INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq
New Mexico State Auditor
Board of Education and Management
Animas Independent School District No. 6
Animas, New Mexico

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons of the General Fund and major special revenue funds of Animas Independent School District No. 6 (the District), as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the Districts' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons of the General Fund and major special revenue funds of Animas Independent School District No. 6, as of June 30, 2019, and the respective changes in financial position thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Schedules A-1 through B-2 and notes to the Required Supplementary Information on pages 58-65 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the *Management's Discussion and Analysis* that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historic context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, the combining and individual fund financial statements, the combining financial statements for the general fund and related budgetary comparisons, and Supporting Schedules I through IV required by 2.2.2 NMAC are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements, the combining financial statements for the general fund and related budgetary comparisons, and Supporting Schedules I through IV required by 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, the combining financial statements for the general fund and related budgetary comparisons, and Supporting Schedules I through IV required by 2.2.2 NMAC are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Governmental Funds
Reconciliation of the Balance Sheet to the Statement of Net Position
June 30, 2019

Amounts reported for governmental activities in the Statement of Net Position are different because:

Fund balances - total governmental funds	\$	398,873
Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported in the funds		1,881,519
Delinquent property taxes not collected within sixty days after year end are not considered "available" revenues and are considered to be unavailable revenue in the fund financial statements, but are considered revenue in the Statement of Activities		8,625
Deferred outflows and inflows of resources related to pensions and OPEB are applicable to future periods and therefore, are not reported in funds:		
Deferred outflows related to pension		1,576,155
Deferred outflows related to OPEB		28,002
Deferred inflows related to pension		(138,596)
Deferred inflows related to OPEB		(414,697)

Reconciliation of the Statement of Revenues, Expenditures, and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2019

Amounts reported for governmental activities in the Statement of Activities
are different because:

Net change in fund balances - total governmental funds	\$ (32,998)
--	-------------

Governmental funds report capital outlays as expenditures. However, in the Statement
of Activities, the cost of those assets is allocated over their estimated useful lives
and reported as depreciation expense:

Capital expenditures	16,538
Depreciation expense	(130,977)

Revenues in the Statement of Activities that do not provide current financial resources
are not reported as revenue in the funds:

Change in unavailable revenue related to property taxes receivable	303
--	-----

Governmental funds report District pension and OPEB contributions as expenditures. However
in the Statement of Activities, the cost of pension and OPEB benefits earned net of employee
contributions is reported as pension and OPEB expense:

District pension contributions subsequent to the measurement date	194,636
District OPEB contributions subsequent to the measurement date	28,002
Net pension expense	(1,030,614)
Net OPEB expense	8,780

Expenditures including accrued compensated absences are not due and
payable in the current period and, therefore, are not reported in the funds:

Increase in accrued compensated absences not due and payable	<u>(3,418)</u>

Notes to Financial Statements

NOTE 1. Summary of Significant Accounting Policies

Animas Independent School District No. 6 was created under the provision of Chapter 22 Article 5, Paragraph 4, New Mexico Statutes 1978 to provide public education for the children within the District. The School Board is authorized to establish policies and regulations for its own government consistent with the laws of the State of New Mexico and the regulations of the NM Public Education Department and the Legislative Finance Committee. The School Board is comprised of five members who are elected for terms of four years.

The District provides public education opportunities for children from first through twelfth grade, including but not limited to classroom and vocational studies' as well as school oriented social and athletic activities.

The summary of significant accounting policies of the District is presented to assist in the understanding of the District's financial statements. The financial statements and notes are the representation of Animas Public School's management, who is responsible for their integrity and objectivity. The financial statements of the Animas Independent School District No. 6 (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standard Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of the District's accounting policies are described below.

During the year ended June 30, 2019, the District adopted GASB Statements No. 83, Certain Asset Retirement Obligations, No. 84, Fiduciary Activities, No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements as required by GAAP. None of these pronouncements have a significant impact on these financial statements. At year end June 30, 2019, the District did not have a GASB Statement No. 77 disclosure requirement.

A. Financial Reporting Entity

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statement No. 14 as amended by GASB Statement No. 39. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic – but not the only – criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

NOTE 1. Summary of Significant Accounting Policies (continued)

A. Financial Reporting Entity (Continued)

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens. A third criterion used to evaluate the potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity. Based upon the application of these criteria, the District does not have any component units and is not a component unit of another governmental agency.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The District does not have business-type activities as of June 30, 2019.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in three parts – Net investment in capital assets, restricted net position and unrestricted net position.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise fund are reported as separate columns in the fund financial statements. The District does not have any enterprise funds.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Non-Exchange Transactions*. Property taxes are recognized as revenues in the year for which the taxes are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Ad valorem taxes (property taxes) and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met and the susceptible to accrual criteria have been met. All other revenue items are considered to be measurable and available only when cash is received by the government.

The *fiduciary funds* are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. Fiduciary funds are accounted for using the accrual basis of accounting. These funds are used to account for assets that the District holds for others in an custodial capacity.

Governmental funds are used to account for the District's general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt.

Under the requirements of GASB Statement No. 34, the District is required to present certain of its governmental funds as major funds based upon certain criteria. The major funds presented in the fund financial statements include the following (in addition to the General Fund), which may include funds that were not required to be presented as major but were at the discretion of management:

General Fund:

The *Operational Fund* is used to account for the State Equalization Guarantee from the NM State Legislature and is the primary operating fund of the District, and accounts for all financial resources, except those required to be accounted for in other funds. Authority for the creation of this fund is the New Mexico Public Education Department.

The *Teacherage Fund* is used to account for residential rentals to teachers.

The *Transportation Fund* is used to account for the costs associated with transporting school age children. Authority for the creation of this fund is the New Mexico Public Education Department.

The *Instructional Materials Fund* is used to account for the monies received from the State Department of Education for the purposes of purchasing instructional materials (books, manuals, periodicals, etc.) used in the education of students. Authority for the creation of this fund is the New Mexico Public Education Department.

Special Revenue Funds:

The *Food Services Fund* is used to account for income from meal sales, State and Federal reimbursements and to make cash disbursements for activities dealing with preparation and serving of meals. Authority for the creation of this fund is the New Mexico Public Education Department.

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

The *NM Reads to Lead fund* is appropriated by the NM Legislature to support the implementation of the New Mexico Reads to Lead initiative for grades K-3. Authority for the creation of this fund is the New Mexico Public Education Department.

Additionally, the government reports the following fund types:

Fiduciary Funds:

The fiduciary funds are purely custodial (assets equal liabilities) and do not involve measurement of results of operations. These funds account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, or student organizations.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues. Program revenues are categorized as (a) charges for services, which include revenues collected for cafeteria fees and lost books, etc., (b) program-specific operating grants, which includes revenues received from state and federal sources such as Title I and IDEA-B to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues from the state resources such as SB-9 and HB-33 funding to be used for capital projects.

Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes and other items not properly included among program revenues.

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with the function. The District does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and is included in the direct expense of each function, except for that portion of depreciation that is identified as unallocated in the Statement of Activities. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Assets, Liabilities and Net Position or Equity

Cash and Cash Equivalents: The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of twelve months or less from the date of acquisition.

State statutes authorize the District to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Investment Pool.

Investments for the District are to be reported at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the Pool is the same as the fair value of the pool shares. As of June 30, 2019, the District did not hold any pool shares in the State Treasurer's Investment Pool.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (Continued)

Fair Value Measurements: The fair value framework uses a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). As of June 30, 2019, there are no items are required to be valued using valuation techniques.

Receivables and Payables: Inter-fund activity is reported either as loans, services provided, reimbursements, or transfers. Loans are reported as inter-fund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related costs as a reimbursement. All other inter-fund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements. All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

The District receives monthly income from a tax levy in Hidalgo County. The funds are collected by the County Treasurer and are remitted to the District in the following month. Under the modified accrual method of accounting, the amount remitted by Hidalgo County Treasurers in July and August is considered 'measurable and available' and, accordingly, is recorded as revenue in the governmental fund financial statements during the year ended June 30, 2019. Period of availability is deemed to be sixty days subsequent to year end.

Certain Special Revenue funds are administered on a reimbursement method of funding; other funds are operated on a cash advance method of funding. The funds incurred the cost and submitted the necessary request for reimbursement or advance, respectively.

Inventory: The District's method of accounting for inventory is the consumption method. Under the consumption approach, governments report inventories they purchase as an asset and defer the recognition of the expenditures until the period in which the inventories are actually consumed. Inventory is valued at cost. In the General Fund, inventory consists of expendable supplies held for consumption. Inventory in the Food Services Fund consists of U.S.D.A. commodities and other purchased food and non-food supplies. As of June 30, 2019, the District did not hold any inventories.

The cost of purchased inventory is recorded as an expenditure at the time individual inventory items are consumed. Commodities consumed during the year are reported as revenues and expenditures; unused commodities are reported as inventories.

Capital Assets: Capital assets, which include property, plant, and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000, per section 12-6-10 NMSA 1978, and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets, (retroactive to 1979) are to be included as part of the governmental capital assets reported in the government wide statements. Donated capital assets are recorded at estimated fair market value at the date of donation. Information Technology Equipment including software is being capitalized and included in furniture, fixtures, and equipment in accordance with NMAC 2.20.1.9 C (5). The District was a phase III government for purposes of implementing GASB Statement No. 34. However, the District does not have any infrastructure assets to report.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Library books are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. No interest was included as part of the cost of capital assets under construction during the year ended June 30, 2019.

Capital expenditures made on the District's building construction projects by the New Mexico Public School Facilities Authority are included in the District's capital assets as appropriate.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements	10-50 years
Furniture and equipment	5-10 years

Accrued Payroll Liabilities: In the fund financial statements, governmental fund types recognize the accrual of unpaid salaries, wages, and benefits that employees earned prior to the end of the fiscal year. The amount recognized in the fund financial statements represents the amounts due to employees or due to third parties for the employee benefits.

Deferred Outflows of Resources: In addition to assets, the balance sheet reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a use of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure) until that time. The District has four types of items that qualify for reporting in this category related to the pension and OPEB plans which are discussed at Notes 10 and 11.

Deferred Inflows of Resources: In addition to liabilities, the balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Revenue must be susceptible to accrual (measurable and available to finance expenditures of the current fiscal period) to be recognized. If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding liability for deferred inflows of resources. The District has one type of item, which arises under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue – property taxes, are reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District has recorded \$8,625 related to property taxes that are considered “unavailable”. The District also has items related to the pension and OPEB plans which are discussed at Notes 10 and 11.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (Continued)

Compensated Absences: The District's policies regarding accumulated and vacation time permit employees to accumulate earned but unused accumulated and vacation leave. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. Vested or accumulated leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. In prior years, substantially all of the related expenditures have been liquidated by the general fund. Amounts of vested or accumulated leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide statement of net position.

Net Position and Fund Equity: Governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The detail of the District's fund balances is presented on the face of the fund financial statements.

In the government-wide financial statements, fund equity is classified as net position and is displayed in three components:

Net investment in capital assets: Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Position: Consist of net position with "legally enforceable" constraints placed on the use, either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation. Legally enforceable means that a government can be compelled by an external party – such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation, only for the purposes specified by the legislation. Generally, the enforceability of an enabling legislation restriction is determined by professional judgment.

If it is determined that the restrictions continue to be legally enforceable, then for the purposes of financial reporting, the restricted net position should not reflect any reduction for resources used for purposes not stipulated by the enabling legislation. Descriptions for the related restrictions for net position are restricted for "debt service or capital projects."

Unrestricted Net Position: All other net positions that do not meet the definition of "restricted" or "net investment in capital assets".

The government-wide Statement of Net Position reports \$124,241 of restricted net position related to grants, capital projects and debt service.

Fund Balance: In the fund financial statements, governmental funds are reported in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. For committed and assigned fund balance, the District's highest level of decision-making authority is the Board of Education. Formal action by the Board of Education is required to establish a fund balance commitment or assignment.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (Continued)

For the classification of fund balances, the District considers restricted or unrestricted amounts to have been spent when an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available. Also, for the classification of fund balances, the District considers committed, assigned or unassigned amounts to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

In the governmental fund financial statements, fund balance is classified and displayed in five components, as displayed below:

Nonspendable: Consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. At June 30, 2019, the District did not have nonspendable fund balance.

Restricted: Consists of amounts that are restricted to specific purposes as a result of a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed: Consist of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's Board of Education. Those committed amounts cannot be used for any other purpose unless the District's Board of Education removes or changes the specified use by taking formal action.

Assigned: Consist of amounts that are constrained by the District's *intent* to be used for specific purposes, but are neither restricted nor committed. Formal action by the District's Board of Education is required to assign amounts to be used for specific purposes.

Unassigned: Represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund except for those other governmental funds reflecting a deficit.

Inter-fund Transactions: Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund from expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other inter-fund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Non-recurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other inter-fund transfers are reported as operating transfers.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates affecting the District's financials include management's estimate of the useful lives of capital assets and the net pension and OPEB liabilities (including the related components).

E. Revenues

State Equalization Guarantee: School districts in the State of New Mexico receive a 'state equalization guarantee distribution' which is defined as "that amount of money distributed to each school district to ensure that the school district's operating revenue, including its local and federal revenues as defined (in Chapter 22, Section 825, NMSA 1978) is at least equal to the school district's program cost.

A school district's program costs are determined through the use of various formulas using 'program units' which take into consideration 1) early childhood education; 2) basic education; 3) special education; 4) bilingual-multicultural education; 5) size, etc. Payment is made from the public school fund under the authority of the Secretary of the Public Education Department. The District received \$2,188,859 in state equalization guarantee distributions during the year ended June 30, 2019.

Tax Revenues: The District receives mill levy and ad-valorem tax revenues primarily for debt service and capital outlay purposes. Tax revenues are recognized when they are in the hands of the collecting agency. The District records only the portion of the taxes considered to be 'measurable' and 'available' on a modified accrual basis. The District recognized 88,133 in tax revenues on the full accrual basis of accounting during the year ended June 30, 2019. Descriptions of the individual debt service fund contained in these financial statements include information regarding the authority for the collection and use of these taxes.

Property taxes attach an enforceable lien on property as of January 1. Tax notices are sent to property owners by November 1st of each year to be paid in whole or in two installments by November 10th and April 10th of each year. Hidalgo County collects County, City, and School taxes and distributes them to each fund once per month except in June when the taxes are distributed twice to close out the fiscal year.

Transportation Distribution: School districts in the State of New Mexico receive student transportation distributions. The transportation distribution is allocated to each school district in accordance with formulas developed by the State Transportation Director and the Secretary of the Public Education Department. The funds shall be used only for the purpose of making payments to each school district for the to-and-from school transportation costs of students in grades K through twelve attending public school within the school district. The District received \$290,858 in transportation distributions during the year ended June 30, 2019.

Instructional Materials: The New Mexico Public Education Department (PED) receives federal mineral leasing funds from which it makes annual allocations to the various school districts for the purchase of educational materials. Of each allocation, fifty percent is restricted to the purchase of materials listed in the PED "Multiple List", while fifty percent of each allocation is available for purchases directly from vendors. Allocations received from the State for the year ended June 30, 2019 totaled \$5,864.

Public School Capital Outlay: Under the provisions of Chapter 22, Article 24, a public school capital outlay fund was created. The money in the fund may be used only for capital expenditures deemed by the public school capital outlay council necessary for an adequate educational program, and the capital outlay expenditures are limited to the purchase, or construction of temporary or permanent classrooms.

NOTE 1. Summary of Significant Accounting Policies (continued)

E. Revenues (Continued)

The council shall approve an application for grant assistance from the fund when the council determines that:

1. A critical need exists requiring action;
2. The residents of the school districts have provided all available resources to the district to meet its capital outlay requirements;
3. The school district has used its resources in a prudent manner;
4. The school district is in a county or counties which have participated in the reappraisal program and the reappraised values are on the tax rolls, or will be used for the tax year 1979 as certified by the property tax division; and
5. The school district has provided insurance for buildings of the school district in accordance with the provisions of Section 13-5-3 NMSA 1978.

The council shall consider all applications for assistance from the fund and after public hearing shall either approve or deny the application. Applications for grant assistance shall only be accepted by the council after a district has complied with the provisions of this section. The council shall list all applications in order of priority and all allocations shall be made on a priority basis.

Money in the fund shall be disbursed by warrant of the Department of Finance and Administration on vouchers signed by the Secretary of Finance and Administration following certification by the council that the application has been approved.

During fiscal year 2019, the District did not receive any special capital outlay funds.

SB-9 State Match: The Director shall distribute to any school district that has imposed a tax under the Public School Capital Outlay Improvements Act (22-25-1 to 22-25-10 NMSA 1978) an amount from the public school capital improvements fund that is equal to the amount by which the revenue estimated to be received from the imposed tax as specified in Subsection B of section 22-25-3 NMSA 1978, assuming a one hundred percent collection rate, is less than an amount calculated by multiplying the product obtained by the rate imposed in the District under the Public School Capital Improvements Act. The distribution shall be made by December 1, of each year that the tax is imposed in accordance with Section 22-25-3 NMSA 1978. Provided, however, in the event that sufficient funds are not available in the public school capital improvement funds to make the state distribution provided for in this section, the dollar per program unit figure shall be reduced as necessary.

The District received \$19,023 in State SB-9 matching during the year end June 30, 2019.

Federal Grants: The District receives revenues from various Federal departments (both direct and indirect), which are legally restricted to expenditures for specific purposes. These programs are reported as Special Revenue Funds. Each program is operated under its own budget, which has been approved by the Federal Department or the flow-through agency (usually the New Mexico Public Education Department). The various budgets are approved by the Local School Board and the New Mexico Public Education Department.

The District also receives revenues from Federal departments which are unrestricted to expenditures for special purposes. These revenues are reported in the Operational Fund.

NOTE 1. Summary of Significant Accounting Policies (continued)

F. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Educational Retirement Board Plan (ERB) and additions to/deductions from ERB's fiduciary net position have been determined on the same basis as they are reported by ERB, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payment (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

G. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA's fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2. Stewardship, Compliance and Accountability

Budgetary Information

Budgets for the General, Special Revenue, Capital Projects, and Debt Service Funds are prepared by management and are approved by the local Board of Education and the School Budget and Planning Unit of the Public Education Department. Auxiliary student activity accounts are not budgeted.

These budgets are prepared on the Non-GAAP (Cash) budgetary basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year. Because the budget process in the State of New Mexico requires that the beginning cash balance be appropriated in the budget of the subsequent fiscal year, such appropriated balance is legally restricted and is therefore presented as a designated portion of the fund balance.

Actual expenditures may not exceed the budget at the function level. Budgets may be amended in two ways. If a budget transfer is necessary within a major category called a 'function,' this may be accomplished with only local Board of Education approval. If a transfer between 'functions' or a budget increase is required, approval must also be obtained from the New Mexico Public Education Department. The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In April or May, the local school board submits to the School Budget and Finance Analysis Bureau (SBFAB) of the New Mexico Public Education Department, a proposed operating budget for the ensuing fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them. All budgets submitted to the State of New Mexico Public Education Department (PED) by the District shall contain headings and details as described by law and have been approved by the New Mexico Public Education Department.

NOTE 2. Stewardship, Compliance and Accountability (continued)

Budgetary Information - (Continued)

2. In May or June of each year, the proposed "operating" budget will be reviewed and approved by the SBFAB and certified and approved by the local school board at a public hearing of which notice has been published by the local school board who fixes the estimated budget for the District for the ensuing fiscal year.
3. The school board meeting, while not intended for the general public, is open for the general public unless a closed meeting has been called.
4. The "operating" budget will be used by the District until they have been notified that the budget has been approved by the SBFAB and the local school board. The budget shall be integrated formally into the accounting system. Encumbrances shall be used as an element of control and shall be integrated into the budget system.
5. The District shall make corrections, revisions and amendments to the estimated budgets fixed by the local school board to recognize actual cash balances and carryover funds, if any. These adjustments shall be reviewed and approved by the SBFAB.
6. The superintendent is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the school board and the New Mexico Public Education Department.
7. Budget change requests are processed in accordance with Supplement 1 (Budget Preparation and Maintenance) of the Manual of Procedures Public School Accounting and Budgeting. Such changes are initiated by the District and approved by the SBFAB.
8. Legal budget control for expenditures is by function.
9. Appropriations lapse at fiscal year-end. Funds unused during the fiscal year may be carried over into the next fiscal year by budgeting those in the subsequent fiscal year's budget. The budget of the District has been amended during the current fiscal year in accordance with these procedures. The budget schedules included in the accompanying financial statements reflect the approved budget and amendments thereto.
10. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Capital Projects Funds and Debt Service Funds.
11. Budgets for the General, Special Revenue, Capital Projects, and Debt Service Funds are adopted on a basis not consistent with generally accepted accounting principles (GAAP). Encumbrances are treated the same way for GAAP purposes and for budget purposes.

The Board of Education may approve amendments to the appropriated budget, which are required when a change is made affecting budgeted ending fund balance. New Mexico state law prohibits a Governmental Agency from exceeding an individual function.

The accompanying Statements of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual present comparisons of the legally adopted budget with actual data on a budgetary basis.

NOTE 2. Stewardship, Compliance and Accountability (continued)

Budgetary Information - (Continued)

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with generally accepted accounting principles, a reconciliation of resultant basis, perspective, equity, and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2019, is presented.

The appropriated budget for the year ended June 30, 2019, was properly amended by the Board of Education throughout the year. These amendments resulted in the following changes:

	Excess (deficiency) of revenues over expenditures	
	Original Budget	Final Budget
Budgeted Funds:		
General Fund	\$ (241,824)	\$ (221,030)
Food Services	\$ (82,442)	\$ (82,442)
NM Reads to Lead	\$ -	\$ -

The District is required to balance its budgets each year. Accordingly, amounts in excess or deficient are presented as changes in cash designated for expenditures, not as an excess or deficiency of revenues over expenditures.

The reconciliation between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis for each governmental fund is included in the individual budgetary comparison. The District budgets on a modified cash basis with respect to payroll or held checks being accrued and expensed, therefore, fund balances on the budget statements do not reconcile to cash due to the District's accrued payroll which is presented on the accrual basis.

NOTE 3. Deposits and Investments

State statutes authorize the investment of the District's funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government obligations. All invested funds of the District properly followed State investment requirements as of June 30, 2019.

Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the District. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

NOTE 3. Deposits and Investments (continued)

The collateral pledged is listed on Schedule II of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency, district or political subdivision of the State of New Mexico

According to the Federal Deposit Insurance Corporation, public unit deposits are funds owned by the public unit. Time deposits, savings deposits and interest bearing NOW accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution.

Deposits:

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure, the District’s deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk, other than the following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978.) At June 30, 2019, \$231,979 of the District’s deposits of \$481,979 was exposed to custodial credit risk. \$231,979 was uninsured and collateralized by collateral held by the pledging bank’s trust department, not in the District’s name. As of June 30, 2019, \$0 is uninsured and uncollateralized. As of June 30, 2019, the carrying amount of these deposits was \$400,027; total amount of deposits of \$481,979 less outstanding items of \$81,952. New Mexico State Statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the District for a least one half of the amount on deposit with the institution. The schedule listed below will meet the State of New Mexico, Office of the State Auditor’s requirements in reporting the insured portion of the deposits.

Compensated Absences – During fiscal year June 30, 2019, compensated absences increased \$3,418 for annual leave. See Note 1 for more details.

NOTE 8. Risk Management

The District is a member of the New Mexico Public Schools Insurance Authority (NMPSIA). The Authority was created to provide comprehensive core insurance programs by expanding the pool of subscribers to maximize cost containment opportunities for required insurance coverage. The District pays an annual premium to the NMPSIA based on claim experience and the status of the pool. The Risk Management Program includes Workers Compensation, General and Automobile Liability, Automobile Physical Damage, and Property and Crime coverage. Also included under the risk management program are Boiler and Machinery, Underground Storage Tanks and Catastrophic Student Accident Insurance.

The New Mexico Public Schools Insurance Authority is self-insured for property and liability losses below \$250,000 and purchases excess insurance above the self-insured retention. The self-insured retention aggregate for property is set at \$2,000,000 with a \$1,000,000 stop loss. The self-insured retention aggregate for liability is \$5,000,000 with a \$1,000,000 stop loss.

In case the NMPSIA's assets are not sufficient to meet its liability claims, the agreement provides that subscribers, including the District, cannot be assessed additional premiums to cover the shortfall. As of June 30, 2019, there have been no claims that have exceeded insurance coverage.

NOTE 9. Other Required Individual Fund Disclosures

Generally accepted accounting principles require disclosures of certain information concerning individual funds including:

- A. Deficit fund balance of individual funds: The District did not have deficit fund balances at June 30, 2019.
- B. Excess of expenditures over appropriations: No funds of the District exceeded approved budgetary authority at the fund level for the year ended June 30, 2019.
- C. Designated cash appropriations in excess of available balance: At year end June 30, 2019, the following fund had exceeded the budgeted cash appropriations for the year ended June 30, 2019:

NOTE 10. Pension Plan – Educational Retirement Board

General Information about the Pension Plan

Plan description. The New Mexico Educational Retirement Act (ERA) was enacted in 1957. The act created the Educational Employees Retirement Plan (Plan) and, to administer it, the New Mexico Educational Retirement Board (NMERB). The Plan is included in NMERB's comprehensive annual financial report. The report can be found on NMERB's Web site at https://www.nmerb.org/Annual_reports.html.

The Plan is a cost-sharing, multiple-employer pension plan established to provide retirement and disability benefits for certified teachers and other employees of the state's public schools, institutions of higher learning, and state agencies providing educational programs. Additional tenets of the ERA can be found in Section 22-11-1 through 22-11-52, NMSA 1978, as amended.

The Plan is a pension trust fund of the State of New Mexico. The ERA assigns the authority to establish and amend benefit provisions to a seven-member Board of Trustees (Board); the state legislature has the authority to set or amend contribution rates and other terms of the Plan. NMERB is self-funded through investment income and educational employer contributions. The Plan does not receive General Fund Appropriations from the State of New Mexico.

All accumulated assets are held by the Plan in trust to pay benefits, including refunds of contributions as defined in the terms of the Plan. Eligibility for membership in the Plan is a condition of employment, as defined Section 22-11- 2, NMSA 1978. Employees of public schools, universities, colleges, junior colleges, technical-vocational institutions, state special schools, charter schools, and state agencies providing an educational program, who are employed more than 25% of a full-time equivalency, are required to be members of the Plan, unless specifically excluded.

Pension Benefit – A member's retirement benefit is determined by a formula which includes three component parts: 1) the member's final average salary (FAS), 2) the number of years of service credit, and 3) a 0.0235 multiplier. The FAS is the average of the member's salaries for the last five years of service or any other consecutive five-year period, whichever is greater.

Summary of Plan Provisions for Retirement Eligibility – For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs:

- The member's age and earned service credit add up to the sum of 75 or more,
- The member is at least sixty-five years of age and has five or more years of earned service credit, or
- The member has service credit totaling 25 years or more.

Chapter 288, Laws of 2009 changed the eligibility requirements for new members first employed on, or after, July 1, 2010 and before July 1, 2013. The eligibility for a member who either becomes a new member on or after July 1, 2010 and before July 1, 2013, or at any time prior to July 1, 2010 refunded all member and then becomes re-employed after July 1, 2010 is as follows:

- The member's age and earned service credit add up to the sum of 80 or more,
- The member is at least sixty-seven years of age and has five or more years of earned service credit, or
- The member has service credit totaling 30 years or more.

NOTE 10. Pension Plan – Educational Retirement Board (continued)

Section 2-11-23.2, NMSA 1978 added eligibility requirements for new members who were first employed on or after July 1, 2013, or who were employed before July 1, 2013 but terminated employment and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2013. These members must meet one of the following requirements.

- The member's minimum age is 55, and has earned 30 or more years of service credit. Those who retire earlier than age 55, but with 30 years of earned service credit will have a reduction in benefits to the actuarial equivalent of retiring at age 55.
- The member's minimum age and earned service credit add up to the sum of 80 or more. Those who retire under the age of 65, and who have fewer than 30 years of earned service credit will receive reduced retirement benefits
- The member's age is 67, and has earned 5 or more years of service credit.

Forms of Payment – The benefit is paid as a monthly life annuity with a guarantee that, if the payments made do not exceed the member's accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary.

Benefit Options – The Plan has three benefit options available.

- **Option A – Straight Life Benefit** – The single life annuity option has no reductions to the monthly benefit, and there is no continuing benefit due to a beneficiary or estate, except the balance, if any, of member contributions plus interest less benefits paid prior to the member's death.
- **Option B – Joint 100% Survivor Benefit** – The single life annuity monthly benefit is reduced to provide for a 100% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the same benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.
- **Option C – Joint 50% Survivor Benefit** – The single life annuity monthly benefit is reduced to provide for a 50% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the reduced 50% benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

Disability Benefit – An NMERB member is eligible for disability benefits if they have acquired at least ten years of earned service credit and is found totally disabled. The disability benefit is equal to 2% of the member's Final Average Salary (FAS) multiplied by the number of years of total service credits. However, the disability benefit shall not be less than the smaller of (a) one-third of the member's FAS or (b) 2% of the member's FAS multiplied by total years of service credit projected to age 60.

NOTE 10. Pension Plan – Educational Retirement Board (continued)

Cost of Living Adjustment (COLA) – All retired members and beneficiaries receiving benefits receive an automatic adjustment in their benefit on July 1 following the later of 1) the year a member retires, or 2) the year a member reaches age 65 (Tier 1 and Tier 2) or age 67 (Tier 3).

- Tier 1 membership is comprised of employees who became members prior to July 1, 2010
- Tier 2 membership is comprised of employees who became members after July 1, 2010, but prior to July 1, 2013
- Tier 3 membership is comprised of employees who became members on or after July 1, 2013

As of July 1, 2013, for current and future retirees the COLA is immediately reduced until the Plan is 100% funded. The COLA reduction is based on the median retirement benefit of all retirees excluding disability retirements. Retirees with benefits at or below the median and with 25 or more years of service credit will have a 10% COLA reduction; their average COLA will be 1.5%. Once the funding is greater than 90%, the COLA reductions will decrease. The retirees with benefits at or below the median and with 25 or more years of service credit will have a 5% COLA reduction; their average COLA will be 1.7%.

Members on disability retirement are entitled to a COLA commencing on July 1 of the third full year following disability retirement. A member on regular retirement who can prove retirement because of a disability may qualify for a COLA beginning July 1 in the third full year of retirement.

Refund of Contributions – Members may withdraw their contributions only when they terminate covered employment in the State and their former employer(s) certification determination has been received by NMERB. Interest is paid to members when they withdraw their contributions following termination of employment at a rate set by the Board. Interest is not earned on contributions credited to accounts prior to July 1, 1971, or for contributions held for less than one year.

Contributions – For the fiscal year ended June 30, 2019 and 2018 educational employers contributed to the Plan based on the following rate schedule.

Fiscal Year	Date Range	Wage Category	Member Rate	Employer Rate	Combined Rate	Increase Over Prior Year
2019	7-1-18 to 6-30-19	Over \$20K	10.70%	13.90%	24.60%	0.00%
2019	7-1-18 to 6-30-19	\$20K or less	7.90%	13.90%	21.80%	0.00%
2018	7-1-17 to 6-30-18	Over \$20K	10.70%	13.90%	24.60%	0.00%
2018	7-1-17 to 6-30-18	\$20K or less	7.90%	13.90%	21.80%	0.00%

The contribution requirements are established in statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the New Mexico Legislature. For the fiscal years ended June 30, 2019 and 2018, the District paid employee and employer contributions of \$342,630 and \$355,840, which equal the amount of the required contributions for each fiscal year.

NOTE 10. Pension Plan – Educational Retirement Board (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2019, the District reported a liability of \$6,185,870 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2018 using generally accepted actuarial principles. The roll-forward incorporates the impact of the new assumptions adopted by the Board on April 21, 2017. There were no other significant events of changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2017. Therefore, the employer’s portion was established as of the measurement date of June 30, 2018. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating educational institutions, actuarially determined. At June 30, 2018, the District’s proportion was 0.05202% percent, which was a decrease of .0004% percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$1,030,614. At June 30, 2019, District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Differences between expected and actual experience	\$ 4,515	\$ 117,727
Net difference between expected and actual investments on pension plan investments	13,695	-
Change of assumptions	1,274,879	-
Change in proportion	88,430	20,869
District's contributions subsequent to the measurement date	194,636	-
Total	\$ 1,576,155	\$ 138,596

\$194,636 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

2019	\$	778,747
2020		477,059
2021		(13,063)

NOTE 10. Pension Plan – Educational Retirement Board (continued)

Actuarial assumptions. The total pension liability as of June 30, 2018 was based on an actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 and was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry age normal
Inflation	2.50%
Salary Increases	Composed of 2.50% inflation, plus 0.75% productivity increase rate, plus step-rate promotional increases for less than 10 years of service
Investment Rate of Return	7.25%
Single Discount Rate	5.69%
Retirement Age	Experience based table of rates based on age and service. Adopted by NMERB on April 21, 2017 in conjunction with the six-year experience study for the period ended June 30, 2016.
Mortality	Healthy Males – RP-2000 Combined Mortality Table with white collar adjustments, generational mortality improvements with Scale BB from the table's base year of 2000.

Healthy Females – GRS Southwest Region Teacher Mortality Table, set back one year, generational mortality improvements in accordance with scale BB from the table's base year of 2012.

Actuarial assumptions and methods are set by the Board of Trustees (Board), based upon recommendations made by the plan's actuary. The Board adopted new assumptions on April 21, 2017 in conjunction with the six-year actuarial experience study period ending June 30, 2016. At that time, the Board adopted a number of economic assumption changes, including a decrease in the inflation assumption from 3.00% to 2.50%. The 0.50% decrease in the inflation assumption also led to decreases in the nominal investment return assumption from 7.75% to 7.25%, the assumed annual wage inflation rate from 3.75% to 3.25%, the payroll growth assumption from 3.50% to 3.00%, and the annual assumed COLA from 2.00% to 1.90%.

Basis for Allocation – The employers' proportionate share, reported in the Schedule of Employer Allocations, is calculated using employer contributions for employers that were members of NMERB, as of June 30, 2018.

Rate of Return – The long-term expected rate of return on pension plan investments is determined annually using a building-block approach that includes the following: 1) rate of return projections are the sum of current yield plus projected changes in price (valuation, defaults, etc.); 2) application of key economic projections (inflation, real growth, dividends, etc.); and 3) structural themes (supply and demand imbalances, capital flows, etc.) developed for each major asset class.

Discount Rate – A single discount rate of 5.69% was used to measure the total pension liability as of June 30, 2018. This single discount rate was based on an expected rate of return on pension plan investments of 7.25% and a municipal bond rate of 3.62%. Based on the stated assumptions and the projection of cash flows, the Plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2050. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the 2050 fiscal year, and the municipal bond rate was applied to all benefit payments after that date.

Pension plan fiduciary net position. Detailed information about the pension plan’s fiduciary net position is available in the separately issued separately issued NMERB’S financial reports. The reports can be found on NMERB’s Web site at https://www.nmerb.org/Annual_reports.html.

Payables to the pension plan. At June 30, 2019, the District owed the ERB \$45,929 for the contributions withheld in the month of June 2019.

NOTE 11. Post-Employment Benefits – State Retiree Health Care Plan

General Information about the OPEB

Plan description. Employees of the District are provided with OPEB through the Retiree Health Care Fund (the Fund)—a cost-sharing multiple-employer defined benefit OPEB plan administered by the New Mexico Retiree Health Care Authority (NMRHCA). NMRHCA was formed February 13, 1990, under the New Mexico Retiree Health Care Act (the Act) of New Mexico Statutes Annotated, as amended (NMSA 1978), to administer the Fund under Section 10-7C-1-19 NMSA 1978. The Fund was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents and surviving spouses) who have retired or will retire from public service in New Mexico.

NMRHCA is an independent agency of the State of New Mexico. The funds administered by NMRHCA are considered part of the State of New Mexico financial reporting entity and are OPEB trust funds of the State of New Mexico. NMRHCA’s financial information is included with the financial presentation of the State of New Mexico.

Benefits provided. The Fund is a multiple employer cost sharing defined benefit healthcare plan that provides eligible retirees (including terminated employees who have accumulated benefits but are not yet receiving them), their spouses, dependents and surviving spouses and dependents with health insurance and prescription drug benefits consisting of a plan, or optional plans of benefits, that can be contributions to the Fund and by co-payments or out-of-pocket payments of eligible retirees.

Employees covered by benefit terms – At June 30, 2018, the Fund’s measurement date, the following employees were covered by the benefit terms:

Plan membership	
Current retirees and surviving spouses	51,205
Inactive and eligible for deferred benefit	11,471
Current active members	93,349
	156,025
Active membership	
State general	19,593
State police and corrections	1,886
Municipal general	17,004
Municipal police	3,820
Municipal FTRE	2,290
Educational Retirement Board	48,756
	93,349

Contributions – Employer and employee contributions to the Fund total 3% for non-enhanced retirement plans and 3.75% of enhanced retirement plans of each participating employee’s salary as required by Section 10-7C-15 NMSA 1978. The contributions are established by statute and are not based on an actuarial calculation. All employer and employee contributions are non-refundable under any circumstance, including termination of the employer’s participation in the Fund. Contributions to the Fund from the District were \$42,007 for the year ended June 30, 2019.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the District reported a liability of \$1,480,615 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District’s proportion of the net OPEB liability was based on actual contributions provided to the Fund for the year ending June 30, 2018. At June 30, 2018, the District’s proportion was 0.03405 percent.

Actuarial assumptions. The total OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017 that was rolled forward to a measurement date of June 30, 2018. The mortality, retirement, disability, turnover and salary increase assumptions for PERA members are based on the PERA annual valuation as of June 30, 2016 and for ERB members are based on the ERB actuarial experience study as of June 30, 2016. The following actuarial assumptions were applied to the actuary’s measurement:

Valuation Date	June 30, 2017
Actuarial cost method	Entry age normal, level percent of pay, calculated on individual employee basis
Asset valuation method	Market value of assets
Actuarial assumptions:	
Inflation	2.50% for ERB; 2.25% for PERA
Projected payroll increases	3.50% to 12.50% based on years of service, including inflation
Investment rate of return	7.25%, net of OPEB plan investment expense and margin for adverse deviation including inflation
Health care cost trend rate	8% graded down to 4.5% over 14 years for Non-Medicare medical plan costs and 7.5% graded down to 4.5% over 12 for Medicare medical plan costs
Mortality	ERB members: RP-2000 Combined Healthy Mortality Table with White Collar Adjustment (males) and GRS Southwest Region Teacher Mortality Table (females) PERA members: RP-2000 Combined Healthy Mortality

Rate of Return. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions.

The best estimates for the long-term expected rate of return is summarized as follows:

Asset Class	Long-Term Rate of Return
U.S. core fixed income	2.1%
U.S. equity - large cap	7.1
Non U.S. - emerging markets	10.2
Non U.S. - developed equities	7.8
Private equity	11.8
Credit and structured finance	5.3
Real estate	4.9
Absolute return	4.1
U.S. equity - small/mid cap	7.1

NOTE 11. Post-Employment Benefits – State Retiree Health Care Plan (continued)

Discount Rate. The discount rate used to measure the Fund’s total OPEB liability is 4.08% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2029. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2029. Beyond 2029, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher (3.87%) was applied. Thus, 4.08% is the blended discount rate.

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates. The following presents the net OPEB liability of the District, as well as what the District’s net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.08 percent) or 1-percentage-point higher (5.08 percent) than the current discount rate:

	1% Decrease (3.08%)	Current Discount Rate (4.08%)	1% Increase (5.08%)
District’s proportionate share of the net OPEB liability	\$ 1,791,893	\$ 1,480,615	\$ 1,235,259

The following presents the net OPEB liability of the District, as well as what the District’s net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Trend Rate Sensitivity Analysis		
	1% Decrease	Rate	1% Increase
District’s proportionate share of the net OPEB liability	\$ 1,251,639	\$ 1,480,615	\$ 1,660,137

OPEB plan fiduciary net position. Detailed information about the OPEB plan’s fiduciary net position is available in NMRHCA’s audited financial statements for the year ended June 30, 2019.

Payable Changes in the Net OPEB Liability. At June 30, 2019, the District did not have a payable for outstanding contributions due to NMRHCA for the year ended June 30, 2019.

NOTE 12. Concentrations

The District depends on financial resources flowing from, or associated with, both the Federal Government and the State of New Mexico. Because of this dependency, the District is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State Appropriations.

COMPLIANCE SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq
New Mexico State Auditor
Board of Education and Management
Animas Independent School District No. 6
Animas, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, the aggregate remaining fund information, the budgetary comparisons of the General Fund and major special revenue funds of Animas Independent School District No. 6 (the District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 8, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described on the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be a material weakness or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted a certain matter that is required to be reported per section 12-6-5 NMSA 1978 that we have described in the accompanying schedule of Section 12-6-5 NMFA 1978 findings as item 2019-001.

District's Responses to Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The District's response was not subjected to the auditing procedures applied in the audit response of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SECTION II – FINANCIAL STATEMENTS AND SECTION 12-6-5 NMSA FINDINGS

2019-001 Cash Appropriations in Excess of Available Cash Balances (Other Matter)

Condition: The District maintained a deficit budget in excess of available cash balances in the following fund:

Teacherage Fund (12000) Fund	\$1,349
------------------------------	---------

Criteria: Section 2.2.2.10, NMAC, states that the District’s cash balances rebudgeted to absorb budget deficits cannot exceed the actual cash balance available at the end of the prior year.

Effect: The District has budgeted funds in excess of its budget authority and the District has budgeted a cash balance that does not exist. If the District expends all budgeted expenditures it will overdraw its existing funds.

Cause: The review process for adjusting the funds final budget was missed by the District.

Auditors’ Recommendations: The budget should be reviewed to ensure all funds have adequate budget authority and cash balances for budgeted expenditures. Greater attention should be given to the budget monitoring process end-of-the-year cash balance estimates.

Agency Response The District will incorporate additional procedures to review the budget to ensure all funds have adequate budget authority and cash balances for budgeted expenditures at year end. The Business Manager will be the responsible party for these procedures.
