Independent Auditor's Report

Mr. Hector Balderas
State Auditor of the State of New Mexico
Board Members of the LEA SOIL & WATER CONSERVATION DISTRICT

Mr. Balderas and Members of the Board

We have audited the accompanying financial statements of the governmental activities the general fund and the budgetary comparison of the Lea Soil & Water Conservation District (District), as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and with standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller of General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly in all material respects, the respective financial position of the governmental activities and each major fund and the aggregate remaining fund information of the District as of June 30, 2008, and the respective changes in its financial position and the respective budgetary comparisons for major governmental funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The District has not presented the Management's Discussion and Analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the basic financial statements and budgetary comparisons presented as supplemental information.

In accordance with *Government Auditing Standards*, we have also issued a report dated July 30, 2009 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Lea Soil and Water Conservation District (District) is organized under the provisions of the Soil and Water Conservation District Act (73-20-25 through 73-20-49 NMSA 1978). The District is a governmental subdivision of the state, a public body corporate and politic, organized for control and prevention of flood, sediment, and soil erosion damage, and to further the conservation, development and beneficial use of water and soil resources. The governing body of the District consists of five elected supervisors, four of whom must be landowners in the district. Two additional supervisors may be appointed to the district board. The Board of Supervisors has chosen to not appoint the two additional supervisors. Supervisors serve a term of three years and continue in office until a successor is elected or appointed.

The financial reporting entity as defined by GASB 14 consists of the primary government, organizations for which the primary government is financially accountable and other organizations whose exclusion from the financial reporting entity would cause the financial statements to be misleading.

A primary government is any state government or general-purpose local government and the organizations comprising its legal entity. Although the District is organized as a subdivision of the State and administratively attached to the New Mexico State University, Department of Agriculture, the statutory powers of the District establish it as a primary government with a separate corporate and legal identity. The District has no component units, financially dependent affiliates, nor is it legally liable for actions of other agencies.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). To enhance the usefulness of the financial statements, the significant policies of the District are summarized below.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets) report information on all of the non fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to significant extent on fees and charges for support. However, the District does not have any fiduciary or business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) sales of chemicals to customers, equipment rental to customers and rental of the building to the FSA office of the federal government. and 2) contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. State grants, interest income and other items are not properly included among program revenues are reported instead as general revenues.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statement are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, if any are recorded only when payment is due.

Grants and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds:

The general fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Private-sector standards of accounting and financial reporting issued after November 30, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

As a general rule, the effect of interfund activity, if applicable, has been eliminated from the government-wide financial statements. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities, Net Assets and Fund Balance

Cash and Investments

The District's cash consists of demand deposits. State statutes authorize the District to invest in certificates of deposit and the State Treasurer's Local Government Investment Pool. The State Treasurer's Local Government Investment Pool is not SEC registered. Section 6-10-10 I through 6-10-10 P and Sections 6-10-10.1 A and E, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in short-term investment fund in securities that are issued by the United States government or by its department or agencies and are either direct obligations of the United States or are backed by the full faith and credit of the United States government or agencies sponsored by the United States government. The Local Government Investment Pool investments are monitored by the same investment committee and the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month, all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the fund amounts were invested. Participation in the local government investment pool is voluntary. The investments are carried at fair value based on quoted market prices as of the valuation date.

Restricted Assets

The New Mexico Finance Authority (NMFA) Loan Agreement Reserve Account is set aside as restricted assets on the balance sheet because they are maintained in a separate bank account and their use is limited by NMFA's Governmental Unit Resolution No. 02-03.

Capital Assets

Capital assets, which include property, equipment (including software), farm equipment and furniture are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by state law as assets with an initial cost of \$5,000 and an estimated useful life of more than one year. The total amounts spent for construction, if any, are capitalized and reported in the government-wide financial statements. For donations, the government values these capital assets at the estimated fair value of the item at the date of acquisition. The cost of normal maintenance and repairs that do not add to the value or extend the life of the asset are not capitalized.

Property and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

Building	39 years
Equipment	7 years

Accounts payable

The account payable as of the balance sheet date includes routine monthly bills for services rendered and products purchased which are paid in the following month.

Compensated Absences

The District employee does not earn annual vacation or sick leave.

Net Assets and Fund Balance

The difference between the District's assets and liabilities is its net assets. The District's net assets consist of four components — invested in capital assets, which is the cost of capital assets, net of accumulated depreciation, restricted for the benevolence fund, restricted for the loan program and unrestricted net assets. In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation and/or are legally restricted by outside parties for use for a specific purpose. A portion of the fund balance has been reserved for the loan program. The loan program resources have been classified as restricted assets on the Statement of Net Assets because their use is restricted by the lender.

II. Stewardship, Compliance and Accountability

A. Budgetary Information

The budget is prepared on a basis that differs from accounting principles generally accepted in the United States of America (GAAP). GAAP basis revenues and expenditures include accrued amounts. The revenues and expenditures reported in the budgetary comparisons are generally recorded on the cash basis. The District uses the following procedures to establish the budgeted amounts reflected in the budgetary comparisons:

1. Prior to April 1, the Budget Committee submits to the District Board of Supervisors a proposed revenue and expenditure budget for the fiscal year beginning July 1.

STATE OF NEW MEXICO
LEA SOIL AND WATER CONSERVATION DISTRICT
 Notes to the Financial Statements
 June 30, 2008

2. The Board reviews the budget proposal and makes any necessary adjustments.
3. Prior to June 1, the Board approves the budget by passing a resolution.
4. Prior to June 20, the approved budget is submitted to the State of New Mexico, Department of Finance and Administration, Local Government Division (DFA-LGD) for approval by the first Monday of September. The Board receives notice of the approved budget.

The legal level at which actual expenditures may not exceed budgeted expenditures is at the total fund level. The Board can revise its budget with the approval of DFA-LGD. There were no changes made to the budget during the fiscal year. Encumbrance accounting is not utilized by the District.

B. Reconciliation of Non-GAAP Budgetary Basis to GAAP Basis Financial Statements

The Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - all Governmental Fund Types is presented on the budgetary basis to provide a comparison of actual results with the budget. The major differences between the budget basis and GAAP (Generally Accepted Accounting Principles) basis are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- B. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).

The adjustments necessary to convert the results of operations for the year from GAAP basis to the budget basis for the governmental funds are presented on each individual Statement of Revenues, Expenditures, and Changes in Cash Balance - Budget and Actual (Budgetary Basis).

Reconciliations are located at the bottom of each budget actual.

III. Detailed Notes on all Funds

A. Cash and Investments

Western Commerce Bank

Account Name	Account Type	Bank Balance	Reconciled Balance
Lea Soil & Water Conservation District	Checking	\$ 54,024	\$ 49,898
	Total	54,024	49,898
	Less: FDIC coverage	(54,024)	
	Amount uninsured	\$ 0	

The difference between the bank balance and the reconciled balance is outstanding deposits, outstanding checks and pending bank adjustments.

Custodial Credit Risk — Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of June 30, 2008, none of the Districts bank balances were exposed to custodial credit risk.

STATE OF NEW MEXICO
LEA SOIL AND WATER CONSERVATION DISTRICT
Notes to the Financial Statements
June 30, 2008

B. Investments

The District has implemented GASB Statement No. 31 "Accounting and Financial Reporting for Certain Investments." This statement requires that certain investments as defined in GASB Statement No. 31 to be valued at fair value. Fair value is based on quoted market prices as of the valuation date. The change in fair value is recognized as a component of investment income in the current year.

As of June 30, 2008 the District's investment balances were as follows:

Account Name	Type of Investment	Name of Broker	Reconciled balance at 6/30/2008
Cash & Money Market	Money Market Account	Edward Jones	\$ 20,076
Bonds	US Government and Agency Securities: FHLMC	Edward Jones	34,027
Bonds	Assets & Mortgage Backed Securities: GNMA POOL	Edward Jones	9,830
	Total unrestricted investments		<u>\$ 63,933</u>
U.S Treasury-Restricted	Dividends Ap Inst US Treasury FD #0042	Bank of Albuquerque	<u>\$ 29,270</u>

Calculation of the net increase in the fair value of investments during the year:

Fair value at June 30, 2008	\$ 93,203
Add: Proceeds of investment sold	2,887
Less: Cost of investments purchased	0
Less: Fair value at June 30, 2007	<u>(88,613)</u>
Decrease in fair value of investments	<u>\$ 7,477</u>

Custodial Credit Risk-Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterpart, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2008 the \$63,933 of unrestricted investments and \$29,270 in restricted investments are held by the investments' counterparties, not in the name of the District. The District has no policy with respect to how much of its investments may be held by a given counterparty.

Interest Rate Risk. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits the District's investments to bonds or negotiable securities of the United States, the State of New Mexico, or a county, municipality or school district that meet certain criteria and securities that are issued by the United States government or by its agencies or instrumentalities and that are either direct obligations of the United States, or are backed by the full faith and credit of the United States government. The District has no investment policy that would further limit its investment choices. As of June 30, 2008, the District's investments in U.S. Government agency securities (FHLMC) were rated Aaa by Moody's Investors Service and AAA by Standard & Poor's and Fitch Ratings.

STATE OF NEW MEXICO
LEA SOIL AND WATER CONSERVATION DISTRICT
Notes to the Financial Statements
June 30, 2008

Concentration of Credit Risk. The District places no limit on the amount the District may invest in any one issuer. More than 5% of the District's investments are in Federal Home Loan Mortgage Corporation. These investment are 36.5% of the District's total investments.

C. Capital Assets

	Balance 6/30/07	Additions	Deletions	Balance 6/30/08
Capital Assets, being Depreciated				
Land	\$ 15,578	\$ 0	\$ 0	\$ 15,578
Equipment	6,250	0	0	6,250
Building	354,604	0	0	354,604
Total Capital Assets, being Depreciated	<u>376,432</u>	<u>0</u>	<u>0</u>	<u>376,432</u>
Less Accumulated Depreciation				
Equipment	4,986	893	0	5,879
Building	43,945	9,092	0	53,037
Total Accumulated Depreciation	<u>48,931</u>	<u>9,985</u>	<u>0</u>	<u>58,916</u>
	<u>\$ 327,501</u>	<u>\$ (9,985)</u>	<u>\$ 0</u>	<u>\$ 317,516</u>

Depreciation expense was charged to governmental activities as follows:

Conservation	\$ 9,985
Total depreciation expenses	<u>\$ 9,985</u>

D. Long-Term Debt

	Balance 6/30/07	Reductions	Balance 6/30/08	Current Amount Due
NMFA Loan	221,688	18,582	203,106	19,378
Total Notes Payable	<u>\$ 221,688</u>	<u>\$ 18,582</u>	<u>\$ 203,106</u>	<u>\$ 19,378</u>

Note Payable

On July 30, 2002 the District entered into a loan agreement with the New Mexico Finance Authority (NMFA) to finance its office building. The amount of the loan was \$304,190 at 4.599% for twenty years with annual principal and interest payments of approximately \$29,165.

Year Ending June 30,	Principal	Interest	Total
2009	\$ 19,378	\$ 9,791	\$ 29,169
2010	20,235	8,935	29,170
2011	21,151	8,022	29,173
2012	22,419	6,746	29,165
2013	23,555	5,610	29,165
2014-2017	96,368	9,912	106,280
	<u>\$ 203,106</u>	<u>\$ 49,016</u>	<u>\$ 252,122</u>

IV. Other Information

A. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the state and federal governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures that may be disallowed by the grantor cannot be determined at the time, although the government expects such amounts, if any, to be immaterial.

B. Employee Benefits

The District does not provide its employee any pension plan, deferred compensation plan or post-employment benefits.

C. Risk Management

The District is exposed to various risks of loss due to torts, theft or damage of assets, errors and omissions and natural disasters. The District's supervisors and employees are covered by an errors and omissions liability policy purchased by the New Mexico State University, Department of Agriculture, to which the District is administratively attached. The limits for this policy are \$1,000,000 for each wrongful act and \$1,000,000 for the policy aggregated. The District is required to obtain a corporate fidelity bond on behalf of persons responsible for District assets. The District currently maintains a \$10,000 fidelity bond on its Program Director and Board of Supervisors. The District has not sustained any losses during the last several years and is not a defendant in any lawsuit.

Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed
In Accordance with *Government Auditing Standards*

Mr. Hector Balderas
State Auditor of the State of New Mexico
Board Members of the LEA SOIL & WATER CONSERVATION DISTRICT

Mr. Balderas and Members of the Board

We have audited the financial statements of the governmental activities, the general fund and the budgetary comparison of the Lea Soil & Water Conservation District, (District), as of and for the year ended June 30, 2008, and have issued our report thereon dated July 30, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing the auditing procedures for the purpose of expressing opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a certain deficiency in internal control over financial reporting that we consider to be significant deficiency.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control. We consider the deficiency described in the accompanying schedule of findings and responses to be a significant deficiency in internal control over financial reporting as item 07-1.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weakness. However, we believe that the significant deficiency described above is not a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and which are described in the accompanying schedule of findings and responses as item 07-02, 07-3, 07-4 and 07-5.

The District's response to the finding in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the New Mexico State University-Department of Agriculture, New Mexico Legislature and its committees, the Office of the State Auditor and the New Mexico Department of Finance and Administration - Local Government and is not intended to be and should not be used by anyone other than these specified parties.

De'Ann Willoughby CPA PC

July 30, 2009

STATE OF NEW MEXICO
LEA SOIL AND WATER CONSERVATION DISTRICT
 Schedule of Findings and Responses
 June 30, 2008

Prior Year Audit Findings

	Status
07-1 Preparation of Financial Statements	Repeated
07-2 Late Audit Report	Repeated
07-3 Department of Labor Payments	Repeated
07-4 Inadequate Maintenance of Deductions, Pay Schedules, Personnel Files	Repeated
07-5 Failure to File Tax Form 941	Repeated

Current Year Audit Findings

07-1 Preparation of Financial Statements

Condition

The individuals responsible for the accounting functions for the District lacks the skills and knowledge to apply generally accepted accounting principals in preparing the entity's financial statements. The accounting management has not obtained training to adequately apply the generally accepted accounting principals, which includes GASB 34 and subsequent pronouncements. The Financial statements were prepared by the auditor.

Criteria

Statement on Accounting Standards (SAS) 112, Communication of Internal Control Related Matters Identified in an Audit, requires that management clearly accept responsibility for preparing all financial information and company's financial statements.

Effect

Individuals, without the aid of its auditors, are unable to accurately prepare the District's financial statements in accordance with the accounting standards with the regard to apply generally accepted accounting principals.

Cause

Individuals responsible for the accounting and reporting functions for the District have not received training relating to the preparation of the District's financial statements in accordance with GASB (Governmental Accounting Standards Board) Statement No 34 and subsequent pronouncements.

Recommendation

We recommend the District's accounting management receive training relating to the preparation of the District's financial statements in accordance with generally accepted accounting principles. This would give the accounting management responsible for the accounting and reporting functions the skills and knowledge to apply generally accepted accounting principals to the financial statements.

Response

The District will continue to accept the assistance of the auditors in preparing the financial statements in accordance with GASB (Governmental Accounting Standards Board) Statement No 34 and subsequent pronouncements. The district will continue to seek the training to obtain the skills and knowledge to prepare the District's financial statements.

07-2 Late Audit Report

Condition

The audit report was filed after the due date. The report was submitted on 08/04/09 to the State Auditor's Office.

Criteria

According to the State Auditor Rule 2.2.2.9 (d), the audit report due date for the District is December 1.

Effect

The users of the financial statements such as legislators, creditors, bondholders, state and federal grantors, etc., do not have timely audit reports and financial statements for their review. Late audit report could have an effect on state and federal funding.

Cause

The District did not contract with the auditor until after the due date of the audit report.

Recommendation

The District should make every effort to hire an auditor and complete their audit timely.

Response

We will make an effort to solicit an auditor and complete our audit timely.

07-3 Department of Labor Payments

Condition

The Quarterly reports could not be found to determine if they were filed timely.

Criteria

According to New Mexico Department of Labor regulations all wages paid to employees are to be reported quarterly. Also, any wages paid over the taxable base rate of \$17,900 are to be considered excess wages and reported as such on the quarterly report.

Effect

The District could be subject to additional taxes and penalties.

Cause

Documents were not kept in a orderly fashion and the employee was unable to locate the documents.

Recommendation

We recommend that the District keeps important documents in organized and designated area to be easily found when requested and to ensure the timeliness of filing.

Response

Management Agrees.

07-4 Inadequate Maintenance of Deductions, Pay Schedules, Personnel Files

Condition

During our test work of payroll and payroll related reports we noted the employee's did not include proper I-9 form documentation, W-4's and authorized deductions.

Criteria

The Immigration Reform and Control Act of 1986 requires all employees hired after November 6, 1986 to complete a Form I-9 within 3 days of hire. This form is to be retained for three years after the date of hire or one year after employment ends, whichever is later.

Effect

The District is not in compliance with the Immigration Reform & Control Act of 1986 and could be subject to penalties and fines.

Cause

The District was unaware of this regulation and requirement to obtain and maintain forms.

Recommendation

The District must require all employees to complete the necessary forms and retain the necessary documents in each employee's personnel file. In addition, the District should make periodic checks to

Response

Management Agrees.

07-5 Failure to File Tax Form 941**Condition**

The District could not produce to us the 941 Quarterly reports to determine if they were filed timely.

Criteria

IRS Tax Code Title 29 requires the filing of Form 941 after each quarter reporting wages paid employer payroll taxes to be paid.

Effect

The District is in violation of the IRS Tax Code Title 29 and subject to the penalties set within for failure to file Form 941.

Cause

The District failed to file the Form 941 on time.

Recommendation

The District must implement controls to ensure that compliance to all IRS Tax Code requirements are adhere to completely.

Response

Management Agrees.

Financial Statement Preparation

The financial statements were prepared by De'Aun Willoughby CPA. However, they are the responsibility of management.

Exit Conference

An exit conference was held on July 30, 2009. Those present were Brent Van Dyke-Chairman, Rhea Howe-Vice Chairman, Donna Rowland-Administrative Assistant and De'Aun Willoughby, CPA.
