#### INDEPENDENT AUDITOR'S REPORT

Hector Balderas, State Auditor The Board of Education Hagerman Municipal Schools Hagerman, New Mexico

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Hagerman Municipal School, as of and for the year ended June 30, 2008, which collectively comprise the Hagerman Municipal School's basic financial statements as listed in the table of contents. We have also audited the financial statements of each of the nonmajor governmental funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2008, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2008, and the respective changes in financial position and the budgetary comparisons for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental fund of the District as of June 30, 2008 and the respective changes in financial position, and the respective budgetary comparisons for the nonmajor funds and the debt service and bond building funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated October 24, 2008, on our consideration of Hagerman Municipal School's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u>, and should be considered in assessing the results of our audit.

For the year ended June 30, 2008, Hagerman Municipal Schools has not presented the Management's Discussion and Analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of the basic financial statements.

Our audit was conducted for the purpose of forming opinions on the basic financial statements and the combining and individual fund financial statements, and budgetary comparisons. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Governments, and Non-Profit Organizations</u>, and is not a required part of the financial statements. The additional schedules listed as "other supplemental information" in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects, in relation to the basic financial statements taken as a whole.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE-ALL GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year Ended June 30, 2008

Amounts reported for governmental activities in the statement of activities are different because: Net change in fund balance - total govenmental funds \$ 467.862 Governmental funds report capital outlays as expenditures. However, in the statement fo activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current year. (263, 809)Disposal of assets net of depreciation (6,607)Long Term debt provides current financial resources to governmental funds, while the repayment of the principal of long term debt consumes the current financial resources to governmental funds. Neither transaction, however, has any effect on net assets. Bond proceeds (400,000)Decrease in accrued interest payable Principal payment on bonds 155,000 **Bond Issue Costs** Some expenses reported in the statement of activities do not require the use of current fiancial resources and, therefore, are not reported as expenditures in the governmental funds. **Rounding Difference** Change in Net Assets (47,554)\$

I. Summary of Significant Accounting Policies

## A. Reporting Entity

Hagerman Municipal School District is a special purpose government corporation governed by an elected five-member Board of Education. The Boards of Education is the basic level of government, which has oversight responsibility and control over all activities related to the public school education in the City of Hagerman and surrounding area. The District is responsible for all activities related to public elementary and secondary school education within its jurisdiction. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities.

The summary of significant accounting policies of the District is presented to assist in the understanding of the District's financial statements. The financial statement and notes are the representation of Hagerman Municipal School District's management who is responsible for their integrity and objectivity. The financial statements of the District conform to generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the government's accounting policies are described below:

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. There are no component units.

The financial statements include all funds that are controlled by, or dependent on, the District and which are included in the District's reports to the Public Education Department.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the school district. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue include 1) charges for services to customers or applicants who purchase, use or directly benefit from the goods, services, or privileges provided by a given function or segment 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues, net of estimated refunds and estimated uncollectible amounts, in the year for which they re levied, even if not available. The amount of delinquent property taxes was not available and thus not recorded as revenue in these financial

I. Summary of Significant Accounting Policies

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

statements. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement* focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* whey they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditure generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and would be recognized as revenues of the fiscal period if this information is available. All other revenue would be considered to be measurable and available only when cash is received by the government. Grant revenues and deferrals are recognized in accordance with GASB 33.

The government reports the following major governmental funds:

- General Funds The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- Debt Service Fund Debt Service The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.
- Bond Building Fund Capital Projects Fund This fund accounts for the revenue received form bonds sold by the school to be used for improvements and additions to school owned property.

Similar to private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent hat those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. The government has elected not to follow subsequent private-sector guidance. As a general rule the effect of interfund activity has been eliminated form the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

I. Summary of Significant Accounting Policies

- D. Assets, liabilities, and net assets or equity
- 1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments.

State statutes authorize the investment of the District's funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, and money market accounts. The District is also allowed to invest in United States Government obligations. All funds of the District must follow the above investment policies.

Deposits for funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the school district. Deposits may be made to the extent that they are insured by an agency of the United States or by collateral deposited as security or by bond given by the financial institution.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess of funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

Investments for the District are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

## 2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal yare are referred to as either "due to/from other funds" (e.g., the current portion of interfund loans) or "advances to/from other funds" (e.g., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

The School District's property taxes are levied each year on the assessed valuation of property located in the School District's as of the preceding January  $1^{st}$ . Mill levy rates are set by the State of New Mexico each year for the General Fund, SB – 9 Capital Improvements Funds, and Debt Service Fund. Taxes are payable in two equal installments on November  $10^{th}$  and April  $10^{th}$  following the levy and become delinquent after 30 days.

## 3. Inventories

The food and inventory is valued at cost using the first-in/first-out (FIFO) method. USDA Commodities are recorded are estimated costs. Inventories of governmental funds are recorded as expenditures when consumed rather then when purchased.

## I. Summary of Significant Accounting Policies

D. Assets, liabilities, and net assets or fund balance (continued)

#### 4. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental-wide financial statements. The government defines capital assets as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life that exceeds a single reporting period. The District is capitalizing qualifying software and library books as required. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Assets	<u>Years</u>
Buildings & Improvements	50
Land Improvements	50
Equipment	10

#### 5. Compensated absences

It is the School District's policy not to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave or vacation.

#### 6. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligation are reported as liabilities in the applicable governmental activities, statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discounts. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

## 7. Fund Balance

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuances costs, whether or not withheld from the actual debt proceeds received, are reported as capital project expenditures.

In the fund financial statement, governmental funds report reservations of fund balance for amounts hat are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

- I. Summary of Significant Accounting Policies
- D. Assets, liabilities, and net assets or fund balance (continued)
- 8. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. The District applies restricted sources when an expense is incurred for purposes which both restricted and unrestricted net assets are available.

9. Comparative data/reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

10. Indirect Costs

The School's District's General Fund receives indirect cost reimbursements from the various federal programs it administers. These reimbursements are for expenses incurred in performing administrative functions on behalf of the Special Revenue Funds. They are shown as expenditures in the Special Revenue Funds, and as other special federal revenue in the General Fund.

## 11. Salaries and Wages

The School District pays all salaries and wages due teachers on or before June 30<sup>th</sup> of each year.

## 12. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### 13. Revenues

State Equalization Guarantee: School districts in the State of New Mexico receive a 'state equalization guarantee distribution' which is defined as "that amount of money distributed to each school district to insure that the school district's operating revenue, including its local and federal revenues as defined (in Chapter 22, Section 825, NMSA 1978) is at least equal to the school district's program cost".

A school district's program costs are determined through the use of various formulas using 'program units' which take into consideration 1) early childhood education; 2) basic education; 3) special education; 4) bilingual-multicultural education, 5) size, etc. Payment is made from the public school fund under the authority of the Director of Public School Finance. The District received \$3,941,692 in state equalization guarantee distributions during the year ended June 30, 2008.

I. Summary of Significant Accounting Policies

D. Assets, liabilities, and net assets or fund balance (continued)

Transportation Distribution: School districts in the State of New Mexico received student transportation distributions. The transportation distribution is allocated to each school district in accordance with formulas developed by the State Transportation Director and the Director of Public School Finance. The funds shall be used only for the purpose of making payments to each school district for the to-and from school transportation costs of the students in grades K through twelve attending public school within the school district. The District received \$279,870 in transportation distributions during the year ended June 30, 2008.

II. Reconciliation of government-wide and fund financial statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes reconciliation between fund balance total governmental funds and net assets – governmental activities as reported in the governmentalwide statement of net assets. One element of that reconciliation explains, "Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of the \$1,170,000 difference are as follows:

**Bonds Payable** 

\$ 1,170,000

1,170,000

Net adjustment to reduce fund balance -total governmental funds to arrive at net assets -governmental activities

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$263,809 difference are as follows:

Capital Outlay Depreciation expense	\$	176,791 (440,600)
Net adjustment to increase net changes in fund balancestotal government funds to arrive at changes in net assets of governmental activities	<u>\$</u>	(263,809)

Another element of that reconciliation states, "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while that repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither

II. Reconciliation of government-wide and fund financial statements (continued)

transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$245,000 difference are as follows:

General obligation debt	\$ 155,000
Bond Proceeds	(400,000)
Net adjustmemt to decrase net changes in	 
fund balances - total governmental funds to	
arrive at changes in net assets of governmental	
activities	\$ (245,000)

III. Stewardship, compliance, and accountability

#### A. Budgetary information

Budgets for the General, Special Revenue, Capital Projects, and Debt Service Funds are prepared by management and are approved by the local Board of Education and the Public School Budget and Planning Unit of the Department of Education. Auxiliary student activity accounts are not budgeted.

These budgets are prepared on the Non-GAAP cash basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be reappropriated in the budget of the subsequent fiscal year. The budget process in the State of New Mexico requires that the beginning cash balance be appropriated in the budget of the subsequent fiscal year. Such appropriated balance is legally restricted and is therefore presented as a reserved portion of fund balance.

Actual expenditures may not exceed the budget on a line item basis, e.g., each budgeted expenditure must be within budgeted amounts. Budgets may be amended in two days. If a budget transfer is necessary within a major category called a 'series', this may be accomplished with only local Board of Education approval. If a transfer between 'series' or a budget increase is required, approval must also be obtained from Public School Finance Division.

The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

The School District follows these procedures in establishing the budgetary data reflected in the financial statements:

- In April or May, the superintendent submits to the Board of Education a proposed operating budget of the fiscal year commencing the following July. The operating budget includes proposed expenditures and the means of financing them, and has approval by the Department of Education.
- In May or June, the budget is approved by the Board of Education
- The school board meeting, while not intended for general public, is open for the general public unless a closed meeting has been called for.

III. Stewardship, compliance, and accountability (continued)

- The superintendent is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the school board and the State of New Mexico Department of Education.
- Budgets for the General, Special Revenue, Capital Projects, and Debt Service Funds are adopted on a basis not consistent with generally accepted accounting principles (GAAP).
   Encumbrances are treated the same way for GAAP purposes and for Budget purposes.
- The Board of Education may approve amendments to the appropriated budget, which are required when a change is made affecting budgeted ending fund balance. The appropriated budget for the year ended June 30, 2008 was properly amended by the Board through the year. New Mexico state law prohibits a Governmental Agency to exceed an individual line item.

## B. Deficit fund equity

There were not any deficit fund balances at June 30, 2008.

IV. Detailed notes on all funds

#### A. Cash and temporary investments

At June 30, 2008, the carrying amount of the District's deposits was \$331,531 and the bank balance was \$531,618. Of this balance \$100,000 was covered by the federal depository insurance and \$431,618 was covered by collateral held in joint safekeeping by a third party.

NM State Statues require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the District for at least on half of the amount on deposit with the institution.

The collateral pledged is identified in the Supplementary Information of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency, district or political subdivision of the State of New Mexico.

According to the Federal Deposit Insurance Authority, public unit deposits are funds owned by the schools. Time deposits, savings deposits and interest bearing Now accounts of a public unit in an institution in the same state will be insured up to \$100,000 coverage for public unit demand deposits at the same institution.

Investments held by the New Mexico State Treasurer are valued at fair value based on quoted market prices as of the valuation date. The State Treasurer Local Government Investment Pool is not SEC registered. The State Treasurer is authorized to invest the short-term investment funds, with the advice and consent of the State Board of Finance, in accordance with Sections 6-10-10 I through 6-10-10 P and Sections 6-10-10.1 A and E, NMSA 1978. The pool does not have unit shares. Per Sections 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the funds amounts were invested. Participation in the local government investment pool is voluntary.

IV. Detailed notes on all funds (continued)

Interest Rate Risk. The District does not have a formal investment policy that limits investments maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* State law limits investments in commercial paper, corporate bonds and mutual fund bonds to the top two ratings issued mationally recognized statistical rating organizations. The District has no investment policy that would further limit its investment choices. At June 30, 2008, the District's investment in the state investment pool was rated AAAm by Standard & Poor's.

New MexiGROW LGIP AAAm Rated \$1,623,957 46-day WAM

B. Custodial Credit Risk - Deposits

Custodial risk is the risk that in the event of bank failure, the government's deposits may not be returned to it. The government does no have a deposit policy for custodial credit risk. As of June 30, 2008, the government's bank balance was 96.76% collateralized. As of June 30, 2008 \$17,243 of the government's deposits totaling \$531,618 was exposed to custodial credit risk.

Total Deposits Less: FDIC Insurance	\$ 531,618 (100,000)
Uninsured Funds Pledged Collateral held by pledging Bank's agent in the	 431,618
District's name	 414,375
Uninsured and Uncollateralized	\$ 17,243

#### C. Receivables

Receivables as of year end for the government's individual major funds and non-major funds in the aggregate, including the following:

	 om Other nments
Other Governmental Funds	 97,465
Total Amounts Receivable	\$ 97,465

#### Interfund Receivables

The District had no Interfund Receivables/Payables at June 30, 2008.

Governmental funds reported *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. Amount due to the District from delinquent property tax due to the County Treasurers were not available. At the end of the current fiscal year, the various components of *deferred revenue* and *unearned revenue* reported in the governmental funds were as follows:

IV. Detailed notes on all funds (continued)

	<u>Unavailable</u>
Grant draw downs prior to meeting all eligibility requirements	<u>\$ 158,102</u>
Total deferred/uneamed revenue for governmental funds	<u>\$ 158,102</u>

## **D.** Capital Assets

Capital assets activity for the year ended June 30, 2008, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance

## Legal Debt Margin

The legal debt margin is specified by Article IX Section 11 of the Constitution of the State of New Mexico as not greater than 6% of the assessed value of the taxable-property within the School District. Based on these criteria, the maximum general obligation debt permissible is \$1,527,030 including \$925,000 debt outstanding based on the 2008 valuation.

#### V. Other information

#### A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; error and omissions; injury to employees; and natural disasters. The New Mexico Public Schools Insurance Authority (NMSIA) was formed on April 5, 1985 under the New Mexico Public Schools Insurance Authority Act, Chapter 22, Section 2 of the New Mexico Statutes Annotated (NMSA 1978), as amended, as an insurance fund to provide health, disability and life insurance coverage (benefits coverage), and property, casualty and workers' compensation insurance coverage (risk coverage) to participating public schools, school board members, public school employees, and retirees within the State of New Mexico. The District is one of 91 members that participate in NMPSIA. Participation in NMPSIA is mandatory for all K-12 public schools except those with enrollment exceeding 60,000 students. Participation is voluntary for other public education institutions. The District pays an annual premium to the pool for its general insurance coverage. The agreement for formation for NMPSIA provides that the pool will be self-sustaining through member premiums. NMPSIA establishes self-insured retention on a per occurrence basis. NMPSIA will publish its own financial report for the year ended June 30, 2008.

#### **B.** Contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the government's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the government.

## C. Employee retirement plan

Plan Description - Substantially all of Hagerman Municipal School District's full-time employees participate in a public employee retirement system authorized under the Educational Retirement Act (Chapter 22. Article 11, **NMSA** 1978). The Educational Retirement Board (ERB) is the administrator of the plan, which is a cost-sharing multiple employer defined benefit retirement plan. The plan provides for retirement, disability benefits and cost-of-living adjustments to plan members and beneficiaries. ERB issues a separate, publicly available financial report that includes the financial statements and required supplementary information. That report may be obtained by writing to ERB, P.O. Box 26129, Santa Fe, New Mexico 87502-6129.

*Funding Policy* - Plan members are required to contribute 7.825% of their gross salary. Hagerman Municipal Schools is required to contribute 10.9% of the gross covered salary. Effective July 1, 2008, plan members are required to contribute 7.9% of their gross salary. The employer contribution will increase .75% each year until July 1, 2011 when the employer contribution will be 13.9%. The contribution requirements of plan members and the Hagerman Municipal Schools are established in State statue under Chapter 22, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. Hagerman Municipal School's contributions to ERB for the fiscal years ending June 30, 2008, 2007 and 2006, were \$308,713, \$278,441 and \$230,583, respectively, which equal the amount of the required contributions for each fiscal year.

## V. Other information (continued)

D. Post-retirement health care benefits

*Plan Description* - Hagerman Municipal School contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit post employment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and /or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: (1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the Retiree Health Care Act on the person's behalf, unless that person retired on or before July 1, 1995, in which event the time period for contributions becomes the time between July 1, 1990, and the date of retirement; or (2) retirees defined by the Act who retired prior to July 1, 1990; and former legislators who served at least two years.

The RHA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy – The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority member are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at <u>www.nmrhca.state.nm.us</u>.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The statue requires each participating employer to contribute 1.3% of each participating employee's annual salary; each participating employee is required to contribute .65% of their salary.

Employers joining the program after 1/1/98 are also required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

The RHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

Hagerman Municipal School's contributions to the RHCA for the years ended June 30, 2008, 2007, and 2006 were \$36,765, \$35,662 and \$29,538, respectively, which equal the required contributions for each year.

Non-Major Funds

#### FUND DESCRIPTIONS

#### SPECIAL REVENUE FUNDS

<u>FOOD SERVICES</u> – to account for financing for school hot lunch program. Funding is provided from fees form patrons and USDA food reimbursements, under the National School Lunch Act of 1946, as amended, New Mexico Statutes Annotated, State Law 22-13-13.

<u>ATHLETICS</u> – this is an auxiliary account to account for budgeted athletics of the school for activities that are considered to be non-instructional. Authority for the creation of this fund is NMAC 6.20.2.

<u>TITLE I</u>- to account for the federal assistance provided to the District for the improvement of educational opportunities to deprived children. (Authority, PL 103-382)

<u>MIGRANT CHILDREN EDUCATION</u> – to assist States to ensure that migratory children have the opportunity to meet the same challenging State content and performance standards that all children are expected to meet. The authority for the creation of this fund is the Elementary and Secondary Education Act of 1965, Title I, Part C, as amended, 20 U.S.C. 6391 et seq.

<u>IDEA B ENTITLEMENT</u> – P.L. 94-142, Individuals with Disabilities Education Act – to account for a federal grant restricted to the operation and maintenance of meeting the special education need of children with disabilities. Authority for the creation of this fund is Individuals with Disabilities Act, Part B, Sec. 611, as amended; Public Laws 91-230, 93-380, 94-142, 98-199, 99-457, 100-630 and 101-476; 20 U.S.C. 1401-1419, Public Law 105-17.

<u>IDEA B DISCRETIONARY</u> - P.L. 94-142, Individuals with Disabilities Education Act – to account for a federal grant restricted to the operation and maintenance of meeting the special education need of children with disabilities. Authority for the creation of this fund is individuals with Disabilities Act, Part B, Sec. 611, as amended; Public Laws 91-230, 93-380, 94-142, 98-199, 99-457, 100-630 and 101-476; 20 U.S.C. 1401-1419, Public Law 105-17.

<u>IDEA B PRESCHOOL</u> – P.L. 94-142, Individuals with Disabilities Education Act – to account for a federal grant restricted to the operation and maintenance of meeting the special education need of children with disabilities. Authority for the creation of this fund is individuals with Disabilities Act, Part B, Sec 611, as amended; Public Law 105-17.

ENHANCING EDUCATION THROUGH TECHNOLOGY – to account for the federal assistance provided to the District for the improvement of educational opportunities to deprived children. (Authority, PL 103-382)

<u>TITLE V</u> – to increase the capacity of state and local governments to support the development of more effective prevention programs to improve juvenile justice system through risk and protective factor focused programming approach. The authority for the creation of this fund is the Juvenile Justice and Delinquency Prevention Act of 1974, Section 505, Title V, as amended.

<u>TEACHER/PRINCIPAL TRAINING</u> – to provide grants to State Education Agencies on a formula basis to increase student academic achievement through strategies such as improving teacher and principal quality and increasing the number of highly qualified teachers in the classroom and highly qualified principals and assistant principals on schools and hold local educational agencies and schools accountable for improvements in student academic achievement. The authority for

#### FUND DESCRIPTIONS (continued)

#### SPECIAL REVENUE FUNDS (continued)

the creation of this fund is the Elementary and Secondary Education Act of 1965 as amended, Title II, Part A, Public Law 107-110.

<u>SAFE & DRUG FREE SCHOOLS</u> – to account for a federal grant restricted to the establishment and implementation of substance abuse education and prevention programs in the elementary and secondary schools. Authority for the creation of this fund is ESEA 1965, Title IV, Part A, as amended, 20 USC 71112-7143.

<u>READING FIRST</u> – to ensure that every student can read at grade level or above by the end of third grade. The Reading First program will provide assistance to State and districts in establishing reading programs for students in kindergarten through third grade that are based on scientifically based reading research. The authority for the creation of this fund is the Elementary and Secondary Education Act of 1965, as amended, Title I, Part B, Subpart 1.

<u>TITLE XIX MEDICAID</u> – to account for federal resources administered by the New Mexico Department of Health and Human services for the improvement of primary health care and to increase health education. (PL 105-33)

<u>RURAL EDUCATION ACHIEVEMENT PROGRAM</u> – to provide financial assistance to rural districts to carry out activities to help improve that quality of teaching and learning in their schools. The authority for the creation of this fund is the Elementary and Secondary Education Act of 1965 (ESEA), Title IV, Part B, as amended.

<u>RURAL VISION</u> – to account for revenue received from the sale of telecommunication time sold to cable networks. The New Mexico Public Education Department requires this revenue to be accounted for in a separate

Fund. Authorized by the district's local school board.

<u>TECHNOLOGY FOR EDUCATION</u>— to account for distributions received from the Educational Technology fund for the expansion and improvement of technology in education. These funds are restricted to expenditure by New Mexico Statues and the schools approved long-term technology plan Authority for the creation of this fund is NMSA22-15A-1 to 22-15A-10.

<u>INCENTIVES FOR SCHOOL IMPROVEMENT</u> – to account for funds received from the Incentives for School Improvement Act (Section 22-2C-9, NMSA 1978) that is to provide financial incentive to individual schools that exceed expected academic progress.

<u>BEGINNING TEACHER MENTORING PROGRAM</u> - to account for revenues received to enhance and improve skills for beginning teachers. (Authority, State Grant Provision and Hatch Valley Board of Education)

<u>LIBRARY GO BONDS</u> – this fund is used to account for the revenue and expenditures to acquire supplementary library books, equipment, and library resources for public school and juvenile detention libraries statewide.

<u>CATCH</u> – to account for revenues received to coordinate child health improvements. The authority for creation of this fund is the State Grant Provisions and Hagerman Board of Education

<u>TEENS NEED TEENS</u> – to provide recreation and entertainment activities to the youth of Hagerman in an effort to deter drinking and other improper behavior. The authority for the creation of this fund is Agreement A-04-76 between Chavez County and Hagerman Schools.

#### CAPITAL PROJECT FUNDS

<u>SB-9 CAPITAL IMPROVEMENTS</u> – to account for the receipt of local proceeds form a mill levy on ad valorem/property taxes and state matching funds. These are to be expended for capital outlay projects and maintenance.

<u>SPECIAL CAPITAL OUTLAY STATE</u> – to account for financing and construction of school improvements funded from a special legislative appropriation from the State of New Mexico.

<u>PUBLIC SCHOOL CAPITAL OUTALY 20%</u> - to account for monies to be set aside out of Impact Aid, Forest Revenue, and local taxes for capital improvements in public schools. The authority for the creation of this fund is Section 22-8-5 NMSA 1978.

### REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH <u>GOVERNMENT AUDITING STANDARDS</u>

Hector Balderas, State Auditor The Board of Education Hagerman Municipal School Hagerman, New Mexico

We have audited the financial statements of the governmental activities, each major fund, the general fund budgetary comparison, and the aggregate remaining fund information, and the combining and individual funds and all the budgetary comparisons presented as supplemental information of the Hagerman Municipal Schools (the District) as of and for the year ended June 30, 2008, and have issued our report thereon dated October 24, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States.

#### Internal Control over Financial Reporting

In planning and performing our audit, we considered Hagerman Municipal School's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not

identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hagerman Municipal School financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under <u>Government Auditing</u> <u>Standards</u>.

This report is intended solely for the information and use of management, others within the District, the audit committee, the State Auditor, the New Mexico Legislature, New Mexico Public Education Department, and applicable federal grantors, and is not intended to be and should not be used by anyone other than these specified parties.

Konny Feits, CAA

Ronny Fouts, CPA Melrose, New Mexico October 24, 2008

RONNY FOUTS CERTIFIED PUBLIC ACCOUNTANT P.O. Box 425 Melrose, NM 88124

> (505) 253-4554 Fax: (505) 253-4727

#### REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Hector Balderas, State Auditor The Board of Education Hagerman Municipal School Hagerman, New Mexico

#### Compliance

We have audited the compliance of Hagerman Municipal School, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2008. Hagerman Municipal School's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Hagerman Municipal School's management. Our responsibility is to express an opinion on Hagerman Municipal School's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Hagerman Municipal *School's compliance with those requirements and performing such other procedures as we* considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Hagerman Municipal School's compliance with those requirements.

In our opinion, Hagerman Municipal School complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

#### Internal Control Over Compliance

The management of Hagerman Municipal School is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered

Hagerman Municipal School's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinions on compliance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the entity's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that result in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control structure over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Education, Management, the Office of the New Mexico State Auditor, New Mexico Public Education Department and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
