INDEPENDENT AUDITOR'S REPORT

Mr. Hector H. Balderas, State Auditor
Mr. Paul Madrid Jr., Mayor
Members of the Town Council
Town of Vaughn
Vaughn, New Mexico

I was engaged to audit the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the major budgetary comparisons for the general fund and major special revenue funds of the Town of Vaughn (the "Town"), as of and for the year ended June 30, 2008, which collectively comprise the Town's basic financial statements as listed in the table of contents. I was also engaged to audit the financial statements of each of the Town's nonmajor governmental funds and the budgetary comparisons for the debt service fund and all remaining nonmajor governmental funds presented as supplementary information in the accompanying combining and individual fund financial statements and the nonmajor budgetary comparison statements as of and for the year ended June 30, 2008, as listed in the table of contents. These financial statements are the responsibility of the Town's management.

The Town of Vaughn did not maintain sufficient internal controls and/or adequate records of its cash and investments, capital assets, component unit-housing authority activity, compensated absences liability, revenues and expenditures. Accordingly, we were unable to perform procedures sufficient to achieve the audit objectives for these account balances and transaction classes.

As the Town did not maintain sufficient internal controls and/or adequate records I was unable to obtain sufficient evidential matter and I was not able to apply other auditing procedures to satisfy myself as to the fairness of the presentation of the financial statements in conformity with generally accepted accounting principles. The scope of my work was not sufficient to enable me to express, and I do not express an opinion on the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the major budgetary comparison statements of the Town as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year ended in conformity with accounting principles generally accepted in the United States of America.

In addition, I do not express an opinion on the respective financial position of each nonmajor governmental fund and fiduciary fund of the Town as of June 30, 2008, and the respective changes in financial position, thereof and the respective budgetary comparison information for all nonmajor governmental funds for the year then ended, in conformity with accounting principles accepted in the United States of America.

The financial statements do not include financial data for the Town's legally separate component unit. Accounting principles generally accepted in the United States of America require the financial data for those component units to be reported with the financial data of the Town's primary government unless the Town also issues financial statements for the financial reporting entity that include the financial data for its component units. The Town has not issued such reporting entity financial statements.

In accordance with *Government Auditing Standards*, I have also issued a report dated December 6, 2012, on my consideration of the Town's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of the audit I was engaged to perform.

The Town of Vaughn has omitted the Management's Discussion and Analysis which is required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. My opinion on the basic financial statements is not affected by this missing information.

I was engaged to conduct an audit for the purpose of forming opinions on the basic financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The additional schedules listed as "Other Supplemental Information" in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. For the reasons described above, I was unable to obtain sufficient evidential matter to form an opinion regarding the fair presentation of this information in relation to the basic financial statements taken as a whole and accordingly, I express no opinion on them.

 Reconciliation of the Statement of Revenues, Expenditures
 and Changes In Fund Balances - Governmental Funds
 To the Statement of Activities
 For the Year Ended June 30, 2008

Amounts reported for governmental activities in the Statement of Activities are different because:

Total net change in fund balances - governmental funds \$ (145,392)

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those assets are shown in the Statement of Net Assets and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities. This is the amount by which capital outlays exceeded depreciation and loss disposals.

Depreciation expense	\$ (272,351)	
Disposal of assets	(9,987)	
Capital outlays	<u>511,317</u>	228,979

In the Statement of Activities, certain operating expenses are measured by the amounts incurred during the year. However, in the fund financial statements, expenditures are measured by the amount of financial resources used or available for use (essentially the amounts actually paid). The (increase) decrease in the assets and liabilities for the year were:

Increase in taxes receivable	(7,742)	
Decrease in compensated absences payable	<u>(611)</u>	(8,353)

Repayment of debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Assets and does not affect the Statement of Activities.

Notes principal payments		<u>26,767</u>

Total changes in net assets-governmental activities		<u>\$ 102,001</u>

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Vaughn (Town) have been prepared in conformity with generally accepted accounting principles as applied to government entities. The Town has implemented the new financial reporting model, as required by the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. The effective date of the implementation was July 1, 2003. Under the provisions of GASB 34, significant changes in its financial reporting are evident. A few of the most significant changes include:

- Addition of management’s discussion and analysis
- Elimination of account groups
- Government-wide financial statements using full accrual basis of accounting
- Recognition of depreciation on all depreciable capital assets
- Changes in the statement requirements that comprise the Town’s 1) Basic Financial Statements, 2) Require Supplementary Data, 3) Footnotes.

The more significant of the government’s accounting policies are described below.

A. FINANCIAL REPORTING ENTITY

The Town of Vaughn is incorporated under provisions of Chapter 3, Article 2, NMSA 1978. The Town operates under Mayor – Council form of government and provides the following services as provided by law: public safety (police and fire), highways and streets, sanitation, health and social services, culture-recreation, public works, planning and zoning, economic development and general administrative services. The Town operates the following funds: enterprises: water/sewer, housing and solid waste.

The Town’s basic financial statements include all activities and accounts of the Town’s “financial reporting entity”.

The financial reporting entity consists of (a) the primary government, (b) organization for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A. FINANCIAL REPORTING ENTITY (continued)

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body, and either it is able to impose its will on that organization, or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens, on the primary government may also be financially accountable for government organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, activities, or level of services performed or provided by the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or (c) is obligated in some manner for the debt of the organization.

Some organizations are included as component units because of their fiscal dependency on the primary government if they are unable to adopt a budget, levy taxes or set rates or charges, or issue bonded debt without approval by the primary government.

The Town of Vaughn Housing is a component unit of the Town of Vaughn; however, it is not presented in the Government-Wide Financial Statements. The Housing Authority's Board members are appointed by the Town's officials and all Annual Contribution Contracts "ACC's" are signed by the Town.

There were no other component units during the year ended June 30, 2008. Complete financial statements for Town of Vaughn Housing Authority are not available.

B. **BASIS OF PRESENTATION**

Government-Wide and Fund Financial Statements:

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity. The statements distinguish between governmental and business-type activities. *Governmental activities* generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. *Business-type activities* are financed in whole or in part by fees charged to external parties for goods or services. For the most part, the effect of interfund activities has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Program-specific grants and contributions (operating and capital) include revenues arising from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program. Some grants and contributions consist of capital assets or resources that are restricted for capital purposes-to purchase, construct, or renovate capital assets associated with a specific program. These are reported separately from grants and contributions that may be used *either* for operating expenses *or* for capital expenditures of the program at the discretion of the reporting government.

These categories of program revenue are specifically attributable to a program and reduce the net expense of that program to the reporting government.

During the year ended June 30, 2008 the Town received operating grants and contributions for its General Government (mainly, Small Cities assistance from the State of New Mexico); Public Safety (mainly Fire and EMS allotments from the State of New Mexico); Culture and Recreation (mainly Senior Program grants and contributions) as well as a FAA Capital grant for airport improvements.

B. BASIS OF PRESENTATION

Government-Wide and Fund Financial Statements (continued):

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. The Town's funds are organized into two major categories: governmental and proprietary. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

Total assets, liabilities, revenues or expenditures/expenses of that individual fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets, liabilities, revenues or expenditures/expenses of the individual fund are at least 5 percent of the corresponding total for all funds of the Town combined.

The Town reports the following major funds:

Major Governmental Funds:

General Fund - To account for resources associated with governments that are not required legally or by sound financial management to be accounted for in another fund.

Special Revenue Funds:

Streets Fund - To account for funds used to maintain roads for which the Town has responsibility. Financing sources include gasoline taxes imposed by Chapter 7, Article 13 NMSA 1978 and distributed to the Town pursuant to 7-1-6.9 NMSA 1978 and New Mexico State Highway Department Cooperative Agreement Funds as provided for in 67-3-28 NMSA 1978. Expenditures are restricted for the purpose of constructions, reconstruction, resurfacing or other improvement of public roads, streets, alleys or bridges, including right-of-way and materials acquisition.

B. **BASIS OF PRESENTATION**

Government-Wide and Fund Financial Statements (continued):

Capital Projects Funds:

Airport Fund - To account for the Vaughn Municipal Airport. Funding is provided by Federal and State grants as well as transfers of local source revenues from other funds. The Federal grant is received from the U.S. Department of Transportation, Federal Aviation Administration, pursuant to Public Law 103-272 as amended by Public Law 103-260 and Public Law 103-305. The State grant is received from the New Mexico State Highway and Transportation Department.

Proprietary Funds:

Solid Waste - To account for the provision of solid waste services to the residents of the Town.

Water and Sewer - To account for the provision of water and sewer to the residents of the Town and others.

The funds of the financial reporting entity are described below:

Governmental Funds:

General Fund - The General Fund is the primary operating fund of the Town and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for certain purposes.

Capital Project Fund - Capital Project Funds are used to account for resources restricted for the acquisition or construction of specific capital projects or items.

Debt Service Fund - Debt Service Funds are used to account for the accumulation of financial resources for the payment of interest and principle o the general long-term debt of the Town.

Fiduciary Funds (Not included in government-wide statements) - The Town of Vaughn did not have any Fiduciary Funds.

B. BASIS OF PRESENTATION

Government-Wide and Fund Financial Statements (continued):

Proprietary Funds - Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds). The Town of Vaughn has no internal service funds.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

On the government-wide Statement of Net Assets and the Statement of Activities, governmental activities and proprietary activities are presented using the *economic resources measurement focus* and the *accrual basis of accounting*.

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The accounting objectives of this measurement focus are the determination of operating is classified as net assets.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus and the modified accrual basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures, are generally

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (continued)

recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is made.

Taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Town.

- b. Proprietary funds use the economic resources measurement focus as described above.

Revenue Recognition

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized in the year for which they are levied and billed. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met and the expenses have been incurred.

Derived tax revenues, such as; gross receipts tax, gasoline tax, cigarette tax, and motor vehicle licensing fees, are recognized when the underlying exchange has occurred.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed measurable and available (i.e., collectible within the current year or within two months of year-end and available to pay obligations of the current period). This includes certain locally assessed and state levied locally shared taxes including gross receipts tax, motor vehicle license fees and gasoline taxes. Reimbursements due for federally funded projects are accrued as revenue at the time the expenditures are made, or when received in advance, deferred until expenditures are made.

Other revenues, including licenses and permits, certain charges for services, and miscellaneous revenues, are recorded as revenue when received in cash because they are generally not measurable until actually received.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expense. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which as not matured, are recognized when paid. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

D. ASSETS, LIABILITIES AND EQUITY

Cash and Cash Equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short term deposits with maturities of six months or less from the date of acquisition.

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include gross receipts taxes, grants and state shared taxes as well as assessed, but unpaid property taxes. For the proprietary funds the primary receivables are amounts due from customers.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as tax and grants and other similar intergovernmental revenues that have met the available criteria for accrual, since they are usually measurable. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. For governmental fund financial statement purposes, interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available. Interest and investment earnings are recognized when earned, regardless of when received in the government-wide financial and the proprietary fund statements in accordance with the accrual basis of accounting. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

Allowance for Doubtful Accounts

A provision for uncollectible accounts was maintained at June 30, 2008 for the proprietary funds. The solid waste allowance was estimated at \$300 and the water and sewer allowance was estimated to be \$1,200. All other receivables were considered to be collectible.

Interfund Receivables and Payables

During the course of operations transactions may occur between individual funds that may give rise to amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds."

Short-term interfund loans are reported as "interfund receivables and payables." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payable between funds within governmental activities and interfund transfers between the respective proprietary funds are eliminated in the Statement of Net Assets.

However between the governmental and proprietary fund categories the interfund receivables have not been eliminated, except in the total column.

At June 30, 2008 there were due to/due from accounts in the fund financial statements which are presented in Note 2.

Prepaid Expenses

Prepaid expenses are reported in the Statement of Net Assets (government-wide statement) and balance sheet (fund financial statement) when expenditures for goods or services are made that benefit future periods. At June 30, 2008 prepaid insurance cost amounted to \$13,264.

Inventory of Supplies

There were no material amounts of inventory at June 30, 2008. Purchases for supplies are recorded as expenditures and are not recorded as an asset on the statement of net assets or balance sheet.

Restricted Cash - Meter Deposits

The Town maintains a separate bank account for utility customer service deposits. The monies on deposit in this account are not available for purposes other than the repayment of the deposits.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. ASSETS, LIABILITIES AND EQUITY (continued)

Capital Assets and Depreciation

The accounting treatment over capital assets depends on whether the assets are reported in the government-wide or fund financial statements.

Government-wide Statements

In the government-wide financial statements, capital assets with a value or cost greater than \$5,000 are accounted for as capital assets. All capital assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. All of the capital assets have been recorded at cost.

The Town does not develop "internal use" software. Rather, software purchased is depreciated over its expected useful life (generally 5 years) using the straight-line method of depreciation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities with accumulated depreciation reflected in the Statements of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Infrastructure	20-30 years
Land Improvements	25-65 years
Building and improvement	25-65 years
Vehicles and rolling stock	5-10 years
Machinery, equipment and other	5-20 years

Long Term Debt

The accounting treatment of long-term debt depends on whether the debt is reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental resources are reported as liabilities in the government-wide statements. The long-term debt consists primarily of notes payable and accrued compensated absences. This same treatment applies to the proprietary fund financial statements.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principle and interest reported as expenditures.

Compensated Absences

The Town's policy regarding vacation time permits employees to accumulate earned but, unused compensated absences. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources and the proprietary funds use the economic resources measurement focus.

Equity Classifications

Government-wide Statements

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt: Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets: Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets: All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated.

Fund equity was reserved for the following purposes:

Statutory Reserve

A statutory reserve, as required by state regulation, equal to 1/12 of the subsequent year's budgeted expenditures has been provided in the General Fund.

Reserved for Debt Service

Amounts legally restricted for the payment of long-term debt.

D. ASSETS, LIABILITIES AND EQUITY (continued)

Reserved for Prepaid Insurance

This designation segregates a portion of equity to indicate that although prepaid items are an asset, it does not represent an available, spendable resource.

Reserved for Subsequent Years' Expenditures

This represents the amounts, which are required to be reserved for subsequent years' expenditures.

Unreserved, Undesignated

These amounts have not been reserved or designated for any purpose. These funds are available for unrestricted usage by the Town.

Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, non-capital financing, or investing activities. Revenues and expenses that do not meet this definition are accounted for as non-operating revenues and expenses.

E. REVENUES, EXPENDITURES AND EXPENSES

Gross Receipts Tax

The Town levies a gross receipts tax on sales within the Town. The tax is collected by the Taxation and Revenue Department of the State of New Mexico and remitted to the Town approximately one month after receipt of the tax from vendors doing business in the Town. Vendors remit the tax to the State in the month following the month of sale/collection. Taxes collected by the State in June and July and received by the Town July and August included in the caption "Receivables" on the Statement of Net Assets (Government-wide) and Balance Sheet (Fund Financial Statements).

Property Taxes

Under Chapter 7, Article 37-7 B(3), NMSA, 1978 Compilation, Municipalities are limited in their ability to impose property taxes on assessed property within the Municipality to a rate not to exceed \$7.65 for each one thousand dollars (\$1,000) of net taxable value of both residential and non residential property.

In addition, the Municipality can impose, without restriction, property taxes sufficient to pay principal and interest on general obligation bonds that were authorized by the voters within the Municipality as well as taxes sufficient to pay for tort or workman's compensation judgments for which the Municipality is liable.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function. In the fund financial statements, expenditures are classified as follows:

Governmental Funds-By Character: Current (further classified by function)

Debt Service
Capital Outlay

In the fund financial statements, governmental funds report expenditures of financial resources.

Expenditures of Restricted Sources

It is the Town's policy to expend restricted sources prior to unrestricted sources when both sources are available for expenditure.

Accrued Compensated Absences

Vested compensated absences are accounted for under the full accrual basis of accounting on the Government-wide financial statements and are classified as current and non-current liabilities.

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are not reported in the fund statements. In accordance with the provisions of Statement No. 16 of the Governmental Accounting Standards Board, Accounting for Compensated Absences, a liability has been recognized for certain sick pay as the Town does provide for payment upon termination of employment.

Interfund Transfers

Permanent reallocation of resources between funds of the reporting entity is classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental and proprietary funds have been eliminated. However, transfers between governmental and proprietary funds have not been eliminated, except in the total column.

F. OTHER POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Implementation of Accounting Principles - FASB Pronouncements-Proprietary Fund Accounting

The Town of Vaughn uses enterprise funds to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. Per the requirements of GASB 20, "Accounting and Financial Reporting for Proprietary Funds and other Governmental Entities that use Proprietary Fund Accounting", the enterprise funds have elected to apply all applicable GASB pronouncements (including all NCGA Statements and Interpretations currently in effect) as well as following all FASB pronouncements issued on or after November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

2. COMPLIANCE AND ACCOUNTABILITY

A. BUDGET REQUIREMENTS, ACCOUNTING AND REPORTING

All budgets are adopted on the cash basis of accounting, which is inconsistent with Generally Accepted Accounting Principles (GAAP). Budgetary comparison statements present budget and actual amounts on the budgetary basis of accounting (cash basis).

The Town is required to follow the procedures established by the New Mexico Department of Finance and Administration when developing its budgets, as follows:

1. The Fiscal Officer submits to the Town Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted at the Town offices to obtain public comment.
3. The budget is tentatively approved by the Town Council, and final approval is ultimately made by the Department of Finance and Administration, Local Government Division.
4. The Fiscal Officer requests authorization from the Town Council to transfer budget amounts within departments within any fund. However, any revisions that alter the total expenditures of any fund must be approved by the Commission and by the Local Government Division of the Department of Finance and Administration, State of New Mexico.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds.

Amendments to the budget, including operating transfers, which increase or decrease a fund's total budgeted expenditures that must be approved by the Town Council and the Local Government Division of the Department of Finance and Administration, State of New Mexico. Amendments made to the original budget are included in the budgetary comparison schedules of this report, which reflect actual to budget.

Budgets and amendments to the budgets for all funds are adopted in a legally permissible manner. The legal level of budgetary control is the fund level. Expenditures may not legally exceed budgeted appropriations at the fund level. Outstanding encumbrances lapse at year end but may be re-budgeted in the next year's budget. The Town did not use encumbrance accounting during the year ended June 30, 2008.

3. DEPOSITS AND INVESTMENTS

The Town Of Vaughn is authorized under the provisions of Chapter 6, Article 10, paragraph 10, NMSA 1978, annotated, to deposit its money in banks, savings and loan associations and/or credit unions whose accounts are insured by an agency of the United States.

All money not immediately necessary for the public uses of the Town may be invested in:

- a. bonds or negotiable securities of the United States, the state or any county, municipality or town which has a taxable valuation of real property for the last preceding year of at least one million dollars (\$1,000,000) and has not defaulted in the payment of any interest or sinking fund obligation or failed to meet any bonds at maturity at any time within five years last preceding; or
- b. securities that are issued by the United States government or by its agencies or instrumentalities and that are either direct obligations of the United States or are backed by the full faith and credit of the United States government or agencies guaranteed by the United States government; or
- c. in contracts with banks, savings and loan associations or credit unions for the present purchase and resale at a specified time in the future of specific securities at specified prices at a price differential representing the interest income to be earned by the investor. The contract shall be shown on the books of the financial institution as being the property of the investor and the designation shall be contemporaneous with the investment. The contract shall be fully secured by obligations of the United States having a market value of at least one hundred two percent of the contract. The collateral required for investment in the contracts provided in this subsection shall be shown on the books of the financial institution as being the property of the investor and the designation shall be contemporaneous with the investment.

Pursuant to Section 6-10-10.1 NMSA 1978, if the Town is unable to receive payment on public money at the rate of interest set forth in Section 6-10-3 6 NMSA 1978 (which is no less than one hundred percent of the asked price on the United States treasury bills of the same maturity on the day of the deposit) from financial institutions within the geographic boundaries of the governmental unit, the Town official having money in his custody not required for expenditure within thirty days or less may, with the consent of the local board of finance, if any, remit some or all of such money to the State Treasurer, bank, savings and loan association or credit union for deposit for the purpose of short term investment.

3. **DEPOSITS AND INVESTMENTS (continued)**

Before any local funds are invested or reinvested for the purpose of short-term investment pursuant to section 6-10-10.1 NMSA 1978 Compo the local public body finance official shall notify and make such available to banks, savings and loan associations and credit unions located within the geographical boundaries of their respective governmental unit, subject to the limitation on credit union accounts. To be eligible for such funds, the financial institution shall pay to the local public body the rate established by the State Treasurer pursuant to a policy adopted by the State Board of Finance for such short-term investments.

The local public body finance official shall specify the length of time each deposit shall be in the State Treasurer's short-term investment fund, but in any event the deposit shall not be made for more than one hundred eighty-one days.

The Governmental Accounting Standards Board has issued its Statement #40, which requires deposits and investments to be classified into categories of risk. The categories of risk are discussed below.

--Interest Rate Risk - The risk that modifications in the interest rate will unfavorably impact the fair value of an investment. The Town of Vaughn has a limited exposure to interest rate risk as only a small amount of funds are invested in interest bearing accounts.

-- Concentration of Credit Risk - The exposure which comes from having all funds located in one financial institution or all funds invested in similar investments with similar-economic characteristics that would be similarly affected by changes in economic or other conditions. The Town of Vaughn is exposed to concentration of credit risk in that the majority of funds are held in one financial institution.

-- Custodial Credit Risk - The risk that in the event of failure of a depository institution, a government will not be able to recover its deposits or collateral securities that are in the possession of an outside party. Once again, the Town of Vaughn is exposed to custodial credit risk because almost all cash is held in one financial institution which also holds the securities which collateralize the accounts.

At June 30,2008, the carrying amount of the Town Of Vaughn's deposits (excluding \$76,657 cash with paying agent) was \$485,801 and the bank balances were \$503,358. The deposits are held at Wells Fargo Bank. All accounts are carried at cost.

In accordance with Section 6-10-7, NMSA, 1978 Compilation, deposits of public monies are to be collateralized in an aggregate equal to 50% of deposits in excess of Federal Deposit Insurance Corporation insurance coverage. The following schedule shows the bank balances held by Wells Fargo Bank.

B. **CLOSURE AND POST CLOSURE LANDFILL COSTS**

State and federal laws and regulations require the Town to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post closure care costs will be paid only near or after the date that the landfill stops accepting waste, the Town reports a portion of these closure and post closure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The total liabilities for closure and post closure costs of \$30,170 at June 30, 2008 represent the cumulative amount reported to date based upon approximately 15% of the usable capacity of the landfill. The liability is based upon an estimate performed in March 2003. The estimated current year accrual of the future closure and post-closure care costs amounted to \$4,310.

The actual cost of closure and post closure care may be higher, of course, due to inflation, changes in technology or changes in:

The NMFA Note payable for the proprietary debt, as reflected on the Statement of Net Assets, is being paid from its major funds in the percentage of 12% from Solid Waste Fund and 88% from the Water/Sewer Fund.

8. **ACCRUED COMPENSATED ABSENCES**

The Town allows for the accrual and payment of annual leave. Annual leave is awarded at a rate of two weeks per year for all employees who work five eight hour days in a regular workweek. Upon termination or retirement an employee will be paid for unused vacation at his or her final rate of pay.

Accrued compensated absences of the governmental funds have been recorded pursuant to GASB 16 and appear on the statement of net assets as follows:

Governmental Funds:	<u>Current Portion</u>	<u>Non-current Portion</u>	<u>Total</u>
General Fund	\$ 2,294	\$ 6,642	\$ 8,936
Seniors Fund	<u>304</u>	<u>3,372</u>	<u>3,676</u>
Total	<u>\$ 2,598</u>	<u>\$10,014</u>	<u>\$12,612</u>

9. **TAXES**

A. **PROPERTY TAXES**

The Town receives property taxes from the Guadalupe County Treasurer for operational purposes. Property taxes are assessed on January 1 of each year, except on livestock, and are payable in two equal installments on November 10th of the year in which the tax bill is prepared and April 10th of the following year. Unpaid property taxes are deemed delinquent 30 days after their due date. Taxes on real property are a lien against the property from January 1 of the year for which the taxes are imposed.

Tax levies are authorized by statute to service payments due on general obligation bonds which have been authorized pursuant to state law, and for general operating purposes. However, at June 30, 2008, the Town had no general obligation bonds outstanding.

The Mill levy tax rates for the Town for 2008 were 5.872 for residential and .765 for non-residential. These are tax rates applied to each \$1,000 of property value taxable by the Town.

Property tax revenues amounted to \$ 34,221 for the fiscal year ended June 30, 2008.

B. **BUSINESS LICENSES**

Under Chapter 3, Article 38 NMSA 1978, the Town, by passage of an ordinance, authorized the assessment of a registration fee equal to \$35 per annum for all businesses within the jurisdiction of the Town. During the fiscal year ended June 30, 2008, the Town collected \$330 in business license fees.

9. **TAXES (continued)**

C. **MOTOR VEHICLE REGISTRATION FEES**

Under the provisions of Chapter 66, Article 6 NMSA 1978 the State of New Mexico collects various fees for the registration and regulation of motor vehicles in the state. Of the amount collected, a portion is disbursed to the various incorporated municipalities based upon the total assessed valuation a qualified municipality bears to the total assessed valuation of all the qualified municipalities within the county. Under Section 66-6-23, the various qualified cities in the State of New Mexico share 9.4 percent of the total fees collected (10 percent distribution). In addition, an amount equal to 14.1 percent of the total fees collected are allocated between the various counties, towns, and incorporated municipalities within the county in the same proportion that the receipts from general property taxes, other than taxes for state purposes, receipts from general property taxes received by the county treasurer for the year in which such distribution is to be made, are so distributed in such county between said town and said incorporated municipalities within the county. In the counties wherein are located municipalities incorporated, organized and operating under special accounts, the allocation shall be in the proportion that the receipts from general property taxes in said municipalities bear to the total receipts from general property taxes other than taxes for state purposes received by the county treasurers and the collectors of said municipalities in the year in which said allocation is to be made. For the purpose of effecting an equitable allocation in counties wherein are located municipalities incorporated, organized and operating under special act, the local government division shall compute a hypothetical figure representing the municipality's proceeds from the property tax based on the figure arrived at by the county assessor as the evaluation of real property within the municipality, the assessment ratio used in that county and the highest mill levy approved by the local government division for any other municipality in the state (15 percent distribution).

The Town earned \$4,387 in motor vehicle registration fees for the year ended June 30, 2008.

D. **EXCISE TAX ON CIGARETTES**

For the privilege of selling, giving or consuming cigarettes in New Mexico, there is levied an excise tax at the rate of ten and one half cents (\$. 105) for each ten cigarettes or fraction thereof sold, given or consumed in New Mexico. The taxes collected due to the provision of Chapter 7, Article 12, paragraph 3 NMSA 1978 (as paraphrased above) are distributed to the State General Fund and the various counties and municipalities as follows:

State General Fund	.075
County and Municipality Recreation Fund	.010

D. **EXCISE TAX ON CIGARETTES (continued)**

Taxes deposited into the County and Municipality Recreation Fund is distributed to the various counties and municipalities and is restricted to usage as follows:

1. To each county in the proportion that the sales of cigarettes made within the county borders, exclusive of sales within any municipality in that county, bears to the total sales of cigarettes in the state during such month; and
2. To each municipality in the proportion that the sales of cigarettes made within the municipality during such month bears to the total sales of cigarettes in the state of such month.

The funds distributed to the counties and municipalities under this section shall be used for recreational facilities and salaries of instructors and other employees necessary to the operation of such facilities. Such recreational facilities shall be for the use of all persons, and juveniles and elderly persons shall not be excluded.

Each county or municipality shall establish a fund to be known as the "recreational fund" into which all monies received from the County and Municipality Recreation Fund shall be deposited. As used in this section, "juvenile" means every person under the age of majority and "elderly" means every person over the age of sixty years. Taxes deposited into the County and Municipality Cigarette Tax Fund are distributed to the various counties and municipalities in the same manner as the County and Municipality Recreation Fund; however, the taxes so distributed shall be deposited in the general fund of such counties and municipalities, provided the cigarette tax revenues distributed under the provision of this section shall not be earmarked or otherwise obligated under the terms or provision of any prior law, prior local ordinance or prior bond agreement which pledges cigarette tax revenues for the payment of any principal or interest of revenue bonds issued pursuant to such prior law, prior local ordinance or prior bond agreement.

During the year ended June 30, 2008, the Town received distributions of cigarette taxes in the amount of \$985 in the general fund and \$668 in the recreation fund for a total of \$1,653 in cigarette taxes.

E. **GASOLINE TAX**

The State of New Mexico, by authority of Chapter 7, Article 13 NMSA 1978, imposes an excise tax of \$.17 on each gallon of gasoline received in New Mexico. Of the total gasoline taxes received, a portion is distributed to the various municipalities within the state pursuant to Chapter 7, Article 1-6.9 NMSA 1978 and Chapter 7, Article 1-6.27 NMSA 1978. Distributions of gasoline taxes received pursuant to Chapter 7, Article 1-6.9 must be deposited into a separate road fund for expenditures only for construction, reconstruction, resurfacing or other improvements or maintenance of public roads, streets, alleys or bridges, including right-of-way and materials acquisition. The distribution may also be used to provide matching funds for projects subject to cooperative agreements entered into with the State highway and transportation department pursuant to section 67-3-28 1978.

E. GASOLINE TAX (continued)

Any municipality or II class county that has created or that creates a "street improvement fund" to which gasoline tax revenues or distributions are irrevocably pledged under Section 3-34-1 Through 3-34-4 NMSA 1978 or that has pledged all or a portion of gasoline tax revenues or distributions to the payment of bonds shall receive its proportion of the distribution of revenues under this section impressed with and subject to these pledges.

Distributions of gasoline taxes received pursuant to Chapter 7, Article 1-6.27 shall be used for the following purposes:

1. Reconstructing, resurfacing, maintaining, repairing, or otherwise improving existing alleys, streets, roads or bridges, or any combination of the foregoing, or laying of, opening, constructing or otherwise acquiring new alleys, streets, roads or bridges, or any combination of the foregoing, provided that any of the foregoing improvements may include but are not limited to, the acquisition of rights of way
2. To provide matching funds for projects subject to cooperative agreements with the state highway and transportation department pursuant to Section 67-3-28 NMSA 1978, and
3. for expenses of purchasing, maintaining and operating transit operations and facilities for the operation of a transit authority established by the municipal transit law and for the operation of a vehicle emission inspection program. A municipality may engage in the business of the transportation of passengers and property within the political subdivision by whatever means the municipality may decide and may acquire -cars, trucks, motor buses and other equipment necessary for operating the business. A municipality may acquire land, erect buildings and equip the buildings with all the necessary machinery and facilities for the operation, maintenance, modification, repair and storage of the cars, trucks, motor buses and other equipment needed. A municipality may do all things necessary for the acquisition and the conduct of the business of public transportation.

During the fiscal year ended June 30, 2008, the Town earned \$24,289 in gasoline tax distributions.

F. MUNICIPAL GROSS RECEIPTS TAX

Under authority of Chapter 7, Articles 19, 19A and 19D, NMSA 1978, the Town adopted gross receipts taxing through ordinances. Said ordinances provide for the imposition of gross receipts taxes on all non-exempt persons engaging in business in the municipality. The tax is collected by the State of New Mexico and remitted to the Town after deducting certain administrative costs. During the year ended June 30, 2008, the Town earned taxes in the amounts shown below which were imposed under the above stated authorities.

General Fund: Town gross receipts tax	\$ 77,843
Solid Waste Fund: Environmental gross receipts tax	<u>23,500</u>

G. **STATE GROSS RECEIPTS TAX**

Under authority of Chapter 7, Article 1, NMSA 1978, the State of New Mexico imposes a gross receipts tax on all business within the State. Of the total collected, 1.25 percent of the taxable gross receipts is distributed to the municipality reporting the taxable receipts. During the year ended June 30, 2008, the Town earned \$76,740 from the State under the above stated authority.

10. **RETIREMENT PLAN – Public Employees Retirement Association**

Plan Description. Substantially all of the Estancia Valley Solid Waste Authority's full time employees participate in a public employees retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, PO Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding Policy. Plan members are required to contribute 2.15% of their gross salary. The Estancia Valley Solid Waste Authority is required to contribute 16.15% of the gross covered salary. The contribution requirements of plan members and the Authority are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The Authority's contributions to PERA for the fiscal years ending June 30, 2012, 2011, and 2010 were \$80,769, \$79,795, and \$70,795 respectively, which equal the amount of the required contributions for each fiscal year.

11. **RETIREE HEALTH CARE ACT CONTRIBUTIONS**

The employees of the Town have elected not to participate under the Retiree Health Care Act. This plan would have provided health care benefits to Town employees upon retirement.

COMPLIANCE SECTION

(This page intentionally left blank.)

**CALHOON ACCOUNTING & TAX SERVICES
PO BOX 945
ESTANCIA, NEW MEXICO 87016**

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Mr. Hector H. Balderas, State Auditor
Mr. Paul Madrid, Mayor
Members of the Town Council
Town of Vaughn
Vaughn, New Mexico

I was engaged to audit the financial statements of the governmental activities, the business type activities, each major fund, the aggregate remaining fund information, the budgetary comparisons for the general fund and major special revenue funds, which collectively comprise the Town of Vaughn's (the "Town") basic financial statements and the financial statements of each of the non-major governmental funds presented as supplementary information in the accompanying combining and individual fund financial statements and the non-major budgetary comparison statements of the Town as of and for the year ended June 30, 2008, as listed in the table of contents. I was unable to express an opinion on those financial statements because the Town did not maintain sufficient internal controls and/or adequate records of its cash and investments, capital assets, component unit-housing authority activity, compensated absences liability, revenues and expenditures.

Internal Control over Financial Reporting

In planning and performing the engagement to audit the financial statements, I considered the Town's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Town's internal control over financial reporting.

My consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, I identified certain deficiencies in internal control over financial reporting that I consider to be significant deficiencies.

(This page intentionally left blank.)

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis. I consider the deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies in internal control over financial reporting as finding 2008-10 and 2008-11.

A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. I consider the deficiency described as finding 2007-01, 2007-02 and 2008-12 in the accompanying schedule of findings and responses to be a significant deficiency.

Compliance and Other Matters

As part of being engaged to obtain reasonable assurance about whether the Town's financial Statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and recommendations as items 2002-05, 2002-12, 2002-25, 2003-02, 2003-09, 2006-03, 2007-01, 2007-02, 2008-04 and 2008-12.

The Town's responses to the findings identified in my audit are described in the accompanying schedule of findings and questioned costs. I did not audit the Town's responses and, accordingly, I express no opinion on them.

This report is intended solely for the information and use of the Town Council, the New Mexico State Auditor, management and awarding agencies and pass through entities and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDING AND QUESTIONED COSTS (continued)
For the Year Ended June 30, 2008

2002-05 Debt Service Fund

Criteria: The payments the Town is making on a fire truck and station improvements should be accounted for in a separate fund, a Debt Service Fund.

Condition: The Town is not including in its reporting to the State of New Mexico Department of Finance and administration payments made to reduce debt and pay finance costs within its debt service fund.

Cause: The staff of the Town was unaware of how to properly account for the retirement of the debt.

Effect: All the financial activities of the Town are not being properly reported on their periodic quarterly reports.

Recommendation: The Town should properly account for the payments for the fire truck in a Debt Service Fund.

Management's response: All intercept agreements will be reported in a Debt Service Fund on all Quarterly Reports to DFA.

2002-12 Timeliness of Audit Report

Criteria: Governmental entities, agencies, and committees review the reports and prefer to do so in a timely manner. The SAO Rule, NMAC 2.2.2.9 A (1)(d) establishes a due date of December 1 for the audit reports of municipalities.

Condition: The New Mexico State Auditor requires the audit to be completed and submitted to his office by December 1, 2008, the report is past due.

Cause: The Independent Auditor was contracted years after the audit due date.

Effect: The audit was filed late.

Recommendation: The Town and its auditor will work together to get the town's audits caught up so that future audits can be completed timely in accordance with state requirements.

Management's response: The Town is working with the auditor to get the audits caught up and filed in a timely manner.

2002-25 Expenditures In Excess of Budgets

Criteria: State Statute, 6-6-6, NMSA 1978 requires the expenditures of public bodies not to exceed budget authority.

Condition: The town of Vaughn's actual expenditures exceeded the budgeted authority in the following funds:

<u>Name</u>	<u>Number</u>	<u>Revised Budget</u>	<u>Actual Expenditures</u>	<u>Overspent Amount</u>
Recreation Fund	217	5,094	6,304	1,210
Senior Citizens Fund	219	52,065	171,886	9,356
Airport Fund	409	-0-	187,512	187,512
Debt Service	402	-0-	30,506	30,506
Water & Sewer Fund	505	193,848	284,309	90,461

Cause: The Town policies and procedures do not prevent over expenditure of funds and do not require budget adjustments when necessary.

Effect: The Town is in violation of applicable laws, regulations and policies established by the Town, State and Department of Finance and Administration.

Recommendation: Management implements procedures to prevent budget over expenditures.

Management's response: Budget adjustment request will be made in a timely manner and the budget will be monitored more closely.

2003-02 Funds Omitted From DFA Quarterly Report

Criteria: Quarterly reports to DFA must include all funds which the Town has ownership and control. The required funds include general funds, special revenue funds, debt service funds, capital project funds and proprietary funds.

Condition: Quarterly reports to DFA did not include all Town funds required for the report. Activity for the Debt Service Fund, Street Fund and Airport Capital Project Fund was not completely included in the Town's reports.

Cause: The funds excluded from the DFA report were overlooked and because administrative staff did not know the reporting requirements.

Effect: The reports to DFA are misstated to the extent of funds not reported.

Recommendation: The Town administration should prepare a checklist of funds to be included in the quarterly report to the DFA to prevent the omission of an funds from the report. When monies are received or expended it should be checked against the budget and recorded appropriately.

Management's response: All funds will be included in the Quarterly Reports to DFA. A checklist of all funds will be used to ensure all funds are included.

2003-09 Late Filing of Proposed Budget for Next Fiscal Year

Criteria: All local public bodies are required by the Local Government Division of the Department of Finance and Administration to submit a proposed budget for the next fiscal year on or before June 1 of each year (State Statutes 6-6-2, NMSA 1978 Compilation).

Condition: A proposed budget for fiscal year ending June 30, 2008 was not submitted in a timely manner to the Local Government Division of the Department of Finance and Administration.

Cause: Unknown.

Effect: The Town will not be authorized to make expenditures of public money without an approved budget.

Recommendation: The proposed budget should be prepared and submitted to the Local Government Division of the Department of Finance and Administration for their approval on a timely basis. The approved proposed budget can be used by the Town pending approval of the final budget.

Management's response: The best attempt to get this filed in a timely manner will be taken.

For the Year Ended June 30, 2008

2006-03 Management's Discussion and Analysis (MD&A) Not Included

Criteria: GASB 34 requires that MD&A be included in the financial statements.

Condition: MD&A is a required element of the Financial Statements is not included.

Cause: There is a lack of understanding of the requirements of GASB 34 in financial reporting.

Effect: The Town is unable to produce all the required elements of complete financial reporting.

Recommendation: The Town should consider hiring an accounting firm or knowledgeable personnel to prepare the required information and financial statements.

Management's response: The Town will attempt to complete its MD&A in the future.

2007-01 Capital Assets

Criteria: Per state statute 12-6-10, NMSA 1978 and regulation 2.20.1.15 NMAC, the town should establish controls over its fixed assets for the primary purpose of safeguarding them and establishing accountability for their custody and use. Assets must be properly capitalized, classified, valued and depreciated.

Condition: The Town does not have a complete listing of capital assets and has not calculated and recorded depreciation expense on those assets.

Cause: The Town has not kept a complete inventory of their capital assets.

Effect: The failure to maintain adequate capital asset records results in the inability of the Town to maintain control over the capital assets and also results in the Town being noncompliant with state requirements.

Recommendation: I recommend that the Town complete an inventory of all their capital assets, including infrastructure and update it annually for any additions or dispositions of assets. Also, those capital assets must be depreciated according to state requirements.

Management's response: The Town previously had a list but submitted it to a previous auditor and is unable to retrieve this listing. The Town will work on recreating the previous asset list and maintain it on an ongoing basis.

2007-02 Trial Balance

Criteria: Good accounting practices indicate that the Town's books should be maintained in such a way that a general ledger which balances out by fund be available.

Condition: The Town does not maintain a general ledger which balances by fund.

Cause: The Town's books are maintained in multiple files which must be pieced together and divided into funds to prepare a general ledger. Records are kept in multiple locations and not filed in a systematic manner.

Effect: The result is that the Town doesn't have an accurate day to day general ledger with which to make decisions. The general ledger is difficult to piece together and requires additional time for the auditor to complete the audit.

Recommendation: I recommend the Town maintain accounting software so that all transactions are recorded in one file by fund to ensure funds balance to zero. Accounting records should be maintained in one location and made available to the auditor in a timelier manner.

Management's response: The Town is now maintaining records in QuickBooks software which should help maintain accurate and timely records that balance by fund. Accounting records are being accumulated and brought to one location and filed in the correct fiscal year.

2007-04 Omission of Component Unit

Criteria: The Housing Authority is a component unit of the Town of Vaughn and has not completed an audit for the June 30, 2008 fiscal year.

Condition: Omission of financial information of the Housing Authority.

Cause: No audit has been completed for the Housing Authority due to the unavailability of accounting records. In 2010 the Housing Authority is no longer a component unit of the Town of Vaughn

Effect: The Town is omitting financial information of the Housing Authority.

Recommendation: Accounting records be kept in a more secure area and performing audits on a timely basis.

Management's response: The Town is working with the current auditor to get the audits current.

2008-10 Cash Controls and Monitoring

Criteria: The Town is responsible for establishing and maintaining internal controls that include controls over cash and investments in order to meet the financial reporting objectives of the Town.

Condition: Several bank accounts were not recorded on the Town's general ledger. Additionally, the Town had material unrecorded balances in several funds at June 30, 2008. Finally, the Town was unable to provide the auditor with and bank statements for one of the bank accounts and this bank account was opened without the proper approval from the town council.

Cause: The Town did not have a procedure for tracking bank accounts to ensure their inclusion in the general ledger. The Town should also develop and enforce a policy that makes timely reconciliation of all bank accounts required. A procedure should be developed and enforce to only allow bank accounts that have been approved by the town council to be opened or closed.

Effect: The amounts reported for cash and investments are likely materially misstated. Additionally, fraud risk is heightened without timely reconciliation of bank accounts. A disclaimer of opinion was issued on the City's financial statements due to the inability to sufficiently complete the audit objectives necessary to render an opinion on the cash and investments balances.

Recommendation: I recommend the Town review all existing bank accounts and ensure their inclusion in the general ledger. The Town should also develop and enforce a policy that makes timely reconciliation of all bank accounts required. Also, the town should develop and enforce a policy regarding who should be able to open and close bank accounts once approved by the town council.

Management's response: The Town will draft policies and procedures and implement internal controls over cash and investments in order to meet the financial reporting objectives of the Town. The Town is currently reconciling all bank statements and verifying that the cash balances in the general ledger are accurate for each fund.

2008-11 Revenue Not Recorded

Criteria: The Town is responsible for establishing and maintaining internal controls that include controls over revenue of the Town.

Condition: The Town had \$50,000 of unrecorded revenue. Additionally, the Town had material unrecorded balances in the general fund at June 30, 2008. The Town was unable to provide evidence of where the money came from.

Cause: The Town did not have a procedure for tracking revenue to ensure the inclusion in the general ledger.

Effect: The amount recorded for revenue is materially misstated. Additionally, fraud risk is heightened without timely reconciliation and recording of revenue. A disclaimer of opinion was issued on the Town's financial statements due to the inability to sufficiently complete the audit objectives necessary to render an opinion on the revenue balances.

Recommendation: The Town should develop and enforce a policy that requires all revenue to be recorded and a receipt required for all money received.

Management's response: The Town will draft policies and procedures and implement internal controls over receipts of revenue.

2008-12 Compensated Absences

Criteria: The Town is responsible for establishing and maintaining internal controls that include controls over expenditures and liabilities of the Town.

Condition: The Town was unable to provide supporting documentation or evidence of compensated absences used and/or accrued for employees for the June 30, 2008 fiscal year end.

Cause: The Town did not maintain appropriate documentation for employees compensated absences for the fiscal year ended June 30, 2008.

Effect: The Town was unable to demonstrate that compensated absences were authorized, approved and recorded properly. The amount recorded for compensated absences could be misstated and may be at risk of undetected misstatements and/or fraud. Additionally, adequate supporting documentation was not maintained.

Recommendation: The Town should maintain supporting documentation to demonstrate the expenditure was authorized and approved by the appropriate authority.

Management's response: The Town will record and maintain appropriate documentation for all leave records for each individual employee.
