SUBJECT: Audit Report—The New Mexico Mortgage Finance Authority—2004-2005 Fiscal Year—Prepared by State Auditor's Office

Your agency audit report was received by the Office of the State Auditor (Office) on December 15, 2005. The State Auditor examination of the audit report required by Section 12-6-14 (D), NMSA 1978, has been completed. This letter is the authorization to make the final payment to the independent public accountant (IPA) who contracted to perform the agency's financial and compliance audit. In accordance with the Section 2 (B) of the audit contract, the IPA will deliver the specified number of copies of the audit to the agency.

As per your written request, this office is waiving the ten (10) day waiting period and is making the report public record immediately. The audit report will be:

- released by the Office of the State Auditor to the Legislative Finance Committee, the Department of Finance and Administration, and the State Treasurer; and
- presented by the agency to a quorum of the agency's governing authority at a public meeting, for approval, per Section 2.2.2.10.J.(3)(d) of 2.2.2 NMAC *Requirements for Contracting and Conducting Audits of Agencies*.

The independent public accountant's findings and comments are included in the audit report on pages 108 - 109. **It is ultimately the responsibility of the governing authority of the agency to take corrective action on all findings and comments.**

Independent Auditors' Report

Authority Members

New Mexico Mortgage Finance Authority:

We have audited the accompanying financial statements of the business-type activities of the New Mexico Mortgage Finance Authority, a component unit of the state of New Mexico, (the Authority) as of and for the years ended September 30, 2005 and 2004, which comprise the Authority's basic financial statements as listed in the accompanying table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Authority as of September 30, 2005 and 2004, and the respective changes in financial position and cash flows thereof, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2005 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis on pages 4 through 8 is not a required part of the financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

JK
12-28-05

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the financial statements. In addition, the schedule of pledged collateral is presented for purposes of additional analysis and is not a required part of the financial statements. The schedule of pledged collateral and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Management's Discussion and Analysis

September 30, 2005 and 2004

This section of the New Mexico Mortgage Finance Authority's (the Authority) annual financial report presents management's discussion and analysis of financial position and changes in financial position for the fiscal years ended September 30, 2005 and 2004. This information is being presented to provide additional information regarding the activities of the Authority and to meet the disclosure requirements of Government Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

The Authority is a self-supporting entity and follows enterprise fund reporting; accordingly, the financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Enterprise fund statements offer short-term and long-term financial information about the Authority's activities. This analysis should be read in conjunction with the Independent Auditors' Report, audited financial statements, and accompanying notes.

Comparison of Years Ended September 30, 2005 and 2004

The increase in cash and cash equivalents and restricted cash reflects increased securitized mortgage loans (MBS) and mortgage loan prepayments (payoffs) and excess revenues held at September 30, 2005 in anticipation of bond redemptions scheduled for January 1, as well as the \$99.3 million increase in the Authority's Draw Down facility maintained for the purpose of escrowing volume cap. The decrease in investments is primarily due to the shift from invested funds to liquid funds (i.e., cash, restricted cash and cash equivalents) in order to facilitate increased bond redemptions. The Authority purchased \$125.8 million in MBSs during the year; however, the low mortgage interest rates experienced during the year led to high MBS prepayments of \$159.7 million and whole loan prepayments of \$4.5 million, reflected in the \$27.3 million net decrease of MBS and mortgage loans receivable. The overall effect of these elements resulted in the 5% increase in total assets.

The effect of low interest rates over the past year is also a factor in the \$80.3 million net increase in bonds payable. Proceeds from the issuance and sale of bonds and note payable were \$652.5 million; however, bond repayments and refundings totaled \$569.4 million, resulting in a net increase for the year. This net increase in bonds payable was primarily the result of the increase in the Draw Down facility and the new bonds issued offset by the high level of mortgage loan prepayments as many borrowers refinanced their loans. The Authority received \$174.9 million repayments of securitized mortgage loans and \$13.9 million repayments of whole loans during the year.

NEW MEXICO MORTGAGE FINANCE AUTHORITY
(A Component Unit of the State of New Mexico)

Management's Discussion and Analysis

September 30, 2005 and 2004

The net increase in current assets of approximately \$79.8 million is primarily the result of an increase of \$99.3 million in the Authority's Draw Down facilities in order to escrow additional volume cap from prior bonds redeemed with prepayments. Similarly, the net increase in current liabilities of approximately \$73.6 million is primarily the result of the increase in Draw Down facility bonds.

Comparison of Years Ended September 30, 2004 and 2003

The increase in cash and cash equivalents and restricted cash reflects increased MBS and mortgage loan payoffs and excess revenues held at September 30, 2004 in anticipation of bond redemptions scheduled for January 1, as well as the \$154 million increase in the Authority's Draw Down facility maintained for the purpose of escrowing volume cap. The decrease in investments is primarily due to the shift from invested funds to liquid funds (i.e., cash, restricted cash, and cash equivalents) in order to facilitate increased bond redemptions. The Authority purchased \$203 million in MBSs during the year; however, the low mortgage interest rates experienced during the year led to high MBS prepayments of \$186 million and whole loan prepayments of \$8 million, reflected in the \$35 million net decrease of MBS and mortgage loans receivable. The overall effect of these elements resulted in the 2% increase in total assets.

The effect of low interest rates over the past year is also a factor in the \$49 million net increase in bonds payable. Proceeds from the issuance and sale of bonds and note payable were \$698 million; however, bond repayments and refundings totaled \$659 million, resulting in a net increase for the year. This net increase in bonds payable was primarily the result of the increase in the Draw Down facility and the new bonds issued offset by the high level of mortgage loan prepayments as many borrowers refinanced their loans. The Authority received \$233 million repayments of securitized mortgage loans and \$28 million repayments of whole loans during the year.

The net increase in current assets of approximately \$245 million is primarily the result of shortening of the term of the Authority's Draw Down facilities, totaling \$238 million, from a three-year term in 2003 to a one-year term in 2004. Similarly, the net increase in current liabilities of approximately \$236 million is primarily the result of a mandatory tender provision on the \$238 million of Draw Down facility bonds. This change in the term of the Draw Down facility bonds also caused the decreases in noncurrent assets and noncurrent liabilities from 2003 to 2004.

Change in Financial Position

The Authority's operating loss for the year increased by approximately \$5.0 million when compared to fiscal year 2004. The following table is a condensed summary of changes in net assets for the years ended September 30, 2005, 2004, and 2003 (in thousands):

	<u>2005</u>	<u>2004</u>	<u>2003</u>

Total net assets, end of year	<u>\$ 127,502</u>	<u>137,505</u>	<u>142,463</u>

Comparison of Years Ended September 30, 2005 and 2004

The change in fair value of securities for 2005 was a decrease of \$16.3 million compared to a decrease of \$9.7 million in 2004. This line represents a decrease in the overall fair value of investments, including securitized mortgage loans, held at September 30, 2005 compared to their fair value at September 30, 2004 due to current conditions as required by Governmental Accounting Standards Board Statement No. 31, *Accounting and Reporting for Certain Investments and for External Investment Pools* (GASB 31). The effect of the change from 2004 to 2005 is a decrease year over year of \$6.6 million. Without the GASB 31 adjustment, the increase in operating income was approximately \$1.6 million.

NEW MEXICO MORTGAGE FINANCE AUTHORITY
(A Component Unit of the State of New Mexico)

Management's Discussion and Analysis

September 30, 2005 and 2004

Operating revenues decreased \$3.4 million from 2004 to 2005, primarily due to the difference in the GASB 31 adjustment as described above. Without the adjustment, operating revenues were approximately \$3.2 million more than the prior year, as the low interest rate environment began to moderate, affecting mortgage interest revenue. Higher rate mortgages prepaid at a high rate, although not as high as in 2004, thereby reducing mortgage interest revenue by approximately \$1.2 million. However, as rates began to rise, interest revenue from investment securities increased over the prior year by approximately \$4.9 million, due to the increased volume of invested cash as loans continued to prepay.

Operating expenses increased by \$1.7 million, primarily due to the \$80.3 million increase in bonds payable discussed above, affecting the \$2.9 million increase in bond interest expense. Loss on early redemption of bonds, which is included in program expenses, decreased by approximately \$1.2 million due to decreased redemptions from prepayments in 2005.

Comparison of Years Ended September 30, 2004 and 2003

The change in fair value of securities for 2004 was a decrease of \$10 million compared to a decrease of \$6 million in 2003. This line represents a decrease in the overall fair value of investments, including securitized mortgage loans, held at September 30, 2004 compared to their fair value at September 30, 2003 as required by GASB 31. The effect of the change from 2003 to 2004 is a decrease year over year of \$4 million. Without the GASB 31 adjustment, the decrease in operating income was approximately \$0.7 million.

Operating revenues decreased \$14 million from 2003 to 2004, primarily due to the decrease in interest on mortgage loans and securitized mortgage loans and the GASB 31 adjustment as described above. Without the GASB 31 adjustment, operating revenues were approximately \$10 million less than the prior year, as the low interest rate environment affected mortgage interest revenue. Higher rate mortgages prepaid at an extremely high rate thereby reducing mortgage interest revenue by approximately \$11.5 million. However, despite lower rates, interest revenue from investment securities increased over the prior year by approximately \$0.6 million, due to the increased volume of invested cash as loans continued to prepay.

Operating expenses decreased by \$9.4 million. As discussed above, prepayments from higher rate mortgage loans propelled the redemption of higher rate bonds, while new bonds were issued at some of the lowest rates in the Authority's history. Combined, these two factors greatly affected the \$9.3 million decrease in interest expense.

Debt Administration

During fiscal year 2005, the Authority issued \$118.7 million of Single Family Program revenue bonds, \$35.8 million less than the \$154.5 million issued in 2004. The Authority redeemed \$130 million of Single Family Program bonds due to the high level of prepayments, compared to \$278 million in 2004. The Authority also issued \$166.7 million of Draw Down Program bonds, for the purposes of (1) refunding prior bonds which have recyclable Private Activity Bond Volume Cap (Cap) and (2) matching current year Cap with a borrowing, in order to capture tax-exempt bond issuance authority for future low-interest loans. All of the new \$118.7 million Single Family Program bonds issued in 2005 obtained Cap by refunding Draw Down Program bonds.

During fiscal year 2004, the Authority issued \$154.5 million of Single Family Program revenue bonds slightly lower than the \$157.5 million issued in 2003. The Authority redeemed \$278 million of Single Family Program

Management's Discussion and Analysis

bonds due to the high level of prepayments, compared to \$113 million in 2003. The Authority also issued \$154 million of Draw Down Program bonds, for the purposes of (1) refunding prior bonds which have recyclable Private Activity Bond Volume Cap (Cap) and (2) matching current year Cap with a borrowing, in order to capture tax-exempt bond issuance authority for future low-interest loans. All of the new \$154.5 million Single Family Program bonds issued in 2004 obtained Cap by refunding Draw Down Program bonds.

More detailed information about the Authority's outstanding debt obligations is presented in notes 5, 6, and 7 of the notes to the basic financial statements.

Economic Outlook

The Authority's single family programs and investment income are the main sources of revenues. Market interest rates have an effect on both the single family programs and investment income revenues. If interest rates continue at current levels, the Authority expects single family and investment income to be stable or to decrease slightly. If interest rates rise, the Authority expects single family and investment income to increase as new loans are originated and new investments are purchased at the higher levels. If interest rates fall, the Authority expects single family and investment income to decrease as new loans are originated and new investments are purchased at the lower levels. The Authority also expects a drop in market rates to cause an increase in prepayments on higher rate mortgages, and conversely, an increase in market rates to cause a decrease in prepayments. The Authority uses these prepayments to call the corresponding series bonds.

This financial report is presented to provide our constituents and investors with a general overview of the Authority's finances and to demonstrate the Authority's financial accountability over its resources. If you have questions about the report or need additional financial information, please contact the Deputy Director of Finance and Administration at New Mexico Mortgage Finance Authority, 344 4th St. SW, Albuquerque, NM 87102, or visit our website at www.housingnm.org.

NEW MEXICO MORTGAGE FINANCE AUTHORITY
(A Component Unit of the State of New Mexico)

Notes to Financial Statements

September 30, 2005 and 2004

(1) Basis of Accounting and Summary of Significant Accounting Policies

(a) Reporting Entity

New Mexico Mortgage Finance Authority (the Authority) is a semi-autonomous instrumentality of the state of New Mexico (the State), created April 10, 1975 under the Mortgage Finance Authority Act (the Act) enacted as Chapter 303 of the Laws of 1975 of the State. Pursuant to the Act, the Authority is authorized to undertake various programs to assist in the financing of housing for persons of low and moderate income in the State.

The Authority does not have any component units as defined by Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units, an Amendment of GASB Statement No. 14*. For financial reporting purposes, the Authority is considered a discretely presented component unit of the state of New Mexico in accordance with GASB No. 14.

Bonds and other obligations issued by the Authority under the provisions of the Act are not a debt or liability of the State or any subdivision thereof.

(b) Basis of Presentation

The Authority presents its financial statements in accordance with GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*; GASB Statement No. 37, *Basic Financial Statements – and Management’s Discussion and Analysis for State and Local Governments: Omnibus*; and GASB Statement No. 38, *Certain Financial Statement Note Disclosures*.

GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, established the generally accepted accounting principles hierarchy for proprietary funds. The statement requires that proprietary activities apply all applicable GASB pronouncements. Under the provisions of that standard, the Authority has elected not to apply Statements on Financial Accounting Standards issued by the Financial Accounting Standards Board (FASB) after November 1989.

(c) Basis of Accounting

For financial reporting purposes, the Authority is considered a special-purpose government engaged in business-type activities. The financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when incurred. All significant intra-entity transactions have been eliminated.

(d) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the

NEW MEXICO MORTGAGE FINANCE AUTHORITY
(A Component Unit of the State of New Mexico)

Notes to Financial Statements

date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(e) Programs

The following describes the nature of the programs maintained by the Authority:

- Single Family Mortgage Programs – Accounts for the proceeds from bonds, the debt service requirements of the bonds and the related mortgage loans for single-family, owner-occupied housing in New Mexico. Each single family bond issue is accounted for as a segment. See note 17 for segment financial statements.
- Rental Housing Programs – Accounts for the proceeds from bonds, the debt service requirements of the bonds, and the related loans to qualified lenders for the purpose of financing multi-family rental housing facilities in New Mexico. Each multi-family bond issue is accounted for as a segment. See note 17 for segment financial statements.
- General accounts – Accounts for assets, liabilities, revenues, and expenses not directly attributable to a bond program. Most of the bond resolutions of the programs permit the Authority to make cash transfers to the general accounts after establishing reserves required by the bond resolutions. The general accounts financially support the bond programs when necessary. The general accounts include proprietary loan programs developed by the Authority to meet the needs of low and moderate income borrowers not served by traditional lending programs. This group of accounts is referred to as the Housing Opportunity Fund and includes the ACCESS Loan program, Primero program, Partners programs, Build It! Loan Guaranty program, and several down payment assistance programs.
- Housing Programs – Accounts for activities and programs financed by federal and state grants over which the Authority exercises fiscal and administrative control. The following is a brief description of the significant programs:
 - Low-Income Housing Tax Credit Program (LIHC) – The LIHC program was established to promote the development of low-income rental housing through tax incentives rather than direct subsidies. The LIHC is a ten-year federal tax credit against a taxpayer's ordinary income tax liability that is available to individuals (directly or through partnerships) and corporations who acquire or develop and own qualified low-income rental housing.
 - HOME Investment Partnership Program (HOME) – Congress created the HOME program as part of the National Affordable Housing Act of 1991. The Authority administers the federal funds to carry out program activities related to down payment assistance, homeowner and rental rehabilitation, and multi-family rental housing finance.
 - Section 8 Program – The Section 8 program provides housing assistance payments to participating owners on behalf of eligible tenants to provide decent, safe, and sanitary housing for very low-income families at rents they can afford.

NEW MEXICO MORTGAGE FINANCE AUTHORITY
(A Component Unit of the State of New Mexico)

Notes to Financial Statements

September 30, 2005 and 2004

- The Weatherization Assistance Program (WAP) – WAP is a long-term grant program funded by the U.S. Department of Energy and State of New Mexico General Fund. The purpose of the program is to make low-income households more energy efficient, thereby reducing the utility bills of these families. The funds may be used for leakage reduction, incidental repairs, health and safety measures, insulation, and storm windows and doors.
- The Low-Income Home Energy Assistance Program (LIHEAP) – LIHEAP provides low-income households with a one-time cash benefit to help pay their utility bills. Up to 15% of the program grant, the only portion administered by the Authority, can be used for rehabilitation and can be combined with the WAP funds.
- The Emergency Shelter Grants Program (ESG) – ESG provides assistance to units of local government or nonprofit organizations to improve the quality of existing emergency shelters, to help meet the costs of operating emergency shelters, and of providing certain essential social services to homeless individuals.
- Housing Opportunities for Persons with AIDS (HOPWA) – The HOPWA program is designed to provide states and localities with resources and incentives to devise long-term strategies for meeting the housing needs of persons with acquired immune deficiency syndrome (AIDS) or related diseases.
- Rural Housing and Economic Development (RHED) Program – the purpose of the RHED program is to build capacity at the State and local level for rural housing and economic development and to support innovative housing and economic development activities in rural areas.

(f) Cash and Cash Equivalents

Certain cash, cash equivalents, and investments are designated by the board of directors of the Authority for specific purposes (note 11). For purposes of the statements of cash flows, the Authority considers all cash on hand and in banks and all highly liquid securities and investments purchased with an original maturity of three months or less held in accounts used primarily for the payment of debt service to be cash equivalents.

Restricted cash and cash equivalents include fixed rate investment agreements which represent funds invested in unsecured nonparticipating contracts with financial institutions and are valued at the contract amounts. Such investments are considered highly liquid with an original maturity of three months or less held in accounts which are used primarily for the payment of debt service. Accordingly, such investments are treated as cash equivalents.

(g) Unrestricted and Restricted Investments

Unrestricted and restricted investments include U.S. government obligations, obligations of government-sponsored entities, and certificates of deposits. These securities are stated at fair value based upon quoted market prices and changes in the fair value are reported in the Statement of Revenues, Expenses, and Changes in Net Assets as *Net Increase (Decrease) in Fair Value of*

Notes to Financial Statements

September 30, 2005 and 2004

Investments, in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* (GASB Statement No. 31).

(h) Securitized Mortgage Loans

Securitized mortgage loans consist primarily of Federal National Mortgage Association (FNMA) and Government National Mortgage Association (GNMA) mortgage-backed securities (MBSs), which were pooled and securitized by a contract servicer utilizing Single Family Mortgage Program loans purchased by the Authority. These securities are stated at fair value and changes in the fair value are reported as revenue in the Statement of Revenues, Expenses, and Changes in Net Assets as *Net Increase (Decrease) in Fair Value of Investments*, in accordance with GASB Statement No. 31. Fair value of the Authority's MBSs was estimated by each bond issue's trustee based on a comparison of the Authority's MBSs to other similar MBS instruments which are publicly traded.

(i) Note Receivable

The Rental Housing Programs' note receivable is a security relating to the issuance of Multi-Family Housing Revenue Bonds 1987 Series A and B. The funds from the issuances were used as financing for multi-family residential rental projects for low and moderate income persons and families in the State. The note receivable is due 2011.

(j) Mortgage Loans

Mortgage loans receivable are carried at the unpaid principal balance outstanding less an allowance for estimated loan losses. Mortgage loans are secured by first liens on the related properties, with the exception of HELP loans discussed below. Mortgage loans purchased by the Authority are required to be insured by the Federal Housing Administration (FHA) or private mortgage insurance, or guaranteed by the Veterans' Administration (VA) or, if a conventional loan, have a loan-to-value ratio of 80% or less. These policies insure, subject to certain conditions, mortgage loans against losses not otherwise insured, generally for specified percentages of the principal balance due plus accrued interest and other expenses sustained in preservation of the property.

For qualifying borrowers in the Single Family Mortgage Programs, the Authority offers loans to provide down payment and closing cost assistance (DPA). DPA loans are secured by second liens. Additionally, included in mortgage loans as of September 30, 2005 and 2004, respectively, were \$6.9 million and \$6.2 million of loans to borrowers of certain nonprofit organizations which are subject to reimbursement provisions in lieu of insurance.

(k) Allowance for Mortgage Loan Losses

Losses incurred on mortgage loans are charged to the allowance for mortgage loan losses. The provision for loan losses is charged to expense when, in management's opinion, the realization of all or a portion of the loans or properties owned is doubtful.

In evaluating the provision for loan losses, management considers the age of the various loan portfolios, the relationship of the allowances to outstanding mortgage loans, collateral values, insurance claims, and economic conditions.

NEW MEXICO MORTGAGE FINANCE AUTHORITY
(A Component Unit of the State of New Mexico)

Notes to Financial Statements

September 30, 2005 and 2004

Management of the Authority believes that the allowance for mortgage loan losses is adequate. While management uses available information to recognize losses on mortgage loans, future additions to the allowance may be necessary based on changes in economic conditions.

(l) Interest on Mortgage Loans

Interest on mortgage loans is accrued based upon the principal amounts outstanding net of service fee expenses of approximately \$80,000 and \$111,000 as of September 30, 2005 and 2004, respectively. Mortgage loans continue to accrue interest through foreclosure since loans are insured, and interest is collected through insurance proceeds.

(m) Origination and Commitment Fees

Origination and commitment fees, net of costs, represent compensation received for designating funds for lenders. The Authority defers and amortizes these net fees over the related securitized mortgage loans' and mortgage loans' contractual life, adjusted for prepayments, into interest income using a method which approximates the effective interest method.

(n) Bond Issuance Costs

Bond issuance costs, discounts, and premiums are amortized over the term of the obligations using a method which approximates the effective interest method. Early redemptions of bonds result in the proportionate amortization of the balance of bond issuance costs.

(o) Capital Assets

Capital assets are stated at cost less accumulated depreciation. Furniture and equipment purchases with useful lives over one year are capitalized and depreciated based on the straight-line or the sum-of-the-years' digits methods over the estimated useful lives of the assets which range from 1 to 25 years. Depreciation expense is not computed on assets under construction until the asset is put into service. Furniture and equipment purchases less than \$1,000 or with lives of one year or less, and maintenance and repairs which do not extend the useful lives of premises and equipment, are charged to expense as incurred. Software purchased for internal use with a unit cost of \$1,000 or more and an estimated useful life greater than one year is capitalized and depreciated. The Authority does not capitalize software developed internally.

(p) Accrued Arbitrage Rebate

Earnings on certain investments are subject to the arbitrage rebate requirements of the Internal Revenue Code. Accrued arbitrage rebate represents the estimated excess earnings on these investments that must be rebated to the U.S. Treasury Department.

Arbitrage rebate amounts which are the result of investment yields are recorded as a reduction of interest income. Arbitrage rebate amounts which result from gains on sales of investment securities are recorded as a reduction to the net increase (decrease) in the fair value of investments.

NEW MEXICO MORTGAGE FINANCE AUTHORITY
(A Component Unit of the State of New Mexico)

Notes to Financial Statements

September 30, 2005 and 2004

(q) *Deferred Revenue*

Deferred revenue consists primarily of advances from contracts and grants. Revenue is recognized to the extent that the underlying exchange transaction has occurred. Deferred revenue is reflected in other noncurrent liabilities in the accompanying balance sheets.

(r) *Net Assets*

Net assets are classified as follows:

Invested in capital assets, net of related debt represents the Authority's total investment in capital assets, net of outstanding debt related to those capital assets.

Restricted net assets represent those operating funds on which external restrictions have been imposed that limit the purposes for which such funds can be used. The Authority is legally or contractually obligated to spend these funds in accordance with the restrictions imposed by third parties.

Unrestricted net assets consist of those operating funds over which the board of directors retains full control to use in achieving any of its authorized purposes.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the Authority's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

(s) *Revenues and Expenses*

Revenues are classified as operating or nonoperating according to the following criteria:

Operating revenues include activities that have the characteristics of an exchange transaction as well as those incurred which relate directly to programs to assist in the financing of housing for persons of low and moderate income in the state of New Mexico such as a) loan origination and commitment fees; b) program servicing fees; and c) grant administration fees. Operating revenues also include interest income since lending activities constitute the Authority's principal ongoing operations.

Nonoperating revenue includes activities that have the characteristics of nonexchange transactions such as grant award revenues. These revenue streams are recognized under GASB Statement No. 33, *Accounting and Financial Reporting for Non-exchange Transactions*. Revenues are recognized when all applicable eligibility requirements have been met.

Expenses are classified as operating or nonoperating according to the following criteria:

Operating expenses include activities that have the characteristics of an exchange transaction such as a) employee salaries, benefits, and related expense; b) utilities, supplies, and other services; c) professional fees; and d) depreciation expenses related to capital assets. Operating expenses also include interest expense on bonds issued to finance housing programs since lending activities constitute the Authority's principal ongoing operations.

NEW MEXICO MORTGAGE FINANCE AUTHORITY
(A Component Unit of the State of New Mexico)

Notes to Financial Statements

September 30, 2005 and 2004

Nonoperating expenses include activities that have the characteristics of nonexchange transactions such as grant award expenses which are defined as nonoperating expenses by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34.

(t) Income Taxes

The income the Authority earns in the exercise of its essential government functions is excluded from federal income tax under Section 115(1) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

(2) Cash, Cash Equivalents, and Investments

(a) As of September 30, 2005 and 2004, the carrying value of cash and cash equivalents include the following (in thousands):

	2005	2004
Cash	\$ 25,837	15,873
Cash equivalents not considered deposits:		
Money market accounts	254	342
Money market funds	25,027	20,023
Repurchase agreements	4,828	6,939
Guaranteed investment contracts	464,241	376,872
	\$ 520,187	420,049

(b) Investment Policy

The Authority's investment policy requires all investments be made in accordance with the prudent investor rule with a primary objective to preserve capital and secondarily to achieve the highest market yield. Investments will be diversified to the extent permitted in Section 58, NMSA 1978 (MFA Act), and Section 6-8-7, NMSA 1978 and as prescribed in its various bond resolutions and trust indentures.

Investments may be made in any investment instrument acceptable under and/or required by any bond resolution or indenture; in obligations of any municipality of New Mexico or the State of New Mexico or the United States of America, rated "AA" or better; in obligations guaranteed by the State of New Mexico or the United States of America; in obligations of any corporation wholly owned by the United States of America; in obligations of any corporation sponsored by the United States of America which are or may become eligible as collateral for advances to member banks as determined by the board of governors of the Federal Reserve System; in certificates of deposit or time deposits in banks qualified to do business in New Mexico; as otherwise provided in any trust indenture securing the issuance of the Authority's bonds; in the State of New Mexico Office of the

Treasurer Local Short Term Investment Fund; or in the State of New Mexico State Investment Council Investment Funds Program.

(c) Custodial Credit Risk

The custodial credit risk for deposits is the risk that in the event of a bank failure, the Authority's deposits may not be recovered. The investment policy requires consideration of the creditworthiness in selecting financial institutions. At September 30, 2005, the Authority's bank balance was \$25,980,000. Of this amount, \$243,000 was insured by the Federal Deposit Insurance Corporation (FDIC), \$164,000 was collateralized by collateral held by the bank in the Authority's name, \$25,529,000 was collateralized by collateral held by the bank but not in the Authority's name, and \$44,000 was uninsured and uncollateralized.

All of the Authority's investments are insured, registered, or are held by the Authority or its agent in the Authority's name.

The Authority administers public funds for the State Homeless, Innovation in Housing Awards and Weatherization Programs. As required by State law, the Authority obtains from each bank that is a depository for public funds pledged collateral in an aggregate amount at least equal to one half of the public money in each account. No security is required for the deposit of public money that is insured by the FDIC. As of September 30, 2005 and 2004 the Authority had \$1,289,000 and \$2,195,000, respectively, of public funds on deposit which are fully collateralized by collateral held by the bank in the Authority's name.

(d) Investment Interest and Credit Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Authority's investment policy requires 1) staggered maturities to avoid undue concentrations of assets in a specific maturity sector, 2) stable income, 3) adequate liquidity to meet operations and debt service obligations; and 4) diversification to avoid overweighting in any one type of security.

The Authority's securitized mortgage loans are primarily mortgage loans originated under various bond resolutions which have been pooled and securitized by a servicer under contract to the Authority (note 1(h)). Upon securitization, these primarily GNMA and FNMA securities are then purchased by the bond issue trustee utilizing the proceeds of the respective bonds. The bonds in turn are secured respectively by the securities purchased with the bond proceeds (note 5). The fixed-rate securitized mortgage loans are sensitive to changes in interest rates, which may result in prepayments of the underlying mortgages.

The following table provides information on the credit ratings associated with the Authority's investments in debt securities, excluding obligations of the United States government or obligations explicitly guaranteed by the United States government at September 30, 2005.

(e) Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributable to the magnitude of the Authority's investment in a single issuer. The following issuers and their respective percentage of total investments represent greater than 5% of the Authority's total investments reported on the balance sheet as of September 30, 2005: GNMA 82% and FNMA 13%.

(3) Mortgage Loans

Notes to Financial Statements

September 30, 2005 and 2004

The mortgage loans have repayment terms ranging from 10 to 40 years. The stated interest rates for these programs are as follows:

Single Family Mortgage Programs	9.99%
Rental Housing Programs	5.14% to 7.00%
Other mortgage loans	0.00% to 12.12%
Second mortgage DPA loans	0.00% to 6.00%

MBSs have stated interest rates ranging from 4.34% to 9.365%. At September 30, 2005 and 2004, deferred commitment fees of \$7,162,000 and \$7,972,000, respectively, have been netted with securitized mortgage loans.

As of September 30, 2005 and 2004, mortgage loans with pending foreclosure actions have aggregate principal balances of approximately \$404,000 and \$326,000, respectively. As of September 30, 2005 and 2004, mortgage loans delinquent three months or more have aggregate principal balances of approximately \$6,578,000 and \$7,168,000, respectively.

As of September 30, 2005 and 2004, the Authority acts as servicer for loans owned by the following entities (in thousands):

On September 1, 2005, the Authority issued \$2.83 million in General Revenue Office Building Refund bonds with an average interest rate of 4.16% to advance refund \$2.53 million of outstanding 2000 General Revenue Office Building Bond with an average interest rate of 5.92%. The net proceeds of \$2.68 million (after payment of approximately \$116,000 in underwriting fees, insurance, and other issuance costs and \$33,000 in original issue discount) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 2000 General Revenue Office Building Bond. As a result, the 2000 General Revenue Office Building Bond is considered to be defeased, and the liability for that bond has been removed from the accompanying balance sheet.

Notes to Financial Statements

September 30, 2005 and 2004

The advanced refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of approximately \$150,000. This difference, reported in the accompanying financial statements as a deduction from bonds payable, is being charged to operations through the year 2026 using a method that approximates the effective-interest method. The Authority completed the advanced refunding to reduce its total debt service payments over the next 20 years by \$184,000 and to obtain an economic gain (difference between the present value of the old and new debt service payments) of \$122,000.

Certain Mortgage Purchase Program bonds were legally defeased in 1992 and, therefore, are not reflected on the accompanying balance sheet. The outstanding balance of these bonds totaled approximately \$38,810,000 and \$38,815,000 at September 30, 2005 and 2004, respectively. The bonds are secured, as described in the applicable bond resolution, by the revenues, moneys, investments, mortgage loans, MBSs, and other assets in the accounts established by the respective bond resolutions.

The Mortgage Purchase Program Bonds 2005 Series C was issued to fully refund bonds from the Mortgage Purchase Program Bonds 1994 Series G Issue. The Authority will realize a \$274,000 positive cash flow from this refunding. The economic gain to the Authority from refunding the 1994 Series G bonds approximates \$220,000.

The bonds are secured, as described in the applicable bond resolution, by the revenues, moneys, investments, mortgage loans, MBSs, and other assets in the accounts established by the respective bond resolutions.

The single family mortgage loans purchased with the proceeds of all the bond issuances occurring during fiscal years 2005 and 2004 were pooled and packaged as mortgage loan pass-through certificates insured by GNMA or FNMA.

In March 2005, the Authority authorized the \$500,000,000 Single Family Mortgage Program Bonds, Draw Down Issue 2005. These bonds will be refunded by the issuance of bonds under separate indentures, the proceeds of which will be used to purchase securitized mortgage loans under the respective indentures. Cumulative draw downs were \$368,994,000 through fiscal year end September 30, 2005. As of September 30, 2005, approximately \$268,244,000 of proceeds from the bond issue is outstanding and, accordingly, reflected in restricted cash and cash equivalents on the accompanying balance sheet. The bonds are issued at par value bearing variable interest at LIBOR payable monthly, as of the business day immediately preceding the interest payment date, 3.864% at September 30, 2005. Due to the short-term nature of Draw Down Issue 2005, there is no economic gain or loss from refundings on this issue.

(9) Litigation

The Authority is involved in litigation arising in the ordinary course of business. Management believes the ultimate outcome of any litigation will not result in a material adverse impact on the Authority's financial statements.

(10) Employee Benefit Plan

The Authority sponsors the New Mexico Mortgage Finance Authority 401(k) Plan (Benefit Plan). The Benefit Plan is a defined contribution 401(k) and 457(b) plan, which covers substantially all of the Authority's employees. Participating employees may make voluntary contributions of not less than 3% of the participating employee's annual salary. If the employee makes the minimum 3% voluntary employee contribution, the Authority will make a matching contribution equal to 5% of the participating employee's salary. In addition to the matching contribution, the Authority makes a fixed annual contribution equal to 11% of each participating employee's salary regardless of whether or not the participant makes a voluntary contribution. Plan participants become fully vested in the Authority's contributions after five years of service. The Authority's and employees' contributions to the Benefit Plan were approximately \$401,321 and \$138,602, respectively, for the year ended September 30, 2005. The Authority's and employees' contributions to the Benefit Plan were approximately \$362,961 and \$129,716, respectively, for the year ended September 30, 2004.

(11) Board Designated Net Assets

The board of directors of the Authority have the discretion to reverse any board designated net assets. The board of directors of the Authority designated the following amounts as of September 30, 2005 and 2004 (in thousands):

	2005	2004
Single Family and Multi-Family programs as designated by the board	21,738	35,087
Future general operating budget, year-end September 30, 2006	8,016	7,297
Housing Opportunity Fund	46,815	35,145
Risk Sharing loss exposure	12,634	6,972
Federal and state housing programs administered by MFA	2,577	2,046
Total board designated net assets	\$ 91,780	86,547

(12) Commitments and Contingencies

The Authority entered into a risk-sharing agreement with the U.S. Department of Housing and Urban Development under Section 542(c) of the Housing and Community Development Act of 1992, whereby the Authority will assume a 10% to 25% risk of loss in the event of default on specific loans. As of September 30, 2005 and 2004, the Authority is committed to assume a risk of approximately \$12,847,000 and \$7,214,000 for 33 and 28 loans closed, respectively. These loans are considered in the Authority's assessment for the allowance for mortgage loan losses.

The Authority also entered into a risk-sharing agreement with the U.S. Department of Agriculture under Section 538 Rural Rental Housing Guaranteed Loan Program. The Rural Housing Service (RHS), Department of Agriculture (USDA) provides credit enhancements to encourage private and public lenders to make new loans for affordable rental properties that meet program standards. The USDA has assumed 90% of the risk in the one loan closed and funded by the Authority at September 30, 2005. As of September 30, 2005 and 2004, the Authority is committed to assume a risk of approximately \$130,000 and \$30,000 for the one loan closed, respectively.

The Authority participates in a number of federal financial assistance programs. These programs are subject to independent financial and compliance audits by grantor agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies has not been determined at this time, although the Authority expects such amount, if any, to be immaterial.

The Authority offers its "Build It!" Loan Guaranty Program to eligible entities, including nonprofit organizations, units of local governments, public housing authorities, and tribal entities. Under this program, the MFA can guarantee up to 50% of a loan to an eligible entity to build or rehabilitate affordable housing. As of September 30, 2005 and 2004, there are no outstanding guarantees to which the Authority has committed.

(13) Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority carries commercial insurance to cover losses to which it may be exposed.

(14) Joint Powers Agreements

The Authority has entered into seven joint powers agreements (JPAs) with various departments of the State. At September 30, 2005, these JPAs were as follows:

- (a) The Authority entered into a JPA with Human Services Department (HSD) in January 2003, which was amended in August 2003 and again in June 2004. The purpose of the agreement is to transfer funds to the Authority for the Low-Income Housing Energy Assistance Program (LIHEAP) and the Low-Income Weatherization Assistance Program (LIWAP). The Authority has the responsibility for program operations. The agreement was effective January 31, 2003 and terminated June 30, 2005. The maximum amount to be reimbursed under the JPA is \$2,250,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (b) The Authority entered into a JPA with Human Services Department (HSD) in September 2005. The purpose of the agreement is to transfer funds to the Authority for the Low-Income Housing Energy Assistance Program (LIHEAP) and the Low-Income Weatherization Assistance Program (LIWAP). The Authority has the responsibility for program operations. The agreement was effective July 1, 2005 and will terminate June 30, 2006. The maximum amount to be reimbursed under the JPA is \$1,488,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (c) The Authority entered into a JPA with HSD in June 2004. The purpose of the agreement is for HSD to transfer funds to the Authority to administer the State's homeless program. The Authority has the responsibility for program operations. The agreement was effective June 8, 2004 and terminated the June 30, 2005. The amount of the project is \$800,000 for fiscal year 2005, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (d) The Authority entered into a JPA with HSD in June 2005. The purpose of the agreement is for HSD to transfer funds to the Authority to administer the homeless program. The Authority has the responsibility for program operations. The agreement was effective July 1, 2005 and will terminate the earlier of June 30, 2006 or when all the funds have been expended. The amount of the project is \$826,000 for fiscal year 2005, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (e) The Authority entered into a JPA with Department of Finance and Administration (DFA) in May 2004. The purpose of the agreement is for DFA to transfer funds to the Authority for administering the Weatherization Assistance Program. The Authority has the primary responsibility for financial and programmatic aspects of the program. The JPA was effective May 4, 2004 and will

terminate on June 30, 2008. The estimated amount of the project is \$600,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.

- (f) The Authority entered into a JPA with Department of Finance and Administration (DFA) in May 2004. The purpose of the agreement is for DFA to transfer funds to the Authority for administering the Weatherization Assistance Program. The Authority has the primary responsibility for financial and programmatic aspects of the program. The JPA was effective May 4, 2004 and terminated on June 30, 2005. The estimated amount of the project is \$800,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.
- (g) The Authority entered into a JPA with Department of Finance and Administration (DFA) in October 2003. The purpose of the agreement is for DFA to transfer funds to the Authority to perform a survey of low-income housing needs in Chaves County. The Authority has the primary responsibility for financial and programmatic aspects of the program. The JPA was effective October 10, 2003 and terminates at the end of fiscal year 2005 or the date all funds have been expended and reimbursed. The estimated amount of the project is \$75,000, all of which is applicable to the Authority.

The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA.

- (h) The Authority entered into a JPA with Department of Finance and Administration (DFA) in January 2004, which was amended in May 2004. The purpose of the agreement is for DFA to transfer funds to the Authority to develop and administer the Innovation in Housing Awards Program. The Authority has the primary responsibility for financial and programmatic aspects of the program. The JPA was effective January 16, 2004 and will remain in effect until the expenditure by MFA of all the program funds. The estimated amount of the project is \$1,500,000, all of which is applicable to the Authority. The Authority does not contribute funds to this project. The Authority is responsible for the audit of the funds received under this JPA. The Authority received an advance of these funds for the entire \$1,500,000, of which the unspent amount was \$1,289,000 on September 30, 2005.

(15) Related-Party Transactions

In July 2003, the Governor of New Mexico appointed the Executive Director of Homewise (formerly Neighborhood Housing Services) to the Authority's board of directors. During fiscal years 2005 and 2004, the Authority awarded federal grants of \$484,984 and \$154,993, respectively, to Homewise.

The Authority purchases various insurance policies from an insurance company that is controlled by the family of the chair of the Authority's board of directors.

(16) Subsequent Event

On October 3, 2005, the Authority called \$26,000,000 of Single Family Mortgage Program Bonds Draw Down Issue 2005. On November 1, 2005, the Authority issued \$78,000,000 of Single Family Mortgage Program Bonds Draw Down Issue 2005. These short-term bonds will be refunded by bonds to be issued

either under a separate or general indenture, and the proceeds will be used to purchase securitized mortgage loans to be held either under separate or general indentures.

(17) Segment Financial Information

The Authority issues separate revenue bonds to finance the single family and multi-family mortgage financing programs. The investors in those bonds rely solely on the revenue generated by the individual activities for repayment. Summary financial information for each bond resolution is presented on the following pages.

NEW MEXICO MORTGAGE FINANCE AUTHORITY

(A Component Unit of the State of New Mexico)

Notes to Schedule of Expenditures of Federal Awards

September 30, 2005

(1) Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal grant activity of New Mexico Mortgage Finance Authority (the Authority) and is presented on the accrual basis of accounting. The Authority's reporting entity is defined in note 1 to the Authority's financial statements. All federal financial assistance received from federal agencies, including amounts passed through from other governmental entities and disbursed by the Authority, is included on the Schedule in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

(2) Relationship to the Authority's Financial Statements

Federal financial assistance program expenditures as presented in the accompanying Schedule do not represent operating expenditures of the Authority, but represent federal financial assistance payments disbursed by the Authority during the year ended September 30, 2005 or federally insured loans as described in note 3.

(3) Mortgage Insurance and Guarantees

Certain mortgage loans of the Authority are insured by the Federal Housing Administration (FHA) and partially guaranteed by the Veterans Administration (VA). At September 30, 2005, the Authority serviced \$6,734,000 of FHA insured loans. These serviced loans are included on the accompanying Schedule.

The Authority participates in the Risk Sharing loan program, under which the Department of Housing and Urban Development (HUD) provides credit enhancements for multi-family housing project loans. HUD and the Authority share in the risk of loss on the mortgage. HUD has assumed 75% to 90% of the risk in 33 loans. HUD's assumed risk approximated \$104,901,000 at September 30, 2005. Of the 33 loans closed, the Authority funded 20 loans with outstanding principal of \$95,267,000 at September 30, 2005. HUD's assumed risk of loss of \$84,668,000 related to these 20 loans is recorded in the accompanying Schedule.

The Authority participates in the Section 538 Rural Rental Housing Guaranteed loan program, under which the Rural Housing Service (RHS), Department of Agriculture (USDA) provides credit enhancements to encourage private and public lenders to make new loans for affordable rental properties that meet program standards. The USDA has assumed 90% of the risk in the one loan closed and funded by the Authority. At September 30, 2005, the loan had an outstanding principal of \$1,296,000 of which the USDA assumed risk of loss of \$1,166,000 is recorded in the accompanying Schedule.

(4) Relationship to Federal Financial Reports

Amounts reported in the accompanying Schedule agree with the amounts reported in the related federal financial reports.

**Independent Auditors' Report on Internal Control Over Financial Reporting and
on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

Authority Members
New Mexico Mortgage Finance Authority:

We have audited the financial statements of the business-type activities of the New Mexico Mortgage Finance Authority, a component unit of the state of New Mexico, (the Authority) as of and for the year ended September 30, 2005, which comprise the Authority's basic financial statements and have issued our report thereon dated November 4, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the board of directors, management, the New Mexico Office of the State Auditor, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors' Report on Compliance With Requirements
Applicable to Each Major Program and on Internal Control Over Compliance in
Accordance With OMB Circular A-133**

Authority Members
New Mexico Mortgage Finance Authority:

Compliance

We have audited the compliance of the New Mexico Mortgage Finance Authority, a component unit of the state of New Mexico, (the Authority) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended September 30, 2005. The Authority's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Authority's management. Our responsibility is to express an opinion on the Authority's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Authority's compliance with those requirements.

In our opinion, the Authority complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2005. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as Finding 2005-1.

Internal Control Over Compliance

The management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Authority's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the Authority's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. A reportable condition is described in the accompanying schedule of findings and questioned costs as Finding 2005-1.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe that the reportable condition described above is a material weakness.

This report is intended solely for the information and use of the board of directors, management, the New Mexico Office of the State Auditor, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Schedule of Findings and Questioned Costs

September 30, 2005

Section II – Financial Statement Findings

No such findings were identified.

Section III – Federal Award Findings and Questioned Costs

Finding 2005-1 Submission of Required Reports

U.S. Department of Housing and Urban Development: Program 542(c) Risk Sharing (CFDA 14.188), fiscal award year-N/A.

Condition

The Authority is required to submit annual physical inspection summary reports to HUD in a timely manner in accordance with the provisions of Program 542(c) Risk Sharing. These reports summarize all findings and follow-up actions required of the borrower. The Authority does not have a formal review process in place to ensure these reports are reviewed by someone other than the preparer prior to submission. Additionally, it was noted that the Authority had not submitted an annual physical inspection summary report for one property inspected during the year out of four selected for review.

Criteria

The HUD Housing Handbook 4590.1 Housing Finance Agency Risk-Sharing Pilot Program, Chapter 8B, requires the Authority to perform annual physical inspections of projects and submit the inspection reports to the local HUD Field Office.

Cause

The Authority currently has an informal review process in place by which another Asset Management personnel will review the annual physical inspection summary reports prior to submission to HUD. However, there is no evidence of this review on the reports.

Effect

Without a formal review or monitoring process such as a tickler file, required reports may not be submitted to the appropriate funding agencies or may not be submitted within a timely manner.

Questioned cost

None

Recommendation

We recommend that the Authority should implement a formal review process whereas someone other than the preparer reviews and initials the reports indicating the review was performed. Additionally, the Authority should implement the use of a tickler file to ensure reports are submitted in a timely manner.

Schedule of Findings and Questioned Costs

September 30, 2005

Authority Response

Management agrees. Effective November 2005 reports are being prepared and reviewed by different personnel, which is being documented on the report. A tickler system has been implemented to ensure reports are submitted timely to HUD. Evidence of submission is maintained in the file.

Section IV – Other Findings, as required by New Mexico State Statute, Section 12-6-5, NMSA 1978

No such findings were identified.

Section V – Financial Statement Preparation, required disclosure under Audit Rule NMAC 2.2.2.8 K (4)

KPMG prepared the financial statements, in conformance with NMAC Subsection I 2.2.2.8 for management's review and approval. These circumstances do not constitute a finding. Maintenance of the Authority's books and records is the responsibility of its management. Accordingly, management is responsible for ensuring that these books and records adequately support the preparation of financial statements in accordance with generally accepted accounting principles.
