INDEPENDENT AUDITOR'S REPORT

Nick L. Salazar, President
and
Tim Armer, Executive Director
North Central New Mexico Economic Development District
and
Mr. Hector H. Balderas
New Mexico State Auditor

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds, of the State of New Mexico, North Central New Mexico Economic Development District (District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the District's nonmajor governmental funds and the budgetary comparisons for all non-major funds presented as supplementary information in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2012, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the State of New Mexico, North Central New Mexico Economic Development District, as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of each nonmajor governmental fund of the District as of June 30, 2012, and the respective changes in financial position thereof, and the respective budgetary comparisons for all nonmajor funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with **Government Auditing Standards**, we have also issued our report dated November 30, 2012, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with **Government Auditing Standards** and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages ix through xvi be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the basic financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, **Audits of States, Local Governments, and Non-Profit Organizations**, and is not a required part of the financial statements. The additional schedules listed as "other supplemental schedules" in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2012**

The Management's Discussion and Analysis (MD & A) for the North Central New Mexico Economic Development District (District) will provide an overview of the District's activities and programs by (1) evaluating the operating results for the year, (2) assess its financial position and condition, (3) understand its sources and uses of financial resources, (4) determine if budgets were met, and (5) identify budget issues or concerns.

AGENCY HIGHLIGHTS

The District was created on May 31, 1967, by a joint powers agreement between eight counties. The eight counties that are part of the agreement are: Rio Arriba, Taos, Colfax, Sandoval, Los Alamos, Santa Fe, San Miguel and Mora. The authority for the creation of the District is the Joint Powers Agreement Act, Sections 11-1-1 to 11-1-7, NMSA, 1978 Compilation. The purpose of the District is to provide cooperative planning and implementation of overall economic development for north central New Mexico, thereby promoting the social and economic environment of its members. Another principal purpose of the District is to implement specific programs and projects that are considered essential and worthy to the welfare of the members of the District. To fulfill this purpose, the District also administers services provided to elderly citizens under the Older American Act through a contract with the New Mexico Aging and Long-Term Care Department.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded liabilities at the close of the most recent fiscal year by \$1.550 million (*net assets*). A significant reason for the District's positive net asset balance is its loan portfolio in the amount of \$886,000, and the cash balances associated with the revolving loan funds in the amount of \$410,000.
- The District's total net assets decreased by \$45,200 compared to the prior year.
- As of the close of the current fiscal year, the District's governmental activities reported combined ending net assets of \$253,800, an increase of \$8,600 from the previous year. The increase is insignificant.
- All of the District's long-term liabilities are comprised of compensated absences payable. The balance decreased by \$1,900. The decrease is insignificant.

USING THIS ANNUAL REPORT

With implementation of GASB 34, the District has made significant changes in the financial statement presentation. The focus is now on government-wide reporting and major individual funds. The financial report includes the sections described below:

Management's Discussion and Analysis

This section provides an analysis of the District's financial activities based on currently known facts, decisions or conditions. It also provides an analysis of the District's overall financial position and results of operations to assist users in assessing whether the financial position has improved or if changes have occurred as a result of the year's activities.

Government-Wide Financial Statements

The Government-Wide Financial Statements report information about the District as a whole using accounting similar to those used by private sector businesses. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. The financial statements report the District's net assets and how they have changed.

USING THIS ANNUAL REPORT (Cont'd)

Fund Financial Statements

The fund Financial Statements provide a more detailed look at the District's significant funds. Funds are accounting methods that the District uses to keep track of specific sources of funding and spending for a particular purpose. The District has two types of funds:

Governmental Funds - Most of the District's services are included in governmental funds. The funds present sources and uses of liquid resources. This is the manner in which the financial plan (the budget) is typically developed. Funds are established for various purposes and the financial statement allows the demonstration of sources and uses and/or budgeting compliance associated therewith. Since this information does not include the additional long-term focus of the government-wide statements, reconciliation between the government-wide statements and the fund financial statements is provided for governmental-type activities.

Proprietary Funds - These funds are used to account for ongoing organizations and activities that are similar to those found in the private sector. The revolving loan funds are accounted for as enterprise funds since capital maintenance is critical, the funds carry long-term assets and cash flow information is necessary to assess the activity of the funds.

The funds are further classified as major and non-major. Major funds are determined by a percentage of assets, liabilities, revenues, or expenditures/expenses in relation to the totals of all funds in those categories. The General fund will always be considered major. The Area Agency on Aging PSA fund, the BTOP fund, and all of the revolving loan funds were determined to be major funds.

Budgetary Comparisons

GASB 34 requires budgetary comparison schedules for the general fund and for each major special revenue fund that has a legally adopted annual budget. The budgetary comparison schedules present both the original and the final appropriated budgets for the reporting period as well as the actual inflows, outflows and balances, stated on the governments's budgetary basis. As required by the Office of the State Auditor, the budgetary comparison statements are presented. This information is provided at the approved budget level to demonstrate compliance with legal requirements.

Notes to Financial Statements

The notes provide additional information that is essential to fully understand the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 13 through 32 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statement of Net Assets: Following is a summary of the District's net assets for the fiscal year ending 2012. The District reports balances in the following three categories of net assets: (1) invested in capital assets, (2) restricted, and (3) unrestricted. Restricted net assets are created by grant agreements and are required to be used for loans. See page 1 of this report for a more detailed look at the Statement of Net Assets.

The largest portion of the District's assets is related to the cash, due from grantors, and loan receivable balances of the revolving loan funds. These balances account for 99% of the District's assets. In accordance with GASB 34, the District has capitalized fixed assets, recorded depreciation, and recognized a liability for compensated absences payable in the governmental activities.

Net assets of the District's governmental activities increased by 3.5 percent (\$245.2 compared to \$253.8). Unrestricted net assets-the part of net assets that can be used to finance the day-to-day operations without constraints established by enabling legislation or other legal requirements-changed from \$203.0 at June 30, 2011, to \$219.6 at the end of the year.

The unrestricted governmental net assets arose primarily because the District did not include, in past annual budgets, the amounts needed to pay for unused employee vacation and sick days. The District will need to include these amounts in future years' budgets as they come due.

The net assets of our business-type activities decreased by 4 percent (\$1.35 million compared to \$1.30 million) for the year ended June 30, 2012. The District generally can only use these net assets to finance the continuing operations of the revolving loan programs.

The District's total revenues increased significantly by 33.87 percent (\$6.853 million). The total cost of all programs increased significantly at 33.34 percent (\$6.784 million). The significant increases are the direct result of the grant from the U.S. Department of Commerce - National Telecommunications and Information Administration for the Broadband Technology Opportunity Program serving portions of Northern New Mexico.

**STATE OF NEW MEXICO
NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Cont'd)

Governmental Activities

Revenues of the District's governmental activities increased significantly by 33.96 percent (\$27.048 million compared to \$20.192 million) while total expenses also increased significantly by 33.45 percent (\$27.122 million compared to \$20.324 million). Again, the significant increases are the direct result of the increased federal grant funding for the Broadband Technology Opportunity communications system serving portions of northern New Mexico. NCNMEDD is serving as the applicant for grant. When the communications systems is completed and placed into service, the NCNMEDD will operate the system.

The majority of the NCNMEDD's governmental activities relating to the provision of services to the elderly has remained fairly constant compared to the previous year.

Business-Type Activities

Proprietary Funds: Proprietary fund net assets decreased by \$53,800, or 4 percent from \$1.35 million compared to \$1.296 million. \$1.296 million of proprietary fund net assets are restricted to making loans in accordance with the agreements that provided the initial capitalization of the loan funds. The restrictions associated with the Tri-County loan program fund have expired, and the net asset balance of the fund is unrestricted.

THE DISTRICT'S FUNDS

Governmental Funds: The focus of the District's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. As mentioned previously, funds are used by the District to keep track of specific sources of funding and spending for a particular purpose.

For the current year, the District had fourteen governmental funds and two proprietary funds. Eleven of the District's governmental funds are used to account for specific grants and report no fund balance. One governmental fund is the general fund, one governmental fund is used to account for long-term care services to senior citizens and finally, two governmental funds are used to account for the administration of the revolving loan programs. The two proprietary funds are used to account for the revolving loan programs.

As the District completed the year, its governmental funds (as presented in the balance sheet on Exhibit C) reported a combined fund balance of \$307,488, which is slightly above last year's total of \$292,079.

Governmental fund revenue and transfers in, increased by \$6.900 million (\$27.143 million compared to \$20.232 million) or 34.2 percent, and governmental fund expenditures and transfers out, increased by \$6.801 million (27.125 million compared to \$20.325 million) or 33.5 percent. The significant increases in revenues and expenditures are the direct result of the increase in federal grant funding for the Broadband Technology Opportunity communications system serving portions of Northern New Mexico.

The majority of the NCNMEDD's individual governmental funds remained fairly constant compared to the previous year.

BUDGETARY HIGHLIGHTS

The District's budget was amended several times during the year. The primary reason for budget adjustments was to reflect amendments in grant agreements. Another reason for amendment is to reflect revised activity projections. The variance from the final amended budget was a significant decrease of \$9.217 million, or 49.1%,

BUDGETARY HIGHLIGHTS (Cont'd)

from \$18.773 million to \$27.990 million. The primary reason for the significant increase of \$9.217 million in budget was that the BTOP-ARRA grant funds were originally budgeted for \$42,500 and adjusted to \$8.149 million. The budget is a multi-year budget, and only the amount expended during the current year was reflected as the final approved budget.

CAPITAL ASSET AND ADMINISTRATION

Capital Assets: The District's investment in capital assets for its governmental activities as of June 30, 2012, amounts to \$34.2 (net of accumulated depreciation). This investment in capital assets consists mainly of vehicles and office equipment.

Major capital asset events during the current year included \$20.4 of depreciation expense. There were capital asset additions during the year totaling \$12.4 and there were \$7.5 of capital assets deleted.

Long-Term Debt: At the end of the current fiscal year, the District had total long term debt outstanding of \$25.2, in amounts due to employees, comprising accumulated balances for vacation leave and sick leave eligible for payment to employees upon termination of their employment.

ACTIVITY HIGHLIGHTS:

In fiscal year 2011-2012, North Central New Mexico Economic Development District (NCNMEDD) continued its provision of services to the elderly much as it had the previous year in the 32 county service area known as the Non-Metro Area Agency on Aging. To cover this service area, NCNMEDD has offices in Clovis, Deming, Taos, Tucumcari, and Santa Fe.

Staff continued to work with each provider to help them determine a true cost for each unit of the various services they provide. Programs were encouraged to determine their full cost and to estimate how many of each service type they could provide. Contracts were based on the program's self-identified costs and the number of service units anticipated.

Non-Metro staff also continued the administration of the federally mandated data collection system for services to the elderly. This enabled contractors to simply verify the number of services provided each month in order to be paid based on the pre-determined fee.

Reimbursement of state and federal funds to senior programs was based on the agreed upon unit costs and the verified number of services provided.

The Long Term Care Program did not generate any revenues for NCNMEDD this year. All providers in the program have begun billing the state directly. This program, known as the Medicaid Personal Care Fund, allowed payment to providers of certain in-home services to eligible senior citizens. NCNMEDD does not expect additional revenue in this area and will use the reserve fund created for board approved activities.

NCNMEDD concluded its contract work with New Mexico's Land Grant communities, but continues to work with them as special purpose units of government within the District.

NCNMEDD continued to administer two contracts with the New Mexico Department of Transportation for Regional Planning Organizations. The Northern Pueblos RPO provided transportation planning to Santa Fe, Los Alamos, Rio Arriba and Taos Counties and the cities (with the exception of Santa Fe) and Indian Nations in that area. The Northeast RPO provided similar services in Colfax, Mora and San Miguel Counties.

NCNMEDD continues to work on water and wastewater issues. The District is assisting the mutual domestic water consumers associations, Santa Fe and Rio Arriba Counties and the city of Española in the development of greater regional cooperation. This has led to an extensive use of District GIS resources to map small systems and to help them develop asset management plans.

NCNMEDD continues to participate in a team led by the Regional Development Corporation to develop a 25-year strategic economic development plan for Los Alamos, Santa Fe, Rio Arriba and Taos Counties and the associated municipalities and tribes.

As part of that process, NCNMEDD served as the applicant for a grant from the US Department of Commerce National Telecommunications and Information Administration for the Broadband Technology Opportunity Program, representing Los Alamos, Santa Fe and Rio Arriba Counties, the City of Española and the Pueblos of Pojoaque, Tesuque, San Ildefonso, Santa Clara and Ohkay Owingeh. Upon the award of the grant, NCNMEDD continues as the fiscal and administrative agent for the grant and the resulting operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2012**

ACTIVITY HIGHLIGHTS: (Cont'd)

NCNMEDD continues to operate two loan funds for business development.

NCNMEDD ended its responsibility for the funds held in trust for the New Mexico Association of Regional Councils in April and transferred those funds to the Southeast New Mexico Economic Development District.

Finally, NCNMEDD did experience reductions in funds for regional planning as provided through the contract with the Department of Finance and Administration. These reductions did curtail services. Continued reductions are anticipated.

STATE OF NEW MEXICO
NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT
Notes to Financial Statements
June 30, 2012

1. History and Functions

The North Central New Mexico Economic Development District (District) was created on May 31, 1967, pursuant to a joint powers agreement between Rio Arriba, Taos, Colfax, Sandoval, Los Alamos, Santa Fe, San Miguel and Mora Counties under the authority of the Joint Powers Agreement Act, Section 11-1 to 11-1-7, NMSA, 1978 Compilation.

The purpose of the District is to provide cooperative planning and implementation of overall economic development for north central New Mexico, thereby promoting the social and economic environment of its members.

2. Summary of Significant Accounting Policies

The District's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

Proprietary activities have applied all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: FASB statements and interpretations, APB opinions, and ARB's of the Committee on Accounting Procedure. FASB statements and interpretations issued after November 30, 1989, have not been applied.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No.34 *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. This Statement provides for the most significant change in financial reporting in over twenty years and is scheduled for a phased implementation based on the size of the government.

In June 2001, the GASB unanimously approved Statement No. 37, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus* and Statement No. 38 *Certain Financial Statement Note Disclosures*. Statement 37 clarifies and modifies Statements 34 and should be implemented simultaneously with Statement 34. Statement 38 modifies, establishes and rescinds certain financial statement disclosure requirements.

The District implemented the provisions of GASB Statement No. 34, 37 and 38 effective July 1, 2001. As part of this Statement, there is a new reporting requirement regarding the government's infrastructure (roads, bridges, etc.). The District does not own any infrastructure assets and, therefore, is unaffected by this requirement.

A. Financial Reporting Entity

The District is a special purpose government created by a joint powers agreement between eight counties under the authority of the Joint Powers Agreement Act. The District is governed by a Board of Directors constituted as follows:

STATE OF NEW MEXICO
NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT

2. Summary of Significant Accounting Policies (Cont'd)

A. Financial Reporting Entity (Cont'd)

8	Elected county officials - one per county
8	Elected city officials or delegates - one from the largest city of each county
8	Overall Economic Development Program committee members - one per county
8	Lay persons at large
<u>2</u>	Indian representatives
<u>34</u>	Total board members

The officers of the District are selected from the Board of Directors. The District is a governmental subdivision of the State of New Mexico and a body with all the powers of public or quasi-municipal corporation and these financial statements include all funds and activities over which the District officers have oversight responsibility. The officers of the District have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. The District is not included in any other governmental reporting entity as defined in Section 2100, *Codification of Governmental Accounting and Financial Reporting Standards*. The District does not have any component units.

B. Basic Financial Statements - Government-Wide Statements

The District's basic financial statements include both government-wide (based on the District as a whole) and fund financial statements and report information on all non-fiduciary activities. The new reporting model focus is on either the District as a whole or major individual funds (within the fund financial statements). The District is a multiple-program government that engages in both governmental and business-type activities and has no component units. Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type activities. In the government-wide Statements of Net Assets, both the governmental and business-type activities are presented using the economic resources measurement focus and the accrual basis of accounting, which incorporates long-term assets and receivables as well as long-term debt and obligations. The District's net assets are reported in three parts - invested in capital assets, restricted net assets and unrestricted net assets.

Generally, the effect of interfund activity has been removed from the government-wide financial statements.

The government-wide Statement of Activities reports both the gross and net cost of the District's functions. The functions are also supported by general revenues (primarily interest on cash deposits). The Statement of Activities reduces gross expense (including depreciation) by related program revenues, charges for services and operating grants and contributions. Program revenues must be directly associated with the function. The District includes only two functions: community welfare and economic development.

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net assets resulting from the current year's activities.

The fund financial statements are similar to the financial statements presented in the previous accounting model. Emphasis here is on the major funds in the governmental fund category.

The governmental fund statements are presented on a current financial resources measurement focus and the modified accrual basis of accounting. This presentation is deemed more appropriate to

demonstrate legal compliance, to demonstrate the source and use of liquid resources and to demonstrate how the District's actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements, a reconciliation is presented on the page following each statement, which briefly explains the adjustment necessary to transform the fund based financial statements into the governmental-wide presentation.

The proprietary fund statements (enterprise funds) are presented on the full accrual, economic resources measurement focus and the accrual basis of accounting, which incorporates long-term assets and receivables. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with its activities are reported. Proprietary fund equity is classified as net assets.

When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, the District first uses restricted resources then unrestricted resources.

C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the District are reported on the basis of funds in the fund financial statements. The operations of each fund is accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures. Government resources are allocated to, and accounted for, in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The District uses the following fund types:

GOVERNMENTAL FUND TYPES

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is reported by a generic fund type classification within the financial statements known as governmental funds.

Special Revenue Funds - The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The special revenue funds are also reported by a generic type classification known as governmental funds.

PROPRIETARY FUNDS

Enterprise Funds - The Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprise - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

PROPRIETARY FUNDS (Cont'd)

GASB Statement No. 34 eliminated the presentation of account groups, but provides for these records to be maintained and incorporates the information into the government-wide Statement of Net Assets.

The funds are further classified as major or nonmajor, with emphasis placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the General fund of the District or meets the following criteria:

- Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least ten percent of the corresponding total for all funds of that category or type; and
- Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least five percent of the corresponding total for all governmental and enterprise funds combined.

All funds have been administratively established by the Board of Directors to account for the sources and uses of specific operating grants or where the Board has decided that establishment for a separate fund is necessary for accountability.

MAJOR FUNDS

General Fund

Special Revenue Funds

Area Agency on Aging PSA Fund - Accounts for revenues and expenditures associated with a grant agreement with the New Mexico State Agency on Aging funded by the Older Americans Act, Title IIIB, IIIC, IIID and IIIE and the General Appropriations Act (House Bill 2). The counties served by PSA are: San Juan, Rio Arriba, Taos, Colfax, McKinley, Sandoval, Los Alamos, Santa Fe, San Miguel, Cibola, Valencia and Torrance, Catron, Socorro, Hidalgo, Grant, Sierra, Luna, Dona Ana and Otero.

Broadband Technology Opportunities Program (BTOP) - Accounts for the activities associated with a grant from the U.S. Department of Commerce, pursuant to the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5 (2009) (ARRA) for the costs of constructing a broadband infrastructure in a four-county region in New Mexico.

Proprietary Funds

Economic Development Administration Revolving Loan Fund - Accounts for activities initially capitalized by a grant from the U. S. Department of Commerce and 25% matching funds. The fund was originally established in 1983 and is currently in its revolving phase. Loans are made to eligible borrowers to stimulate economic development. The principal and a portion of the interest on loan payments must remain intact and be used to recapitalize the fund for future loans.

Proprietary Funds (Cont'd)

Tri-County Revolving Loan Fund - Accounts for activities initially capitalized by a grant from the U. S. Department of Energy. The purpose of the grant was to stimulate economic development in Los Alamos, Rio Arriba and Santa Fe counties as a result of workforce displacement at Los Alamos National Laboratory. The restrictions associated with the grant expired in May 1999, however, it is the Board's intention to maintain the fund for economic development.

NONMAJOR FUNDS

Special Revenue Funds

Medicaid Personal Care Fund - Accounts for services provided and funds received under agreement with the New Mexico Human Services Department.

State Grant-in-Aid Fund - Created under Section 4-58-4, et. Seq., NMSA, 1978 Compilation. The purpose of the fund is to account for grant monies to assist units of local governments in development and implementation of regional economic development programs.

Economic Development Administration Planning Fund - Accounts for EDA grant funds used to implement an economic development program designed to encourage new employment opportunities and to foster a stable and diversified local economy. Funded by Section 301(b) of the Public Works and Economic Development Act of 1985, as amended.

San Miguel County Planning Funds - Accounts for the activities associated with a grant from San Miguel County.

NPRPO Transportation Planning - Accounts for activities associated with a grant from the New Mexico State Highway Department for the Northern Pueblos Regional Planning Organization for planning.

Economic Development Administration RLF Administration Fund - Accounts for the cost of administering the Economic Development Administration Revolving Loan Fund. Under the terms of the agreement with the U. S. Department of Commerce, a portion of the interest earned on loans is to be used for the administration of the fund.

Tri-County RLF Administration Fund - Accounts for the cost of administering the Tri-County Revolving Loan Fund.

NERPO Planning - Accounts for activities associated with a grant from the New Mexico State Highway Department for the Northeast Regional Planning Organization for planning.

EMNRD - ARRA Grant - Accounts for the activities associated with a pass-through grant from the New Mexico Energy and Minerals Department, pursuant to the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5 (2009) (ARRA) for the costs of retro-fitting to improve energy modifications in homes and businesses in Wagon Mound, New Mexico.

Santa Fe County Planning - Accounts for activities associated with a grant for planning and technical assistance for Santa Fe County.

Northeast Economic Development Organization (NEEDO-NM) - Accounts for activities associated with organization as fiscal agent for the economic development organization.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual - The government-wide financial statements and the proprietary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual - The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (normally sixty days). Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred.

E. Encumbrances

Encumbrance accounting under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to preserve that portion of the applicable appropriation, is not employed by the District.

F. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

G. Financial Statement Amounts

1. Cash and Cash Equivalents

For the purpose of the Proprietary Fund Statement of Cash Flows, the District considers highly liquid investments with an original maturity of three months or less to be cash equivalents. Cash consists of petty cash and cash on deposit with banks.

2. Accrued Revenue

Various reimbursement procedures are used for Federal, State and Local awards received by the District. Consequently, timing differences between expenditures and program reimbursements can exist at any time during the fiscal year. Receivable balances at fiscal year end represent amounts expended during the fiscal year that are related to grant programs, however, the reimbursement for the expenditure was not received prior to the end of the fiscal year.

3. Interfund Receivables and Payables

To improve efficiency and physical control, the District maintains a pooled cash account for all governmental funds with each fund having an interest in the pooled cash account and reporting its interest in its balance sheet. Funds that have overdrawn their share of the pooled cash account report an interfund liability to the fund(s) which have absorbed the deficit cash balance (the fund(s) that management has deemed to have "loaned" the cash to the overdrawn fund). The funds which have absorbed the deficit cash balance reports a receivable from the overdrawn fund. Interfund balances are expected to be repaid within one year from the date of the financial statements of June 30, 2012.

4. Loans Receivable and Allowance for Loan Losses

The District administers various revolving loan funds. The funds were initially capitalized through grants from other governmental entities. The grants provide capital for loan pools which finance business development activities consistent with local economic development strategies. Loan repayments, plus interest and other related income, create a revolving source of capital to finance other business enterprises.

Loans are stated at unpaid principal balances. Interest income generally is not recognized on specific impaired loans unless the likelihood of further loss is remote. Interest income on impaired loans is recognized only to the extent of interest payments received. Loans are secured by various assets pledged by the borrower.

The allowance for loan losses is maintained at a level which, in management's judgement, is adequate to absorb credit losses inherent in the loans. The amount of the allowance is based on management's evaluation of the collectibility of the loans, including the nature of the loans, credit concentrations, trends in historical loss experience, specific impaired loans, economic conditions and other risks inherent in the loans. Although management uses available information to recognize losses on loans, because of uncertainties associated with local economic conditions, collateral values, and future cash flows, it is reasonably possible that a material change could occur in the allowance for loan losses in the near future. However, the amount of the change that is reasonably possible cannot be estimated. The allowance is increased by a provision for loan losses or reduced by loan loss recoveries, which is charged to expense or credited to income and reduced by charge-offs, net of recoveries. Changes in the allowance are charged to the provision for loan losses or credited to loan loss recoveries.

5. Capital Assets

Capital assets of the District include data processing equipment, furniture and fixtures, equipment and automobiles. The District does not have any infrastructure. Capital assets are defined in Section 12-6-10 NMSA 1978. Section 12-6-10 NMSA 1978, was amended effective June 19, 2005, changing the capitalization threshold of movable chattels and equipment from items costing more than \$1,000 to items costing more than \$5,000. The District has adopted this change in an accounting estimate, per Accounting Principles Board (APB) 20. Old inventory items that do not meet the new capitalization threshold will remain on the inventory list and continue to be depreciated. Any items received after July 1, 2005, will be added to the inventory only if they meet the new capitalization policy. Such assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. Computer software which is purchased with data processing computer equipment is included as part of the capitalized computer equipment in accordance with 2.20.1.9 C (5) The cost of maintenance and repairs that do not add to the asset value or materially extend assets lives are not capitalized. The District does not undertake major capital projects involving interest costs during the construction phase. There is no debt related to the capital assets. Capital assets of the District are depreciated using zero salvage value and the straight-line method over the following estimated useful lives:

Depreciation on all exhaustible capital assets is provided on the straight-line basis with no salvage value. The estimated useful life for capital assets is as follows:

Office equipment - 3 years	Vehicles - 5 years
Office furniture - 7 years	Leasehold improvements - lease term

GASB Statement No. 34 requires the District to report and depreciate infrastructure assets. Infrastructure assets include roads, bridges, underground pipe, traffic signals, etc. The District does not own any infrastructure assets.

6. Due to Grantees

The District manages programs for the elderly under contract with the New Mexico State Agency on Aging pursuant to the Older Americans Act. The District contracts with local governments and not-for-profit organizations to provide services for the elderly. Amounts due to those providers are services rendered prior to year-end are recorded as due to grantees.

7. Deferred Revenue/Advances

In accordance with GASB Statement No. 33, most governmental grants are considered voluntary nonexchange transactions. Accordingly, revenues are recognized when allowable costs have been incurred and any other eligibility requirements have been met. Amounts provided in advance of requirements being met are presented as deferred revenues. The grants stipulate that any grant funds which are advanced and not expended by the expiration of the grant must be returned to the U. S. Treasury. The District does not anticipate any funds being returned to the grantors.

8. Compensated Absences

Employees are entitled to accumulate annual leave at a rate of three to four weeks per year depending on their tenure. A maximum of 240 hours of annual leave may be accrued. When employees terminate, they are compensated at their current hourly rate for accumulated unpaid annual leave as of the date of termination.

Employees are entitled to accumulate sick leave at a rate of eight hours per month. There is no limit to the amount of sick leave that an employee may accumulate. Employees may trade in sick leave for annual leave at a rate of four hours of sick leave for one hour of annual leave.

The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources in accordance with GASB Interpretation No. 6 *Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements*.

9. Equity Classifications

Government-Wide Statements

Equity is classified as net assets. Net assets is the difference between assets and liabilities. Net assets invested in capital assets represents the historical cost of assets or fair value on date of receipt less accumulated depreciation on those assets. Net assets are reported as restricted when there are legal litigations imposed on their use by the District or external restrictions by other governments, creditors or grantors. Unrestricted net assets are all other net assets that do not meet the definition of "restricted" or "invested in capital assets".

Fund Statements

Governmental fund equity is classified as fund balance.

Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definition, was implemented by the District for the year ending June 30, 2012. Statement No. 54 replaces the old fund balance terminology ("reserved", "unreserved", "designated", and "undesignated") with new financial reporting categories for fund balances of governmental funds.

Governmental fund balances are now divided into five classifications based on the extent to which government is bound to honor constraints on the specific purposes for which amounts in that fund can be spent.

9. Equity Classifications (Cont'd)

Non-spendable includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact.

The spendable fund categories can be depicted as follows:

Restricted are amounts that are so due to enabling legislation, constitutional provisions, externally imposed by grantors, contributors, laws or regulations of other governments, or by creditors, such as through debt covenants.

Committed are amounts that are subject to a purpose constraint imposed by a formal action of the government's highest level of decision-making authority before the end of the fiscal year, and removal of the constraint would require a formal action by the same authority.

Assigned consists of amounts that are intended to be used for a specific purpose established by the government's highest level of decision-making authority, or their designated body or official. The purpose of the assignment must be narrower than the general fund, assigned fund balance represents the residual amount in the fund balance.

Unassigned represents the residual amount after all classifications have been considered for the government's general fund, and could report a surplus or a deficit.

Proprietary fund equity is classified in the same manner as in the government-wide financial statements.

10. Revenues and Expenditures

Substantially all governmental fund revenues are accrued. Program revenues consist principally of Federal operating and State grants that are restricted to expenditure for a particular purpose. Proprietary fund program revenues consist principally of interest on loans receivable and are recognized when earned, except for interest on impaired loans which is recognized when received.

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities. Non-operating revenues are all other revenues. For the District, non-operating revenues include interest income.

Expenditures are recognized when the related fund liability is incurred.

3. Stewardship, Compliance and Accountability

By its nature as a government unit, the District is subject to various laws and contractual regulations. An analysis of the District's compliance with significant laws and regulations and demonstration of its stewardship over District resources follows:

3. Stewardship, Compliance and Accountability (Cont'd)

A. Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. A proposed operating budget is prepared prior to May 1 by the district's fiscal officers. The budget request includes proposed expenditures and the means of financing them through Federal and State grants and membership assessments.
2. A proposed budget is presented to the Executive Committee for review in its June meeting and subsequently approved by the Board of Directors. The Board of Directors must approve all subsequent budget transfers and increases. The budget was amended during the year. The legal level of budgetary control is by fund. In addition, budgetary control is also exercised at the grant level by program. (See note 10).
3. The General and Special Revenue funds operating budgets for the District are adopted on a basis consistent with accounting principles generally accepted in the United States of America, with the exception that prior cash budgeted is treated as a revenue source in the accompanying budgetary comparison statements. The District does not utilize an encumbrance system and appropriations do not lapse at year-end. Budgets are adopted to proprietary funds.

4. Detail Notes on Accounts and Transaction Classes

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government's deposit policy for custodial credit risk is as follows:

Bank accounts are insured by the FDIC up to \$250,000, per bank, per type of account. In general, State statute require that banks pledge collateral equal to one half of the deposit balance in excess FDIC insurance limits. Accounts are in one financial institution as listed above. As of June 30, 2012, \$2,349,358 of the District's bank balances of \$2,599,358 is exposed to custodial credit risk as follows:

Interfund transfers are used to provide matching funds on grants or to transfer funds from the fund required to receive resources to the fund that budgets expenditure of resources. Interfund transfers have been eliminated in the government-wide financial statements except for the residual transfers between governmental activities and business-type activities.

J. Short-Term Debt

The District had no short-term debt activity during the year.

5. Pension Plan - Public Employees Retirement Association

Plan Description. Substantially all of the District's full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA's website at www.pera.state.nm.us.

Funding Policy. Plan members are required to contribute 8.92% (ranges from 3.83% to 16.65% depending upon the plan, i.e., state general, state hazardous duty, state police and adult correctional officers, municipal general, municipal police, municipal fire, municipal detention officer) of their gross salary. The District is required to contribute 15.09% (ranges from 7.0% to 25.72% depending upon the plan) of the gross covered salary. The contribution requirements of plan members and the District's are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The District's contributions to PERA for the fiscal years ending June 30, 2012, 2011, and 2010 were \$199,163, \$185,745, and \$198,886, respectively, which equal the amount of the required contributions for each fiscal year.

6. Post Employment Benefits - State Retiree Health Care Plan

Plan Description. The District contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. During the fiscal year ended June 30, 2012, the statute required each participating employer to contribute 1.834% of each participating employee's annual salary; each participating employee was required to contribute .917% of their salary. In the fiscal years ending June 30, 2012 through June 30, 2013 the contribution rates for employees and employers will rise as follows:

For employees who are not members of an enhanced retirement plan the contribution rates will be:

<u>Fiscal Year</u>	<u>Employer Contribution Rate</u>	<u>Employee Contribution Rate</u>
FY13	2.000%	1.000%

6. Post Employment Benefits - State Retiree Health Care Plan (Cont'd)

Also, employers joining the program after January 1, 1998, are required to make a surplus-amount contribution to the RHCA based on one of two formulas at agreed-upon intervals.

The RHCA plan is financed on a pay-as-you-go basis. The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the contributions can be changed by the New Mexico State Legislature.

The District's contributions to the RHCA for the years ended June 30, 2012, 2011, and 2010, were \$21,598, \$26,672, and \$15,418, respectively, which equal the required contributions for each year.

7. Risk Management

The District obtains coverage through Risk Management Division of the State of New Mexico General Services Department. This coverage includes liability and civil rights, property, vehicle, employer bond, workers' compensation, group insurance and state unemployment. These coverages are designed to satisfy the requirements of the State Tort Claims Act. All employees of the District are covered by blanket fidelity bond up to \$5,000,000 with a \$1,000 deductible per occurrence by the State of New Mexico for the period July 1, 2011, through June 30, 2012. The District paid \$31,506 to the RMD in insurance premiums for the 2011-2012 fiscal year.

8. Contingencies

The District receives funding pursuant to various grant programs. The grant programs are often subject to additional audits by agents of the granting agency, the purpose of which is to ensure compliance with the specific conditions of the grant that, if not met, could require the District to refund amounts received in the granting agency. The District carefully monitors grant requirements and believes it has met all such conditions.

9. Joint Powers Agreement

The District was created by a joint powers agreement entered into on May 13, 1967, pursuant to the Joint Powers Agreement Act, between the District, the City of Santa Fe, and the following counties: Colfax, Taos, Rio Arriba, Sandoval, Los Alamos, San Miguel, Mora and Santa Fe.

The governing body of the district is its Board of Directors, which is made up of representatives of each county. The Board has thirty-four members.

The District was created for the following purposes:

1. To implement and carry out the provisions and spirit of the Public Works and Economic Development Act of 1965, Public Law 8-136, and all subsequently enacted Federal and State legislation related to these purposes.
2. To stimulate economic growth and orderly development through multi-county planning and investment, pooling of total resources and vigorous local leadership involvement.
3. To prepare, adopt and extend a District "Overall Economic Development Program" (OEDP) as required for District formal designation.

9. Joint Powers Agreement (Cont'd)

4. To formulate, develop and administer the District OEDP and coordinate this activity among the member Counties and Municipalities.
5. To implement specific programs and projects as are considered essential and worth to the members of the District.
6. To carry out such research, planning and advisory functions as are necessary and helpful to the foregoing.

The agreement is perpetual or until dissolved by the Board of Directors with approval of the New Mexico State Board of Finance.

The District prepares an annual budget and keeps records of all transactions. All records are audited annually by proper authority.

**STATE OF NEW MEXICO
NORTH CENTRAL NEW MEXICO ECONOMIC DEVELOPMENT DISTRICT
Notes to the Schedule of Expenditures of Federal Awards
June 30, 2012**

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Northern Central New Mexico Economic Development District (the District) and is presented on the accrual basis of accounting, except that loans outstanding at the beginning of the period and loans made during the period are presented as expenditures. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of states, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented, or used in the preparation of the basic financial statements.

2. Loans Outstanding

The District had the following loan balances outstanding at June 30, 2012. The loan balances were initially funded with Federal funds at the rate of 75%. These loan balances outstanding are also included in the federal expenditures presented in this schedule.

<u>Cluster/Program Title</u>	<u>Federal CFDA Number</u>	<u>Loans Outstanding</u>
Special Economic Development and Adjustment Assistance Program: Sudden and Severe Economic Dislocation and Long-Term Economic Deterioration	11.307	\$558,964

3. Federal Revolving Loan Funds

The Special Economic Development and Adjustment Assistance Program: Sudden and Severe Economic Dislocation and Long-Term Deterioration - EDA Loans is a federal revolving loan fund (RLF). Monies were originally received from the US Department of Commerce as grant funds.

For the RLF part of the Special Economic Development and Adjustment Assistance Program, calculation of Federal awards expended for the current year consider the following:

- a. Balance of RLF loans outstanding at the end of the fiscal year, plus
- b. Cash and investment balance in the RLF at the end of the fiscal year, plus
- c. Administrative expenses paid out of the RLF income during the fiscal year.

The federal share of the grantee's RLF is calculated as follows: [sum of all EDA-RLF dollars from all of grantee's RLF awards] / (sum of all project dollars for all of grantee's RLF awards)] x grantee's RLF.

<u>6/30/12 Loan Balance</u>	+	<u>6/30/12 Cash Balance</u>	+	<u>(From EDA Admin. Acct. 11-601) FY 12 Operating Expenses</u>	=	<u>Federal Expense</u>
\$558,964	+	\$268,360	+	\$15,000	=	\$842,324

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Nick L. Salazar, President
and
Tim Armer, Executive Director
North Central New Mexico Economic Development District
and
Mr. Hector H. Balderas
New Mexico State Auditor
Santa Fe, New Mexico

We have audited the financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information, the budgetary comparisons for the general fund and major special revenue fund, and the combining and individual funds presented as supplemental information of the State of New Mexico, North Central New Mexico Economic Development District (District) as of and for the year ended June 30, 2012, and have issued our report thereon dated November 30, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of agency is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal controls such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under **Government Auditing Standards**.

This report is intended solely for the information and use of the District's management, others within the agency, the State Auditor, the New Mexico Department of Finance and Administration, and the New Mexico Legislature, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Nick L. Salazar, President
and
Tim Armer, Executive Director
North Central New Mexico Economic Development District
and
Mr. Hector H. Balderas
New Mexico State Auditor
Santa Fe, New Mexico

Compliance

We have audited the State of New Mexico, North Central New Mexico Economic Development District's (District) compliance with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2012. The District's major federal programs are identified in the summary of auditor's results section of the accompanying *Schedule of Findings and Questioned Costs*. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and (OMB) Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing

procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the District's management, others within the District, the State Auditor, the New Mexico Legislature, the New Mexico Department of Finance and Administration, and federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
