### Independent Accountant's Compilation Report

Mr. Hector H. Balderas
New Mexico State Auditor
Santa Fe, New Mexico
And
East Rio Arriba Soil and Water Conservation District
Board Members
424H South Riverside Drive
Espanola, New Mexico

We have compiled the accompanying financial statements of the governmental activities, the major fund, of the State of New Mexico East Rio Arriba Soil and Water Conservation District (District) as of and for the year ended June 30,2013 which collectively comprise the District's basic financial statements as listed in the table of contents. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America

Management of the District is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal controls relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

Management has omitted the management's discussion and analysis information that is required to be presented for purposes of additional analysis. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

### (1) Summary of Significant Accounting Policies

### A. Financial Reporting Entity

The East Rio Arriba Soil and Water Conservation District (District) is organized under the provisions of the Soil and Water Conservation District Act (73-20-25 through 73-20-49 NMSA1978). The District is a governmental subdivision of the state, a public body corporate and politic, organized for control and prevention of flood, sediment, and soil erosion damage, and to further the conservation, development and beneficial use of water and soil resources. The governing body of the District consists of five elected supervisors four of whom must be landowners in the District. Two additional supervisors may be appointed to the District board. Supervisors serve a term of three years and continue in office until a successor is elected or appointed.

The financial reporting entity as defined by GASB 14 consists of the primary government, organizations of which the primary government is financially accountable and other organizations whose exclusion from the financial reporting entity would cause the financial statements to be misleading.

A primary government is any state government or general-purpose local government and the organization comprising its legal entity. Although the District is organized as a subdivision of the State and administrative attached to the New Mexico State University, Department of Agriculture, the statutory powers of the District establish it as a primary government with a separate corporate and legal identity. The District has no component units, financially dependent affiliates, or is it legally liable for actions of other agencies.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). To enhance the usefulness of the financial, the significant policies of the District are summarized below.

### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of Net Position) report information on all of the non fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. However, the District does not have any fiduciary or business-type activities.

### (1) Summary of Significant Accounting Policies (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment. 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds.

### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, if any, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal year period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds.

The general fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

### (1) Summary of Significant Accounting Policies (continued)

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

As a general rule, the effect of interfund activity, if applicable, has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

### D. Assets, Liabilities, Net Position and Fund Balance

#### 1. Cash and Investments

The District has defined cash and cash equivalents to include demand deposits and short term investments (certificate of deposit) with original maturities of six months or less from the date of acquisition. New Mexico State Statute authorize the District to invest in obligations of the U.S. Treasury, repurchase agreements, and certificates of deposit. Investments for the government, if applicable, are reported at fair value.

#### Receivables

Receivables consist of \$5,378 for property taxes receivable. They are considered fully collectible. Property taxes attach an enforceable lien as of January 1. Taxes are payable in equal semi-annual installments on November 10 and April 10 of the subsequent year. The taxes become delinquent thirty days after the due date. The taxes are collected by the Rio Arriba County Treasurer and are remitted to the District in the month following collection.

### 3. Capital Assets

Capital assets, which include property and equipment (including software), are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by per Section 12-6-10 NMSA 1978 as assets with an initial cost of \$5,000 and an estimated useful life of more than one year. The total amounts spent for construction, if any, are capitalized and reported in the government-wide financial statements. For donations, the government values these capital assets at the estimated fair value of the items at the date of acquisition. The cost of normal maintenance and repairs that do not add to the value or extend the life of the asset are not capitalized. There is no infrastructure required to be reported pursuant to GASB statement no. 34.

Property and equipment of the District is depreciated using the straight line method over the following estimated useful lives.

Building improvements 15 years Farm equipment 5-15 years Office equipment 5-15 years

### 4. Payables

The District's accounts payable represent routine monthly bills for services rendered and products purchased and received in the current fiscal year but not paid for until after fiscal year end.

### 5. Compensated Absences

District employees earn annual leave and sick leave at the rate of four hours per eighty hour biweekly pay period for full time permanent employees. Part time permanent employees accrue annual leave and sick leave on a prorated basis. The maximum amount of annual leave that an employee may carry forward from one calendar year to the next is 140 hours. There is no limit to the amount of sick leave that may be accrued. No payment shall be made for accrued sick leave at the time of separation from the District. Employees have the option to sell their annual leave to the District at the end of the year. Employees will be paid for their accrued annual leave upon separation from the District.

#### 6. Net Position and Fund Balance

The government-wide financial statements utilize a net asset presentation. Net position are categorized as invested in capital assets (net of related debt, if applicable), restricted and unrestricted.

Investment in capital assets (net of related debt)- is intended to reflect the portion of net position which are associated with capital assets less outstanding capital assets related debt. The District has not debt related to capital assets. Restricted net position - are net position (generated from revenues and not bond proceeds), which have third party (statutory, bond covenant or granting agency) limitation on their use. Unrestricted net position- are net position that do not have third-party (statutory, bond covenant or granting agency) limitations on their use.

In the fund financial statements, governmental funds can report fund balances as:

Nonspendable - amounts that are not in spendable form (such as inventory) or are required to be maintained intact;

<u>Restricted</u> - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

<u>Committed</u> – amounts constrained to specific purposes by a government itself, using its highest level of decision making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove of change the constraint;

<u>Assigned</u> – amounts a government intends to use for a specific purpose, intent can be expressed by the governing body or by and official or body to which the governing body delegates the authority;

<u>Unassigned</u> – Amounts that are available for any purpose, positive amounts are reported only in the general fund.

The District's fund balance is unassigned

### 7. Use of Estimates

Management uses estimate and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenue and expenses. Accordingly, actual results could differ from those estimates.

### II Stewardship, Compliance and Accountability

### A. Budgetary Information

The budget is prepared on a basis that differs from accounting principles generally accepted in the United States of America (GAAP). GAAP basis revenues and expenditures include accrued amounts. The revenues and expenditures reported in the budgetary comparisons are generally recorded on the cash basis. The District uses the following procedures to establish the budgeted amounts reflected in the budgetary comparisons:

- 1. Prior to June 1, the District Board of Supervisors reviews, adjusts, and approves a preliminary revenue and expenditure budget for the fiscal year beginning July 1.
- 2. Prior to June 1, the approved preliminary budget is submitted to the State of New Mexico Department of Finance and Administration, Local Government Division for approval.
- 3. Once the Board receives notice of the approved preliminary budget. The Board reviews the preliminary budget and makes any necessary adjustments to prepare the final budget. Prior to July 30, the Board approves the budget by passing a resolution.
- 4. Prior to July 30, the approved budget is submitted to the State of New Mexico, Department of Finance and Administration, Local Government Division (DFA-LGD) for approval by the first Monday of September. The Board receives notice of the approved final budget.

The legal level at which actual expenditures may not exceed budgeted expenditures is at the total fund level. The Board can revise its budget with the approval of DFA-LGD. Encumbrance accounting is not utilized by the District.

### D. Pension Plan - Public Employees Retirement Association

Plan Description. Substantially all of the East Rio Arriba Soil and Water Conservation District's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

### D. Pension Plan – Public Employees Retirement Association (Continued)

Funding Policy. Plan members are required to contribute 7 % of their gross salary. The East Rio Arriba Soil and Water Conservation District is required to contribute 7 % of the gross covered salary. The contribution requirements of plan members and the East Rio Arriba Soil and Water Conservation District are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The East Rio Arriba Soil and Water Conservation District's contributions to PERA for the fiscal years ending June 30, 2013, 2012 and 2011 were \$2,210, \$1,036 and \$-0, respectively, which equal the amount of the required contributions for each fiscal year.

### E. Risk Management

The East Rio Arriba Soil and Water Conservation District is exposed to various risks of loss. The District carries insurance with the various insurance companies. Coverage is provided for General Liability, Surety Bond, Property and Workers Compensation.

### F. Contingent Liabilities

There are no known contingent liabilities and therefore, no provision for contingencies in these financial statements.

## INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED UPON PROCEDURES

Kenneth V. Salazar, President
East Rio Arriba Soil and Water Conservation District
and
Honorable Hector H. Balderas
New Mexico State Auditor

We have performed the procedures enumerated below for the East Rio Arriba Soil and Water Conservation District (ERASWCD) for the year ended June 30, 2013. The ERASWCD was determined to be a Tier 6 entity under the Audit Act Section 12-6-3 (B) NMSA 1978 and Section 2.2.2.16 NMAC. The procedures were agreed to by the ERASWCD through the Office of the New Mexico State Auditor. The East Rio Arriba Soil and Water Conservation District management is responsible for the organization's accounting records. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the America Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in the report. Consequently, we make no representations regarding the sufficiency of the procedures described below either for the purposes for which this report has been requested or for any other purpose. Our procedures and findings are as follows:

Our procedures and findings are as follows:

#### 1. Cash

### **Procedures**

- a) Determine whether bank reconciliations are being performed in a timely manner and whether all bank and investment statements for the fiscal year are complete and onhand.
- b) Perform a random test of bank reconciliations for accuracy. Also, trace ending balances to the general ledger, supporting documentation and the financial reporting submitted to DFA-Local Government Division.

c) Determine whether the local public body's financial institution have provided it with 50% of pledged collateral on all uninsured deposits as required by Section6-10-17 NMSA1978, NM Public Money Act, if applicable.

### **Findings**

- a) The ERASWCD has three checking accounts a certificate of deposit and a savings account and utilizes QuickBooks to record cash transactions. All of the accounts were reconciled on a monthly basis. All bank statements and reconciliations were complete and on-hand for the entire year.
- b) We tested the bank reconciliations for the months of December of 2012 and June 2013 for all five bank accounts and traced to the District's financial records and the reports submitted to DFA-Local Government Division. No exceptions noted.
- c) All accounts at the two banks have FDIC coverage of \$250,000. The District opened a Bank account with Century Bank in December 2011 once it was made aware of the pledged collateral requirement by the previous auditor. The District has not exceeded the FDIC coverage in its bank accounts after December 2011 and, therefore, pledged collateral was not required on any of the bank accounts after December 2011.

### 2. Capital Assets

### **Procedures**

Verify that the local public body is performing a yearly inventory as required by Section 12-6-10 NMSA 1978.

### **Findings**

The ERASWCD performed a yearly inventory as required by Section 12-6-10 NMSA 1978.

### 3. Debt

### Procedures

If the local public body has any debt, verify that the required payments were made during the year. If the debt agreement requires reserves, verify that the local public body is in compliance with the requirements.

#### **Findings**

The required debt payments were made during the year on existing loans. The loan agreement does not require reserves.

#### 4. Revenues

#### Procedures

Identify the nature and amount of revenue from sources by reviewing the budget, agreements, rate schedules and underlying documentation.

a) Perform an analytical review, test actual revenue compared to budgeted revenue for the year for each type of revenue.

Select a sample of revenues based on auditor judgment and test using the following attributes:

- b) Amount recorded in the general ledger agrees to the supporting documentation and the bank statements.
- c) Proper recording of classification, amounts, and period per review of supporting documentation and the general ledger. Perform this revenue work on the same accounting basis that the local public body keeps it accounting records on, cash basis, modified accrual basis, or accrual basis.

### **Findings:**

- a) Analytical review and test of actual revenues compared to budget revenues for the year for each revenue type revealed no exceptions.
- b) Amounts recorded in QuickBooks general ledger agreed to the supporting documentation (deposit slips and detail of receipts) and the bank statements. No exceptions noted.
- c) Amounts were properly recorded on a cash basis as to classification, amount and period per review of supporting documentation. No exceptions noted.

### 5. Expenditures

### **Procedures**

Select a sample of cash disbursements based on auditor judgment and test using the following attributes:

a) Determine that amount recorded as disbursed agrees to adequate supporting documentation. Verify that amount, payee, date and description agree to the vendor's invoice, purchase order, contract and canceled check, as appropriate.

- b) Determine that disbursements were property authorized and approved in compliance with the budget, legal requirements and established policies and procedures.
- c) Determine that the bid process (or request for proposal process if applicable, purchase order, contracts and agreements were processed in accordance with the New Mexico Procurement Code Section 13-1-28 through 13-1-199 NMSA 1978) and State Purchasing Regulations (1.4.1 NMAC) and Regulations Governing the Per Diem and Mileage Act (2.42.2 NMAC).

### **Findings**

- a) Our tests of transactions revealed that amounts recorded as disbursed agreed to the supporting documentation. The documentation agrees as to amount, payee, date and description agreed with the vendor's invoice. No exceptions noted.
- b) ERASWCD disbursements were properly authorized and approved in compliance with legal requirements and established policies and procedures.
- c) The bid process (request for proposal process, if applicable), purchase orders, contracts and agreements were processed in accordance with the New Mexico Procurement Code (section 13-1-28 through 13-1-99 NMSA 1978) and State Purchase Regulations (1.4.1 NMAC) and regulations Governing the Per Diem and Mileage Act (2.42.2 NMAC).

### 6. Journal Entries

### **Procedures**

If non-routine journal entries, such as adjustment or reclassification, are posted to the general ledger, test significant items for the following attribute:

- a) Journal entries appear reasonable and have supporting documentation.
- b) The local public body has procedures that require journal entries to be reviewed and there is evidence the reviews are being performed.

### **Findings**

The ERASWCD utilizes QuickBooks to record cash transactions only and did not prepare formal entries for the year ended June 30, 2013.

### 7. Budget

### **Procedures**

Obtain the original fiscal year budget and all budget amendments made throughout the fiscal year and perform the following:

- a) Verify, through a review of minutes and correspondence, that the original budget and subsequent budget adjustments were approved by the local public body's governing body and DFA-LGD.
- b) Determine if the total actual expenditures exceeded the final budget at the legal level of budgetary control; if so report a compliance finding.
- c) From the original and final approved budgets and general ledger, prepare a schedule of revenues and expenditures budget and actual on the budgetary basis used by the local public body (cash, actual or modified accrual basis) for each individual fund.

### **Findings**

- a) A preliminary budget was submitted to DFA-LGD for approval in June 2012 and is reflected in the minutes.
- b) Total actual expenditures did not exceed the final budget at the total fund level, the legal level of budgetary control.
- c) ERASWCD prepared and submitted the budget report for the fiscal year ended June 30, 2013 to DFA-LGD. This schedule is included herein as Exhibit A. Exhibit A is the ERASWCD budgetary report submitted to DFA-LGD at June 30, 2013.

### 8. Capital Outlay Appropriations

### **Procedures**

Request and review all state-funded capital outlay awards, joint powers agreements, correspondence and other relevant documentation: for any capital outlay award funds expended by the recipient during the fiscal year.

Test all capital outlay expenditures during the fiscal year to:

a) Determine that the amount recorded as disbursed agrees to adequate supporting documentation. Verify that amount, payee, date and description agree to the purchase order, contract, vendor's invoice and canceled check, as appropriate.

- b) Determine that the cash disbursements were properly authorized and approved in accordance with the budget, legal requirements and established policies and procedures.
- c) Determine that the bid process(or request for proposal process if applicable), purchase order, contract, and agreements were processed in accordance with the New Mexico Procurement Code and State Purchasing Regulations (Section 13-1-28 through 13-1-199 NMSA 1978 and 1.4.1 NMAC).
- d) Determine the physical existence (by observation) of the capital assets based on expenditures to date.
- e) Verify that status reports were submitted to the state agency per terms of agreement and amounts in the status report agree with the general ledger and other supporting documentation.
- f) If the project was funded in advance, determine if the award balance (and cash balance) appropriately reflects the percentage of completion based on the project schedule and expenditures to date.
- g) If the project is complete, determine if there is an unexpended balance and whether it was reverted per statute and agreement with the grantor.
- h) Determine whether cash received for the award was accounted for in a separate fund or separate bank account that is non-interest bearing if so required by the capital outlay award agreement.
- i) Determine whether reimbursement requests were properly supported by costs incurred by the recipient.

### **Findings**

ERASWCD did not have and therefore did not expend any state capital outlay appropriations during the year ended June 30, 2013.

#### Other

### **Procedures**

If information comes to the IPA's attention (regardless of materiality) indicating any fraud, illegal acts, noncompliance, or any internal control deficiencies, such instances must be disclosed in the report as required by Section12-6-6 NMSA 1978. The finding must include the required contents per Section 2.2.2.1-(1) (3) (C) NMAC.

### **Findings**

No exceptions or information were noted as a result of applying the procedures described above (regardless of materiality) indicating fraud, illegal acts, or any internal control deficiencies.

We were not engaged to, and did not conduct an audit, the objective of which would be the expression of an opinion on the accounting records. Accordingly, we do not express such an opinion. Had we preformed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of East Rio Arriba Soil and Water Conservation District, the New Mexico State Auditor's Office and the DFA-Local Government Division and is not intended to be and should not be used by anyone other than those specified parties.
