CHIEF FINANCIAL OFFICER

November 13, 2014

To the Board of Education and the Citizens of Albuquerque:

The Comprehensive Annual Financial Report (CAFR) of the Albuquerque Municipal School District No. 12 (District) for the fiscal year ending June 30, 2014 is submitted for your review. This report was prepared through an effort by the District's Accounting Office and the Independent Audit firm of CliftonLarsenAllen, LLP. The CAFR includes the unqualified opinion of our Independent Auditor. To the best of our knowledge, the enclosed data is accurate in all material respects. The information is reported in a manner designed to fairly present the financial position and the results of operations for the district as a whole as well as the various funds of the District. The CAFR for the year ending June 30, 2014, is prepared in conformance with Generally Accepted Accounting Principles (GAAP), in conformance with the standards of financial reporting established by the Governmental Accounting Standards Board (GASB) and in conformance with the Office of the State Auditor Rule 2.2.2 NMAC. The Albuquerque Public Schools is presented along with 22 component units, consisting of 19 Charter Schools, 2 Charter School Foundations, and the Albuquerque Public Schools Foundation.

Management has provided a narrative introduction, overview, and analysis to accompany the basic financial statement in the form of the Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with the MD&A. The MD&A can be found immediately following the Independent Auditors' Report.

In addition to the standard distribution to governing entities and rating services, this report will be made available to the public after final approval by the Office of the State Auditor through the APS web site at <http://www.aps.edu/finance/accounting>. All efforts are intended to encourage public interest and create a greater awareness of the District's financial operations.

About the Albuquerque Public Schools

APS is New Mexico's largest school district, serving nearly a third of the state's students. The Albuquerque Public Schools provides educational services to over 86,000 students in kindergarten through 12th grade, while 19 district-authorized charter schools service approximately 5,100 students. The District consists of 140 school sites. 89 elementary schools serve students in the kindergarten through fifth grade; 27 middle schools serve students in sixth through eighth grades; 13 high schools serve students in grades nine through 12. There are also 11 alternative schools that offer specialized services throughout the Albuquerque area.

Student achievement is the driving force behind Albuquerque Public Schools, and instruction is at the center of the District's services. More than 6,300 certified teachers and almost 2,000 educational assistants provide classroom instruction to students in kindergarten through 12th grade. Nearly 16 percent (13,726) of the District's students receive special education services based on disability, and 7 percent (6,026) of all students based on giftedness; nearly 17 percent (14,800) are English Language Learners; and nearly two thirds (58,000) qualify for free or reduced-price meals.

The District includes 97.5% of Bernalillo County and 2.5% of Sandoval County based on assessed valuation and is geographically situated in the center of the State of New Mexico. The school district's boundaries encompass all of the City of Albuquerque and the Villages of Tijeras, Los Ranchos de Albuquerque and Corrales. The District covers 1,230 square miles and serves 92,000 students from an estimated population of 670,893. The District is crossed by Interstate Highways 25 and 40 and is served by the Burlington North and Santa Fe Railroad and the Sunport International Airport. The District is also bisected by the Rio Grande, which provides irrigation that continues to support agriculture despite increased urbanization.

The area within the District is part of the Albuquerque Metropolitan Statistical Area ("MSA"). The Albuquerque MSA was redefined as of January 1993 to include the Counties of Bernalillo, Sandoval and Valencia. The Albuquerque MSA represents the largest commercial and industrial center in the State of New Mexico.

Facilities, Design, and Construction; Transportation Administration; and Maintenance and Operations are located at the Albuquerque Public Schools Lincoln Complex; and Central Administration and Instructional Support offices are located in the Alice and Bruce King Educational Complex.

APS Food and Nutrition Services operate out of the Rankin Complex with additional storage at the Lincoln Complex. Central kitchen services are provided out of the Lincoln Complex. Recently, APS purchased a 10,000 square foot commercial building to eventually house all of the District's Central Kitchen facilities, Student Nutrition Administration, and cold and dry storage. The building is centrally located and will provide the department with increased operating efficiency. This department provides meals to APS students, teachers, and staff; provides nutrition education in the classroom; food sanitation/safety training for APS staff; special dietary needs for children by registered staff dietitians; a "Kids' Tasting" program; community nutrition services, summer feeding, after school snacks, and a full catering department. They also contract services to non-profit agencies and process applications for the federal Free or Reduced-Price Lunch program.

Prior to 1999/2000, the Albuquerque area was the focus of a general population growth, which translated to a significant growth in student population, however this trend has leveled after this period. A ten year period of student counts is illustrated by the following table.

Year	Albuquerque Public Schools	Charters	Total

Enrollment data is based upon the 80/120 day average enrollments from the Final State Equalization Guarantee Funding Formula

In February 2013, the community approved a three year, \$200 million, General Obligation Bond authorization for school capital outlay projects. Among the projects presented to the public were additional classroom space, education/programmatic support, health and safety code compliance, facility renewal, and education equipment refresh. This election was approved with a 79% approval rate.

In 2014, the district used \$15 million of the \$200 million capacity approved in February of 2013 for the sale of Educational Technology Notes (ETNs). The proceeds from the sale of the ETNs will be used to provide a permanent funding stream for district technology needs including hardware, software and annual maintenance agreements for district enterprise resource planning systems. The District plans to include \$7-8 million in ETNs each year in the future to provide for ongoing technology costs associated with the refreshment of equipment and support and maintenance of hardware and software.

Additional property tax levies, approved by local voters, include property tax levies under SB9 for maintenance of schools and HB33 for construction projects and school technology. The SB9 levy was approved by voters in February, 2013 for a six-year period and is expected to provide approximately \$168 million over the course of the authorization. The HB33 levy was approved by voters in February, 2010, and will provide approximately \$391 million over the 6 year period of authorization. In 2008, the New Mexico State Legislature passed legislation requiring public school districts to include capital improvements funding for locally-chartered or state-chartered charter schools located within the District. The Charter School must provide the necessary information to the school district for inclusion in the resolution that identifies the capital improvements of the charter school for which the proposed revenue will be used. The effective date of the resolution was July 1, 2009, and as a result of voter approval, charter schools within the APS District share the HB33 and SB9 tax levy proceeds on a per-student, pro-rata basis.

General Obligation Bond proceeds as well as funding provided through the Public Schools Capital Outlay Council (PSCOC), Public Schools Facility Authority (PSFA), and direct legislative appropriations are used to expand and improve District infrastructure through the building of new schools and adding to existing schools to address the growth of the student population. In an effort to keep its facilities as up to date as possible, the District employs the services of a professional master planning firm to help develop its district wide Capital Master Plan. This plan is in accordance with requirements issued by PSCOC/PSFA. The firm is currently re-examining District facilities and will assist the District in upgrading the Capital Master Plan. Recommendations will be made for the location of future school sites.

Budget Process

The budget adopted by the Board of Education for the fiscal year 2015 provided for a budget that was both fiscally sound and built through a collaborative process that involved staff and community. For a third consecutive year, Albuquerque Public Schools received a revenue increase that was driven by an improving state economy. Revenue distributed through the State Equalization Guarantee (SEG) increased from \$613M in FY14 to \$635M in FY15. This SEG revenue growth was driven primarily by a 5.0% increase in the SEG unit value.

An SEG unit value increase of 5.0% should have resulted in a \$30M SEG revenue growth, but because of the drop in enrollment, Training and Experience Index, and special education units, the increase in SEG revenue was limited to \$22M of additional funding to Albuquerque Public Schools. Other miscellaneous revenue sources increased by \$1.0M. The \$23M revenue increase represented an overall 3.7% increase to the Operational Fund.

Budgeted expenditures in FY15 increased by \$28M over FY14 estimated expenditure levels. Budgeted expenditures were \$626M in FY14 and \$654M in FY15. The greatest contributors to the increase in expenditures include a 3% salary increase for all public education employees, an additional 3% for all educational assistants, a raise in the beginning teacher pay to \$32,000, an incremental increase in the associated benefit costs, including a .75% contribution rate increase for education retirement benefits. The budget assumes a \$5M budgeted shortfall in FY15; revenues of \$649M and expenditures of \$654M. The district will look for efficiencies to offset the shortfall or will need to draw down cash reserves if savings are not identified during the year.

Budget Preparation:

The fiscal year 2015 budget reflects the priorities of the board, administration, unions and others. There were \$7.6M in additional requests that were approved during the budget process. These requests reflect investments for the improvement of the quality of education, additional resources to support mandates from the Public Education Department, restoration of resources that were eliminated during less prosperous years, and funds to re-organize/provide additional compensation.

The proposed budget is presented to the Board in a public meeting for formal adoption. Pursuant to 22-8-10 NMSA 1978, the local school board sets budget priorities and the Public Education Department must approve final school district budgets.

Budgetary Control: The objective of budgetary controls is to assure compliance with the provisions of State Statute, the New Mexico Administrative Code and Board policy. In addition, budgetary controls ensure that funding appropriated by the Board meets intended goals. The level of budgetary controls (that is the level by which expenditures cannot exceed the appropriated amount) is carried down to the function level within each individual fund.

The district maintains an encumbrance accounting process as one technique to control budgets. In addition, the accounting system prevents expenditures from exceeding budget at the object code level. Budget Office management continually reviews detailed budget to expenditure report for budget maintenance. Quarterly reporting to the Board is provided at public meetings and becomes a part of the Board's permanent, public record. These reports are public documents and are open to public inspection.

The Organization of the District

The Albuquerque Board of Education (Board) is a seven-member, elected, public body representative of seven election districts within the District's boundaries. Each Board member is elected to a four-year term. Their authority and duties are defined in the Constitution of the State of New Mexico, State Statute section 22-5-1 to 22-5-16, NMSA, 1978 and in the related sections of the New Mexico Administrative Code (NMAC) relating to Public Schools. In general, the Board acts to set District policy, set budgets, hire a Superintendent and act upon recommendations made by the Superintendent.

The Board membership as of June 30, 2014 is as follows:

Board Member	Term Begin Date	Term End Date	Board Position
Dr. Analee Maestas	2011	2015	President
Dr. Donald Duran	2013	2017	Vice President
Steven Michael Quezada	2013	2017	Secretary
Lorenzo Garcia	2009	2017	Member
Martin Esquivel	2007	2015	Member
Kathy Korte	2011	2015	Member
Dr. David Peercy	2009	2017	Member

The Superintendent is the Chief Executive Officer of the District. The duties of the Superintendent are defined in statute and the New Mexico Regulatory Code. Mr. Winston Brooks presided over this District from July, 2008 through August, 2014. Prior to assuming the position of Superintendent, Mr. Brooks was employed with the Wichita Public Schools for over 20 years where he held various positions including principal, Division Director of Human Resources and Superintendent. Mr. Brooks received his Masters and Education Specialist Degrees from Wichita State University.

In May of 2010, Superintendent Winston Brooks appointed Don Moya to the position of Chief Financial Officer. Mr. Moya has over 15 years of public school finance experience. In December 2003, Governor Bill Richardson appointed Mr. Moya to the position of Deputy Education Secretary for Finance and Operations. Mr. Moya concurrently served as the Chief Financial Officer for the New Mexico Public Education Department. As Deputy Secretary for Finance and Operations, he oversaw a \$3.4 billion annual budget and advised the Cabinet Secretary on public education fiscal policy issues. Mr. Moya directed administrative services, transportation, instructional materials, student nutrition, school budget, finance analysis, and capital outlay divisions for New Mexico's 89 school districts and 71 charter schools. He also served as the Cabinet Secretary's designee on the Public School Capital Outlay Council and the Public School Capital Outlay Task Force. Mr. Moya has a Bachelor of Art Degree in Business Administration from the College of Santa Fe and holds a Level 1 New Mexico School Business Official's License.

The Executive Director of Accounting reports to the Chief Financial Officer. Ms. Tami Coleman began with the District in January 2007 and has 23 years of public sector administrative and financial experience. Ms. Coleman holds a Bachelor of Science Degree in Accounting from National American University in Albuquerque, New Mexico and a Level II New Mexico School Business Official's License. The Executive Director of Accounting is responsible for most business-related functions of the District including accounting, cash management, auditing and payroll. Ms. Coleman is an active Board Member of the New Mexico Association of School Business Officials (NMASBO), and is currently serving a 2-year term as Past President.

Employee Relations

During the 2013/2014 year, the District had approximately 15,500 full time, part time and substitute employees including approximately 6,300 state certified teachers. New Mexico teachers are paid according to a legislatively established three tiered licensure system. The purpose of the three tiered licensure system is to raise minimum salaries for teachers in an attempt to provide parity with other competitive employment sectors. The three tiered salary schedule will also reward teachers for higher levels of experience and education.

FISCAL YEAR	2009/2010	2010/2011	2011/2012	2012/2013	2013/2014
Average Teacher Salary	\$44,953	\$44,654	\$44,484	\$44,622	\$45,330
% of Increase	-1.4%	-0.7%	-0.4%	0.3%	1.6%
Average Years of Experience	11.0	10.0	10.5	11.0	12.63

Source: PED Online Stat Books

The table above shows the trend of average salaries for the past 5 years. The slight decrease in 2009/2010 can best be attributed to a change in the average years of experience, which dropped from 13.0 years in 2008/2009 to 11.0 years in 2009/2010. The decrease in 2010-2011 is attributable to yet another decrease in the average years of experience of the teaching force from 11.0 to 10.0 years. In addition, teacher contracts were reduced by one day as a solvency measure used to balance the FY11 budget. Solvency measures were necessary due to a reduction in district revenues as a result of the downturn in the economy. This one day reduction continued into FY12, but has been restored in FY13. In FY13 the number of teachers dropped slightly due to decreased student enrollment, but the years of teaching experience remained relatively the same. The District awarded a 3% salary increase for FY15, which was the first pay increase since 2008.

Salary Schedules in the Albuquerque Public School District are considered to be competitive with those of neighboring Districts. Employee compensation packages give credit for increasing levels of education and

length of service within each salary classification. In addition, the District pays for 60%-80% of employee health, life and dental benefit policies.

The Albuquerque Public Schools has maintained and reaffirmed a labor agreement with the representative of its certified employees' bargaining unit, the ATF-Albuquerque Teachers Federation. The current agreement was ratified by all parties on August 6, 2014, and will remain in full force and effect through July 1, 2015. The following is a summary of each of the organizations that represent APS employees:

Teachers Union: The Albuquerque Teachers Federation (ATF) is the professional union that represents all licensed teachers, counselors, librarians and support and related services personnel in the Albuquerque Public Schools. ATF represents over 7,000 employees. ATF is a union of educator professionals, representing teachers and professional support staff in all matters.

School Police: The Educational Police Officers Association represents the Districts police officers and security personnel. Approximately 34 employees are represented by this Association.

Food Service Staff (CWA Local 7011): The Communication Workers of America represents all regular food service employees such as cooks, bakers, assistant cooks and bakers, food service aides, and general helpers, excluding cafeteria managers, supervisors, and clerical employees. There are 540 employees represented by this Union.

M&O (CWA M&O Local 7070): Communication Workers of America also represents employees such as maintenance, custodial, and warehouse workers. Supervisors, secretarial and confidential employees are excluded from the bargaining unit. There are 1,463 employees represented by this Union.

Educational Assistants: The Albuquerque Educational Assistants Association is affiliated with the Albuquerque Teachers Federation. This union represents educational assistants, community support liaisons and campus security assistants, and represents approximately 1930 members.

Secretarial/Clerical: The Albuquerque Secretarial/Clerical Association represents secretaries and clerical staff that are paid on that specific salary schedule defined in the negotiated agreement. This union represents approximately 491 members.

Services Provided

APS Student Transportation Services oversees 16 bus contractors that transport over 41,000 of the district's children each day to over 140 locations. During the 2013-2014 school year, APS used 400 contract buses and 70 additional spare buses. Collectively, APS buses travel over 6 million miles annually. School transportation is provided throughout the regular school year and during the summer for extended school year programs. In addition, transportation is provided for various school-sponsored activities. Providing transportation services involves a number of planning tasks. For general transportation, the department establishes bus stop locations and times, studies hazardous walk zones, and determines the limits of walk zones (1 mile for elementary, 1.5 for middle and 2 miles for high schools). Coordinating transportation for special education students involves determining the type of bus needed. Transportation to activities involves planning one-time transportation for athletics, field trips, etc. The department also reviews routes on a regular basis to determine the most efficient/economical routes.

Student Transportation Department continues to experience greater demands for service. Student ridership has stabilized but funding has still not returned to previous levels, while the cost of providing the service continues to increase. Efficiencies have been realized, but at the expense of quality service to students. APS is transporting a higher volume of students with fewer buses which in turn makes for a

longer travel time on a bus for both regular and special needs students. In addition, APS contractors are experiencing challenges in acquiring financing in order to purchase new equipment required by the PED and currently contractors are experiencing difficulty in hiring qualified drivers.

APS Food and Nutrition Services provides healthy school breakfasts, lunches, and snacks to APS students. In addition, Food and Nutrition Services provides nutrition education and works with children who have special nutrition needs. The food service program, as an extension of the educational programs of the schools, is operated under the federally funded National School Lunch Act and Child Nutrition Act, and the National School Breakfast Act. The program serves over 75,000 meals per day (breakfast and lunch) and over 50,000 snacks a month during the school year and approximately 17,000 summer lunches per day during the summer with just over 800 employees. They also run a nutrition education and tasting program class called "Plate Investigators" that teaches kids about good nutrition.

The Special Education Department provides programs, support and technical assistance to schools with gifted students and students with disabilities. In addition, this Department provides direct services to students and is responsible for managing district responses to legal, regulatory, and budgetary matters.

Athletic and other activity programs are provided to students whose interest and desire for extracurricular experiences may lie beyond the pure academic realm. Athletics and activities sanctioned and governed by the New Mexico Activities Association are offered in grades 6-12 in the Albuquerque Public Schools. In conjunction with other local governmental and local non-profit entities, the Albuquerque Public Schools also supports community youth activities by allowing the use of school district facilities at a nominal cost to the using group.

Economic Conditions and Outlook

For a third consecutive year, Albuquerque Public Schools received a revenue increase that was driven by an improving state economy. Revenue distributed through the State Equalization Guarantee (SEG) increased from \$613M in FY 14 to \$635M in FY15. This SEG revenue growth was driven primarily by a 5.0% increase in the SEG unit value.

The positive influence of defense related industries located in the District is a historical fact; however, economic diversification has increased in recent years. In addition, the mission of the Sandia National Laboratories has been changed to include non-defense research. Sandia National Laboratories is becoming a national research laboratory rather than a nuclear research facility. Sandia has entered into a number of joint research projects with private industry and has placed a major emphasis on the transfer of technology to benefit existing industries and to spawn new ones. It is hoped that this greater diversification in the role of the laboratory will also further the diversification of the area economy.

In the private sector, Albuquerque has experienced a period of employment growth from industries such as T-Mobile, Verizon Wireless, Lowes, Sitel, and Sandia and Route 66 Casinos. In addition, Albuquerque has the third highest concentration of high-tech activity after Boulder, CO and San Jose, CA. Notable technology companies in the Albuquerque MSA include Emcore, Raytheon, CVI Melles Griot, GE Fanuc Embedded Systems, and Applied Research Associates. Unemployment rates in Albuquerque MSA have been below the national average for the past five years.

Because of its accessibility and tourist facilities, the area is the gateway for tourism in New Mexico as well as an attraction in its own right. The District includes the historic "Old Town" of Albuquerque, the Sandia Peak ski area, the Sandia Tramway, a number of nationally recognized museums and the Cibola National Forest. Other attractions include the Albuquerque International Balloon Fiesta, the National Hispanic Cultural Center, the Gathering of Nations, and the Expo New Mexico. There are also several Indian pueblos within easy driving distance that draw many tourists because of their historical significance, cultural beauty and Native American arts.

Financial Planning

District policies and procedures are in place that require the chief financial officer to manage the district's finances and take appropriate action to ensure operational fund cash balance of at least three-percent (3%) but not to exceed five-percent (5%) of the current year's budgeted operating expenditures for any given fiscal year.

The Capital Master Planning Department reports to the Chief Financial Officer which ensures all long term planning is done with full cooperation and collaboration of the Finance Department. The services of master planning consultants and financial advisors are used to help ensure full coordination of resources and needs of the District.

Relevant Financial Policies

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are reasonably protected from waste, theft, abuse or loss. Internal controls also ensure that accounting data is adequately collected and compiled to allow for the preparation of accounting reports in accordance with generally accepted accounting principles. Capital assets are identified at the time of purchase, identified upon delivery and inventoried on a yearly basis. The Accounts Payable Department assures that purchases are properly received and documented prior to payment. Issues related to the adequacy of internal controls are reviewed and changed as necessary, and policies and procedures are in place to guide staff through their daily business routines. In addition, the PED (Public Education Department) publishes and maintains a New Mexico Manual of Procedures for Public School Accounting and Budgeting. This manual will serve as a comprehensive guide for finance staff in their daily duties.

Educational Facilities and Equipment in the APS Community

As the current APS Capital Strategy (2011 – 16) nears completion, a full district assessment and evaluation of its Capital, IT and Facility needs is underway in preparation for the next Capital strategy (2017 – 22). The current strategy (\$1 billion over 6 years) was a transitional strategy that saw emphasis shift from completely new facilities in new areas of the district to renewing existing facilities and infrastructure. There was also a continuation of the shift towards a greater emphasis on educational technology (hardware/software/infrastructure) as a component of the CMP (6% to 24% over the last 10 years). All the projects/initiatives were funded with taxpayer supported general obligation bonds and mill levies.

The economic recession has seen the APS Capital program become a more prominent economic player in the local economy with CMP projects/initiatives acquiring an even larger market share due to stagnation in regional commercial and public construction activities since 2011.

All projects undertaken by this funding are either completed or started, and all obligations have been fulfilled or are in the process of being fulfilled.

A Two Mill levy and General Obligation Bond election was passed in 2013 with a 79% majority authorizing \$368 million, most of which is going directly to facility maintenance, brick and mortar construction/design and Educational Technology. \$200 million has been authorized by the General Obligation Bond and \$168 million by the Two Mill Levy. The main focus of the current CMP plan is to renew, refurbish and rebuild old schools and provide new educational and instructional technology. The next Mill Levy/Bond election will be in February 2016.

The APS Capital Master Plan continues to provide facilities for charter schools. New facilities were just completed for South Valley Academy and Montessori of the Rio Grande. A facility for Robert F. Kennedy Charter School is currently nearing completion. A Performing Arts Charter school and a Digital Arts and Vocational Skills Charter Schools are some of the next main capital Charter School initiatives that will be undertaken.

Accounting and Financial Information

This written analysis and the accompanying financial report will indicate that Albuquerque Public Schools is in sound financial health. Indicators such as Aa1 bond rating (Moody's Investor Services), AA long term rating (Standard & Poor's), balanced budgets, significant cash balances and strong budgetary management contribute to and are indicators of a positive financial direction and strong, stable management. This is further explained in the Management Discussion and Analysis.

Independent Audit

State Statute requires the independent audit of public schools on an annual basis. The audits are defined and governed by regulations issued by the New Mexico Office of the State Auditor (NMAC 8.1). Regulations require that a large public entity cannot contract with an auditor for more than six consecutive years. This audit is our third year with CliftonLarsonAllen, LLP. The hiring and contracting of the Independent Auditor is made in accordance with the State of New Mexico Procurement Code Chapter 13, NMSA 1978, State Auditor regulations and Albuquerque Public Schools Board Policy. The scope of the audit is designed to meet the state and federal requirements set forth in the State Auditor's regulations. In addition, the District includes district-authorized charter schools in its audit and financial statements as component units.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Albuquerque Public Schools for its comprehensive annual financial report for the fiscal year ended June 30, 2013. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that APS's current comprehensive annual financial report continues to meet the Governmental Finance Officer's Association's (GFOA's) Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for a certificate.

Albuquerque Public Schools received the Association of School Business Officials International's (ASBO) Certificate of Excellence in Financial Reporting award for having met or exceeded the program's high standards for financial reporting and accountability. The District was recognized for its Comprehensive Annual Financial Report for the fiscal year ending 2013. This award confirms the school business office's commitment to financial accountability and transparency. Recognition through the COE program can help

strengthen a district's presentation for bond issuance statements and promotes a high level of financial reporting.

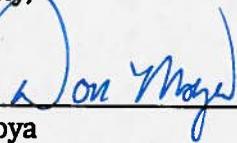

In addition, we believe that APS's 2014 CAFR will also meet the requirements of the Certificate of Excellence in Financial Reporting offered by the Association of School Business Officials International, and will submit the document for their continued certification.

The preparation and publication of this Comprehensive Annual Financial Report could not have been possible without the assistance, participation and cooperation of the entire Finance Division staff. Special notes of appreciation are extended to the District's Operational Controller, David McCarty, and Senior Accountant, Mark Turnbull, for their efforts in providing and preparing the information used for this CAFR. A note of appreciation is also made to the other departments of the District for their willingness to participate in providing information for this report.

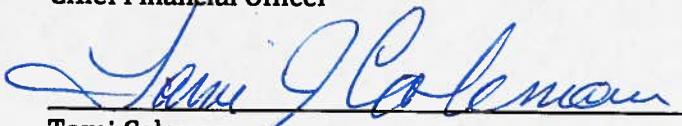

In Closing

We are pleased to present the APS Comprehensive Annual Financial Report (CAFR) for the fiscal year ending June 30, 2014. The Albuquerque Public Schools' community deserves the highest quality instruction, outstanding academic programs, and comprehensive student development supports to prepare our city's youth for the challenges they will face in an increasingly complex and diverse world. Equally important, the Albuquerque Public Schools' community deserves relevant financial information and sound fiscal controls that will result in greater accountability to its taxpayers, legislators and government entities that serve the needs of its students. APS will endeavor to meet both goals.

Sincerely,

Don Moya

INDEPENDENT AUDITORS' REPORT

State of New Mexico
Albuquerque Municipal School District No. 12
To the Board of Education and
Hector H. Balderas
New Mexico State Auditor

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information and the budgetary comparisons for the general fund and major special revenue funds of the Albuquerque Municipal School District No. 12 (the District), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. We have also audited the financial statements of each of the District's nonmajor governmental funds, internal service fund, fiduciary fund and the budgetary comparisons for the major capital project funds, debt service funds, and all nonmajor funds, and each discretely presented component unit presented as supplementary information, as defined by the Government Accounting Standards Board, in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2014, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, used by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental fund, internal service fund, and fiduciary fund of the District as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the respective and the budgetary comparisons for the major capital project funds, debt service funds, and all nonmajor funds and each discretely presented component unit for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 18 to the financial statements, in 2014 the entity adopted new accounting guidance. GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages vi-1 through vi-24 and the Schedule of Funding Progress on page 90 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the District's financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The Schedule of Expenditures of federal awards as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, introductory and statistical sections, and the other schedules required by

2.2.2.NMAC are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards and other schedules required by 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the *Schedule of Expenditures and other schedules required by 2.2.2 NMAC* are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2014 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis is a required part of the School District's and the discretely presented component unit's financial reporting and is an objective and easily readable discussion of the School District's financial activities. The reader will see two statements, a Statement of Net Position and a Statement of Activities. These statements provide the overall view of the financial activities of the School District. This discussion and analysis will provide a review of the School District's overall financial activities, using the full accrual basis of accounting, for the year ending June 30, 2014. Fund financial statements are reported on a modified accrual basis of accounting. Rather than looking at specific areas of performance, this discussion and analysis focuses on the financial performance of the School District as a whole. Whenever possible this discussion and analysis will provide the reader multi-year pictures of financial performance and other pertinent information through the use of tables and other graphic information.

This annual report consists of a series of detailed, audited financial statements, supplementary information and the notes to those statements. Albuquerque Public Schools Finance Department staff prepared these statements, and accompanying supplementary information. Also included is the Independent Auditors' Report, Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditors' Report on Compliance with Requirements that Could Have a Direct and Material Effect on Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133, and the Schedule of Findings and Questioned Costs.

Financial Highlights

The Albuquerque Public Schools District is the 30th largest school district in the United States and the largest school district in New Mexico. Of the total student membership of 330,857 in the State of New Mexico, 91,608 or 28% attend the Albuquerque Public Schools and its charter schools. The School District encompasses the majority of Bernalillo County and a small section of Sandoval County. There are 140 school sites within the School District; 89 Elementary Schools, 27 middle Schools, 13 high schools and 11 alternative schools. In addition there are 19 charter schools chartered by the Albuquerque Public Schools Board of Education.

The School District is responsible for elementary and secondary education within its geographical borders. The voters elect the members of the District's governing board which is financially

accountable for the District by approving the District's budget, levying taxes, if necessary, and approving any debt issuances.

Nineteen District-authorized charter schools are responsible for providing elementary and secondary education within the District. Each charter school is managed independently by its own governing board. The Albuquerque School District is liable for any operating deficits (to date the charter schools have not experienced any material operating deficits). The charter schools are presented as discretely presented component units in the District's Financial Statements.

All charter school operating revenues are passed through the school district to the charter schools located within the school district. Two percent of the charter school revenues are retained by the school district for administration purposes. Because the revenues are passed through the school district to the charter schools, Governmental Accounting Standards Board Standards 14 and 39 require that the APS chartered schools be treated as "component units" and included within the scope of the School District's Independent Audit and financial statements.

In FY14, SEG revenues increased by 3.9% or \$24.0 M. The SEG funding increase in FY14 was the largest annual increase since FY08, not adjusted for increases in fixed cost and inflation. Expenditures in FY14 increased by 4.7%; the largest contributors include an increase in the employer contribution rate toward educational retirement and health/medical contributions, a 1% salary increase for all employees, and \$1.0M for additional special education teacher FTE and benefits driven by increased special education enrollment.

In FY15, Operational Fund budgeted revenues increased by 3.7% or \$23M. SEG revenues accounted for \$22M, or 3.6% of this increase. Budgeted expenditures increased by \$28M from \$626M in FY14 to \$654M in FY15. The largest contributors include a 3% increase in the base salary for all public education employees, an additional 3% increase for all EA's and a raise in the Teacher tier 1 and tier 2 minimums pay to \$32,000 and \$42,000, respectively. An increase to the employee retirement plan contribution rate of 0.75%, which resulted in increased contributions by the district of \$3.1 M, was also a major contributor.

The Albuquerque Public School District maintains a strong Moody's Aa1 rating and Standard and Poor's (S&P) AA rating. These ratings reflect the highest ratings given to a school district in New Mexico and compare favorably with the City of Albuquerque (Moody's Aa1; S&P AAA) and Bernalillo County (Moody's AAA; S&P AAA). The School District also was given a "good" financial management rating from Standard and Poor's.

On September 24, 2013 APS sold \$43.4 million in General Obligation Bonds as the final installment of the \$225 million authorization approved by voters in February 2010. This funding will be used for capital project needs throughout the District.

The *Statement of Net Position* shows the School District's total assets as of June 30, 2014 totaled \$1,751,076,597 including cash assets of \$391,904,902. High levels of cash assets are in place to fund ongoing and planned school facility construction projects, and to support the District's self-insured components of Risk Management. As of June 30, 2014 the School District's self-insurance reserve fund totaled \$27,235,327. Liabilities at June 30, 2014 for health, dental and vision are stated

at 90% confidence level plus 15% to provide for claims fluctuation margin in the event of catastrophic claims. Liability balances for worker's compensation and liability and property are stated at 90% confidence level.

Overview of the Basic Financial Statements

The discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) governmental funds financial statements and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, deferred inflows of resources, and liabilities, with the remaining difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Each of the government-wide financial statements relates to functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District are all related to public education.

The government-wide financial statements can be found on pages 1-2 of this report.

Governmental Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are divided into three categories: governmental funds, internal service funds and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. The Governmental Funds Reconciliation of the Balance Sheet to the Statement of Net Position (Exhibit B-1) and the Reconciliation of the Statement of Revenues/Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities (Exhibit B-2) provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 10 individual major governmental funds and numerous non-major governmental funds. In the governmental fund balance sheet and in the governmental fund statements of revenues, expenditures and changes in fund balances, separate columns are presented for the major governmental funds while the non-major funds are combined and presented in a single column. Individual account data for each of the District bonds is presented in the foot notes in Note 8. The non-major governmental funds are provided in the form of combining statements elsewhere in this report.

The District adopts an annual budget for its governmental and internal funds type. Budgetary comparison statements have been provided for the governmental funds to demonstrate compliance with the budget. The governmental fund financial statements for the major funds can be found on pages 6-10 of this report.

Internal Service Fund: The District created an internal service fund in fiscal year 2007 for the purpose of providing increased visibility, recording and tracking of transactions related to medical and dental health plans, workers' compensation, property and liability insurances and claims. In prior years these transactions were reported within the Operational Fund. The Insurance Fund was created at June 30, 2007 with the transfer of related cash balances and liability reserves. The activity for the 2013-2014 Fiscal Year is recorded in the Internal Service Fund, and can be seen in the statements on pages 18-20.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The fiduciary fund financial statements can be found on page 21 of this report.

Notes to Basic Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found starting on page 22 of this report.

Combining and Individual Fund Schedules and Statements. The combining schedules and statements showing the individual District capital accounts and other non-major governmental funds are presented immediately following the notes to the financial statements. Combining and individual fund schedules and statements can be found starting on page 91 of this report.

Statement of Net Position (Excluding Component Units)

This statement shows that as of June 30, 2014, the School District (excluding charter schools and the Albuquerque Public Schools Foundation) has total net position of \$1,103,447,528 as compared to net position of \$1,074,598,143 as of June 30, 2013. The School District had \$398,188,633 in cash and other current assets on hand as of June 30, 2014, and accounts payable/current liabilities and current long-term debt of \$155,870,009. Cash assets increased by \$21,696,335 (5.9%) while Other Current Assets increased by 1,836,866 (41.3%). The increase in cash was attributable in part to the sale of General Obligation bonds (\$43.4 million). The \$13,919,416 increase in Capital Assets net of depreciation is mostly explained by completion of major construction projects. Long Term Liabilities have decreased from \$495,843,533 as of June 30, 2013, to \$491,612,929 (0.9%) as of June 30, 2014. Restricted net position increased from \$ 241,820,050 to \$269,285,464. Unrestricted net position decreased from \$61,934,737 to \$ 58,463,396.

The Statement of Activities is prepared using the full accrual method of accounting. This report complements the Statement of Net Position by showing the overall change in the School District's net position for the fiscal year ended June 30, 2014. In the fiscal year ended June 30, 2014, net position increased by \$ 30,617,310 as opposed to an increase by \$116,140,011 in the previous year. The significant increase in the Changes in Net Position in FY 2013 was largely attributable to the capitalization of Public School Capital Outlay awards (\$83 million).

Fund Financial Statements

Statement of Revenues and Expenditures and Changes in Fund Balances

Fund financial statements are based on a modified accrual basis of accounting. The Statement of Revenues and Expenditures and Changes in Fund Balances is not a new statement to the School District's annual financial reports. This report guides the reader to a meaningful overall view of the District's revenues, expenditures, and fund balance and changes to the fund balance. This report also shows the revenue and expenditure activities of each major fund and the total of all "other" Governmental Funds. Total revenues from State, Local and Federal sources were \$933,757,654. With the addition of \$590,626 in Interest Income, total revenues increased to \$934,348,280. Other Financing Sources (Bond Activities) added \$50,489,099 resulting in current resources for the year of \$984,837,379. Total expenditures for the School District were \$969,593,117. The total ending Fund Balance, \$316,062,742 is an increase of \$15,244,262 from the prior year.

Multi-Year District Revenues and Expenditures

Total revenues for FY 2014 increased \$39 million compared to FY 2013 driven by a \$16 million increase in State, Local and Federal funding and a \$23 million increase in other financing sources.

¹Revenues include proceeds from general obligation bonds sales in each respective year. Cash carryovers are excluded and expenditures include capital outlays.

The Budget

The State of New Mexico school budget process is defined under New Mexico State Statutes (Section 22-8, *Public School Finance*) and the New Mexico Administrative Code (Section 6.20.2 *Governing Budgeting and Accounting for New Mexico Public Schools and School Districts*). During the 2009/2010 fiscal year, APS moved from a site-based to a district-based budgeting process. Schools are provided funding based on a formula that is driven by student enrollment. Schools are also provided with additional "discretionary" funding based on their level of at risk factors (free lunch participation, mobility, English language learners). School principals then work with their staff and site councils to develop a detailed site budget.

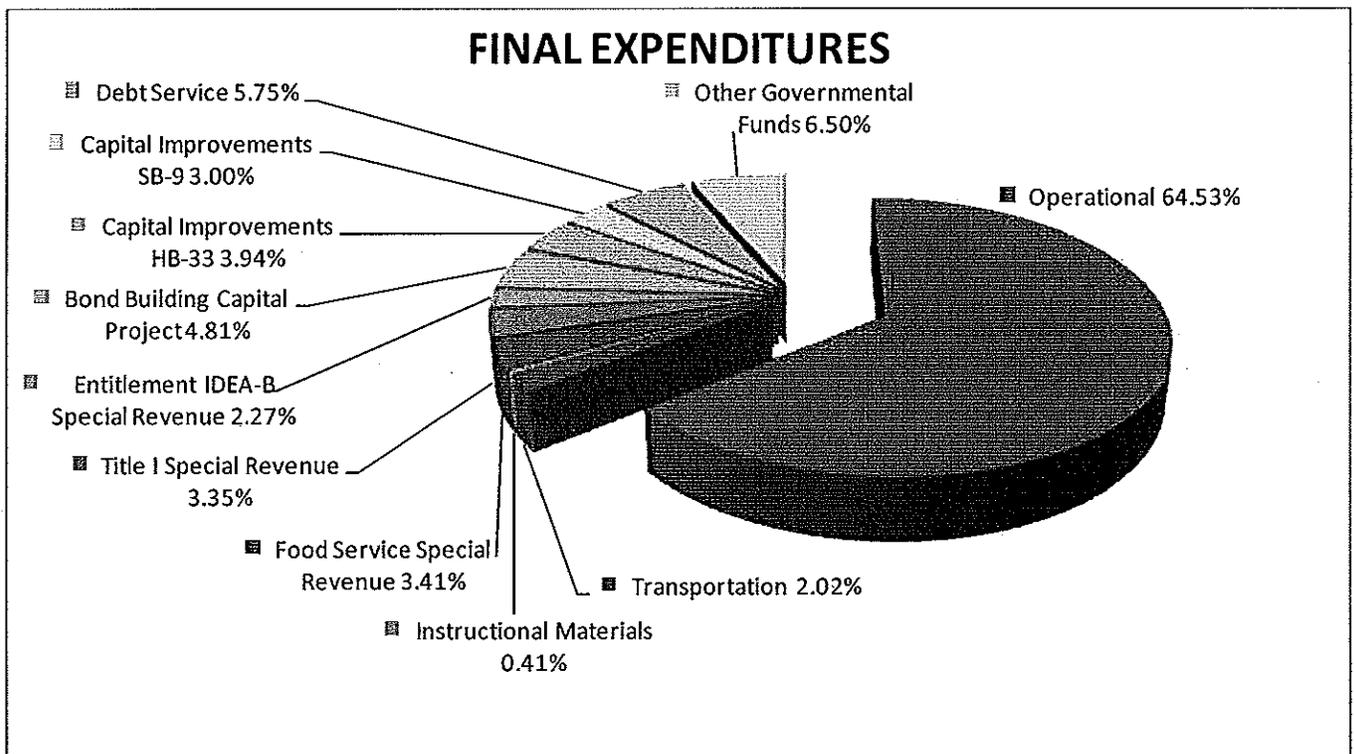

GASB 34 does not require a combining statement presenting the overall District result of the budget for each year; however, all major budgetary funds are required by the New Mexico State Auditor to be reported as separate statements.

The District had 85 active major and non-major funds at June 30, 2014. The 10 major budgetary funds in these reports are:

Operational Fund	IDEA-B
Pupil Transportation	Bond Building
Instructional Materials	Capital Improvements HB-33
Food Service	Capital Improvements SB-9
Title I - IASA	Debt Service

In addition, 68 active, non-major Special Revenue Funds, and 6 non-major Capital Projects funds and 1 non-major Educational Technology Debt Service fund are also reported for their budgetary performance.

The following graphic shows the fiscal relationship of the major funds and the combined non-major funds presented on a budgetary basis.

The Operational Fund Final Expenditures represent 64.53% of the total expended dollar amount. This fund provides the salary and benefits for the significant majority of the Instructional, Instructional Support and School Support, Maintenance and Administrative staff as well as classroom materials, special education consulting staff and fixed utility costs. Revenue from this fund is substantially derived through the statewide funding formula in the form of State Equalization Guarantee, which is appropriated for education by the State Legislature. The Operational Fund is discussed later in the *Management Discussion and Analysis*.

Total	\$ 261,101,816	\$ 290,929,687	\$ 29,827,871

The overall budgetary fund balances of these major funds have increased by \$29.8 million. The Operational Fund is showing the effect of a successful effort to increase cash balance by realizing a reduction in total expenditures. The Transportation Fund balance should always be as low as possible as 50% of this balance on a cash basis reverts to the Public Education Department. The decline in Instructional Materials has improved in the past couple of years and this fund balance is beginning to recover. The Food Services Department is accumulating resources in anticipation of moving into a new facility. A building has been purchased, and as renovations are completed, these funds will be used to furnish the facility and upgrade equipment as needed. This move will centralize all District Food Services operations in one location. The Bond Building Fund has decreased as funds have been spent on on-going projects. Mill levy funds have increased as the district re-prioritizes projects identified in the Capital Master Plan. The debt service fund balance has increased in proportion to obligations due in the short term.

The Operational Fund

The Operational Fund is the School District's largest fund. Because the Operational Fund budget for the period ending June 30, 2014 was \$661,859,476, the significant impact of this fund on School District Operations must be kept in context.

The Operational Fund is predominately funded by revenues from the State Equalization Guarantee (SEG) appropriated by the state legislature through the statewide funding formula. This fund pays for teaching staff, teaching support staff, special education support staff, maintenance staff and administrative staff. The Operational Fund also provides the majority of the funding for athletics. State public school support funding for school district operations increased by 3.9% for the year ended June 30, 2014. As shown in the *Operational Fund Statement of Revenues, Expenditures and Changes in Fund Balances – Budget*, the Operational Fund began the year with an initial expenditure budget of \$653,987,044 and had a final budget of \$661,859,476. This increase was primarily due to the difference between estimated and actual cash balance that carried forward from the previous year and funds received for e-rate reimbursements.

Because of the student growth experienced by the School District, an emphasis placed on schools by the New Mexico Legislature, and because the State Equalization Guarantee Formula is based upon student populations, the Operational Fund had historically realized increases in revenues, up until FY 2010-2011. Operational fund revenue has declined due to the recent recession. However, adding to the decline in revenue, in FY11 a policy decision was made by the State Legislature and supported by a newly elected Governor to funnel an unprecedented amount of funding outside of the statewide funding formula directly to the Public Education Department for discretionary distribution to New Mexico school districts. This trend has continued through FY15. Revenues through the funding formula have marginally increased beginning FY 2012-2013 as economic conditions have improved as seen in the following table.

Operational Fund Revenues (Including ARRA Stabilization Funds)

Year	Revenues	Increase %
2008/2009	\$ 631,994,302	1.60%
2009/2010	632,311,218 ¹	0.10%

¹ Includes Federal ARRA Stabilization Funds of \$54,203,625

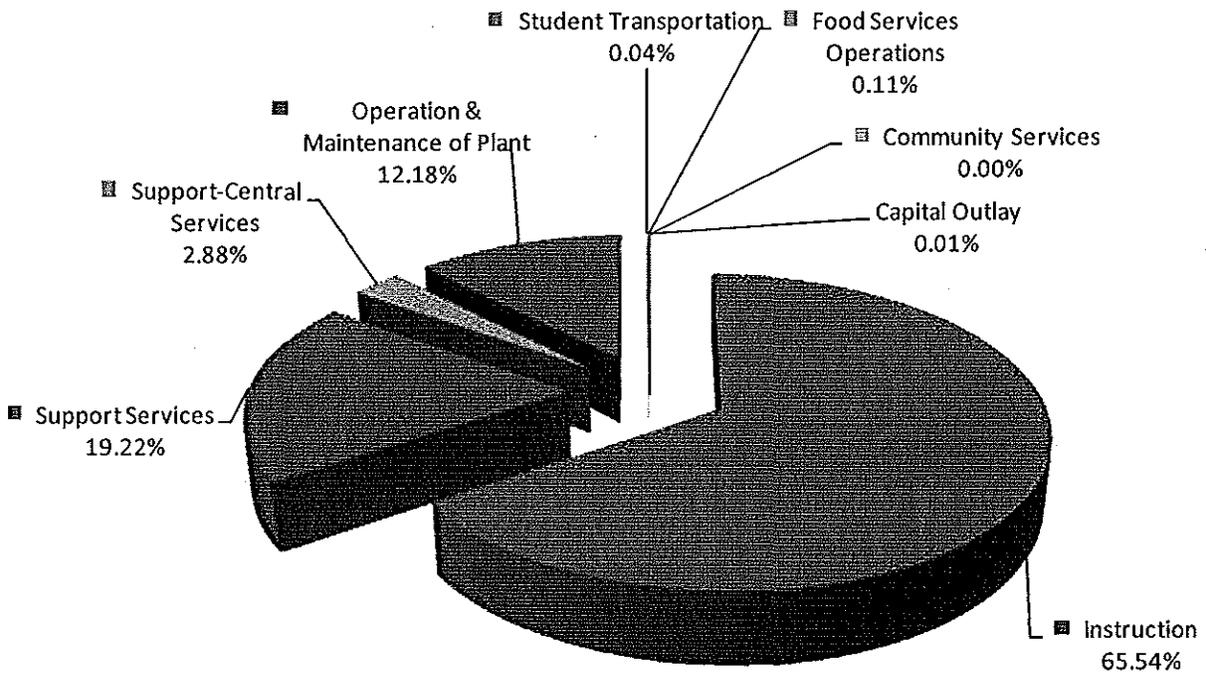

² Includes Federal ARRA Stabilization Funds of \$23,284,057

³ Includes Federal ARRA Stabilization Funds of \$246.094

Because the Operational Fund is the main fund whose expenditures are significantly related to the educational process, \$621,210,084 was expended in the year ending June 30, 2014. The most significant expenditure was for the function noted as "Instruction". This expenditure was \$407,166,073 or 65.5% of all Operational Fund expenditures. Expenditures included in this function are Regular Education teachers, Special Education teachers, Early Childhood Education teachers and educational assistants, staff benefits, payroll taxes, school supplies, training and miscellaneous instructional related contract services. In addition, \$80,629,047 or 13% was expended from the "Support Services-Students" and "Support Services-Instruction". The expenditures in these two functions are directly in support of classroom and school activities. Charges to these functions include the related expenditures for librarians, nurses, social workers, counselors and special education support staff. Less than 1% of the Operational budget was used for general administration, 5.5% was used for school administration, and 2.9% was used for Central Services which includes Business Support, Warehouse Support, and Informational Technology.

The following discussion on the Operational Fund budget will relate functional expenditures for the year ending June 30, 2014 for the Operational Fund. Instruction for APS represents 65.5% of all Operational Fund expenditures and compares favorably with the state-wide ratio for Instruction of 62%.

³Operational fund expenditure for pupil transportation only

⁴Non-Operating includes emergency reserve and legal settlement budgets. Expenditures are generally not incurred

⁵Operating costs not normally incurred by this fund within this function.

Increased expenditures levels included in the final budget compared to the original budget are the result of adjustments made for the difference between the original estimate of the previous year's ending cash balance and the actual ending cash balance. Decreases in actual expenditures compared to the final budget were principally the result of reduced salary and benefit expenditure levels driven by employee vacancies in most functional areas.

The following two tables expand the comparison between the ratios of APS and the State for the Operational Fund expenditures for the last three year period. The first table outlines the comparative functional expenditures for the three year period; the second details the resulting ratios.

²Statewide expenses are taken from PED statistical information; 2011-2012 and 2012-2013 data are actual, 2013-2014 data are budget.

Support services for students and instruction represents 13% of Operational Fund expenditures and accounts for expenditures for program coordinators, counselors, school nursing staff, librarians, special education ancillary staff and significant support to special education programs through contract ancillary support staff and contract programs. General Administration and Central Services represents the overhead support for the entire operations of the School District; these programs combined represent 3.6% of the total Operational Fund. Central Services includes Business support, Technology, and Warehousing Services. Maintenance and Operations account for 12.2% of the Operational Fund expenditures. Included in the Maintenance and Operations expenditures are salaries and benefits for maintenance staff, school custodians, fixed utility costs, maintenance and repairs, maintenance supplies and school custodial supplies. Additional support for maintenance projects comes from the voter approved Two-Mill Levy Fund (SB-9). The SB-9 fund is a critical and integral fiscal component of the School District's Maintenance

program. The Operational Fund also supports expenditures for school athletics and summer school in the Instruction function.

Administrative Costs

To allow the reader to compare the performance of the Albuquerque Public Schools with the performance of all school districts within the State of New Mexico, additional statistical information concerning state wide performance has been added to the above budget tables. In addition, the following table compares the Operational Fund costs associated with General Administration and Central Services to those of the state wide average. This information shows that the School District's expenditure in these functions is lower than the state wide average. The information used for this data is from Public Education Department FY 2013-14 budget for the period ending June 30, 2014.

Self-Insurance Benefits and Reserve Funds

Sections 22-29-1 thru 10, NMSA, mandate that school districts and charter schools are to be included in the New Mexico Public Schools Insurance Authority (NMPSIA). The statutory language also allows school districts in excess of 60,000 students to be "waived" from participation in Insurance Authority programs. As a result, the School District funds and administers its own employee benefit and risk management programs as a self-insured program. However, the charter schools are included in the NMPSIA program.

Because of an interest in providing lower cost insurance to school employees state-wide, an independent study was conducted to determine the feasibility of combining the APS programs with the Insurance Authority programs. The independent study, commissioned by APS and the Insurance Authority, was completed in January 2007 and concluded that the inclusion of APS into the Insurance Authority would lead to significant cost increases to the Insurance Authority, APS and a large number of APS employees.

As part of the self-insurance program, the School District maintains reserve funds for Medical, Dental and Vision Benefits, Risk and Workers Compensation based upon periodic actuarial studies. The School District considers these funds to be "restricted" and the funds are accounted for within an Internal Service Fund. Effective June 30, 2014, balances for the self-insurance reserves were as follows:

<u>Fund</u>	<u>Reserve</u>	<u>Confidence level</u>
Health, Dental & Vision Benefits	\$ 8,644,497	90% +
Workers Compensation	12,256,733	90%
Property/Liability	6,334,097	90%

Liabilities at June 30, 2014 for health, dental and vision are stated at 90% confidence level plus 15% to provide for claims fluctuation margin in the event of catastrophic claims. Liability balances for worker's compensation and liability and property are stated at 90% confidence level.

A confidence level is the statistical certainty that an actuary believes funding will be sufficient. For example, a 70% confidence level means that the actuary believes funding will be sufficient in seven years out of ten.

These reserves were carried forward into the 2014/2015 fiscal year and are deemed sufficient to meet requirements. The District's annual health insurance premium adjustment is implemented on January 1st of each year. On January 1, 2013, premiums increased for the first time in 3 years by 2% based on actuarial data which includes current health care cost trends. January 1, 2014 medical insurance premiums increased 5%; dental insurance increased about 7%.

Effective January 1, 2015, dental insurance premiums will increase by about 3.4% and vision plan premiums will increase about 2.7%. Medical insurance premiums will not change.

Capital Assets

GASB 34 requires public entities to depreciate capital assets. Utilization of depreciation concepts by public entities allows the reader to know if the entity is replacing its assets at a rate in which they are being used. The Albuquerque Public Schools utilizes a "straight line" depreciation method in all cases and standardized lifetime tables in calculating this depreciation.

Historically and in accordance with prior State Statute, State Regulations and School Board Policy, all assets with a value in excess of \$1,000 were capitalized. Effective July 1, 2006, this amount was increased to \$5,000 by State Statute. The District continued to capitalize all assets with a value in excess of \$1,000 through June 30, 2010. All assets on the books as of July 1, 2010 with a cost between \$1,000 and \$5,000 will remain on the District's inventory list and continue to be subject to depreciation rules for the life of the asset. Effective July 1, 2012 the district began capitalizing only equipment with a value in excess of \$5,000 in accordance with state statute. In addition, effective July 1, 2010, the District began tracking all computers regardless of value in response to a State Auditor directive that all computer hard drives be certified as "sanitized" or destroyed prior to disposal.

As of June 30, 2014, the School District capital assets had a book value of \$1,292,602,152 after depreciation. This statement includes total accumulated depreciation of the School District's capital assets in the amount of \$817,430,323 (see Note 7).

Due to fluctuations in student enrollment and certain aging facilities, the School District has taken a planned and focused approach towards investing in equipment and building new facilities as well as adding to and maintaining existing facilities. These efforts are evidenced by the substantial and continuous investment in the Capital Master Plan.

The following table displays a two-year history of year-end balances for the School District's investment in all capital assets:

In the fiscal year ending June 30, 2014, the *Statement of Revenues, Expenditures and Changes in Fund Balances* included capital outlay additions of \$83,991,169. This amount included expenditures of \$41,917,913 from the proceeds of the Bond Building Fund; \$22,502,279 was expended from the HB-33 fund for capital improvements and \$10,972,870 was expended from SB-9 funds. All three of these funds are authorized by local election. Also, \$8,507,083 was expended from non-major funds. The Operational Fund had capital outlay expenditures of \$91,024. Total capital asset additions include the following:

Capital Outlay	83,991,169
Assets charged to other functions	1,214,075
Total Capital Asset Additions	<u>\$ 85,205,244</u>

General Long Term Debt

Article IX, Section 11 of the New Mexico Constitution limits the powers of a school district to incur general obligation debt beyond a school year. The School District can incur such debt for "the purpose of erecting, remodeling, making additions, and furnishing buildings or purchasing or improving school grounds or purchasing computer software or hardware for student use in public classrooms or any combination of these purposes." The approval of the debt is subject to a vote of the local electors and may not exceed 6% of the assessed valuation of the taxable property within the School District. In accordance with the assessed valuation limitation calculation, APS long term debt may not exceed \$885,431,943.

To this point, the School District has not maintained a level of indebtedness to the maximum extent allowed. However, due to the need to add additional facilities to address fluctuations of the district's student population, upgrade and expand existing facilities, provide for the growing

demand for technology in education and the shift to digital curricula, and to leverage additional funds available from Public School Capital Outlay, the voters approved a \$225 million dollar bond authorization on February 2, 2010. During the fiscal year ending June 30, 2014, the School District issued \$43.4 million in General Obligation Education bonds, which was the last installment of the \$225 million authorization approved by voters in February 2010. An additional bond authorization of \$ 200 million was approved by voters on February 5, 2013. These bonds will be sold over a three year period and will increase the indebtedness in 2016 to an estimated 67% of the maximum debt limit allowed for by law.

The School District maintained a Moody's Aa1 rating and an S&P AA rating for the September 2013 bond sale. Effective July 1, 2003, School District bonds are also permitted to carry the *enhanced* State of New Mexico bond rating of Aa2. This action was authorized in Senate Bill 847. The effect of this bill will be to reduce the risk to bond holders and, as a consequence, reduce the interest costs to the taxpayer.

The School District has never defaulted on any of its debt or other obligations. Listed below is the School District's total general obligation debt as of June 30, 2014.

In addition to the sale of General Obligation Bonds, the School District is eligible to receive awards from the Public Schools Capital Outlay Council (PSCOC) in accordance with Senate Bill 513, Chapter 147 Section 10(b) NMSA. The impact of these various awards is discussed throughout this *Management Discussion and Analysis*.

Charter Schools

Because the operations of the charter schools are not material to the overall financial performance of the Albuquerque Public Schools, charter schools are only included in this section of the analysis. Charter school organization and management is set forth under Sections 22.8B.1 through 15, NMSA. This section of the law allows for charter schools to be formed and funded within an existing school district under specific criteria. The Albuquerque Board of Education is responsible for the review and approval of charter school applications; however, a denial of an application allows for an appeal process to the Public Education Department. Each charter school is governed by a governing body identified in the charter. The charter school governing body is responsible for the operation of the charter school including "preparation of a budget, contracting for services and personnel matters."

Because of the complexity of the rules and accounting requirements of Public Education Department, many charter schools find varying degrees of difficulty and challenges. The Albuquerque Public Schools, the New Mexico Coalition of Charter Schools, and the New Mexico Association of School Business Officials are all working to provide support and training for these schools.

The following table lists all Charter Schools active during the fiscal year ending June 30, 2014 and the summary of their fiscal performance. This information is summarized for each school on the *Combined Statement of Revenues, Expenditures and Changes in Fund Balances Governmental Funds* (GAAP). The stated fund balance is the final, adjusted, fund balance for all governmental funds as of June 30, 2014. The statement shows the performance of each individual school's combined governmental funds on a GAAP basis.

One of the more significant challenges facing charter schools is the quality of the existing charter school facilities. The State of New Mexico has mandated that charter schools occupy public facilities by the 2015 school year. Policy discussions are ongoing with regard to how that mandate will be funded and implemented. The deadline has been extended at least once from its original deadline. Included in the options for charter schools is the lease purchase financing of school facilities. The constitutional prohibition on lease purchase financing was removed by the voters as a result of the general election on November 7, 2006. It is anticipated that further legislative definition of this capital project financing tool will take place during future legislative sessions. All of the APS district authorized charter schools are included in the district's comprehensive Capital Master Plan. The Albuquerque Public Schools has invested more dollars for capital outlay for its district authorized charter schools than any other authorizer in the state. To date, the district has allocated more than \$34 million providing permanent facilities for South Valley Academy, Montessori of the Rio Grande, and the Digital Arts and Technology Academy. Construction is currently underway at Robert F. Kennedy Charter School and plans are being finalized to repurpose an existing APS facility for the Public Academy for the Performing Arts. In addition, the district is collaborating with CNM to provide a permanent building for the Native American Charter Academy on the CNM campus.

APS Education Foundation

The Albuquerque Public Schools Education Foundation is a 501(c)(3) charitable organization established in 1995 that raises private support for academic programs within the district. In addition to providing help to the 92,000 schoolchildren and 12,000 staff members of the district, the Foundation serves as a fiscal agent for a variety of programs. In 2009, the Foundation established the Horizon Campaign, a fundraising effort aimed at providing financial supplements to Fine Arts, Literacy, Science/Technology/Engineering/Math (STEM) and Middle School/High School Activities programs operated by the district. Through this campaign, the Foundation has raised more than \$850,000 in cash, in-kind donations, and pledges. This Foundation's financial statements are discretely presented in this report as a component unit.

Agency Funds

School sites, as fiscal agents, maintain and monitor special funds on behalf of the school activity groups. These agency funds maintained by the schools are intended to benefit a specific activity or interest and are generally raised by students for student use. The total of the funds district-wide is \$5,678,855.

While each school site is the fiscal agent and responsible for the administration of the agency funds, the use of these funds is in accordance with School District Policy and Public Education Department Regulations. The management of these funds is directed by the school principal and the funds are also subject to annual review by the School District's Internal Audit Department.

Future Trends

The Economy and Public School Funding: In New Mexico, the general operation of school districts is principally funded by the State through an allocation formula known as the State Equalization Guarantee (SEG). State legislators convene annually and determine the amount of funds to be allocated within the State for educational purposes. The principal resources to the State that are available for allocation include the Gross Receipts Tax and the Severance Tax (a tax on extracted natural resources).

The international economic crisis that began in 2008 has significantly impacted New Mexico. Over time, the Gross Receipts Tax had proven itself to be a reliable source of State and local revenue due to sustained economic growth since New Mexico's economy has consistently expanded from year to year for well over fifty years. New Mexico's current economic crisis has ended that growth and the Gross Receipts Tax has contracted in the last year.

The Severance Tax, however, is more volatile because it is more closely tied to the global pricing of natural resources such as oil and natural gas. Increased demand for oil and natural gas resources has had a positive effect on state revenues, which have shown a marginal increase over the past couple of years. It is important to note that, although revenue has increased, the appropriation to fund public schools through the state-wide funding formula is still below 2008 levels.

State Equalization Guarantee Funding History

The following table indicates the statewide funding of SEG along with the amount allocated to the District for the past five years.

Fiscal Year	Statewide ¹		APS District ¹

FY2013-14	Not available		612,562,319

² Statewide and APS includes \$ 188,888,604 and \$ 54,203,625 of Federal ARRA Stabilization Funds respectively

³ Statewide and APS includes \$ 44,111,247 and \$ 23,284,057 of Federal ARRA Stabilization Funds respectively

⁴ Statewide and APS includes \$ 953,267 and \$ 249,094 of Federal ARRA Stabilization Funds respectively

Operational funding of public schools for the past two years has marginally improved as the economic climate has painstakingly improved. Some of the difference in the annual rates of growth is attributable to formula factors applied in deriving the allocation to each district. For example, if a school district's student population grows at a rate that is different than the anticipated statewide growth, then that district's SEG would reflect the difference caused by the underlying change in student population ratio. Additional formula factors address the additional cost of providing for students with disabilities, bilingual education, and programs to address students at risk of dropping out. Another significant formula factor is the Training and Experience index, which recognizes the education and experience level of instructional staff and the costs associated with attracting and retaining a qualified instructional workforce.

As noted earlier, beginning in FY11, a policy decision was made by the New Mexico State Legislature and supported by a newly elected Governor to funnel an unprecedented amount of funding outside of the statewide funding formula directly to the Public Education Department for discretionary distribution. As this trend continues, there is growing concern of disequalization of per-pupil funding across New Mexico's 89 school districts and 100 charter schools. This issue compounds the fact that per-pupil funding is still below 2009 levels.

The Albuquerque Public Schools has taken a proactive approach for addressing the effects of reduce funding by undertaking a sustainability study in an attempt to become more strategic, effective and efficient with its resources. In FY14, four 2-hour study sessions were held with the Board of Education. The impetus for the development of the study is as follows:

- APS has experienced declining enrollment for four consecutive years.
- There have been too many piecemeal approaches to balancing the budget.
- Budget solutions often included employees contributing towards balancing the budget through furlough actions and shortening of contracts for teachers.

- The precipitous decline in revenue throughout the recession has forced the district to be reactionary and did not provide enough planning time during the normal budgeting process.

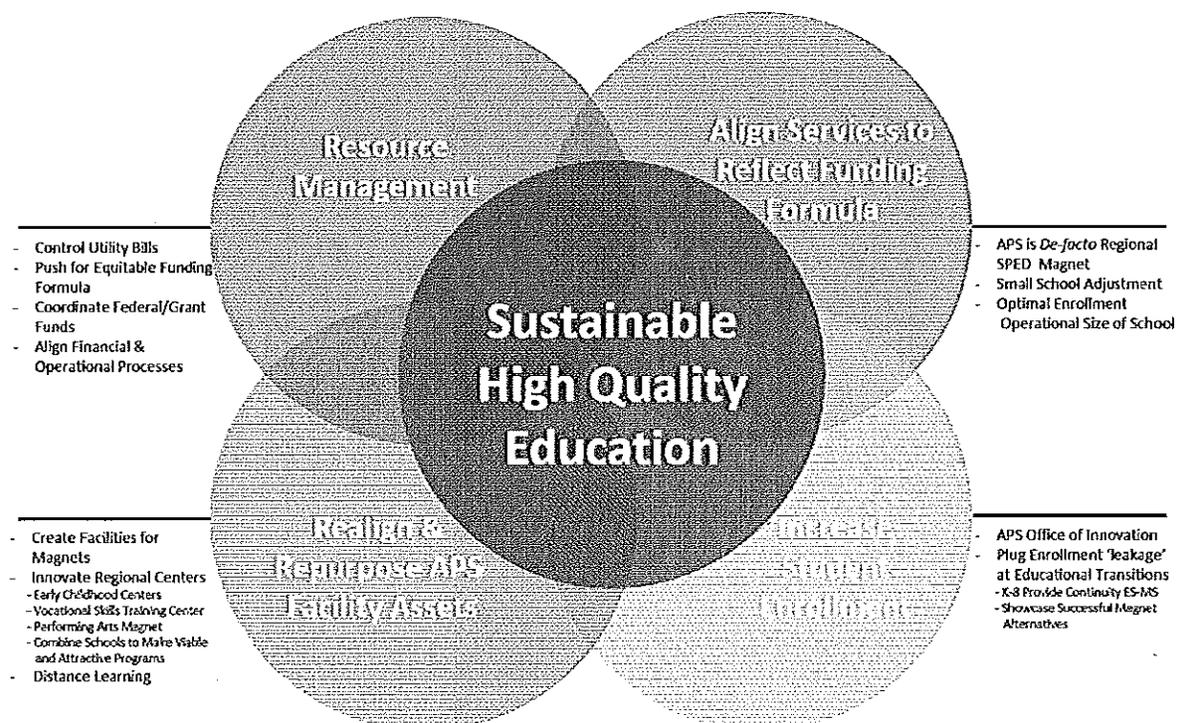

Key findings of the sustainability study:

- It is more effective to improve the bottom line by sustaining/growing revenue (as opposed to focusing only on cost controls). At some point the decision must be made to invest and innovate out of a deficit.
- Enrollment is key to improving revenues as funding through the state-wide funding formula is directly linked to student enrollment.

Key Strategies:

- Repurpose under-utilized facilities. Consider the option of creating a recurring revenue stream by renting the repurposed facilities to district charter schools currently in the district's capital master plan.
- Retain/gain enrollment by offering more choices and improving the quality of education. Improving the quality of educational experience will be a key factor in attracting and retaining student enrollment.

Areas of Opportunity for Qualitative Restructuring

Comprehensive Approach to Providing a High Quality Education

The district is currently in the process of analyzing data and prioritizing specific projects identified in the sustainability study as having a significant impact on district revenue.

Teacher Salaries: Beginning with FY2004-05 the District began implementing a three year phase in of a state mandated three tier salary schedule for teachers throughout the State. Based on a combination of education and experience, each teacher is placed within one of the three tiers in the plan. The first tier of Level I teachers were funded at a minimum salary of \$30,000. In 2005/2006, the legislature funded the increase of the Level Two teacher salary to a minimum of \$40,000. Beginning with the 2007-2008 fiscal year, the minimum salary for a Level 3 teacher was increased to \$50,000. It is anticipated that these increases in salaries will attract and retain high quality teaching staff. The Fiscal Year 2013-14 budget provided for 12,267 FTE. In this total, 6,149 FTE teachers were budgeted. The following is a seven year summary of average returning teacher salaries.

Year	Average Salary ¹	Experience
2007-08	43,380	11.1 years

Local Assessments

General Obligation Bonds: Local property taxes serve as the revenue source for the repayment of general obligation bonds. Because of the growth of both residential and commercial assessed valuation for properties in the Albuquerque School District, the School District has undertaken an aggressive expansion program to add additional classroom space in the District. The following table illustrates the growth of the assessed valuation for the Albuquerque School District.

Because of continued development in both the residential and commercial properties in the School District, it is expected that future assessed valuations will continue to increase. It is also expected that voter support for the Albuquerque Public Schools will continue to be strong and revenues from General Obligation Bond proceeds will continue to be an integral part of the School District *Capital Master Plan*.

On Feb. 2, 2010, voters approved a \$616 million bond issue and mill levy with a focus on refurbishing and rebuilding old schools, most of which are more than 40 years old. All projects approved in 2005-06 school tax funding elections are either completed or started, and all obligations fulfilled or are in the process of being fulfilled. A large focus of the last School Capital Plan was to catch up with growth areas and overcrowded schools. The main focus of the latest plan is to renew, refurbish and rebuild old schools and provide new educational and instructional technology. This plan will also begin to provide some facilities for charter schools.

**Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Government Funds to the Statement of Activities
For the Year Ended June 30, 2014**

	Governmental Funds
Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ 15,244,262
<p>Capital Outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which depreciation exceeds capital outlays for the period.</p>	
Amount by which depreciation exceeds capital outlays for the period:	
Depreciation expense	(70,895,780)
Capital Outlay Additions	85,205,244
Adjustments/Disposal of capital assets	(390,048)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds:	
Unearned revenue related to the property taxes receivable	(2,750,797)
Decrease in accrued compensated absences	(93,212)
Internal Service Fund Change in Fund Balance	3,110,393
Expenses in the statement of activities that do not consume the current financial resources of governmental funds:	
Net OPEB expense	(146,516)
<p>The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities:</p>	
Amortization of original issue premium	2,769,924
Decrease in accrued interest payable	(76,337)
Debt service principal payments	47,368,695
Original Issue Premium	(2,585,024)
Debt Proceeds	(43,400,000)
Debt Proceeds - DATA Lease Purchase	(2,743,494)
Change in Net Position - Total Governmental Activities	\$ 30,617,310

Notes to the Financial Statements

NOTE 1. Summary of Significant Accounting Policies

The financial statements of Albuquerque Municipal School District No. 12, Albuquerque, New Mexico ("District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

Reporting Entity

The District was formed in the late 1800s. The District currently operates with a superintendent and seven elected board members. The District provides educational services to over 86,000 students. The financial statements include all funds that are controlled by, or dependent on, the District. Control by or dependence on the District was determined on the basis of budget adoption, taxing authority, outstanding debt secured by general obligations of the District, or the obligation of the District to finance any deficits that may occur. KANW, a public radio station, is included in the reporting entity general fund as a department within the District.

GASB Statement No. 14 established criteria for determining the government reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the District is considered a primary government, since it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. As used in GASB Statement No. 14, fiscally independent means that the District may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. The District also has component units, as defined by GASB Statement No. 14 (amended by GASB Statements No. 39 and 61), whereby the component units are legally separate organizations. There are no other primary governments with which the School Board Members are financially accountable. There are no other primary governments with which the District has a significant relationship.

KNME-TV is a non-profit television station jointly formed by the District and the University of New Mexico and has a separate governing board from that of the District. KNME-TV provides educational programming to the residents of New Mexico. It is excluded from the reporting entity because the District does not have the ability to exercise influence over daily operations and approve budgets; however, some funding is provided by the District, as well as by the University of New Mexico, private grants, gifts and contributions. The District derives no financial benefit from its relationship with KNME and its only financial burden consists of a \$20,000 yearly contribution toward operations and payment of utility costs which amounted to \$12,780 during fiscal year 2014. Financial Statements for KNME may be obtained from the Controller's office of the University of New Mexico.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The Internal Service Fund is used to account for the operation of the Self-Insurance Management Fund which services the District's departments.

Component Units

The following charter schools were formed under NMSA 22-8A and as such are presented here as discrete component units within the District's financial statements, and separate statements are not available. District management has determined that the Charter Schools are major component units of the District under GASB Statement No. 14 (as amended by GASB 34 and 61), since their operating budgets and charters are presented and approved by the District's board and a financial burden exists upon closure of a school or when the school is in need of financial assistance. In addition, under section 6-5A-1 NMSA 1978, 501(c)(3), component units with gross annual income in excess of \$100,000 should be audited; therefore, the APS Foundation is included as a component unit.

APS Education Foundation

The Albuquerque Public Schools Education Foundation is a 501(c)(3) charitable organization established in 1995, that raises private support for programs within the district. In addition to providing help to the 86,000 school children and 11,500 full time staff members of the district, the Foundation serves as a fiscal agent for a variety of programs. In 2009, the Foundation established the Horizon Campaign, a fundraising effort aimed at providing financial supplements to Classroom Teacher Mini-Grants, Fine Arts, Literacy and Middle School/High School Activities programs operated by the district. The Foundation issues a separate set of financials and a copy can be obtained from the Foundation at 6400 Uptown Blvd. NE, Suite 630 East, Albuquerque, NM 87110.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the

primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment such as the collection of cafeteria fees and lost books, etc. and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment such as in Title I and IDEA-B or state programs such as HB-33 and SB-9. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Those revenues susceptible to accrual are property taxes, state shared taxes, investment income and charges for services. In accordance with GASB Statement 33, estimated property, and other taxes that are not available are called unavailable revenue and shown as a deferred inflow of resources. All other revenues are recognized when they are received and are not susceptible to accrual, because they are usually not measurable until payment is actually received. Expenditures are recorded as liabilities when they are incurred. Any effect of interfund activity has been eliminated from the Government-wide financial statements.

Property taxes are collected by the Bernalillo and Sandoval County Treasurers and remitted to the District. Property tax revenue is recognized at the time of receipt or earlier if accrual criteria are met. The District's accounting policy is to defer property taxes that are not collected within 60 days after fiscal year end since delinquent property taxes are not available to finance current fiscal year District operations. Delinquent property taxes collected in future periods will be recognized as revenue when collected.

Unavailable revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to incurring the qualifying expenditures. In subsequent periods when both revenue recognition criteria are met or when the District has a legal claim to the resources, the revenue is recognized.

Expenditures are recorded when the related fund liability is incurred, except interest on general long-term debt which is recognized when due, and certain compensated absences and claims which are recognized when expected to be liquidated with expendable available financial resources.

Other Financing Sources (Uses): Transfers between funds that are not expected to be repaid (or any other types, such as capital lease transactions, sale of fixed assets, debt extinguishments, long-term debt proceeds, et cetera) are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the period for which the taxes are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Ad valorem taxes (property taxes), and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met and the susceptible to accrual criteria have been met. All other revenue items are considered to be measurable and available only when cash is received.

The *agency funds* are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. These funds are used to account for assets that the District holds for others in an agency capacity.

Governmental funds are used to account for the District's general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general capital assets, and the servicing of general long-term debt. Governmental funds include:

The *General Fund* is the primary operating fund of the District, and accounts for all financial resources, except those required to be accounted for in other funds.

The *Special Revenue Funds* account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

The *Debt Service Fund* accounts for the services of general long-term debt not being financed by proprietary or nonexpendable trust funds.

The *Capital Projects Funds* account for the acquisition of fixed assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds.

Under the requirements of GASB #34, the District is required to present certain of its governmental funds as major funds based upon certain criteria. The major funds presented in the fund financial statements include the following (in addition to the General Fund), which include funds that were not required to be presented as major but were at the discretion of management:

The *Pupil Transportation Fund* is used to account for the State Equalization, received from the Public Education Department (PED), which is used to pay for the costs associated with transporting school age children.

The *Instructional Materials Fund* is used to account for the monies received from the Public Education Department (PED) for the purposes of purchasing instructional materials (books, manuals, periodicals, etc.) used in the education of students.

The *Food Service Fund* is used to account for the cost of operating a student breakfast, lunch, snack bar and summer lunch program and is financed with federal grants and fees paid by program users.

The *IASA Title I Fund* is used to provide compensatory education services to educationally deprived school children (including private school pupils) in low-income areas. (P.L. 103-382)

The *IDEA-B Entitlement Fund* is used to account for federal resources administered by the public education dept. to provide for special educational needs of handicapped 6-21 year olds. (PL 94-142 & PL 99-457)

The *Bond Building Capital Projects Fund* is used to account for bond proceeds and any income earned thereon. The proceeds are restricted for the purpose of making additions to and furnishing of school buildings, or purchasing or improving school grounds or any combination thereof, as approved by the voters of the District.

The *Capital Improvements HB33 Fund* is used to account for the costs relating to erecting, remodeling, making additions to, providing equipment for, or furnishing public school buildings and purchasing or improving public school grounds. Financing is provided through property taxes as specified by Article 26 of the Public School Buildings Act. (House Bill 33)

The *Capital Improvements SB9 Fund* is used to account for erecting, remodeling, making additions to and furnishing of school buildings, or purchasing or improving school grounds or any combination thereof as identified by the local school board. Financing is provided by the State of New Mexico's State Equalization Matching and a special tax levy as authorized by the Public School District Capital Improvements Act. (22-25-1 to 22-25-10, NMSA 1978)

The *Debt Service Fund* is used to account for the accumulation of resources for the payment of General Long-Term Debt principal and interest.

Additionally, the government reports the following fund types:

Fiduciary Funds are used to account for assets held by the District as an agent for individuals, private organizations or other governments. Agency Funds are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. These funds relate primarily to the activities of individual schools. While these funds are under the supervision of the District and enhance the District's educational programs, they are funds of the individual schools and/or their student bodies and are not available for use by the District.

The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. Fiduciary funds are not included in the District Wide Financial Statements. Fiduciary funds are reported only in the Statement of Fiduciary Net Position at the fund financial statement level.

The *Internal Service Fund* is used to account for the operations of the Self-Insurance Management Fund which services the District's departments on a cost-reimbursement basis. The activity tracked in this Internal Service Fund includes employee health insurance, worker's compensation insurance, and property and liability insurance for the District. All expenses are captured in this fund, and proceeds from employee deductions and budgeted appropriations are coded here as revenue sources. Collections from excess insurance policies are also deposited into this fund. The Internal Service Fund is reported in the Proprietary Funds section of this report. Internal Service Fund operating revenues include employer and employee contributions, Non-operating revenues are limited to interest income. Operating expenses include claims and overhead expenses.

The Statement of Net Position and the Statement of Activities were prepared using the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Non-exchange Transactions."

Assets, Liabilities and Net Position or Equity

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Cash and Cash Equivalents: Policies regarding cash and cash equivalents are approved by the District's Board of Education and are governed by New Mexico statute. Such policies allow deposits or investments in certificates of deposit, savings accounts, overnight repurchase agreements, various obligations of the U.S. Government or its agencies and the New Mexico State Treasurer's Local Government Short Term Investment Fund. Such deposits and investments must be made through a State or Federally chartered

bank or savings and loan association which is insured by the FDIC and which is within the geographic boundaries of the District, or with the New Mexico State Treasurer. The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

The District's Restricted Cash and Cash Equivalents of \$268,565,252 consist of cash balances in all funds except the Operational Fund. This includes Transportation, Instructional Materials, Special Revenue Funds, Capital Outlay and Debt Service.

Collateral is required for at least 50% of deposits that are not insured by the FDIC, with the exception of repurchase agreements. These are required to have collateral of at least 102%. Obligations that may be pledged as collateral are obligations of the U.S. Government, its agencies, and state and local governments. Collateral is held in safekeeping at depository institutions in the name of the District.

For purposes of the Statement of Cash Flows, the internal service fund considers Cash and Investments as highly liquid assets (including restricted assets) with maturity of three months or less when purchased to be cash equivalents.

Receivables and Payables: Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as interfund receivables and interfund payables.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. The allowance for doubtful accounts is based on management's assessment of the collectability of specific accounts, the aging of accounts receivable and historical experience.

The District receives monthly income from a tax levy in Bernalillo and Sandoval Counties. The funds are collected by the County Treasurers and are remitted to the District the following month.

Certain Special Revenue funds are administered on a reimbursement method of funding; other funds are operated on a cash advance method of funding. The funds incurred the cost and submitted the necessary request for reimbursement or advance, respectively.

Prepaid Items: The consumption method is used to report prepaid items. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Inventory: Supply inventories are valued at the lower of average cost or market and consist of educational supplies, purchased and donated commodities. Donated inventories, received at no cost under a program supported by the Federal Government, are recorded at the lower of their estimated fair market value at the date of receipt or current market value.

The food commodities received from the Federal Government (passed through from the State) are recorded as revenues and expenditures as they are consumed. Quantities on hand at year-end are recorded as inventory with an offsetting credit to revenue.

The consumption method is used to report inventories. Purchased inventories are recorded as expenditures at the time individual inventory items are used. Reported inventories are offset by a non-spendable fund balance which indicates that they do not constitute available expendable resources.

Capital Assets: Capital assets are recorded at historical cost and depreciated over their estimated useful lives (with no salvage value). Historically and in accordance with prior State Statute, State Regulations and School Board Policy, all assets with a value in excess of \$1,000 were capitalized. Effective July 1, 2006, this amount was increased by state statute to \$5,000. The District continued to capitalize all assets with a value in excess of \$1,000 through June 30, 2010. Assets on the books as of July 1, 2010 with a cost between \$1,000 and \$5,000 have remained on the District's inventory list and continue to be subject to depreciation rules for the life of the asset. Effective July 1, 2011 the District began capitalizing only equipment with a value in excess of \$5,000 in accordance with state statute. In addition, effective July 1, 2009 the District began tracking all computers regardless of value.

Donated capital assets are recorded at their estimated fair value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Capital assets include land and land improvements, buildings and building improvements, furniture, fixtures, equipment, machinery and vehicles. Capital assets are used in operations and have a useful life of more than one year and a cost exceeding established capitalization thresholds. The school district does not own any infrastructure assets such as roads, bridges, tunnels, drainage systems, water and sewer systems, dams and lighting systems.

Purchased capital assets costing more than \$5,000 are recorded at historical cost, including significant ancillary charges necessary to place the asset into its intended location and condition for use. Improvements to land and buildings are capitalized at the higher threshold of \$25,000. Donated capital assets valued at more than \$5,000 are recorded at the time of acquisition at estimated fair value plus ancillary charges.

Capital assets are reported net of accumulated depreciation in the statement of net position. Capital assets that are not being depreciated, such as land, are reported separately for significant amounts. Capital assets are depreciated over their estimated useful lives using the straight-line depreciation method and full-month averaging. No salvage value is allowed for this purpose. Estimated useful life is management's estimate of how long the asset is expected to meet service demands.

Straight-line depreciation is used based on the following estimated useful lives:

Computer Equipment and Business	5 Years	Improvements to Land	20 Years
General Equipment and Musical	8 Years	Improvements to Bldgs.	20 Years
Vehicles, Trucks, and Trailers	8 Years	Portable School Buildings	25 Years
Furniture, Major Appliances, Large	10 Years	Buildings	40 Years

Depreciation was allocated to the various functions based upon originating purchasing source where identifiable. Unallocated depreciation was recorded in the statement of activities.

Unearned Revenues: The District reports unearned revenues on its Statement of Net Position and various fund balance sheets. Unearned revenues arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the occurrence of qualifying expenditures. In subsequent periods, when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and the revenue is recognized.

Accrued Salaries: Certain employees of the District (primarily school teachers and support staff) work nine months of the 12-month fiscal year. The District disburses payroll to such employees throughout the entire 12-month period. Accordingly, salaries payable included as accrued expenses in the accompanying financial statements include accrued salaries for services performed through June 30, 2014 for these

employees. The accrued salaries will be paid within two months after the end of the fiscal year.

Compensated Absences: In the event of termination or retirement, employees may be paid for up to 176 hours of accumulated vacation leave. Accordingly, accumulated vacation leave is recorded as if fully vested. The vested vacation leave payable is calculated using current pay levels and is recorded in the government-wide fund.

Long-term Obligations: In the government-wide fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. During the year \$19,936,123 in interest on long term debt was recorded, including \$7,650,172 in accrued interest payable.

Deferred Outflows/Inflows of Resources: In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District did not have any items that qualified for reporting in this category as of June 30, 2014.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District reported unavailable revenue that amounted to \$16,317,743 at June 30, 2014. The District also reported amounts collected in advance of eligibility that amounted to \$146,131 at June 30, 2014.

Fund balance: The difference between assets and liabilities in the governmental fund financial statements are among the most widely and frequently used information in state and local government financial reports.

GASB Statement No. 54 distinguishes fund balances based on the relative strength of the constraints that control the purposes for which specific amounts can be spent. Beginning with the most binding constraints, fund balance amounts are reported in the following classifications:

- **Nonspendable** - portion of net resources that cannot be spent because of their form or because they must remain intact
- **Restricted** - amounts constrained by external parties, constitutional provision, or enabling legislation
- **Committed** - amounts constrained by a government using its highest level of decision-making authority. The Board of Education is the highest level of decision making authority. Formal Board action, through a resolution creates a commitment.
- **Assigned** - amounts a government intends to use for a particular purpose
- **Unassigned** - amounts that are not constrained at all will be reported in the general fund.

The new standards also clarify the definitions of individual governmental fund types. It interprets certain terms within the definition of special revenue fund types, while further clarifying the debt service and

capital projects fund type definitions. The final standard also specifies how economic stabilization or "rainy-day" amounts should be reported.

Operational Fund Cash Balance Procedural Directive

The chief financial officer shall manage the district's finances and take appropriate action to ensure an operational fund cash balance of at least five-percent (5%) of the current year's budgeted operating expenditures for any given fiscal year.

District finances shall be managed to accumulate and maintain an operational fund cash balance of at least five-percent (5%) of the current year's budgeted operating expenditures by the end of fiscal year 2014, or June 30, 2014, and thereafter.

Upon accumulation of the operating fund cash balance of at least five-percent (5%), the operating fund cash balance may only be drawn down below that level under the following circumstances:

- a. An unexpected loss of revenue which includes, but is not limited to a mid-year reduction in operational revenues from the New Mexico Legislature and/or the New Mexico Public Education Department which were not included in the final approved budget, or
- b. Approval from the Board of Education for a non-budgeted expenditure.
- c. Upon approval from the New Mexico Public Education Department through a budget adjustment request. In an emergency, the chief financial officer may spend the operational fund cash balance prior to approval of the budget adjustment request.

Upon receiving any indication that the operating fund cash balance may not equal at least five-percent (5%) at any point within a rolling five-year financial forecast period, the chief financial officer shall immediately report the information to the superintendent and the Board of Education. It shall be the responsibility of the chief financial officer to provide recommendations to the superintendent and the Board of Education that may assist in accumulating and maintaining the operating fund cash balance as outlined in this procedural directive.

Net Position: In June 2011, GASB issued GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position* (GASB 63), effective for the District's fiscal year beginning July 1, 2012. GASB 63 modifies the presentation of deferred inflows and deferred outflows in the financial statements; it also limits the use of the term "deferred." Implementation of GASB 63 had no effect on the District's net position or changes in net position for the fiscal year ended June 30, 2013.

The government-wide statements utilize a net position presentation categorized as follows:

Net investment in capital assets - This category reflects the portion of net position that are associated with capital assets less outstanding capital asset related debt.

Restricted Net Position - For the government-wide statement of net position, net position is reported as restricted when constraints placed on net asset used are either:

1. Externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; or
2. Imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - This category reflects net position of the District not restricted for any project or other purpose.

The District's policy is to apply restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available. The District's restricted fund balances for student instructional materials, pupil transportation and capital projects on Exhibit B-1 represent those imposed by law through enabling legislation. When an expenditure is incurred for which committed, assigned, and/or unassigned amounts of funding are available, funds are applied in that respective order.

Interfund Transactions: Reciprocal and non-reciprocal transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/ expenses in the fund that is reimbursed. All other interfund transactions, except reciprocal and non-reciprocal transactions and reimbursements, are reported as transfers.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Estimates in these financial statements include the District's estimate of useful lives for determining accumulated depreciation and depreciation expense, an estimate of accrued interest, estimates of worker's compensation and health insurance claims and an estimate on property taxes receivable.

Revenues

Program revenues: In the Statement of Activities, program revenues derive directly from the program itself or from parties outside the District's taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues. Program revenues are categorized as (a) charges for services, which includes revenues collected for cafeteria fees and lost books, etc., (b) program-specific operating grants, which includes revenues received from state and federal sources such as Title I and IDEA-B funding to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues from state sources such as SB-9 and HB-33 funding to be used for capital projects.

State Equalization Guarantee: School districts in the State of New Mexico receive a 'state equalization guarantee distribution' which is defined as "that amount of money distributed to each school district to insure that the school district's operating revenue, including its local and federal revenues as defined (in Chapter 22, Section 825, NMSA 1978) is at least equal to the school district's program cost.

A school district's program costs are determined through the use of various formulas using 'program units' which take into consideration 1) early childhood education; 2) basic education; 3) special education; 4) bilingual-multicultural education; 5) size, etc. Payment is made from the public school fund under the authority of the Director of Public School Finance. The District received \$612,562,319 in state equalization guarantee distributions during the year ended June 30, 2014.

Tax Revenues: The District receives mill levy and ad valorem tax revenues primarily for debt service and capital outlay purposes. Tax revenues are recognized for governmental purposes when they are assessed and for fund purposes when they are measurable and available. The District records only the portion of the taxes considered to be 'measurable' and 'available'. Descriptions of the individual debt service and capital outlay funds contained in these financial statements include information regarding the authority for the collection and use of these taxes.

Property taxes: An enforceable lien is attached on property as of January 1st. Tax notices are sent to property owners by November 1st of each year, to be paid in whole or in two installments by November 10th and April 10th of each year. The County collects County, City, and School taxes and distributes some to each fund once per month.

Pupil Transportation Distribution: School districts in the State of New Mexico receive student transportation distributions. The transportation distribution is allocated to each school district in accordance with formulas developed by the State Transportation Director and the Director of Public School Finance. The funds shall be used only for the purpose of making payments to each school district for the to-and-from school transportation costs of students in grades K through twelve attending public school within the school district. Allocations received from the State for the year ended June 30, 2014 totaled \$19,475,331; \$19,470,668 from State Transportation Distribution funds and \$4,663 for administrative fees collected on Charter School Transportation allocations.

Instructional Materials: The New Mexico State Public Education Department (PED) receives federal mineral leasing funds from which it makes annual allocations to the various school districts for the purchase of educational materials. Of each allocation, fifty percent is restricted to the requisition of materials listed on the State Board of Education's "State Adopted Instructional Material" list, while fifty percent of each allocation is available for purchases directly from vendors. Allocations received from the State for the year ended June 30, 2014 totaled \$5,117,784.

SB-9 State Match: The Director shall distribute to any school district that has imposed a tax under the Public School Capital Improvements Act (22-25-1 to 22-25-10, NMSA 1978) an amount from the public school capital improvements fund that is equal to the amount by which the revenue estimated to be received from the imposed tax as specified in Subsection B of Section 22-25-3, NMSA 1978, assuming a one hundred percent collection rate, is less than an amount calculated by multiplying the product obtained by the rate imposed in the District under the Public School Capital Improvements Act. The distribution shall be made by December 1st of each year that the tax is imposed, in accordance with Section 22-25-3, NMSA 1978. However, in the event that sufficient funds are not available in the public school capital improvements fund to make the state distribution provided for in this section, the dollar per program unit figure shall be reduced as necessary.

Public School Capital Outlay: Under the provisions of Chapter 22, Article 24, a public school capital outlay fund was created. The money in the fund may be used only for capital expenditures deemed by the public school capital outlay council necessary for an adequate educational program, and capital outlay expenditures are limited to the purchase, or construction of temporary or permanent classrooms.

The council shall approve an application for grant assistance from the fund when the council determines that:

1. A critical need exists requiring action;
2. The residents of the school district have provided all available resources to the district to meet its capital outlay requirements;
3. The school district has used its resources in a prudent manner;
4. The District is in a county or counties which have participated in the reappraisal program and the reappraised values are on the tax rolls, or will be used for the tax year 1979 as certified by the property tax division; and
5. The school district has provided insurance for buildings of the school district in accordance with the provisions of Section 13-5-3, NMSA 1978.

The council shall consider all applications for assistance from the fund and after public hearing shall either approve or deny the application. Applications for grant assistance shall only be accepted by the council after a district has complied with the provisions of this section. The council shall list all applications in order of priority and all allocations shall be made on a priority basis. Money in the fund shall be disbursed by warrant of the Department of Finance and Administration on vouchers signed by the Secretary of Finance and Administration following certification by the council that the application has been approved.

Allocation of Indirect Expenses: The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. The District does not currently employ indirect cost allocation systems. Depreciation expense not charged to a specific function is identified as unallocated on the Statement of Activities. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Federal Grants: The District receives revenues from various Federal departments (both direct and indirect), which are legally restricted to expenditures for specific purposes. These programs are reported as Special Revenue Funds. Each program operates under its own budget, which has been approved by the Federal Department or the flow through agency (usually the State of New Mexico Public Education Department). The various budgets are approved by the Local School Board and the New Mexico State Public Education Department. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

The District also receives reimbursements under the National School Lunch and Breakfast Programs for its food services operations, and the distributions of commodities through the New Mexico Human Services Department. The value of commodities received for the year ended June 30, 2014 was \$1,719,109 and is reported in the Schedule of Expenditures of Federal Awards under the Department of Agriculture Commodities Program, CFDA number 10.550. Commodities are recorded as revenues and expenditures in the food service fund.

Budgetary Information

The following procedures are utilized to establish the District budget:

1. Subsequent to January 31, and prior to June 1, the Superintendent submits to the District's Board of Education a proposed budget for the fiscal year which commences on July 1. The budget includes an estimate of revenues and a proposed expenditure plan.
2. The proposed budget is presented at meetings subject to the Open Meetings Act of New Mexico, and the public is invited to comment.
3. The District is required to submit to the State of New Mexico, Public Education Department School Budget & Financial Analysis Unit (SBFAU) a balanced budget for the fiscal year which commences on July 1.
4. Based on criteria set by the SBFAU, the District undergoes either a formal technical review of the proposed budget or a more informal phone review each year. Subsequent to this review, the local Board approves a budget resolution to adopt the proposed budget subject to any technical adjustments by SBFAU. The final budget as approved by SBFAU is provided to the Board for information purposes only.

5. The budget is adjusted throughout the fiscal year based upon changes in programmatic needs. All intra-function transfers (adjustments within a function) of budget amounts are approved by site administrators and then if over \$10,000 by control agents. These adjustments are then submitted to the Board of Education for final approval. Inter-function transfers (transfers between functions) include the same level of approvals, but require additional approval by the SBFAU. Budgetary control is at the function level; over-expenditure of a function is not allowed per NMAC 6.20.2.9.A.
6. Budgets for the General Fund, Special Revenue Funds and Capital Projects Funds are adopted on a basis consistent with the "Manual of Procedures for Uniform Financial Accounting and Budgeting for School Districts". Budgetary amounts for the Debt Service Fund are based upon the issuance of general obligation bonds.
7. Budgeted amounts are as originally adopted or as amended by the SBFAU.

For budgetary purposes, expenditures include amounts paid in the fiscal year, adjusted for the effects of liabilities paid within ten days of fiscal year-end and unpaid salaries and benefits attributable to services provided during the school year. The Board of Education must approve amendments to the appropriated budget when the budgeted fund balance differs from the actual fund balance at the end of the fiscal year. New Mexico state law prohibits a Governmental Agency from exceeding the appropriated budget.

The Statements of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual present comparisons of the legally adopted budget with actual data on a budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with generally accepted accounting principles, a reconciliation of resultant basis, perspective, equity and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2014 is presented with each fund's Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual (Non-GAAP Budgetary Basis).

Budgetary comparisons are presented in the balanced presentation format whereby the excess (deficiency) of revenues over expenditures is reflected as Beginning Fund Balance for budgetary purposes. The major differences between the budgetary basis and the GAAP basis are:

1. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP); and
2. Generally, expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP). However, budgetary expenditures include amounts for salaries and benefits attributable to services provided during the fiscal year. The non-budgeted accounts and funds primarily consist of the adjustment to record the USDA commodity allocation.

NOTE 2. Cash and Cash Equivalents and Investments

State statutes authorize the investment of District funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government obligations. All invested funds of the District properly followed State investment requirements as of June 30, 2014.

Deposits of funds may be made in interest or non-interest bearing checking accounts, in one or more banks or savings and loan associations within the geographical boundaries of the District. Deposits may

be made to the extent that they are insured by an agency of the United States, or by collateral deposited as security, or by bond given by the financial institution.

Amounts reported as Agency Funds in Exhibit E-1 represent amounts held by individual school locations and departments. These funds are used to finance non-curricular activities augmenting but not replacing activities provided through funding provided by the District.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States Government, or by their departments or agencies, and which are either direct obligations of the State or the United States, or are backed by the full faith and credit of those governments.

The collateral pledged is listed on Schedule II of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency, district, or political subdivision of the State of New Mexico.

According to the Federal Deposit Insurance Corporation, public unit deposits are funds owned by the public unit. Time deposits, savings deposits, and interest bearing NOW accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the government’s deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk, other than following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). At June 30, 2014, \$397,856,509 of the District’s bank balance of \$404,201,550 was exposed to custodial credit risk because it was uninsured and collateral held by pledging bank’s trust department was not in the District’s name.

Interest rate risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the District’s investments. The District’s investment policy indicates that the District is to attempt to secure a maximum yield of investment earnings to supplement other revenues for the support of the District. The District only invests in securities allowed under Section 6-10-10 NMSA 1978.

NOTE 3. Receivables

Accounts receivable are recorded in the various governmental funds. They consist of amounts receivable from local governments relating to various grant agreements and property taxes receivable.

Accounts receivable are shown net of an allowance for uncollectables. Accounts receivable in excess of 180 days comprise the trade accounts receivable allowance for uncollectables. Restricted Accounts Receivables of \$60,079,891 consist of those receivables related to special revenues, amounts due from other governments for special revenue and capital outlay funds, and property tax receivables.

Receivables as of June 30, 2014 are as follows:

NOTE 6. Interfund Receivables, Payables, and Transfers

Generally, these inter-fund receivables and payables are generated when a fund incurs an expense and is waiting for reimbursement from the grantor. The balance represents the amount of cash provided by the General Fund to cover the expense until payment is received. All of these balances are expected to be collected in the subsequent year. Interfund transfers generally occur for two reasons; to correct the recording of expenses or revenue and to cover over-expenditures of Special Revenue Funds. There were no interfund transfers for the year as of June 30, 2014.

Bonds are secured by the District's full faith and credit and are general obligations of the District payable from ad valorem taxes to be levied, without limitation as to rate or amount, against all taxable property within the District. Debt service debt requirements are liquidated as property taxes are received and debt service principal and interest payments become due. They are paid primarily from the General Fund and Debt Service Fund. Interest on all issues is payable semiannually on February 1 and August 1. Principal is payable annually on August 1. The proceeds of the bonds are being used for the purpose of erecting, remodeling, making additions to and furnishing school buildings, and purchasing and improving school grounds.

On September 24, 2013 APS sold \$43.4 million in General Obligation Bonds as part of the \$225 million authorization approved by voters in February 2010. This funding will be used for capital project needs throughout the District. This sale is the final installment of the \$225 million authorization approved by voters in February 2010.

DATA Lease Purchase

On August 23, 2013 the District entered into a twenty year \$2.7 million financing agreement with the New Mexico Finance Authority for the purchase of property to be used by and leased to Digital Arts & Technology Academy, a New Mexico charter school authorized by the District.

Arbitrage/Yield Reduction

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the United States Treasury at least every five years. The District did not have any arbitrage liability at June 30, 2014.

Bond proceeds may be invested in higher yielding investments only during a temporary period described in Regulation section 1.148-2(e). After expiration of an applicable temporary period, proceeds must be yield restricted.

Operating Leases – The District leases various equipment under short-term cancelable operating leases. Rental expense for the year ended June 30, 2014 was \$ 2,292,397.

NOTE 9 Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied each year on July 1, on the taxable valuation of property located in the District as of the preceding January 1. The taxable valuations for the various classes of property are determined by the Bernalillo and Sandoval Counties Assessors and the State of New Mexico Department of Taxation and Revenue at one-third of assessed valuation. Property in the District for the fiscal year 2014 tax levy had a taxable value of \$ 14,757,199,050.

The rate of taxes for operating purposes for all taxing jurisdictions is limited by the State Constitution to 20 mills (\$20 per \$1,000 assessed valuation) of which the District's House Bill 33 portion, by state regulation, is limited to 15 mills. Taxes are payable in two equal installments due on November 10 and April 10 and become delinquent after 30 days.

Unavailable Revenue and Property Taxes Receivable at June 30, 2014 are as follows :

	Unavailable Revenue			Current Portion Delinquent Taxes	Accounts Receivable
	Current Taxes	Delinquent Taxes	Total		
General Fund	\$ 187,765	\$ 379,648	\$ 567,413	\$ 52,530	\$ 619,943

The District has calculated property taxes by multiplying the tax levy by the taxable value, reducing that amount by actual collections, and recording the difference as unavailable revenue. Delinquent property taxes are estimated based on the various mill levies, as the split between funds is not available from the taxing districts. The amount estimated at June 30, 2014 for delinquent taxes is \$11,051,966 and is recorded as unavailable revenue.

NOTE 11. ERA Pension Plan

Plan Description:

Substantially all of the District's full-time employees participate in a public employee retirement system authorized under the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978). The Educational Retirement Board (ERB) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members (certified teachers, and other employees of State public school districts, colleges and universities) and beneficiaries. ERB issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to ERB, P.O. Box 26129, Santa Fe, NM 87502. The report is also available on ERB's website at www.nmerb.org.

Funding Policy.

Member Contributions

Plan members earning \$20,000 or less annually are required by statute to contribute 7.9% of their gross salary. Plan members earning over \$20,000 annually were required to contribute to the plan 10.1% of their gross salary in fiscal year 2014; and 10.7% of their gross salary in fiscal year 2015 and thereafter.

Employer Contributions

In fiscal year 2014, the District was required to contribute 13.15% of the gross covered salary for all eligible employees. Starting in fiscal year 2015, the District will contribute 13.9% for all eligible employees.

The contribution requirements of plan members and the District are established in State statute under Chapter 22, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The District's contributions to ERB for the fiscal years ending June 30, 2014, 2013, and 2012 were \$58,670,818, \$52,217,878, \$45,658,413 and respectively, which equal the amount of the required contributions for each fiscal year.

NOTE 12. Post-Employment Benefits

State Retiree Health Care Act:

Plan Description: The District contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit post-employment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the post-employment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy:

The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the employer and employee contributions can be changed by the New Mexico State Legislature. Employers that choose to become participating employers after January 1, 1998 are required to make contributions to the RHCA fund in the amount determined to be appropriate by the board.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. For employees that were members of an enhanced retirement plan (state police and adult correctional officer member coverage

plan 1; municipal police member coverage plan 3, 4 or 5; municipal fire member coverage plan 3, 4 of 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act) during the fiscal year ended June 30, 2014, the statute required each participating employer to contribute 2.5% of each participating employee's annual salary; and each participating employee was required to contribute 1.25% of their salary. For employees that were not members of an enhanced retirement plan during the fiscal year ended June 30, 2014, the statute required each participating employer to contribute 2.0% of each participating employee's annual salary; each participating employee was required to contribute 1.0% of their salary. In addition, pursuant to Section 10-7C-15(G) NMSA 1978, at the first session of the Legislature following July 1, 2013, the legislature shall review and adjust the distributions pursuant to Section 7-1-6.1 NMSA 1978 and the employer and employee contributions to the authority in order to ensure the actuarial soundness of the benefits provided under the Retiree Health Care Act.

The District's contributions to the RHCA for the years ended June 30, 2014, 2013 and 2012 were \$9,125,695, \$9,553,387, and \$8,426,387, respectively, which equal the required contributions for each year.

Post-Employment Life Insurance Benefits and Required Supplementary Information:

Plan Description: The District's Postemployment Life Insurance Plan is a single employer defined benefit plan administered by the District that provides Basic Life Insurance to a frozen group of employees who retired prior to July 1, 2000. Insurance benefits are authorized by a resolution from the District's Board of Education. This amount is equal to \$1,000, increased by \$200 as of each anniversary of employment, subject to a maximum benefit of \$4,000. A fully-insured premium rate of \$1.830/\$1,000 is charged; the retirees make a 100% contribution toward this coverage. The number of retirees covered as of July 1, 2014 was 1,385 and the present value of coverage was \$2,873,680.

Optional Life Insurance is also offered to those employees who retired prior to July 31, 2001. The fully-insured premium rates are age-banded. Effective January 1, 2014 eligible retirees pay 100% of all life insurance premiums. The number of retirees covered as of July 1, 2014 was 2,161 and retiree contributions were \$606,402. The District recognizes the cost of providing the life insurance benefits by charging the insurance premiums to expenditures. Life insurance benefits are paid through premiums to Standard Life Insurance Company under an indemnity plan. The District's Board is responsible for establishing and amending benefit provisions of the Post Employment Life Insurance Plan.

Annual OPEB Cost and Annual Required Contribution: The major component of the annual OPEB cost is the annual required contribution (ARC). The ARC is the sum of the normal cost and the amortization of the unfunded actuarial accrued liability. The unfunded actuarial accrued liability is amortized over the average life expectancy for the retired population of nine years. The ARC for APS's postemployment benefit plan for the period July 1, 2013 to June 30, 2014 is \$363,075 which is comprised of the Annual Amortization Payment (plus interest) of \$323,577 and adjustment to ARC of \$39,498.

The other components of the annual OPEB cost are one year's interest on the net OPEB obligation (defined below) at the beginning of the year and adjustment to the ARC. The adjustment to the ARC is the discounted present value of the net OPEB obligation at the beginning of the year.

The following tables provide the annual required contribution ("ARC") for the period July 1, 2013 to June 30, 2014 and an estimate of the net OPEB obligation as of June 30, 2014.

Post-Employment Benefit Plan

Increase in Net OPEB Obligation	\$ 146,516
Net OPEB Obligation-End of Year	\$ 463,279
Percentage of OPEB Cost Contributed	56.01%

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2014 and the two preceding years were as follows:

Fiscal Year Ended	Annual OPEB Cost	% of Annual OPEB Cost Contributed	Net OPEB Obligation
06/30/2012	\$1,008,041	93.52%	\$284,924
06/30/2013	946,935	96.64%	316,763
06/30/2014	333,080	56.01%	463,279

Methods and Assumptions:

GASB 45 allows the use of one of several actuarial cost methods. These cost methods allocate the OPEB costs differently. The method used in this valuation is the *Projected Unit Credit Method*. The valuation results are developed assuming a discount rate of 3% and an amortization period of 9 years. Under GASB 45, the discount rate to be used for the valuation is determined based on the long term investment yield on the investments used to finance the payment of benefits. For this valuation it is assumed that postemployment benefits are paid from general assets which generally consist of short-term investments.

The participation assumption is the assumed percentage of future retirees that participate and enroll in the life insurance plan. The participation assumption used in this valuation is 100%.

Funded Status:

The actuarial accrued liability is the present value of future benefits which is attributable to past service. The unfunded actuarial accrued liability is the difference between the actuarial accrued liability and the

actuarial value of plan assets. There are no plan assets. The most recent valuation includes an Actuarial Accrued Liability and unfunded Actuarial Liability of \$2,873,680. Amortization of unfunded Actuarial Accrued Liability is a Level Dollar amount and the period used for amortization of unfunded balances is closed. The closed plan is for retired employees. The plan is considered pay-as-you-go.

NOTE 13. Contingent Liabilities

A number of legal claims are presently pending against the District. It is the opinion of the District's management, after consulting with outside legal counsel, that final settlement of these matters will not exceed estimated defense and liability accruals, and will not result in any material adverse effect on the financial position of the District.

The District receives revenues from various Federal and State grant programs, which are subject to review and approval as to allowable expenditures by the respective grantor agencies. Any settlements or expenditures arising from a final review are recognized in the period agreed upon by the agency and the District.

Commitments:

Albuquerque Public Schools contracts with outside vendors for construction and renovation of various facilities. At June 30, 2014, commitments and encumbrances outstanding for capital projects totaled \$63,993,743.

NOTE 14. Risk Management

The District is exposed to various risks of loss related to theft of, damage to and destruction of assets; errors and omissions; and injuries to employees. APS established a self-insurance fund to conduct these risks and administers its own employee benefit and risk management programs as a self-insured program. APS purchases specific excess insurance. There is a self-insured retention (per occurrence) of \$550,000 for workers compensation, \$350,000 for liability and \$250,000 for property. APS is subject to tort immunities. School board errors and omissions have \$350,000 retention. APS believes its main exposure to risk of loss is in the category of liability claims. Any loss exceeding the deductible of \$350,000 would be covered under the purchased excess loss policy. Losses in the mentioned categories are the subject of insurance and/or actuarially reviewed retentions. APS has not incurred any losses in excess of coverage during the past 4 years. The claims liabilities reported in the Risk Management Fund are based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic factors. The actuarial review validated that the current reserves are adequate for reserves in anticipation of adverse developments in reported cases and for claims which may have occurred but have not yet been reported.

Liabilities for estimated claims for the last two years are summarized below. Liabilities at June 30, 2014 for health, dental and vision are stated at 90% confidence level plus 15% to provide for claims fluctuation margin in the event of catastrophic claims. Liability balances for worker's compensation and liability and property are stated at 90% confidence level.

NOTE 17. Subsequent Accounting Standard Pronouncements

GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions (Statement No. 68), which revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. The District provides its employees with pension benefits through a multiple

employer cost-sharing defined benefit retirement program administered by the Education Retirement Board (ERB).

Statement No. 68 requires cost-sharing employers participating in the ERB program, such as the District, to record their proportionate share, as defined in Statement No. 68, of ERB's unfunded pension liability. The District has no legal obligation to fund this shortfall nor does it have any ability to affect funding, benefits or annual required contribution decisions made by ERB. The requirement of Statement No. 68 to record a portion of ERB's unfunded liability will negatively impact the District's future unrestricted net position. Statement No. 68 is effective for fiscal year 2015. At this time, management is unable to estimate the magnitude of this impact.

In addition, GASB issued the following statement. Management at this time is unable to determine the impact, if any, on the District.

Statement No. 71

Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68

Effective Date: The provisions of this Statement should be applied simultaneously with the provisions of Statement 68.

Statement No. 69

Government Combinations and Disposals of Government Operations

Effective Date: The provisions of Statement 69 are effective for governmental combinations and disposals of government operations occurring in financial reporting periods beginning after December 15, 2013, and should be applied on a prospective basis. Early application is encouraged.

NOTE 18. GASB 65 Restatement

In March 2012, GASB issued Statement No. 65, Items Previously Reported as Assets and Liabilities. GASB 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. This Statement is effective for financial statements for periods beginning after December 15, 2012.

In fiscal year 2014, the District implemented Government Accounting Standards (GASB) Statement 65. The implementation of Statement 65 resulted in the reclassification of the beginning net position of the governmental activities in the government-wide financial statements. The deferred charges for bond issuance costs were reclassified as expense of prior periods and resulted in the adjustment below:

Net position at June 30, 2013, as previously stated	\$ 1,074,598,143
Change in reporting for deferred charges for debt issuance costs	<u>(1,767,925)</u>
Net position at June 30, 2013, as restated	<u>\$ 1,072,830,218</u>

NOTE 19. Component Unit – Charter Schools

The following are dependent charter schools formed under NMSA 22-8A and, as such, are presented here as discrete component units of Albuquerque Municipal School District No. 12:

La Academia de Esperanza	The Bataan Military Academy

District management has determined that charter schools are major component units of the District under GASB Statement #14 (as amended by GASB 34 and 61), since their operating budgets and charters are annually presented and approved by the District's board and a financial burden exists upon closure of a school or when the school is in need of financial assistance. Refer to previous footnotes for significant policies of the charter schools, as they are subject to the same State and Federal regulations and follow the same policies as the District. Effective June 30, 2013, Academia de Lengua y Cultura was closed and the net position was transferred to the NM Public Education Dept during FY14, leaving a net position of \$0 as of June 30, 2014. This school is only presented in the combining statement of activities to reflect the closeout of the school. The following are summarized details of the charter schools' balances and transactions as of June 30, 2014 and for the year then ended:

A. Cash and Cash Equivalents

The collateral pledged is listed on Schedule I of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency, district or political subdivision of the State of New Mexico.

According to the Federal Deposit Insurance Corporation, public unit deposits are funds owned by the public unit. Time deposits, savings deposits and interest-bearing NOW accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution.

Deposits

New Mexico State Statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the Schools for at least one-half of the amount on deposit with the institution. L. Fund Balance Reporting

Fund balance – the difference between assets and liabilities in the governmental fund financial statements – is among the most widely and frequently used information in state and local governmental financial reports. GASB Statement 54 distinguishes fund balances based on the relative strength of the constraints that control the purposes for which specific amounts can be spent. Beginning with the most binding constraints, fund balance amounts are reported in the following classifications:

- *Nonspendable* – portion of net resources that cannot be spent because of their form or because they must remain intact, such as fund balances associated with inventories or are legally or contractually required to remain intact.
- *Restricted* – amounts constrained by external parties, constitutional provision, or enabling legislation.
- *Committed* – amounts constrained by a government using its highest level of decision-making authority. The Board of Education is the highest level of decision making authority. Formal Board action, through a resolution, creates a commitment.
- *Assigned* – amounts a government intends to use for a particular purpose. The governing council has designated the responsibility to assign fund balance to its Business and Finance Director. Assigned fund balances within the Charter Schools represent amounts assigned for next years' budget.
- *Unassigned* – amounts that are not constrained at all will be reported in the general fund.

NOTE 20. Component Unit – Albuquerque Public Schools Foundation

DEFINITION OF REPORTING ENTITY - The Albuquerque Public Schools Foundation (the Foundation), a component unit of the Albuquerque Public Schools (APS), is a nonprofit organization incorporated under laws of the State of New Mexico on April 25, 1995. The Foundation was established to solicit, receive and manage private voluntary support for the benefit and on behalf of APS. The Foundation itself has no component units.

The Foundation is governed by a Board of Directors, which has the responsibility for determining policy and for the execution and evaluation of programs and activities conducted by the Foundation. The Board consists of no less than three members and no more than 25 members. Board members represent government, business, public sector, private individuals and organizations that are interested in supporting programs and services of APS. The term served by Board members is three years. The Foundation is exempt from federal income taxes under section 501(c)(3) of the Internal Revenue Code (the Code) and is not considered a private foundation within the meaning of Section 509(a) of the Code.

A Memorandum of Agreement between the Foundation and APS was signed and executed on January 5, 2005.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates in Preparing Financial Statements - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Financial Statement Presentation - Financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958, *Not-for-Profit Entities*. Under ASC 958, the Foundation is required to report information regarding its financial position and activities according to three classes of net assets.

Unrestricted Net Assets – These assets represent sources whose use is not limited to or restricted by donors. Unrestricted net assets have arisen from exchange transactions, receipt of unrestricted contributions and expirations or satisfaction of existing restrictions.

The Foundation treats restricted contributions whose restrictions are satisfied during the same fiscal year as unrestricted support. All contributions made to the Foundation are considered to be available for unrestricted use unless specifically restricted by the donor.

Temporarily Restricted Net Assets – These assets result from (a) contributions and other inflows of assets whose use by the Foundation is limited by donor imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Foundation pursuant to those stipulations; (b) other assets enhancements and diminishments subject to the same kinds of stipulations; and (c) imposed stipulations, their expiration by passage of time, or their fulfillment and removal by actions of the Foundation pursuant to those stipulations.

Permanently Restricted Net Assets – These assets have donor-imposed restrictions that stipulate that resources be maintained permanently but permit the Foundation to use up or expend part or all of the income or economic benefits derived from the donated assets.

Cash and Cash Equivalents - The Foundation considers all highly liquid investments with original maturities of three months or less to be cash equivalents. Cash equivalents consist of cash on deposit with financial institutions and money market accounts.

Investments - The Foundation records investments at fair value. See Note 4 for a description of fair value determination.

Permanently Restricted Net Assets - During the year ended December 31, 2008, FASB issued authoritative guidance, which includes the following financial statement disclosure requirements for the Foundation for the year ended June 30, 2014.

Classification of Net Assets – Endowment funds are used to account for investments in which the principal is temporarily or permanently restricted or Board-designated for a specific purpose.

Interpretation of Relevant Law – The Foundation has interpreted the Uniform Prudent Management of Institutions Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanent restricted net assets: (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effects of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation, and (7) the Foundation investment policies.

Income Taxes - The Foundation is a non-profit corporation and qualifies as a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code (IRC) and is classified as other than a private foundation. As such, their normal activities do not result in any income tax liability. The Foundation pays taxes on unrelated business income.

The Foundation would recognize accrued interest related to unrecognized tax benefits in interest expense and penalties in operating expenses. There were no such interest or penalties recorded for the year ended June 30, 2014.

The Foundation files informational tax returns as prescribed by the tax laws of the jurisdictions in which it operates. In the normal course of business, the Foundation is subject to examination by federal, state, local and foreign jurisdictions, where applicable. As of June 30, 2014, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year ended June 30, 2011 and forward.

Revenue Recognition - The Foundation is accounted for as a not-for-profit organization, and its follows revenue recognition rules as defined below:

Donations – The Foundation recognizes revenue on donations when all applicable eligibility requirements are met.

Pledges – Unconditional pledges, if any, are recognized as revenues in the period received and as assets, decreases in liabilities or expenses, depending on the form of the benefits to be received. Conditional pledges are recognized as revenues when the conditions on which they depend are substantially met. An allowance for doubtful pledges is recorded when the pledge is recorded. The allowance is based on past pledge loss experience and other factors that management considers necessary in estimating pledge losses.

Contributions of Services Revenues – Contributions of services are recognized in the financial statements of the Foundation only if the services received: (a) create or enhance non-financial assets of the Foundation, and (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation. Use of office furniture and equipment is provided at no charge by APS.

Beneficial Interest in Remainder Trusts – A charitable remainder trust is an arrangement in which a donor establishes and funds a trust with specified distributions to be made to a designated beneficiary or beneficiaries over the trust's term. Upon termination of the trust, the Foundation receives a percentage of the assets remaining in the trust. Beneficial interest in remainder trusts represent the present value of estimated future cash receipts from the trust's assets. Contribution revenue is recognized in the period in which the trust is established. In subsequent years, income earned on trust assets, recognized gains and losses, and distributions paid will be recognized. Revaluation of the present value of the estimated future payments and changes in actuarial assumptions will be recognized in the Statement of Activities and Changes in Net Assets.

Advertising Costs - The Foundation expenses advertising costs as incurred. Expenses incurred for the year ended June 30, 2014 were approximately \$1,800.

INVESTMENTS

Investment Policy Statement (IPS): In December 2002, the Foundation Board of Directors adopted an IPS to assist in the supervising, monitoring and evaluating of the Foundation's investments. The IPS is to provide financial stability for the Foundation operations and an increasing stream of income for future program growth. In February 2014 the Foundation transferred all investment assets held with Bank of Albuquerque to Merrill Lynch.

The Foundation shall be responsible for:

- Overseeing the Foundation Investment Portfolio.
- Defining the investment objectives and policies of the portfolio.
- Directing the Investment Manager to make changes in investment policy and to oversee and to approve or disapprove Investment Manager recommendations with regard to policy, guidelines, objectives and specific investments.
- Providing the Investment Manager with all relevant information on its financial conditions and risk tolerances and notifying the Investment Manager promptly of any changes to this information.

The Foundation agrees that investment discretion can be delegated to qualified, professional investment specialists or private portfolio managers (Investment Managers) that would be identified by the Foundation's Finance Committee resulting from an extensive quantitative and qualitative process of diligence.

Guidelines for the Investment Manager are that the investment of the Foundation's investment portfolio shall be limited to individual marketable securities or packaged products (e.g., mutual funds) in the following categories:

- Cash and cash equivalents
- Fixed Income – Domestic bonds
- Fixed Income – Non-U.S. bonds
- Fixed Income – High Yield
- Equities – U.S. and Non-U.S. within an international portfolio

FAIR VALUE OF FINANCIAL INSTRUMENTS - In determining fair value, the Foundation uses various valuation approaches within the ASC 820 fair value measurement framework. Fair value measurements are determined based on the assumptions that market participants would use in pricing an asset or liability. ASC 820 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. ASC 820 defines levels within the hierarchy based on the reliability of inputs as follows:

- **Level 1** – Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets;
- **Level 2** – Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets; and
- **Level 3** – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

The following table presents assets and liabilities measured at fair value by classification within the fair value hierarchy as of June 30, 2014.

	Fair Value Measurements Using			Total

BENEFICIAL INTERESTS IN REMAINDER TRUSTS - On May 11, 2001, the Foundation was awarded an interest in the William H. and Lilian Dolde Charitable Trust for the purpose of funding fine arts programs in the Albuquerque Public Foundations. The Bank of America administers the Trust. The Trust was originally funded in the amount of \$2,000,000. The Trust document calls for the annual distribution of an amount equal to 5% of the Trust's net position. This annual distribution will expire on December 31, 2051. Upon termination of the Trust, the Foundation is entitled to a portion of the remaining assets in order to establish a permanent endowment for the fine arts. The Foundation is irrevocably entitled to 90% of all annual distributions and 90% of the remaining Trust net position upon termination. The Foundation's interest in the Trust's assets is recorded at fair market value with adjustments made annually for increases or decreases in value. The present value of the Trust agreement was initially calculated using a discount rate of 5% with annual distributions to be received of \$90,000 (90% of \$100,000) for 49.5 years. The present value of the Trust net position at termination was initially estimated using a value of \$1,800,000 in remaining net position (90% of \$2,000,000) with a discount rate of 5% for 50 years. During the fiscal year ended June 30, 2014, the Trust distributed \$98,761 to the Foundation. The present value of the Trust increased by approximately \$21,670 and the fair value of the Trust's assets decreased by approximately \$13,750 for the fiscal year ended June 30, 2014. This resulted in the recording of a beneficial interest in the Trust in the amount of \$1,940,785 for the year ended June 30, 2014. The 2014 changes in present and fair values are reflected in the Foundation's Statement of Activities and Changes in Net Assets.

In April of 2003, the Foundation was awarded an interest in the Guhl Charitable Trust for the purpose of funding programs in the Albuquerque Public Foundations. The Bank of America administers the Trust. The Trust document calls for the distribution of an amount equal to 20% of the Trust's remaining assets to the Foundation upon termination on April 13, 2014. The Foundation's interest in the Trust's assets is recorded at fair market value with adjustments made annually for increases or decreases in value. The present value of the Trust agreement was calculated using a discount rate of 5%. No present value of the Trust net position at termination was estimated as the termination date was within a year. As of the report date the Trust is still in settlement. The Trust assets (20% of \$2,280,631 [market value of trust as of June 30, 2014]), with a discount rate of 5%, resulted in the recording of a beneficial interest in the Guhl Trust in the amount of \$456,126 for the fiscal year ended June 30, 2014. The increase in beneficial interest of approximately \$53,340 is reflected in the Foundation's Statement of Activities and Changes in Net Assets.

CONCENTRATION OF CREDIT RISK - The Foundation maintains cash depository accounts with various financial institutions. These deposits are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. Balances in these accounts may at times exceed the federally insured amount. The Foundation did not have deposits in excess of the insured amounts at year end. The Foundation has not experienced, and its management believes it is not exposed to, significant credit risk from excess deposits.

CHANGE IN ACCOUNTING STANDARDS - During the year ended June 30, 2014, the Foundation changed its method of financial reporting from the framework found under the Governmental Accounting Standards Board (GASB) to the framework found under the Financial Accounting Standards Board (FASB). As a non-profit organization, the FASB framework will allow the Foundation to report information that is more comparable to other foundations and better reflects the nature of the Foundation's activities. The change had no effect on the change in net assets, net assets, or total assets for the year ended June 30, 2014.

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ <u>(142,366)</u>
--	----------------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The decrease in compensated absences for the fiscal year was:	<u>-</u>
---	----------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	-
Depreciation expense	<u>(5,217)</u>
Excess of depreciation expense over capital outlay	(5,217)
Loss/Adjustments on disposal of assets	<u>-</u>
Change in net position of governmental activities (Statement of Activities)	\$ <u>(147,583)</u>

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ <u>(25,526)</u>
--	---------------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The decrease in compensated absences for the fiscal year was:	<u>5,000</u>
---	--------------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	15,756
Depreciation expense	<u>(5,192)</u>

Excess of depreciation expense over capital outlay	<u>10,564</u>
--	---------------

Loss/Adjustments on disposal of assets	<u>-</u>

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ 167,571
--	-------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The decrease in compensated absences for the fiscal year was:	-
---	---

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	7,500
Depreciation expense	(11,349)

Excess of depreciation expense over capital outlay	(3,849)
--	---------

Loss/Adjustments on disposal of assets	-
--	---

Change in net position of governmental activities (Statement of Activities)	\$ <u>163,722</u>

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ (21,173)
--	--------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The increase in compensated absences for the fiscal year was:	(3,068)
---	---------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	45,962
Depreciation expense	<u>(7,863)</u>
Excess of depreciation expense over capital outlay	38,099
Loss/Adjustments on disposal of assets	<u>-</u>
Change in net position of governmental activities (Statement of Activities)	\$ <u>13,858</u>

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ <u>(16,097)</u>
--	---------------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	6,016
Depreciation expense	<u>(342,998)</u>
 Excess of capital outlay over depreciation expense	 <u>(336,982)</u>

The issuance of long-term debt (e.g., bonds, notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds.

Lease purchase principal payments	<u>179,579</u>
 Excess proceeds over payments	 <u>179,579</u>

Change in net position of governmental activities (Statement of Activities)	\$ <u>(173,500)</u>

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ (198,091)
--	---------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The decrease in compensated absences for the fiscal year was:	<u>4,636</u>
---	--------------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	-
Depreciation expense	<u>(24,913)</u>
Excess of depreciation expense over capital outlay	<u>(24,913)</u>
Loss/Adjustments on disposal of assets	<u>-</u>
Change in net position of governmental activities (Statement of Activities)	\$ (218,368)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds	
(Statement of Revenues, Expenditures, and Changes in	
Fund Balances)	\$ (364,794)

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The decrease in compensated absences for the fiscal year was:	<u> -</u>
---	------------------------------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	-
Depreciation expense	<u>(21,672)</u>
Excess of depreciation expense over capital outlay	<u>(21,672)</u>
Loss/Adjustments on disposal of assets	<u> -</u>
Change in net position of governmental activities	
(Statement of Activities)	\$ (386,466)

 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ <u>76,036</u>
--	-------------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The decrease in compensated absences for the fiscal year was:	<u>-</u>
---	----------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	-
Depreciation expense	<u>(22,744)</u>
Excess of depreciation expense over capital outlay	<u>(22,744)</u>
Loss/Adjustments on disposal of assets	-

Change in net position of governmental activities (Statement of Activities)	\$ <u>53,292</u>

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ <u>38,511</u>
--	-------------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The decrease in compensated absences for the fiscal year was:	<u>-</u>
---	----------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	705,596
Depreciation expense	<u>(141,119)</u>
Excess of depreciation expense over capital outlay	<u>564,477</u>
Loss/Adjustments on disposal of assets	<u>-</u>
Change in net position of governmental activities (Statement of Activities)	\$ <u>602,988</u>

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ <u>14,994</u>
--	-------------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The increase in compensated absences for the fiscal year was:	<u>-</u>
---	----------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	205,334
Depreciation expense	<u>(61,178)</u>
Excess of depreciation expense over capital outlay	<u>144,156</u>
Loss/Adjustments on disposal of assets	<u>-</u>
Change in net position of governmental activities (Statement of Activities)	\$ <u><u>159,150</u></u>

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ <u>8,875</u>
--	------------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The increase in compensated absences for the fiscal year was:	<u>(155)</u>
---	--------------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	-
Depreciation expense	<u>(1,954)</u>
Excess of depreciation expense over capital outlay	<u>(1,954)</u>
Loss/Adjustments on disposal of assets	<u>-</u>
Change in net position of governmental activities (Statement of Activities)	\$ <u>6,766</u>

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ <u>(117,971)</u>
--	----------------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The increase in compensated absences for the fiscal year was:	<u>(9,959)</u>
---	----------------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	-
Depreciation expense	<u>(1,786)</u>
Excess of depreciation expense over capital outlay	<u>(1,786)</u>
Loss/Adjustments on disposal of assets	<u>-</u>
Change in net position of governmental activities (Statement of Activities)	\$ <u>(129,716)</u>

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds	
(Statement of Revenues, Expenditures, and Changes in	
Fund Balances)	\$ <u>(72,470)</u>

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The decrease in compensated absences for the fiscal year was:	<u>-</u>
---	----------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	7,186
Depreciation expense	<u>(4,878)</u>

Excess of depreciation expense over capital outlay	2,308
--	-------

Loss/Adjustments on disposal of assets	<u>-</u>
--	----------

Change in net position of governmental activities	
(Statement of Activities)	\$ <u>(70,162)</u>

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended June 30, 2014

Net Changes in Fund Balances - Total Governmental Funds (Statement of Revenues, Expenditures, and Changes in Fund Balances)	\$ <u>154,722</u>
--	--------------------------

Amounts reported for governmental activities in the Statement of Activities are different because:

In the Statement of Activities, certain operating expenses - compensated absences (sick and annual leave) are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amounts of financial resources used (essentially, the amounts actually paid).

The decrease in compensated absences for the fiscal year was:	1,564
---	-------

The increase in the settlement agreement for the fiscal year was:	(23,078)
---	----------

Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts were:

Capital outlay	-
Depreciation expense	<u>(29,557)</u>

Excess of depreciation expense over capital outlay	<u>(29,557)</u>
--	-----------------

Change in net position of governmental activities (Statement of Activities)	\$ <u>103,651</u>
--	--------------------------

INFORMATION ABOUT OVERLAPPING TAX RATES - 10 YEARS

Article VIII, section 2, of the New Mexico Constitution limits the total ad valorem taxes for operational purposes levied by all overlapping governmental units within in the District to \$20.00 per \$1,000 of assessed value. This limitation does not apply to levies for public debt and levies for additional taxes if authorized at an election by a majority of the qualified voters of the jurisdiction voting on the question. The following table summarizes the tax situation on residential property in Bernalillo County for the tax year 2013 and the previous nine years. A high level of taxation may impact the District's ability to repay the Notes and Bonds.

ALBUQUERQUE MUNICIPAL SCHOOL DISTRICT NO. 12
DEBT INFORMATION

LEGAL DEBT MARGIN

Article IX, Section 11 of the New Mexico Constitution limits the powers of a District to incur general obligation debt extending beyond the fiscal year. The District can incur such debt for "the purpose of erecting, remodeling, making additions to and furnishing school buildings or purchasing or improving school grounds or purchasing computer software or hardware for student use in public school classrooms or any combination of these purposes" but only after the proposition to create any such debt has been submitted to a vote of the qualified electors of the District, and a majority of those voting on the question vote in favor of creating the debt. The total indebtedness of the District may not exceed six percent of the assessed valuation of the taxable property within the District as shown by the last preceding general assessment. The District also may create a debt by entering into a lease-purchase arrangement to acquire education technology equipment without submitting the proposition to a vote of the qualified electors of the District, but any such debt is subject to the 6% debt limitation. An issuance of refunding bonds does not have to be submitted to a vote of the qualified electors of the District.

The preliminary valuation of taxable property within the District is \$14,757,199,050 for the tax year 2013. Therefore, the maximum general obligation debt may not exceed \$885,431,943

The calculation of the legal debt margin and ratio of outstanding debt to total personal income for the current and previous nine fiscal years is summarized below:

OTHER SUPPLEMENTARY INFORMATION

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT
COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR FEDERAL PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB
CIRCULAR A-133**

State of New Mexico
Albuquerque Municipal School District No. 12
To the Board of Education and
Hector H. Balderas
New Mexico State Auditor

Report on Compliance for Each Major Federal Program

We have audited the Albuquerque Municipal School District No. 12, New Mexico's (District) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2014. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items: 2012-001 and 2014-003. Our opinion on each major federal program is not modified with respect to these matters.

The District's response to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2012-001 and 2014-003 that we consider to be a significant deficiencies.

The District's response to the internal control over compliance findings identified in our audit are described in the accompanying scheduled of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the result of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

State of New Mexico
Albuquerque Municipal School District No. 12
To the Board of Education and
Hector H. Balderas
New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, the aggregate remaining fund information and the budgetary comparisons of the general fund and major special revenue funds of the Albuquerque Municipal School District No. 12, New Mexico (District), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and the combining and individual funds and related budgetary comparisons of the District, and each discretely presented component unit presented as supplementary information and have issued our report thereon dated November 13, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses (2012-005, 2013-019, 2014-012, 2013-032, 2014-026 and 2014-027).

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies (2014-002, 2012-001, 2014-003, 2014-004, 2014-009, 2014-010, FS 09-176, 2014-025 and 2014-028).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2014-001, 2012-001, 2014-003, FS 10-05, 2013-062, 2013-064, 2013-021, 2014-029, 2013-009, 2013-028, FS 11-21, 2014-30, 2013-069, 2014-005, 2014-006, 2013-048, 2013-049, 2014-007, 2014-008, 2013-027, 2014-011, 2013-035, 2013-036, 2014-013, 2014-014, 2014-015, 2013-031, 2014-016, 2014-017, 2013-041, 2014-018, 2014-019, 2014-020, 2014-021, FS09-197, 2014-022, 2014-023 and 2014-024.

The District's Response to Findings

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SECTION II – FINANCIAL STATEMENT FINDINGS

ALBUQUERQUE PUBLIC SCHOOLS

2012-001 – Allowable Activities/Costs - Payroll (Significant Deficiency, Instance of Noncompliance)

Federal Programs: Title I, Part A Cluster (CFDA # 84.010), IDEA – B Cluster (CFDA# 84.027)

Federal Agency: Department of Education

Federal Award Year: 2013

Pass through Agency: New Mexico Public Education Department

Award Number: Title I (S010A130031), IDEA – B (H027A130153-13A)

Questioned Costs: \$11,965

Condition: During our single audit test work over allowable activities/costs for payroll disbursements, we noted the following issues:

- The District was unable to provide a time and effort certification for 1 out of 40 payroll disbursements tested.
- When reviewing 40 payroll disbursements, we noted 1 employee being paid at the incorrect hourly rate for the period of FY2009 – FY2014. The total overpayment approximates \$60,140 (\$11,965 during FY14). The overpayment was a result of a record analyst entering the incorrect pay rate when the employee was hired during FY08-09. The employee's pay rate was corrected in June of 2014 by APS after it was detected by a record analyst.

Criteria: Per OMB A-133 and federal agreements, the programs will be reimbursed for actual costs incurred. In addition, A-102 Common Rule requires that non-Federal entities receiving Federal Awards establish and maintain internal control designed to reasonably ensure compliance with Federal laws, regulations and program compliance requirements. In addition, per OMB Circular A-87, for employees who work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personal activity reports or equivalent documentation.

Cause: Management oversight and lack of effective internal controls surrounding the review of entering employee pay into the payroll system and ensuring complete collection of time and effort sheets.

Effect: The program is not in compliance with grant requirements and the District may have incorrectly charged costs to the programs.

Auditor's Recommendation: We recommend that APS establish effective internal controls surrounding the entering of employee's pay and/or change in pay. We recommend the processing of these payroll items be reviewed prior to uploading the information in to the payroll module to ensure the most accurate pay rate is entered. In addition, we recommend that the District continue to strive for full compliance in receiving all time and effort sheets. It has been brought to our attention by the grants department that the District believes this can be achieved when the new grant module is fully operational in the coming school years.

Management's Response: Grant Management has implemented a new module in the district's ERP that will assist in the proper coding of employees to federal grants in a more efficient manner than had been done in the past. Management has also hired additional staff to assist in verifying that all forms are returned and completed accurately. Associate Superintendents will be asked for assistance when Grant Management staff are unable to secure the forms from employees. Management has developed and implemented a mandatory online training program for all employees paid by federal funds to ensure that they understand the importance and responsibility of completing and returning the forms.

Management has created an HR/Finance task force to address the payroll cycle and faults in the process. The task force is considering the entire payroll cycle, all entities involved in the cycle, and both short term and long term solutions to address payment irregularities.

Management is in the process of collecting for the overpayment.

2012-005 – Internal Controls Surrounding Capital Asset Management (Material Weakness)

Condition: During our test work over capital assets, we noted the following:

- The District notified the Office of the State Auditor and Public Education Department in April and May 2014 of various buildings the District intended to demolish. The District began the actual demolition of these buildings in June/July 2014. However, the District did not obtain board approval/notification until August 2014, after the demolition of the buildings commenced.
- During our review of the construction in process (CIP) account balance, we noted the following issues:
 - We identified approximately \$5.5m in CIP that required reclassification to the applicable capital asset class to begin depreciation of the asset not identified by the District.
 - Approximately \$1.3m in CIP projects with no activity since FY11 and approximately \$1m in CIP projects with no activity since FY12. Both of these populations of CIP projects remain in CIP as of June 30, 2014; the District is uncertain as to whether or not the projects are complete and should be reclassified from CIP to a capital asset account.

SECTION II – FINANCIAL STATEMENT FINDINGS (CONTINUED)

ALBUQUERQUE PUBLIC SCHOOLS (CONTINUED)

- Approximately \$7.1m of the \$126m in CIP that the District transferred to an appropriate capital asset account should have been transferred in FY13.
- We identified approximately \$570k in year-end accruals to the CIP account balance which represented duplicate expenditures in the population and required an adjustment.
- During FY14, the District engaged with a company to perform a comprehensive district-wide physical inventory audit of all fixed and technology assets, which included the implementation of a web-based system that will improve the District's site management of these assets. Although the district has substantially completed these physical inventory counts, a complete reconciliation of all counts compared to the asset listing has not been completed. As a result, the District is uncertain as to the extent of missing assets which would need to be removed from the District's capital asset listing as of June 30, 2014.

Criteria: NMAC 6.20.2.22 requires that assets of a long-term character which are intended to continue to be held or used, such as land (including acquisition and improvements to grounds), buildings (including initial acquisition, improvements, remodeling, additions, and replacement), furniture, machinery and equipment, shall be acquired and accounted for through the development and implementation of a complete property control system which shall be adopted by the local board and in accordance with GAAP. In addition, per Supplement 12 as authorized by 1978 NMSA 13-6-1, *Disposition of Real Property*, all dispositions of real property having a current resale value of more than five thousand dollars (\$5,000) must be approved by PED and the school board or governing authority prior to such disposition. In addition, every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP.

Cause: The District lacks effective internal controls surrounding the process of reclassifying projects from CIP to the appropriate capital asset account. In addition, the District lacks an effective process to ensure proper approval and notification prior to demolishing buildings.

Effect: Potential misstatements of the financial statements and noncompliance with applicable statutes.

Auditor's Recommendation: We recommend the District review the projects within the outstanding CIP balance and determine the classification as CIP is still appropriate. We recommend the District establish a formal process to move projects from CIP upon completion or when no other costs are expected to be accumulated into the project. The District should include a process in which all projects within CIP are reviewed on a monthly basis. We would recommend that the review of open and closed activity for CIP projects be performed on a monthly basis to ensure timely reporting of assets and depreciation. In addition, we recommend that management implement a process to ensure that the Board be notified of the disposition of assets in a more timely manner to ensure compliance with all laws and regulations.

ALBUQUERQUE PUBLIC SCHOOLS (CONTINUED)

Management's Response:

Demolition Approval: Demolition of buildings: FD&C met with Capital Fiscal Services (CFS) on this issue this summer. We have agreed to implement a new process going forward. Our groups meet on a monthly basis to coordinate common activities; building demolitions are now a standing agenda item in those monthly meetings. FD&C has agreed to notify CFS about upcoming demolition projects and CFS has agreed that they will own the communication and reporting process once they are provided the information. FD&C will no longer report our demolition plans to the State Auditor. By communicating demolition plans on a monthly basis and clarifying the role of which organization will communicate and obtain approvals with the Board of Education and the state, we believe that we will successfully address this control issue.

Capital Fiscal Services Asset Management will adhere to requirement of timely Board notification and approval for demolition of buildings.

CIP Activity Close Out: FD&C recently met with CFS to develop a solution. The reason that the capitalization of capital projects was delayed in the past is that the project team from FD&C would not close out projects because they were waiting on residual claims and invoices to continue to arrive from the contractors. Because invoices lagged beyond the completion date of the project, the project stayed open, thus delaying the capitalization process. FD&C and CFS have agreed that going forward, FD&C will work with CFS to change the project status of a project on Lawson once the Certificate of Occupancy has been received. CFS will change the status of the project on the Lawson system from active (Status 1) to an alternate status (Status 94 or 95). This change in status will trigger the capitalization (start of the depreciation stream) process in Lawson, but at the same time it allows the project team to continue to pay invoices that will continue to arrive in the near future.

Capital Fiscal Services Asset Management will review, on a monthly basis, all current and open CIP Activity/Projects for the purpose of reclassifying CIP projects to capital accounts in a timely manner.

Year-end procedures will be strengthened to ensure that all accrual and other adjusting entries receive timely management review and approval to minimize the potential for duplications and other errors.

Physical Inventory: Capital Fiscal Services Asset Management is in the process of performing a complete reconciliation of the District's physical inventory between the existing asset management module on the district's ERP and the inventory performed by external contractor. Upon final reconciliation, Capital Fiscal Services Asset Management will determine the discrepancies and adjust the inventory records accordingly.

ALBUQUERQUE PUBLIC SCHOOLS (CONTINUED)

2014-001 – Over-Expended Budget (Compliance and Other Matters)

Condition: During the audit, we noted the following funds/functions where the actual expenditures exceeded the legal level of budgetary control:

- Debt Services Fund (41000) - Support Services - \$41,580.
- Start Smart K-3 Utah State Univ. Study Special Revenue Fund (28191) - Support Services - \$11,365.
- Innovative Solutions for Struggling Schools Special Revenue Fund (27175) - Support Services - \$12,776.

Criteria: Sound financial management and 6.20.2.9 (A) NMAC and 22-8-5 through 22-8-12.2 NMSA 1978 require that budgets not be exceeded at the legal level of control. For school districts, the function is the legal level of control.

Cause: Management oversight.

Effect: Non-compliance with state statutes.

Recommendation: We recommend that management establish controls necessary to monitor the budget and submit any necessary adjustments on a timely basis in order to avoid overages.

Management's Response: 41000-Debt Service Fund: The Budget Office prepared a budget adjustment request to PED in June 2014 to cover the anticipated amount of tax collection fees (function 2300) for the year. The amount requested was insufficient and it was too late in the fiscal year to request an additional adjustment. To avoid this issue in the future, management will be monitoring the property tax revenue and collections costs more closely throughout the year. Tax collection fees have also been budgeted at a higher percentage rate in anticipation of additional property tax revenue receipts.

28191-Start Smart: The grant in total was not overdrawn; however, the support function was overdrawn. Transfers between functions (1000-direct, 2xxx-support) have a PED-imposed deadline that occurs in May of each year. The program office underestimated the original support cost for June. When accruing the actual timesheets worked during June, the cost for support was higher than estimated. By this time, the deadline for cross transfers had passed. This grant is one of two that time constraints on adjustments are not reasonable. PED sets a deadline for cross transfers in approximately May of each year. This grant runs primarily during June and July. Because of this, estimations are sometimes impossible. In an effort to minimize this type of problem in the future, management will be working with PED to try and establish exceptions to the time frame for cross transfers for summer programs.

27175-Innovative Solutions: This \$12,776 was an unliquidated obligation from FY12-13 for one of the district's dependent charter schools that management failed to get Budget Authority to liquidate in FY13-14. The expense was valid and in line with the grant, but timing of the final payment crossed fiscal years and it was not discovered in time to re-establish the necessary

budget authority. At the end of FY13-14, management created a Charter School manual with specific dates and instructions for reimbursement. Management will be updating this manual yearly, which will allow us to coordinate timing of the charter's request for reimbursement from the district, with the actual disbursement of funds.

2014-002 – Internal Controls Over Pay and Position Changes (Significant Deficiency)

Condition: During our internal control test work, we reviewed 22 payroll disbursements and related personnel files. We noted one instance in which an employee was overpaid by approximately \$424 and one instance in which an employee was underpaid by approximately \$1,846. These incorrect payments were related to pay rate and position changes during the year. The District has acknowledged this as an issue and runs a report prior to year-end to identify any employees that have been either overpaid or underpaid. Although District personnel ran this report prior to year-end, not all under and over payments were corrected prior to the last payroll run. As a result, it is estimated that a total of 105 employees were overpaid by \$78,870 and 62 employees were underpaid by \$26,064.

Criteria: Per PSAB Supplement 14, Districts shall establish written payroll policies and procedures to include a checklist of payroll related functions. This shall include, but not be limited to, the following functions: Human Resources and Payroll shall implement procedures to ensure the reasonableness of paychecks. In addition, all necessary changes to payroll records should be maintained on the financial management system at least monthly.

Cause: Lack of effective internal controls to ensure pay rate changes are properly processed through the system during the year.

Effect: Inaccurate payroll disbursements, possible misappropriation of assets or financial statement misstatements.

Auditor's Recommendation: We recommend that management implement procedures to ensure employee pay rate and position changes made during data processing is reviewed to ensure that the changes were made by the system. In addition, we recommend that changes that could affect employee pay rates are communicated to payroll personnel to ensure paychecks are processed correctly.

Management's Response: This is an error created by the current payroll module, and is one of the problems identified to be fixed with the new payroll module scheduled for implementation July 1, 2015. The payroll department has set up a series of exception reports to identify and correct the errors. A final step will be added after all summer payrolls have been processed to confirm corrections are in place. Long term fix is software modification by the software vendor. Management is working with the vendor to provide feedback and identify further areas of improvement.

Management is in the process of collecting for all overpayments and reimbursing for all underpayments identified.

21ST CENTURY PUBLIC ACADEMY

FS 10-05 – Internal Control Structure (Compliance and Other Matters)

Condition: During our audit, we noted a payroll liability account which was not reconciled and required an audit adjustment to decrease the liability account by approximately \$6,000. In addition, we noted the June tax receipts for the HB33 and SB9 funds were transposed and recorded to the incorrect funds; an approximately \$17k audit adjustment was required.

Criteria: Every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP.

Cause: Management oversight, lack of effective internal controls over the financial close and reporting process.

Effect: Potential misstatements of financial statements.

Auditor's Recommendation: We recommend that management establish effective internal controls surrounding the financial close and reporting process to ensure all accounts have been properly reconciled.

Management's Response: A new process has been implemented to reconcile every asset and liability account quarterly to assure balances are correct. This includes a review by someone other than the preparer.

2013-062 – Timely Deposit of Cash Receipts (Compliance and Other Matters)

Condition: During our review of cash receipts, we noted 2 of 11 receipts in the amount of approximately \$400 lacked documentation of the actual date of receipt; therefore, we were unable to determine whether the school deposited the receipts within 24 hours of receipt as required.

Criteria: NMAC 6.20.2.14 states that money received and receipted shall be deposited in the bank within twenty-four (24) hours or one banking day.

Cause: Procedures established by management to ensure proper documentation and timely deposit were not established until after the fiscal year began.

Effect: Non-compliance with NMAC 6.20.2.14.

Auditor's Recommendation: We recommend that management continue to monitor the established procedures to ensure all staff involved with cash receipts and deposits are familiar with the established procedures to ensure timely deposit of all receipts as required.

Fund 11000 – Instruction - \$35,895
Fund 21000 – Food Services - \$2,343
Fund 24154 – Support Services - \$4,743

Cause: Management oversight.

Effect: Non-compliance with state statutes.

Auditor's Recommendation: The School should establish a policy of budgetary review at year-end and make the necessary budgetary adjustments.

Management's Response: Budget comparison reports are produced monthly. BARs will be prepared as required to keep all functions within the approved budget.

2013-021 – Travel and Per Diem (Compliance and Other Matters)

Condition: During our review of 3 travel and per diem reimbursements, it was noted that for two of the reimbursements, the employee was reimbursed at 100% of the IRS rate.

Criteria: Per NMAC 6.20.2.19, each school district shall establish and implement written policies and procedures for travel and training. Travel policies and procedures shall be in compliance with the Per Diem and Mileage Act, Sections 10-8-1 through 10-8-8, NMSA 1978, and Department of Finance and Administration (DFA) regulations. Additionally, per the school policy, mileage reimbursements shall be at 80% of the IRS rate.

Management's Response: The school has changed its mileage reimbursement policy. The school will reimburse mileage at the effective date and rate published by the Internal Revenue Service. This was approved by the Governing Council at its September 20, 2014 meeting.

2014-004 – Internal Control Structure (Significant Deficiency)

Condition: During our audit, we encountered the following issues:

- During our journal entry review, we noted that the school will cut a check for some purchases based on online pricing, then will allow the store to modify the payment electronically if the actual amount exceeds the check amount. The school then utilizes journal entries to correct the differences.
- Expenses for janitorial services were incorrectly charged to the SB9 fund (31700) in the amount of approximately \$26,000 and required an audit adjustment to reclassify these expenses to the operating fund.
- During our accounts receivable testwork, we identified an additional approximately \$8,000 accrual which was not previously identified by management.

Criteria: Every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP. In addition, NMSA 1978 22-25-2 does not allow the use of SB9 funds for expenses related to improvements or maintenance on non-public buildings.

Cause: Management oversight, lack of effective internal controls surrounding the financial reporting process.

Effect: Misstatements of financial statements and/or possible misappropriation of assets.

Auditor's Recommendation: We recommend that management ensure that adequate internal controls are established surrounding the financial reporting process.

Management's Response:

- For electronic checks, the vendor is to accept payment for the exact amount on the receipt and the Business Office will J/E the difference between the amount of the receipt and the amount of the check, if any. The Principal must sign off on all J/E's.
- The Business Office is in communication with Capital Outlay regarding expenses to ensure that the expenses qualify under SB-9 funding.

Criteria: Per NMAC 6.20.2.18, the local board shall establish written payroll policies and procedures which comply with state and federal regulations on payroll, as well as maintaining strict internal controls, close supervision and financial accounting in accordance with GAAP. School districts shall maintain and have available for inspection the following employee record documentation: employment contracts (including increments), personnel/payroll action forms, certification records, employment eligibility verification (federal form I-9 for citizenship certification), federal and state withholding allowance certificates, pay deduction authorizations, pay or position change notices, Educational Retirement Act plan application, and direct deposit authorizations.

Cause: Management oversight.

Effect: Non compliance with the applicable statutes.

- An invoice paid subsequent to year-end in the amount of approximately \$2,014 for services provided as of June 30, 2014; this amount was not identified in the accounts payable by management.
- An employee reimbursement in which the employee was reimbursed \$10 in excess of actual receipts.

Criteria: Every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP.

Cause: Management oversight.

Effect: Potential misstatements of financial statements.

Auditor's Recommendation: We recommend that management evaluate the exceptions noted and evaluate the internal controls surrounding the year-end financial reporting process and reimbursement processing.

Management's Response: A purchase order for IT services was closed before the June payment was issued. In the future, a more thorough review of all purchase orders will be made in May and then again in June to ensure that all accounts payable can be identified before the year-end audit.

A reimbursement was made to an employee and the amount of the cash given for payment was circled and reimbursed instead of the total amount of the receipt. A procedure that could eliminate these types of mistakes in the future would be to have the Business Manager submit the invoices and check disbursements to the Office Manager for review before they are submitted to the Head of School for approval.

Cause: Lack of adequate controls and effective procedures surrounding the purchasing process.

Effect: Possible unauthorized purchases or purchases without adequate budget authority.

Cause: Lack of effective controls and procedures surrounding the personnel files.

Effect: Non compliance with the applicable statutes.

Auditor's Recommendation: We recommend that management establish procedures to ensure the required documentation is contained in all personnel files.

Management's Response: The school believes that the ERB form in question was misplaced under the prior business manager or during a previous audit. All proper paperwork is on file with ERB, so the employees in question have not missed any payments. The new business manager hired will audit the personnel files for completeness and will request that these employees submit a new ERB form so all files are complete.

Effect: Possible unauthorized purchases or purchases without adequate budget authority.

Condition: During our review of 10 cash receipts, we noted 1 deposit in the amount of \$20 which was not deposited within 24 hours of receipt as required.

Criteria: NMAC 6.20.2.14 states that money received and receipted shall be deposited in the bank within twenty-four (24) hours or one banking day.

Cause: Management oversight.

Effect: Non-compliance with NMAC 6.20.2.14.

Auditor's Recommendation: We recommend that management ensure all staff involved with cash receipts and deposits are familiar with the established procedures to ensure timely deposit of all receipts as required.

Management's Response: The deposit noted above was for bus passes sold on 10/7/2013 and 10/8/2013 and was not deposited until 10/17/2013. This deposit was made under the prior business manager. In October 2013, the school hired a new business manager, who ensures money is deposited within the 24 hour or one banking day period in compliance with NMAC 6.20.2.14. Deposits are done every Tuesday and Thursday or additionally when necessary. Going forward, all funds will be deposited within the required timeframe.

2014-006 – Payroll Related Contributions and Reporting (Compliance and Other Matters)

Condition: During our audit, we noted the 941 report and contributions for the 3rd quarter of 2013 (Jul-Sep) were not submitted timely; as a result, a \$95 penalty was assessed. In addition, the ERB monthly contributions and report for August 2013 were not submitted timely; as a result, a \$16 penalty was assessed.

Criteria: The IRS requires accurate quarterly filing and reporting of the school's wages and related taxes on form 941. In addition, the ERB requires monthly contributions and submissions within 15 days of the end of the month.

Cause: During the year, the school had transitioned business managers and may have lacked adequate controls and procedures surrounding these filing and reporting processes early in the fiscal year.

Effect: Non compliance with IRS and ERB reporting requirements and assessed penalties.

Auditor's Recommendation: We recommend that management establish adequate controls and procedures surrounding the 941 filing and reporting process. In addition, we recommend management continue to work with the IRS to properly resolve this issue.

2014-007 – Purchasing (Compliance and Other Matters)

Condition: We noted 6 of 27 disbursements tested, totaling \$14,753, which lacked an approved purchase order or purchase requisition prior to the purchase of goods or services.

Criteria: Per PSAB Supplement 13-Purchasing, the preparation and execution of a duly authorized purchase order must precede the placement of any order for goods, services or construction.

Cause: During the year, the school had transitioned business managers and may have lacked adequate controls and procedures surrounding the disbursement process early in the fiscal year.

Effect: Possible unauthorized purchases or purchases without adequate budget authority.

Auditor's Recommendation: We recommend that management establish appropriate controls and procedures to ensure all purchases have an approved purchase order/purchase requisition prior to the purchase.

Management's Response: All purchases will have an approved purchase order in place before the purchase of goods or services.

2014-008 – Governing Council Meeting Minutes (Compliance and Other Matters)

Condition: During our review of the December 13, 2013 Governing Council meeting minutes, we noted only 2 members present, which would not represent a quorum. However, management indicated 2 of the members noted as being absent were in fact in attendance via the telephone.

Criteria: Per NMSA 1978 10-15, minutes of open meetings shall record at least the following information: (a) the date, time and place of the meeting; (b) the names of all members of the public body in attendance and a list of those members absent; (c) a statement of what proposals were considered; and (d) a record of any decisions made by the public body and of how each member voted.

2014-009 – Use of HB33 Funds (Significant Deficiency)

Condition: During our audit, we noted that management incorrectly recorded approximately \$119,000 in building lease expenses to the HB33 fund, which required an audit adjustment to reclassify these expenses to the operating fund.

Criteria: NMSA 1978 22-26-2 allows for the use of HB33 funds on lease payments when the payments are made pursuant to a financing agreement entered into by a school district or a charter school for the leasing of a building or other real property, with an option to purchase for a price that is reduced according to payments made.

Cause: Management oversight.

Effect: Non compliance with applicable state statute.

Auditor's Recommendation: We recommend management review the applicable statutes to ensure an understanding of the allowable uses of the funds.

Management's Response: The statute will be reviewed.

2013-027 – Payroll (Compliance and Other Matters)

Condition: During our FY13 audit, it was noted that, due to the structure of the school's licensed staff contract, the school is making payroll advances as the contract has a start date that precedes the actual starting date of the licensed staff. Management established a corrective action plan which will allow compliance effective FY15; yet for FY14, the school was still in non-compliance.

In addition, we noted 1 of 4 personnel files which lacked evidence of an amended employee contract which increased the contract salary from approximately \$48,000 to \$59,000.

In addition, per 22-11-29 NMSA 1978, all members covered by the New Mexico Educational Retirement Board must complete ERB Form 42 to designate a beneficiary for their account. In addition, 13-1-158 NMSA 1978 expressly states that “no warrant, check or other negotiable instrument shall be issued in payment for any purchase of services...unless the central purchasing office or the using agency certifies that the services...have been received and meet specifications...”. Cause: Management oversight.

Effect: Non compliance with applicable statutes.

Auditor's Recommendation: Management has already resolved the issue with payroll advances for FY15. In addition, we recommend management establish procedures to ensure all documentation related to an employee contract and related rate changes are included in the personnel files.

Management's Response: Los Puentes Charter School management has developed a procedure to ensure that contract dates and start dates coincide to ensure payroll advances do not occur. Management has also developed a procedure to ensure that all contract documentation is kept on file.

Condition: During our audit, we encountered the following issues:

- During our capital asset testing, we noted approximately \$22,000 in additions to capital assets which did not meet the capitalization threshold and required an audit correction to the schedule.
- The school has a \$100 petty cash account, which is not reflected on the trial balance. In addition, the actual balance of the fund was \$38, with no evidence of formal procedures established to ensure timely replenishments of the funds expended.

Criteria: Every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP. In addition, The Audit Act (Section 12-6-10 NMSA 1978) requires agencies to capitalize only chattels and equipment that cost over \$5,000.

Cause: Lack of effective internal controls surrounding the financial reporting process.

Effect: Potential misstatements of financial statements and/or possible misappropriation of assets.

Auditor's Recommendation: We recommend that management ensure that adequate internal controls are established surrounding the financial reporting process and the use of the petty cash fund.

Management's Response: Management has developed procedures to ensure all items included on the capital asset listing meet the threshold. 2013-019 – Internal Control Structure (Material Weakness)

Condition: During our audit, we noted the following issues:

- The Foundation was unable to provide evidence of purchase orders established in advance of the Foundation's purchases.
- During our review of 4 payroll disbursements, 3 lacked a documented timesheet to support the amount paid.
- The Foundation lacks controls surrounding the cash receipt process to ensure all receipts of the Foundation are actually deposited in the Foundation's bank account. During our review of 13 cash receipts, in the amount of approximately \$50,250, we noted the following:
 - 4 receipts, in the amount of approximately \$8,500, which lacked a deposit slip, copies of the receipts, or a receipt log.
 - 1 receipt that totaled \$12,180, yet the deposit slip totaled \$12,240, with no documentation of the discrepancy.
- During the audit, it was noted that a receivable in the amount of \$2,000 from the PTA had not been accrued in the financial statements of the Foundation.

Criteria: The Foundation shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP.

Cause: During the fiscal year, the Foundation experienced turnover of the Foundation manager. In addition, due to the limited resources the Foundation has not established and maintained an effective internal control structure for FY14.

Effect: Possible misstatements to the financial statements, possible misappropriation of assets.

Auditor's Recommendation: We recommend that management establish an internal control structure which can be maintained if the Foundation experiences turnover.

Management's Response: FOMF has taken corrective action to resolve this material weakness by doing the following:

1. Purchases are being approved by issuing purchase orders prior to purchases being made.
2. The Executive Assistant submits timesheets which are reviewed and approved by the Treasurer prior to receiving a paycheck.
3. Adequate supporting documentation is being kept on file for all receipts and disbursements.

2013-035 – Purchasing (Compliance and Other Matters)

Condition: During our review of disbursements we noted the following:

- We noted 11 of 41 disbursements reviewed, totaling approximately \$55,000, in which an approved purchase order was not established prior to the purchase, lacked a purchase order, or the purchase order was not approved.
- We noted that the school lacks policies and procedures surrounding procurement.
- We noted payments on contracts totaling approximately \$179,000 which lacked evidence of a formal procurement process.

Criteria: Per PSAB Supplement 13-Purchasing, the preparation and execution of a duly authorized purchase order must precede the placement of any order for goods, services or construction. In addition, policies and procedures to ensure compliance with the NM Procurement Code should be established and documented.

Cause: Lack of adequate controls and effective procedures surrounding the purchasing process.

Effect: Possible unauthorized purchases or purchases without adequate budget authority. Non-compliance with the NM Procurement Code.

Auditor's Recommendation: We recommend that management establish appropriate controls and procedures to ensure all purchases have an approved purchase order/purchase requisition that is at least equal to the purchase amount prior to the purchase. In addition, we recommend management become familiar with the NM Procurement Code and establish appropriate policies and procedures.

2014-012 – Internal Control Structure (Material Weakness)

Condition: During our audit, we encountered the following issues:

- During our search for unrecorded liabilities, we identified approximately \$275,000 in liabilities that should have been identified as liabilities as of June 30, 2014 by management. Of this amount, \$100,000 represents a receipt which was received in a fiduciary capacity and was incorrectly recognized as revenue.
- We noted that management incorrectly recorded approximately \$217,000 in building lease expenses to the HB33 fund, which required an audit adjustment to reclassify these expenses to the operating fund.
- During our test work over capital assets, we identified various leasehold improvements, totaling approximately \$706,000, which were not capitalized as leasehold improvements.
- During our review of cash receipts, we noted an approximately \$600 SB9 receipt which was incorrectly recorded to the HB33 fund.

Criteria: Every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP. In addition, NMSA 1978, Section 22-26-2 allows for the use of HB33 funds on lease payments when the payments are made pursuant to a financing agreement entered into by a school district or a charter school for the leasing of a building or other real property with an option to purchase for a price that is reduced according to payments made.

Effect: Misstatements of financial statements and/or possible misappropriation of assets.

Cause: Lack of effective internal controls surrounding the financial reporting process.

Auditor's Recommendation: We recommend that management ensure that adequate internal controls are established surrounding the financial reporting process.

Management's Response: These were rare instances that NACA had this year. NACA will implement adequate internal controls to ensure financial reporting is processed correctly. Most of these instances are at the fiscal year end recording. NACA operates on a cash basis and these instances were one time. Management will work closely with auditors to ensure adequate closing is done prior to fiscal year end. NACA Management understands that this is a situational issue and that prior communication would have easily prevented this issue, and going forward it has been easily resolved and will not be an issue moving forward.

Condition: During our FY13 audit, it was noted that, due to the structure of the school's licensed staff contract, the school is making payroll advances as the contract has a start date that precedes the actual starting date of the licensed staff. Although the school has implemented a corrective action plan, the school remained in non-compliance for FY14.

Criteria: 13-1-158 NMSA 1978 expressly states that "no warrant, check or other negotiable instrument shall be issued in payment for any purchase of services...unless the central purchasing office or the using agency certifies that the services...have been received and meet specifications...". Cause: Management oversight.

Effect: Non compliance with 13-1-158 NMSA 1978.

Auditor's Recommendation: Management has established a corrective action plan. It is recommended that management ensures the plan is fully implemented in order to be compliant moving forward.

Management's Response: This issue has been addressed and will be resolved by the end of FY2015.

2013-032 – Internal Controls Surrounding Capital Asset Management and Reporting (Material Weakness)

Condition: During our test work over capital assets, we noted the school purchased a modular building and properly capitalized the building; however, the school also incurred approximately \$119,000 of installation costs to put the building into use. These additional installation costs were not properly capitalized by the school. In addition, the school removed assets from the books with a net book value of \$0, with an estimated original cost of \$180k; however, the school was unable to account for the disposal of these assets that were done in a previous fiscal year.

Criteria: NMAC 6.20.2.22 requires that assets of a long-term character which are intended to continue to be held or used, such as land (including acquisition and improvements to grounds), buildings (including initial acquisition, improvements, remodeling, additions, and replacement), furniture, machinery and equipment, shall be acquired and accounted for through the development and implementation of a complete property control system which shall be adopted by the local board and in accordance with GAAP. assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP.

Cause: Management oversight, lack of effective internal controls surrounding the process to identify capital assets for year-end reporting.

Effect: Misstatements of financial statements.

Auditor's Recommendation: We recommend that management establish a process to properly identify purchases of all capital assets which meet the threshold of \$5,000. This process should include the use of the proper account code at the time of purchase as identified in the uniform chart of accounts, "57331 Fixed Assets (More Than \$5,000).

Criteria: Per NMAC 6.20.2.14, school districts shall establish and maintain a cash management program to safeguard cash and provide prompt and accurate reporting that adheres to cash management requirements of the Office of Management and Budget (OMB) Circular A-102, and applicable state and federal laws and regulations. In addition, every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP.

Cause: Management oversight, lack of effective internal controls surrounding the bank reconciliation.

Criteria: ERB requires the monthly ERB contributions to be submitted within 15 days of the end of the month.

Cause: Management oversight.

Effect: Non compliance with ERB contribution and filing requirements, possible penalties.

Auditor's Recommendation: We recommend management establish procedures to ensure timely submission of the ERB contributions.

Condition: During our review of cash receipts, we noted the following:

- 3 out of 10 cash receipts totaling \$319 were not deposited within 24 hours of receipt as required.
- We noted 1 lunch reimbursement for the month of September in which the school used the August lunch count to claim for the month of September, which resulted in a lower claim than what the school was eligible for.

Criteria: NMAC 6.20.2.14 states that money received and receipted shall be deposited in the bank within twenty-four (24) hours or one banking day. In addition, per NMAC 6.20.2.23, for grant money that flows through the department, school districts shall utilize the funding for the purpose in which it was awarded. Cause: Management oversight, lack of effective processes to ensure timely deposit of all receipts and accurate reimbursement claims.

Effect: Non-compliance with statutes, in accurate reimbursement claims.

Criteria: Sound financial management and 6.20.2.9 (A) NMAC and 22-8-5 through 22-8-12.2 NMSA 1978 require that budgets not be exceeded at the legal level of control. For school districts, the function is the legal level of control.

Cause: As a result of untimely requests for reimbursement submissions, the operating fund absorbed the expenses from these funds no longer eligible for reimbursement in which adequate budget authority was not available in the operating fund.

Effect: Non-compliance with state statutes and, as a result of not monitoring the budget, the school is at risk of not having adequate resources for its obligations.

Auditor's Recommendation: The school should establish effective internal controls to ensure reimbursement requests are processed in a timely manner and budget adjustments should be posted as necessary.

Management's Response: Requests for reimbursement are submitted quarterly at a minimum and monitored as funds are disbursed. A new Request for Reimbursement (RFR) Summary report has been developed for the Finance Committee that identifies by fund; the amount of the award; total RFR's to date; RFR's outstanding; balance; and explains the current status. The Business Office reviews this report with the Finance Committee monthly and then it is presented to the Governance Council.

2014-018 – Purchasing (Compliance and Other Matters)

Condition: We noted 7 of 30 disbursements tested, totaling \$80,016, which lacked an approved purchase order or purchase requisition prior to the purchase of goods or services.

Criteria: Per PSAB Supplement 13-Purchasing, the preparation and execution of a duly authorized purchase order must precede the placement of any order for goods, services or construction.

Cause: During the year, the school had transitioned business managers and may have lacked adequate controls and procedures surrounding the disbursement process during the fiscal year.

Effect: Possible unauthorized purchases or purchases without adequate budget authority.

Auditor's Recommendation: We recommend that management establish appropriate controls and procedures to ensure all purchases have an approved purchase order/purchase requisition prior to the purchase.

Management's Response: New Fiscal Management Internal Control Policies and Procedures have been developed and will be presented at the October Governance Council meeting for approval. These procedures include Purchasing and Accounts Payable that state the proper procedure that needs to be followed.

2014-019 – 941 Reporting (Compliance and Other Matters)

Condition: During our review of the school's 941 filings, we noted that the FICA tax reported by the school for the period ending March 31, 2014 was reported at \$39,588 instead of \$47,201, in which the difference was captured as an adjustment for rounding error. This was a result of inaccurate FICA percentages utilized in the APTA accounting system.

Criteria: The IRS requires accurate quarterly filing and reporting of the school's wages and related taxes on form 941.

Cause: Lack of adequate controls and procedures surrounding the 941 filing and reporting process.

Effect: Non compliance with IRS reporting requirements and possible penalties.

Auditor's Recommendation: We recommend that management establish adequate controls and procedures surrounding the 941 filing and reporting process.

Management's Response: A second level of review will be implemented to avoid any payroll reporting errors in the future.

2014-020 – Internal Controls over Paid Time Off Leave Balances (Compliance and Other Matters)

Condition: During our audit, it was noted that an employee is able to use PTO leave balance in excess of their accumulated leave balance. In one instance, an employee no longer employed by the school had a deficit balance of 22.75 hours. It was also noted that a teacher was accruing PTO at the rate of administrative personnel instead of the rate for a teacher.

Criteria: Per NMAC 6.20.2.18, the local board shall establish written payroll policies and procedures which comply with state and federal regulations on payroll, as well as maintaining strict internal controls, close supervision and financial accounting in accordance with GAAP.

In addition, the anti-donation clause of the New Mexico Constitution, Article IX, Section 14, provides that "neither the state nor any county, school district or municipality, except as otherwise provided in the constitution, shall directly or indirectly lend or pledge its credit or make any donation to or in aid of any person, association or public or private corporation..."

Cause: Lack of effective controls and procedures surrounding the accumulation and use of PTO Leave Balances.

Effect: Non compliance with the applicable statutes.

Auditor's Recommendation: We recommend that management ensure that adequate internal controls are established to ensure leave balances are properly accumulated and that an employee can only use PTO leave balances up to what they have accumulated.

Management's Response: New Fiscal Management Internal Control Policies and Procedures have been developed and will be presented at the October Governance Council meeting for approval. These procedures include Personnel and Payroll procedures that include leave taken without sufficient leave balances will be docked from the employee's pay by the Business Office. A Leave Balance report is also run in the APTA accounting system each payroll period prior to processing payroll to verify leave is available.

2014-021 – Capital Assets (Compliance and Other Matters)

Condition: During our test work over capital assets, we identified a purchase of a capital asset in the amount of approximately \$7,200 which was not identified by the school as a capital asset.

Criteria: Per 12-6-10 NMSA 1978, agencies are to capitalize chattels and equipment that cost over \$5,000.

Cause: Management oversight, lack of effective internal controls surrounding the process to identify capital assets for year-end reporting.

Effect: Misstatement of financial statements.

Auditor's Recommendation: We recommend that management establish a process to properly identify purchases of all capital assets which meet the threshold of \$5,000. This process should include the use of the proper account code at the time of purchase as identified in the uniform chart of accounts, "57331 Fixed Assets (More Than \$5,000).

Management's Response: The Requisition and subsequent Purchase Order were processed without the correct Object Code (57331), which resulted in the asset being misclassified and omitted on the Fixed Asset Schedule prepared for the audit. Since the school's inception, there has been an internal control procedure whereby a hard copy of the General Ledger is printed out monthly for review by the Business Manager to ensure expenditures are posted to correct Object Codes. In this instance, human error resulted in the incorrect coding not being noticed. As a result, the charter school Business Office has implemented a procedure whereby all Requisitions are held pending review and approval of Object Code postings by both the school's designated Procurement Officer and Business Manager before it is converted to a formal Purchase Order. It is expected that adding an extra layer of examination will alleviate any future misclassifications.

FS 09-197 – Internal Controls over Disbursements/Procurement (Compliance and Other Matters)

Condition: During our audit, we noted the following related to disbursements/procurement:

- We noted 3 of 19 disbursements, totaling \$25,326, in which the purchases exceeded the purchase order amount by \$812 or lacked an approved purchase order.

Criteria: Every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP. Per PSAB Supplement 13-Purchasing, the preparation and execution of a duly authorized purchase order must precede the placement of any order for goods, services or construction.

Cause: Lack of adequate controls and processes surrounding the purchase and disbursement process.

Effect: Possible unauthorized purchases/payments or purchases without adequate budget authority.

Auditor's Recommendation: We recommend that management ensure adequate processes and controls are in place to ensure compliance with purchasing and disbursement policies and regulations.

Management's Response: The school hired a new Business Manager in order to address inconsistencies in internal control and compliance such as the one noted. The school believes that these were isolated instances and they will not be repeated.

However, as far as the contracts are concerned, the two instances that are mentioned did not violate the internal approval process. In the past, the school had hired a company to handle the business office but have since decided to hire an individual (employee) to handle the business office. The principal has asked that the minutes be revised to avoid any misunderstanding.

2014-022 – Untimely Deposit of Cash Receipts (Compliance and Other Matters)

Condition: During our review, we noted that 2 out of 10 cash receipts, totaling \$372, were not deposited within 24 hours of receipt as required.

Criteria: NMAC 6.20.2.14 states that money received and receipted shall be deposited in the bank within twenty-four (24) hours or one banking day.

Cause: Management oversight, lack of effective processes to ensure timely deposit of all receipts.

Effect: Non-compliance with NMAC 6.20.2.14.

Auditor's Recommendation: We recommend that management implement processes to ensure timely deposits of all receipts as required.

Management's Response: The 24-hour policy to deposit cash receipts has been addressed with office staff involved. As of the new fiscal year, all deposits have been made within the 24 hours of being received.

2014-023 – Cash Control Standards (Compliance and Other Matters)

Condition: During our audit, we noted outstanding items in the June 30, 2014 bank reconciliation that included one deposit totaling \$114 that was dated January 27, 2014; yet this outstanding item was never questioned during the monthly bank reconciliation review process.

Criteria: Per NMAC 6.20.2.14, school districts shall establish and maintain a cash management program to safeguard cash and provide prompt and accurate reporting that adheres to cash management requirements of the Office of Management and Budget (OMB) Circular A-102 and applicable state and federal laws and regulations. Whenever any warrant or check is unpaid for one year, the fiscal officer shall cancel it in accordance with Section 6-10-57(A), NMSA 1978.

2014-024 – Travel and Per Diem (Compliance and Other Matters)

Condition: During our review of 2 travel and per diem related disbursements, we noted one, in the amount of \$2,606, which lacked documentation of a pre-approval of the related travel or documentation of the purpose of the travel. Furthermore, school personnel were unable to recall the nature or purpose of the travel.

Criteria: Per NMAC 6.20.2.19, each school district shall establish and implement written policies and procedures for travel and training. Travel policies and procedures shall be in compliance with the Per Diem and Mileage Act, Sections 10-8-1 through 10-8-8, NMSA 1978, and Department of Finance and Administration (DFA) regulations.

Cause: Management oversight, lack of effective controls and procedures surrounding travel and the related disbursements.

Effect: Non-compliance with NMAC 6.20.2.19.

Auditor's Recommendation: We recommend that management ensure all staff involved with travel and per diem reimbursements are familiar with the established procedures to ensure compliance.

Management's Response: The new Business Manager has put in place two forms, one of which is the Request for Travel Authorization form, requesting approval to travel, and the second form being the Employee Travel Reimbursement Form, which is required in order to be reimbursed for travel expenses. Both forms have been shared and/or communicated with all staff and all are aware of the travel procedure in place.

2014-025 – Internal Control Structure (Significant Deficiency)

Condition: During our audit, we encountered the following issues:

- During our journal entry review, we noted 3 out of 5 journal entries which lacked evidence of review by someone independent of the preparer, as well as appropriate supporting documentation.
- The fund balance roll forward required a \$1,105 adjustment due to an unidentified difference.

- Expenses for janitorial services were incorrectly charged to the SB9 fund (31700) in the amount of approximately \$11,000 and required an audit adjustment to reclassify these expenses to the operating fund.

Criteria: Every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP. In addition, NMSA 1978 22-25-2 doesn't allow the use of SB9 funds for expenses related to improvements or maintenance on non-public buildings.

Cause: Lack of effective internal controls surrounding the financial reporting process.

Effect: Misstatements of financial statements and/or possible misappropriation of assets.

Auditor's Recommendation: We recommend that management ensure that adequate internal controls are established surrounding the financial reporting process.

Management's Response: All journal entries will be reviewed and approved by the finance committee on a monthly basis or as needed. All grant funds will be reviewed of the allowable expenses prior to charging the expense(s) to any particular fund to avoid financial misstatements.

2014-026 – Internal Control Structure (Material Weakness)

Condition: During our audit we encountered the following issues:

- During our search for unrecorded liabilities, we identified approximately \$78,000 that should have been identified by management as liabilities and recognized as expenses as of June 30, 2014.
- During our search for unrecorded liabilities, we noted that the Foundation does not record any year-end accruals.
- During our search for unrecorded liabilities, we noted two of the twelve disbursements sampled did not have adequate supporting documentation.
- During testing of credit cards, we noted no evidence of review of credit card statements.
- During test of design of controls, we noted there is no process to track or adjust beneficial remainder trust amounts.

Criteria: Per FASB ASC 958-720, expenses should be recognized in the period when the economic benefits are used. In addition, the Foundation shall establish and maintain an internal control structure to provide management with reasonable assurance that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP.

Cause: The Foundation does not have a process in place to record year end accruals, authorize credit card expenses, or track beneficial remainder trust amounts.

Effect: Liabilities and expenses were understated by \$77,918.

Auditor's Recommendation: We recommend that the Foundation establish and implement a year end closing process that includes recording expense accruals.

Management's Response: The Foundation will implement procedures to accrue expenses at year end to capture expenses incurred after year end which relate to periods prior to year end. This will include reviewing the supporting documentation for each disbursement to determine if it should be accrued for year end.

The Foundation will review and implement procedures for credit card statement review. The Foundation will have the Executive Director review the statements prior to payment and document review with his initials and date as sign off. The Foundation's Finance Committee will review credit card purchases each month and the board also will review credit card transactions as part of its examinations of the general ledger.

2014-027 – Revenue and Expense Recognition (Material Weakness)

Condition: During audit test work over contribution revenue and award expenses, we identified a year-end reclassification adjustment of approximately \$1.9m in revenue and award expenses that erroneously double-recorded both revenues and expenses equally.

Criteria: Per FASB ASC 958-605, contributions received shall be recognized as revenues in the period received. Per FASB ASC 958-720, expenses should be recognized in the period when the economic benefits are used. In addition, the Foundation shall establish and maintain an internal control structure to provide management with reasonable assurance that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP.

Cause: The Foundation was tracking revenue and expenses in a due to agency liability account as well as in a contribution revenue and an awards expense account.

Effect: Revenue and expenses were overstated by \$1,961,529.

Auditor's Recommendation: We recommend that the Foundation establish and implement a single process for recording contributions and paying awards to programs.

Management's Response: The Foundation has procedures in place to manage the various restricted funds through the use of a statement of financial position account during the year. At year end, an adjustment is prepared to reclassify the fund from the statement of financial position to the appropriate revenue and expense accounts. In the current year reclassification,

funds that were internally designated by the Foundation to the restricted funds were picked up in the reclassification back to the revenue and expenses. 2014-028 – Journal Entries (Significant Deficiency)

Condition: During audit test work over journal entries, we noted that 8 of the 8 entries selected did not have supporting documentation, 4 of the 8 entries selected did not have proof of review, and 2 of the 8 entries had a journal entry number that was associated with two separate entries in the general ledger.

Criteria: Per FASB ASC 958-720, expenses should be recognized in the period when the economic benefits are used. In addition, the Foundation shall establish and maintain an internal control structure to provide management with reasonable assurance that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP.

Cause: The Foundation does not have a process in place related to journal entry approval and retention.

Effect: We were unable to determine whether the entries were proper.

Auditor's Recommendation: We recommend that the Foundation establish and implement a process for authorizing and retaining supporting documentation for journal entries.

Management's Response: The Foundation will institute and maintain a process for journal entry preparation and approval, including attaching supporting documentation for each entry and obtaining signatures for journal entries. The Foundation will also implement a journal entry numbering system to reduce the risk of duplicate journal entry numbers within the general ledger system.

Federal Agency: Department of Education

Federal Award Year: 2013

Pass through Agency: New Mexico Public Education Department

Award Number: Title I (S010A130031), IDEA – B (H027A130153-13A)

Questioned Costs: \$11,965

Condition: During our single audit test work over allowable activities/costs for payroll disbursements, we noted the following issues:

- The District was unable to provide a time and effort certification for 1 out of 40 payroll disbursements tested. (IDEA – B Cluster CFDA# 84.027)
- When reviewing 40 payroll disbursements, we noted one employee being paid at the incorrect hourly rate for the period of FY2009 – FY2014. The total overpayment approximates \$60,140 (\$11,965 during FY14). The overpayment was a result of a record analyst entering the incorrect pay rate when the employee was hired during FY08-09. The employee's pay rate was corrected in June of 2014 by APS after it was detected by a record analyst. (Title I, Part A Cluster (CFDA # 84.010)

Criteria: Per OMB A-133 and federal agreements, the programs will be reimbursed for actual costs incurred. In addition, A-102 Common Rule requires that non-Federal entities receiving Federal Awards establish and maintain internal control designed to reasonably ensure compliance with Federal laws, regulations and program compliance requirements. In addition, per OMB Circular A-87, for employees who work on multiple activities or cost objectives, a distribution of their salaries or wages will be supported by personal activity reports or equivalent documentation.

Cause: Management oversight and lack of effective internal controls surrounding the review of entering employee pay into the payroll system and ensuring complete collection of time and effort sheets.

Effect: The program is not in compliance with grant requirements and the District may have incorrectly charged costs to the programs.

Auditor's Recommendation: We recommend that APS establish effective internal controls surrounding the entering of employee's pay and/or change in pay. We recommend the processing of these payroll items be reviewed prior to uploading the information in to the payroll

module to ensure the most accurate pay rate is entered. In addition, we recommend that the District continue to strive for full compliance in receiving all time and effort sheets. It has been brought to our attention by the grants department that the District believes this can be achieved when the new grant module is fully operational in the coming school years.

Management's Response: Grant Management has implemented a new module in the district's ERP that will assist in the proper coding of employees to federal grants in a more efficient manner than had been done in the past. Management has also hired additional staff to assist in verifying that all forms are returned and completed accurately. Associate Superintendents will be asked for assistance when Grant Management staff are unable to secure the forms from employees. Management has developed and implemented a mandatory online training program for all employees paid by federal funds to ensure that they understand the importance and responsibility of completing and returning the forms.

Management has created an HR/Finance task force to address the payroll cycle and faults in the process. The task force is considering the entire payroll cycle, all entities involved in the cycle, and both short term and long term solutions to address payment irregularities.

Management is in the process of collecting for the overpayment.

Criteria: Per the A-133 compliance supplement, the District is required to determine which school attendance areas are eligible to participate in Part A and, using the guidance in the grant agreement/compliance supplement, the District should allocate the funds to each of the eligible school attendance areas, which should be monitored to ensure actual expenses are consistent with the allocation.

Cause: The District sets budgets up in the Lawson system for each school, but the Lawson system does not prevent the budget from being exceeded for payroll expenses. A grant analyst is supposed to monitor the budgets during the year; however, the District lacked adequate resources during the fiscal year to effectively oversee these budgets.

Effect: Non-compliance with applicable grant requirements. In addition, if some school attendance areas exceed their allocation, it is possible that other eligible school attendance areas would not receive their entire allocation.

Auditor's Recommendation: The District has already implemented a corrective action plan effective August 1, 2014, which includes additional resources to assist in monitoring these budgets. It is recommended that the District continue to monitor during the established corrective action plan to ensure compliance with grant requirements.

Management's Response: Currently there is one staff member in Grant Management that works with the Title I grant. This is a very large and complex grant and it is difficult for one person to oversee all 130 sites and district accounts to the line level of detail. The Title I program office will be hiring four funding technicians that will work in conjunction with the one grant management technician to monitor and correct these types of issues as they arise. In addition, Grant Management has implemented a new module in Lawson specifically designed to account for grant funding. This module will assist the grant technician in verifying the accuracy of expenses in all funds.

ALBUQUERQUE PUBLIC SCHOOLS

2012-01 - Payroll (Significant Deficiency) – Repeated and Updated

Condition: During our single audit test work over payroll we noted the following:

- Title I, Part A Cluster - 1 out of 40 payroll disbursements charged to the grant was identified as a summer payroll item that is uploaded into the payroll system through a spread sheet. It was determined that the rate that was being paid to the employee was higher than the approved pay rate. As a result of the incorrect pay rate, the grant was overcharged \$360.
- Title I, Part A Cluster - The District was unable to provide a time and effort certification for 1 out of 40 disbursements tested.
- IDEA - B Cluster - The District was unable to provide a time and effort certification for 1 out of 40 disbursements tested.
- Improving Teacher Quality - The District was unable to provide a time and effort certification for 3 out of 40 disbursements tested.
- School Improvement Grant - The District was unable to provide a time and effort certification for 2 out of 40 disbursements tested.

2012-03 - Financial Close and Reporting (Significant Deficiency) - Resolved

Condition: During test work over accounts receivable, we noted that subsequent cash receipts relating to FY13, totaling approximately \$23,500, were not included in the current year revenue and related accounts receivable.

2012-05 - Internal Controls Surrounding Capital Asset Management (Significant Deficiency) – Repeated and Updated

Condition: During our test work over capital assets, we noted the following:

- It was noted that \$1,500,000 dollars of assets were improperly capitalized in the current year. This error occurred due to a formula in the capital asset spread sheet that only took into consideration that the asset was over the \$5,000 threshold, however, the assets were paid in bulk. Therefore, in bulk the assets exceeded the capitalization threshold, but not individually.
- At the end of June 30, 2013, the District reported to the State Auditor's Office assets totaling \$1,197,194 which the District deemed missing and removed from the asset listing. The District established a policy on June 30, 2010 to remove these assets from the listing if they were still missing after two years; these were removed in accordance with the policy. However, the district should strengthen controls over the safe guarding of assets.
- It was noted that CIP activity of approximately \$4,600,000 was closed out as of year end and transferred to a building improvement asset. Even though the activity was closed during the current year, after review of the supporting documentation it was determined that the activity should have been closed out as of June 30, 2010. It was noted that the depreciation for the three years that the asset should have been in place was taken in the current year. However, the review of open and closed projects which are then transferred to assets is only performed once a year, which allows more room for error.

2013-01 - Review of P-Card Reconciliations by Cardholders (Compliance and Other Matters) - Resolved

2013-02 - Personnel Files (Compliance and Other Matters) - Resolved

Condition: During our review of 22 personnel files, we noted 4 which lacked W-4 forms.

2013-03 – Travel and Per Diem (Compliance and Other Matters) - Resolved

Condition: During test work over travel and per diem the following issues were noted:

- Out of 22 reimbursements tested, two were not reimbursed at the current reimbursable mileage rate.
- All 22 travel reimbursements tested were out of district travel and did not receive approval by the Chief Financial Officer prior to travel.
- Out of 22 reimbursements tested, two reimbursements were based upon actual mileage, but odometer readings were not provided.
- Out of the 22 reimbursements tested, 5 reimbursements had disallowed costs (alcohol etc.). It was noted that the accounts payable staff did remove the disallowed items from the reimbursement and that none of the 5 employees were reimbursed for the disallowed costs. However, there was no uniform way for calculating the removal of the disallowed costs, including tip and tax.
- We noted that the District does not have controls in place to track travel and per diem reimbursements that exceed the reimbursement limit of \$1,500. Employees must provide to their department director/head a memo that details all expenses that have been reimbursed to them to date related to travel and per diem. The detail should indicate that the employee has reached the limit so that the department director/head can assess the need of any further travel.

2013-71 – Activity Funds (Significant Deficiency) - Resolved

Condition: The administration and recordkeeping of the various student activity funds within the district is decentralized, in which the responsibility is assigned to the school principal and assigned bookkeeper for the school. In addition, approximately 21% received a lower overall compliance rating compared to the prior year, in which approximately 60% have compliance ratings less than a commendable rating. Condition: During our audit, we encountered the following issues:

- During our journal entry review, we noted 4 out of 5 journal entries which lacked evidence of review by someone independent of the preparer.
- The original trial balance provided during the audit included a \$77,615 debit balance in the accounts payable account, which required revision.
- The original bank reconciliation had a variance of \$40,808 when compared to the trial balance.
- During our search for unrecorded liabilities, we noted \$9,208 in liabilities that should have been accrued at June 30, 2013.
- We noted a cash receipt in the amount of \$18,181 incorrectly recorded to fund 24162 instead of fund 11000.
- We noted a cash receipt in the amount of \$18,479 incorrectly recorded to fund 31200 instead of fund 21000.
- We noted a cash receipt in the amount of \$12,663 incorrectly recorded to fund 24162 instead of fund 24154.
- We noted the food services fund had excess expenses over revenues in the amount of \$12,856, which required reclassification to the operating fund to prevent a deficit fund balance.
- We noted expenditures totaling \$71,688 within the various expense reimbursement funds of the school which were no longer eligible for reimbursement and required an audit adjustment to reclassify these expenditures to the operating fund.

Condition: During our audit, we noted the following regarding the school's use of procurement cards:

- The school establishes blanket purchase orders at the beginning of the fiscal year for most purchases made with the procurement cards during the year. The actual purchases made during the year are not reviewed and approved by the principal.
- The current process allows one individual to make purchases with the procurement card and then subsequently process an electronic payment for the balance on the procurement card without a review or approval of the purchase or payment.
- The school does not have documented policies and procedures surrounding the use of the procurement cards.

2013-05 – Financial Reporting (Compliance and Other Matters) - Resolved

APS FOUNDATION

2013-72 – Prior Period Restatement – Agency Transaction Determination (Material Weakness) - Resolved

Condition: Certain donors impose restriction on use of monies to benefit programs of APS. In the current year, the Foundation determined that it had the authority to make spending decisions on the restricted funds to each program. As a result of the change in evaluation, management has restated its previously reported net position balance by \$1.9 million to reflect the recording of the agency activity in the statement of revenues, expenses and change in net position of the prior years.
