrease of .0214 percent from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the City recognized PERA Fund Division - Police pension expense of \$33,977. At June 30, 2016, the City reported PERA Fund Division – Police deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 54,231	\$ -
Changes of assumptions	-	32,109
Net difference between projected and actual earnings on pension plan investments	-	2,153
Changes in proportion and differences between the City contributions and proportionate share of contributions	-	56,207
City contributions subsequent to the measurement date	67,323	-
Total	<u>\$ 121,554</u>	<u>\$ 90,469</u>

\$67,323 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date June 30, 2016 will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:		
2017	\$	(6,608)
2018		(6,608)
2019		(6,608)
2020		7,561
2021		-
Thereafter	\$	-

Actuarial assumptions. As described above, the PERA Fund member group pension liabilities and net pension liabilities are based on actuarial valuations performed as of June 30, 2013 for each of the membership groups. Then each PERA Fund member group pension liability was rolled forward from the valuation date to the Plan year ending June 30, 2015 using generally accepted actuarial principles. There were no significant events or changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2015. These actuarial methods and assumptions were adopted by the Board for use in the June 30, 2015 actuarial valuation.

Actuarial valuation date	June 30, 2013
Actuarial cost method	Entry age normal
Amortization method	Level percentage of pay
Amortization period	Solved for based on statutory rates
Asset valuation method	Fair value
Actuarial assumptions:	
• Investment of rate of return	7.75% annual rate, net of investment expense
• Payroll growth	3.50% annual rate
• Projected salary increases	3.50% to 14.25% annual rate
• Includes inflation at	3.00% annual rate

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

NOTE 11. PERA Pension Plans (continued)

The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

ALL FUNDS – Asset Class	Target Allocation	Long-term Expected Real Rate of Return
US Equity	21.1%	5.00%
International Equity	24.8	5.20
Private Equity	7.0	8.20
Core and Global Fixed Income	26.1	1.85
Fixed Income Plus Sectors	5.0	4.80
Real Estate	5.0	5.30
Real Assets	7.0	5.70
Absolute Return	4.0	4.15
Total	100.0%	

Discount rate: The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan’s fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASBS 67. Therefore, the 7.75% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City’s proportionate share of the net pension liability to changes in the discount rate. The following tables show the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present the City’s net pension liability in each PERA Fund Division that City participates in, under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower (6.75%) or one percentage point higher (8.75%) than the single discount rate.

PERA Fund Division – General	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City’s proportionate share of the net pension liability	\$1,303,700	\$ 765,710	\$ 318,407
PERA Fund Division – Fire	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City’s proportionate share of the net pension liability	\$347,892	\$256,511	\$ 181,200
PERA Fund Division – Police	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
City’s proportionate share of the net pension liability	\$1,281,685	\$ 776,102	\$ 361,352

Pension plan fiduciary net position. Detailed information about the pension plan’s fiduciary net position is available in the separately issued FY15 PERA financial report. The report is available at <http://www.pera.state.nm.us/publications.html>.

Payables to the pension plan. At June 30, 2016, the City had no outstanding amount of contributions to the pension plan and therefore, had no payables reported at fiscal year 2016.

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

NOTE 12. Deferred Compensation Plan

The City has executed salary reduction agreements with certain employees on a voluntary basis. Amounts withheld per these agreements are used to purchase insurance contracts on behalf of and are owned by the employee. This plan is in accordance with Internal Revenue Code. The City of Moriarty does not make contributions to this plan and has no liability to the plan except to remit withheld amounts.

NOTE 13. Post-Employment Benefits

Plan description: The City of Moriarty contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit post-employment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: (1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the Retiree Health Care Act on the person's behalf, unless that person retires before the employer's NMRHCA effective date, in which event the time period required for the employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; or (2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RCHA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RCHA or viewed on their website at www.nmrhca.stat.nm.us.

The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirement for the contributions can be changed by the New Mexico State Legislature. Employers that chose to become participating employers after January 1, 1998 are required to make contributions to the RHCA fund in the amount determined to be appropriate by the Board.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. For employees that were members of an enhanced retirement plan (state police and adult correctional officer member coverage plan 1; municipal police member coverage plan 3, 4 or 5; municipal fire member coverage plan 3, 4, or 5; municipal detention office member coverage plan 1; and members pursuant to the Judicial Retirement Act) during the fiscal year ended June 30, 2016, the statute required each participating employer to contribute 2.5% of each participating employee's annual salary; and each participating employee was required to contribute 1.25% of their salary. For employees that were not members of an enhanced retirement plan during the fiscal year ended June 30, 2013, the statute required each participating employer to contribute 2.0% of each employee's annual salary; each participating employee was required to contribute 1.0% of their salary. In addition, pursuant to Section 10-7C-15 (G) NMSA 1978, at the first session of the Legislature following July 1, 2013, the legislature shall review and adjust the distributions pursuant to Section 7-1-6.1 NMSA 1978 and the employer and employee contributions to the authority in order to ensure the actuarial soundness of the benefits provided under the Retiree Health Care Act.

The contributions to the RHCA for the years ended June 30, 2016, 2015 and 2014 were \$36,290, \$33,792 and \$39,964, respectively, which equal the required contributions for each year.

STATE OF NEW MEXICO
CITY OF MORIARTY
Notes to the Financial Statements
June 30, 2016

NOTE 14. Contingent Liabilities

The City is party to various claims and lawsuits arising in the normal course of business. Management and the City's attorney are unaware of any material pending or threatened litigation, claims or assessments against the City which are not covered by the City's insurance as described in Note 9.

NOTE 15. Federal and State Grants

In the normal course of operations, the City receives grant funds from various federal and state agencies. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

NOTE 16. Memorandum of Understanding/Joint Powers Agreements

Operation of the Solid Waste System

Purpose: To operate the regional solid waste system.

Participants: The City of Moriarty, the County of Torrance, the Village of Willard, the Town of Mountainair, the Town of Estancia, and the Village of Encino (based on the agreement update on December 16, 1993).

Responsible Party for Operation and Audit: Estancia Valley Solid Waste Authority (EVSWA)

Term: Started August 2, 1983 and has no expiration date.

Total Estimated Amount of Project and Actual Amount Contributed: Undetermined

Establishment and Operation of Housing Assistance Programs

Purpose: To provide Housing Assistance to low income families in the Torrance County, by authorizing the Town of Mountainair Housing Authority to operate public assistance programs within the geographical boundaries of Torrance County.

Participants: The County of Torrance, the Town of Mountainair, the City of Moriarty, the Town of Estancia, the Village of Encino, and the Village of Willard

Responsible Party for Operation and Audit: The Town of Mountainair Housing Authority

Term: No expiration date

Total Estimated Amount of Project and Actual Amount Contributed: None

E911 Services

Purpose: To form the Torrance County Emergency Communication 911 District.

Participants: The City of Moriarty, the County of Torrance, the Village of Willard, the Town of Mountainair, and the Town of Estancia

Responsible Party for Operation and Audit: The Torrance County E911 District

Term: The agreement is valid for the fiscal year.

Total Estimated Amount of Project and Actual Amount Contributed: Undetermined

Wildland Fire Protection and Suppression

Purpose: To provide mutual wildland fire suppression and management assistance and cooperation between the City of Moriarty and the Energy, Mineral and Nature Resources Department, Forestry Division (EMNRD)

Participants: The City of Moriarty and the Energy, Mineral and Nature Resources Department, Forestry Division

Responsible Party for Operation and Audit: The City of Moriarty and EMNRD

Term: The agreement is for a term of five years but may be terminated at any time.

Total Estimated Amount of Project and Actual Amount Contributed: None

Roads and Streets Repair and Maintenance

Purpose: To provide a basis where by the Torrance County can assist the City of Moriarty in repairing roads and streets within the boundaries of the City of Moriarty. The County will provide and operate county equipment and provide personnel necessary to repair existing street and road surfaces within the City.

Participants: The City of Moriarty (agrees to purchase or provide materials, including costs of transportation necessary to do repair or maintenance, and reimburse Torrance County for labor costs, fuel and the use of county equipment) and the County of Torrance

Responsible Party for Operation and Audit: The City of Moriarty and the County of Torrance; Each party will maintain their own records

Term: Undetermined

Total Estimated Amount of Project and Actual Amount Contributed: None

DWI Program

Purpose: A memorandum of understanding between the City of Moriarty Police Department and the Torrance County DWI Program was entered to conduct DWI enforcement activities (e.g. sobriety checkpoints and saturation patrols) at locations within the City of Moriarty where alcohol-involved crashes are prevalent.

Participants: The City of Moriarty, Police Department and the County of Torrance, DWI Program

Responsible Party for Operation and Audit: The County of Torrance DWI Program

Term: Until terminated in writing by either party within thirty days' notice of said termination.

Total Estimated Amount of Project and Actual Amount Contributed: None

Water and Sewer Line Extensions

Purpose: A memorandum of understanding between the City of Moriarty and Pilot Travel Centers LLC was entered to provide water and sewer line extensions in accordance with policies and standards of the City. The design and installed extension will also serve to accommodate future growth and connections by other property owners. Customers who connect in the future to the Pilot installed extension may be required to pay their pro rata share of the costs of the extension. The City will collect the pro rata share and reimburse collected amounts to Pilot.

Participants: The City of Moriarty and Pilot Travel Centers LLC

Responsible Party for Operation and Audit: The City of Moriarty

Term: Effective April 12, 2013 and remain in effect indefinitely

Total Estimated Amount of Project and Actual Amount Contributed: None

(This page intentionally left blank.)

STATE OF NEW MEXICO
CITY OF MORIARTY
June 30, 2016

SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for Federal, State and Local funded grants. These grants are awarded to the City with the purpose of accomplishing specific educational tasks. Grants accounted for in the Special Revenue Funds include:

Corrections Fund

To account for the operation and maintenance of funds restricted for the judicial corrections. Authority NMSA 1978 59A-53-1 to 17. No minimum balance required according to legislation.

Emergency Medical Services Fund

To account for the operation and maintenance of medical services (i.e. rescue operations), and equipment within the fire department in the City of Moriarty. Authority NMSA 1978 24-10A-1 to 10. No minimum balance required according to legislation.

Fire Protection Fund

To account for the operation and maintenance of the fire department authorized by the State Statute Chapter 48, Section 2, Laws of 1963. Financing is provided by the State Fire Allotment, emergency medical services, interest on investments and miscellaneous revenues. No minimum balance required according to legislation.

Law Enforcement Protection Fund

To account for the operation and maintenance of the police department authorized by the State Statute Chapter 289, Laws of 1983. Financing is provided by a grant from the State of New Mexico. No minimum balance required according to legislation.

Lodgers' Tax Fund

To account for revenues and expenditures per the Lodger's Tax Ordinance 500 of the City. Funds are restricted to the economic development of the City. No minimum balance required according to legislation.

Lodgers' Tax Promotion Fund

To account for revenues and expenditures per the Lodger's Tax Ordinance 500 of the City. Funds are restricted for promotion and advertising of the City. No minimum balance required according to legislation.

Street Fund

To account for revenue from the levy of a tax per gallon of gasoline purchased within the City boundaries, pursuant to the County and Municipal Gasoline Tax Act, NMSA 7-21-1. No minimum balance required according to legislation.

Industrial Park Fund

To account for monies earned and used for the Industrial Park. Funds are restricted for use on the industrial park of the City. No minimum balance required according to legislation.

All funds are on a reimbursement basis, therefore there are no reverting fund requirements.

Notes to Required Supplementary Information

For the Year Ended June 30, 2016

Changes of benefit terms. The PERA Fund COLA and retirement eligibility benefits changes in recent years are described in Note 1 of the PERA FY15 audit available at http://www.pera.state.nm.us/pdf/AuditFinancialStatements/366_Public_Employees_Retirement_Association_2015.pdf.

Changes of assumptions.

The Public Employees Retirement Association (PERA) of New Mexico Annual Actuarial Valuation as of June 30, 2015 report is available at http://www.pera.state.nm.us/pdf/Investments/RetirementFundValuationReports/6-30-2015%20PERA%20Valuation%20Report_FINAL.pdf. The summary of Key Findings for the PERA Fund (on page 2 of the report) states “based on a recent experience study for the five year period ending June 30, 2013, the economic and demographic assumptions were updated for this valuation. The changes in assumptions resulted in a decrease of \$30.8 million to Fund liabilities and an increase of 0.13% to the funded ratio. For details about changes in the actuarial assumptions, see Appendix B on page 60 of the report.

COMPLIANCE SECTION

(This page intentionally left blank.)

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*
INDEPENDENT AUDITOR'S REPORT**

Timothy Keller
New Mexico State Auditor
The Office of Management and Budget and
The Governing Board
City of Moriarty
Moriarty, NM

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information and the budgetary comparisons of the General fund and Capital Project funds, of the City of Moriarty as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City of Moriarty's basic financial statements, and the combining and individual funds and related budgetary comparisons of the City of Moriarty, presented as supplemental information, and have issued our report thereon dated August 25, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Moriarty's internal control over financial reporting to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Moriarty's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Moriarty's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control over financial reporting that we would consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned function, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and responses to be a material weakness. The material weaknesses are described as 2015-001 and 2016-001

A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and responses to be a significant deficiency. The significant deficiency is described as 2016-002.

(This page intentionally left blank.)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Moriarty's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

City of Moriarty's Response to Findings

The City of Moriarty's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The City of Moriarty's responses were not subjected to auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City of Moriarty's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Moriarty's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

STATE OF NEW MEXICO
CITY OF MORIARTY
OTHER DISCLOSURES
Year Ended June 30, 2016

Section I – Prior year findings:

2015-001 Lack of Controls over Utilities Billing and Payment Adjustments (Material Weakness) (repeated and revised)

Section II – Current year findings:

2015-001 Lack of Controls over utility billing and meter reads (Material Weakness)(repeated and revised)

Condition: Based on the test work performed over meter readings and utility billing PALLC noted two (2) exceptions. The exceptions noted indicated discrepancies in the meter read vs. the amount billed. Both accounts are included in a State Auditor appointed special investigation of the utilities. PALLC verified accounts were sent to the State Auditor and to the firm conducting the special investigation. The City made progress by terminating the employees and implementing additional controls over utility billing and meter readings.

Criteria: Good internal controls and documentation practices require that policies and procedures are in place for billing and meter read processes and that there is a segregation of duties. Specifically, having another employee verify the meter reads taken in field to those input into the software system for billing would be a recommendation. Good internal controls over all processes are necessary to ensure that all customers are billed correctly and bills can be traced and verified to the correct read, rate, and billing amount.

Effect: The lack of an internal control policies and procedures on billing, meter reads, and management oversight results in inaccurate records, unauthorized billing amounts and a loss of revenue. The City is currently undergoing a special investigation of its utility billing processes.

Cause: No management oversight or monitoring practices were in place. No justifications of incorrect meter reads were executed to explain unusual variances of utility usage vs. billing.

Recommendation: The City needs to implement internal controls over utility meter reading and billings. Those controls should include the following: a process for documenting and verifying meter reads; a process for controlling meter activity including removal, shut off, repairs, re-reads whether electronic or manual, and replacement; a process for work orders; a process for fees; and a process for retaining documents and supporting documentation.

Client Response: In August of last year, it was discovered that the utility clerk was making manual adjustments that did not reflect the amount of usage of the meter read. It was turned over to the State Auditor and is being investigated. The billing clerk is no longer with the City and the billing function has been moved back over to the Clerk's office, rather than in the Public Works department. We have instituted dual control of many functions of the billing so that these instances can no longer happen. We also, once the investigation is complete, plan to upgrade our system. This will have many more controls available to us. The City Clerk expects this issued to be fully resolved by June 30, 2017.

OTHER DISCLOSURES
Year Ended June 30, 2016

2016-001 Lack of Controls over Utility Adjustments (Material Weakness)

Condition: During the performance of billing adjustment test work, it was determined that some customer payments and customer billings were being adjusted without Council approval or documented justification for changes. As of October 2015 the entity set a new procedure in place for all billing adjustments to be approved by Council prior to any adjustments being made. Council approved adjustments were not always made for the amount approved. In addition we noted (41) forty-one adjustments that were made that did not have council approval. This totaled to \$48,792.40.

Criteria: Good internal controls and good documentation practices require that policies and procedures are in place for billing and collection processes and that there is a segregation of duties. Specifically, following procedures set in place by management, and keeping record of all pertinent documentation, would be a good recommendation. Good internal controls over all processes are necessary to ensure that all customers are billed correctly in addition all removal, turnoff, and repairs must be authorized and documented with justification.

Effect: The lack of an internal controls and policies and procedures over billing, collection, and other matters regarding the change in customer accounts may result in inaccurate records, unauthorized billing adjustments, and a loss of revenue.

Cause: No documentation or justifications of billing adjustments were executed.

Recommendation: The City needs to provide and maintain better documentation regarding their billing adjustments approved by Council. Those controls should include the following: a process for documenting and approving adjustments along with all related supporting documentation for the customer billing adjustment.

Client Response: We found that adjustments were being made that did not have any supervisor approval. After several written notices (e-mail and reprimand) to the former utility clerk, a change was made to the software system access only allow the City Clerk to be able to make those adjustments after reviewing either a customer request or the billing clerk's request for a change. A directive from Mayor Hart also instituted the practice of sending those adjustments to council approval, totaling \$48,792.40. We have since then added to the agenda as a consent agenda item with backup documentation within council packets for review. It was suggested by the auditor to specify the adjustments in the minutes, rather than just as an approval of the consent agenda. Staff will change our practices to include the amounts adjusted on the agenda for approval and therefore the minutes will reflect the adjustments more clearly. The City Clerk and the City Council implemented corrective actions effective September 2016 and expect to have the issue fully resolved by December 31, 2016.

STATE OF NEW MEXICO
CITY OF MORIARTY
OTHER DISCLOSURES

2016-002 Noncompliance with NMSA and NMAC – Misappropriation of Assets(Significant Deficiency)

CONDITION: During our test work of State Auditor Compliance we noted one where an employee was misappropriating the city's assets by claiming inaccurate hours on their timesheets and misusing the city's vehicles for personal use. This issue was detected by the city and the employee was promptly terminated on April 25, 2016.

CRITERIA: NMSA 1978 § 30-23-2 states "Paying or receiving public money for services not rendered consist of knowingly making or receiving payment made from public funds where such payment purports to be for wages, salary or remuneration for personal services which have not in fact been rendered." Additionally, NMAC 1.5.3 - General Government Administration Public Property Management Administration and Use of State Vehicles states that "Vehicles shall be used strictly for official state business, except as specified immediately below:

a. Employees while on official business who are away from their assigned workstation may use the state vehicle for personal purposes on a limited basis during off-duty hours."

CAUSE: Unknown

EFFECT: Without proper review of employees timesheets reported, the city is at risk of making inaccurate payroll disbursements. Resulting in the city paying for services not rendered. This may result in the city to be in noncompliance with NMSA 1978 § 30-23-2 with regards to paying for services that have not in fact been rendered. In addition, the personal use of state vehicles may cause the city to be noncompliant with NMAC 1.5.3 - General Government Administration Public Property Management Administration and Use of State Vehicles.

RECOMMENDATION: The City is encouraged to have department supervisors perform a review of employee timesheets, and document any adjustments necessary, prior to processing and issuing payroll checks to ensure accuracy of wage payments. There should be a secondary management review to ensure accuracy of processed payroll. The City is also encouraged to reiterate to all staff members the regulations with the proper use of state vehicles.

CLIENT RESPONSE: This issue was detected by the city and the employee was promptly terminated. In April 2016, the Department Supervisor provided additional training/review of the City's policies regarding accurate time reporting and use of City vehicles.

A. AUDITOR PREPARED FINANCIAL STATEMENTS

The City has the capability of understanding and accepting responsibility for its own GAAP-basis financial statements, however, the City's personnel do not have the time to prepare them. Therefore, the outside auditor prepared the GAAP-basis financial statements and footnotes for inclusion in the annual audit report.

B. EXIT CONFERENCE
