Members of the Board of Regents New Mexico State University

We are pleased to submit the annual financial report of New Mexico State University (the University) for the fiscal year ended June 30, 2013. The accompanying financial statements of the University include a separate column entitled Discrete Component Unit representing the New Mexico State University Foundation, Inc. Moss Adams LLP, independent auditors, have examined the financial statements and their unqualified opinion is displayed on pages 3 through 5 of the report.

The University continued to manage through the negative budgetary impacts of the on-going economic instability during the fiscal year ended June 30, 2013. The University benefitted greatly from the underlying soundness of our financial position, and by the increased support in state appropriations of \$10.7 million. Total assets increased by over one percent, and total net position increased by \$8.3 million. A slight decline in operating revenues, primarily due to a decrease in federal appropriations, grants and contracts is offset by a reduction in operating expenses and a six percent increase in non-operating revenues.

Improvement to our capital assets continues with the recent completion of the Center for the Arts, the Satellite Chilled Water Plant, the Taos Restaurant renovation, and further expansion of the East Mesa Campus for Doña Ana Community College. A number of new projects are underway or scheduled to begin during the upcoming year, including the Institute for Public Policy, an Undergraduate Learning Center, and renovation of the Corbett Center Student Union. Supporting our students with premier facilities and equipment is a critical aspect of providing the highest quality educational experience in the furtherance of our mission.

The revenue outlook at the state level is stable and forecasts reflect increased total revenue collections providing new funds available for the upcoming year. The University expects to benefit from the state's economic growth and their commitment of support for higher education through increased general fund appropriations for fiscal year 2015. As we move into the new fiscal year, the University's Vision 2020 Strategic Plan will be our focus and serve as our primary guide in the utilization of resources to implement identified objectives in achievement of our ambitious goals. With the combined talents, dedication and support of our Regents, sponsors, friends, faculty, and staff, we will continue to make a positive difference in higher education and invest in our core strengths of instruction, research, extension, service, and outreach.

Sincerely,

Garrey Carruthers, Ph.D.

President

REPORT OF INDEPENDENT AUDITORS

The Board of Regents New Mexico State University and Mr. Hector Balderas New Mexico State Auditor

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and discretely presented component unit, of New Mexico State University (the "University") as of and for the years ended June 30, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents. We have also audited the combining statements of net position – primary institution as of June 30, 2013 and 2012, and the combining statements of revenues, expenses and changes in net position – primary institution for the years then ended, and the budget comparison for the year ended June 30, 2013, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

The Board of Regents New Mexico State University and Mr. Hector Balderas New Mexico State Auditor

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the University as of June 30, 2013 and 2012 and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the combining statements of net position – primary institution as of June 30, 2013 and 2012, and the combining statements of revenues, expenses and changes in net position – primary institution for the years then ended, present fairly, in all material respects in accordance with accounting principles generally accepted in the United States of America. Also, in our opinion, the budget comparisons referred to above present fairly, in all material respects, the budgetary comparison for the year ended June 30, 2013 in conformity with the budgetary basis of accounting prescribed by the New Mexico Administrative Code, and more fully described in the budgetary schedules, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedule of funding progress and employer contributions on pages 6 through 16 and page 63 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Board of Regents New Mexico State University and Mr. Hector Balderas New Mexico State Auditor

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements and the Budget Comparisons. The accompanying Schedule of Bank Balances, Pledged Collateral Requirements, and Pledged Collateral by Financial Institution, and Schedule of Joint Powers Agreements (JPA) and Memorandums of Understanding (MOU) as required by the New Mexico State Audit Rule and the Schedule of Expenditures of Federal Awards as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations (Circular A-133) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Bank Balances, Pledged Collateral Requirements, Pledged Collateral by Financial Institution, Schedule of Joint Powers Agreements (JPA) and Memorandums of Understanding (MOU), and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Bank Balances, Pledged Collateral Requirements, Pledged Collateral by Financial Institution, Schedule of Joint Powers Agreements (JPA) and Memorandums of Understanding (MOU), and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2013 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

Management's Discussion and Analysis

For the Year Ended June 30, 2013 (Unaudited)

Overview of Financial Statements and Financial Analysis

Management's Discussion and Analysis is designed to provide an easily readable analysis of New Mexico State University's (the University's) financial activities for the fiscal years ended June 30, 2013, 2012 and 2011. This overview is based on facts, decisions and conditions known as of the date of the independent auditors' report. There are three financial statements presented: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows. Please read this analysis in conjunction with the University's financial statements and accompanying notes, that begin on page 17. Separately issued component unit financial statements are available as detailed in Note 11.

Using This Annual Report

The Statement of Net Position provides information about the University's financial condition at fiscal year end. It presents both a current year synopsis and a longer-term view of the University's assets, liabilities and net position.

The Statement of Revenues, Expenses, and Changes in Net Position should be used to review the results of the current year's operations. Changes in total net position, as presented in the Statement of Net Position, are based on the activities presented in this statement. The purpose of the statement is to present the revenues earned by the University and the expenses incurred by the University and any other revenues, expenses, gains and losses earned or incurred by the University. Non-operating revenues include state appropriations revenue, gift revenue and interest earned on operating balances. The line item entitled "Income (loss) before other revenues, expenses, gains or losses" may give a more complete picture of the results of the University's operations during the year, including income resulting from non-exchange transactions. A non-exchange transaction is one in which the University receives value or benefit from a third party without directly providing equal value in exchange, such as in receipt of a donation.

The final statement presented is the Statement of Cash Flows. The Statement of Cash Flows presents detailed information about the cash activity of the University during the fiscal year.

Footnote information provides additional detail on the University's overall accounting practices and individual statement line items, including a natural classification report of operating expenses.

Additional information may be obtained by contacting the Office of the Senior Vice President for Administration and Finance at 575-646-2431 or boffice@nmsu.edu.

Financial Highlights

For the years ended June 30, 2013, 2012, and 2011, the University's financial position was as follows (in thousands):

General Overview for 2013 and 2012

In fiscal year 2013, the total assets of the institution increased by \$10.1 million and liabilities increased by \$1.8 million. Changes in the Statement of Net Position include:

- Conversion of Accounts receivable, which contributed to an increase in cash.
- Increase in Capital assets, as several major construction and infrastructure projects were completed within the year.
- Decrease in Accounts payable, as several large construction billings, outstanding at June 30, 2012, were paid early in fiscal year 2013.
- Increase in Other long-term liabilities due to issuance of new debt during the year.

The operations discussed below contributed to the \$8.3 million increase in net position. Primary components of this change in net position include:

- Increase in State appropriations of \$10.7 million.
- Decrease in Capital appropriations and Net non-operating revenue.
- Decrease in Federal appropriations, grants and contracts due primarily to decrease in federal funding from Federal Pell, NM Works, USDA ARS Rangeland Management and the SNAP Ed program funding, offset by an increase in Non-governmental grants and contracts.
- Increase in Gifts related to contributions from donors and an increase in Investment income related primarily to the earnings from the endowment held by the Foundation.

Accordingly, the Statement of Cash Flows shows a net increase in cash. The largest source of cash from operating activities was from Grant and Contract revenues, followed by Tuition and Fees, while the largest source of cash from non-operating activities was from State Appropriations. The most significant uses of cash were for payments to suppliers and to employees and for employee benefits.

General Overview for 2012 and 2011

In fiscal year 2012, the total assets of the institution increased by \$7.1 million and liabilities increased by \$0.2 million. Changes in the Statement of Net Position include:

- Increase in Cash and cash equivalents held in trust and Accounts receivable based on timing of receipt of funds by the Foundation and for student loans.
- Continuation of the ongoing increase in Capital assets, as several major construction and infrastructure projects progressed throughout the year.

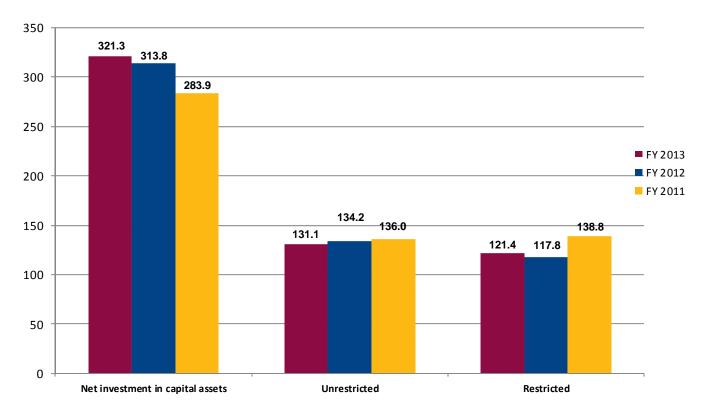

The revenue and expense operations discussed below contribute to the increase in net position of \$6.9 million. Primary components of this change in net position include:

Decrease in operating revenue line of Federal appropriations, grants and contracts primarily due to a
decrease in federal funding from Federal Pell, Department of Defense, Health and Human Services and
US AID.

 Decrease in operating expense line of Public service due primarily to a decrease in expenses related to funding from Health and Human Services and US AID.

The Statement of Cash Flows shows a net decrease in cash. The largest reduction of cash from operating activities was from Grant and Contract revenues, followed by Tuition and Fees. The most significant uses of cash were for payments to suppliers, to employees and for employee benefits and for construction of capital assets.

The following graph illustrates the comparison of net position (in millions) by category for fiscal years 2013, 2012 and 2011.

Operating Revenues for 2013 and 2012

Student tuition and fees (net), one of the larger Operating revenue sources, increased in fiscal year 2013, along with State grants and contracts, Local appropriations, grants and contracts and Non-governmental grants and contracts. The increase in these sources was offset by a decrease in Federal appropriations, grants and contracts, Sales and services and Other operating revenues.

The net operating loss for fiscal year 2013 of \$204.1 million decreased by \$.7 million from the \$204.8 million loss in fiscal year 2012. Operating revenues decreased by \$1.5 million. The most significant changes in Operating revenues were as follows:

- Increase in Student tuition and fees, net of Scholarship allowances, of \$2.2 million (3.3%), due to increased tuition and fees rates.
- Decrease in Federal appropriations, grants and contracts of \$6.8 million (4.2%). This decrease is due
 to a decrease of Federal Pell funding of \$3.2 million, a decrease in specific Physical Science
 Laboratory Department of Defense work of \$2.9 million, USDA ARS funding of \$.5 million, SNAP Ed
 program funding of \$.4 million, and the completion of the NM Works project which resulted in a \$.7
 million decline in federal revenue.

- Increase of \$2.0 million (6.9%) in State grants and contracts, related primarily to State funded scholarship program funding like the Legislative Lottery and NM Public Education Department MC2 funding.
- Increase of \$3.7 million (69.1%) in Non-governmental grants and contracts, related to the creation of the GO Teacher program of \$1.2 million, along with various other increases in private grants.
- Decrease of \$1.9 million (6.3%) in Sales and services, related primarily to athletics, agricultural sales and auxiliary administration.
- Decrease of \$1.9 million (5.5%) in Other operating revenues, related primarily to lower recovery of indirect costs.

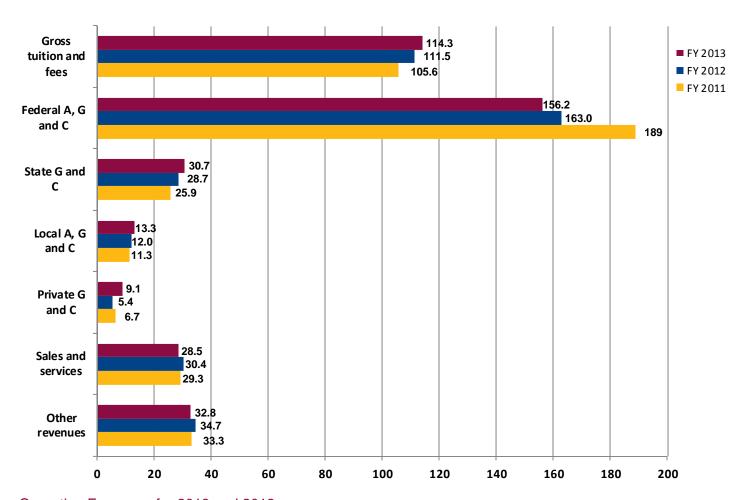

Operating Revenues for 2012 and 2011

Federal appropriations, grants and contracts, the largest Operating revenue sources, decreased in fiscal year 2012. The decrease in this source was offset by an increase in Student tuition and fees and State grants and contracts.

The operating loss for fiscal year 2012 of \$204.8 million increased by \$3.4 million from the \$201.4 million loss in fiscal year 2011. Operating revenues decreased by \$19.6 million. The most significant changes in Operating revenues were as follows:

- Decrease in Federal appropriations, grants and contracts of \$26.0 million (13.8%). This decrease is due to a decrease of Federal Pell funding of \$5.4 million, Department of Defense funding of \$7.1, US AID funding of \$6.5 and Health and Human Services funding of \$7.0.
- Increase in Student tuition and fees, net of Scholarship allowances, of \$4.4 million (7.0%), due to increased tuition and fees rates.
- Increase in State grants and contracts of \$2.8 million (10.7%). This increase is due to an increase of New Mexico Environment Department funding of \$0.4 million, New Mexico Legislative Lottery funding of \$1.8 million and New Mexico Children, Youth and Families Division funding of \$0.6 million.

The following graph illustrates a comparison of operating revenues (in millions) by type for fiscal years 2013, 2012 and 2011.

Operating Expenses for 2013 and 2012

The largest dollar changes in operating expense were as follows:

- Decrease in Research expense of \$4.3 million (3.7%), related to declines in DoD funding at the Physical Science Laboratory of \$2.9 million, various funding sources for the Bio Security and Food Safety Center totaling \$2.1 million and USDA ARS.
- Decrease in Scholarships and fellowships expense of \$3.3 million (7.0%). This decrease is due to declines in Federal Pell and other federal awarded funds, as a result of declines in enrollment and federal funding cuts.
- Decrease in Public Service expense of \$2.0 million (4.6%), related to reduced funding on the SNAP Ed program of \$.4 million and the completion of NM Works, which resulted in reduced expenses of \$.7 million.

The above mentioned decreases were offset by an increase in the following expense line item:

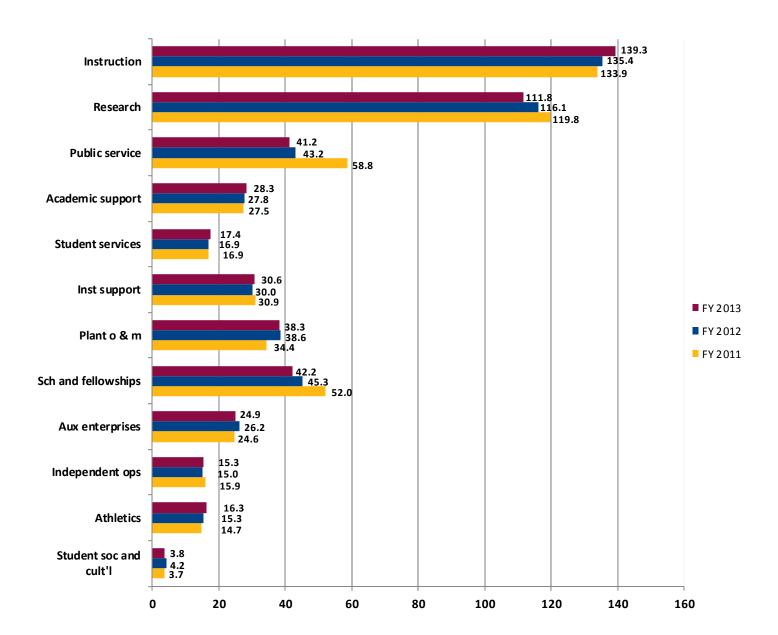

• Increase in Instruction expenses of \$3.8 million (2.8%). This increase is due to increased spending due to the elevated Instruction and General state-appropriated funding.

Operating Expenses for 2012 and 2011

The largest dollar decreases in operating expense were as follows:

- Decrease in Public service expense of \$15.5 million (26.5%). This decrease is due to the completion of grant-funded projects awarded by US AID and Health and Human Services.
- Decrease in Scholarships and fellowships expense of \$6.7 million (12.9%). This change is due to a decrease of expenses related to Federal Pell grant and scholarship programs.

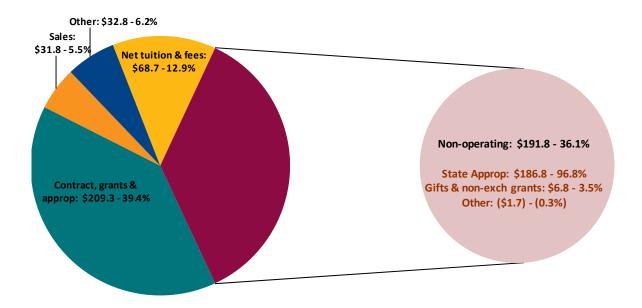

The following graph illustrates a comparison of operating expenses (in millions) by function (excluding depreciation and loan administration) for fiscal years 2013, 2012 and 2011.

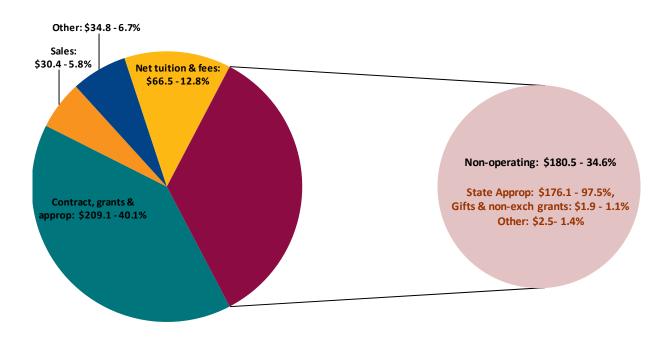

The Statement of Revenues, Expenses, and Changes in Net Position reflects an Income/(loss) before other revenues, expenses, gains or losses of (\$12.3 million), (\$24.3 million) and \$8.9 million in 2013, 2012 and 2011, respectively.

The following graphs reflect the University's sources of revenue available to meet current operating costs for fiscal years 2013, 2012 and 2011.

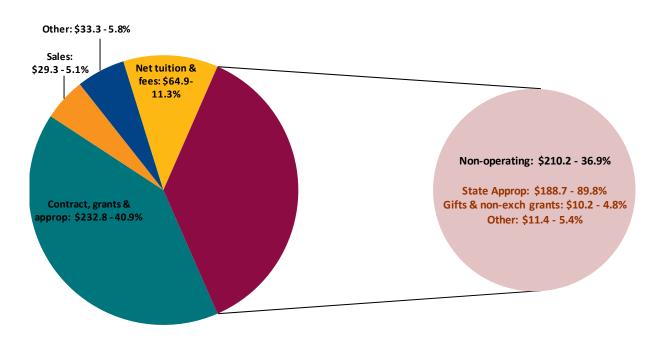

2013 Total Operating and Non-operating revenues

2012 Total Operating and Non-operating revenues

2011 Total Operating and Non-operating revenues

Capital Asset and Debt Administration

The fiscal year 2013 net increase in capital assets was \$4.6 million, due in part to completion of the previously partially-capitalized Center for the Arts (\$14.2 million), the Satellite Chilled Water plant (\$3.8 million), improvements to the campus dining area within Corbett Center Student Union building (\$1.9 million), phases six and seven at the East Mesa Campus of the Dona Ana Community College (\$1.9) and Phase 2 of the Chamisa Village Student Apartments (\$1.1 million). Construction work in process expenditures incurred in fiscal year 2013 totaled \$1.4 for the Institute for Public Policy. In all, these projects contributed to a gross increase in assets of \$24.3 million. The increase was offset by increased depreciation expense of \$21 million on these new capital assets.

During fiscal year 2012, the Net Capital Assets increase of \$58.6, million was largely the result of the completion of Phase 2 of the Chamisa Village Student Apartments (\$14.1 million), the completion of phases 6 and 7 of the Dona Ana Community College East Mesa Campus (\$10 million), completion of the infrastructure portion of the Satellite Chilled Water Plant (\$9.7 million). Construction In Progress (CIP) for the Center for the Arts continued through FY 2012, accumulating additional future capitalizable expenditures of \$18.5 million. The remaining components of the Satellite Chilled Water Plant incurred CIP expenditures of \$6.5 million in FY12.

During fiscal year 2011, the Net Capital Assets increase of \$24.7 million originated from five projects that were in the construction work in progress phase – the new Bookstore (\$10.5 million), Phase 2 Chamisa Village Student Apartments (\$6.1 million), the Carlsbad Allied Health Facility (\$4.1 million), the Center for the Arts (\$4.1 million) and the Satellite Chilled Water Plant (\$3.7 million). This increase was offset by a decrease in spending for capital equipment, which was \$2.6 million less in fiscal year 2011 than that of fiscal year 2010. This trend will likely continue in the foreseeable future, since the equipment capitalization threshold was changed in fiscal year 2006, and now aging capital equipment is being replaced by equipment valued below the capitalization threshold.

Budget Comparison

In comparing the total original budgeted revenue to the revised budgeted revenue for fiscal year 2013, there was a net increase of approximately \$19.4 million, and an increase of approximately \$10.3 million in the revised budgeted expenditures. The most significant changes to revenues were anticipated increases in Other Sources of Revenue offset in part by anticipated decreases related to Federal government grants and contracts, and to a lesser extent, a decrease in tuition and fees revenue. The increase in expenditures related primarily to expenditures for Capital Outlay and Research, offset in part by decreases to Student Financial Aid and Renewals and Replacements in the plant fund. There were less significant changes in several of the other functional expense categories.

Actual revenues earned in fiscal year 2013 were lower than the revised budget by \$39.9 million and actual expenditures were lower than the revised budget by \$56.5 million. The main contributor to the revenue budget variance was Other Sources of Revenue (55% of the change) and the main contributors to the expense budget variance were the Instruction, Research, Student Financial Aid and Capital Outlay categories (73% of the change). Because the University budgets capital projects in their entirety, multi-year projects may result in mismatches of budget to actual revenues and expenses in any one year. Total operating expenditures were greater than revenues, resulting in a decrease in the overall fund balance of \$4.8 million. This net decrease is associated with capital outlay and renewal and replacement projects (\$5.8 million), which often receive funding that is spent over the project life that often exceeds one year, offset by a net increase in current fund balances of \$1.0 million.

Factors Impacting Future Periods

The New Mexico Higher Education Department presented a revised funding formula for higher education to Governor Susana Martinez and the Legislative Finance Committee during fiscal year 2012. The new formula which incorporated fundamental changes to the prior funding formula calculation has been used to determine the general fund appropriations for higher education for instruction and general purposes since fiscal year 2013. Additional modifications to the funding formula were incorporated in the formula calculation presented by the New Mexico Higher Education Department during fiscal year 2013 and it is expected that additional changes will be made during fiscal year 2014.

In the 2012-2013 academic year, 6,058 students at the University received lottery tuition scholarships. A 2013 legislative session memorial tasked the New Mexico Higher Education Department with forming a work group to study the solvency of the lottery tuition fund, compile student data or recommend data to be provided by each public higher education institution and to study methods to increase the short-term and long-term solvency of the fund. The work group is expected to present its recommendations to the New Mexico legislature by December 1, 2013.

The University is not aware of any additional facts, decisions, or conditions that are expected to have a significant effect on the financial position or results of operations during fiscal year 2014, beyond those unknown variations having a global effect on virtually all types of business operations. The University will maintain close oversight of resources to ensure the University's ability to react to unknown internal and external issues.

Note 1 - Organization

New Mexico State University (the University) was created under Section 21-8-1 New Mexico Statutes Annotated (NMSA), Article XII, Section 11, of the New Mexico State Constitution. Under Article XII, Section 13 of the New Mexico Constitution, the University governed by the Board of Regents, a group of five members, one of whom is a student, appointed by the Governor of New Mexico. Members may serve more than one term. The President of the University acts as Chief Executive Officer.

The University was founded in 1888, and in 1889 was established as a land-grant college, in accordance with the provisions of the Morrill Act of 1862. As such, the University continues to provide a liberal and practical education for students and to sustain programs of research, extension education, and public service. The University offers a broad program of instruction at the undergraduate and advanced degree levels in Agricultural, Consumer and Environmental Sciences, Arts and Sciences, Business, Education, Engineering, and Health and Social Services. Other programs include Intercollegiate Athletics, the Agricultural Experiment Stations, the Physical Science Laboratory for contract research, the Cooperative Extension Service, the New Mexico Department of Agriculture, and community colleges at Alamogordo, Carlsbad, Doña Ana County, and Grants.

New Mexico State University Foundation, Inc. (Foundation), is the "Discrete Component Unit" referred to throughout this document. The Foundation is a not-for-profit corporation established to acquire and manage charitable gifts, including endowed funds, to be used solely for the benefit of the University.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation. The Governmental Accounting Standards Board's (GASB) 39, Determining Whether Certain Organizations are Component Units and GASB Statement No. 61, Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34, provides additional guidance to determine whether certain organizations, for which the primary government is not financially accountable, should be reported as component units, based on the nature and significance of their relationship with the primary government.

Under GASB 39 and GASB 61 criteria, the Foundation meets the criteria for discrete component unit presentation. Arrowhead Center, Inc. meets the criteria for blended presentation. The University and its blended component unit are shown as the University column in the financial statements. The component units have separately audited financial statements, which can be obtained at their administrative offices. Addresses for the component units are included in Note 11.

Basis of Accounting. The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), as prescribed by the GASB, the American Institute of Certified Public Accountants' (AICPA) guide, and the New Mexico Higher Education Department's Financial Reporting manual for Public Institutions in New Mexico.

For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented in a single column using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recorded when an obligation has been incurred. All significant inter-agency transactions between Arrowhead Center, Inc. and the University have been eliminated. Eliminations are not performed between the University and the Foundation. The University is an agency of the State of New Mexico and, as such, is included in the State of New Mexico's Comprehensive Annual Financial Report.

Statement of Net Position. Current assets consist of unrestricted assets which are available for current operations or which will be available within one year and restricted assets that will be used in current

operations. All other assets are classified as non-current assets. Current liabilities consist of those liabilities that are due within one year including the current portion of any long-term liabilities.

New Mexico State University

Cash and Investments. Cash and cash equivalents consist of cash on hand and current investments, which are defined as investments that are readily convertible to cash or which have an original maturity date of three months or less.

The University accounts for its investments at fair value. Changes in the unrealized gain (loss) on the carrying value of investments are reported as a component of investment income (loss) in the Statement of Revenues, Expenses, and Changes in Net Position.

The Foundation records purchased marketable securities at cost and marketable securities received by gift at estimated fair value on the date of donation. Marketable securities are carried by the Foundation at fair value based on quoted market prices, except for certain alternative investments for which quoted market prices are not available. The estimated fair value of these alternative investments is based on the most recent valuations provided by the external investment managers. The Foundation believes the carrying amount of these financial instruments is a reasonable estimate of the fair value. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed. Third-party investment managers administer substantially all marketable securities of the Foundation. Gains and losses resulting from securities transactions are recorded in investment income.

The Foundation manages a Common Endowment Pool (Pool), consisting of assets invested to support programs of the University. A portion of these assets belongs to the University and is shown in the University's Statement of Net Position as Investments held in trust by Component Unit for NMSU. The Foundation owns the remainder, which consists of endowments and charitable gift annuities. These are included in other long-term investments in the Foundation's financial statements. The liabilities related to the charitable gift annuities are included in the Foundation's other long-term liabilities.

Disbursements of the net appreciation of investments in donor restricted endowments are permitted in accordance with the New Mexico Uniform Prudent Management of Institutional Funds Act (UPMIFA), except where a donor has specified otherwise. The Investment Committee of the Foundation establishes a target investment allocation designed to support distributions from the Pool and to protect the purchasing power of the endowment principal. The Foundation Investment Committee sets the annual distribution rate. Actual distributions may be adjusted as directed by some of the individual endowment agreements. The amount of funds available for distribution from the Fund to the individual endowments participating in the fund that benefit colleges, departments, units and programs during each fiscal year is determined using a weighted average of two numbers the target spending based on the current endowment value, and last year's spending adjusted for inflation, pursuant to the following: A 20-percent weighting is given to the policy rate applied to the Fund's market value at the end of each fiscal quarter, and an 80-percent weighting is given to the last year's spending adjusted for inflation as measured by the most recent published Higher Education Price Index. This amount is then distributed at the end of each fiscal year. The distribution of the annual calculation is based on the unitized system ownership of each fund.

Accounts Receivable. Accounts receivable primary categories are: 1) Tuition and fees; 2) Amounts due for auxiliary enterprise services provided to students, faculty and staff; and, 3) Amounts due from federal, state, local governments, and others in connection with reimbursement of allowable expenditures made pursuant to the University's sponsored awards. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories. Inventories are generally stated at the lower of cost or market. Cost is determined by the average cost method, which approximates the first-in-first-out method. Inventories consist of items that are available for resale to individuals and/or other University departments, including research supplies,

and livestock items. Departmental inventories comprised of items such as classroom and laboratory supplies, teaching materials, and office supply items, which are consumed in the teaching and administrative process, are expensed when purchased.

Investments Held in Trust. Trust assets held by the Foundation are measured at fair value as of the date of receipt. The corresponding trust liability, included in other long-term liabilities, is measured at the present value of expected future cash flows to be paid to the beneficiary. Upon death of the income beneficiary, substantially all of the principal balance passes to the Foundation to be used in accordance with the donor's wishes.

The Foundation holds several irrevocable charitable remainder trusts and a pooled income fund; these instruments are shown in the accompanying financial statements as investments held in trust for others. Charitable remainder trusts designate the Foundation as both trustee and remainder beneficiary. The Foundation is required to pay to the donor, or another donor-designated income beneficiary, either a fixed amount or the lesser of a fixed percentage of the fair market value of the trust's assets or the trust's income during the beneficiary's life.

The pooled income fund was formed with contributions from several donors. The contributed assets are invested and managed by the Foundation. Each donor, or designated beneficiary, periodically receives, during his or her life, a share of the income earned on the fund proportionate to the value of the contribution to the fund. Upon death of the income beneficiary, substantially all of the principal balance passes to the Foundation to be used in accordance with the donor's wishes. Contribution revenue is measured at the fair value of the assets received, discounted for a term equal to the life expectancy of the beneficiary.

Capital Assets. Capital assets are recorded at cost as of the date of acquisition, or in the case of gifts, fair market value as of the date of donation. The University's capitalization threshold for equipment acquired after July 1, 2005, is \$5,000; for equipment acquired prior to that date, the threshold was \$1,000. Software is capitalized at \$5,000. Infrastructure and land improvements that significantly increase the value, productivity, or extend the useful life of the structure are capitalized at \$50,000. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

The University's depreciation is computed using the straight-line method. Land and land improvements are not depreciated. Estimated useful lives for major asset classes:

| Category | Useful Life |
|-----------------------------|----------------|
| Software | 5 or 10 years |
| Equipment | 6 or 15 years |
| Infrastructure | 10 or 20 years |
| Componentized buildings | 12 to 50 years |
| Library books | 15 years |
| Non-componentized buildings | 50 years |

The Foundation's capital assets are stated at cost, except for works of art that the Foundation intends to hold indefinitely, which are recorded at fair value on the date of donation. Additions and major improvements are capitalized and repairs and maintenance are charged to expense as incurred.

The Foundation uses the straight-line depreciation method for capital assets. Depreciation expense is recorded over the approximate useful life of each class of asset:

| Category | Useful Life |
|-------------------------|----------------|
| Computer equipment | 5 years |
| Software | 5 years |
| Automobiles | 5 years |
| Furniture and equipment | 7 years |
| Other items | 10 to 15 years |

Accrued Liabilities. Accrued liabilities include accrued current payroll and fringe benefits. These benefits consist of the employee and employer portions of taxes, insurance, retirement and other compensation related withholdings.

Unearned Revenue. Unearned revenue represents revenue collected but not earned as of June 30, 2013 and 2012. This amount is primarily composed of revenue for grants and contracts, prepaid student tuition and fees, and special events.

Current and Non-Current Liabilities. The University did not have any outstanding short-term debt for the years ended June 30, 2013 and 2012. Non-current liabilities include principal amounts of revenue bonds payable, contracts payable, the non-current portion of accrued compensated absences, and other liabilities.

The Foundation's other long-term liabilities consist of the liabilities related to charitable gift annuities and charitable remainder unitrusts for which the Foundation serves as trustee. These liabilities are recorded at the present value of anticipated payments to the income beneficiaries. These are computed using the estimated life of each income beneficiary at June 30 each year and the applicable IRS discount interest rates.

Annual and Sick Leave Policies. Regular full-time exempt and non-exempt employees earn annual leave at a rate of 22 working days per year and sick leave at a rate of 12 working days per year. Leave is prorated for regular employees working at least half-time. University policy allows employees to accumulate a maximum of 30 unused annual leave days. Accumulated annual leave is paid upon termination. Employees may carry forward up to 100 days (800 hours) of sick leave. Upon termination, employees will be paid for earned sick leave over 600 hours (not to exceed 200 hours). The sick leave payment is made at a rate of 50 percent of the employee's straight-time hourly salary.

Net Position. The University's net position is classified as follows:

- Net investment in capital assets Invested in capital assets, net of related debt represents the
 University's total capital assets, net of accumulated depreciation and outstanding debt obligations
 related to those capital assets. Debt that has been incurred but not yet expended for capital assets is
 not included as a component of invested in capital assets, net of related debt.
- Restricted net position, expendable Restricted net position expendable includes resources which
 the University is legally or contractually obligated to spend in accordance with restrictions imposed by
 external third parties.
- Restricted net position, non-expendable Restricted net position, non-expendable consists of
 endowment and similar type assets for which donors or other outside sources have stipulated, as a
 condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and
 invested for the purpose of producing present and future income, which may either be expended or
 added to principal.

Unrestricted net position – Unrestricted net position represents all other resources, including those derived from student tuition and fees, state appropriations, and sales and services. These resources are used for transactions relating to the educational and general operations of the University and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty, and staff. Unrestricted net position of the Component Unit represent resources that may be used at the discretion of the governing board of the Component Unit to meet current expenses for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University's policy is to first apply the expense towards restricted resources, and then towards unrestricted resources.

Elimination Entries. Eliminations have been made in the Statement of Revenues, Expenses, and Changes in Net Position to remove the effect of internal charges incurred for service activities in excess of the cost of providing those services and for revenue recognized by the Auxiliary Service departments for sales to other University departments. Elimination entries are not recorded between the University and the Discrete Component Unit.

Income Taxes. The income generated by the University as an instrumentality of the State of New Mexico, is generally excluded from federal income taxes under section 115(a) of the Internal Revenue Code. However, the University is subject to taxation on income derived from business activities not substantially related to the University's exempt function (unrelated business income under Internal Revenue Code Section 511); such income is taxed at the normal corporate rate. Contributions to the University are deductible by donors as provided under Section 170 of the Internal Revenue Code.

The Foundation is exempt from federal income taxes under Internal Revenue Code section 501(c)(3).

Classification of Revenues. The University classifies its revenues as either operating or non-operating revenues according to the following criteria:

- Operating revenues: Operating revenues of the University include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship discounts and allowances; (2) sales and services of auxiliary enterprises; (3) most federal, state and local grants and contracts and federal appropriations; and (4) interest on institutional student loans. Operating revenues of the Discrete Component Unit consist of gifts, grants, and fundraising activities in support of Foundation and University programs.
- Non-operating revenues: Non-operating revenues include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, state appropriations, investment income, and other revenue sources that are defined as non-operating revenues by GASB 9, Reporting Cash Flows Proprietary and Non-expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting, and GASB 34. These revenue streams are recognized under GASB 33, Accounting and Financial Reporting for Non-exchange Transactions. Revenues are recognized when all applicable eligibility requirements have been met.

Classification of Expenses. The University classifies its expenses as either operating or non-operating expenses according to the following criteria:

Operating expenses: Operating expenses include activities that have the characteristics of exchange transactions, such as (1) employee salaries, benefits, and related expenses; (2) scholarships and fellowships, net of scholarship discounts and allowances; (3) utilities, supplies, and other services; (4) professional fees; and (5) depreciation expenses related to property, plant, and equipment.

 Non-operating expenses: Non-operating expenses include activities that have the characteristics of non-exchange transactions, such as interest on capital asset-related debt and other expenses that are defined as non-operating expenses by GASB 9 and GASB 34.

Scholarship Discounts and Allowances. Student tuition and fee revenues and certain other revenues from students are reported net of scholarship discounts and allowances in the Statements of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University and the amount that is paid by students and/or third parties making payments on the student's behalf. Certain governmental grants, such as Pell grants and other federal, state or non-governmental programs, may be recorded as either operating or non-operating revenues in the University's financial statements. These determinations are made based on definitions in GASB 9 and GASB 34. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded scholarship discount and allowance as a contra-revenue.

Budgetary Process. Operating budgets are submitted annually for approval to the Board of Regents, the New Mexico Higher Education Department (HED), and the New Mexico Department of Finance and Administration - State Budget Division (DFA). These state agencies develop consolidated funding recommendations for all higher education institutions which are considered for appropriation during the annual legislative sessions. In accordance with House Bill 2, in general, unexpended state appropriations to the University do not revert at the end of each fiscal year. All state appropriations are accounted for separately in the accounting system.

The legal level of budgetary control is at the fund type and functional level, in accordance with NMAC 5.3.4.10. There were no violations in fiscal years 2013 and 2012. The modified accrual basis of accounting is used for budgetary comparison. If expenditures by budgetary control line by campus are expected to exceed the approved budget, the University is required to submit a budget adjustment request which has been approved by the Board of Regents to the HED which is subsequently forwarded to the DFA.

Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Student Loans Receivable. Student loans receivable are shown net of allowance for doubtful accounts in the accompanying Statements of Net Position. Federal Perkins Loans make up approximately 99% of the student loans receivable at both June 30, 2013 and 2012. Loans receivable from students are generally repayable in installments to the University over a 10 year period commencing 6 or 9 months after the date of separation from the University. Collections on these student loans are primarily handled through a third party servicer. Under this program, the federal government provided funds for approximately 75% of the total contribution for student loans, with the University provided the balance. The school's revolving Perkins loan fund is replenished by ongoing activities, such as collections by the school on outstanding Perkins loans made by the school and reimbursements from the Department of Education for the cost of certain statutory loan cancellation provisions. Perkins borrowers are eligible for loan cancellation for teacher service at low-income schools and under certain other circumstances specified in the law (HEA). Students may defer repayment of the loan while enrolled (at least half-time) at a postsecondary school. A borrower who has difficulty repaying a Perkins Loan may be eligible for a deferment or forbearance based on economic hardship or other circumstances.

Reclassifications. Certain reclassifications were made to 2012 information to conform to 2013 presentation.

Other Significant Accounting Policies. Other significant accounting policies are set forth in the following notes.

Note 3 - Cash and Investments

New Mexico State University

The University is authorized by the Board of Regents to invest all available University cash. The classification "Cash and cash equivalents" includes cash in banks (deposits), cash on hand, petty cash change funds, certificates of deposit, and money market funds.

The Foundation (see Note 11) invests endowment and similar funds for the benefit of the University under the terms of a revocable agreement. These assets are invested in a common pool and as of June 30, 2013 and 2012, the University owned 367,140 and 386,244 shares which represented 28.43% and 29.09% of the total shares in the pool, respectively. The fair value per share as of June 30, 2013 and 2012, was \$107.28 and \$96.99, respectively.

Cash. The University's deposits are in demand and time deposit accounts at local financial institutions. The University requires a minimum of 50 percent collateralization of all uninsured funds deposited with a financial institution, with the exception of overnight repurchase agreements, which require 102 percent collateralization. All collateral is held in third-party safekeeping in the name of the University. The majority of the total deposits were invested in interest bearing accounts at June 30, 2013 and 2012.

Investments. The Senior Vice President for Administration and Finance, the Controller, the Associate Controller, and the Investment and Tax Manager are authorized to purchase and to sell investments of the University. Investments are required to be made in a prudent manner so as to ensure an acceptable yield with a minimum risk within the guidelines of the University's investment policy, which requires investment in securities or other financial instruments which are not contrary to Section 6-10-10 and 46-9-1 through 46-9-12 NMSA 1978, existing bond covenants, or other externally placed restrictions. At June 30, 2013 and 2012, all investments are either held in the name of the University by its agent, or held by the University. The investments not held by the Foundation consisted of certificates of deposit and U.S. agency securities at June 30, 2013 and 2012. The Foundation's short-term investments in marketable securities consisted entirely of domestic stocks and bonds at June 30, 2013 and 2012.

Endowment investments were \$99,137,196 and \$91,375,326 at June 30, 2013 and 2012, respectively, and represent longer term investments in debt and equity securities, including, but not limited to, pooled or common trust funds holding such types of securities, subject to any specific limitation set forth in the applicable gift instrument.

At June 30, 2013 and 2012, the investments of the University and its Discrete Component Unit consisted of the following:

| | 2013 Weighted Average | | 2012 Weighted Average | |
|--------------------------------------|--------------------------|-------------------|--------------------------|-------------------|
| | Maturity (Years) | Fair Value | Maturity (Years) | Fair Value |
| University | | | | |
| U.S. Agency Securities | 4.28 | \$ 50,478,047 | 4.53 | \$ 74,257,741 |
| Municipal Securities | 2.92 | 3,270,643 | | - |
| Certificates of Deposit | 1.23 | 5,281,100 | 1.00 | 11,100 |
| US Government Securities | 0.82 | 1,000,218 | | - |
| Corporate Stocks and Bonds | | 1,306,056 | | 366,472 |
| Land Grant Permanent Fund | | 57,201,808 | | 52,000,365 |
| Pooled Cash and Investments Held by | Others | 41,935,388 | | 39,374,961 |
| Total Investments | | \$ 160,473,260 | | \$ 166,010,639 |
| Foundation | | | | |
| U.S Government and Agency Securities | | \$ 7,069,935 | | \$ 8,708,949 |
| Certificates of Deposit | | 2,040,950 | | 2,030,200 |
| Corporate Stocks and Bonds | | 49,541,125 | | 62,023,814 |
| Alternative Investments | | 29,208,663 | | 19,556,604 |
| Mortgage Backed Securities | | 12,652,067 | | - |
| Other Investments | | 2,764,151 | | 1,030,125 |
| Total Investments | | \$ 103,276,891 | | \$ 93,349,692 |

Investments held in trust by the Foundation for the University are shown in the University section of the table above and not in the Component Unit section. Investments held in trust for others by the Foundation are not included in this note.

In accordance with state statutes, the Land Grant Permanent Fund is held by the State of New Mexico for the benefit of the University.

The following is a schedule of the makeup of pooled cash and investments, held by the Discrete Component Unit for the University at June 30, 2013 and 2012:

| | 2013 | 2012 |
|--|------------------------|------------------------|
| Equities Fixed income Cash and cash equivalents Investments not securities | 75% 16% 8% 1% | 73% 17% 9% 1% |
| | 100% | 100% |
| | | • |

Collateralization of Deposits. At June 30, 2013 and 2012, the recorded values of the University's cash and time deposits with financial institutions were \$76,031,345 and \$53,114,853, respectively. Bank balances, which differ from the reported values due to reconciling items, are categorized and presented in the following table:

| | 2013 | 2012 |
|--|------------------|------------------|
| University | | |
| Amount insured by the Federal Deposit Insurance Corporation (FDIC) | \$ 5,923,519 | \$ 25,761,103 |
| Amount collateralized with securities held by the pledging | | |
| financial institution | 73,306,911 | 30,126,953 |
| Total cash and time deposit bank balances | 79,230,430 | 55,888,056 |
| Time deposits | (5,281,100) | (11,100) |
| Money Markets | 23,591,074 | 13,257,835 |

New Mexico State University

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the University's investment policy, investment maturities are scheduled to coincide with the University's projected cash requirements. The University does not commit any discretionary funds to financial instruments with maturities longer than ten years from the date of purchase. Funds are only committed to maturities longer than five years from date of purchase if directly related to a specific capital or other long-term project. The maturity dates on non-discretionary fund investments do not exceed the final maturity dates established within the funds' restrictive purposes. At least 50% of all cash and investment balances are invested in instruments with maturities less than two years.

A summary of the investments at June 30, 2013, and their exposure to interest rate risk are as follows:

| | Short/Long Term | Fair Value | Less than 1 Year | 1 - 5 Years | 6 - 10 Years | Greater than 10 Years |
|---|-------------------------|------------------------------|-------------------------|-------------------------|------------------|-----------------------------|

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The University's investment policy limits investment in money market instruments and other securities of commercial banks, broker-dealers, or recognized financial institutions to those rated in the highest rating category by a nationally recognized statistical rating organization (NRSRO) or which are guaranteed by a person or entity whose long-term debt obligations are rated in the highest rating category by a NRSRO. This includes without limitation, securities of, or other interests in, any open-end or closed-end management type investment company or investment trust registered under the provisions of 15 USC Sections 80(a)-1 et. seq., which invest only in obligations of the government of the United

States of America or securities that are secured by obligations of the government of the United States of America.

A summary of the investments at June 30, 2013, and their exposure to credit risk follows:

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributable to the magnitude of an entity's investment in a single issuer. The University diversifies its use of investment instruments to avoid incurring unreasonable risk inherent in over-investing in specific instruments, individual financial institutions or maturities. With the exception of U.S. Treasury securities and authorized pools, no more that 50% of the total investment portfolio is invested in a single security type or with a single financial institution or at a single maturity. The University holds no investments with any issuer that represents 5% or more of total investments.

Custodial Credit Risk-Deposits. This is the risk that in the event of a bank failure, the University's deposits may not be returned. Neither the University, nor its discretely presented component unit, the Foundation, has a deposit policy for custodial credit risk. As of June 30, 2013 and 2012, total bank balances of the University were \$79,230,431 and \$55,888,056, respectively. A portion of the balances were subject to custodial credit risk in Category 2, uninsured and collateralized with securities held by the pledging financial institution, and there were no balances subject to custodial credit risk in Category 3, uninsured and uncollateralized. The detail in Category 2 is displayed as follows:

| | June 30, 2013 | June 30, 2012 |
|------------|------------------|------------------|
| Category 2 | \$ 73,306,912 | \$ 30,126,953 |

Custodial Credit Risk-Investments. This is the risk that, in the event of the failure of the counterparty, the University will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2013 and 2012, the University's certificate of deposit balances were \$5,281,100 and \$11,100, respectively. There were no investment balances that were subject to custodial credit risk in Category 1, uninsured, not registered in the name of the University and held by the counterparty, and Category 2, uninsured, not registered in the name of the University and are held by the counterparty's trust department or agent, but not in the University's name.

Note 4 – Accounts Receivable and Unearned Revenue

Accounts receivable consists of the following at June 30, 2013 and 2012:

| | 2013 | 2012 |
|--|------------------|------------------|
| University | | |
| Student tuition and fees | \$ 36,252,438 | \$ 34,320,305 |
| Federal, state, and private grants and contracts | 37,905,108 | 52,430,226 |
| Other | 2,867,260 | 1,054,713 |
| Cash and cash equivalents held in trust for NMSU | 2,245,069 | 1,913,282 |
| Due from Component Unit | 2,992,009 | 1,998,203 |
| Less: allowance for doubtful accounts | (24,857,599) | (19,829,249) |
| Net accounts receivable | \$ 57,404,285 | \$ 71,887,480 |
| Foundation | | |
| Net miscellaneous accounts receivable | \$ 1,061,665 | \$ 991,717 |

The allowance for doubtful accounts includes consideration for the credit risk associated with the various receivables.

Unearned revenue consists of the following at June 30, 2013 and 2012:

| | 2013 | 2012 |
|--|------------------|------------------|
| University | | |
| Student tuition and fees | \$ 8,762,533 | \$ 5,926,667 |

| Other | 1,253,416 | 1,420,106 |
| Unearned revenue | \$ 18,778,062 | \$ 17,769,422 |

Note 5 - Capital Assets

Capital assets as detailed below are stated at cost, or if contributed, at fair market value at the date of gift. Net interest expense incurred during the construction period on revenue bond funded projects is capitalized as an asset.

The University's main campus has New Mexico State District Court endorsed water rights equaling 11,454 acre feet per annum. As there is no clear guidance from the GASB on their presentation, neither the water rights nor the livestock bred by the University are presented in the accompanying Statement of Net Position. The State of New Mexico Land Office holds 193,272 surface and 254,627 sub-surface acres in trust for the University and manages the commercial use of this property including various leases and oil and gas exploration. The value of the land is recorded at the State of New Mexico Land Office; therefore this amount is not presented in the accompanying Statement of Net Position.

The University, in compliance with the reporting requirements of GASB 49, *Accounting for Pollution Remediation Obligations*, incurred actual expenditures related to asbestos remediation in the amount of \$127,417 and \$56,454 for fiscal years 2013 and 2012, respectively.

Changes in capital asset balances for the year ended June 30, 2013, were as follows

| | Balance July 1 2012 | Additions | Transfers | Retirements | Balance June 30 2013 |

Bonds Payable. The University issued the 2013 refunding and improvement revenue bonds (Series 2013A Improvement Revenue Bonds, 2013B Refunding Revenue Bonds, and 2013C Taxable Refunding and Improvement Bonds). The refunding transaction resulted in an economic gain of \$6,236,036. All other outstanding University revenue bonds as of June 30, 2013 and 2012 were issued as parity bonds and are all tax-exempt, except for Series 2010B and 2010C. All bonds are payable solely from, and secured by, a pledge of and a non-exclusive first lien on, certain pledged revenues. The revenues pledged to meet these debt obligations are student tuition and fees, sales and services, other operating income, investment income, and building fees. Interest payments are made twice a year, on October 1 and April 1 while principal is paid on April 1 only. Bond issuance costs, premiums, and discounts on bonds payable are recorded in total and amortized according to the bonds outstanding method, which approximates the effective interest method.

The bond interest expense incurred for the fiscal years 2013 and 2012 was \$5,450,285 and \$6,871,068, respectively, net of interest income. Of these amounts, \$3,315,998 and \$2,893,549 was capitalized during fiscal years 2013 and 2012, respectively.

Total University issued bonds and outstanding at June 30, 2013 and 2012, excluding bonds issued by the Community College Districts, with bond proceeds to certain community colleges (See Note 13), consisted of:

| | Total | Total Outsta | | |

| 2029-2030 | 14,685,000 | 1,425,316 |
| Total | \$ 136,190,000 | \$ 58,886,752 |
| | | |

Contracts Payable. The University acquires various types of equipment under capital lease agreements. All lease agreements contain a fiscal funding clause, which allows the lease agreements to be canceled if funding for future periods is not appropriated. University administration believes that the likelihood of this occurrence is remote. The following tables detail the carrying value of assets acquired under these arrangements, the future minimum lease payments, the portion of the lease payments representing interest, and the present value of the net minimum lease payments at June 30, 2013.

| Type of Property | Asset Carrying Value | | Net Present Value of Minimur Lease Payments | |
|--------------------|----------------------------|-----------|---|---------|
| Office equipment | \$ | 372,727 | \$ | 192,226 |
| Computer Equipment | | 768,000 | | 576,000 |
| Total | \$ | 1,140,727 | \$ | 768,226 |

Future minimum payments required under capital leases and the net present values of the future payments are as follows:

| Principal | In | iterest | _ | |
|-----------|--|--|--|--|
| | | iterest | Pa | ayments |
| 180,470 | \$ | 11,368 | \$ | 191,838 |

Note 7 – Health Insurance

The University provides group health insurance coverage for all regular employees working 20 hours per week or more. Coverage is optional and is available the first pay period after 30 days of employment. The University's portion of the premium is based on the employee's annual salary. Employee contributions are required for personal, as well as spouse, qualified domestic partner and dependent coverage. Beginning July 1, 2013, to prepare for compliance with the Health Care Reform act, the University created a new category of benefits-eligible employees, for those working ¾ of a full-time equivalent or more. The employees in this "term" employee category are eligible for the same optional benefit coverage as regular employees.

The University participates in the State insurance program. Premiums are paid to the State of New Mexico. The State program assumes full responsibility for all claims.

Eligible retirees who were enrolled in health insurance for a minimum of ten consecutive years prior to retirement may elect to continue health insurance coverage through the University's program. The University contributes 60% of the premiums for retirees and their dependents until the retiree reaches age 70, after which, the University contributes 30%.

The University participates in a fully insured plan for the eligible active retirees. Premiums are paid to the insurance carrier. The insurance carrier assumes full responsibility for all claims.

Note 8 – Retirement Programs

The University offers three retirement plans. All eligible employees, working more than 25% full-time equivalent, are required to participate in one of the first two plans described below. Student employees do not participate in these plans.

A. Educational Retirement Act

Plan Description. Substantially all of the University's eligible employees, except those who participate in the Alternative Retirement Plan (ARP) described below, participate in a public employee retirement system authorized under the Educational Retirement Act (ERA) of the State of New Mexico (Chapter 22, Article11 NMSA 1978). The Educational Retirement Board (ERB) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits, and cost-of-living adjustments to plan members (certified teachers, and other employees of State public school districts, colleges and universities) and beneficiaries. ERB issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to ERB, P.O. Box 26129, Santa Fe, New Mexico 87502. The report is also available on ERB's website at www.nmerb.org.

Funding Policy. Member Contributions – Plan members whose annual salary is \$20,000 or less are required by statute to contribute 7.9% of their gross salary. Plan members whose annual salary is over \$20,000 are required to make the following contributions to the plan: 9.4% of their gross salary in fiscal year 2013; 10.1% of their gross salary in fiscal year 2014; and 10.7% of their gross salary in fiscal year 2015 and thereafter.

Employer contributions – In fiscal year 2013, the University was required to contribute 12.4% of the gross covered salary for employees whose annual salary is \$20,000 or less, and 10.9% of the gross covered salary for employees whose annual salary is more than \$20,000.

In the future, the University will contribute the following percentages of the gross covered salary of employees: 13.15% of gross covered salary in fiscal year 2014; and 13.9% of gross covered salary in fiscal year 2015.

The contribution requirements of plan members and the University are established in State statute under Chapter 22, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The University's contributions to ERB for the fiscal years ending June 30, 2013, 2012, and 2011, were \$21,403,406, \$17,903,881, and \$22,337,767, respectively, which equal the amount of the required contributions for each fiscal year.

Return to Work Program. Effective January 1, 2002, the ERB implemented a retiree Return-To-Work (RTW) program whereby the University is required to make regular employer contributions on eligible retiree wages. As of July 1, 2011, House Bill 129 was passed requiring returning retirees to contribute the employee portion. Under the bill, retirees earning more than \$20,000 contributed 11.15% and the University contributed 9.15%. For retirees earning \$20,000 or less, the retiree contributed 7.9% and the University contributed 12.4%. As of July 1, 2012, the contribution required by retirees earning more than \$20,000 decreased to 9.40% and the University contribution increased to 10.90%. The contribution rates remain unchanged for employees earning \$20,000 or less. As of July 1, 2013, the contribution required by retirees earning more than \$20,000 will increase to 10.10% and the University contribution will increase to 13.15%. The contribution rates remain unchanged for employees earning \$20,000 or less, however, the University contribution will increase to 13.15%. The University's contribution to the ERB for RTW program participants for the years ended June 30, 2013, 2012, and 2011 were \$197,884, \$180,965, and \$430,901, respectively, which equal the amount of the required contributions for each year.

B. Alternative Retirement Program

Plan Description. The New Mexico ARP was established by amendment to Chapter 22, Article 11, Section 47-52. Certain faculty and professional staff hired on or after July 1, 1991, may elect to participate in an alternative defined contribution retirement plan in lieu of participation in the ERA in accordance with policies stipulated by the Board of Regents. The two carriers approved by the ERB are the Teachers Insurance and Annuity Association/College Retirement Equities Fund and Fidelity Investments. Employees are allowed to transfer between carriers once each year.

Effective July 1, 2009, employees, after 7 years of contribution to the ARP, have a one-time opportunity to move to the ERB's defined benefit plan. Senate Bill 572 allows members of the ARP the option to cash out or rollover the ARP account once they have left employment.

Contributions Required. Total payroll expenses covered by the ARP for the years ended June 30, 2013, 2012, and 2011, were \$26,374,496, \$25,464,466, and \$24,887,917, respectively. As of July 1, 2011, contributions for employees earning more than \$20,000 was 11.15% and the University's contribution to the carrier was 6.15%, with an additional 3.0% paid by the University to the ERB as an administrative fee. For employees earning \$20,000 or less, the required contribution was 7.9%, and the University was required to contribute 9.4% to the carrier and 3.0% to the ERB as an administrative fee. As of July 1, 2012, the contribution required by employees earning more than \$20,000 decreased to 9.40% and the University contribution increased to 7.9% to the carrier and 3.0% to ERB as an administrative fee. The contribution rates remain unchanged for employees earning \$20,000 or less. As of July 1, 2013, the contribution required by employees earning more than \$20,000 will increase to 10.10% and the University contribution will increase to 10.15% to the carrier. The contribution rates remain unchanged for employees earning \$20,000 or less, however, the University contribution will increase to 10.15%. The administrative fee to ERB will remain the same at 3.0%. The 3.0% fee does not provide retirement benefits. Benefits are determined strictly by contributions made and earnings on contributions.

New Mexico State University

Vesting is immediate and benefits may be distributed as an annuity, a rollover or a withdrawal. The University's contributions for the years ended June 30, 2013, 2012, and 2011, were \$2,084,651, \$1,570,485, and \$1,964,428, respectively, for employees participating in the ARP. Additionally, \$791,234, \$763,935, and \$746,638, were paid as administrative fees to the ERB for the years ended June 30, 2013, 2012, and 2011, respectively; employees participating in the ARP made contributions totaling \$2,480,186, \$2,847,707, and \$2,337,419, respectively, for the same periods.

C. Federal Retirement Program

Plan Description. Certain employees of the University working under the auspices of the United States Department of Agriculture (through various University sponsored extension programs) are covered under the Civil Service Retirement System (CSRS) or the Federal Employees Retirement System (FERS), established with the passage of Public Law 99-335. Both are defined benefit retirement plans. FERS is a three-tiered retirement plan (covering substantially all Federal employees hired subsequent to December 31, 1986) combining Social Security benefits with a basic benefit plan and a thrift savings plan. Employees hired prior to 1984 do not participate in Social Security, but have the ability to transfer to FERS at their own discretion. The CSRS and FERS are administered by the U.S. Office of Personnel Management, Retirement Operations Center, P.O. Box 45, Boyers, Pennsylvania 16017.

Contributions Required. Employees covered by CSRS and FERS are considered federal employees, and as such, are obligated to contribute according to the guidelines of the federal government. For the years ended June 30, 2013 and 2012, there were 3 and 6 employees, respectively, enrolled under CSRS and 13 and 16 employees, respectively, under FERS. The University contributes 7.0% and employees contribute 7.0% under CSRS. The University contributes 11.7% and employees contribute 0.8% under FERS. For the fiscal years ended June 30, 2013, 2012 and 2011, the University contributed \$157,105, \$178,944, and \$191,092, respectively; employees contributed \$30,453, \$48,872, and \$55,587, respectively, under both plans.

Note 9 – Other Postemployment Benefits Plan

Plan Description. New Mexico State University is a single employer that offers employees and their eligible dependents retiree benefits. The authority to establish and amend the benefit provisions rests with the Board of Regents.

Retirees, who have had 10 consecutive years of health insurance coverage with the University at the time of retirement, are offered the opportunity to participate in a fully-insured PPO medical plan, including prescription drugs. Medicare retirees (for retirees 65 years of age and over) are offered the opportunity to participate in a Medicare carve-out medical plan, including prescription drugs. Eligible retired employees may select a Life Insurance benefit up to \$10,000. All premiums for life insurance are paid by the retiree.

The University currently pays 60% of the monthly medical and prescription premium for retirees and their eligible dependents until the retiree reaches age 70. As of June 30, 2013 and 2012, there were 1,117 and 1,151 retirees who met the eligibility requirements for health insurance, respectively.

Funding Policy. The University does not use a trust fund to administer the financing and payment of benefits. The retired employees that elect to participate in post employment benefits are required to make contributions in the form of monthly premiums based on current rates established under the medical and life plans.

The University funds the plan on a pay-as-you-go basis. The pay-as-you-go expense is the net expected cost of providing retiree benefits, and includes all expected claims and related expenses and is offset by retiree contributions. The pay-as-you-go expense for fiscal year 2013 was \$3,910,000, net of retiree contributions.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2012, actuarial valuation, the unit credit actuarial cost method was used. The actuarial assumptions included a 4.5% annual discount rate, assuming the University funds the retirement benefit on a pay-as-you go basis. Currently, the plans are considered to be unfunded as there are no assets and retiree benefits are expected to be paid annually on a cash basis. The actuarial valuation assumes an annual health care cost trend on a select and ultimate basis: medical and prescription benefits on a select basis at 9.5% for retirees 65 years of age and under and 8.5% for retirees over 65 years of age and on an ultimate basis at 5%. The select trend rates are reduced .5% each year until reaching the ultimate trend. The Unfunded Actuarial Accrued Liability is amortized over the maximum acceptable period of 30 years and is calculated assuming a level percentage of projected payrolls. Payroll is projected to increase 2% per year.

Annual OPEB Cost and Net OPEB Obligation. The University's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB 45 Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's net OPEB obligation:

| | | 2013 |
|--|----|-------------|
| Annual required contribution | \$ | 6,277,000 |
| Interest on net OPEB Obligation | • | 912,000 |
| Adjustment to annual required contribution | | (773,000) |
| Annual OPEB cost (expense) | | 6,416,000 |
| Contributions made | | (3,910,000) |
| Increase in net OPEB obligation | | 2,506,000 |
| Net OPEB obligation beginning of year | | 20,277,000 |
| Net OPEB obligation end of year | \$ | 22,783,000 |
| | | |

Annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the OPEB obligation for fiscal year 2013 is as follows:

| Annual required contribution | \$ 6,277,000 |
|-----------------------------------|-----------------|
| % of annual OPEB cost contributed | 62.3% |
| Net OPEB obligation | \$ 3,910,000 |
| | |

Funded Status and Funding Progress. As of July 1, 2012, the updated actuarial valuation date, the present value of all future expected post-retirement health payments and administrative costs attributable to past service, was \$80,399,000, and the actuarial value of assets was zero. The covered payroll (annual payroll of active employees covered by the plan) was \$264,614,683, and the ratio of the UAAL to the covered payroll was 30%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress and Employee Contributions (Schedule 5), presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Note 10 – Commitments

Capitalizable Project Commitments and Financing. The University has entered into contracts for the construction and renovation of various facilities. These projects are in various stages of completion. At June 30, 2013, the estimated remaining cost to complete these and other in-house construction and renovation projects was approximately \$65 million with an estimated completion date, for all projects, of August 2015. The remaining cost is expected to be financed as follows:

| Funding Sources | Amount |
|-----------------------------|------------------|
| Revenue bonds | \$ 7,888,533 |
| General obligation bonds | 6,942,098 |
| Severance tax bonds | 2,415 |
| University funds | 31,724,829 |
| State funds | 14,539,912 |
| Gifts, grants and contracts | 8,173,680 |
| Total | \$ 69,271,467 |

Operating Leases. The University is obligated under certain lease (rental) agreements which are accounted for as operating leases. The items being leased are primarily office and storage facilities and office equipment. Incorporated into each lease agreement is a fiscal funding clause which allows the University to cancel the operating lease if funding for future periods is not appropriated. As with contracts payable, the likelihood of such an occurrence is considered to be remote by University administration.

Future minimum rental payments required under operating leases are as follows:

| Minimum |
|-----------------|
| Payments |
| \$ 1,631,757 |
| 1,363,922 |
| 1,064,102 |
| 911,959 |
| 845,216 |
| 1,452,470 |
| \$ 7,269,426 |
| |

Operating lease payments made in fiscal years 2013 and 2012 are as follows:

| | | 2013 | | 2012 |
|----------------------|----|-----------|----------|-----------|
| Minimum rentals | \$ | 1,786,052 | \$ | 1,854,073 |
| Contingent rentals | | 163,526 | | 109,753 |
| Total lease payments | \$ | 1,949,578 | \$ | 1,963,826 |
| Total lease payments | Ф | 1,949,576 | <u> </u> | 1,963 |

Contingent rentals are determined based on usage clauses in certain contracts.

Other Commitments. At June 30, 2013, the University had outstanding purchase orders for materials and services which were not received, and thus are not recorded as liabilities in the accompanying Statement of Net Position. The approximate amount of such commitments is \$13 million.

Note 11 – Component Units

The following entities support the University in accomplishing its various missions. These entities were selected for inclusion based on criteria as set forth in GASB 14, The Reporting Entity, GASB 39, Determining Whether Certain Organizations Are Components Units, and GASB 61, Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34. Complete financial statements for these component units can be obtained from each respective administrative office at the addresses listed below.

The Foundation is discretely presented on the face of the financial statements, as prescribed by GASB 14, amended by GASB 39, and further amended by GASB 61. The entity qualifies as discretely presented according to GASB 14, paragraph 40a, because of the nature and significance of its relationship with the University. This relationship meets the direct benefit, access to economic resources and significance of resources criteria. The other component unit is blended because the University either completely controls its activities or the entity provide services entirely, or almost entirely to the University.

The New Mexico State University Foundation, Inc. The Foundation is a non-profit corporation formed for the purpose of obtaining and disbursing funds for the sole benefit of the University. It is a discrete component unit of the University with financial information presented in a separate column in the University's financial statements. Separate audited financial statements are prepared in accordance with the Financial Accounting Standards Board (FASB). The Foundation's address is: New Mexico State University Foundation, Inc., P.O. Box 3590, Las Cruces, NM 88003.

Summary financial information as of June 30, 2013 and 2012, and for the fiscal years then ended follows:

| | 2013 | 2012 |
|-------------------------------------|---------------|----------------|
| Capital assets | \$ 582,568 | \$ 424,771 |
| Other assets | 160,714,530 | 145,809,773 |
| Total assets | 161,297,098 | 146,234,544 |
| Long-term liabilities | 42,733,638 | 40,576,048 |
| Other liabilities | 6,780,776 | 5,019,924 |
| Total liabilities | 49,514,414 | 45,595,972 |
| Net investment in capital assets | 404,568 | 424,771 |
| Restricted for endowments | 74,049,562 | 69,357,386 |
| Restricted for general activities | 34,848,169 | 30,503,583 |
| Unrestricted | 2,480,385 | 352,832 |
| Total net position | \$111,782,684 | \$100,638,572 |
| Operating revenues | \$ 14,565,795 | \$ 13,432,590 |
| Depreciation | (106,923) | (52,531) |
| Other operating expense | (13,114,056) | (12,425,051) |
| Non-operating revenue (expense) | (158,472) | (146,972) |
| Gain (loss) on endowments | 9,957,768 | (5,332,630) |
| Increase (decrease) in net position | \$ 11,144,112 | \$ (4,524,594) |
| Net position, beginning | 100,638,572 | 105,163,166 |
| Net position, ending | \$111,782,684 | \$100,638,572 |

Arrowhead Center, Inc., Arrowhead Center, Inc., a blended component unit, was organized pursuant to the provisions of the State of New Mexico University Research Park Act of 1989. Its purposes are to promote and contribute to economic development and protect, license, and market intellectual property developed by faculty, staff, and students of the University, as well as members of the community, in order to further research and economic development for the State of New Mexico. Arrowhead Center, Inc.'s address is: Arrowhead Center, Inc., MSC 3CR, P.O. Box 30001, Las Cruces, NM 88003.

Summary financial information as of June 30, 2013 and 2012, and for the fiscal years then ended follows:

| | 2013 | | 2012 |
|---|----------------------------|----------|--------------------|
| Total assets Total liabilities | \$ 1,566,375 \$ 7,298 | \$ \$ | 686,014 7,292 |
| Total net position | \$ 1,559,077 | \$ | 678,722 |
| Total revenues and other additions Total expenditures | \$ 1,398,115 \$ 517,760 | \$ | 567,691 842,132 |
| Net position, beginning Net position, ending | \$ 678,722 \$ 1,559,077 | \$ \$ | 953,163 678,722 |

Note 12 – Contingent Liabilities

The University currently is a party to various litigation and other claims in the ordinary course of business. The University participates in the State of New Mexico Risk Management Program (Risk Management) which provides liability, medical malpractice, and physical damage insurance. The Risk Management program liability insurance coverage includes most employee liability claims; those claims falling outside this State program are covered under the University's supplementary liability coverage. During the fiscal years ended June 30, 2013 and 2012, the University paid Risk Management \$4,888,797 and \$4,427,163, in insurance premiums, respectively. After conferring with legal counsel concerning pending litigation and claims, the University administration believes that the outcome of pending litigation should not have a material adverse effect on the financial position or operations of the University.

The University is involved in various stages of negotiations with state and federal agencies from one state audit and two self-reported occurrences of misstatement of program eligibility. The details of these three situations are stated below.

- 1. TRIO Student Support Services. As a result of self-reported findings of misstatement of eligible participants in the Student Support Services program (SSS) to the United States Department of Education (Department), the University was issued a Program Determination Letter dated February 25, 2009 requesting payment of the determined liability of \$1,044,163. Through subsequent discussions with the Department, the University was granted a payment extension in order to provide additional information and documentation in support of reducing the assessment. The information was delivered to the Department on July 20, 2009, with additional documentation provided on August 19, 2009. Based on the procedures performed, the University submitted revised overcharge calculations in the amounts of \$173,661 and The University believes a final assessment in the amount of \$476,932 is \$476,932. reasonable. Since the revised overcharge was submitted, the University has heard nothing from the Department and has no reason to doubt the reasonability of the final assessment estimate determined in the aforementioned year.
- 2. Department of Education. As a result of a finding of misstatement of eligibility for nondegree programs to the United States Department of Education (Department), the University has been working closely with the Department staff performing an off-site program review to determine what liability exists. During the course of the program review, the Department identified ten programs that did not, at some point, meet eligibility requirements for paying federal student financial aid. Based on the procedures performed, the University believes a final assessment in the amount of \$747,884, net of student loans, is reasonable.
- 3. NM Department of Transportation. The New Mexico Department of Transportation (DOT) issued a report on an ongoing audit on January 13, 2009. The report was issued to the University in July of 2009, with a letter assessing an original \$1,066,010 repayment to the agency. The University and the DOT have resolved \$242,515; however the payment of \$406,331 related to specific deliverables, which were determined by the DOT Research Bureau Chief as inadequate, are still in question by DOT. The total amount of the audit assessment as of July 2010, is \$1,229,825, the University agrees with \$54,944. Until the conclusion of the University's negotiations with the agency, the University is still unable to reasonably estimate a liability amount.

Note 13 – Community College General Obligation Bonds

General Obligation bonds are issued by the Community College Districts for the purpose of supporting Community College facilities. The bonds are general obligations of the community college districts in which the Community Colleges reside and are payable solely out of general (ad valorem) taxes which are levied against all taxable property in each respective district. The Community College District's governing board is made up of school board members residing in each school district. Management of the University has determined the Community College Districts are not component units of the University.

Taxes collected by the respective district's tax assessor are deposited in bank accounts for the purpose of servicing the debt and are reflected as cash in the University's Statement of Net Position. At June 30, 2013 and 2012, the cash balances available to make the next semi-annual payments were \$735,221 and \$262,673, respectively for the Alamogordo Community College District and \$753,696 and \$944,331, respectively for the Carlsbad Community College District, and \$3,548,673 and \$3,660,153, respectively for the Dona Ana Community College District.

The following table shows the future scheduled debt payments by Community College District (due semi-annually in August and February):

| Alamogordo | | | | | | | | |
|---------------------|----|------------|---------|-----------|----|------------|--|--|
| Community College | | | | | | | | |
| Year Ending June 30 | | Principal | | Interest | | Total | | |
| 2014 | \$ | 310,000 | \$ | 144,735 | \$ | 454,735 | | |
| 2015 | | 325,000 | | 132,828 | | 457,828 | | |

Note 15 - New Accounting Standards

GASB Statement No. 60 (*Accounting and Financial Reporting for Service Concession Arrangements*) is effective as of fiscal year 2013. The objective of this Statement is to improve financial reporting by addressing issues related to service concession arrangements. GASB 60 is applicable to arrangements with specific terms. The University's arrangements with third party providers do not fall into these terms, and thus this statement is not applicable.

GASB Statement No. 61 (*Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34*) is effective as of fiscal year 2013. The objective of this Statement is to improve financial reporting for a governmental entity. The University examined the revised requirements related to blending of component units and determined that no changes are required to our current reporting.

GASB Statement No. 62 (Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements) is effective as of fiscal year 2013. The objective of this Statement is to incorporate into GASB's authoritative literature certain accounting and financial reporting guidance that is included in the pre-November 30, 1989 FASB and AICPA pronouncements. The University already reports as prescribed in this statement, therefore no changes are required by the University.

GASB Statement No. 63 (*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*) is effective as of fiscal year 2013. The objective of this Statement is to provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources. It also identifies net position as the residual of all other elements presented in a statement of financial position. The University has implemented GASB 63, making the reporting changes necessary to be in compliance with its fiscal year 2013 comparative financial statements.

GASB Statement No. 65 (Items Previously Reported as Assets and Liabilities) will be effective for the University in fiscal year 2014. The objective of this Statement is to either (a) properly classify certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or (b) recognize certain items that were previously reported as assets and liabilities as outflows or inflows of resources. The University has not concluded its assessment of the impact of this Statement.

GASB Statement No. 66 (Technical Corrections – 2012 – an amendment of GASB Statements No. 10 and No. 62) will be effective for the University as of fiscal year 2014. The objective of this Statement is to improve accounting and financial reporting by state and local governmental entities. The University has not concluded its assessment of the impact of this Statement.

GASB Statement No. 67 (Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25) will be effective for fiscal year 2014, for the Educational Retirement Board in the state of New Mexico. The objective of this Statement is to improve the usefulness of pension information included in the general purpose external financial reports of state and local governmental pension plans for making decisions and assessing accountability. This statement does not apply to the University.

GASB Statement No. 68 (Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27) will be effective for the University as of fiscal year 2015. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The University has not concluded its assessment of the impact of this Statement.

GASB Statement No. 69 (Government Combinations and Disposals of Government Operations) will be effective for the University as of fiscal year 2015. The objective of this Statement is to improve financial reporting by addressing accounting and financial reporting for government combinations and disposals of government operations. The University has not concluded its assessment of the impact of this Statement.

GASB Statement No. 70 (Accounting and Financial Reporting for Non-exchange Financial Guarantees) will be effective for the University as of fiscal year 2014. The objective of this Statement is to improve the recognition, measurement and disclosure guidance for state and local governments that have extended or received financial guarantees that are non-exchange transactions. The University has not concluded its assessment of the impact of this Statement.

Under title 5 of the New Mexico Administrative Code, chapter 3, part 4, paragraph 10 - Items of Budgetary Control: The total expenditures in each of the following budgetary functions will be used as the items of budgetary control. Total expenditures or transfers in each of the following items of budgetary control may not exceed the amounts shown in the approved budget: A. Unrestricted expenditures and restricted expenditures. B. Instruction and general. C. Each budget function in current funds other than instruction and general. D. Within the plant funds budget: major projects, library bonds, equipment bonds, minor capital outlay, renewals and replacements, and debt service. E. Each individual item of transfer between funds and/or functions.

Schedule 5 - Schedule of Funding Progress and Employer Contributions

The Schedule of Funding Progress and the Schedule of Employer Contributions present multi-year trend information comparing the actuarial value of plan assets to the actuarial accrued liability, and the actual contributions of the University to the annual required contributions.

Schedule of Funding Progress

| Fiscal Year Ending | ٧ | ctuarial /alue of Assets | Actuarial Accrued Liability (AAL) | Unfunded AAL (UAAL) | Funded Ratio | Covered Payroll | UAAL as a % of Covered Payroll |
|-----------------------|----|--------------------------------|---|------------------------|--------------|--------------------|--------------------------------------|
| 6/30/2013 | \$ | - | \$ 80,399,000 | \$ 80,399,000 | 0% | \$264,614,683 | 30% |
| 6/30/2012 | \$ | - | \$ 77,650,000 | \$ 77,650,000 | 0% | \$259,361,365 | 30% |
| 6/30/2011 | \$ | - | \$ 87,632,000 | \$ 87,632,000 | 0% | \$270,680,385 | 32% |

Schedule of Employer Contributions

| Fiscal Year | Annual Required ntributions | | Actual | |
|-------------|-----------------------------------|----|-------------|---------------|
| Ending | (ARC) | Со | ntributions | % Contributed |
| 6/30/2013 | \$ 6,277,000 | \$ | 3,910,000 | 62.3% |
| 6/30/2012 | \$ 6,034,000 | \$ | 3,601,000 | 59.7% |
| 6/30/2011 | \$ 6,858,000 | \$ | 3,076,000 | 44.9% |

Summary of Key Actuarial Methods and Assumptions

| Valuation year | July 1, 2012 to June 30, 2013 |
|-------------------------------|---|
| Actuarial cost method | Unit Credit Actuarial Cost Method |
| Amortization method | 30 Years |
| Discount rate | 4.5% |
| Projected payroll growth rate | 2.0% |
| | |
| Health care cost trend rate | Medical and prescription benefits on a select basis at 9.5% pre 65, and 8.5% post 65. On the ultimate basis all ages are at 5%. The select trend rates are reduced .5% each year until reaching the ultimate trend. |

Schedule 6 – Joint Powers Agreements (JPA) and Memorandums of Understanding (MOU)

- The Regents of New Mexico State University and City of Las Cruces and the Department of Fish, Wildlife and Conservation Ecology at NMSU entered into a Memorandum of Understanding concerning the Burrowing Owl Management Project. The dates of the project are February 2010 through December 2012. The funds available for this project are \$10,220. The total expenses for the current year's agreement are \$7,821. Each party accepts its own audit responsibility and reports its own expenses and revenues.
- 2. The Regents of New Mexico State University and San Juan College entered into a Memorandum of Understanding to create an AAS degree program in Urban Agriculture and Xeric Landscape Design. The program will provide a horticulturist for the Farmington Agricultural Science Center who will allow 20-25% of his/her time for teaching of the Urban Agriculture Course. The total funding for the project is \$34,746. The total expenses for the current year's agreement are \$25,265. The University acts as the fiscal agent for the project, reporting revenues and expenses for this agreement.
- 3. The Regents of New Mexico State University, the Regents of the New Mexico Institute of Mining and Technology and the State of New Mexico General Services Department Communications Division entered into a Memorandum of Understanding to cooperate, jointly manage and share telecommunications facilities namely, fiber optic infrastructure located between El Paso, Texas and Santa Fe, New Mexico, effective on September 1, 2005. The project establishes a foundation to create a self-provisioned statewide fiber optic network to be utilized by agencies and universities within the State of New Mexico. The agreement continues in effect until the termination of the University/FiberCo contract, which is September 30, 2025, or upon the parties' written agreement to terminate this agreement. The total estimated cost of the project is \$3,003,240. The total expenses for the current year's agreement are \$272,762. Each party to the agreement acts as its own fiscal agent, reporting its own revenues and expenses, and accepting audit responsibility.

Notes to Schedule of Expenditures of Federal Awards

Note A: Basis Of Presentation

The accompanying schedule of expenditures of Federal Awards (the schedule) includes the federal grant activity of the University under programs of the Federal Government for the year ended June 30, 2013. The information in this schedule is presented in accordance with OMB circular A-133, *Audits of states, local governments, and non-profit organizations*. Because the schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net position, or cash flows of the University.

Note B: <u>Significant Accounting Policies:</u>

The accompanying Schedule of Expenditures of Federal Awards follows the accounting policies presented in Note 2 of the Notes to Financial Statements.

Note C: Federal Direct Student Loans, CFDA # 84.268. During the fiscal year ending June 30,2012,

the University processed \$84,151,189 in new loans under the Direct Student Loan Program

(which includes Stafford Loans and Parents' Plus Loans).

Note D: During the fiscal year ending June 30, 2013, the value of federal funds made available in the

form of non-cash assistance to grant NASA NRA SEC 2.5 T2 - CFDA # 43.002 totaled

#40 044

Note E: Federal Perkins Loan Program, CFDA # 84.038. Perkins loans awarded for the year ending

June 30, 2013 totaled \$1,388,572, and the outstanding student loan balances under the

Federal Perkins Loan Program was \$13,983,201.

REPORT OF INDEPENDENT AUDITORS ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Regents New Mexico State University and Mr. Hector Balderas New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of New Mexico State University ("University") as of and for the year ended June 30, 2013 and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated October 18, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The Board of Regents New Mexico State University and Mr. Hector Balderas New Mexico State Auditor

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance, and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT OF INDEPENDENT AUDITORS ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

The Board of Regents New Mexico State University and Mr. Hector Balderas New Mexico State Auditor

Report on Compliance for Each Major Federal Program

We have audited New Mexico State University's (the "University") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2013. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

The Board of Regents New Mexico State University and Mr. Hector Balderas New Mexico State Auditor

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item 13-01. Our opinion on each major federal program is not modified with respect to this matter.

The University's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's response was not subject to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The Board of Regents New Mexico State University and Mr. Hector Balderas New Mexico State Auditor

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 13-01 that we consider to be a significant deficiency.

The University's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Schedule of Findings and Questioned Costs (continued)

Part II—Financial Statement Findings Section

None

Part III—Federal Award Findings and Questioned Costs Section

13-01 Student Financial Assistance – Enrollment Reporting (Significant Deficiency/Non-Compliance)

Federal program information:

Funding agency: U.S. Department of Education Title: Student Financial Assistance Cluster CFDA Numbers: 84.038 and 84.268

Grant Years and Award Number: Not applicable as both referenced CFDA numbers are loans

CONDITION

As part of our compliance testwork over National Student Loan Data System (NSLDS) Reporting, we selected a sample of 25 loans for enrollment reporting to the NSLDS.

As a result of this testwork, we noted a student who received a Perkins loan was not reported to the NSLDS by the third party servicer (University Accounting Services "UAS"). Upon further examination, we noted that on the same day (August 21, 2012) 4 of 10 students who received Perkins loans were not reported to NSLDS. The University reviewed all of fiscal year 2013 and determined that an additional 48 students who received Perkins loans were also not reported to NSLDS.

Lastly, we noted an additional student who graduated on May 10, 2013 was not reported to NSLDS by the third party servicer (UAS).

CRITERIA

Per 34 CFR section 674.16(j), the institution must report enrollment and loan status information, or any Title IV loan-related information required by the Secretary, to the Secretary by the deadline date established by the Secretary which is within 30 days of completing the enrollment reporting roster file.

Also, per the A-133 Compliance Requirements under Enrollment Reporting (5-3-41), institutions are responsible for timely reporting, whether they report directly or via a third-party servicer.

QUESTIONED COSTS

None

EFFECT

Failure to ensure certain loans were reported to NSLDS.

Schedule of Findings and Questioned Costs (continued)

CAUSE

The Third Party Servicer (UAS) did not properly report the student's loan information to NSLDS. This caused certain students to have no student loan history for the academic FY2012-2013 in the NSLDS database.

RECOMMENDATION

We recommend the University implement a reconciliation process for the total number of students loaded to its third party servicers (UAS) to the listing UAS uploaded to NSLDS. To properly implement this process, UAS will need to provide a detailed report/listing stating how many students were successfully uploaded to NSLDS from each enrollment upload (withdraws, graduated and students with Perkins).

MANAGEMENT RESPONSE

NMSU currently contracts with New Mexico Student Loan (NMSL) for Perkins loan services. Under this existing contractual relationship, NMSL subcontracts to UAS and NMSU is not able to work directly with UAS. During August 2013, NMSU issued a Request for Proposals (RFP) for Perkins loan servicers with proposals due August 27, 2013. By issuing the RFP, NMSU will be able to review the services available from various vendors and contract with one that will most effectively meet the needs of NMSU and its students while complying with all applicable regulations and requirements for administering our Perkins loan program. We expect the selection and contracting of a vendor under the current RFP process, which will occur this fall, will significantly reduce such errors.

While the RFP process continues, NMSU will request reporting from NMSL to ensure all students have been uploaded and any identified errors are corrected. NMSU has a monthly process in place to reconcile the number of students successfully uploaded to NSLDS. This process now includes a manual verification of all disbursement and billing activity that has been uploaded to Sign My Loan has also been uploaded to UAS by the NMSU vendor, NMSL.

Part IV—Other Findings and Recommendations

None

A closing conference was held on October 18, 2013, to discuss the current audit report and current and prior year auditors' comments. In attendance were the following individuals:
