To the Citizens and Board of Education of Farmington Municipal School District

We are pleased to present to you the comprehensive annual financial report of the Farmington Municipal School District for the fiscal year ended June 30, 2019.

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Farmington Municipal School District for the fiscal year ended June 30, 2019.

This report consists of management's representations concerning the finances of the Farmington Municipal School District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Farmington Municipal School District has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Farmington Municipal School District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Farmington Municipal School District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Farmington Municipal School District's financial statements have been audited by Accounting and Financial Solutions, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Farmington Municipal School District for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Farmington Municipal School District's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the Farmington Municipal School District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Farmington Municipal School District's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Farmington Municipal School District's MD&A can be found immediately following the report of the independent auditors.

Profile of the District

The District is a political subdivision of the State organized for the purpose of operating and maintaining an educational program for school-age children residing within its boundaries.

The Farmington Municipal School District No. 5 is the seventh largest district in the State with an enrollment of 10,963 students. There are 10 elementary schools, 4 middle schools, an alternative senior high school, an early college high school, two senior high schools and two pre-schools within the District. The District's educational program also includes vocational, technical and occupational training. The District provides education services for the detainees of the County Juvenile Detention Center, which averages approximately 25 students.

The District's powers are subject to regulations promulgated by the New Mexico Secretary of Public Education. The Public Education Department Secretary is the governing authority of the public school systems in New Mexico and has control, management and direction over all public schools. The Governor appoints the Secretary of Public Education. Generally, the powers of the Secretary include determining policy of operations of all public schools; designating courses of instruction for all public schools in the State; adopting regulations for the administration of all public schools; determining qualifications for teachers, counselors, and their assistants; and prescribing minimum educational standards for all public schools. The Secretary of the Public Education Department may order the creation of new school districts or may require consolidation of school districts.

The District Board (the "Board"), subject to regulations of the Public Education Department, supervises and controls all public schools and property within the District. The Board employs a superintendent of schools, delegates administrative and supervisory functions to the superintendent, fixes the budget, has the capacity to sue and be sued, contracts, leases, purchases and sells for the District, acquires and disposes of all property, and adopts regulations pertaining to the administration of all powers or duties of the Board. Members serve without compensation for four-year terms of office in non-partisan elections held every two years on the first Tuesday in November.

Currently, the District operates and maintains a variety of facilities in meeting its obligations to provide an education program for the school-age children residing within its boundaries. The District operates 20 school sites. The capacity of the school facilities is estimated at 12,000 students (FTE basis).

In addition to the school buildings and their contents, the District owns 290 acres of land upon which school buildings and facilities are located, approximately 579 acres of additional vacant property, the District Administration Building, a maintenance shop and custodial center, bus terminal, an Exceptional Program and Bilingual Education building, an instructional materials warehouse and 40 vehicles. The District owns its bus fleet (75).

The Farmington Schools, as a whole, is accredited by the State of New Mexico's Public Education Department.

The District is required by State law to submit to the Public Education Department by April 15 of each year, a projected budget for the District for the ensuing fiscal year. If the District fails to submit a budget, the Public Education Department must prepare a projected budget for the District for the ensuing fiscal year. Prior to June 20th of each year, the Board must hold a public hearing to establish the projected budget for the district for the next year.

On or before July 1 of each year, the Public Education Department must approve and certify to the District an approved budget for use by the District based upon the estimated budget fixed by the District. No school board, officer or employee of a school district may make expenditure or incur any obligation for the expenditure of public funds unless such expenditure is made in accordance with an operating budget approved by the Public Education Department, but this does not prohibit the transfer of funds between line items within an object of a budget. Approved budgets may not be altered or amended after approval by the Public Education Department except upon request to the Public Education Department by the District. Instances in which such requests will be approved include a change within the budget, which does not increase the total amount of the budget. Additional budget items may also be approved if the District is to receive unanticipated revenues. Finally, if it becomes necessary to increase the District's budget by more than \$1,000 for any reason other than those listed above, the Public Education Department may order a special public hearing to consider the requested increase.

Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Capital Projects and Debt Service Fund with appropriations lapsing at year-end. Total expenditures of any activity category may not exceed categorical appropriations.

To conform to Public Education Department requirements, budgets for all funds of the District are adopted on the cash basis of accounting except for state instructional materials credit, which provides free textbooks from the Public Education Department. Hence, the budgets are not prepared in conformity with generally accepted accounting principles (GAAP) and budgetary comparisons are presented on the (Non-GAAP) basis of accounting.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is found on page 26 as part of the basic financial statements for the government funds. For governmental funds, other than the general fund, with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on pages 27, 64 and 104.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Farmington Municipal School District operates.

Local economy. The Farmington Municipal School District (the “District”) is located in the mineral rich “Four Corners” area in northwestern New Mexico. The economy of the area is dependent upon trade, electric power generation, oil, gas and coal production, government, tourism and agriculture.

Retail trade. Farmington is the largest city in the Four Corners area of Colorado, Arizona, Utah and New Mexico. It serves as the retail, distribution and service center for an estimated population of over 260,000 including the Navajo Nation, the largest Indian reservation in the country.

Electrical Generation The economic base of the area was broadened beyond agriculture and oil and gas production in the 1960’s with construction of two coal-fired generating plants, the Four Corners Generating Station and the San Juan Generating Station.

Four corners (“APS”) Company operates Four Corners Power Plant, a five-unit 2,040 megawatt coal-fired plant. Located on the Navajo Nation, 15 miles west of Farmington, employs roughly 434 workers, 82% of whom are Native American. Three of the five units closed in December 2013 as part of a \$182 million plan for APS to meet environmental regulations. APS purchased a larger stake in Units 4 and 5 of the Four Corners Power Plant that will remain open and do not need as much investment to meet EPA standards. APS has not been replacing workers at the plant as they quit or retired since 2010 when the plan was first proposed, avoiding layoffs from the closure. APS owned 15% of Units 4 and 5 and bought an additional 48% stake in them from Southern California Edison which could save customers nearly \$500 million over the next best alternative. PNM Resources Inc. of New Mexico, Salt River Project, El Paso Electric and Tucson Electric Power also own minority stakes in Units 4 and 5. In 2018, the Navajo Transitional Energy Co. acquired a 7% stake in units 4 and 5 in the power plant from APS as El Paso Electric Co. sold this 7% share to APS in 2016.

The Public Service Company of New Mexico (“PNM”) owns a significant portion of San Juan Generating Station (SJGS), a four-unit, 1,684 megawatt of net accredited generation capacity, coal-fired plant located approximately 15 miles west of Farmington. The company operates SJGS on behalf of itself and four other owners in the West. The plant employs approximately 1,500 full-time employees and is the 7th largest coal-fired generating station in the West. In 2017, Units 2 and 3 were closed as part of a settlement agreement between the State of New Mexico and the U.S. Environmental Protection Agency (EPA). PNM is planning shutting down the remaining coal-burning units in 2022, 20 years before the end of its useful life. The City of Farmington, one of the remaining owners, has indicated interest in retaining its ownership and supporting Enchant Energy and its plans to repurpose the power plant into carbon capture utilization and sequestration (CCUS) facility and as a wholesale power generator.

PNM spokesman said the 2022 closure would align with the expiration of the company’s finance and supply agreements with the owner of the San Juan Coal Mine. The mine was purchased by Westmoreland Coal Co. in early 2016 for \$127 million. At the time of the purchase, Westmoreland said in a news release that a PNM-affiliated company had loaned it \$125 million to finance the purchase, with the loan maturing in five years. Year 2022 is also when PNM’s partnership agreement for the San Juan plant expires with Tucson Electric Power, the city of Farmington, Los Alamos County and Utah Associated Municipal Power Systems. PNM is the largest stakeholder in the plant, owning 66.4 percent of shares.

The San Juan mine is the only active underground mine in New Mexico. Coal usage is about 6.4 million tons per year. The San Juan Plant meets or exceeds all state and federal regulations for NO₂, SO₂ and particulate control, and is a zero liquid discharge facility.¹

Oil and Gas Production The oil and gas industry has been important to the San Juan County economy since the 1920's and between the early 1950's and early 1980's was its mainstay. Large scale development began in 1951 and continued until 1983 when cheaper foreign crude oil and natural gas supplies dominated the market.

New Mexico oil and natural gas reserves are estimated at over 700 million barrels of oil and over 17 trillion cubic feet of natural gas, according to the New Mexico Energy, Minerals and Natural Resources Division. New Mexico ranks third in crude oil production and fourth in proven oil reserves. In addition, New Mexico is ranked ninth in natural gas production and eighth in natural gas reserves with approximately 68% located in northwestern New Mexico. San Juan County has been ranked second in gas production in New Mexico and third in oil production for the past three years. Exploration for natural gas in coal seams throughout the San Juan Basin has increased potential reserves by as much as 50 trillion cubic feet.

The following tables set forth the history of oil and gas production in the County and the State as reported to the State Department of Taxation & Revenue Department by the Oil and Gas Accounting Commission.

Coal Mining. BHP Billiton previously owned the three large mines producing coal for the Four Corners Power Plant and San Juan Generating Stations and transferred the Navajo Mine to the Navajo Transitional Energy Co. ("NTEC") which was formed by the Navajo Nation. NTEC currently owns the mine while Bisti Fuels Company, LLC, a subsidiary of North American Coal Corporation operates the mine on behalf of NTEC. The Navajo Mine supplies the Four Corners Plant and the San Juan and LaPlata Mines, each estimated to have useful lives in excess of twenty years, supply the San Juan Plant. On December 30, 2013, the NTEC and Four Corners Plant executed a coal supply agreement from July 2016 through 2031. The Navajo Mine is located approximately 20 miles southwest of Farmington, the LaPlata Mine is 20 miles north of Farmington, within the school district boundaries, and the San Juan mine is northwest. In 2017, coal production in New Mexico was estimated at 13.84 million tons with coal reserves in San Juan county estimated at 80 million recoverable tons. In 2017, New Mexico accounted for almost 2% of all U.S. coal production.

Navajo Indian Irrigation Project The Navajo Indian Irrigation Project (NIIP), representing a joint federal and tribal investment is farmed by the Navajo Agricultural Products Industry (NAPI), an enterprise of the Navajo Nation. Composed of over 110,000 acres, the project is currently 70% complete with approximately 72,000 acres under cultivation and over 38,000 acres still to be developed. NAPI produces high value crops such as potatoes, onions, pinto beans, alfalfa, pumpkin, barley, corn, and wheat. The enterprise also includes a 12,000 head custom feedyard, testing laboratory, fresh pack operation, bean plant, pellet/granary operation, and potato storage facilities. Business ventures contracted with NAPI include production of sod and an orchard (apples, peaches, apricots, and pears) along with an expansion in organic and traditional Navajo crops. Located on the project and just seven miles south of Farmington on Highway 371, is a 300 acre industrial park.

NAPI's success is dependent on its employment which varies between 300-400 people during a crop season. Ninety-seven percent of the employees are members of the Navajo Nation.

NAPI's mission is to develop, grow and maintain the resources of the projected 110,000 acres. As a grower, NAPI provides quality products under the "Navajo Pride" label in both regional and in international markets.

Education More than 10,000 students attended the District in school year 2017-18. There are six private and two Bureau of Indian Affairs ("BIA") contract schools in the District.

San Juan College (the "College") offers a two-year college program, enabling students to obtain Associate Degrees in Arts or Sciences in addition to occupational degrees and certificate programs. The College was founded in 1956 and has grown dramatically in size and scope since its founding. It is the most affordable post-secondary school in New Mexico. The College recently opened its Energy and Power Schools which will allow students to access careers in the oil and gas industry. It also has similar programs in pre-medicine and education.

Medical San Juan Regional Medical Center ("SJRCM") is an acute care hospital in the Four Corners region with over 194 licensed beds. It received the Healthgrades Distinguished Hospital Award for Clinical Excellence in 2013 and is ranked among the top 5% in the nation for overall clinical excellence. In addition to this national recognition, SJRCM is one of the only hospitals in New Mexico and the Four Corners region to receive this distinction.

San Juan Regional Medical Center is designated a Level III Trauma Center and provides air ambulance service with a helicopter and a fixed wing aircraft. SJRCM provides a very broad range of medical, surgical and rehabilitation services. In addition to those services, the hospital also provides a Childbirth Center, a nephrology unit, a pediatric unit, an inpatient behavioral health unit, a day surgery center and extensive imaging and lab testing services. In addition, the hospital operates a number of offsite facilities.

Tourism The Four Corners area boasts internationally known tourist attractions including Mesa Verde, Canyon de Chelly, Monument Valley and Lake Powell. Equally worthy attractions within the County include Chaco Cultural National Historical Park (a major Anasazi cultural center during the 12th and 13th centuries), Aztec Ruins National Monument (500 room Indian community ruin with reconstructed Kiva), white water river rafting and nationally renowned trout fishing on the San Juan River just below Navajo Lake. Tourist visits to Aztec Ruins have increased significantly over the years. The Connie Mack Baseball World Championship Tournament is held in Farmington each summer. Navajo rugs, Native American jewelry, paintings and sculpture are available at local trading posts and shops.

Long-term financial planning. The district has a Master Facility Plan that determines the district's capital improvements for the next five years and the district's financial planning for future bond elections.

Financial planning for the district has been driven by state mandates that result from the school grading reform requiring greater accountability for student success.

AWARDS AND ACKNOWLEDGEMENTS

Superintendent Dr. Eugene Schmidt recognized the Finance Department for again receiving the Certificate of Achievement for Excellence in Financial Reporting for its comprehensive annual financial report. The District has received this honor every year since 1993.

CURRENT PROJECTS

On February 7, 2017 voters approved issuing \$26,000,000 in bonds to fund renovation of McCormick Elementary, Country Club Elementary and numerous improvement projects. Remaining funds from a 2015 bond issue supplement the funding of these projects.

The District will receive Public School Critical Capital Outlay funds to help with the renovation of Country Club Elementary.

INDEPENDENT AUDIT

As required by New Mexico State law, an annual audit of the financial records, books of account and the transactions of all administrative departments of the Farmington Municipal School District No. 5 have been made by an independent auditor. The independent auditor's opinion as prepared by Accounting and Financial Solutions, LLC is included within the Financial Section of this report. The 2019 audit was an organization-wide single audit under the provisions of the Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditor's reports related specifically to the single audit area in the Compliance Section of this report.

CERTIFICATES

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Farmington Municipal Schools for its comprehensive annual financial report for the fiscal year ended June 30, 2018. This was the 26th consecutive year (1993-2018) that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENT

The preparation of the report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Central Office with special appreciation to the employees working in the business office. We would like to express appreciation to all of the members of the District who assisted in the timely closing of the District's financial records and the preparation of this report.

We would also like to thank President Kyle Rhodes and members of the Board of Education for their continuing interest and support in conducting the financial affairs of this school district for the 2018-2019 fiscal year, thereby advancing the effort toward excellence in education in the Farmington Municipal School District.

In addition, we express our gratitude to Evan Krist financial advisor and the staffs with RBC Dain Rauscher, whose dedication, understanding and insight are unsurpassed.

Respectfully submitted,

Bobbi Newland
Chief Financial Officer

INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq., State Auditor and
The Board of Education and Audit Committee of
Farmington Municipal School District No. 5

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, discretely presented component unit, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of Farmington Municipal School District No. 5, as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise Farmington Municipal School District No. 5 basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to Farmington Municipal School District No. 5' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, discretely presented component unit, each major fund, and the aggregate remaining fund information of Farmington Municipal School District No. 5, as of June 30, 2019, and the respective changes in financial position thereof and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Brian S. Colón, Esq., State Auditor and
The Board of Education and Audit Committee of
Farmington Municipal School District No. 5

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7-13. Accounting principles generally accepted in the United States of America also require that the Schedule of Proportionate Share of the Net Pension Liability and Schedule of Contributions for pensions and OPEB on pages 65-69 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Farmington Municipal School District No. 5' basic financial statements. The supplemental information such as the budgetary comparisons for the major capital project fund, the combining and individual nonmajor fund financial statements, the budgetary comparisons for non-major special revenue funds, capital projects funds, debt service funds, and the other information, such as the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the other schedules required by 2.2.2.NMAC are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards and other schedules required by 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures and other schedules required by 2.2.2 NMAC are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 6, 2019 on our consideration of the Farmington Municipal School District No. 5' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Farmington Municipal School District No. 5' internal control over financial reporting and compliance.

FARMINGTON MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For The Year Ended June 30, 2019
Unaudited

As management of the Farmington Municipal School District, we offer readers of Farmington Municipal School District's financial statements this narrative overview and analysis of the financial activities of the Farmington Municipal School District for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages xiii – xviii.

Financial Highlights

- The liabilities of the Farmington Municipal School District exceeded assets at the close of the most recent fiscal year by \$73,679,642 (*net position*). Of this amount, \$7,772,517. (*Unrestricted net position excluding pension liability of \$276,632,685 and net pension related deferred inflows / outflows of (\$31,785,906)*) may be used to meet the School District's ongoing obligations excluding the pension/OPEB liabilities and the investment in capital asset.
- As of the close of the current fiscal year, Farmington Municipal School District's governmental funds reported combined ending fund balances of \$34,070,401, an increase of \$621,968. in comparison with the prior year. Approximately 23% of this total amount, \$7,962,176 is *available for spending* at the district's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$7,962,176 or 9.6% of the total general fund expenditures.
- The Farmington Municipal School District's total net debt increased by \$2,075,000 or 0.99% during the current fiscal year. The district retired \$8,925,000 of debt and issued \$ 11,000,000 new debt.
- On February 7, 2017, a bond election was held for \$26,000,000 and passed by 85% of the vote. The bonds will be sold over a four-year period. The bonds issued to date are \$22,100,000 with \$3,900,000 remaining.

Overview of Financial Statements

This discussion and analysis are intended to serve as an introduction to the Farmington Municipal School District's basic financial statements. The School District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Farmington Municipal School District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Farmington Municipal School District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Farmington Municipal Schools is improving or deteriorating.

The *statement of activities* presents information showing how Farmington Municipal School District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. (e.g., uncollected taxes and earned but unused vacation leave, etc.)

Both of the government-wide financial statements reflect functions of the Farmington Municipal School District that are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the Farmington Municipal School District include general government operations, transportation of students and instructional materials allocations. The government-wide financial statements can be found on pages 16 and 17 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Farmington Municipal School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Farmington Municipal School District are governmental funds.

STATE OF NEW MEXICO

MANAGEMENT'S DISCUSSION AND ANALYSIS

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Farmington Municipal School District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, special revenue fund, capital projects and the debt service fund, all of which are considered to be major funds. Data from the 59 governmental funds are combined into a single, aggregated presentation. Individual fund data for these non-major governmental funds is provided in the form of *combining statements* following the notes to the financial statements (page 90).

Farmington Municipal School District adopts an annual appropriated budget for each of its funds. Budgetary comparative statements have been provided for these funds to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 19-27 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because of the resources of those funds are *not* available to support the Farmington Municipal Schools' own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 28 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29-69 of this report.

Government-wide Financial Analysis

As noted earlier, over time, net position may serve as a useful indicator of a government's financial position. In the case of Farmington Municipal School District, liabilities exceeded assets by \$73,679,642 at the close of the most recent fiscal year.

A portion of Farmington Municipal School District's net position is invested in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. Farmington Municipal School District uses these capital assets to provide educational services; consequently, these assets are *not* available for future spending. Although Farmington Municipal School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Farmington Municipal School District's Net Position

A large portion of Farmington Municipal School District's net position (89%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position, excluding pension liability of \$276,632,685 and net pension related deferred inflows/ outflows of (\$31,785,906)*, \$7,772,517 may be used to meet the district's ongoing obligations excluding the pension/OPEB liabilities and the investment in capital assets.

At the end of the current fiscal year, Farmington Municipal School District has achieved positive balances in the Governmental Activities category of net position. The same situation held true in the prior fiscal year.

Farmington Municipal School District's net position decreased by \$26,195,662 during the current fiscal year. Total assets increased slightly primarily due to a decrease in cash from the bond fund and an increase in capital assets caused by the construction of a new high school. Noncurrent liabilities decreased primarily due to the retirement of debt.

Governmental activities. Governmental activities increased Farmington Municipal School District's fund balance by \$621,968. Key elements of this decrease are as follows:

- A 4% increase in state equalization revenue as shown in the comparison of grants and contributions not restricted to specific programs.
- A 7% increase in operational expenses for the district boosted spending when compared to the prior year.
- A state grant was received for construction of new schools.

Financial Analysis of the Government's Funds

As noted earlier, Farmington Municipal School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of Farmington Municipal School District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing Farmington Municipal School District's financing requirements. In particular, *unrestricted fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Farmington Municipal School District's governmental funds reported combined ending fund balances of \$34,070,401 an increase in comparison with the prior year. Approximately 21% of this total amount (\$7,962,176) constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *restricted* to indicate that it is not available for new spending because it has already been committed 1) to pay debt service (\$13,136,488), 2) for capital projects (\$9,873,768) and 3) a variety of other restricted purposes (\$2,846,647).

The general fund is the chief operating fund of Farmington Municipal School District. At the end of the current fiscal year, unassigned fund balance of the general funds was \$7,962,176 and total fund balance was \$34,070,401. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned represents 9.6% percent of the total general fund expenditures, and the total fund balance represents 41.2% since a very small portion of the general fund balance was restricted at June 30, 2019.

The fund balance of Farmington Municipal School District's general fund increased by \$1,116,546 during the current fiscal year. Farmington Municipal Schools District's board and management recognizes the need for maintaining an adequate operational cash balance to assure sound fiscal management of its financial resources while maintaining the district's high bond rating and to assure the availability of funds when unexpected financial demands are made on the Farmington Municipal Schools. The revenue increase from the state did materialize to the level forecasted by the state. The district increased expenditures primarily by increasing the number of teachers and support staff throughout the district. The current fiscal year budget reflects an increase in the cash balance to comply with Board policy. The fund balance is expected to increase this next fiscal year as additional SEG money is received from the state.

The district's GO Bonds debt service fund's total fund balance was \$9,830,916 that is restricted for the payment of debt service. This is a net decrease in fund balance of \$124,031. The decrease during the current year resulted primarily from increased principal and interest payments.

The educational technical debt service fund balance was \$3,305,572. The total amount is restricted for the payment of debt service. This is a net decrease in fund balance of \$218,453. The decrease is the result of an increase in the amount of principal and interest payments.

There was an increase of \$1,571,951 in the fund balance of the bond building capital fund resulting in a fund balance of \$5,582,035. The increase was the result of \$11,000,000 of debt being issued and only \$9,563,514 used in the renovation of an elementary school.

The special capital outlay fund represents funding received from the New Mexico Public Schools Capital Outlay Council for construction projects that qualify. In 2018-2019 the district received \$1,140,290 primarily for the construction of a new high school.

General Fund Budgetary Highlights

Differences between the original budgeted revenues and the final amended budgeted revenues resulted in a budget increase of \$741,160 which can be briefly summarized as follows:

- The difference resulted primarily from a mid-year increase in revenue from the state in state equalization funds of \$31.62 per program unit.
- Expenditures were increased in an attempt to better utilize the district resources.
- Additional cash from 6/30/18 was carried forward and budgeted in 2018-2019.

Capital Asset and Debt Administration

Capital assets. Farmington Municipal School District's investment in capital assets for its governmental activities as of June 30, 2019 amounts to \$230,195,123 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, improvements, and machinery and equipment. For the governmental activities, a total of \$230,195,123 was determined as the current value of all the capital assets owned by the District.

Major capital asset events during the current fiscal year included the following:

- Phase I of construction and renovation of an elementary school scheduled to be completed in May 2020.
- Purchase of a central administration building to consolidate three separate buildings and multiple departments.

Additional information on Farmington Municipal School District's capital assets can be found in note "III.E" on page 46 of this report.

Farmington Municipal School District's total debt increased by \$2,075,000 during the current fiscal year. The district retired \$8,925,000 of debt and issued \$11,000,000 in new debt. Farmington Municipal School District maintains an AA3 bond rating from Moody's Investor Service, Inc.

State statute limits the amount of general obligation debt a governmental entity may issue to 6% of its total assessed valuation. The current debt limitation for Farmington Municipal School District is \$91,498,627 which is significantly in excess of Farmington Municipal School District's outstanding general obligation debt.

More information of Farmington Municipal School District's debt can be found in note "III.F" of this report on page 47.

Economic Factors and Next Year's Budget

Farmington Municipal School District is located in San Juan County. San Juan County, like the rest of New Mexico and the nation, has experienced a declining economy. Due to the economic factors affecting the entire country, and San Juan County have seen a decrease in unemployment and a continued stagnation of the oil and gas economy. The taxes on oil and gas in New Mexico are a vital revenue factor in the state's budget. 98% of Farmington Municipal Schools' operating revenue comes from the state and the district does anticipate an increase in funding allocated for schools in FY2020. The board of education is being proactive and considering ways to optimize resources on an opportunistic basis and improve the district's cash balance in preparation for an increase in revenues.

San Juan County's population shows some decline in past years however Farmington Municipal School's enrollment remains relatively stable for the current fiscal year. The current enrollment has increased slightly when compared to the same period in the prior year. The projections are that the enrollment will remain relatively flat over the next two to three years pending the impact of the local economy. The charter school that is under the Farmington Municipal Schools opened for the 2012-2013 school year and we have not seen any impact to the district's enrollment. The charter school under the Farmington Municipal Schools closed on June, 30th 2019 as its charter was not renewed. Any activity subsequent this year end will be minor and only occur to close out the financial obligations of the charter school.

Farmington Municipal School District receives approximately 98% of its annual operating budget from the State of New Mexico through the State Equalization Guaranteed Funding. The objectives of the formula are (1) to equalize educational opportunity statewide (by crediting certain local and federal support and then distributing state support in an objective manner) and (2) to retain local autonomy in actual use of funds by allowing funds to be used in local districts at the discretion of local policy making bodies. The basis for the formula is in the number of students enrolled. Weighting factors are assigned to students that receive special services, i.e., special education and bilingual education services as well as other factors based on the training and experience of the teaching staff and the district's at-risk population.

Farmington Municipal School District has appropriated \$7,962,176 of its unassigned fund balance for spending in the 2020 fiscal year budget. The \$7,962,176 was budgeted primarily into direct classroom instruction to fund additional staff needed to meet the state mandated class sizes while accommodating the slight growth in the elementary student population.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES ALL GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental funds	\$	621,968
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current year</p>		
Capital outlay		7,580,380
Depreciation		(6,124,790)
<p>Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>		
Deferred property taxes at:		
June 30, 2018		(839,117)
June 30, 2019		676,207
<p>The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. These differences in the treatment of long-term debt and related items consist of:</p>		
Current year principal payments		8,925,000
Bonds sold		(11,000,000)
Deferred gain on bond refunding amortization		76,485
Bond premium amortization		300,861
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.</p>

I. SUMMARY OF ALL SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Farmington Municipal School District (District) is a special purpose government corporation governed by an elected five-member Board of Education. The Board of Education is the basic level of government, which has oversight responsibility and control over all activities related to the public-school education in the City of Farmington, New Mexico and the surrounding areas. The District is responsible for all activities related to public elementary and secondary school education within its jurisdiction. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities.

The Board of Education is authorized to establish policies and regulations for its own government consistent with the laws of the State of New Mexico and the regulations of the Legislative Finance Committee. The School Board is comprised of five members who are elected for terms of four years. The District operates two preschools, ten elementary, four middle, and four high schools within its boundaries and, in conjunction with the regular educational programs, some of these schools offer special education. One of the high schools operates in conjunction with San Juan College and accepts students from neighboring school districts. In addition, the District provides transportation and school food services for the students.

The District's student enrollments were as follows:

FISCAL YEAR	40 DAY COUNT	80 DAY COUNT	120 DAY COUNT
2019	11,097	10,989	10,937
2018	11,044	10,986	10,930

Generally Accepted Accounting Principles (GAAP) requires that financial statements present the District (primary government) and its component units. A component unit is defined as a legally separate organization for which the elected officials of the primary government are financially accountable or other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the District's financial statements to be misleading. The District has one component unit that is required to be presented in accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units, an amendment of GASB Statement No. 14*, and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34*.

1. Blended Component Units

The District does not have any component units reported as blended component units.

2. Discretely Presented Component Units

The District has one component unit reported as a discretely presented component unit. A New Mexico charter school is considered a public school, accredited by the state board of public education and accountable to the school district's local school board for ensuring compliance with applicable laws, rules and charter provisions. New Mexico Virtual Academy is chartered under Farmington Municipal School District and is the financial responsibility of Farmington Municipal Schools. Since the charter school relies on its charter from the District and a financial burden exists upon closure of the charter school or when the charter school is in need of financial assistance. The component unit does not have a separately issued report.

The summary of significant accounting policies of the District is presented to assist in the understanding of the District's financial statements. The financial statements and notes are the representation the District's management who is responsible for their integrity and objectivity. The financial statements of the District conform to GAAP as applied to governmental units. GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

B. Implementation of New Accounting Principles

During fiscal year 2019, the District adopted the following Governmental Accounting Standards Board (GASB) Statements:

➤ **GASB Statement No. 83, *Certain Asset Retirement Obligations***

This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates a government to perform asset retirement activities. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of the useful lives of those capital assets, such as decommissioning nuclear reactors and dismantling and removing sewage treatment plants. Other obligations to retire tangible capital assets may arise from contracts or court judgments. Internal obligating events include the occurrence of contamination, placing into operation a tangible capital asset that is required to be retired, abandoning a tangible capital asset before it is placed into operation, or acquiring a tangible capital asset that has an existing ARO.

This Statement requires the measurement of an ARO to be based on the best estimate of the current value of outlays expected to be incurred. The best estimate should include probability weighting of all potential outcomes, when such information is available or can be obtained at reasonable cost. If probability weighting is not feasible at reasonable cost, the most likely amount should be used. This Statement requires that a deferred outflow of resources associated with an ARO be measured at the amount of the corresponding liability upon initial measurement.

This Statement requires the current value of a government's AROs to be adjusted for the effects of general inflation or deflation at least annually. In addition, it requires a government to evaluate all relevant factors at least annually to determine whether the effects of one or more of the factors are expected to significantly change the estimated asset retirement outlays. A government should remeasure an ARO only when the result of the evaluation indicates there is a significant change in the estimated outlays. The deferred outflows of resources should be reduced and recognized as outflows of resources (for example, as an expense) in a systematic and rational manner over the estimated useful life of the tangible capital asset.

A government may have a minority share (less than 50 percent) of ownership interest in a jointly owned tangible capital asset in which a nongovernmental entity is the majority owner and reports its ARO in accordance with the guidance of another recognized accounting standards setter. Additionally, a government may have a minority share of ownership interest in a jointly owned tangible capital asset in which no joint owner has a majority ownership, and a nongovernmental joint owner that has operational responsibility for the jointly owned tangible capital asset reports the associated ARO in accordance with the guidance of another recognized accounting standards setter. In both situations, the government's minority share of an ARO should be reported using the measurement produced by the nongovernmental majority owner or the nongovernmental minority owner that has operational responsibility, without adjustment to conform to the liability measurement and recognition requirements of this Statement.

In some cases, governments are legally required to provide funding or other financial assurance for their performance of asset retirement activities. This Statement requires disclosure of how those funding and assurance requirements are being met by a government, as well as the amount of any assets restricted for payment of the government's AROs, if not separately displayed in the financial statements. This Statement also requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. If an ARO (or portions thereof) has been incurred by a government but is not yet recognized because it is not reasonably estimable, the government is required to disclose that fact and the reasons therefor. This Statement requires similar disclosures for a government's minority shares of AROs.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018 (FYE June 30, 2019). Earlier application is encouraged.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

B. Implementation of New Accounting Principles (cont'd)

➤ **GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements***

The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established.

Requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses.

For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018 (FYE June 30, 2019). Earlier application is encouraged.

Other accounting standards that the District is currently reviewing for applicability and potential impact on the financial statements include:

Guide 2016-1, Questions 4.2, 4.13, 4.27, 4.61–4.63, 5.7, 5.8, 5.16, and 5.24; and 2002 AICPA State and Local Government Auditing and Accounting Guide, paragraph 5.28.

This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. An exception to that requirement is provided for a business-type activity that normally expects to hold custodial assets for three months or less. This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. A fiduciary component unit, when reported in the fiduciary fund financial statements of a primary government, should combine its information with its component units that are fiduciary component units and aggregate that combined information with the primary government's fiduciary funds. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. Events that compel a government to disburse fiduciary resources occur when a demand for the resources has been made or when no further action, approval, or condition is required to be taken or met by the beneficiary to release the assets.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018 (FYE June 30, 2020). Earlier application is encouraged. Changes adopted to conform to the provisions of this Statement should be applied retroactively by restating financial statements, if practicable, for all prior periods presented. If restatement for prior periods is not practicable, the cumulative effect, if any, of applying this Statement should be reported as a restatement of beginning net position (or fund balance or fund net position, as applicable) for the earliest period restated. In the first period that this Statement is applied, the notes to the financial statements should disclose the nature of the restatement and its effect. Also, the reason for not restating prior periods presented should be disclosed.

➤ **GASB Statement No. 87, *Leases***

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

Definition of a Lease - A lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment. Any contract that meets this definition should be accounted for under the leases guidance, unless specifically excluded in this Statement.

The provisions of this Statement are effective for reporting periods beginning after December 15, 2019 (FYE June 30, 2021).

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

B. Implementation of New Accounting Principles (cont'd)

➤ **GASB Statement No. 89**, *Accounting for Interest Cost Incurred before the End of a Construction Period*

This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. The requirements of this Statement apply to the financial statements of all state and local governments. In financial statements prepared using the economic resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expense in the period in which the cost is incurred. Such interest cost should not be capitalized as part of the historical cost of a capital asset. In financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019 (FYE June 30, 2021). Earlier application is encouraged.

➤ **GASB Statement No. 90**, *Majority Equity Interests an amendment of GASB Statements No. 14 and No. 61*

The primary objectives of this Statement are to improve consistency in the measurement and comparability of the financial statement presentation of majority equity interests in legally separate organizations and to improve the relevance of financial statement information for certain component units.

This Statement modifies previous guidance for reporting a government's majority equity interest in a legally separate organization. This Statement also provides guidance for reporting a component unit if a government acquires a 100 percent equity interest in that component unit. The requirements of this Statement apply to the financial statements of all state and local governments.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018 (FYE June 30, 2020). Earlier application is encouraged.

➤ **GASB Statement No. 91**, *Conduit Debt Obligations*

This Statement provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2020 (FYE June 30, 2022). Earlier application is encouraged.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the school district. For the most part, the effect of inter-fund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues.

The District reports all direct expenses by function in the statement of activities. Direct expenses are those that are clearly identifiable with a function. The District does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and is included in the direct expense of each function, except for that portion of depreciation that is identified as unallocated on the statement of activities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues received during the year but are applicable to subsequent years are reported as deferred inflows of resources. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Expenditures incurred during the year that are for the benefit of subsequent years are reported as deferred outflows of resources.

Interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Governmental funds are used to account for the District's general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of capital assets, and the servicing of long-term debt.

General Fund – The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources – which are legally restricted to expenditures for specified purposes.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Debt Service Funds are used to account for the payment of principal and interest on long-term debt. Debt service revenues are from taxes and other operating revenues, some of which are pledged specifically to repay certain outstanding bond issues.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (cont'd)

GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis* requires the District to present certain governmental funds as major funds. In addition to the General Fund, the District reports the following major governmental funds:

➤ SPECIAL REVENUE FUNDS

Title I (Fund No. 24101) Minimum Balance: None
To help local education agencies (LEAs) and schools improve the teaching and learning of children failing, or most at-risk of failing, to meet challenging State academic standards. Funding authorization: Elementary and Secondary Education Act of 1965, Title I, Part A, 20 U.S.C. 6301 et seq.

Entitlement IDEA-B (Fund No. 24106) Minimum Balance: None
Program provides grants to states that flow-through to schools, to assist them in providing a free appropriate public education to all children with disabilities. The program is funded by the United States government, under the Individuals with Disabilities Education Act, Part B, Section 611-617, and part D, Section 674 as amended, 20 U.S.C. 1711-1417 and 1420.

➤ CAPITAL PROJECTS FUNDS

Bond Building (Fund No. 31100) Minimum Balance: None
This fund provides financing for the construction of buildings, the purchase of equipment, and the acquisition and improvement of land. Funding is provided by the sale of general obligation bonds, which have been approved by the voters of the district.

➤ DEBT SERVICE FUNDS

Debt Service Fund (Fund No. 41000) Minimum Balance: None
The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Additionally, the government reports the following fund types:

Fiduciary Funds are agency funds used to account for financial resources used by the student activity groups for which the District has stewardship

E. Assets, Liabilities, and Net Position or Equity

1. *Deposits and investments*

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the investment of the District's funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, and money market accounts. The District is also allowed to invest in United States Government obligations. All funds for the District must follow the above investment policies.

Deposits of funds may be made in interest or non-interest-bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the District. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

E. Assets, Liabilities, and Net Position or Equity (cont'd)

2. *Receivables and payables*

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due from/to other funds” (i.e., the current portion of inter-fund loans) or “advances to/from other funds” (i.e., the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as “due from/to other funds.”

The District’s property taxes are levied each year on the assessed valuation of property located in the School District as of the preceding January 1st. Mill levy rates are set by the State of New Mexico each year for the General Fund, Capital Improvements SB – 9 Fund, Debt Service Fund, and Ed Tech Debt Service. Taxes are payable in two equal installments on November 10th and April 10th following the levy and become delinquent after 30 days.

Under GASB Statement 33, property taxes are impressed non-exchange revenue. Assets from impressed non-exchange transactions are reported when the District has an enforceable legal claim to the asset. The enforceable legal claim date for property taxes is the assessment date. Taxes are payable in two equal installments on November 10 and April 10th following the levy and become delinquent after 30 days. Therefore, the District has recorded a delinquent tax receivable and revenue for taxes received within the sixty days following year-end. A receivable and deferred revenue have been recorded for uncollected delinquent taxes. On the government-wide financial statements, the district has recorded delinquent property taxes receivable and revenue for taxes assessed as of year-end that have not been collected, as prescribed in GASB 34. An allowance for refunds and uncollectible amounts has not been recorded.

3. *Inventories*

The District’s method of accounting for inventory is the consumption method. Under the consumption approach, governments report inventories they purchase as an asset and defer the recognition of the expenditures until the period in which the inventories are actually consumed. Inventory is valued at cost. In the Transportation Fund, inventory consists of expendable supplies held for maintenance. Inventory in the Food Service Fund consists of U.S.D.A. commodities and other purchased food and non-food supplies. The cost of purchased inventory is recorded as an expenditure at the time individual inventory items are consumed. Commodities consumed during the year are reported as revenues and expenditures; unused commodities are reported as inventories.

4. *Capital assets*

Capital assets, which include property, plant, and equipment (software), are reported in the applicable governmental-wide financial statements. Beginning July 1, 2005, the threshold for defining Capital assets by the government was raised from \$1,000 to assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Software costs have been included with the cost of computer equipment and are capitalized with that equipment. The District does not develop software for internal use or any other use.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest on construction projects has not been capitalized.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives.

ESTIMATED USEFUL LIVES	
ASSETS	YEARS
Buildings	40 - 50
Building improvements	20
Land Improvements	10 - 20
Vehicles	7
Office equipment	5
Computer equipment	3 - 5

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

E. Assets, Liabilities, and Net Position or Equity (cont'd)

5. *Compensated absences*

It is the District's policy to permit employees to accumulate 120 days of earned but unused vacation, which will be paid to employees upon retirement from the District's service. The amount for liability has been reported in the government-wide financial statements.

Accumulated sick leave is not payable upon termination and is recorded as expenditures when it is paid.

6. *Long-term obligations*

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, statement of Net Position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discounts.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as capital projects expenditures.

7. *Pensions*

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Education Retirement Board (ERB) and additions to/deductions from ERB's fiduciary net position have been determined on the same basis as they are reported by ERB. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

8. *Postemployment Benefits Other Than Pensions (OPEB)*

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Fund (RHCA) and additions to/deductions from RHCA's fiduciary net position have been determined on the same basis as they are reported by RHCA. For this purpose, RHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

9. *Deferred Outflows/Inflows of Resources*

Both deferred inflows and outflows are reported in the Statement of Net Position but are not recognized in the financial statements as revenues, expenses, and reduction of liabilities or increase in assets until the period(s) to which they relate.

In addition to assets, the District reports a separate section for deferred outflows of resources. This separate financial statement element represents a use of net position/fund balance that applies to future periods and will not be recognized as an expenditure until that time.

The District also reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position/fund balance that applies to future periods and so will not be recognized as a revenue until that time. Revenue must be susceptible to accrual (measurable and available to finance expenditures of the current fiscal period) to be recognized. If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding liability for deferred inflows of resources.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

E. Assets, Liabilities, and Net Position or Equity (cont'd)

The District reports deferred outflows of resources for pension-related amounts for the District's share of the difference between projected and actual earnings, for the District's share of the difference between contributions to the individual plans and the proportionate share of the contributions, and for changes of assumptions or other inputs.

The District reports deferred inflows of resources for pension-related amounts in the government wide financial statements or the District's share of the difference between expected and actual experience and for the District's share of the difference between contributions to the individual plans and the proportionate share of the contributions.

Under the modified accrual basis of accounting, revenue and other fund financial resources are recognized in the period in which they become both measurable and available. Assets recorded in the fund financial statements for which the revenues are not available are reported as a deferred inflow of resources. Deferred inflows of resources are also comprised of property tax and long-term receivables that are unavailable in the fund statements.

10. *Fund balance*

a. Non-Spendable

The non-spendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts.

b. Restricted

Fund balance is reported as restricted when constraints placed on the use of resources are either (1) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation.

c. Committed

Amounts that can only be used for specific purposes pursuant to constraints imposed by the formal action of the District's Board of Education should be reported as committed fund balance. The committed amounts cannot be used for any other purpose unless the District's Board of Education removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District did not have committed fund balances for the year ended June 30, 2019.

d. Assigned

Assigned fund balance includes (a) all remaining amounts, except for negative balances, that are reported in governmental funds, other than the general fund, that are not classified as non-spendable and are neither restricted nor committed and amounts in the general fund that are constrained by the District's intent to be used for specific purposes but are neither restricted nor committed. Intent, and removal of, is expressed by the Board of Education or the Finance Committee. The District did not have assigned fund balances for the year ended June 30, 2019.

e. Unassigned

The remaining fund balance, after all other classifications, within the general fund is reported as unassigned fund balance. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. In governmental funds other than the general fund, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, a negative fund balance will be reported as unassigned fund balance.

When committed, assigned, and unassigned resources are available for use, it is the District's policy to use committed first followed by assigned and unassigned resources as they are needed.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

E. Assets, Liabilities, and Net Position or Equity (cont'd)

11. *Net Position*

Net Position is presented on the Statement of Net Position and may be presented in any of three components.

a. Net investment in capital assets

This component of Net Position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. The portion of the debt attributable to the unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. That portion of the debt is included in restricted for capital projects.

b. Restricted Net Position

Net Position is reported as being restricted when the restriction is either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

c. Unrestricted Net Position

Unrestricted Net Position consists of Net Position that does not meet the definition of “net investment in capital assets” or “restricted.”

When both restricted and unrestricted resources are available for use, it is the government’s policy to use restricted resources first, then unrestricted resources as they are needed.

In the governmental environment, Net Position often is designated to indicate that management does not consider them to be available for general operations. In contrast to restricted Net Position, these types of constraints on resources are internal and management can remove or modify them. However, enabling legislation established by the reporting government should not be construed as an internal constraint.

12. *Indirect Costs*

The District’s General Fund receives indirect cost reimbursements from the various federal programs it administers. These reimbursements are for expenses incurred in performing administrative functions on behalf of the Special Revenue Funds. They are shown as expenditures in the Special Revenue Funds, and as other special federal revenue in the General Fund.

13. *Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

14. *Inter-fund Transactions*

Interfund services provided and used are accounted for as revenues and expenditures. Transactions that constitute reimbursements to a fund from expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other inter-fund transactions are reported as transfers. Non-recurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other inter-fund transfers are reported as operating transfers.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

E. Assets, Liabilities, and Net Position or Equity (cont'd)

15. Revenues

State Equalization Guarantee: School districts in the State of New Mexico receive a 'state equalization guarantee distribution' which is defined as "that amount of money distributed to each school district to ensure that the school district's operating revenue, including its local and federal revenues as defined (in Chapter 22, Section 825, NMSA 1978) is at least equal to the school district's "program cost."

A school district's program costs are determined through the use of various formulas using 'program units' which take into consideration 1) early childhood education; 2) basic education; 3) special education; 4) bilingual-multicultural education, 5) size, etc. Payment is made from the public school fund under the authority of the Director of Public School Finance. The District received \$79,001,483 in state equalization guarantee distributions during the year ended June 30, 2019.

Transportation Distribution: School districts in the State of New Mexico received student transportation distributions. The transportation distribution is allocated to each school district in accordance with formulas developed by the State Transportation Director and the Director of Public School Finance. The funds shall be used only for the purpose of making payments to each school district for the to-and-from school transportation costs of students in grades K through twelve attending public school within the school district. The District received \$3,262,948 in transportation distributions during the year ended June 30, 2019.

Instructional Materials: The New Mexico Public Education Department (PED) receives federal mineral leasing funds from which it makes annual allocations to the various school districts for the purchase of educational materials. Of each allocation, fifty percent is restricted to the purchase of material listed on the PED 'Multiple List', while fifty percent of each allocation is available for purchases directly from vendors or transfer to the fifty percent account for purchase of material from the "Multiple List". Districts are allowed to carry forward unused textbook funds from year to year. The District received \$370,113 in instructional materials distributions during the year ended June 30, 2019.

16. Tax Abatements

Governmental Accounting Standards Board Statement No. 77 requires the District to disclose information on certain tax abatement agreements effecting the District. A tax abatement is created when a government enters into an agreement with an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. Accordingly, the District did not have any tax abatements effecting the District during the year ended June 30, 2019.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Budgets for the General, Special Revenue, Capital Projects, and Debt Service Funds are prepared by management and are approved by the local Board of Education and the Public School Budget and Planning Unit of the Department of Education. Auxiliary student activity accounts are not budgeted.

These budgets are prepared on the Non-GAAP cash basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year. The budget process in the State of New Mexico requires that the beginning cash balance be appropriated in the budget of the subsequent fiscal year. Such appropriated balance is legally restricted and is therefore presented as a reserved portion of fund balance.

Actual expenditures may not exceed the budget at the function level, i.e., each budgeted expenditure must be within budgeted amounts. Budgets may be amended in two ways. If a budget transfer is necessary within a major category called a 'series', this may be accomplished with only local Board of Education approval. If a transfer between 'series' or a budget increase is required, approval must also be obtained from Public School Finance Division.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (cont'd)

A. Budgetary Information (cont'd)

The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In April or May, the superintendent submits to the Board of Education a proposed operating budget of the fiscal year commencing the following July. The operating budget includes proposed expenditures and the means of financing them, and has approval by the Department of Education.
2. In May or June, the budget is approved by the Board of Education.
3. The school board meeting, while not intended for the general public, is open for the general public unless a closed meeting has been called for.
4. The superintendent is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the school board and the State of New Mexico Department of Education.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds.
6. Budgets for the General, Special Revenue, Capital Projects, and Debt Service Funds are adopted on a basis not consistent with generally accepted accounting principles (GAAP). Encumbrances are treated the same way for GAAP purposes and for Budget purposes.

The Board of Education may approve amendments to the appropriated budget, which are required when a change is made affecting budgeted ending fund balance. The appropriated budget for the year ended June 30, 2019 was properly amended by the Board through the year. New Mexico state law prohibits a Governmental Agency to exceed an individual line item. These amendments resulted in the following changes:

	ORIGINAL	FINAL
Major Funds:		
General Funds	\$ 89,703,508	\$ 90,480,486
Special Revenue Funds:		
Title I	2,677,005	3,022,033

Total Budget	<u>\$ 138,877,670</u>	<u>\$ 163,575,868</u>

B. Budgetary Violations

The District did not have any budgetary violations during the year ended June 30, 2019.

C. Deficit Fund Equity

The District did not have any deficit fund balances as of June 30, 2019.

III. DETAILED NOTES ON ALL FUNDS

A. Cash and Temporary Investments

At June 30, 2019, the carrying amount of the District's deposits was \$31,092,064 and the bank balance was \$34,013,889 with the difference consisting of outstanding checks.

	AMOUNT
Financial institution (FDIC):	
Wells Fargo	\$ 26,122,765
Citizens	1,407,525
Bank of the Southwest	12,243
State agencies:	
New Mexico Finance Authority	6,471,356

Of the total cash and cash equivalents balance, \$512,243 was covered by federal depository insurance and \$27,055,684 was covered by collateral held in joint safekeeping by a third party.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. New Mexico State Statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the District for at least one half of the amount on deposit with the institution. The District does not have a deposit policy for custodial credit risk, other than these following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). The statement listed below will meet the State of New Mexico Office of the State Auditor's requirement in reporting the uninsured portion of the deposits. As of June 30, 2019, \$6,445,962 of the District's bank deposits was exposed to custodial risk as follows:

	INSURED	UNDER INSURED	TOTAL
Bank deposits:			
Uninsured and uncollateralized	\$ 6,445,962	\$ -	\$ 6,445,962

III. DETAILED NOTES ON ALL FUNDS (cont'd)

A. Cash and Temporary Investments (cont'd)

The collateral pledged is listed on Schedule of Pledged Collateral in the Other Supplemental Information section of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency, district, or political subdivision of the State of New Mexico. According to the Federal Deposit Insurance Authority, public unit deposits are funds owned by the District. Time deposits, savings deposits and interest bearing "Now" accounts of a public unit in an institution in the same state will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution.

B. Receivables

Receivables as of June 30, 2019 for the government's individual major funds and non-major funds in the aggregate, including the following:

There were not any inter-fund transfers during the year ended June 30, 2019.

V. OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injury to employees; and natural disasters. The New Mexico Public Schools Insurance Authority (NMPSIA) was formed on April 5, 1985 under the New Mexico Public Schools Insurance Authority Act, Chapter 22, Section 2 of the New Mexico Statutes Annotated (NMSA 1978), as amended, as an insurance fund to provide health, disability and life insurance coverage (benefits coverage), and property, casualty and workers' compensation insurance coverage (risk coverage) to participating public schools, school board members, public school employees, and retirees within the State of New Mexico. The District is one of 91 members that participate in NMPSIA. Participation in NMPSIA is mandatory for all K-12 public schools except those with enrollment exceeding 60,000 students. Participation is voluntary for other public education institutions. The District pays an annual premium to the pool for its general insurance coverage. The agreement for formation of NMPSIA provides that the pool will be self-sustaining through member premiums. NMPSIA establishes self-insured retentions by line of coverage and procures insurance or reinsurance, where indicated, in excess of the self-insured retention on a per occurrence basis. NMPSIA will publish its own financial report for the year ended June 30, 2019.

V. OTHER INFORMATION (cont'd)

B. Employee Retirement Plan

Plan Description - Substantially all of the District's full-time employees participate in a public employee retirement system authorized under the Educational Retirement Act (Chapter 22, Article 11, Sections 1 through 52, NMSA 1978). The Educational Retirement Board (ERB) is the administrator of the New Mexico Educational Employees' Retirement Plan (Plan), which is a cost-sharing multiple-employer defined benefit retirement plan. ERB issues a separate, publicly available financial report that includes the financial statements and required supplementary information for the plan. That report may be obtained www.nmerb.org, www.saonm.org, or by writing to:

ERB
P.O. Box 26129
Santa Fe, New Mexico 87502-6129
www.nmerb.org

Membership in the Plan is a condition of employment. Employees of public schools, universities, regional cooperatives, special schools and state agencies providing educational programs, who are employed at more than 25% of a full-time equivalency, are required to be members of the Plan. There were 156,789 active, retired, and inactive members in fiscal year 2018; there were 153,514 active, retired, and inactive members in fiscal year 2017.

Benefits Provided - The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members (certified teachers, and other employees of State public school districts, colleges and universities) and beneficiaries. Benefits are based on three components: Final Average Salary (FAS), years of both earned and allowed service credits, and a 2.35% factor. The gross annual benefit is determined by multiplying the three components together. FAS is the higher of annual earnings for the previous 20 calendar quarters prior to retirement or the highest average annual earnings for any 20 consecutive calendar quarters.

For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs: the member's age and earned service credit add up to the sum or 75 or more; the member is at least sixty-five years of age and has five or more years of earned service credit; or the member has service credit totaling 25 years or more.

Chapter 288, Laws of 2009 changed the eligibility requirements for new members first employed on or after July 1, 2010. The eligibility for a member who either becomes a new member on or after July 1, 2010, or at any time prior to that date refunded all member contributions and then became, or becomes, reemployed after that date is as follows: the member's age and earned service credit add up to the sum of 80 or more; the member is at least sixty-seven years of age and has five or more years of earned service credit; or the member has service credit totaling 30 years or more.

The benefit is paid as a monthly life annuity with a guarantee that, if the payments made do not exceed the member's accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary. There are three benefit options available: single life annuity; single life annuity monthly benefit reduced to provide for a 100% survivor's benefit; or single life annuity monthly benefit is reduced to provide for a 50% survivor's benefit.

Retired members and surviving beneficiaries receiving benefits receive an automatic cost of living adjustment (COLA) to their benefit commencing on July 1 following the later of: (i) the year a member retires, or (ii) the year in which a member attains age 65 (Tier 1 and Tier 2) or age 67 (Tier 3).

If the plan's funded ratio for the next preceding fiscal year is 100%, or greater, Section 22-11-31(C)(1) of the New Mexico Statutes Annotated defines the adjustment factor as $\frac{1}{2}$ of the percentage increase of the consumer price index between the next preceding calendar year and the preceding calendar year. The adjustment factor cannot exceed four percent, nor be less than two percent. However, if the percentage increase of the consumer price index is less than two percent, the adjustment factor will be equal to the percentage increase of the consumer price index.

If the plan's funded ratio for the next preceding fiscal year is greater than 90%, but less than 100%, Section 22-11-31(C)(2) indicates that the adjustment factor for all non-disability retirements will be 95% of the adjustment factor defined in Section 22-11-31(C)(1) if the member had 25 or more years of service credit at retirement and whose annuity is less than or equal to the median adjusted annuity for the fiscal year next preceding the adjustment date. For all other retirees eligible for an adjustment, the adjustment factor will be 90% of the adjustment factor defined in Section 22-11-31(C)(1).

V. OTHER INFORMATION (cont'd)

B. Employee Retirement Plan (cont'd)

If the plan's funded ratio for the next preceding fiscal year is 90%, or less, Section 22-11-31(C)(3) indicates that the adjustment factor for all non-disability retirements will be 90% of the adjustment factor defined in Section 22-11-31(C)(1) if the member had 25 or more years of service credit at retirement and whose annuity is less than or equal to the median adjusted annuity for the fiscal year next preceding the adjustment date. For all other retirees eligible for an adjustment, the adjustment factor will be 80% of the adjustment factor defined in Section 22-11-31(C)(1).

Finally, annuities shall not be decreased in the event that there is a decrease in the consumer price index between the next preceding calendar year and the preceding calendar year.

As of July 1, 2013, for current and future retirees the COLA was immediately reduced until the plan is 100% funded. The COLA reduction was based on the median retirement benefit of all retirees excluding disability retirements. Retirees with benefits at or below the median and with 25 or more years of service credit will have a 10% COLA reduction; their average COLA will be 1.5%. All other retirees will have a 20% COLA reduction; their average COLA will be 1.6%. Once the funding is greater than 90%, the COLA reductions will decrease. The retirees with benefits at or below the median and with 25 or more years of service credit will have a 5% COLA reduction; their average COLA will be 1.7%. All other retirees will have a 10% COLA reduction; their average will be 1.8%. Members on disability retirement are entitled to a COLA commencing on July 1 of the third full year following disability retirement. A member on regular retirement who can prove retirement because of a disability may qualify for a COLA beginning July 1 in the third full year of retirement.

A member is eligible for a disability benefit provided (a) he or she has credit for at least 10 years of service, and (b) the disability is approved by ERB. The monthly benefit is equal to 2% of FAS times years of service, but not less than the smaller of (a) one-third of FAS or (b) 2% of FAS times year of service projected to age 60. The disability benefit commences immediately upon the member's retirement. Disability benefits are payable as a monthly life annuity, with a guarantee that, if the payments made do not exceed the member's accumulated contributions, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary. If the disabled member survives to age 60, the regular optional forms of payment are then applied. A member with five or more years of earned service credit on deferred status may retire on disability retirement when eligible under the Rule of 75 or when the member attains age 65.

The member, upon retirement, has three options as to how to receive the benefit.

Option A – If the member elects the Option A, there is no reduction to the monthly benefit other than any “Rule of 75” deductions or any community property or child support reductions. There will be no continuing benefit to a beneficiary or estate upon the retiree's death, except the balance, if any, of member contributions. Those contributions are usually exhausted in the first three to four years of retirement.

Option B – If the member elects Option B, the monthly benefit is reduced to provide for a 100% survivor's benefit. The reduced benefit is payable during the life of the member and upon the retiree's death, the same benefit is paid to the beneficiary for his or her lifetime. The named beneficiary may not be changed after the effective date of retirement since the amount of the option is calculated by using both the age of the member and the beneficiary. If the beneficiary predeceases the member, the member's benefit will be adjusted by returning it to the Option A Benefit amount. The IRS prohibits selection of Option B for a non-spouse beneficiary more than ten years younger than the member.

Option C – If the member elects Option C, the monthly benefit is reduced to provide for a 50% survivor's benefit. The benefit is payable during the life of the member and upon the retiree's death, one half of the member's benefit is paid to the beneficiary for his or her lifetime. Here again, the named beneficiary may not be changed after the effective date of retirement. If the beneficiary predeceases the member, the member's benefit is adjusted by returning it to the Option A Benefit amount.

Under the provisions of Options B and C coverage, the beneficiary must be a person, and only one beneficiary may be named. The term beneficiary means a person having an insurable interest in the life of the member.

B. Employee Retirement Plan (cont'd)

Member Contributions – Plan members whose annual salary is \$20,000 or less are required by statute to contribute 7.9% of their gross salary. Plan members whose annual salary is over \$20,000 are required to make the following contributions to the Plan: 10.7% of their gross salary in fiscal year 2019.

Employer Contributions – In fiscal year 2018, the District was required to contribute 13.9% of the gross covered salary for employees whose annual salary is \$20,000 or less, and 13.9% of the gross covered salary for employees whose annual salary is more than \$20,000. The contribution rate will increase to 14.15% for the year ended June 30, 2020. The contribution requirements of plan members and the District are established in State statute under Chapter 22, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The District’s contributions to ERB for the fiscal year ending June 30, 2018 was \$7,851,367, which equal the amount of the required contributions.

New Mexico Virtual Academy Charter School’s contributions to ERB for the fiscal year ending June 30, 2019 was \$136,667, which equal the amount of the required contributions for each fiscal year.

Employers

The Educational Retirement Act designates employers as Local Administrative Units, directly responsible for payment of compensation for the employment of members or participants of this Plan. There were 216 contributing employers in fiscal year 2018; there were 218 contributing employers in fiscal year 2017.

Liabilities, Deferred Outflows of Resources, Deferred Inflows of Resources, and Expense Related to Pensions

Farmington Municipal Schools

At June 30, 2019, the District reported a liability of \$222,476,100 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and regional education cooperatives, actuarially determined. At June 30, 2018, the District's proportion was 1.87091 percent, which was a decrease of 0.03901 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$35,502,232.

Actuarial Assumptions

A single discount rate of 5.69% was used to measure the total pension liability as of June 30, 2018. This single discount rate was based on an expected rate of return on pension plan investments of 7.25 percent and a municipal bond rate of 3.62 percent. Based on the assumptions described below and the projection of cash flows, pension plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. The long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2018. The total pension liability was rolled forward from the valuation date to the Plan's year ended June 30, 2018 using generally accepted actuarial principles. The roll-forward incorporates the impact of the new assumptions adopted by the Board on April 21, 2017. There were no other significant events or changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2018. The liabilities reflect the impact of the new assumptions adopted by the Board of Trustees on April 21, 2017 as well as the change in the single discount rate between June 30, 2017 and June 30, 2018. Specifically, the liabilities measured as of June 30, 2018 incorporate the following assumptions:

- 1) All members with an annual salary of more than \$20,000 will contribute 10.7% during the fiscal year ending June 30, 2015 and thereafter.
- 2) Members hired after June 30, 2013 will have an actuarially reduced retirement benefit if they retire before age 55 and their Cost of Living Adjustment (COLA) will be deferred until age 67.
- 3) COLAs for most retirees are reduced until ERB attains a 100% funded status.
- 4) The new assumptions adopted by the Board on April 21, 2017 in conjunction with the change in the single discount rate, and
- 5) For purposes of projecting future benefits, it is assumed that the full COLA is paid in all future years.

V. OTHER INFORMATION (cont'd)

B. Employee Retirement Plan (cont'd)

For the purposes of projecting future benefits, it is assumed that the full COLA is paid in all future years. The actuarial methods and assumptions used to determine contributions rates included in the measurement are as follows:

Actuarial Cost Method:	Entry age normal
Amortization Method:	Level Percentage of Payroll
Remaining Period:	Amortized - closed 30 years from June 30, 2012 to June 30, 2042
Asset Valuation Method:	5 year smoothed market for funding valuation (fair value for financial valuation)
Inflation:	3.00%
Salary Increases:	Composition: 2.50% inflation, plus 0.75% productivity increase rate, plus step rate promotional increases for members with less than 10 years of service
Investment Rate of Return:	7.25%
Single Discount Rate:	5.69%
Retirement Age:	Experience based table of age and service rates
Mortality:	Healthy Males – RP-2000 Combined Mortality Table with white collar adjustments, generational mortality improvements with scale BB.

Healthy Females – GRS Southwest Region Teacher Mortality Table, set back one year, generational mortality improvements in accordance with scale BB from the table's base year of 2012.

The long-term expected rate of return on pension plan investments is determined annually using a building-block approach that includes the following: 1) rate of return projections are the sum of current yield plus projected changes in price (valuation, defaults, etc.), 2) application of key economic projections (inflation, real growth, dividends, etc.), and 3) structural themes (supply and demand imbalances, capital flows, etc.). These items are developed for each major asset class. Best estimates of geometric real rates of return for each major asset class included in the Plan's target asset allocation for 2018 and 2017 for 30-year return assumptions are summarized in the following table:

<u>Asset Class</u>	2018 Long-Term Expected <u>Real Rate of Return</u>	2017 Long-Term Expected <u>Real Rate of Return</u>

Rate of Return

The long-term expected rate of return on pension plan investments is determined annually using a building-block approach that includes the following:

- 1) Rate of return projections are the sum of current yield plus projected changes in price (valuation, defaults, etc.),
- 2) Application of key economic projections (inflation, real growth, dividends, etc.), and
- 3) Structural themes (supply and demand imbalances, capital flows, etc.).

Sensitivity of the Net Pension Liability to Changes in the Discount Rate Assumption

The following table shows the sensitivity of the net pension liability to changes in the discount rate as of fiscal year end 2018, 2017, and 2016. In particular, the table presents the Plan's net pension liability under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower or one percentage point higher than the single discount rate.

C. Post-Retirement Health Care Benefits

Plan Description - The District, as an employer, contributes to the New Mexico Retiree Health Care Fund (RHCA), a cost-sharing multiple-employer defined benefit postemployment healthcare plan. The plan provides healthcare insurance and prescription drug benefits to retired employees of participating employers, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies. RHCA issues a separate, publicly available financial report that includes the financial statements and required supplementary information for the plan. That report may be obtained www.nmrhca.org, www.saonm.org, or by writing to:

Retiree Health Care Authority
 4308 Carlisle NE, Suite 104
 Albuquerque, NM 87107

V. OTHER INFORMATION (cont'd)

C. Post-Retirement Health Care Benefits (cont'd)

The plan is used to provide postemployment benefits other than pensions (OPEB) for retirees who were an employee of participating employer in either the New Mexico Public Employees Retirement Association (PERA) or Educational Retirement Board (ERB), eligible to receive a pension. For employers who “buy-in” to the plan, retirees are eligible for benefits six months after the effective date of employer participation. Retirees not in a PERA enhanced (Fire, Police, Corrections) pension plan who commence benefits on or after January 1, 2020 will not receive any subsidy from RHCA before age 55.

Eligible retirees are:

- 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person’s behalf unless that person retires before the employer’s RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer’s effective date and the date of retirement;
- 2) retirees defined by the Act who retired prior to July 1, 1990;
- 3) former legislators who served at least two years; and
- 4) former governing authority members who served at least four years.

There were 156,025 active, retired, surviving spouses, and inactive members in fiscal year 2018; there were 160,035 active, retired, surviving spouses, and inactive members in fiscal year 2017.

Funding Policy

The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service-based subsidy rate schedule for the medical, plus basic life plan, plus an additional participation fee of five dollars (\$5) if the eligible participant retired prior to the employer’s effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from RHCA or viewed on their website at www.nmrhca.org.

The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the employer and employee contributions can be changed by the New Mexico State Legislature. Employers that choose to become participating employers after January 1, 1998, are required to make contributions to the fund in the amount determined to be appropriate by the Board.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. For employees that were members of an enhanced retirement plan (state police and adult correctional officer member coverage plan 1; municipal police member coverage plans 3, 4 or 5; municipal fire member coverage plan 3, 4 or 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act) during the fiscal year ended June 30, 2013, the statute required each participating employer to contribute 2.5% of each participating employee’s annual salary; and each participating employee was required to contribute 1.25% of their salary. For employees that were not members of an enhanced retirement plan during the fiscal year ended June 30, 2014, the statute required each participating employer to contribute 2.0% of each participating employee’s annual salary; each participating employee was required to contribute 1.0% of their salary. In addition, pursuant to Section 10-7C-15(G) NMSA 1978, at the first session of the Legislature following July 1, 2013, the legislature shall review and adjust the distributions pursuant to Section 7-1-6.1 NMSA 1978 and the employer and employee contributions to the authority in order to ensure the actuarial soundness of the benefits provided under the Retiree Health Care Act.

Benefits Provided - Retirees and spouses are eligible for medical and prescription drug benefits. Dental and vision benefits are also available but were not included in any valuation since they are 100% retiree-paid. A description of these benefits may be found in Enrolled Participants at www.nmrhca.org.

Member Contributions – Employees that were not members of an enhanced plan, the statute required each participating employee was required to contribute 1% of their gross salary in fiscal year 2019.

V. OTHER INFORMATION (cont'd)

C. Post-Retirement Health Care Benefits (cont'd)

Employer Contributions – In fiscal year 2019, the District was required to contribute 2% of the gross covered salary for employees who are entitled to RHCA benefits. The District’s contributions to RHCA for the fiscal year ending June 30, 2019 was \$1,045,721, which equal the amount of the required contributions for each fiscal year.

New Mexico Virtual Academy Charter School’s contributions to RHCA for the fiscal years ending June 30, 2019 was \$19,658, which equal the amount of the required contributions for each fiscal year.

Employers - The Educational Retirement Act designates employers as Local Administrative Units, directly responsible for payment of compensation for the employment of members or participants of this Plan. There were 302 contributing employers in fiscal year 2018.

Liabilities, Deferred Outflows of Resources, Deferred Inflows of Resources, and Expense Related to OPEB

Farmington Municipal Schools

At June 30, 2019, the District reported a liability of \$54,156,585 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District's proportion was 1.24545 percent, which was a decrease of 0.02157 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized OPEB income of \$300,823.

At June 30, 2019, the Charter School reported a liability of \$847,929 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Charter School's proportion of the net OPEB liability was based on a projection of the Charter School's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the Charter School's proportion was 0.0195 percent, which was an increase of 0.00015 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the Charter School recognized OPEB expense of \$334.

Actuarial Assumptions

The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2028.

A blended rate of the assumed investment return on Plan assets (e.g. 7.25% for the June 30, 2019 valuation) and the rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (e.g. 3.58% as of June 30, 2017). The 7.25% discount rate was used to calculate the net OPEB liability through June 30, 2029. Benefit payments after June 30, 2029 are then discounted by the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher, currently 4.08%. The blended discount rate of 4.08% was used to measure the total OPEB liability as of June 30, 2018.

The total OPEB liability was determined by an actuarial valuation as of June 30, 2017 using the following actuarial assumptions:

Valuation Date:	June 30, 2017
Actuarial Cost Method:	Entry age normal, level percent of pay, calculated on individual employee basis
Amortization Method:	30-year open-ended amortization, level percent of payroll
Remaining Period:	30 years as of June 30, 2016
Asset Valuation Method:	Market value of assets

Actuarial assumptions

Inflation:	2.50% for ERB; 2.25% for PERA
Projected Salary Increases:	3.5% to 12.50% based on years of service, including inflation
Investment Rate of Return:	7.25%, net of OPEB plan investment expense and margin for adverse deviation including inflation
Health Care Cost Trend Rate:	8% graded down to 4.5% over 14 years for Non-Medicare medical plan costs and 7.5% graded down to 4.5% over 12 for Medicare medical plan costs

C. Post-Retirement Health Care Benefits (cont'd)

Rate of Return

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions. The target allocation and best estimates for the long-term expected rate of return is summarized as follows:

<u>Asset Class</u>	2018	2017
	<u>Long-Term Expected Real Rate of Return %</u>	<u>Long-Term Expected Real Rate of Return %</u>
U.S. core fixed income	2.1	9.1
U.S. equity - large cap	7.1	9.1
Non U.S. - emerging markets	10.2	12.2
Non U.S. - developed equities	7.8	9.8
Private equity	11.8	13.8
Credit and structured finance	5.3	7.3
Real estate	4.9	6.9
Absolute return	4.1	6.1
U.S. equity - small/mid cap	7.1	9.1

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate Assumption

The following table shows the sensitivity of the net OPEB liability to changes in the discount rate as of June 30, 2018. In particular, the table presents the Plan's net OPEB liability under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower (1% decrease) or one percentage point higher (1% increase) than the single discount rate.

D. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the government's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the government.

E. Cash Flows

The District's federal and state grants operate on a reimbursement basis. The District must support the expenditures of these grants with monies from the unrestricted operating monies. Operating on a reimbursement basis for these grants in its self does not adversely affect the District's ability to operate effectively. However, the time it takes to receive reimbursement, if extensive, does significantly affect the District's cash flows and the ability to deliver educational services to the community in an effective manner. This could affect the District's financial operations in subsequent years.

F. Subsequent Events

Farmington Municipal Schools has currently elected not to renew the Charter School's under the district. If sponsorship is not found the Charter School will end operations on June 30, 2019. However, there have been residual activity subsequent to the yearend in order finalize the closing.

Subsequent events were evaluated through November 6, 2019 which is the date the financial statements were available to be issued.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2019

Changes of benefit terms: The COLA and retirement eligibility benefits changes in recent years are described in the Benefits Provided subsection of the financial statement note disclosure General Information on the Pension Plan.

Changes of assumptions: ERB conducts an actuarial experience study for the Plan on a biennial basis. Based on the six-year actuarial experience study presented to the Board of Trustees on June 30, 2016. There were no modifications to the benefit provisions that were reflected in the actuarial valuation as of June 30, 2018.

Assumptions that were not changed:

- a. Wage inflation 3.25%
- b. Payroll growth 3.00%
- c. COLA assumption 1.90% per year
- d. Salary increases at 2.50% inflation, plus 0.75% productivity increase rate, plus step-rate promotional increases for less than ten years of service
- e. Inflation rate 2.50%
- f. Investment return 7.25%

See also the Note VI (B) *Actuarial Assumptions* of the financial statement note disclosure on the Pension Plan.

Changes of assumptions: RHCA conducts an actuarial experience study for the Plan on a biennial basis. Based on the six-year actuarial experience study presented to the Board of Trustees on June 30, 2017, RHCA implemented the following changes in assumptions for fiscal years 2018 and 2017.

The total OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2018. The mortality, retirement, disability, turnover and salary increase assumptions are based on the PERA annual valuation as of June 30, 2017 and the ERB actuarial experience study as of June 30, 2017.

- 1) Fiscal year 2018 valuation assumptions that changed based on this study:
 - a. Minor changes to demographic assumptions
- 2) Assumptions that were not changed:
 - a. Investment return 7.25%
 - b. Inflation rate 2.50% for ERB and 2.25 for PERA
 - c. Population growth per year at 0.00%
 - d. Health care cost trend rate 8% graded down to 4.5% over 14 years for Non-Medicare medical plan costs and 7.5%

Kellogg Foundation (Fund No. 26121)	Minimum Balance: None
This grant will expand evidence-based parent education and family support programs targeting vulnerable families in select New Mexico neighborhoods to promote parental knowledge of child development needs and parental advocacy skills.	
Dual Credit Instructional Materials (Fund No. 27103)	Minimum Balance: None
To provide instructional materials to be used for a dual credit course approved by Higher Education Department (HED) and through a college/university for which the district has an approved agreement.	
Library GO Bonds 2012 (Fund No. 27107)	Minimum Balance: None
Funds to be used for library books and library resources for public school libraries statewide. Library resources include computers, software, projectors, televisions, other related hardware and software, shelving, desks, chairs, and book trucks/carts. Senate Bill 66, Laws of 2012, 2nd Session, Chapter 54, Section 10.B.(3).	
Reads to Lead (Fund No. 27114)	Minimum Balance: None
Provides an aligned approach for districts and schools to ensure that children can read by the end of third grade—giving them essential skills for future career and college success. It also provides regional and district reading coaches, supports for intervention, and professional development for parents, teachers, reading coaches, and administrators.	
Excellence in Teaching (Fund No. 27125)	Minimum Balance: None
The funding under this award must be used solely for Excellence in Teaching salary supplements. These salary supplements are \$5,000.00 or \$10,000.00 per teacher and may only be awarded to teachers who have met the award criteria.	
Recruitment Support (Fund No. 27128)	Minimum Balance: None
This award must be used for teacher recruitment efforts such as signing bonuses for new teachers, covering the costs of travel to a recruiting/hiring event, updates to your district website with regard to recruitment, or the cost of placing advertisements in a newspaper or external website.	
Pre-K Initiative (Fund No. 27149)	Minimum Balance: None
The pre-k program shall address the total development needs of preschool children, including physical, cognitive, social and emotional needs, and shall include health care, nutrition, safety and multicultural sensitivity.	
Indian Education Act (Fund No. 27150)	Minimum Balance: None
To increase academic achievement and provide culturally relevant learning experiences for American Indian students; to establish collaborative partnerships that engage active participation of American Indian parents, students, tribe(s), community-based organizations, universities, private sector and/or other entities who work with American Indian students; to establish a parent community advisory committee to participate in the development of an Indigenous curriculum framework and to profile Indigenous best practices.	
Breakfast for Elementary Students (Fund No. 27155)	Minimum Balance: None
The Breakfast for Elementary School program provides foods (at no charge) after the instructional day has begun, provided that instruction occurs simultaneously with breakfast. Authorized through 22-13-13.2 NMSA 1978; NMAC 6.12.9	
Library GO Bond 2006 (Fund No. 27170)	Minimum Balance: None
Funding made available to update and expand library collections.	
New Mexico Grown (Fund No. 27183)	Minimum Balance: None
Funds under this award are to be used to purchase locally grown New Mexico fresh fruits and vegetables, to be made available at no charge to students. Funds have been received as appropriation through the General Appropriations Act to distribute to school districts and charter schools.	
4R Future Individual/Group (Fund No. 27188 & 27190)	Minimum Balance: None
To design and development of locally-crafted opportunities to champion and retain educators. Through this opportunity, LEAs will have a powerful tool to ensure that educators who demonstrate the ability to positively impact the academic trajectory of their students will be recognized for their excellence and, furthermore, be incentivized to continue their work within their classrooms and schools.	
Youth Conservation (Fund No. 28133)	Minimum Balance: None
Allows for students to participate in conservation programs at National, State and City Parks as well as study time for academic programs.	

Nonmajor Special Revenue Funds (cont'd)

Tutoring (Fund No. 28178)	Minimum Balance:	None
Funds to provide tutoring for students needing specialized help at the mid-school level.		
Westmeath Foundation (Fund No. 29102)	Minimum Balance:	None
Exclusively for the Exceptional Programs Office to use only for educational, scientific, or literary purposes.		

Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Special Building Local (Fund No. 31300)	Minimum Balance:	None
The fund provides financing from local revenues for the construction and improvements to District buildings and facilities.		
Special Capital Outlay – State (Fund No. 31400)	Minimum Balance:	None
This fund provides financing for special appropriation monies received from the State of New Mexico under Chapter 367, Laws of 1993.		
State SB-9 Match (Fund No. 31700)	Minimum Balance:	None
To account for erecting, remodeling, making additions to and furnishing of school buildings, or purchasing or improving school grounds or any combination thereof as identified by the local school board. Financing is provided by the State of New Mexico's State Equalization Matching as authorized by the Public School District Capital Improvements Act (22-25-1 to 22-25-10 NMSA 1978).		
Capital Improvements SB – 9 (Fund No. 31701)	Minimum Balance:	None
This fund provides financing for the purchase of equipment and capital improvements to School District property. Funding is received from a 2 mill property tax levy and interest earned on investments, under New Mexico Senate Bill 9.		
Ed Technology Equipment Act (Fund No. 31900)	Minimum Balance:	None
This fund is used to account for the revenues and expenditures associated with Education Technology Bonds in the purchasing of equipment used in the educational process.		

Nonmajor Debt Service Funds

Debt service funds are used to account for the payment of principal and interest on long-term debt. Debt Service revenues are from taxes and other operating revenues, some of which are pledged specifically to repay certain outstanding bond issues.

Ed Tech Debt Service (Fund No. 43000)	Minimum Balance:	None
Used to account for the accumulation of resources for and the payment of, general long-term debt principal, interest, and related costs associated with the Education Technology bond issues.

Note ¹: New Mexico adopted the UCOA for school districts and combined governmental activity categories into Instruction, Support services, Operation of non-instructional services, Food services, Athletics, Pupil Transportation and Interest on long-term debt. Prior years have been adjusted accordingly.

Note - The District recomputed the percentage using the capitalized expenditures (capital asset additions) and not the capital outlay amount.

Note - The District began reporting expenditures according to the breakdown by function in 2012.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

Brian S. Colón, Esq., State Auditor and
The Board of Education and Audit Committee of
Farmington Municipal School District No. 5

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, discretely presented component unit, each major fund, the aggregate remaining fund information, the budgetary comparisons of the general fund and major special revenue funds, of the Farmington Municipal School District No. 5 as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Farmington Municipal School District No. 5's basic financial statements, and the combining and individual funds and related budgetary comparisons of Farmington Municipal School District No. 5, presented as supplemental information, and have issued our report thereon dated November 6, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit, of the financial statements, we considered Farmington Municipal School District No. 5's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Farmington Municipal School District No. 5's internal control. Accordingly, we do not express an opinion on the effectiveness of Farmington Municipal School District No. 5's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses. Finding 2019-001 and 2019-002.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses to be significant deficiencies. Finding 2019-003 and 2019-004.

Compliance and other matters

As part of obtaining reasonable assurance about whether Farmington Municipal School District No. 5's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. We also noted certain other matters that are required to be reported pursuant to *Government Auditing Standards* and pursuant to Section 12-6-5, NMSA 1978, which are described in the accompanying schedule of findings and questioned costs as finding 2019-005 through 2019-008.

Brian S. Colón, Esq., State Auditor and
The Board of Education and Audit Committee of
Farmington Municipal School District No. 5

Farmington Municipal School District No. 5's Response to Findings

Farmington Municipal School District No. 5 responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Farmington Municipal School District No. 5's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Farmington Municipal School District No. 5's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

INDEPENDENT AUDITOR'S REPORT

Brian S. Colón, Esq., State Auditor and
The Board of Education and Audit Committee of
Farmington Municipal School District No. 5

Report on Compliance for Each Major Federal Program

We have audited Farmington Municipal School District No. 5's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Farmington Municipal School District No. 5's major federal programs for the year ended June 30, 2019. Farmington Municipal School District No. 5's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Farmington Municipal School District No. 5's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Farmington Municipal School District No. 5's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Farmington Municipal School District No. 5's compliance.

Opinion on Each Major Federal Program

In our opinion, Farmington Municipal School District No. 5 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Brian S. Colón, Esq., State Auditor and
The Board of Education and Audit Committee of
Farmington Municipal School District No. 5

Report on Internal Control Over Compliance

Management of Farmington Municipal School District No. 5 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Farmington Municipal School District No. 5's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Farmington Municipal School District No. 5's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

I. SCOPE OF AUDIT PURSUANT TO OMB UNIFORM GRANT GUIDANCE

All federal grant operations of Farmington Municipal Schools (the “District”) are included in the scope of the Office of Management and Budget (“OMB”) Uniform Grant Guidance audit (the “Single Audit”). The Single Audit was performed in accordance with the provisions of the OMB Circular Compliance Supplement (Revised July 2019 the “Compliance Supplement”). Compliance testing of all requirements are described in the Compliance Supplement, was performed for the grants programs noted below. These programs represent all federal award programs and other grants with fiscal year 2019 cash and non-cash expenditures to ensure coverage of at least 20% (LOW risk auditee) of federally granted funds. Actual coverage is approximately 31% of total cash and non-cash federal award program expenditures. Total cash expenditures were in the amount of \$11,628,190 and all non-cash expenditures amounted to \$308,347.

MAJOR FEDERAL PROGRAM	CFDA NO.	EXPENDITURE
Cash Assistance:		
Special Education (IDEA) Cluster	84.027(A) & 84.173(A)	\$ 3,198,307
Title II Teacher Quality	84.367	552,363
Total		\$ 3,750,670

The District did not have any federal programs considered to be a High-Risk Type A program for the year ended June 30, 2019. The U.S. Department of Education is the District’s oversight agency for single audit.

Basis of presentation

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes the federal grant activity of the District under programs of the federal government for the year ended June 30, 2019. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Uniform Grant Guidance. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position and changes in net position of the District. All federal programs considered active during the year ended June 30, 2019, are reflected on the Schedule. An active federal program is defined as a federal program for which there were receipts or disbursements of funds or accrued (deferred) grant revenue adjustments during the fiscal year or a federal program considered as not completed or closed out at the beginning of the fiscal year. The Schedule is prepared using the accrual basis of accounting. Grant revenues are recorded for financial reporting purposes when the District has met the qualifications for the respective grant. Grant revenues for the Food Donation Program are based upon commodities received, at amounts per standard price listing, published quarterly by the United States Department of Agriculture (the “USDA”). In addition, there is no federal insurance in effect during the year and loan or loan guarantee outstanding at year end.

Accrued and deferred reimbursements

Various reimbursement procedures are used for Federal awards received by the District. Consequently, timing differences between expenditures and program reimbursements can exist at the beginning and end of the year. Accrued balances at year end represent an excess of reimbursable expenditures over receipts to date. Deferred balance at year-end represent an excess of cash receipts over reimbursable expenditure to date. Generally, accrued or deferred balances covered by differences in the timing of cash receipts and expenditures will be reversed in the remaining grant period.

II. INDIRECT COSTS

The District has not elected to use the 10% de minimis indirect cost.

III. RECONCILIATION OF FEDERAL AWARDS TO EXPENDITURE OF FEDERAL AWARDS

The differences between the federal awards received (Intergovernmental sources – federal) during the year ended June 30, 2019 and the federal awards expended during the year are as follows:

	AMOUNT
Federal Sources	\$ 12,922,565
Indirect costs from federal programs	(120,378)
Revenues received as vendor	(891,188)
Unexpended federal sources from current year	(89,494)
Prior year federal sources expended	115,032
Total Expenditures of Federal Awards	\$ 11,936,537

II. AUDIT FINDINGS - FINANCIAL STATEMENTS

FARMINGTON MUNICIPAL SCHOOLS

2019 – 001 SEGREGATION OF DUTIES

Material Weakness

Condition: During the inquiry or internal controls and review of cash disbursements it was discovered that there was a lack of segregation of duties over the controls of cash disbursements. The person that monitors purchase orders and prints accounts payable checks was also the accounting system administrator. The accounting system administrator has complete access to all of the components of the accounting system including the master files and the ability to override approval of purchase orders. There were indications that the process of purchase order approval had been overridden. The overrides gave authority to pay without the approvals of the comptroller and the Chief Financial Officer. The amounts of the overrides were undetermined.

Criteria: NMAC 6.20.2.11 “INTERNAL CONTROL STRUCTURE STANDARDS”:

- A. Each school district shall develop, establish and maintain a structure of internal accounting controls and written procedures to provide for segregation of duties, a system of authorization and recording procedures, and sound accounting practices in performance of duties and functions.
- B. The duties to be segregated are the authorization to execute a transaction, recording the transaction, and custody of assets involved in the transaction.
 - (1) School district management must ensure that protection of the public trust is a major focus when granting the authorization to execute business of the school district.
 - (2) Employees handling significant amounts of cash must be adequately bonded. Access to assets is permitted only in accordance with school district authorization.
 - (3) Receipts, checks or warrants, purchase orders, and vouchers shall be sequentially pre-numbered.
 - (4) School districts shall have proper safeguards to protect unused checks and other pre-numbered forms, undeposited cash and other receipts, and facsimile signature plates.
 - (5) Transactions are to be recorded as necessary to permit preparation of financial statements in conformity with GAAP. In addition, school districts shall establish any other criteria applicable to such statements to maintain accountability for assets.
 - (6) School districts shall conduct independent checks on performance and proper valuation of recorded amounts, such as clerical checks, reconciliations, comparison of assets with recorded accountability, computer-programmed controls, management review of reports that summarize the detail of account balances, and user review of computer generated reports.
- C. An internal control structure is required to demonstrate the school district's ability to record, process, summarize and report financial data consistent with the following financial statement assertions:
 - (1) rights and ownership;
 - (2) existence and occurrence;
 - (3) valuation and allocations;
 - (4) completeness; and,
 - (5) presentation and disclosure.
- D. The internal control structure shall demonstrate that the school district identifies applicable laws and regulations, and that procedures are designed to provide reasonable assurance that the school district complies with those laws and regulations. Internal control procedures shall be established, implemented and documented through school district correspondence, manuals, training, and other additional methods. Appropriate internal control procedures shall be adopted by the local board within a school district to safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies. The internal control structure shall address all school district transactions.

II. AUDIT FINDINGS - FINANCIAL STATEMENTS (cont'd)

2019 – 001 SEGREGATION OF DUTIES (cont'd) *Material Weakness*

NMAC 6.20.2.12 “ORGANIZATIONAL STRUCTURE”: School districts shall develop, establish and maintain an effective organizational structure that includes the following:

- A. Devise a system for the measurement of and accountability for employee performance.
- B. Establish a policy in which the delegation of responsibility for employee actions is combined with sufficient authority to perform the assigned activities.
- C. Create and maintain budgets and financial reports which facilitate the discharge of assigned responsibilities and monitors activities at each level of the organizational structure.
- D. Develop a system of checks and balances which separates incompatible activities to preclude absolute control by any individual or unit and provides for supervision by higher levels of management and for the monitoring of overall school district activities.

Effect of condition: The District is in violation of state statutes and is susceptible to unauthorized purchases and/or misappropriations.

Cause: The duties of recording and authorization have not been adequately segregated in order to safeguard assets. The accounts payable position has been given access to the entire accounting system by being given the role of system administrator.

Recommendation: The District must train a new system administrator for the accounting system or have another person perform the accounts payable position. The system administrator of the accounting system should not serve any other role within the financial/accounting control structure.

Management’s response: The Finance department is charged with the financial integrity of district resources to support the success of our students and provide support to other departments in the district to help them achieve their goals. The District utilizes an integrated financial management system with an automated workflow for purchase requests to identify the approver and the time of all approvals. Each approver in the workflow has a backup and a time limit of at least two days to approve a purchase request before it is sent on to the assigned backup. Once approved, the workflow notifies the originator through email and the request is converted into a purchase order.

In order to effectively change the system to safe guard against any future occurrence of this type the following procedure has been updated. Finance Department procedure on internal controls is based on separation of duties. Accordingly, no single person shall have authority to authorize a transaction, execute a transaction, record a transaction, and have custody of any resulting assets. No single person shall have access to the administrative console or be able to access master files within the finance software and also perform any cash disbursements duties within the department including authorizing, executing and/or recording any transaction.

In order to correct internal control procedures, the system administrator has been relieved of her cash disbursement duties to concentrate solely on the accounting system administration and another employee within the finance office has taken over accounts payable duties as of November 1st 2019. The Comptroller will monitor all cash disbursements and review and sign off on all payments made from accounts payable to assure accuracy. A review of the finance software security is scheduled for November 12th 2019 to review current workflow approvers, insure the backup approvers are current and to make adjustments in the system to notify originators if approval has not occurred within a certain amount of time. Reminders on the approval process and timelines for approving workflow items was sent to Directors, Principals and secretaries at all locations on November 7th 2019.

Responsible party(ies) for corrective action(s): Chief Financial Officer, Comptroller

Corrective action(s) timeline: 11/01/2019.

II. AUDIT FINDINGS - FINANCIAL STATEMENTS (cont'd)

2019 – 002 CONTROLS OVER INVENTORIES

Material Weakness

Condition: During our substantive procedures, the inventory for the Transportation Fund was requested to be provided for observance and verification of yearend counts. The inventory was not provided for review until September 25, 2019. We were able to determine the reasonableness of the amounts through additional procedures. The inventory amount at June 30, 2019 was \$174,568.

Criteria: According to NMAC 6.20.2.11 “INTERNAL CONTROL STRUCTURE STANDARDS”, every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorization, and recorded properly to permit the preparation of general purpose financial statements in accordance with GAAP. Also, School districts shall conduct independent checks on performance and proper valuation of recorded amounts, such as clerical checks, reconciliations, comparison of assets with recorded accountability, computer-programmed controls, management review of reports that summarize the detail of account balances, and user review of computer generated reports.

Additionally, NMAC 6.20.2.16 “WAREHOUSE/SUPPLY INVENTORY” states that at fiscal year-end, each school district shall take a physical inventory of remaining goods and materials of an expendable nature. School districts shall establish adequate internal accounting control procedures over supplies inventory in accordance with GAAP.

Effect of condition: The District is susceptible reporting errors when the inventory is not prepared and counted within a timely period at yearend. Additionally, the District is not fully complying with state statutes.

Cause: The inventory was not prepared and provided to the central office within a timeframe that allowed for efficient verification and timely reporting.

Recommendation: Policy should be written to ensure that inventories are provided to the Chief Financial Officer or comptroller on a monthly basis. The reports should be provided within a couple days after the end of the month. The reports should include item description, quantity on hand, amount per piece, total amount per item, and a grand total of inventory. Physical counts should be initiated as near year-end, possibly a day or two before yearend, to ensure timely reporting. The auditor should be notified when a count is going to be done so that the count can be observed if determined to be necessary.

Management's response: In June 2019 the District's email was converted to another system effectively taking away the ability to retrieve the Transportation Fund inventory. The IT department was able to retrieve the information on September 25th 2019. To replace the inventory system connected with the obsolete email the district has implemented a cloud-based inventory system that will go live on November 4th 2019. This system will tie each piece of the inventory to the location, amount of inventory, if used which bus it was put on, low quantity alerts, along with many other benefits. This is a separate software system that is cloud based where retrieval of information will be immediate.

NEW MEXICO VIRTUAL ACADEMY (Component Unit)

2019 – 003 UNTIMELY PAYMENT OF INVOICES (Original Finding No. 2016-005) *Significant Deficiency*

Condition: During the search for unrecorded liabilities we found that there was significant number of invoices that had not been paid within 30 days of the invoice date. The Charter School is incurring late fees, and the utilities had a disconnect notice, due to late payment of invoices.

<u>Invoice Date</u>	<u>Check Number</u>	<u>Check Date</u>	<u>Amount</u>	<u>Number of Days</u>
5/31/2018	2464	8/2/2018	21.21	63
4/30/2018	2481	8/22/2018	200.00	114
8/3/2018	2516	9/10/2018	622.75	38
9/4/2018	2695	1/23/2019	93.50	141

Status from prior year: This was a decrease in occurrence from the prior year which had eleven occurrences. The amount of the disbursements was \$157,073.

Criteria: Disbursement payments made in remittance for products and/or services received by the Charter School should be made in a timely manner as part of sound accounting practices. Payment should be made within vendor terms or within thirty days of the invoice date.

Cause: The Charter School does not have effective controls in place to ensure that purchases are paid within a reasonable time.

Effect of condition: Late fees can be added to the cost of purchases made that are not paid for in a timely manner. Payment of such late fees is not an allowable cost under the guidelines established by the federal government.

Recommendation: A system should be implemented to ensure that invoices are processed and paid within a period not to exceed thirty days from the invoice date. The system should allow for payment of invoices at least twice a month.

Management's Response: This school is now closed.

NEW MEXICO VIRTUAL ACADEMY (Component Unit)

2019 – 004 INTERNAL CONTROLS

Significant Deficiency

Condition: During the testing process we selected twenty disbursements to be tested, and 10 alternate disbursements to replace any voids. We received a total of 17 disbursements to be tested out of a mix of original disbursements and alternative without documentation for why the alternate disbursement was sent to be tested.

The following were the items found:

- One purchase was made prior to the approval of the purchase orders.
- One of the purchase orders was for \$57 and the disbursement was for \$116, without an explanation of why the overage, or a modification.
- There was lack of back up for a disbursement (missing invoice).
- There was a disbursement for staff shirts without documentation of the purpose of the shirts since this is a virtual academy.
- For two of the disbursements there should have been some form of verification that the items ordered were received

Criteria: In accordance with 6.20.2.11 NMAC 1978: INTERNAL CONTROL STRUCTURE STANDARDS:

A. Every school district shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safe-guarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of general purpose financial statements in accordance with GAAP, and that state and federal programs are managed in compliance with applicable laws and regulations. The internal control structure shall include written administrative controls (rules, procedures and practices, and policies that affect the organization) and accounting controls (activity cycles, financial statement captions, accounting applications including computer systems) that are in accordance with GAAP.

B. Each school district shall develop, establish and maintain a structure of internal accounting controls and written procedures to provide for segregation of duties, a system of authorization and recording procedures, and sound accounting practices in performance of duties and functions. The duties to be segregated are the authorization to execute a transaction, recording the transaction, and custody of assets involved in the transaction.

(1) School district management must ensure that protection of the public trust is a major focus when granting the authorization to execute business of the school district.

(2) Employees handling significant amounts of cash must be adequately bonded. Access to assets is permitted only in accordance with school district authorization.

(3) Receipts, checks or warrants, purchase orders, and vouchers shall be sequentially pre-numbered.

(4) School districts shall have proper safeguards to protect unused checks and other pre-numbered forms, undeposited cash and other receipts, and facsimile signature plates.

(5) Transactions are to be recorded as necessary to permit preparation of financial statements in conformity with GAAP. In addition, school districts shall establish any other criteria applicable to such statements to maintain accountability for assets.

(6) School districts shall conduct independent checks on performance and proper valuation of recorded amounts, such as clerical checks, reconciliations, comparison of assets with recorded accountability, computer-programmed controls, management review of reports that summarize the detail of account balances, and user review of computer generated reports.

Cause: The Charter School is not maintaining adequate internal controls over disbursements.

Effect of condition: The Charter School is out of compliance with requirements for 1978 NMSA 6-20-2.11.

Recommendation: The Charter School needs to set up an internal control system which allows for the School to accurately provide documentation of the expenditures of the School

Management's Response: This school is now closed.

FARMINGTON MUNICIPAL SCHOOLS

2019 – 005 PURCHASES MADE PRIOR TO APPROVAL (Original No. 2016-003)

(Repeat of prior year finding; updated and revised)

Other Noncompliance

Condition: Of the Thirty disbursements tested, four purchases in the amount of \$164,687 were made prior to the approval of purchase orders. Purchase orders are used to control cash and to authorize the purchases in accordance with the authorized budget.

Status from prior year: This was an increase in occurrences from the prior year which had two occurrences in the amount of \$1,674.

Criteria: Authorization for a purchase is acquired through the completion of a purchase order, which is signed by a person given authority over purchase control. The purchase order must be approved prior to the purchase or ordering of goods as per PSAB Supplement 13. NMAC 6.20.14(E) states the school district shall verify that there is sufficient cash and budget prior to the disbursement of cash. A revenue ledger is required for each revenue code as approved in the finalized budget, and additional revenue ledgers may be added as necessary.

Cause: Personnel initiated and/or completed purchases prior to obtaining approval for the purchase in accordance with established policies and regulations.

Effect of condition: Any purchases made without prior authorization have the potential to cause cash deficits in the funds from which they are made or violations of the approved budget.

Recommendation: The importance of cash controls and adequate planning need to be made clear to all personnel that will be making purchases for the school.

Management's response: The district has developed a report that searches the database for purchase orders dated after the invoice date. All locations receive the report and are required to explain why the purchase order was issued late and provide their corrective action plan to avoid future occurrences. Training will be provided where necessary to assist employees in correcting the issue.

Person/positions responsible for overseeing corrective actions: Chief Procurement Officer

Timeline for corrective actions: Corrective action and training will begin effective immediately, November 1st 2019.

IV. AUDIT FINDINGS – SECTION 12-6-5 NMSA 1978 (cont'd)

FARMINGTON MUNICIPAL SCHOOLS

2019 – 006 CONTROLS OVER CASH RECEIPTING Other Noncompliance

Condition: During the review of the thirty cash receipts selected for testing the following was identified:

Twenty-four of the receipts tested were not deposited into the bank within one banking day from the time of receipt. The deposits totaled \$103,036.

There were 15 receipts that could not be identified to the deposit slip. The amount of the effected deposits was \$71,911.

Some receipts were not issued to a person. The line intended for the name of the person making the payment or delivering the cash was completed with a club name, purpose of payment, or left blank. The three receipts totaled \$362.

There was one receipt in the amount of \$3,784 that was not dated to record the day the money was received.

One receipt selected was not available for review.

Criteria: NMAC 6.20.2.14 CASH CONTROL STANDARDS:

- A. School districts shall establish and maintain a cash management program to safeguard cash and provide prompt and accurate reporting that adheres to cash management requirements of the office of management and budget (OMB) Circular A-102, and applicable state and federal laws and regulations.
- B. The school district shall issue a factory pre-numbered receipt for all money received. Pre-numbered receipts are to be controlled and secured. If a receipt is voided, all copies shall be marked "VOID" and retained in the receipt book.
- C. Money received and receipted shall be deposited in the bank within twenty-four (24) hours or one banking day. If the distance to the bank is considerable, or the cash collection is limited to small amounts and/or low volume and it is impractical to meet the twenty-four hour/one banking day requirement, the local board may request approval from the department for an alternative plan. The bank deposit slip shall have the numbers from applicable receipts entered on it or attached as a reference.
- D. A cash receipts journal is to be used for each fiscal year beginning July 1 and ending June 30, and is to be presented to the school district's auditor during the annual audit.

Effect of condition: The District is in violation of NMAC 6.20.2.14. Cash retained by management for extended periods of time are susceptible to misuse or fraud.

Cause: Deposits at times were taking more than 24 hours to be deposited in the bank. Receipts for cash collections are not being completed accurately or enough information to provide a detailed record of the transaction.

Recommendation: On an annual basis, staff members that have responsibilities of collecting and depositing cash receipts should be informed of the legal requirements of depositing cash within one banking day, as well as the District's policies regarding cash collections. Deposit slips should be completed with enough detail to provide an audit trail of each cash collection from the initiation (collection) of a transaction to the completion (reconciliation).

Management's response: The District will review the cash receipt procedures in place at each location to ensure compliance with district internal control policies and state law. Corrective actions will be taken at each location that are found to be out of compliance.

The BusinessPlus accounting system was updated in March of 2019 with an automated receipt numbering process implemented to improve controls. We will continue to document when a receipt number is issued out of sequence in error to provide an explanation for the occurrence. Receipt numbers will be written on the corresponding deposit slip for all receipts and deposits made within the district. The District has employed an online payment program beginning September 10th 2019 to alleviate the late deposits and the need for written receipts. The Comptroller will review receipts periodically to assure the proper procedures are being followed.

Condition: Ten payroll checks were selected, three were duplicate employees of the seven personnel files reviewed there were not any background checks provided.

Status from prior year: There was an increase from the prior year which had one occurrence.

Criteria: In accordance with 1978 NMSA 22-10A-5, all employees who have access to children are required to have a background check completed and approved.

Cause: The Charter School is not maintaining adequate controls over employee hiring.

Effect of condition: The Charter School is out of compliance with requirements for 1978 NMSA 22-10A-5.

Recommendation: The Charter School should not employ any individual without prior receipt of the cleared background check.
