Independent Auditor's Report

Mr. Brian S. Colón
State Auditor of the State of New Mexico
Board Members of the Grady Municipal Schools

Mr. Colón and Members of the Board

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information, and the budgetary comparisons for the general and major special revenue funds of Grady Municipal Schools (District), as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position, thereof and the respective budgetary comparisons for the general and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedules of Required Supplementary Information for Pension Plan, Other Post Employment Benefits Plan and related notes be presented to supplement the basic financial statements. Such information although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who consider it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during my audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis which is required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the District's financial statements that collectively comprise the District's basic financial statements. The supplemental information such as the combining and individual nonmajor fund financial statements and the other schedules required by 2.2.2.NMAC, are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and other schedules required by 2.2.2.NMAC presented as supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated August 31, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

 Reconciliation of the Governmental Funds
 Balance Sheet to the Statement of Net Position
 June 30, 2019

Total Fund Balance - Governmental Funds \$ 637,140

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Property taxes receivable will be collected after the period of availability, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds. 3,305

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.

Capital Assets	\$ 9,180,096	
Accumulated Depreciation	<u>(4,515,308)</u>	4,664,788

Deferred Outflows and Inflows Related to Pensions and Other Post-Employment Benefits (OPEB) are the results of differences in expected and actual actuary experience and the difference in actuary projected and actual earnings. Also changes in proportion and differences between contributions and proportionate share of contributions.

Deferred Outflows Related to Pensions	1,409,184	
Deferred Outflows Related to OPEB	24,875	
Deferred Inflows Related to Pensions	(97,880)	
Deferred Inflows Related to OPEB	<u>(320,369)</u>	1,015,810

Long-term and certain other liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term and other liabilities at year end consist of :

Bonds payable	(413,974)	
Pension Liability	(5,143,001)	
OPEB Liability	(1,231,019)	
Accrued Interest	<u>(490)</u>	<u>(6,788,484)</u>

 To the Statement of Activities
 June 30, 2019

Net Change in Fund Balance \$ (29,143)

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered "available" revenues in the governmental funds, and are instead reported as unavailable revenues. They are however, recorded as revenues in the Statement of Activities.

Property Taxes Receivable, June 30, 2018	\$ (2,028)	
Property Taxes Receivable, June 30, 2019	<u>3,305</u>	1,277

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities.

Depreciation expense	(280,506)	
Loss on Disposition of Capital Asset	(56)	
Capital Outlays	<u>467,029</u>	186,467

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Summary of Significant Accounting Policies

The financial statements of the Grady Municipal Schools (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

Financial Reporting Entity

The District has been in existence since the early nineteen hundreds, and is currently operating under the provisions of the Public School District Code, Chapter 22, of the New Mexico Statutes Annotated, 1978 Compilation. The District operates with a local board of education - superintendent form of government and provides a supervised program of instruction designed to educate students at the elementary and secondary level.

GASB Statement No. 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the District is considered a *primary government*, since it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. As used in GASB Statement No. 14, fiscally independent means that the District may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges and issue bonded debt.

The District has no component units, defined by GASB Statement No. 14 as other legally separate organizations for which the elected District members are financially accountable. There are no other primary governments with which the School Board Members are financially accountable. There are no other primary governments with which the District has a significant relationship.

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

The funds of the District are classified into two categories: governmental and fiduciary. In turn, each category is divided into separate fund types. The fund classification and a description of each existing fund type follows below:

Governmental Funds

Governmental funds are used to account for the District's general government activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of capital assets and the servicing of general long-term debt.

General Fund - The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all resources for the acquisition of capital facilities by the District.

Debt Service Fund - The Debt Service Fund is used to account for the resources for, and the payment of, principal, interest and related costs.

Fiduciary Fund Type

Fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of outside parties, including other governments, or on behalf of other funds within the District.

The Student Activity Fund, an agency fund, accounts for assets held by the District as an agent for the District organizations. These organizations exist with the explicit approval of and are subject to revocation by the District's Board of Education. This accounting reflects the District's agency relationship with the student activity organizations.

The District reports the following major governmental funds:

General Fund (11000)(12000)(13000)(14000)

The General Fund consist of four sub funds. The first is the Operational fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. The Teacherage accounts for rents collected from teachers and related expenditures. The Transportation fund includes a state grant to provide transportation for students in the District. The Instructional Materials fund accounts for a state grant to provide text books for students in the District.

Major Special Revenue Funds

IDEA B Entitlement (24106). To account for a program funded by a Federal grant to assist the District in providing free appropriate public education to all handicapped children. Funding authorized by the Individuals with Disabilities Education Act, Part B, Sections 611-620, as amended, Public Laws 91-230, 93-380, 94-142, 98-199, 99-457, 100-639, and 101-476, 20 U. S. C. 1411-1420. The fund was created by the authority of federal grant provisions.

NM Reads to Lead (27114). To account for revenue and expenditures received from a state grant for the purpose of improving skills of young students in the area of reading. The fund was created by the authority of state grant provisions.

Wind Farm Projects (29134). To account for funds received from a wind farm in lieu of property tax revenue. The fund was created by definition.

Major Capital Projects Funds

Special Capital Outlay-Local (31300). To account for money received from the wind farm with the restriction of spending the money for Capital Outlay Projects.

Senate Bill Nine-State (31700). The revenues are derived from state grant. Expenditures are restricted to repairs and maintenance of facilities.

Measurement Focus and Basis of Accounting

Government-Wide Financial Statements (GWFS)

The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. Fiduciary funds are not included in the GWFS. Fiduciary Funds are reported only in the Statement of Fiduciary Assets and Liabilities at the fund financial statement level.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflow of resources, liabilities and deferred inflow of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, deferred outflow of resources, liabilities and deferred inflow of resources resulting from nonexchange transactions are recognized in accordance with the requirement of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions."

Program Revenues

Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues. Program revenues include: 1) charges for services to students or applicants who purchase, use or directly benefit from the goods or services provided by the given function 2) program-specific operating grants and contributions, and including grants for transportation, instructional materials, food service, special revenue funds such as special education as well as others and federal and state programs 3) program specific capital grants and contributions.

Fund Financial Statements (FFS)

Governmental Funds

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The government considers all revenues available if they are collected within 30 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured principal and interest on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Any effect of interfund activity has been eliminated from the district-wide financial statements.

Revenues

Ad valorem taxes are susceptible to full accrual on the government wide financial statements. Property Tax revenues recognize revenues net of estimated refunds and uncollectible accounts in the period for which the taxes are levied.

Entitlement and shared revenues (which include state equalization and state revenue sharing) are recorded as unrestricted grants-in-aid at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met and the susceptible to accrual criteria have been met.

Other receipts become measurable and available when cash is received by the District and are recognized as revenue at that time.

Expenditures

Salaries are recorded as paid. Salaries for nine-month employees are paid prior to the end of the fiscal year and therefore are not accrued. Salaries for the twelve month employees payroll are accrued.

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid (or any other types, such as capital lease transactions, sale of fixed assets, debt extinguishments, long-term debt proceeds, etc.) are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

Basis of Budgeting

Formal budgetary integration is employed as a management control device during the year.

Budgets for the General, Special Revenue, Debt Service and Capital Projects Funds are adopted on a basis inconsistent with generally accepted accounting principles (GAAP). These budgets are prepared using the cash basis of accounting. Budgetary comparisons for the various funds in this report are on the non-GAAP budgetary basis.

The District follows the following procedures in establishing data reflected in the financial statements:

1. Prior to April 15, (unless a later date is fixed by the Secretary of Education) the local school board submits to the School Budget and Finance Analysis Unit (SBFAU) of the New Mexico Public Education Department an estimated budget for the District for the ensuing fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them. All budgets submitted to the New Mexico Public Education Department (PED) by the district shall contain headings and details as prescribed by law.
2. Prior to June 20, of each year, the proposed "operating" budget will be reviewed and approved by the SBFAU and certified and approved by the local school board at the public hearing of which notice has been published by the local school board which fixed the estimated budget for the district for the ensuing fiscal year.
3. The "operating" budget will be used by the District until they have been notified that the budget has been approved by the SBFAU and the local school board. The budget shall be integrated formally in to the accounting system. Encumbrances shall be used as an element for control and shall be integrated into the budget system.
4. The District shall make corrections, revisions and amendments to the estimated budgets fixed by the local school board to recognize actual cash balances and carryover funds, if any. These adjustments shall be reviewed and approved by the SBFAU.
5. No school board or officer or employee of the District shall make any expenditures or incur any obligation for the expenditures of public funds unless such expenditure or contractual obligation is made in accordance with an operating budget approved by the division. But this does not prohibit the transfer of funds between line items within a series of a budget.
6. Budget change requests are processed in accordance with Supplement I (Budget Preparation and Maintenance) of the *Manual of Procedures Public School Accounting and Budgeting*. Such changes are initiated by the District and approved by the SBFAU.

7. Legal budget control for expenditures is by function.
8. Appropriations lapse at fiscal year end. Funds unused during the fiscal year may be carried over into the next fiscal year by budgeting those in the subsequent fiscal year's budget. The budget of the District has been amended during the current fiscal year in accordance with these procedures. The budget schedules included in the accompanying financial statements reflect the approved budget and amendments thereto.

Budget comparison schedules are no longer required for non-major funds and are not included.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

The District is authorized under the provisions of Chapter 6, Article 10, paragraph 10, NMSA 1978, to deposit its money in banks, savings and loan associations and/or credit unions whose accounts are insured by an agency of the United States.

Investments

All money not immediately necessary for the public uses of the District may be invested in :

- (a) bonds or negotiable securities of the United States, the state or any county, municipality or school district which has a taxable valuation of real property for the last preceding year of at least one million dollars (1,000,000) and has not defaulted in the payment of any interest or sinking fund obligation or failed to meet any bonds at maturity at any time within five years last preceding; or
- (b) securities that are issued by the United States government or by its agencies or instrumentalities and that are either direct obligations of the United States or are backed by the full faith and credit of the United States government or agencies guaranteed by the United States government.
- (c) in contracts with banks, savings and loan associations or credit unions for the present purchase and resale at a specified time in the future of specific securities at specified prices at a price differential representing the interest income to be earned by the investor. The contract shall be shown on the books of the financial institution as being the property of the investor and the designation shall be contemporaneous with the investment. The contract shall be fully secured by obligations of the United States having a market value of at least one hundred two percent of the contract. The collateral required for investment in the contracts provided for in this subsection shall be shown on the books of the financial institution as being the property of the investor and the designation shall be contemporaneous with investment.

Receivables and Payables

Receivables include property taxes, interfund loans that are expected to be paid back and amount due from state government agencies related to various grant agreements. Payables represent routine monthly bills for services rendered and products purchased and accrued salaries and benefits.

Property Taxes

The County collects the District's share of property taxes assessed. Property taxes attach an enforceable lien on property as of January 1st. Tax notices are sent by the County treasurer to property owners by November 1st of each year to be paid in whole or in two installments by November 10th and April 10th of each year. The County collects such taxes and distributes them to the District on a monthly basis. The District accounts for its share of property taxes in the General, Debt Service and Capital Projects Funds. Only those collections received are recorded as revenues for the budget presentation.

Elimination and Reclassifications of Certain Receivables and Payables

In the process of aggregating data for the Statement of Assets and Liabilities and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Inventories and Prepaid Items

Purchased inventory is valued at the lower of cost (first-in, first-out) or market. Inventory in the Cafeteria Fund consists of purchased food and non-food items and United States Department of Agriculture (USDA) commodities. Commodities are shown at the USDA procurement cost. Costs are recorded as expenditures at the time individual inventory items are used (consumption method). Reported inventories are equally offset by a fund balance reserve which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both District-wide and fund financial statements.

Capital Assets

Capital assets are recorded at historical costs and depreciated over their estimated useful lives (with no salvage value). Capital assets are defined by the District as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Donated capital assets are recorded at their estimated fair market value on the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

If there are any construction projects funded by the NM Public School Facilities Authority they are included in the appropriate capital projects fund and in the capital assets.

Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Straight line depreciation is used based on the following estimated useful lives:

Buildings & Improvements	20-50 Years
Equipment, Vehicles, Information Technology Equipment, Software & Library Books	3-15 Years

Capital Leases

Capital leases are recorded at the inception of the leases as expenditures and other financing sources in governmental fund financial statement at the present value of the future minimum lease payments, using the stated or implicit interest rate in the leases. Lease payments are recorded as expenditures on the due date. Capital leases are recorded as a liability in the government-wide financial statement at the time of inception and the corresponding asset is recorded in the capital asset section on the balance sheet.

Short -Term Debt

Short-term debt results from borrowings characterized by anticipation notes, use of lines of credit, and similar loans. The District does not have any activity in short-term debt.

Long-Term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method or the straight-line method if the difference from the effective interest method is minimal. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual net of debt proceeds received, are reported as debt service expenditures.

Restricted Net Position

For the government-wide statement of net position, net positions are reported as restricted when constraints placed on net positions use are either:

Externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments;

Imposed by law through constitutional provisions or enabling legislation.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available it will first be applied to restricted resources.

Fund Balances of Fund Financial Statements

Nonspendable Fund Balance is a category that is not converted into cash such as inventory.

Restricted fund balance includes amounts that have constraints placed on their use that are (a) externally imposed by grantors, laws or regulation of other governments or (b) imposed by enabling legislation.

Committed fund balance is a classification for governmental fund balance reporting that includes amounts that can only be used for specific purposes pursuant to constraints imposed by law and require a formal action of the government's highest level of decision-making authority.

Assigned fund balance is a classification for governmental fund balance reporting that includes amounts that the governmental entity intends to use for specific purposes.

Unassigned fund balance is the residual classification used for reporting spendable fund balance in the General Fund that represents amounts that have not been committed or assigned or restricted.

Interfund Transfers

In governmental funds, transfers should be reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

Deferred Inflows

The District reports unearned and unavailable revenues on its Statement of Net Position and Fund Balance Sheet. Unearned revenues arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the occurrence of qualifying expenditures. In subsequent periods, when the District has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and the revenue is recognized. Unavailable revenues also occur in the fund financial statements when revenue is earned but is not available. The revenue becomes available if received within 30 days of the fiscal year end.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

A. Deposits and Investments

The District is required by New Mexico State Statute (Section 6-10-17) to be 50% collateralized. Following is a schedule calculating the requirement and disclosing the pledged securities.

Wells Fargo

<u>Name of Account</u>		Balance Per Bank 6/30/19	Reconciled Balance	Type
Operational	Checking	\$ 624,921	\$ 542,634	Interest

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. As of June 30, 2019 \$170,842 of the District's bank balance of \$712,340 was exposed to custodial credit risk.

B. Receivables

Revenues are deferred in accordance with the modified accrual basis of accounting for the fund financial statements. The following deferred revenues are measurable but do not represent available expendable resources for the fund financial statements for the fiscal year ended June 30, 2019:

	Operational 11000	Other Governmental Funds	Totals
Property Taxes			
Available	\$ 36	\$ 677	713
Unavailable	187	3,123	3,310
Total	\$ 223	\$ 3,800	4,023

Amounts due from other agencies and units of government were as follows as of June 30, 2019:

State	\$ 54,241
Federal	25,863
Total	\$ 80,104

C. Interfund Receivables, Payables and Transfers

The composition of interfund balances is as follows:

Receivable Fund	Payable Funds			
	IDEA B Entitlement 24106	NM Reads to Lead 27114	Senate Bill Nine-State 31700	Other Governmental Funds 6,914
Operational Fund	\$ 14,612	\$ 10,435	\$ 43,806	\$ 6,914

The above interfund balances resulted from reimbursement grants. The shortfalls were covered by the above funds. All transactions will be repaid within one year.

D. Capital Assets

Capital Assets Balances and Activity for the fiscal year is as follows:

	Beginning Balance 6/30/18	Increases	Adjustments	Ending Balance 6/30/19

Long-Term Liabilities	<u>\$ 465,000</u>	<u>\$ 0</u>	<u>\$ 51,026</u>	<u>\$ 413,974</u>	<u>\$ 51,980</u>

Payments on the general obligation bonds are made by the Debt Service Funds.

General Obligation Bonds.

The following bonds were issued for the purpose of erecting, furnishing, remodeling and making additions to District buildings and improving District grounds. A tax is annually assessed, levied and collected upon all taxable property within the District for the purpose of providing the necessary funds to meet the interest and principal payments as they become due.

Series	Maturity Date	Original Amount	Interest Rate	Balance
2015	2027	\$ 250,000	3.00%	195,000
2017	2030	250,000	1.00%	218,974
				<u>\$ 413,974</u>

The annual requirements to amortize all of the above bonds including interest is as follows:

	Principal	Interest	Total
2020	\$ 51,980	\$ 5,988	\$ 57,968
2021	53,695	5,153	58,848

2030	34,754	17	34,771
	<u>\$ 413,362</u>	<u>\$ 27,108</u>	<u>\$ 440,470</u>

F. Commitments

The District has construction commitments financed by bond issues for various projects campus wide.

G. Retirement Plan

Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Educational Retirement Plan (ERP) and additions to/deductions from ERP's fiduciary net position have been determined on the same basis as they are reported by ERP. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan Description. The New Mexico Educational Retirement Act (ERA) was enacted in 1957. The act created the Educational Employees Retirement Plan (Plan) and, to administer it, the New Mexico Educational Retirement Board (NMERB). The Plan is included in NMERB's comprehensive annual financial report. The report can be found on NMERB's Web site at https://www.nmerb.org/Annual_reports.html.

The Plan is a cost-sharing, multiple-employer pension plan established to provide retirement and disability benefits for certified teachers and other employees of the state's public schools, institutions of higher learning, and state agencies providing educational programs. Additional tenets of the ERA can be found in Section 22-11-1 through 22-11-52, NMSA 1978, as amended.

The Plan is a pension trust fund of the State of New Mexico. The ERA assigns the authority to establish and amend benefit provisions to a seven-member Board of Trustees (Board); the state legislature has the authority to set or amend contribution rates and other terms of the Plan. NMERB is self-funded through investment income and educational employer contributions. The Plan does not receive General Fund Appropriations from the State of New Mexico.

All accumulated assets are held by the Plan in trust to pay benefits, including refunds of contributions as defined in the terms of the Plan. Eligibility for membership in the Plan is a condition of employment, as defined Section 22-11-2, NMSA 1978. Employees of public schools, universities, colleges, junior colleges, technical-vocational institutions, state special schools, charter schools, and state agencies providing an educational program, who are employed more than 25% of a full-time equivalency, are required to be members of the Plan, unless specifically excluded.

Pension Benefit. A member's retirement benefit is determined by a formula which includes three component parts: 1) the member's final average salary (FAS), 2) the number of years of service credit, and 3) a 0.0235 multiplier. The FAS is the average of the member's salaries for the last five years of service or any other consecutive five-year period, whichever is greater.

Summary of Plan Provisions for Retirement Eligibility. For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs:

- *The member's age and earned service credit add up to the sum of 75 or more,
- *The member is at least sixty-five years of age and has five or more years of earned service credit, or
- *The member has service credit totaling 25 years or more.

Chapter 288, Laws of 2009 changed the eligibility requirements for new members first employed on, or after, July 1, 2010 and before July 1, 2013. The eligibility for a member who either becomes a new member on or after July 1, 2010 and before July 1, 2013, or at any time prior to July 1, 2010 refunded all member contributions and then becomes re-employed after July 1, 2010 is as follows:

- *The member's age and earned service credit add up to the sum of 80 or more,
- *The member is at least sixty-seven years of age and has five or more years of earned service credit, or
- *The member has service credit totaling 30 years or more.

Section 2-11-23.2, NMSA 1978 added eligibility requirements for new members who were first employed on or after July 1, 2013, or who were employed before July 1, 2013 but terminated employment and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2013. These members must meet one of the following requirements.

*The member's minimum age is 55, and has earned 30 or more years of service credit. Those who retire earlier than age 55, but with 30 years of earned service credit will have a reduction in benefits to the actuarial equivalent of retiring at age 55.

*The member's minimum age and earned service credit add up to the sum of 80 or more. Those who retire under the age of 65, and who have fewer than 30 years of earned service credit will receive reduced retirement benefits.

*The member's age is 67, and has earned 5 or more years of service credit.

Forms of Payment. The benefit is paid as a monthly life annuity with a guarantee that, if the payments made do not exceed the member's accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary.

Benefit Options. The Plan has three benefit options available.

Option A. Straight Life Benefit. The single life annuity option has no reductions to the monthly benefit, and there is no continuing benefit due to a beneficiary or estate, except the balance, if any, of member contributions plus interest less benefits paid prior to the member's death.

Option B. Joint 100% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 100% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the same benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

Option C. Joint 50% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 50% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the reduced 50% benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A. The member's increased monthly benefit commences in the month following the beneficiary's death.

Disability Benefit. An NMERB member is eligible for disability benefits if they have acquired at least ten years of earned service credit and is found totally disabled. The disability benefit is equal to 2% of the member's Final Average Salary (FAS) multiplied by the number of years of total service credits. However, the disability benefit shall not be less than the smaller of (a) one-third of the member's FAS or (b) 2% of the member's FAS multiplied by total years of service credit projected to age 60.

Cost of Living Adjustment (COLA). All retired members and beneficiaries receiving benefits receive an automatic adjustment in their benefit on July 1 following the later of 1) the year a member retires, or 2) the year a member reaches age 65 (Tier 1 and Tier 2) or age 67 (Tier 3).

- *Tier 1 membership is comprised of employees who became members prior to July 1, 2010.
- *Tier 2 membership is comprised of employees who became members after July 1, 2010, but prior to July 1, 2013.
- *Tier 3 membership is comprised of employees who became members on or after July 1, 2013.

As of July 1, 2013, for current and future retirees the COLA is immediately reduced until the Plan is 100% funded. The COLA reduction is based on the median retirement benefit of all retirees excluding disability retirements. Retirees with benefits at or below the median and with 25 or more years of service credit will have a 10% COLA reduction; their average COLA will be 1.5%. Once the funding is greater than 90%, the COLA reductions will decrease. The retirees with benefits at or below the median and with 25 or more years of service credit will have a 5% COLA reduction; their average COLA will be 1.7%.

Members on disability retirement are entitled to a COLA commencing on July 1 of the third full year following disability retirement. A member on regular retirement who can prove retirement because of a disability may qualify for a COLA beginning July 1 in the third full year of retirement.

Refund of Contributions. Members may withdraw their contributions only when they terminate covered employment in the State and their former employer(s) certification determination has been received by NMERB. Interest is paid to members when they withdraw their contributions following termination of employment at a rate set by the Board. Interest is not earned on contributions credited to accounts prior to July 1, 1971, or for contributions held for less than one year.

Contributions. For the fiscal year ended June 30, 2019 educational employers contributed to the Plan based on the following rate schedule.

Fiscal Year	Date Range	Wage Category	Member's Rate	Employer's Rate	Combined Rate
2019	7-1-18 to 6-30-19	Over \$20K	10.70%	13.90%	24.60%
2019	7-1-18 to 6-30-19	\$20K or less	7.90%	13.90%	21.80%
2018	7-1-17 to 6-30-18	Over \$20K	10.70%	13.90%	24.60%
2018	7-1-17 to 6-30-18	\$20K or less	7.90%	13.90%	21.80%

The contribution requirements are established in statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the New Mexico Legislature. For the fiscal years ended June 30, 2019 and 2018, the District paid employee and employer contributions of \$132,182 and \$172,884 which equal the amount of the required contributions for each fiscal year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a liability of \$5,143,001 for their proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2018 using generally accepted actuarial principles. The roll-forward incorporates the impact of the new assumptions adopted by the Board on April 21, 2017. There were no other significant events of changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2018. Therefore, the District's portion was established as of the measurement date of June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating educational institutions at June 30, 2018, actuarially determined. At June 30, 2018, the District's proportion was 0.04325%, which was an increase of 0.00050% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$977,212. At the June 30, 2019, the District reported deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,754	97,880
Net difference between projected and actual earnings on pension plan investments	11,385	0
Changes of assumptions	1,059,948	0
Changes in proportion and differences between the District's contributions and proportionate share of contributions	161,213	0
District's contributions subsequent to the measurement date	172,884	0
	<u>\$ 1,409,184</u>	<u>97,880</u>

\$172,884 reported as deferred outflows of resources related to pensions resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ended June</u>	
2019	\$ 704,544
2020	434,502
2021	(776)
2022	150
Total	<u>\$ 1,138,420</u>

Actuarial Assumptions and Methods. The total pension liability as of June 30, 2018 was based on an actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 and was determined using the following actuarial assumptions, applied to all periods included in the measurement:

State of New Mexico
Grady Municipal Schools
Notes to the Financial Statements
June 30, 2019

Actuarial Cost Method	Entry age normal				
Inflation	2.50%				
Salary Increases	3.25% composed of 2.50% inflation, plus 0.75% productivity increase rate, plus a step-rate promotional increase for members with less than 10 years of service.				
Investment Rate of Return	7.25% compounded annually, net of expenses. This is made up of a 2.50% inflation rate and a 4.75 real rate of return.				
Average of Expected Remaining Service Lives	Fiscal year	<u>2017</u>	<u>2016</u>	<u>2015</u>	<u>2014</u>
	Service life in years	3.35	3.77	3.92	3.88
Mortality	<p>Healthy males: Based on the RP-2000 Combined Mortality Table with White Collar adjustments, generational mortality improvements with Scale BB from the table's base year of 2000.</p> <p>Healthy females: Based on GRS Southwest Region Teacher Mortality Table, set back one year, generational mortality improvements in accordance with Scale BB from the table's base year of 2012.</p> <p>Disabled males: RP-2000 Disabled Mortality Table for males, set back three years, projected to 2016 with Scale BB.</p> <p>Disabled females: RP-2000 Disabled Mortality Table for females, no set back, projected to 2016 with Scale BB.</p> <p>Active members: RP-2000 Employee Mortality Tables, with males set back two years and scaled at 80%, and females set back five years and scaled at 70%. Static mortality improvement from the table's base year of 2000 to the year 2016 in accordance with Scale BB. No future improvement was assumed for preretirement mortality.</p>				
Retirement Age	Experience based table of rates based on age and service. Adopted by NMERB on April 21, 2017 in conjunction with the six-year experience study for the period ended June 30, 2016.				
Cost-of-living Increases	1.90% per year, compounded annually; increases deferred until July 1 following the year a member retires, or the year in which a member attains the age of 65 (67 for Tier 3), whichever is later or, for disabled retirees, until July 1 of the third year following retirement.				
Payroll Growth	3.00% per year (with no allowance for membership growth).				
Contribution Accumulation	The accumulated member account balance with interest is estimated at the valuation date by assuming that member contributions increased 5.50% per year for all years prior to the valuation date. Contributions are credited with 4.00% interest, compounded annually, applicable to the account balances in the past as well as the future.				
Disability Incidence	Approved rates are applied to eligible members with at least 10 years of service.				

Actuarial assumptions and methods are set by the Plan's Board of Trustees, based upon recommendations made by the Plan's actuary. The Board adopted new assumptions on April 21, 2017 in conjunction with the six-year actuarial experience study period ending June 30, 2016. At that time, the Board adopted several economic assumption changes, including a decrease in the inflation assumption from 3.00% to 2.50%. The 0.50% decrease in the inflation assumption also led to decreases in the nominal investment return assumption from 7.75% to 7.25%, the assumed annual wage inflation rate from 3.75% to 3.25%, the payroll growth assumption from 3.50% to 3.00%, and the annual assumed COLA from 2.00% to 1.90%.

The long-term expected rate of return on pension plan investments was determined using a building-block approach that includes the following:

- *Rate of return projections that are the sum of current yield plus projected changes in price (valuations, defaults, etc.)
- *Application of key economic projections (inflation, real growth, dividends, etc.)
- *Structural themes (supply and demand imbalances, capital flows, etc.) developed for each major asset class.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return</u>
Equities	33%	
Fixed Income	26%	
Alternatives	40%	
Cash	1%	
	<u>100%</u>	7.25%

Discount rate. A single discount rate of 5.69% was used to measure the total pension liability as of June 30, 2018. This rate is 0.21% less than the 5.90% discount rate used for June 30, 2017.

The June 30, 2018 single discount rate was based on a long-term expected rate of return on pension plan investments of 7.25%, and a municipal bond rate of 3.62%. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2050. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the 2050 fiscal year, and the municipal bond rate was applied to all benefit payments after that date.

The projections of cash flows used to determine the June 30, 2018 single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

Sensitivity of the Net Pension Liability. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 5.69 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.69 percent) or 1-percentage-point higher (6.69 percent) than the current rate:

	<u>1% Decrease (4.69%)</u>	<u>Current Discount Rate (5.69%)</u>	<u>1% Increase (6.69%)</u>
The Districts' proportionate share of the net pension liability	\$ 6,683,931	\$ 5,143,001	\$ 3,885,698

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued NMERB'S financial reports. The reports can be found on NMERB's Web site at https://www.nmerb.org/Annual_reports.html .

H. Other Post-Employment Benefits (OPEB)

Retiree Health Care Plan

The New Mexico Retiree Health Care Authority (the Authority) was formed February 13, 1990, under the New Mexico Retiree Health Care Act (the Act) of New Mexico Statutes Annotated, as amended (NMSA 1978), to administer the Retiree Health Care Fund (the Fund) under Section 10-7C-1-19 NMSA 1978. The Fund was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents and surviving spouses) who have retired or will retire from public service in New Mexico.

NMRHCA is an independent agency of the State of New Mexico. The funds administered by NMRHCA are considered part of the State of New Mexico financial reporting entity and are OPEB trust funds of the State of New Mexico. NMRHCA's financial information is included with the financial presentation of the State of New Mexico.

Summary of Significant Accounting Policies. *Postemployment Benefits Other Than Pensions (OPEB).* For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA's fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Plan Description. The Fund is a multiple employer cost sharing defined benefit healthcare plan that provides eligible retirees (including terminated employees who have accumulated benefits but are not yet receiving them), their spouses, dependents and surviving spouses and dependents with health insurance and prescription drug benefits consisting of a plan, or optional plans of benefits, that can be contributions to the Fund and by co-payments or out-of-pocket payments of eligible retirees. Employees of the Authority also participate in the Fund.

Benefits Provided. The Fund is a multiple employer cost sharing defined benefit healthcare plan that provides eligible retirees (including terminated employees who have accumulated benefits but are not yet receiving them), their spouses, dependents and surviving spouses and dependents with health insurance and prescription drug benefits consisting of a plan, or optional plans of benefits, that can be contributions to the Fund and by co-payments or out-of-pocket payments of eligible retirees.

Employees covered by benefit terms – At June 30, 2018, the Fund's measurement date, the following employees were covered by the benefit terms:

Plan membership	
Current retirees and surviving spouses	51,205
Inactive and eligible for deferred benefit	11,471
Current active members	93,349
	<u>156,025</u>

State of New Mexico
Grady Municipal Schools
Notes to the Financial Statements
June 30, 2019

Active membership	
State general	19,593
State police and corrections	1,886
Municipal general	17,004
Municipal police	3,820
Municipal FTRE	2,290
Educational Retirement Board	48,756
	<u>93,349</u>

Contributions. Employer and employee contributions to the Fund total 3% for non-enhanced retirement plans and 3.75% of enhanced retirement plans of each participating employee’s salary as required by Section 10-7C-15 NMSA 1978. The contributions are established by statute and are not based on an actuarial calculation. All employer and employee contributions are non-refundable under any circumstance, including termination of the employer’s participation in the Fund. Contributions to the Fund from the District were \$24,875 for the year ended June 30, 2019.

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation using the following actuarial assumptions:

Valuation Date	June 30, 2017
Actuarial cost method	Entry age normal, level percent of pay, calculated on individual employee basis
Asset valuation method	Market value of assets
Actuarial assumptions:	
Inflation	2.50% for ERB members; 2.25% for PERA members
Projected payroll increases	3.25% to 12.50%, based on years of service, including inflation
Investment rate of return	7.25%, net of OPEB plan investment expense and margin for adverse deviation including inflation
Health care cost trend rate	8% graded down to 4.5% over 14 years for Non-Medicare medical plan costs and 7.5% graded down to 4.5% over 12 for Medicare medical plan costs
Mortality	ERB members: RP-2000 Combined Healthy Mortality Table with White Collar Adjustment (males) and GRS Southwest Region Teacher Mortality Table (females) PERA members: RP-2000 Combined Healthy Mortality

Rate of Return

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions. The best estimates for the long-term expected rate of return is summarized as follows:

Asset Class	Long-Term Rate of Return
U.S. core fixed income	2.1%
U.S. equity - large cap	7.1%
Non U.S. - emerging markets	10.2%
Non U.S. - developed	7.8%
Private equity	11.8%
Credit and structured	5.3%
Real estate	4.9%
Absolute return	4.1%
U.S. equity - small/mid cap	7.1%

Discount Rate

The discount rate used to measure the Fund's total OPEB liability is 4.08% as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2029. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2029. Beyond 2029, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. Thus, 4.08% is the blended discount rate.

Sensitivity of the Net OPEB Liability

The following presents the net OPEB liability, calculated using the discount rate of 4.08%, as well as what the Fund's net OPEB liability would be if it were calculated using a discount rate that is 1-percent lower or 1-percent higher than the current rate:

	1% Decrease (3.08%)	Current Discount Rate (4.08%)	1% Increase (5.08%)
The Districts' proportionate share of the net OPEB liability	\$ 1,489,823	\$ 1,231,019	\$ 1,027,024

The following presents the Net OPEB Liability of the District, as well as what the Fund's Net OPEB Liability would be if it were calculated using a health cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the health cost trend rates used:

	1% Decrease	Current Trend Rates	1% Increase
The Districts' proportionate share of the net OPEB liability	\$ 1,040,643	\$ 1,231,019	\$ 1,380,279

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the District reported a liability of \$1,231,019 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017. The District's proportion of the net OPEB liability was based on actual contributions provided to the Fund for the year ending June 30, 2018. At June 30, 2018, the School's proportion was 0.02270%.

For the year ended June 30, 2019, the District recognized OPEB expense of \$(2,126). At June 30, 2019 the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 0	72,884
Net difference between projected and actual earnings on OPEB investments	0	15,363
Changes in assumptions	0	229,826
Changes in proportion and differences between the District's contributions and proportionate share of contributions	0	2,296
District's contributions subsequent to the measurement date	24,875	0
	<u>\$ 24,875</u>	<u>320,369</u>

Deferred outflows of resources totaling \$24,875 represent District's contributions to the Fund made subsequent to the measurement date and will be recognized as a reduction of net OPEB liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

Year ended June	
2019	\$ (81,301)

I. Reconciliation of Budgetary Basis to GAAP Basis Statements

The Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - all Governmental Fund Types is presented on the budgetary basis to provide a comparison of actual results with the budget. The major differences between the budget basis and GAAP (Generally Accepted Accounting Principles) basis are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- B. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).

The adjustments necessary to convert the results of operations for the year from GAAP basis to the budget basis for the governmental funds included on each Statement of Revenues, Expenditures, and Changes in Cash Balance - Budget and Actual (Budgetary Basis).

J. Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; error and omissions; and injuries to employees; and natural disasters. The District, as a New Mexico Public School, is insured through the New Mexico Public Schools Insurance Authority (NMPSIA). Annual premiums are paid by the District to NMPSIA for coverage provided in the following areas:

- Workers Compensation
- Property and Automobile Liability and Physical Damage
- Liability and Civil Rights and Personal Injury
- Contract School Bus Coverage; and
- Crime

The officials and certain employees of the District are covered by a surety bond as required by Section 12-6-7, NMSA, 1978 Compilation.

K. Tax Abatement

The Village of Grady entered into an agreement with Broadview Energy Prime LLC, Broadview Energy KW, LLC and Grady Wind Energy Center, LLC to abate property taxes effecting the District under section 7-36-5 NMSA 1978. A payment in lieu of taxes, (PILOT), was negotiated by the Village of Grady on behalf of the District. For the year ended June 30, 2019, \$18,250, \$80,464, \$164,307 was received for the PILOT by the District. The gross dollar amount the property taxes were reduced are estimated to be zero.

L. Joint Powers Agreements

A joint powers agreement was entered into with the Regional Education Cooperative No. 6 (REC). The purpose of the agreement is to allow the submission of a consolidated application to the State Department of Education for certain funds granted to the State of New Mexico by the United States Department of Education under the Education of the Handicapped Act, Part B, PL 94-142 among others.

There are ten schools that participate in the REC, they are Dora, Elida, Floyd, Fort Sumner, Grady, House, Logan, Melrose, San Jon, and Texico. The agreement became effective on July 1, 1995 and is to remain in effect until the end of any fiscal year during which the school gives notice of intent to terminate.

The financial statements for the REC were prepared by another IPA. The audit report is available at the REC located at 1500 South Ave K, Station 9, Portales, New Mexico 88130.

M. Concentrations

The District depends on financial resources flowing from, or associated with, both the Federal Government and the State of New Mexico. Because of this dependency, the District is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State Appropriations.

N. Subsequent Events

Subsequent events were evaluated through August 31, 2019 which is the date the financial statements were available to be issued.

Notes to Required Supplementary Information

Changes of benefit terms and assumptions.

Changes in benefit provisions. There were no modifications to the benefit provisions that were reflected in the actuarial valuation as of June 30, 2018.

Changes in assumptions and methods. Actuarial assumptions and methods are set by the Board of Trustee, based upon recommendations made by the Plan's actuary. The Board adopted new assumptions on April 21, 2017 in conjunction with the six-year actuarial experience study period ending June 30, 2016. At that time, The Board adopted a number of economic assumption changes, including a decrease in the inflation assumption from 3.00% to 2.50%. The 0.50% decrease in the inflation assumption also led to decreases in the nominal investment return assumption from 7.75% to 7.25%, the assumed annual wage inflation rate from 3.75% to 3.25%, the payroll growth assumption from 3.50% to 3.00%, and the annual assumed COLA from 2.00% to 1.90%.

Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed
In Accordance with *Government Auditing Standards*

Independent Auditor's Report

Mr. Brian S. Colón
State Auditor of the State of New Mexico
Board Members of the Grady Municipal Schools

Mr. Colón and Members of the Board

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, the aggregate remaining fund information, the budgetary comparisons of the general and major special revenue funds, of Grady Municipal School (District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Districts basic financial statements, and have issued our report thereon dated August 31, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit, of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that are less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Responses, that we consider to be significant deficiencies. 2019-001

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying Schedule of Findings and Responses; 2019-001, 2019-002, 2019-003

The District's Responses to Findings

The District's responses to the findings identified in our audit as described in the accompanying Schedule of Findings and Responses. The District's response was not subject to the auditing procedures applied in the audit of the financial statements and accordingly, we express no opinion on it.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

2019-001 Failed to request reimbursements from PED timely - Non-Compliance and internal control-significant deficiency Condition

Reimbursement requests, RFRs, for funds 24101 and 24109 were not submitted to PED timely. As a result, the District was unable to be reimbursed \$6,228 because PED will not reimburse late filed requests for reimbursements. The expenditures had to be moved to the operational fund.

Criteria

PSAB Supplement 4-Federal and State Grants.

Cause

I usually do RFR's immediately after they are paid through accounts payable, I am not sure what happened on fund 24101 and 24109.

Effect

The operational fund had to absorb the allowable federal expenditures utilizing money that could have been used for another purpose.

Recommendation

Annual deadlines for submitted RFRs should be added to a calendar with reminders to avoid missing the July 31st deadline because.

Response

I will be more diligent to getting RFR's done!

2019-002 I-9's - Other Non-compliance

Condition

Of 11 I-9's tested four of them section 2 were incomplete and on one section 2 was not filled in at all.

Criteria

As per U.S. Citizens and Immigration Services Employers have certain responsibilities under immigration law during the hiring process. The employer sanctions provisions, found in section 274A of the Immigration and Nationality Act (INA), were added by the Immigration Reform and Control Act of 1986 (IRCA). These provisions further changed with the passage of the Immigration Act of 1990 and the Illegal Immigration Reform and Immigrant Responsibility Act (IIRIRA) of 1996. Complete and retain a Form I-9 for each employee required to complete the form.

Cause

This was an oversight on my part! I now have a better understanding of the I9 process!

Effect

I-9 penalties assessed after April 5, 2019 now range \$230 to \$2,292 per I-9 for I-9 paperwork violations, which includes improper completion.

Recommendation

We recommend additional training, supervision and review. All I-9 should be reviewed and updated as necessary.

Response

I have gone through all my I9's and made the corrections!

2019-003 Background Checks - Other Non-compliance

Condition

Of 11 Background checks tested the school used expired PED background checks for 2 employees.

Criteria

Criminal background checks are performed on all district personnel in accordance with Section 28-2-1.6, NMSA 1978 or if applicable NM Statute 22-10(A)-5.

Cause

Employees in question were hired before I started this position with the school district and have not had a current background check!

Effect

As a safety measure, people with serious criminal records may not be fit to have responsibility for the safety and well being of children.

Recommendation

Training and supervision is necessary to avoid using old or outdated background checks.

Response

Employees have been notified to get updated background checks completed!
