#### INDEPENDENT AUDITORS' REPORT

Hector Balderas
New Mexico State Auditor
The United States Office of Management and Budget and
The Town Council
Town of Taos
Taos, New Mexico

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the budgetary comparison for the general fund and the aggregate remaining fund information of the Town of Taos New Mexico ("the Town"), as of and for the year ended June 30, 2010, which collectively comprise the Town's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the Town's nonmajor governmental funds and the budgetary comparisons of the proprietary funds, the capital projects fund and the remaining nonmajor governmental funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2010 as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Taos, New Mexico, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental fund of the Town as of June 30, 2010, and the respective changes in financial position thereof, and the budgetary comparisons for the proprietary funds, the capital projects fund and the remaining nonmajor governmental funds presented as supplementary information for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 22, 2010 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 12 through 19 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of State, Local Governments, and Non-Profit Organizations,* and is not a required part of the basic financial statements. The accompanying financial information listed as supporting Schedules I through IV in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and the combining and individual fund statements and budgetary comparisons listed above and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements, and the combining and individual fund statements and budgetary comparisons taken as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

Town of Taos Management's Discussion and Analysis June 30, 2010

As management of the Town of Taos, we offer readers of the Town of Taos financial statements, this narrative overview and analysis of the financial activities of the Town of Taos for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with the financial statements of the Town of Taos and additional information provided.

#### FINANCIAL HIGHLIGHTS

- The assets of the Town of Taos exceeded its liabilities at the close of the most recent fiscal year by \$74,248,827 (*net assets*). Of this amount, \$6,616,350(*unrestricted net assets*) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net assets increased by \$2,066,257 during the fiscal year. The majority of this increase is due to additional capital assets (Pediatric Clinic) and revenue from loan proceeds for our Eco Park project for the year ended June 30, 2010.
- As of June 30, 2010, the Town's governmental funds reported combined ending net assets balances of \$52,711,914. Of this total, \$5,920,741 is designated for debt service and capital projects.
- At the close of the current fiscal year, unreserved, undesignated fund balance for the general fund was \$2,759,174, or 40 percent of total general fund expenditures.
- The Town of Taos' total debt increased by \$3,077,985 during the current fiscal year. The key factor in this increase was the loan proceeds of \$3,112,408 in the Town's governmental activities and also loan proceeds of \$2,213,469 in governmental activities and \$1,730,000 in business-type activities. Also during the year \$968,695 was paid on the principal of the various government loans, bonds, compensated absences and contracts payable.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Town of Taos' basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the Town of Taos' finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the Town of Taos' assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether or not the financial position of the Town of Taos is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused personal leave).

Both of the government-wide financial statements distinguish functions of the Town of Taos that are principally supported in a majority by taxes and a minimal amount from other miscellaneous receipts (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town of Taos include general government, public safety, public works, culture and recreation, and health and welfare. The business-type activities of the Town include joint Water and Sewer Services, Solid Waste Services, and the Taos Regional Landfill.

The government-wide financial statements can be found in Exhibits A-1 and A-2 of this report.

Town of Taos Management's Discussion and Analysis June 30, 2010

**Fund financial statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Taos, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Taos can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on daily inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in determining what financial resources are available in the near future to finance the Town's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town of Taos maintains twenty-nine individual governmental funds organized according to their type (special revenue, debt service and capital projects). Information is presented separately in the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances for the General Fund and Capital Projects, which are considered major funds. Data from the other twenty-seven governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The Town of Taos adopts an annual appropriated budget for its general fund, capital equipment replacement special revenue fund, fire, police, CRT, and Town hall capital projects fund, and all other funds. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. In addition, the individual financial statements of the nonmajor governmental fund types include budgetary comparison data.

The basic governmental fund financial statements can be found in Exhibits B-1 through C-1 of this report.

**Proprietary funds.** Proprietary funds are generally used to account for services for which the Town charges customers – either outside customers or internal units or departments of the Town. Proprietary funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The Town maintains one type of proprietary fund:

*Enterprise funds.* Are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for the joint water and sewer services, solid waste and regional landfill operations for the Town. The enterprise funds are considered to be major funds of the Town and can be found in Exhibits D-1 through D-3 of this report.

*Fiduciary funds.* Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the Town of Taos' own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The Town of Taos fiduciary funds account for the collection of street cut permits and deposits for reaction events. The basic fiduciary fund financial statement can be found in Exhibit E-1 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 40-65 of this report.

Town of Taos Management's Discussion and Analysis June 30, 2010

**Combining statements.** The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the financial statements. Combining and individual fund statements and schedules can be found on pages 68-83 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### **Analysis of Net Assets**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Town of Taos, assets exceeded liabilities by \$74,248,827 at the close of the current fiscal year.

The significant portion of the Town of Taos' net assets represents the Town's investment of \$60,270,380 in capital assets (e.g., land improvements, buildings, infrastructure and machinery & equipment), less any related outstanding debt used to acquire those assets. The Town of Taos uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town of Taos' investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the Town of Taos' governmental net assets (8 percent) represents resources that are subject to restrictions. The restrictions relate to covenants provided by the Town's long-term debt issuance and capital projects. The remaining balance of *unrestricted net assets*, \$2,342,298 may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town of Taos is able to report positive balances in all three categories of net assets, for the government as a whole as well as for the business-type activities, as a whole.

Town of Taos Management's Discussion and Analysis June 30, 2010

#### **Analysis of Changes in Net Assets**

The Town's net assets increased by \$2,066,257 during the current fiscal year. These increases are explained in the government and business-type activities discussion below, and are primarily a result of increased revenues from gross receipts taxes and capital grants while reducing the Town's expenditures during the fiscal year.

**Governmental activities.** Governmental activities increased the Town of Taos' net assets by \$1,467,412. The key elements of this increase are as follows:

- Tax revenues account for \$13,242,699 or 70 percent of governmental revenues. Tax revenues are made up of property, gross receipts, gasoline and motor vehicle and other taxes.
- The General fund received the majority of the Town's program revenue, accounting for \$5,537,762 or 29 percent of total governmental revenues. The primary recipients of these revenues are general government and public safety.
- The Town's direct charges to users of governmental services made up \$1,091,166 or 7 percent of total governmental revenues. These charges are for fees, fines and forfeitures, and licenses and permits.

Town of Taos Management's Discussion and Analysis June 30, 2010

• The increase in revenues is because of operating and capital grants increasing and fair economic conditions within the Town, which have increased gross receipts slightly. Also, other taxes such as property and gas taxes have increased from the prior year.

**Business-type activities.** Business-type activities increased the Town's net assets by \$598,845. The Town received the capital grants this year and due to a drop in expenditures and increased gross receipts taxes, along with capital and operating grants, the Town generated excess revenue over expenditures.

#### FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

As noted earlier, the Town of Taos uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Town of Taos' governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town of Taos' financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of Governmental funds reported by the Town include the General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds.

Revenues for governmental functions overall totaled approximately \$18,837,307 in the fiscal year ended June 30, 2010, which represents an increase of \$1,864,104 from the fiscal year ended June 30, 2009. This is largely due to the increase in federal and state operating and capital grants. Expenditures for governmental functions, totaling \$17,369,895, decreased by approximately \$545,322 from the fiscal year ended June 30, 2009. This is largely due to the completion of a \$6,000,000 Town Hall project in fiscal year 2009. In the fiscal year ended June 30, 2010, expenditures for governmental functions exceeded revenues by approximately \$1,467,412.

The General Fund is the chief operating fund of the Town of Taos. At the end of the current fiscal year, *unreserved* fund balance of the general fund was also the total fund balance of \$2,759,174.

The fund balance of the Town of Taos' general fund increased by \$655,314 during the current fiscal year, due to an increase in revenue and a decrease in expenditures. Overall, the general fund's performance resulted in revenues over expenditures in the fiscal year ended June 30, 2010 of \$655,314, an increase of \$934,753 over the comparable figure from the prior year of \$(279,439).

**Proprietary Funds.** The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of the fiscal year, the unrestricted net assets for enterprise funds were \$4,433,052. The total increase in net assets for the enterprise funds was \$598,845. Factors concerning the finances of this fund have been addressed previously in the discussion of the Town's business-type activities.

*Fiduciary Funds.* The Town maintains fiduciary funds for the assets associated with bid bonds, street cuts permits and recreation deposits. Changes to the fiduciary funds were immaterial for the fiscal year.

#### **General Fund Budgetary Highlights**

Town budgets reflect the same pattern as seen in the revenue and expenditures of the Town. The State of New Mexico budget process is defined under state law and regulation. To enhance the process of developing a budget at the Town level, Taos utilizes goals and objectives defined by the Town Council, community input meetings, long term plans and input from various staff groups to develop the Town budget. Town priorities are well defined through this process.

GASB Statement No. 34 does not require a statement presenting the overall result of the budget for each year; however, all major budgetary funds are required to be reported as a separate statement.

The following table examines the summary budget performance of the general fund for the fiscal year ending June 30, 2010. Detailed budget performance is examined through the Statement of Revenues, Expenditures, and Changes in Fund Balance for the

general fund found at Exhibit C-1. The Town's final budget differs from the original budget due to budget increases and decreases that were made during the fiscal year and expenditures not needed. Actual general fund expenditures were \$396,478 less than the final budget amount (favorable variance). This was primarily to general governmental favorable variance of \$233,818. The difference between actual expenditures and budgeted expenditures is due to various expenditures that were expected to occur during the year ended June 30, 2010, but savings from personnel vacancies and cost saving measures caused this favorable variance.

#### **Capital Asset and Debt Administration**

**Capital assets.** The Town of Taos' capital assets for its governmental and business-type activities as of June 30, 2010 amount to \$75,508,866 (net of accumulated depreciation). Capital assets include land, land improvements, buildings and improvements, furniture, fixtures and equipment, and infrastructure. The total in the Town's capital assets for the current fiscal year was an increase of \$1,530,338 for governmental activities and an increase of \$1,971,140 for business-type activities.

The significant additions to capital assets during the year were as follows:

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ending June 30, 2010

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds

1,574,630

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

| Capital expenditures recorded in capital outlay | 5,307,452   |
|---|-------------|
| Depreciation expense                            | (3,777,021) |
| Loss on disposal of capital assets              | (93)        |

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenue in the funds:

Decrease in deferred revenue related to property taxes receivable

(31,248)

The issuance of long-term debt (e.g. bonds, loans, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities:

| Amortization of bond issuance costs      | (11,268)    |
|--|-------------|
| Increase in accrued interest             | (10,120)    |
| Decrease in accrued compensated absences | 34,814      |
| Amortization of bond premiums            | 3,864       |
| Proceeds from issuance of bonds          | (2,213,469) |
| Bond issuance costs                      | 32,712      |
| Principal payments on bonds payable      | 400,000     |
| Principal payments on loans payable      | 139,159     |
| Payments on contracts payable            | 18,000      |
|  |             |

Change in net assets of governmental activities \$ 1,467,412

Town of Taos
Notes to the Financial Statements

## NOTE 1. Summary of Significant Accounting Policies

The Town of Taos (Town) was incorporated in 1934. The Town operates under a Council-Mayor form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, public utilities (water, wastewater, and solid waste), health and social services, culture-recreation, education, public improvements, planning and zoning, and general administrative services.

The Town of Taos is a body politic and corporate under the name and form of government selected by its qualified electors. The Town may:

- 1. Sue or be sued:
- 2. Enter into contracts and leases;
- 3. Acquire and hold property, both real and personal;
- 4. Have common seal, which may be altered at pleasure;
- 5. Exercise such other privileges that are incident to corporations of like character or degree that are not inconsistent with the laws of New Mexico;
- 6. Protect generally the property of its municipality and its inhabitants;
- 7. Preserve peace and order within the municipality; and
- 8. Establish rates for services provided by municipal utilities and revenue-producing projects, including amounts which the governing body determines to be reasonable in the operation of similar facilities.

This summary of significant accounting policies of the Town is presented to assist in the understanding of Town's financial statements. The financial statements and notes are the representation of Town's management who is responsible for their integrity and objectivity.

The financial statements of the Town have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The government-wide and the proprietary funds financial statements have incorporated all applicable GASB pronouncements as well as Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins of the Committee on Accounting Procedures issued after November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Governments also have the option of following subsequent private sector guidance for their government-wide financial statements and enterprise funds, subject to the same limitation. The Town has elected not to follow the subsequent private sector guidance. The more significant of the Town 's accounting policies are described below.

## A. Financial Reporting Entity

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

In evaluating how to define the Town for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statement No.'s 14 and 39. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

## NOTE 1. Summary of Significant Accounting Policies (continued)

## A. Financial Reporting Entity (continued)

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity. Based upon the application of these criteria, the Town does not have any component units required to be reported under GASB Statements No. 14 and No. 39.

## B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Net Assets and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Non-exchange Transactions.

In the government-wide Statement of Net Assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

## NOTE 1. Summary of Significant Accounting Policies (continued)

## B. Government-wide and fund financial statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, net of estimated refunds, are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, subject to the availability criterion. Sales and use taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place and the revenues are measurable and available. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met, subject to the availability criterion. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

## NOTE 1. Summary of Significant Accounting Policies (continued)

## C. Measurement focus, basis of accounting, and financial statement presentation (continued)

The Town reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Capital Projects Fund* was created to accumulate revenue and other financing sources for the purpose of financing general-purpose capital projects.

The Town reports its proprietary funds as major funds. Proprietary funds include:

The *Water and Sewer Fund* is used to account for the activities of the Town's water and sewer operations.

The *Solid Waste Fund* accounts for the provision of solid waste services to the residents of the Town and some residents of the County. All activities necessary to provide such services are accounted for in this fund, including, but not limited to administration, operations, maintenance, financing and related debt service, and billing and collection.

The *Taos Regional Landfill Fund* is used to account for the activities of the Taos Regional Landfill including debt repayments, closure and post-closure care estimates as well as operations and administration.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported in the Statement of Activities.

Program revenues included in the Statement of Activities are derived directly from the program itself or from parties outside the Town's taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the Town's general revenues. Program revenues are categorized as (a) charges for services, which include revenues collected for fees and use of Town facilities, etc., (b) program-specific operating grants, which includes revenues received from state and federal sources such as small cities assistance to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues from state sources to be used for capital projects. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

The Town reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. The Town does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenue of the Town's enterprise fund is charges for services for the Town's utilities. Operating expenses for enterprise funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

## NOTE 1. Summary of Significant Accounting Policies (continued)

## C. Measurement focus, basis of accounting, and financial statement presentation (continued)

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

## D. Assets, Liabilities and Net Assets or Equity

**Deposits and Investments**: The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Town to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Investment Pool.

Investments for the Town are reported at fair value. The State Treasurer's Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

Receivables and Payables: Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources in the event they are not received within 60 days of year end.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded when levied. Property taxes are considered to be 100% collectible.

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. Property taxes uncollected after November 10<sup>th</sup> and April 10<sup>th</sup> are considered delinquent and the Town may assess penalties and interest. The taxes attach as an enforceable lien on property thirty (30) days thereafter, at which time they become delinquent. Property taxes are collected by Taos County and remitted monthly to the Town.

**Restricted Assets:** Restricted assets consist of those funds expendable for operating purposes but restricted by donors or other outside agencies as to the specific purpose for which they may be used.

Capital Assets: Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets, (retroactive to 1979) are included as part of the governmental capital assets reported in the government wide statements. Information

## NOTE 1. Summary of Significant Accounting Policies (continued)

## D. Assets, Liabilities and Net Assets or Equity (continued)

Technology Equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Library books and periodicals are estimated to have a useful life of less than one year or are under the capitalization threshold and are expensed when purchased.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The total interest expense capitalized by the Town during the current fiscal year was \$0. No interest was included as part of the cost of capital assets under construction.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

| <u>Assets</u>              | <u>Years</u> |
|----------------------------|--------------|
| Land Improvements          | 20           |
| Buildings and improvements | 10-50        |
| Machinery and equipment    | 5-25         |
| Infrastructure             | 10-50        |

**Deferred Revenues**: Accounting principles generally accepted in the United States of America require that grant revenue (voluntary nonexchange transactions) be recognized as revenue in the government-wide financial statements when all eligibility requirements have been met and recognized as revenue in the governmental fund financial statements based on the same factors subject to the availability criterion. Amounts received from reimbursement basis grants are recorded as deferred revenue in the governmental fund financial statements when received more than 60 days after year end.

**Compensated Absences:** The Town's employees earn personal leave at a rate of 22 to 27 days per year based on years of service. Employees can carry over unused personal leave each year with a cap of 500 hours. On an appointed day each year employees may sell back unused personal leave based on the following: 200 to 299 hours -25% of hourly salary; 300 to 399 hours -50% of hourly salary; 400 to 499 -75% of hourly salary; 500 hours and above -100% of hourly salary.

Once the employee achieves the 500 hour cap, they can only sell back a total of 136 hours annually; the other 80 hours accrued annually must be used by December 31 or forfeited. At retirement or separation all leave may be sold back at 100% of hourly salary.

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental or proprietary fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net assets.

**Long-term Obligations**: In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized

## D. Assets, Liabilities and Net Assets or Equity (continued)

over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. For fund financial reporting, bond premiums and discounts, as well as issuance costs, are recognized in the period the bonds are issued. Bond proceeds are reported as another financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

**Net Assets or Fund Equity**: In the fund financial statements, governmental funds report reservations of fund balance that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt: Net assets invested in capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted Net Assets: Consist of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted Net assets: All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

**Interfund Transactions:** Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements are reported as transfers. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

**Estimates**: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates in the Town's financial statements include the allowance for uncollectible accounts in the joint utility fund and depreciation on capital assets.

**Reclassifications:** Certain amounts included in the financial statements have been reclassified to conform to the current year presentation.

## NOTE 2. Stewardship, Compliance and Accountability

**Budgetary Information** 

Annual budgets of the Town are prepared prior to June 1 and must be approved by resolution of the Town Commissioners, and submitted to the Department of Finance and Administration for State approval. Once the budget has been formally approved, any amendments must also be approved by the Town Council Members and the Department of Finance and Administration. A separate budget is prepared for each fund. Line items within each budget may be over-expended; however, it is not

legally permissible to over-expend any budget in total by fund.

Governmental fund budgets are prepared on the GAAP basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year.

Proprietary fund budgets are prepared on the cash basis. The Town does not budget for depreciation expense, only capital outlay.

The budgetary information presented in these financial statements has been properly amended by Town Council in accordance with the above procedures. These amendments resulted in the following changes:

The accompanying Statements of Revenues, Expenditures and Changes in Fund Balance – Budget (GAAP Basis) and Actual presents comparisons of the legally adopted budget with actual data on a budgetary basis.

## NOTE 3. Deposits and Investments

State statutes authorize the investment of Town funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government obligations. The Town is not aware of any invested funds that did not meet the State investment requirements as of June 30, 2010.

Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the Town. Deposits may be made to the extent that they are insured by an agency of the United States or collateralized as required by statute.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

According to the Federal Deposit Insurance Corporation (FDIC), public unit deposits are funds owned by the public unit. Time deposits, savings deposits and interest bearing negotiable order of withdrawal (NOW) accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution. However, on

## NOTE 3. Deposits and Investments (Continued)

October 14, 2008, the FDIC announced a new Transaction Account Guarantee (TAG) Program, that provides depositors with unlimited coverage through December 31, 2010 for insured depository institutions (IDIs) currently participating in the TAG program, with the possibility of an additional extension of up to 12 months

without additional rulemaking, upon a determination by the FDIC's Board of Directors that continuing economic difficulties warrant further extension. With regards to this Transaction Guarantee Program, noninterest-bearing checking accounts include Demand Deposit Accounts (DDA's) and any other transaction account that has unlimited withdrawals and that cannot earn interest. Also included in this program are low-interest NOW accounts that cannot earn more than 0.5% interest.

Custodial Credit Risk – Deposits Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town does not have a deposit policy for custodial credit risk, other than following state statutes as set forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). At June 30, 2010, \$116,000 of the Town's deposits of \$5,520,480 was exposed to custodial credit risk. \$116,000 was uninsured and collateralized by collateral held by the pledging bank's trust department, not in the Town's name and \$0 was uninsured and uncollateralized.

## NOTE 3. Deposits and Investments (continued)

#### **Investments**

The Town invests excess cash in the State Treasurer Local Government Investment Pool. The New Mexi*GROW* Local Government Investment Pool's (LGIP) investments are valued at fair value based on quoted market prices as of the valuation date. The LGIP is not SEC registered. The New Mexico State Treasurer is authorized to invest the short-term investment funds, with the advice and consent of the State Board of Finance, in accordance with Sections 6-10-10(I) through 6-10-10(P) and Sections 6-10-10.1(A) and (E), NMSA 1978. The pool does not have unit shares. Per Section 6-10-10.(F), NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the fund amounts were invested. Participation in the LGIP is voluntary.

As of June 30, 2010, the Town's investment in the State Treasurer Local Government Investment Pool was rated as AAAm by Standard & Poor's.

Additionally, the Town has investments held in U.S. Treasury Money Market Mutual Funds at the Bank of Albuquerque in connection with New Mexico Finance Authority (NMFA) loans. Also, the Town has investments which are managed by NMFA, on deposit with the State Treasurer's office, in NMFA's name for the benefit of the Town.

The Town's investments at June 30, 2010 include the following:

*Interest Rate Risk – Investments.* The Town does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

Concentration of Credit Risk – Investments. For an investment, concentration of credit risk is when any one issuer is 5% or more of the investment portfolio of the County. The investments in the New MexiGROW LGIP and U.S Treasury Money Market Mutual Funds represent 26% and 74%, respectively, of the investment portfolio. Since the County only purchases investments with the highest credit rating, the additional concentration is not viewed to be an additional risk by the County. The County's policy related to concentration credit risk is to comply with the state statute as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978).

## NOTE 8. Risk Management

The Town is exposed to various risks of loss related to torts, thefts of, damage to, and destruction of property, errors and omissions and natural disasters. The Town participates in the New Mexico Self-Insurers' Fund risk pool.

The Town has not filed any claims for which the settlement amount exceeded the insurance coverage during the past three years. However, should a claim be filed against the Town which exceeds the insurance coverage, the Town would be responsible for a loss in excess of the coverage amounts. As claims are filed, the New Mexico Self-Insurers' Fund assesses and estimates the potential for loss and handles all aspects of the claim. Insurance coverage's have not changed significantly from prior years and coverage's are expected to be continued.

At June 30, 2010, no unpaid claims have been filed which exceed the policy limits and to the best of management's knowledge and belief all known and unknown claims will be covered by insurance. No major lawsuits have been filed against the Town of Taos.

New Mexico Self-Insurers' Fund has not provided information on an entity by entity basis that would allow for a reconciliation of changes in the aggregate liabilities for claims for the current fiscal year and the prior fiscal year.

## NOTE 9. Other Required Individual Fund Disclosures

Generally accepted accounting principles require disclosures of certain information concerning individual funds including:

- A. Deficit fund balance of individual funds. There were no funds with a deficit fund balance as of June 30, 2010.
- **B.** Actual expenditures in excess of amount budgeted at the budgetary authority level. Budgetary level is fund level. There were no funds that exceeded approved budgetary authority for the year ended June 30, 2010:
- C. Designated cash appropriations in excess of available balances. There were no funds that had designated cash appropriations in excess of available balances for the year ended June 30, 2010.

#### NOTE 10. PERA Pension Plan

Plan Description. Substantially all of the Town of Taos's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978.) The Public Employee Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing, multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits, and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding Policy. Plan members are required to contribute the following percentages of their gross salary: 9.15% for law enforcement, fire protection and municipal employees. The Town is required to contribute the following percentages of the gross covered salary: 25.65% for law enforcement employees, 28.30% for fire protection employees, and 13.15% for municipal employees. The contribution requirements of plan members and the Town are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The Town 's contributions to PERA for the years ending June 30, 2010, 2009 and 2008 were \$1,050,500, \$964,168 and \$640,410, respectively, which equals the amount of the required contributions for each fiscal year.

## NOTE 11. Post-Employment Benefits – State Retiree Health Care Plan

Plan Description. Town of Taos contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. During the fiscal year ended June 30, 2010, the statute required each participating employer to contribute 1.3% of each participating employee's annual salary; each participating employee was required to contribute .65% of their salary. In the fiscal years ending June 30, 2011 through June 30, 2013 the contribution rates for employees and employers will rise as follows:

(1) For employees who are not members of an enhanced retirement plan the contribution rates will be:

| Fiscal Year | Employer Contribution Rate | Employee Contribution Rate |
|-------------|----------------------------|----------------------------|
| FY 11       | 1.666%                     | .833%                      |
| FY12        | 1.834%                     | .917%                      |
| FY 13       | 2.000%                     | 1.000%                     |

(2)

For employees who are members of an enhanced retirement (state police and adult correctional officer coverage plan 1; municipal police member coverage plans 3, 4, and 5; municipal fire member coverage plan 3, 4 and 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act [10-12B-1 NMSA 1978]) the contribution rates will be:

| Fiscal Year | Employer Contribution Rate | Employee Contribution Rate |
|-------------|----------------------------|----------------------------|
| FY 11       | 2.084%                     | 1.042%                     |
| FY12        | 2.292%                     | 1.146%                     |
| FY 13       | 2.500%                     | 1.250%                     |

## NOTE 11. Post-Employment Benefits – State Retiree Health Care Plan (continued)

Also, employers joining the program after 1/1/98 are required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

The RHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

The Town's contributions to the RHCA for the years ended June 30, 2010, 2009 and 2008 were \$83,627, \$76,488 and \$75,902, respectively, which equal the required contribution for each year.

## NOTE 12. Contingent Liabilities

There is not any pending litigation that would warrant disclosure in the notes to the financial statements.

#### NOTE 13. Federal and State Grants

In the normal course of operations, the Town receives grant funds from various federal and state agencies. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

## NOTE 14. Landfill Closure and Post Closure Care Costs

State and Federal laws and regulations require that the Town place a final cover on its landfill site and perform certain maintenance and monitoring functions at the landfill site for a minimum of thirty years after closure. In addition to operating expenses related to current activities of the landfill site, an expense provision and related liability are being recognized based on the future closure and postclosure care costs that will be incurred near or after the date the landfill no long accepts waste. The recognition of these landfill closure and postclosure care costs is based on the amount of the landfill used during the year. The estimated liability for landfill closure and postclosure care costs is \$480,190 as of June 30, 2010, which is based on 31 percent usage (filled) of the landfill. It is estimated that an additional \$1,058,820 will be recognized as closure and postclosure care expenses between the date of the balance sheet and the date the landfill is currently expected to be filled to capacity. The estimated total current cost of the landfill closure and postclosure care (\$1,549,000) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of June 30, 2010. However, the actual cost of closure and postclosure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

In addition, the Town is required by State and Federal laws and regulations to make annual contributions to finance closure and postclosure care. The Town is in compliance with these requirements, and at June 30, 2010, cash of \$915,816 is part of the pooled funds held by the Town and is presented as restricted cash on the statement of net assets.

## NOTE 16. Subsequent Events

## **LGIP Investment in the Reserve Primary Fund**

The New Mexico State Treasurer's Office invested a portion of the Local Government Investment Pool (LGIP) in the Reserve Primary Fund ("the Fund"), a money market fund, in fiscal years 2006, 2007, 2008 and 2009. On September 15, 2008, the balance of the LGIP's investment in the Fund was \$381.7 million. On September 16, 2008, The Reserve Primary Fund's net asset value fell below \$1.00 and holdings in the Fund were frozen.

On July 15, 2010, the Reserve announced that it will begin its seventh distribution to Primary Fund shareholders on or about July 16, 2010. The distribution, in the amount of approximately \$215 million, represents approximately 67% of the Fund's remaining asset value of \$323 million as of the close of business on July 9, 2010. Including this seventh distribution, \$50.7 billion of Fund assets as of the close of business on September 15, 2008, will have been returned to investors. There is \$108 million still remaining with the Reserve at this time and the State Treasurer's Office has no information about timing nor amounts of potential future distributions. As a result, the State Treasurer's Office cannot anticipate what the actual loss to the LGIP from The Reserve Primary Fund may be or when the actual loss may be realized. No actual loss has been realized to date.

## NOTE 17. Restricted Net Assets

The government-wide statement of net assets reports \$7,362,097 of restricted net assets, all of which is restricted by enabling legislation. See pages 68 to 71 for descriptions of the related restrictions for special revenue, debt service and capital projects funds.

SUPPLEMENTARY INFORMATION

Town of Taos Nonmajor Governmental Funds June 30, 2010

## **Special Revenue Funds**

## **Fire Protection**

To account for the operations and maintenance of the fire department. Financing is provided by an allotment from the State of New Mexico Fire Marshall's Office. State Statute Section 59A-53-2, NMSA, 1978 compilation, requires the allotment be used only to operate fire departments.

## Recreation

To account for establishing and maintaining recreational programs in the Town. Financing is provided by program revenue and by a 1-cent tax on cigarette sales, which is collected and distributed by the State of New Mexico. State Statute Section 7-12-15, NMSA, 1978 compilation requires this tax be used in the above manner.

#### Lodger's Tax

To account for the operations of tourist facilities or for half of advertising, promoting and publicizing such facilities and tourist attractions. Financing is provided by one and a half percent of a five percent tax on lodging gross receipts within the Town of Taos. State Statute Section 4-6-41 provides for this tax to be imposed by the Town. Revenues received are pursuant to the Lodger's Tax Act (Section 3-38-15, NMSA 1978). Monies in the Lodger's Tax Fund may be used to build, operate, and maintain tourism related facilities.

## **Local Government Correction**

The local government corrections fee fund is used to account for the collection of a mandatory correction fee for violations of any municipal ordinance. Funds collected can only be used for jailer training, construction planning, construction, operation and maintenance of a municipal jail, and for paying for costs of housing. Authority is NMSA 1978 Section 35-14-11B(1).

#### Law Enforcement Protection

The law enforcement protection fund was created to account for revenues received pursuant to the law enforcement protection fund (Section 29-13-7, NMSA 1978). Amounts distributed from this fund may only be expended for the following purposes: (1) the repair and purchase of law enforcement apparatus and equipment that meet nationally recognized standards; (2) expenses associated with advanced law enforcement planning and training; (3) complying with match or contribution requirements of federal funds for criminal justice programs; (4) no more than fifty percent (50%) of the replacement salaries of municipal and county law enforcement personnel while attending a specified advanced law enforcement planning and training.

## Civic Center

To account for that portion of lodger's tax receipts allocated for Civic Center operations and promotional expenditures, as well as the revenues earned from Civic Center operations, including rentals, catering fees, and related charges for services. Authority is Town Council resolution.

#### Domestic Violence Shelter

This fund was created to receive the appropriations and grants for the purpose of construction and maintaining the Domestic Violence Shelter Home. Authority is Town Council resolution.

#### **Public Transportation**

To account for the portion of Lodger's Tax receipts allocated for the purpose of providing transportation to the public. Authority is Town Council resolution.

Town of Taos Nonmajor Governmental Funds June 30, 2010

## **Special Revenue Funds (continued)**

## **Community Grants**

To account for various small grants for various community purposes. Each grant is authorized by the granting agency. The fund is authorized by Town Council resolution.

#### Municipal Road Gasoline Tax

To account for a 1 cent gasoline tax that is used for repairing and construction of roads. Also included in this fund is revenue from the State Department of Transportation under a municipal arterial project agreement. Authority is 7-7-6.9 and 7-1-6.27 NMSA 1978.

## 1/4 Cent Municipal Gross Receipts Tax

To account for proceeds from a supplemental municipal gross receipts tax, a portion of which is pledged toward payment of principal and interest on Series 1988 Gross Receipts Tax Revenue Bonds. After required debt service transfers have been made, the remaining income of this fund is restricted for capital improvement purposes. NMSA 1978 Chapter 7, Article 20E-1 to 22.

#### Communications

To account for money collected by the Town from three other government entities to share centralized dispatch services throughout the County of Taos. Funding is authorized by a joint power agreement as authorized by Sections 11-1-1 through 11-1-7 NMSA 1978.

Town of Taos Nonmajor Governmental Funds June 30, 2010

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Hector Balderas
New Mexico State Auditor
The United States Office of Management and Budget and
The Town Council
Town of Taos
Taos, New Mexico

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, the budgetary comparison for the General Fund and the aggregate remaining fund information of the Town of Taos ("the Town"), New Mexico, as of and for the year ended June 30, 2010, which collectively comprise the Town's basic financial statements as listed in the table of contents, and have issued our report thereon dated November 22, 2010. We also have audited the financial statements of each of the Town's nonmajor governmental funds and budgetary comparisons for the proprietary funds, Capital Projects Fund, and the remaining nonmajor governmental funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2010 as listed in the table of contents. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

# Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items FS 2007-01, FS 2009-03, and FS 2010-01, to be material weaknesses.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The Town's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the Town's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the audit committee management, others within the organization, Town Commission, the Office of the State Auditor, New Mexico Legislature, the New Mexico Department of Finance and Administration, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Hector Balderas New Mexico State Auditor The United States Office of Management and Budget and The Town Council Town of Taos Taos, New Mexico

# Compliance

We have audited the compliance of Town of Taos, New Mexico ("the Town") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of the Town's major federal programs for the year ended June 30, 2010. The Town's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Town's management. Our responsibility is to express an opinion on the Town's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Town's compliance with those requirements.

In our opinion, the Town complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items FA 2009-01 and FA 2010-01.

### Internal Control Over Compliance

The management of the Town is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Town's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance, and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with type of compliance requirement of a federal program will not be prevented, or detected and corrected, on timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not indentify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as items FA 2009-01 and FA 2010-01. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiency, in internal control over compliance with a type of compliance requirement that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

The Town's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the Town's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, others within the Town, the audit committee, the State Auditor, the Town Council, the New Mexico Legislature, the New Mexico Department of Finance and Administration, and applicable federal grantors, and is not intended to be and should not be used by anyone other than these parties.

### **Section III – Financial Statement Findings and Questioned Costs**

### FS 2007-01 Bank Reconciliations and Recording of Cash

Condition: The Town did not prepare a bank reconciliation for the ACH transfer account or the payroll clearing account. In addition, the Town did not record \$2,590,450 of restricted cash from New Mexico Finance Authority statements on the Town's general ledger.

Criteria: NMSA 6-10-2 discusses the duty of public officials to balance public money at the close of each business day. Good accounting practices also require that bank reconciliations are prepared and reviewed at least monthly.

Effect: Before the adjustments were made, the Town's cash per the trial balance was understated by \$2,541,824.

Cause: The Town was unaware of the need to reconcile all bank accounts even when there is no activity. Also, the Town did not record cash in NMFA statements.

Auditors' Recommendation: We recommend that the Town prepare monthly bank reconciliations for the accounts mentioned above and that the bank reconciliations are reviewed for accuracy by Management.

Agency's Response: The Town's Finance Department has started and will continue to prepare manual bank reconciliations. The Finance Department will work with the software company to upgrade the system to allow these accounts to be entered into the Town's general ledger and ensure that the preparation occurs monthly and reviewed by Management for accuracy.

Town of Taos Schedule of Findings and Questioned Costs For the Year Ended June 30, 2010

### FS 2009-03 Preparation of Financial Statements

Condition: The Town does not have adequate internal controls in place to prepare its financial statements and related disclosures.

*Criteria:* According to the American Institute of Certified Public Accountants' Statement on Auditing Standards No. 112, a system of internal control over financial reporting does not stop at the general ledger. Well designed systems include controls over financial statement preparation, including footnote disclosures.

*Effect:* When sufficient controls over the preparation of financial statements and related disclosures are not designed, implemented and operating effectively, an entity's ability to prevent, detect, and correct misstatements in its financial statements is limited.

Cause: The Town's personnel did not have the time and have not been adequately trained in understanding the elements of external financial reporting, including the preparation of financial statements and related footnote disclosures.

Auditors' Recommendation: We recommend Town management and personnel receive training on understanding the requirements of external financial reporting.

The training should include, but not be limited to:

- Selection of appropriate accounting policies:
  - Governmental Accounting Standards Board (GASB)
  - Generally Accepted Accounting Principles (specifically as applied to governmental units)
  - Financial Accounting Standards Board (FASB)
- Understanding the financial reporting entity
- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements
- Required supplementary information
  - Management's discussion and analysis
- Supplementary information required by the Office of the State Auditor

In addition, we recommend that the Town develop and implement policies and procedures designed to prevent or detect possible misstatements in its financial statements and related footnote disclosures.

Agency's Response: The Town has started implementing a plan of action detailing the training for staff, which has included the preparation of the MD&A for the first time, participating and planning the New Mexico Government Finance Officers Association's annual conference with topics associated to financial statements and internal controls, adopting tools, policies and procedures to detect possible misstatements in its financial statements and related foot note disclosures.

Town of Taos Schedule of Findings and Questioned Costs For the Year Ended June 30, 2010

### FS 2010-01 Design Deficiencies in Internal Control over Financial Reporting

Condition: The Town's internal control structure is inadequate. The Town does not have a comprehensive documented internal control system over financial information. The Town does not maintain proper oversight or monitoring in regards to the Town's accounting activities and has not taken the proper measures to monitor and mitigate the risk for fraud, misappropriation of assets, or misstatement of financial statements. During our audit, we noted the following internal control deficiencies:

- Periodically, capital asset listings are routed to the appropriate managers to determine whether the assets still physically exist, but have limited success on the completion.
- Purchase orders, (including unused forms) are not pre-numbered.
- Changes to the vendor master file are not periodically reviewed for reasonableness.
- The payroll system master file change log is not reviewed, showing all changes made to payroll information, to ensure it reflects accurate and complete information.
- A current purchasing manual defines restrictions on purchases of goods or services from governing body
  members, employees, or other suppliers that would create a conflict of interest. Although this exists in the
  Town's personnel policy, it does not have written acknowledgement by employees, governing board, or
  management.
- Management does not have internal controls in place to ensure all debt covenants have been reviewed and the Town is in compliance with all requirements of each debt instrument
- Management has not established practices for the identification of risks affecting the entity as well as appropriate fraud risk assessment and monitoring processes.
- Management does not monitor controls over financial reporting through ongoing monitoring, independent evaluations, and remediation of identified deficiencies.

### Criteria: NMAC 6.20.2.11 states:

- A. Every Town shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of general purpose financial statements in accordance with GAAP, and that state and federal programs are managed in compliance with applicable laws and regulations. The internal control structure shall include written administrative controls (rules, procedures and practices, and policies that affect the organization) and accounting controls (activity cycles, financial statement captions, accounting applications including computer systems) that are in accordance with GAAP.
- B. Each Town shall develop, establish and maintain a structure of internal accounting controls and written procedures to provide for segregation of duties, a system of authorization and recording procedures, and sound accounting practices in performance of duties and functions. The duties to be segregated are the authorization to execute a transaction, recording the transaction, and custody of assets involved in the transaction.
  - (1) Town management must ensure that protection of the public trust is a major focus when granting the authorization to execute business of the Town.
  - (2) Employees handling significant amounts of cash must be adequately bonded. Access to assets is permitted only in accordance with Town authorization.
  - (3) Receipts, checks or warrants, purchase orders, and vouchers shall be sequentially pre-numbered.
  - (4) The Town shall have proper safeguards to protect unused checks and other pre-numbered forms, undeposited cash and other receipts, and facsimile signature plates.
  - (5) Transactions are to be recorded as necessary to permit preparation of financial statements in conformity with GAAP. In addition, the Town shall establish any other criteria applicable to such statements to maintain accountability for assets.
  - (6) The Town shall conduct independent checks on performance and proper valuation of recorded amounts, such as clerical checks, reconciliations, comparison of assets with recorded accountability, computer-programmed controls, management review of reports that summarize the detail of account balances, and user review of computer generated reports.

Town of Taos Schedule of Findings and Questioned Costs For the Year Ended June 30, 2010

### FS 2010-01 Design Deficiencies in Internal Control over Financial Reporting (Continued)

- C. An internal control structure is required to demonstrate the Town's ability to record, process, summarize and report financial data consistent with the following financial statement assertions:
  - (1) rights and ownership;
  - (2) existence and occurrence;
  - (3) valuation and allocations;
  - (4) completeness; and,
  - (5) presentation and disclosure.
- D. The internal control structure shall demonstrate that the Town identifies applicable laws and regulations, and that procedures are designed to provide reasonable assurance that the Town complies with those laws and regulations. Internal control procedures shall be established, implemented and documented through Town correspondence, manuals, training, and other additional methods. Appropriate internal control procedures shall be adopted by the Council within a Town to safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies. The internal control structure shall address all Town transactions.

The SAS No. 112 Appendix lists the following circumstances as possible control deficiency, significant deficiency, or material weakness, "inadequate documentation of the components of internal control." SAS 112 paragraph 19 states that ineffective oversight of the agency's financial reporting and internal control by those charged with governance should be regarded as at least a significant deficiency and a strong indicator of a material weakness in internal control.

*Effect:* Because certain internal controls have weaknesses in design, key controls are not in place to properly safeguard assets and prevent or detect material misstatements due to errors or fraud.

*Cause:* The Town has not performed a formalized and documented risk assessment process for those key controls in place to prevent and detect errors or fraud.

Auditors' Recommendations: The Town should ensure that a comprehensive internal control structure over financial information is designed, documented, and implemented. Management should follow and ensure that all staff follows the Town's documented internal control procedures. The Town Council is charged with governance and should provide effective oversight of the internal control and financial reporting process.

Agency's Response: Management agrees with the auditors' recommendations and will prepare a formalized and documented internal control procedures in association with existing practices that are currently followed with the Town's accounting manual and subsequent policies and procedures.

### FINDINGS - FEDERAL AWARDS

# FA 2009-01 -Davis-Bacon

Federal program information:

Funding agency: Community Development Block Grant

Title: CDBG CFDA number: 14,228

Award period: July 1, 2009 to June 30, 2010

*Condition:* The Town did not review payroll reports submitted for prevailing wages with Davis-Bacon in accordance with the *U.S. Office of Management and Budget (OMB) Circular A-133* Compliance Supplement.

Criteria: The Town is required to submit certified payroll and use Davis-Bacon wages in accordance with U.S. Office of Management and Budget (OMB) Circular A-133.

Effect: Non-compliance with the reporting requirement of U.S. Office of Management and Budget (OMB) Circular A-133 may affect the Town's federal award future funding.

### STATE OF NEW MEXICO

Town of Taos Schedule of Findings and Questioned Costs For the Year Ended June 30, 2010

### FA 2009-01 -Davis-Bacon (Continued)

Questioned Costs: None

Cause: The Town did not review the contractor submitted payroll reports for wages in compliance with Davis-Bacon. Although the Town did review the certified payrolls at the latter part of the project to ensure compliance with this requirement, the internal controls over compliance were absent during the beginning of the fiscal year.

Auditors' Recommendation: The Town must ensure that they follow the Davis-Bacon Act for all future federal award funding.

Agency's Response: Management agrees with the auditors' recommendation and will follow the compliance supplements for all future federally awarded funds per the grant agreements along with the Town's created checklist, which describes the proper steps and requirements in following the Davis-Bacon Act.

### FA 2010-01 Excluded Parties List

Federal program information:

Funding agency: All major programs
Title: All major programs
CFDA number: All major programs

Award period: July 1, 2009 to June 30, 2010

Condition: During our review of procurement for all major programs tested, it was noted that the Town does not reference the Excluded Parties List System, for contracts of goods or services in which more than \$25,000 is expended.

*Criteria:* The OMB A-133 Compliance Supplement Part 3-Compliance Requirements I- Procurement Suspension and Debarment stipulates non-federal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. "Covered Transactions" include those procurement contracts for goods and services awarded under a nonprocurement transaction that is expected to equal or exceed \$25,000 or meet other certain specified criteria.

*Effect:* The Town could be contracting with vendors for services or goods that are included on the suspension and debarment listing which could potentially decrease federal funding received since this is considered non-compliance.

Ouestioned Costs: None

Cause: The Town was unaware the Excluded Parties List System website existed.

Auditors' Recommendation: We recommend that the Town implement procedures to ensure all vendors for services and goods over \$25,000 be verified that they do not exist on the suspension and debarment listing.

Agency's Response: Management agrees with the auditors' recommendation and will follow the compliance of supplement Part-3-Compliance Requirements I – Procurement Suspension and Debarment. The Finance Department will also create a checklist, which describes the proper steps and requirements to follow when federal funding is involved to meet this compliance supplement.
