### INDEPENDENT AUDITOR'S REPORT

Wayne Johnson, State Auditor  
And  
Board of Directors  
South Central New Mexico Council of Governments  
Elephant Butte, New Mexico

#### Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the budgetary comparisons for the general fund and major special revenue funds of the South Central New Mexico Council of Governments, as of and for the year ended June 30, 2018, and the related notes to the financial statements which collectively comprise the South Central New Mexico Council of Governments' basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the South Central New Mexico Council of Governments as of June 30, 2018, and the respective changes in financial position and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that information related to the South Central New Mexico Council of Governments' pension plan presented on pages 28 to 30 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the South Central New Mexico Council of Governments' financial statements that collectively comprise the Council's basic financial statements. The schedules presented as other supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2018, on our consideration of the South Central New Mexico Council of Governments' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreement and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the South Central New Mexico Council of Governments' internal control over financial reporting and compliance.

	<u>\$ 827,475</u>	<u>\$ 529,160</u>	<u>\$ 1,356,635</u>
Total expenditures			
Revenues over (under) expenditures	\$ 40,725	\$ (21,434)	\$ 19,291
Other financing sources (uses):			
Transfer in			-
Transfer out			-
	<u>\$ 40,725</u>	<u>\$ (21,434)</u>	<u>\$ 19,291</u>
Net change in fund balance			
Fund balance, July 1, 2017	<u>235,982</u>	<u>(2,903)</u>	<u>233,079</u>
Fund balance, June 30, 2018	<u>\$ 276,707</u>	<u>\$ (24,337)</u>	<u>\$ 252,370</u>

The accompanying notes are an integral part of these financial statements.

South Central New Mexico Council of Governments  
**RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES AND CHANGES IN FUND BALANCES OF  
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**  
June 30, 2018

Net change in fund balances- total governmental funds	\$	19,291
 <i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense:		
Capital outlay		-
Depreciation expense		(6,181)
 Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. This is the net change during the year:		
Membership dues subject to the 60 day availability period		5,640
Intergovernmental grants subject to the 60 day availability period		21,434
 Governmental funds report pension contributions as expenditures. However in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense		
Pension contributions		60,295
Cost of benefits earned net of employee contributions		(162,855)
 Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the Statement of Activities, a gain or loss is reported for each disposal. This is the basis in the assets disposed of.		
		-
 Some expense reported in the Statement of Activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. This is the net change in compensated absences for the year.		
		<u>(13,025)</u>
 <i>Change in Net Position of Governmental Activities</i>	 \$	 <u><u>(75,401)</u></u>

The accompanying notes are an integral part of these financial statements.

South Central New Mexico Council of Governments  
**NOTES TO FINANCIAL STATEMENTS**  
For The Year Ended June 30, 2018

Note 1      Summary of Significant Accounting Policies

The South Central New Mexico Council of Governments (COG) is recognized as a regional council of planning and development district as designated by the Governor. In accordance with the Planning District Act (4-45-4 NMSA 1978), the Council members include municipalities, school systems, counties, individuals and other government related organizations. The COG's operations are solely within the discretion and control of the governing board.

The Council of Governments was organized to provide assistance in long-range planning and local administration of State and Federal funds, and operates under the Board of Directors executive director form of government. It provides the following services to its member: 1) help and assistance in formulation of long-range goals, 2) help in obtaining grants for specific purposes, 3) compilation of regional statistical reports and 4) administration of various state programs at the local level.

The Council of Government's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The accounting and reporting framework and the more significant accounting policies established in GAAP and used by the Council of Governments are discussed below:

**A. REPORTING ENTITY**

These financial statements present the Council of Governments (the primary government). As defined by Generally Accepted Accounting Principles, component units are legally separate entities that are included in the Council of Government's reporting entity because of the significance of their operating or financial relationships with the Council of Governments. Based on the criterion in Generally Accepted Accounting Principles, the Council of Governments had no component units.

**B. BASIS OF PRESENTATION**

*Government-wide Financial Statements:*

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The Council of Governments has no business-type activities, nor any fiduciary funds.

### *Fund Financial Statements:*

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into one major category: governmental. An emphasis is placed on major funds within the governmental categories. A fund is considered major if it is the primary operating fund of the Council of Governments or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type.
- b. Other funds management feels are significant.

The funds of the financial reporting entity are described below:

### **Governmental Funds**

#### *General Fund*

The General Fund is the primary operating fund of the Council of Governments and always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

#### *Special Revenue Funds*

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

#### *Major-Fund Description*

*General Fund – See the description above*

#### *Workforce Investment Act Fund (WIA)*

The SCCOG serves as the fiscal agent and also as the administrative entity for the Southwestern Area Workforce Development Board (SAWDB). SAWDB coordinates workforce and youth activities in the local area and administers Workforce Investment funds. The fiscal agent and administrative entity financial activity is maintained in the WIA Fund, which is a Special Revenue Fund.

## **C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

## **Measurement Focus**

In the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as defined in item “b” below.

In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used.

- a. All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets, deferred outflows of resources, liabilities and deferred inflows of resources are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The government-wide financial statements utilize an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets, deferred outflows of resources, liabilities and deferred inflows of resources (whether current or noncurrent) associated with their activities are reported. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from non-exchange transactions are recognized when the earnings process is complete.

## **Basis of Accounting**

The government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred or when the economic asset is used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Derived taxes are recognized when the exchange takes place, and grants are recognized when all eligibility requirements are met.

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. “Available” means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Substantially all governmental fund revenues are accrued. In applying GASBS No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as deferred outflows of resources by the provider and deferred inflows of resources by the recipient. Grant revenues not collected within 60 days of year end are recorded as receivables and deferred inflows of resources. Such amounts are recorded net of estimated uncollectible amounts.

In the government-wide Statement of Net Position, the governmental activities columns

(a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Council of Government's net position is reported in three parts – net investment in capital assets, restricted net position; and unrestricted net position. The Council of Governments first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Council of Government's functions. The functions are also supported by general government revenues (certain intergovernmental revenues, and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function, and are typically charges for services. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function) are normally covered by general revenue (intergovernmental revenues, interest income, etc.).

The Council of Governments does not allocate indirect costs.

This government-wide focus is more on the sustainability of the Council of Governments as an entity and the change in the Council of Government's net position resulting from the current year's activities.

#### **D. BUDGETS**

The budget for the General and Special Revenue Funds are prepared by management and are approved by the members of the Board, and the New Mexico Department of Finance and Administration.

These budgets are prepared on the GAAP modified accrual basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year.

Actual expenditures may not exceed the budget on a by fund basis. Budgets may be amended in two ways. If a budget transfer is necessary within a fund, this may be accomplished with only local Board approval. If a transfer between "funds" or a budget increase is required, approval must also be obtained from the Department of Finance and Administration.

The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

#### **E. CASH AND INVESTMENTS**

Cash includes amounts in demand deposits as well as short-term investments with a maturity of six months from the date acquired by the government. State statutes authorize the government to invest in obligations of the U.S. Treasury, interest-bearing accounts with local financial institutions and the State Treasurer Pool.

New Mexico Statutes require that financial institutions with public monies on deposit pledge collateral, to the owners of such monies, in an amount not less than 50% of the

public monies held on deposit. Collateral pledged is held in safekeeping by other financial institutions, with safekeeping receipts held by the Council of Governments. The pledged securities remain in the name of the financial institution.

## **F. INTERFUND RECEIVABLES AND PAYABLES**

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Short-term inter-fund loans are reported as “interfund receivables and payables”. Inter-fund receivables and payables between funds within governmental activities and between funds within business-type activities are eliminated in the Statement of Net Position. All inter-fund receivables and payables are eliminated in the total primary government column in the Statement of Net Position.

## **G. RECEIVABLES**

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include grants.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available.

## **H. CAPITAL ASSETS**

Capital assets purchased or acquired with an original cost of \$5,000.00 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Furniture and equipment	5-10 years
-------------------------	------------

The accounting treatment over property, plant and equipment depends on whether they are reported in the government-wide financial statements or fund financial statements. In the government-wide financial statements, fixed assets are accounted for as capital assets. In the fund financial statements, fixed assets are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

**I. COMPENSATED ABSENCES**

The Council of Government’s policies regarding vacation time permit employees to accumulate earned but unused vacation leave. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources.

**J. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statements element, deferred outflows of resources, represents consumption of net position that applies to a future period, and so will be recognized as an outflow of resources (expenses/expenditures) then. The Government has deferred outflows of resources related to pensions as discussed in Note 6.

In addition to liabilities, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statements element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenues) until that time. The Government has one type of item, which arises under the modified accrual basis of accounting, that qualify for reporting in this category. Accordingly, the item unavailable revenue, is reported in the governmental funds balance sheet. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The Government reports unavailable revenue from the following sources:

	<u>Governmental Funds</u>		
	<u>General Fund</u>	<u>WIA Funds</u>	<u>Total</u>
Receivables not collected within 60 days of year-end	<u>\$ 10,126</u>	<u>\$ 24,336</u>	<u>\$ 34,462</u>

Finally, the Government has deferred inflows of resources related to pensions as discussed in Note 6.

**K. EQUITY CLASSIFICATIONS**

*Government-wide Statements*

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - all other net position that do not meet the definition of “restricted” or “net investment in capital assets, net of related debt.”

### *Fund Statements*

The Council of Governments has implemented GASB Statement 54 “Fund Balance Reporting and Governmental Fund Type Definitions”. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Non-spendable fund balance – amounts that are not in a spendable form (such as inventory) or are required to remain intact.
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance – amounts constrained to specific purposes by the government itself, using its highest level of decision-making authority, to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change its constraints.
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the government body delegates the authority.
- Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

The Board of Directors establishes (and modifies or rescinds) fund balance commitments by adoption of a resolution or a vote of the Board. This is typically done through the adoption and amendment of the budget. Assigned fund balance is established by the Board of Directors through adoption or amendment of the budget as intended for a specific purpose (such as purchase of fixed assets, construction, debt service or for other purposes). Expenditures incurred are normally paid from the highest constrained fund balance.

## **L. INTERFUND ACTIVITY**

Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are netted as a part of the reconciliation to the government-wide financial

statements. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

**M. USE OF ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 Custodial Credit Risk

Custodial credit risk is the risk in the event of a bank failure the government's deposits may not be returned to it. The government does not have a deposit policy for credit risk beyond that disclosed in Note 1. As of June 30, 2018, \$-0- of the governments bank balance of \$155,243 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$	-0-
Uninsured and collateral held by pledging banks trust department not in Council's name		<u>-0-</u>
Total	\$	<u><u>-0-</u></u>

	<u>Bank Balance</u>	<u>Carrying Amount</u>
Deposits by custodial risk category:		
Insured	<u>\$ 155,243</u>	<u>\$ 135,010</u>

Note 3 Capital Assets

The following is summary of capital asset activity during the fiscal year:

	<u>Balance July 1, 2017</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance June 30, 2018</u>
Capital Assets Being Depreciated:				
Equipment	<u>\$ 183,125</u>	<u>\$ -0-</u>	<u>\$ -0-</u>	<u>\$ 183,125</u>
Total capital assets being depreciated	<u>\$ 183,125</u>	<u>\$ -0-</u>	<u>\$ -0-</u>	<u>\$ 183,125</u>
Less accumulated depreciation For:				
Equipment	<u>\$ (152,221)</u>	<u>\$ (6,181)</u>	<u>\$ -0-</u>	<u>\$ (158,402)</u>

Capital assets, net \$ 30,904 \$ (6,181) \$ -0- \$ 24,723

Depreciation expense was charged to the governmental activities as follows:

General government \$ 6,181

Note 4      Compensated Absences

Compensated absence activity was as follows for the year ended June 30, 2018:

	<u>Balance</u> <u>July 1, 2017</u>	<u>Additions</u>	<u>Retire-</u> <u>ments</u>	<u>Balance</u> <u>June 30, 2018</u>	<u>Due In</u> <u>One Year</u>
Compensated absences	<u>\$ 48,181</u>	<u>\$ 46,954</u>	<u>\$ 33,929</u>	<u>\$ 61,206</u>	<u>\$ -0-</u>

The amount of compensated absences due within the next year are not estimable. The liabilities will be paid from the fund which is charged with the employee as a direct cost, and will be paid from available funds. Typically, the general fund bears the majority of compensated absences cost.

Note 5      Risk Management

The Council of Governments is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Council of Governments has purchased private insurance to mitigate these risks. No settlements have exceeded coverage in the last three years.

Limits of coverage are as follows:

\$1,000,000	Liability
\$ 27,000	Property
\$1,000,000	Auto

Note 6      Pension Plan – Public Employees Retirement Association

Summary of Significant Accounting Policies

**Pensions** – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Mexico Public Employees Retirement Association (PERA) and additions to/deductions from PERA’s fiduciary net position have been determined on the same basis as they are reported by PERA, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## General Information about the Pension Plan

**Plan Description** – The Public Employees Retirement Fund (PERA Fund) is a **cost-sharing, multiple employer defined benefit pension plan**. This fund has six divisions of members, including State, General, State Police/Adult Correction Officer, Municipal General, Municipal Police/Detention Officers, Municipal fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the PERA Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), and the provisions of Sections 29-4-1 through 29-4-11, NMSA 1978 governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the PERA Fund.

PERA issues a publicly available financial report and a comprehensive annual financial report that can be obtained at <http://saonm.org/> using the Audit Report Search function for agency 366.

**Benefits Provided** – For a description of the benefits provided and recent changes to the benefits see Note 1 in the PERA audited financial statements for the fiscal year ended June 30, 2017 available at [http://www.pera.state.nm.us/pdf/AuditFinancialStatements/366\\_Public\\_Employees\\_Retirement\\_Association\\_2017.pdf](http://www.pera.state.nm.us/pdf/AuditFinancialStatements/366_Public_Employees_Retirement_Association_2017.pdf).

**Contributions** – The contribution requirements of defined benefit plan members and the South Central New Mexico Council of Governments (COG) are established in state statute under Chapter 10, Article 11, NMSA 1978. The contribution requirements may be amended by acts of the legislature. For the employer and employee contribution rates in effect for FY17 for the various PERA coverage options, for both Tier I and Tier II, see the tables available in the note disclosures on page 40 of the PERA FY17 annual audit report at [http://osanm.org/media/audits/366\\_Public\\_Employees\\_Retirement\\_Association\\_2017.pdf](http://osanm.org/media/audits/366_Public_Employees_Retirement_Association_2017.pdf). The PERA coverage options that apply to The Council of Governments are the Municipal General. Statutorily required contributions to the pension plan from the Council of Governments were \$60,295 for the year ended June 30, 2018.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:** The PERA pension liability amounts, net pension liability amounts, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2016. The PERA pension liability amounts for each division were rolled forward from the valuation date to the Plan year ending June 30, 2017, using generally accepted actuarial principles. Therefore the employer's portion was established as of the measurement date June 30, 2017.

The assets of the PERA fund are held in one trust, but there are six distinct membership groups (municipal general members, municipal police members, municipal fire members, state general members, state police members and legislative members) for whom separate contribution rates are determined each year pursuant to Chapter 10, Article 11 NMSA 1978. Therefore, the calculations of the net pension liability, pension expense and deferred Inflows and Outflows were performed separately for each of the membership groups: municipal general members; municipal police members; municipal fire members; state general

members; state police members and legislative members. The Council of Government's proportion of the net pension liability for each member group that the employer participates in is based on the employer contributing entity's percentage of that membership group's total employer contributions for the fiscal year ended June 30, 2017. Only employer contributions for the pay period end dates that fell within the period of July 1, 2016 to June 30, 2017 were included in the total contributions for a specific employer. Regular and any adjustment contributions that applied to FY 2017 are included in the total contribution amounts. In the event that an employer is behind in reporting to PERA its required contributions, an estimate (receivable) was used to project the unremitted employer contributions. This allowed for fair and consistent measurement of the contributions with the total population. This methodology was used to maintain consistent measurement each year in determining the percentages to be allocated among all the participating employers.

**For PERA Fund Division** – Municipal General, at June 30, 2018, the Council of Governments reported a liability of \$887,659 for its proportionate share of the net pension liability. At June 30, 2017, the Council of Government's proportion was .0646 percent, which was .0146 percent more than its proportion of .05 percent measured as of June 30, 2016.

For the year ended June 30, 2018, the Council of Governments recognized PERA Fund Division Municipal General pension expense of \$162,855. At June 30, 2018, the Council of Governments reported PERA Fund Division Municipal General deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 34,879	\$ 45,463
Changes of assumptions	40,934	9,173
Net difference between projected and actual earnings on pension plan investments	72,827	
Changes in proportion and differences between the Authority contributions and proportionate share of contributions	207,453	4,104
The Authority's contributions subsequent to the measurement date	<u>60,295</u>	<u>-</u>
Total	<u>\$ 416,388</u>	<u>\$ 58,740</u>

\$60,295 reported as deferred outflows of resources related to pensions resulting from Authority contributions subsequent to the measurement date June 30, 2017 will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2019	\$ 105,049
2020	160,469
2021	53,118
2022	(21,283)

**Actuarial Assumptions** – As described above, the PERA Fund member group pension liabilities and net pension liabilities are based on actuarial valuations performed as of June 30, 2016 for each of the membership groups. Then each PERA Fund member group pension liability was rolled forward from the valuation date to the Plan year ending June 30, 2017 using generally accepted actuarial principles. There were no significant events or changes in benefit provisions that required an adjustment to the roll-forward liabilities as of June 30, 2017. These actuarial methods and assumptions were adopted by the Board for use in the June 30, 2017 actuarial valuation.

Actuarial valuation date	June 30, 2016
Actuarial cost method	Entry age normal
Amortization method	Level percentage of pay
Amortization period	Solved for based on statutory rates
Asset valuation method	Fair value
Actuarial assumptions:	
Investment rate of return	7.48% annual rate, net of investment expense
Payroll growth	2.25% for 10 years, then 2.75% thereafter
Projected salary increases	Up to 11.25%
Includes inflation at	2.25% for 10 years, and 2.75% thereafter

The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

ALL FUNDS – Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global	43.50%	7.39%
Risk Reduction and Mitigation	21.5%	1.79%
Credit Oriented Fixed Income	15.0%	5.77%
Real Assets	<u>20.0%</u>	<u>7.35%</u>
Total	<u>100.0%</u>	

**Discount Rate** – The discount rate used to measure the total pension liability was 7.51 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan’s fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASBS 67.

**Sensitivity of the Council of Government’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** – The following tables show the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present the Council of Government’s net pension liability in each PERA Fund Division that the Council of Government’s participate in, under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower (6.51%) or one percentage point higher (8.51%) than the single discount rate.

	<u>1%</u> <u>Decrease</u>	<u>Current</u> <u>Discount</u> <u>Rate</u>	<u>1%</u> <u>Increase</u>
<b>PERA Fund Division Municipal General</b>	<u>(6.51%)</u>	<u>(7.51%)</u>	<u>(8.51%)</u>
The Council of Government’s proportionate share of the net pension liability	<u>\$ 1,391,255</u>	<u>\$ 887,659</u>	<u>\$ 468,849</u>

**Pension Plan Fiduciary Net Position** – Detailed information about the pension plan’s fiduciary net position is available in the separately issued FY17 PERA financial report. The report is available at <http://www.pera.state.nm.us/publications.html>

Note 7 Post-Employment Benefits – State Retiree Health Care Plan

The South Central Council of Governments does not participate in the Retiree Health Care Plan.

Note 8 Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

Note 9 Interfund Transactions

	<u>Interfund Receivable</u> <u>General Fund</u>
<u>Interfund Payables</u>	
WIA	<u>\$ 122,437</u>

The loans were made to fund operating expenses, and are expected to be paid within one year.

There were no interfund transfers during the fiscal year.

Note 10 Deficit Fund Balances

The Council of Governments had the following fund balance deficits at June 30, 2018:

WIA	<u>\$ (24,337)</u>
-----	--------------------

These deficits were caused by either the application of the 60 day revenue recognition period required by the modified accrual basis of accounting or the timing of transfers to be made from the General Fund. As revenue is collected and/or the transfers are made, the deficits will be eliminated.

Note 11 Restricted Net Position

Net position restricted for other purposes had a zero balance at June 30, 2018.

Note 12 Evaluation of Subsequent Events

The Council of Governments has evaluated subsequent events through November 19, 2018, the date which the financial statements were available to be issued.

Note 13 Tax Abatement Disclosures

The County has no need to make any tax abatement disclosures as required by Governmental Accounting Standards Board Statement 77, since no abatements exist.

South Central New Mexico Council of Governments  
**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**  
For the Fiscal Year Ended June 30, 2018

**Change in benefit terms** – The PERA Fund COLA and retirement eligibility benefits changes in recent years are described in Note 1 of the PERA FY17 audit available at [http://www.pera.state.nm.us/pdf/AuditFinancialStatements/366 Public Employees Retirement Association 2017.pdf](http://www.pera.state.nm.us/pdf/AuditFinancialStatements/366%20Public%20Employees%20Retirement%20Association%202017.pdf).

**Changes of valuation** – The Public Employees Retirement Association (PERA) of New Mexico Annual Actuarial Valuation as of June 30, 2017 report is available at:

[http://www.pera.state.nm.us/pdf/Investment/RetirementFundValuationReports/6-30-2017%20PERA%20Valuation%20Report\\_FINAL.pdf](http://www.pera.state.nm.us/pdf/Investment/RetirementFundValuationReports/6-30-2017%20PERA%20Valuation%20Report_FINAL.pdf).

The Summary of Financial Information for the PERA Fund states the return on the actuarial value of assets was 11.1% compared to the expected return of 7.48%. The report indicates the total decrease to the unfunded actuarial accrued liability is \$890,154,980 and results in an increase to the funded ratio from 69.18% to 73.74%. For details about the actuarial assumptions, see the actuarial section of the report.

South Central New Mexico Council of Governments  
Elephant Butte, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the budgetary comparisons for the general fund and major special revenue funds of the South Central New Mexico Council of Governments as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the South Central New Mexico Council of Governments' basic financial statements, and have issued our report thereon dated November 19, 2018.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered South Central New Mexico Council of Governments' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the COG's internal control. Accordingly, we do not express an opinion on the effectiveness of the South Central New Mexico Council of Governments' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the South Central New Mexico Council of Governments' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**SCHEDULE OF FINDINGS AND RESPONSES**  
For the Fiscal Year Ended June 30, 2018

**SUMMARY OF AUDIT RESULTS**

1. The auditor's report expresses an unmodified opinion on the financial statements of South Central New Mexico Council of Governments.
2. No significant deficiencies relating to the audit of the financial statements are reported in the *Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards*.
3. No instances of noncompliance material to the financial statements of South Central New Mexico Council of Governments, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
4. South Central New Mexico Council of Governments expended less than \$750,000 in federal funds.

**FINDINGS – FINANCIAL STATEMENT AUDIT**

None

**OTHER – FINANCIAL STATEMENT PREPARATION**

The financial statements were prepared by Stone, McGee & Co., C.P.A.'s, with substantial help from management. However, the management of South Central New Mexico Council of Governments has acknowledged its responsibility for the financial statements and has taken responsibility for them.
