Management is responsible for the accompanying financial statements of the governmental activities, each major fund, of The State of New Mexico East Rio Arriba Soil and Water Conservation District (District) as of and for the year ended June 30, 2017, and related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents, in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Accounting principles generally accepted in the United States of America require that Schedules 1 and 2 on page 25 through page 26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. This information is the representation of management. This information was subject to our compilation engagement; however, we have not audited or reviewed the required supplementary information and, accordingly, do not express an opinion, a conclusion, nor provide any form of assurance on such information.

Management has omitted the management's discussion and analysis information that is required to be presented for purposes of additional analysis. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

(1) Summary of Significant Accounting Policies

A. Financial Reporting Entity

The East Rio Arriba Soil and Water Conservation District (District) is organized under the provisions of the Soil and Water Conservation District Act (73-20-25 through 73-20-49 NMSA1978). The District is a governmental subdivision of the state, a public body corporate and politic, organized for control and prevention of flood, sediment, and soil erosion damage, and to further the conservation, development and beneficial use of water and soil resources. The governing body of the District consists of five elected supervisors four of whom must be landowners in the District. Two additional supervisors may be appointed to the District board. Supervisors serve a term of three years and continue in office until a successor is elected or appointed.

The financial reporting entity as defined by GASB 14 consists of the primary government, organizations of which the primary government is financially accountable and other organizations whose exclusion from the financial reporting entity would cause the financial statements to be misleading.

A primary government is any state government or general-purpose local government and the organization comprising its legal entity. Although the District is organized as a subdivision of the State and administrative attached to the New Mexico State University, Department of Agriculture, the statutory powers of the District establish it as a primary government with a separate corporate and legal identity. The District has no component units, financially dependent affiliates, or is it legally liable for actions of other agencies.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). To enhance the usefulness of the financial, the significant policies of the District are summarized below.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of Net Position) report information on all of the non fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. However, the District does not have any fiduciary or business-type activities.

(1) Summary of Significant Accounting Policies (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment. 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, if any, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal year period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds.

The general fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

(1) Summary of Significant Accounting Policies (continued)

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

As a general rule, the effect of interfund activity, if applicable, has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities, Net Position and Fund Balance

1. Cash and Investments

The District has defined cash and cash equivalents to include demand deposits and short term investments (certificate of deposit) with original maturities of six months or less from the date of acquisition. New Mexico State Statute authorizes the District to invest in obligations of the U.S. Treasury, repurchase agreements, and certificates of deposit. Investments for the government, if applicable, are reported at fair value.

2. Receivables

Receivables consist of \$8,667 for property taxes receivable and \$15,729 from the Youth Conservation Corp. They are considered fully collectible. Property taxes attach an enforceable lien as of January 1. Taxes are payable in equal semi-annual installments on November 10 and April 10 of the subsequent year. The taxes become delinquent thirty days after the due date. The taxes are collected by the Rio Arriba County Treasurer and are remitted to the District in the month following collection.

3. Capital Assets

Capital assets, which include property and equipment (including software), are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by per Section 12-6-10 NMSA 1978 as assets with an initial cost of \$5,000 and an estimated useful life of more than one year. The total amounts spent for construction, if any, are capitalized and reported in the government-wide financial statements. For donations, the government values these capital assets at the estimated fair value of the items at the date of acquisition. The cost of normal maintenance and repairs that do not add to the value or extend the life of the asset are not capitalized. There is no infrastructure required to be reported pursuant to GASB statement no. 34.

Property and equipment of the District is depreciated using the straight line method over the following estimated useful lives.

Building 39 years
Building improvements 15 years
Farm equipment 5-15 years
Office equipment 5-15 years

4. Payables

The District's accounts payable represent routine monthly bills for services rendered and products purchased and received in the current fiscal year but not paid for until after fiscal year end.

5. Compensated Absences

District employees earn annual leave and sick leave at the rate of four hours per eighty hour biweekly pay period for full time permanent employees. Part time permanent employees accrue annual leave and sick leave on a prorated basis. The maximum amount of annual leave that an employee may carry forward from one calendar year to the next is 140 hours. There is no limit to the amount of sick leave that may be accrued. No payment shall be made for accrued sick leave at the time of separation from the District. Employees have the option to sell their annual leave to the District at the end of the year. Employees will be paid for their accrued annual leave upon separation from the District.

Deferred Outflows/Inflows of Resources

GASB 63 amended previous guidance on deferred revenue in the government-wide financial statements to include deferred outflows, which is the consumption of net position by the government which is applicable to a future reporting period and deferred inflow of resources, which is the acquisition of net position by the government which is applicable to a future reporting period. The District had deferred outflows or inflows of resources at June 30, 2017 due to GASB 68.

6. Net Position and Fund Balance

The government-wide financial statements utilize a net asset presentation. Net position are categorized as invested in capital assets (net of related debt, if applicable), restricted and unrestricted.

Investment in capital assets (net of related debt)- is intended to reflect the portion of net position which are associated with capital assets less outstanding capital assets related debt. The District has not debt related to capital assets. Restricted net position - are net position (generated from revenues and not bond proceeds), which have third party (statutory, bond covenant or granting agency) limitation on their use. Unrestricted net position- are net position that do not have third-party (statutory, bond covenant or granting agency) limitations on their use.

In the fund financial statements, governmental funds can report fund balances as:

Nonspendable - amounts that are not in spendable form (such as inventory) or are required to be maintained intact;

<u>Restricted</u> - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

<u>Committed</u> – amounts constrained to specific purposes by a government itself, using its highest level of decision making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove of change the constraint;

<u>Assigned</u> – amounts a government intends to use for a specific purpose, intent can be expressed by the governing body or by and official or body to which the governing body delegates the authority;

<u>Unassigned</u> – Amounts that are available for any purpose, positive amounts are reported only in the general fund.

The District's fund balance is unassigned

7. Use of Estimates

Management uses estimate and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenue and expenses. Accordingly, actual results could differ from those estimates.

II Stewardship, Compliance and Accountability

A. Budgetary Information

The budget is prepared on a basis that differs from accounting principles generally accepted in the United States of America (GAAP). GAAP basis revenues and expenditures include accrued amounts. The revenues and expenditures reported in the budgetary comparisons are generally recorded on the cash basis. The District uses the following procedures to establish the budgeted amounts reflected in the budgetary comparisons:

- 1. Prior to June 1, the District Board of Supervisors reviews, adjusts, and approves a preliminary revenue and expenditure budget for the fiscal year beginning July 1.
- 2. Prior to June 1, the approved preliminary budget is submitted to the State of New Mexico Department of Finance and Administration, Local Government Division for approval.
- 3. Once the Board receives notice of the approved preliminary budget. The Board reviews the preliminary budget and makes any necessary adjustments to prepare the final budget. Prior to July 30, the Board approves the budget by passing a resolution.
- 4. Prior to July 30, the approved budget is submitted to the State of New Mexico, Department of Finance and Administration, Local Government Division (DFA-LGD) for approval by the first Monday of September. The Board receives notice of the approved final budget.

The legal level at which actual expenditures may not exceed budgeted expenditures is at the total fund level. The Board can revise its budget with the approval of DFA-LGD. Encumbrance accounting is not utilized by the District.

III Detailed Notes on all Funds

A. Cash and cash equivalents

Cash and cash equivalents of the District at June 30, 2017:

Name of Depository	Account Name	Bank <u>Balance</u>	Outstanding Checks	Financial Statement <u>Balance</u>
East Ri	ederal o Arriba SWCD-Checking o Arriba SWCD-savings Total Washington Federal	\$ 193,463 	\$ - <u>\$ -</u>	\$ 193,463 \$\frac{193,463}{}
	Less FDIC coverage	193,463		
	Amount uninsured	-		
Century Bank

Net capital assets	<u>\$1,429,926</u>	<u>\$ 43,343</u>	<u>\$ -</u>	<u>\$1,473,269</u>

Current year depreciation expense is \$20,019 charged to conservation function.

C. Changes in Long-Term Debt

Long term debt activity for the year ended June 30, 2017 was as follows:

	Balance 6/30/16	Increase	Decrease	Balance 6/30/17	Amount due within1 year
NM Finance Authority Loan NM Finance Authority Loan Compensated Absences Payable	1,071,908 157,178 	- 2,143	30,794 5,872 <u>3,750</u>	1,041,114 151,306 	31,459 5,930 <u>1,293</u>
Total	<u>\$1,231,986</u>	<u>\$2,143</u>	<u>\$40,416</u>	<u>\$1,193,713</u>	<u>\$38,682</u>

The District's general fund is used to pay the loans and compensated absences.

Mortgage Loan-Land

In fiscal year 2012, the District purchased land to build a District Office for \$101,290 The District entered into a loan agreement with the New Mexico Finance Authority for \$171,754. The mortgage loan is for twenty four years maturing on April 2037. The interest rate is 3.188%. As of June 30, 2012 the District had drawn down \$171,754 on the loan. The balance on the mortgage loan owed as of June 30, 2017 was \$151,306. The annual debt service requirements for the mortgage loan at June 30, 2017 are as follows:

Year Ended	Principal	Interest	Total
2018	5.930	4,535	10,465
2019	6,006	4,459	10,465
2020	6,100	4,365	10,465
2021	6,210	4,254	10,464
2022-2026	33,304	19,021	52,325
2027-2031	38,376	13,949	52,325
2032-2036	45,299	7,026	52,325
2037	<u>10,081</u>	<u>383</u>	10,464
Total	<u>\$151,306</u>	<u>\$57,992</u>	<u>\$209,298</u>

Mortgage Loan-Building

In fiscal year 2013, the New Mexico Finance Authority (NMFA) approved a loan for the construction of a building for twenty five years maturing 2038the District Office for \$1,135,703 at a blended interest rate of 4.965%. The Mortgage loan is for twenty five years maturing on 2038. During fiscal year 2016 the district built the building and the NMFA make direct payment to the construction contractor and the district incurred some additional expenditures for the building. The project was completed as of June 30, 2015. The District has made monthly payments of approximately \$6,443 of principals and interest since February of 2015. The balance on the mortgage loan owed as of June 30, 2016 was \$1,041,114. The annual debt service requirements for the mortgage loan at June 30, 2017 are as follows:

Year Ended	Principal	Interest	Total
2018	31,459	45,862	77,321
2019	32,267	45,053	77,320

Summary of Significant Accounting Policies

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Mexico Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan description. The Public Employees Retirement Fund (PERA Fund) is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officer, Municipal General, Municipal Police/Detention Officers, Municipal fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the PERA Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), and the provisions of Sections 29-4-1 through 29-4-11, NMSA 1978 governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the PERA Fund.

PERA issues a publicly available financial report and a comprehensive annual financial report that can be obtained at http://saonm.org/using the Audit Report Search function for agency 366.

Benefits provided. For a description of the benefits provided and recent changes to the benefits see Note 1 in the PERA audited financial statements for the fiscal year ended June 30, 2016 available at

http://www.pera.state.nm.us/pdf/AuditFinancialStatements/366 Public Employees Retirement A ssociation 2016.pdf.

Contributions. The contribution requirements of defined benefit plan members and the East Rio Arriba and Water Soil Conservation District are established in state statute under Chapter 10, Article 11, NMSA 1978. The contribution requirements may be amended by acts of the legislature. For the employer and employee contribution rates in effect for FY16 for the various PERA coverage options, for both Tier I and Tier II, see the tables available in the note disclosures on pages 29 through 31 of the PERA FY16 annual audit report at

Pension Plan – Public Employees Retirement Association (Continued)

http://osanm.org/media/audits/366 Public Employees Retirement Association 2016.pdf. The PERA coverage options that apply to East Rio Arriba and Water Soil Conservation District (District) is: Municipal General Division. Statutorily required contributions to the pension plan from the District were \$5,774 and employer paid member benefits that were "picked up" by the employer were \$-0- for the year ended June 30, 2016.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: The PERA pension liability amounts, net pension liability amounts, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2015. The PERA pension liability amounts for each division were rolled forward from the valuation date to the Plan year ending June 30, 2014, using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date June 30, 2015.

The assets of the PERA fund are held in one trust, but there are six distinct membership groups (municipal general members, municipal police members, municipal fire members, state general members, state police members and legislative members) for whom separate contribution rates are determined each year pursuant to chapter 10, Article 11 NMSA 1978. Therefore, the calculations of the net pension liability, pension expense and deferred Inflows and Outflows were preformed separately for each of the membership groups: municipal general members; municipal police members; municipal fire members; state general members; state police members and legislative members. The East Rio Arriba and Water Soil Conservation District proportion of the net pension liability for each membership group that the employer participates in is based on the employer contributing entity's percentage of that membership group's total employer contributions for the fiscal year ended June 30, 2014. Only employer contributions for the pay period end dates that fell within the period of July 1, 2014 to June 30, 2015 were included in the total contributions for a specific employer. Regular and any adjustment contributions that applied to FY 2015 are included in the total contribution amounts. In the event that an employer is behind in reporting to PERA its required contributions, an estimate (receivable) was used to project the unremitted employer contributions. This allowed for fair and consistent measurement of the contributions with the total This methodology was used to maintain consistent measurement each year in population. determining the percentages to be allocated among all the participating employers.

For PERA Fund Division Municipal General Division, at June 30, 2017, the District reported a liability of \$105,446 for its proportionate share of the net pension liability. At June 30, 2015, the District's proportion was .0073 percent, which was unchanged from its proportion measured as of June 30, 2014, due to the insignificance of the difference.

For the year ended June 30, 2017, the District recognized PERA Fund Division Municipal General Division pension expense of \$837. At June 30, 2017, the District reported PERA Fund Division Municipal General Division deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

Pension Plan - Public Employees Retirement Association (Continued)

Pension Plan – Public Employees Retirement Association	Deferred Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual experience	5,268	1,029	
Changes of assumptions	6,183	18	
Net difference between projected and actual earnings on pension plan investments	19,402	-	
Changes in proportion and differences between District contributions and proportionate share of contributions	1,580	5,153	
District contributions subsequent to the measurement date	5,774	5,774	
Total	32,433	6,200	

\$5,774 reported as deferred outflows of resources related to pensions resulting from District's contributions subsequent to the measurement date June 30, 2016 will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2018	(1,728)
2019	(1,728)
2020	3,508

Thereafter

Pension Plan - Public Employees Retirement Association (Continued)

Actuarial assumptions. As described above, the PERA Fund member group pension liabilities and net pension liabilities are based on actuarial valuations performed as of June 30, 2016 for each of the membership groups. Then each PERA Fund member group pension liability was rolled forward from the valuation date to the Plan year ending June 30, 2016 using generally accepted actuarial principles. There were no significant events or changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2016. These actuarial methods and assumptions were adopted by the Board for use in the June 30, 2016 actuarial valuation.

Actuarial valuation date	June 30, 2016		
Actuarial cost method	Entry age normal		
Amortization method	Level percentage of pay		
Amortization period	Solved for based on statutory rates		
Asset valuation method	Fair value		
Actuarial assumptions:			
Investment rate of return	7.75% annual rate, net of investment expense		
Payroll growth	3.50% annual rate		
Projected salary increases 3.50% to 14.25% annual rate			
Includes inflation at	3.00% annual rate		

The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Pension Plan - Public Employees Retirement Association (Continued)

ALL FUNDS - Asset Class	Target Allocation	Long-Term Expected Real Rate of Return		
Global Equity	43.50%	7.39%		
Risk Reduction & Mitigation	21.50	1.79		
Credit Oriented Fixed Income	15.0	-		
Real Assets	20.00	5.70		
Total	<u>100.0%</u>			

Discount rate: The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASBS 67. Therefore, the 7.75% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following tables show the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present the District net pension liability in each PERA Fund Division that participates in, under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower (6.75%) or one percentage point higher (8.75%) than the single discount rate.

Pension Plan – Public Employees Retirement Association (Continued)

PERA Fund Division (A)	1% Decrease (6.48%)	Current Discount Rate (8.48%)	1% Increase (8.75%)
District's proportionate share of the net pension liability	157,211	105,446	62,510

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued FY16 Restated PERA financial report. The report is available at http://www.pera.state.nm.us/publications.html.

Payables to the pension plan. Employers should disclose the amount of payables to the Plan with a description of what gave rise to the payable per GASBS 68, paragraphs 122 and 124.

E. Risk Management

The East Rio Arriba Soil and Water Conservation District is exposed to various risks of loss. The District carries insurance with the various insurance companies. Coverage is provided for General Liability, Surety Bond, Property and Workers Compensation.

F. Contingent Liabilities

There are no known contingent liabilities and therefore, no provision for contingencies in these financial statements.

G. Rental Lease

The District entered into a lease agreement with the United States Department of Agriculture (USDA) to rent office space to USDA at \$\$4,973 per month beginning on January 1, 2015 through December 31, 2025.

SCHEDULE OF THE EAST RIO ARRIBA SOIL AND WATER CONSERVATION DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY OF PERA FUND DIVISION MUNCIPAL GENERAL Public Employees Retirement Association (PERA) Plan Last 10 Fiscal Years*

District's proportion of the net pension liability (asset)	2017 105,446	2016 65,254	2015 56.948
District's proportionate share of the net pension liability (asset)	.0066%	.0073%	.0073%
District's covered-employee payroll	167,698	145,169	138,389
District's proportionate share of the net pension liability (asset) as a percentage of its covered-employee payroll	62.88%	44.95%	41.15%
Plan fiduciary net position as a percentage of the total pension liability	69.18%	81.29%	81.29%

^{*}The amounts presented were determined as of June 30. This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the District will present information for those years for which information is available.

SCHEDULE OF EAST RIO ARRIBA SOIL AND WATER CONSERVATION DISTRICT'S CONTRIBUTIONS

Public Employees Retirement Association (PERA) Plan PERA Fund Division Municipal General Last 10 Fiscal Years*

Contractually required contribution	2017 5,774	2016 \$5,361	2015 \$4,757
Contributions in relation to the contractually required contribution	5,774	5,361	4,757
Contribution deficiency (excess)	-	~	-
District covered-employee payroll	167,698	145,169	132,653
Contributions as a percentage of covered-employee payroll	4%	4%	4%

^{*} This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the District will present information for those years for which information is available.

East Rio Arriba Soil and Water Conservation District Notes to Required Supplementary Information For the Year Ended June 30, 2017

Changes of benefit terms. The PERA Fund COLA and retirement eligibility benefits changes in recent years are described in Note 1 of the PERA FY16 audit available at http://www.pera.state.nm.us/pdf/AuditFinancialStatements/366 Public Employees Retirement A ssociation-2016.pdf.

Changes of assumptions.

The Public Employees Retirement Association (PERA) of New Mexico Annual Actuarial Valuation as of June 30, 2016 report is available at http://www.pera.state.nm.us/pdf/Investments/RetirementFundValuationReports/6-30-2014%20PERA%20Valuation%20Report_FINAL.pdf. The summary of Key Findings for the PERA Fund (on page 2 of the report) states "based on a recent experience study for the five-year period ending June 30, 2015, the economic and demographic assumptions were updated for this valuation. The changes in assumptions resulted in a decrease of \$30.8 million to Fund liabilities and an increase of 0.13% to the funded ratio. For details about changes in the actuarial assumptions, see Appendix B on page 60 of the report.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED UPON PROCEDURES

Kenneth V. Salazar, President
East Rio Arriba Soil and Water Conservation District
and
Honorable Tim Keller
New Mexico State Auditor

We have performed the procedures enumerated below for the East Rio Arriba Soil and Water Conservation District (ERASWCD) for the year ended June 30, 2017. The ERASWCD was determined to be a Tier 6 entity under the Audit Act Section 12-6-3 (B) NMSA 1978 and Section 2.2.2.16 NMAC. The procedures were agreed to by the ERASWCD through the Office of the New Mexico State Auditor. The East Rio Arriba Soil and Water Conservation District management is responsible for the organization's accounting records. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the America Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in the report. Consequently, we make no representations regarding the sufficiency of the procedures described below either for the purposes for which this report has been requested or for any other purpose. Our procedures and findings are as follows:

Our procedures and findings are as follows:

Procedures

1. Verify the local public body's revenue calculation documented on the form provided at www.osanm.org under "Tiered System Reporting Main Page."

Findings

We determined that the local public body is a tier 6 engagement.

2. Cash

Procedures

a) Determine whether bank reconciliations are being performed in a timely manner and whether all bank and investment statements for the fiscal year are complete and onhand.

- b) Perform a random test of bank reconciliations for accuracy. Also, trace ending balances to the general ledger, supporting documentation and the financial reporting submitted to DFA-Local Government Division.
- c) Determine whether the local public body's financial institution have provided it with 50% of pledged collateral on all uninsured deposits as required by Section6-10-17 NMSA1978, NM Public Money Act, if applicable.

Findings

- a) The ERASWCD has three checking accounts, and had a savings account which was closed during the fiscal year and utilizes QuickBooks to record cash transactions. All of the accounts were reconciled on a monthly basis. All bank statements and reconciliations were complete and on-hand for the entire year.
- b) We tested the bank reconciliations (approximately 33%) for accuracy for the months of September 2016, December of 2016, March 2017 and June 2017 for all four bank accounts and traced to the District's financial records and the reports submitted to DFA-Local Government Division. No exceptions noted.
- c) All accounts at the two banks have FDIC coverage of \$250,000. The bank accounts had FDIC coverage of \$250,000. The bank accounts never exceeded uninsured limits and, therefore, pledged collateral was not required on any of the bank accounts at any time during the year.

3. Capital Assets

Procedures

Verify that the local public body is performing a yearly inventory as required by Section 12-6-10 NMSA 1978.

Findings

The ERASWCD performed a yearly inventory as required by Section 12-6-10 NMSA 1978.

4. Debt

Procedures

If the local public body has any debt, verify that the required payments were made during the year. If the debt agreement requires reserves, verify that the local public body is in compliance with the requirements.

Findings

The required debt payments were made during the year on existing loans. The loan agreement reserves are on deposit with the New Mexico Finance Authority.

5. Revenues

Procedures

Identify the nature and amount of revenue from sources by reviewing the budget, agreements, rate schedules and underlying documentation.

a) Perform an analytical review, test actual revenue compared to budgeted revenue for the year for each type of revenue.

Select a sample of revenues equal to at least 30% of the total dollar amount and test using the following attributes:

- b) Amount recorded in the general ledger agrees to the supporting documentation and the bank statements.
- c) Proper recording of classification, amounts, and period per review of supporting documentation and the general ledger. Perform this revenue work on the same accounting basis that the local public body keeps it accounting records on, cash basis, modified accrual basis, or accrual basis.

Findings:

- a) We performed analytical review and test of actual revenues compared to budget revenues for the year for each revenue type. No exceptions noted.
- b) Amounts recorded in QuickBooks general ledger agreed to the supporting documentation (deposit slips and detail of receipts) and the bank statements. No exceptions noted.
- c) Amounts were properly recorded on a cash basis as to classification, amount and period per review of receipts. We traced 27 deposit which was approximately 40% of the total revenues to the District's financial records and bank statements. No exceptions noted.

6. Expenditures

Procedures

Select a sample of cash disbursements equal to at least 30% of the total dollar amount and test using the following attributes:

- a) Determine that amount recorded as disbursed agrees to adequate supporting documentation. Verify that amount, payee, date and description agree to the vendor's invoice, purchase order, contract and canceled check, as appropriate.
- b) Determine that disbursements were property authorized and approved in compliance with the budget, legal requirements and established policies and procedures.
- c) Determine that the bid process (or request for proposal process if applicable, purchase order, contracts and agreements were processed in accordance with the New Mexico Procurement Code Section 13-1-28 through 13-1-199 NMSA 1978) and State Purchasing Regulations (1.4.1 NMAC) and Regulations Governing the Per Diem and Mileage Act (2.42.2 NMAC).

Findings

- a) Our tests of 54 transactions for approximately 40% of the total expenditures for the fiscal year revealed that amounts recorded as disbursed agreed to the supporting documentation. The documentation agrees as to amount, payee, date and description agreed with the vendor's invoice. No exceptions noted.
- b) ERASWCD disbursements were properly authorized and approved in compliance with legal requirements and established policies and procedures.
- c) The bid process (request for proposal process, if applicable), purchase orders, contracts and agreements were processed in accordance with the New Mexico Procurement Code (section 13-1-28 through 13-1-99 NMSA 1978) and State Purchase Regulations (1.4.1 NMAC) and regulations Governing the Per Diem and Mileage Act (2.42.2 NMAC).

7. Journal Entries

Procedures

If non-routine journal entries, such as adjustment or reclassification, are posted to the general ledger, test significant items for the following attribute:

- a) Journal entries appear reasonable and have supporting documentation.
- b) The local public body has procedures that require journal entries to be reviewed and there is evidence the reviews are being performed.

Findings

The ERASWCD utilizes QuickBooks to record cash transactions only and did not prepare formal entries for the year ended June 30, 2017.

8. Budget

Procedures

Obtain the original fiscal year budget and all budget amendments made throughout the fiscal year and perform the following:

- a) Verify, through a review of minutes and correspondence, that the original budget and subsequent budget adjustments were approved by the local public body's governing body and DFA-LGD.
- b) Determine if the total actual expenditures exceeded the final budget at the legal level of budgetary control; if so report a compliance finding.
- c) From the original and final approved budgets and general ledger, prepare a schedule of revenues and expenditures budget and actual on the budgetary basis used by the local public body (cash, actual or modified accrual basis) for each individual fund.

Findings

- a) A preliminary budget was submitted to DFA-LGD for approval in June 2017 and is reflected in the minutes.
- b) Total actual expenditures did not exceed the final budget at the total fund level, the legal level of budgetary control.
- c) ERASWCD prepared and submitted the budget report for the fiscal year ended June 30, 2017 to DFA-LGD. This schedule is included herein as Exhibit A. Exhibit A is the ERASWCD budgetary report submitted to DFA-LGD at June 30, 2017.

9. Capital Outlay Appropriations

Procedures

Request and review any and all state-funded capital outlay awards, joint powers agreements, correspondence and other relevant documentation for any capital outlay award funds expended by the recipient during the fiscal year.

Perform the following tests on all state funded capital outlay expenditures:

- a) Determine that the amount recorded as disbursed agrees to adequate supporting documentation. Verify that amount, payee, date and description agree to the purchase order, contract, vendor's invoice and canceled check, as appropriate.
- b) Determine that the cash disbursements were properly authorized and approved in accordance with the budget, legal requirements and established policies and procedures.
- c) Determine that the bid process(or request for proposal process if applicable), purchase order, contract, and agreements were processed in accordance with the New Mexico Procurement Code and State Purchasing Regulations (Section 13-1-28 through 13-1-199 NMSA 1978 and 1.4.1 NMAC).
- d) Determine the physical existence (by observation) of the capital assets based on expenditures to date.
- e) Verify that status reports were submitted to the state agency per terms of agreement and amounts in the status report agree with the general ledger and other supporting documentation.
- f) If the project was funded in advance, determine if the award balance (and cash balance) appropriately reflects the percentage of completion based on the project schedule and expenditures to date.
- g) If the project is complete, determine if there is an unexpended balance and whether it was reverted per statute and agreement with the grantor.
- h) Determine whether cash received for the award was accounted for in a separate fund or separate bank account that is non-interest bearing if so required by the capital outlay award agreement.
- i) Determine whether reimbursement requests were properly supported by costs incurred by the recipient.

Findings

- a) We tested all capital outlay expenditures and determined that amounts recorded as disbursed agreed to adequate supporting documentation and we verified that amounts, payees, dates and descriptions agreed to the vendors invoice. No exceptions noted.
- b) We determined that disbursement were properly authorized and approved in accordance with budget, legal requirements and established policies and procedures.

- c) We determined that the District maintained documentation to demonstrate compliance with the bid process (request for proposal process, if applicable), purchase orders, contracts and agreements were processed in accordance with the New Mexico Procurement Code (section 13-1-28 through 13-1-99 NMSA 1978) and State purchase regulations.
- d) We physically observed the storage building built and noted where it was added to its capital asset listing as of June 30, 2017 as construction work in progress. The project was not all completed by June 30, 2017.
- e) According to the District management no status reports were submitted to the New Mexico Department of Agriculture. Also, no status reports were noted during our review of the grant file supporting documentation.
- f) The project was not intended to be funded in advance but on a cost reimbursement basis.
- g) The District received a capital outlay appropriation in the Laws of 2016 HB 219, Chapter 30 paragraph 2 of \$45,000 through the New Mexico Department of Agriculture to plan, design and construct a storage building for East Arriba Soil and Water Conservation District. The District expended and received the \$45,000 during the fiscal year. The District expended all the appropriation. Also, the appropriation was on a cost reimbursement basis therefore no monies need to revert.
- h) Since the project was approved on a cost reimbursement basis, no separate fund or bank account was required.
- i) We determined that reimbursements requests were properly supported by costs incurred by the District. We determine that the costs were incurred by the District prior to the request for reimbursement.

Procedures

If information comes to the IPA's attention (regardless of materiality) indicating any fraud, illegal acts, noncompliance, or any internal control deficiencies, such instances must be disclosed in the report as required by Section12-6-6 NMSA 1978. The finding must include the required contents per Section 2.2.2.1-(1) (3) (C) NMAC.

Findings

No exceptions or information were noted as a result of applying the procedures described above (regardless of materiality) indicating fraud, illegal acts, or any internal control deficiencies.

We were not engaged to, and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion in accordance with AT-C 215.35. Accordingly, we do not express such an opinion. Had we preformed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of East Rio Arriba Soil and Water Conservation District, the New Mexico State Auditor's Office and the DFA-Local Government Division and New Mexico State Legislature and is not intended to be and should not be used by anyone other than those specified parties.
