INDEPENDENT AUDITORS' REPORT

Hector H. Balderas, State Auditor
and the Mayor and City Council of the
Village of Roy, New Mexico

We were engaged to audit the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of the Village of Roy, New Mexico (the Village), as of and for the year ended June 30, 2006, which collectively comprise the Village of Roy' basic financial statements as listed in the table of contents. We were also engaged to audit the financial statements of each of the Village of Roy' nonmajor governmental funds and the budgetary comparisons for the enterprise funds, and the nonmajor funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2006, as listed in the table of contents. These financial statements are the responsibility of the Village of Roy's management.

At the commencement of fieldwork, the Village's accounting software failed and all general ledger and related accounting data was lost. The Village had no data backup system to rely upon, leaving no backup information available. As a result of these failures, the Village cannot provide general ledger detail to amounts reported on its trial balance. The Village cannot provide subsidiary ledgers for cash, accounts receivable, accounts payable, accruals or any asset, liability, revenue, expense, or fund balance and net asset account.

Because of inadequate capital asset records, we were unable to form an opinion regarding the amounts of capital assets recorded in the governmental activities and business-type activities financial statements.

We were unable to obtain written representations from management of the Village concerning transactions related to the fiscal year 2006, which took place under substantially different management, as required by generally accepted auditing standards.

At June 30, 2006 the liability for compensated absences was not available and management has elected not to record it.

We were unable to examine sufficient competent evidential matter to determine the collectibility of receivables of all funds.

We were unable to obtain detail to any general ledger account and subsidiary ledgers and audit that detail and ledgers because of the failure of the Village's accounting software and data backup system. We were unable to satisfy ourselves about the lack of general ledger detail, and lack of all subsidiary ledgers by means of other auditing procedures.

Because we were unable to obtain detail to any general ledger account and subsidiary ledgers, and we were unable to apply other auditing procedures regarding lack of general ledger detail, and lack of all subsidiary ledgers as discussed in the preceding paragraphs, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the financial statements referred to in the first paragraph.

In accordance with Government Auditing Standards, we have also issued our report dated May 21, 2012, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Village has not presented the Management's Discussion and Analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the basic financial statements and the combining and individual financial statement and budgetary comparisons presented as supplemental information.

We were engaged for the purpose of forming opinions on the basic financial statements, and the combining and individual fund financial statements. The additional schedules listed as "other supplemental information" in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. The scope of our audited was limited as discussed in the second, and third paragraphs above and because of the significance of these matters, we do not express an opinion on the basic financial statements and the combining and individual fund financial statements; accordingly, the other supplemental information as listed in the table of contents have not been subjected to auditing procedures in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards; therefore, we do not express an opinion as to the other supplemental information as listed in the table of contents in relation to the basic financial statements taken as a whole.

White + Samaniego + Campbell, LLP

El Paso, Texas

STATE OF NEW MEXICO
VILLAGE OF ROY

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND
BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2006

Net change in fund balances - total governmental funds \$ 53,272

The changes in net assets reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their useful lives as annual depreciation expenses in the statement of activities. This is the amount by which depreciation exceeds capital outlays in the period.

Depreciation expense	-
Capital outlays	<u>-</u>
	-

Change in net assets of governmental activities \$ 53,272

See independent auditors' report and accompanying notes to financial statements.

STATE OF NEW MEXICO
VILLAGE OF ROY

NOTES TO BASIC FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Roy (the "Village") have been prepared in accordance with general accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements. Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued after November 30, 1989 that do not conflict with or contradict GASB pronouncements. The more significant of the Village's accounting policies are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis for State and Local Governments. Some of the significant changes in the Statement include the following:

- A Management's Discussion and Analysis (MD&A) providing an analysis of the Village's overall financial position and results of operations.
- Financial Statements prepared using full-accrual accounting for all the Village's activities.
- A change in fund financial statements to focus on major funds.

These and other changes are reflected in the accompanying financial statements (including the notes to the financial statements) as of June 30, 2006.

In addition, in June 2001, the GASB issued Statement No. 37, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments: Omnibus - an amendment of GASB Statement No. 21 and No. 34 and Statement No. 38, Certain Financial Note Disclosures. These two statements clarify, modify, establish and rescind certain disclosure requirements under GASB No. 34. Both statements are being implemented in conjunction with GASB Statement No. 34. These statements do not have an impact on the results of operations or the financial position of the Village.

Reporting Entity

The Village of Roy was incorporated under the laws of the State of New Mexico. The Village operates under a Council-Mayor form of government and provides the following services as authorized by its charter: public safety (police and fire), streets, sanitation, culture-recreation, public improvements, planning and zoning, and general administrative service matters.

A GASB Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the Village is considered a primary government, since it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. As used in GASB Statement No. 14, fiscally independent means that the Village may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges and issue bonded debt.

The Village has no component units, defined by GASB Statement No. 14 as other legally separate

organizations for which the elected Village members are financially accountable. There are no other primary governments with which the Village Board Members are financially accountable. There are no other primary governments with which the Village has a significant relationship.

The accounts of the Village are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

The funds of the Village are classified into two categories: governmental and proprietary. In turn, each category is divided into separate fund types. The fund classification and a description of each existing fund type follows below:

Basis of Presentation

Government-Wide Financial Statements (GWFS) - The government-wide financial statements (the statement of net assets and the statement of changes in net assets) report information on all of the activities of the Village. Fiduciary funds are not included in the GWFS. Fiduciary Funds are reported only in the Statement of Fiduciary Net Assets at the fund financial statement level. The Village has no Fiduciary Funds. The effect of interfund activity, within the governmental and business-type activities columns, has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include: Charges for services is the term used for a broad category of program revenues that arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services. Revenues in this category include fees charged for specific services, such as water use or garbage collection; licenses and permits, such as dog licenses, liquor licenses, and building permits; operating special assessments, such as for street cleaning or special street lighting; and any other amounts charged to service recipients. Fines and forfeitures are also included in this category because they result from direct charges to those who are otherwise directly affected by a program or service, even though specific grants and contributions (operating and capital) include revenues arising from mandatory and voluntary nonexchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program. Some grants and contributions consist of capital assets or resources that are restricted for capital purposes to purchase, construct, or renovate capital assets associated with a specific program. These should be reported separately from grants and contributions that may be used either for operating expenses or for capital expenditures of the program at the discretion of the reporting government. These categories of program revenue are specifically attributable to a program and reduce the net expense of that program to the reporting government.

The Village segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental and proprietary activities. These statements present each major fund as separate column on the fund financial statements; all non-major funds are aggregated and presented in a single column.

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The Village has presented the following major governmental funds:

General Fund - The General Fund is the general operating fund of the Village and accounts for all revenues and expenditures of the Village not encompassed within other funds.

Special Revenue Funds

Fire Fund - To account for the operation and maintenance of the Village Fire Department. Financing is primarily from an annual state fire allotment. The fund was created by the authority of state grant provisions. (NMSA 59A-53-1)

Enterprise Funds

Proprietary Funds - To account for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position and cash flow. All assets and liabilities are included on the Statement of Net Assets. The Village has presented the following major proprietary funds:

Water and Sewer and Solid Waste Funds - The funds are used to account for the provision of water, sewer and garbage services to the residents of the Village. Activities of the funds include administration, operations and maintenance of the water and sewer system and billing and collection activities. The funds also account for the accumulation of resources for, and the payment of, long-term debt principal and interest for water and sewer debt. All costs are financed through charges to utility customers with rates reviewed regularly and adjusted if necessary to ensure integrity of the funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Measurement Focus, Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government wide and proprietary statements are reported using the economic resources measurement focus. The government wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the Village gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Derived tax revenue, such as franchise and sales tax revenue, is recognized when the underlying exchange transaction occurs.

Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the Village's taxpayer or citizenry, as a whole; program revenues reduced the cost of the function to be financed from the Village's general revenues. Program revenues include charges for services or applicants who purchase, use or directly benefit from the goods or services

provided by the given function.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e. when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The Village considers property taxes as available if they are collected within 30 days after year end. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due. The revenues susceptible to accrual are property taxes, franchise fees, licenses, charges for service, interest income and intergovernmental revenues. Sales taxes collected and held by the state at year end on behalf of the government are also recognized as revenue. All other governmental fund revenues are recognized when received.

Budgetary Control

The Village follows these procedures in establishing the budgetary data reflected in the financial statements.

1. The Village clerk submits a proposed operating budget for the fiscal year commencing July 1, prior to June 30. The operating budget includes proposed expenditures and the means for financing them. A budget is proposed for the General and Special Revenue Funds. Proprietary Funds are also budgeted.
2. Public hearings are conducted to obtain taxpayer comments. The budgets are then submitted to the Department of Finance and Administration for review, adjustment and approval.
3. Prior to June 30, the budget is legally enacted through passage of a resolution. The Village Council is authorized to transfer budgeted amounts between departments within any fund. Department of Finance and Administration, Local Government Division must approve any revisions that alter the total expenditures of any fund.
4. Budgets for all funds are adopted on a regulatory prescribed cash basis. The level of budgeting control is by fund total. Budgetary information is presented as amended, the amendments being adopted in a legally prescribed manner. Appropriations lapse at year-end with any unspent cash balance being available for expenditures and appropriation in the subsequent year's budget.

Encumbrances

Encumbrance accounting under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve the portion of the applicable appropriation is employed as an extension of formal budgetary integration in the General Fund and Special Revenue Funds. Encumbrances lapse at year-end and therefore are not presented in these financial statements

Cash and Cash Equivalents

Cash includes amounts in demand deposits as well as certificates of deposit acquired by the Village. For the purpose of reporting cash flows all highly liquid investments including restricted assets with maturity of three months or less are considered to be cash equivalents. The Village is authorized under the provisions of Chapter 6, Article 10, paragraph 10, NMSA 1978, to deposit its money in banks, savings and loan associations and/or credit unions whose accounts are insured by an agency of the United States.

Investments

All money not immediately necessary for the public uses of the Village may be invested in:

(a) bonds or negotiable securities of the United States, the state or any county, municipality or Village which has a taxable valuation of real property for the last preceding year of at least one million dollars (1,000,000) and has not defaulted in the payment of any interest or sinking fund obligation or failed to meet any bonds at maturity at any time within five years last preceding; or

(b) securities that are issued by the United States government or by its agencies or instrumentalities and that are either direct obligations of the United States or are backed by the full faith and credit of the United States government or agencies guaranteed by the United States government; or

(c) in contracts with banks, savings and loan associations or credit unions for the present purchase and resale at a specified time in the future of specific securities at specified prices at a price differential representing the interest income to be earned by the investor. The contract shall be shown on the books of the financial institution as being the property of the investor and the designation shall be contemporaneous with the investment. The contract shall be fully secured by obligations of the United States having a market value of at least one hundred two percent of the contract. The collateral required for investment in the contracts provided for in this subsection shall be shown on the books of the financial institution as being the property of the investor and the designation shall be contemporaneous with investment.

Receivables and Payables

Receivables include property taxes, interfund loans that are expected to be paid back and amount due from state government agencies related to various grant agreements. Payables represent routine monthly bills for services rendered and products purchased and accrued salaries and benefits.

Property Taxes

The County collects the Village's share of property taxes assessed. Property taxes attach an enforceable lien on property as of January 1st. Tax notices are sent by the County treasurer to property owners by November 1st of each year to be paid in whole or in two installments by November 10th and April 10th of each year. The County collects such taxes and distributes them to the Village on a monthly basis. The Village accounts for its share of property taxes in the General Fund. Only those collections received are recorded as revenues for the budget presentation.

Capital Assets

Capital assets, which includes property, buildings, equipment (including software), and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. Capital assets are recorded at historical costs and depreciated over their estimated useful lives (with no salvage value). Capital assets are defined by the Village as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Donated capital assets are recorded at their estimated fair market value on the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The construction period interest is not capitalized in the proprietary funds.

Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Straight line depreciation is used based on the following estimated useful lives:

Site improvements	40 Years
Buildings	20 - 40 Years
Improvements	10 - 40 Years
Equipment	3 - 15 Years

Use of Restricted Funds

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Revenue

The policy for defining the proprietary fund's operating revenues and expenses is how individual transactions would be categorized for purposes of preparing a statement of cash flows. Transactions for which cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities normally are not reported as components of operating income.

Compensated Absences

All full-time employees are entitled to a minimum of two weeks per year and a maximum of 22 days per year based upon the length of service.

Each permanent employee of the Village accrues sick leave as working days with full pay on the basis of one (1) day per each month of employment. Sick leave may be granted only from duty because of personal illness, legal quarantine, or medical, dental, or optical appointments. In case of an extended sickness in excess of the accumulated sick leave, annual leave may be applied to sick leave. The employee may be eligible to sell sick leave in excess of 10 days at the rate of 75% of regular pay, only upon approval of the board.

Net Assets

The government-wide and business-type activities fund financial statements utilize a net assets presentation. When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, and then unrestricted resources as needed.

Investment in capital assets, net of related debt

This category reflects the portion of net assets that are associated with capital assets less outstanding capital asset related debt.

Restricted net assets

Restricted net assets result from the constraints placed on the use of net assets when externally imposed by creditors, grantors, laws and regulations of other governments and imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets

This category reflects net assets of the Village, not restricted for any project or other purpose.

The Village's policy is to apply restricted resources first, committed sources second, assigned resources third, and unassigned resources last when an expense is incurred for purposes for which all or any fund balance classification is available.

Inter-Fund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other inter-fund transactions, except quasi-external transactions and reimbursements are reported as transfers. All other inter-fund transfers are reported as operating transfers.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

New Governmental Accounting Standards

In February 2009, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 54 Fund Balance Reporting and Governmental Fund Type Definitions, which is effective for financial statements for periods beginning after June 15, 2010, and earlier application is encouraged. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. The Village is analyzing the effect that this statement will have on its financial statement, and currently believes it will have no significant effect on the financial statement for the upcoming year.

In December 2009, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 57 OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, which is effective upon issuance for certain provisions of the statement and for periods beginning after June 15, 2011 for other provisions. The objective of this Statement is to address issues related to the use of the alternative measurement method and the frequency and timing of measurements by employers that participate in agent multiple-employer other postemployment benefit plans. The Village is analyzing the effect that this statement will have on its financial statement, and currently believes it will have no significant effect on the financial statement for the upcoming year.

In December 2009, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 58 Accounting and Financial Reporting for Chapter 9 Bankruptcies, which is effective for reporting periods beginning after June 15, 2009. The objective of this Statement is to provide accounting and financial reporting guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. It requires governments to remeasure liabilities that are adjusted in bankruptcy when the bankruptcy court confirms (that is, approves) a new payment plan. The Village is analyzing the effect that this statement will have on its financial statement, and currently believes it will have no significant effect on the financial statement for the upcoming year.

In June 2010, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 59 Financial Instruments Omnibus, which is effective for financial statements for periods beginning after June 15, 2010. Earlier application is encouraged. The objective of this Statement is to update and improve existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice. This Statement provides for the following amendments: National Council on Governmental Accounting Statement 4, Accounting and Financial Reporting Principles for Claims and Judgments and Compensated Absences, is updated to be consistent with

the amendments to GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, regarding certain financial guarantees. Statements No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, and No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, are amended to remove the fair value exemption for unallocated insurance contracts. The effect of this amendment is that investments in unallocated insurance contracts should be reported as interest-earning investment contracts according to the provisions of paragraph 8 of Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. Statement 31, is clarified to indicate that a 2a7-like pool, as described in Statement 31, is an external investment pool that operates in conformity with the Securities and Exchange Commission's (SEC) Rule 2a7 as promulgated under the Investment Company Act of 1940, as amended. Statement No. 40, Deposit and Investment Risk Disclosures, is amended to indicate that interest rate risk information should be disclosed only for debt investment pools—such as bond mutual funds and external bond investment pools—that do not meet the requirements to be reported as a 2a7-like pool. Statement 53 is amended to: – Clarify that the net settlement characteristic of Statement 53 that defines a derivative instrument is not met by a contract provision for a penalty payment for nonperformance – Provide that financial guarantee contracts included in the scope of Statement 53 are limited to financial guarantee contracts that are considered to be investment derivative instruments entered into primarily for the purpose of obtaining income or profit – Clarify that certain contracts based on specific volumes of sales or service revenues are excluded from the scope of Statement 53 – Provide that one of the “leveraged yield” criteria of Statement 53 is met if the initial rate of return on the companion instrument has the potential for at least a doubled yield. The Village is analyzing the effect that this statement will have on its financial statement, and currently believes it will have no significant effect on the financial statement for the upcoming year.

In November 2010, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 60 Accounting and Financial Reporting for Service Concession Arrangements, which is effective for financial statements for periods beginning after December 15, 2011. The provisions of this Statement generally are required to be applied retroactively for all periods presented. The objective of this Statement is to improve financial reporting by addressing issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. As used in this Statement, an SCA is an arrangement between a transferor (a government) and an operator (governmental or nongovernmental entity) in which (1) the transferor conveys to an operator the right and related obligation to provide services through the use of infrastructure or another public asset (a “facility”) in exchange for significant consideration and (2) the operator collects and is compensated by fees from third parties. The Village is analyzing the effect that this statement will have on its financial statement, and currently believes it will have no significant effect on the financial statement for the upcoming year.

In November 2010, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 61 The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34, which is effective for financial statements for periods beginning after June 15, 2012. Earlier application is encouraged. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of Statement No. 14, The Financial Reporting Entity, and the related financial reporting requirements of Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements. The Village is analyzing the effect that this statement will have on its financial statement, and currently believes it will have no significant effect on the financial statement for the upcoming year.

In December 2010, the GASB issued Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. That Statement supersedes Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting. Statement 62 is effective for financial statements for periods beginning after December 15, 2011, with early application encouraged. The objective of this statement is to provide non-conflicting pronouncements between FASB and GASB. The Village is analyzing the effect that this statement will have on its financial statement, and currently believes it will have no significant effect on the financial statement for the upcoming year.

In June 2011, the GASB issued Statement No. 63, Financial reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and net Position, which is effective for financial statements for periods beginning after December 15, 2011. Earlier application is encouraged. The objective of this statement is to provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, Elements of Financial Statements, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. Concepts Statement 4 also identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The Village is analyzing the effect that this statement will have on its financial statement, and currently believes it will have no significant effect on the financial statement for the upcoming year.

In June 2011, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 64 Derivative Instruments: Application of Hedge Accounting Termination Provisions—an amendment of GASB Statement No. 53, which is effective for financial statements for periods beginning after June 15, 2011. Earlier application is encouraged. The objective of this Statement is to clarify whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty’s credit support provider. This Statement sets forth criteria that establish when the effective hedging relationship continues and hedge accounting should continue to be applied. The Village is analyzing the effect that this statement will have on its financial statement, and currently believes it will have no significant effect on the financial statement for the upcoming year.

2. RECONCILIATION OF BUDGETARY BASIS TO GAAP BASIS STATEMENTS

The Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - all Governmental Fund Types is presented on the budgetary basis to provide a comparison of actual results with the budget. The major differences between the budget basis and GAAP (Generally Accepted Accounting Principles) basis are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- B. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).

The adjustments necessary to convert the results of operations for the year from GAAP basis to the budget basis for the governmental funds are presented on each individual Statement of Revenues, Expenditures, and Changes in Cash Balance - Budget and Actual (Budgetary Basis).

3. CASH AND INVESTMENTS

Deposits

Custodial Credit Risk - Deposits. Custodial credit risk is, in the event of the failure of a depository financial institution, the Village will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Village does not have a deposit policy for custodial credit risk. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and are (1) uncollateralized, (2) collateralized with securities held by the pledging financial institution, or (3) collateralized with securities held by the pledging financial institution's trust department or agent but not in the Village's name. As of June 30, 2006, the Village's bank balance total of \$464,114 was exposed to credit risk in the amount of \$364,114 as follows:

Uninsured and collateral held by pledging bank's trust department not in the Village's name	\$ 364,114
---	------------

In accordance with Section 6-10-17, NMSA, 1978 Compilation, the Village is required to collateralize an amount equal to one-half of the public money in excess of FDIC insurance at each financial institution. At June 30, 2006, FDIC insurance is unlimited for non-interest bearing accounts and \$100,000 on interest bearing accounts.

The total balance in any single financial institution may at times exceed the FDIC coverage available to individual depositors. The Village is required to obtain from each bank that is a depository for public funds pledged collateral in an aggregate amount equal to one half of the public money in each account.

Credit Risk. The Village has no formal policy on managing credit risk. State law limits investments to United States Government obligations, commercial paper with A-low better ratings, corporate bonds with a BBB+ or better rating, asset backed obligations with an AAA or better rating, or repurchase agreements.

4. RECEIVABLES

Receivables as of June 30, 2006, were as follows:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Accounts receivable	\$ 420	\$ 3,598
Gross receipts taxes	<u>218,939</u>	<u>-</u>
	<u>\$ 219,359</u>	<u>\$ 3,598</u>

Taxes receivable for the governmental funds consists primarily of taxes collected by the collection agency in the current year but not remitted to the Village until after year-end. All governmental fund receivables are considered collectible.

5. CAPITAL ASSETS

Changes in Capital Assets-Capital asset activity for the City's primary government for the year ended June 30, 2006, was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Government activities:				
Capital assets not being depreciated:				
Land	\$ 45,000	\$ -	\$ -	\$ 45,000

Business-type activities capital assets, net	<u>\$ 2,127,045</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,127,045</u>

6. LONG TERM DEBT

A summary of activity of long term debt is as follows:

	<u>Balance 6/30/05</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance 06/30/06</u>	<u>Amounts Due Within One Year</u>
Governmental Activities					
Other liabilities					
Compensated absences	\$ 1,379	\$ -	\$ -	\$ 1,379	\$ -
Total other liabilities	<u>1,379</u>	<u>-</u>	<u>-</u>	<u>1,379</u>	<u>-</u>
Total	<u>\$ 1,379</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,379</u>	<u>\$ -</u>

The compensated absences ultimately will be liquidated by the General Fund or Water Fund as they have been in the past.

7. PROPERTY TAXES

Harding County collects the Village's share of property taxes assessed. Property taxes attach as an enforceable lien on property as of January 1. Tax notices are sent by the County treasurer to property owners by November 1 of each year to be paid in whole or in two installments by November 10 and April 10 of the following year. The County collects such taxes and distributes them to the Village on a monthly basis. The Village accounts for its share of property taxes in the General Fund. Only those collections received are recorded as revenue. The Village has no means of determining the amount of delinquent taxes, and no delinquent taxes are recorded on the Village's financial records.

8. RETIREMENT PLAN

Plan Description. Substantially all of the Village's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (PERA) (Chapter 10, Article 11 NMSA 1978). PERA is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement, disability benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERA, P. O. Box 2123, Santa Fe, New Mexico 87504.

Funding Policy. Plan members and Village are required to contribute 9.15% of their gross salary. The contribution requirements of plan members and Village are established in Chapter 10, Article 11 NMSA 1978. The requirements may be amended by acts of legislature. The Village's contributions to PERA for the years ending June 30, 2006, 2005, and 2004 were \$12,312, \$17,889, and \$18,387 required contributions for each year.

9. POST-EMPLOYMENT BENEFITS

The Retiree Health Care Act (Act) Chapter 10, article 7C, NMSA 1978) provides comprehensive core health insurance for persons who have retired from certain public services in New Mexico. The Retiree Health Care Authority is the administrator of the plan. The purpose is to provide eligible retirees, their spouses, dependents and surviving spouses and dependents with health insurance consisting of a plan, or optional plans, of benefits that can be purchased by funds flowing into the Retiree Health Care Fund and

by co-payments or out-of-pocket payments of eligible retirees flow to the Retiree Health Care Fund on a pay-as-you-go basis from eligible employers and eligible retirees. Eligible employers consist of institutions of higher education, school districts, or their entities participating in the Public School Insurance Authority and state agencies, state courts, magistrate courts, municipalities or counties, which are affiliated under or covered by the Educational Retirement Act, the Public Employees Retirement Act, Volunteer Firefighters Act, Judicial Retirement Act or the Magistrate Retirement Act.

Eligible retirees are:(1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the Retiree Health Care Act on the person's behalf unless that person retires the employee's NMRHCA effective date, in which event the time period for employee and employer contribution shall become the period of time between the employer's effective date and the date of retirement; or (2) retirees defined by the Act who retired prior to July 1, 1990, and former legislators who served at least two years.

Each participating employer makes contributions in the amount of 1.3 percent of each participating employee's annual salary. Each participating employee contributes to the fund an employee contribution in an amount equal to .65 percent of the employee's salary. Each participating retiree pays a monthly premium for medical plus basic life plan and an additional participant retired prior to the employer's NMRHCA effective date or is a former legislator. Participants may also enroll in optional plans of coverage.

Contributions from participating employers and employees become the property of the Retiree Health Care Fund and are not refundable under any circumstances, including termination of employment or termination of the participating employer's operation or participation in the Retiree Health Care Act.

The Retiree Health Care Authority issues a separate, publicly available audited financial report that includes post employment benefit expenditures of premiums and claims paid, participant contributions (employer, employee, and retiree), and net expenditures for the fiscal year. The report also includes the approximate number of retirees participating in the plan. The report may be obtained by writing to the Retiree Health Care Authority, Albuquerque State Government Center, 401 Roma, NW, Suite 200, Albuquerque, NM 87012.

10. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts, theft, damage or destruction of assets, error and omissions, injuries to employees, and natural disasters. During the fiscal year June 30, 2006, the Village carried insurance with the New Mexico Self-Insurer's Fund for a shared premium cost. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage in any of the past three fiscal years. The Village's policy is not an assessable policy; therefore the only risk is for the premium paid.

11. SURETY COVERAGE

The officials and certain employees of the Village are covered by a surety bond as required by Section 12-6-7 NMNSA 1978 Compilation and the New Mexico State Auditor Rule NMAC 2.2.

12. BUDGETARY CONTROL

New Mexico state statutes restricts all officials and governing authorities from approving claims in excess of the approved budget. The Village exceeds its budget by \$157,830 as follows:

	<u>Budgeted</u> <u>Expenditures</u>		<u>Actual</u> <u>Expenditures</u>		<u>Excess</u> <u>Expenditures</u>
General Fund	\$ 191,691	\$	236,526	\$	(44,835)
Municipal Street Fund	-		24,915		(24,915)
Recreation Fund	1,600		9,576		(7,976)
EMS	132,200		184,304		(52,104)

13. SUBSEQUENT EVENT

On September 21, 2005, the Village authorized the issuance of 2006 Series in the amount of \$50,000 maturing February 1, 2011 with an interest rate of 4.125%. The purpose of the bond is to acquire an emergency services vehicle for the use by the Village.

VILLAGE OF ROY, NEW MEXICO

Description of Non-Major Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. The special revenue funds are as follows:

Emergency Medical Service Fund (EMS)

To account for the operations of emergency services. Financing is provided from the State of New Mexico Health and Environment Department Emergency Services Bureau. (Authority: NMSA 24-10A-1 through NMSA 24-10A-10).

Law Enforcement Protection

To account for funds received from the State of New Mexico for law enforcement purposes. (Authority: NMSA 29-13-3).

Recreation Fund

To account for operations of the parks and other recreation type activities. A cigarette tax and miscellaneous revenue provide financing. State Statute 7-12-1 and 7-12-15 NMSA 1978 Compilation.

Cemetery Fund

To account for the operations and maintenance of the cemetery. Financing is primarily from the sale of burial lots. (Authority: NMSA 3-10-1 & village ordinance).

Reserve Bond

The Village clerk could not provide us a description of the fund. she says the fund has not been used since she has worked for the Village over the last three years.

Fire Department Bldg. Special

It is a fund set up by the community and is used for the ambulance crew when they have to go out on an emergency. The crew accepts donations and the monies received are placed into this fund specifically for emergency medical services.

Municipal Street

To account for the one-cent gasoline tax being allocated to the Village for the explicit purpose of street repair. The authority for the allocation and setup of the fund is 7-1-6-27, NMSA, 1978 Compilation, 1989 supplement.

COMPLIANCE SECTION

**Report on Internal Control Over Financial Reporting and on Compliance and
Other Matters Based on an Audit of Financial Statements Performed in Accordance
With Government Auditing Standards**

Hector H. Balderas, State Auditor
and the Mayor and Village Council of the
Village of Roy, New Mexico

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, the budgetary comparisons of the general fund and major special revenue funds, and the combining and individual funds and related budgetary comparisons presented as supplemental information of the Village of Roy (the "Village") as of and for the year ended 2006, and have issued our report thereon dated May 21, 2012 in which we disclaim our opinion on the financial statements. The limitation in the scope of our audit preclude the conduct of our audit in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Village's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the agency's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there are can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses. 03-01, 03-02, 03-05, 03-06, 03-05, 05-01, 05-02, 05-03, 05-04, 05-05, 05-06, 05-07, 05-08 and 05-09.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items 03-01, 03-02, 03-03, 03-04, 03-05, 05-01, 05-02, 05-03, 05-04, 05-05, 05-06, 05-07, 05-08 and 05-09.

We noted certain matters that are required to be reported under Government Auditing Standards January 2007 revision paragraphs 5.14 and 5.16, and Section 12-6-5, NMSA 1978, which are described in the accompanying schedule of findings and responses as items 03-03 and 03-06.

The Village's response to the findings identified in our audit described in the accompanying schedule of findings and responses. We did not audit the Village's response and, accordingly we express no opinion on it.

This report is intended solely for the information and use of the Village Council, the Village's management, the State Auditor, the New Mexico Legislature, the New Mexico Department of Finance Administration, and applicable federal grantors, and is not intended to be and should not be used by anyone other than these specified parties.

05-09	Lack of Current Minutes	Repeated

STATE OF NEW MEXICO
VILLAGE OF ROY

SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2006

No General Ledger (03-01)

CONDITION	The Village did not maintain a complete general ledger in FY 2006. The Village was not able to reconcile the monthly fund information provided to the State Department of Finance and Administration, Local Government Division to its general ledger.
CRITERIA	Generally Accepted Accounting Principles (GAAP) require that an organization maintain a general ledger with account control over all assets, liabilities, fund balances, revenues and expenditures.
CAUSE	The Village Clerk in FY 2006 did not utilize the accounting software provided.
EFFECT	The Village was unable to maintain account control over its assets, liabilities, fund balances, revenues or expenditures in FY 2006.
RECOMMENDATION	We recommend that the Village management require the maintenance of a complete general ledger which includes all the Village accounts and that monthly information provide to the State Department of Finance and Administration, Local Government Division reconcile to the general ledger.
RESPONSE	The Village of Roy has setup the QuickBooks program and has now been utilizing the software for the Village of Roy books.

Capital Assets not compliant with DFA and GASB 34 Requirements (03-02)

CONDITION	The Village is not compliant with the requirement of the New Mexico Administrative Code and GASB 34 paragraphs 18 through 22. For both the governmental funds and the enterprise funds, the Village provided a capital asset listing as of June 30, 2006 which included capital asset estimated acquisition costs but no documents to explain how the cost was developed. Also depreciation was estimated without regard to capital assets acquisition dates and useful lives and FY 2005 depreciation was not provided. The Village also did not provide a listing of assets acquired or deleted during the fiscal year.
CRITERIA	New Mexico Administrative Code 2.20.1.8 states that "Agencies should implement systematic and well documented methods for accounting for their fixed assets." To be compliant with GASB 34, capital assets must reconcile to its financial statement balances, must be presented net of accumulated depreciation expense, accumulated and current year depreciation must be identified by each major class of assets and current year depreciation expenses must be recognized as an expense in the statement of activities. As a phase 3 entity, the Village must also include as capital assets infrastructure acquired after July 1, 2003.

CAUSE	The Village took a capital asset inventory but did not have historical records to determine asset acquisition dates, costs and useful lives. Capital asset depreciation and values were based on unsupported estimates.
EFFECT	Failure to maintain and update the capital asset records results in understated/or overstated capital assets in financial statement and no internal control over the capital assets owned by the Village. The Village is not compliant with the requirements of GASB 34.
RECOMMENDATION	To maintain adequate internal control over its capital assets and to be compliant with the requirements of DFA and GASB 34, the Village needs to reconcile its capital assets inventory list to its financial statement amount, compute depreciation for FY 2006 and cumulative depreciation by each major class of asset, capitalize infrastructure acquired after July 1, 2003 and maintain accurate capital asset records.
RESPONSE	All capital assets inventory was lost during the former office administration. The Village is currently working to update and maintain this list.

Audit Report Filed Late (03-03)

CONDITION	The Village's audit report was filed late. The Village of Roy Audit Report was submitted to the State Auditor's Office in January 2012.
CRITERIA	According to the Office of The State Auditor Rule 2.2.2., Audit reports for municipalities were due December 1, 2006.
CAUSE	The auditors lost staff due to attrition, and the Village encountered problems with the GASB 34 reporting requirements and the Village delayed providing documents needed to complete the audit.
EFFECT	The report was not filed in compliance with the State of New Mexico Audit Act.
RECOMMENDATION	The Village of Roy should require its auditors to finish the audits and file the audit reports in a timely manner. The Village should also have for the audit entrance conference its financial statements and reports provided to the DFA reconciled to its accounting.
RESPONSE	The Village of Roy has requested that the audit reports be submitted timely, however due to incidents with both the Village and the auditor this finding was repeated for this year.

Employee Form I-9s Missing (03-04)

CONDITION	Three out of six employees tested did not have the required I-9 form present in their personnel files.
CRITERIA	The U.S. Department of Justice, Immigration and Naturalization Service requires all employers to complete an I-9 form for each employee hired.
CAUSE	Management has not required a completed Form I-9 for each employee hired by the Village.

EFFECT The Village is not in compliance with U. S. immigration law.

RECOMMENDATION We recommend that the Village require all personnel to have a completed 1-9 form in their personnel files.

RESPONSE The new Village management is in the process of implementing procedures to correct this finding.

Employee Pay Rate Documentation Missing (03-05)

CONDITION Three out of six employees tested did not have documentation of their authorized pay rates present in their personnel files.

CRITERIA Employers must document the authorized pay rates for each employee.

CAUSE Management has not required documentation of the authorized pay rates.

EFFECT Employee pay rates could be questioned, and the Village would be vulnerable.

RECOMMENDATION We recommend that the Village document the Board authorized pay rate for all employees, and that any future changes in pay rates be documented and approved. There should also be some indication that the employee agrees to his or her pay rate.

RESPONSE The new Village management is in the process of implementing procedures to correct this finding.

Expenses in Excess of Budget (03-06)

CONDITION Section 6-6-6 of the New Mexico state statutes restricts all officials and governing authorities from approving claims in excess of the approved budget. Additionally, Section 6-6-6 prohibits any payments in excess of the approved budget. During the fiscal year ended June 30, 2006, the Village remitted payments for goods and services in excess of the adopted budget as follows:

	Budgeted Expenditures	Actual Expenditures	Excess Expenditures
General Fund	\$ 191,691	\$ 236,526	\$ (44,835)
Municipal Street Fund	-	24,915	(24,915)
Recreation Fund	1,600	9,576	(7,976)
EMS	132,200	184,304	(52,104)

CRITERIA New Mexico State Statutes Section 6-6-6 states that all approved budgets shall bind all officials and governing authorities and no official can pay an claims in excess of the approved budget. County Officials and governing authorities have the obligation to follow applicable state statutes.

CAUSE	The Village did not have controls in place to ensure that it is not expending funds in excess of approved budget amounts.
EFFECT	Non-compliance with New Mexico state statutes subjects Village officials and personnel to punishment as defined by state statutes.
RECOMMENDATION	Accounting personnel should closely monitor expenditures and budget restrictions, if a change is needed to the budget, accounting personnel should ensure that such changes are presented to the Villages Board of Trustees's and the New Mexico Department of Finance and Administration (DFA). If no changes in the budget are deemed necessary, then no payments should be remitted that would cause the total expenditures to exceed the legal budget.
RESPONSE	Schedules will be completed to indicate variances between the Budget and actual amounts. These spreadsheet schedules will ensure that the Villages's actual line item revenues and/or expenditures do not supersede budgetary authority. The Finance Department will be responsible for overseeing and notifying the Village which exceed budgetary authority; so that the proper budget resolution and revision can be submitted to Village Council and DFA for approval prior to year-end.

Accounting for Grants (05-01)

CONDITION	There was no system in place to record revenues and expenses accrued and to agree the amounts submitted for grant reimbursement to the amounts recorded in the cash basis general ledger listing. The Village was receiving funding from granting agencies but not preparing reports to reconcile the data to the general ledger.
CRITERIA	Generally accepted accounting principles for reimbursable type grants require that revenues equal expenses for each accounting period. This is achieved through the recording of grant receivables or deferred revenue, as appropriate.
CAUSE	The Village does not have a procedure in place to reconcile expenditures charged to the grants to the general ledger.
EFFECT	Without a system in place to agree reimbursement requests to the general ledger, the Village's accounting records will not reflect an accurate presentation of grant funds received and spent. In addition, errors in accounting for grants may remain undetected and the reports submitted to granting agencies may not be correct or agree to the Village's general ledger transaction listing report.
RECOMMENDATION	Grant reimbursement requests should be agreed to and reconciled to the general ledger transactions listing, prior to submission, and supervisory review should be used to ensure that grants accounted for are recorded properly. Also, the records should show amounts owed by the granting agencies and amounts owed to vendors and contractors. If the grant is received in advance, the Village should record the amount received as deferred revenue. Reconciliations to the general should be prepared at least monthly to ensure proper recording of transactions.

RESPONSE

City Management and the Finance Department concur with the finding. The Village will utilize a spreadsheet to keep track of all revenues and expenditures by grant source.

Lack of Separation of Duties (05-02)

CONDITION	The same person who records cash receipts, also reconciles the general ledger for all bank accounts, prepares certain deposit slips, transfers funds between accounts, prepares journal entries to correct errors in posting of all transactions and posts the budget on the system. There are no controls in place to ensure separation of duties among employees.
CRITERIA	A strong system of controls required separation between custody of assets, recording of transactions and authorization of transactions. If a small number of employees does not allow for proper separation of duties, supervisory review can be used to compensate for the lack of separation of duties.
CAUSE	Separation of duties over cash receipts and disbursements is difficult to achieve in a small office environment.
EFFECT	Theft or defalcation could occur and remain undetected when proper controls are not in place over cash receipts and disbursements.
RECOMMENDATION	<p>Although the Village's office staff is small, steps could be taken to separate incompatible duties. The basic premise is that no one employee should have access to both physical assets and the related accounting records or to all phases of a transaction.</p> <p>Internal control is most effective when the bank reconciliation is prepared by someone not responsible for entries in the cash receipt. The person that posts and generates payroll checks should not be the same person that adds new employees to the system and the same person that reconciles payroll cash transactions. Also, the person that posts and reconciles transactions should not be the same person that corrects his or her own errors. Because this difficult to implement with an accounting department of just a few individuals, all of whom are involved in day-to-day record keeping, test reconciliation's should be made periodically by management, who, in addition, should review and approve, in writing, all reconciliation's which he or she does not prepare personally.</p>
RESPONSE	The Village concurs with the finding. Village Management is aware that the fundamental element of internal control is the separation of duties so that an individual cannot perpetuate and conceal errors and irregularities in the normal course of his/her duties. The Village will utilize the Village Council as the main supervisory control.

Accounts Payable (05-03)

CONDITION	An aging of accounts payable is not being prepared periodically. The Village was unable to provide the auditors any type of aging due to the loss of the accounting software. The accounting department does not maintain a list of invoices outstanding by vendor nor does it reconcile the list with vendor statements periodically. The Village does not record payable in any type of subsidiary ledger that would flow to a general ledger.
CRITERIA	There were no procedures in place to ensure the recording of the payables in a separate subsidiary ledger.

CAUSE	Payables are difficult to record when the Village maintains a cash basis in Quickbooks.
EFFECT	The Village is relying on third party statements to determine the balance of some major payables. Consequently, the Village is unable to readily identify outstanding invoices and accounts payable information, unable to prevent incorrect charges on timely basis, and unable to provide management with accurate interim reports and cash flow analysis.
RECOMMENDATION	The Village should establish a separate subsidiary ledger and record all approved invoices from vendors as they are received. Balances should be analyzed on a monthly basis with all reconciling items noted and discrepancies resolved with the vendors. Timely analysis can help prevent incorrect charges, and should result in more accurate interim reports and cash flow analysis for management's use.
RESPONSE	The new Village management is in the process of implementing procedures to correct this finding.

Compensated Absences (05-04)

CONDITION	Detail was not provided for test work of compensated absences (sick and annual leave) as of June 30, 2006.
CRITERIA	According to NMAC 6.20.2.18, the local board shall establish written payroll policies and procedures which comply with state and federal regulations on payroll as well as maintaining strict internal controls, close supervision and financial accounting in accordance with GAAP.
CAUSE	General ledger detail was loss due to failure of the accounting software (03-01).
EFFECT	Employees of the Village could be credited with too little or too much leave according to what they're entitled to based on the Village's personnel policies and procedures. Also, employee may be unaware of the number of days' leave they actually have accrued.
RECOMMENDATION	The Village should recalculate compensated absences for all employees as soon as possible.
RESPONSE	The new Village management concurs with the finding. The Village has developed a system for backing up accounting data. Multiple backs ups are being implemented in the event of a failure. The Village has recalculated compensated absences for all employees.

Prior Year Adjustments (05-05)

CONDITION	The Village did not record the auditing adjusting entries from 2005, causing fund balance and net assets accounts to be misstated.
CRITERIA	The Governmental Accounting Standards Board, Codification of Governmental Accounting and Financial Reporting Standards (GASB), Section 1100 requires governments to prepare financial statements on the modified accrual basis for governmental type funds and full accrual basis for enterprise type funds.
CAUSE	The Village did not record 2005 audit adjustments entries.
EFFECT	Significant audit adjustments were required in 2005 to reconcile beginning fund balance and net assets to the 2005 ending balances.
RECOMMENDATION	The Village must implement a control system in accordance with NMAC 6.20.2.22 C in order to post all prior year adjustments.
RESPONSE	The new Village management concurs with the finding. The Village has implemented a control system to post any prior year adjustments.

Tracking of Federal and State Awards (05-06)

CONDITION	While performing the audit and reviewing the grant activity for the year ended June 30, 2006, it was observed that the Village does not track its grants accurately, nor distinguish those awards that were federally funded and those that were state funded.
CRITERIA	OMB Circular A-133 Subpart C states: The auditee shall: (a) Identify, in its accounts, all Federal awards received and expended and the Federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the Federal agency, and name of the pass-through entity. (b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs.
CAUSE	The process for capturing federal awards and contributed federal funds has gradually relaxed over time and it is no longer fully effective.

EFFECT Village personnel could unknowingly not be following the compliance requirements on state or federal money received due to misidentifying the source of the funds.

The potential exists for federal awards to escape inclusion in the Single Audit procedures. This Village runs the risk of being out of compliance with OMB Circular A-133 Subpart C.

RECOMMENDATION The process for tracking federal grants should be improved to ensure the source funds for all grants are properly identified and recorded as such. This should include the CFDA number when applicable. As new grants are obtained, a determination should be made at the inception of the grant to determine its source.

It is recommended that a process be put in place to require all departments that receive contributed property be required to notify the finance department of the acquisition at the time of the contribution so it can be properly recorded in the accounting system and recorded on the schedule of federal awards, if applicable.

RESPONSE The new Village management concurs with the finding. The new Village clerk will enable the Village to properly record transactions and generate financial records to provide management with the necessary tools to make timely decisions and comply with any reporting compliance requirements.

Accounts Receivable (05-07)

CONDITION An aging of accounts receivable is not being prepared periodically. Accounts receivable are not aged by days or months outstanding. The accounting department does not maintain a list of deposits outstanding by grantor/public nor does it reconcile the list with depositor's statements periodically. The Village does not record receivables in any type of subsidiary ledger that would flow to a general ledger.

CRITERIA To ensure accuracy and reliability of the Village's records, expected deposits should be recorded as receivables in a separate subsidiary ledger when received and reconciled with the grantor's/public's statements periodically.

CAUSE There were no procedures in place to ensure the recording of the receivables in a separate subsidiary ledger.

EFFECT The Village is unable to readily identify outstanding deposits and accounts receivable information, unable to record revenue in the correct period, due to receivables not being recorded, and unable to provide management with accurate interim reports and cash flow analysis.

RECOMMENDATION The Village should establish a separate subsidiary ledger and record all expected deposits that are received. Balances should be analyzed on a monthly basis with all reconciling items noted and discrepancies resolved. Timely analysis should result in more accurate interim reports and cash flow analysis for management's use.

RESPONSE The new Village management concurs with the finding. Due to the system failure and lost data, the Village was unable to readily identify outstanding deposits and accounts receivable information as well as unable to record revenue in the correct period, separate subsidiary ledger and record all expected deposits that are received.

Lack of supporting documentation (05-08)

CONDITION During test work of the Village expenses, it was noted that supporting documentation for four of the twenty five sampled selections were unable to be provided by the Village personnel. The total amount of the expenses totaled \$42,373.

CRITERIA The Codification of Statements on Auditing Standards (SAS AU) paragraph 110.03 states that the financial statements are management's responsibility. Management is responsible for adopting sound accounting policies, and for establishing and maintaining internal control that will, among other things, initiate, authorize, record, process, and report transactions (as well as events and conditions) consistent with management's assertions embodied in the financial statements.

The SAS No. 115 Appendix lists the following circumstances as possible control deficiency, significant deficiency, or material weakness, "inadequate documentation of the components of internal control." SAS 115 paragraph 15 states that ineffective oversight of the agency's financial reporting and internal control by those charged with governance.

CAUSE Inadequate accounting system and employees lack of proper training and supervision.

EFFECT The Village does not have proper records to determine if they are properly recording expenses.

RECOMMENDATION The Village should retain supporting documentation for all Expenses.

RESPONSE The new City management concurs with the finding. A new Village Clerk has been hired and will make sure that all supporting information is available in the future.

Lack of Current Minutes (05-9)

CONDITION	During the testwork, it was noted that the most current minutes provided by the Village were for fiscal year 2007.
CRITERIA	"SAS 150 9a-b states: ""The procedures to identify relevant events that may require adjustment of, or disclosure in, the financial statements would be performed as near as practicable to the date of the auditors' report and ordinarily include the following: a. reviewing procedures which management has established to ensure that relevant events are identified; b. reading minutes of the meetings of shareholders, the board of directors and audit and executive committees held after the period end and enquiring about matters discussed at meetings for which minutes are not yet available;"
CAUSE	Lack of minutes due to large turnover and no standard policy to implement storage of documents.
EFFECT	The Village does not have all minutes available to verify that policies and procedures as well as grants, expenses, reimbursements, subsequent events, and other such important information is being reported and followed.
RECOMMENDATION	The Village should retain minutes of the board for every fiscal year. They should be scanned and kept in a safe electronic format for minutes older than five years.
RESPONSE	The new Village management is in the process of implementing procedures to correct this finding.

**STATE OF NEW MEXICO
VILLAGE OF ROY**

**FINANCIAL STATEMENT PREPARATION
FOR THE YEAR ENDED JUNE 30, 2006**

The financial statements of the Village of Roy as of, and for the year ended, June 30, 2006 were prepared by White + Samaniego + Campbell, LLP, with the aid of responsible Village personnel. Official responsible personnel agree that the presentations are made with their knowledge and agreement.
