Independent Auditors' Report

Board of Directors
New Mexico State University Foundation, Inc. and Subsidiaries and
Mr. Hector Balderas
New Mexico State Auditor

We have audited the accompanying consolidated statement of financial position of New Mexico State University Foundation, Inc. and Subsidiaries (Foundation) (a component unit of New Mexico State University) as of June 30, 2010 and 2009, and the related consolidated statements of activities and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Foundation as of June 30, 2010 and 2009, and the consolidated changes in its net assets and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Board of Directors
New Mexico State University Foundation, Inc. and Subsidiaries and
Mr. Hector Balderas
New Mexico State Auditor

In accordance with *Government Auditing Standards*, we have also issued our report dated November 5, 2010 on our consideration of the Foundation's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

New Mexico State University Foundation, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

For the Years ended June 30, 2010 and 2009

Note 1 - Organization and Activities

New Mexico State University Foundation, Inc. and its Subsidiaries (Foundation) is a nonprofit corporation established to acquire and manage charitable gifts, including endowed funds, to be used solely for the benefit of New Mexico State University (University). The Foundation is exempt from Federal income taxes under Internal Revenue Code section 501(c)(3). The Foundation is reported in the University's financial statements as a discretely presented component unit.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation. The consolidated financial statement of the New Mexico State University Foundation, Inc. and operating affiliates and associates have been consolidated and all significant intercompany amounts and transactions have been eliminated. The operating affiliates and associates consist of the Foundation, NMSU Sports Enterprises, Inc. and NMSU Space Development Foundation.

In the accompanying consolidated financial statements, net assets that have similar characteristics have been combined into similar categories as follows:

- *Permanently restricted* – Net assets subject to donor-imposed stipulations that they be maintained permanently by the Foundation. Such assets include primarily the Foundation's permanent endowment funds. Generally, the donors of these assets permit the Foundation's use of all or part of the investment return on these assets.
- *Temporarily restricted* – Net assets whose use by the Foundation is subject to donor imposed stipulations that can be fulfilled by actions of the Foundation pursuant to those stipulations or that expire with the passage of time.
- *Unrestricted* – Net assets that are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes, such as quasi-endowments, by action of the Board of Directors or may otherwise be limited by contractual agreements with outside parties. Unless otherwise designated, unrestricted net assets are used for the support of University programs.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents. Cash and cash equivalents include cash and short-term investments with original maturities to the Foundation of three months or less. The Foundation does not require that excess cash be collateralized by securities. These assets are not restricted for long-term investment as endowments.

Investments. Securities purchased are originally recorded at cost; securities received by gift are recorded at estimated fair value at the date of donation. The aggregate annual amounts of these gifts are disclosed in the Consolidated Statements of Cash Flows. Third-party investment managers administer substantially all marketable securities of the Foundation. Gains and losses resulting from securities transactions are recorded in net investment income in the accompanying financial statements.

New Mexico State University Foundation, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

For the Years ended June 30, 2010 and 2009

The Foundation's investments are carried at fair value. The estimated fair value of investments is based on quoted market prices, except for certain alternative investments for which quoted market prices are not available. The estimated fair value of these alternative investments is based on the most recent valuations provided by the external investment managers.

The Foundation believes the carrying amount of these financial instruments is a reasonable estimate of the fair value. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed.

Contributions Receivable. Contributions receivable include unconditional promises to give that have not yet been collected, including amounts to be received at the termination of several charitable remainder trusts for which the Foundation is not the trustee. Based on management's estimates of collectability, at June 30, 2010 and 2009, no amounts of uncollectable receivables have been established. No schedule of payments to be received is included in these financial statements as the timing of the payments is not determinable by year. Amounts not expected to be received within one year are included at their present value computed using the applicable IRS discount rates, which for June 2010 and 2009 were 3.2% and 2.8%, respectively.

Property and Equipment. Property and equipment is stated at cost. Additions and major improvements are capitalized in the appropriate asset accounts and the capitalization threshold is \$500. Repairs and maintenance are charged to expense as incurred. Straight-line depreciation is recorded over the following periods approximating the useful lives of each class of asset: computer equipment and software, 5 years; furniture and equipment, 7 years; and automobiles, 5 years.

Split Interest Agreements. The Foundation holds several irrevocable charitable remainder trusts. These are reflected in the accompanying financial statements as split interest agreements.

The charitable remainder trusts designate the Foundation as both trustee and remainder beneficiary. The Foundation is required to pay to the donor (or another donor-designated income beneficiary) either a fixed amount or the lesser of a fixed percentage of the fair market value of the trust's assets or the trust's income during the beneficiary's life. Trust assets are measured at fair value when received, and are carried by the Foundation at fair value. A corresponding trust liability is measured at the present value of expected future cash flows to be paid to the beneficiary computed using the applicable IRS discount rates, which for June 2010 and 2009 were 3.2% and 2.8%, respectively. Upon death of the income beneficiary, substantially all of the principal balances pass to the Foundation to be used in accordance with the donor's wishes.

Assets Held for Long-Term Investment. The Foundation manages a pool of assets invested to produce income to support programs of the University. These assets consist of cash and cash equivalents, marketable securities and related amounts of interest income receivable, notes receivable and two buildings held for investment. A portion of these assets belongs to the University; these are held in trust and managed by the Foundation (see Note 5). The Foundation owns the remainder, including endowments and gift annuities. In the accompanying financial statements, assets held in trust for New Mexico State University include the portion of the pool owned by the University; assets held for long-term investment include the portion of the pool owned by the Foundation.

New Mexico State University Foundation, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

For the Years ended June 30, 2010 and 2009

Also reported under this caption is donated property held for investment or held for sale with the proceeds to be invested long-term for income production. The properties are recorded at their fair value as of June 30, 2010 and 2009.

Other Assets. Other assets consist primarily of works of art that the Foundation intends to hold indefinitely, reproductions of works of art held for resale, the cash surrender value of life insurance policies, and other receivables. The works of art are recorded at fair value as of June 30, 2010 and 2009. The reproductions of works of art are recorded at fair value on the date of donation.

Gift Annuities Payable. The Foundation sponsors a charitable gift annuity program. To participate in the program, donors make gifts to the Foundation of assets, normally cash or marketable securities. In return, the donor and/or another designated beneficiary receive, from the Foundation, periodic payments for the life of the beneficiary. Upon death of the income beneficiary, the remaining amount from the original gift and its earnings are used in accordance with the donor's wishes. Gift annuities payable in the accompanying statements of financial position represent the net present value of periodic annuity payments over the estimated remaining lives of the income beneficiaries computed using the applicable IRS discount rates, which for June 2010 and 2009 were 3.2% and 2.8%, respectively.

Support. The Foundation reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from donor restrictions.

The Foundation reports gifts of land, property and equipment as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, the Foundation reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service. The aggregate annual amounts of such gifts are disclosed in the Consolidated Statements of Cash Flows.

Change in Donor Restrictions. During the years ended June 30, 2010 and 2009, the Foundation was contacted by some of its donors who wished to restrict permanently previous temporarily restricted donations or to release assets from previously imposed restrictions. In response to the requests, the Foundation transferred the requested amounts to the appropriate net asset class.

Fair Value of Assets and Liabilities. Effective July 1, 2008, the Foundation adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157). FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 has been applied prospectively as of the beginning of the year.

FAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FAS 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value.

New Mexico State University Foundation, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

For the Years ended June 30, 2010 and 2009

These are:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in active markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Reclassifications. Certain reclassifications have been made to the 2009 Financial Statements to conform to the classifications used in 2010.

Note 3 - Short-Term Investments

The Foundation invests cash in excess of daily requirements in certificates of deposit and short-term marketable securities. On June 30, 2010 the Foundation invested \$7,800,000 in certificates of deposit which mature in one year or less. In the accompanying Consolidated Financial Statements, short-term investments in marketable securities also represent a portion of these investments that do not qualify as cash equivalents. Short-term investments in marketable securities consisted entirely of domestic corporate stocks and bonds at June 30, 2010 and 2009.

Returns from certificates of deposit and short-term investments in marketable securities are included in unrestricted net assets in the accompanying Consolidated Statements of Activities. The following table summarizes those returns for the years ended June 30, 2010 and 2009 (see Note 10):

	2010	2009
Dividends and interest	\$ 703	\$ 768
Unrealized gain (loss), net	<u>46,531</u>	<u>(152,523)</u>
	<u>\$ 47,234</u>	<u>\$ (151,755)</u>

Note 4 - Property and Equipment

Depreciation expense for the fiscal years ended June 30, 2010 and 2009, was \$49,458 and \$54,799 respectively, and is included in administration expense on the accompanying Consolidated Statements of Activities. Major classifications of property and equipment at June 30, 2010 and 2009 are summarized below:

Note 5 - Affiliated Entity

During 1991, the Foundation entered into an agreement to manage, invest and distribute earnings from substantially all of the University's endowment funds, as directed by the Board of Regents of the University. The Foundation is authorized to hold in its name all assets received from the University. This agreement is for an indefinite period, but may be terminated by either party with 90 days notice. University endowment funds are pooled with Foundation endowment funds and gift annuity assets for investment. Under this agreement, the Foundation earned \$531,064 and \$539,518 in administration fees from the University during the fiscal years ended June 30, 2010 and 2009, respectively. Assets and liabilities for the amounts received by the Foundation under this agreement, as well as earnings and net appreciation from the investment of those assets, are included in assets held in trust for New Mexico State University in the accompanying Consolidated Statements of Financial Position. Assets held in trust for New Mexico State University totaled \$35,878,473 and \$32,061,249 at June 30, 2010 and 2009, respectively.

The University, in exchange for the Foundation's fund raising activities that directly benefit the University, provides certain facilities and services to the Foundation. The University provides the premises occupied by the Foundation and certain of the furniture, fixtures and equipment used by the Foundation. The Foundation recorded \$207,303 and \$194,704 during the fiscal years ended June 30, 2010 and 2009, respectively, for the estimated fair rental value of the premises, furniture, fixtures and equipment owned by the University. The property is not recorded in the accompanying financial statements. In addition, employees of the University perform all administrative services for the Foundation. A portion of the salaries for these employees (\$1,520,263 and \$1,478,071 for the years ended June 30, 2010 and 2009, respectively) was reimbursed to the University by the Foundation.

Amounts due to New Mexico State University in the accompanying statements of financial position includes salary expenses to be reimbursed to the University, as well as current use gifts and endowment earnings amounts for which the University has satisfied donor restrictions.

Note 14 - Fair Value of Assets and Liabilities

Following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying Consolidated Statement of Financial Position, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Assets

Level 1 Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include exchange traded equities.

Level 2 If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include governmental and corporate bonds, foreign obligations, and collateralized mortgage backed securities.

Level 3 These investments include partnerships and hedge funds whose values are determined based on financial data provided by the individual funds and partnerships. Investments classified within Level 3 have significant unobservable inputs as they trade infrequently or not at all.

In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy.

The following table presents the fair value measurements of assets recognized in the accompanying Consolidated Statement of Financial Position measured at fair value on a recurring basis and the level within the FAS 157 fair value hierarchy in which the fair value measurements fall at June 30, 2010.

Realized and unrealized gains and losses are included in the Net Investment Income (loss) on the Consolidated Statement of Activities. For 2010, a net gain of \$8,302,836 was recorded and for 2009, a net loss of \$13,737,128 was recorded.

The Foundation's interest in limited partnerships represents 22% and 19% of the total investments held by the Foundation at June 30, 2010 and 2009 respectively. These instruments may contain elements of both credit and market risk. Such risks include, but are not limited to, limited liquidity, absence of regulatory oversight, dependence upon key individuals, emphasis on speculative investments (both derivatives and non-marketable investments), and nondisclosure of portfolio composition.

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statement of financial position using significant unobservable (Level 3) inputs:

Note 15 - Endowment

New Mexico State University Foundation's endowment consists of approximately 1260 individual funds established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by internal sources to function as endowments. As required by GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

New Mexico State University Foundation Inc. classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure.

Notes to Consolidated Financial Statements

For the Years ended June 30, 2010 and 2009

Return Objectives and Risk Parameters

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that must be held in perpetuity or for a donor-specified period(s) as well as board-designated funds. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of investment vehicle specific benchmarks while assuming an appropriate level of risk. The Investment Policy calls for expectation of 6.5% plus the rate of the Consumer Price Index. Actual returns in any given year may vary.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy

In accordance with the Foundation's Investment Policy approved by the Board of Directors, a distribution is calculated for the upcoming year as of March 31 of the prior year. The spending formula used is described in the Investment Policy and is composed of two factors: 80% of the distribution is based on the previous year's distribution amount adjusted for the Higher Education Price Index, and 20% of the distribution is based on the market value of the endowment as of March 31 of the prior year. This amount is then distributed throughout the next year. The distribution of the annual calculation is based on the unitized system ownership of each fund.

Note 16 - Subsequent Events

Subsequent events are events or transactions that occur after the Consolidated Statement of Financial Position date but before financial statements are available to be issued. The Foundation recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing the financial statements. The Foundation's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the Consolidated Statement of Financial Position date and before financial statements are available to be issued.

Effective July 1, 2010, the Foundation is governed by the Uniform Prudent Management Investment Act. The Foundation's application of this act will not substantially affect the organization's operations.

Subsequent to year end, the investment markets continued to experience significant fluctuations, however from year end to the reporting date, the market continues to recover. It is expected that this volatility will continue to impact the value of investments reported in the Consolidated Statement of Financial Position in the subsequent fiscal year.

**Report on Internal Control Over Financial Reporting
and On Compliance and Other Matters Based on an
Audit of Financial Statements Performed in Accordance
With *Government Auditing Standards***

Board of Directors
New Mexico State University Foundation, Inc. and Subsidiaries and
Mr. Hector Balderas
New Mexico State Auditor

We have audited the consolidated financial statements of the New Mexico State University Foundation (Foundation), a component unit of New Mexico State University (University), as of and for the year ended June 30, 2010 and have issued our report thereon dated November 5, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Foundation's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Foundation's financial statements will not be prevented, or detected and corrected on a timely basis.

Board of Directors
New Mexico State University Foundation, Inc. and Subsidiaries and
Mr. Hector Balderas
New Mexico State Auditor

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Foundation's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Directors, Management, and the New Mexico State Auditor, and is not intended to be, and should not be used by anyone other than these specified parties.
