Report of Independent Auditors

The University of New Mexico Health Sciences Center
Board of Trustees and
Mr. Hector Balderas, New Mexico State Auditor

We have audited the accompanying statements of net assets of UNM Behavioral Operations (the Center), a division of the University of New Mexico, State of New Mexico, operated by the University of New Mexico Health Sciences Center Clinical Operations, as of June 30, 2012 and 2011, and the related statements of revenues, expenses, and changes in net assets and cash flows for the years then ended. We have also audited the budget comparison (schedule 1) presented as supplementary information for the year ended June 30, 2012. These financial statements and budget comparison are the responsibility of the Center's management. Our responsibility is to express an opinion on these financial statements and budget comparison based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1, the financial statements of the Center, a division of the University of New Mexico, are intended to present the financial position, and the changes in financial position and, where applicable, cash flows of only that portion of the business-type activities of the University of New Mexico that is attributable to the transactions of the Center, a division of the University of New Mexico. They do not purport to, and do not, present fairly the financial position of the University of New Mexico as of June 30, 2012 and 2011, the changes in its financial position or its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The University of New Mexico Health Sciences Center
Board of Trustees and
Mr. Hector Balderas, New Mexico State Auditor

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Center as of June 30, 2012 and 2011, and the changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the budget comparison referred to above presents fairly, in all material respects, the budgetary comparison for the year ended June 30, 2012 in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 2, 2012 on our consideration of the Center's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 16 and the schedule of postemployment benefits other than pensions - schedule of funding progress (schedule 2) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

CLINICAL OPERATIONS
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2012 and 2011**

This section of the University of New Mexico (UNM) Behavioral Operations includes the UNM Psychiatric Center (Adult Center) and the UNM Children's Psychiatric Center (Children's Center), collectively, the Center. The annual financial report presents management's discussion and analysis of the financial performance of the Center during the fiscal years ended June 30, 2012 and 2011. This discussion should be read in conjunction with the accompanying financial statements and notes. Management has prepared the financial statements and the related note disclosures along with this discussion and analysis. As such, the financial statements, notes, and this discussion are the responsibility of the Center's management.

Using the Annual Financial Report

This annual report consists of financial statements prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, as amended.

The financial statements prescribed by GASB Statement No. 34 (the statements of net assets, statements of revenues, expenses, and changes in net assets, and the statements of cash flows) present financial information in a form similar to that used by commercial corporations. They are prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided, and expenses and liabilities are recognized when others provide the product or service, regardless of when cash is exchanged.

The statements of net assets include all assets and liabilities. Over time, increases or decreases in net assets (the difference between assets and liabilities) is one indicator of the improvement or erosion of the Center's financial health when considered with nonfinancial facts such as patient statistics and the condition of facilities. This statement includes all assets and liabilities using the accrual basis of accounting, which is consistent with the accounting method used by private-sector institutions.

The statements of revenues, expenses, and changes in net assets present the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. A public hospital's dependency on state aid can result in an operating deficit since the financial reporting model classifies such aid

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

as nonoperating revenues, which is the case with the state appropriation received by the Center. The utilization of capital assets is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

The statements of cash flows present information related to cash inflows and outflows summarized by operating, capital, and noncapital financing activities.

Condensed Summary of Net Assets

	As of June 30		
	<u>2012</u>	<u>2011</u>	<u>2010</u>
Assets:			
Current assets	\$ 7,559,307	6,489,603	5,320,812
Capital assets	6,909,323	5,582,392	5,265,194
Noncurrent assets	<u>14,705,626</u>	<u>19,137,097</u>	<u>18,359,560</u>
Total assets	<u>\$ 29,174,256</u>	<u>31,209,092</u>	<u>28,945,566</u>
Liabilities:			
Current liabilities	\$ 6,154,537	8,131,383	5,454,947
Noncurrent liabilities	<u>499,124</u>	<u>620,270</u>	<u>374,270</u>
Total liabilities	<u>\$ 6,653,661</u>	<u>8,751,653</u>	<u>5,829,217</u>
Net assets:			
Invested in capital assets	\$ 6,909,323	5,582,390	5,265,194
Restricted	156,199	194,127	20,650
Unrestricted	<u>15,455,073</u>	<u>16,680,922</u>	<u>17,830,505</u>
Total net assets	<u>\$ 22,520,595</u>	<u>22,457,439</u>	<u>23,116,349</u>

At June 30, 2012, the Center's total assets were \$29.2 million, compared to \$31.2 million in 2011 and \$28.9 million in 2010. The Center's largest asset is the related-party receivable due from affiliate in the amount of \$14.7 million at June 30, 2012, \$19.1 million at June 30, 2011 and \$18.4 million at June 30, 2010 followed by the investment in capital assets of \$6.9 million at June 30, 2012, compared to \$5.6 million in 2011 and \$5.3 million in 2010. The University of New Mexico Hospital (the Hospital) manages all cash receipts and disbursements on behalf of the Center. The noncurrent asset represents the related-party receivable between the Hospital and the Center for the intercompany cash transactions. For the three years presented, the Center's current assets have been sufficient to cover current liabilities.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

The Center's liabilities decreased by \$2.1 million from June 30, 2011 to June 30, 2012, and increased by \$3.0 million from June 30, 2010 to June 30, 2011. In 2012, accrued compensation and benefits decreased \$887,000 and estimated third party payor settlements decreased by \$2.0 million. The Center's largest liability is accounts payable of \$2.9 million at June 30, 2012, compared to \$2.0 million in 2011 and \$645,000 in 2009.

Total net assets increased by \$63,000 to \$22.5 million at June 30, 2012, which reflects an operating loss of \$18.6 million, offset by nonoperating net revenues of \$18.6 million. Unrestricted net assets totaled \$15.5 million at June 30, 2012.

Total net assets decreased by \$659,000 to \$22.5 million at June 30, 2011, which reflects an operating loss of \$19.9 million, offset by nonoperating net revenues of \$19.1 million. Unrestricted net assets totaled \$16.7 million at June 30, 2011.

Condensed Summary of Revenues, Expenses, and Changes in Net Assets

	Year Ended June 30		
	2012	2011	2010
Total operating revenues	\$ 30,829,715	29,074,288	33,022,084
Total operating expenses	<u>(49,381,288)</u>	<u>(48,990,686)</u>	<u>(52,472,754)</u>
Operating loss	(18,551,573)	(19,916,398)	(19,450,670)
Nonoperating revenues and expenses and other revenues	<u>18,614,729</u>	<u>19,257,488</u>	<u>18,544,016</u>
Total increase (decrease) in net assets	63,156	(658,910)	(906,654)
Net assets, beginning of year	<u>22,457,439</u>	<u>23,116,349</u>	<u>24,023,003</u>
Net assets, end of year	<u>\$ 22,520,595</u>	<u>22,457,439</u>	<u>23,116,349</u>

Operating Revenues

The sources of operating revenues for the Center are net patient service, contracts and grants, and other operating (ancillary services) revenues, with the most significant source being net patient service revenues. Operating revenues were \$30.8 million, \$29.1 million, and \$33.0 million for 2012, 2011, and 2010, respectively.

Net patient service revenue is comprised of gross patient service revenue, net of contractual allowances, charity care, provision for doubtful accounts, and any third-

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

party cost report settlements. Net patient service revenues were \$27.5 million, \$25.8 million, and \$29.9 million for 2012, 2011, and 2010, respectively.

Net patient service revenues for 2012 increased \$1.7 million from \$25.8 million in 2011, to \$27.5 million. This was a result of increased collection percentages, resulting in decreased contractual allowances in 2012.

Net patient service revenues for 2011 decreased \$4.2 million from \$29.9 million in 2010. This was a result of reduced volumes for Medicaid and other third-party payors and reduced reimbursement rates for Medicaid. Net patient service revenue also decreased as a result of services no longer covered by Medicaid.

On November 1, 2010, the State of New Mexico Human Services Department, Medical Assistance Division (MAD) implemented the Outpatient Prospective Payment System (OPPS) for Medicaid outpatient payment rates. The payment rate became 100% of the Medicare standard rate. The Managed Care Organizations (MCOs) also implemented OPPS during fiscal year 2011. On January 10, 2012, the Human Services Department (HSD) announced approval of the UNMHSC patient-centered medical home (PCMH) pilot project. The PCMH pilot program provides a specific management model of care that focuses on improving significant, chronic conditions including diabetes, depression, hypertension, hyperlipidemia, obesity, and metabolic syndrome. HSD expects to enroll 5,000 new individuals into the UNMHSC State Coverage Insurance (SCI) program. Enrollment in the pilot program began April 1, 2012. HSD eliminated the 30-day grace period for re-enrollment under the SCI program effective July 1, 2010. This resulted in consistent declines in enrollment from July 2010 forward until the January 2012 PCMH pilot. The SCI Program is under consideration for possible elimination from the Medical Assistance Division Budget for subsequent years.

Net patient service revenues for 2010 decreased \$4.2 million from \$34.1 million in 2009, due to decreases in cost report settlements, Medicaid funding and decreased volume of Medicare patients.

On July 1, 2009, payment received for services provided to patients under the Behavioral Health Services Division (BHSD) converted from a monthly drawdown of a fixed amount to fee for service. Funding for BHSD services was capped at \$4,542,805, \$4,550,103, and \$4,677,363 for 2012, 2011, and 2010, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

The Center encourages all patients to apply for financial assistance. The Center offers a financial assistance program called UNM Care. This program assigns patients primary care providers and allows them to receive care throughout the Center and at all clinic locations. This program is available to Bernalillo County residents who meet certain income thresholds. Prior to January 1, 2010, the income threshold was set at 235% of the Federal Poverty Level (FPL). Effective January 1, 2010, the income threshold was increased to 300% of the FPL. Patients may apply for this program at various locations throughout the Health Sciences Center (HSC) and various community locations. As of June 30, 2012, 2011 and 2010, there were approximately 32,500, 30,500, and 27,400 active enrollees, respectively. The Center does not pursue collection of amounts determined to qualify as charity care, with the exception of copayments.

The Center provides care to patients who are either uninsured or under-insured and who do not meet the criteria for financial assistance. The Center encourages patients to meet with a financial counselor to develop payment arrangements. Although the Center pursues collection of these accounts usually through an extended payment plan or a discounted rate, interest is not charged on these accounts, liens are not placed on property or assets, and judgments are not filed against the patients. These accounts are fully reserved and recorded as provision for doubtful accounts. Provision expense recorded for fiscal years 2012, 2011, and 2010 was \$1.1 million, \$1.1 million, and \$343,000, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

Operating Expenses

The following pie charts depict the distribution of the operating expenses for the Center for the years ended June 30, 2012, 2011, and 2010:

Operating expenses for 2012, including depreciation of \$610,000, totaled \$49.4 million. Overall expenses increased 0.8% (\$400,000) from the prior year. Occupancy expenses increased 75.5% (\$908,000) due to HVAC repairs, replacement of grills, doors, frames, stucco work, fire alarms, anchoring patient beds, replacing bathroom fixtures, and patching ceilings to maintain aging facilities as well as installing access panels, card readers and cameras for safety and security purposes. The occupancy expense increase was partially offset by decreased benefits expense of \$364,000 associated with a change in estimate of 2011 Other Post-Employment Benefits (OPEB) and decreases of \$250,000 for reduction in medical services for the Assertive Community Treatment Program. There were no other significant or unexpected changes in operating expenses.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

Operating expenses for 2011, including depreciation of \$536,000, totaled \$49.0 million. Overall expenses decreased 6.6% (\$3.5 million) from 2010. Employee compensation and benefits expenses decreased 6.4% (\$2.3 million) from 2010 primarily due to the reduction of FTE's from 556 in 2010 to 520 in 2011. The reduction of FTE's is in response to the decreased patient volumes. Occupancy expenses decreased 18.4% (\$273,000) from 2010 due to decreased repairs and materials required to maintain aging facilities. Purchased services decreased \$257,000, due to decreased patient volumes and reductions in insurance costs. There were no other significant or unexpected changes in operating expenses.

Nonoperating Revenues and Expenses

Revenue from the Bernalillo County mill levy was the most significant source of nonoperating revenue, totaling \$12.6 million in 2012, \$12.5 million in 2011 and \$10.9 million in 2010. The state appropriation was the next significant nonoperating revenue source totaling \$6.3 million in 2012, \$6.9 million in 2011, and \$7.1 million in 2010. The state appropriation is provided to the Center to fulfill its mission to the State of New Mexico. In 1975, the Center was created by state statute under the authority of the State of New Mexico to supply what were deemed as necessary services to improve the mental health and well-being of New Mexico's children and adolescents through inpatient services at the Center, at school sites, and at patients' homes. The appropriation also funds the operation of the Mimbres School, a state-supported, on-site school. The state appropriation for 2012 was reduced from the original appropriation by \$310,000 (5%) during the special session of the New Mexico legislature. The state appropriation for 2011 was reduced from the original appropriation by \$345,000 (5%) during the special session of the New Mexico legislature. The state appropriation for 2010 was reduced from the original appropriation by \$492,000 (6.5%) during the special session of the New Mexico legislature.

Nonoperating revenue for 2012 included \$25,000 in bequests and contributions. 2011 nonoperating revenue included \$200,000 in bequests and contributions, including \$141,000 of capital grants and gifts, contributed for future improvements to the Children's Psychiatric outdoor therapy activities.

June 30, 2012 and 2011**

Capital Assets

At June 30, 2012, the Center had \$18.8 million invested in capital assets, less accumulated depreciation of \$11.9 million. Depreciation charges for the year totaled \$610,000 compared to \$536,000 and \$490,000 in 2011 and 2010, respectively.

	Year Ended June 30		
	<u>2012</u>	<u>2011</u>	<u>2010</u>
Land and improvements	\$ 933,461	769,496	505,546
Building and improvements	11,565,230	10,833,312	10,667,984
Building service equipment	3,186,569	2,421,672	2,291,017
Equipment	2,233,836	2,324,052	2,254,286
Construction in progress	890,508	712,908	488,998
	<u>18,809,604</u>	<u>17,061,440</u>	<u>16,207,831</u>
Less accumulated depreciation	<u>(11,900,281)</u>	<u>(11,479,048)</u>	<u>(10,942,637)</u>
Net property and equipment	<u>\$ 6,909,323</u>	<u>5,582,392</u>	<u>5,265,194</u>

During the year ended June 30, 2012, the Center's capital expenditures included roof replacements, inpatient unit and residential treatment center renovations, chiller replacement, and boiler replacement. During the year ended June 30, 2011, the Center's capital expenditures included roof replacements, restroom remodels, landscaping, patient storage and sound panel installation. During the year ended June 30, 2010, the Center's capital expenditures included patient safety renovations including improvements to ceilings, sprinkler heads and nursing stations, and the purchase and installation of egress lighting.

Change in Net Assets

Total net assets (assets minus liabilities) are classified by the Center's ability to use these assets to meet operating needs. Total net assets can be unrestricted or restricted. Unrestricted net assets for the Center may be used to meet all operating needs of the Center. Restricted net assets are generated by donations and gifts and are further classified as to the purpose for which they must be used. The Center's total change in net assets showed a net increase of approximately \$63,000 in 2012 and a decrease of \$659,000 in 2011.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

Factors Impacting Future Periods

On April 29, 2011, the Centers for Medicare & Medicaid Services (CMS) issued the final rule implementing the inpatient Hospital Value-Based Purchasing (VBP) program under section 1886 (o) of the Social Security Act. As of October 1, 2012, the program, which was established by section 3001 of the Affordable Care Act, reduces hospitals' base diagnosis related group (DRG) payments by 1% and uses those funds to make value-based incentive payments to hospitals that meet designated performance standards.

Under the statute, the measures are categorized into three domains: clinical process of care, outcome, and patient experience of care measures. Examples of process of care measures include Acute Myocardial Infarction; Heart Failure; Pneumonia and Surgical Care Improvement. Examples of outcome measures are mortality and readmission rates for Medicare patients. Finally, the patient experience of care measures are called Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) and represent patient assessments in regards to communication with nurses and doctors, and overall cleanliness and quietness of facility. The incentive payments for fiscal year 2013 are funded through a reduction to fiscal year 2013 base operating DRG payments for each discharge of 1 percent, with the percentage increasing gradually to 2 percent in fiscal year 2017 and subsequent fiscal years. Scoring in the Hospital VBP program will be based on overall achievement relative to national benchmarks. Whether the hospital meets or exceeds the established performance standards will determine any potential quality-based financial reward for the hospital. For the period October 1, 2012 through September 30, 2013, University of New Mexico Hospital's Inpatient Prospective DRG reimbursement will be decreased by 0.17%.

On August 8, 2012, the CMS released the FFY2013 Inpatient Prospective Payment Rule, this final rule set the methodology for calculating the readmission adjustment factor, limited by law to a 1.0 percent reduction per hospital beginning October 1, 2012. This reduction applies to a hospital's diagnosis-related group (DRG) base operating payment. CMS has estimated that the readmission adjustment will reduce overall fiscal year 2013 payments to hospitals by approximately \$270 million or 0.3 percent. Since the Hospital has a low readmission rate, the published readmission adjustment factor is 99.99% so the hospital's base operating DGR rate impact is immaterial for fiscal year 2013.

UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

The Patient Protection and Affordable Care Act (PPACA) enacted on March 23, 2010 included other nation health reforms besides value-based purchasing requirements. PPACA also expanded Medicaid eligibility provisions, Medicare and Medicaid funding reforms, and private insurance market reforms. Medicaid expansion under PPACA includes new eligibility criteria establishing a minimum floor for Medicaid coverage to 133% of the Federal Poverty Level (FPL), (with the 5% income disregard allowed in section 2002 of PPACA, the effective rate is 138% FPL), eliminating other non-income-based criteria (such as age, disability, or asset testing). Although initially mandatory, States now have a choice to expand Medicaid and implement the new criteria due to the Supreme Court's June 28, 2012, decision. The population most impacted by the new optional eligibility criteria is expected to be childless adults. States are also prohibited from reducing Medicaid or Children's Health Insurance Program (CHIP) eligibility that was in place on the date of PPACA enactment. PPACA provides additional federal financing through the Federal Medical Assistance Percentage (FMAP) for newly eligible Medicaid patients beginning in 2014.

PPACA includes legislation on Health Exchanges. Health Exchanges are expected to facilitate the purchase of health insurance for qualified individuals and small employers. A qualified individual is a lawful resident with income between 133% and 400% of the FPL. Federal subsidies for premiums under Health Exchanges become available beginning 2014. Health Exchanges are designed to be "one-stop-shopping" where participants can compare and purchase insurance coverage. Insurance coverage will have essential health benefits that cover benefit costs ranging from 60% to 90% with out-of-pocket limits equal to health savings account current law limits.

Health Plan reforms under PPACA include a set of required essential benefits including, but not limited to, emergency services, hospitalization, maternity and newborn care, mental health and substance use disorder services, preventative and wellness services, and pediatric services, including oral and vision care. Plans must also not require copayment or deductible on preventative services. For plan years beginning after September 23, 2010, existing plans must provide coverage to dependent children until age 26 (unless eligible for other coverage), eliminate lifetime aggregate dollar limits and annual dollar limits on essential benefits, eliminate pre-existing condition exclusions for children up to age 19, and prohibit rescinding of coverage except in cases of fraud, intentional misrepresentation, and nonpayment of premium. Effective in 2014, existing insurance plans must eliminate

**UNM BEHAVIORAL OPERATIONS

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

annual aggregate benefit limits, provide coverage of dependents to age 26 regardless of eligibility for other coverage, eliminate pre-existing condition limitations for adults, and eliminate waiting periods of greater than 90 days.

On June 28, 2012, the US Supreme Court ruled on certain provisions of PPACA. They declared that the "individual mandate" requiring individuals to buy insurance or to pay a fine amounted to a tax and that the government has the ability to impose such a tax. The ruling also declared that states have the ability to not participate in Medicaid expansion and to avoid the penalties described in PPACA. The PPACA legislation is expected to reduce national Medicaid and Medicare Disproportionate Share Hospital (DSH) payments by \$14 billion and \$22 billion, respectively, from 2014 through 2019. The effect of these reductions on individual hospitals is undeterminable at this time with the Supreme Court's ruling. PPACA also reduced the annual market basket increase for Medicare inpatient and outpatient hospital services for services rendered on or after October 1, 2010.

Medicare has put a program in place to review healthcare claims in order to identify and recover inappropriate payments made to providers for fee-for-service Medicare. This program is called the Recovery Audit Contract (RAC) program and was created through the Medicare Modernization Act of 2003 (MMA). The three-year demonstration program identified over \$1 billion in overpayments. In 2006, Congress mandated expansion of the RAC program to all 50 states. The RAC program encompassing New Mexico became effective in March 2009. Connolly Consulting Associates, Inc. is the contractor for this region. The RAC contractor can request up to 399 records every 45 days and can review claims from June 2008 and forward. In June 2012, the Hospital received its first large RAC request to review 399 accounts. The Hospital responded by the required deadline and submitted the medical record and billing documentation required. The Hospital is awaiting determination of the claims by the RAC Contractor.

The Deficit Reduction Act of 2005 established the Medicaid Integrity Program (MIP) to identify, collect, and prevent overpayments made under fee-for-service Medicaid. The two operational functions of MIP are 1) to review the actions of those providing Medicaid services and 2) to provide support and assistance to the states to combat Medicaid fraud, waste, and abuse. The MIP in New Mexico has been initiated, and the Hospital received a request for records in January 2010. The Hospital has neither received details regarding the outcome of the review nor has received further requests for records.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
June 30, 2012 and 2011**

Current economic conditions in the State of New Mexico will continue to impact the Hospitals as the State seeks to identify revenue sources and expenditure reductions. The SCI Program is under consideration for possible elimination from the Medical Assistance Division Budget in subsequent years. As discussed above under net patient revenues, the State was unable for fiscal years 2012 and 2011 to fund a portion of the non-federal share to obtain federal matching funds as described in the CMS Special Conditions/Approval, thereby jeopardizing the viability of the State Coverage Initiative ("SCI") program. As a result, the Hospital entered into Memorandums of Understanding with the State of New Mexico for each year, under which UNM Hospital agreed to an intergovernmental transfer in the amount of \$15.5 million and \$12.0 million, respectively, to fund the non-federal share of Medicaid payment pursuant to federal Medicaid regulations at 42 CFR 433.51.

On April 25, 2012, the New Mexico Health and Human Services Department submitted a Section 1115 Research and Demonstration waiver request to the Centers for Medicare and Medicaid Services to modernize the Medicaid Program to make sure it is sustainable now and in the future. This new Medicaid program named "Centennial Care" will pilot a new streamlined waiver format that will blend long term care and acute care services into a single delivery system, develop pilot payment reform strategies, seek administrative simplicity, and increase flexibility in the design and management of the Medicaid Program. NMHSD plans to have this program fully implemented by January 1, 2014, but timing will ultimately depend upon how quickly NMHSD and CMS work through the waiver approval process. All factors impacting the hospital are unknown at this point as the state is currently in procurement process and hopes to have Medicaid health plans selected and under contract by January 1, 2013. One factor that will impact future periods is that Medicaid Supplemental payments such as the Upper Payment Limit funding will be replaced by a Safety Net Care Pool (SNCP). The SNCP is being designed to reimburse hospitals for uncompensated care costs as well as costs incurred to implement Delivery System Reform Incentive Pools (DSRIPs). As the largest safety net hospital in New Mexico, the Hospital is working closely with NMHSD in the design of this Medicaid supplemental payment program.

The mill levy is based on property values. Given the state of the economy, it is possible that the amount of the mill levy may remain flat or potentially decrease as the result of reduced property values and slowdowns in the building construction industry.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 1. DESCRIPTION OF BUSINESS

UNM Behavioral Operations include the UNM Psychiatric Center and the UNM Children's Psychiatric Center (collectively, the Center).

The UNM Psychiatric Center (Adult Center) is a psychiatric center operated by the University of New Mexico Health Sciences Center, and was organized under a joint powers agreement between the University of New Mexico (UNM), a state institution of higher education created by the New Mexico Constitution, and Bernalillo County (the County) for the purpose of providing mental health services and for the advancement of human knowledge and education in the mental health field. The UNM Board of Regents and the Board of County Commissioners entered into a lease agreement for operation and lease of county healthcare facilities, effective July 1, 1999 and terminating June 30, 2020. The purpose of the original lease is to operate and maintain the Center in accordance with the provisions of the Hospital Funding Act for the term of the agreement. This agreement continues in force until rescinded or terminated by either party. Effective November 18, 2004, the UNM Board of Regents and the Board of County Commissioners entered into a First Amendment to the Original Lease, under which, among other things, extended the term of the Original Lease until June 30, 2055.

The UNM Children's Psychiatric Center (Children's Center), a psychiatric center operated by the University of New Mexico (UNM) Health Sciences Center, is certified as a short-term, acute care provider. The Center provides intensive treatment for children and adolescents through its acute inpatient, residential, and outpatient therapy programs. The Center is the state's only comprehensive psychiatric facility dedicated solely to the treatment of seriously emotionally disturbed children and adolescents.

The accompanying financial statements of the UNM Behavioral Operations are intended to present the financial position and changes in financial position and cash flows of only that portion of the business-type activities of UNM, which are attributable to the transactions of the Center. The UNM Behavioral Operations are not a legally separate entity and are, therefore, reported as a division of UNM and included in the basic financial statements of UNM. The Center as a division of UNM is not legally separate and has no component units.

The UNM Board of Regents is the ultimate governing authority of the UNM Behavioral Operations, but has delegated certain oversight responsibilities to the UNM Health Sciences Center's Board of Trustees, which consists of nine

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS

NOTE 1. DESCRIPTION OF BUSINESS (CONTINUED)

members, including seven members appointed by the UNM Regents, one of whom is nominated by the All Indian Pueblo Council. The other two members are appointed by the Bernalillo County Commission.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation. The accompanying financial statements have been prepared using the economic resource measurement focus and the accrual basis of accounting, in accordance with generally accepted accounting principles for healthcare organizations, and are presented in accordance with the reporting model as prescribed in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, as amended by GASB Statement No. 37, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments: Omnibus*, and GASB Statement No. 38, *Certain Financial Statement Note Disclosures*. The Center follows the business-type activities requirements of GASB Statement No. 34. This approach requires the following components of the Center’s financial statements:

- Management’s discussion and analysis
- Basic financial statements, including statements of net assets, statements of revenues, expenses, and changes in net assets, and statements of cash flows using the direct method for the Center as a whole
- Notes to financial statements

GASB Statement No. 34 established standards for external financial reporting and requires that resources be classified for accounting and reporting purposes into the following three net asset categories:

- *Invested in capital assets:* Capital assets, net of accumulated depreciation.
- *Restricted net assets – expendable:* Net assets whose use by the Center is subject to externally imposed constraints that can be fulfilled by actions of the Center pursuant to those constraints or that expire by the passage of time.
- *Unrestricted:* Net assets that are not subject to externally imposed constraints. Unrestricted net assets may be designated for specific purposes by action of the Board of Trustees, the UNM Board of Regents, or may otherwise be limited by contractual agreements with outside parties.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Effective July 1, 2010, the Center adopted GASB Statement No. 62, *Codification of Accounting and Financial Reporting Contained in Pre-November 30, 1989 and AICPA Pronouncements*, which incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements. The adoption of GASB 62 had no impact to the Center's accounting policies, as the Center had previously elected to not apply Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, and applicable FASB pronouncements issued on or before November 30, 1989 have now been incorporated into GASB pronouncements.

Use of Estimates. The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the financial statement dates, and the reported amount of revenues and expenses during the reporting periods. Due to uncertainties in the estimation process, actual results could differ from those estimates.

Contracts and Grants. Revenue from contracts and grants is recognized to the extent of direct costs and allowable indirect expenses incurred under the terms of each agreement. Funds restricted by grantors for operating purposes are recognized as revenues when the terms of the grant have been met. All reimbursable costs for which reimbursement has not been received are reflected in the accompanying statements of net assets as contracts and grants receivable.

Operating Revenues and Expenses. The Behavioral Operations statements of revenues, expenses, and changes in net assets distinguish between operating and nonoperating revenues and expenses. Operating revenues, such as patient services revenues, result from exchange transactions associated with providing healthcare services, the behavioral operations' principal activity. Exchange transactions are those in which each party to the transaction receives and gives up essentially equal values. Operating expenses are all expenses incurred to provide healthcare services.

Nonoperating Revenue. Nonoperating revenue includes activities that have the characteristics of nonexchange transactions, such as appropriations, gifts, investment income, and government levies. Nonexchange revenue streams are recognized under GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. Appropriations are recognized in the year they are

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

appropriated, regardless of when actually received. Bequests and contributions are recognized when all applicable eligibility requirements have been met. The Mill Levy is recognized in the period it is collected by Bernalillo County.

Capital Assets. Capital assets are stated at cost on the date of acquisition or at estimated fair value on the date of donation. The Behavioral Operations capitalization policy for assets includes all items with a unit cost of more than \$5,000. Depreciation of capital assets is calculated using the straight-line method over the estimated useful lives of the assets as indicated in the "Estimated useful lives of Depreciable Hospital Assets," Revised 2008 Edition published by the American Hospital Association. Repairs and maintenance costs are charged to expense as incurred. On a quarterly basis, the Center assesses long-lived assets in order to determine whether or not it is necessary to retire, replace, or impair on condition of the assets and their intended use.

The buildings occupied by the Behavioral Operations are as follows: The Adult Center's buildings are owned by the County and are furnished to this Center in accordance with the lease agreement between the County and UNM. The Children Center's buildings are owned by UNM and are furnished for use to this Center. The land for the Behavioral Operations is owned by UNM. This property has been recorded on the Center's financial statements. Equipment includes items that have been purchased with funds received in accordance with certain contracts and grants, and title to this equipment is vested with the Behavioral Operations.

Due from Affiliates. The UNM Hospital (the Hospital) receives all cash on behalf of the Center and pays all obligations. Accounts payable and accrued expenses are considered paid and no longer an obligation of the Center when vouchered for payment by the Hospital. Amounts due from affiliates consist mainly of cash collected in excess of expenses paid and do not bear interest.

Net Patient Service Revenues. Net patient revenues are recorded at the estimated net realizable amount from patients, third-party payors, and others for services rendered. Retroactive adjustments under reimbursement agreements with third-party payors are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contractual adjustments resulting from agreements with various organizations to provide services for amounts that differ from billed charges, including services under Medicare and Medicaid, are recorded as deductions from patient revenues. Accounts, when determined to be uncollectible, are charged against the allowance for doubtful accounts. With respect to State Coverage Insurance (SCI) Program, funding is modeled after a capitated payment program. Funds are remitted to the Hospital on a per member per month basis for all state approved members. Therefore, contractual adjustments are recorded as deductions from patient revenue in its entirety. Capitated payments are received on a monthly basis and are recorded as an offset to contractual adjustments in the amount of approximately \$1,128,000 and \$1,020,000 for years ended June 30, 2012 and 2011, respectively.

Charity Care. The Center provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Center does not pursue collection of amounts determined to qualify as charity care, they are deducted from gross revenue, with the exception of copayments.

Bernalillo County Taxes. The amount of the property tax levy is assessed annually on November 1st based on the valuation of property as determined by the Bernalillo County Assessor and is due in equal semiannual installments on November 10 and April 10 of the next year. Taxes become delinquent 30 days after the due date unless the original levy date has been formally extended. Taxes are collected on behalf of the Center by the County Treasurer and are remitted to the Hospital in the month following collection. Revenue is recognized in the fiscal year the levy is collected by Bernalillo County.

State Appropriation. The funding for the state appropriation is included in the General Appropriation Act, which is approved by the House and Senate of the State Legislature and signed by the governor before going into effect. Total funds appropriated for years ended 2012 and 2011 are \$5,965,985 and \$6,523,600, respectively. These funds are appropriated in the General Fund. The General Fund is designated as a nonreverting fund, per House Bill 2, Section 4. Sub-section J. Higher Education.

Income Taxes. As part of a state institution of higher education, the income of the Center is generally excluded from federal and state income taxes under Section 115(1) of the Internal Revenue Code.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

However, income generated from activities unrelated to the Center's exempt purpose is subject to income taxes under Internal Revenue Code Section 511(a)(2)(B).

Risk Management. The Hospital sponsors a self-insured health plan of which the Center's employees participate, as all employees of the Center are under the centralized umbrella of the Hospital. Blue Cross and Blue Shield of New Mexico and HMO New Mexico (BCBSNM and HMONM) provide administrative claim payment services for the Hospital's plan. Liabilities are based on an estimate of claims that have been incurred but not reported and invoices received but not yet paid. At June 30, 2012 and 2011, the estimated amount of the Center's claims and accrued invoices was \$409,749 and \$411,553, respectively. The liability balance for the self-insurance plan is included in accrued payroll of the Hospital, which is reflected in the net from affiliate account of the Center. The incurred but not reported liability was based on an actuarial analysis calculated using information provided by BCBSNM. Changes in the reported liability were as follows:

	<u>Fiscal Year</u>	<u>Estimates</u>	<u>Payments</u>	<u>Year-end</u>
2011 - 2012	\$ 411,553	2,499,053	(2,500,857)	409,749
2010 - 2011	\$ 287,106	2,830,956	(2,706,509)	411,553

Financial Reporting by Employers for Postemployment Benefits Other than Pensions. The Hospital and the Center provide other postemployment benefits (OPEB) as part of the total compensation offered to attract and retain the services of qualified employees. OPEB includes postemployment medical and dental healthcare provided separately from a benefit or pension plan. GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities (assets), note disclosures, required supplementary information (RSI) in the financial reports of state and local governmental employers.

Classification. Certain 2011 amounts have been reclassified to conform to the 2012 presentation.

NOTE 3. CONCENTRATION OF RISK

The Center receives payment for services rendered to patients under payment arrangements with payors that include: (i) Medicare and Medicaid, (ii) other third-party payors, including commercial carriers, and (iii) others. The following table summarizes patient accounts receivable and the percentage of gross accounts receivable from all payors as of June 30:

	2012		2011	
Patients and their insurance carriers	\$ 6,161,165	44%	\$ 5,548,749	36%
Medicare	2,578,240	19	3,090,819	19
Medicaid	5,099,747	37	7,039,130	45
Total patient accounts receivable	13,839,152	100%	15,678,698	100%
Less allowance for uncollectible accounts and contractual adjustments	(10,405,366)		(12,310,267)	
Patient accounts receivable, net	\$ 3,433,786		\$ 3,368,431	

NOTE 4. ESTIMATED THIRD-PARTY PAYOR SETTLEMENTS

Effective July 1, 2005, acute inpatient services provided under the Medicaid Managed Care program are paid at negotiated rates and are not subject to retroactive settlement.

Through June 30, 2005, services rendered to the Medicaid beneficiaries that were covered under the Medicaid fee-for-service (FFS) program were paid under a cost-reimbursement methodology subject to a cost-per-discharge limitation. The Center was reimbursed at tentative rates throughout the year with final settlement determined after submission of the annual cost report and audit thereof by the Medicaid audit agent. Medicaid cost reports have been final settled for all fiscal years through 2009. Retroactively calculated contractual adjustments arising under reimbursement agreements with third-party payors are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined for service periods through June 30, 2009.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 4. ESTIMATED THIRD-PARTY PAYOR SETTLEMENTS (CONTINUED)

The current year net revenue includes a cost report adjustment to the settlement amount of \$114,800, for the final filing of the fiscal year 2008 Medicare cost report, this adjustment brings the amount due for fiscal year 2008 to \$56,274. In addition a (\$24,221) adjustment was made per the initial filing of the fiscal year 2011 Medicare cost report.

The Center is reimbursed from the Medicare programs for certain reimbursable items at prospectively established rates with final settlement determined after submission of annual cost reports by the Center (see Note 7). The annual cost reports are subject to audit by the Medicare intermediary. Cost reports through 2008, excluding 2005, have been final settled for the Medicare program.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 6. COMPENSATED ABSENCES

Qualified Center employees are entitled to accrue sick leave and annual leave based on their Full Time Equivalent (FTE) status.

Sick Leave. Full-time employees accrue four hours of sick leave each two-week pay period (13 days per annum) up to a maximum of 1,040 hours to be used for major and minor sick leave. Seven of these days are accumulated into a minor sick leave bank. Part-time employees who are at least 0.5 FTE earn sick leave on a prorated basis each pay period. At June 30 of each year, employees have the opportunity to exchange minor sick leave for annual leave or major sick leave, or cash all hours accumulated in excess of 24 hours of minor sick leave and 1,040 hours of major sick leave on an hour-for-hour basis. At termination, only employees who retire from the Center and qualify under Center policy or estates of employees who die as the result of a compensable occupational illness or injury are eligible for payment of unused accumulated hours earned under the Hospital plan. Accrued sick leave as of June 30, 2012 and 2011 approximates \$244,000 and \$172,000, respectively, is computed by multiplying each employee's current hourly rate by the number of hours accrued.

Major and minor sick leave balances earned by the consolidated employees (personnel employed by UNM prior to July 2000, employed by the Center thereafter) under the UNM plan were transferred to the Center.

Upon retirement, all minor sick leave hours in excess of 600 are paid at a rate equal to 50% of the employee's hourly wage multiplied by the number of hours in excess of 600 unused minor sick leave hours based on FTE status, not to exceed 440 hours of such sick leave.

Immediately upon retirement or death, a consolidated employee is entitled to receive cash payment for unused major sick leave hours in excess of 1,040 at a rate equal to 28.5% of the employee's hourly wage multiplied by the number of hours in excess of 1,040 major sick leave hours based on FTE status. Partial hours are rounded to the nearest full hour.

Annual Leave. Full-time employees accrue annual leave based on their length of employment up to a maximum of 480 hours. Part-time employees who are at least 0.5 FTE earn annual leave on a pro-rata basis each pay period. At June 30 of each year, employees have the opportunity to exchange for cash up to 80 annual leave hours accumulated in excess of 240 hours. At termination, employees are eligible for payment of unused accumulated hours, not to exceed 480 hours. Accrued annual

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 6. COMPENSATED ABSENCES (CONTINUED)

leave as of June 30, 2012 and 2011 approximates \$1,288,450 and \$1,191,000, respectively, is computed by multiplying each employee's current hourly rate by the number of hours accrued.

Upon retirement, death, or involuntary termination, a consolidated employee is entitled to receive cash payment for annual leave earned prior to consolidation up to a maximum of 252 hours at a rate equal to 50% of the employee's hourly wage. Upon voluntary termination, a maximum of 168 hours is paid out at a rate equal to 50% of the employee's hourly wage.

During the years ended June 30, 2012 and 2011, the following changes occurred in accrued compensated absences:

<u>Balance</u> <u>July 1, 2011</u>	<u>Increase</u>	<u>Decrease</u>	<u>Balance</u> <u>June 30, 2012</u>
\$ 1,390,956	2,419,341	(2,251,224)	1,559,073
<u>Balance</u> <u>July 1, 2010</u>	<u>Increase</u>	<u>Decrease</u>	<u>Balance</u> <u>June 30, 2011</u>
\$ 1,399,517	2,485,467	(2,494,028)	1,390,956

Accrued compensated absences are included in "Accrued compensation and benefits" in the accompanying financial statements. The balances above include annual leave and sick leave, disclosed above, in addition to compensatory time (accrued time) and holiday, totaling approximately \$27,000 and \$28,000 in fiscal years 2012 and 2011, respectively. The portion of accrued compensated absences due after one year is not material and, therefore, is not presented separately.

NOTE 7. NET PATIENT SERVICE REVENUES

The majority of the Center's revenue is generated through agreements with third-party payors that provide for reimbursement to the Center at amounts different from its established rates. Approximately 58% and 63%, respectively, of the Center's gross patient revenues for the fiscal years ended 2012 and 2011 were derived from the Medicare and Medicaid programs, the continuations of which are dependent upon governmental policies. With the implementation of Medicare

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 7. NET PATIENT SERVICE REVENUES (CONTINUED)

Part C, the Center experienced a decline in Medicare Fee for Service (FFS) revenues with an associated increase in Managed Medicare revenues as patients elected coverage under a Medicare HMO. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded revenue estimates could change as a result of regulatory review. Contractual adjustments under third-party reimbursement programs represent the difference between the Center's billings at established rates for services and amounts reimbursed by third-party payors. A summary of the basis of reimbursement from major third-party payors follows:

Medicare – Inpatient psychiatric care services rendered to Medicare program beneficiaries are paid on a prospectively established per-diem rate. The Centers for Medicare and Medicaid Services (CMS) reimburses the Center for outpatient services at a prospectively established rate using Ambulatory Payment Classifications (APCs). The basis for payment under APCs are the Common Procedural Terminology coding system (CPT) and Healthcare Common Procedure Coding System (HCPCS).

Medicaid – The Center has reimbursement agreements with certain healthcare contractors that have contracted to provide services to Medicaid beneficiaries enrolled under the State of New Mexico (managed care) program. The basis for reimbursement under these agreements is a per-diem rate that includes both acute inpatient and partial hospital. For outpatient services, charges are paid based on a fee schedule determined by CPT codes, or a percentage of billed charges. The Hospital has also entered into a reimbursement agreement for the State Coverage Insurance (SCI) Program. This program is part of the New Mexico SCI Medicaid plan, funded in part by the State of New Mexico Human Services Department (HSD). Funding is modeled after a capitated payment program. Funds are remitted to the Hospital on a per member per month basis for all state approved members. The Center receives a portion of the capitated payment portion of the capitated payment remitted to the Hospital, with rate of reimbursement to the Center determined by an internally developed methodology based on percentage of the total Hospital services provided to members specifically by the Center. The Center's funding under the SCI program for the years ended June 30, 2012 and 2011 was \$1,128,329 and \$1,019,759, respectively, and is included in net patient service revenue.

Other – The Center has also entered into reimbursement agreements with certain commercial insurance carriers, health maintenance organizations, and preferred

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 7. NET PATIENT SERVICE REVENUES (CONTINUED)

provider organizations. The basis for reimbursement under these agreements includes prospectively determined rates-per-discharge, discounts from established charges, and prospectively determined per-diem rates.

A summary of net patient service revenues follows for the years ended June 30:

	<u>2012</u>	<u>2011</u>
Charges at established rates	\$ 58,687,212	62,010,013
Charity care	(3,093,192)	(2,328,955)
Contractual adjustments	(26,992,473)	(32,850,166)
Provision for doubtful accounts	(1,138,853)	(1,077,969)
Net patient service revenues	<u>\$ 27,462,694</u>	<u>25,752,923</u>

Current year estimates, settlements of prior-year cost reports, and changes in prior - year estimates resulted in net increases to net patient service revenue of approximately \$779,801 and \$845,398 for the years ended June 30, 2012 and 2011, respectively. During the fiscal year ended June 30, 2012, \$689,211 was accrued for Medicare as an estimate for the fiscal year 2012 cost report. UNM Hospitals cost reports are typically filed by November 30, but for 2012 only, the filing date is extended to January 31, 2013. During the fiscal year ended June 30, 2011, \$713,201 was accrued for Medicare as an estimate for the fiscal year 2011 cost report.

Management believes that these estimates are adequate. Laws and regulations governing the Medicare program are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Estimates are continually monitored and reviewed, and as settlements are made or more information is available to improve estimates, differences are reflected in current operations.

NOTE 8. CHARITY CARE

The Center maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for services and supplies furnished under its charity care policy. Charges foregone, based on established rates, under the Center's charity policy amounted to approximately \$3,093,000 in 2012 and \$2,329,000 in 2011.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 9. MALPRACTICE INSURANCE

As a part of the UNM, the Center enjoys sovereign immunity from suit for tort liability except as waived by the New Mexico Legislature. In this connection, under the New Mexico Tort Claims Act, the New Mexico Legislature waived the State's and the Center's sovereign immunity for claims arising out of negligence out of the operation of the Center, the treatment of the Center's patients, and the healthcare services provided by Center employees. In addition, the New Mexico Tort Claims Act limits, as an integral part of this waiver of sovereign immunity, the amount of damages that can be assessed against the Center on any tort claim including medical malpractice or professional liability claims.

The New Mexico Tort Claims Act provides that total liability for all claims that arise out of a single occurrence shall not exceed \$750,000 set forth as follows: (a) \$200,000 for real property; (b) up to \$300,000 for past and future medical and medically related expenses; and (c) up to \$400,000 for past and future noneconomic losses (such as pain and suffering) incurred or to be incurred by the claimant. The language of the New Mexico Tort Claims Act does not provide for claims of loss of consortium; however, New Mexico appellate court decisions have allowed claimants to seek consortium. The Risk Management Division of the State of New Mexico General Services Department (State RMD) and UNM contend that these damages are contained within the \$750,000 cap. The New Mexico Tort Claims Act prohibits the award of punitive or exemplary damages against the Hospital. The New Mexico Tort Claims Act requires the State RMD to provide coverage to the Center for those torts where the Legislature has waived the State's sovereign immunity up to the damages limits of the New Mexico Tort Claims Act plus the cost incurred in defending any claims and/or lawsuits (including attorney's fees and expenses), with no deductible and with no self-insured retention by the Center. As a result of the foregoing, the Center is fully covered for claims and/or lawsuits relating to medical malpractice or professional liability.

NOTE 10. RELATED-PARTY TRANSACTIONS

UNM provides certain administrative and medical support services for the Center, and the Center provides the use of the Center's facilities and administrative services to UNM's teaching personnel. The Center's expenses for services rendered during the years ended June 30, 2012 and 2011 amounted to approximately \$8,704,554 and \$8,249,602, respectively. The Hospital also provides administrative services, which include primarily accounting functions such as payroll and accounts payable

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 10. RELATED-PARTY TRANSACTIONS (CONTINUED)

processing as well as cash management activities. In addition, the Hospital provides medical support services and goods for the Center including laboratory, radiology, and pharmaceuticals, which is reflected in the revenues/expenses of the Center. This activity is reflected net in due to/from affiliates.

NOTE 11. BENEFIT PLANS

A small portion (approximately 40) of the Center's full-time employees participates in a public employee retirement system authorized under the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978). The Educational Retirement Board (ERB) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits, and cost-of-living adjustments to plan members (certified teachers and other employees of state public school districts, colleges, and universities) and beneficiaries. ERB issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. This financial report may be obtained by writing to ERB, P.O. Box 26129, Santa Fe, NM 87502. The report is also available on ERB's Web site at www.nmerb.org.

The Center also has a defined contribution plan covering eligible employees, which provides retirement benefits. The name of the plan is UNM Hospital Tax Sheltered Annuity Plan, formerly known as the University of New Mexico Hospital/Bernalillo Medical Center Tax Sheltered Annuity Plan. The Center contributes either 5.5% or 7.5% of an employee's salary to the plan, depending on employment level. The plan was established by the Board of Trustees and can be amended at its discretion. The plan is administered by UNM Hospitals Human Resources Department.

The Center has a deferred compensation plan, called the UNM Hospitals 457(b) Deferred Compensation Plan, which provides employees with additional retirement savings plan. The Center does not contribute to this plan. Employees can make voluntary contributions to this plan. The plan was established by the Board of Trustees and can be amended at its discretion. The plan is administered by UNM Hospitals Human Resources Department.

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 11. BENEFIT PLANS (CONTINUED)

In addition, the Center has a 401(a) defined contribution plan, called the UNM Hospital 401(a) Plan, which was established for the purpose of providing retirement benefits for the eligible participants and their beneficiaries. The 401(a) plan allows for tax-deferred employer contributions on a percentage-of-salary basis. The plan was established by the UNMH Board of Trustees and can be amended at its discretion. All assets of the plan are held in a trust fund, are not considered hospital assets, and are under the direction of a Plan Administrator.

Funding Policy. Plan members of the public ERB earning \$20,000 or less annually are required by statute to contribute 7.9% of their gross salary. Plan members earning over \$20,000 annually were required to contribute 11.15% of their gross salary in fiscal year 2012 and will be required to contribute 9.4% of their gross salary in fiscal year 2013. The Hospital has been and is required to contribute 12.4% of the gross covered salary for employees earning \$20,000 or less, in fiscal years 2012 and 2013. In fiscal year 2013 the Hospital will contribute 10.9% of the gross covered salary of employees earning more than \$20,000 annually. The contribution requirements of plan members and the Hospital are established in State statute under Chapter 22, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The Center's contributions to ERB for the fiscal years ended June 30, 2012, 2011, and 2010 were \$206,000, \$286,000, and \$358,000, respectively, which equal the amount of the required contributions for each fiscal year.

The expense for the defined contribution plan was \$1,039,745, \$778,000 and \$1,026,000, in fiscal years 2012, 2011 and 2010, respectively. Total employee contributions under this plan were \$1,051,000, \$986,000 and \$959,000, in fiscal years 2012, 2011, and 2010, respectively.

There was no expense for the deferred compensation plan in fiscal years 2012, 2011, and 2010, respectively, as the Center does not contribute to this plan. Total employee contributions under this plan were \$142,000, \$132,000 and \$164,000, in fiscal years 2012, 2011 and 2010, respectively.

The expense for the 401(a) defined contribution plan was \$5,000, \$10,000 and \$5,000 in fiscal years 2012, 2011 and 2010, respectively. Only the Hospital contributes to this plan.

UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 12. OTHER POSTEMPLOYMENT BENEFIT PLAN

Plan Description. The Hospital and the Center employees and retirees participate under the same benefit plan administered by the Hospital. The Hospital administers a single employer defined-benefit plan that offers postemployment healthcare coverage to eligible retirees and their dependents. Eligible retired employees are offered combined medical/prescription drug benefits through the Hospital's self-insured health plan administered by Blue Cross and Blue Shield of New Mexico. Eligible retired employees are also offered dental insurance through the Hospital's self-insured dental plan insurance. The authority to establish and amend benefit provisions to the benefit policy is recommended by the Human Resource Administrator and approved by the Chief Executive Officer.

Beginning July 1, 2009, the actuarial valuations are prepared biennially for the Center as allowed under GASB Statement No. 45.

Employees are eligible to retire from the Hospital and receive these postemployment benefits when:

- The employee reaches the minimum age of fifty (50);
- The employee has at least five years of continuous employment; and
- The employee has a combined age plus year of service sum of at least seventy (70) (hire date prior to July 1, 2009), seventy-five (75) (hire date after July 1, 2009) and eighty (80) (hire date after July 1, 2011).

At the date of valuation July 1, 2011, for the Center, there were a total of 1 retiree receiving benefits (contributed by the Hospital), 25 active employees fully eligible to receive benefits, and 386 active employees currently not fully eligible to receive benefits.

Funding Policy. The contribution requirements of the plan members and the Hospital are established, and may be amended by recommendation of the Human Resource Administrator and approval by the Chief Executive Officer. The retired employees that elect to participate in the postemployment benefit plan are required to make contributions in the form of monthly premiums based on current rates established under the health and dental plans. For the medical and dental plans, there are both implicit and explicit subsidies provided by the Hospital. The explicit subsidy is for employees that retire with sick and annual leave (compensated absence) accruals. The Hospital subsidizes for the retiree only, the current "employee only" premium amount for the health and dental plans for the period of

**UNM BEHAVIORAL OPERATIONS
UNIVERSITY OF NEW MEXICO HEALTH SCIENCES CENTER
CLINICAL OPERATIONS
NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 12. OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

the length of leave (compensated absence) accrual. The implicit subsidy arises because the retiree pays a contribution that is based on a combined active and retiree claim experience. If the retiree were to pay based solely on retiree claim experience, they would be paying a higher amount as typically retirees incur higher claims. This "discount" is called the implicit subsidy.

The applicable monthly retiree contribution rates are provided in the tables below:

Rate tier	Retiree (coverage extension/compensated absence accrual period)			Retiree (after coverage extension)		
	Standard Network	Extended Network	Delta Dental	Standard Network	Extended Network	Delta Dental
Retiree only	\$ 495.00	1,044.00	30.68	441.80	682.30	30.68
Retiree + Spouse/DP	1,015.00	2,138.00	65.65	905.60	1,398.50	65.68
Retiree + Children	743.00	1,564.00	—	662.60	1,023.30	—
Retiree + family	1,065.00	2,244.00	97.68	949.80	1,466.70	97.68

The Hospital does not use a trust fund to administer the financing and payment of benefits. Instead, the Hospital funds the plan on a pay-as-you-go basis. The pay-as-you-go expense is the net expected cost of providing retiree benefits. This expense includes all expected claims and related expenses and is offset by the retiree contribution. Expected monthly claim costs were developed from a combination of historical claim experience and manual claim cost developed using a representative database. Nonclaim expenses are based on the current amounts charged to employees. The Center's pay-as-you-go expense for the period of July 1, 2011 to June 30, 2012 is \$0 as the employer contribution for the three retirees is carried on the Hospital's financials. The pay-as-you-go expense includes the medical and dental claims, administration expenses, and implicit subsidy and is net of any retiree contributions.

Actuarial Methods and Assumptions. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities (AALs) and the actuarial value of assets. The actuarial method used is the Unit Credit method, as the Unit Credit method provides a logical correlation between accruing and expensing of retirees benefits.

A 4.5% annual discount rate was used assuming the Hospital will fund the postemployment benefit on a pay-as-you-go basis. For an unfunded plan, the investment return assumption is based on the expected return on employer assets, which generally consist of short-term liquid investments.

NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011**

NOTE 12. OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

The July 1, 2011 actuarial valuation considers an annual healthcare cost trend on a select and ultimate basis: medical benefits at select (10.0%) and ultimate (5%), dental benefits at select (5%) and ultimate (5%). Select rates are reduced 0.5% each year until reaching the ultimate rate. The unfunded actuarial accrued liability (UAAL) is amortized over the maximum acceptable period of 30 years. It is calculated assuming a level percentage of projected payroll, with a 3.5% per annum salary increase.

Annual retirement probabilities and the rate of withdrawal for reasons other than death and retirement have been determined based on the New Mexico Educational Retirement Board Actuarial Valuation as of June 30, 2011. It is assumed that 30% of all eligible retirees participate in the retiree benefit program, for retirees under 65 and 5% for retirees age 65 and over.

The following changes in assumptions have occurred since the valuation date of July 1, 2009. These assumptions include both the Hospital and the Center as reported at the valuation date of July 1, 2011. The prior valuations were based upon the NMERB assumptions, however, when comparing the actual number of retirements to the expected retirements it was found that hospital employees do not retire as early as the NMERB assumptions would suggest. The NMERB was adjusted to reflect the Hospital's experience rate. The impact of this adjustment was a reduction totaled \$2.8 million of which \$246,000 was allocated to the Center in the AAL. Another factor impacting the reduction in AAL was that the per capita claim cost did not increase as much as expected, thus causing a slower rate of increase in retiree contributions resulting in a net reduction in AAL totaled approximately \$950,000 of which \$67,000 was allocated to the Center. Final key factors lowering the AAL are the valuation of the explicit subsidy and updated demographic information. The Hospital provides two months of subsidy rather than one year as assumed in the valuation dated July 1, 2009. These factors reduced the AAL by another \$800,000.

Annual OPEB Cost and Net OPEB Obligation. The annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a 30-year period.

NOTES TO FINANCIAL STATEMENTS
June 30, 2012 and 2011

NOTE 12. OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

The Hospital's postemployment benefit plan includes employees from the Center. The OPEB cost and net OPEB obligation (NOO) were calculated and allocated to each reporting entity based on the Hospital's and Center's employee data as of June 30, 2011. The allocation is as follows: the Hospital – 93% and the Center – 7%. The OPEB cost and NOO information presented below are the Center's calculated portion.

The NOO is the cumulative difference between the ARC and the employer's contribution to the plan. The Center's NOO for the fiscal years ended 2012 and 2011 is equal to \$499,125 and \$620,270, respectively, which was determined based on the applicable FTE of the entity as of June 30, 2012. The plan is funded on a pay-as-you-go basis; the NOO follows as of June 30:

	<u>2012</u> <u>Unfunded</u>	<u>2011</u> <u>Unfunded</u>
NOO – beginning of year	\$ 620,270	374,270
ARC	128,443	245,440
Interest on prior year NOO	37,811	3,760
Adjustment to ARC	<u>(41,399)</u>	<u>(3,200)</u>
Annual OPEB cost	124,855	246,000
Employer contributions	<u>-</u>	<u>-</u>
Increase in NOO	124,855	246,000
Adjustment to 2011 estimate	<u>(246,001)</u>	<u>-</u>
NOO – end of year	<u>\$ 499,124</u>	<u>620,270</u>

The annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the NOO are as follows:

<u>Fiscal Year Ended</u>	<u>Annual</u> <u>OPEB</u> <u>Cost</u>	<u>Percentage of</u> <u>Annual OPEB</u> <u>Cost</u> <u>Contributed</u>	<u>Net OPEB</u> <u>Obligation</u>
June 30, 2012	\$ 124,855	—%	\$ 499,124
June 30, 2011	246,000	—	620,270

 NOTES TO FINANCIAL STATEMENTS
 June 30, 2012 and 2011

NOTE 12. OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

Funding Status and Progress. As of July 1, 2011, the most recent actuarial valuation date, the plan was not funded. The plan's actuarial accrued liability (AAL) (the present value of all future expected postretirement medical payments and administrative cost which are attributable to past service) for the Center is \$187,000 and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$187,000. The UAAL is applicable to all reporting entities based on the percentage noted above.

	Unit Credit Method Unfunded Plan June 30, 2010
AAL	\$ 187,000
Actuarial value of plan assets	—
UAAL	187,000
Funded ratio (actuarial value of plan assets/AAL)	—%
Covered payroll (active plan members)	\$ 18,353,770
UAAL as a percentage of covered payroll	1.00%

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, current and future retirees and their dependents, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the ARCs of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress (Schedule 2), presented as required supplementary information following the notes to the financial statement, presents information about the actuarial value of plan assets relative to the AALs for benefits.

NOTE 13. COMMITMENTS

The Center has operating leases, primarily for office space. Rental expenses under operating leases amounted to approximately \$280,000 and \$257,000 in 2012 and 2011, respectively.

Future minimum lease commitments for operating leases for the years subsequent to June 30, 2012 under noncancelable operating leases and memorandums of understanding are as follows:

	<u>Amount</u>
Fiscal year:	
2013	\$ 230,180
2014	18,475
2015	<u>10,230</u>
	<u>\$ 258,885</u>

COMPARISON OF BUDGETED AND ACTUAL REVENUES AND EXPENSES
Year Ended June 30, 2012

Schedule 1

	Budgeted (Original)	Budgeted (Final)	Actual	Budget Variance
Operating revenues				
Net patient service	\$ 28,665,492	28,408,717	27,462,694	(946,023)
Other operating revenues	3,143,793	3,143,795	3,367,021	223,226
Total operating revenues	31,809,285	31,552,512	30,829,715	(722,797)
Operating expenses	(48,703,586)	(48,481,878)	(49,381,288)	(899,410)
Operating loss	(16,894,301)	(16,929,366)	(18,551,573)	(1,622,207)
Nonoperating revenues other revenues	16,898,417	16,898,417	18,614,729	1,716,312
(Decrease) increase in net assets	\$ 4,116	(30,949)	63,156	94,105

Note A: The Center prepares a budget for each year, using the accrual basis of accounting, which is subject to approval by the Board of Trustees and the UNM Board of Regents. The amount budgeted for the operations is included in the UNM budget and submitted to the New Mexico Commission on Higher Education for approval. All revisions to the approved budget must be approved by the parties included in the original budget process, and such revisions are made at the total revenue and expense level. The budget is controlled at the major administrative functional area. There is no carryover of budgeted amounts from one year to the next.

**Report of Independent Auditors on Internal Control
Over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements
In Accordance With *Government Auditing Standards***

The University of New Mexico Health Sciences Center
Board of Trustees and
Mr. Hector Balderas, New Mexico State Auditor

We have audited the financial statements of the UNM Behavioral Operations (the Center) and the budgetary comparison presented as supplementary information as of and for the year ended June 30, 2012, and have issued our report thereon dated November 2, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the Center is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Center's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Center's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Center's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

The University of New Mexico Health Sciences Center
Board of Trustees and
Mr. Hector Balderas, New Mexico State Auditor

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Center's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Trustees, the Finance and Audit Committee, management, the New Mexico State Auditor, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

EXIT CONFERENCE
Year Ended June 30, 2012**

The Center's management prepared the financial statements and is responsible for the contents.

An exit conference was conducted on October 25, 2012 with the Finance and Audit Committee of the Board of Trustees and members of the Center's management. During this meeting, the contents of this report were discussed with the following committee members, management personnel, and Moss Adams LLP representatives present:

Steve McKernan	Chief Executive Officer
Ella Watt	Chief Financial Officer
Michelle Coons	Chair, Finance and Audit Committee
Jerry Geist	Member, Finance and Audit Committee
Roxane Bly	Member, Finance and Audit Committee
Michael Olguin	Member, Finance and Audit Committee
Manu Patel	Director, Internal Audit, UNM
JoAnn Woolrich	Executive Director, Compliance and Internal Audit
Jim Pendergast	Administrator, Human Resources
Shawna Gonzales	Executive Director of Finance/Controller
Sandra Long Mendoza	Finance Director
Roberta Reinhardt	Finance Director
Pauline Romero	Finance Director
Brandon Fryar	Engagement Partner, Moss Adams LLP
Purvi Mody	Senior Manager, Moss Adams LLP
