INDEPENDENT AUDITORS' REPORT

Mr. David King, Chair and Members of the Board of Supervisors
Edgewood Soil and Water Conservation District and
Mr. Hector Balderas, State Auditor of New Mexico

We were engaged to audit the accompanying financial statements of the governmental activities, the general fund and the respective budgetary comparison of the Edgewood Soil and Water Conservation District (District) as of and for the year ended June 30, 2010 which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management.

We discovered a significant number of transactions for which sufficient audit evidence could not be located. Furthermore, the District has not maintained adequate accounting records for the year ended June 30, 2010 and we were unable to apply procedures to determine whether the opening balances in the financial statements as of July 1, 2009 were fairly presented in conformity with accounting principles generally accepted in the United States of America or whether the accounting principles have been consistently applied between 2009 and 2010.

Since the District did not maintain adequate records and we were unable to apply other auditing procedures to satisfy ourselves about the opening balances in the financial statements as of July 1, 2009 or about the consistent application of accounting principles between 2009 and 2010, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the financial statements referred to in the first paragraph.

The District has omitted the Management's Discussion and Analysis (MD&A) which is required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by GASB who considers it to be an essential part of financial reporting for placing basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

In accordance with *Governmental Auditing Standards*, we have issued a report dated August 1, 2013 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

I. Summary of Significant Accounting Policies

A. Reporting Entity

The Edgewood Soil and Water Conservation District (District) is organized under the provisions of the Soil and Water Conservation District Act (73-20-25 through 73-20-49 NMSA 1978). The District is a governmental subdivision of the state, a public body corporate and politic, organized for control and prevention of flood, sediment, and soil erosion damage, and to further the conservation, development and beneficial use of water and soil resources. The governing body of the District consists of five elected supervisors, two of whom must be landowners in the District. Two additional supervisors may be appointed to the District board. Supervisors serve a term of three years and continue in office until a successor is elected or appointed.

The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations whose exclusion from the financial reporting entity would cause the financial statements to be misleading.

A primary government is any state government or general-purpose local government and the organizations comprising its legal entity. Although the District is organized as a subdivision of the State and administratively attached to the New Mexico State University Department of Agriculture, the statutory powers of the District establish it as a primary government with a separate corporate and legal identity. The District has no component units, financially dependent affiliates, nor is it legally liable for actions of other agencies.

The District participates in a Memorandum of Understanding for Watershed Health and Restoration in the Estancia Underground Water Basin. The Edgewood, East Torrance, Claunch-Pinto and Ciudad Soil and Water Conservation Districts work separately and collectively on restoration conservation practice implementation of each project in their respective district in accordance with the rules of the fiscal administering entity and funding source. There is no financial arrangement and modifications to this agreement can be made at any time by mutual consent of the participants. Any district can withdraw from this MOU at any time after Supervisory Board action and written notification to the remaining districts.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The District, a phase three government, was required to implement GASB Statement 34, *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments* in fiscal year 2004. To enhance the usefulness of the financial statements, the significant policies of the District are summarized below.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. However, the District does not have any fiduciary or business-type activities.

STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

The statement of activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Property tax receivables are recognized in the government-wide statements net of estimated refunds and uncollectible amounts in the period the taxes are levied, even if not available. The governmental fund financial statements exclude the portion of property taxes that are not available. Taxes, and similar items are not recognized as revenue because they are not both available and measurable (reasonable estimable) as per GASB Statement 33 requires. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, if any, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds:

The general fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

As a general rule, the effect of interfund activity, if applicable, has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally designated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities, and Net Assets or Fund Balance

1. Cash and Investments

The District's cash and cash equivalents are considered to be demand deposits and short term investments (certificates of deposit) with original maturities of three months or less are presented as investments in the financial statements.

State statutes authorize the District to invest in obligations of the U.S. Treasury, repurchase agreements, and certificates of deposit. Investments for the government, if applicable, are reported at fair value.

2. Receivables

The District receives mill-levy property tax revenue from the counties of Bernalillo, Santa Fe, and Torrance. The taxes are collected by the respective county treasurer and are paid to the District monthly; therefore, no allowance for doubtful accounts is recorded.

3. Inventory

Inventory consisting primarily of materials and supplies held for consumption on a first-in, first-out basis. They are reported at cost, which is recorded as an expenditure at the time the individual inventory items are used.

4. Accounts Payable

The District's accounts payable represent routine monthly bills for services rendered and products purchased which are paid in the following month.

5. Capital Assets

Capital assets, which include property, equipment and software, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by state law as assets with an initial cost of \$5,000 and an estimated useful life of more than one year. The total amounts spent for construction, if any, are capitalized and reported in the government-wide financial statements. For donations, the government values these capital assets at the estimated fair value of the item at the date of acquisition. The cost of normal maintenance and repairs that do not add to the value or extend the life of the asset are not capitalized.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

Property and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

Building	39 years
Equipment	5-14 years

6. Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. Vacation pay accrued as of June 30, 2010 was \$8,586.

According to District policy, employees accrue leave at 3.08 hours per pay period if employed less than three years, increasing to 3.69 hours for less than seven years, 5.54 hours for less than eleven years, 6 hours for less than fifteen years, and 6.30 hours for 15 or more years. Employees may not carry more than 240 hours forward from one calendar year to the next.

7. Net Assets and Fund Balance

The difference between the District's assets and liabilities is its net assets. The District's net assets consist of two components – invested in capital assets, which is the cost of capital assets, net of accumulated depreciation and unrestricted net assets.

In fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation and/or are legally restricted by outside parties for use for a specific purpose.

II. Stewardship, Compliance and Accountability

A. Budgetary Information

The budget is prepared on a basis that differs from accounting principles generally accepted in the United States of America (GAAP). GAAP basis revenues and expenditures include accrued amounts. The revenues and expenditures reported in the budgetary comparisons are generally recorded on the cash basis. The District uses the following procedures to establish the budgeted amounts reflected in the budgetary comparisons:

1. Prior to April 1, the Budget Committee submits to the District Board of Supervisors a proposed revenue and expenditure budget for the fiscal year beginning July 1.
2. The Board reviews the budget proposal and makes any necessary adjustments.
3. Prior to June 1, the Board approves the budget by passing a resolution.
4. Prior to June 20, the approved budget is submitted to the State of New Mexico, Department of Finance and Administration, Local Government Division (DFA-LGD) for approval by the first Monday of September. The Board receives notice of the approved budget.

The legal level at which actual expenditures may not exceed budgeted expenditures is at the total fund level. The Board can revise its budget with the approval of DFA-LGD. Encumbrance accounting is not utilized by the District.

EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

III. Detailed Notes on all Funds

A. Cash and Investments

As of June 30, 2010, the District's total carrying amount of deposits was \$174,737. The bank balances were fully covered by federal depository insurance. The locations and amounts deposited at each of the financial institutions are as follows:

	Wells Fargo Bank	First Community Bank	Total
Demand deposits per bank	\$ 188,306	4,615	192,921
Less: FDIC insurance	(250,000)	(250,000)	(500,000)
Uninsured balance	\$ (61,694)	(245,385)	(307,079)
Certificates of deposit	24,897	-	24,897
Less: FDIC insurance	(24,897)	-	(24,897)
Uninsured balance	-	-	-
Total uninsured balances	\$ -	-	-
Total uninsured balance	\$ -	-	-
Security requirement (6-10-17 NMSA)	50%	50%	50%
Total security required	-	-	-
Total security pledged at market value	-	-	-
Collateral security excess (deficiency)	\$ -	-	-

Custodial Credit Risk – Deposits

Custodial Credit Risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

B. Capital Assets

Capital asset activity for the year ended June 30, was as follows:

Description	2009	Additions	Deletions	2010
Capital assets not being depreciated				
Land	\$ 606,716	-	-	606,716

Building	\$ (64,667)	(20,978)	-	(85,645)
Equipment	(41,543)	(12,660)	-	(54,203)
Vehicles	(19,478)	(6,151)	-	(25,629)
Total accumulated depreciation	(125,688)	(39,789)	-	(165,477)
Capital assets, net	\$ 1,301,434	(39,789)	-	1,261,645

Depreciation For the year ended June 30, 2010 was \$39,789.

C. Long-Term Debt

Long-term debt activity for the year ended June 30, 2010 was as follows:

Description	2009	Additions	Deletions	2010	Amount Due Within One Year
NMFA Mortgage	\$ 377,133	-	(15,589)	361,544	19,114

Description	2009	Additions	Deletions	2010	Amount Due Within One Year
Compensated absences	\$ 8,939	4,234	4,587	8,586	8,586

During the fiscal year ended June 30, 2007, the District entered into a mortgage agreement with New Mexico Finance Authority in the amount of \$427,511 for their agricultural and office building project. The term of this loan is twenty years and carries a 2.35% interest rate. The outstanding principal balance at June 30, 2010 is \$361,544.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

Minimum principal payments are as follows:

	<u>Principal</u>	<u>Interest</u>
2011	19,114	8,667
2012	19,480	8,302
2013	19,868	7,916
2014	20,278	7,506
2015	20,714	7,072
2016-20	110,901	28,046
2021-25	125,480	13,501
2026	25,709	635
\$	<u><u>361,544</u></u>	<u><u>81,645</u></u>

The interest for the year ended June 30, 2010 was \$12,192.

The debt service payments for the NMFA mortgage payable will be liquidated by the general fund.

Compensated absences, when they are paid, will be liquidated by the general fund. The balance expected to be used in the current period is unknown.

D. Operating Lease Commitments

On September 22, 2008, the District entered into a 36 month lease commitment on a Sharp copier. The current monthly rental is \$237. Approximately \$2,844 was expended in the current fiscal year.

As of June 30, 2010 future minimum lease payments for the copier for the following fiscal years is as follows:

2011 \$	2,133
---------	-------

E. Fund Balance Reservations and Designations

The District's net assets as of June 30, 2010 consisted of \$164,686 unrestricted net assets and \$927,230 invested in capital assets.

F. Cost - Share Program

In June 2001 the District implemented a cost-share program that the District will fund on its own. The purpose of the program is to share the cost of conservation projects with farms, ranches and urban stewardship projects on small acreages and will also provide cost share for other projects within the District. The District will share up to 50% of the cost of a conservation project depending on the type of project and criteria established for farms, ranches and urban stewardship projects. The District will share up to 75% of the cost for brush removal.

STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010

IV. Other Information

A. Employee Retirement Benefits

Plan Description. Substantially all of the District's full time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides retirement, disability and survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, New Mexico 87504-2123.

Funding Policy. Plan members are required to contribute 7.00% of their gross salary. The District is required to contribute 7.00% of the gross salary. The contribution requirements of plan members and the District are established in Chapter 10, Article 11 NMSA 1978. The requirements may be amended by acts of the legislature. The District's contributions to PERA for the year ended June 30, 2010, 2009, and 2008 are \$5,029, \$4,833 and \$6,064 respectively, equal to the amount of required contributions each year.

B. Other Employee Benefits

As of June 30, 2010, the District's employees are not offered a deferred compensation plan or any post employment benefits.

C. Risk Management

The District is exposed to various risks of loss due to torts, theft or damage of assets, errors and omissions and natural disasters. The District's supervisors and employees are covered by an errors and omissions liability policy purchased by the New Mexico State University, Department of Agriculture, to which the District is administratively attached. The limits for this policy are \$1,000,000 for each wrongful act and \$1,000,000 for the policy aggregated. The District is required to obtain a corporate surety bond on behalf of persons responsible for District assets. The District currently maintains a \$5,000 surety bond as well as commercial property coverage. The District has not sustained any losses during the last several years and is not a defendant in any lawsuit.

D. Related Party Transactions

During the fiscal year the District paid \$18,806 to a Board member for her services as a contract bookkeeper. Two family members of the District Manager were paid \$7,787 for contract services during the fiscal year. No amounts were due to or from related parties at year-end.

E. Other Financing Sources

The District had no other financing sources for the year ended June 30, 2010.

**Report on Internal Control Over Financial Reporting And On Compliance
And Other Matters Based On An Audit Of Financial Statements Performed
In Accordance With *Government Auditing Standards***

Mr. David King, Chair and Members of the Board of Supervisors
Edgewood Soil and Water Conservation District and
Mr. Hector Balderas, State Auditor of New Mexico

We have audited the financial statements of the governmental activities, the general fund, the aggregate remaining fund information, and the respective budgetary comparison for the general fund of the Edgewood Soil and Water Conservation District (District) as of and for the year ended June 30, 2010 and have issued our report dated August 1, 2013. We did not express an opinion on the respective financial position of the governmental activities, the general fund, and the aggregate remaining fund information of the District, as of June 30, 2010, and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the District is responsible for establishing and maintaining effective control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal , we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material

We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses. 06-02, 06-04, 06-10 through 06-17, 06-21, 06-24, 07-01, 07-03, 08-01, 09-01 and 09-02.

A significant deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses to be significant deficiencies. 05-01 through 09-03, as identified on schedules of status of findings.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items 05-01, 06-02, 06-11, 06-24, 09-01, and 09-03.

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the New Mexico Office of the State Auditor, the New Mexico State University – Department of Agriculture, the New Mexico State Legislature, the New Mexico Department of Finance and Administration and applicable grantors and is not intended to be and should not be used by anyone other than these specified parties.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

**05-01—LACK OF SUPPORT FOR TRAVEL EXPENSE REIMBURSEMENT
VOUCHERS**

Statement of Condition

Out of 10 items tested, 5 travel expense reimbursement vouchers totaling \$1,097.78 lacked supporting documentary evidence. We also noted expenditures in Sam's Club for \$1,991.60 and in the Travel account of \$809.54 which there was no business purpose documented for groceries, supplies, and meals.

Criteria

Pursuant to the Per Diem and Mileage Act 10-8-5 NMSA 1978, the Department of Finance and Administration has issued "Regulations Governing the Per Diem and Mileage Act," which are part of the New Mexico Administrative Code, at 2.42.2 NMAC. These regulations establish the permissible reimbursement rates. These regulations also require travel vouchers and supporting schedules and documents to conform to the policies and procedures manuals issued by the Financial Control Division of the Department of Finance and Administration. Travel should be properly approved and authorized, supporting receipts submitted and proper rates paid in accordance with approved guidelines.

Cause

The District is not following the guidelines for the Per Diem and Mileage Act.

Effect

The District is not in compliance with Per Diem and Mileage Act. The District may be paying unallowable costs.

Recommendation

The District should make sure they are in compliance with the Per Diem and Mileage Act.

Management Response

Travel expenses are no longer being reimbursed for employees. A travel account has been opened, and all travel will be documented through this account.

**06-02—BOARD OF SUPERVISORS NOT RECEIVING FINANCIAL
INFORMATION TIMELY**

Statement of Condition

The District's Board of Supervisors has not been provided balance sheets and statement of activities and other financial information on a timely basis.

Criteria

In order for the governing board to fulfill their fiduciary duty of properly monitor the financial activities of the organization; they need timely, accurate financial information.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

Effect

The governing board does not have the ability to fulfill their fiduciary responsibility duties to the organization.

Cause

The financial information is not being completed in a timely manner.

Recommendation

Financial information such as monthly balance sheets, statements of activities as well as aging schedules of payables and receivables should be reviewed by the governing board or some subset of the board in a timely manner.

Management Response

The current fiscal year budget and all transactions will be entered into QuickBooks Accounting, and all reporting will be by QuickBooks reports only. These reports will be distributed to the Board of Supervisors at least 1 week prior to every board meeting. These will consist of: Statement of Net Assets, Statement of Activities, and Statement of Revenues & Expenditures Budget & Actual along with a bank reconciliation.

06-04—CASH DISBURSEMENTS MISSING SUPPORTING DOCUMENTATION

Statement of Condition

Out of 64 items tested, 5 totaling \$3,148.67 did not have documents to support the purchase.

Criteria

Proper accounting policies and internal control procedures require that supporting information be provided to verify that a purchase is consistent with the policies of the District in accordance with 6-6-3 NMSA 1978.

Cause

The District is not monitoring its purchases to be consistent proper accounting and internal control procedures.

Effect

Unauthorized purchases could be made.

Recommendation

We recommend that all cash disbursements are not made until the proper supporting documentation is provided for that purchase.

Management Response

All invoices will be sent to the District Office, located at 2506 Route 66, Box 1050, Moriarty, NM 87035 to the District Manager's attention. Once received, the District Manager will review and verify purchase and sign for payment, and then submit to bookkeeper for payment. Bookkeeper will then attach to invoice for signature, then payment. No payment will be made without supporting documentation. (No

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

handwritten notes – no quotes - must be detailed invoice)

06-10—LAND OWNERS DO NOT SIGN-OFF ON FINAL PAY REQUEST IN COST SHARE PROGRAM

Statement of Condition

The District has a Cost Share Program that partners the organization with a private landowner on a land improvement project. Per our review of these Cost Share agreements, we have noted there is no sign off by the participating land owners to certify that he or she agrees that the documentation of costs involved in the project are accurate and are properly associated with the project.

Criteria

Good business procedures dictate that the parties involved in an agreement the responsibility each party has for the project and to certify the accuracy of the costs involved.

Effect

The District may run the risk that the reimbursement of costs associated with a Cost-Share project may not be accurate.

Cause

The District may not have considered including these type of certifying signatures.

Recommendation

We recommend that the Cost Share agreements be reviewed to improve the accountability and responsibility aspects of the agreement.

Management Response

Management and Technical staff have constructed a final payment signature page for use on every cost-share payment implemented for fiscal year ending 6/30/2011.

06-11—INSURANCE AND PERA PAYMENTS NOT MADE TIMELY OR IN CONSISTENT AMOUNTS

Statement of Condition

Our review of payments for insurance and PERA throughout the year disclosed 5 payments out of 30 totaling \$1,034.40 that were inconsistent in the amounts and timing. The payments could not be tied to invoices or statements we reviewed.

Criteria

Routine expenses such as insurance and PERA payments should be paid on a routine basis and the disbursements should contain supporting documentation that can easy to follow to ensure proper amounts were paid.

Effect

The difficulty of following the supporting documentation for these payments calls into

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

question the internal controls for proper review and authorization of disbursements. This issue indicates high risk that the controls over disbursements are not working adequately.

Cause

It appears the controls over disbursements need to be improved.

Recommendation

We recommend the controls over disbursements be improved.

Management Response

Bookkeeper was in the hospital. Although payroll was done the insurance and PERA payments were not paid until later. The inconsistency was caused by trying to catch up. Both are now up to date as of fiscal year ending 6/30/2011.

06-12—CHECKS WRITTEN TO PAY INVOICES FOR VENDORS AND SUPPLIERS ARE MAILED BY PERSON WHO PREPARES THE CHECK

Statement of Condition

The person who writes the checks to pay invoices for vendors and suppliers are mailed by the person who signs the checks.

Criteria

There is opportunity for the person who prepares the checks to have the checks signed by an authorized signer to redirect the checks to a different vendor or different account at the same vendor, thereby embezzling funds.

Effect

The risk for abuse of disbursements is high because of the weakness in controls.

Cause

This issue may not have been previously reviewed.

Recommendation

We recommend the segregation of duties and checks and balances associated with disbursements be reviewed and improved to reduce the risk of malfeasance.

Management Response

This is being addressed and will be changed.

06-14—PAYROLL CONTROLS

Statement of Condition

During our testing of controls of the payroll function, we determined there is no independent review of payroll to monitor the accuracy of pay rates, proper deductions, timely payroll tax deposits and payroll reporting to the state and federal tax authorities.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

Criteria

Payroll is one of the most significant areas of cash disbursements and strong segregation of duties or compensating controls to monitor the accuracy of this function is highly important.

Effect

Errors or opportunity for fraud is at high risk in this area because of the weakness in internal controls and segregation of duties.

Cause

Internal controls in this area may not have been considered.

Recommendation

We recommend the internal controls or compensating controls be improved in the payroll function.

Management Response

This has been changed, controls will be improved.

06-15—INDEPENDENT CONTRACTOR PROCUREMENT WEAKNESSES

Statement of Condition

We noted that a board member provided accounting services totaling \$18,978.71 to the District as an independent contractor but the annual increases paid to her were not authorized.

Criteria

Controls over procurement and authorization of professional services should be documented and implemented. The documentation and implementation of professional services from related parties takes on additional importance to avoid the appearance of a conflict of interest in providing services.

Effect

Abuse in the area of procurement and payment to independent contractors is at a higher risk without proper procurement controls and proper authorization.

Cause

Unknown.

Recommendation

We recommend that the District's procurement policies and procedures be reviewed and updated and implemented.

Management Response

Although the Board minutes did not document that raises were approved by the Board, the Board ratified the Personnel Committee's recommendation. Better documentation will be done in the Board minutes.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

06-16—CHANGING PRIOR YEAR TRANSACTIONS

Statement of Condition

During our review of the audit trail report in the District's QuickBooks, we noted that there was a prior period entry of \$66,927.80 to cash and retained earnings for grants.

Criteria

When changes to an entry are made, the original entry should not be altered without an adequate audit trail. It is strongly recommended that a subsequent correcting entry be made rather than changing the original entry.

Effect

Altering transactions in the general ledger indicates a lack of internal controls and will affect the subsequent year's reconciliation of net assets as balance sheet amounts have been altered any oversight and activity and net assets/fund balance amounts cannot be relied on.

Cause

It appears to be a lack of training and monitoring of recording transactions properly in the general ledger or possibly malfeasance.

Recommendation

Altering original entries in the general ledger should be prohibited. If changes need to be made to original entries, an audit trail should be created with memos that explain why the changes were made. If these changes affect prior years, the adjustment should include changes to the equity account so the reconciliation of net assets can be transparent rather than covered up.

Management's Response

This process will be changed.

**06-17—CASH DISBURSEMENTS—LACK OF SEGREGATION OF DUTIES/
INTERNAL CONTROL WEAKNESSES**

Statement of Condition

During our interviews about the organization's internal controls and subsequent testing of internal controls of cash disbursements, we determined the following weaknesses:

The Accountant does the following or has the opportunity to:

1. Prepare checks in the accounting software
2. Access to the check stock
3. Print out the checks or manually write
4. Does not prepare a proper reconciliation of the bank accounts
5. No one reviews the monthly bank reconciliations

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

Criteria

Professional auditing standards as illustrated in Statement on Auditing Standard (SAS) 112 and its appendix require strong internal controls and these deficiencies and weaknesses are required to be disclosed to management and the governing board.

The combination of control deficiencies and lack of segregation of duties increases the opportunity for material misstatements in the financial statements and/or fraud has collectively resulted in a material weakness for the District and has contributed to the auditor's disclaimer of an opinion.

Improving internal controls reduces the opportunity for mistakes or errors to take place or to be identified and corrected in a timely manner and for reducing the opportunity for fraud to take place.

Effect

Because one person has control over all of the areas cited in the "Statement of Condition" above, and the lack of monitoring, the opportunity is significantly high to misappropriate funds and/or make errors through cash disbursements that may go undetected because of the weak control activities associated with lack of safeguarding of cash and the lack of monitoring of the bank account.

Cause

Controls have not been put in place.

Recommendation

The District must implement segregation of duties and other controls to reduce the risk of fraud and material error in the financial statements.

Management Response

The official mailing address for the Edgewood SWCD is PO Box 1050. Box 1049 will no longer be listed to receive mail for the District. All bills will go directly to the District Manager for verification of purchase and signature. An invoice will then be attached to the approved bills and given to bookkeeper. Bookkeeper will write checks, and have 2 board members sign voucher and checks. Copies of checks and bills will be made and placed with original voucher, and bills mailed. Original vouchers with attached documentation will be given back to District Manager for filing at District Office.

06-18—NEW MEXICO GROSS RECEIPTS TAX PAID ON EXEMPT PURCHASES

Statement of Condition

The District paid New Mexico gross receipts taxes on 4 transactions totaling \$1,466.84 that are exempt from gross receipts tax.

Criteria

Governmental agencies are exempt from NMGRT on the purchase of tangible personal

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

property in accordance with 7-9-54 NMSA 1978.

Cause

Personnel who made the purchases were not aware of the exemption or did not review the purchase documentation to ascertain that NMGRT was not applied to the transaction.

Effect

The District overpaid for certain purchases.

Recommendation

We recommend that the District inform all employees of the policy regarding the exemption from NMGRT and also review all purchases to ensure that NMGRT is not included in the purchase.

Management Response

District Manager will submit required forms to all vendors to establish tax exempt status.

06-21—POOR BUDGET CONTROLS

Statement of Condition

Actual expenditures exceeded budgeted expenditures within a category in the General Fund for the following amounts:

Conservation	\$	(92,105)
Meetings		(1,765)
Office		(2,488)
Payroll and benefits		(2,127)
Professional services		(14,287)
Travel and fuel		(14,860)
Interest payments - debt service		(181)

Although the legal level of the budgetary control is at the total fund level, the negative balances by accounts indicates that budgets are not being properly monitored and adjusted throughout the year.

At the total fund level, the District overspent the approved budget by \$123,981.

Criteria

The monitoring and adjusting the budget throughout the year is one of the most important controls over expenditures that an organization has.

Effect

Expenditures of the organization can be improperly posted or budget overruns can occur.

Cause

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

It appears to be lack of monitoring of the District for possible budget overruns.

Recommendation

Management should review the financial statements on a timely basis, ask questions about variances that are out of line of expectations, and make adjustments to budget line items when appropriate.

Management Response

Bookkeeper will submit full financial reports to the Board of Supervisors monthly prior to board meeting with a budget report showing year to date expenditures to ensure that expenditures do not exceed budget.

06-24—AUDIT REPORT NOT SUBMITTED TIMELY

Statement of Condition

The District audit reports for the years ended June 30, 2009, 2010, and 2011 were not completed by the required due date of December 1st per the NM State Audit Rule nor by December 1, 2012 per our signed contract.

Criteria

Audit reports rejected and not resubmitted before the due date are considered to be late submissions under 2.2.2.9 E of the NM State Audit Rule.

Effect

Information was not timely audited and reviewed by management and the board and has caused problems with the District's ongoing need for audited financials to make informed management decisions and to submit audited financials for the purpose of pursuing grants.

Cause

The District was unable to obtain its prior audit timely and did not have its books and records ready for their audits.

Recommendation

The District should ensure its books and records are ready to be audited.

Management Response

Delays in issuance of the prior year audits and turnover in the District led to the late audits. The District is prepared to catch up 2009-2011, 2012, and 2013 audits this year.

07-01—FLEET FUEL PURCHASES NOT PROPERLY APPROVED

Statement of Condition

Three out of three fuel purchases tested totaling \$1,170.51 showed that the payments were made from a statement that did not identify the employees that made the purchases, the business purpose of the purchases and lacked proper approval. Receipts did not accompany the statement.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

Criteria

U.S. generally accepted accounting principles dictate sound controls for significant activities such as procurement. In addition, in most instances state procurement policies require proper authorization by District personnel prior to the commitment of District funds in accordance with 6-6-3 NMSA 1978.

Cause

The District is not reviewing its purchases for proper approval.

Effect

The District may be paying for purchases that are not obligations of the District.

Recommendation

We recommend that the District review all purchases for correct details and proper approval of the purchases.

Management Response

Every transaction for fuel purchase currently is being tracked by Fleet Fuel. Each employee has their own pin or each vehicle, and mileage reading for specific vehicle must be entered into the system prior to purchasing fuel.

07-03—LACK OF APPROVAL FOR SERVICES OF RELATIVES

Statement of Condition

The children of the manager were hired to perform contractual “day labor” services without proper approval on the purchase voucher and the checks totaling \$7,787.06 were endorsed by the manager.

Criteria

U.S. generally accepted accounting principles dictate sound controls for significant activities such as procurement. In addition, in most instances state procurement policies require proper authorization by District personnel prior to the commitment of District funds in accordance with 6-6-3 NMSA 1978.

Cause

The District is not reviewing its purchases for proper approval in accordance with State procurement requirements.

Effect

The District may be paying for services without proper authorization in violation of the State procurement code.

Recommendation

We recommend that the District review all payments for proper approval of the purchases.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

Management Response

At the time that manager signed checks, children were under age, and did not have a checking account. They are now over the age of 18.

The manager no longer signed the “time cards.” Day to day supervision was done by the Technician, therefore she signed and approved the work completed. If she was not available, the Chairman signed and approved.

08-01— BANK ACCOUNTS AND RECONCILIATIONS

Statement of Condition

Certain bank statements and reconciliations were not on file for 2010. The District had 2 CD accounts totaling \$24,897.06, a Grant bank account with \$12,040.85 and a Travel bank account with \$5,000.00 that were not reconciled during the year. Transactions were not always recorded in QuickBooks under the proper cash account. Unreconciled cash amounts are being reported to NM Department of Finance Administration’s (DFA) Local Government Division (LGD). Additionally, no bank statements were able to be located on file for the First Community Bank grant account and 5 of 37 voided checks could not be located. The District was able to provide bank statements obtained from financial institutions during the audit.

Criteria

Bank statements and reconciliations should be reviewed and properly filed and available for review by the auditors. NM State Statutes NMSA 6-6-3 defines that it is the local public body’s duty keep books, records, and accounts. NMSA 6-3A-9 requires quarterly reports to be submitted to DFA within 30 days month end based on actual performance, including reconciled cash balances. Additionally, NMSA 6-10-2 states it is the duty of every public official or agency of this state that receives or disburses public money to maintain a cash record in which is entered daily, in detail, all items of receipts and disbursements of public money. The cash record shall be balanced daily so as to show the balance of public money on hand at the close of each day’s business. Except as may be otherwise provided by law, the cash record is a public record and is open to public inspection.

Effect

Crucial information was not available for review by the auditors and is considered a scope limitation that has impact on the opinion given on the audited financial statements.

Cause

The bank statements appeared to have been misplaced. The District experienced turnover and these accounts have not been corrected/reconciled.

Recommendation

Controls over the cash function should be improved. In addition to the reviews currently being performed on financial statements and bank statements, we recommend that the District ensure proper training, knowledge of bookkeeping and cash requirements.

**STATE OF NEW MEXICO
EDGEWOOD SOIL AND WATER CONSERVATION DISTRICT**

**SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2010**

Management Response

All correspondence is now being sent to the official location of the Edgewood District, which is to PO Box 1050, including bank information.

Bank statements are now being opened by the Secretary/Treasurer and signed prior to copying for each board member to review at each board meeting.

09-01 – LACK OF SUPPORT AND TIMELINESS OF DEPOSITS

Statement of Condition

Out of 13 deposits tested, 9 totaling \$172,016.58 lacked supporting documentation. Additionally, we noted that the District is not making deposits by the close of the next business day.

Criteria

Proper accounting policies and internal control procedures require that supporting information be provided to verify that records are consistent with the policies of the District in accordance with 6-6-3 NMSA 1978.

Per the State of New Mexico Manual of Model Accounting Practices, Section FIN2.1-8 and Sections 6-10-2, 3, 13, NMSA 1978, agencies must deposit all monies received with the STO or with the authorized banking institution by the close of the next business day after receipt.

Effect

Untimely deposits leave the District vulnerable to misappropriations of funds.

Cause

The District was unaware of this requirement.

Recommendation

We recommended that the District implement controls to ensure monies are deposited into a banking institution by the close of the next business day.

Management Response

Checks are collected for seed, tree and book sales. Deposits are made when collected. If during a large tree or seed sale, deposits are held until the end of the sale to ensure all stock is picked up. In cases where the stock may not be picked up for different reasons, the checks are returned uncashed to the landowner.

09-02 – LACK OF CONTROLS OVER FINANCIAL REPORTING

Statement of Condition

According to Statement on Auditing Standards (SAS) 115 identification by the auditor of a material misstatement of the financial statements under audit, in circumstances that indicate that the misstatement would not have been detected by the entity's internal

FOR THE YEAR ENDED JUNE 30, 2010**

control, is considered a material weakness. Specifically, in FY09, the audit resulted in material adjustments to Accounts Receivable of \$47,424, Due to Other Entities/Cash \$12,041, and Grant Revenue \$66,928. Additionally, the financial statements and related disclosures are not being prepared by the District.

Criteria

Some of the key underlying concepts of SAS 115 include:

- The auditor cannot be part of a client's internal control because becoming part of a client's internal control impairs auditor independence;
- The auditor's work is independent of the client's internal control over financial reporting, and the auditor cannot be a compensating control for the client; and
- A system of internal control over the financial reporting does not stop at the general ledger – it includes controls over the presentation of the financial statements.

Recording adjustments is considered a significant process of internal control and should be performed by District staff. The District's system of internal control should include controls over financial statement preparation, including footnote disclosure.

Effect

An internal control weakness in maintaining the general ledger exists because material adjustments were identified by the auditor and not by District staff. As a result, periodic financial statements reviewed by management and the governing body may be materially inaccurate. Insufficient controls over the preparation of financial statements and related disclosures limits the District's ability to prevent or detect a misstatement in its financial statements.

Cause

Internal control procedures were not effective in identifying and correcting material errors. The District does not have the personnel or time to prepare the financial statements and related disclosures.

Recommendation

We recommend that the District make adjustments to their general ledger in a timely manner and receive training on bookkeeping and financial reporting.

Management Response

We concur with the independent auditors' recommendations and plan to strengthen our adjusting journal entry internal controls, in addition to acquiring appropriate training for staff.

09-03 – SOCIAL SECURITY COVERAGE

Statement of Condition

The District participates in Public Employees Retirement Association (PERA), which constitutes a qualified retirement plan. Because the District is affiliated with PERA but not covered by any modification, they did not have authority to withhold Social Security taxes. As a result, during 2010-2012, employees were reimbursed \$22,086 and gave

FOR THE YEAR ENDED JUNE 30, 2010**

authorization to the District to file for refunds from the IRS. In February 2012, the District was reimbursed \$40,859.

Criteria

As a general matter, a public employer which participates in a qualified retirement plan may only provide Social Security coverage to its employees through a modification to the State's Section 218 Agreement with the federal government.

Effect

The District improperly withheld Social Security taxes and had to reimburse employees and file for refunds.

Cause

The District was unaware of this requirement.

Recommendation

We recommend that the District ensure proper training and knowledge of payroll requirements.

Management Response

Once the District was made aware of the rule from PERA in 2011, staff held an election of coverage, and both staff members waived the social security inclusion, and have been reimbursed as of February 2012.
