#### **Report of Independent Auditors**

Mr. Gorden E. Eden Jr., Secretary State of New Mexico Department of Public Safety and Mr. Hector H. Balderas New Mexico State Auditor Santa Fe, New Mexico

We have audited the accompanying financial statements of the governmental activities, each major fund, the budgetary comparisons for the general fund and major special revenue funds, and the aggregate remaining fund information of the State of New Mexico Department of Public Safety (Department) as of and for the year ended June 30, 2011, which collectively comprise the Department's basic financial statements as listed in the table of contents. We have also audited the financial statements of each of the Department's non-major governmental funds, respective budgetary comparisons, major capital projects funds budgetary comparisons and fiduciary funds presented as supplemental information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2011, as listed in the table of contents. These financial statements are the responsibility of the Department's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Mr. Gorden E. Eden Jr., Secretary State of New Mexico Department of Public Safety and Mr. Hector H. Balderas New Mexico State Auditor Santa Fe, New Mexico

As discussed in Note 2, the financial statements of the Department are intended to present the financial position and changes in financial position of only that portion of the governmental activities, major funds and aggregate remaining fund information of the State of New Mexico that is attributable to the transactions of the Department. They do not purport to, and do not, present fairly the financial position of the State of New Mexico as of June 30, 2011, and the changes in financial position and budgetary comparisons for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Department as of June 30, 2011, and the respective changes in financial position and the respective budgetary comparisons for the general fund and major special revenue funds, for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each non-major governmental fund and fiduciary fund of the Department as of June 30, 2011, and the respective changes in the financial position and the budgetary comparisons of the major capital projects fund and all non-major funds for the year ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated January 20, 2012, on our consideration of the Department's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Mr. Gorden E. Eden Jr., Secretary State of New Mexico Department of Public Safety and Mr. Hector H. Balderas New Mexico State Auditor Santa Fe, New Mexico

The management's discussion and analysis on pages 5 through 11 are not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the Management's Discussion and Analysis. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the basic financial statements and the combining and individual fund financial statements and budgetary comparisons. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and is not a required part of the basic financial statements. In addition, the accompanying schedules listed as supplemental information in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Albuquerque, New Mexico January 20, 2012

Mess adams LLP

The following Management's Discussion and Analysis, or MD&A, for the State of New Mexico, Department of Public Safety (the Department) introduces the basic financial statements and provides an analytical overview of the Department's financial condition and results of operations as of and for the year ended June 30, 2011. Additionally, the MD&A provides a discussion of significant changes in the account categories presented in the entity-wide Statement of Net Assets and Statement of Activities. This summary should not be taken as a replacement for the basic financial statements.

The MD&A is a required element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in GASB Statement No. 34, **Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments** issued in June 1999; GASB Statement No. 37, **Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments: Omnibus**, an amendment to GASB Statements No. 21 and No. 34 issued in June 2001; and GASB Statement No. 38, **Certain Financial Statement Note Disclosures** issued in June 2001.

#### **OVERVIEW OF THE BASIC FINANCIAL STATEMENTS**

Although the Department is one of several agencies within the government of the State of New Mexico, the focus of this financial report is only on the Department and not the State of New Mexico taken as a whole. The financial statements include the following three elements: (1) Management's Discussion and Analysis, (2) the Basic Financial Statements, and (3) Other Supplementary Information. The basic financial statements include two kinds of statements that present different views of the Department:

- The first two statements are *entity-wide financial statements* that report information about the Department's overall financial condition and results of operations, both long-term and short-term, using accounting methods similar to those used by private-sector companies. The *Statement of Net Assets* includes all of the Department's assets, liabilities, and net assets. All revenues and expenses are accounted for in the *Statement of Activities* regardless of when cash is received or disbursed. The remaining statements are fund financial statements.
- Governmental funds statements, including the Balance Sheet and the Statement of Revenues, Expenditures, and Change in Fund Balance, focus on individual parts of the Department, reporting the Department's financial condition and results of operations in more detail than the entity-wide statements, and tell how general government services were financed in the short term as well as what remains for future spending. Emphasis is on the general and major funds. Other governmental funds are summarized in a single column.
- Statement of Revenues and Expenditures Budget and Actual (Non-GAAP Budgetary Basis) reports the original approved budget, final approved budget, and actual results presented on the budgetary basis of reporting for the general fund and all major funds. A separate column is presented to report any variances between the final budget and actual amounts.
- Statement of Fiduciary Net Assets provides information about the financial relationships in which the Department acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Additional details about the basic financial statements are found in the *Notes to the Financial Statements* and the *Other Supplementary Information* sections.

## FINANCIAL ANALYSIS OF THE DEPARTMENT AS A WHOLE

The following condensed financial information was derived from the entity-wide financial statements and compares the current year to the prior year:

	<u>Current Year</u> June 30, 2011		Increase or (Decrease)	Percentage Change
Assets				
Current assets	\$ 19,521,806	\$ 20,900,852	\$ (1,379,046)	-6.6 %
Capital assets	17,811,852	19,657,443	(1,845,591)	<u>-9.4 %</u>
Total assets	37,333,658	40,558,295	(3,224,637)	8.0%
Liabilities				
Current liabilities	16,506,068	16,864,489	(358,421)	-2.1%
Long-term liabilities	2,101,326	2,149,046	(47,720)	2.2%
Total liabilities	18,607,394	19,013,535	(406,141)	2.1%
Net assets				
Invested in capital assets	17,811,852	19,657,443	(1,845,591)	-9.4%
Restricted	-	-	-	-
Unrestricted	535,664	<u>1,887,321</u>	(1,351,657)	-71.6%
Total net assets	<u>\$ 18,347,516</u>	<u>\$ 21,544,764</u>	\$ (3,197,248)	-14.8 <u>%</u>
Program revenues and expenses				
Program revenues	\$ 22,676,702	\$ 29,033,920	\$ (6,357,218)	-21.9 %
Program expenses	117,862,974	<u>120,851,613</u>	(2,988,639)	2.4%
Net revenue (expense)	(95,571,938)	(91,817,693)	3,368,579	3.7%
General Fund appropriation	00 005 000	04.007.600	((510 (00)	
General Fund appropriations	88,085,000	94,827,600	(6,742,600)	-7.1%
Road Fund appropriation	6,938,000	6,949,900	(11,900)	-0.2%
Other sources	548,938	3,784,953	(3,484,994)	-85.5%
Other (uses)				<del></del>
Total general revenues (expenses)	95,571,938	105,562,453	(9,990,515)	-9.5%
Gain/(Loss) on disposal of capital assets	339,441	(1,137,279)	1,476,720	129.8 %
Reversion to State General Fund	(3,922,355)	(5,188,899)	(1,645,292)	24.4%
Change in net assets	(3,197,248)	7,418,582	(10,237,082)	-143.1 %
Beginning net assets	21,544,764	14,126,182	7,418,582	52.5%
Restatements				- %
Beginning net assets as restated	21,544,764	<u>14,126,182</u>	<u>7,418,582</u>	52.5%
Ending net assets	<u>\$ 18,347,516</u>	<u>\$ 21,544,764</u>	\$ (3,197,248)	-14.8 <u>%</u>

Significant factors impacting the Department's financial position and results of operations during the year ended June 30, 2011 are as follows:

- *Current Assets* decreased by \$1,379,046 or 6.6 percent due to reductions in Investment in the State Treasurer's General Fund Investment Pool.
- Capital Assets and Investment In Capital Assets decreased by \$1,845,591 or 9.4 percent due to deletions of automobiles from the capital asset listing.
- Total Assets decreased by \$3,224,637 or 8.0 percent. See discussions under Current Assets and Capital Assets and Investment in Capital Assets above.
- *Current Liabilities* decreased by \$358,421 or 2.1 percent due to reductions in due to other state agencies and due to federal government accounts.
- *Long-Term Liabilities* decreased by \$47,720 or 2.2 percent due to a reduction in compensated absences due after one year.
- *Total Liabilities* decreased by \$406,141 or 2.1 percent. See discussion under *Current Liabilities and Long-Term Liabilities* above.
- The Department had no *Restricted Net Assets* as of June 30, 2011 or June 30, 2010.
- *Unrestricted Net Assets* decreased by \$1,351,657 or 71.6 percent.

Total Net Assets decreased by \$3,197,248 or 14.8 percent.

- *Program Revenues* decreased by \$6,357,268 or 21.9 percent, there was a one time revenue increase due to the receipt of a \$6,772,900 insurance claim to replace the New Mexico State Police helicopter which was destroyed in a June 2009 crash resulting a decrease over FY2010 revenues.
- *Program Expenses* decreased by \$2,988,639 or 2.5 percent primarily due to reductions in General Fund Appropriations, as well as reductions in all funding sources.
- Deficiency of Program Revenues over Program Expenses increased by \$3,368,579 or 3.7 percent. See discussion under Program Revenues and Program Expenses above.
- General Fund Appropriation decreased by \$6,742,600 or 7.1 percent under the prior year's appropriation as a result of continued decline in State revenues.

- Road Fund Appropriation decreased by \$11,900 or 0.2 percent under the prior year's appropriation.
- Other Sources (Transfers In) decreased by \$3,236,015 or 85.5 percent due to receipt of a \$6,772,900 insurance claim to replace the New Mexico State Police helicopter which was destroyed in a June 2009 crash, and \$6,759,575 in American Recovery and Reinvestment Act (ARRA) funds. Law Enforcement Records Bureau fee increases went into effect on January 1, 2010, resulting in a decrease over FY 2010 revenues.
- A Reversion to State General Fund of \$3,543,607 was recorded for the Department's general fund appropriation, other state funds. The reversion decreased by \$1,645,292 or 31.7 percent over the FY 2010 reversion largely due to a decrease of appropriation as the result of continued decline in State revenues.
- *Ending Net Assets* decreased by \$3,197,248 or 14.8 percent. The Department had no restatements to their financial statements. See discussion under *Current Assets* above.

#### FINANCIAL ANALYSIS AT THE FUND LEVEL

The following analysis was derived from the fund financial statements and compares the current year fund balances to the prior year:

	 Fund Balance					
	 Current Year June 30, 2011		Prior Year June 30, 2010	Increase or (Decrease)	Percentage Change	
General Fund – Reserved	\$ 1,250,377	\$	2,330,258	\$ (1,079,801)	46.3 %	
General Fund - Unreserved	-		-		%	
Special Revenues	3,851,557		3,841,627	9,930	0.3 %	
Capital Projects	 100,899		101,240	(341)	0.3 %	
Total	\$ 5,202,833	\$	6,273,125	\$(1,070,212)	17.1%	

The significant decrease in the general fund reserve is due to one data processing appropriation whose revenue was accrued in previous fiscal years but not expended until FY 2011.

#### GENERAL BUDGETARY HIGHLIGHTS

Original revenues and expenditures for federal funds budgeted in Fund 12800 were increased by \$1,395,000 during FY 2011 from \$24,670,900 to \$26,065,900 from the U.S. Department of Justice's Federal Asset Forfeiture Fund (\$1,300,000) and the U.S. Department of Justice's Office of Juvenile Justice Delinquency Prevention through the New Mexico Children Youth and Families Department (\$95,000). The Department received three American Recovery and Reinvestment Act (ARRA) grants from the State's Government Services Fund totaling \$1,650,000 to purchase vehicles (\$750,000), fuel for officer patrol vehicles (\$750,000) and animal protection (\$150,000).

There were no significant variances (i.e., excess expenditures over appropriations) to be reported for the fiscal year.

#### PERFORMANCE MEASURES

The Department collects data to measure success in meeting performance measure targets to address the requirements for the Accountability in Government Act (AGA), Sections 6-3A-1 through 6-3A-8 NMSA 1978. Performance measures outlined in the General Appropriation Act, Laws of 2010, Second Special Session, Chapter 6, Section 4 for the year ended June 30, 2011 were:

<u>TYPE</u>	<u>MEASURE</u>	<b>TARGET</b>	RESULT
<b>Law Enforce</b> Output	e <b>ment:</b> Number of driving-while-intoxicated arrests per year.	3,200	3,309
Output	Number of first-time driving-while-intoxicated arrests per year.	2,000	2,371
Output	Number of repeat driving-while-intoxicated arrests per year.	1,200	938
Output	Number of driving-while-intoxicated crashes investigated per year.	200	247
Output	Number of drug arrests.	1,000	1,280
Explanatory	Number of fatal crashes in New Mexico.	400	280
Output	Number of criminal cases investigated.	15,000	17,766
Output	Number of administrative citations issued to licensed liquor establishments for the illegal sales or service of alcohol to minors and intoxicated persons by the Special Investigations Division.	200	440
Output	Number of criminal citations or arrests for the illegal sales or service of alcohol to minors and intoxicated persons by the Special Investigations Division.	150	238

<u>TYPE</u>	<u>MEASURE</u>	<b>TARGET</b>	RESULT
<b>Motor Trans</b> Output	portation: Number of narcotic seizures.	52	30
Output	Number of motor carrier safety audits completed.	200	180
Output	Number of citations issued to commercial motor carrier vehicles subject to, and not in compliance with, the requirements of the Weight Distance Tax Act.	384	1,182
Output	Number of commercial motor vehicle safety inspections.	91,680	101,984
Program Sup	port:		
Outcome	Percent of prior-year audit findings resolved.	100%	66.7%
Explanatory	Number of unfilled forensic scientist vacancies in the Chemistry Unit.	4	3
Explanatory	Number of unfilled forensic scientist vacancies in the Latent Prints Unit.	1	0
Outcome	Percent of forensic cases completed within thirty (30) working days.	70.0%	58.0%

#### **CAPITAL ASSETS**

The Department's capital assets, net of depreciation, are \$17,811,852 or 47.7 percent of total assets. Capital Assets and Investment In Capital Assets decreased by \$1,845,591 or 9.40 percent due to the deletion of automobiles from the capital asset listing.

#### **COMPENSATED ABSENCES**

Total compensated absences as of June 30, 2011 are \$4,288,421. The estimated amount to be paid from current appropriations within one year is \$2,187,095 or 51.0 percent, with a balance of \$2,101,326 or 49.0 percent due after one year. There was no significant activity to report for compensated absences during the year ending June 30, 2011.

#### **DEBT ADMINISTRATION**

The Department does not have any long-term debt.

#### **NEXT YEAR'S BUDGET AND RATES**

The Department depends primarily on appropriations from the New Mexico State General Fund. The State Legislature appropriated \$123,768,100 for the FY 2012 operating budget in the Laws of 2011, Chapter 179, Section 4. Section 10 Reductions for unemployment and

retirement rates decreased the Department's appropriation by \$703,700 for a total net appropriation of \$123,064,400 exclusive of federal grant deviations.

The FY 2012 budget included a general fund appropriation of \$86,322,700 – a 2.0 percent reduction under the revised FY 2011 amount of \$88,085,000. A second retirement rate reduction of \$103,900 was implemented in June 2011 for a revised general fund appropriation of \$86,218,800.

The Laws of 2011, Chapter 183, Section 49 extended the ending date for the \$5,800,000 appropriated to the Property Control Division of the New Mexico General Services Department to construct a New Mexico State Police district office in Las Cruces from June 30, 2012 to June 30, 2013.

The Laws of 2011, Chapter 183, Section 91 extended the ending date for the \$5,500,000 appropriated to the Property Control Division of the New Mexico General Services Department to construct a New Mexico State Police district office in Las Vegas from June 30, 2012 to June 30, 2013.

The Laws of 2011, Chapter 183, Section 94 transferred the unexpended balance of \$710,970 from the \$7,500,000 appropriated to the Property Control Division of the New Mexico General Services Department to construct a port-of-entry in Lordsburg, to the New Mexico State Police district office construction project in Las Vegas and extended the ending date from June 30, 2012 to June 30, 2013.

The Laws of 2011, First Special Session, Chapter 5 will provide \$4,000,000 for these capital outlay projects:

Section 17 Purchase and equip vehicles for the New Mexico State \$3,000,000 Police.

Section 17 Purchase and equip vehicles for the Motor \$1,000,000 Transportation Police.

#### FINANCIAL CONTACT

The Department's financial statements are designed to present users with the general overview of its finances and to demonstrate its accountability. If you have any questions or require additional information, please contact:

New Mexico Department of Public Safety Administrative Services Division Director P.O. Box 1628 Santa Fe, New Mexico 87504-1628

DEPARTMENT OF PUBLIC SAFETY
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO
THE STATEMENT OF ACTIVITIES
GOVERNMENTAL FUNDS
June 30, 2011

Change in net assets of governmental activities (Statement of Activities)

Net change in Fund Balance - Total Governmental Funds (1,449,040) (Statement of Revenues, Expenditures and Changes in Fund Balance) Amounts reported for governmental activities in the Statement of Activities are different because Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities these costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities. Capital asset additions 3.578.084 Depreciation expense (5,379,658)(1,801,574)Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the Statement of Activities, a gain or loss is reported for each disposal. This is the amount of the net book value of the capital assets disposed of. (44,018)Some items reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Change in compensated absences 97,383

#### NOTE 1. HISTORY AND FUNCTION

On July 1, 1987, the Department of Public Safety (Department) was formed by NMSA, Section 9-19. The Department of Public Safety combined the activity that was previously handled by the following:

- 1. New Mexico State Police
- 2. Enforcement portion of the Alcoholic Beverage Control
- 3. Law Enforcement Academy
- 4. Civil Emergency Preparedness Division of the Office of Military Affairs
- 5. Hazardous Materials Emergency Response Program
- 6. Governors Organized Crime Prevention Commission

On July 1, 1999, the Motor Transportation Division (MTD) was transferred to the Department from the New Mexico Taxation and Revenue Department. On July 1, 2007, the Emergency Management Division was transferred from the Department to the New Mexico Department of Homeland Security and Emergency Management.

The basic function of the Department of Public Safety is to establish a single, unified department to consolidate state law enforcement and safety functions. The goal is to provide better management, real coordination and efficient use of state resources and manpower in responding to New Mexico's public safety needs and problems.

The accounting policies of the New Mexico Department of Public Safety conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the more significant policies.

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Reporting Entity and Component Units

The chief executive of the Department is the Secretary, who is appointed by the Governor of the State of New Mexico and is a member of the Governor's cabinet. The Department is a component unit to the executive branch and these financial statements include all funds, programs and activities over which the Department Secretary has oversight responsibility.

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### A. Reporting Entity and Component Units (Continued)

In evaluating how to define the Department for financial reporting purposes. management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of the governing authority, the designation of management, the ability to significantly influence operations and accountability for fiscal matters. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the Department is able to exercise oversight responsibilities. Based upon the application of these criteria, the Department does not have any component units.

The Department is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards, but would be included in a state-wide Comprehensive Annual Financial Report (CAFR). Even though the Department Secretary is appointed by the Governor, the Department Secretary has decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

#### B. Basic Financial Statements - Government-Wide Statements

The Department's basic financial statements include both government-wide (based on the Department as a whole) and fund financial statements. Both the government-wide and fund financial statements (within the basic statement) categorize primary activities as either governmental or business type, excluding fiduciary funds or component units that are fiduciary in nature. The Department is a single purpose government entity and has no business type activities. In the government-wide Statement of Net Assets, the governmental activities are presented on a consolidated basis are reflected on the full accrual, economic resource basis, which incorporates

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### B. Basic Financial Statements - Government-Wide Statements (Continued)

long-term assets and receivables as well as long-term debt and obligations. Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Assets. The Department's net assets are reported in three parts; invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

The government-wide Statement of Activities reflects both the gross and net cost per functional category which is otherwise supported by general government revenues. The Statement of Activities reduces gross expense (including depreciation on capital assets) by related program revenues. operating and capital grants. Program revenue must be directly associated with the function or a business-related activity. The Department has one function (public safety) and three programs: Law Enforcement, Motor Transportation Police and Program Support. Law Enforcement revenues consist of federal and state grants, court fines and forfeitures, concealed carry weapon fees, Law Enforcement Academy tuition, security reimbursements, auction proceeds and insurance claims. Transportation Police revenues consist of federal and state grants, and an appropriation from the New Mexico Department of Transportation's Road Fund. Program Support revenues consist of federal grants, Law Enforcement Records Bureau photostat and fingerprint fees, state chemist fees and building rental.

The net cost by function is normally covered by general revenue. The Department does not employ indirect cost allocation.

The government-wide focus is more on the sustainability of the Department as an entity and the change in the Department's net assets resulting from the current year's activities.

#### C. Basic Financial Statements - Fund Financial Statements

Emphasis is on the major funds of the governmental category. Non-major funds are summarized into a single column. The Department's major funds are its General Fund, Federal Forfeitures Special Revenue Fund, and Capital Projects Fund. The Capital Projects Fund are presented as a major fund each year, even if they do not meet the definition of one, as expenditures vary from year to year and this presentation is consistent and easier for financial statement users.

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Basic Financial Statements - Fund Financial Statements (Continued)

The governmental funds in the financial statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. This presentation is deemed more appropriate to demonstrate legal and covenant compliance, to demonstrate the source and use of liquid resources and to demonstrate how the Department's actual experience conforms with the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements governmental column, a reconciliation is presented on the page following each statement, which briefly explains the adjustment necessary to transform the fund based financial statements into the governmental column of the government-wide presentation.

The Department's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated in the government-wide statements.

The focus is on the Department as a whole and the fund financial statements, including the major individual funds of the governmental category, as well as the fiduciary fund by category.

The financial transactions of the Department are recorded in individual funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, expenditures or expenses and other financing sources or uses. Government resources are allocated to, and accounted for, in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

The following fund types are used by the Department:

#### **Governmental Fund Types**

All governmental fund types are accounted for on a current financial resources measurement focus. Only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets)

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Basic Financial Statements - Fund Financial Statements (Continued)

#### **Governmental Fund Types (Continued)**

is considered a measure of available spendable resources. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of available spendable resources during a period. Due to their spending measurement focus, expenditure recognition for governmental fund types is limited to exclude amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures of fund liabilities.

General Fund. The General Fund is the general operating fund of the Department. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is made up of the following SHARE Fund numbers.

- General Operating The operating account for the Department. This is a reverting fund.
- Local Law Enforcement Program Fund This is also an operating account for the Department which receives federal grant revenues. It is inactive with no balances or activity during the year.

Special Revenue Funds. The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes and non-reverting except as noted.

27200 State Chemist Fees Fund - The State Chemist Fees Fund was established in accordance with Section 31-12-9, NMSA 1978 to account for substance abuse fees collected and expended for the administration of certain Department of Public Safety programs related to controlled substances. It is a non-reverting fund.

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Basic Financial Statements - Fund Financial Statements (Continued)

#### **Governmental Fund Types (Continued)**

- Forfeitures (CSA) Fund The CSA Forfeitures Fund was established in accordance with Section 30-31-35, NMSA 1978 Compilation to account for property forfeited under the Controlled Substance Act. The funds received are to be utilized by the Law Enforcement Agency in the enforcement of the Act. It is a non-reverting fund.
- Federal Forfeitures Fund State Police The Federal Forfeitures Funds were established in accordance with the authority found in 21 U.S.C. s 881 (e) (1) (A), 18. U.S.C. s 981 (e) and 19 U.S.C. s 1616 to account for the proportionate share of funds received from federal property seizures. Procedures are to be used in accordance with guidelines established in *Asset Forfeiture and Equitable Sharing: An Update.* It is a non-reverting fund.
- Peace Officers' Survival Fund The Peace Officers' Survival Fund was established in accordance with Section 29-4A-4, NMSA 1978 Compilation to account for monies held as supplemental death benefits to the spouses and surviving children of New Mexico peace officers killed in the line of duty on or after April 5, 1995. A review committee consisting of the New Mexico Attorney General, State Police Chief and State President of the Fraternal Order of Police determine eligibility. It is a non-reverting fund.
- Concealed Handgun Carry Fund The Concealed Handgun Carry Fund was established in accordance with Section 29-19-13, NMSA 1978 to carry out the provisions of the Concealed Handgun Carry Act. It is a non-reverting fund.
- Orphan Materials Recovery Fund The Orphan Materials Recovery Fund was established in accordance with Section 12-12-29, NMSA 1978 to contract for the disposal of orphan hazardous materials held in the possession of the Department and identified by state emergency response officers. It is a non-reverting fund.

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Basic Financial Statements - Fund Financial Statements (Continued)

#### **Governmental Fund Types (Continued)**

- Training Fund was established in accordance with Section 29-7-12, NMSA 1978 to account for funds obtained in administering special training programs. The funds are used to conduct special training programs by specialized instructors. Any unexpended, unencumbered cash balance reverts to the State General Fund at the end of each fiscal year. It is a reverting fund.
- Special Donations Fund The Special Donations Fund was established in accordance with the New Mexico Department of Finance and Administration directive to account for contributions, gifts, bequests, or court-ordered amounts. The fund is classified as a DFA vouchering fund. The use of funds are specified by the donor. It is a non-budgeted and non-reverting fund.
- ARRA Fund This fund was established by the New Mexico Department of Finance and Administration to account for funds received under the American Recovery and Reinvestment Act (ARRA). The fund is classified as vouchering and budgeted. It is a non-reverting fund.
- Crime Stoppers Reward Fund The Crime Stoppers Reward Fund was established in accordance with a New Mexico Department of Finance and Administration directive to account for contributions (gifts, bequests or court-ordered amounts) to the Crime Stoppers program and expenditures from the program. The fund is a non-DFA vouchering fund. It is a non-budgeted and non-reverting fund.
- Federal Forfeitures Fund Motor Transportation The Federal Forfeitures Funds were established in accordance with the authority fund in 21 U.S.C. s 881 (e) (1) (A), 18. U.S.C. s 981 (e) and U.S.C. s 1616 to account for the proportionate share of funds received from federal property seizures. Procedures are to be used in accordance with guidelines established in *Asset Forfeiture and Equitable Sharing: An Update.* It is a non-budgeted and non-reverting fund.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### C. Basic Financial Statements - Fund Financial Statements (Continued)

### **Governmental Fund Types (Continued)**

*Capital Projects Funds* - The Capital Projects Funds are used to account for major capital expenditures.

O9000 Capital Projects Fund (1998 Projects) - The Capital Projects Fund was initially established in accordance with Chapter 7, Section 14, Laws of 1998, to account for funds received from the issuance of Severance Tax Bonds in the amount of \$20,000 to purchase and install communications technology for the town of Mesilla in Doña Ana County. It is now used for other capital projects. It is funded by state appropriations used for buildings and other projects. This fund reverts upon project completion.

Capital Projects Fund - The Capital Projects Fund was established to track all capital outlay appropriations starting in Fiscal Year 2011. This fund will be replacing fund 09000. It is funded by state appropriations used for buildings and other projects. This fund reverts upon project completion.

### **Fiduciary Fund Types**

Fiduciary fund types include trust and agency funds, which are used to account for assets held by the Department in the capacity of trustee or agent.

Agency Fund - Agency funds are used to account for assets held as an agent for other governmental units, individuals and other funds. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

DNA Fund – The DNA Identification System Fund was established in accordance with Section 29-16-11, NMSA 1978. It is used to collect fees of \$100 from convicted felons as part of the parole process. Fees are used by New Mexico correctional facilities for blood tests which establish a DNA Identification System in the state. This is a non-reverting fund.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# C. Basic Financial Statements - Fund Financial Statements (Continued) Fiduciary Fund Types (Continued)

10560 Evidence Fund - The Evidence Fund was established in Section 29-1-15, NMSA 1978 to account for monies confiscated during the normal course of police operations. Disposition of evidence is by Court order. Property awarded to the State is sold at auction and funds are deposited in the Evidence Fund. No value is assigned to evidence until it is sold. Some evidence is destroyed after it is no longer needed as evidence. This is a non-reverting fund.

Governmental Gross Receipts Tax Fund - The Governmental Gross Receipts Tax Fund is used to account for taxes collected on the sale of tangible personal property from facilities open to the general public. The monies are held for and are payable to the State of New Mexico Taxation and Revenue Department. This is a non-reverting fund.

### D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. The Department has elected to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB), including those issued after November 30, 1989. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. The governmental funds in the fund financial statement are presented on a modified accrual basis. Under the accrual method of accounting, revenues are recognized when earned and expenditures are recognized when incurred.

All governmental funds utilize the modified accrual basis of accounting. Under this method, revenues and other governmental fund financial resource increments are recognized in the accounting period in which they become susceptible to accrual - that is, when they become both measurable and available

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### D. Basis of Accounting (Continued)

to finance expenditures of the current fiscal period; available meaning collectible within the current period or soon enough thereafter, 60 days, to be used to pay liabilities of the current period.

Revenues are recognized as follows:

- 1) State general fund appropriations, which must be used in a specified manner, are recognized when authorized, all eligibility requirements have been met, and the resources are available. Certain special appropriations require project approval from the Department of Information Technology. The Department considers this part of the eligibility requirements and does not recognize the revenue until the approval is obtained.
- 2) Federal and other grants revenues are recognized when the applicable eligibility criteria, including time requirements, are met and the resources are available. Resources received for which applicable eligibility criteria have not been met are reflected as deferred revenues in the accompanying financial statements.
- 3) Revenues from grants that are restricted for specific uses are recognized as revenues and as receivables when the related costs are incurred. Contributions and other monies held by other state and local agencies are recorded, as a receivable at the time the money is made available to the specific fund. All other revenues are recognized when they are received and are not susceptible to accrual.

Expenditures are recorded as liabilities when incurred. An exception to this general rule is that accumulated unpaid annual, compensatory and certain sick leave are not accrued as current liabilities but as non-current liabilities. Expenditures charged to federal programs are recorded utilizing the cost principles described by the various funding sources.

In applying the "susceptible to accrual" concept to intergovernmental revenues pursuant to GASB Statement No. 33, the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenues when the applicable eligibility requirements including time requirements are met. Resources transmitted before the eligibility requirement are met, under most circumstances, should be reported as advances by the provider and deferred revenue by the recipient.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### E. Budgets and Budgetary Accounting

The State Legislature makes annual appropriations to the Department which lapse at fiscal year-end. Legal compliance is monitored through the establishment of a budget (modified cash-basis) and a financial control system which permits a budget-to-actual expenditure comparison. Expenditures may not legally exceed appropriations for each budget at the appropriation unit level.

Budgeted appropriation unit amounts may be amended upon approval from the Budget Division of the State of New Mexico Department of Finance and Administration within the limitations as specified in the General Appropriations Act. The budget amounts shown in the financial statements are the final authorized amounts as legally revised during the year.

The General Appropriation Act of 2004 established the modified accrual basis of accounting for governmental funds in accordance with the Manual of Model Accounting Practices issued by the Department of Finance and Administration as the budgetary basis of accounting for the State of New Mexico the change in policy resulted in the recognition of budgetary control from a fiscal year to an appropriation period. Under the budgetary basis, prior year encumbrances allowed for money to be expended in one fiscal year, while charging the expenditure to another year's budget. Under the new policy, as long as the appropriation period has not lapsed, and a budget has been approved by the Department of Finance and Administration, an encumbrance can be charged against that budget. However, when the appropriation period has lapsed, so does the authority for the budget.

The General Fund, Special Revenues Funds and the Capital Projects Fund's budgetary legal authorization to incur obligations is on a basis that differs from the basis of accounting required by generally accepted accounting principles (GAAP). The budget is prepared on a modified accrual basis and may include encumbrances for multiple year appropriations in fund expenditures (commitments for the expenditure of monies relating to unperformed contracts of orders for goods and services). GAAP includes accrued expenditures but does not include encumbrances in fund expenditures.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### E. Budgets and Budgetary Accounting (Continued)

The Department follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. No later than September 1, the Department submits to the Legislative Finance Committee (LFC) and the Budget Division of the Department of Finance and Administration (DFA) an appropriation request for the fiscal year commencing the following July 1. The appropriation request includes proposed expenditures and the means of financing them.
- 2. Budget hearings are scheduled before the New Mexico House Appropriations and Senate Finance Committees. The final outcome of those hearings are incorporated into the state's General Appropriations Act.
- 3. The Act is signed into law by the Governor of the State of New Mexico within the legally prescribed time limit, at which time the approved budget becomes a legally binding document.
- 4. No later than May 1, the Department submits to DFA an annual operating budget by appropriation unit and object code based upon the appropriation made by the Legislature. The DFA Budget Division reviews and approves the operating budget which becomes effective on July 1. All subsequent budgetary adjustments must be approved by the Director of the DFA Budget Division and by LFC.
- 5. Per the General Appropriation Act, Laws of 2010, Second Special Session. Chapter 6, Section 3, Item M, "For the purpose of administering the General Appropriation Act of 2010 and approving operating budgets, the state of New Mexico shall follow the modified accrual basis of accounting for governmental funds in accordance with the manual of model accounting practices issued by the department of finance and administration." The budget is adopted on the modified accrual basis of accounting except for accounts payable accrued at the end of the fiscal year that do not get paid by the statutory deadline per Section 6-10-4 NMSA 1978. Those accounts payable that do not get paid timely must be paid out of the next year's budget. The Department has not included such reconciliation for fiscal year 2011 as all payables were paid by the statutory deadline. Encumbrances related to single year appropriations lapse at year end. Appropriation periods are sometimes for periods in excess of twelve months (multipleyear appropriations). When multiple-year appropriation periods lapse, the authority for the budget also lapses and encumbrances can no longer be charged to that budget.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### F. Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budget integration in the government funds. Encumbrances outstanding at year-end are reported as reservations of fund balance and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year. Encumbrances lapse at year end unless they relate to a multi-year appropriation.

### G. Cash

Cash is deposited by the Department into its accounts with the State Treasurer, which are pooled and invested by the State Treasurer, and various financial institutions. The Department considers cash on hand; cash in banks, and the Interest in State Treasurer General Fund Investment Pool to be cash and cash equivalents. Negative cash, if any, is shown as Due to State Treasurer's Office.

### H. Federal Grants Receivable (Deferred Revenue)

Various reimbursement procedures are used for federal awards received by the Department. Consequently, timing differences between expenditures and program reimbursements can exist at any time during the fiscal year. Receivable balances at fiscal year-end represent an excess of modified accrual basis expenditures over cash reimbursements received to date. Conversely, deferred revenue balances represent an overdraw of cash (advances) in excess of modified accrual basis expenditures. Generally, receivable or deferred revenue balances caused by differences in the timing of cash reimbursements and expenditures will be reversed or returned to the grantor in the remaining grant period.

Determining the amount of expenditures reimbursable by the federal government, in some cases, requires management to estimate allowable costs to be charged to the federal government. As a result of this and other issues, management provides an allowance for potential contractual allowances for federal revenue. Any changes in these estimates are recorded in the period that the estimate is changed.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### H. Federal Grants Receivable (Deferred Revenue) (Continued)

Certain federal program funds are passed through the Department to subgrantee organizations.

### I. Inventories

Inventories consist of supplies on hand valued at cost on a first-in, first-out basis. Such inventory consists of generic supplies and materials held for consumption and is expended when purchased. Under the purchase method, the purchases of inventory are recorded as expenditures and at year-end the balance of inventories is recorded with an offsetting reserve of fund balance in the Governmental Fund Statements.

### J. Capital Assets

Capital assets purchased or acquired at a value of \$5,000 or greater are capitalized per Section 12-6-10 NMSA 1978. In some cases, assets acquired at a value of \$5,000 or less are capitalized. Assets are carried at historical costs or estimated historical cost. Contributed assets are recorded at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed when incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful life with no salvage value.

	Years
Furniture and fixtures	10
Equipment and machinery	5
Automobiles	4
Aircraft	10
Buildings and structures	20
Data processing equipment	3
Livestock and poultry	2

The Department utilizes facilities and buildings that are owned by the Property Control Division of the State of New Mexico General Services Department. These assets and the related depreciation expense are not included in the accompanying financial statements. GASB 34 requires the recording and depreciation of infrastructure assets, such as roads, bridges, etc. The Department does not own any infrastructure assets.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### K. Accrued Compensated Absences - Annual Leave

New Mexico State Police officers accumulate annual leave as follows:

			Days of
Years of	<b>Hours Earned</b>	Days Earned	Maximum
Service	Per Pay Period	Per Year	Accrual
1-10	4.61	15	30
11-15	5.54	18	30
16-20	6.46	21	30
20th/Beyond	7.38	24	30

Classified service employees accumulate annual leave as follows:

Years of Service	Hours Earned Per Month	Days Earned Per Year	Days of Maximum Accrual
1-3	3.08	10	30
4-7	3.69	12	30
8-11	4.61	15	30
12-15	5.54	18	30
15th/Beyond	6.15	20	30

Thirty (30) days of accrued annual leave may be carried forward into the beginning of the next calendar year and any excess is forfeited. When employees terminate, they are compensated for accumulated annual leave as of the date of termination, up to a maximum of thirty (30) days. Accrued annual leave is recorded as a non-current liability in the government-wide financial statements.

Employees who have over 600 hours of accumulated sick leave can receive payment for hours over 600, up to 120 hours, in the first full pay period in July or January of each year. However, sick leave is paid at fifty percent of the employee's regular hourly wage. At retirement, employees can receive fifty percent payment for up to 400 hours for the hours over 600 hours of accumulated sick leave. Therefore, the sick leave accrued represents the

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### K. Accrued Compensated Absences - Annual Leave (Continued)

hours earned as of June 30, 2011, over 600 hours up to 120 hours per employee. Expenditures for accumulated sick pay for hours under 600 hours will be recognized as employees take such absences. Accrued vested sick pay is recorded as a non-current liability in the government-wide financial statements.

### L. Reservations and Designations

In the governmental fund financial statements, fund balances are classified as nonspendable, restricted, or unrestricted (committed, assigned, or unassigned). Restricted represents those portions of fund balance where constraints placed on the resources are either externally imposed or imposed by law through constitutional provisions or enabling legislation. Committed fund balance represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Legislative and Executive branches of the State. Assigned fund balance is constrained by the Legislature's and Executive Branch's intent to be used for specific purposes or in some cases by legislation.

The agency's fund balances represent: 1) Restricted Purposes, which include balances that are legally restricted for specific purposes due to constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; 2) Committed Purposes, which include balances that can only be used for specific purposes pursuant to constraints imposed by formal action of the Legislative and Executive branches; 3) Assigned Purposes, which includes balances that are constrained by the government's intent to be used for specific purposes, but are neither restricted or committed. A summary of the nature and purpose of these reserves by fund type at June 30, 2011, follows:

*Nonspendable - Petty Cash and Change Funds.* This reserve was created for imprest petty cash funds and change funds.

Nonspendable - Inventories. This reserve was created to represent the portion of fund balance that is not available for expenditures because the Department expects to use the resources within the next budgetary period.

Nonspendable - Postage. This reserve was created for prepaid postage on hand at year end. At year end, postage remaining in the meter is recorded as a prepaid asset with an offsetting reserve of fund balance in the Governmental Fund Statement.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### L. Reservations and Designations (Continued)

Spendable – Restricted. This reserve consists of liquid assets (generated from revenues and not bond proceeds), which have third-party (statutory or granting agency) limitation on their use.

Spendable – Committed for Multi-Year Appropriations. This reserve was created for multiyear appropriations for which the Department has received funds for projects which extend into future years.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### L. Reservations and Designations (Continued)

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, restricted fund balance must be spent first. When expenditures are incurred for purposes for which amounts in any of unrestricted fund balance classifications can be used, committed amounts should be reduced first, followed by assigned amounts and then unassigned amounts.

### M. Net Assets

The government-wide and business types fund financial statements utilize a net asset presentation. Net assets are categorized as investment in fixed assets (net of related debt), restricted and unrestricted.

Investment in Capital Assets (net of related debt) - is intended to reflect the portion of net assets which are associated with non-liquid, capital assets less outstanding capital asset related debt. The net related debt is the debt less the outstanding liquid assets and any associated unamortized cost.

### N. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### NOTE 3. CASH

Investment in the State Treasurer General Fund Investment Pool. All funds allotted to the Department are held by the New Mexico State Treasurer. The Department can withdraw its funds from the State Treasurer as needed and therefore considers them to be cash equivalents. All earnings on deposits are retained by the State General Fund; therefore, from the Department's perspective, the cash balances are non-interest bearing and stated at cost. Money deposited by the Department with the State Treasurer is pooled and invested by the State Treasurer. The State Treasurer deposits public monies with New Mexico financial institutions in denominations which generally are in excess of the \$100,000 in insurance coverage provided by federal agencies. Accordingly, the State Treasurer requires that depository financial institutions provide additional collateral for such investments. The collateral generally is in the form of marketable debt securities and is required in amounts ranging from 50% to 102% of the par value of the investment dependent upon the institutions operating results and capital. Collateral for the fiscal account is required in amounts equal to 50% of the average investment balance. To obtain pledged collateral, investment risk, and insurance coverage information for the Department's State Treasurer deposits, a copy of separately issued financial statements can be obtained from the State Treasurer's Office. All collateral is held in third-party safekeeping. A supplemental schedule of cash that the Department held as of June 30, 2011 is presented in the financial statements as supplemental information.

Cash Held for Others-Evidence Funds. In the course of discharging its duty of enforcing the Controlled Substance Act, the Department confiscates cash and assets. These assets are held by the Department pending court action. The Evidence Fund reflects confiscated cash balances at June 30, 2011. In addition, the Department confiscates other personal property for which it stands in an agency capacity until such time as the courts direct disposition of the property. The other personal property is not recorded on the Department's books, nor is it included in these financial statements, as the fair market value is not readily estimable.

Cash With Undercover Agents. As part of its general appropriation, the Department is allotted State General Fund and Controlled Substance monies to be used by criminal and narcotic agents to purchase evidence in the field. Cash was held by agents in the field and held in banks as indicated above. These funds may subsequently be returned to the Department or reverted to the State General Fund in the future.

*Pledged Collateral by Banks.* All funds on deposit with banking institutions were fully covered by FDIC insurance at June 30, 2011.

### NOTE 4. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund receivables and payables are as follows:

		Due From Receivable)	Due To (Payable)
General Fund (12800)	\$	819,880	9,032
State Chemist Fees (27200)		-	10,837
State Forfeitures (34200)		-	3,908
Federal Forfeitures (34300)		-	749,146
Concealed Handgun Carry (59400)		-	22,847
Advanced Training (78600)		9,032	33,142
Total	<u>\$</u>	828,912	828,912

Due from and due to other funds represent interfund receivables and payables arising from interdepartmental transactions for expenditures. These amounts have been eliminated on the governmental wide statement. All balances are expected to be paid within one year from the date of the financial statements.

The composition of interfund transfers are as follows:

	Transfers In	Transfers Out
General Fund (12800)	\$ 2,790,327	
State Chemist Fee (27200)	-	74,013
State Forfeitures (34200)	-	48,380
Federal Forfeitures (34300)	_	2,245,797
Concealed Handgun (59400)	-	317,452
Advanced Training (78600)	-	104,685
Total	\$ 2,790,327	2,790,327

To capture expenditures at the program level, expenditures are budgeted and processed in the General fund. Interagency transfers are subsequently made to recognize the outlay in the proper fund.

Capital assets summary Capital assets not being depreciated Other capital assets, at cost	\$ 14,394 49,866,942	- 3,578,085	- (2,917,283)	14,394 50,527,744
Total cost of capital assets Accumulated depreciation	49,881,336 (30,223,893)	3,578,085 5,379,658	(2,917,283) (2,873,265)	50,542,138 32,730,286
Capital assets, net	<u>\$19,657,443</u>	(1,801,573)	(44,018)	<u>17,811,852</u>

The Department does not have any debt related to capital assets at June 30, 2011. Depreciation expense for the Department amounted to \$5,379,658 and is considered a law enforcement expense.

### NOTE 7. DUE TO STATE GENERAL FUND (REVERSIONS)

Unexpended and unencumbered cash balances of certain accounts revert to the State General Fund at year-end. The amounts due to the State General Fund for reversions are:

General Fund
General Operating 12800 \$ 3,735,319

Capital Projects 09000 340
 NM Mounted Patrol
 Defibrillators

Special Revenue Fund
 Advanced training 78600 5,851
 \$ 3,741,510

Current year reversions are calculated only for reverting accounts. Expenditures are classified based on the underlying appropriation in calculating the amount to revert.

### NOTE 8. COMPENSATED ABSENCES PAYABLE

Employees are entitled to accumulate annual leave at a graduated rate based on years of service. A maximum of 240 hours can be carried forward at calendar year-end. The Department has recognized a liability in the Statement of Net Assets for annual leave based on current pay rates and hours accumulated at June 30, 2011. In previous years the General Fund typically was used to liquidate compensated absences.

### NOTE 8. COMPENSATED ABSENCES PAYABLE (CONTINUED)

A summary of changes in the compensated absences payable for the year ended June 30, 2011, is as follows:

	Balance June 30, 2010	Increase	(Decrease)	Balance June 30, 2011
Compensated Absences Pay	able			
Due within one year	\$2,236,762	1,896,351	(1,946,018)	2,187,095
Due after one year	2,149,042	1.821.988	(1,869,704)	2,101,326
Totals	\$4,385,804	3,718,339	(3,815,722)	4,288,421

### NOTE 9. LEASE COMMITMENTS

Future minimum annual lease payments under operating lease agreements for facilities and equipment are as follows:

Year Ended June 30	Facilities
2012	\$ 549,063
2013	427,421
2014	295,756
2015	256,676
Thereafter	<u>251,091</u>
Total	<u>\$ 1,780,007</u>

During the year ended June 30, 2011, facilities and equipment rent expense were approximately \$575,135. The Department is party to a number of equipment leases; however, all can be cancelled with 30 days notice, and therefore no long-term lease commitments exist which require disclosure on these leases.

### NOTE 10. CONTINGENT LIABILITIES AND JUDGMENTS

The Department currently has several matters pending with either the New Mexico Human Rights Commission and/or the Federal Equal Opportunity Commission which have been filed by former and current employees. These matters include grievances alleging sexual discrimination, racial discrimination and retaliation. If these matters

### NOTE 10. CONTINGENT LIABILITIES AND JUDGMENTS (CONTINUED)

are ultimately litigated in court, the potential loss to the Department could be substantial should an unfavorable judgment be entered. The Department vigorously denies these claims. Management and legal counsel for the Department are unable to predict the ultimate outcome of these cases and no provision for any liability that may result has been made in the financial statements.

The Department is also involved in numerous other lawsuits for which, in most instances, insurance coverage exists through the Risk Management Division of the State of New Mexico General Services Department. Legal counsel for the Department feels that unfavorable outcomes on these cases are remote.

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Department expects such amounts, if any, to be immaterial.

### NOTE 11. PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT ASSOCIATION

Plan Description. Substantially all of the Department's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at <a href="https://www.pera.state.nm.us">www.pera.state.nm.us</a>.

# NOTE 11. PENSION PLAN – PUBLIC EMPLOYEES RETIREMENT ASSOCIATION (CONTINUED)

Funding Policy. Plan members are required to contribute 8.92% of gross salary for regular employees, or 9.10% of gross salary for State Police commissioned officers. The Department is required to contribute 15.09% of the gross covered salary for regular employees, or 23.60% of gross covered salary for State Police commissioned officers. The contribution requirements of plan members and the Department are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The Department's contributions to PERA for the fiscal years ending June 30, 2011, 2010 and 2009 were \$9,197,657, \$9,753,596 and \$11,032,125, respectively, which equal the amount of the required contributions for each fiscal year.

## NOTE 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN

Plan Description. The Department contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which the event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

# NOTE 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN (CONTINUED)

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle N.E., Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. During the fiscal year ended June 30, 2011, the statute required each participating employer to contribute 1.666% of each participating employee's annual salary; each participating employee is required to contribute .8333% of their salary. In the fiscal years ending June 30, 2012 through June 30, 2014 the contribution rates for employees and employers will rise as follows:

Fiscal Year	Employer Contribution Rate E	<u>Imployee Contribution Rate</u>
FY12	1.834%	.917%
FY13	2.000%	1.000%

Also, employers joining the program after 1/1/98 are also required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

# NOTE 12. POST-EMPLOYMENT BENEFITS – STATE RETIREE HEALTH CARE PLAN (CONTINUED)

The RHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

The Department's employer and employee contributions to the RHCA for the years ended June 30, 2011, 2010 and 2009 were as follows: 2011: \$889,908 and \$444,954; 2010: \$646,917 and \$323,459; and 2009: \$660,802 and \$330,401, respectively, which equal the required contributions for each year.

### **NOTE 13. INSURANCE COVERAGE**

The Department obtains coverage through Risk Management Division of the State of New Mexico General Services Department. This coverage includes liability and civil rights, property, vehicle, employer bond, workers' compensation, group insurance and state unemployment. These coverages are designed to satisfy the requirements of the State Tort Claims Act. All employees of the Department are covered by blanket fidelity bond up to \$5,000,000 with a \$1,000 deductible per occurrence by the State of New Mexico for the period July 1, 2010 through June 30, 2011.

### **NOTE 14. SPECIAL APPROPRIATIONS**

Special, Deficiency, and Specific appropriations during the year consisted of the following:

	Original Appropriation Balance	Purpose	Period	Cumulative Expenditures 6/30/11	Outstanding Encumbrances 6/30/11	Amount to be Reverted	Unencumbered Appropriations
Fund 12800- One-year General Fund Appropriati	ons \$	-		-	-	<b>-</b> .	
Fund 12800- Multi-year General Fund Appropriat	ions \$3,000,000	Replace NMLETS System	March 2007 to June 2012	\$2,293,088			706,912
Fund 09000- Multi-year Capital Project Appropriatio	ons <u>\$300,000</u>	Purchase & Equip Vehicles	Sept 2010 to June 2012	299,959	<del></del>		41
	\$3,300,000			\$ 2,593,047	-	-	706,953

Unencumbered appropriations are presented as reservations of fund balance for multi-year appropriations in the Balance Sheet – Governmental Funds

### NOTE 15. RISK MANAGEMENT

The Department, as a state agency defined in the New Mexico Tort Claims Act, is insured through the Risk Management Division of the state of New Mexico. The Department pays annual premiums to the Risk Management Division for coverage provided in the following areas:

- 1. Liability and civil rights protection for claims made by others against the state of New Mexico.
- 2. Coverage to protect the state of New Mexico's property and assets.
- 3. Fringe benefit coverage's for state of New Mexico employees.

### **NOTE 15. RISK MANAGEMENT (CONTINUED)**

The Department paid Risk Management for the fiscal years ending June 30, 2011, 2010 were \$3,748,230 and \$4,800,325 in insurance premiums. The Department's exposure is limited to \$1,000 per any first-party incurred property loss, with the exception of theft, which has a \$5,000 deductible.

After conferring with legal counsel concerning pending litigation and claims, the Department believes that the outcome of pending litigation should not have a materially adverse effect on the financial position or operations of the Department. In addition, for the years ended June 30, 2011, 2010 and 2009, the Department had no claims for which the Risk Management Division has returned as "not covered" that would become the responsibility of the Department.

### NOTE 16. RESTATEMENT OF FUND BALANCE/GASB 54

GASB Statement No. 54 clarifies the existing governmental fund type definitions and provides clearer fund balance categories and classifications. The new hierarchical fund balance classifications are based primarily on the extent to which a government is bound to follow constraints on resources in governmental funds and includes terms: nonspendable, restricted, committed, assigned, and unassigned. GASB 54 was implemented in the current fiscal year. Details of the Department's fund balance classifications and policies are reflected in Note 2.

The governmental fund types used by the Department were evaluated based on the provisions of GASB 54 and there were no changes from prior years. The fund balance classifications were also examined by management, and the Department has restricted fund balance of \$3,986,843 and committed fund balance of \$706,912, restated and presented on the balance sheet.

General - The Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of the Department.

STATE OF NEW MEXICO DEPARTMENT OF PUBLIC SAFETY NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS Year Ended June 30, 2011

Note A. Significant Accounting Policies - The accompanying Schedule of Expenditures of Federal Awards is prepared using the modified accrual basis of accounting which is described in Note 2 to the Department's financial statements. Federal expenditures include adjustments resulting from subsequent changes in expenditures charged to a particular federal program. The Department did not receive non-cash federal assistance.

Note B. The Department had sub recipients, by federal grantor, in the following amounts:

Name	Year	Sub-Recipient-Fiscal Agency	Program Name	Federal #	GMB#	Amount of Grant

# Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Mr. Gorden E. Eden Jr., Secretary State of New Mexico Department of Public Safety and Mr. Hector H. Balderas New Mexico State Auditor Santa Fe, New Mexico

We have audited the financial statements of the governmental activities, each major fund, the budgetary comparisons for the general fund and major special revenue funds, and the aggregate remaining fund information of the State of New Mexico, Department of Public Safety (Department), as of and for the year ended June 30, 2011, which collectively comprise the Department's basic financial statements as listed in the table of contents, and have issued our report thereon dated January 20, 2012. We have also audited the financial statements of each of the Department's nonmajor governmental funds, respective budgetary comparisons, major capital projects fund budgetary comparisons and fiduciary funds presented as supplemental information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2011, as listed in the table of contents. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Internal Control Over Financial Reporting

Management of the Department is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Department's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs as items 09-3 and 10-1 that we consider to be significant deficiencies in internal control over financial reporting. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

# Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Department's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Department's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the Department's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, others within the Department, the New Mexico State Auditor, the New Mexico Legislature, the New Mexico Department of Finance and Administration, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Mess adams LLP

January 20, 2012

# Report of Independent Auditors on Compliance With Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

Mr. Gorden E. Eden Jr., Secretary State of New Mexico Department of Public Safety and Mr. Hector H. Balderas New Mexico State Auditor Santa Fe, New Mexico

# **Compliance**

We have audited the compliance of State of New Mexico, Department of Public Safety (Department) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Department's major federal programs for the year ended June 30, 2011. The Department's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Department's management. Our responsibility is to express an opinion on the Department's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Department's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Department's compliance with those requirements.

In our opinion, the Department complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

# **Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Department's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, others within the Department, the New Mexico State Auditor, the New Mexico Legislature, the New Mexico Department of Finance and Administration, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

## **B. FINANCIAL STATEMENT AUDIT - FINDINGS**

# 09-3 Payroll Calculation Errors (Significant Deficiency)

# CONDITION

During our testwork of payroll, on 1 out of the 25 tested we noted that the overtime rate was not calculated correctly. The Human Resources (HR) department does not know how the SHARE system calculates the Fair Labor Standards Act (FLSA) overtime rate, and therefore the rate cannot be recalculated to prove that the system is calculating it correctly.

#### CRITERIA

# According to 1.7.4.14 NMAC:

Section F: Time worked in excess of 40 hours during the designated workweek shall be compensated in accordance with the provision of the *Fair Labor Standards Act* [29 U.S.C. Sections 201 to 262] for *Fair Labor Standards Act* covered, non-exempt employees.

Section I: Paid holiday leave, annual leave, and administrative leave for voting taken in accordance with the provisions of *Subsection C of 1.7.7.14 NMAC* shall also count as time worked in the consideration of overtime for *Fair Labor Standards Act* covered, non-exempt employees.

# **CAUSE**

It appears there are errors in the paths of HCM's logic calculation of pay. At this time, the exact factors causing the errors are unknown.

## **EFFECT**

It appears employees are over/under paid.

# RECOMMENDATION

We recommend the Department investigate these issues with the Department of Finance and Administration (DFA) and correct any errors.

#### B. FINANCIAL STATEMENT AUDIT – FINDINGS CONTINUED

# 09-3 Payroll Calculation Errors (Significant Deficiency) (Continued)

#### MANAGEMENT RESPONSE

In response to the finding statement on overtime, management agrees in part to the finding on overtime. Overtime is frequently, but not consistently, calculated correctly. In other words, the system *does* pay employees at the correct FLSA regular rate of in most cases, but does not appear to take into consideration all compensatory elements that must be included in the calculation of the regular rate of pay, hence some employees have their overtime paid incorrectly. The Department of Public Safety HR Bureau has engaged in ongoing discussions of this problem with Department of Finance and Administration staff, who are working to identify and correct the problem.

As discussed in last year's response, multiple, extensive controls have been put in place to make up for the lack of an adequately designed HCM Time & Labor module for the 207(K) 83 hour rule employees. Until the Time & Labor improvement project is implemented it can be expected that a higher rate of error will occur due to the manual nature of the current system.

## B. FINANCIAL STATEMENT AUDIT - FINDINGS CONTINUED

# 10-01 Access Administration (Significant Deficiency)

#### CONDITION

At the network level, a review of the membership to the Domain Admin security group revealed the following:

- There are 14 accounts, 8 of which are dedicated for specific purposes (generic accounts), normally to process or execute jobs or processes. We noted that the passwords for these accounts while stored in a secured location can be accessed by 6 of the IT personnel. However, there is no mechanism in place to determine which employee used a particular account as these accounts are not linked to a specific user.
- One account is considered redundant since domain administrators have already separate accounts to execute their functions. Another administratorlevel account adds another account that could be potentially exploited for malicious intent; and IT administration is unnecessarily increased since IT needs to maintain and track usage of two accounts that are able to do the same tasks.

At the applications level (SHARE), our review of the users' access listings revealed the following:

- There are 14 users who can create journal entry, 4 of which can also approve them.
- There are 26 users who can enter a voucher, 3 of which can also approve them, as well as initiate and approve purchase orders.

# **CRITERIA**

Per State of NM Statewide Guideline "Enterprise IT Security Policy", S-GUIDE-00.003, "the State of New Mexico shall securely and economically protect its business functions including public access to appropriate information and resources, while maintaining compliance with legal requirements established by existing Federal and State statutes pertaining to confidentiality privacy, accessibility, availability, and integrity.

# **B. FINANCIAL STATEMENT AUDIT - FINDINGS CONTINUED**

# 10-01 Access Administration (Significant Deficiency) (Continued)

## **EFFECT**

The current systems access security settings at the network and application levels pose increased risk of unauthorized entry and modification in the systems and network structure.

## **CAUSE**

For network admin accounts, DPS is still trying to find a way to effectively monitor the use of the generic accounts. For the SHARE access issue, DPS believes that their internal policy can mitigate the risk.

#### RECOMMENDATION

Since all of the admin accounts reside as members of the Domain Admin group, they have the same level of highly privileged access rights. To reduce the likelihood that an administrator level account can be exploited, a mechanism should be put in place to allow monitoring of users for the generic accounts and that redundant account be eliminated.

At the application level, it is recommended that DPS removes users' access to unnecessary modules and ensuring each user's access is appropriate based on their job functions and responsibilities.

# MANAGEMENT'S RESPONSE

DPS is aware of the admin accounts issue and is working to resolve the matter. Some of the applications we are running require being run with elevated privileges (generic accounts). We are investigating how to eliminate this requirement. However, this will not be possible on all of these accounts. The mechanism to monitor these and all accounts is a software package. This is on our list and will be purchased when budget permits. For the redundant account, DPS will investigate on whether to disable this account.

# **B. FINANCIAL STATEMENT AUDIT - FINDINGS CONTINUED**

# 10-01 Access Administration (Significant Deficiency) (Continued)

MANAGEMENT'S RESPONSE (CONTINUED)

For the journal entry process in SHARE, while 3 users have access to both entry and approve, it is unlikely that the same user will enter the journal entry and approve it as we have a written internal policy on segregation of duties. We have a report in SHARE which enables us to monitor the activity and SHARE has an audit trail that records user ID of creation and approval of journal entry. For the voucher process, internal policy prevents us from entering and approving a voucher by the same user. Because of the design of the SHARE, full access is needed in several areas to properly review transactions even the user does not create the transactions. SHARE also has an audit trail which records the user ID on the voucher and DFA does final approval of every voucher.

STATE OF NEW MEXICO DEPARTMENT OF PUBLIC SAFETY EXIT CONFERENCE Year Ended June 30, 2011

An exit conference was held on November 22, 2011. Attending were the following:

Representing the Department of Public Safety:

Gorden E. Eden Jr., Cabinet Secretary
Robert Shilling, Deputy Secretary-Operations/Chief-State Police Division
Kathy Griego, CFO, ASD Director
Dianna DeJarnette, ASD Deputy Director
Stacy Lopez, Finance Bureau Chief
Pete Kassetas, Deputy Chief, State Police Division
Ron Cordova, Major MTPD
Evelyn Romero, Grants Management Bureau Chief

Representing Moss Adams LLP:

Audrey J. Jaramillo, Senior Manager Bryan Runyan, Senior Neil Herman, Staff

The financial statements were prepared with the assistance of Moss Adams LLP.
